

Myth Beyond 1551

Chapter 1551 Recognition

Yun Lintian racked his brain up and couldn't find the answer. The fact that Hongyue's divine soul could survive and appear in the Azure World proved they didn't truly die inside the Primordial God Forsaken Land... But how did they do it?

Thinking of this, Yun Lintian tried to contact the Land of Beyond Heaven, but it was futile again.

On the side, Wu Qingcheng looked at the deep scar on Shen Huang's chest and asked. "How many years do you have?"

"It's more than enough to help you settle in." Shen Huang looked at her with a kind smile.

A complicated feeling appeared in Wu Qingcheng's heart. She didn't know how to behave in front of this "grandfather" of her. Did she hate him for not helping her and her father? The answer was no. But she definitely couldn't recognize him as her grandfather. At least not now.

Shen Huang seemed to see through Wu Qingcheng's thoughts. He sighed softly and said. "It's my fault for making the Shen Clan become like this. When I was born, my parents left me at a temple in a deep mountain. I didn't know why they left me, and my master kept telling me they must encounter a difficult situation."

"Twenty years later, I became a practitioner and went down the mountain to earn some resources. I visited a small town not far away, and I met my parents that day. Although I didn't know what they looked like, I could recognize them through my power."

"Do you know what I saw on that day? They actually lived a good life and had a few kids. As much as I wanted to rush up to ask them why they left me, I decided to stay away from them. Since then, I never believed in familial love."

Wu Qingcheng hesitated for a moment and asked. "They must have a reason, right?"

A self-mocking smile appeared on Shen Huang's face as he answered. "Of course. Their reason was simple. It was because they believed a fortune teller that their lives would get better as long as they abandoned me."

Wu Qingcheng was rendered speechless.

Shen Huang shook his head and said. "I was angry at first after knowing this, but I could understand them. They were mortals who had lived in that small village their whole life. Their vision was limited. As my strength grew, I didn't blame them anymore. But I wouldn't recognize them."

"Perhaps it was because of this I believed everyone in this world would do anything for themselves and themselves alone. From then on, I started becoming more selfish and did everything for my own interest."

"Well, I actually am not much different from Ren Yuan in this aspect. And if I wasn't selfish like that, I wouldn't reach this height today."

Shen Huang looked at Wu Qingcheng and said further. "My initial purpose of establishing the Shen Clan was to solely serve me. Whether it was my son, daughter, or others, they existed to work for me."

"But as time passed and my lifespan was about to reach the end of the rope, I suddenly thought of my parents. Would they regret it a bit for abandoning me?. With that thought in mind, I returned to my hometown even though I knew they were long gone."

"Naturally, that small town was nowhere to be seen, as well as the temple where I grew up. But just as I was leaving, I discovered an imaginary stone under the temple's original location. Apparently, my master left it for me."

A blue stone appeared in Shen Huang's hand, and he placed it on the table.

Buzz—I think you should take a look at

A blue light shot out of the stone and transformed into a light curtain above. An image of an old monk was displayed on it. With a glance at him, the hearts of Wu Qingcheng and the others immediately flushed with tranquillity.

"Huang'er, since you discovered this stone, it meant you thought of your parents again." The old monk said with a kind smile.

Shen Huang looked at his first master with sorrow. He was busy keeping himself alive in those years and failed to return to see his master for the last time.

The old monk said further. "Master will tell you the truth about your parents. In fact, they have been thinking of you all the time since they left you to me. Every month, they would let people send food and clothes to the temple and sometimes come to see you secretly."

"Whenever you went to the town with me, they would disguise themselves and secretly look at you. The clothes, food, and equipment you had all come from them. They truly loved you with all their hearts, but you were born with a profound talent. They couldn't give you a better future and decided to send you to my place."

"Moreover, they were the ones who proposed to hide everything about them from you. Although they didn't know much about the profound path, they knew both of you would live in a different world in the future. They didn't want to be your burdens."

"To respect their wills, Master could only keep everything to myself."

The old monk clasped his hands together and said. "Master knows that you will become a figure who stands at the top of the world in the future. Master only hopes you can live a good life and create a family on your own."

As the voice fell, the light curtain gradually blurred and disappeared.

Shen Huang sighed and said. "I knew this too late."

Wu Qingcheng didn't know what to say at the moment. She could understand how Shen Huang felt after knowing this. It must be painful.

Wu Liwei suddenly nudged Wu Qingcheng with his leg and sent a sound transmission. "I won't force you to recognize him, but I hope you will one day. He's quite pitiful."

As he spoke this, Wu Liwei sighed inwardly. Even a God Emperor could not escape being sentimental. Sometimes, he wondered what the point of having high strength was.

Wu Qingcheng raised her head to look at Shen Huang after a shot of silence and said. "Well, you don't have to feel sad, Grandpa. You still have family here."

Shen Huang was stunned and looked at Wu Qingcheng in disbelief. "What did you just call me?"

"Grandpa." Wu Qingcheng rolled her eyes. "What's wrong? You don't want to recognize me?"

Shen Huang's body trembled slightly, and a bright smile appeared as he said. "Haha. You're absolutely my granddaughter. How could I not recognize you?"

Chapter 1552 The Mysterious Primordial God Forsaken Land

After immersing in delight for a moment, Shen Huang turned to Yun Lintian and asked. "I heard that you're looking for the Sea of the Stars. It did appear a few days ago, not far away from here. According to the statistics, it is likely to appear again very soon. But the location is unpredictable."

Yun Lintian was surprised to hear this. "Can you tell me more about this, Senior? Including the Primordial God Forsaken Land and the Devil Valley."

Shen Huang thought for a moment and said. "I have gathered information about the Sea of the Stars over the years, but it is very vague. After all, it is a place of no return."

"According to the ancient records, the Sea of the Stars was born out of an explosion of various stars during the Primordial God War. Since then, it would travel through space between the Divine Realm and the Great Devil Realm. It also likely appears in other realms outside."

"As far as I know, only three people in the Divine Realm could come out of the Sea of the Stars. The first one is naturally the Beyond Heaven King. Another one is Goddess Yao Xi. And the last one is the Everlasting Soul God Emperor Ling Yongheng."

Yun Lintian frowned deeply. He basically gained nothing useful from this.

"About the Devil Valley and the Primordial God Forsaken Land, both of them are even more mysterious. Especially the latter one." Shen Huang said further. "The Primordial God Forsaken Land has existed since the Primordial Era, and countless gods have lost their lives there."

"The inheritances and various profound arts that everyone uses now mostly come from there. For example, the Thousand Faces God Art and the Ever Lasting Soul God Art. Both of them were discovered inside that place."

Shen Huang looked at Yun Lintian and said with a serious expression. "I don't recommend you to go there with your current strength. There are many strange beasts from the Primordial Era inside. Even a God Emperor finds it hard to face them."

"The Beyond Heaven King and the others escaped to that place because they wanted to borrow the presence of these beasts to buy them time. Moreover, the space inside is insanely vast. It could take you thousands of years just to find an exit."

Yun Lintian nodded thoughtfully.

