

## **Myth Beyond 151**

### Chapter 151 - Lin Xinyao's Decision

Han Bingling said to Han Muyue after pondering for a while. "Go to the inn."

Both Han Bingling and Han Muyue immediately left the City Lord manor, heading to the Blue Moon inn afterward.

Meanwhile, Lin Xinyao had also arrived at Thunder City and went to Blue Moon inn to meet her master.

"Palace Master." When a receptionist saw Han Bingling walked into the inn, she immediately bowed her head to greet.

Han Bingling smiled faintly. "Prepare a room for me."

"Yes, Palace Master." The receptionist quickly led Han Bingling to her exclusive room on the highest floor.

The room was spacious enough to contain fifty people with no problem, and the interior was decorated with ice furniture suitable for a profound practitioner to practice.

"Thank you. In a short while, my disciple will come here. You can lead her to see me." Han Bingling sat on an ice chair and said to the receptionist.

The receptionist expressed her understanding and left the room afterward.

"Muyue, can you track Yun Lintian? He shouldn't go that far." Han Bingling said.

"Yes, Master." Han Muyue appeared beside Han Bingling.

Han Bingling nodded and said. "Go ahead. Don't let him find you again, and report me when you found him."

Han Muyue said nothing and disappeared from the room.

Suddenly, the door opened, and Lin Xinyao appeared behind it.

When she saw Han Bingling, Lin Xinyao took the veil off and greeted with a rare smile. "I'm back, Master."

Han Bingling smiled charmingly and poured a cup of spirit tea for Lin Xinyao. "How is it, going out this time? Have you gained anything?"

Lin Xinyao replied. "Master, why don't you check on my body and see if there's something wrong?"

Han Bingling was snickered in her heart as she already knew there was no Abyssal Energy within Lin Xinyao's body but pretended to check. Her expression changed drastically as she exclaimed. "How could it be? Where is the Abyssal Poison?"

Lin Xinyao smiled faintly. "I've met an interesting person and was saved by him. His name is Yun Lintian. I don't know how he expelled the Abyssal Poison out of my body. He is probably the most talented doctor I've ever seen so far, counting his age."

Han Bingling pretended to be surprised. "Oh? Really? Where is he now? If he could get rid of Abyssal Poison, as you said, I want to know what method he used. It would help us greatly fighting with Poison Valley."

Lin Xinyao shook her head. "I don't know where is him now, and we better not to trouble him. From what I see, he is not a person who is willing to get into others' trouble. If it wasn't because of Mumu, he probably wouldn't save me back then."

Han Bingling sighed softly. "I see. What a pity."

While she was saying this, her mind spun rapidly, thinking about how to deepen her relationship with Yun Lintian. It would be great if Yun Lintian liked Lin Xinyao a bit. Unfortunately, as far as she knew, Yun

Lintian was different from other young men, as he wasn't tempted after seeing Lin Xinyao's appearance. This point made her doubt whether he was a straight man.

Thinking of this, Han Bingling suddenly felt her buttocks burned as she recalled when Yun Lintian squeezed them... Well, he is definitely a straight man. Han Bingling thought.

"Master?" Lin Xinyao said softly after seeing her master seemed to distract by something.

"Huh?" Han Bingling regained her composure and said. "Right, do you want to enter Thunder Valley to gain experience?"

Lin Xinyao had a weird expression. It was strange her master asked this because both of them knew Thunder Valley gave Lin Xinyao no benefit. Why would Han Bingling want her to go there?

"Is there anything I need to know, Master?" Lin Xinyao wasn't a fool. She naturally understood Han Bingling probably had an agenda behind this.

Han Bingling didn't tell her directly as she replied. "Nothing. I just think that it would give you a good experience before entering the Frozen Moon Mythical Realm. Although Thunder Valley could not be regarded as the genuine mythical realm, it wasn't inferior to any of them out there."

All of a sudden, Mumu jumped down from Lin Xinyao's shoulder and let out a loud cry at Lin Xinyao.

"You want me to go there? Why?" Lin Xinyao asked curiously when she heard Mumu saying.

Mumu said a few words directly to Lin Xinyao's mind, and the latter frowned. "There's something you need over there?"

Both Han Bingling and Lin Xinyao looked at Mumu questioningly and saw it nodded its head vigorously, answering Lin Xinyao's question.

Lin Xinyao turned to Han Bingling. "Master, do you know about this?"

Han Bingling leaned against the ice chair and pondered for a while before answering. "I heard Lei Zhenxiang said he could perceive a terrifying existence within this place, and this existence might even surpass the Monarch Profound Realm. It's because of the restriction of Thunder Valley that only below the saint could enter; he couldn't investigate further, and his men also couldn't reach the center of the valley."

Han Bingling looked at her disciple and continued. "This time, he sent Lei Jun here for this purpose. Although this Lei Jun is not a good person, his affinity with the lightning element couldn't be underestimated. If there's nothing wrong, he's likely to reach the place."

Lin Xinyao fell into deep thought. She wasn't confident to reach the center of Thunder Valley, but Mumu constantly urged her to go there made her hesitate. She looked at Mumu and asked. "Are you sure you want to go there?"

Mumu nodded its head while moving its paws, trying to explain something.

"Alright. I'll bring you there." Under Mumu's urging, Lin Xinyao was helpless and reluctantly agreed with it. After all, if she found the thing Mumu mentioned, their strength would definitely increase.

"Have you decided?" Han Bingling asked for a confirmation.

Lin Xinyao took Mumu into her embrace and replied firmly. "Yes, Master. I will enter Thunder Valley."

Chapter 152 - Unexpected Enter

"Good. Here, take this." Han Bingling flicked her hand, sending a small yellow crystal to Lin Xinyao.

When the crystal landed on Lin Xinyao, she was instantly electrocuted, but it didn't hurt her in the slightest. She carefully observed the yellow crystal and saw faint lightning flashed within it from time to time.

"This is Thunder Crystal. You have to hold this to enter Thunder Valley. Go prepare yourself. I will find someone to follow you." Han Bingling explained.

Lin Xinyao stored the Thunder Crystal away and went to the side room, preparing for the next journey.

Han Bingling watched her disciple entered the room and then contacted her trusted aides.

\*\*\*

"Phew... That was close." Yun Lintian appeared several kilometers away, but it was still in the mountain range as he could see the lightning barrier at the end of his sight.

"How am I going to enter...." He looked at the mountain and muttered to himself. Since the entrance was tightly guarded, his chance of entering Thunder Valley was naturally zero.

Yun Lintian racked his brain up and found no solution. Was he going to give up like this? He was undoubtedly unwilling, but what could he do with his pitiful strength.

