Chapter 811 A Young Man's Oath

The military doctor knew that this was a serious matter and did not dare to delay. Just as he was about to turn around to inform the higher-ups, the door was pushed open.

A strong questioning voice was heard. "Who are you? How did you get in?"

"Director Zhou, they might be from Sunshine Pharmaceuticals. Are they here to destroy the evidence?" Dong Yong, the man in the white coat who slandered Song Jia, said suspiciously.

Qin Xi looked at Director Zhou and suddenly smiled coldly. "Zhou Huaimin? Have you forgotten about the original intention of why you started your career?"

With a buzz, Director Zhou's body swayed, and he looked in a daze. His mind seemed to have been hit by a heavy blow, and he froze. Memories instantly surfaced in his mind.

A passionate young man in patched clothes stood under the blooming osmanthus tree with his fists clenched. He looked into the distance and swore.

"I, Zhou Huaimin, must make a name for myself and help more people get out of poverty. I want the people to have food to eat and clothes to wear. I want the children to be able to go to school..."

Zhou Huaimin seemed to have fallen into some kind of memory. He seemed to have seen the entire process of him accepting bribes, bullying the common people, and finally being jailed and dying in a cold cell.

His face instantly turned pale, and the cold sweat on his forehead flowed down. He staggered two steps back and was quickly supported by his subordinate.

He raised his hand to his chest and panted heavily. He looked at Qin Xi in disbelief and pointed a trembling finger at her. "Do you know me?"

Then, his eyes widened. "No, you must have done something to me. Otherwise, I... I..."

"Otherwise, you wouldn't have remembered the oath you made when you were young, right?"

Qin Xi sneered. She had indeed made him recall the past, but so what? He was the one who made the oath and the one who broke it. What she did was just to remind him of the past and the oath he had once made!

"Zhou Huaimin, when you changed your name, did you think about today?"

Zhou Huaimin was shocked. He closed his eyes and smiled bitterly. "If you didn't mention it, I would really have forgotten about it."

Moreover, he would have forgotten about it completely.

His eyes were filled with regret as he slowly looked at Dong Yong and said in a hoarse voice, "I'm sorry, I won't get involved in your matter. You can settle it yourself!"

Just as he was about to leave with his subordinates, Dong Yong's expression changed drastically. He grabbed Director Zhou's arm and leaned closer to him. He lowered his voice and threatened, "Director

Zhou, you have to think carefully. If you reject KangMao, there will be very serious consequences, and this consequence... is something you can't afford."

Zhou Huaimin grinned. "I'll resign soon. Do you think I still care about the consequences?"

"...You!" Dong Yong was stunned.

Zhou Huaimin patted his shoulder expressionlessly. "I advise you to turn yourself in, or you'll fall into an abyss."

With that, he shook off Dong Yong's hand and left without hesitation.

His back looked lonely, as if he had aged a lot overnight.

Dong Yong gritted his teeth and glared at Qin Xi. "Don't be too arrogant! I know you're from Sunshine Pharmaceuticals. Are you here to destroy the evidence? Hmph, let me tell you, none of you can leave here today!"

"What an arrogant tone. I want to see who has the guts to say something that even I don't dare to say!"

Chapter 812 Gu Worm

Hearing this, the military doctor trembled and quickly stood up straight, his face filled with excitement.

"Our leader is here. He's here!"

A middle-aged man with sharp eyebrows and deep facial features appeared at the door.

He was dressed in an olive-green formal suit. It was well-ironed, and even his pants were neat and tidy. His aura was cold and his eyes were sharp, like a sword, making people not dare to look him in the eyes.

Of course, except Qin Xi.

"Chief, why are you here?"

When the military doctor saw who it was, he was stunned. Then he felt that the question was really stupid because it was him who contacted the chief.

"Aren't you the one who asked me to come? Who dares to kick up a fuss at this juncture?"