On the side, Wu Qingcheng asked curiously. "Speaking about this, what did the Heavenly Desolate God Emperor do afterward?"

Looking at the Divine Realm today, it was pretty much peaceful in Wu Qingcheng's eyes. It seemed Ren Yuan didn't do anything much after killing the Beyond Heaven King.

"When the big tree falls, all the leaves and branches naturally scatter." Shen Huang replied. "Those who are loyal to the Beyond Heaven King were either shut themselves in like the Moon God Realm or disbanded and went incognito."

"As for the rest of the God Emperors, Ren Yuan simply ignored them. In his eyes, they were nothing but useful pawns. That's including me."

"Since then, he proclaimed himself the Heavenly Desolate God Emperor, and everyone must obey his command when a foreign enemy comes."

"This person is very confident in himself." Wu Liwei commented.

"With the Primordial God Artifact in his hand, we are just a bigger ant in his eyes." Shen Huang said calmly.

He then took a deep look at Yun Lintian and said. "He didn't come here to kill you because you are not a threat to him. At least, not yet. However, you must not let your guard down. Many people still want to get a hand on the Beyond Heaven King's legacy."

"I know." Yun Lintian responded.

A strange expression appeared on Shen Huang's face as he asked. "You're not dissatisfied with the way he treats you?"

Yun Lintian took a sip of tea and replied calmly. "Why should I? Isn't it good for me this way? The more he underestimates me, the better chance I get."

Shen Huang nodded appreciatively. "It's rare that you have such a mindset at a young age... You can stay here during this period. Although my strength has declined a lot, I can still protect you. Those people wouldn't dare to come here."

Yun Lintian put the teacup down and walked to Shen Huang's side. "Please give me your hand."

Shen Huang didn't ask and raise his arm.

Yun Lintian grabbed Shen Huang's wrist and injected the Tree of Life's power into the latter's body. Immediately, the deep scar on Shen Huang's chest gradually improved.

A moment later, Yun Lintian released his hand and looked at the scar thoughtfully. "The residual power inside is very strange. I have never seen it before."

"It is a power of Primal Chaos." Shen Huang explained. "I got this wound from those Primordial God Tribe's people. If not for the countless treasures I consumed over the years, I would have gone long ago."

Yun Lintian thought for a moment and decided to take the Fruit of Immortality out. "Please take this."

From the earlier examination, Yun Lintian could see that Shen Huang had no more than three hundred years left in him. Wu Qingcheng needed Shen Huang's support to take over the Shen Clan, and three hundred years were not enough.

"Fruit of Immortality?" Shen Huang was slightly surprised. "It seems the Tree of Life has come back to life. This is great news."

Shen Huang received the fruit and said gratefully. "Thank you. With this, I can accompany my family longer."

He then threw the fruit into his mouth directly. Immediately, a warm current of vitality flushed into his body and spread to every corner. At the same time, Shen Huang's appearance gradually turned younger, from an old man to a middle-aged man in his early thirties.

Yun Lintian walked to Wu Qingcheng and Wu Liwei and said. "I'll transform your profound veins. After this, you will have to start from the beginning again. The profound vein will have an affinity with every element in the world. Becoming a God Emperor wouldn't be a problem."

Wu Qingcheng and Wu Liwei were shocked to hear this.

Without waiting for them to reply, Yun Lintian placed his hands on their shoulders and started the process...

Chapter 1553 Undercurrent

Twenty minutes later, the profound veins of Wu Qingcheng and Wu Liwei were completely transformed. The two of them could feel various elements in the air clearer. Even though their profound strength returned to zero, they felt that they had become much stronger.

"Sure enough. You could use his power." Shen Huang said as he looked at the scene. "The profound vein transformation ability is unique to the Beyond Heaven King as he derived it from all the knowledge he learned in those years. As far as I know, he could only transform one or two people in a year. But you seem to be able to use it freely."

Yun Lintian was surprised to hear this. He always thought the Beyond Heaven King could use this ability at will like him... Why didn't Hongyue tell him about this?

He thought for a moment and asked. "What is the grade of your profound art, Senior?"

"Our Mystic God Art is incomplete. It can be regarded as a half-step Primordial ranked one." Shen Huang replied truthfully. "You can give her a better one. I don't care much about passing my legacy."

"Can I take a look at it?" Yun Lintian asked. Unfortunately, he couldn't access the Library. Otherwise, he would find a way to fix it.

Shen Huang took a jade slip out and threw it at Yun Lintian. If others saw this scene, their jaws would definitely drop to the ground. A God Emperor's profound art was the most important thing, yet Shen Huang didn't care about it at all.

Yun Lintian briefly looked through the profound art and compared it with the Primordial-ranked profound arts he knew in his mind.

A moment later, he took a small book out and handed it to Shen Huang. "Let them practice this."

Shen Huang looked at the words "Myriad Wayseeker Primordial Art" in surprise and quickly read the content inside. A while later, he raised his head to look at Yun Lintian and said. "This is similar to the Mystic God Art, but several times more refined. It is possible to create a few God Emperors from this. Are you sure you want to give this to us?"

Yun Lintian didn't care about it. "It isn't valuable much to me, and I won't give it away for free. I want more Divine Stones."

Shen Huang handed the book to Wu Qingcheng and said. "I'll let someone prepare it for you."

Yun Lintian nodded and said to Wu Qingcheng. "I'll help you practice during this period."

"Mhm." Wu Qingcheng held the book tightly. She didn't express her gratitude, as it was unnecessary between them.

"All of you can stay here for the time being. Wait until everything outside settles first." Shen Huang said and walked out of the courtyard.

Somewhere in a middle-ream star of the Western Divine Region, a group of profound beasts were crazily ravaging a huge city as if they were on drugs. If Yun Lintian was here, he would feel such a scene was

highly familiar. These profound beasts seemed to be driven by an unknown force similar to Abyssal Energy but a higher level one.

Countless profound practitioners tried their best to resist them, but the number of the profound beasts was too large. No matter how many they killed, the profound beasts didn't seem to decrease in the slightest.

Crack!

Amidst the intense battle, a huge crack suddenly appeared in the sky, attracting everyone's attention.

At the same time, a group of black figures emerged from the crack and soon filled the sky. With a glance, the practitioners below could roughly count there were at least a hundred thousand of these black figures.

"D...Devil!" A high-level practitioner in the crowd uttered in shock.

"Devil? How could they cross the realm?"

"Hurry up and contact the upper realms!"

The already chaotic scene became even more disordered. Everyone started to flee, running for their life, while some brave ones continued to hold on.

"Sniff... Hmm... The air here is still disgusting like before." A red-robed woman who stood in front of the devils said with a disgusted expression.

Floating beside her was a handsome man clad in black. This person's expression was cold as an ice block. It was as if he was incapable of expressing his emotion.

He glanced at the crowd below and waved his hand. Immediately, a gigantic black claw appeared in the sky and blasted onto the people below. Wails and screams could be heard everywhere as the practitioners turned into blood mist under the claw.

As the man waved his hand again, the blood mist quickly gathered together, forming a massive droplet of blood floating toward him.

