

## Myth Beyond 121

### Chapter 121 - Planning

Hearing this, Han Bingling's brows raised slightly, but her expression did not change much. "You also think so?"

"It seems you've already been aware of it." Yun Lintian didn't surprise about this. After all, she was the Palace Master. He said. "Since you already know this. You should have a suspect in your mind already. I won't say anything further. However, if you manage well enough, you can gain something from this person. Perhaps you can even catch a big fish."

Han Bingling smiled faintly. "Do you have an idea?"

Yun Lintian replied while looking at the sky. "It depends on this person's identity. This person knows your arrangement very well, which proves she is someone close to you. If not, her authority is only second to you. This kind of person is difficult to catch on the spot." He turned around to face Han Bingling and said. "But it's not difficult if we planned well enough. Since this person wants to get your disciple that bad, why don't you use her as bait?"

Han Bingling understood Yun Lintian's intention, but she was uncomfortable using her disciple as bait.

Yun Lintian naturally saw this, but he didn't care. Lin Xinyao's life and death had nothing to do with him. He saved her life before was because he was touched by Mumu's action. He said nothing further, calmly waiting for her resolve.

Han Bingling was entangled for a while before asking. "There are no other plans?"

Yun Lintian looked at her weirdly. How could such an indecisive character become the Palace Master?

Han Bingling saw through Yun Lintian's thought and quickly explained. "You don't understand. Xinyao is not just my disciple. Someone has entrusted her to me. I can't let her take the risk."

Yun Lintian pondered briefly and said. "Then you can just make different arrangements that you think are important enough to catch this mole's attention. And then wait for the suspect to eat the bait. However, this method is not effective as using your disciple, but you can try."

He didn't have much information in his hand. It was too difficult to make a concrete plan. Hence, he let her decide by herself.

Han Bingling had thought of such a method before, but she didn't believe it was compelling enough... Could it be I really have to use Xinyao?

While she was contemplating, Yun Lintian asked. "What are you going to do with that Crown Prince?"

Han Bingling put her thoughts aside as she answered. "My people are going to catch him soon."

"Wouldn't it startle the snake? I think you need to investigate his connections first so you can wrap them up in one fell swoop." Yun Lintian expressed his thought.

Han Bingling replied. "We've already caught Hei Fu. It is only a matter of time before Feng Wanchang knows this. At that time, we might not be able to gain anything."

Yun Lintian shook his head. "That's true. But I think the opposite. When this Crown Prince knows that Hei Fu was caught. He definitely thinks it is you behind this and becomes more cautious. However, the more he thinks like this, the more desperate he could become later. You can drag the matter longer and make him uncertain whether you know he is behind Hei Fu. He will live in fear that one day you might come to him. In the end, he will have no choice but to contact someone behind him for help."

Yun Lintian smiled faintly and continued. "At that time, you will have a chance to catch a big fish. Who knows, maybe this big fish is actually the mole in your palace. Also, if he is not acting as expected, you can simply catch him at that time. The key of this plan is you have to send someone you can trust and expertise in a concealment art to watch him."

Han Bingling listened to this and was amazed by his analysis. Yun Lintian's plan was to play with Feng Wanchang's mind. It might look simple and too ideal, but Han Bingling had to admit this was a good plan she could do at the moment.

"I'll immediately tell my people." Han Bingling took out the transmission jade and said something to it.

Yun Lintian took this chance to think of his next destination. He wanted to take a look at the Thunder Valley, and he could hunt some profound beasts along the way.

Han Bingling finished her communication and said to Yun Lintian. "Done. Where are you going next?"

Yun Lintian suddenly thought of something as he asked. "How do you travel between the continent?"

Hearing this question, Han Bingling was hundred percent certain Yun Lintian was a disciple of a hermit. Otherwise, he should know about this.

She replied with a playful smile. "Want to know?... Why don't you let this sister kiss you one time?"

Yun Lintian waved his hands boringly. "Forget it. I don't want to know anymore."

Han Bingling pouted cutely. "Why? This sister is not beautiful enough?" Seeing Yun Lintian turned around, preparing to leave. She hurriedly said. "Alright. I won't make a joke anymore. Follow me. I'll show you something."

Yun Lintian was curious. What was she wanting to show him? He followed Han Bingling out of the town for two kilometers. Suddenly. Han Bingling stopped her tracks and waved her hand, bringing Yun Lintian to the sky.

Yun Lintian was caught off-guard and was unable to adjust his body in the air for a moment. Han Bingling brought him through the sea of clouds and arrived at the empty space above the clouds.

"Why did you bring me here?" Yun Lintian looked around and found nothing.

Han Bingling used her slender finger to poke Yun Lintian's chest and said coquettishly. "Why are you so impatient? Can't wait to eat this sister already?"

Yun Lintian was itchy. He wasn't a monk who could cut all the emotions. Facing Han Bingling's constant provocation, he had the urge to pounce on her and quickly tear her clothes apart.

Chapter 122 - Profound Sky Ship

Yun Lintian took a deep breath and said in a deep voice. "Don't play with fire."

"Fire? This sister loves to play with fire, you know? Why don't you show me then?" Han Bingling licked her sexy lips, staring straight into Yun Lintian's eyes. She had to admit Yun Lintian was the first one that could resist her charm for this long. One had to know even a Monarch could not stay calm facing her charm as Yun Lintian did.

Yun Lintian suddenly used his left arm to hook up Han Bingling's waist while his right hand squeezed her rounded buttocks fiercely. "Are you sure?"

"Ah~ " Han Bingling let out a seductive moan. She was slightly shocked in her heart by Yun Lintian's blazing action, but she calmed down in an instant. She used both of her arms to hook Yun Lintian's neck and whispered near his ear. "Do you want to do it here?"

An orchid-like fragrance immediately assaulted Yun Lintian's nostrils, bringing his blood to the boiling point. His right hand was still squeezed her elastic buttocks from time to time, but he did not go further. Yun Lintian had to admit the body of the woman in this world was highly elastic and soft. It was entirely different from the woman on Earth.

Yun Lintian calmed himself down and pushed Han Bingling away. "Let's stop it here. Why did you bring me here?"

He knew the woman in front of him wasn't simple, and he didn't want to get himself kill because of his lower part. He just wanted to scare her a bit so that she could stop joking with him, but she wasn't fear in the slightest. This made him rethink how to interact with her further.

"Why are you so scare all of a sudden?" Han Bingling curled her lips. "Do you know this is my first time being touched by a man? Aren't you going to take responsibility?"

