

## Myth Beyond 411

### Chapter 411 - Evidence?

Ji Yu hesitated briefly and replied honestly. "Yes. Li Qiang, Liang San, and I come from the same city. The relationship between our families isn't that good. The two of them kept harassing me since I was young. However, compared to Liang San, Li Qiang is worse. In order to force me, he had deployed countless underhand means on me. Thankfully, I managed to avoid them until now."

Listening to this point, Yun Lintian immediately understood everything. The woman in Liang San's words was no other than her.

For fearing Yun Lintian didn't believe her, Ji Yu quickly added. "Because I'm not good at fighting. The moment I landed my feet on the ground, I didn't hesitate to use a conceal talisman Master Gu gave me and hide in the place. After that, I saw Li Qiang chasing Liang San in the distance. Liang San is well known for his speed, but Li Qiang can easily follow him. I immediately knew that Li Qiang was a werewolf."

Yun Lintian's eyes flickered slightly before saying. "Very well. I believe in you. Now, I want you to vote for Zhao Yebai. He's a white-robed man in the three o'clock position of yours. Can you do it?"

Ji Yu was startled for a second as she didn't understand why Yun Lintian targeted Zhao Yebai instead of Li Qiang. However, she didn't want to make him angry and quickly responded. "No problem. I will vote for him."

Yun Lintian retracted his gaze and turned to Lin Xinyao. "Currently, I can identify at least four werewolves. One is Li Qiang from the Starlight Hall, and the rest is Zhao Yebai and two people who chased after Sister Yang and Miss Hua... And I am pretty sure Wang Jue is a werewolf."

Lin Xinyao listened to Yun Lintian and thought for a moment before replying. "If that's the case, we should vote for Wang Jue first. He's the most dangerous person here."

Yun Lintian glanced at the nine women behind Lin Xinyao and said. "Including me, we only have eleven votes. It's not enough to get Wang Jue on trial. Besides, we don't have evidence. It's better to get rid of Zhao Yebai first."

Lin Xinyao went silent. She glanced at the crowd briefly and stepped forward. "Fellow villagers and doctors, please hear me out. I have encountered three werewolves previously. They are Zhao Yebai, Gui Zu, and Qiao Fan from the White Feather Sect. I can swear on my Frozen Moon Palace to guarantee what I said is absolutely true. I believe everyone knows what to do. We will start with Zhao Yebai first."

Her appearance instantly attracted everyone. Those who were villagers and doctors fully believed in her words right away. After all, Lin Xinyao dared to swear that the Frozen Moon Palace was not something anyone could make a joke about.

"Ridiculous! I know my White Feather Sect and your Frozen Moon Palace don't get along well recently, but does it necessary to unreasonably flame me like this? Honestly, I didn't expect Fairy Lin to have such an unscrupulous character!" At this moment, Zhao Yebai stepped forward and shouted loudly. He put on an aggrieved expression, and his voice was filled with uncontrollable anger and sorrow.

Yun Lintian had to give Zhao Yebai a thumb up for his excellent acting. Whether it was his expression or his voice, everything was on point. At the same time, he was surprised by Lin Xinyao's action. He admitted this method of her was effective, but it could fire back at any time if she lacked evidence.

It was as Yun Lintian had thought. Zhao Yebai was aware Lin Xinyao had no evidence. He seized this chance to ride on the momentum. "Everyone thinks about it. Don't you think it's ridiculous that three werewolves appear on my sect at the same time? Seriously? Out of twenty werewolves and three happen to be us? It's too unbelievable, no matter how you look."

Zhao Yebai's statement wasn't entirely unreasonable. After all, in common sense, the chance of three werewolves appearing in the same group of people should be meager.

Undoubtedly, his words significantly impacted the villagers' and doctors' confidence. Especially when they saw Lin Xinyao remain silent. As much as they were willing to believe in Lin Xinyao, it was difficult for them to make a decision confidently as before.

Yun Lintian had expected this, but he chose to remain silent while observing people's expressions. Except for Wang Jue and Li Na, everyone else had either an agitated or uncertain look on their faces, making it difficult to discern their roles just by looking.

Zhao Yebai glanced at the crowd and secretly smiled in his heart. These people were so easy to manipulate.

"That's right. Do you have evidence, Fairy Lin?" Qiao Fan felt the situation was in his side's favor. It was the best time to put more pressure on the crowd.

Lin Xinyao stood silently without a word. No one knew what she was thinking right now.

As Zhao Yebai was content, Yang Mengli suddenly took a step forward and said coldly. "Evidence? Of course, I have one."

Everyone's eyes immediately focused on her and waited for her further explanation.

Hearing this, Zhao Yebai's eyes narrowed and tried to recall whether he had left any evidence behind. However, no matter how he thought, he couldn't think of anything that could be used as evidence.

Yang Mengli glanced at everyone and said. "Junior Sister Hua and I were chased after by Gui Zu and Qiao Fan the moment we were sent away. Afterward, we managed to escape from them but got ambushed by Zhao Yebai later. If it wasn't because of Senior Sister Lin, we would have been dead by now."

She paused for a moment and turned to Zhao Yebai. "Do you think you are smart? Sorry, I have secretly recorded everything.." Following that, she took out an purple imaginary stone and activated it in front of everyone.

Chapter 412 - Counting Vote

The expressions of Zhao Yebai, Gui Zu, and Qiao Fan instantly changed when they saw the imaginary stone in Yang Mengli's palm. Unfortunately, they couldn't do anything to prevent her from activating it.

With a buzz, a curtain of purple light appeared in front of everyone. A scene where Gui Zu and Qiao Fan rushed toward Zhao Yebai excitedly was displayed on it. Everyone could hear the three of them admit they were werewolves through the content. Not to mention the abnormally high power they had shown. There couldn't be more apparent than this.

Instantaneously, the villagers and doctors looked at Zhao Yebai while silently confirming their votes in their minds.

Zhao Yebai's face became ugly. This was entirely out of his expectation. He had clearly checked on Yang Mengli back then and found nothing unusual. How did she manage to do it without him knowing?

It was not only him, but Yun Lintian also unaware of this. Yang Mengli's intelligence could not be underestimated at all.

Yang Mengli smiled coldly and asked. "What now, Zhao Yebai? Are you going to quibble again? Everyone here is not a fool. They wouldn't easily get fooled for a second time."

Yang Mengli's remarks served as a warning for the villagers and doctors. If they still chose to believe in Zhao Yebai, they would be completely beyond stupid.

"This is a lie! You made this up by yourself. Everyone, don't be fooled by her." Zhao Yebai's mind was in a mess. If he hadn't said anything at this moment, he would undoubtedly get trial soon and end up losing his life.