Du Zhentao's tone was neither fast nor slow, but it gave people pressure. His sharp eyes slowly turned to Dong Yong. "Who are you to KangMao Pharmaceuticals?"

Cold sweat broke out on Dong Yong's forehead. Although he did not know who the man in front of him was, looking at the stars on his shoulder, he swallowed nervously.

He quickly replied with a smile, "I, I'm a small manager of KangMao's sales department. May I know who you are..."

"Go, call the person-in-charge of your department over. I want to ask how Sunshine Pharmaceuticals is committing a crime. I can't even find any illegal substance in their medicine. How did you do it?"

Du Zhentao's voice was deep and serious. If one looked closely, they could even see the burning anger in his eyes.

Dong Yong panicked and felt that he was in trouble. He quickly smiled awkwardly and said, "I, I'll go right away. Wait a moment. I'll go right away..."

With that, he scurried away.

At this moment, the military doctor went forward and introduced Qin Xi to the leader. "Chief, this is Doctor Qin, whom I mentioned to you. Although she's young, her medical skills are very superb. She's even better than Gao Lin in our army!"

"Oh? She's even better than Gao Lin?"

Du Zhentao looked at Qin Xi in surprise.

He knew that Gao Lin was from a Chinese medicine family. The Gao family also had Gao Hui ren who was reputed to be one of the best in Chinese medicine in the country. However, Qin Xi was actually better than Gao Lin?

"Doctor Qin, this is our..."

Just as the military doctor was about to introduce, Qin Xi interrupted with a serious expression, "Now is not the time to talk about this. Chief Du, Cui Xiaoxiao's condition is very dangerous. I have to remove the Gu worm from her body immediately. Otherwise, she won't live past tonight!"

"What Gu worm?" Du Zhentao frowned slightly, not understanding what Qin Xi was talking about.

Qin Xi said word by word, "It's a worm that eats people away."

Du Haitao's expression changed drastically, and his eyes suddenly became extremely sharp. "Are you sure it's caused by a Gu worm and not by other medicine?"

Qin Xi did not speak. Instead, she turned around and began to get the Gu worm out of Cui Xiaoxiao. She circled Cui Xiaoxiao's forehead with her thumb and index finger and made a few simple hand seals. Then, she took out an Ice Soul Silver Needles and sealed all the acupoints on her body to prevent the Gu worm from escaping.

Then, with a flick of her finger, two Ice Soul Silver Needles landed accurately in her body.

Du Zhentao wanted to stop her, but just as he took a step forward, he was stopped by the military doctor. "Don't be anxious. Since Doctor Qin is doing this, she must have her reasons. Besides... Apart from trusting her, there's no other way."

Chapter 813 Spice

Not long after, with a puff, a squirming worm was spat out. Yes, it was spat out.

Qin Xi used the Mystic True Qi to force it out. Otherwise, the Gu worm in Cui Xiaoxiao's body would adhere to her flesh and blood, refusing to come out.

Only this method could force it out.

The military doctor came to the struggling Gu worm and took a closer look. "So this is a Gu worm? It's no different from an ordinary worm!"

As he spoke, he wanted to touch it with his hand.

Qin Xi said faintly, "If you don't want to be like Cui Xiaoxiao, you'd better stomp it to death!"

The military doctor instantly retracted his hand and quickly took two steps back. He looked at the squirming worm on the ground in fear. "Is this thing that ferocious?"

Qin Xi put away the silver needles and replied calmly, "You can try!"

The military doctor's face turned pale and he shook his head like a rattle-drum. "I was just kidding!"

He stretched out his foot and stepped on the Gu worm, smashing it into paste. Red and grainy things splattered everywhere.

"Ew ~ What's this? It's so disgusting!"

It was not that he was being squeamish, but not only did this thing look disgusting, but the smell it emitted was also very strong, making his stomach churn.

Qin Xi took out a pill and opened Cui Xiaoxiao's mouth. She stuffed the pill into Cui Xiaoxiao's mouth and it melted.