Yun Lintian's brows pricked up. "First time? Do you think I would believe you?" He believed this wasn't the first time Han Bingling doing this. Otherwise, how could a monarch like her let him, an Essence Profound junior, touch her body easily?

Han Bingling pouted angrily. This bastard clearly didn't believe her and even acted coldly after taking advantage of her. She didn't linger on this topic further and snapped her fingers lightly.

All of a sudden, the bright moon above Yun Lintian's head turned into a giant ship, floating toward him slowly. The ship's appearance resembled that spaceship he saw on Earth, but it was more artistic. The outer appearance was coated with glowing purple paint, blending with the night sky. On both sides was a long terrace, and a few people were standing on them.

"This is our Profound Sky Ship, Moon Shifting. Among the nine palaces, my Profound Sky Ship is the fastest one." Han Bingling proudly presented.

Yun Lintian came back to his sense and asked. "Profound Sky Ship? How could it fly?"

Han Bingling chuckled at Yun Lintian's current appearance. It was as though he was a country-bumpkin who encountered the civilization for the first time.

She didn't explain right away but bring Yun Lintian on board. Upon both of them landed on the Moon Shifting, a few women clad in purple robes quickly greeted Han Bingling.

"Palace Master!" All of them bowed their heads and shouted respectfully in unison.

Han Bingling smiled faintly and used her profound energy to straighten their bodies up. "All of you, stand aside first. I will bring our guest to look around."

All of them obediently stepped aside and looked at Yun Lintian with great curiosity. Who could this young man be? Even Palace Master Han had to entertain him personally. They exchanged their glances and communicated through their Spiritual Senses.

"Who do you think he is?" A woman with a flat chest asked.

"Could he be someone from the Divine Thunder Palace? Counting the relationship between our Palace Master and Palace Master Lei, it makes sense for her to welcome him personally." A beautiful woman with a moon shape mark between her brows said.

All of them glanced at each other for a while and nodded their heads in an agreed manner. After all, they never saw Han Bingling personally welcomed anyone except for the Divine Thunder Palace Master.

Han Bingling led Yun Lintian into a spacious living room. Its size was hundreds of times bigger than looking from the outside. Yun Lintian was amazed by its interior. This was similar to those Profound Arks in the novels he had read before, where a formation could enlarge the interior within them.

Yun Lintian recalled such a formation in his head. At that time, he felt this formation was useless and didn't pay attention to it much. But from now on, he would go back and read it properly. In the future, he could use it to build his own Profound Sky Ship.

"Have you ever heard of the Floating Metal Essence?" Han Bingling brought Yun Lintian to a long bench with a soft cushion and asked.

"Floating Metal Essence?" This was the first time Yun Lintian heard about this.

Han Bingling poured a cup of highest grade spirit tea for Yun Lintian and said. "That's right. All the Profound Sky Ships in this world are using this Floating Metal Essence as the main material. This metal essence is extremely rare. Even the Azure Palace doesn't have much in their hand."

Yun Lintian received the cup of spirit tea and asked. "How many Profound Sky Ships out there?" Since the Floating Metal Essence was rare, he didn't intend to ask where to find it.

Han Bingling sniffed the spirit tea and elegantly took a sip of it before replying. "As far as I know, except for the Azure Palace that has two of it, each palace only has one such a ship in their hands. However, I believe there are other ships that I didn't aware of out there. Such as the Poison Valley's Profound Sky Ship."

Chapter 123 - Star Pavilion

Yun Lintian noted the information down in his mind and asked. "What about the Grand Transmission Formation?"

Han Bingling put the cup down as she replied. "The Grand Transmission Formation consumes a large amount of High-grade Profound Stones each time it opened. Hence, we will only open it twice a year. Third month and eighth month of the year."

"If you want to travel between the continents in the fastest way possible, you can only rely on these two methods?" Yun Lintian asked further.

Han Bingling nodded her head slightly. "You can say so. The normal method is to travel by ship through the Endless Sea. It would take several months before reaching the destination. For example, going to the Central Continent from here will take around six months to reach there. And of course, there is a high chance you might not reach the destination."

"The Endless Sea?" Yun Lintian repeated. He knew the sea that divided the continent into five was called 'Endless Sea,' but he actually knew nothing about this place.

Since she regarded Yun Lintian as a disciple of a hermit, Han Bingling wasn't surprised by Yun Lintian's lack of knowledge anymore. She explained. "The Endless Sea is full of mysteries and dangers. Countless species are living there, and all of them are extremely powerful. Even a monarch could lose their life easily. Up until now, we don't have much information about it. If you want to know more, you have to find the Star Pavilion."

"Star Pavilion?" This was the first time Yun Lintian heard this.

"Have you ever heard this phrase, Nine palaces, five sects, and two pavilions?" Han Bingling said.

Yun Lintian suddenly remembered Yan Qi once told him this. He nodded his head. "I've heard about it. You mean this Star Pavilion is one of the two pavilions?"

Han Bingling smiled. "You're right. The Star Pavilion is famous for gathering information. You can inquire about almost everything that's going on in the Azure World. The higher-level information, the higher price you have to pay."

Yun Lintian immediately understood. This Star Pavilion was an information merchant. He chuckled. "Since they are so powerful, why don't you ask them the Poison Valley's whereabouts?"

Han Bingling shook her head. "You think I haven't tried? Apparently, they also have no clue about it."

Yun Lintian knew, how could the Star Pavilion find the Poison Valley, that even the nine palaces could not find them? He just wanted to make a joking remark earlier.

Suddenly, Yun Lintian thought of something and asked. "Do you know a place with dense vitality?" He remembered about the Tree of Life that he wanted to find for Yun Qianxue. Perhaps Han Bingling would know about it.

"Dense vitality?" Han Bingling pondered briefly. She didn't ask why Yun Lintian wants to know that. "As far as I know, such a place can only be found in the Western Continent. There is a place called Fairy Forest over there. It is said to be protected by the wood fairy. I've been there once, but I haven't ventured much into the forest."

"Fairy Forest?" Yun Lintian felt as though he was suddenly entered the western fantasy world. There wouldn't be an elf, right?

Han Bingling pointed her finger at Yun Lintian's forehead and sent a bunch of information directly into his mind. However, she suddenly perceived a danger coming from Yun Lintian's body, causing her to retract her finger.

Yun Lintian was confused. "What are you doing?"