"A lie?" At this moment, Hua Wanru suddenly came forward. She pointed at the purple imaginary stone on Yang Mengli's palm and continued. "Take a good look at it. Is this an ordinary imaginary stone?"

Everyone carefully looked at the imaginary stone, and someone with knowledge quickly shouted. "That's the Moon Imaginary Stone. It cannot be destroyed or trampled. Let alone forging a false image onto it!"

No doubt about it. Everyone didn't question whether it was true but turned to look at Zhao Yebai as if waiting to see what he was going to say now.

Zhao Yebai's face turned pale. He knew he was finished now.

"Since everyone has finished with your vote, I will announce the result now." Before Zhao Yebai could say anything, Hongyue clapped her hands and said loudly.

She scanned the crowd with a playful smile until her gaze stopped at Zhao Yebai, causing the latter's heart to skip a beat.

"Congratulations to Mister Zhao Yebai. You are the most voted person by a total of forty-seven votes. And the second rank is Mister Yun Lintian, who is accounting for twenty-seven votes." Hongyue announced. "Please welcome Mister Zhao Yebai to the stage."

As her voice fell, Zhao Yebai's entire body was instantly enveloped with an irresistible force. In the next moment, he involuntarily flew toward the lynching pole and landed before it. No matter how he exerted his strength, he couldn't break free from the force around him and could only stand there honestly.

While everyone paid attention to Zhao Yebai, Yun Lintian was pondering how he got twenty-seven votes. Out of seventy-four people in this place, twenty were counted as werewolves, and the rest were villagers and doctors. That meant seven people on his side had voted for him... Who were they?

Lin Xinyao, Yang Mengli, and Hua Wanru were also aware of this. They stared at the crowd attentively, trying to find some clues through their expressions. Unfortunately, they were unable to find anything in the end.

"You're lucky this time." Suddenly, Wang Jue's voice rang out in Yun Lintian's mind.

When Yun Lintian turned his attention to Wang Jue, he saw the latter smile coldly at him while making a cutting-throat gesture. Seeing this, Yun Lintian didn't have any reaction and turned his head to Zhao Yebai.

Wang Jue was furious when he saw Yun Lintian ignore him, but he couldn't do anything at the moment.

"You have one minute to defend yourself. You can start now." Hongyue crossed her arms before her flat chest while looking at Zhao Yebai interestingly.

Zhao Yebai's face flushed red in anger. Since it reached this point, he didn't have to hold back anymore. He turned to look at Wang Jue and roared. "Hurry up and think of a way to help me!"

The crowd followed Zhao Yebai's gaze and saw Wang Jue standing there. Listening to Zhao Yebai's words, without a doubt, Wang Jue was definitely a werewolf.

Wang Jue frowned while scolding Zhao Yebai inwardly. His face turned cold as he said. "Zhao Yebai, if you want to die, you can go by yourself. What's the point of flaming me?" He paused for a moment and turned to Yun Lintian. "Is he telling you to do it?"

Immediately, the crowd turned to look at Yun Lintian in doubt. It was at this moment; they remembered Yun Lintian was ranked second on the voting... Why did he get so many votes?

Facing everyone's doubtful gaze, Yun Lintian remained silent with no intention of defending himself since it was unnecessary.

However, Hua Wanru was different. She couldn't tolerate this and said aloud. "What's with that gaze of yours? It is clearly the werewolves trying to get rid of Brother Yun." She coldly swept her gaze over the crowd and continued. "Don't let me know who are the seven people that voted for him. Do you think you can survive by joining the werewolves' side? Heh, stupid."

Hearing this, the crowd instantly realized that was the case. They glanced at each other vigilantly, trying to find who the traitors were.

While everyone was looking at each other, they heard Zhao Yebai roar madly. "Shut up! I can tell everyone clearly. Wang Jue is a werewolf. He makes himself a leader and tells us to vote for Yun Lintian. Because of what? Of course, because he is afraid of him. All the villagers and doctors listen to me. If you want to win this game, you have to protect Yun Lintian. He's your only hope to deal with Wang Jue."

Yun Lintian and Lin Xinyao were surprised upon hearing this. What did Zhao Yebai try to do by suddenly exposing Wang Jue? Invoking sympathy?

## Chapter 413 - The Passionate Zhao Yebai

Wang Jue's face was instantly gloomy. His eyes were overflowing with killing intent as he glared at Zhao Yebai. "You better shut up. Otherwise, I don't mind killing all of your juniors."

Facing Wang Jue's threat, Zhao Yebai did not fear in the slightest. He sneered. "Like I care about them. I would leave this world soon, anyway. On the contrary, you better take care of yourself first. If you can't kill more than twenty people in the next round, it will be you who stand in my place... What a pity. I don't have a chance to see your face at that time."

The crowd went completely silent. They thought Zhao Yebai would plead for his life when he started asking Wang Jue to help him, but he suddenly changed his mind and chose to tear Wang Jue's face. This kind of change was too confusing.

Wang Jue was so furious that his face flushed red, but he didn't dare to make any move under Hongyue's eyes. He took a deep breath to calm himself down and said coldly. "Fine! You choose this yourself." He then turned to look at the White Feather Sect's disciples and said further. "Did all of you hear it? He doesn't care about your life and death at all. Why don't you join my side? I can guarantee your life."

Zhao Yebai suddenly laughed wildly. "Hahaha! Wang Jue, oh Wang Jue. Do you think everyone is stupid like you? There can be only one side to win the game in the end. What's the point of joining your side? Voting a fellow villager and committing suicide later? Hehe. Compared to your brother, you are miles behind. I'm curious now. Don't tell me you are a bastard?... That's right! You must be! Hahaha!"

Zhao Yebai's mad laughter seemed to penetrate everyone's soul. They were both shocked and fear.

Meanwhile, Hongyue looked at the scene interestingly. To her, a human showing their true nature was the most exciting thing to watch.

"You!" Wang Jue, who had calmed down a moment ago, erupted in anger again. He pointed at Zhao Yebai while his whole body trembled.

A wicked grin appeared on Zhao Yebai's face as he said. "Judging from your reaction, it seems I am correct. Hahaha! It turns out you are a bastard of the Wang clan. No wonder, no wonder. You don't have the demeanor of the top young master at all."

"Shut up!" Wang Jue roared and sent out a palm print toward Zhao Yebai. However, it instantly dispersed halfway to the target.

Hongyue glanced at Wang Jue and said coldly. "Since when it's your turn to intervene my affair?"

Wang Jue regained his sense and hurriedly bowed his head. "My apologies, Princess Hongyue. This junior had failed to control my emotion for a moment."

Hongyue snorted and turned to Zhao Yebai. "You have thirty seconds left."

