

Myth Beyond 1171

Chapter 1171 Rise In Power (1)

"You will know it when he comes out later. As for now, all of you should go back first. This place will be restricted for everyone, including you and your father." Shen Ning's voice resounded.

At the same time, a powerful force gushed out, enveloping the entire building and completely blocking everyone from entering.

Yun Qianxue stared at the top of the building, where the ice mist gathered heaviest. She could feel that Yun Lintian was there.

"Big Brother Yun?" Qingqing tilted her head slightly. She was connected with Yun Lintian, and she could feel his current state. It was as though he had entered an enlightening state without moving an inch.

"What happened to him?" Han Bingling glanced at Qingqing in her arms and asked curiously.

Everyone quickly turned to look at Qingqing as she replied. "Big Brother Yun is practicing right now... His strength increases very fast."

As she spoke, she yawned and rubbed her eyes. "Qingqing is sleepy. Can I go back?"

"Practicing?" Han Bingling and the others were surprised. Wasn't this place a library?

"Let's go." Lin Xinyao glanced briefly at the top of the building and pulled Yun Qianxue and the others away.

On the side, Qin Mei hesitated briefly and asked. "Uncle Ning, what about Qiu'er?"

"She's fine. You don't have to worry." Shen Ning's voice resounded.

Qin Mei put the worries in her heart down and said. "Thank you, Uncle Ning."

She then turned to her husband and Shen Shuchun. "Let's go back first."

Shen Mingjun reluctantly nodded and left.

A month passed by very quickly. During this period, the snowfall on Mirage Island didn't reduce in the slightest. With Shen Mingjun coming out to explain, the islanders gradually calmed down and continued their daily life normally.

However, there was naturally a group of people dissatisfied with the change in the weather. With transportation between the island and the outside world becoming increasingly difficult because of the sea beast tide recently, the materials on the island began to deplete and gradually entered a resource shortage state.

Inside the main hall, Shen Mingjun and the other elders discussed the island's current situation. They were trying to solve the resource shortage.

"Actually, this problem is not without a solution." One of the elders, named Shen De, said. He looked at Shen Mingjun and continued. "We should try to borrow the skyship from our guests. From what I know, its speed is several times faster than our skyship. This will solve the problem very quickly."

The other elders immediately nodded in agreement. The skyship was parked behind the manor for a whole month. It would be a waste to leave it dust like this.

Shen Mingjun frowned slightly. In fact, he had a better method to solve it. During this month, Yun Lingwei had personally set up a grand teleporting formation in secret. It had successfully connected to the Northern Continent, Southern Continent, and Central Continent.

He could use the formation to import resources directly. However, he didn't want to reveal it to anyone. At least, not now.

He thought for a moment and said. "Let me ask them first."

Shen De nodded slightly and moved to the next topic. "The sea beast tides have occurred more often in the last two weeks. They have now begun to attack our coastal line. If this continues, I'm afraid we will enter a state of war soon. At that time, the resource shortage problem will surely worsen."

He paused for a moment and said further. "From the news we got, the other continents are facing the same problem as us now. The beast tide often erupts all over the place, and the price of the resources such as formation stones, low-level medicines, and even crops has increased several folds. If we don't hurry up and stockpile them now, it will soon become a fatal problem."

"Moreover, we have no idea how long this upcoming war will last. I suggest that we should aim at least for two hundred years to be safe."

The hall fell silent immediately. Shen De had spoken for everyone already. There was nothing more to add. Everything was up to Shen Mingjun now.

Shen Mingjun thought of the resources Yun Lintian gave him. They were more than enough to nurture more talents for a hundred years. However, he still needed to buy other resources like the formation stones.

After thinking for a moment, he turned to a middle-aged woman beside him. This person was Shen Qian, the clan's treasurer. "How's our current fund?"

"We have a total of thirty billion of the high-grade Profound Stones left. If we want to stockpile resources enough for two hundred years, I don't think it's enough to buy all of them with the current market." Shen Qian replied solemnly.

Shen Mingjun tapped his finger on the table for a while and made a decision. "Bring all the Profound Stones. We will use all of them to buy medicines, formation tones, and necessary rations."

Shen Qian frowned slightly and said. "But..."

Before she could say anything further, Shen Mingjun placed a storage ring on the table and said. "Take a look at it."

Shen Qian subconsciously used her Spiritual Sense to check on the storage ring. In the next moment, her eyes widened in disbelief. "Patriarch, this... Where did you get it from?"

Her reactions immediately aroused everyone's curiosity. They quickly used their Spiritual Sense to sweep over the ring. Soon, their expressions were no different from Shen Qian's.

They had lived for so long, and this was the first time they saw such massive wealth. Several mountains of the best-grade Profound Stones could be seen inside the ring. It should be around ten billion in total.

"It was given by Yun Lintian." Shen Mingjun replied truthfully. "Before coming here, we have made an agreement to form an alliance between us, the Divine Phoenix Palace, the Blazing Sun Palace, the Frozen Moon Palace, the Heavenly Sword Palace, and the Long Clan of the Central Continent. These resources are the benefits."

Shen Qian and the others were shocked. To be able to give out such massive wealth. How rich Yun Lintian was?

"Hmm?" Shen Mingjun suddenly frowned and subconsciously looked outside.

At this moment, the snowfall visibly reduced, and the coldness gradually faded. The sunlight they hadn't seen for so long slowly shone down from the sky. Evidently, the weather was about to change...

Chapter 1172 Rise In Power (2)

However, the sky suddenly turned dark before Shen Mingjun, and the others could comprehend the situation. Black clouds quickly gathered, accompanied by thunder roarings, as if the world was about to end.

"Heavenly Tribulation?" Shen Mingjun was familiar with such a phenomenon.

"That's not right. This aura is too...." On the side, Shen Qian's expression turned solemn. She was an early-level Divine Ascending Tribulation expert herself. The pressure that built up in the sky was entirely different from the one she knew. It was several times scarier.

"World Annihilating Tribulation!?" Shen De blurted out, causing everyone in the hall to petrify on the spot.

According to the legend, once the World Annihilating Tribulation appeared, no one in the radius could possibly survive. Was their Shen Clan going to die today?

"What on earth is going on over there!?" Shen De looked in the library's direction as it seemed to be the center of the tribulation.

During this past month, there was no movement from the library, and Shen Ning's power was too strong, preventing everyone from going closer. Hence, they had no idea what was happening inside.

On the other side of the manor, Yun Qianxue, Han Bingling, Lin Xinyao, Mu Qiuxue, and Yun Lingwei looked at the sky in surprise. If there was anyone familiar with this scene, it must be them.

"Lintian's strength has improved again?" Han Bingling said in astonishment.

Yun Qianxue didn't say anything. Her figure vanished from the place, rushing toward the library.

Seeing this, Han Bingling and the others quickly followed suit.

At this moment, on the top floor of the library building, the ice layers on Yun Lintian's body gradually cracked, releasing ice mists. His fingers slowly moved. Clearly, he was about to regain his mobility after becoming an ice statue for a whole month.

