

## Myth Beyond 1361

### Chapter 1361 The World's Conference (3)

Inside a spacious room decorated in modern Earth architecture, Yun Lintian and the others sat around a round table full of food.

"The food here is much better." Shen Liqiu said in surprise. She had tried a lot of Earth's food before, as Yun Lintian often cooked, but the food here didn't fail to surprise her.

Weilan Tian was the same. This was his first time trying these "strange" foods, and he couldn't put his chopsticks down.

"The chefs here are our Misty Cloud Sect's disciples, who choose to walk this path by themselves. They could combine medicinal ingredients and normal ingredients together very well." Yun Lintian explained.

The Misty Cloud Sect's teachings were similar to Earth's university. The disciples could choose a subject they wanted to learn by themselves. After all, not everyone pursued the profound path.

Yun Lintian always believed everyone had the right to choose their path. He wanted to provide them choices as many as possible. Whether they wanted to be an alchemist, doctor, chef, or writer, he made sure that everyone had enough resources to reach the peak of their paths with no problem.

Weilan Tian didn't stop eating as he asked in surprise. "Your sect even teaches this?"

Weilan Tian grew up inside the traditional sect like the Azure Palace, where you only had one path to walk, which was the profound path. In there, everyone had to learn how to fight all the time, and it was extremely rare to see someone learn other arts like formation and alchemy.

Therefore, the Misty Cloud Sect's teaching method was exceptionally novel for him.

"While it's true that we speak with fists most of the time, it doesn't mean other arts cannot be used in a battle. For example, a formation master can easily annihilate an entire army by himself. A top doctor can use poison to kill an enemy without them knowing." Yun Lintian said with a smile.

"So, focusing on fighting alone, like other traditional ways of teaching, is not ideal. It will also limit one's ceiling."

"The Misty Cloud Sect gives everyone the freedom to forge their own path. They can try whatever they like, and even if they can't go further, they can simply start anew anytime."

"That's really good. If I were younger, I would definitely want to join your sect." Weilan Tian said in admiration.

"By the way, can you tell me about the upcoming conference?"

Yun Lintian took a sip of tea and said. "It's nothing much, actually. I am going to announce some rules as well as my departure."

Weilan Tian's hand froze midair as he looked at Yun Lintian in shock. "What do you mean by that, Brother Yun?"

"As you can guess. I am leaving for the Divine Realm soon." Yun Lintian said calmly.

Weilan Tian put the chopsticks down and asked. "But isn't this too fast?"

It had been only three months since Yun Lintian "ruled" the Azure World. In Weilan Tian's opinion, it would take Yun Lintian at least a decade to stabilize his position before leaving.

"This is the right time for me to leave." Yun Lintian explained. "You were locked up previously, and you didn't have a chance to see how powerful the enemies were. It could be said without me, Senior Long, and Senior Yun, this world would have fallen by now."

"I want the world to enter a state of intense competition, but in a healthy way. Everyone has a chance to reach the top as long as they are diligent and ambitious enough."

"As a true successor of the Azure Palace yourself, you should be aware of this point more than anyone. In the past, most resources were locked up inside the Nine Palaces, and ordinary people could only dream if they wanted to walk further on the profound path."

Weilan Tian nodded slightly upon hearing this. He naturally knew about this. Even a middle-level sect might not be able to access a top resource, even if they mobilized all of their strength. After all, more than ninety percent of the world's resources were under the control of the Nine Palaces.

"But how is it related to your departure?" He asked in doubt.

"Of course, it's related to me directly." Yun Lintian responded. "Currently, my existence is like a giant tree with its shadow covering the entire world. As long as I stay here, no one would dare to dream high as they know the ceiling, which is me, is still there at the end of the day."

"However, my departure will allow the world to enter the competitive state very quickly. Since everyone can access resources easier, a group of new talents will soon emerge. When these people grow into top powerhouses, our Azure World doesn't have to be afraid of any invader like we used to be."

Weilan Tian went silent immediately. He finally understood Yun Lintian's idea. He couldn't help looking at Yun Lintian with admiration. It was very rare to see a powerhouse let go of his power once he reached the pinnacle of the world like this. More precisely, there was none in the entire history.

"And even if I left, the Misty Cloud Sect would still be there to monitor the world on my behalf. They will make sure that no one can monopolize the resources and suppress everyone like the Azure Palace, the Myriad Pill Palace, and the Star Gazing Palace in the past." Yun Lintian said further.

Yun Lintian was fully confident in the Misty Cloud Sect. In terms of strength and resources, no one in this world could compete with them. With this, they would remain on the top all the time.

As for whether there would be a betrayer appear in the sect, he wasn't afraid of it at all as he had already prepared a countermeasure to deal with it. And he fully believed there would be no one who dared to betray the sect once they entered the sect.

It wasn't blind confidence but rather related to the qualification to enter the sect.

Listening to this, Weilan Tian took a deep breath and said solemnly. "I can't guarantee the outcome, but I will try my best to make the Azure Palace becomes one similar to the Misty Cloud Sect."

Yun Lintian raised the teacup and said. "I wish you good luck."

Chapter 1362 The World's Conference (4)

Yun Lintian took a sip tea and said. "In fact, you don't have to follow the Misty Cloud Sect's path. The current Azure Palace can never get out of the traditional way. You will need a lot of work. It may take you a thousand years."

"My Misty Cloud Sect can achieve this because we are a small sect at the beginning, and everyone is on the same page. Moreover, we recruited orphans and ordinary people mostly. They will have a sense of belonging more than anybody."

Weilan Tian nodded gently. "I am aware of this point, but I will try my best. Anyway, the traditional way has proven many times that it doesn't work. I don't want to repeat the same mistake again."

"You can ask our Principal Ruanyu for advice later." Yun Lintian didn't linger on this topic further.

"I will." Weilan Tian said firmly.

The meal lasted for another hour before everyone returned to their respective rooms.

Sitting beside a floor-to-ceiling glass wall, Yun Lintian leisurely sipped red wine while enjoying the night scenery.

At this moment, several buildings were lit up brightly, filled with various advertisements. It was Yun Lingwei who came up with this idea.

Though it was already late, the streets were still bustling with people. Various food stalls were crowded, and not a single table was empty. This scene was similar to the night market on Earth Yun Lintian used to go to.

Creak!

Suddenly, the door slowly opened, and Yun Qianxue entered the room. She came to Yun Lintian and sat beside him, pouring herself a cup of wine and looking at the scenery silently.

Yun Lintian glanced at her gently and said nothing.

The two of them had a big knot that was extremely difficult to untie. While they had good feelings for each other, their past and present experiences prevented them from crossing the line.