Zhao Yebai gave Wang Jue a sneer and turned to Lin Xinyao. "Fairy Lin. I know I have committed an unforgivable crime to your friends, but please save my fellow sisters and brothers. I beg you."

At this moment, all the nine White Feather Sect's disciples looked at Zhao Yebai with complicated feelings. They thought he wouldn't care about them, as he said.

Lin Xinyao did not have any reaction. She merely glanced at Zhao Yebai and remained silent.

Zhao Yebai believed Lin Xinyao would definitely help his juniors even though she didn't say anything. He then turned to Qiao Fan and Gui Zu. "It's up to you whether you want to surrender or keep killing people. I hope that you don't hurt your fellow sisters and brothers."

Gui Zu and Qiao Fan didn't know what to say at the moment. Their faces were unsightly when they thought of their fates.

Hearing this, Wang Jue interjected. "Heh. What can they choose? They are werewolves and destined to be everyone's enemies. Even if they don't kill their friends, do you think these people will spare them?"

Listening to this, Gui Zu and Qiao Fan immediately lowered their heads. No one knew what they were thinking.

Zhao Yebai ignored Wang Jue and shifted his gaze to Yun Lintian. "I've heard your name before. Although I haven't personally witnessed your strength with my own eyes, I believe you are what the rumors said. I'm not trying to make myself look good, but please help everyone out. I believe you are the only one who can do it."

He swept his gaze over the crowd and said. "I just want to remind everyone of one thing. Our fates aren't in our hands since this Hongyue appeared. She's the true enemy of everyone here." Following that, he closed his eyes, waiting for the judgment.

Hongyue's brows raised slightly, and a playful smile appeared on her face. "Hoho. You are quite bold, huh?" She looked at the crowd and said. "Alright, it's time. Please confirm your vote."

The crowd glanced at each other with uncertainty on their faces. They couldn't come up with a decision at the moment. On the one hand, Zhao Yebai was a werewolf. No one knew what he would do next if he could survive this time. On the other hand, Zhao Yebai's passionate speech didn't seem to be fake. Even the death door was standing before him, he still cared a lot about his people. He didn't deserve to die like this.

"What should we do?" Lin Xinyao sent a sound transmission to Yun Lintian. She was clearly affected by Zhao Yebai's words.

Yun Lintian glanced at her expressionlessly. "What? You really believe him?"

Lin Xinyao didn't know how to answer, but the hesitation in the depth of her eyes explained everything.

Yun Lintian smiled faintly and said. "He's obviously someone who knows how to play with people's minds. I can't believe a beloved disciple of Palace Master Han has actually believed this... You can decide this yourself."

Yun Lintian then closed his eyes, ignoring everything. He had to admire Zhao Yebai's method. His ability to grasp people's minds wasn't ordinary at all. This guy first brought a shock to everyone and then reversed it, trying to invoke their empathy.. They were unknowingly led by the nose by him from the beginning to the end.

#### Chapter 414 - The Result

A while later, everyone came to a decision and silently confirmed the vote in their mind.

Hongyue glanced at the crowd and clapped her hands. "I'll announce the result now."

Except for Yun Lintian and the werewolves, everyone looked at Hongyue while holding their breath.

"The result is...." Hongyue deliberately dragged his voice, making the crowd uneasy. "Guilty! The votes are so close, thirty-eight to thirty-six."

When the result came out, everyone glanced at each other, and some of them couldn't hide the sadness on their faces. They were clearly voting for Zhao Yebai to survive.

Yun Lintian opened his eyes and scanned the crowd briefly before turning to Zhao Yebai. He then saw the latter's expression was ugly beyond words. Seeing this, Yun Lintian curled his lips and said nothing.

Hongyue nodded her head in satisfaction. She wanted this kind of result and couldn't wait to see what would happen in the next round.

She stepped forward to stand beside Zhao Yebai and said to the crowd. "Now, let the show begin!"

When Hongyue snapped her fingers, a terrifying force instantly enveloped Zhao Yebai, bringing him to the air before the lynching pole. In the next moment, the rope magically tied around his neck.

Before Zhao Yebai could say anything, the surrounding force suddenly disappeared, making his body fall down. The rope around his neck immediately tightened up, strangling him fiercely.

Zhao Yebai struggled with every possible way he could think of, but he couldn't do anything. All of his profound energy was entirely sealed up. He was no different from a mortal now.

The crowd watched Zhao Yebai grunting miserably with pale faces. They felt chills running down their spines, imagining if it were them who replaced Zhao Yebai. Some turned their heads away, refusing to see the cruel scene, while some still looked at it with gusto.

Zhao Yebai grew weaker as time passed. From struggling fiercely to convulse a few times. A moment later, he took his last breath and completely stopped. His eyes were bulging, rolling upward while his tongue stuck out, looking so miserable.

Absolute silence descended. No one dared to utter a sound. Fear, grief, and joy. Each one of them had different moods.

"Hehe. Died well." Hongyue's giggle broke the silence, causing everyone to look at her fearfully.

They now remembered what Zhao Yebai said before. The true enemy was this young maiden in red in front of them... But what could they do? Everything seemed to be in her grasp. To live or die. Everything was in her hands.

Hongyue licked her lips playfully and said to the crowd. "That's it for today. I hope you all struggle more in the next round. Hehe. Now it's time for you to go back."

As she waved her hand, everyone was instantly shrouded with white light and disappeared from the place. Like the last time, Yun Lintian was the last one to be teleported away. This time he heard Hongyue say. "You're too boring. This time, I hope you won't disappoint me again."

Yun Lintian stared at Hongyue coldly while his vision gradually turned white. In the next breath, he found himself standing on the endless snowfield once again.

The first thing he did was scan the surroundings and find his current position. However, when his Spiritual Sense spread out, he immediately detected a few people circling around him.

Among them was a familiar face, Li Na. At this moment, she seemed to perceive someone watching her. She quickly spread her Spiritual Sense out and discovered Yun Lintian.

Her face immediately turned solemn. As much as she wanted to kill him, she was well aware she wasn't his opponent. The best decision she could make now was to stay away from him.

However, before Li Na could move, Yun Lintian's voice suddenly rang in her mind. "Where are you going, beauty? Why don't we reminisce about the past together?"

Li Na was so furious, but she was helpless against him. Until now, she still couldn't figure out how her seductive art was ineffective on him. The only reason she could come up with was that Yun Lintian's mental power was far stronger than her, which she found ridiculous.

As one of the Red Lotus Dancing Hall Master's successor candidates, she spent her entire childhood training her soul. Her current mental power was equivalent to the peak of the Heaven Profound practitioner's. Apparently, it was still weaker than Yun Lintian's. How could he practice his soul?