The man played with the droplet of blood for a moment and then crushed it, which instantly filled the sky with raining blood, painting everything below red.

The profound beasts became crazier under the rain of blood. They trampled everything on their paths, rushing to the next city nearby.

"Isn't this too high-profile?" The woman in red asked.

The man glanced at her and said coldly. "Let's go."

Immediately, all the hundred thousand devils rushed out, disappearing from the place... No one knew where they were going.

A small crack appeared in the starry sky in the Eastern Divine Region, and a group of devils emerged from it. The group leader was a middle-aged man clad in red. Two devilish horns could be seen on his head. He was one of the Great Devil Realm's God Emperors, Red Fall Devil God Emperor, Chi Jixing.

Chi Jixing glanced around briefly and said to the devils behind him. "Spread out. Contact me directly when you find their clues."

The devils didn't say anything. They immediately shot out in all directions and disappeared into the starry sky.

Chi Jixing slowly turned to look in the Heavenhold Realm's direction, and his figure vanished from the place.

A similar scene appeared everywhere throughout the Divine Realm. A few Devil God Emperors had arrived here without anyone knowing...

A week passed by since the gathering event. During this period, the Mystic Ancient City had been completely repaired and started operating normally. However, the number of people decreased visibly compared to the last time. It seemed they didn't dare to try their luck anymore.

On the street inside the city, two girls leisurely walked around, looking at the strange atmosphere curiously. They were none other than Yue Chuntao and Ning Yue.

"Why is it so depressing here?" Yue Chuntao said with a strange expression.

Chapter 1554 Reunite

"This place looks like they have been through a catastrophe not long ago." Ning Yue said worriedly. "I don't know how Brother is now."

Ning Yue couldn't sleep at night for the past month as she kept thinking of Yun Lintian. Seeing the situation here, she became even more worried about him. She was afraid something terrible would happen to him, even though she knew Yun Lintian had a way to save his life.

Meanwhile, Yue Chuntao was in a house arrested after returning to the Divine Moon Clan. She had no idea what was happening around the world during this period. Much less the situation here.

This time, she took a chance when Yue Hua entered seclusion to slip away with Ning Yue.

Yue Chuntao stopped at a mutton skewer stall and talked to an uncle's owner. "Twenty skewers, please."

The uncle looked at the little girl in surprise and asked. "Are you sure you can eat them all?"

"Don't worry. I can finish them." Yue Chuntao said and placed ten low-graded Divine Stones on the counter. "By the way, what happened here, uncle? The atmosphere here is so gloomy that I thought I was entering the wrong city."

The uncle's expression changed slightly. He looked around carefully and said in a low voice. "A powerful heavenly tribulation appeared above the city last week and killed countless people here. I was fortunate enough to leave the city on that day. Otherwise, I wouldn't be here now."

"Powerful heavenly tribulation?" Yue Chuntao repeated thoughtfully.

"Yes." The uncle nodded while skillfully flipping the skewers. "I was a thousand kilometers away from the city, but I could feel the deadly aura clearly. The thunders were so thick that I thought they were light pillars that fell from heaven. You know? Half of the city was gone at that time. Even the city's protective barrier couldn't withstand it."

The uncle put twenty mutton skewers in a paper bag and handed it to Yue Chuntao. "Here you are."

Yue Chuntao grabbed the bag and left the stall with Ning Yue. She was aware of Yun Lintian's intention of borrowing the heavenly tribulation's power to deal with the Shen Clan, but she didn't expect it to be this powerful.

"Sister Taotao?" Ning Yue looked at her concernedly.

"Don't worry. I can roughly guess about it now. Lintian should be fine. We will go to the Shen Clan's place directly." Yue Chuntao said while chewing the grilled mutton.

"Hmm?" Suddenly, Yue Chuntao caught a glimpse of a familiar figure, and a strange light appeared in her eyes. This figure was no other than Shen Yan.

Shen Yan seemed to feel something and turned to look at Yue Chuntao. When her gaze landed on Ning Yue, her expression changed slightly and soon returned to normal.

"What a surprise. You're actually alive." Yue Chuntao said and walked toward Shen Yan.

"Moon Princess?" Shen Yan could recognize Yue Chuntao as she had seen her before.

Yue Chuntao took another bite of the grilled mutton and said. "The fact that you are completely intact means your Shen Clan has compromised. Alas. Lintian is surely kind."

Shen Yan didn't say anything in return. After losing the position to Wu Qingcheng, her life was pretty much colorless. Every day, she would bury herself in repairing the city and thinking about her mistake over and over. If it wasn't for her father's order, she would go to some middle realms by now.

Yue Chuntao suddenly lost interest and asked. "Where is he?"

"He's inside my grandfather's courtyard." Shen Yan replied and walked away.

Ning Yue was about to say something, but Yue Chuntao interrupted her. "You don't have to take pity on her. She doesn't deserve it. Remember, there's only one person in this world that you can forgive. It's yourself."

Ning Yue bit her lips and nodded gently. Although Shen Yan had schemed against Yun Lintian, Ning Yue didn't feel bad about her anymore after knowing Yun Lintian was safe and sound.

Yue Chuntao didn't say anything further and brought Ning Yue toward the Shen Clan's manor.

Inside Shen Huang's courtyard, Yun Lintian walked into the garden with a tray filled with delicacies. He placed the tray inside a pavilion and looked at Wu Qingcheng and Wu Liwei, who were practicing at a distance. "It's time to eat."

"Alright." Wu Qingcheng and Wu Liwei stopped their actions and walked into the pavilion.

Wu Qingcheng poured herself a glass of water and said. "If I hadn't experienced it myself, I would think it was a miracle to reach the Spirit Profound Realm from zero in a week."

A week passed, and Wu Qingcheng and Wu Liwei had already entered the Spirit Profound Realm. It was deemed impossible to achieve in the Azure World, but it was effortless to do here. It made them realize how large the gap between the lower realm and this place was.

Furthermore, their current profound veins were extremely powerful. It allowed them to practice any profound arts as long as they could comprehend them. They now understood why the Misty Cloud Sect's disciples were insanely strong.

"There's no need to rush. Try to focus on building the foundation." Yun Lintian said and poured everyone a cup of wine.

Wu Liwei took a sip of wine and asked. "Are you leaving?"

Yun Lintian nodded admittedly. "I am different from others. Staying in one place is not good for my progress. I have to find the rest of the Beyond Heaven Relics."

Wu Liwei sighed emotionally. "Back to Azure World. I always insisted on helping you because I wanted to maintain that stupid neutral position. And here, you risked your life to help us. Honestly, I feel ashamed."

"The past is the past. There's no need to talk about it, uncle." Yun Lintian smiled gently. He took a sip of wine and asked. "Have you thought it through?"

Wu Liwei drank all the wine in one go and said. "I no longer have a feeling for her. She doesn't deserve my love."

Yun Lintian was relieved to hear. "That's right, uncle. There are plenty of beauties here. I believe you can find a better one later."

Wu Liwei laughed and gave no comment on this.

"Brother!" Suddenly, Ning Yue's voice resounded from behind, causing Yun Lintian and the others to follow.