Especially Yun Qianxue. She had experienced the "past lives" before, and in those memories, she had always been Yun Lintian's foster mother. Even though she did think of him as a man later, morality constantly reminded her that she shouldn't take a step further.

"Can I go with you?" Yun Qianxue asked softly after a long period of silence.

Yun Lintian took a sip of wine and turned to look at her. He stared at her breathtaking face for a moment and said softly. "You know the answer."

The lights in Yun Qianxue's eyes dimmed a little. She bottomed up the cup in one go and said. "I am going to be crazy if you leave me here alone. Do you know that?"

Perhaps she wanted to get drunk today, Yun Qianxue didn't bother to circulate her profound energy to solve the alcohol in her blood. Her face reddened a little as she leaned forward, drawing closer to Yun Lintian.

A unique fragrance that belonged to Yun Qianxue attacked Yun Lintian's nostrils, causing his heart to skip a beat for a second. His body suddenly became restless as Yun Qianxue approached.

In the past, Yun Qianxue often hugged Yun Lintian into her warm and fragrant embrace, and Yun Lintian would always need to suppress his evil thoughts. However, he didn't know why he didn't want to suppress it anymore.

Yun Qianxue drew closer to Yun Lintian as her body stuck to his right shoulder while her face was a few centimeters away. "What should I do?"

Yun Lintian subconsciously glanced at her seductive lips and returned to look at her beautiful face. A faint hot breath mixed with a red wine scent from her caused his heart to become restless, and his lower body began to wake up.

"I...Ugh!" Yun Lintian knew it was dangerous now and tried to say something. However, his mouth was entirely blocked by Yun Qianxue's soft lips.

Yun Lintian was in a daze for a second as the scene in the past flashed across his mind like a movie. While his consciousness told him it was wrong, his body was honest as he allowed Yun Qianxue's fragrant tongue to pry into his mouth.

Yun Qianxue leaned forward further, and her proud mounds pressed against Yun Lintian's arm. Like an electric shock, Yun Lintian woke up from the stupor moment.

Forget it. We are not related by blood anyway.

Upon coming to a decision, Yun Lintian's mind became firm. Since both of them loved each other, why should he care about morals? What was more? They weren't a real mother and son.

Yun Lintian began to respond to Yun Qianxue's tongue. His hands started to move onto her soft waist and slowly slipped into her white robe.

"Hmm..." Yun Qianxue let out a soft moan as she felt the heat from Yun Lintian's hands on her chest.

The two entangled for a while before Yun Lintian picked her up and carried her to a big bed behind.

Looking at the enchanting woman below him, Yun Lintian felt he was the luckiest man in the world. Yun Qianxue, who was originally beautiful as a fairy, had become more feminine and charming after practicing the Chaos Goddess Sutra.

If it wasn't because Yun Lintian seeing her every day, his soul would undoubtedly fly away upon seeing her face.

"Take me. I want to be your woman, not a mother." Yun Qianxue said softly with a red face. She didn't know that her current voice was extremely seductive to the point Yun Lintian was about to lose his mind.

Without hesitation, Yun Lintian quickly tore her robe apart, revealing her celestial body. If Han Bingling's body was described as a spring pool, Yun Qianxue's body was a bottomless abyss that anyone wouldn't hesitate to jump in.

Yun Lintian waved his hand, and his robe immediately flew away...

Soon, the room was filled with happy gasps and moans as two figures moved up and down...

\*\*\*

The following morning, Yun Lintian opened his eyes and saw Yun Qianxue stare at him with endless tenderness.

Yun Lintian couldn't help kissing her deeply before saying. "Morning."

Yun Qianxue smiled charmingly and responded. "Morning, husband... I want to say this word for a long time."

"I'm sorry for making you wait for so long." Yun Lintian said apologetically and pulled her into his embrace.

Yun Qianxue didn't say anything. She closed her eyes and enjoyed his love. She felt that her decision last night was the best decision she had ever made in her life.

If she didn't take the initiative, perhaps they would never cross this line for the rest of their lives...

Chapter 1363 The World's Conference (5)

After washing up, Yun Lintian and Yun Qianxue left the room and went to the dining hall. The moment they stepped into the hall, Han Bingling, Lin Xinyao, and Shen Liqiu looked at them strangely as if they had discovered something.

While Han Bingling and Lin Xinyao were happy for Yun Qianxue, Shen Liqiu gritted her teeth in anger. Her eyes were filled with resentment.

Yun Lintian pretended as if nothing had happened and took a vacant seat. "Morning."

Lin Xinyao smiled and served him a porridge.

"Congratulations, Sister Qianxue." Han Bingling smiled sweetly at Yun Qianxue, causing the latter's face to flush red.

Yun Qianxue pretended to be deaf and sat down beside Yun Lintian, sipping tea calmly.

Han Bingling didn't tease Yun Qianxue further and turned to Yun Lintian. "Everyone has arrived now. You can start at any time."

Yun Lintian swallowed a mouthful of porridge and asked. "What about the broadcasting system?"

"It was completed a few days ago, and there is no mistake so far." Han Bingling replied.

"That's good." Yun Lintian nodded gently.

While Yun Lintian and the others were having breakfast on the other side of the city, Lei Yongzheng, Lei Zhenxiang, and Lei Feifei finally arrived.

"This city is truly magnificent. It's difficult to believe it took only three months to build it." Lei Feifei said as she looked around in surprise.

"The architecture of these buildings is strangely beautiful. I have never seen something like this before." Lei Yongzheng stroked his beard while looking at the rows of highrise buildings on both sides of the street.

Lei Zhenxiang was also marveling at the scene. However, his focus was more on people on the street. More precisely, on the ordinary people without any profound strength.

This Azure Cloud Divine City absolutely upheld justice compared to various big cities in the past. Ordinary people could live here without worrying about being bullied by a practitioner.

It was said there was a practitioner who made trouble here last week, and he was killed on the spot directly after an intensive investigation. When this case spread out, no one dared to do anything recklessly here, and ordinary people were also relieved. Finally, they could enter a big city without fear.

"I heard Palace Master Qing is the current city lord." Lei Zhenxiang suddenly said.

Lei Yongzheng nodded. "We have come to a conclusion that she will be the first city lord, and the next one will be me. Then, Palace Master Han, Palace Master Nantian, and Patriarch Jin of the Golden Python Clan."

"This system is excellent," Lei Zhenxiang said with a smile. With this rotating system, no one could abuse their authority at will, and everyone would keep each other in check.