"The Gu worm eats human organs. Fortunately, it was discovered early. Otherwise, even a god wouldn't be able to save her."

Seeing her skillful control of the acupuncture needles, Du Zhentao no longer doubted Qin Xi. However, when he looked at the dead Gu worm on the ground, his expression was extremely solemn and ugly.

"I didn't expect someone to use this evil thing. It's really horrendous."

Qin Xi said with a smile, "What's so strange about that? I've encountered a few people who used Gu worms. Not only did they use it, but they also used it in a despicable way!"

Du Zhentao's face darkened, and his aura was rising steadily. He tried his best to suppress his temper and asked through gritted teeth, "Doctor Qin, what do you mean?"

Qin Xi told him everything about Elder Wang and his archeological team getting infected with the Gu worms as well as Fu Sheng's mother, who might be the one behind it.

The more Du Zhentao listened, the angrier he became. In the end, his eyes looked like that of a wolf's, and the temperature in the surroundings plummeted. The military doctor was terrified and felt like he was in an icehouse.

"Outrageous, absolutely outrageous..."

He took a few deep breaths to calm down. He looked at Qin Xi and said in an apologetic tone. "I'm really sorry. I was too excited just now and couldn't control my emotions."

Qin Xi thought for a moment and said, "Although the Gu worms are dangerous, they're not omnipotent. If you want a solution, it's actually very simple."

"Oh? Doctor Qin, do you have a way to kill these Gu worms?" Du Zhentao was overjoyed and asked impatiently.

"It's just a small worm. I have a spice. As long as the spice is ignited, no matter what Gu worm it is, it will be dead. If you want it, I can give you a few packets for free," Qin Xi said.

Du Zhentao was delighted. "Thank you then, Doctor Qin."

Chapter 814 Investigation

In Liu Jingye's office in the KangMao Sales Department.

At this moment, Liu Jingye was flirting with his girlfriend. Just as he was about to unbuckle the belt on his waist, the office door was pushed open. An anxious voice was heard. "Not good, Manager Liu, not good! Something big happened!"

Liu Jingye's face darkened, and the arousal instantly disappeared. He looked at Dong Yong, who had rushed in, and his assistant, who looked a little nervous. The assistant said, "Manager Liu, I'm sorry. I couldn't stop him."

"Dong Yong, what's the hurry?" Liu Jingye waved at his assistant and asked Dong Yong, who was at a loss. His voice was filled with displeasure at his rudeness.

Dong Yong wiped the cold sweat off his forehead and panted heavily. "Director Zhou, Director Zhou has betrayed us. I think... someone found out what we did!"

Liu Jingye suppressed his anger and said, "That's it?"

Seeing that he did not realize the seriousness of the matter, Dong Yong stomped his feet anxiously. "Manager Liu, we're in trouble. The people who know about this are from the military, and they're all big shots. If they find out that we have used that thing, I, you, and the higher-ups will be finished!"

"We're doomed, Manager Liu!" Dong Yong stammered. The more he thought about it, the more afraid he became. His face was pale, and his legs were so weak that he could barely stand.

Liu Jingye's expression changed drastically. He suddenly stood up, and the chair behind him was overturned. "What? What did you say? Who knows about what we did?"

Without waiting for Dong Yong to speak, Liu Jingye seemed to have thought of something. His expression relaxed slightly and he said calmly, "Forget it, this is not a big deal. When a suitable opportunity comes, take out that thing, and then this matter will be covered up."

"But, but..."

Dong Yong was about to say something when Liu Jingye interrupted impatiently, "No buts. That thing will never be found out. As long as it can't be found out, we are safe."

Dong Yong did not think so. He felt that Qin Xi was a very strange person. He panicked and had a bad feeling, making it impossible for him to calm down. However, because of Liu Jingye's warning, he could only suppress his anxiety and say, "Manager Liu, you have to show up and handle it in person."

