

Myth Beyond 131

Chapter 131 - Discussion

Han Bingling didn't expose Yun Lintian's secret. She said. "He's the most talented doctor I've ever met. I think even Senior Du might be inferior to him."

Lei Zhenxiang was surprised by Han Bingling's judgment. One had to know that Senior Du, Du Xiaotian, was the most prominent doctor in Azure World. He was the current Myriad Pill Palace Master. And he also knew Han Bingling didn't dare to say this if she wasn't confident. This made his curiosity about Yun Lintian grow further.

"Where is this young man now? I want to see him." Lei Zhenxiang asked curiously.

Han Bingling replied. "He wasn't here. Let's go back to the topic first." Seeing Lei Zhenxiang nodded his head. She continued. "Have you discovered something on your side? Such as a human form profound beast."

Lei Zhenxiang frowned slightly. "There's no such a report recently. Why?"

"What if I said I've seen the Essence Profound Beast that could form the core and even transform into a human form? Would you believe me?" Han Bingling asked.

Lei Zhenxiang furrowed his brows. "There's such a thing?" His brain worked quickly, and he said. "Are you going to tell me that right now, there are many of these profound beasts in a human form mixing with us?"

Han Bingling smiled faintly. "Smart. That's right. This is probably the true goal of the Poison Valley."

Lei Zhenxiang went silent for a while before saying. "I'll immediately dispatch my people to your side right now." He suddenly thought of something and added. "It happens that Jun'er wants to go to the Thunder Valley. I'll have to trouble you looking after him a bit."

Han Bingling curled her lips. "It seems you are really caring about this nephew of yours."

Lei Zhenxiang shrugged his shoulders. "It can't be helped. As you know, he is the only son of my sister. I hope he won't become arrogant like those youngsters nowadays."

"Che! Talking like an old man." Han Bingling ridiculed him.

Lei Zhenxiang smiled handsomely. "I am indeed an old man. Won't you consider having a partner? After all, you're not young anymore."

Han Bingling's face turned cold. "F*ck off!"

Lei Zhenxiang chuckled. "How about Xinyao? Don't you think Jun'er and her are suitable?"

The cold expression on Han Bingling's face became colder when she heard this. "Watch your mouth."

Lei Zhenxiang knew this time Han Bingling was truly angry. He smiled wryly and apologized. "Sorry. I shouldn't have said that." He was aware of Lin Xinyao's true identity, but he just wants to try his luck.

Seeing the atmosphere was not good, Lei Zhenxiang changed the topic. "Right. Do you know the cause behind the profound beast's rapid progress?"

Han Bingling gave a light hum. "The Abyssal Poison... Oh right, the real name of it is Abyssal Energy. It's similar to the profound energy that we are absorbing. However, this Abyssal Energy is more potent, and it is tailor-made for a profound beast."

Lei Zhenxiang noted the information and immediately sent a signal to his subordinates to follow this matter up. He turned to Han Bingling and said. "My people will arrive there in the next hour. You can make an arrangement for them with no worry. They will listen to your order."

"Are you sure they can be trusted?" Han Bingling asked.

Lei Zhenxiang patted his chest. "I've sent Thunder Guards this time. You can trust them."

Han Bingling was surprised slightly. The Thunder Guards were the secret unit serving Lei Zhenxiang only. It could be said this group of people was Lei Zhenxiang's most trusted aides. She smiled charmingly. "So generous? What if they encounter a mishap here? You won't blame me, right?"

Lei Zhenxiang chuckled. "Counting our relationships, do you think I will blame you?" His expression turned serious as he continued. "If they died over there, it means they are incompetent. You don't have to take responsibility for this. You can order them at ease."

Han Bingling curled her lips. "I have to thank Palace Master Lei for giving me such a generous gift."

Lei Zhenxiang looked at Han Bingling's charming face and burst into laughter.

Yun Lintian opened his eyes drowsily and found himself lying on the bed in his own bedroom. He didn't know when did he fall asleep. The last scene he remembered was he was watching a movie in the living room after the meal.

He pulled himself up and leaned against the head of the bed. "It seems my body needs to rest." He muttered.

As long as profound practitioners were still under the Origin Profound Realm, they would need to sleep like ordinary people. It was just that they could go on without sleeping longer than a mortal.

During these past months, Yun Lintian was engaged in several matters and hadn't had a proper sleep for a long time.

He rubbed his temples slightly and prepared to get off the bed. However, when he was about to move, the door was opened along with Yun Qianxue's figure appeared in the room.

"Awake?" Yun Qianxue said softly and came to the bedside. "You should rest here for a few days before going out."

Yun Lintian smiled and replied. "It's fine. I've rested enough now. We can't delay an important matter... Right, I've found a clue about the Tree of Life. It should be on the Western Continent."

Yun Qianxue was touched, knowing Yun Lintian worked hard to find the Tree of Life for her. She grabbed his hand and said gently. "Thank you."

Yun Lintian patted her hand and said nothing. The meaning in his eyes was clear that this was nothing.

"Lintian, I've listed everything... ah?" Yun Qingrou suddenly appeared at the door and was startled for a second by the scene. She smiled knowingly and said. "My bad. I've come at the wrong time. Both of you can continue."

After that, Yun Qingrou immediately left, leaving Yun Lintian and Yun Qianxue to look at each other and did not know what to say.

Chapter 132 - Next Destination

After a while, Yun Lintian appeared in the living room and retrieved the item list that Yun Qingrou prepared for him.

"Nine Soul Flower, Twin Souls Lotus, Thunder Grass... Thunder Grass? The Thunder Valley should have it, right?" Yun Lintian talked to himself while reading the list. It was coincident he planned to go to the Thunder Valley next. He didn't know whether there was the Thunder Grass there but didn't know where else that had such a condition for the Thunder Grass to grow.

"Just a stalk of them will do. We can grow them here. However, we don't have the lightning element here. I don't think we can grow the Thunder Grass, but others are not a problem." Yun Qingrou said on the side.

Yun Lintian nodded his head and asked. "Where are others? Have they finished choosing the profound arts?"

Yun Qingrou answered. "Yes. You should go to the Library to check them out."

Yun Lintian said nothing further and headed to the Library after storing the list away. When he arrived at the Library, he saw Yun Ruanyu packed a stack of books on the counter and was prepared to leave.

"You are here." Yun Ruanyu greeted and handed the stack of books to Yun Lintian. "Here are the profound arts that suit everyone. You can recheck it."

"All of them?" Yun Lintian was taken aback. He thought Yun Ruanyu would choose one or two profound arts, but it didn't seem to be the case.