"Let's take a carriage there." Lei Feifei caught a glimpse of a carriage service area in the distance. They came here by skyship and didn't bring a carriage over as it needed to be registered.

Lei Yongzheng nodded slightly and walked toward the carriage service area.

"Welcome, esteemed guests." As they walked over, a male receptionist quickly greeted them politely. "I wonder what kind of service you wanted today?"

"This is our first time here. Can you introduce it?" Lei Zhenxiang said with a smile.

The receptionist quickly explained. "Currently, we have two types of services here. The first one is a private carriage service. You can choose how many days you want. The second one is a public carriage service. This one, you don't have to pay anything, but it will depart according to the schedule."

"Oh? How could you make it free?" Lei Feifei asked in surprise.

Although she knew Yun Lintian was rich and didn't care about this petty profit, it didn't mean he could make it free entirely. After all, the city would still need income to maintain the overall infrastructure.

The receptionist smiled politely. "It's one of the policies. The city will take care of infrastructure, including transportation here. As long as you don't violate the rules, you can enjoy this public welfare unconditionally."

He seemed to see through Lei Feifei's thoughts and explained further. "While we earn nothing from this, the tax incomes from those stores alone are enough to maintain the city's infrastructure, including the salary of public officers like the city guards and a receptionist like me."

"I see." Lei Feifei nodded slightly.

Meanwhile, Lei Zhenxiang touched his chin and asked. "The tax must be very high, right? Won't this be a problem?"

The receptionist shook his head. "Although I'm not smart enough to understand the city lord's mind, the tax is actually not that high. An individual will need to pay only two percent while a big store like a hotel and restaurants only need to pay five percent of their income."

"So cheap." Lei Feifei was surprised again. "No matter how rich Yun Lintian is, he shouldn't make it cheap like this, right?"

"This may be rude, but may I know how much is your salary?" Lei Zhenxiang asked.

"A receptionist like me will be paid five thousand medium-grade Profound Stones monthly. It's more than enough for me to feed my family." The receptionist said with a satisfied smile.

As an ordinary person without profound strength, it would be only a dream for him to earn this much. When he heard about this city, he came here with the mentality of having nothing to lose, but he didn't expect to get a high paid job in the end.

There were also many people like him. Most of them used to live in a mountain village or wander outside. Now, they didn't have to endure those hardships anymore.

Lei Zhenxiang and Lei Feifei glanced at each other in shock upon hearing this. One had to know that a true disciple of the Divine Thunder Palace couldn't even earn a thousand medium-grade Profound Stones in a month.

"You can find a chance to talk with Sect Master Yun later. I can only say that his way of thinking is extremely novel and creative. You will be surprised even more later." Lei Yongzheng said with a smile.

He looked at the receptionist and said. "We will get a private carriage for a day."

"Understood. This way, please." The receptionist said politely and led everyone to a luxury carriage in the distance.

#### Chapter 1364 The World's Conference (6)

"Not bad." Looking at a colossus open-air stadium in front of him, Yun Lintian nodded in satisfaction.

This stadium was at least five times bigger than a famous football stadium on Earth. It was made with various precious materials, sturdy enough to block an attack from any Divine Ascending Tribulation Realm experts.

The stadium would be used to uphold a big event like a conference or a tournament in the future.

At this moment, various people crowded around the stadium while waiting to enter the venue. At the same time, several food stalls could be seen arranged neatly on both sides of the stadium.

"Isn't it too big?" Shen Liqiu said.

"You have no idea," Han Bingling shook her head. "Sometimes, the bigger it is, the better you can feel."

Her words caused the faces of Yun Lintian, Lin Xinyao, and Yun Qianxue to twitch.

"?" Shen Liqiu looked at her in puzzlement. Why did she feel like Han Bingling wasn't talking about the stadium?

"Brother Yun." At this moment, Lei Zhenxiang got off the carriage and waved his hand toward Yun Lintian.

"Brother Lei." Yun Lintian smiled and looked at Lei Yongzheng. "Senior."

Lei Yongzheng nodded gently and said while walking toward Yun Lintian. "This avenue is very sturdy. I feel that my strength is not enough to destroy a single tile here."

"That's too exaggerated." Yun Lintian chuckled. "Let's go inside first. Everyone has already arrived."

As Yun Lintian's group walked toward the entrance, many people in the crowd looked at him in surprise and started to whisper to their friends. These people recognized Yun Lintian as they had recently seen his picture circulated around the world.

When Yun Lintian's group passed through the entrance, a vast platform immediately came into their sights. The platform was made of the strongest material Yun Lingwei synthesized long ago.

At this moment, several seats were arranged in a circle on the platform, and many familiar faces could be seen sitting on them.

Starting from Weilan Xuan, Xing Mu, Qing Xiaoting, Jin Yang, Tianqi Junlai, Bi Xian, Yu Rongxi, Guchang, Nantian Xuanyu, and Yan Yaoting. All the representatives of the current top factions were basically here.

At the same time, the seats around the platform were fully occupied by various leaders of middle and small factions from over the world. In fact, they didn't have to come at all, but they felt it would be inappropriate.

Moreover, they wanted to witness Yun Lintian's grace for once. Such an excellent opportunity was hard to come by.

Yun Lintian calmly walked onto the platform and sat on the highest seat while Lei Yongzheng and the others went to their respective seats.

Yun Lingwei walked over and said to Yun Lintian. "The broadcasting system is ready. You can start at any moment."

Yun Lintian nodded gently and scanned the crowd briefly before saying. "Since everyone is here, let's start the conference."

Yun Lingwei walked to the side and made a few hand seals. Immediately, a ball of white light appeared above the stadium before transforming into a huge white screen with the scene on the platform displayed on it.

At the same time, various white screens like this had also appeared above every continent, causing everyone in the world to look at them.

Yun Lintian smiled faintly and said. "Hello, everyone. I am the Misty Cloud Sect Master, Yun Lintian."

As he spoke, his voice resonated out of the white screens, startling everyone as they had never seen something like this before.

"What a convenient method." Yu Rongxi looked at the screen in surprise.

"With this, anyone can easily convey the message to everyone in the world." Jin Yang said in astonishment.

Yun Lintian said further. "Everyone might be curious why I suddenly organized this conference. However, before I talk about the main topic today, I want to announce a few things first."

At this moment, everyone in the world stopped what they were doing and waited for Yun Lintian's explanation.

"The first thing is I have no intention of unifying the world. In short, I won't claim myself as a king of this world as the previous Azure Palace did." Yun Lintian said.

Woah—

His words immediately caused a commotion in the audience. Many of them didn't quite believe in Yun Lintian's words. In their common sense, the strongest would definitely monopolize everything and suppress everyone beneath him. How could Yun Lintian say this?