While Li Na was sluggish, Yun Lintian constantly executed Shadow Step and arrived a few meters away. Even if Li Na wanted to escape, she couldn't do it now.

"What's wrong? Speechless by my handsomeness?" Yun Lintian teased.

Li Na turned around, gritting her teeth with hatred. "I didn't know before you were this narcissistic."

Yun Lintian glanced up and down at Li Na's good figure. He recalled the comfortable sensation he had when he molested her. For a while, he wanted to feel it again.

Noticing his rude gaze, Li Na's body trembled in anger. She suppressed her emotion and said. "Wait until nighttime. I will definitely make you pay!"

Yun Lintian curled his lips. "Don't pretend. I know you're not a werewolf. If I guess correctly, you should be a doctor."

Li Na's pupils shrank slightly. Her mind spun rapidly, trying to figure out how Yun Lintian knew about it.

"Want to know why I know it?" Yun Lintian pointed at his cheek and said. "Come on. Give brother a kiss here, and this brother will tell you."

"Dream on!" Li Na shouted angrily. At the same time, a powerful mental power was exuding from her, going straight at Yun Lintian's mind.

"When are you going to learn?" Yun Lintian chuckled and released his mental power.

Instantaneously, their power collided with each other fiercely, and it was Li Na who lost in the battle. Her body shook as she spat out a mouthful of blood before falling onto the ground.

Yun Lintian slowly walked toward her, step by step, with a playful smile on his face. "Can we have a good talk now?"

Chapter 415 - Cooperation

Li Na suppressed her injuries and looked at Yun Lintian with hatred. She had never suffered like this since she was young. Those so-called geniuses on the Central Continent couldn't even count as a thing in front of her, yet she was humiliated again and again in this tiny place. Where did this monster come from?

Yun Lintian raised his hand to protect his heart and said pitifully. "Don't look at me with that face, okay? You hurt my heart, you know?"

Seeing this, Li Na was so furious to the point she wanted to vomit blood again. This bastard was too good at angering people. She tried to calm down and said coldly. "What do you want?"

"Tsk, so boring." Yun Lintian clicked his tongue in dissatisfaction. He put the playful act away and said calmly. "Since you are not a werewolf, why don't you cooperate with me?"

"Dream on!" Li Na snorted coldly.

Yun Lintian curled his lips and took out a set of chairs and table. He gently lifted Li Na up from the ground with his profound energy and placed her on the chair while he was sitting opposite her. Following that, he took out a pot of tea and two teacups, skillfully brewing the tea, and poured a cup for her.

Li Na did not touch the teacup but kept staring at Yun Lintian.

Yun Lintian wasn't in a hurry to talk. He leisurely enjoyed the tea for a while and said. "Presumably, you have lied to Wang Jue that you are a werewolf. What would happen if he knew you were not?"

Li Na frowned and responded coldly. "Are you threatening me?" She thought Yun Lintian was trying to blackmail her by telling this to Wang Jue.

Yun Lintian put the teacup down and chuckled. "I can simply pinch you to death now. Do I need to blackmail you? You have no bargain here... Don't think that your one vote is precious. I will just kill one more werewolf to make up for that. What's more, killing you is benefits me better. Like you are going to help the villager's side anyway."

Li Na's eyebrows involuntarily knitted together. As Yun Lintian said, she was basically useless right now. She couldn't figure out why Yun Lintian wanted to cooperate with her.

Yun Lintian took another sip of tea and said. "I don't know what's your plan on fooling Wang Jue. Maybe you think you can secretly get rid of the werewolves later. However, you have no idea about your biggest mistake at all."

"Mistake?" Li Na subconsciously repeated.

Yun Lintian leaned back slightly and said. "What if I tell you the werewolves can feel each other's presence?"

Li Na's complexion changed drastically. Her eyes opened wide as she stared at Yun Lintian with incredulity. Several thoughts flashed across her mind. It was no wonder Wang Jue seemed to act perfunctorily toward her when they met last time. It turned out he discovered her lie a long time ago.

Yun Lintian calmly waited for her to figure out the situation while spreading his Spiritual Sense to check on the surroundings. Earlier, he saw several people around this place, and now they were still lingering around as though they were waiting for something.

At the same time, he concentrated his mind to find a trace of his silver needle in Li Qiang's body. In the next moment, a smile appeared on Yun Lintian's face as he discovered Li Qiang wasn't far away from him. What he needed to do right now was wait for Li Qiang to reunite with other werewolves.

After understanding her situation, Li Na took a deep breath and asked. "How did you know I was a doctor?"

Yun Lintian smiled faintly. "Actually, I'm not confident about it. Everything is solely based on my guess. Back then, when Zhao Yebai's identity had been exposed, I saw you take a glance at him with a surprise. Especially when you looked at Gui Zu and Qiao Fan. Your face told me everything you have no clue about their identity.

"As for why I can guess you are a doctor. It's easy. Even though you are untalented, you aren't that stupid enough to get close to Wang Jue without having insurance. There's nothing better than the doctor's ability. Am I correct?"

Li Na silently stared at Yun Lintian, whose body brimmed with confidence. It was at this moment she understood why Wang Jue and even Wang Jun had suffered in his hands. Their intelligence was clearly a world apart.

When she thought of her actions in the past, she felt it was incredibly ridiculous. Calling Yun Lintian trash and overrated was the most foolish thing she had done.

A while later, Li Na was completely calmed down. She raised her head slightly and asked. "Why do you want to cooperate with me? You should know that the relationship between Wang Jue and I aren't ordinary. I can betray you at any moment."

Yun Lintian stared straight into her eyes and said. "Do you want to hear the truth?.. Well, the truth is it's a pity for you to fall here, and I don't want to get into trouble with your Red Lotus Dancing Hall. From the beginning, our grudge isn't that deep. You were mainly driven by Wang Jue. There's still a chance for salvation."

Li Na snorted coldly. "You still dare to say there is no deep grudge between us after doing that to me?"

Yun Lintian spread his arms innocently. "You touched my little brother, and I touched your little sister. Aren't we even?"

Hearing this, Li Na ground her teeth together, trying to suppress the urge to slap this bastard's face. "Shameless!"

Yun Lintian laughed heartily. "Of course, if you think you are at a disadvantage, I can let you touch a few times."

Li Na felt her chest was about to explode from anger. It was better for her to stop arguing with him.

After laughing for a while, Yun Lintian smiled faintly as he said. "How about it? Do you want to cooperate with me now?"

Chapter 416 - Each One Has Their Own Plan

Li Na stared at Yun Lintian for a while before saying. "Do I have a choice?"

Hearing this, Yun Lintian reached his hand out and said. "Happy cooperation."