"In fact, there is more, but I heard you're in a hurry to go out. So I only picked the important ones up. You should know that you are the only one who can teach them. When you aren't here, they could only practice the one they have. Since you are back now, you should impart these profound arts to everyone before leaving." Yun Ruanyu explained.

Yun Lintian patted his forehead. He had completely forgotten about this. It was indeed true, as Yun Ruanyu said. Currently, everyone in the sect was practicing two or three profound arts at most. The variety of the profound arts among them was too low, and Yun Lintian had no time to impart a new profound art to them during these past months.

He made a decision and said. "You should practice the Enlightening Guide Technique. In the future, you will be responsible for this."

Yun Ruanyu accepted the task readily. "Alright. I'll study it now." She suddenly thought of something and asked. "Right, what do you get from the Profound Beast Core."

Yun Lintian explained briefly. "I think the Abyssal Energy has a grade like the profound energy. In this case, the Abyssal Energy in the Profound Beast Core is likely to be a high-level one, as it seems to be alive. It could detect the threat and move away from it. For now, the Profound Spirit Liquid we have could deal with it. However, I don't know if it's still working when facing the higher-level one."

Yun Ruanyu digested the information shortly and said. "Have you studied how it works?"

Yun Lintian nodded. "It could devour profound energy to strengthen itself. I think there's no way for human practitioners to outpace the profound beasts with Abyssal Energy in practice."

"And we cannot eat them, but they can eat us." Yun Ruanyu added her thoughts.

"Exactly." Yun Lintian agreed with her. He also had this conclusion. "Sooner or later, they will outnumber us. At that time, even we want to fight back, we will have no chance at all."

"This matter is really out of our hands. Do you have any idea?" Yun Ruanyu's expression turned heavy. The Misty Cloud Sect was definitely safe, but what was the point of staying here for the rest of their life?

"I am going to contact the Frozen Moon Palace Master. I happen to know her." Yun Lintian then narrated the encounter between him and Han Bingling to Yun Ruanyu.

Yun Ruanyu immediately frowned upon listening to him. She said. "Why would such a powerful figure value you this much? I mean, it's too overly, even though you did her a favor. However, for now, there's no ulterior motive behind it. She's being cautious because your 'master' is still unknown to her."

Then, Yun Ruanyu glanced at Yun Lintian's right hand curiously. "What kind of the power within that ring?"

Yun Lintian shrugged his shoulders. "I don't know about it too." He also didn't know how many times he could activate this power.

"Alright. We should get busy." Yun Ruanyu didn't linger further and went to study the Enlightening Guide Technique while Yun Lintian memorized the content of the books before him.

Six hours later, Yun Lintian had memorized every book and notified Yun Qianxue to gather all the disciples, including Cang Xiao's group.

A while later, Yun Lintian stood in front of a thousand people and used the Enlightening Guide Technique to impart the profound arts.

"I know all of you cannot break through the Spirit Profound Realm at the moment. You should stop thinking about it first and practice all of these profound arts. I'll solve the problem later." Yun Lintian wiped the sweats out of his forehead and said.

This was the first time he used the technique on this many people at the same time. It drained his mental power significantly, similar to his transformation ability.

"Yes. Headmaster!" Everyone shouted in unison and immediately dispersed upon getting Yun Lintian's signal.

"Are you leaving now?" Yun Qianxue took a handkerchief to help Yun Lintian wipe the sweats.

Yun Lintian replied. "Yes. I need to go now." Seeing her worried expression, Yun Lintian gave her a reassuring smile. "Don't worry. I'll be careful."

Yun Qianxue nodded her head gently and stepped back, watching Yun Lintian entered the Gate of Beyond Heaven until he vanished from the place.

"Still worry?" Yun Meilan asked. "You should learn to trust and believe in him. Otherwise, you would never be at ease."

Yun Qianxue said nothing and continued to stare at the spot that Yun Lintian disappeared for a while before her eyes slowly turned determined in the next moment.

Chapter 133 - History Was About To Repeat

Yun Lintian appeared in the cave he made yesterday. After carefully checking there was no one to discover this place, he took the transmission jade out and contacted Han Bingling.

"Hello. I have new information to tell you." Yun Lintian said and felt awkward for a second because he just said hello as though he used a phone.

On the other side, Han Bingling was arranging people to receive Lei Zhenxiang's Thunder Guards. When she saw her personal transmission jade lit up, a smile immediately bloomed on her lips as she replied. "Did you miss this sister already?"

Yun Lintian ignored her and went straight to the point. "I have found out the Abyssal Energy within the Profound Beast Core could devour the profound energy to strengthen itself. In short, the Profound Beast that using Abyssal Energy to practice would progress at extremely high speed as long as it continues to devour profound energy. You should check out whether someone is trying to accumulate a large amount of the Profound Stones recently. Checking on the abnormally missing person case too."

Han Bingling's expression turned solemn instantly. She took a deep breath and said. "I understand now. Thank you for telling me this... I know this is related to your secret, but can you provide the solution against Abyssal Energy?"

Yun Lintian was weighing the pros and cons for a while before replying. "I can tell you, but it's not free."

Han Bingling chuckled slightly. "How come you suddenly charge this sister?" She leaned on the chair comfortably while placing her right leg on top of her left leg and said. "But this sister doesn't have any treasure with me now. Can I use other things instead? Such as.... My body." Her voice was incomparably seductive that could melt any man's bones.

Facing her tease, Yun Lintian was unfazed. "I need Nine Souls Flower or Twin Souls Lotus. Just a handful of them... Right, the Thunder Grass will do too."

Han Bingling clicked her tongue in dissatisfaction. This little boy was not fun at all. She said. "Are you preparing for a breakthrough? That's quite fast." She motioned her chin at Han Muyue on the side and continued. "No problem. I'll have Muyue prepared for you. Where do you want to meet?"

Yun Lintian looked to the outside of the cave and replied. "I haven't moved anywhere yet. You can ask the woman that followed me last time. She knows where I am at."

"Alright. I'll be there in five minutes." Han Bingling said and told her subordinate to control the ship toward Yun Lintian's position.

Putting the transmission jade away, Yun Lintian left the cave and sat nearby the creek, waiting for Han Bingling to arrive. He looked around the place and found it was usually peaceful. Even a single bird could not be seen around here. This made him frown for a while before opening his Eyes of Heaven to check the surrounding.

"Abyssal Energy?" Yun Lintian exclaimed. The first thing that came into his sight was a mist of Abyssal Energy, which covered the entire forest in the distance. It looked extremely terrifying.