During this period, he had entered a wonderful state, forgetting everything around him and madly absorbing a new source of power that flushed into his body. This power belonged to the mysterious woman on the throne. It was extremely cold and abundant, causing Yun Lintian's profound vein to expand again.

At the same time, his profound strength had improved drastically. From the third level of the Monarch Profound Realm to the peak level in one fell swoop. Another half step would be enough for him to reach the Divine Ascending Tribulation Realm.

Crackle—

All the ice layers on Yun Lintian's body finally shattered into pieces, and he immediately regained consciousness.

Feeling the vigorous power in his body, Yun Lintian's face was full of astonishment. He subconsciously looked toward the throne, and the woman's figure was still there.

"Your profound vein is very strange. I have never seen such a thing before." The woman suddenly spoke. "Although the power I left behind is only one-tenth, it is enough to make one reach the peak of the Divine Ascending Tribulation Realm. However, it could only increase seven levels for you."

Yun Lintian took a deep breath and bowed his head slightly. "Thank you, Senior. I will try my best to live up to Senior's expectation."

Rumble—

All of a sudden, the sky roared, and several purple lightning bolts descended. This scene immediately made Shen Mingjun and the others turn pale. The power inside these lightning bolts could easily destroy them in one go. How were they going to resist it?

However, before the lightning bolts could reach the ground, the woman's incomparably cold voice suddenly echoed throughout the island.

"Scram!"

BOOOOOM!

A powerful force abruptly burst out from the top of the library building, sweeping over the entire sky. All the lightning bolts were blasted away and disappeared completely.

At the same time, the dark clouds in the sky instantly dispersed as if they were running for their lives.

In that split second, the sky returned to its original clear and bright state as if nothing had happened before. This scene immediately dumbfounded everyone below.

Yun Lintian, who had just comprehended the situation, looked at the woman behind the ice curtain in shock. He was aware that she was very strong, but he didn't expect to be to this extent. She could actually chase the Heavenly Tribulation away with just one word!

"Your existence has violated the Heavenly Laws, which is understandable judging by your talent." The woman said calmly. "However, the laws are the laws, after all. It can be violated as long as you have enough strength."

Yun Lintian swallowed in shock. Her words immediately refreshed his knowledge.

"I don't know if your current strength is enough to change the fate of this world." The woman said further. "Unfortunately, my power is limited. I cannot see the further future. I have no way to guide you. You have to rely on yourself for this."

"What Senior gave me is more than enough. As for glimpsing into the future, honestly, I don't believe in such a thing. To me, the future can be changed by the present action. It's not something predictable." Yun Lintian said with a serious expression.

"You're right...." The woman said. "It's time for me to go. Remember, you have to destroy both spatial tunnels completely. There's no other way."

Yun Lintian nodded heavily. "Understood, Senior."

He hesitated briefly and asked. "May I know if Senior is still alive somewhere?"

"Me?" The woman said softly. The coldness in her voice seemed to lessen several degrees as she said further. "I can be alive and dead. It depends on how you look at it."

For some reason, Yun Lintian felt that she was smiling at him.

"Farewell, Yun Lintian." As the woman's voice fell, a cold wind suddenly swept over, and the ice particles madly jumped around before everything gradually disappeared.

Soon, Yun Lintian found himself standing on an empty floor. The ice throne was nowhere to be seen now.

"Wait... How did she know my name?" Yun Lintian suddenly realized this.

From the beginning to the end, he hadn't introduced himself once. How did she know his name?

"What happens? Why did the connection disappear for a whole month? And who are you talking about?" Hongyue's voice suddenly resounded in Yun Lintian's mind.

During this period, she tried her best to contact him, but the connection between the Land of Beyond Heaven and him was somehow blocked by an invisible force she couldn't do anything about.

Yun Lintian returned to his sense and slowly told her about what had just happened.

"A strange woman that can scare the Heavenly Tribulation away?" Hongyue was surprised to hear this.

Chapter 1173 End Of Duty

"Do you know her? A character like her should be very rare, right?" Yun Lintian asked.

"Rare indeed, but not entirely. There are a few people who could do such a feat. The previous Beyond Heaven King is one of them." Hongyue replied. "However, most of them have disappeared for a long time."

She glanced at the empty room that still had a trace of coldness and said further. "Although I didn't see it myself, her residual soul should have been left behind more than five thousand years ago. At that time, her true strength had already reached the Divine Emperor Realm at the very least."

"Despite having that kind of strength, she actually failed to change the so-called fate of this world. Don't you think it's strange?"

Yun Lintian frowned slightly. He didn't think about it earlier as he was immersed in the joy of gaining strength, but now, what Hongyue said made sense. Since she had such power, how could she fail?

"There are two possibilities," Hongyue suddenly said. "One is that her strength at that time is not as powerful as we think, and this residual soul is something she left behind much later. The reason she couldn't interfere with what happened in this world was because of the restriction."

"Take Yun Xia for example. She is a genuine Divine Emperor, but she cannot use her full power here. Otherwise, she will be expelled by the lower plane's laws. At most, she could display the peak of the Divine Foundation Realm's strength. And, of course, she would face the Heavenly Tribulation if she did so. Just like that man from the Earth Temple you faced last time."

"Another possibility lies in the spatial tunnels she talked about. Since she told you that you need to master the spatial laws in order to destroy the tunnels completely. Obviously, there's something more than that behind those tunnels that even the Divine Emperor like her cannot destroy it."

She paused for a moment and said further. "First, that strange repeating event, and now this mysterious woman. I'm really wondering now what kind of secret is hiding in this tiny world."

Yun Lintian nodded slowly and asked. "Didn't you tell me that this world is special? It's not about this?"

Hongyue shook her head. "I didn't mean this."

"Forget it. We will eventually know it later." Yun Lintian put this matter aside and planned to go down. "By the way, how long has it passed?"

"One month," Hongyue replied.

"One month? I thought it was a day." Yun Lintian muttered in surprise and turned around, walking down the stair.

When Yun Lintian arrived at the sixth floor, he saw Shen Liqiu standing there as if she was waiting for him. However, her temperament seemed to change a bit. She had become a little more mature compared to before.

"Your strength... Congratulations." Yun Lintian smiled faintly. Shen Liqiu had finally stepped into the Monarch Profound Realm and already reached the third level.

"I should say that to you." Shen Liqiu could see that Yun Lintian's strength had increased drastically.

Yun Lintian glanced at the crystal ball and asked. "Your great-grandfather?"

"He's gone." Shen Liqiu replied calmly. There was no trace of sadness in her eyes. It seemed she had completely accepted it.

Yun Lintian nodded slightly and said. "We should leave."

"Alright." Shen Liqiu glanced at the crystal ball one last time and followed Yun Lintian behind.

At this moment, Yun Qianxue and the others had already gathered in front of the library building. However, Shen Ning's power was still there. They couldn't enter the building, no matter how they tried.

