

Myth Beyond 491

Chapter 491 - Sending Away

Principal Tian hurriedly replied. "The situation of our Northern Continent is not optimistic, Senior. Poison Valley has chosen our continent as their first target, and they have attempted to take over several times. We are trying our best to resist them, but it won't be long before they succeed."

Principal Tian paused for a moment and continued. "Mainly because there are a lot of third parties trying to fish out some benefits from this situation. We have no way to stop them."

"You mean those from the Central Continent?" The First Generation Frozen Moon Palace Master asked.

Principal Tian nodded solemnly. "Yes, Senior."

The scene was blanketed with silence for a while until the First Generation Frozen Moon Palace Master spoke. "When you leave this place, tell that Little Girl Han comes to see me. I have something to tell her."

"Understood." Principal Tian accepted the task readily.

The First Generation Frozen Moon Palace Master's voice resounded. "What about you? What's your plan?"

Yun Lintian thought for a moment and said. "This Junior has discussed with Principal Tian about it before, and we decided to send me to the Central Continent to hide the limelight for a while. The Northern Continent is my hometown. I will definitely come back stronger."

On the side, Principal Tian added. "Poison Valley has noticed his potential and put him on their death list. His current strength is not enough to fight them at the same time. So this Junior plans to send him there for further practice. I don't want to say this, but the environment in the Central Continent is much better than here. His progress would be several times faster than staying here."

"No need to say more. I understand it. It is a good choice to go there at this moment... How are you going to send him away?" The First Generation Frozen Moon Palace Master said.

Principal Tian replied. "I have prepared a ship for him to the Blue Sea Island. He could take a teleport formation over there to reach the Central Continent."

The First Generation Frozen Moon Palace Master thought for a moment and gave a suggestion. "It's too slow taking this route. I can activate the Grand Transmission Formation here. However, I need you to provide some Profound Stones."

Principal Tian became hesitant as he asked. "Wouldn't this alarm the Frozen Moon Palace, Senior?"

"No need to worry. The one I'm going to open is a secret one preparing for an emergency situation. No one knows about it except me." The First Generation Frozen Moon Palace Master responded calmly.

Hearing this, Principal Tian did not ask further and took out a thousand middle-grade Profound Stones. Suddenly, he felt a wave of force swept over his hand, and all the Profound Stones were immediately floated away and landed on the ground several meters away from the cave entrance.

A moment later, a streak of blue light flashed, transforming into a blue portal appearing above the ground.

At this moment, the First Generation Frozen Moon Palace Master said. "Go ahead."

Yun Lintian looked at Principal Tian and saw the latter nod his head, indicating there was no problem with the formation. He didn't say anything further and walked toward the portal.

Principal Tian seemed to think of something and hurriedly said. "Wait. Take this map." He flicked his hand, and a jade slip immediately flew toward Yun Lintian.

Yun Lintian grabbed the jade slip and said. "Thank you, Senior." He didn't say anything further and vanished into the blue portal.

After the blue portal disappeared, the First Generation Frozen Moon Palace Master suddenly said. "You made the right decision. He's indeed our hope to fight Poison Valley."

"This Junior believes anyone in my position would do the same." Principal Tian replied humbly.

"Your lifespan is about to come to an end. What's your plan?" The First Generation Frozen Moon Palace Master asked.

Principal Tian stroked his beard and laughed heartily. "What else I could do, Senior? Of course, I will remove all the hidden threats before leaving."

The First Generation Frozen Moon Palace Master went silent for a moment and praised. "You are worthy of being Tian Zuo's descendant. I wish you good luck."

Principal Tian smiled and said nothing.

"Is it true?" On the Profound Sky Ship, Han Bingling looked at Lin Xinyao opposite her with a solemn expression. She had been restless since she heard the news of Yun Lintian's death. It was hard to believe he would die like that.

Lin Xinyao was calm and composed, without any agitation. She took a sip of tea and replied. "It's true, Master. As I told you, the last stage was about mental fortitude testing. Perhaps he had something he feared or regretted deeply in his heart, and he could not overcome it."

Han Bingling's brows creased together. Even Lin Xinyao said this, she still couldn't bring herself to believe it. She leaned against the chair and sighed regretfully. "Ah... What a pity. He could become our helper against Poison Valley... It seems heaven is playing with us."

A moment later, she glanced at Lin Xinyao and asked. "By the way, why do I feel that you've changed?"