Han Bingling saw Yun Lintian's expression and thought that Yun Lintian didn't seem to know there was a powerful existence protecting him for all this time. She replied. "It's nothing. I was about to send information to you, but it seems the person who is protecting you didn't allow me to do it." She took out

a jade slip and engraved the information related to the Fairy Forest into it before handing it to Yun Lintian.

"The person who is protecting me?" Yun Lintian felt weird. As far as he knew, there wasn't such a person. He glanced at his right hand and thought... Could it be this ring do something on her again earlier?

Han Bingling saw Yun Lintian glanced at his right hand. A thoughtful expression appeared on her face. With her powerful Spiritual Sense, she didn't notice anything on his hand at all. However, the golden light a while ago seemed to come out of his right hand. What kind of technique was this?

Yun Lintian used his profound energy to activate the jade slip and got the information he needed. Without a doubt, his goal was to visit this place after finishing everything in the Northern Continent. He estimated he would need at least two to three years before traveling to the Western Continent.

Without thinking further, Yun Lintian prepared to leave. "It's time for me to leave now. I thank Palace Master Han for giving me this information."

"Are you going to leave just like that? After taking advantage of me?" Han Bingling curled her lips. Her voice was incomparably seductive.

Yun Lintian felt as if his bones were melting just by hearing her voice. He took a deep breath to suppress the fire in his body and said. "There will be a period." Following that, he hurriedly fled away from the room. However, he suddenly remembered he was on the Profound Sky Ship right now. How could he go back since he couldn't fly?

Han Bingling laughed charmingly and appeared beside Yun Lintian. "Do you need this sister's help?"

Yun Lintian was embarrassed. He wanted to flee from her as soon as possible but ended up in this situation. He answered with a serious expression. "I'll have to trouble Palace Master Han."

Han Bingling used her slender finger to touch Yun Lintian's lips and said. "Don't call me Palace Master Han anymore. Call me Sister Bingling."

Yun Lintian was taken aback and hesitated... What kind of trick did she pull out again? We aren't that close, right? He felt the relationship between them was escalated too quickly.

#### Chapter 124 - Another Call For Help

Seeing Yun Lintian hesitated, Han Bingling pressured further. "What? You don't want to call it?" She moved his finger to Yun Lintian's chin and lifted it slightly. "Or do you want to call me Bingling my wife? Hehe, you greedy boy~."

Yun Lintian was speechless. Why did he feel as though he was the female lead and Han Bingling was the male lead in those domineering CEO novels? He pushed Han Bingling's hand away gently and said. "Well, I'll have to trouble Sister Bingling to send me back."

Han Bingling smiled charmingly. "That's more like it. Sister loves an obedient boy the most." Following that, she waved her hand and brought Yun Lintian into the air, descending to the ground.

When both of them landed on the ground, Yun Lintian immediately bid farewell and prepared to leave for fear he would really eat Han Bingling if he stayed with her longer.

Han Bingling grabbed his arm and said. "Why are you so anxious to leave this sister?"

Yun Lintian could not move an inch being grabbed by her. He could only turn around and said with a smile. "How could it be? I just have an urgent thing to do."

Han Bingling had an expression of 'I don't believe you.' as she snorted. "Hmph! Do you think this sister is a fool?" She then took Yun Lintian's hand and stuffed something into it. "This is my personal token. You can use it in any place in this Northern Continent."

Yun Lintian looked at a rounded exquisite blue jade with the word 'Moon' on it and then raised his head to look at Han Bingling. He didn't understand why would Han Bingling was so attached to him. He wasn't delusional enough to believe she was fancied his body... Perhaps she wants to know more about my secret? Yun Lintian thought it was possible. After all, he was the only one who could deal with the Abyssal Energy in Han Bingling's mind.

Yun Lintian smiled faintly. "Thank you, Sister Bingling." He paused, and his eyes turned sharp. "There is no something like a tracker in it, right?"

Han Bingling's expression froze for a second before bursting into laughter. "You are overthinking. I have many ways to track you. Do you think I would choose such an obvious method like this?"

Yun Lintian stared into Han Bingling's eyes for a while before accepting the token. He was certain Han Bingling did not lie to him, and it was true as she said; She had so many ways if she wanted to track him.

He nodded his head and said. "Then I will leave first."

This time, Han Bingling didn't stop him anymore and watched Yun Lintian gradually disappearing from her sight. A while later, after Yun Lintian completely vanished into the distance, the smile on Han Bingling's face gradually disappeared. It was replaced by a cold and indifference.

She spoke coldly. "Muxue, Muyue."

Instantaneously, two beautiful figures in purple moon robes appeared in the empty space beside Han Bingling. Both of them had a seductive figure, standing approximately 178 centimeters. Their long luster hairs cascaded down on their shoulders freely. Under the moonlight, they looked incredibly gorgeous. However, their facial features could not be seen as they were wearing a veil.

"Master." Both of them said in unison.

"Muyue, you will protect this man secretly. Don't peek into his secret. You have to give him private space. Report me if there's a major event." Han Bingling said calmly.

The woman on Han Bingling's right side, Han Muyue, responded. "Yes. Master." She didn't ask why Han Bingling want to protect this stranger. Her figure immediately disappeared from the spot afterward.

Han Bingling turned to another girl and said. "Muxue. I have an important task for you. You might lose your life in this task. Are you willing to accept it?"

The woman, Han Muxue, knelt on the ground and said solemnly. "Muxue's life belongs to Master."

Han Bingling helped her up and took the veil on Han Muxue's face off. She caressed Han Muxue's beautiful face for a while before saying. "I want you to monitor Yin Qiao and report to me everything she did. Remember, run as soon as possible if she discovered you."

Han Muxue staring at her master's face briefly before putting the veil back and disappeared from the place.

Han Bingling stared at the disappearing Han Muxue. A dangerous light flashed across her eyes as she said to herself. "Yin Qiao, you dare to plot against Xinyao? I will play with you to the end."

Following that, her figure had also vanished from the spot.

\*\*\*

Yun Lintian traveled through the forest for an hour and arrived nearby a small creek. He glanced at the night sky and decided to rest here tonight. Just as he was about to set up a formation, his intuition told him he was being watched by someone. His movement paused for a second before continuing to set up a formation.

Did Han Bingling send someone to follow me? Yun Lintian thought while busying placing the formation stones. He didn't understand why she would want to send someone to track him. Was it because she wanted to protect him? He wasn't sure about it. What he certain of it was she didn't have ill intent.