Yun Lintian furrowed his brows, staring at the black mist that slowly approached him. Even he had unlimited Profound Spirit Liquid, it wouldn't be easy to solve this problem.

Woosh!

Just as Yun Lintian was pondering how to deal with the black mist, Han Bingling suddenly appeared before him with a charming smile. Upon seeing Yun Lintian's golden pupils, she immediately knew something was happening and turned around to look at the forest.

"Abyssal Energy?" Han Bingling's expression turned solemn. She spread her Spiritual Sense out to cover the entire forest and discovered a gigantic twin horn profound beast slumbered at the center of the forest. Its body was black as ink, and there was a black mist constantly emanating from it.

"The peak Heaven Profound Beast?" Han Bingling was surprised by the discovery. She then signaled Han Muyue to kill it.

Instantaneously, the temperature around the forest dropped significantly to the point that the ground turned frozen and snow falling down from the sky.

Yun Lintian raised his head to look at the sky and saw a sharp blue light descending onto the forest's center.

Boom!

A powerful impact caused the entire forest to shake violently. Even Yun Lintian, who was standing far away from the center, could feel the ground shaking. This was the first time Yun Lintian witnessed such a powerful attack.

Back then, Han Bingling released her Frozen Moon Domain just to protect herself. Hence, Yun Lintian didn't know what extent of her power. Now, he understood how terrifying the Monarch could be.

"Wouldn't its profound beast destroy?" Yun Lintian asked. With this kind of power, there shouldn't be a single trace of the profound beast left behind.

"Don't worry. She has a sense of measurement." Han Bingling replied softly. Her creased brows did not loosen in the slightest, as she had no way to deal with the Abyssal Energy mist.

"Has the Abyssal Energy decreased?" Han Bingling turned to ask.

Yun Lintian used his Eyes of Heaven to check and found it did not decrease at all. However, it didn't increase either.

"It's still there, but it shouldn't be increased anymore... Was it also like this four thousand years ago?" Yun Lintian asked. He remembered Yan Qi said the body of the profound beast that appeared back then was black as ink and constantly released a terrifying poison. This appearance was aligned with the profound beast that Han Bingling discovered earlier.

Han Bingling nodded her head with a heavy expression. "Yes. According to the record, this profound beast is exactly the same as the one back then." Without a doubt, history was about to repeat itself again.

A moment later, Han Muyue appeared before Han Bingling and handed a huge Profound Beast Core.

Han Bingling glanced at the black Profound Beast Core in her palm briefly and turned to Yun Lintian. "Can you help me deal with the Abyssal Energy within this forest?"

Chapter 134 - Solving Problem

Yun Lintian looked at her and shook his head. "This forest is too big, and the Abyssal Energy is scattering in all directions. Unless you have a way to gather them together. I don't think I can deal with it."

Of course, Yun Lintian could simply sprinkle Profound Spirit Liquid on the entire forest, but his secret of having unlimited Profound Spirit Liquid would be exposed. He wasn't stupid enough to do that. Just Han Bingling knowing about this alone was already risky.

Han Bingling didn't feel disappointed. She could understand Yun Lintian's thoughts.

"Muyue, close the entire forest." Han Bingling said and floated into the air while Han Muyue released a terrifying aura to cover the entire forest. At this moment, the forest had become a forbidden land. No one could come and go.

Han Bingling stood in the air, looking down at the sealed forest. She flicked her hand slightly, and a long, exquisite blue sword appeared in her palm. It was the same sword as the one Yun Lintian had seen back then.

When she pointed her sword at the forest center, a freezing beam immediately shot straight at the target, turning the surrounding area into the snowfield.

Under Yun Lintian's Eyes of Heaven, he saw the Abyssal Energy gradually gathered together and formed a giant ball. He was surprised by the result. Even though Han Bingling could not see the Abyssal Energy as he did, she still managed to gather them.

"Come." Han Bingling waved her hand, bringing Yun Lintian up to the air.

Yun Lintian wasn't prepared for this, but he couldn't resist her power. When he arrived above the Abyssal Energy ball, Yun Lintian immediately poured a lot of Profound Spirit Liquid onto it.

However, the result wasn't as Yun Lintian expected. The Abyssal Energy wasn't disappeared as it should be. It only shrank slightly and somehow managed to fend the Profound Spirit Liquid off.

Yun Lintian's brows creased together. The situation he feared the most had actually happened. Without further thinking, he increased the amount of the Profound Spirit Liquid to test it first.

Buzz—

All of a sudden, the Abyssal Energy ball shook violently and began to shrink at a noticeable rate until it completely disappeared.

Seeing this, Yun Lintian heaved a sigh of relief and told Han Bingling to put him down. Afterward, he quickly stored all the Profound Spirit Liquid on the ground back to his interspatial ring.

"It's gone?" Han Bingling asked.

Yun Lintian answered. "Yes. There is nothing left. However, I discovered this Abyssal Energy is stronger than before. I almost couldn't get rid of it."

Han Bingling crossed her arms in front of her chest and said. "Can you tell me now? How did you do it?"

Yun Lintian took out a portion of Profound Spirit Liquid and handed it to her. "You can take a look if there is any difference from the Profound Spirit Liquid that you know."

Han Bingling hadn't checked on it earlier. This time, she examined it more carefully and even used her finger to touch it. In the next moment, her eyes widened open in surprise as she exclaimed. "This... The best-grade?"

Yun Lintian gave her the nod, confirming her thoughts. "The higher grade of Profound Spirit Liquid, the more effective against the Abyssal Energy."

"So simple?" Han Bingling couldn't help but say this even though she knew it was difficult to find the best-grade Profound Spirit Liquid. She thought there was another mechanic behind this and didn't expect it to be this simple.

Han Bingling glanced at Yun Lintian as though she was about to ask for his help. Yun Lintian quickly interrupted her. "Don't look at me. I can't provide you with this."

Han Bingling pouted like a young girl. "Stingy!"

Yun Lintian didn't care about it. He said. "Where is the item I requested?"

Han Bingling snorted slightly and threw a blue ring at Yun Lintian. The latter received it and checked the content within the ring. Looking at Han Bingling's status, Yun Lintian wasn't surprised at all that she would give away the storage ring like this.

Seeing there were many Nine Souls Flowers and Twin Soul Lotuses lying quietly within the ring, Yun Lintian smiled in satisfaction and said. "Thank you for your patronage."

Han Bingling clicked her tongue with dissatisfaction. "We aren't in the buyer and seller relationship, aren't we? Why did you say that?"