Yun Lintian was surprised to see Ning Yue. "Yueyue? How did you come here?"

"Very good! Yun Lintian. You actually have a delicious meal without telling me." Yue Chuntao slowly walked into the garden and said sternly.

Yun Lintian was immediately rendered speechless...

Chapter 1555 Rumors

"Fifth Sister?" Wu Qingcheng looked at Yue Chuntao in surprise. This little girl gave the same vibe as her fifth sister, Nantian Fengyu. They would look like a sibling if they were to stand together.

"She's the Moon Princess of the Divine Moon Clan, and the other is Ning Yue. I recognize her as my sister." Yun Lintian introduced.

He turned to look at Yue Chuntao and said suspiciously. "Don't tell me you are sneaking out again?"

"Who is sneaking? This princess just came out without telling anyone." Yue Chuntao retorted and rushed to the pavilion before sitting beside Yun Lintian. "Looks delicious."

Without hesitation, she picked Yun Lintian's chopsticks up and began to feast, leaving everyone speechless.

Ning Yue walked over and said. "Don't blame Sister Taotao, brother. I was the one who asked her to bring me out. I was worried about you."

"Come, take a seat." Yun Lintian pulled Ning Yue over and let her sit on his right side.

"This is my Fourth Sister Wu Qingcheng, and her father Wu Liwei." Yun Lintian said.

Ning Yue quickly bowed her head and said. "Little Girl Ning Yue greets two Seniors."

"You don't have to be polite. Just call me Uncle Wu." Wu Liwei smiled gently.

Meanwhile, Wu Qingcheng nodded in agreement. "Since you are Lintian's sister, you are also my sister. You can call me Sister Qingcheng directly."

"Uncle Wu, Sister Qingcheng." Ning Yue called out politely.

Wu Qingcheng glanced at Yue Chuntao, who was wolfing the food as if she hadn't eaten for ages and said. "You and my Fifth Sister really look alike."

"Who?" Yue Chuntao asked in doubt, but her chopsticks didn't stop.

"She talked about our Fifth Sister. Her name is Nantian Fengyu." Yun Lintian explained.

"Nantian Fengyu?" Yue Chuntao seemed to think of something and asked. "Is she a descendant of the Divine Phoenix Clan?"

Yun Lintian was surprised. "How did you know?"

"The surname Nantian is exclusive to the Divine Phoenix Clan." Yue Chuntao drank a mouthful of wine and said further. "This surprised me. Not only the Divine Phoenix's bloodline is still alive, but also her descendants. I'm wondering. Are there descendants of the other Divine Beasts out there?"

Yun Lintian touched his chin and said. "So far, I have never seen the Golden Crow and the Black Tortoise."

"The Golden Crow and the Black Tortoise are a bit stronger than the Divine Phoenix, Vermilion Bird, and White Tiger. Since the Divine Phoenix and the other two survived the catastrophe in the past, I believe they should be alive somewhere out there." Yue Chuntao expressed her thought.

Yun Lintian nodded thoughtfully.

"There seems to be a rumor about the Golden Crow's trace circulating around." Yue Chuntao said further. "In the far north, there's a place called Neverending Burning Hell. It's like a large terrain with countless volcanoes. There were numerous reports about seeing a fiery bird similar to the Golden Crow in that place. Maybe you can check it out."

"Neverending Burning Hell?" Yun Lintian repeated thoughtfully. "I think you should take a look at

Swoosh!

Suddenly, Shen Huang appeared in the garden and went straight to the point. "Our people have found a trace of devils. They are likely crossing over recently."

"Devils?" Yun Lintian's expression turned serious. "Where are they, Senior?"

Shen Huang looked at him and said. "They should be looking for you right now. Sooner or later, they will come here. I believe there are a few God Emperors among them this time."

Yun Lintian was surprised and asked curiously. "By the way, Senior. Can you tell me about the Great Devil Realm? How many God Emperors do they have?"

"I'll make it short." Shen Huang said. "The Great Devil Realm is jointly controlled by the Seven Great Devils. The strongest one is Mo Tian. His strength is inferior to the Beyond Heaven King, but definitely stronger than any God Emperor here. Perhaps Ren Yuan with the Heavenly Desolate Orb could suppress him."

"The other six Great Devils are comparable to our top God Emperors. There are also another sixteen God Emperors under their command. The Divine Realm and the Great Devil Realm often clashed in the past, and we held an upper hand due to the Beyond Heaven King. But in recent years, they have become stronger and more rampant."

"The fact that they dared to invade the Divine Realm like this has proven how rampant they have become over the years."

"They haven't become more rampant, but rather we have become weaker." Yue Chuntao chimed in. "Under Ren Yuan's rules, everyone has become more passive. No one dares to get into a conflict, even if necessary. And when a foreign enemy comes, everyone keeps watching it and does nothing the whole time. This passive mindset allowed those devils to run rampantly here."

"You're right." Shen Huang nodded in agreement.

Yue Chuntao put the chopsticks down and said to Yun Lintian. "Come with me to my place. You will be safe there."

"That's right, brother. Let's leave together." Ning Yue quickly echoed. She was afraid that Yun Lintian would fall into danger again.

"I am worrying about the Heavenhold Realm." Yun Lintian said with a frown. "They will definitely go there."

"You don't have to worry about it. That place has the Shrouding Sky God Emperor's protection. It will take at least three or more God Emperors to break it." Shen Huang said.

"Shrouding Sky God Emperor? Why?" Yun Lintian was puzzled. As far as he knew, the Heavenhold Realm didn't seem to have any relationship with the Shrouding Sky God Emperor. Why did he protect them?

"Have you forgotten that Shrouding Sky God Emperor is one of the Beyond Heaven King's disciples? It's normal for him to help you." Shen Huang explained. "Moreover, the Rain God Emperor and the Eternal River God Emperor are around. Even if they have nothing to do with you, they certainly won't let those devils run amok there."

"I see." Yun Lintian immediately understood.

Shen Huang handed a storage ring to Yun Lintian and said. "These resources should be enough for you to step into the next realm."

Yun Lintian glanced at a mountain of Divine Stones inside the ring in surprise. There were at least five trillions of high-graded Divine Stones here. Combining with the previous trillion Divine Stones he got from Shen Yan, it was more than enough for him to reach the Divine Transformation Realm.

Yun Lintian put the ring away and turned to Wu Qingcheng. "I'll leave first, Fifth Sister."

"Be careful out there," Wu Qingcheng said concernedly.

"I will." Yun Lintian responded and left with Yue Chuntao and Ning Yue directly.

Chapter 1556 Red Fall Vs Shrouding Sky (1)

In the starry sky above the Heavenhold Realm, the Red Fall Devil God Emperor, Chi Jixing, stared coldly at the man in front of him. "Why don't you hide like a turtle as usual, Kong Hui?"

The Sky Shrouding God Emperor, Kong Hui, looked at the familiar face calmly. "You should go back to where you come from. There's no good ending for you here."

"Oh really?" Chi Jixing curled his lips. "Then let me try how strong you have become after all these years."