Yun Lintian knew from now on, he could not enter the Land of Beyond Heaven casually anymore. It made him depressed for a while. After all, he planned to study the Profound Sky Ship today.

Yun Lintian set up a fireplace and started cooking a midnight meal while pondering how to get rid of this person. He bet he wouldn't be able to escape because this person might be at least in the Saint Profound Realm.

"Help!"

While Yun Lintian was thinking, a shout for help suddenly resounded from the forest in front of him. Yun Lintian's movement became halted as he looked in the sound's direction... Again? What is it this time? Recently, he always encountered an event all the time. Was this the legendary protagonist's problem magnet?

#### Chapter 125 - The Use Of Abyssal Energy

It wasn't before long, a young woman clad in a black robe rushed out of the forest toward Yun Lintian. Her face was full of anxiety, and she kept glancing backward from time to time.

Yun Lintian saw this, his intuition told him something was not right, and he quickly opened his Eyes of Heaven. Instantaneously, the young woman in the distance appeared to be a giant black snake as its vicious eyes stared at him as though it wanted to eat him alive. Within its body, a dense Abyssal Energy was circulating throughout every corner of it. Without a doubt, this woman was a profound beast.

Yun Lintian's brows creased together. He didn't understand how could this profound beast transform into a human form. From the profound energy within its body, Yun Lintian discovered it was only the peak Essence Profound Beast. This must be some sort of illusion technique.

The black-robed woman ran toward Yun Lintian with all her might while shouting. "Big brother, help me!"

Behind her, there was a huge crimson bear followed her. From its look, it was furious to the extreme as it smashed everything on its path.

When the black-robed woman was about to reach Yun Lintian, her eyes suddenly turned hideous while her long tongue stuck out, preparing to attack Yun Lintian.

However, before she could do anything. A virtual silver dragon abruptly appeared out of nowhere and went straight at her.

Roar!

A mighty dragon roar reverberated throughout the entire forest as the virtual silver dragon hit on the black-robed woman's chest, sending her away like a broken kite.

"Ugh!" The black-robed woman spat out blood, and her lower body had completely changed into a black snake.

It stared at Yun Lintian in fear and hurriedly turned around, attempting to escape.

The crimson bear was startled by the dragon's roar earlier. When it came back to its senses, it also turned around and fled with all its might.

Seeing the black snake was about to escape, Yun Lintian executed Shadow Step to follow it and sent another Dragon Fist at it.

"You... damn... human!" The black snake uttered hoarsely while fending off Yun Lintian's dragon fist.

"How can you blame me since you came to me first?" Yun Lintian spoke nonchalantly and managed to punch at the black snake's head, inflicting a large wound on it. Yun Lintian didn't give it a chance to put up a defense. He immediately launched a series of punches and kicks until the black snake was lying on the ground powerlessly.

"S-spare me!" The black snake could feel its vitality was decreasing rapidly and didn't hesitate to beg for mercy. It didn't expect this first level of Essence Profound Realm's human could be this powerful.

Bang!

Yun Lintian stomped on the black snake's head and asked. "How can you transform into a human form?"

At first, Yun Lintian thought it was an illusion technique, but when he drew closer to the black snake, he found out it wasn't the case. This black snake could actually transform! How was this possible?

"Young hero, please spare me." The black snake cried out.

Yun Lintian exerted his strength further. "Answer my question!"

The black snake knew it could not pretend to be a fool further. It hesitated for a second before answering truthfully. "I... I use the Abyssal Energy to form my core."

Yun Lintian's brows raised. "Abyssal Energy? Forming the core?" *Laatest novels on (n)ovelbi/n(.)com*

He remembered when the Profound Beast reached the Origin Profound Realm, it could form the Profound Beast Core, and if the core was advanced further, it could completely transform into a human form. But using Abyssal Energy? This was the first time he heard about it.

The black snake quickly explained. "Similar to humans using profound energy. We, profound beast, can use Abyssal Energy to advance."

Normally, Profound Beasts would use profound energy and nutrition to practice. It was similar to a human's way of practice. The difference between them was that Profound Beast tends to focus on body and bloodline while humans mainly focus on essence and soul.

Yun Lintian recalled the Abyssal Energy Record and did not find this information on it. However, when he thought about it again, he found it was made sense since Abyssal Energy seemed to originate from the Profound Beast. It was just that there wasn't the Abyssal Energy in the Azure World before until four thousand years ago.

"Where did you find Abyssal Energy?" Yun Lintian asked.

The black snake didn't dare to lie, as it replied honestly. "I don't know where it comes from. When I woke up, it was already on my body. Later, I rely on eating other profound beasts to advance."

Just as Yun Lintian was digesting the information, the black snake's eyes turned sharp and quickly spat out Abyssal Energy smoke at Yun Lintian.

Although Yun Lintian was thinking, he didn't let his guard down in the slightest. He immediately crushed the black snake's head into pieces before backflipping, retreating from the spot to avoid the Abyssal Energy smoke.

Yun Lintian waved his hand, sending a bucket of Profound Spirit Liquid at the Abyssal Energy smoke before collecting them back.

He went to the black snake's remains and found a small black bead lying beside it. For his safety, Yun Lintian poured a small amount of Profound Spirit Liquid on it before picking it up.

Yun Lintian studied the black bead carefully and found it was contained a large amount of Abyssal Energy within it.

"There is such a profound beast core?" Yun Lintian spun the black bead on his hand while thinking. He seemed to discover the grand conspiracy of the Poison Valley. The reason they wanted to nurture the Abyssal Energy pond was to cultivate more profound beasts!

"But how did they awake the Abyssal Energy within these profound beasts in the first place?" Yun Lintian mumbled to himself. He felt this was the key to this whole conspiracy. What kind of existence could give every profound beast here Abyssal Energy at the same time?

#### Chapter 126 - Severe Situation

Since Yun Lintian couldn't figure it out for the time being, he decided to put this matter aside first and continued to cook the meal. He was annoyed because he couldn't enter the Land of Beyond Heaven to study the Profound Beast Core. It seemed he needed to find a way to get rid of this person.

Yun Lintian calmly finished his meal and closed his eyes, absorbing the surrounding profound energy. As he was being watched, Yun Lintian didn't dare to casually take out the High-grade Profound Stone. Hence, he could only practice normally.

He practiced for an hour and felt it was too slow. He could not go on like this and decided to face the person watching him for all this time.