"Uncle Ning?" Shen Mingjun asked cautiously. He wanted to know how his daughter was right now.

"They are out." Shen Ning's voice fell, and the barrier around the building dispersed.

At the same time, Yun Lintian and Shen Liqiu had already arrived on the first floor.

"Senior." Yun Lintian greeted Shen Ning politely.

Shen Ning smiled and said. "My duty here is done."

He glanced at Shen Liqiu. "You don't have to be bound by the Shen Clan. Just follow your heart."

"Grandpa Ning..." Shen Liqiu was about to say something. Suddenly, Shen Ning's body began to wilt. His vitality left his body at an extremely fast rate.

"This..." Yun Lintian was shocked and quickly sent the vines out, trying to rescue Shen Ning.

However, he saw Shen Ning look at him. "Don't waste your power. I have long ceased to exist... The future is yours. Do your best."

As his voice fell, his eyes drooped slightly, and his wilted body slowly leaned against the chair, motionless.

Yun Lintian opened his mouth and didn't know what to say. He could only look at Shen Ning blankly.

On the side, Shen Liqiu seemed to understand everything. She closed her eyes gently and sighed.

"He has existed until now because of the power of time." Hongyue's voice resounded in Yun Lintian's mind. "His duty is to guard this place and wait for you to come."

Yun Lintian took a deep breath and remained silent.

At this moment, Shen Mingjun and the others walked into the building.

"Uncle Ning?" When Shen Mingjun saw Shen Ning's lifeless body, his face was full of shock, and he quickly arrived by the latter's side.

A moment later, he let out a long sigh and muttered. "No wonder..."

He still remembered the day his grandfather died. Shen Ning didn't even come out of the library to attend the funeral. At that time, he didn't think about it much, but now, it seemed there was something about this place.

Thinking of this, he turned to look at his daughter and asked softly. "Do you know something?"

Shen Liqiu opened her eyes and replied calmly. "Grandpa Ning's lifespan has long been exhausted. The reason he could stay until now was because of forbidden art. He was waiting for Lintian to appear."

She obviously wanted to avoid exposing the secret of the power of time to everyone here.

Shen Mingjun and the others were surprised and subconsciously glanced at Yun Lintian.

However, no one asked anything about what happened on the sixth floor.

Yun Lintian stepped forward and bowed his head toward Shen Ning. "Thank you, Senior. Please rest well."

He raised his head slightly and turned to Yun Qianxue. "We will leave in a while."

Chapter 1174 Consequence

Yun Qianxue nodded gently and turned to Yun Lingwei. "Tell our people."

Yun Lingwei took the transmission jade out and contacted the disciples who took care of the skyship.

Swoosh!

Just as Shen Mingjun was about to ask Yun Lintian something, Shen Shanyuan suddenly appeared on the scene.

He glanced at Shen Ning briefly and turned to Shen Mingjun. "I have already told everyone to prepare a funeral."

Shen Mingjun frowned slightly. "You know it all along?"

Shen Shanyuan didn't reply. His gaze lingered on Shen Liqiu for a moment before shifting to Yun Lintian. "You two come with me."

Yun Lintian turned to Shen Mingjun and said. "We will talk later, Uncle."

Afterward, he followed Shen Shanyuan out with Shen Liqiu.

"Their strength has improved so much." Qin Mei said in surprise. "What exactly happened here?"

Shen Mingjun didn't say anything. He carefully picked Shen Ning's lifeless body up and walked out of the building.

The sky had become clear now, but his mood was low. The departure of Shen Ning meant the Shen Clan had lost the strongest guardian. He wasn't sure if the clan could hold on with the incoming war.

"What do you want to talk about?" In the private room, Shen Liqiu asked coldly. She didn't even take a seat and stood there, looking at Shen Shanyuan.

On the contrary, Yun Lintian sat in his seat and calmly sipped his tea.

Shen Shanyuan beckoned with his chin while pouring another cup of tea for Shen Liqiu. "Sit first."

However, Shen Liqiu didn't seem to listen. She continued to stand there and stared at Shen Shanyuan coldly.

Shen Shanyuan sighed softly and said. "There's a misunderstanding between us... Do you think I will truly let you marry that trash Lei Jun?"

"Misunderstanding?" Shen Liqiu curled her lips with a touch of sarcasm. She was forced to leave her home and wander outside for a period of time because of this man, yet he actually said it was a misunderstanding?

Shen Shanyuan sighed softly and said. "I went to the sixth floor before and saw everything."

Hearing this, Shen Liqiu frowned slightly. "What does it have to do with this?"

Shen Shanyuan leaned back slightly and said. "I understand everything... My father, he wants to change the fate of our clan."

He paused for a second and took a deep look at Shen Liqiu. "And the person he chose is you."

Shen Liqiu's brows knitted tightly upon hearing this.

Shen Shanyuan said further. "If I didn't force you to marry Lei Jun. Do you think you will leave the clan and go to the Southern Continent?"

It was at this moment did Shen Liqiu's expression changed drastically. "You mean...?"

Shen Shanyuan nodded slightly. "It's your great-grandpa's instruction. Besides, I can use this chance to earn some resources from the Divine Thunder Palace."

Shen Liqiu quickly asked. "Then why did you kill great-grandpa's people?"

"Do you think how the Star Gazing Palace and the Azure Palace know about our clan's situation?" Shen Shanyuan replied calmly. "Those people have long been bought by them."

"How could it be?" Disbelief was written all over Shen Liqiu's face. To her knowledge, those people were absolutely loyal to Shen Tingguang. How did they become a traitor?

It wasn't that she was naïve, fully believing they wouldn't betray. It was just that she had grown up under their care since she was young. This made her difficult to believe it.

Shen Shanyuan said softly. "At first, I didn't believe it, too. After all, those uncles were very close to me. Unfortunately, it was because they were too close that I started to believe they had betrayed us."

He paused briefly and explained. "I set up an information trap for them, and they took the bait. In the end, they confessed it themselves and committed suicide as they were ashamed."

Shen Shanyuan didn't want to go through the unpleasant details, as he knew how close those people were to Shen Liqiu, even though they were traitors.

Shen Liqiu's body trembled slightly as her face turned pale. A while later, she regained her calmness and asked in a deep voice. "You are a person with high ambition. How could you give up just because of great-grandpa's words?"

Hearing this, Shen Shanyuan suddenly laughed. "Hahaha! It seems I am a villain in your eyes. This is really sad."

He stopped laughing and said calmly. "Indeed, I am an ambitious person. Even now, I am still the same, and my goal of making the Shen Clan number one has never changed in the slightest."

"However, after witnessing everything on the sixth floor. I know that there's something I cannot change with my own hand. Since I cannot resist it, why should I insist further?"

Shen Shanyuan sighed softly and continued. "Before this, I had never understood why father didn't like me. He always treated me coldly and was never satisfied with my performance... Now I know why."

He looked at Shen Liqiu with a hint of pity in his eyes. "In the end, it was because he loved me that he had to treat your father and me like that. He didn't want us to be tied with the fate of the record keeper... You should understand it now since you have inherited his power."