Half an hour later, Liu Jingye and Dong Yong arrived at a temporary meeting room in a certain district. The two of them thought that Du Zhentao was the only one in the meeting room.

Unexpectedly, after the two of them entered the room, it was filled with high-ranking officials. As if realizing something, panic and nervousness appeared in their eyes at the same time.

“Liu Jingye?”

At this moment, a guard walked forward and looked at Liu Jingye. Liu Jingye was about to say yes when he heard the guard report all the details of his life.

“Liu Jingye, male, 45 years old, born in Gazi Village, Huiyang. Your parents are farmers and you have seven sisters. You’re the youngest. You’ve been doted on by your family since you were young and have developed an arrogant personality.

When you were four years old, you peed into your grandfather’s wine pot. When you were five years old, you lit a fire at home, causing your second and third sisters to die in a sea of fire. When you were seven years old, you were beaten up for stealing. When you were nine years old...

At the age of 15, you slept with the village chief’s daughter. At the age of 17, you hung out with the village chief’s wife. At the age of 21, you went overseas to do business and was accidentally involved in the mafia. You even injured a child of a rich family and were almost dismembered. Later on, you were saved by someone and by a freak combination of factors, you met a person called Ye Shangrong.

When you were 25 years old, you did a lot of illegal things for Ye Shangrong, including...”

Chapter 815 Cosmeceutical Products

Liu Jingye was dumbfounded!

He felt the world spinning. His head was buzzing, his face was pale, and his lips were trembling. He wanted to shout that he was wronged, but she had brought out all the evidence. What else could he say?

They even listed out how many people he had killed with Gu worms and how many sins they had committed.

After saying that, he began to talk about Dong Yong’s life and it was very detailed. They even investigated the matter of him peeping at his sister taking a shower. The two of them were so frightened that they knelt on the ground with their heads lowered, not knowing what to do.

“Xiao Zhang, get stools to let them sit. Don’t let others think that we’re abusing them.” Du Zhentao looked at Liu Jingye and Dong Yong coldly.

The guard, Xiao Zhang, immediately replied, “Yes!”

The two of them were pressed to sit on the stool. The cold sweat on their foreheads kept falling like beans, and they felt like they were sitting on pins and needles.

Du Zhentao stared at them like an eagle, exuding a terrifying pressure and power. “You’re quite bold to use the Gu worm to do evil and harm the innocent. Now that you’ve been caught red-handed, what else do you have to explain?”

Liu Jingye shook his head. “No, no!”

Seeing that Liu Jingye admitted so quickly, Dong Yong also shook his head. “No, no!”

“Very good. Now, I’ll give you two choices. One, accept the punishment and die.”

Before Du Zhentao could finish, the two of them shouted in unison, “The second one, we’ll choose the second one!”

Du Zhentao was speechless.

“The second one is that we need you to cooperate with us to find the person who raised the Gu worm behind the scenes. Are you willing to do that?”

Liu Jingye and Dong Yong were both scared out of their wits. “Yes, yes. As long as we don’t have to die, we’ll do anything.”

While they were planning how to catch the mastermind, Qin Xi had already settled the problems Sunshine Pharmaceutical were facing. Song Jia and the other staff had also returned.

Through this incident, Sunshine Pharmaceuticals became more popular. After realizing the effectiveness and quality of Sunshine Pharmaceuticals medicines, be it the patients, the major hospitals, or the pharmacies, everyone rushed to Sunshine Pharmaceuticals to purchase medicines.

Moreover, because of this incident, Sunshine Pharmaceuticals’ reputation soared. Not only was it more famous in the medical world, but even advertisers and the media swarmed over to discuss cooperation.

After the earthquake, Qin Xi’s stomach gradually became bigger and rounder than usual.

At the end of June, there was news from the capital that the new cosmeceutical products developed by Ye Zhan’s cosmetics company suddenly became popular.

The cosmeceutical products were divided into three grades: ordinary, advanced, and noble.

The effect of ordinary cosmeceutical products was relatively worse, but it was very affordable. Its main target was university students and housewives.