Yun Lintian stood up and shouted loudly. "I know you are watching me for all this time. Can you come out and talk to me? I have something to tell you."

He waited for a while, and there was only a silence that accompanied him. He said further. "I know Palace Master Han sent you here. I have the information related to the Poison Valley to tell her. Please come out."

Could it be there is no one? That's not right. My intuition is always on point. Especially when someone is watching me. Yun Lintian thought.

Far distance in the sky, Han Muyue's beautiful eyes fixated on Yun Lintian's figure. She didn't know how Yun Lintian discovered her and hesitated whether to go out as it could be his trick. She took out the transmission jade and asked Han Bingling for advice.

A moment later, Han Bingling's voice came out from the other side. "Go ahead and talk to him."

Han Muyue put the transmission jade away and immediately appeared in front of Yun Lintian without saying anything.

Yun Lintian was taken aback for a second by the sudden appearance of Han Muyue. He observed her for a while and said. "Can I talk with your master?"

Han Muyue immediately handed the transmission jade to him.

Yun Lintian received the transmission jade and contacted Han Bingling. Instead of telling her the information, he asked coldly. "Why did you send someone to follow me?"

"Don't be angry, okay? Sister just wants to protect you." Han Bingling's voice rang out from the other side.

"I think I've made it clear to you before. I don't need your protection. You should call your people back." Yun Lintian said with a trace of anger.

Han Bingling was silent for a while before replying. "Alright, this sister understands. I'll call her back, okay?... I heard you have new information? Why don't you tell your sister about it?"

In fact, Yun Lintian wasn't angry in the slightest. He was just put an act in order to chase Han Bingling's people away. Seeing it was working, he said. "I think I've found the Poison Valley's grand conspiracy.

"Oh? Tell sister quickly." Han Bingling's interest was piqued instantly. She trusted Yun Lintian's information since he could deal with Abyssal Energy.

"Earlier, I encountered the Profound Beast in a human form." Yun Lintian said.

"What? Did you encounter the Saint Profound Beast? Are you hurt?" Han Bingling's voice was full of worry.

Yun Lintian felt weird. Did she really care about him? From her voice, Yun Lintian was certain her worry was genuine. He answered. "No, you're wrong. This Profound Beast is not the Saint Profound Beast but the peak Essence Profound Beast."

"Huh? How is that possible?" Han Bingling was puzzled.

"Well, if I haven't seen it with my own eyes, I won't believe it too." Yun Lintian didn't delay further. "This Profound Beast has already formed its core despite it was the Essence Profound Realm. I've interrogated it and found it used Abyssal Energy... Oh right, the Abyssal Poison that you know is actually called Abyssal Energy."

"Abyssal Energy?" This was the first time Han Bingling heard this name.

"The profound beasts are using this Abyssal Energy to practice. You can think of it as profound energy, but it is exclusively for the profound beast. I don't think any human could use it." Yun Lintian explained. Suddenly, he thought of Lin Xinyao... That girl... Strange. Her body can contain Abyssal Energy. Is it because of the Divine Moon Profound Vein, as I was speculated, or does she have the Profound Beast's bloodline? But my Eyes of Heaven didn't see any bloodline within her body.

Han Bingling's brain worked quickly and immediately came to a conclusion. "You mean, the Poison Valley's real goal is to cultivate more powerful profound beasts in one go?"

Yun Lintian responded. "Yes. Imagine, what would happen if there are countless profound beasts in a human form mixing in the society everywhere? Well... Perhaps they are everywhere now."

Ordinary profound practitioners could not detect the Profound Beast in a human form easily. Unless they had the Eyes of Heaven like Yun Lintian.

Far away on the Moon Shifting Profound Sky Ship, Han Bingling's expression turned solemn. She understood how severe the situation was. If these profound beasts suddenly attacked at the same time throughout the entire Northern Continent, even ten Frozen Moon Palaces won't be enough to deal with them.

"I suggest that you prepare for the worst early. Especially your Frozen Moon Palace. If they want to occupy this Northern Continent, they could just stall your Frozen Moon Palace as long as possible while letting these profound beasts run rampage at the same time." Yun Lintian expressed his thought.

The Frozen Moon Palace was the strongest existence in the Northern Continent, but no matter how powerful they were, they could not help everyone in the Northern Continent at the same time. If Yun Lintian was the Poison Valley's leader, he would just keep the Frozen Moon Palace busy and let his subordinates run amok freely.

Seeing Han Bingling hadn't replied, Yun Lintian gave another suggestion. "The first thing you should do right now is to get rid of the mole within the Frozen Moon Palace as soon as possible. However, you have to make it clean and neat before they could alert the Poison Valley. At the same time, you need to mobilize your trusted people to protect important places, such as the Grand Transmission Formation. Also, since you and the Divine Thunder Palace Master are good friends, you should ask her for help."

#### Chapter 127 - Poison Valley's Origin (1)

Han Bingling went silent for a long time before answering. "Thank you for telling me this. You are the savior of the Northern Continent."

Yun Lintian replied nonchalantly. "Don't put a high hat on me. I'm not a savior or anything. Don't forget that this is just my speculation. You have to investigate further."

"No matter what, I have to thank you on behalf of the Northern Continent's citizens." Han Bingling said. "You can keep this transmission jade. I hope you can provide me with the information in the future. Of course, if you need anything, you can tell me directly."

Yun Lintian thought for a while and accepted her proposal. In any case, he might need her help in the future. "Alright. I'll keep this. Now you can call your people back. I need to rest."

Han Bingling's voice turned pitiful. "You meanie~ You want to chase this sister away that much?" Before Yun Lintian could complain, Han Bingling said further. "You hand the transmission jade to her."

Yun Lintian immediately handed the transmission jade to Han Muyue. A while later, Han Muyue gave it back to him and vanished from the spot.

Yun Lintian carefully checked for a while and confirmed Han Muyue was already gone. He went to a small hill nearby and used his iron sword to open a cave before going in after setting up the concealment formation. Following that, he opened the Gate of Beyond Heaven and entered.

Currently, the Land of Beyond Heaven was lively. Several children were running around Misty Lake while several women were harvesting crops on the fields.

At the center of the lake, the seven pagodas were about to complete. More than twenty floors were completed, while the bridges that linked them together hexagonally were entirely constructed. Along the white marble bridges, several small pavilions could be served as the resting spot for everyone. Watching the mountain and lake while enjoying a cup of tea. Just thinking of this, Yun Lintian couldn't wait for the entire construction to finish.