Shen Liqiu immediately went silent. When she received Shen Tingguang's power, she naturally knew what fate awaited her in the near future.

If Yun Lintian failed to change the fate of this world, she would continue to exist and do the record keeper's duty further.

However, if Yun Lintian managed to change the fate of this world... There was no need for the record keeper to continue to exist... This was something she didn't tell Yun Lintian.

"No matter what outcomes we get in the end, nothing will happen to you." Suddenly, Yun Lintian said gently, causing Shen Liqiu's body to shudder.

Shen Liqiu's eyes widened as she looked at Yun Lintian in shock. "You... You know?"

Yun Lintian chuckled. "Don't insult my intelligence, alright? Do you think I don't understand the role of the record keeper? It's not that hard to guess what kind of consequence comes up with it."

"Moreover, your great-grandfather's words are very clear. He wants to change the fate of this clan, which means the clan will no longer continue as a record keeper if everything goes according to his wish... Is there anything difficult to understand?"

Chapter 1175 Determination

Shen Liqiu went silent for a while and slowly sat in her seat. She looked at Yun Lintian and said. "You don't have to do it for me."

Yun Lintian laughed gently. "Don't worry. If I fail, it means I'm dead anyway."

Shen Liqiu stared at Yun Lintian for a while and smiled brightly. "I'll definitely follow you at that time."

Yun Lintian spread his arms. "I'm merely comforting you, though. Do you really think an unparcelled, handsome man like me can fail?"

"Che!" Shen Liqiu curled her lips, looking at him in disgust.

The atmosphere immediately improved after a round of joking from Yun Lintian.

He turned to Shen Shanyuan and asked. "What do you want to discuss with, Senior?"

"Just call me grandpa." Shen Shanyuan said with a kind smile. "You have been absent for a whole month and probably don't know the current situation around the world. Let me round it up for you."

"Currently, profound beast tides continue to emerge all over the place. Mostly in the coastal areas. Surprisingly, the Central Continent suffers the most compared to the other continents. They took advantage of the Star Gazing Palace, and the others have yet to recover from the previous attack and launched this."

"It's because the alliance has yet to be established officially. Everyone acts on their own, trying to protect their territory without sending help. Right now, many coastal cities are starting to crumble. It won't be long."

"Compared to the Southern and the Eastern Continent, your Northern Continent is relatively safe. For some reason, there aren't many profound beast tides over there. Perhaps they learn from the last time."

He paused for a moment and said in doubt. "Speaking of this, your Northern Continent has suffered the most previously and is currently recovering. If I were the enemy, I would definitely go full force on it."

Yun Lintian smiled and said. "Indeed, the Northern Continent is currently in a recovering state, but the speed is not low. With the addition of a few powerful forces from over the place, the current overall strength of the Northern Continent is not inferior to the Eastern and the Southern Continent."

During this period, Yun Lintian's people were not idle. They had recruited a lot of wandering practitioners from the Endless Sea and various places to settle on the Northern Continent.

With the free-up space from the previous battle and a better environment, they were naturally happy to stay there. Not to mention Yun Lintian spent a lot of resources to lure them.

There was also the Golden Python, Heavenly Fox, and Deep Sea Naga Clan that Yun Meilan brought them over. Although their strength had declined, they were, after all, a long-lasting clan. Their heritages were richer than any force on the Northern Continent.

At the same time, the newly established Profound Sky Academy had attracted a lot of new students from all over the continent. Although the time was short, when these people grew up, they would become the foundation of the Northern Continent.

It could be said the Northern Continent's current direction and system was the best in the world. As long as they continued like this, they could easily surpass the Central Continent in the near future.

Shen Shanyuan nodded. "As the war broke out, the transportation between the continents became more difficult. All the resources cannot be imported, and the price has also increased several folds."

"Although Mirage Island is powerful, it's not to the point we can completely be self-sufficient without importing resources."

He paused for a second and said in a deep voice. "I want to ask you for help in this regard."

On the side, Shen Liqiu frowned slightly. Although the misunderstanding between her and Shen Shanyuan had already eased, it didn't mean she would forgive him directly. She felt his request was very rude, as he didn't even offer anything in return.

However, Yun Lintian didn't mind about it. He waved his hand, and a few storage rings immediately appeared on the table. "Senior can use this first. If it's not enough, you can go to either the Northern, Southern, or Eastern Continent to buy them. I believe you should have been aware of the grand teleporting formation here."

Shen Shanyuan looked at the contents inside the rings, and a rare astonished expression immediately appeared on his face.

"Thank you." Shen Shanyuan said calmly. He wasn't hypocritical enough to reject it.

"Shameless." Shen Liqiu expressed dissatisfaction, but Shen Shanyuan didn't care about it.

"Before this, I planned to make a cooperation with you, but it seems I don't need it anymore. I believe that we have the same goal right now." Yun Lintian said with a meaningful smile.

Shen Shanyuan responded. "Of course. To eliminate all the invaders from the Abyssal World has always been my first priority. Without achieving this step, it's useless to talk about other things."

Yun Lintian smiled and said. "Then I'll excuse myself first."

"Please." Shen Shanyuan didn't stop Yun Lintian. He got up and personally sent Yun Lintian and Shen Liqiu out of the room.

After the two disappeared from his sight, the white-haired old man silently appeared behind Shen Shanyuan and said. "Master."

Shen Shanyuan didn't turn around as he asked. "How's the preparation?"

The old man replied. "We are ready to go."

He hesitated briefly and asked. "Master, do you really want to do this? You know that we can take a passive stance and wait. After all, the enemy's first target is not us. We don't have to enter the Endless Sea at all."

Shen Shanyuan glanced at the clear sky and said calmly. "The future is not ours. It belongs to our descendants. We have to pave the way for them."

Since he met his father on the sixth floor back then, Shen Shanyuan's mind underwent a huge transformation. The pettiness and resentment he had were completely gone.

He knew what kind of role he should play in this upcoming war. It wasn't a backup who waited to go out as the enemy attacked, but the scout team. He wanted to go as deep as he could to dig out the Poison Valley's hideouts.

The old man went silent for a moment and knelt on one knee. "I understand it now, Master. Please let these old bones of mine accompany you to the end."

Shen Shanyuan threw the rings to the old man and said. "Give this to our people. Let them use it as much as they want. We will leave in a month."

Chapter 1176 Leaving

After leaving Shen Shanyuan's room, Yun Lintian and Shen Liqiu headed to the main hall.

On the way, Shen Liqiu suddenly asked. "Do you believe him?"

Yun Lintian smiled and answered. "It depends on who you are talking about. If it's him, I naturally don't believe it. Rather, I believe in his ambition."

Shen Liqiu asked confusedly. "What do you mean?"

Yun Lintian explained. "Although I have only come into contact with your grandfather once, I can see that he's a very selfish and ambitious person in nature. He can definitely do everything in order to achieve his dream."