The effect of advanced products was more than twice as good as that of ordinary ones. There were many types, and the effects were more comprehensive. Be it whitening, spot removal, wrinkle removal, acne removal, scar removal, and so on...

Chapter 816 Hua Yu Corporation

The advanced products also covered some common areas such as weight loss, scented essential oil, hairdressing, hair extension, hair loss prevention, and dandruff removal.

The noble products were the most effective. Within just three days of using it, you could feel that your skin had gotten much whiter and tender than before. Even the fine lines and spots left behind by time would disappear in a short period of time.

Almost instantly, the cosmeceutical products captured the attention of the rich ladies and madams of the various families in the capital.

Of course, this was all. What drove women crazy the most was the scar removal ointment and the Fitness Pill. The scar removal ointment could permanently remove any scar.

Therefore, scar removal ointment was second in sales among all products.

The first was naturally the Fitness Pill.

Everyone wanted to be beautiful and in shape. The Fitness Pill was undoubtedly what women dreamed of the most. Even the fat middle-aged men wanted to use the Fitness Pill to return to their peak years.

Therefore, cosmeceutical products became very popular.

As the person-in-charge, Ye Zhan was extremely busy every day. Orders came like a flood, and the companies that asked for cooperation lined up outside his office.

After a day, his face was almost stiff from smiling.

On the third day, Ye Zhan finally saw the person from the Han family's Hua Yu Corporation. It was Han Fei, Han Cang's direct grandson and the vice president of the Hua Yu Corporation.

Here, more about Hua Yu Cooperation had to be mentioned.

Hua Yu was one of the top real estate companies in the country. It specialized in construction and had a lot of capital. It covered a wide range of fields. In recent years, it had also dabbled in hotels, restaurants, entertainment, shops, bars, and even electronics, chemicals, technology, shipping, aviation, and so on.

However, in the past two years, it had also entered cosmetics. Now, there were many big cosmetics brands under Hua Yu Corporation and were very popular among women.

No one expected that a company selling cosmeceutical products would suddenly appear. At first, Han Fei didn't think highly of it. After all, cosmeceutical products were very likely to have side effects.

Just to know more about his opponent, he bought back some of the cosmeceutical products and asked a professional to test them.

The result shocked him because the effect of these cosmeceutical products was simply beyond his expectations, especially the noble grade. Not only could it completely eliminate any flaws in the skin, but it also had excellent beauty nourishment and recovery effects. Just these two points alone shocked him.

Although Ye Zhan didn't know Han Fei, he had heard from Su Lei a few times that it was very difficult for anyone to see Han Fei in person.

Now, he had become the person-in-charge of one of the three big cosmetics companies in the capital, the Twilight Cosmetics.

He also saw Han Fei, one of the legendary four young masters of the capital.

Han Fei had good facial features and was handsome and elegant. He was wearing a well-ironed suit and exuded a noble aura. He gave people the impression that he was not to be trifled with.

He stood there like a painting, making people want to linger their eyes on him.

The two of them met in the meeting room.

Because Ye Zhan had been cultivating recently, he exuded an extraordinary aura that was not inferior to Han Fei's. This impressed Han Fei.

Chapter 817 Friendly Cooperation

"I didn't expect CEO Ye to be so young. I didn't believe it before, but now that I see you in person, I have to believe it."

Han Fei said with a smile, "It's really impressive that under your management, a new cosmetic company can become one of the three biggest cosmetic companies in the capital."

Ye Zhan smiled and brought a cup of hot tea to Han Fei. "CEO Han, you flatter me. I was just lucky."

The two of them went straight to the point after exchanging some pleasantries.

"CEO Ye, you should know that Hua Yu Corporation has a lot of influence overseas. Our cosmetics industry has just started. It's not bad in the domestic market, but it's not doing well in the overseas market. I want to cooperate with you in developing the overseas market. After all, two tigers can't coexist in the same mountain. In the capital, Twilight Cosmetics has completely occupied the market. If I want to compete with you, I have to develop better cosmetic products than your cosmeceutical products."