Boom!

All of a sudden, a red spear appeared in Chi Jixing's hand, and his god emperor's power detonated, painting the starry sky red.

With a flick of his hand, the red spear instantly shot out, traveling across the space toward Kong Hui.

In that instant, a golden bell appeared in Kong Hui's hand. He raised it up and said calmly. "Block."

Ding!

The golden bell rang, and a golden barrier appeared before Kong Hui, welcoming the red spear.

"Heh." Seeing this, Chi Jixing sneered and made a grasping gesture.

Suddenly, the red spear expanded and plunged like a meteor into the golden barrier.

BOOOM!

A red explosion blasted out the moment the spear touched the barrier. At the same time, a black and red mist abruptly burst out of the spear, spreading all over the barrier like a spiderweb.

Following that, several cracks gradually appeared in the barrier, causing Kong Hui to frown in doubt.

"Eat this." Chi Jixing grinned coldly and waved his hand.

Immediately, the spear crashing against the barrier became a giant fist, smashing the barrier.

BOOOM— Crack!

The golden barrier was instantly shattered under the series of attacks from Chi Jixing, startling Kong Hui. The barrier Kong Hui created was enough to receive a God Emperor's most powerful attack a few times, yet it was broken in one fell swoop... What was going on here?

Kong Hui didn't have time to think about it much. He quickly urged the golden bell and created several layers of golden barrier around him.

"Useless!" Chi Jixing sneered as his aura rose sharply. He quickly manipulated the spear and sent it toward the newly erected barrier.

"This power intensity..." Kong Hui stared at Chi Jixing attentively. "You actually made another breakthrough?"

A God Emperor was the peak stage of a practitioner in the world, but in fact, there were small levels in it. These small levels weren't visible. It could come from a breakthrough in profound arts or an improvement in meridians and profound veins. Just a tiny bit of improvement could make so much difference between the God Emperors.

Chi Jixing in front of him had obviously stepped into the next "small level."

"Hahaha! This is just an appetizer." Chi Jixing laughed coldly. "The main course isn't here yet. Why don't you show me more?"

BOOM!

The spear smashed into the golden barrier and quickly broke the barrier's layers one after another. In this first crash, Chi Jixing clearly gained the upper hand effortlessly.

Kong Hui frowned deeply and gathered his breath. The golden bell in his hand rang out again, and a golden light erupted.

A gigantic image of a golden abbot appeared behind Kong Hui. The abbot closed his eyes with his hand clasped together, exuding a serene aura.

Kong Hui clasped his hand together as he uttered. "Demon Seal!"

Instantly, blinding golden light burst out of the abbot's image, and the abbot stretched both hands forward, grasping onto Chi Jixing.

Feeling the compressive power around him, Chi Jixing snorted coldly, and his eyes burned with red flames. Following that, an image of a gigantic red snake appeared behind him. The brilliant flames of red on the red snake instantly broke through the surrounding golden brilliance.

Hiss—

The snake let out a loud hiss and suddenly plunged upward, rushing to the incoming abbot's hands. Its head had grown to several hundred meters wide by the time it got close to the target, and it opened its mouth in an attempt to swallow the abbot's hand whole.

Crack!!

A golden crack instantly appeared in the abbot's hands. Then, the abbot's outreached hands shuddered and instantly collapsed.

In the air, Kong Hui shuddered all over at the sight. A streak of blood could be seen flowing out of the corner of his mouth. His expression turned heavy. Chi Jixing's strength was entirely above him in both attacks. It wasn't something he had expected.

"That's it?" Chi Jixing sneered at the collapsing abbot's image behind Kong Hui. "What my master said is true. All of you did nothing over the years."

In the past, Chi Jixing would have to think twice when facing Kong Hui, but it was entirely different this time. While his strength improved drastically, Kong Hui seemed to stand in the same spot for these tens of thousands of years.

Kong Hui didn't say anything. He raised the golden bell and rang it a few times as golden light erupted continuously from his body.

The starry sky originally painted red by Chi Jixing was now invaded by the golden brilliance. Within a thousand kilometers, everything was filled with a blinding golden brilliance, forming a golden world.

Hiss—

The red snake roared and smashed into the golden wall nearby. With a bang, the wall shook slightly and returned to its original calm.

Chi Jixing's eyebrows raised slightly upon seeing this scene. He had never seen such a move from Kong Hui before. What was this?

Without thinking further, he controlled the spear and sent it toward unprotected Kong Hui in the distance.

However, when the spear traveled a few hundred meters, it suddenly hit a golden wall that came out of nowhere and stopped in place, unable to move further.

"Welcome to my golden palace." Kong Hui said while wiping the bloodstain out of the corner of his mouth.

Ding!

As Kong Hui rang the bell, countless golden spears suddenly protruded from the surrounding golden brilliance and rained over Chi Jixing.

The red snake hurriedly rushed back to its master and swept its tail toward the incoming golden spears.

BOOM!

Space shook violently, and cracks appeared around the snake as the golden spears exploded from the impact.

However, there were too many spears. A small part of the spears avoided the snake's tail and stabbed into its body, causing it to hiss in pain.

Boom! Boom! Boom!

Several golden spears came out once again and bombarded the snake, shattering it into pieces.

Puff!

Chi Jixing spat out a mouthful of blood as he stared at Kong Hui icily. "Not bad. How about this?"

BOOOM—

Chapter 1557 Red Fall Vs Shrouding Sky (2)

The golden world above Chi Jixing's head suddenly exploded in a sea of red flames. The flames engulfed even all the spears before they could swarm over him.

The crash between the two powers of the peak God Emperor sent a massive shockwave to every star nearby. The impact instantly blew away profound ships or pirates tens of thousands of kilometers away.

Under the explosion, the golden world immediately cracked and began to spread with lightning speed.

Kong Hui's face turned solemn as a barely discernible layer of divine light appeared around his body, completely blocking the incoming outburst of Chi Jixing's aura.

BOOM!!

Kong Hui was instantly engulfed by the red flames, but if one looked closely, one would see the flames couldn't break the barrier around him.

"Shrouding Sky Sacred Barrier?" Chi Jixing furrowed his brows upon seeing this scene. The Shrouding Sky Sacred Barrier was known as one of the most formidable barriers in the Divine Realm, and once it was evoked, it would continue to stack up, becoming impenetrable. It was one of the strongest techniques Kong Hui had.

Chi Jixing opened his hand gently, and the red spear flew into it. "Very good. I've been looking to test my new power for a long time... Go!"

Instantly, an ear-piercing cry resounded as the red spear in Chi Jixing's hand morphed into a ray of red light, cutting through space toward Kong Hui.

Seeing this, Kong Hui made a hand seal with one hand, and the discernible barrier around him abruptly turned into a giant hand, grabbing at the incoming red light.

BOOOM—

The surrounding airspace shook violently at the collision of the two peak powers. Countless spatial rifts could be seen crazily rippling everywhere.

Chi Jixing snorted coldly and manipulated the spear to keep attacking Kong Hui one after another. Every time the spear and the barrier clashed, the impact went straight into the nearby stars, causing their Realm Kings to activate their protections.