"It seems I have to go back and practice obediently... What the...?" Just as Yun Lintian was about to give up and go back, he saw a lightning bolt shot out from the lightning barrier straight at him. Before he could react, the lightning was already hitting him, coiling around him like a snake, and pulled him toward the mountain.

Everything happened in one second. Yun Lintian had no way to resist and could only let the lightning python drag him away. Surprisingly, when Yun Lintian hit the lightning barrier, he could pass through it like nothing, causing him to wonder what happened... Maybe it is because of the lightning thing from that person?

Yun Lintian had no time to think further as he found himself on a mountain path with some burnt trees. The lightning that brought him here had long disappeared without him knowing.

Zzzzz...Bang!

A golden lightning bolt struck on the ground several meters away from Yun Lintian, making him shudder slightly. It was a body's instinct facing lightning bolt up close.

Yun Lintian looked at the dark sky filled with dark clouds, and there were lightning bolts flashed from time to time, looking spectacular. He retracted his gaze to check the surrounding area. Aside from unknown burnt trees, he didn't discover any sign of life.

Yun Lintian had no clue which direction he should go. In the end, he chose to climb the mountain as it was made sense the most.

As he moved, Yun Lintian noticed the lightning bolts were increased until he reached an opened area with dense lightning bolts continued to bombard. Unless he went through this, there was no way he could go further.

Yun Lintian was observing the area and discovered a bunch of golden grasses behind the lightning curtain. "Thunder Grass?"

Each leaf of the grasses had a lightning shape. Coupled with the fact that they weren't burned by the lightning bolt but absorbed it instead. Yun Lintian was certain this was the Thunder Grass he was looking for.

However, Yun Lintian could not simply walk through the lightning curtain to get them. He looked around for one last time and decided to summon the Beyond Heaven King's Crown, as he believed it could help him resist the lightning bolt.

The majestic crown appeared on Yun Lintian's head, emitting a golden glow upon perceiving the surrounding lightning element. Yun Lintian was taken aback when he found the crown seemed to absorb the lightning element. At the same time, he discovered his affinity with the lightning element soared rapidly. The lightning bolt in front of him gradually became less threatening to him.

"As expected from the plot armor." Yun Lintian was delighted and drew closer to the lightning curtain.

Even though he knew the lightning could not harm him now, he was still cautious by reaching his hand to test the lightning bolt.

Bang!

The lightning bolt struck precisely on Yun Lintian's palm, but it didn't harm Yun Lintian in the slightest. On the contrary, Yun Lintian perceived vital energy flushed into his body. His muscles, vein, and blood vessels, everything was greedily absorbed the incoming energy.

Yun Lintian had the urge to moan, as it was too comfortable. Without further hesitation, he stepped forward and sat on the Thunder Grasses, closing his eyes, welcoming the lightning bolt.

Bang! Bang! Bang!

One after another, lightning bolts continued to strike on Yun Lintian's body until his clothes were completely burned. At this moment, Yun Lintian entered an enlightening state, wholly ignored the surrounding. His mind was solely focused on the change in his body.

Yun Lintian's strength gradually rose as time passed, from the third level to the fourth level and then the fifth level of Essence Profound Realm. This speed could not be described as a miracle anymore.

It wasn't only his essence that increased, but his body and soul were also improved significantly. Especially his body, Yun Lintian believed he could kill any Spirit Profound Beast with his brute strength alone.

According to the Primordial Beyond Heaven Scripture, Yun Lintian's current body had officially stepped into the first level's standard. All Yun Lintian needed to do from now on was to raise his essence and soul to the same level so that he could ultimately achieve the first level of Primordial Beyond Heaven Scripture.

While Yun Lintian was immersed in his practice, the outside of Thunder Valley was now full of people. Whether it was Han Bingling, Lin Xinyao, Fu Tiangang, Ming Wu or Qi Yuanfeng, everyone was present.

"What's going on?" Fu Tiangang asked the guard with a solemn expression.

Earlier, the Thunder Valley was shaken violently, alarming everyone in the city. When Fu Tiangang and the rest arrived, the mountain was already returned to its original calm. However, Fu Tiangang discovered the Thunder Valley entrance was loosened. It was as though the entrance could be opened at any time.

## Chapter 153 - Heaven Crashing Roar

"Report City Lord, the abnormality started a while ago after several golden lightning bolts descended at the same time." The guard reported solemnly. This was the first time they encountered this kind of situation.

Fu Tiangang furrowed his brows and moved to the front of the entrance. He used his Spiritual Sense to check and found it was indeed about to open.

He turned to Han Bingling and said. "Palace Master Han, the entrance should be opened in two hours. May I know your opinion on this matter?"

Han Bingling replied right away. "Go notify everyone to get ready."

Earlier, she got news from Han Muyue saying Yun Lintian had mysteriously disappeared as soon as she detected his aura. For some reason, she had a hunch this abnormal occurrence might have something to do with him. Hence, she couldn't wait to send people in as soon as possible.

Fu Tiangang accepted the task readily and returned to the city.

On the side, Lei Jun's eyes always fixated on Lin Xinyao for all this time. However, under Han Bingling's gaze, he didn't dare strike a conversation and left with Lei Zhu afterward.

Han Bingling turned to Lin Xinyao and said. "Let's go back first. I have something to talk about with you." Before she left, Han Bingling glanced at Qi Yuanfeng briefly and walked away with Lin Xinyao followed behind.

Meanwhile, Qi Yuanfeng was nervous. This was his first time seeing the famous Frozen Moon Palace Master up close. Moreover, she actually glanced at him. Why was that?

After Han Bingling leaving, Qi Yuanfeng took a deep breath and asked Ming Wu. "Brother Ming, who is that person behind Palace Master Han?" He asked this because he felt this woman was too beautiful even though he could not see her face clearly. Just her figure alone was already surpassed any woman he had ever seen so far.

Ming Wu, who was scared by Qi Yuanfeng's 'deviated sexual orientation,' distanced himself from Qi Yuanfeng as he answered. "That person is Lin Xinyao, Palace Master Han's direct disciple."

At the same time, Ming Wu felt strange. Didn't he like men? Why would he ask this?

Qi Yuanfeng was surprised by Lin Xinyao's identity and couldn't help thinking it would be great if he could gain her appreciation. His Heavenly Fortune Nation would soar to heaven in one go if that was the case. However, he knew it was only his wishful thinking. Such a character would never look at an unknown prince from a small nation like him. Thus, he could only keep this matter in his heart.

Since he had nothing to do here, Ming Wu said. "Let's go back to prepare first." Both of them immediately returned to the city.

Yun Lintian was oblivious to the outside world as he was fully immersed in absorbing the lightning element. At this moment, he could feel his body had reached its limit, as well as his essence and soul. This short process brought his strength to the ninth level of Essence Profound Realm in one go. Only a bit left before reaching the tenth level.