Han Fei shrugged. "Unfortunately, our team can't do it."

Ye Zhan didn't expect Han Fei to be so magnanimous. Usually, when two companies competed, they would scheme against each other. However, Han Fei did the opposite and said that he was here to ask for cooperation.

Of course, he also knew that Han Fei had no choice but to cooperate with him, but Han Fei didn't use any dirty tricks, which left a good impression on Ye Zhan.

Ye Zhan was not a trusting person, and this was the first time he saw Han Fei, but for some reason, he trusted him. It was probably because of the relationship between his boss and the Han family!

Throughout this cooperation, they gradually grew familiar with each other. Occasionally, Han Fei would invite Ye Zhan to some events or banquets, and Ye Zhan would gladly go. As a result, Ye Zhan's name began to spread in the capital.

**

Ye Zhan reported everything that had happened recently to Qin Xi in detail. Qin Xi did not say anything about it. She only told him to be careful and feel free to ask her if he needed help.

Han Shi hugged Qin Xi from behind and touched her slightly bulging stomach. He said, "It's been almost four months. Why is it still so small?"

"It's still early!" Qin Xi smiled gently and stroked her stomach. "When it's five months old, my stomach will be like a balloon. It won't be convenient for me to do anything after that."

"You're already pregnant. Let others do it?" Han Shi kissed the side of her face. "Listen to me. Stay at home or go out for a walk. Don't stay in the clinic all day."

Qin Xi pouted. "You know that I can't stay idle. If I don't do something, I'll be bored to death."

Han Shi thought for a moment and said, "You can go shopping with your friends, eat, and have fun. If you don't like it, come to the company with me. I'll be in my office. Accompany me!"

Qin Xi rolled her eyes. "Forget it, I'm not going. I'll go to the construction site to take a look. I wonder how the progress is over there."

The construction site she was talking about was the shopping mall.

When Qin Xi was caught by Jiang Yi, the project had just started for more than a month. Now that more than three months had passed, it would probably be completed soon, so she suddenly wanted to go and take a look.

Chapter 818 Nurturing A Good Friend

The next day, after breakfast, Blood Stealer drove Qin Xi to the shopping mall.

The car did not approach the construction site. Instead, it stopped on the road opposite the construction site. Seeing that more than half of the project had been completed, Blood Stealer sighed with emotion.

"Once the shopping mall is opened, it will be lively here!" Moreover, once the shopping mall was opened, it would definitely drive the economic development of the surrounding areas. In less than two years, the price of land here would probably multiply.

Qin Xi looked at the barren land around the unfinished shopping mall and shook her head helplessly. "Society is developing. When the real estate market rises in the future, the housing price will be crazy! Normal people would have to work like a dog just to earn a small flat."

Blood Stealer frowned. "That can't be. I think the current housing price is still acceptable!"

"That's because you're still in this era."

Qin Xi strode towards the construction site and said, "In the future, technology will transform our lives. Although our technology is backward now, it won't be long before we have a huge technological reform. Television, fridge, washing machine, and so on will all become common appliances in our lives. In the future, there will be cell phones, computers, smart bots, and the Internet."

Technological development was beneficial to humans, but it also had its disadvantages. When the society was highly developed, social resources would be unfairly distributed.

This would create a serious social gap. Those who were rich were really rich, while those who were poor were really poor. Some people spent hundreds of thousands on food, while others only earned a thousand Yuan a month.

Qin Xi knew very well that in the next ten years or so, everything in this society would change, perhaps for the worse.

Therefore, she cherished the time she had now. She felt that the air she breathed was fresh and free from the shackles of mortgages and loans.

Blood Stealer felt that Qin Xi was exaggerating, especially the smart bot...