"It's understandable that everyone doesn't believe this. However, let me explain this a bit." Yun Lintian looked at everyone at the scene and said. "Many of you might not know how strong I am currently, and I won't bother to show my strength. You can simply understand that if I want anyone to die, they will die no matter how powerful they are."

As his voice fell, many people could feel a chill running down their spines. Their intuitions told him what Yun Lintian said was true. Even if they didn't want to believe, they didn't dare to say anything.

Yun Lintian smiled and said further. "See. Even if I have no intention of unifying the world, all of you will subconsciously treat me as the strongest person in the world. Then, what's the point of unifying the world?"

The audience had various expressions upon hearing this. It was true, as Yun Lintian said; he was basically the king of the world right now. There was no need for him to unify it.

"I said that because I want to let everyone know that I have no intention of intervening in the world's affairs. All of you can compete with each other without worrying about me intentionally suppressing you." Yun Lintian said further.

"At the same time, the resources are no longer monopolized by a few top forces like before. Everyone will be given an opportunity, whether you are an ordinary person or a talented practitioner. As long as you are diligent, you will have a chance to climb."

As his voice fell, many people glanced at each other in shock. They fully understood the meanings behind Yun Lintian's intention. Basically, the world's resources would be open for everyone to grasp as long as they were determined and diligent enough.

Unlike the previous era, where the Azure Palace, the Star Gazing Palace, and the Myriad Pill Palace monopolized everything. Unless they joined them, they would have no chance of growing...

Chapter 1365 The World's Conference (7)

"Secondly, I want to promote my disciple's business a bit. I believe many of you have noticed a recently established Morning Rain Pavilion that completely replaced the Myriad Pill Palace's stores." Yun Lintian said.

"This pavilion runs by my disciple, Yun Chenyu. It mainly engages in an alchemy business. However, the price will be reasonable, and the processing fee will be very cheap. Anyone who wants to buy and sell medicinal and precious herbs can visit it. I can guarantee that everyone will be satisfied."

Hearing this, many people immediately understood Yun Lintian's intention. Although he had no intention of becoming a king, he still monopolized some businesses.

However, those people who had visited the Morning Rain Pavilion before could see more than anybody. The price of the goods inside was extremely cheap, several times cheaper than any similar goods in the current market.

At the same time, the Morning Rain Pavilion had also given a high price to sellers, much higher than anyone they had ever seen. With this, all the middlemen would definitely go extinct because no one would sell things to them anymore.

Thinking of this, the eyes of the people around the world lit up. Especially ordinary people. From now on, they didn't have to be suppressed by the middleman anymore.

Yun Lintian saw the changes in everyone's expression and knew they had figured it out.

He said further. "The second topic is about the growth of our world. As everyone had experienced it before. The enemies could easily suppress us because we were too weak. We couldn't even lift our heads in front of them."

"Why? Because the enemies have a better environment and better profound art? Well, it might be true half of it, but the main problem was that we lacked good competition here."

"In the past, it was all about the Nine Palaces. Their existences were like a vast mountain, pressing everyone to the ground. And what happened in the end? They couldn't even fight the enemies, despite hogging so many resources to themselves."

He swept his gaze over everyone at the scene and continued. "All of you here could be considered the upper half of the world's forces. You could argue with me that it should be like this because the strong would prey on the weak at the end of the day."

"Of course, I agreed with everyone on this point. If I'm not strong enough, I won't be here talking about all of this."

"However, I want to change that." He looked straight into the white screen, making it look like he was staring into everyone's eyes. "I want to bring the world to a whole new level by giving the people in the bottom-half side an opportunity. The opportunity to compete with the upper-half side."

"Once everyone in the world could compete with each other freely without having a mountain sitting on top of their heads like before, they would become much stronger. The strong would be even stronger, and the weak would have a chance to grow."

As his voice fell, people around the world went into uproar. They carefully thought along Yun Lintian's words and fully understood what he wanted to do. If he could do what he said, the overall strength of the world would undoubtedly increase dramatically in the near future.

And when they thought further, they finally understood why Yun Lintian wanted to monopolize a crucial resource like the alchemy business. This was obviously the "opportunity" he was talking about.

Once everyone could access a good pill, the previous gap between the top and the bottom would be gone completely. The rest would be decided by a profound art, innate talent, and hardworking.

Yun Lintian smiled and said further. "I cannot help everyone with your innate talent, but I can solve the profound art problem."

Everyone quickly stopped discussing and looked at the screen attentively, waiting for Yun Lintian's following sentence.

"I believe many of you have heard about the Sky Throne Profound Academy before. I've decided to replace them with my newly established academy, Profound Sky Divine Academy." Yun Lintian said calmly.

"Although both are an academy, they are entirely different. Once you become a student of the Profound Sky Divine Academy, you can enjoy various benefits, such as having a Divine Monarch or even a Divine Ascending Tribulation Realm expert as your teacher. You can also choose any Heaven-rank profound arts from the library at will."

"Woah—"

Everyone gasped in shock upon hearing this. A Heaven-rank profound art? One had to know that even a middle-level sect might not have one of such, but Yun Lintian actually gave it away for free?

However, Yun Lintian's next sentence blew their minds away instantly.

"Of course, the Heaven-rank profound arts are just entry-level. There are many Divine-rank arts for you to choose from as well. However, you have to accumulate merits by doing the academy's tasks to exchange for it."

His words stunned everyone, including many top sects at the scene. They suddenly felt they should disband the sect and join the Profound Sky Divine Academy instead.

"What about the qualification, Sect Master Yun?" One among the crowd asked.

"The academy will be opened for everyone. However, in order to make it fair, the academy will hold a simple examination every year. It's an examination related to fundamental knowledge of every aspect, whether it is agriculture, alchemy, formation, forging, or business management. As long as you pass one of them, you can enter the academy." Yun Lintian answered.

Hiss—

Everyone gasped in shock once again. This was no different from having no examination.

Yun Lintian said further. "However, the number will be limited each year. After all, no matter how big the academy is, accepting everyone in one go is impossible. And for those who failed, you can come again next year and further years until you can pass."

"The academy will open on every continent. The locations of them will be announced again later. You don't have to worry about the quality. All the five academies will hold the same standard. You can choose to join the nearest one."

Everyone couldn't calm down anymore upon hearing this. The establishment of the academy was like a light of hope for them. Especially people at the grassroots level. From now on, they would have a chance to stand up!

Chapter 1366 The World's Conference (8)

The series of announcements from Yun Lintian were like huge stones falling into the lake. It caused a powerful wave to spread to every corner of the world.