Lin Xinyao smiled faintly and said. "Maybe it has something to do with the unlocked seal in my body. Additionally, my strength has improved drastically. It is normal for my temperament to unknowingly change."

Han Bingling felt something was not right about Lin Xinyao, but she couldn't pinpoint out. Perhaps it was as she said. After all, practitioners' temperament was usually changing according to their strength.

"Did that Princess Hongyue tell you anything?" Han Bingling asked.

Lin Xinyao shook her head. "She only rewarded me by unlocking my seal and nothing more. It was like she didn't want to talk about the Divine Moon Clan."

Han Bingling stared at Lin Xinyao for a moment and let out a sigh once again. "Now the mythical realm is gone. I need to prepare a new training ground again."

Just as she was thinking about Lin Xinyao's words, she suddenly heard Principal Tian's voice, and her expression immediately changed afterward.

"I have something to do. You can stay here first, or you can choose to go back to the palace." Han Bingling said to Lin Xinyao and disappeared from the place.

A strange light flashed across Lin Xinyao's eyes briefly. She put the teacup down and looked at the group of white clouds floating outside through the window.. No one knew what she was thinking at this moment.

Chapter 492 - Han Bingling's Thought

"Disciple Han Bingling greetings Grand Ancestor." In front of the Eternal Frozen Cave, Han Bingling knelt on one knee and said solemnly. Her head lowered slightly with a highly respectful expression, contrasting to her usual playful demeanor.

The First Generation Frozen Moon Palace Master's voice resounded. "It's been a while since the last time we met. Your strength didn't seem to improve much in these decades."

Han Bingling trembled in fright. Her head drooped further as she hurriedly replied. "Disciple deserves to be punished."

The First Generation Frozen Moon Palace Master's voice became gentler. "It's been hard on you."

She had no intention of criticizing Han Bingling as she understood how difficult for a young girl like her to bear the Palace Master position. She said this because she wanted to remind Han Bingling to train more. After all, the enemy she was about to face soon was far stronger than the entire Frozen Moon Palace and Sky Throne Profound Academy combined.

Han Bingling was not a fool. She naturally understood what the First Generation Frozen Moon Palace Master wanted to tell her. She replied solemnly. "Disciple will work hard."

The First Generation Frozen Moon Palace Master was silent for a while before saying. "Little Boy Tian told me about the situation of our Northern Continent earlier. I summoned you here because I want to talk about this. What's your plan?"

Han Bingling quickly replied. "I have now asked someone to check on the Northern Sea Lord to see his reaction, and I have also deployed our Moon Guardians around the border. Right now, we are trying to remove the inland remnant of Poison Valley."

"Poison Valley always hiding its fangs deeply when they did things. This time, they showed up means they were really confident. Your plan is good but somewhat lacking. I don't believe they would reveal some flaws so obviously like this." The First Generation Frozen Moon Palace Master said. "Also, if you want to deal with them thoroughly, you have to go to their nest instead of blindly protecting our home."

Han Bingling's expression changed slightly. She asked uncertainly. "Grand Ancestor means...."

At this moment, a streak of blue light suddenly shot out of the cave and entered Han Bingling's body, along with the First Generation Frozen Moon Palace Master's voice resounded. "I grant you permission to use that artifact."

A brilliant light flashed across Han Bingling's eyes. She looked somewhat excited as she said. "Disciple swears to complete the task."

"Remember, if you see any of four lords. Just run. You are not their opponent even with the help of the artifact." The First Generation Frozen Moon Palace Master's voice was solemn.

"Understood, Grand Ancestor." Han Bingling responded with a serious expression.

"Do you know a boy named Yun Lintian?" The First Generation Frozen Moon Palace Master suddenly asked.

Han Bingling was taken aback for a second and hurriedly answered. "Yes, Disciple knows him." At the same time, she seemed to understand why Principal Tian was here. Perhaps he wanted to tell Yun Qianxue about Yun Lintian's death and happened to meet the First Generation Frozen Moon Palace Master.

The First Generation Frozen Moon Palace Master asked further. "I heard he's a rare genius. What's your evaluation of him?"

Although Han Bingling did not understand why she asked this question since Yun Lintian had already gone, she answered truthfully. "He's indeed a rare genius. In terms of knowledge and potential, no one comes close to him. Even those so-called God Child and Saintess of Azure Palace cannot be compared to him. Not only is he proficient in medical and formation profound art, but he is also unparalleled among his peers. He could even fight with the opponent with full two realms higher than his. I have never seen anyone with such a monstrous battle prowess like this before."