Qin Xi did not explain much. The two of them quickly arrived at the construction site. The workers were all working hard, so not many people noticed Blood Stealer and Qin Xi's arrival.

After inspecting, Qin Xi was satisfied. Han Shi had always been in charge of this project. Later on, Han Shi was too busy with work and this project was handed over to Yang Jun.

Yang Jun and Han Shi were considered friends who grew up together. The two of them had a good relationship. Yang Jun was meticulous and righteous, so Han Shi handed this project to him.

Han Shi also had the intention of nurturing his buddy into his right hand man.

Qin Xi thought for a moment and decided to go to Yang Jun to find out more about the situation. Just as she was walking towards Yang Jun's resting room, she saw Yang Jun running out of a makeshift house in a panic from afar. He looked a little anxious, clearly having encountered something urgent.

Blood Stealer frowned. "What's wrong with him? Why is he so flustered?"

Just as he was about to shout, Qin Xi stopped him. "Let's go and take a look."

Chapter 819 Don't Touch Her

Yang Jun did not notice the two people behind him. Instead, he quickly got on his bicycle and rode out of the construction site.

Seeing that the bicycle had gone far, Blood Stealer asked, "Lady Boss, are we still going to follow him?"

Qin Xi narrowed her eyes. "Yes, go and drive."

When she caught a glimpse of Yang Jun's face, she vaguely felt that Yang Jun was in trouble. Yang Jun was Stone's buddy after all. There was no reason for Qin Xi to not help.

Blood Stealer nodded and quickly drove. He followed behind Yang Jun and saw him park the bicycle outside a small forest. This was already the suburbs and there were almost no people here. What was he doing here?

Seeing him run into the forest, Blood Stealer immediately parked the car. The two of them got out of the car and quickly entered the forest.

"Yang Jun, run. Don't worry about me. There are many of them. You won't be able to fight them alone!"

A delicate-looking woman was tied to a tree. When she saw that Yang Jun was really here, she was surprised and happy. Then, she was afraid that she would implicate him and shouted anxiously.

Seeing that the woman he loved was not hurt, Yang Jun heaved a sigh of relief and shouted, "Xiao Fang, I'm here. Don't worry, I'll bring you back. Don't be afraid!"

"Tsk, ts, ts. How romantic. Unfortunately, if you don't give me an explanation today, none of you can escape!"

As they spoke, five or six men surrounded the two of them with clubs in their hands and looked at them sinisterly.

Xiao Fang cried. She looked at the burly man in the lead and begged, "Brother Xiong, this has nothing to do with him. My father owes you the money. I'll pay it back. Please let him go. I promise that when I have money, I'll definitely pay you back."

"Pfft, when you have money? Do I have to wait for god knows how long? Don't worry, your father has already used you to repay his debt. In the future, you'll be my money-making machine. As for this pretty boy, he'll be thrown into the coal mine to work for me."

The man called Brother Xiong said with a sneer. Then, he waved his hand and got someone to go forward to catch Yang Jun.

Yang Jun panicked and roared, "Brother Xiong, I'll pay back the money for her. As long as you let Xiao Fang go, I'll give you the money."

Brother Xiong walked to Xiao Fang's side. He pinched Xiao Fang's face and looked at Yang Jun with an evil smile. "Her father owes me 15,000 yuan. Do you have 15,000 yuan?"

Fifteen thousand?

Yang Jun's face immediately froze.

Not to mention 15,000 yuan, he did not even have 150 yuan. This amount was an astronomical figure to him. How was he supposed to fork out so much money?

"Why? You're the one who said you'll pay me back, and now you're the one who's playing deaf and dumb. Are you f*cking kidding me?"

Brother Xiong glared at Yang Jun fiercely and gave the lackeys around him a look. The lackeys understood and went up to give Yang Jun a few punches.

Yang Jun was caught off guard and was hit a few times. He immediately fell to the ground and gasped in pain.