Yun Lintian shrugged his shoulders and said nothing. By saying that, he wanted to draw the line between him and her and told her he wasn't going to provide information for free from now on.

Han Bingling knew Yun Lintian was trying to distance himself, and she didn't press him further. It was understandable he was cautious toward her. After all, she was the dignified Frozen Moon Palace Master. Whoever was facing her approach after knowing her identity would be cautious as well. How could such a lofty figure favor him this much?

She smiled charmingly as she asked. "Where are you going next? Do you want this sister to send you there?"

Yun Lintian shook his head. "Thank you, Palace Master Han, for your kindness. I prefer to travel by myself."

Han Bingling saw Yun Lintian was unwilling to tell her about his destination. She gave a light snort and waved her hand. "Alright. This sister won't disturb you anymore."

Following that, the Moon Shifting Profound Sky Ship slowly emerged from the group of clouds. Han Bingling, along with Han Muyue, instantly disappeared and reappeared on the ship.

She looked at Yun Lintian from above and sent a sound transmission into his mind. "I understand you are guarding against me, but I will stand by my words. If you want my help in the future, you can tell me directly." After finishing her sentence, the Moon Shifting immediately flew up into the clouds and disappeared from Yun Lintian's sight.

On the ground, Yun Lintian stared at the sky for a while before shaking his head. From his judgment, Han Bingling genuinely had no ill intention. It was just that; he didn't understand her personality well enough and did not want to deepen the relationship between him and her further.

Chapter 135 - Blue Sea Nation Traveller

A week later, Yun Lintian appeared on the outskirts of the Frozen Moon Territory as he was heading toward the Thunder Valley. He constantly fought with a profound beast during this period and continued to practice with the High-grade Profound Stone. His current strength was already at the third level of Essence Profound Realm. At this rate, reaching the tenth level within six months was not a problem.

Unlike the Spring Wind Nation, this place was an endless snowfield. Yun Lintian was familiar with this kind of environment and felt as if he was back in his hometown.

There weren't many vegetations around here. All Yun Lintian could see were snow pines and some ancient oaks. As he moved forward, Yun Lintian suddenly saw several luxurious carriages were traveling on the main road. With a glance, he could determine the status of the people in the carriages was relatively high. Otherwise, they wouldn't have such a powerful Black Flame Horse, the Origin Profound Beast, to pull the carriages.

One of the coachmen seemed to notice Yun Lintian. He immediately sent a message to the person in the carriage and then controlled the carriage toward Yun Lintian while other carriages were followed.

Yun Lintian furrowed his brows and thought his luck wouldn't be that bad, right? He just walked here alone, yet trouble came to him by itself.

The Escape Talisman appeared in Yun Lintian's hand while looking at the incoming group of carriages.

When the carriages stopped ten meters away from Yun Lintian, the coachman that saw him earlier spoke politely. "This little brother, may I ask, where are you going?"

Yun Lintian glanced at the coachman and other carriages briefly before answering. "I am heading to Thunder City."

Thunder City was a medium-sized city nearby the Thunder Valley. Yun Lintian planned to stay there and collect information first before going to the Thunder Valley. With his current speed, he would need around three days before reaching there.

"Thunder City? Is it nearby here?" The coachman asked. "Sorry to trouble you, little brother. We come from the Blue Sea Nation and planning to go to the Profound Sky Divine City. We are currently losing our way. I hope you don't mind for the asking."

"Blue Sea Nation?" Yun Lintian was surprised. The Blue Sea Nation was located on the west side of the Northern Continent, closing the Endless Sea. It was one of the most prosperous nations on this continent. Yun Lintian was surprised because, counting their abundant resources, they should have a detailed map in their hands, but they actually didn't.

Seeing the coachman was polite, Yun Lintian didn't mind giving him a copy of the detailed maps. He took it out and threw it at the coachman, as he said. "Here is the map. You can see by yourself."

The coachman grabbed the map and roughly glanced at it before turning to Yun Lintian with a grateful smile. "Thank you, little brother. This helps us greatly."

Yun Lintian said nothing and turned around, preparing to leave. However, he heard the coachman said. "Little brother, would you like to go with us? We are going to pass the Thunder City, anyway."

He just saw the Thunder City's location on the map and found it wasn't far from here. In order to repay Yun Lintian's favor, he decided to invite him on board.

Yun Lintian turned around and rejected the coachman's invitation. "No, thank you. I want to travel alone."

"Is that so?... Fine, I will go first. Thanks a lot, little brother." The coachman didn't force Yun Lintian and immediately controlled the carriage away.

Yun Lintian didn't notice that there was a pair of eyes staring at him with great curiosity from the carriage in the middle of the group. The owner of this pair of eyes was a sixteen-year-old-looking girl. She was clad in a luxurious blue sky robe with a white ribbon on her waist. Her face was filled with innocence, making people want to dote on her. Her hair was tied into two buns, looking extremely cute.

"Aunty Lan, why do I feel this brother is not simple." The young girl asked the beautiful middle-aged woman in front of her. This middle-aged woman's appearance was seventy percent resembled of the young girl.

The middle-aged woman, Lan Ning, took a glance at Yun Lintian in the distance and nodded her head with a smile. "You're correct. This young man is not ordinary." She turned to the young girl and asked. "During this trip, have you ever seen anyone with the strength only at the Essence Profound Realm traveling alone?"

The young girl shook her head. She had several Earth Profound practitioners with her, yet she found this trip was perilous. Especially those berserk profound beasts. If she was alone, she would die a thousand times already.

Lan Ning said softly. "That's right. From the look of it, this young man just crossed the Spring Wind Nation not a long time ago. He could pass the profound beast tide by himself, which means his ability is exceptional. I wonder where is this young man comes from?"

The young girl nodded and looked at Yun Lintian through the window again until he was out of her sight.

At this moment, Yun Lintian suddenly felt someone was staring at him. He frowned slightly and looked toward the disappearing group of carriages. After a while, he shook his head and continued his journey.

Time passed by quickly. Two days later, Yun Lintian had already arrived nearby Thunder City. There were around fifty kilometers before reaching there. During this period, Yun Lintian discovered more carriages on the main road and their destination was undoubtedly the Profound Sky Divine City.

Zzz—Bang!

All of a sudden, a lightning bolt shot down from the sky at the end of Yun Lintian's sight, causing him to stop moving on the spot.

"Red?" Yun Lintian was surprised as he discovered the color of the lightning bolt was actually red.