Yun Lintian opened his eyes, letting out a long breath. He clenched his hands tightly, perceiving his newly gained strength. Before this, Yun Lintian wanted to consolidate his foundation, but now it seemed impossible. The only way left for him was to adjust to his current strength as soon as possible.

The crown on Yun Lintian's head was still radiating a golden glow, but Yun Lintian could feel clearly his strength did not increase anymore. He did not understand how things work, but he could feel his Beyond Heaven Profound Vein could transform any element into his own power in the premise he needed to summon the crown.

Yun Lintian stood up and suddenly felt cold on the lower half of his body. Only then he realized his clothes were already gone. He quickly changed into new clothes and squatted on the ground, collecting Thunder Grass into his ring.

Since he was the only one here, Yun Lintian didn't plan to leave Thunder Grass to anyone. He simply cleaned up all the Thunder Grasses in the surrounding area.

"I'm rich now, hehe." Yun Lintian laughed slightly and patted the dust out of his hand before rechecking the route.

"It would be great if there is a profound beast here." Yun Lintian muttered, as he still didn't detect any sign of life. He couldn't wait to try his newly gained strength.

"By the way, this place is called Thunder Valley, but I don't see any valley around here." Yun Lintian suddenly realized he had overlooked this matter. When he thought of this, Yun Lintian decided to walk sideway instead of climbing the mountain further.

Along the way, Yun Lintian occasionally sent out Dragon Fist to test his current strength and estimated he could fight any fifth-level Spirit Profound practitioner with his brute force alone. This discovery made him excited, and he couldn't wait to try.

Yun Lintian's journey was bleak and boring. Aside from the thunder roaring, he literally saw nothing. He started to doubt why would Han Bingling constantly tell him this place was dangerous. It was understandable if she referred to the lightning bolt, but Yun Lintian didn't think it was the case. There must be something here that he hadn't found yet.

Not to mention that mysterious person. Since this place belonged to this person, where would this person be? Could it be this person was similar to Yan Qi, locking himself here? The more he thought about this, the more his curiosity about the mysterious woman that Yan Qi mentioned grew further. How high strength she had to make these powerhouses willing to lock themselves in the mythical realm?

Boom!!

Roarrrrrr—

All of a sudden, a huge heaven crashing earth-splitting sound echoed from afar, followed by a terrifying roar that was enough to burst heaven and earth. It was louder than any thunder roar in the sky.

This roar shook Yun Lintian's brain into a blank state as his legs trembled involuntarily before fell onto the ground.

#### Chapter 154 - All Forces Gathered

Yun Lintian was drenched in a cold sweat as he stared blankly at a distance. He didn't know what happened earlier, but he felt his soul had flown away from his body.

"What the hell is that roar...?" Yun Lintian's throat went dried instantly. His current complexion was pale as white paper. Yun Lintian never feared anything in his two lifetimes, but the earlier roar could easily inflict fear deep into his soul. This was beyond anything he encountered so far.

Yun Lintian took a deep breath and got up from the ground. He hesitated for a good while about whether to go in the sound's direction. In the end, he mustered his courage and headed in that direction.

\*\*\*

"It's coming again?" One of the entrance guards said. He was familiar with this roaring sound as he heard it countless times already.

"Don't you think it's louder than before?" Another guard beside him asked.

"Come to think of it...It seems to be the case." The first guard thought briefly and nodded.

"I hope there's nothing happen...." Another guard muttered. He feared the mysterious existence would come out one day. Just with the roar, he could perceive a terrifying strength in it. He couldn't imagine how strong it was.

The area before the Thunder Valley entrance was a flat clearing. At this moment, a group of people arrived. These groups of people were those who received a quota to enter Thunder Valley. They carried varying levels of excitement, especially those who'd yet to enter the Thunder Valley before. Their eyes were oddly bright and looked as if any possible encounters were already in front of them, within reach.

Leading was an old man with a long white beard clad in a grey robe. His body exuded a calm aura, just like his expression. Following behind was a pretty young woman. She was tall, stood approximately 175 centimeters. Her figure could be described as slender as she had long legs, but the chest area wasn't developed well.

"Huang'er, this will be a test for you. Whether you can become the head of our clan in the future depends on the result here." The old man sent a sound transmission directly into the woman's mind.

The woman, Zhang Yuhuang, nodded her head slightly as her expression turned solemn. She was the Eldest Miss of the Zhang clan. Due to the current patriarch did not have a son, he hoped for her to prove herself and took the helm of the Zhang clan in the future.

In order to not disappoint her father, Zhang Yuhuang worked her heart out to raise her strength before entering Thunder Valley. Unfortunately, before she could break through to the Ruler Profound Realm, the news of Thunder Valley opened ahead of schedule had arrived, and it made her frustrated.

Another group on the side was led by a middle-aged man, eighty percent resembled Ming Wu. He was Ming Wu's father, the current patriarch of the Ming clan, Ming Chuan. Followed him were naturally Ming Wu and Qi Yuanfeng. Both of them were now in full gear, ready for the incoming challenge.

The group far behind Ming Chuan was led by the patriarch of the Ding clan, Ding Lang. He was slightly fat, wearing a luxury silver robe with a smile on his face. This time, he brought his beloved son, Ding Yang, to participate in the event.

Ding Yang was a typical fatty with a big belly. His eyes were small, as though he was smiling all the time. While others were carrying weapons or wearing armor, Ding Yang held a bottle gourd filled with a famous jasmine wine. No matter how one looked at him, nothing on his body indicated he was ready to enter Thunder Valley. It was more like he prepared for sightseeing instead.

The last group was naturally the Fu clan, Han Bingling, and Lei Jun's group. Beside Lin Xinyao, there was a slender woman with an ample chest in a Frozen Moon uniform. Her strength could not be underestimated, as she was already the tenth level of Ruler Profound Realm. Her name was Su Xiao, Han Bingling's trusted disciple. She was personally arranged to protect Lin Xinyao during this trip.

Behind Fu Tiangang was a handsome young man in a white robe. He was no other than the famous genius Fu Tianya. His face was particularly sharp, like a sword. His eyes were full of vitality. Overall, he could be described as a dazzling handsome man.

"We've met again, Fairy Lin." Fu Tianya greeted Lin Xinyao. He once met her before and was lucky enough to see her true face. However, Fu Tianya held no desire toward her, as he knew it was impossible between them. There was only an admiration left on him.

Lin Xinyao had a good impression of Fu Tianya because she could see he had no desire for her. She nodded her head slightly. "Congratulations, Young Master Fu has grown stronger again."