"He's that strong?" The First Generation Frozen Moon Palace Master was surprised slightly.

Han Bingling took a deep breath and replied. "Yes, Grand Ancestor. It's a pity that he had unfortunately passed away. Otherwise, our Northern Continent would have another peerless figure."

"Indeed." The First Generation Frozen Moon Palace Master said in an agreed manner. She changed the topic. "Have you considered finding a man? As I told you before, if you are willing to do dual practice, your strength would increase by leaps and bounds."

Han Bingling shook her head firmly. "I had never thought about it, Grand Ancestor." As she spoke this, Yun Lintian's figure suddenly appeared in her mind. Her rounded butt grew hot when she thought of his domineering action back then.

The First Generation Frozen Moon Palace Master laughed slightly. She seemed to see through Han Bingling's mind, but she didn't point it out... This Little Boy Yun is really interesting. He could even make a proud daughter of heaven like Han Bingling think of him.

An interesting idea flashed across the First Generation Frozen Moon Palace Master's mind. If Han Bingling could see her face, she would see her smiling evilly right now.

"Fine. I won't force you." The First Generation Frozen Moon Palace Master said.

Han Bingling heaved a sigh of relief upon hearing this. She was afraid her Grand Ancestor would force her to find a man. She thought for a moment and asked. "Grand Ancestor, what about Yun Qianxue? Did she know that her godson...?"

The First Generation Frozen Moon Palace Master interrupted her. "You don't have to worry about this. I'll personally tell her when she woke up."

Han Bingling sighed softly and said. "Understood." She paused for a moment and added. "By the way, Grand Ancestor. My disciple, Lin Xinyao, has achieved a great result from the mythical realm. Her strength has now reached the first level of Heaven Profound Realm. I plan to send her to Grand Ancestor. I don't know what Grand Ancestor thinks about this?"

"Oh? If I remember correctly, she is restricted by her seal. How did her strength increase sharply?" The First Generation Frozen Moon Palace Master asked curiously.

Han Bingling began to narrate everything about Lin Xinyao's experience in the Frozen Moon Mythical Realm.

After listening to this, the First Generation Frozen Moon Palace Master sighed softly. "Fate is truly amazing. I didn't expect there would be such a high-level figure hiding under my nose for all this time... You can bring her here. I'll take care of her from now on."

A smile appeared on Han Bingling's face. With this, Lin Xinyao's safety was guaranteed. She bowed her head and said respectfully.. "Disciple thanks Grand Ancestor."

Chapter 493 - Unknown Place

The blue light gradually disappeared from Yun Lintian's vision, and he immediately found himself standing on half-grasslands and half-jungle, with weeds running wild and short trees growing in a thicket.

As Yun Lintian surveyed the scenery, he could not feel the presence of or see any trace of any living beings nearby. The climate was warm and comfortable, and the smell of the air was somewhat better than any place he had been to.

The richness of profound energy in this place was at least twice the amount of the Northern Continent's. Yun Lintian was now certain he had arrived at the Central Continent.

"No wonder people from the Central Continent could easily reach a high level at a young age." Yun Lintian said to himself. With this intense profound energy, he believed that achieving the Saint Profound Realm before thirty years old wouldn't be a problem for him.

He took the map that Principal Tian gave him out and began to study it.

The Central Continent was vast, four or five times larger than the Northern Continent. There were countless cities, towns, and villages here. Just took a glance at Yun Lintian immediately felt dizzy.

He looked at it for a while and roughly remembered the general information of this continent.

Among these countless cities, there were only ten major cities located in every direction. The Divine Ancient Azure City was the most prosperous one. Its position was precisely at the center of the continent. As its name suggested, this city was naturally governed by the Azure Palace. The Jiang clan, Wang clan, and Long clan were all resided in this city.

"Where the hell is this place?" Yun Lintian put the map away and looked in confusion. He couldn't pinpoint his position on the map and could only try to find someone to ask about it.

Yun Lintian did not think about anything further. Instead, he concentrated on surveying his surroundings as he made his way forward along the gravel road with caution. He did not know what kind of place he had landed in, what kind of living creatures existed here... and if there were even any humans among these living creatures.

After he had walked a few kilometers, Yun Lintian suddenly felt the presence of living creatures. His brows twitched, and his steps slowed. As he neared the presences he felt, he soundlessly parted a cluster of high grass.

His gaze shot across the grass. In the middle of a small pond, he spied two young women bathing happily without caring about being seen by someone. Judging from their aura, they seemed to have strength at the Foundation Profound Realm, which slightly puzzled Yun Lintian.