In the future, Yun Lintian would promote some hobbies such as chess, music, cooking, and painting within the sect, and there might be a contest to liven up the atmosphere.

Yun Lintian took a breath of fresh air and walked toward the villa.

"Headmaster!" Several disciples who were practicing nearby the Misty Lake immediately greeted Yun Lintian upon seeing him coming.

Yun Lintian gave the nod in reply and halted his step when he discovered most of them were already at the sixth level of Essence Profound Realm. This speed could be described as monstrous. Even the direct disciple of the nine palaces wouldn't be this fast.

"Where is Dean Yun Qingrou?" Yun Lintian thought he should call Yun Qingrou to study the Profound Beast Core with him.

One of the disciples replied. "Report Headmaster, Dean Yun is currently in the Medicine Garden."

"Thank you." Yun Lintian responded and headed to the Medicine Garden that he hadn't seen before.

Five minutes later, Yun Lintian arrived at the medium-size garden a hundred meters away from the villa. There wasn't a fence or a proper entrance around the garden. When Yun Lintian walked in, he immediately saw various spiritual herbs arranged neatly and divided by ranking.

In the distance away, he saw Yun Qingrou was busy planting more herbs and went to greet her. "Qingrou."

Yun Qingrou raised her head and saw Yun Lintian approached her. She smiled and replied. "You're back?"

Yun Lintian looked around the Medicine Garden and said. "You've worked hard."

Yun Qingrou responded. "This is nothing... What brings you here?"

Yun Lintian took the black Profound Beast Core out and handed it to her. "I need you to help me study this. Be careful. There is Abyssal Energy within it."

Yun Qingrou wiped dirt out of her hand before receiving the Profound Beast Core. She looked carefully for a while and said. "What kind of Profound Beat Core is this?... Did you encounter the Origin Profound Beast?"

Yun Lintian shook his head. "No. I got this Profound Beast Core from the peak Essence Profound Beast.

"How could it be possible? The Essence Profound Beast that could form the core? I never heard of it before." Yun Qingrou was confused.

Yun Lintian started narrating the outside world's situation and his encounter with Han Bingling.

After listening to this, Yun Qingrou immediately understood how severe the situation was. She said. "This is not something we can handle alone. Let's call everyone."

Yun Lintian nodded and went to the villa. At first, he didn't want to disturb everyone's practice, but it seemed unavoidable.

Yun Lintian and Yun Qingrou did not wait for too long before Yun Qianxue, and the rest arrived in the living room.

"You're back." Yun Qianxue quickly sat beside Yun Lintian and looked up and down, trying to see if there was any injury on his body.

Yun Lintian patted her hand, giving her reassurance. "Nothing happened to me."

Yun Qianxue finally put her worry down and asked. "What's the important news you want to tell us?"

"The situation outside is not optimistic now. The Poison Valley is going to emerge full scale soon." Yun Lintian said.

Yun Ruanyu poured a cup of tea for everyone while listening to him. She said. "Poison Valley again?"

Yun Lintian nodded his head and suddenly remembered he never told them about the true origin of the Poison Valley. It was because so many things happened after leaving the Blazing Sun Mythical Realm, and he had completely forgotten to tell them.

"All of you might not know the true origin of the Poison Valley. I'll tell you first." Yun Lintian moistened his throat with the tea and said. "The Poison Valley had originated around four thousand years ago. It

was started with the sudden emergence of the profound beasts that were black as ink. They were wreaked havoc not just on the Northern Continent but the entire Azure World. At that time, all the nine palaces had united together to deal with them. When these profound beasts found they could not fight the nine palaces, some of the higher-level profound beasts had fled away and hide from the world."

#### Chapter 128 - Poison Vallet's Origin (2)

"As everyone knows, the Saint Profound Beast could transform itself into a human form. These profound beasts that fled away had silently copulated with humans and gave birth to half-beast half-human. Later, they had created the Poison Valley that we know about." Yun Lintian narrated.

Everyone digested the information and was shocked by the Poison Valley's history. They didn't even know there was such an event back then.

Yun Qianxue, who was familiar with the Misty Cloud Sect's history record the most, frowned deeply and suddenly asked. "Is this event related to the missing part of our sect's history?"

Yun Lintian nodded. "That's right." He paused for a moment and changed his tone. "I think everyone is aware that the Misty Cloud Sect in the past is not simply a sect, but one of the nine palaces, Misty Cloud Palace. However, since the departure of the founder, the Misty Cloud Palace has reduced into today's Misty Cloud Sect. It all actually started with this profound beast incident."

"When I was in the Blazing Sun Mythical Realm, Senior Yan told me about this. He said he also didn't know what happened to our sect, but he knew someone had deliberately erased the history back then. Nowadays, there are only some people from the nine palaces who know about this."

"Erased the history? What kind of existence is that?" Yun Lingwei was shocked, completely forgot to eat her pastry.

Yun Lintian shook his head. He, too, wanted to know about it. "I've read our sect's history record several times, but I found nothing. But I think our founder has something to do with it. From Senior Yan's words, he said she was extremely powerful. Could be ranked as top two in this world at that time. If we are thinking according to this logic, only two people could possibly do this. One is our founder, another is the Azure Palace Master back then."

Yun Ruanyu expressed her thoughts. "It sounds makes sense, but we can't rule out the possibility of the other factors. We don't know if there's another powerful existence that surpasses our founder and the

Azure Palace Master. Also, why would the Azure Palace hide the truth about the Poison Valley instead of telling the world? They could easily make everyone aware of the Poison Valley and borrow everyone to find its hideout. This doesn't make sense to me. It is as though they aren't serious about getting rid of the Poison Valley."

"Sister Ruanyu is correct. According to Yun Lintian's words earlier, Azure Palace was the leader back then. Logically, they are, at least, should be the one who wants to get rid of the Poison Valley. Couple with the fact someone has erased the history, I am afraid the Azure Palace is trying to hide something from the world. For example, they know the origin of these profound beasts but choose to hide it." Yun Qingrou added.

"What's the benefit of hiding this?" Yun Lingwei asked naively. She simply could not think of any benefit by keeping this secret from the world.

"It's hard to point out, but what would happen if they know how to use this." Yun Qingrou said and placed the black Profound Beast Core on the table.

"What is this?" Yun Huanxin asked and was about to reach out to touch it, but Yun Lintian interrupted her first.