Fu Tianya replied modestly. "Compared to Fairy Lin, my little talent is nothing. I believe Fairy Lin will surpass me sooner or later."

Lin Xinyao said nothing and turned her head away.

Lei Jun, whose eyes fixated on Lin Xinyao for all this time, was dissatisfied when he saw this scene. However, he could only watch them talk with each other for fearing Han Bingling would kill him. Since the last time he spoke with Lei Zhu, he didn't dare to underestimate Han Bingling again.

When everyone arrived before the entrance, Fu Tiangang stepped forward and announced. "Shortly, the entrance to Thunder Valley will appear. Before that happens, I will need to say some things."

"Because this time is special. The Thunder Valley has never opened ahead of schedule like this before. I have no clue how long all of you can stay in there. Hence, I hope everyone can put down the grudge and help each other exploring as it is likely to determine our Thunder City's future."

#### Chapter 155 - Entered The Thunder Valley

Fu Tiangang continued, "I would like to remind all of you again. Within the Thunder Valley, the sound transmission does not work. Nobody will be able to communicate via the transmission jade. Therefore, it would be best for all of you to travel together with your people."

"The deeper you go into the Thunder Valley, the higher the danger. Although there are numerous resources and treasures within there, if you pay no heed to safety and are driven by greed, you may very well lose your life."

"The most important thing is, don't lose your Thunder Crystal. Without it, you cannot come out and have to wait until next year. From my estimation, the entrance will open in ten minutes. Please use this precious time to discuss with your people. I wish all of you good luck and come out alive."

Fu Tiangang's speech seemed simple, but all of them was a crucial point. Especially the Thunder Crystal. Not everybody knew about this. Some might think it was used to enter the Thunder Valley only, but it was actually an exit ticket. Without it, they would need to stay there until Thunder Valley opens again next year.

With that said, the majority of the people here understood these points very well. Only a newbie like Qi Yuanfeng would need to pay attention to this.

At this time, a sizzling sound came from behind Fu Tiangang, beckoning people to look toward the sound. The lightning wall shook violently before spreading out, revealing a giant hole with a lightning spark flashed from time to time.

Fu Tiangang confirmed the entrance's stability and turned to the crowd. "It's time, everyone. Hold your Thunder Crystal in your hand and go in."

Lei Jun and his five bodyguards were the first to enter. Before he was entering, Lei Jun glanced at Lin Xinyao briefly and vanished into the entrance. Followed by Zhang Yuhuang, Ming Wu, Qi Yuanfeng, and Ding Yang. Each one of them had several subordinates accompanied them.

"Fairy Lin, please." Fu Tianya made a hand gesture, letting Lin Xinyao enter first.

Lin Xinyao nodded her head in reply and went in with Su Xiao.

"Look after her." When Fu Tianya walked past Fu Tiangang, he heard the latter said.

Fu Tianya's expression turned serious, and he gave Fu Tiangang a reassuring nod before vanishing into the entrance.

Upon everyone entered, the lightning wall immediately returned to its original state, completely closed.

"Palace Master Han doesn't have to worry. With Tianya there, I believe she would be safe." Fu Tiangang wanted to give Han Bingling a peace of mind.

Han Bingling smiled faintly. "Do I look worried?"

Fu Tiangang was taken aback and hurriedly bowed his head. "Please forgive me, Palace Master Han. This old man is presumptuous."

Han Bingling laughed. "Why are you so nervous? Get up. I understand your kind intention... Let's go back." With that, she turned around and returned to the city.

Fu Tiangang heaved a sigh of relief and followed Han Bingling after briefly instructing the guards to oversee the entrance.

\*\*\*

Boom! Boom!

When Lin Xinyao appeared in Thunder Valley, she was immediately greeted by golden lightning bolts that struck on the ground not far away from her.

As a natural water element-based practitioner, Lin Xinyao's body trembled slightly, facing such a terrifying thunder up close.

"Are you okay, Young Miss?" Su Xiao used her profound energy to protect Lin Xinyao while asking concernedly.

Lin Xinyao stabilized her body and shook her head. "I'm fine now, thank you."

"Xinyao, why don't you travel with me? I can protect you." Lei Jun, who was waiting for Lin Xinyao to appear, stepped forward and said with a gentle smile.

Lin Xinyao's face under the veil turned cold as she replied. "No need."

Lei Jun wasn't angry as he was used to Lin Xinyao's temper. He said. "I know you love to travel alone, but I have to warn you. This place is no joke. I've been here several times in the past. I can tell you that even my Divine Thunder Profound Art is useless against the lightning here. I hope you take your safety as the first priority."

Lei Jun turned around and left afterward. Although he loved Lin Xinyao's beauty, he still had the pride of Divine Thunder Palace's young master. He wasn't a licking dog who continued to lick a woman after being rejected.

Lin Xinyao looked at Lei Jun's back for a while, and Fu Tianya happened to arrive nearby here.

"Fairy Lin, are you going alone?" Fu Tianya asked.

Lin Xinyao nodded her head gently.

"Then, I wish Fairy Lin good luck. Please be careful when you reach the perimeter of the valley area. That place is dense with the lightning element and full of powerful profound beasts." Fu Tianya gave a warning.

"Thank you for telling me this." Lin Xinyao replied and brought Su Xiao away.

Fu Tianya looked around for a while and followed Lin Xinyao behind.

On the other side of the mountain, Yun Lintian stood on the cliff, stared at an open space in the distance. This time, he realized the Thunder Valley was actually located at the center, surrounded by the mountain in all four directions.

The valley was vast, surrounded by dense lightning walls that wholly blocked Yun Lintian's sight from spying the inside. Through Yun Lintian's Eyes of Heaven, he could see the rich lightning element

gathered above the valley, forming a gigantic golden dome. He didn't know what was there inside, but he believed the owner of that heaven crashing roar was definitely lived over there.

Yun Lintian continued to observe the place with his Eyes of Heaven until he discovered a movement nearby the lightning wall. "What is that?... It looks like a python?" Yun Lintian muttered as he saw a snake-like shape coiling around a tall strange, charcoaled tree.

The python was deep blue in color, looking sturdy. Even Yun Lintian stood here several kilometers away from it. He could see its size clearly. Without a doubt, this python should be at least a hundred meters in length. With such a terrifying size, Yun Lintian couldn't imagine how strong it was.

#### Chapter 156 - Fire Dragon Fist

It would be a lie if Yun Lintian said he wasn't scared when seeing this python. Even the one-horn Heaven Profound Beast that Han Bingling killed several days ago was nowhere close to this python in terms of body size. This was the first time he encountered a profound beast of this size since he came to this world.

Yun Lintian averted his gaze to check on other places and found several other profound beasts nearby the python. All of them were lying peacefully, seemingly absorbing the surrounding lightning element.