Yun Lintian glanced at their body briefly and turned his gaze elsewhere, carefully checking the area around the pond. He soon discovered a mottled python around two meters long and about as thick as the mouth of a bowl hiding near a dense bush.

Yun Lintian's brows raised slightly. He could see that this python was at least the Spirit Profound Beast, and it kept staring at the two young women maliciously. If they were to attack by this python, undoubtedly, they would become its food.

Yun Lintian didn't want to be a busybody as soon as he arrived in the Central Continent, but he couldn't simply watch and do nothing. Anyway, he needed to find people to ask about his position.

Without thinking further, Yun Lintian decided to take action when the python launched its attack. Two breaths later, the python gradually approached the pond and prepared to attack the two young women as its head raised boldly.

"Th-that...!" One of the women with a little mole below her eyes pointed her finger at the python that had just appeared in her line of sight, stuttering. Her body seemed to petrify on the spot, did not know what to do.

"What's wrong, Sister Ya?... Ah!" Another young woman saw her good sister pointing at something behind her. She was puzzled and turned around. Upon seeing the python staring at them greedily, she immediately let out a shrill scream of fright.

The python was satisfied to see these two humans frightened by it. It immediately released power and lunged forward at the young woman nearby with its mouth opened wide.

"No!" The woman with the mole shouted in fright and tried to pull her sister back. However, the python's speed was too fast. Its giant mouth was almost reached her sister's neck now. It was impossible for her to pull her back in time.

Just as the python was about to bite the young woman's neck, Yun Lintian appeared in front of the python in a ghost-like manner. He sent out a simple punch, and the python's head was immediately broken into pieces.

Yun Lintian used his profound energy to wrap around the python's remains and threw them away before turning around to face the two women.

With a bright smile, he said. "Hello, two lovely sisters. My name is Mu Chen. May I know where this place is?"

The two women were stunned, looking at Yun Lintian without blinking. In the next moment, they came back to their sense and let out high-pitched screams while trying to cover their bodies.

"Ah! Y-you, turn around!" The woman with the mole said in panic and hurriedly dragged her sister onto the shore.

Yun Lintian touched his nose in embarrassment and turned around... The scenery was really white.

A while later, the woman with the mole had already put her clothes on. She pulled her sister behind her and asked cautiously. "Y-you can turn around now."

Yun Lintian turned around and smiled at them as though nothing had happened before.

The two women scanned Yun Lintian from head to toe with caution before the woman with the mole said. "Thank you for saving us earlier."

Yun Lintian waved his hand and said. "It's nothing... Can you answer my question now? What is this place called?"

The two women looked at Yun Lintian weirdly and replied. "This is a territory of the Rain Village."

"Rain Village?" Yun Lintian repeated with a frown.. He didn't seem to see this name on the map... But the word Rain had reminded him of Xia Yao, making him moody for a second.

Chapter 494 - Rain Village

While Yun Lintian was thinking, black clouds gradually gathered in the sky, accompanied by blowing wind, seemingly raining soon.

Yun Lintian was surprised and raised his head to look at the sky. The speed of the clouds was usually fast, nothing like a natural phenomenon.

"Oh no. We need to go back now." The woman with the mole exclaimed upon seeing this scene. She hurriedly grabbed a bamboo basket and pulled her sister, preparing to leave.

She looked at Yun Lintian hesitantly and asked cautiously. "Uhm... This brother, do you want to go back with us? I would like to repay your kindness."

Yun Lintian nodded his head without thinking. He had no idea where he was currently, anyway. It was better to follow them.

The woman with the mole smiled. "Please follow us."

At this moment, her younger sister tugged her sleeve and looked at the python's remains as though she wanted to take them away. However, she didn't dare to say it as it belonged to Yun Lintian.

The woman with the mole was embarrassed and did not know what to say at the moment. Judging from Yun Lintian's stance, he didn't seem to want them at all.

Yun Lintian saw through their thoughts and smiled. "I'll give them to you. They are useless for me, anyway... Let me help you."

Afterward, he waved his hand, and the python's remains were separated instantly, transforming into a bunch of material neatly lying on the ground. Yun Lintian took out some ropes, tied all the materials tightly, and said. "Let's go. I'll help you carry them."

The two women were fascinated by Yun Lintian's neat operation. When they regained their sense, they hurriedly bowed down and said sincerely. "Thank you, Brother Mu."