Boom boom boom... BOOM!!

After a dozen rounds, Kong Hui was finally knocked back a step, but his expression was calm and composed, as if everything was within his expectation. All foreign power and energy shockwaves were held at bay by the barrier, so no harm came to him.

Chi Jixing grew impatient when he saw this scene. The Shrouding Sky Sacred Barrier was indeed worthy of being one of the toughest barriers in the Divine Realm. Even sixty percent of his power was unable to break it.

Suddenly, his body erupted with power like a volcano before he swung the red spear straight at Kong Hui's chest.

At the same time, Kong Hui pushed the golden bell in his hand forward.

Chi Jixing immediately understood what Kong Hui was trying to do, but not only did he not withdraw his strength, he charged forward faster than ever before. The only way for him to break Kong Hui's barrier was to concentrate on one point.

BOOM!!

Burning with an extreme amount of red flames, the red spear slammed fiercely into the golden bell. At the same time, Kong Hui finally exerted his god emperor's power on the bell.

Ding!

There was one loud, combined bang as two terrific explosions erupted at the same time. I think you should take a look at

Blood poured out of Chi Jixing's arm as he was thrown back wildly by the impact.

On the contrary, Kong Hui was forced to retreat a few steps backward and remained perfectly unharmed. However, the result of the clash had astonished him deeply.

The Shrouding Sky Sacred Barrier was deeply dented. A red mark could be seen burning incessantly on the barrier, but what shocked him even more was the overall effect of his golden bell.

The technique he used earlier was to reflect an opponent's attack by borrowing the power of the golden bell. Usually, any practitioners would get the same amount of impact as the power they had released, but Chi Jixing obviously received a small part of it... Chi Jixing's body was like unbelievably sturdy divine steel. The impact couldn't even break his arm.

At this moment, Kong Hui immediately realized something. Usually, devils would be suppressed by the natural force of the Divine Realm once they crossed over, but Chi Jixing could display his strength to the fullest. This meant the suppression of the Divine Realm had either disappeared or the devils had found a way to get rid of it.

This information was extremely crucial. If the Divine Realm was caught off-guard by this, the consequence would be unimaginable!

Kong Hui's mind moved as he sent a message to Yu Wuying. No matter what, he must remind everyone about it as soon as possible.

Chi Jixing managed to stabilize himself in midair and instantly left behind a red afterimage as he appeared behind Kong Hui, stabbing the spear toward his heart.

Kong Hui instinctively shifted his divine energy to the barrier on his back, welcoming the incoming stab.

Boom!! Crack!

The full-throttle attack from Chi Jixing landed on the barrier, leaving a cracking mark. Red and golden lights erupted, and Kong Hui was thrown a dozen or so steps away from the point of impact.

However, once again, he was perfectly unscathed, except that a small crack appeared in the barrier for the first time.

"How long can you resist it!?" Chi Jixing glowed and drew closer to Kong Hui while thrusting the spear at the barrier once more, leaving a fierce red light trailing behind.

"Seal!" Kong Hui shouted as he rang the bell several times in a row. Golden light abruptly burst out of his body and formed into two golden arms, grabbing Chi Jixing from both flanks.

Boom—

There was a terrible explosion that shook space as the red spear landed perfectly on the second layer of the Shrouding Sky Sacred barrier, shattering the barrier into pieces.

At the same time, two golden hands wholly grabbed onto Chi Jixing, holding him tightly.

"Fall down!!"

Chi Jixing's deep and cold voice echoed in the space, and a curtain of red light suddenly appeared above him, falling down like a waterfall and crashing into the last layer of Kong Hui's barrier.

BOOOM—

The space within hundreds of kilometers was filled with black and red brilliance instantly as the Shrouding Sky Sacred Barrier's final layer broke into pieces.

Kong Hui spat out a mouthful of blood as he was sent flying to the far distance like a falling meteor...

Chapter 1558 Dark Nether Race

Kong Hui might not be one of the strongest God Emperors in the Divine Realm, but his defensive ability was definitely ranked in the top three. In the past, he could hold more than five God Emperors alone without a single scratch, but Chi Jixing could actually break his defense!

The golden hands grabbing Chi Jixing were also shattered, allowing him to move freely.

Chi Jixing stared at Kong Hui with a cold grin as he exerted his grip on the spear before throwing it at Kong Hui. The spear broke through space and arrived in front of Kong Hui in almost an instant.

At that moment, Kong Hui instinctively raised the golden bell to block the spear. With a boom, the spear fiercely slammed into the bell and was unable to move further. However, the explosion immediately sent Kong Hui flying again.

Kong Hui coughed out three full mouthfuls of blood. Every time he coughed, he was coughing blood and bits of flesh out of his mouth. He had a vague idea that nearly forty percent of his internal organs were crushed by the impact.

At the same time, he noticed that Chi Jixing's aura had changed massively yet again. When he looked up, he was immediately greeted by the sight of a black and red brilliance twirling around Chi Jixing's body.

"Power of... bloodline?" Kong Hui uttered in doubt.

"Bingo!" Chi Jixing curled his lips. "Master Mo Yan has bestowed a new power of the Dark Nether race on me."

Perhaps he was sure that Kong Hui's death was within his grasp. Chi Jixing didn't bother to reveal the secret a bit.

"Dark Nether race?" Kong Hui's pupils shrank. He had seen a record of this notorious race before. It was said to be a servant of the Dark Devil God in the Primordial Era... How could it appear here?

Kong Hui immediately understood everything. The Dark Nether race was considered one of the highest and purest races in the universe. In fact, every race during the Primordial Era was like this because they were born from the Primal Chaos directly. Since it was the case, it was normal that the laws of the Divine Realm couldn't suppress them.

Chi Jixing didn't want to waste time further. His figure vanished from the place and reappeared behind Kong Hui like a ghost while stabbing the spear at the latter's heart.

"Die!"

Rumble—

Right at the moment before Chi Jixing's spear could touch Kong Hui, a powerful river suddenly appeared out of the void and blasted Chi Jixing away directly, sending him flying along the torrent.

At the same time, a gentle-looking man clad in blue emerged from the void and looked at Kong Hui. "Sorry, I'm late."

This man was no other than the Eternal River God Emperor, Jiang Taiyu.

Kong Hui got a chance to take a breather. He suppressed the internal injury while speaking. "Be careful. He has a power of the Dark Nether race."

"Dark Nether race?" Jiang Taiyu furrowed his brows.

Boom!

Chi Jixing broke out of the mighty river and shot into the starry sky, floating above everyone. He looked at Jiang Taiyu with a frown. "Jiang Taiyu? What a surprise. I thought you were going to hide like before."

He spun the spear a few times and tightly grabbed it. "Very well. I haven't had enough of fun earlier."

As he spoke, he pointed the spear at Jiang Taiyu and charged toward him, followed by an ear-piercing cry. I think you should take a look at

Jiang Taiyu flicked his wrist slightly, and a blue jade sword appeared in his hand before waving it gently. Instantly, the entire space was covered in a brilliant gentle blue light. It seemed as if all laws within that space stood still.