"However, on that ambitious and selfish side, he doesn't lose his morals. Since his goal is to make the Shen Clan number one, he naturally won't hurt his fellow clan members."

He tilted his head slightly to look at Shen Liqiu and said with a smile. "Just like the way he protects your younger brother. No matter how useless your brother is, he doesn't abandon him and let him die."

Shen Liqiu went silent immediately upon hearing this.

Yun Lintian said further. "Of course, he still wants to make your younger brother the clan head later, as it's easy to control him compared to you. And now, you have inherited your great-grandfather's legacy. It can also mean you are completely out of race for the clan head position. After all, you have to leave the clan in order to change the clan's fate."

After a while, Shen Liqiu asked. "What do you think he's going to do next?"

Yun Lintian thought for a moment and said. "Pave the way."

"Pave the way?" Shen Liqiu didn't understand it.

Yun Lintian nodded. "Pave the way for the rise of the Shen Clan. Currently, the only obstacle that blocks the way of rising is the Poison Valley. So, I guess he will try his best to fight them."

If Shen Shanyuan heard this, he would definitely be shocked by how close Yun Lintian's guess was.

Shen Liqiu subconsciously glanced at Shen Shanyuan's courtyard behind and muttered. "This is really unreasonable...."

Hearing this, Yun Lintian chuckled slightly and said nothing more.

"Big Brother Yun!" When Yun Lintian and Shen Liqiu arrived at the main hall, Linlin and Qingqing broke out of the arms of Yun Qianxue and Han Bingling, rushing toward Yun Lintian.

Seeing this, Yun Lintian smiled and opened his arms, gently hugging them.

"Qingqing miss you." Qingqing buried her head in his chest and said in a crisp voice. This was the first time she had been away from Yun Lintian for a month.

The same went for Linlin. Her big eyes stared at Yun Lintian's face as if she was afraid she would forget him.

"Sorry. Big brother didn't expect it as well." Yun Lintian said softly.

At the same time, he could feel that the strength of the two of them had significantly improved. Especially Qingqing. Before this, she might struggle to fight any peak of the Divine Ascending Tribulation Realm's experts, but now, Yun Lintian felt she could deal with them at ease.

Meanwhile, Linlin officially stepped into the Monarch Profound Realm and reached the fifth level. Her true form's battle prowess should have also reached the high level of the Divine Ascending Tribulation Realm.

Han Bingling and the others walked over and said. "Welcome back."

Yun Lintian smiled and said. "Let's go inside."

Everyone immediately walked into the hall afterward.

At this moment, the atmosphere in the main hall was solemn. The departure of Shen Ning had already been announced internally, and everyone became anxious. After all, Shen Ning was known as the clan's strongest. Losing him meant the clan would become weaker.

With the constant threat from the beast tides, they felt the future was shrouded in fog.

A jade coffin with Shen Ning's body inside was placed on the high altar at the center of the hall while everyone dressed in white, mourned for him.

When Yun Lintian's group walked into the hall, they became quiet and calmly stood on the side.

Yun Lintian handed Qingqing and Linlin to Yun Qianxue and Han Bingling before stepping forward and giving a respectful bow to Shen Ning one last time, followed by Shen Liqiu.

A while later, Shen Mingjun beckoned Yun Lintian and Shen Liqiu to go to the side room.

"I want to move our clan to the Northern Continent." After everyone sat down, Shen Mingjun spoke directly. "Of course, we won't be moving right now. I just want to leave insurance for my clan."

Yun Lintian was surprised slightly. "There's no problem. Our Northern Continent has plenty of space currently. Uncle Shen can go to the Profound Sky Divine City and contact Lin Canghai directly. He's in charge of the overall situation. I'll give him a word beforehand."

Shen Mingjun said sincerely. "Thank you."

He then looked at Shen Liqiu and asked. "Can you tell me what happened to both of you? What's on the sixth floor?"

"I met great-grandpa." Shen Liqiu replied.

"What?" Shen Mingjun hurriedly asked. "He left his residual soul behind? What's his instruction?"

Shen Liqiu nodded slightly. "There's no instruction."

Shen Mingjun wanted to ask further but held back in the end. Since Shen Liqiu didn't explain it clearly, it was naturally a secret.

Shen Mingjun calmed down and turned to Yun Lintian. "What's your next plan? You should know about the current situation, right?"

Yun Lintian nodded slightly. "I need to make a special trip to the Central Continent. Afterward, I believe we will enter a full war with the Poison Valley."

He paused for a moment and said. "Uncle Shen, you should communicate with your father more. You will understand what I mean later."

Although Shen Mingjun didn't know why Yun Lintian said this, he still nodded. "Alright. I will talk with him later today."

After exchanging a few words, Yun Lintian immediately brought everyone to the skyship, preparing to leave.

"Are you sure you don't have to go back, Fifth Sister?" On the deck, Yun Lintian looked at Nantian Fengyu, who was surprisingly obedient during this period.

Nantian Fengyu shook her head. "No need. With the Divine Phoenix there, they could only dream of attacking the Southern Continent."

Yun Lintian nodded slightly and turned to Shen Liqiu. "This trip, I will go with Fifth Sister. Why don't you stay home for the time being?"

Shen Liqiu shook her head. "I want to go to your place."

"Alright." Yun Lintian didn't ask further and told Yun Lingwei to set off.

Chapter 1177 Spatial Tunnel

"It's much worse than the last time." Standing on the deck, Han Bingling looked at a group of raging beasts on the sea's surface below with a solemn expression.

Compared to the last month they passed by, the beasts no longer hid deep under the sea. They kept roaring and swarming on the surface, showing their might arrogantly.

Everyone on the deck had a similar solemn expression. The original blue sea had completely turned into a gloomy and dreadful abyss. Not even a single life could escape from being tainted by Abyssal Energy.

"Is it this place?" Yun Lingwei turned to look at Yun Lintian and asked.

After leaving Mirage Island, Yun Lintian told her to drive the skyship south and finally stopped at this place between the island and the Southern Continent. However, she didn't seem to see anything special here.

Yun Lintian nodded and said. "Everyone follows me."

As he said, he suddenly jumped out of the skyship, and the White Dragon Spear silently appeared in his hand. He pointed the spear toward the group of beasts below and thrust forward as he descended at full speed.

BOOOM!

A massive profound lightning beam shot out of the spear's tip, rushing toward the group of beasts and blasting them away in one fell swoop.

Yun Lintian immediately plunged into the sea and quickly dived deeper, followed by Yun Qianxue and the others.

Everything under the sea was as dark as ink to the point they couldn't see anything. If it wasn't because they had Spiritual Sense, they would probably not even know where the surface was.

Yun Lintian raised the spear slightly, and a dazzling light immediately lit up on the spear's tip, dispelling all the darkness around.

"Follow me. Don't forget to protect yourself from Abyssal Energy." He said and quickly dived deeper.

Along the way, everyone jointly killed many powerful profound beasts. Even some Monarch Profound Beasts that had already taken a human form could be seen here.