Yun Lintian waved his hand dismissively and picked all the materials up. "Lead the way."

The woman with the mole nodded and quickly led him toward Rain Village.

Along the way, Yun Lintian had learned these two women. They were blood-related siblings. The woman with the mole was Yu Xiaoya, and her younger sister was Yu Xiaolu. Their father was the Rain Village's head. This time, they came out to pick some herbs and dropped by this place to clean themselves.

What surprised Yun Lintian was that the strongest person in the Rain Village actually possessed strength at the peak of the Spirit Profound Realm. It was hard to imagine how they could survive in this place.

After walking for five minutes, Yun Lintian and Yu's siblings arrived at a simple village surrounded by wooden fences. There were roughly fifty households in this place. All the houses were built with ordinary woods. One thing in common among these houses was extended eaves, specially designed for rain.

Drip....

As they passed through the village's entrance, droplets of water gradually fell down and transformed into heavy downpours in the next breath.

Yu Xiaoya hurriedly brought Yun Lintian to her house, located in the innermost area of the village. This house was considered a large courtyard with a simple garden and a tall ginkgo tree on the side.

"Father, Mother, I'm back." Yu Xiaoya opened the door and shouted. She put the bamboo basket on a small table by the door and turned to Yun Lintian. "Please wait for a moment, Brother Mu. I'll prepare hot water for you."

Yun Lintian shook his head with a smile and said. "No need. I can simply do this." Following that, he released his profound energy to dry himself and Yu's siblings.

Yu Xiaoya and Yu Xiaolu were slightly surprised and looked at Yun Lintian in amazement. They never knew that profound energy could be used in this way.

Looking at their expressions, Yun Lintian was even more puzzled. This village must be located at an extremely remote place on the continent. Otherwise, they wouldn't be surprised to see this common operation.

"You don't know how to do this?" Yun Lintian asked.

Yu Xiaoya and Yu Xiaolu shook their heads vigorously.

Yun Lintian explained. "When you reach the Essence Profound Realm, you can mobilize your profound energy to heat the air around you and control it to dry yourself."

The expressions of Yu's siblings turned bright and slowly dimmed again. Yu Xiaolu lowered her head and said sadly. "We are not talented enough. I don't think we can break through to the Essence Profound Realm in our lifetimes."

"That's not true." Yun Lintian said. "Your problem isn't about talent but profound art. If you could get a hand on a proper profound art, achieving the Essence Profound Realm, or even the Spirit Profound Realm, is not difficult at all."

"Really?" Yu Xiaolu raised her head to look at Yun Lintian with hope.

"Of course, it's true." Yun Lintian replied with a smile. He pretended to rummage through his inner clothes and took a book out before handing it to Yu Xiaolu. "This is a high-grade mortal rank profound art called Blue Spring Art. It's suitable for both of your Profound Veins."

"This..." Yu Xiaolu was shocked. She didn't expect Yun Lintian to give away a profound art like this. She turned to Yu Xiaoya, waiting for her opinion.

Yu Xiaoya's expression became serious. She stared into Yun Lintian's eyes and said firmly. "Thank you for your kindness, Brother Mu. However, we cannot accept this precious profound art. We haven't repaid the life-saving grace yet, and this is too much for us."

Just as Yun Lintian was about to say something, a middle-aged man in a plain grey robe appeared in the hallway. His sharp gaze swept over Yun Lintian briefly, and his face immediately turned solemn.

"I don't know why Senior comes to our humble village?" The middle-aged man said calmly.

Before Yun Lintian could reply, Yu Xiaoya hurriedly explained. "Father, this is Brother Mu Chen. He saved us from the beast earlier. You can look at the materials in his hands." Seeing her father glancing over the bunch of python's materials, she said further. "I brought him here to repay his kindness. Please do not misunderstand him."

Yun Lintian took this chance to introduce himself. "Hello, uncle. My name is Mu Chen. I happened to see this python try to attack them as I passed by. I know it's difficult to trust me, but I really have no malicious intent.. I just want to ask for direction."

Chapter 495 - Mysterious Rain Woman

The middle-aged man, Yu Lang, stared at Yun Lintian's face for a while, and his hostility reduced a bit. "Thank you for saving my daughters. Please do not get offended by my action just now. Our village doesn't have a visitor for a long time."

Yun Lintian had an understanding smile on his face as he spoke. "I understand, uncle. It's normal for you to act like this. I would be the same seeing a stranger appeared out of nowhere."