He tried to gauge their strength with his Eyes of Heaven, but he could not pinpoint as the lightning element interfered with his view. At this moment, Yun Lintian immediately realized the Eyes of Heaven wasn't flawless as he thought.

"Maybe it can be upgraded in the future." Yun Lintian said to himself.

He retracted his gaze and sat on the ground, pondering how to approach the place. Going in like this was no different from suicide, but he had no means to use in this situation, no matter how he thought.

In the end, Yun Lintian could only sigh helplessly. Even with a plot armor in his hand, it was simply useless in this kind of situation.

In order to not attract the profound beast's attention, Yun Lintian put the crown away and decided to find a place to continue his practice. As he was about to move, Yun Lintian saw a human figure on the

mountain on his right-hand side. He did not use the Eyes of Heaven as his mental power was insufficient, but Yun Lintian could still see some details on this figure.

Where did this person come from? Is Thunder Valley opened already? Yun Lintian thought.

This person was fat, as his belly stuck out so obviously. He was no other than Ding Yang, who was traveling alone after chasing his bodyguards away.

Ding Yang looked at the lightning wall around the valley with an intoxicated smile while sipping the jasmine wine from the gourd. Although he was born with a powerful background, Ding Yang had no ambition. His father wished to see him take over the clan's head position one day, but Ding Yang preferred to play around and enjoy his life instead.

Even though Ding Yang was like this, he was talented in profound ways. At the age of thirty, his strength had already reached the sixth level of Heaven Profound Realm. This speed wasn't that much inferior to Fu Tianya. Many experts in Thunder City once said if Ding Yang was willing to practice with his heart out, it was uncertain who was better between him and Fu Tianya.

He reached this place faster than anyone because of his movement technique, the Sky Moving step, the ultimate profound movement technique of the Ding clan. Throughout the entire Ding clan's history, Ding Yang was the only one who could practice the technique to the fifth layer.

"Hmm?" Ding Yang suddenly felt someone was watching him and turned to look in Yun Lintian's direction. However, he didn't see anything as Yun Lintian already went away when he saw Ding Yang.

A frown appeared on Ding Yang's rounded face while muttering. "Fu Tianya? No, it shouldn't be him.... Lei Jun?" He thought for a while before shaking his head as he smiled. "Whatever."

Following that, Ding Yang took out a set of a chair and table with various delicacies. He sat on the chair, leaning comfortably while enjoying the scenery.

Yun Lintian retreated from the cliff and found a relatively secluded place to stay. Since people from the outside had entered, an idea immediately popped up in his mind. The idea was simple. He only needed

to wait for someone to reach the valley, and he could find a chance to enter. All he had to do right now was consolidated his foundation.

After setting the isolation and alarm formation, Yun Lintian began to practice Dragon Fist. For all this time, Yun Lintian never used any other element in his attack. It was because he wanted to test his body. However, since he had absorbed a portion of the lightning element, Yun Lintian started to think of a possibility to mix elements in Dragon Fist.

The first element he chose was naturally the fire element. With the helped of the Sun, his affinity with the fire element had reached an unprecedented height. Yun Lintian could simply invoke and control the fire element within his body at will.

"Hah!" Yun Lintian let out a low cry, stomping his right foot on the ground. At the same time, he stuck his punch forward.

Boom!

Instantaneously, a scorching crimson flame burst out of his entire arm, forming into a small fire dragon before rushing at a massive boulder in the distance. Instead of shattering, the boulder turned utterly red and melted into a pool of liquid.

Yun Lintian looked at the red pool in astonishment. He didn't expect it would be this powerful. Although testing on the boulder could barely measure anything, Yun Lintian was still amazed by the destructive power of his Fire Dragon Fist.

"Amazing. What about lightning then?" Yun Lintian became excited and eager to try the lightning element.

Yun Lintian adjusted his body before sending out another punch. This time, he invoked the lightning element within his body, aiming to have the same result as the earlier Fire Dragon Fist.

Zzziii—

Unfortunately, the lightning dragon that Yun Lintian expected did not come out. Instead, a tiny electric current appeared at the end of his fist and disappeared after producing an electric shock sound. This made Yun Lintian embarrassed as his face turned red slightly... I expected the dragon, but it was a lightning worm coming out. He thought.

Yun Lintian scratched his head and prepared to try another punch. All of a sudden, he received an alarm signal from the formation he set up several meters away. Yun Lintian's mind quickly connected with the formation's eyes and roughly saw four people stepped into his formation's range. The leading was a young man in a golden robe. Naturally, he was Lei Jun.

Chapter 157 - Identity Expose?

"Hmm?" Lei Jun abruptly halted his tracks and looked around with a frown. Earlier, he felt someone spied on him. It was faint, but he fully trusted his intuition.

"All of you spread out and check this area." Lei Jun immediately ordered his two bodyguards, and both of them spread out, using their Spiritual Senses to check the surrounding.

As much as Yun Lintian was confident in his formation profound art, he didn't dare to underestimate the peak of Ruler Profound practitioner. His mind spun rapidly, figuring out to get out of this situation. Once he was discovered, his life would probably end here.

Of course, Yun Lintian could escape to the Land of Beyond Heaven, but he didn't how long he had to stay there as he had no way to see the outside situation.

"Eh? Isn't that Young Master Lei?" Suddenly, Ming Wu appeared behind Lei Jun and greeted him. When he saw Lei Jun came in this direction, he did not hesitate to follow.

Lei Jun turned around with a frown. "You've followed me?"

Ming Wu smiled amiably and admitted readily. "Yes, I am indeed following Young Master Lei here, but I have no ill intention. Instead, I have good news to tell you."

"Oh? What is it?" As the young master of Divine Thunder Palace, Lei Jun naturally looked down on Ming Wu, but it didn't mean he had to ignore him.

Ming Wu pointed at Qi Yuanfeng on his side and said. "This is my grandfather's disciple, Qi Yuanfeng. He is the current crown prince of Heavenly Fortune Nation. As for the good news, better to let him speak."

Lei Jun turned to Qi Yuanfeng and said. "Go ahead, tell me."

Qi Yuanfeng did not have a trace of arrogance at this moment. He cupped his fists and said. "Junior Qi Yuanfeng greets Young Master Lei. Before telling Young Master Lei the news, may I know whether Young Master Lei has seen a divine weapon before?"

Ming Wu's mouth twitched slightly. Lei Jun was hailed from Divine Thunder Palace. How could he never see divine weapon before?

Lei Jun felt nothing strange about the question, as it was understandable Qi Yuanfeng came from a small place. He nodded his head. "Of course, I've seen it before. Why?"