This scene made them realize further how severe the situation was. Once these profound beasts went all out, it was hard to tell if humanity could resist them.

After diving for an hour, everyone finally reached the seabed. Han Bingling and the others looked around and saw nothing special here. They were puzzled about why Yun Lintian brought them to this place.

At this moment, Yun Lintian stepped toward an ordinary small boulder not far away from him.

He didn't forget to set up the most powerful isolating barrier and ensured no one was around this place before reaching his hand out to touch it.

At that moment, the space before him immediately distorted, forming a massively terrifying spatial vortex that was seemingly blocked by an invisible force.

The scene immediately stunned everyone behind him.

"What is this?" Han Bingling asked.

Yun Lintian slowly explained. "There are two spatial tunnels leading to another world in this Azure World. The first one is located beneath the Central Continent, and another one is here."

Han Bingling and the others were shocked upon hearing this. They had always believed there was only one such a spatial tunnel all along, and now there was actually another one?

The spatial vortex was huge, and when everyone looked into it, they could feel as though they were pulled into a bottomless abyss with no return. This feeling gave birth to fear in their hearts.

"Can you destroy it, Hongyue?" Yun Lintian asked in his mind.

"No," Hongyue replied with a rare serious expression. "This spatial tunnel is very strange. It contains spatial laws that I have never seen before. No wonder that woman cannot do anything to it."

"Even Grandma Yun can't do it?" Yun Lintian asked with a deep frown.

"I don't think she can do anything to this. Even me at my peak might not be able to do so." Hongyue replied solemnly.

Yun Lintian was deeply shocked in his heart upon hearing this. Although he didn't know how powerful Hongyue at her peak was, she was definitely one of the most fearsome figures in the Divine Realm. But even she had to admit that she was powerless against this spatial tunnel? What the hell was this?

"You have to get the Spatial Wheel." Hongyue suddenly said. "I believe only the Spatial Wheel can do something to it."

"You believe?" Yun Lintian asked as Hongyue didn't seem to be confident about it.

"The Spatial Wheel is the source of the spatial element. If it cannot do anything about this, then I don't think anyone can." Hongyue explained. "I am not sure because I don't know to what extent you can control it. Don't forget that it takes time to master the Beyond Heaven Relics."

"I see." Yun Lintian immediately understood what she wanted to say.

He stared at the spatial tunnel for a long while and tapped on the boulder again. Immediately, the tunnel disappeared completely, as if nothing had happened before.

He then removed the isolating barrier and turned to everyone. "Let's go back."

Han Bingling asked curiously. "We cannot destroy it?"

Yun Lintian shook his head. "It's impossible with our current strength."

Han Bingling and the others frowned deeply. Each of them was powerful enough to compete for the world's top position, yet they couldn't do anything to this tunnel. This wasn't good news.

Since they couldn't do anything here, they quickly returned to the skyship and set off toward the Northern Continent.

BOOM!

"Roarrrr!" A deafening roar of more than ten thousand profound beasts reverberated throughout the entire space as they frantically attacked a huge city wall.

Standing on the top of the wall, Yun Ruanyu watched the scene with a trace of worry in her eyes. Although these profound beasts were easily handled, their number was too large. If this continues, it won't be long before the city wall collapse.

"What should we do, Elder Yun?" Fu Tiangang, the city lord of Thunder City, walked over and asked.

"Leave this place to us. I'll trouble City Lord Fu to check the other coastal cities." Yun Ruanyu said.

"Understood." Fu Tiangang nodded and glanced at a few hundred women dressed in white behind Yun Ruanyu. Each one of them exuded a powerful aura that even Fu Tiangang felt he was being suppressed. These people were naturally the Misty Cloud Sect's disciples.

Yun Lintian looked at the profound beasts below and said calmly. "Kill them all."

Swoosh!

Instantly, all the hundreds of disciples jumped into the battle!

Chapter 1178 Reckless

A frightening aura immediately spread across the battlefield as the Misty Cloud Sect's disciples jumped out of the wall. Countless tyrannical sword intents poured down from above, bombarding the frenzied profound beasts below.

Boom! Boom! Boom!

The profound beasts on the frontline were torn apart directly under the bombards, and the disciples were not done at that. As soon as they landed on the ground, they shot forward like a loose arrow, turning into shadows, and began slaughtering the enemies.

With every thrust and slash, the lifeless remains of the profound beast would appear on the ground. It could be seen how powerful their attack was.

"Kill!" Suddenly, a bulky man in coarse leather attire jumped into the air from the backline of the profound beast. This person was a peak of the Saint Profound Beast that had taken a human form.

"Leave it to me!" When this person appeared, Yun Chenyu, who was among the group of the Misty Cloud Sect's disciples, shot into the air, rushing toward the bulky man fearlessly.

A dagger in her hand abruptly shone in a terrifying light as she slashed vertically toward the enemy.

"Hmph!" The bulky man snorted coldly. He could see that Yun Chenyu was only at the first level of the Heaven Profound Realm. How could she dare to fight him?

Suddenly, his right arm transformed into a huge octopus tentacle as he swung it forward. The tentacle immediately repelled Yun Chenyu's attack and went around her, wrapping her waist tightly before pulling her toward him.

Yun Chenyu's expression changed drastically. She struggled to get rid of the tentacle, but it was futile.

"Hehehe! Your flesh must be very delicious." The bulky man's mouth suddenly enlarged, transforming into a horrifying beast's mouth. Once Yun Chenyu went in, she would undoubtedly die.

On the wall, Yun Ruanyu looked at the scene with a frown between her brows. She brought Yun Chenyu here to gain experience, but the latter seemed too impatient. Obviously, she had overestimated herself, which should never happen.

On the side, Fu Tiangang's face was full of worries. He naturally knew Yun Chenyu's status. That was Yun Lintian's first disciple. If something happened to her, he didn't have the face to see Yun Lintian.

"Elder Yun..." Fu Tiangang turned to Yun Ruanyu.

"Wait for a moment." Yun Ruanyu didn't intend to help Yun Chenyu directly. She was going to see how Yun Chenyu solved this predicament.

As Yun Chenyu drew closer to the horrifying mouth, she managed to calm down, and a thunder bead silently appeared in her hand. She flickered her finger slightly, sending the thunder bead into the mouth.

RUMBLE—

The thunder bead exploded, releasing a terrifying thunder blast to sweep away everything in that area. The powerful impact immediately sent Yun Chenyu flying, as well as the other disciples nearby.

Seeing this scene, Yun Ruanyu shook her head in disappointment. Her figure disappeared from the place and reappeared behind Yun Chenyu.

She raised her hand gently, and the shocking impact instantly vanished.

As she grabbed Yun Chenyu, she looked at the latter and said. "You are too impatient."

Yun Chenyu lowered her head slightly upon hearing this.

"Look around you." Yun Ruanyu said calmly.

Yun Chenyu subconsciously glanced at the battlefield and saw her comrades get up from the ground after being swept by the sudden impact earlier. Obviously, she had unintentionally harmed them.