Li Na glanced at Yun Lintian's hand and slapped it away. "You better stop anger me first if you want me to cooperate with you."

Yun Lintian rubbed his hand as though he was in pain and said with a smile. "Alright. My bad."

"By the way, how did you know about my background?" Li Na asked curiously. Her identity was unusual. Not many people knew about it, yet Yun Lintian could say it confidently as though he fully understood her Red Lotus Dancing Hall. Could it be he comes from the Central Continent?

Yun Lintian didn't say anything and took out the token that Murong Xue gave him.

Li Na's pupils shrank instantly upon seeing this. She stared at the token in Yun Lintian's palm attentively for a while before saying. "I see. You have a connection with Endless Dream Dancing Hall. No wonder you could break my Red Lotus Art."

Yun Lintian looked at Li Na's enlightened expression and felt it was funny. However, he didn't intend to explain anything. He put the token away and said. "Let's talk about our cooperation. You have been with Wang Jue for a long time. What do you think he would do next?"

Li Na shook her head. "You are misunderstood. In fact, I have only known him for a year. If it wasn't for my Master's order, I would never approach him.... However, I can tell you one thing about him. He may look like a stupid and arrogant young master, but actually, he is someone who does things with caution. He won't do anything he isn't confident about." She glanced at Yun Lintian and continued. "It is just that you are always exceeding his evaluation of you."

"Really?" Yun Lintian said with disbelief. No matter how he looked at Wang Jue, he was nothing but a classic young master.

Li Na nodded. "Since he was suffered in your hand last time, he had prepared something to deal with you this time. I don't know what it is, but I guess it should be a kind of powerful treasure."

A thoughtful expression appeared on Yun Lintian's face. He nodded and said. "Thank you for telling me this. Now, let's talk about our plan."

\*\*\*

Somewhere on the north side of the mythical realm, Li Qiang was standing before Wang Jue with an anxious expression.

"You said he let you find other werewolves and inform him?" Wang Jue stood with his arms crossed while looking at Li Qiang with a frown on his face. Behind him were Gui Zu and Qiao Fan. After the death of Zhao Yebai, they had made a decision to join Wang Jue's side. After all, they were werewolves, and they still wanted to live.

Li Qiang hurriedly replied. "Yes, Young Master Wang. This bastard Yun Lintian planted a hideous poison in my body and forced me to do this. However, you can reassure. I haven't reported him once until now."

"Poison?" Wang Jue scanned Li Qiang's body carefully, but he didn't find the so-called poison at all. He thought for a moment and said. "I think you've been fooled by him. If there's poison on you, I would have found it by now."

Li Qiang was startled for a moment and quickly checked on his body once again. He had done this a few times before, but he couldn't find anything. However, he didn't dare take a risk and could only obey Yun Lintian's order.

"I was fooled by him?" Li Qiang muttered uncertainly.

Wang Jue snorted contemptuously and said. "Heh. Do you think he's that good? Everything about him is full of deceptions. All of you shouldn't believe in his words easily."

Li Qiang lowered his head and said nothing. Was Yun Lintian good? Of course, he was! Li Qiang had personally witnessed his power while he was under the night's buff. How could he believe in Wang Jue's words?... However, Li Qiang didn't dare to say anything.

Wang Jue suddenly waved his hand and said. "Since he wants you to report him, what are you waiting for?"

Li Qiang raised his head and asked confusedly. "Young Master Wang means...."

Wang Jue snapped his finger and said with a cold smirk. "Tell him that you found two werewolves here. When he comes... Hehe."

Li Qiang, Gui Zu, and Qiao Fan glanced at each other and saw traces of excitement in each other's eyes. They understood what Wang Jue was going to do next.

Immediately, Li Qiang took out the transmission jade given by Yun Lintian and said. "Senior Brother Yun, there are two werewolves with me here. What should I do next?"

\*\*\*

Yun Lintian was currently discussing his plan with Li Na. Suddenly, the transmission jade on his waist lit up, making him stop talking and pick it up.

Instantly, Li Qiang's voice rang out from the other side. "Senior Brother Yun, there are two werewolves with me here. What should I do next?"

Hearing this, Yun Lintian curled his lips and glanced at Li Na. "We have good news here." Following that, he put the transmission jade before his mouth and said. "Good. Send me a location. I'll be there in a while... Don't let them know about it."

Seeing Yun Lintian put the transmission jade away, Li Na put the teacup down and said. "Are you going to catch a wolf now?"

Yun Lintian poured himself another cup of tea and said with a mysterious smile. "Not just a wolf. It should be a lot of wolves."

Li Na stared at Yun Lintian as if she tried to find any flaw on his face. Now, she was curious where did he had come from. To her knowledge, there wasn't any powerhouse with the surname Yun on the Central Continent. Was he coming from the Eastern Continent? Or the Southern Continent?

While Yun Lintian was leisurely enjoying his tea, Li Qiang's side was full of excitement upon hearing Yun Lintian's response.

"Look, Young Master Wang." Li Qiang said while pointing at the transmission jade in his hand.

"I'm not deaf." Wang Jue scolded.. "Go ahead, tell him your position."

Chapter 417 - Using Formation Against Formation Master?

Putting the transmission jade away, Yun Lintian smiled faintly while looking at Li Na. "I have to go now. I wish you a smooth journey."

Li Na curled her lips and said nothing. She stood and walked away as if nothing had happened between them.

Looking at Li Na's disappearing back, Yun Lintian shook his head with a smile. He turned around, looking in the north direction, and muttered. "Time to do some exercises."

Following that, his body gradually blurred and disappeared from the spot.

\*\*\*

"He possesses a bizarre movement technique. I believe he would arrive here in an hour." Li Qiang said nervously after sending his position to Yun Lintian. He still remembered Yun Lintian's ghostly movement technique back then. Even with the help of the night's buff, he would be powerless against it.

Wang Jue glanced at Li Qiang with a disdain smile. "Let him come. The faster, the better." He paused for a moment and waved his hand. "The three of you stay here. I will arrange something. Remember when he appeared, stalling his time as much as you can."

Afterward, Wang Jue's figure flashed and reappeared in the distance. He seemed to hold on to something and carefully put it in the ground one by one.

Li Qiang, Gui Zu, and Qiao Fan looked at each other uncertainly. In fact, if it was possible, they didn't want to collude with Wang Jue at all. Unfortunately, Wang Jue was the strongest here among the werewolves.

An hour later, Yun Lintian arrived nearby Li Qiang's position and concealed himself under the snow. He secretly spread his Spiritual Sense out to check the surroundings and felt something was wrong.