As Chi Jixing rushed toward Jiang Taiyu, the space around him suddenly turned thick and turbid, as if he had been submerged in a deep pool of water. His surroundings were covered with multiple rays of blue light that hovered around the red light like water ripples.

In the next instant, however, the gentle ripples suddenly turned into angry waves from a violent sea. The blue waves of light started to violently submerge Chi Jixing within.

What looked like a blue sunflower made from water droplets appeared where Chi Jixing stood. Any drop of water in this profound formation was able to extinguish an erupting volcano.

At this moment, the jade sword in Jiang Taiyu's hand glowed, and a curtain of blue water started gathering in front of him. However, his eyes suddenly turned sharp before the sword aura could form entirely. It was because the water prison formation's aura had suddenly grown erratic.

The water prison formation's light dimmed rapidly, and its rotation grew slower and slower. Its rich aura was vanishing and was replaced by a dark and red aura.

Boom!

The dark and red aura burst out, shattering the water prison formation completely.

At the same time, Chi Jixing's figure shot out of the whirlpool and arrived in front of Jian Taiyu in a split second while stabbing the spear forward. "Eat this!"

Just as the spear could touch Jiang Taiyu, a faint golden barrier suddenly appeared between them, entirely blocking the spear.

Kong Hui stepped forward and shook the bell a few times, creating a powerful barrier surrounding Chi Jixing.

At the same time, Jiang Taiyu seized this chance and drew some wavy lines with the jade sword. A blue whirlpool appeared in front of him. Following that, he pointed the sword at Chi Jixing, and the whirlpool instantly engulfed Chi Jixing from head to toe, drowning him inside.

Chi Jixing struggled fiercely. He let out a furious roar, and his entire body grew red. The whirlpool began to boil as red flames erupted from his body.

"This move again." Kong Hui uttered solemnly. It was the same technique Chi Jixing used to break his golden world.

Bang!

Sure enough. The whirlpool and the golden barrier around Chi Jixing burst apart in the next moment under the scorching red flames.

"Die!" Chi Jixing quickly swept the spear toward Jiang Taiyu after getting out of the restriction.

Jian Taiyu's face sank as he hurriedly conjured another whirlpool to block the spear.

BOOOM—

Both Jiang Taiyu and Chi Jixing were knocked back by the fiery explosion.

Chi Jixing recovered extremely fast, but just as he was about to launch another attack, a sense of crisis suddenly emerged in his heart.

All of a sudden, Yu Wuying emerged from the void above him like a comet while pointing her Rainmaker Sword at his head!

Chapter 1559 Overwhelming Power

Chi Jixing's heart skipped a beat at the sudden appearance of Yu Wuying. The flawless icy blue light erupted and instantly covered Chi Jixing's entire body, restraining him in place. The Rainmaker Sword shot down upon Chi Jixing's head, accompanied by a sharp, cold glint that tore space in its path.

Chi Jixing's pupils shrank abruptly, and he reacted at an insane speed by twisting his head to avoid the blade while releasing his divine energy to protect himself.

Puff!

The sharp cold blade instantly cut one of Chi Jixing's horns and sunk into his shoulder, causing blood to spurt into the air.

"Ugh!" A painful groan escaped Chi Jixing's mouth as he hurriedly swept his spear upward, forcing Yu Wuying to retreat.

At the same time, Yu Wuying twisted her wrist gently, bringing the sword to meet the incoming spear.

BOOOM!!

Two forces collided and blasted both Chi Jixing and Yu Wuying away.

However, Yu Wuying swiftly spun around and shot toward Chi Jixing almost instantly while stabbing the sword at his chest.

Chi Jixing's face sank upon seeing this scene. He urged the power of the Dark Nether race's bloodline, and his entire body was instantly covered with a black and red mist.

Boom!

The sword struck into the mist, but Yu Wuying felt like she had just hit a steel plate. The strong force inside the mist prevented her from pushing forward, and she had no choice but to exert more strength.

With a bang, her aura erupted, and the mist around the sword began to freeze.

At the same time, Jian Taiyu attacked the flank, sending a powerful torrent to smash into the mist. But it was fruitless, as it could only shake the mist.

This scene immediately made everyone frown. What kind of defensive technique was that?

A cold glint flashed through Yu Wuying's eyes as her aura rose sharply. The entire space was instantly filled with heavy rain, and when the rain poured onto the mist around Chi Jixing's body, a layer of frost immediately appeared on it. Coupled with the sword's power, the entire mist quickly turned into a lump of ice, sealing Chi Jixing inside.

Eyes bulging and pupils shrinking, Chi Jixing stared at Yu Wuying in shock and disbelief. It was true that he was at a disadvantage when Yu Wuying came out, but the mist created from the power of the Dark Nether race's bloodline was not ordinary. He couldn't understand how Yu Wuying did it.

Without thinking further, his eyes turned fierce as he forced his voice out of his throat. "Red Annihilation!"

All of a sudden, a massive red flame erupted out of Chi Jixing's body like a volcano and melted all the surrounding ice. At the same time, a powerful explosion burst out, pushing everyone away directly.

Kong Hui hurriedly created barriers around Jiang Taiyu, Yu Wuying, and himself to protect against the rampaging red flames that expanded out crazily.

BOOM!!

The sea of flames instantly engulfed everyone and caused countless cracks in the barriers, but it was unable to break through further.

"Cough!" Kong Hui received a backlash from the attack and coughed up a mouthful of fresh blood. His face turned pale as he stared at Chi Jixing, who stood above the flames.

Chi Jixing looked at Yu Wuying and said coldly. "I didn't expect you to have such a strength. It seems everyone has been fooled by you previously."

He paused briefly and said further. "But if you think you can fight me, then you're wrong!"

As his voice fell, the red flames immediately swirled around the red spear in his hand. Following that, he pierced it straight toward Yu Wuying in the distance. This blow contained eighty percent of his power and was also the strike he was confident in taking Yu Wuying down.

The red flames tore apart space as they arrived in front of Yu Wuying and slammed toward her.

Yu Wuying coldly stared at the incoming red flames and swung the Rainmaker Sword covered with a coiling water dragon at them.

BOOOOM!!

Red flames and water blasts collided in midair as if a heaven-splitting bolt of lightning had exploded downward, instantly splitting the world in two. Half of it shone with a scorching flame, the other half was a blue water curtain.

The space in an entire ten thousand-kilometer radius around them instantly exploded, creating wild spatial currents which crashed about like wild and stormy waves.

Moreover, in the boundary between a flame and water, at the center of the wild spatial currents, the Rainmaker Sword was deadlocked with the red spear. It was just that Yu Wuying's face was cold and expressionless, while Chi Jixing, on the other hand, had blood flowing from the corner of his mouth. His eyes were so wide they looked like they were about to burst, and his arm that grabbed the spear was faintly trembling.

He had exerted eighty percent of his power into this attack, yet it was unable to push Yu Wuying back a single step. Furthermore, it was Chi Jixing himself who ended up getting injured in the clash.