Yun Ruanyu knew that Yun Chenyu must know her wrong already, but she didn't let it go easily. "What did your master tell you before? He told you to be cautious and never overestimate yourself, right?"

"I..." Yun Chenyu wanted to say something, but no word came out in the end. Her heart was filled with guilt and shame.

After returning from the conference, she had always been restless, wanting to avenge her family as soon as possible. And because of that, she was eager to increase her strength and fighting experience. This led her to this point.

"No need to say anything further. You should go back and wait for your master." Yun Ruanyu said plainly.

Yun Chenyu's expression changed drastically upon hearing this. She hurriedly pleaded. "No, Aunty Ruanyu. I want to stay here. I promise that there won't be a second time."

Unfortunately, Yun Ruanyu shook her head and said mercilessly. "Your existence endangers everyone here. I don't want to see anyone die because of your reckless action."

Yun Chenyu opened her mouth and said nothing in the end. Her eyes were full of regret and shame. No matter how unwilling she was, what Yun Ruanyu said was correct.

Yun Ruanyu said nothing further and brought Yun Chenyu back to the wall.

Before she could let someone send Yun Chenyu away, she suddenly noticed something and looked toward the sky.

At this moment, the Heavenly Cloud Profound Skyship emerged from the group of clouds and slowly descended toward the city.

Yun Ruanyu's eyes flickered slightly. She glanced at Yun Chenyu and sighed inwardly. Without a doubt, Yun Lintian must have arrived here a while now, which meant he saw everything.

Yun Chenyu's face turned pale when she saw the skyship. Her head drooped down as she clutched the hem of her robe nervously. She knew that Yun Lintian must definitely punish her.

At this moment, Yun Lintian and the others jumped down from the skyship and landed on the wall.

"I'm back. You've worked hard." Yun Lintian said with a smile.

Yun Ruanyu responded gently. "Welcome back."

Yun Lintian turned to Yun Chenyu and said. "Raise your head and look at me."

Yun Chenyu shuddered and slowly raised her head to look at Yun Lintian. "Master..."

Yun Lintian said. "It's good that you are eager to raise your strength and also courageous enough to fight a stronger opponent... However, as I have told you before, it's not just about knowing the opponent's strength when you want to fight someone. You have to know what you have, too."

"Of course, there's nothing wrong with believing that a single thunder bead can save your life. But take a look at it. Is it something a thunder bead can kill?" Yun Lintian paused briefly and pointed at the giant octopus in the distance.

Yun Chenyu glanced at the injured octopus and found it was recovering at a visible rate. The injury from the thunder bead obviously couldn't finish it.

"Now, you don't have a thunder bead anymore. If this is a life-and-death situation. How are you going to fight it afterward?" Yun Lintian asked.

Chapter 1179 Prediction (1)

Hearing the question, Yun Chenyu didn't know how to answer. Her strength was clearly inferior to the opponent's, and she had already used her trump card. Without a doubt, she would die in the next battle.

Yun Lintian smiled and said. "So, your life would end here. What about the revenge then?"

Yun Chenyu's entire being trembled. Yun Lintian's words were like a thunderclap, striking her mind. If she died here, there would be no chance for her to seek revenge.

At this moment, Yun Chenyu realized how severe the consequence of her previous rash actions was.

Yun Lintian said further. "Go back and reflect on yourself for a week."

Yun Chenyu took a deep breath and said. "Thank you for teaching me, Master."

Yun Lintian smiled and turned to Han Bingling and the others. "Who wants to do it?"

"Let me." Nantian Fengyu suddenly soared into the sky. "Everyone, fall back."

When the Misty Cloud Sect's disciples saw this scene, they immediately withdrew from the battlefield and retreated to the wall.

At this moment, Nantian Fengyu's entire body was covered with the Phoenix Flame. As she clapped her hands together, a scorching sea of phoenix flame immediately spread out, showering down upon the remaining profound beasts.

BOOM!

The sea of flame instantly swept every profound beast, reducing them into ashes without any resistance.

Fu Tiangang and the other city guards were shocked by the terrifying scene. They couldn't help but look at Nantian Fengyu in awe.

Nantian Fengyu returned to the wall and looked at Yun Lintian. "How is it, junior brother? Is your Fifth Sister powerful?"

Yun Lintian gave her a thumbs up. "Very strong."

"Hehe." Nantian Fengyu wore a smug look on her face as she laughed proudly.

"We should go back first." Yun Lintian looked around for a moment and said, after seeing no other profound beast left.

After exchanging a few words with Fu Tiangang, he immediately brought everyone back to the Moon Garden.

On the way, Yun Lintian could see the thriving scenes below. Many villages, towns, and cities were bustling with people. It was hard to believe that this continent had just been ravaged by the beast tides a year ago.

At the same time, they didn't seem to be panicking about the new round of profound beast tides at all. Perhaps they were confident that the Northern Continent could resist it like the last time.

Soon, the skyship slowly landed on the Moon Garden. When Yun Lintian walked down, he saw a few familiar faces seemingly waiting for him.

These people were Guchang, Fan, Bi Xian, Bi You, Yu Rongxi, Yu Jiao'er, Jin Yang, and Jin Mingzhe.

After Yun Meilan went to rescue them from the Western Continent, these people and their clans were settled inside the Profound Sky Divine City.

Although they lost a lot of people during the war, their foundations were still there. Hence, they could gain a foothold very quickly. As of now, they had established many businesses inside the city and were slowly spread out.

"Long time no see, everyone." Yun Lintian smiled and greeted them.

"Brother Yun!" Yu Jiao'er's eyes lit up as she greeted Yun Lintian. She hadn't seen him for a long time, and he had become more handsome than before. This made her little heart beat faster.

On the side, Yu Rongxi shook her head slightly when she saw this scene. She glanced at many women beside Yun Lintian and sighed inwardly. Her daughter had no capital to compete with these outstanding women. It would be almost impossible for her to be with him.

"Brother Yun." Jin Mingzhe said politely. He was very grateful to Yun Lintian as his life was saved by the latter.

Meanwhile, Bi You stared at Yun Lintian without blinking. No one knew what she was thinking right now.

Yun Lintian nodded gently and said to Yun Qianxue. "All of you should go back first."

Yun Qianxue and the others didn't say anything and went away, leaving Nantian Fengyu, Linlin, and Qingqing behind. As for Yun Chenyu, she was brought away by Yun Qianxue, as she was going to be grounded for a week.

"Everyone, please." Yun Lintian made an inviting gesture and led everyone to a large pavilion near the waterfall.

"How do you feel about this place?" Yun Lintian asked after handing them cups of tea.

Jin Yang took a sip of tea and replied. "It all thanks to you, Young Master Yun. Otherwise, we would have become the Poison Valley's slaves by now... As for this place, it is several times better than the Western Continent. At least, there's no constant threat."

"Indeed. People here are very nice to us. There's no discrimination, even though they know our true identity." Yu Rongxi added.