Qi Yuanfeng said. "What if I say, there are three divine weapons appeared in my Heavenly Fortune Nation half a year ago? Do Young Master Lei believe it?"

Lei Jun's brows raised in surprise. "Although it sounds exaggerated, I believe you didn't dare to lie to me. Say, what to do you want by telling me this?"

The Divine-rank treasure was extremely rare, even among the nine palaces. Lei Jun could roughly guess Ming Wu and Qi Yuanfeng's intention, but he didn't care much. If what Qi Yuanfeng said was true, Lei Jun could gain a tremendous benefit, and he wouldn't mind killing both of them if it had proven fake.

"Young Master Lei's eyes are like a torch. This junior admires you." Qi Yuanfeng gave a flatter before continuing. "My request is simple. I want to borrow Young Master Lei's force to search for a group of people. The said divine weapons are currently with them. I didn't care about those weapons, but I hope Young Master Lei can give the people to me."

"That's it?" Lei Jun frowned slightly. He didn't believe there was such a good deal like this. There must be something behind it, but he didn't care much. No matter what tricks Qi Yuanfeng came up with, he was confident to deal with him.

"Why don't you elaborate more? Who are these people? How come they have a divine weapon?" Lei Jun asked.

Qi Yuanfeng immediately narrated about the Misty Cloud Sect. Of course, he added false information to portray the Misty Cloud Sect as a villain.

Lei Jun listened to Qi Yuanfeng's narration and pondered... Misty Cloud Sect? Why is this name sounds familiar?

Qi Yuanfeng didn't interrupt Lei Jun and chose to look around the place with Ming Wu.

"Young Master, we've discovered the alarm formation." Both of Lei Jun's bodyguards returned and said.

"Alarm formation? We are the first group to reach here, right? Who set it up here?" Lei Jun said.

One of the bodyguards took out a formation stone with complicated runes on it. "Please take a look, Young Master."

Lei Jun picked the formation stone up and carefully checked it. A trace of astonishment appeared on his face as he said. "This is the ancient divine rune. From the look of it, it has been recently used. How did it appear here?"

Lei Jun studied various profound arts since he was young. With the abundant resources and knowledge within Divine Thunder Palace, he naturally saw this ancient divine rune in a book before.

He recalled his mother once said even the most powerful profound formation master of Divine Thunder Palace could not engrave the ancient divine rune, but now, it appeared before him and working fine. How could he not surprise?

Lei Jun quickly ordered his bodyguards. "We must find the person who made this. Go."

The two bodyguards quickly spread out again. This time, they raised their Spiritual Sense to the maximum, covering several kilometers.

Qi Yuanfeng used his Spiritual Sense to look at the formation stone on Lei Jun's hand. When he saw the ancient runes on it, his brows involuntarily creased together as he said. "Young Master Lei, I've seen this kind of runes before."

Lei Jun turned around and asked. "Really? Where have you seen it?"

"Remember the story I told you earlier?" Qi Yuanfeng said. Seeing Lei Jun nodded his head, he continued. "These ancient runes are exactly the same as the runes I saw on the Misty Cloud Sect's protective formation back then. Perhaps there is a connection between this and the Misty Cloud Sect."

Lei Jun was surprised and stared at the formation stone in his hand.

Yun Lintian would never expect his identity was about to expose in no time by just a brief conversation between Lei Jun and Qi Yuanfeng.

#### Chapter 158 - Escape With Lightning

Yun Lintian completely lost the connection when his alarm formation was dismantled by Lei Jun's bodyguards. Right now, he had no idea what happened on Lei Jun's side. A sense of urgency forced Yun Lintian to choose between entering the Land of Beyond Heaven and rushed out of here as soon as possible.

The first choice was, of course, the safest way, but Yun Lintian did not know how long he had to stay there. What if Lei Jun decided to camp here and waited for him? As for the second choice, with his speed, he had no chance to escape from the Ruler Profound practitioner like Lei Jun's bodyguards.

What to do now? Yun Lintian thought. Suddenly, he saw a lightning bolt flashed in the distance, and a bold idea popped up in his mind... The lightning element can interfere with Spiritual Sense. What if I cover myself with lightning? Yun Lintian recalled the earlier experience when he used Eyes of Heaven and failed to see those profound beasts' strength.

Without further ado, Yun Lintian summoned the crown and moved his mind to gather the surrounding lightning element. Instantaneously, Yun Lintian's body was covered with dense lightning energy, turning him into a golden human.

In order to distract the enemy, Yun Lintian activated the self-destruction function on the formation he set up and stared at the night sky, waiting for the right time.

Zzzzziii...Bang!

As Yun Lintian saw several lightning bolts descended simultaneously, he quickly rushed out of the formation, heading in the opposite direction of Lei Jun with all his might.

"Hmm?" One of Lei Jun's bodyguards noticed something and saw a golden human figure fled away in a flash. Without hesitation, he quickly gave a chase. However, just as he passed the conceal formation that Yun Lintian left behind, a sense of danger appeared in his heart, and he instinctively conjured a protective barrier around him.

Boom!

The explosion swept the surrounding area like a raging tide, sending the bodyguard's body away several meters while Lei Jun, Ming Wu, and Qi Yuanfeng were quickly hiding behind their protective barriers. The impact continued for a full minute before disappearing.

Lei Jun didn't dare to remove his barrier. He contacted his bodyguards with a solemn expression. "Have you discovered something?"

The bodyguard who spotted Yun Lintian earlier reported back after stabilizing his body on the ground. "I've discovered a human figure. His entire body is covered with lightning energy. I couldn't see his face clearly."

Lei Jun's brows knitted together and ordered. "Chase!" Following that, he rushed in Yun Lintian's direction.

Ming Wu and Qi Yuanfeng looked at each other, and the latter said. "This is similar to the Misty Cloud Sect's incident back then. Without a doubt, this person is someone from the Misty Cloud Sect."

The image of the man who walked with Lan Ning at the Blue Moon inn appeared in Qi Yuanfeng's mind. He was now certain that person was Yun Lintian.

"Go." Ming Wu became excited as soon as he heard this and chased Lei Jun, followed by Qi Yuanfeng and the other five bodyguards.

Yun Lintian poured every ounce of his profound energy into his legs as he constantly activated the Shadow Step. It was because Yun Lintian's Beyond Heaven Profound Vein was ten times larger than an ordinary profound vein, he could sustain the Shadow Step's consumption for an extended period. If it were average profound practitioners, they would exhaust their profound energy by now.

In Thunder Valley, flying here was akin to suicide. No matter how powerful they were, they could only walk or run on the ground. Otherwise, they would be hit by thunder.