"Be careful. There is Abyssal Energy within it. If it seeped into our body, we would die in no time." Yun Lintian warned.

Yun Qianxue quickly asked the same question as Yun Qingrou's. "Did you encounter the Origin Profound Beast?" Her face was full of worry. It seemed she needed to go out with Yun Lintian next time.

Yun Lintian was helpless. He explained. "I got this from the Essence Profound Beast. It can transform into a human form too."

Everyone except Yun Qingrou looked at Yun Lintian in disbelief. They never encountered such a thing before.

"Do you know the cause?" Yun Ruanyu asked.

Yun Lintian explained. "The Abyssal Energy is similar to the profound energy except that it is useful for profound beasts. They could use this energy to practice, and it is faster than using profound energy. Taking this Essence Profound Beast I've encountered, for an example. It can actually form the core while it was only at the peak Essence Profound Beast. Then, what about the high-level one? As we know, they are stronger in terms of the body, and now they have this Abyssal Energy. Perhaps one Monarch Profound Beast can deal with five average Monarch Profound practitioners with no problem, and who knows how many of them out there right now."

Listening to this, everyone had a chill running down their spines. They couldn't imagine what would happen if these Monarch Profound Beasts were attacked together at the same time. One had to know that there weren't many Monarch Profound practitioners in the Northern Continent.

"We are, of course, can hide in this place, but we can't hide forever. So Qingrou and I will study this Abyssal Profound Beast Core and see if we can find its weakness. Also, all of you should go to the Library and find the profound art that could make us see the energy flow. I don't know if there's such a profound art, but try to find it." Yun Lintian said solemnly.

"Master. I have already sorted the profound arts you want. Please take a look." At this moment, Lynn's voice suddenly resounded, and a few profound arts appeared on the TV before everyone.

"Thank you, Lynn." Yun Lintian said. Having such a clever A.I. was truly convenient.

"I'll study it first." Yun Ruanyu stood up and went to the Library while Yun Lingwei and Yun Huanxin were also followed.

Yun Lintian turned to Yun Meilan and asked. "How's the progress of the Cloud Shadow team?"

Yun Meilan, who was silent for all this time, answered. "Everyone in the group is attempting to break through into the Spirit Profound Realm right now. However, I don't know what happens. We cannot breakthrough."

At this moment, Yun Qianxue added. "It's not just them. We are, too"

Chapter 129 - Shocking Discovery

Yun Lintian frowned upon hearing this. He didn't track their progress during this period and was oblivious to this. He asked. "What happened?"

Yun Qingrou was the one who explained. "The profound arts that we are practicing need a lot of soul power to form the spirit. For example, the Goddess of the Nine Heavens has to form nine spirits. The resource we have are not enough to help them from the spirit."

Yun Lintian immediately understood the problem. In short, everyone required a lot of resources to aid in forming the spirit. To his knowledge, there weren't many treasures that could increase the practitioner's soul power, and all of them were extremely rare.

He rubbed his temples and leaned on the sofa. Everything recently was not smooth for him. When he was about to focus on one matter, another would jump up, and he could not leave it to others, for example, this Abyssal Profound Beast Core. He was the only one who had the Eyes of Heaven.

Yun Qianxue grabbed Yun Lintian's arm and said. "Just leave it to us. You don't have to do everything by yourself."

Yun Lintian shook his head. "I'm not trying to do everything by myself, but I don't have a choice. First of all, we are too weak. It is too risky to bring all of you out. As for me, I can escape at any time. Secondly, I am the only one who can deal with Abyssal Energy at this moment. We have to wait until all of you are mastering the new profound art first. Lastly, all of you cannot come and go to this place as you wish. Hence, all of you have been forced to stay with me whenever we are going out."

Yun Qianxue and Yun Qingrou glanced at each other and saw the helplessness in each other's eyes. They felt distressed at being useless.

Yun Lintian organized his thoughts and said. "Qingrou, you go and list all the materials that help increase our soul power for me. Leave this Profound Beast Core's matter to me. Qianxue, wait for Ruanyu to choose the profound art and you go gather everyone afterward. I'll impart the profound art to them. Meilan, since we can't make a breakthrough, we can just practice other profound arts during this period. For example, let them practice music sorcery, painting, chess, and cooking. In the future, these skills will come in handy when we try to set up an intelligence network."

Yun Qingrou and Yun Meilan immediately left the living room after accepting the tasks, leaving Yun Qianxue and Yun Lintian behind.

"Are you hungry? Recently, I've studied new dishes. Do you want to try it?" Yun Qianxue said softly. Her eyes were full of tenderness. When Yun Lintian wasn't here, she would grow worried all the time. Seeing he was safe and sound, she could put her worry at ease.

Yun Lintian didn't reject her kindness and let her went to the kitchen. While waiting for the meal, he grabbed the Abyssal Profound Beast Core and activated his Eyes of Heaven to observe the inside.

Currently, the Abyssal Energy within the Profound Beast Core was swirling clockwise. Yun Lintian was staring at it for a while. When he was about to retract his gaze, the Abyssal Energy within it suddenly stopped moving and blended together into a small bead before exploding to all directions as though it was trying to break free.

"What the hell?" Yun Lintian furrowed his brows. This was the first time he saw Abyssal Energy moving as if it was alive.

An idea flashed across his mind as he poured the Profound Spirit Liquid into the empty teacup before him and soaked the Profound Beast Core in it.

The result was as he expected, the Abyssal Energy within the Profound Beast Core was shrinking to the middle, did not dare to reach the side.

"It can detect the threat... Maybe this is a high-level Abyssal Energy?" Yun Lintian muttered to himself. Similar to the Profound Spirit Liquid, Abyssal Energy seemed to have grades, too.

Yun Lintian picked the Profound Beast Core up again. This time, he poured his profound energy into it. Upon it detected profound energy, Abyssal Energy immediately swarmed toward the incoming profound energy like a hungry wolf. Instantaneously, Yun Lintian's profound energy was wholly devoured by the Abyssal Energy within the Profound Beast Core, and this Abyssal Energy seemed to expand a bit.

"I understand now. No wonder that black snake can improve very fast. It turns out this Profound Beast Core can absorb weak profound energy and turning it into its own power." Yun Lintian seemed to understand the secret behind the incredible improvement speed of the black snake.

"This is simply cheating!" Yun Lintian was exclaimed when he realized the truth.