Chapter 136 - Thunder City

To Yun Lintian's knowledge, red lightning was considered the medium-level among the lightning elements. However, its destructive power was high enough to kill the Essence Profound practitioner, like Yun Lintian. If it wasn't because he was the Beyond Heaven King's Crown and Beyond Heaven Profound Vein owner, Yun Lintian wouldn't dare to go there.

When Yun Lintian was about to move forward, another lightning bolt was descended again. This time it was a white color, the weakest one.

Yun Lintian was puzzled. Could it be there was every color here? While he was thinking, a golden lightning bolt struck down in the distance, and this had confirmed his guess. This place should have every kind of lightning.

Discovering this, Yun Lintian immediately became excited. Perhaps this place really had the lightning element source. Without further ado, Yun Lintian hastened his steps toward the Thunder City.

When Yun Lintian arrived at the city's perimeter, he saw a long line of carriages and people queuing up for identity checks before entering the city. Yun Lintian immediately joined the line and observed the Thunder City before him.

The Thunder City was surrounded by a relatively high wall made with a black stone that Yun Lintian did not recognize, but it should be able to absorb the lightning. On the four corners, there were high metal poles serving as a lightning rod. Yun Lintian didn't know if they could make use of the lightning power that often strikes down on these rods. Perhaps, there wasn't such technology here.

The lightning bolts continued to strike down, producing a deafening roar throughout the entire area. Yun Lintian wanted to listen to people's discussions but simply couldn't do it because of this. In the end, he gave up and waited to enter the city.

Because there were too many people waiting to enter the city, Yun Lintian had to wait for the whole day before his queue had arrived. Upon stepping into the area in front of the gigantic gate, he discovered the thunder sound had wholly vanished. Only then did he see a sound isolation formation.

"Name?" A male guard in silver armor asked.

"Ye Xiu." Yun Lintian continued to use his fake name for his safety.

The guard carved Yun Lintian's name onto a small rectangle silver plate and handed it to Yun Lintian. "This is your token. You have to show this whenever you want to do a transaction here. If you lose it, you have to contact the Thunder Association House."

Yun Lintian grabbed the silver rectangle plate with the words 'Ye Xiu' on it and looked at it briefly before asking. "Brother, where can I find the city map?"

The guard seemed to be fed up with this kind of question as he replied lazily. "You can go to any miscellaneous store. Next."

The guard waved his hand, and Yun Lintian immediately entered the city. He thought Thunder City would be different from other cities, but it was actually not much different. The streets were spacious enough to let carriages pass by each other with no problem and still had considered space for pedestrians.

When Yun Lintian stepped on the streets, he felt the material on the ground was quite spongy, resembling a rubber. Clearly, this was designed to deal with the electricity from lightning.

He looked around the place and discovered the buildings here weren't that high as the highest one was only four-story. It was built like this to avoid the thunder strike. As for the building's appearance, it was still the ancient-Chinese style. This made Yun Lintian curious whether there was any innovative architect out there because this style was too outdated in his opinion.

Walking through the bustling streets, Yun Lintian saw a miscellaneous store and went to get the city map along with the city's general information. When he came out, he had roughly understood the city's overall situation.

The Thunder City was built under the supervision of the Frozen Cloud Palace after the Thunder Valley had appeared. It was served as the frontal battleground in case there was an unexpected event occurred within the Thunder Valley.

The current City Lord was the patriarch of the Fu clan, Fu Tiangang. He was selected by the Frozen Moon Palace to supervise this Thunder City. During his fifty years in the position, Fu Tiangang never made an error or any crime. He was described as an upright person. With this trait, he gained a lot of respect from the citizens.

Besides the Fu clan, there were three other clans, namely Ming, Ding, and Zhang. Their influences were not inferior to the Fu clan, as major businesses within the city were controlled by them. Without a doubt, their ultimate goal was to become the City Lord. Unfortunately, Fu Tiangang's throne was unshakable. With him in the position, these three clans could only swallow their ambitions, waiting for the right timing to strike down.

After knowing this information, Yun Lintian shook his head inwardly. Whether it was a small place like the Heavenly Fortune Nation or this Thunder City, the internal power structure was all the same. He found it was boring. He would face the power struggle wherever he went, and if he wanted to change this, he also needed to join the struggle and become the winner, who stood above everyone first.

Yun Lintian looked at the map and chose the inn he was going to stay in tonight. This inn was called Blue Moon, one of the most famous inns in Thunder City. He chose this place because it was operated directly by the Frozen Moon Palace. With Han Bingling's personal token, he didn't need to fear whether he would get into trouble.

Just as Yun Lintian was about to move, he suddenly saw a familiar figure in the distance. When that person turned slightly, he immediately recognized. "Qi Yuanfeng?"

Yun Lintian didn't expect he would encounter his old enemy here. Who would have thought the Heavenly Fortune Nation's Crown Prince would appear here?

Chapter 137 - Lan Shuiying (1)

Of course, Yun Lintian wouldn't court death, letting Qi Yuanfeng see him. He immediately blended into the crowd, heading toward the Blue Moon inn.

When Yun Lintian went away, Qi Yuanfeng seemed to perceive someone watching him and quickly turned his head to look at Yun Lintian's original position. After discovering nothing, he shook his head slightly and walked away with his subordinates.

Yun Lintian moved along the streets with caution while thinking about Qi Yuanfeng's purpose in coming here. With Qi Yuanfeng's age, certainly, he wasn't going to apply for the Sky Throne Profound Academy. As far as Yun Lintian knew, there wasn't anyone in the Qi royal clan qualified for the academy's assessment. Then, why did he come here?... Perhaps he is a part of a sect around here?

Several questions appeared in Yun Lintian's mind. He didn't have much information about Qi Yuanfeng. Hence, he could only guess randomly first and plan to find out later.

A while later, Yun Lintian arrived in front of a simple yet magnificent four-story building. This building was no other than the Blue Moon inn. Looking through the side window, Yun Lintian saw the reception area was crowded with customers. All of them were dressed in premium clothes, reflecting their status. With this amount of people, without a doubt, there wasn't a room left for Yun Lintian.

Thinking of this, Yun Lintian touched his chin, pondering whether he should go to other inns. However, with the high number of people entering the city recently, he doubted there was a vacant room for him in other inns.

It was true that Yun Lintian could show Han Bingling's personal token to the receptionist to get a room, but he didn't want to be the center of attraction. He knew once he showed the token, the inn would definitely notify the City Lord, and that would limit his freedom.

"Little brother?" Just as Yun Lintian was thinking, he heard a familiar voice rang out from behind. When he turned around, he immediately saw the coachman, who asked him the way days ago.