The path ahead was narrowed, could only contain two people at a time. Yun Lintian's mind flashed with another idea. With the crown on his head, Yun Lintian had the power to control a portion of the lightning element. While he passed through the narrowed path, Yun Lintian pierced a long iron spear on the ground with the pointy side upturn. He also sent a trace of lightning element into it.

That was right. Yun Lintian tried to make a simple lightning rod. Whether it was working as he expected, Yun Lintian didn't care about it. All he wanted to do was to delay the chaser as much as possible.

When the bodyguard who was closest to Yun Lintian's position arrived at the narrowed path, he was taken aback upon seeing the spear stood tall in the distance. His lips arched into a contempt smile when he saw through Yun Lintian's plan. "Heh... want to use such a useless trick to stop me? How naïve."

He gathered profound energy in his palm and sent it to the spear, aiming to blast it away. However, he didn't expect that the moment he sent his power out, the lightning element within the spear suddenly sparked, calling a golden lightning strike from the sky.

Bang!

The lightning bolt struck right on the tip of the spear and ultimately burned it into powder. Instead of going straight to the ground, the golden lightning spread to the surrounding area like a spider web.

The bodyguard was shocked and hurriedly conjured a protective barrier while retreating.

As Lei Jun said, the Divine Thunder Profound Art was useless against the lightning bolt here. How could the bodyguard who practice Heaven-rank profound art stand against it? His protective barrier immediately shattered upon being touched by the trace of a lightning bolt, rendering him powerless to defend.

Puff!

The bodyguard coughed up fresh blood as he was sent away by the impact.

Yun Lintian didn't know the situation behind him, but he could guess his plan worked. He didn't expect to inflict damage on the chaser by doing that, but he hoped the lightning strike could make the chaser stop for five seconds.

Yun Lintian had no time to follow the result. He looked at the path ahead of him vigilantly, thinking whether he would encounter others if he continued in this direction.

It was as though the goddess of fate wanted to play with him. Yun Lintian suddenly discovered a movement behind the tree in the distance, causing him to halt his step.

"Who?" When Yun Lintian turned his body around, preparing to run, he heard a familiar voice rang out from that direction, making him stop his action.

Wait a moment...Lin Xinyao? Yun Lintian immediately recognized the identity of the opposite party.

Chapter 159 - Encounter

Before Yun Lintian could react, he saw a white flash shot straight at him. The owner of this was naturally the jade rabbit, Mumu.

Shit! Yun Lintian cursed inwardly. He didn't want to be recognized by Lin Xinyao, but it was impossible now. At the same time, he didn't understand why Mumu was so attached to him. Was it because he helped its master before? As for the food, he didn't think it was the reason.

Mumu did not fear the lightning around Yun Lintian's body as it landed directly on his left shoulder, looking at him with its big rounded eyes and let out a low happy cry.

"Who are you?" Su Xiao appeared several meters from Yun Lintian with a cold face, ready to attack.

Lin Xinyao used her arm to stop Su Xiao and said. "Yun Lintian?"

Yun Lintian knew he could not escape this. He sighed helplessly and took the crown back while dispersing the lightning around him.

"It's me." Yun Lintian replied. "Now, it's not the right time to talk. Someone is chasing after me. We get out of here first."

Lin Xinyao turned to Su Xiao and said. "Sister Su, please take us to another place."

Su Xiao frowned slightly. She had no idea about the relationship between Lin Xinyao and Yun Lintian. Especially when she saw Mumu on his shoulder. She never saw Mumu close to anyone before, but it was actually leaving Lin Xinyao and went to this young man. Although there were too many doubts, she still complied in the end and brought both of them away.

Lei Jun arrived at the narrowed path and saw his bodyguard had a burnt wound all over his body. He asked. "What happened?"

The bodyguard was ashamed but still replied truthfully.

After Lei Jun learning the whole situation, he frowned and gave a command. "You stay here to treat your wound first. I'll go check a bit."

"Understood, Young Master." The bodyguard bowed and sat down, recovering from his injury.

Lei Jun brought another bodyguard and went after Yun Lintian.

When Ming Wu's group arrived and saw the injury on Lei Jun's bodyguard, they exchanged a few words before following Lei Jun.

"This guy is so cunning. It's definitely him." Qi Yuanfeng was even more confident this person was Yun Lintian as he encountered the latter's cunningness before.

"You mean he is that Yun Qianxue's son?" Ming Wu asked. He heard Qi Yuanfeng talking about the Sect Master of Misty Cloud Sect countless times before.

Qi Yuanfeng nodded. "His name is Yun Lintian. Back then, he managed to fool everyone and escaped from my grasp. I didn't expect he would appear here. This is good news." He paused for a moment and said. "Do you remember I asked you about Lan Ning back then? I suspect the man who stayed with Lan Ning back then was him."

Ming Wu recalled that day and then realized he had misunderstood Qi Yuanfeng for all this time. He thought there was something wrong with Qi Yuanfeng's sexual orientation.

\*\*\*

Su Xiao brought Lin Xinyao and Yun Lintian to a relatively secluded place. Yun Lintian didn't wait for Su Xiao to say anything. He went to set up the alarm and conceal formation.

Su Xiao was surprised by Yun Lintian's attainment of formation profound art. With a glance, she could see this was actually the Ruler-level formation. This made her curiosity about Yun Lintian grew further.

Lin Xinyao had seen his formation before, but she was still surprised upon seeing this. Whether it was his medical profound art or formation profound art, this level shouldn't exist in a seventeen-year-old boy. What exactly was his background?

After setting up the formation, Yun Lintian returned to Lin Xinyao and said. "Thank you for helping me."

"Who's after you?" Lin Xinyao asked.

Yun Lintian shook his head. "I don't know. This person is wearing a golden robe and has two bodyguards with him. From their body, they seem to proficient in the lightning element."

Lin Xinyao and Su Xiao glanced at each other. Without a doubt, the person Yun Lintian was talking about was Lei Jun.

Su Xiao observed Yun Lintian from head to toe and asked. "I don't see you at the entrance. How did you appear here?"

Yun Lintian glanced at Su Xiao with a frown and turned to Lin Xinyao. Lin Xinyao hurriedly explained. "She's my master's trusted disciple. Her name is Su Xiao."

So, she's Han Bingling's people. Yun Lintian thought. He took the Thunder Crystal out and replied. "Naturally, I used this to enter."

Seeing the Thunder Crystal in Yun Lintian's palm, Su Xiao nodded her head slightly, but she still had a doubt. Before she could ask, Lin Xinyao spoke first. "Let's leave this matter here."

Su Xiao then reluctantly stepped back, but her eyes were fixated on Yun Lintian without blinking.

Yun Lintian was helpless. He hated this feeling when someone watching him all the time, but it was understandable. After all, he was a stranger in Su Xiao's eyes.