As someone who had studied the formation art for years, he was naturally familiar with the concealing formation. The moment his Spiritual Sense detected something under the snow around Li Qiang, he immediately understood Wang Jue's plan. At this time, he wanted to curse Hongyue badly for disabling his Eyes of Heaven.

Before coming here, Yun Lintian had speculated that Li Qiang might contact Wang Jue. Mainly because he didn't believe Li Qiang had the gut to deceive again, and Wang Jue was the only one who could give him the courage to do so. Therefore, it wasn't entirely unreasonable to think that it was Wang Jue's proposal to lure him here.

Yun Lintian curled his lips. "So, this is your trump card, huh?"

He found it ridiculous thinking of this. Wang Jue should be aware that he was proficient in formation art, yet he still chose to use formation against him. Yun Lintian didn't know what to say anymore.

Nevertheless, Yun Lintian didn't dare to be careless in the slightest. Bit by bit, he slowly approached the nearest formation node and tried to crack it without alarming Wang Jue.

While Yun Lintian was busy cracking the formation node, Li Qiang, Gui Zu, and Qiao Fan looked around restlessly.

During this hour of waiting, Li Qiang had described Yun Lintian's famous deeds since the first time he entered the Profound Sky Divine City until he was smacked his head by him. The more Gui Zu and Qiao

Fan listened to him, the paler their faces became. They understood Zhao Yebai's words before his death now. This Yun Lintian was simply a monster!

"W-why don't we run?" Qiao Fan felt his legs were shaking. He didn't want to see Yun Lintian now.

Gui Zu also had the same idea in his mind. He had witnessed Lin Xinyao's might before, but Yun Lintian might be stronger than her. What was the point of staying here? Waiting for the god of death?

Li Qiang had a bitter smile on his face. "Where could we run to? You can only blame our bad luck for getting a werewolf role."

Suddenly, the three of them heard Wang Jue's voice ringing in their minds. "What are you doing? Spread out and find him. He should be nearby now."

The three startled for a moment and helplessly moved out in three directions.

In the distance, Yun Lintian had just successfully cracked the concealing formation and studied the formation node carefully. Judging by the runes on it, Yun Lintian was quite sure it was one of the most powerful Saint-rank killing formations, Inferno Prison. Once activated, the entire space within the formation would turn into a hell of fire. With Yun Lintian's current strength, he definitely couldn't resist it.

As expected from the Wang clan. Their resources are undoubtedly terrifying. Yun Lintian thought.

The Inferno Prison formation wasn't easy to create. Though it was the Saint-rank formation, even the early Monarch-level Formation Master might be unable to do it because of the rune's complication. And Yun Lintian himself was also unable to inscribe it with his current ability.

As Yun Lintian was thinking about modifying the formation node, he suddenly perceived someone approaching in his direction. He quickly moved into the concealing formation and closed it.

A moment later, Qiao Fan had appeared in Yun Lintian's line of sight. His appearance didn't seem to be a person looking for the enemy but rather looking for a way to escape. He would glance behind his back from time to time as though he were afraid of being caught.

"Hmph! I know it this bastard Wang Jue is unreliable." Qiao Fan muttered in dissatisfaction.

When he arrived a few steps nearby Yun Lintian, his expression suddenly became firm, as if he had just made a decision. Wind power quickly gathered around his body and sent him forward at unbelievable speed in the next moment.

Yun Lintian's mouth twitched slightly. He didn't expect Qiao Fan would run away just like that.

Without thinking further, Yun Lintian came out of the concealing formation and quickly chased after Qiao Fan. His body turned into a shadowy figure. A few breaths later, he had already arrived behind Qiao Fan.

Because it was still daytime, Qiao Fan's strength hadn't been buffed yet. Coupled with his mind solely focused on running, he was utterly unaware someone was lingering behind him like a ghost.

The moment he heard a bang sound in his mind, his vision had already turned black while losing all of his sensations...

Chapter 418 - Poor Wang Jue

Li Qiang and Gui Zu returned to the original position and glanced at each other while shaking their heads, indicating they didn't find anything.

"Where is Qiao Fan?" Li Qiang frowned and looked in the direction that Qiao Fan left.

Gui Zu's expression changed. He cursed. "That bastard has escaped!"

Li Qiang's face turned unsightly immediately. He quickly looked around and shouted. "Young Master Wang, Qiao Fas has escaped. What should we do now?"

In the far distance, Wang Jue heard this and couldn't help scolding. "These idiots." He glanced at the formation's eyes below his foot. He pondered before sending a sound transmission to Li Qiang and Gui Zu. "Yun Lintian could probably guess something and decide not to show up. You can contact him again. As for Qiao Fan, I will deal with him later."

As Wang Jue finished his sentence, the transmission jade on his waist suddenly lit up. He picked it up, and his eyes narrowed slightly. A cold smile appeared on his face as he received the connection.

"Young Master Wang, where are you?" Li Na's voice rang out from the other side.

"Me? I'm in the south direction. What about you?" Wang Jue replied.

"Is that so? What a pity. I'm heading toward north." Li Na's voice resounded again.

"North?... That's great. Our three fellow werewolves are over there. You can try to contact them. They are Li Qiang, Gui Zu, and Qiao Fan. It's better if you form a team with them." Wang Jue responded. His eyes flickered slightly as he stared at Li Qiang and Gui Zu in the distance.

"Understood." Li Na replied and hung up the connection.

"Li Na... You can't blame me for this. I have no choice but to kill you." A cruel sneer appeared on Wang Jue's face. His right foot was placed firmly on the formation's eyes while his Spiritual Sense spread out like a spider-web, trying to find Yun Lintian.

\*\*\*

"Now eighteen werewolves left." Yun Lintian patted his hands while looking at Qiao Fan's headless corpse on the ground.

At first, he wanted to make use of Qiao Fan, but he didn't want to take a risk anymore after experiencing the first night. The day and nighttime cycle were entirely controlled by Hongyue. What if she suddenly changed it to daytime after a few minutes of nighttime?

Yun Lintian produced a fireball and threw it on Qiao Fan's remains. Seeing it turned into ashes, Yun Lintian shifted his gaze in Li Qiang's direction and moved forward.

A while later, he arrived before the formation node earlier and secretly opened the concealing formation again. This time, Yun Lintian didn't intend to modify it but instead added another formation around it.

It took him ten minutes to finish his work. After confirming the newly added formation was working fine, he came out of the concealing formation and walked toward Li Qiang.

At this moment, Li Qiang looked at the transmission jade with hesitation. Earlier, he prepared to contact Yun Lintian, but he felt it would be too suspicious. Hence, he chose to wait for a while before making another contact.

Just as he was about to contact Yun Lintian, he suddenly heard Gui Zu's exclamation. "He's here."