Establishing the academy alone was enough to make everyone see hope in their poor life. If they failed to climb up in the future, they could only blame themselves. After all, the opportunity was given to everyone. It depended on their effort and determination now.

"Some of you might be curious right now why agriculture and business management topics are included in the examination. Not only these two, but there will be culinary, or even painting as well." Yun Lintian said.

"It's because the profound path is not the only path we can walk on. After all, everyone is born different. We all have different appearances, backgrounds, as well as talents. Hence, I want everyone to follow your dream. You can be a farmer, chef, manager, or painter. You can be anything you want."

The world fell silent immediately as Yun Lintian's voice dropped. Everyone stared blankly at Yun Lintian. They couldn't believe there would be someone who cared so much about them.

In various mountain villages around the world, everyone was now hugging each other and crying out of joy. Most of them were born with no profound talent and were destined to be ordinary people for the rest of their lives.

At first, they were moved by Yun Lintian's idea but were soon defeated by their fate. However, when they heard his latter sentences, they went from depressed to happy instantly.

"Thank you, Sect Master Yun!" All of a sudden, many people around the world shouted in unison. Although their voices couldn't reach Yun Lintian's ears, Yun Lintian could feel their gratitude.

"In order to raise competition further, I shall announce the establishment of the Azure Cloud Convention." Yun Lintian said further.

"As you probably have guessed about it already. The Azure Cloud Convention is nothing but a high-level tournament for the younger generation. It doesn't matter what kind of background or strength you have. As long as your age is below fifty, you will be eligible to join this convention."

"The convention will be held every five years. The winner will receive huge rewards, which will be announced later."

He looked at everyone and said. "The first convention will start three months later. So, anyone who wants to join should start preparing now."

Yun Lintian didn't linger on this topic further and went to the next. "The third topic is about the infrastructure around the world. I planned to first upgrade basic infrastructure, such as a road and transportation. In the next period, my people will build the roads to every corner of the continent, including establishing a transportation hub such as a ferry and a train station."

"Of course, my people alone are not enough. I will hire more people later. Anyone interested in working with me can go to the Morning Rain Pavilion and the newly established Fleeting Cloud Pavilion to apply for the job. Someone will tell you about the salary and welfare."

Everyone was shocked by Yun Lintian's move once again. Building a road all over the continent would consume a hefty of resources. Even if you emptied the previous Star Gazing Palace treasury, it might not be able to complete it... How could Yun Lintian do it?

Yun Lintian naturally didn't explain this. It might be an astronomical figure for others, but it was nothing for him.

Yun Lintian took a sip of tea that Yun Qianxue handed over and said further. "Now, I am going to talk about the main topic today."

Everyone quieted down immediately and looked at the screens attentively.

"I believe all of you are aware of the existence of the other worlds, as well as the Divine Realm. The previous invaders were also coming from the other worlds." Yun Lintian said.

"I won't go on about our world's history, as it will be too long. I will make it simple. In the past, there were many top practitioners who left this world for the Divine Realm. However, for some reason, the world's boundary was completely sealed, preventing everyone from leaving."

Yun Lintian swept his gaze over everyone and said calmly. "Now, the world's boundary is under my control, which means I can leave the world at will."

Lei Yongzheng and the others looked at Yun Lintian with incredible expressions. For them who reached the world's ceiling for a long time, they naturally wanted to visit the Divine Realm. It was just that they chose to stay in the end back then.

When they wanted to leave again, they suddenly discovered they couldn't leave anymore. Hence, they simply gave up and prepared to live here for the rest of their lives.

Yun Lintian said further. "However, I have no plan of opening it for everyone at the moment. It's because I don't think it's the right timing. First of all, we have just ended the historical war and are in a state of recovery. Once all the top powerhouse left, the world would fall into chaos again."

Lei Yongzheng and the others immediately calmed down upon hearing this. Of course, they felt nothing wrong with Yun Lintian's statement.

Yun Lintian raised his hand up and said. "Fifty years. The gate will be open for everyone fifty years later. Anyone who wants to leave can go to my Misty Cloud Sect, and my people will open the gate for you."

Lei Yongzheng and the others nodded in agreement. For them, fifty years was nothing but a blink of an eye. They could afford to wait.

"Why it sounds like you are leaving, Sect Master Yun?" Bi Xian asked as she felt something was wrong with Yun Lintian's words.

Everyone at the scene quickly looked at Yun Lintian, waiting for his answer.

Yun Lintian nodded with a smile. "I'll leave after the convention ends."

Everyone in the world was startled. They didn't expect Yun Lintian to leave this fast.

Yun Lintian explained further. "I planned to go there first to take a look, and I would return within fifty years. Perhaps I could give everyone crucial information at that time so that all of you could have a higher chance of surviving."

"Of course. If I didn't come back in time, the gate would still be open for everyone. You don't have to worry about it."

The world went quiet immediately as his voice fell...

Chapter 1367 Song Of Departure (1)

For those who didn't know Yun Lintian, they didn't feel anything except for showing some admiration. However, the people close to him feel otherwise. They could see clearly that Yun Lintian wanted to pave the way for them by risking his life.

As a practitioner, everyone had to risk their lives in order to walk further on the profound path, but it couldn't deny that they'd rather choose a safe path if it was available. And what Yun Lintian was going to do was give them that safe path.

Among everyone in this world, he was the one who had the highest chance of surviving in the Divine Realm. If he couldn't, no one in this world could.

Yun Lintian said further. "During these fifty years, I hope everyone tries their best to strive for their own future. If everything goes smoothly, we can establish an exclusive channel between this world and the Divine Realm. By then, everyone could easily travel between two places without hindrance."

The eyes of everyone in the world lit up with excitement. Though most of them didn't think they were qualified enough to enter the Divine Realm, it didn't prevent them from getting excited.

They had already imagined the scene where everyone shuttled between two worlds freely. It would definitely be a magnificent scene. At that time, many resources from the Divine Realm would also flow into this world, and they would have a better chance of improving themselves.

Yun Lintian looked at everyone at the scene and said. "That's all I wanted to say today. Don't forget to visit the Fleeting Cloud and Morning Rain Pavilions to register your name."

As his voice fell, the white screens around the world gradually disappeared.

"Thank you, Sect Master Yun." All of a sudden, a sect master from a middle-level sect stood up and bowed to Yun Lintian.

Yun Lintian's series of actions were like a ray of sunlight penetrating dark clouds and shining upon worthless grasses on the ground. Even though they were surrounded by big trees, the sunlight could still reach them, allowing them to grow.