Xiao Fang looked at Yang Jun, who was lying on the ground, and her tears welled up even more. She wanted to break free, but it was useless. Her chin was pinched, and she could only make muffled sounds. She shouted at Yang Jun, "Yang Jun, don't worry about me. Run..."

When Yang Jun heard Xiao Fang's voice, he struggled to get up from the ground. He gritted his teeth and stared at Brother Xiong. "Brother Xiong, 15,000 yuan it is. Give me a few days. Please let Xiao Fang go!"

Brother Xiong grinned and touched Xiao Fang's face. "It's not 15,000 yuan now. The price has increased. It's 20,000 yuan now! If you can't take out the money, my buddies and I will sleep with this delicate girl now."

Yang Jun's face turned livid and his body trembled with anger. However, he could only grit his teeth and say, "I'll do as you said. Don't touch her..."

Chapter 820 Hit Him

Qin Xi and Blood Stealer squatted on the tree and saw the scene below clearly. They sighed and shook their heads.

"Yang Jun is too easy to fool. These people are obviously scamming him, including that woman. None of them are good. Can't he tell?" Blood Stealer sighed.

"Those involved cannot see as clearly as those outside."

Qin Xi said calmly, "That woman is a professional scammer. These people are all in cahoots. It seems that Yang Jun was set up."

Blood Stealer scratched his head and asked in confusion, "That's not right. Yang Jun is just a poor kid. What's the point of setting him up?"

Qin Xi glanced at him. "Have you forgotten that he's not an ordinary poor boy now? He's now in charge of the shopping mall project."

The corners of Blood Stealer's mouth twitched. "Isn't he still a poor boy?"

"He's poor, but we are not poor. Embezzling 20,000 yuan from the project funds is a piece of cake. They're not targeting Yang Jun but the shopping mall."

"What do you mean? Don't tell me they're eyeing our territory!"

Qin Xi looked at the people below with a sneer. "There is nothing these people won't do to get money."

Blood Stealer nodded. "Then what should we do now? Should we go down and teach them a lesson?"

Qin Xi shook her head and looked at Yang Jun. "Let's wait and see. I want to see what Yang Jun will do."

Blood Stealer nodded and continued to sit and watch the show.

Under the tree.

Yang Jun endured the pain and continued to argue with Brother Xiong. "Brother Xiong, give me a few days. I'll think of a way to pay you back."

Brother Xiong sneered and spat on the ground. He let go of Xiao Fang's chin and threatened fiercely, "Kid, don't blame me for not reminding you. Today, it's 20,000 yuan, but tomorrow, it might not be this number. If you can't take out the money now, I'll have no choice but to sell your girl and send you to the coal mine to earn money for me."

Yang Jun's face was pale. "Brother Xiong, I can't fork out the money yet. Give me some time and I'll go and raise the money. I promise."

Before he could finish, a boy beside him raised his club and smashed Yang Jun's leg. Yang Jun groaned and knelt on the ground, cold sweat streaming down his forehead.

"Yang Jun, Yang Jun, are you alright? Don't scare me. Yang Jun, don't worry about me. Leave. Please!" Xiao Fang cried at the top of her lungs with a teasing expression.

Yang Jun, who was looking down, did not see Xiao Fang's expression. If he did, he would probably understand what was going on.

Seeing this, Blood Stealer shook his head and sighed. He didn't want such a woman even if she was given to him for free. Yang Jun really had a bad taste.

"Brother Xiong, w-what do you want?"

Yang Jun could tell that the other party did not want to give him a chance to raise money at all. He was probably up to something else.

Brother Xiong was amused. "Kid, you're not stupid! I was waiting for you to say that."

Yang Jun's heart skipped a beat. He suddenly had a bad feeling. As expected, in the next second, Brother Xiong said smugly, "My brothers and I don't have work. It shouldn't be a problem for us to become contractors at your construction site, right?"

"No, definitely not. I can give you the money, but I won't agree to that request." Yang Jun's tone was very firm.

Brother Xiong instructed with a dark face. "Hit him!"