Li Qiang's pupils shrank. He turned around and looked at Yun Lintian's silhouette nervously.

"Li Qiang?" Yun Lintian pretended to be surprised while walking toward Li Qiang. He glanced at Gui Zu and said. "You are... Gui Zu? Great! I don't have to waste my time finding you."

"S-senior Brother Yun, please spare me." Li Qiang said pitifully. However, he kept cursing Wang Jue in his heart... What is he doing? Why hasn't he made a move yet?

"What are you talking about? Am I that scary?" Yun Lintian grinned.

Li Qiang was speechless... If you are not scary, then who is?

"What's the meaning of this, Li Qiang!? Did you call him here?" Gui Zu raised his voice. Shouting at Li Qiang angrily while distancing himself.

"I can't help it." Li Qiang smiled wryly.

Yun Lintian suddenly chuckled and said. "Both of you have to practice more. Your acting is too stiff. Especially you, Gui Zu. You should have learned more from your Senior Brother Zhao."

The expressions of Gui Zu and Li Qiang changed instantly. They immediately realized Yun Lintian had long seen through their plan.

Without hesitation, Gui Zu released all of his power and rushed out like an arrow. He didn't care about Wang Jue anymore.

Seeing this, Yun Lintian smiled faintly. "If it's nighttime, then you may have a chance to escape....F\*ck!"

Before Yun Lintian could finish his sentence, the sky suddenly darkened, and the moon immediately appeared. Everything happened in a split second, causing Yun Lintian to curse aloud.

Gui Zu became ecstasy instantly. His speed soared rapidly. In a blink of an eye, he had appeared two kilometers away from Yun Lintian now.

F\*cking Hongyue! Yun Lintian ignored the dazed Li Qiang and chased after Gui Zu with Shadow Step.

A few seconds later, Yun Lintian managed to draw closer to Gui Zu and launched Dragon Fist.

Roar—

The mighty dragon's cry invoked Gui Zu's inner fear. When he glanced back, the virtual fire dragon had already appeared three meters behind him with its mouth opened wide.

Gui Zu's instinct kicked in. He twisted his body and swung his sword down at the incoming dragon. However, he had overestimated his power. He thought his current strength could deal with Yun Lintian's Dragon Fist with no problem, but it was actually insufficient.

The sword was knocked off his hand with a bang, and the virtual dragon ruthlessly hit his chest, causing him to fly backward and land on the ground.

Before Gui Zu could get up, Yun Lintian had already appeared in front of him and sent out another punch at his head. A split second later, all Gui Zu could see was endless darkness.

"Seventeen left." Yun Lintian glanced at Gui Zu's headless corpse and turned around, executing Shadow Step to follow Li Qiang.

At this moment, in the faraway distance, Wang Jue was stomping on the formation's eyes furiously. "What the hell happens!? Why is it not working?"

Poor Wang Jue, he had no idea that Yun Lintian had arranged a formation to block the Inferno Prison's energy flow...

Chapter 419 - Sixteen Left

It was as Yun Lintian had expected. Wang Jue had no clue about the formation art. He basically obtained the Formation Stones and arranged them according to the formation diagram he had. When it came to tweaking, he couldn't do it at all.

Wang Jue angrily took the formation diagram out to find the mistake he had made, but no matter how he looked at it, there shouldn't be any mistake at all. What exactly happened then?

He hesitated briefly and decided to retreat. In a few breaths, he retrieved more than half of the Formation Stones before fleeing upon seeing Yun Lintian take care of Li Qiang.

At this moment, Yun Lintian had caught up to Li Qiang and knocked him onto the ground. He stared at the latter and said expressionlessly. "I told you before, I have countless ways to make you regret if you dare to lie to me. I never thought your gut was so big. I wonder who gives you the courage? Wang Jue?"

Li Qiang held his abdomen with a grimaced expression while looking at Yun Lintian fearfully. "It's him."

Yun Lintian laughed mockingly. "He can't even take care of himself, yet you believe in him. There must be something wrong with your brain. No wonder you can't take that girl Ji Yu down after deploying so many means."

Li Qiang's complexion kept changing when he heard Ji Yu's name. In the end, he gritted his teeth and said. "Can you let me go? I won't dare to do it again. I-I am willing to make a soul contract!"

Li Qiang's eyes were full of pleading. Unfortunately, Yun Lintian didn't buy it at all. He shook his head and said. "Do you think you still have a value?"

Li Qiang's face was ashen instantly. His lips quivered a few times, but no word came out. A while later, he lifted his head and said. "I know I won't survive today. Can you do me a favor? Please tell Ji Yu that I am sorry for everything I have done to her."

Yun Lintian's brows raised slightly as he stared straight into Li Qiang's eyes. He then nodded his head. "Fine."

Li Qiang suddenly revealed a relieved smile and raised his palm, ruthlessly hitting his forehead. Instantly, his skull shattered, and he died on the spot.

Yun Lintian stared at Li Qiang's lifeless body for a full minute before sighing and throwing a fireball onto it. Was he pitying Li Qiang? The answer was no. Yun Lintian just felt sad about Li Qiang's misfortune a bit. His fate was always in Hongyue's hands from the start to the end.

Yun Lintian put these thoughts aside and turned around to discover several Formation Stones had disappeared. It seemed Wang Jue had run away by now.

He chuckled and said to himself. "This guy surely runs fast." Looking at the remaining Formation Stones, Yun Lintian smiled brightly. "At least he's still sensible to leave some benefits behind."

Following that, Yun Lintian quickly moved around and collected all the remaining Formation Stones. Although it might be difficult to use them, Yun Lintian could study them later.

After collecting everything, Yun Lintian patted his hands and pondered. "There are sixteen werewolves left. Combining with the seven traitors before this, there are a total of twenty-three votes on their side... Uhm... I have to find more werewolves as soon as possible."

Yun Lintian glanced in the east direction and quickly moved toward it.

\*\*\*

Boom!

The ground burst, and snow filled the air. Lin Xinyao flipped backward and landed safely while using the spear in her hand to help her stabilize herself. Her eyes were fixated on a tall man in the distance.

"It's indeed as the rumor said. Fairy Lin's profound strength can't be underestimated at all." The man said with admiration. He shook his hand, which was growing numb from the collision earlier, and raised a sword up again, preparing for the next move.

Lin Xinyao didn't say anything. She spun her spear and pointed at the man. Her eyes glowed with purple light, releasing an icy aura.

The two stared at each other briefly before their figures flashed and reappeared midway. The man's aura burst out, and his sword glowed with terrifying golden light as he slashed vertically at Lin Xinyao.

Meanwhile, Lin Xinyao had also released her aura to the maximum. Profound purple light shone brightly and formed into a spiral shape around her spear as she thrust forward.