The people in the scene stood up and bowed toward Yun Lintian, expressing their gratitude one after the other. They knew that from today onward, their lives would be several times better.

Yun Lintian waved his hand, sending his divine energy to help everyone up, and said. "There is one last thing I didn't speak to everyone in the world because I know it's too idealistic. However, I hope everyone here will be more united when an enemy like the previous devil appears in the future."

He swept his gaze over everyone and said further. "No matter who you are or what kind of background you have, don't forget that this is our home. We will never allow an outsider to destroy it."

"We will never allow an outsider to destroy it!" A middle-aged man in the crowd shouted loudly, and everyone started to repeat in unison.

The shouts echoed throughout the entire stadium, and people on the outside could hear them clearly. They didn't know much about the context, but the energy from the shouts immediately made their blood boil, and they couldn't help following suit.

Soon, the entire city shouted in unison. Some even swore to heaven that they would protect their home with their lives, just like their predecessors who sacrificed themselves in the previous war.

Lei Yongzheng and the others looked at the scene emotionally. Many of them had lived for thousands of years, and this was the first time they saw everyone in the world united like this.

"He has surpassed Senior Yun by miles." Nantian Xiulan muttered to herself as her gaze fixated on the calm Yun Lintian.

She had witnessed Yun Wushuang's might before, but Yun Lintian's current achievement was something no one in the entire history could compete with.

Yun Lintian raised his hand, and everyone gradually quieted down. "I have nothing more to say. Let's end here."

As he spoke, he glanced at Lin Xinyao and left under everyone's gaze.

Yun Lintian's group returned to the hotel and set up a banquet for the top powerhouses he knew.

Along the way, Lin Xinyao and the other three women didn't utter a single sound. Their faces were occupied by sadness. If possible, they didn't want Yun Lintian to leave. At least, not so fast.

What was more? They had to wait for his return for fifty years. For other practitioners, this number might be short, but for them, it was as though forever. They didn't even know how to spend their time during this period.

At the banquet, everyone tacitly avoided this topic. Lei Yongzheng and the others continued to talk about the development direction of their respective factions instead.

"Brother Yun, are you really going to leave so soon?" Fan, who possessed zero EQ, suddenly asked.

As his words came out, everyone in the scene went silent immediately. They couldn't help looking at Fan strangely.

Meanwhile, Guchang wished he could slap his son to death in one strike. Unfortunately, he could only glare at Fan and smile apologetically at Yun Lintian.

Yun Lintian noticed this and waved his hand, telling them not to concern about it.

"Yes. As I said previously. This is the right time for me to leave. The longer I stay here, the slower everyone develops." Yun Lintian said.

"Furthermore, don't you want to go to the Divine Realm? The faster I left, the earlier I could return. Maybe it would take me only a few years. Who knows?"

Fan's eyes lit up. "That's good. Why don't you leave tonight, Brother Yun?"

Pa!

Guchang couldn't help anymore and slapped his son's head, making the latter look at him in confusion.

This comical scene immediately made everyone laugh.

"From what I heard, the environment over there is several times better, and it also comes with greater danger. Seeing that none of those old fogeys in the past have returned, I guess it's harsher than I've expected." Lei Yongzheng said with a frown.

The Longevity Monarch and many people had left the world for the Divine Realm, but none of them had returned after so many years. This made Lei Yongzheng wonder as he believed it was impossible for them to completely let go of their hometown.

Chapter 1368 Song Of Departure (2)

Qing Xiaoting nodded in agreement. "At first, I thought they couldn't return because the spatial tunnel wasn't open, but it didn't seem to be the case now."

Tianqi Junlai and the others also fell into deep thoughts.

Yun Lintian took a sip of wine and said. "It's normal. The Divine Realm is extremely vast. There are billions of billions of stars. I don't think it's easy to come back."

"He's right." Tao Kang said while sipping wine. "All of you here have no idea what kind of the Divine Realm looks like. I can only say that it will take several decades just to travel between the two realms."

Lei Yongzheng and the others were stunned upon hearing this.

"Several decades? That long?" Jin Yang said in doubt.

Tao Kang shook his head. "I have no reason to lie. Unless you go through a formation or have your own profound ship, it will take forever to go to the other realms. That's why I believe those people probably struggle somewhere or already perish... Well, I think it's the latter."

Jin Yang took a deep breath to calm down. His mind was full of an image of a vast starry sky. His existence was probably no different from a speck of dust in it.

"And this is just one aspect." Tao Kang took another sip of wine and said further. "I didn't mention the dangers they are going to face."

He looked at everyone and asked. "Do you know how people over there treat an ascender from a lower realm?"

Without waiting for anyone to reply, Tao Kang continued. "In the Divine Realm, there are two types of people. One is a native, and another one is an ascender from the lower realm."

"Once those so-called natives know you're an ascender, they will automatically treat you like garbage. If you're lucky, they will just kill you, and if you are unlucky, they will enslave you."

Tao Kang's expression wasn't good, as if he recalled something he didn't want to remember. He said solemnly. "You have no idea how many times I have seen such a scene... Trust me. You'd rather die than become their slaves."

As a disciple of the Blissful Mountain, Tao Kang had seen a lot of things around the world.

Every year, millions of ascenders would appear in the Divine Realm, and those lucky ones with some potential would be recruited into various factions. As for the unlucky ones, they would either end up becoming a slave or losing their lives for no reason.

Everyone in the room glanced at each other with an unsightly expression. They could already imagine what kind of scene Tao Kang had seen.

Tao Kang drank a few mouthfuls of wine to calm himself down and explained further. "Moreover, the gaps between natives and ascenders are like heaven and hell. They have lived in a good environment since birth. Even if they have a bit of talent, they will still be better than most ascenders from the lower realm."

"There was this one man from the lower realm. Except for Yun Lintian, I can safely say his talent is several times better than any of you here. Even so, he was considered barely passable in those people's eyes. And he ended up dead because he didn't want to lower his head."

"Therefore, I don't think those old fogeys you are talking about have a chance of surviving."

Deadly silence immediately blanketed the room. Everyone could clearly hear each other's heavy breathing. Perhaps, they couldn't even be considered an ant in those people's eyes.

"No wonder Xing Tengfei and Du Shoushan were so adamant about finding a backer." Qing Xiaoting finally understood everything.

Tao Kang nodded. "They surely had already seen something."

He raised his head to look at Yun Lintian and said. "That's why Yun Lintian's decision is correct. If there's anyone with the highest chance of surviving in the Divine Realm, it must be him... I don't want to discourage all of you here, but I suggest you better stay here for the rest of your life if he can't return."