"It's really you!" The coachman chuckled and approached Yun Lintian. "Are you looking for a room?"

Yun Lintian nodded his head. "Yes. But I don't think I can get one here."

The coachman let out a sigh and said. "Indeed, you can't. All the inns in this city are now full." He thought for a while and said further. "How about this? Would you like to stay with me in the stable? Although it's a bit shabby, it still better than sleeping in the street."

Yun Lintian knew the coachman wanted to repay the favor, but he didn't want to stay in the stable. Mainly, he wanted to enter the Land of Beyond Heaven at night to practice; Staying with others, he would have no chance to do it at all.

"Thank you, brother, but I think I will try my luck elsewhere first." Yun Lintian replied politely.

The coachman understood and did not pester Yun Lintian further. He said. "Alright. If you really can't find a place to stay, just come to find me there." He then pointed at a stable behind the Blue Moon inn.

Yun Lintian nodded his head and prepared to leave. Just as he was about to move, he saw a young girl in a blue robe walked toward him and the coachman with a smile. This young girl was no other than the girl that secretly watched Yun Lintian from the carriage back then.

"Young Miss." Seeing the girl, the coachman immediately greeted her with respect.

The young girl looked at Yun Lintian briefly and turned to ask the coachman. "What's the problem?"

The coachman explained. "It's like this, Young Miss. This little brother is the one who gave us the map. Right now, he doesn't have a place to stay, and I invited him to stay with me, but he is going to look elsewhere first."

The young girl turned to Yun Lintian and said politely. "It turns out to be our benefactor. Thank you, Young Master, for giving us the map back then. Otherwise, we would have been lost in our way by now." Suddenly, she thought of something and smiled apologetically. "Look at my brain. I forgot to introduce myself first. My name is Lan Shuiying from the Lan clan of the Blue Sea Nation. May I know Young Master's name?"

Listening to her, Yun Lintian immediately understood she was the master of the coachman. The young girl was roughly sixteen years old with strength at the fourth level of Spirit Profound Realm. Judging by her age and strength, she was undoubtedly a top talented individual.

Yun Lintian smiled faintly as he replied. "My name is Ye Xiu from the Sky Fall Nation."

"Young Master Ye." Lan Shuiying said softly. "Since Young Master Ye is looking for a place to stay. If you don't mind, would you like to stay with us? I have a vacant side-room there."

"This is not appropriate, right?" Yun Lintian said. He wasn't being a hypocrite but wanting her to reconsider. After all, she didn't know him well enough, and the same went for Yun Lintian. However, if she was truly fine with it, he wouldn't mind accepting her invitation. In this way, he would have another cover layer.

Lan Shuiying smiled gently and said. "There is nothing inappropriate. You are our benefactor, after all."

Yun Lintian nodded. "Then, I'll have to trouble Miss Lan."

Lan Shuiying was satisfied with Yun Lintian's answer and led him into the Blue Moon inn.

The interior of the inn was decorated with simple light blue furniture. The Frozen Moon Palace's symbol could be seen on the wall, serving as a warning sign to those who want to cause a problem.

On the ground laid smooth white marble, looking extremely comfortable whenever seeing it. Sometimes, Yun Lintian wondered why the marble in this world seemed abnormally abundant, as he always saw everyone using it.

After informing the receptionist, Lan Shuiying asked for Yun Lintian's identity plate and brought him to the room shortly afterward.

Chapter 138 - Lan Shuiying (2)

"Here is Young Master Ye's room. If Young Master Ye wants something, you can contact the reception directly." Lan Shuiying said after arriving at the side-room.

Yun Lintian glanced at the spacious room and said. "Thank you, Miss Lan."

Lan Shuiying smiled faintly and said. "Young Master Ye don't have to be polite. This is what you deserve." She paused for a second and continued. "Also, please call me by my name directly."

Yun Lintian responded. "Then I'll call you Sister Lan, and you can call my name too."

Lan Shuiying said sweetly. "Alright, Brother Ye... If you don't mind, I would like to invite you for dinner. What does Brother Ye think?"

Yun Lintian thought for a moment and accepted her invitation readily. "It's good."

Lan Shuiying smiled with satisfaction and said. "Then, I'll take my leave first. I'll notify Brother Ye when the time comes."

"Understood." Yun Lintian nodded and sent Lan Shuiying away.

The first thing Yun Lintian did was to check the formation around the room. Surprisingly, he discovered the isolation formation here was actually the Saint-level one. Yun Lintian's current knowledge was not enough to modify it, but he still roughly understood the principle behind this formation.

After carefully checking there wasn't a spy function within the formation, Yun Lintian could put his heart at ease and went to bed, preparing to practice.

Holding Profound Stone, Yun Lintian calmly absorbing profound energy within it while pondering his next move. Qi Yuanfeng's appearance was undoubtedly interrupted his original plan. Now, he could not guarantee whether he would be seen by Qi Yuanfeng when he went out to find information.

Maybe I can use this Lan Shuiying to gather information for me. Yun Lintian thought and felt it was feasible. After making a decision, Yun Lintian was immersed in the practice.

In another room, Lan Shuiying sat across Lan Ning, pouring a cup of tea for both of them while humming happily.

"Why are you in such a good mood? Did you encounter something behind my back?" Lan Ning was curious upon seeing her niece's current appearance.

Lan Shuiying laughed slightly as she replied. "Yes, Aunty Lan. I met someone."

"Oh? Who could it be?" Lan Ning was surprised slightly. How could encounter someone make Lan Shuiying become a good mood? Besides, she shouldn't know anyone here.

Lan Shuiying smiled mysteriously. "Why don't you guess, Aunty Lan?"

Lan Ning chuckled. "You girl. Don't tease Aunty anymore. Just tell me already."

Lan Shuiying didn't continue to hide further. "It's the young man who helped us back then. His name is Ye Xiu. He is staying in the side room right now."

Lan Ning's brows raised in surprise. "How is him?"

Lan Shuiying thought briefly and replied. "He's not a bad person overall. He has a good manner, just like a well-cultivated young master from a top clan. During our interaction, he never relaxed his guard in the slightest. It seems he is extremely cautious when he does things. Despite that, I can see he is extremely confident in himself. Otherwise, he wouldn't easily accept my invitation like this. After all, his strength isn't that high."

Lan Ning nodded her head in satisfaction. She was proud of her niece. Lan Shuiying was only sixteen this year, but she was more mature than her peers. Whether it was her ability to judge or deal with people, all of them were considered high.