"Impossible..." Chi Jixing uttered in disbelief. Since he obtained a tiny portion of the Dark Nether race's bloodline, he was confident that no one in the Divine Realm except Ren Yuan could be his opponent. Who would have thought that the woman in front of him could actually go against him?

Moreover, Chi Jixing was aware of how effortlessly Yu Wuying did in her attack. Her strength was like a deep spring pool that he couldn't see the bottom, no matter how hard he tried.

CRACK!

Suddenly, a cracking sound that nearly tore everyone's heart echoed. A pitch-black crack appeared in the red spear where it had struck the Rainmaker Sword, and it slowly spread across the entire body of the spear.

"...!!" Chi Jixing's already bulging eyeballs instantly became bloodshot.

The red spear was made of an abyssal meteorite that was regarded as one of the strongest materials in the universe, but it was actually broken like this. What sort of existence was the sword in Yu Wuying's hand?

Right at this moment, the empty space in the starry sky a hundred kilometers away behind Chi Jixing suddenly distorted and blinding starlights poured out through the cracks, forming a river of stars.

"The Sea of the Stars!" Jiang Taiyu and Kong Hui exclaimed in unison upon seeing this.

Swoosh!

All of a sudden, Chi Jixing seized this chance to push Yu Wuying away and rushed to the Sea of the Stars.

"All of you will die horribly sooner or later!" Chi Jixing's voice echoed as he disappeared into the Sea of the Stars...

Chapter 1560 Strange Phenomenon

By the time Yu Wuying was about to chase after Chi Jixing, the latter had disappeared entirely into the Sea of the Stars. She could only stare at the dazzling river solemnly.

Kong Hui and Jiang Taiyu came up and looked at the Sea of the Stars.

"There should be the others beside Chi Jixing. If their strength is roughly the same as his, I'm afraid we're in trouble now." Kong Hui said solemnly.

Compared to the other regions, the Eastern Divine Region was relatively weak. Once other Devil God Emperors like Chi Jixing came at the same time, the consequence would be unimaginable.

Jiang Taiyu looked at Kong Hui and asked. "Your injury hasn't recovered yet?"

Kong Hui nodded admittedly. "I have been in a slumber these years, but my injury hasn't improved much. The Primal Chaos power is no different from a curse."

During the Great War in the past, Kong Hui was severely injured by the Primordial God Tribe's people, and he tried to recover since then, but it was nowhere near a complete recovery.

Meanwhile, Jiang Taiyu was a lot better. He used the power of the Eternal River, the exclusive divine treasure of the Eternal River God Realm, to help in recovery. Moreover, his injury was much lighter than Kong Hui's. After spending tens of thousands of years inside the river, he had recovered at least eighty percent of his peak state.

Unfortunately, he still couldn't remove the residual Primal Chaos power inside his body.

"Only if Master is here. He must have a way to deal with it." Kong Hui sighed softly.

Jiang Taiyu went silent. Their master, the Beyond Heaven King, was no longer here, and whether his successor could succeed his power completely was still in doubt. He didn't know what he should do in the future.

Kong Hui turned to Yu Wuying and asked. "Should we notify others, Sister Yu?"

"Strange..." Yu Wuying suddenly said. Her eyes fixated on the Sea of the Stars while furrowing her brows.

Kong Hui and Jiang Taiyu were puzzled and observed the Sea of the Stars attentively.

"Wait. Where did the spatial storm go to?" Kong Hui suddenly realized something. Usually, the Sea of the Stars would appear with a powerful spatial storm, but he didn't see any of it here after the initial appearance.

"It's constantly expanding." Yu Wuying said. "It's likely to stay here permanently."

The expressions of Kong Hui and Jiang Taiyu changed drastically. They also saw the border of the Sea of the Stars was gradually expanding, devouring the scattering meteorites nearby bit by bit. If the Sea of the Stars kept expanding, it would inevitably pull all the stars in the Eastern Divine Region into it.

"What did Master say about it again?" Kong Hui frowned slightly. "He told us to stay away from it, right?"

"Master said we wouldn't survive once we go in. There were countless dangers inside." Jiang Taiyu recalled the Beyond Heaven King's words. "I had asked him about it privately, but his answer was vague. It was like he didn't want to tell us about it."

Kong Hui frowned deeply. "Let's find a way to stop it first. Otherwise, we won't have a place to stay."

As he spoke, he brought the golden bell, Shrouding Sky Bell, out and prepared to set up a restriction.

However, Yu Wuying suddenly stopped him. "No need to do it."

Kong Hui and Jiang Taiyu looked at her in puzzlement.

Yu Wuying didn't offer any explanation, but there was a strange light flashing across her eyes as if she had thought of something.

Kong Hui and Jiang Taiyu could only look at each other in confusion upon seeing this...

"So beautiful here." Yun Lintian looked at the sparkling curtain of moonlight above his head in amazement. He was currently walking on a bustling street inside the Divine Moon City.

After leaving the Mystic God Realm, Yun Lintian decided to follow Yue Chuntao back to the Moon God Realm as he needed a safe place to stay while waiting for the Sea of the Stars to appear.

At the same time, he wanted to talk with Yue Hua about past and future events.

The Moon God Realm had been closing its boundary since Hongyue, the Red Moon God Emperor, was "killed" in the previous Great War, and people who wanted to leave and enter must go through a strict checking process.

However, instead of more people leaving, most natives and foreigners chose to stay here because of its absolute safety. Even though they couldn't make a realm-crossing trade, they could live peacefully here at the very least.

"Wait until you see my place at the top of the Divine Moon Peak." Yue Chuntao curled her lips while her eyes kept looking for food on both sides of the street.

Yun Lintian nodded and asked. "By the way, how many men are there in your clan?"

"Not many." Yue Chuntao responded casually.

"Then how did you recruit people?" Yun Lintian asked curiously.

"Normally, we recruit anyone who could receive the moon's power. But as you know, the moon represents Yin energy. That's why most of our top practitioners are women." Yue Chuntao explained. "As for men like Yue Qi. They have something special, like a unique profound vein or physique."

"So, there's no married couple?" Yun Lintian asked further.

"There are some. But we don't choose people according to bloodline. Even if one day we have kids, they won't necessarily be the next Moon God Emperor." Yue Chuntao replied.

Yun Lintian was speechless during the latter part. This girl probably wasn't serious about it, right?

Yun Lintian hesitated briefly and decided to ask. "Then, how did you born?"

Hearing this question, a touch of sadness appeared on Yue Chuntao's face as she answered. "No idea. Grandma said I was born from the moon's power."

"Sorry." Yun Lintian quickly apologized.

Yue Chuntao waved her hand and said. "It's nothing. I'm not sad because of having no parents, but rather wondering about it. Look. I have flesh and blood. How could I be born from the moon's power?"

"It's true." Yun Lintian nodded. "Speaking of this, I have no idea about how I was born as well. When I knew it again, I had already been in the Misty Cloud Sect."

Yun Lintian never bothered about this mystery before, but as he grew in power, he started to doubt it again. Who were his parents in this life? Where were they? And who was the mysterious woman that brought him to the Misty Cloud Sect?