Lei Yongzheng and the others went completely silent. They didn't know what to say at this moment. The flames of hope in their hearts were extinguished directly by Tao Kang's words.

"Why don't you stay here?" Shen Liqiu couldn't help asking. "I know you are ambitious, but..."

Yun Lintian looked at her and saw her eyes full of worries. This made his heart warm.

He shook his head and said. "It's not about my ambition, but rather a mission. I have a goal to accomplish. Once I failed, it meant I had to die. So, I have no choice here."

Shen Liqiu opened her mouth but was stopped by Han Bingling's gaze.

Han Bingling turned to Yun Lintian and said. "We know that we can't stop you from leaving, but at least you should make sure that you can protect yourself first."

Meanwhile, Yun Qianxue, Lin Xinyao, and Mu Qiuxue calmly looked at Yun Lintian. Although they were concerned about his safety, they fully trusted him. They believed he would be safe and sound no matter what circumstance he faced.

"That's right. Why don't you stay here longer, Big Brother Yun?" Yu Jiao'er echoed.

Yun Lintian put the cup down and said to everyone. "Thank you for your concern. I truly appreciate it. However, I have already made up my mind. I won't change it."

Since Yun Lintian had already said this, everyone finally stopped persuading him.

Seeing the atmosphere wasn't good, Yun Lintian changed the topic. "Are you going to send your juniors to participate in the upcoming convention?"

Bi Xian smiled and said. "Our Heavenly Fox Clan won't miss this chance. Why don't you give us a spoiler about the rewards?"

Yun Lintian smiled mysteriously. "I can't. You can wait for the announcement later."

"Stingy." Bi Xian curled her lips.

The atmosphere gradually livened up, and everyone continued to eat and talk...

\*\*\*

"What are you thinking?" Sitting in front of the floor-to-ceiling glass, Lin Xinyao looked at Yun Lintian and asked.

Yun Lintian shook his head and pulled Lin Xinyao into his embrace. "I don't want to leave you."

The two of them had just gone through a calamity and finally had a chance to be together. They naturally didn't want to separate from each other.

Lin Xinyao leaned against his chest and asked softly. "Do you remember the mission in the middle-east country?"

Chapter 1369 Song Of Departure (3)

The scene of a desolate desert emerged in Yun Lintian's mind. At that time, his team had a mission to destroy a mercenary group.

"Because someone leaked our information, we had to act separately with no way of communication. We were completely isolated from each other and surrounded by the enemy in all directions." Lin Xinyao seemed to return to the past as she spoke.

Yun Lintian smiled and said. "Didn't we survive in the end?"

Lin Xinyao buried her head into his embrace further and said. "I never told you about this. In fact, I was so afraid that I wouldn't have a chance to see you again."

Yun Lintian went silent immediately. Everyone on his team wasn't afraid of death. No matter what kind of circumstance they were in, death was the last thing they would think of.

However, he didn't expect Lin Xinyao to say this. It was the first time in their two lifetimes that Lin Xinyao expressed this side to him.

"This time is the same. I'm afraid that I will never have a chance to see you again once you leave." Lin Xinyao said further. Her voice was filled with worries and fear.

Yun Lintian opened his mouth but didn't know what to say. He must leave for the Divine Realm at the end of the day. It couldn't be changed.

Lin Xinyao bathed in the warm embrace for a long while before parting and looked straight at Yun Lintian's face. "I know it's not something we can change, and I don't wish for it. So, can you promise me to pay attention to your life first? If possible, I want you to restrain your kindness and be selfish for once."

Yun Lintian suddenly leaned forward and kissed her on the lips deeply. The two stayed in that action for a while before parting.

"I promise you. I will be selfish and put my life before everything." Yun Lintian said solemnly.

Lin Xinyao smiled brightly and leaned against his chest. "Remember this moment well and think of it before risking your life. Especially risking your life for others."

"I know." Yun Lintian hugged her tightly while his mind drifted to the night scenery outside.

He didn't know what kind of trouble he would face up there, but any trouble would definitely be several times more dangerous here. He wasn't even sure whether he could rely on the Land of Beyond Heaven to save his life.

\*\*

\*

Three months passed by very quickly. The entire world seemed to usher in a new era like a tree turned fresh leaves during this period.

Since the World Conference, every corner of the world began to thrive. New towns and cities popped up everywhere along the newly built roads. Those people from the mountain areas emerged from seclusion, connecting to the outside world more and more.

If there was anyone who changed the most, it must be ordinary people without profound strength. After Yun Lintian's announcement, their livelihoods improved drastically.

Those worthless crops and herbs in the past had brought huge incomes to them as the demand for food and medicine rose sharply. Not to mention the Morning Rain Pavilion had accepted all the herbs, no matter what grade it was.

This change also brought peace to them. People were no longer becoming a bandit and found themselves a job in various towns and cities. Many of them were also hired by Yun Lingwei to build the infrastructure on every continent, and their incomes were extremely high, enough for them to raise their whole families.

With such a way of living, who would want to become a bandit?

Furthermore, people began to send their children to the Profound Sky Divine Academy. Even though they couldn't get in, they could still join other schools like the Star Gazing Hall and the newly established professional schools that Yun Lintian came up with.

The schools had basically provided everything, whether it was accommodation or food. Their parents could fully entrust the schools to take care of their children.

Inside a tavern of a newly built medium-sized town, several hundreds of kilometers away from the Azure Cloud Divine City, Yun Lintian, Lin Xinyao, Han Bingling, Yun Qianxue, Shen Liqui, and Mu Qiuxue were sitting around a round table, enjoying simple delicacies while looking at the bustling scene in the dining hall.

During these three months, Yun Lintian leisurely traveled around the world with his people. They didn't care about worldly affairs and simply enjoyed the beautiful scenery.

It could be said this was the most peaceful three months they ever had in their lives.

"I can't believe the world has completely changed in just three months." A middle-aged man with an unkempt beard said while sipping a wine. His eyes were full of emotions as he glanced toward the scenery outside through the window.

Sitting opposite him was a simple middle-aged woman. From the look of it, they seemed to be a husband and wife.

"Yeah. I still feel like it was a dream." She said emotionally while filling her husband's cup.

"Mom, can I eat a cheesecake when we arrive in the city?" A twelve-year-old-looking girl who sat between the two looked at her mother and said expectantly.

The middle-aged woman patted her daughter's head lovingly and said. "Of course. Mom will buy it for you."

"Yay!" The little girl was happy and drank a mouthful of orange juice.

The three of them were originally living in a deep mountain. Their village was a type of dead-end village that couldn't possibly connect to the outside world.