"Why did Lei Jun chase you?" Lin Xinyao asked.

"Lei Jun?" Yun Lintian was confused.

Lin Xinyao explained. "The one who is chasing you is the young master of Divine Thunder Palace. His name is Lei Jun."

"Divine Thunder Palace? No wonder I feel a dense lightning element coming from him." Yun Lintian recalled when he observed Lei Jun through Eyes of Heaven.

"I don't know. He stepped into my alarm formation and then sent his subordinates to grab me." Yun Lintian explained briefly.

Lin Xinyao went silent for a moment and said. "He's like that."

"Oh? Are you familiar with him?" Yun Lintian asked interestingly.

Lin Xinyao shook her head. "I'm not familiar with him."

Yun Lintian looked at Lin Xinyao and roughly understood the relationship between her and this Lei Jun. Lei Jun was probably wooing her, and she had no interest in him. Yun Lintian felt nothing strange because Lin Xinyao was indeed the most beautiful woman he had ever encountered.

Chapter 160 - Heading Toward The Valley

Yun Lintian didn't linger on this topic further. He asked. "How come you appear here? Didn't you say that you won't come here?"

Lin Xinyao glanced at Mumu, who was lying lazily on Yun Lintian's shoulder and said. "Mumu said there is something that helps increase her strength."

Yun Lintian looked at Mumu with a surprise and asked. "Little guy, do you know where is the thing?"

Mumu stretched its paw lazily toward the center of the valley.

Yun Lintian and Lin Xinyao glanced at each other. Both of them knew how terrifying that place was. Just the profound beasts around the valley. They didn't even know how to pass them. Let alone enter the valley.

Yun Lintian said. "I don't think we can go there. Although I can't estimate the strength of those profound beasts, it shouldn't be less than the fifth level of Ruler Profound Realm."

Lin Xinyao agreed with Yun Lintian's statement. Even Su Xiao was strong, she couldn't deal with several Ruler Profound Beasts at the same time.

"Hmm?" Yun Lintian's expression changed as he received an alarm signal. When his mind connected with the formation's eyes, Lei Jun immediately appeared in his sight.

"He's here." Yun Lintian said.

Lin Xinyao looked at Su Xiao and said. "Let's go out to meet him."

Su Xiao naturally obeyed Lin Xinyao and led Lin Xinyao out of the conceal formation.

Yun Lintian wanted to stop them, but he understood Lin Xinyao's intention and chose to stay silent.

"Where did he go?" Lei Jun frowned as he looked around. He couldn't see any of Yun Lintian's traces. It was as if he was a ghost, come and go without a trace.

Suddenly, his Spiritual Sense perceived something, and he did not hesitate to rush over.

"Xinyao?" Lei Jun halted his step as soon as he saw Lin Xinyao.

Lin Xinyao glanced at him, saying nothing, and prepared to leave with Su Xiao.

"Wait, Xinyao. Have you seen anyone passing by here?" Lei Jun stopped Lin Xinyao and asked.

Lin Xinyao looked at him with dissatisfaction as she replied coldly. "No."

Lei Jun calmed himself down and understood he was a bit rude earlier. He took a breath and said with a smile. "Sorry, I've disturbed you. However, you must be careful. I've met a dangerous person earlier. I don't know who he is, but he can actually inscribe the ancient divine runes. I believe there isn't such a person among people who entered this place.

Ancient divine rune? Lin Xinyao thought in her heart. A strange light flashed across her eyes as she seemed to figure out something. She nodded her head slightly. "I understand." Following that, she turned around and left with Su Xiao.

Lei Jun wanted to say something, but fearing he might anger her. Hence, he chose to let her go and brought his bodyguard away.

Yun Lintian saw the whole process and shook his head with a chuckle. Simp will always be a simp. There were so many loopholes on Lin Xinyao earlier. For example, Mumu wasn't with her, and she didn't even care who the person Lei Jun mentioned was. Yun Lintian believed Lin Xinyao would definitely ask Lei Jun about it in a normal situation, no matter how she hated him.

From Lei Jun's words, Yun Lintian understood something. It seemed the nine palaces were familiar with the ancient divine rune. In the future, Yun Lintian must not leave a trace behind like today. Otherwise, he would become a target wherever he goes.

Seeing Lei Jun went away, Yun Lintian did not relax his vigilance in the slightest. He sat down and pondered about his next move.

Suddenly, he felt a soft sensation on his cheek, making him turned around and saw Mumu's paw.

"What's wrong?" Yun Lintian stroked its head while asking.

Mumu pointed at the valley, trying to explain something.

Yun Lintian frowned and said. "Do you want me to die badly? You know very well that I am too weak to go there."

Mumu shook its head vigorously and talked about something which Yun Lintian didn't understand. However, Yun Lintian could roughly guess the meaning. It seemed Mumu tried to say there was no danger over there, but how could it be possible?

While Yun Lintian was thinking, Lin Xinyao had already returned.

"We should leave now." Lin Xinyao said. She knew Lei Jun wasn't an idiot. He would definitely come back to check again in no time.

Yun Lintian also understood this point and removed the formation before leaving with Lin Xinyao and Su Xiao.

When the three of them left, Lei Jun's figure appeared in the distance while staring at Yun Lintian's back coldly.

"It turns out she's with him." Lei Jun said. His voice was incomparably cold. Earlier, he felt something was amiss on Lin Xinyao and used the Saint-rank artifact to hide his presence, waiting nearby.

"Have you ever seen this person before?" Lei Jun turned to his bodyguard.

The bodyguard shook his head as he replied. "I didn't see this person at the entrance."

Lei Jun smiled coldly as he looked in Yun Lintian's direction. "Interesting..."

\*\*\*

"Are you sure you want to go to the valley?" Su Xiao asked Yun Lintian with a frown.

Yun Lintian nodded his head. "Since we are already here, it would be a waste if we don't try, right?"

"But..." Before Su Xiao could finish her sentence, she was interrupted by Lin Xinyao.

"Mumu, are you serious?" Lin Xinyao looked at Mumu questioningly. A while ago, Mumu had communicated with her, saying it had a way to bypass the profound beasts and enter the valley. Of course, she didn't believe and had to ask for confirmation.

Mumu nodded its head and let out a low cry.

Lin Xinyao's brows twitched, and she shifted her gaze toward the valley in the distance.

A while later, she said. "Let's try."

"Young Miss, it's too dangerous!" Su Xiao said anxiously. Her duty was to keep Lin Xinyao safe. How could she let her venture into the most dangerous place of Thunder Valley?

"It's decided. You can stay here if you don't want to go." Lin Xinyao said and walked down the mountain, heading toward the valley, followed by Yun Lintian.

In the end, Su Xiao sighed helplessly and followed them afterward.