Boom!

Their weapons fiercely collided with each other, but the impact did not send them away. They somehow managed to stabilize themselves and moved their hands once again.

Boom! Boom! Boom!

One after another, both of them kept attacking each other without a sign of backing down.

After reflecting Lin Xinyao's spear to the side, the man suddenly shouted loudly, and his entire body was instantly covered with golden light. Amidst a loud roar, he quickly took a heavy step forward and swung his golden sword down, aiming to cut Lin Xinyao's head.

The ground below him had immediately become shattered powder, and his sword let out an incredibly resonant scream. "Die!"

Lin Xinyao felt as though all the blood and profound energy in her body had been agitated. Her heart had also suddenly felt like it had shrunk. She had long discovered the man in front of her was proficient in the metal attribute, but she didn't expect him to master it to this point.

Lin Xinyao's brows sunk as she twisted her body to the side, causing her entire body to spin midair. At the same time, she released her icy profound energy to push her forward as she aimed her spear at the incoming sword.

"Moon Rising!"

A profound moon image appeared behind Lin Xinyao, followed by a bone-freezing aura that made the man's action become stagnate.

Boom!

Lin Xinyao's spear fiercely collided with the man's sword, and the impact immediately sent the man away like a broken kite.. The moment he tried to get up from the ground, the tip of Lin Xinyao's spear had already arrived before his face, leaving him no chance to avoid it.

Chapter 420 - Thunder Bead's Might

Puff!

Lin Xinyao's spear instantly penetrated the man's skull, reaping his life. The man's body kept twitching for a while before wholly stopping and falling onto the ground motionless.

Lin Xinyao retracted her spear and glanced at her bleeding arms. She heaved a sigh of relief and utilized her profound energy to stop the bleeding while looking around vigilantly.

She took out the transmission jade and contacted Yun Lintian. "I have finished one here."

A while later, Yun Lintian's voice rang out from the other side. "I got three here. So, there are fifteen werewolves left. I don't know how many villagers are left right now."

Lin Xinyao was taken aback for a moment and then realized it was nothing strange for Yun Lintian. She said. "I will look around at the south area."

"Alright. I am heading east right now. Take care." Yun Lintian responded.

Lin Xinyao put the transmission jade away and glanced at the corpse beneath her feet before freezing it and shattering it into ice powder.

\*\*\*

Yun Lintian put the transmission jade away and concentrated on searching the surroundings with his Spiritual Sense. A while later, he found a familiar face two kilometers away on his right. She was no

other than Hua Wanru. She was currently running from two men. With her speed, she would definitely be caught up in two breaths.

Without hesitation, Yun Lintian executed Shadow Step, heading to Hua Wanru's position.

"Where are you going?" The man clad in a green robe shouted while increasing his speed to catch up with Hua Wanru. His face was full of a greedy smirk as he rudely stared at Hua Wanru's rounded rear side.

Hua Wanru's complexion was pale as a white sheet. Her mind moved, searching for items in her storage ring. She locked onto a small golden bead at the corner of the storage ring's space.

Before coming here, her Senior had reminded her not to use it unless it was a life and death situation because the destructive force of this bead was too terrifying. It might easily harm an ally if she was careless.

Hua Wanru hesitated briefly before gritting her teeth and taking the golden bead out. She intentionally slowed her speed down, letting the two men draw closer.

"She's at her limit now." The man in green said excitedly.

Besides him, the man with a giant axe frowned slightly. He felt something was not right and said. "There's something wrong. Don't be careless."

As his voice fell, both of them saw Hua Wanru turn around with the golden bead in her hand. Before they could react, the golden bead had already shot toward them while glowing with lightning sparks.

"Shit!" The two men screamed in unison upon seeing this. Obviously, they knew what the golden bead was.

They halted their tracks and hastily turned around with all their might. Unfortunately, they could not outpace the golden bead. As they turned around, the golden bead had already arrived a meter away from them while releasing terrifying lightning force.

Zizzi...Boom!

The golden bead abruptly blew up midair, producing a horrible explosion that shook the entire area. Countless lightning tentacles were madly expanding out, burning the surrounding snow into white mist.

Without a doubt, the two men had turned into ashes in almost an instant by the explosion.

Meanwhile, Hua Wanru had been sent away several meters and landed heavily on the ground. Her entire body was filled with miserable burn wounds that almost reaped her life. Thankfully, she managed to preserve her breath in the end due to the high-rank armor she wore.

In the distance, Yun Lintian got up from the pile of snow and checked his body before looking at the destructive scene in amazement.

He had seen the whole process from the beginning. He was utterly baffled by the power of the golden bead that Hua Wanru took out. At the same time, he remembered he had obtained such a bead from Han Lou before entering the mythical realm.

Yun Lintian glanced at the twenty golden beads that were lying peacefully in his interspatial ring and muttered. "Good guy! All of you are so terrible."

Yun Lintian took a deep breath and hurriedly rushed to Hua Wanru's side. He quickly fed her a healing pill and used his profound energy to stabilize her wounds.

"Ugh..." Hua Wanru groaned painfully and opened her eyes. Her body tensed up when she discovered there was someone before her.

"Relax. It's me." Yun Lintian said and took out a clean robe to cover her.

Hua Wanru took a good look at Yun Lintian and heaved a sigh of relief after confirming his identity. She struggled to get up and said. "Thank you, Brother Yun."

Yun Lintian shook his head and said. "I didn't do anything at all... By the way, don't you know how powerful that golden bead is? Why are you so reckless?"

Hua Wanru nodded her head slightly and said helplessly. "I have no choice."

"Well, I didn't intend to blame you. It's just that you better make a good preparation before using it next time. Otherwise, what's the use of killing yourself along with the enemy?" Yun Lintian said softly.

"I know." Hua Wanru responded.

Yun Lintian looked around and didn't see any trace of the two men. He then said. "It would be a miracle if they could survive this... Now, there are thirteen left."

"Thirteen?" Hua Wanru was puzzled slightly.

Yun Lintian nodded. "I have killed three of them before coming here while Miss Lin got one."

Hua Wanru took a deep breath and said. "Then we are certainly winning this."

Yun Lintian shook his head. "The problem is that we don't know how many doctors and villagers left."

Hua Wanru nodded and said. "I'll ask my sisters first." Following that, she took out her transmission jade and contacted her fellow sisters.

After a while, Hua Wanru said. "Sister Yang and others are safe and sound. They have met a few villagers along the way. It should be around ten people."

"Ten? Then we should have around twenty-one votes." Yun Lintian said.

All of a sudden, Hongyue's voice rang out in everyone's ears. "Time up!" Following that, the sky gradually turned bright, and the moon faded away...