"Since you've already figured out. What do you want to do further?" Lan Ning asked.

"I think he's worthy of befriending with." Lan Shuiying replied. "Just as Aunty Lan said before. He could travel alone from the Sky Fall Nation, which has proven that he is not ordinary. Couple with his mannerism, I believe he is different from those trashes in the Imperial City. I don't see why we shouldn't befriend him."

Lan Ning smiled faintly. "Don't you think he is deceiving you?"

Lan Shuiying shook her head. "I don't think so."

"Why are you so confident? You just met him today, after all." Lan Ning asked further.

"It's intuition." Lan Shuiying didn't know how to answer, but she trusted her intuition. She believed Yun Lintian wasn't a bad person and definitely became a great figure in the future.

Lan Ning shook her head slightly, but she didn't blame Lan Shuiying on this. Her niece's judgment ability might be good, but she was still inexperienced. During the time in the Blue Sea Imperial City, Lan Shuiying never dealt with anyone who had a deep mind before. At most, she had dealt with some elders within the clan.

From Lan Ning's analysis, she felt Yun Lintian was a person who had a deep mind. One thing that she agreed with Lan Shuiying was Yun Lintian wasn't a bad person. If so, he would try to take advantage of them as much as he could by now.

Seeing her aunt shook her head, Lan Shuiying pouted and said. "If you don't believe me, you can check on him by yourself. I've invited him for dinner."

Lan Ning laughed. "Fine. I believe you." She then shifted her gaze toward Yun Lintian's room with a thoughtful expression.

"Haaa..." Yun Lintian let out a long breath after completely absorbed profound energy within the Profound Stone in his hand that was now turned into a pile of dust.

Yun Lintian could feel he would soon make another breakthrough with another two or three Profound Stones. However, he didn't want to rush it because he wanted to consolidate his foundation first.

The so-called consolidating foundation was nothing but to familiarize with the newly gained power after breaking through. If the strength of profound practitioners rose too fast, it could lead them to an unstable foundation as they couldn't use their newly gained power properly. It might hurt their bodies by unknowingly overdrawing their power.

More explanation about this matter. It was similar to a magician in a role-playing game trying to use the spell that required more mana points than the magician's maximum mana points. Of course, the magician probably couldn't activate the spell because it was locked by the game.

However, there wasn't such a restriction in reality. The profound practitioner who wasn't familiar with their current strength might mistakenly execute a profound technique that was surpassed their own power by miles and hurt themselves in the end.

Chapter 139 - Multiply Ability

Yun Lintian didn't know how long the time passes by. Since Lan Shuiying hadn't come yet, it shouldn't be that long. He got off the bed and went to check whether there was anyone nearby his room. After confirming there was no one around here, he activated the isolation formation in the room and entered the Land of Beyond Heaven.

When he appeared in the Land of Beyond Heaven, Yun Lintian's nostrils were immediately assaulted by a strong fragrance. He was familiar with this scent and remembered it was the smell of the Celestial Buddha Lotus. Without further thinking, he went to Misty Lake and saw many people crowding, watching the pink lotus with a golden sheen in the middle.

Yun Qingrou noticed Yun Lintian's figure and greeted him. "You're back."

Yun Lintian gave the nod in reply and jumped into the lake, swimming toward the Celestial Buddha Lotus. When he drew closer, Yun Lintian saw there were actually six lotuses instead of one. This made him confuse as he remembered he only had one back then.

"Why are there six of them?" Yun Lintian asked.

Yun Qingrou explained. "Since you threw it here, I've watched it closely and later saw it shredded its leaf and turned into six of them like this. I think it has something to do with this lake. Perhaps it would turn into several of them later."

"Multiply itself..." Yun Lintian was amazed. He didn't know the Misty Lake has such an ability. Wouldn't it be in the future he will have unlimited Celestial Buddha Lotus at this rate?

There was indeed such a cheat in many novels Yun Lintian had read before. He thought the Land of Beyond Heaven only had a function to grow a plant but not multiply or accelerate it. This discovery had given him hope. Maybe when he gathered other sources of elements, there would be a new ability appeared.

Since it was a good occasion, Yun Lintian didn't waste time investigating further. He handed the storage ring from Han Bingling to Yun Qingrou and said. "Here are Nine Souls Flower and Twin Soul Lotus. I got it from the Frozen Moon Palace Master."

Yun Qingrou received the storage ring and checked the content inside. She was amazed by how generous Han Bingling was. Although Nine Souls Flower and Twin Soul Lotus weren't that rare, they would still be difficult to buy. The amount Han Bingling gave Yun Lintian could easily empty the Misty Cloud Sect's treasury.

"She's so generous." Yun Qingrou said and threw a bunch of the Twin Soul Lotuses onto the lake.

Yun Lintian was confused slightly. He never bought Nine Souls Flower or Twin Soul Lotus before. Hence, he didn't know the exact value of them. He only thought that Han Bingling was standing at the top of the food chain; giving him these things was nothing. That was why he felt nothing when seeing the content inside the ring for the first time.

"We can use some of them to make a pill first and test whether it can help us breakthrough. Then we will leave some of them here and see if they can be multiplied like the Celestial Buddha Lotus." Yun Lintian suggested.

Yun Qingrou agreed readily. "I will go concoct the pill first. You should go check Sister Qianxue." She left the lake afterward.

Yun Lintian climbed onto the shore and headed to the villa to change his clothes. When he walked into the living room, Yun Lintian saw Yun Qianxue was reading the Italian cuisine book with a serious expression, as though she was cracking some ancient runes.

"What are you reading?" Yun Lintian greeted and sat opposite her.

Yun Qianxue was taken aback for a second and raised her head to see Yun Lintian. With a surprise, she said. "Did you just come back?"

"Yes. How is the situation here?" Yun Lintian responded.

Yun Qianxue closed the book and replied. "Since everyone cannot breakthrough, we are currently practicing the movement and offensive profound arts instead. When the battle platform is complete, I will organize a competition to keep everyone motivated."

"Good idea." Yun Lintian supported Yun Qianxue's idea. He was too busy with the outside world's matters and did not have time to take care of everyone properly. He was guilty a bit, but it couldn't be helped since he was the only one who could go out at the moment.

"How's your side?" Yun Qianxue poured a cup of water for Yun Lintian.

Yun Lintian drank a mouthful of water and began to tell Yun Qianxue his experiences during these few days.

Upon hearing Qi Yuanfeng's name, a killing intent flashed across Yun Qianxue's eyes as she asked. "Did he see you?"