However, since the roads were opened and spread to every corner of the continent, they could finally get rid of poverty and come out to see the world.

This time, they were going to send their daughter to take the Profound Sky Divine Academy exam.

Han Bingling looked at the lovely family and said softly. "At first, I didn't understand why you wanted to develop the entire world so much, but I can see it clearly now."

The world was originally full of cruelty and chaos. People would kill each other everywhere. However, after Yun Lintian's plan took place, those unnecessary conflicts began to fade bit by bit to the point ordinary people could travel around the world without fear of getting killed like before.

Moreover, the world might look peaceful, but it was without competition. On the contrary, people became more eager to improve themselves as there were too many new competitors coming up each year...This was simply an ideal state.

Chapter 1370 Song Of Departure (4)

"This is just the beginning." Yun Lintian said while picking roasted meat for Qingqing. "Wait until a decade later. You will see more of a prosperous world."

Han Bingling smiled and said nothing further. Her eyes were full of tenderness and pride as she looked at him. During this period, she often heard people praise her man, even calling him a living bodhisattva.

As his woman, she was naturally proud of him.

Mu Qiuxue put the chopsticks down and looked at Yun Lintian. "Thank you."

Mu Qiuxue grew up in a commoner background. She had seen a lot of suffering and struggles among grassroots people. Yun Lintian's action had basically pulled all of them out of the sea of suffering. This included her village.

Yun Lintian glanced at her and said with a smile. "I've told you before. There's no need to say something like this between us."

After staying together for three months, Yun Lintian naturally "ate" Mu Qiuxue. This woman might look extremely cold and indifferent, as though she was unable to express her emotion and desire, but in fact, she was extremely passionate inside.

At first, Yun Lintian thought Mu Qiuxue had no feelings for him, but who would have thought she actually confessed to him in the end? Of course, how could Yun Lintian let her go?

Perhaps he was influenced by the Dragon God bloodline, Yun Lintian became increasingly lustful, and he didn't reject women's love for him anymore.

Mu Qiuxue smiled softly and continued to eat.

On the side, Shen Liqiu, who got her wish long ago, said jokingly. "If you want to thank him properly, you should visit his room tonight, Sister Qiuxue."

Hearing this, Mu Qiuxue's face turned red, and she lowered her head shyly, not daring to look at Yun Lintian. Although they had "exercised" together several times, she couldn't still overcome her shyness.

Lin Xinyao curled her lips as she glanced at Shen Liqiu and said. "It's your turn to accompany our husband tonight. Well, he didn't do anything last night. Surely, he has a lot of bullets tonight."

Shen Liqiu shuddered involuntarily upon hearing this. The scene where she got "punished" for the entire day and night reemerged in her mind. She was so terrified by Yun Lintian's relentless attack that made her unable to walk for many days.

She subconsciously looked at Yun Lintian and saw the latter smile evilly at her. "No... I will give this opportunity to you, Sister Xinyao."

Seeing this, everyone glanced at each other and laughed. They could still remember how Shen Liqiu was so persistent in getting together with Yun Lintian. After getting her wish, she would often run away every night as if she was traumatized by Yun Lintian's strength.

"Today is the first day of the convention, right? No wonder there are so many people heading to the city." The middle-aged man said.

The woman responded while wiping the stain out of her daughter's mouth. "Yes. Thankfully, we have already booked a hotel in advance. Otherwise, we would have to live on the street later."

"What is the convention, Dad?" The little girl asked curiously.

"You don't remember what Sect Master Yun said back then? This Azure Cloud Convention is the biggest event where everyone below fifty years old competes with each other." The middle-aged man explained.

"Oh." The little girl nodded, seemingly uninterested.

"In the future, you can try to participate in it." The middle-aged man said further. "Speaking of this, I still don't know what kind of reward for the winner is."

Hearing this, Shen Liqiu looked at Yun Lintian and asked. "Can you tell us now? What is the reward?"

Yun Lintian chuckled and said. "Why bother to ask? You will eventually know it later."

"Cheh. Stingy." Shen Liqiu snorted in dissatisfaction.

Just as Yun Lintian fed Linlin a grilled chicken, Yun Meilan's voice suddenly resounded in his mind. "Sister Ruanyu wanted me to ask whether you would attend the convention."

"Of course. This is the first time, anyway. I have to be there." Yun Lintian replied. Although he didn't like such a ceremonious thing, he was the one who came up with this convention. It would be inappropriate if he wasn't there.

"Alright." Yun Meilan responded.

The meal lasted another hour before Yun Lintian's group left the tavern and prepared to go to the Azure Cloud Divine City.

As they passed by a transportation service area, Yun Lintian saw the previous family of three discussing in a low voice. From their expressions, they seemed to encounter a problem.

"I'm sorry, everyone. All of our carriages are full now. We can no longer add more." A young receptionist shouted and bowed apologetically to the crowd.

Hearing this, Yun Lintian immediately understood everything. He said in doubt. "It's not enough?"

"Well, it seems we have underestimated people's enthusiasm." Han Bingling said. "What about the train you told me before?"

"I don't know how the progress is now. Need to ask Lingwei about it." Yun Lintian replied.

He planned to make a high-speed train to connect all the cities and towns, but the terrain was too bumpy in some places. Not to mention various mountains and rivers. It needed time to lay a railway.

Looking at the disappointed expressions of everyone, Yun Lintian thought for a moment and decided to provide them a few skyships. Anyway, he had many unused skyships left for dust inside the Land of Beyond Heaven.

Thinking of this, Yun Lintian removed his disguise and told the crowd. "Hello, everyone."

His voice was not loud but easily attracted everyone's attention. When they saw Yun Lintian, their eyes widened in disbelief as they recognized him.

"It's Sect Master Yun!" Someone among the crowd exclaimed, and the rest became excited.

Yun Lintian raised his hand slightly, and everyone gradually quieted down.

"I saw that the carriages are not enough for everyone. So, I plan to send all of you to the city myself." Yun Lintian said.

His words immediately shocked everyone.

Yun Lintian waved his hand gently, and a few skyships appeared suspended in the sky.

"Anyone who wants to go, please line up and get into the skyship. Be careful. No need to hurry." Yun Lintian said and brought the first skyship down to the ground.

Hearing this, everyone quickly lined up and excitedly got into the skyship.

"Thank you, big brother." When the family of three walked past Yun Lintian, the little girl smiled sweetly at him.

Yun Lintian patted her head and said softly. "Welcome."

At the same time, he secretly injected a strand of the wood energy into her body, quietly opening all of her profound entrances...