Usually, the practitioners could eat Profound Beast to improve their physiques and their profound strength. The Profound Beast was also the same. It could eat practitioner to nourish and improve its body. However, with this Abyssal Energy, not only the Profound Beast could absorb profound energy from the practitioner faster than before, but it also prevents the practitioner from eating it.

What does it mean? It meant sooner or later, human practitioners could not eat profound beast to nourish their bodies anymore. Unless they could get rid of the remaining Abyssal Energy within the Profound Beasts after killing them.

Of course, Yun Lintian had no problem as he had the best-grade Profound Spiritual Liquid with him. However, he wasn't sure if it could deal with the highest-grade Abyssal Energy. He could only hope it could still be effective against it.

After discovering this fact, Yun Lintian's expression turned heavy. Without a doubt, the Profound Beast would continue to rise while the human practitioner would constantly decline if the situation continued like this.

Yun Lintian wanted to give up and stayed in the Land of Beyond Heaven until reaching the peak Monarch Profound Realm, but he couldn't do it because he still needed to find resources.

He leaned his head on the sofa and closed his eyes, lamenting. "Life is so hard even with the plot armor."

Chapter 130 - Divine Thunder Palace Master

"What are you mumbling about?" Yun Qianxue said while placing several dishes on the dining table. She saw Yun Lintian leaned weakly against the sofa as if he just discovered shocking news.

Yun Lintian was indeed discovered shocking news. He opened his eyes and replied. "I've discovered something big. It could change the entire world upside down."

Yun Qianxue's expression turned serious as she asked. "What is it?"

Yun Lintian moved to the dining table, sitting down before explaining the entire matter he discovered earlier to her.

After listening to Yun Lintian's conjecture, Yun Qianxue immediately understood how severe the situation was. "This matter is out of our hands. We cannot deal with it by ourselves alone. Not to mention the Profound Spirit Liquid is our top-secret. We can't simply take it out to help everyone."

Yun Lintian nodded his head, agreeing with her. "I'll contact the Frozen Moon Palace Master later."

"Frozen Moon Palace Master? How did you know her?" Yun Qianxue frowned. "Is there something you haven't told me?"

Yun Lintian was taken aback and thought he was indeed hadn't told her about this. Only Yun Qingrou knew it. He then narrated the encounter between him and Han Bingling, including Lin Xinyao's incident.

The more Yun Qianxue listened to, the deeper frown on her face became. She didn't understand why would Han Bingling was so friendly to Yun Lintian. Even though he had saved her disciple's life, she didn't have to go further, deepening the relationship between her and Yun Lintian at all.

Yun Qianxue felt this Han Bingling might try to take advantage of Yun Lintian, or perhaps she was jealous and had a prejudice toward Han Bingling. She said solemnly. "You should contact her less in the future. I don't think her intention is not simple as it appears to be. You are too young to understand these old hags' minds."

Yun Lintian's mouth twitched slightly. He could perceive a trace of jealousy in Yun Qianxue's voice. She even called Han Bingling an old hag.

As a man who knew when to advance and when to retreat, Yun Lintian wouldn't tell her what he did to Han Bingling. He nodded his head, accepting Yun Qianxue's suggestion. "Don't worry. I won't contact her if there is no important matter like this."

Yun Qianxue snorted slightly and started eating the meal.

Yun Lintian smiled wryly and began to eat, too.

The meal went by quickly. As their appetite grew bigger, both of them cleaned every plate on the table without a single piece of rice left.

Yun Lintian knew he should coax Yun Qianxue a bit. He thumbed up and gave her a compliment. "Your culinary skill has improved again. These dishes are delicious. It won't be long before you surpass Lingwei."

His compliment was still worked, Yun Qianxue smiled brightly and said. "If you want to eat it, you should come back often in the future. I have read many Earth cuisine books recently."

"I will." Yun Lintian responded and helping Yun Qianxue cleaning all the dishes before sitting leisurely in the living room, waiting for Yun Qingrou to return.

Yun Lintian intended to rest for a while before going out and contact Han Bingling.

\*\*\*

On the Moon Shifting Profound Sky Ship. In the living room, Han Bingling sat on the long, comfortable bench with her long legs stretched out, revealing her white-snow skin. In her hand was a palm-sized blue orb that had no distinctive feature. When she injected her profound energy into it, the orb instantly glowed in blue light and shot into the empty space above it before slowly turning into a light curtain.

A moment later, a handsome man appeared on the light curtain. His facial features could be described as heroic handsome. Whether it was his sharp eyebrows or his prominent jawline, everything looked strong. His long hair was neatly tied up, revealing a lightning symbol on his forehead. This man was no other than the current Divine Thunder Palace Master, Lei Zhenxiang.

Yun Lintian would be shocked if he saw this scene. This Azure World actually had a face time technology!

Upon seeing Han Bingling, Lei Zhenxiang smiled warmly. "Is it going to rain today? Bingling took the initiative to contact me."

In contrast, Han Bingling replied harshly. "Cut the crap. I have something important to tell you."

Lei Zhenxiang was already used to her bad attitude toward him and wasn't angry. He asked. "What's the matter? Shouldn't you be busy preparing for the upcoming Frozen Moon Mythical Realm?"

Han Bingling ignored his question and went straight to the point. "I've discovered the conspiracy of the Poison Valley. I hope you can provide me some help."

Lei Zhenxiang's brows raised slightly. He was familiar with Han Bingling. She would not easily ask for help like this. It seemed this matter wasn't simple. His expression turned serious as he said. "Explain about it."

Han Bingling explained. "Today, I've encountered a talented young man, and he is the one who discovered this. As you are aware of the profound beast tide on my Northern Continent lately. Actually, it is just a facade from Poison Valley to conceal their grand conspiracy."

"Wait a minute, you said it is a young man you've encountered today discovering the conspiracy? Are you sure he's reliable?" Lei Zhenxiang interrupted.

Han Bingling said coldly. "Are you doubting my judgment?"

Lei Zhenxiang shook his head. "You know that I didn't mean it. Can you tell me how did he convince you?"

Han Bingling thought for a moment and replied. "I won't tell you in detail, but one thing that I can tell you is that he could get rid of Abyssal Poison." She paused briefly and added. "He saved Xinyao. She is no longer suffer."

Lei Zhenxiang's expression changed slightly. "He saved Xinyao? How is it possible? As far as I know, even Senior Du can't do it."

If Yun Lintian heard this, he would immediately understand that Lin Xinyao actually had Abyssal Energy with her for a long time before encountering him.