Yun Lintian shook his head. He was pretty sure he had left before Qi Yuanfeng could notice him. Unless he was seen by Qi Yuanfeng's subordinates that he wasn't aware of.

"I think you shouldn't go out for the time being. It's too dangerous." Said Yun Qianxue. As much as she wanted to kill Qi Yuanfeng, she knew her current strength was not enough.

Yun Lintian disagreed. "I need to go out. Don't worry. If something really happened, I can use Han Bingling's token. Besides, it's not that I will gather information myself. Someone will do it for me."

Yun Qianxue frowned. She was dissatisfied when Yun Lintian mentioned Han Bingling. She didn't want him to rely on Han Bingling too much. It was true that she was jealous, but she also worried Han Bingling might have an ulterior motive on Yun Lintian.

Yun Lintian was well-aware of her worry. He grabbed her hand and said. "Trust me. She couldn't do anything to me. After the Thunder Valley's trip, I will stay here with you."

Yun Qianxue believed Yun Lintian could take care of his safety, but the worry within her heart hadn't decreased in the slightest. She looked at him for a long time before sighing. "Fine. Don't push yourself too hard. If you really can't go further, just come back here."

"Mhm." Yun Lintian replied.

Chapter 140 - Actor In Action

After talking with Yun Qianxue for a while, Yun Lintian returned to the outside world and happened to hear a knocking sound on the door.

He went to open and was immediately greeted by Lan Shuiying. "Brother Ye. I've already booked a private room on the fourth floor. Shall we head there now?"

With the private room, the chance of being seen by Qi Yuanfeng would reduce significantly. Yun Lintian didn't think further and accepted Lan Shuiying's arrangement readily. "Let's go there."

Lan Shuiying smiled and led Yun Lintian to the private box on the fourth floor. Along the way, Yun Lintian observed the surroundings and discovered several Ruler Profound practitioners among the crowd.

In small places like Heavenly Fortune Nation, the Ruler Profound practitioner could be regarded as the top existence and could not be seen in public easily. However, Yun Lintian had actually met several of them as though he encountered Essence Profound practitioners here.

A moment later, Yun Lintian and Lan Shuiying arrived at a luxury decorated room with exquisite ice lanterns on the wall. There was an ice table at the center of the room. Yun Lintian saw a middle-aged woman sat behind the table. Seeing her appearance was similar to Lan Shuiying. He guessed this woman should have a blood connection with the latter.

"This is my aunt, Lan Ning." Lan Shuiying introduced. "Aunty, this is Brother Ye Xiu I am talking about."

Yun Lintian greeted politely. "Greetings. Senior Lan."

Lan Ning seized Yun Lintian up and down and nodded with a smile. "Sit."

Yun Lintian went to sit opposite Lan Ning, while Lan Shuiying sat on his right between them.

"Serve the dishes." Lan Ning said softly, and two waitresses immediately entered the room with various dishes.

"I heard you come from the Sky Fall Nation. I wonder if you have something with the Ye clan of the Imperial City?" Lan Ning asked after all the dishes were placed on the table.

Yun Lintian had prepared for this question since he met Lan Ning. He shook his head and said. "I have nothing to do with the Ye clan there."

Lan Ning smiled faintly. "I thought you were one of Ye Wenhai's descendants. He is my junior brother."

Yun Lintian heaved a sigh of relief inwardly. Thankfully, he didn't lie to her. "I come from a small town not worth mentioning."

Lan Ning observed Yun Lintian's expression for all this time and believed he didn't lie to her. She asked further. "I'm curious how did you manage to get past the Spring Wind Nation. After all, there is a profound beast tide there."

Yun Lintian's expression suddenly turned sad and said. "It was my master who protected me."

Hearing this, Lan Ning and Lan Shuiying glanced at each other and said nothing. Since Yun Lintian's master was nowhere to be seen, it meant he didn't make it.

Lan Ning's heart was softened slightly as she comforted. "You have a good master.

Yun Lintian took a deep breath, and a trace of hatred appeared on his face. "My master is a Ruler Profound practitioner. Those profound beasts can't do anything to him. However, who would have thought there is a despicable bastard to take advantage of my master when he fought with the Twin Horns Heaven Profound Beast. In the end, my master sent me away while he fought with the enemy to death."

Before Lan Ning could say anything, Lan Shuiying immediately said with anger. "Who is that person, Brother Ye?"

Lan Ning was silent while staring at Yun Lintian's face. She felt this matter was not simple as it appeared to be. Who knows whether what Yun Lintian said was true? But she believed the hatred on Yun Lintian's face was genuine.

Yun Lintian closed his eyes, trying to 'calm' himself down before saying. "I don't know who he is, but I saw him here earlier today. He dressed in a golden robe with a dragon pattern. I guess his status is now low." He paused for a moment, frowning as if he thought of something, and hurriedly said. "Right, I heard his subordinate called him Your Highness Crown Prince."

"Crown Prince?" Lan Ning frowned slightly and pondering if there was a crown prince of some nations coming here today.

"Aunty Lan. Could this person be Crown Prince Qi?" Lan Shuiying said. She remembered the Crown Prince of the Heavenly Fortune Nation had arrived here yesterday.

"Crown Prince Qi?" Yun Lintian furrowed his brows. "Can you tell me more about him?"

This time, it was Lan Ning who answered. "His name is Qi Yuanfeng, the Crown Prince of the Heavenly Fortune Nation's Qi royal clan... Come to think of it, he is indeed wearing the golden robe with a dragon pattern."

Yun Lintian breathed heavily and said in a deep voice. "Do you know where he lives now?"

"This..." Lan Shuiying did not know whether she should tell Yun Lintian.

"Your master has exchanged his life in order to keep you alive, yet you want to throw your life away like that?" Lan Ning said.

Yun Lintian gritted his teeth and said. "You don't have to worry about me. Just tell me where he lives." If anyone from Earth saw his current acting, they believed he could easily win the Oscar award.

Lan Ning fell into silence while Lan Shuiying kept glancing between Yun Lintian and her aunt.

"Unfortunately, even I tell you, you won't be able to reach him." Lan Ning said softly. "He is the esteemed guest of the Ming clan."

"Ming clan?... One of the four powerful clans here?" Yun Lintian asked in a deep voice.

Lan Ning nodded her head. "If I remembered correctly, Qi royal clan have a good relationship with the Ming clan for several years. The rumors say Qi Yuanfeng was sent to practice under the guidance of the Ming clan's previous patriarch, Ming Chenwu." She stared into Yun Lintian's eyes and said. "I believe you are not stupid. I think you should understand what this means."