She paused briefly and said further. "We came here today to ask you what we can do to help. The Poison Valley has started a new round of attack, and we don't want to sit idle."

"Yeah. We are new here, and we don't know if it would be inappropriate to participate in the defense without telling you first." Jin Yang explained.

Yun Lintian nodded understandingly. "I can tell you that the Poison Valley is simply testing the water right now. Their focus is on the Central Continent."

Jin Yang and the others were slightly surprised.

Yun Lintian said further. "So, this is a good chance for everyone to send your juniors to the battle. They can gain experience from this. In this regard, you can contact Ruanyu directly. She's currently in charge of the overall situation."

He suddenly thought of something and called Yun Qingrou over. A moment later, Yun Qingrou appeared and handed a few pill bottles to him.

Yun Lintian placed them on the table and said. "I believe everyone is worrying about Abyssal Energy. After all, it's much more dangerous against your people. These pills can get rid of it once it's invading your body. However, you have to take it right away to be more effective. Otherwise, it will be difficult."

Besides teaching the new disciples, Yun Qingrou spent most of her time researching a new pill that could deal with Abyssal Energy.

Although Yun Lintian and the others could take the Profound Spirit Liquid directly, he couldn't possibly give everyone all the time. It was better to come up with such a pill.

Chapter 1180 Prediction (2)

Jin Yang and the others opened the bottles and looked at the pills inside. The aroma of the pills immediately refreshed their minds. Clearly, these pills were the best-grade ones.

"This is just a small portion. You can contact Qingrou directly later. We can provide you for free." Yun Lintian said. "However, please keep it secret first. Wait until we achieve mass production, and we will provide it for everyone in the Northern Continent."

Jin Yang couldn't help asking. "Wouldn't this burden you? The cost should be very high, right?"

Jin Yang had fought the Poison Valley all his life and naturally knew how difficult to deal with Abyssal Energy was. Even the Myriad Pill Palace was powerless against it. Hence, the cost of this pill must be very high in his eyes.

Yun Lintian smiled and said. "The cost is not high. Some ingredients are very rare, but not for us."

He then took a few storage rings out and distributed them to everyone. "Here are resources for your clans. Please take them at ease."

Jin Yang and the others were once again surprised by Yun Lintian's generosity, and they knew it would be a hypocrite to refuse it. Therefore, they accepted them at ease after expressing their gratitude.

As for Guchang and Fan, they weren't surprised by it, as they had seen a lot during their stay in the Moon Garden. Those rare materials in the outside world were like cabbage here.

Yun Lintian looked at them and asked. "I want to ask Seniors a question. Would you go back to the Western Continent after everything is done? Like, if we win the war and there's no threat from the Poison Valley."

Jin Yang, Yu Rongxi, and Bi Xian looked at each other, and it was Bi Xian who spoke first. "Our Heavenly Fox Clan won't go back. We are planning to settle here."

"Our Deep Sea Naga Clan too." Yu Rongxi echoed.

Meanwhile, Jin Yang thought for a moment and said. "Our ancestral land had been destroyed completely before we left. Although I have the thought of going back, there's nothing much left over there. And restoring the ancestral land won't give us anything except comforting our souls."

"I don't think our Golden Python Clan would go back."

He paused briefly and said further. "Besides, my ancestor, in fact, had the intention of leaving the Western Continent, but because of the discrimination against us, he called off in the end."

Yun Lintian was surprised to hear this.

Seeing his expression, Yu Rongxi took the initiative to explain. "The nine clans founded the Nine Profound Beasts Palace because we have to fight basically half of the world. However, we are good here in the Northern Continent now. Everyone in the clan certainly doesn't want to go back to the old day again."

"As for a legacy such as the ancestral land, it's nothing compared to what we got right now."

Bi Xian added. "We are not that sentimental like humans that are reluctant to leave the ancestral land. Otherwise, we wouldn't have come here in the first place."

Yun Lintian nodded slowly. "I see..."

"How long will you stay here this time, Brother Yun?" Yu Jiao'er asked expectantly.

Yun Lintian smiled and replied. "A few days. I have something important to do on the Central Continent later."

"Is that so?" A trace of disappointment appeared in Yu Jiao'er's eyes. She hesitated briefly and asked. "Can you bring me along?"

As soon as her voice fell, a terrifying suppression instantly wrapped around her body. The source of it came from no other than Nantian Fengyu.

"Hmph!" Nantian Fengyu snorted coldly as she looked at Yu Jiao'er with an unkind gaze.

The expressions of Jin Yang, Yu Rongxi, and Bi Xian immediately changed when they perceived the suppression.

"This... Divine Phoenix?" Bi Xian asked in surprise.

She had met many of the Divine Phoenix Palace's people, but none of them gave her such a dread feeling as Nantian Fengyu did. Even when she faced Nantian Xuanyu, the palace master, she also didn't give her this bloodline suppression to this extent.

The same went for Jin Yang and Yu Rongxi. They felt as though they were facing the legendary Divine Phoenix herself.

Seeing Yu Jiao'er's pale face, Yun Lintian quickly stopped Nantian Fengyu. "Fifth Sister."

Nantian Fengyu snorted once again and retracted her power. "Hmph! Don't think of getting close to my junior brother."

Facing Nantian Fengyu's coercion, Yu Jiao'er bit her lips and lowered her head in defeat.

Yun Lintian smiled wryly and said. "Everyone here is my friend. You shouldn't do this, Fifth Sister."

"Mhm." Nantian Fengyu replied with a low hum as if she didn't want to hear it.

Yun Lintian shook his head and turned to Yu Jiao'er. "I'm sorry, but I can't bring anyone with me. The place I plan to go to is full of dangers. I am fine by myself, but it will be difficult if there's another person."

"I understand. Sorry for asking, Brother Yun." Yu Jiao'er said in a low voice.

Suddenly, Bi You, who remained silent for all this time, glanced at Linlin and Qingqing before turning to Yun Lintian and said with a serious expression. "You have to bring these two with you."

Yun Lintian was taken aback and then remembered that Bi You had the ability to predict the future. Perhaps she saw something.

Yun Lintian said with a smile. "Thank you for telling me this. I originally planned to bring them along."

"You must stay with them all the time." Bi You said further.

Yun Lintian asked curiously. "I'm curious. What did you see, Miss Bi?"

"Just call me You'er directly." Bi You said calmly. "I saw a lot of traps and a black mist over there. Without these two, your life will be in danger..."

"Cough!" Suddenly, Bi You coughed up a mouthful of blood, and her face turned pale.

"You'er!" Bi Xian quickly grabbed her daughter's arm and injected her profound energy to ease the latter's injury.

Yun Lintian immediately raised his hand, and a thick vine shot out, wrapping around Bi You before sending the wood energy into her body.

"I'm fine." A moment later, Bi You said and wiped the bloodstain from the corner of her mouth.

She looked at Yun Lintian and said. "The place you are going to will decide your fate and perhaps... this world."