Yu Lang took a deep look at Yun Lintian and waved his hand at his daughters. "Go prepare a meal for our benefactor."

Yu Xiaoya and Yu Xiaolu nodded and went toward the kitchen while Yu Lang brought Yun Lintian to a living room.

After pouring a cup of hot water for Yun Lintian, Yu Lang said. "I'm sorry, Senior Mu. We don't have tea here."

Yun Lintian took a sip of the water and said calmly. "You don't have to be like this, uncle. You can call me by my name directly. As I said earlier, I have no intention of seeking benefit by saving your daughters. I just want to know where this place is in the Central Continent."

Seeing Yu Lang hesitating, Yun Lintian added. "I lived secludedly on a mountain for all my life. This is the first time I came out, and I could not find the direction."

Yu Lang could see Yun Lintian didn't seem to lie. He slowly nodded his head in an understanding manner and said. "Our Rain Village is located in the northern part of the continent. If you go further in the north direction, you will arrive at a seaside city called Blue Tide City. From there, you can take any carriage to other major cities."

"Blue Tide City... I see." Yun Lintian searched the name in his mind and remembered this city was the biggest city on the northernmost part of the Central Continent. He cupped his fists and said. "Thank you, Uncle Yu."

Yu Lang hurriedly cupped his fists and said. "I don't dare to accept this. It should be me who said this. If you weren't passed by, I would lose my daughters forever by now."

Yun Lintian didn't insist on this further. He changed the topic. "By the way, Uncle Yu. I could see that the rain here is not simple as it appears to be. I wonder if there's anything about this?"

"There is something indeed." A trace of surprise appeared in Yu Lang's eyes. He didn't hide anything and said. "You might wonder why this place is called Rain Village. We have to trace back to five hundred years ago when my ancestor founded this village."

"At that time, he was chased after by several profound beasts to this place. As he was about to be swarmed by them, suddenly, the sky turned dark in a span of two breaths and started to rain down. He didn't know what happened at that moment, but all the profound beasts turned around and fled as though they had seen something scary."

"My ancestor was confused for a long while, and when he was about to leave, he discovered a woman carrying a paper umbrella standing not far away from him. My ancestor was stunned by her peerless appearance and did not know what to do. When he regained his sense, the woman had already walked away, and the rain seemed to follow behind her."

Yu Lang paused for a moment and continued. "It might sound ridiculous, but my ancestor decided to settle in this place simply because he wanted to see her again, and later, he discovered she would often appear around here. He had tried to talk to her, but no matter how he did, she would never answer him. So he took the liberty to name her Rain Woman."

"Rain Woman?" Yun Lintian repeated with curiosity.

Yu Lang nodded and explained further. "Whenever there's rain, it means she has appeared around here. Moreover, this rain has a special effect. It could scare any profound beast away. This is why our village can stay in this place safely until now."

"Isn't this mean she's around here right now?" Yun Lintian asked while looking at the outside through the window. He was curious about this person. To be able to summon rain like this wasn't something an ordinary practitioner could do. This person must be a top-level Monarch.

Yu Lang confirmed. "Indeed. However, whether she wants to show up depends on her."

At this moment, Yu Xiaolu walked into the room with two dishes in her hands and said. "I had seen Rain Woman before. She's really gorgeous like a fairy in heaven." Her eyes were filled with twinkles as she spoke.

Yun Lintian looked at Yu Xiaolu in surprise and asked. "Where did you see her? Was it around here?"

Before Yu Xiaolu could answer, Yu Lang spoke first. "She often appears on a small hill two hundred meters away from here. Although she had never done anything to us, it's better to not approach her."

Yun Lintian smiled faintly. "Don't worry, Uncle Yu. I'm just curious about her. I wonder why she kept appearing here. Is there any purpose?"

This time, Yu Xiaolu quickly expressed her opinion. "I believe she's waiting for someone."

"Don't talk nonsense, Xiaolu." Yu Lang reprimanded his daughter. He was afraid that Rain Woman could hear this.

Yu Xiaolu pouted and retorted. "It's true, Father. I didn't tell you about this before because Sister Ya told me to keep it a secret. Back then, I heard her say, 'Where are you?' and then 'Who am I?'. She kept repeating these questions again and again."

Yu Lang's complexion changed drastically. His ancestor, including his father and grandfather, had encountered Rain Woman several times, but none of them had ever heard her say a word. Why did she suddenly say something now?

"Are you sure what you said is true?" Yu Lang asked with a serious expression.

"It's true, Father. I was there with her." At this moment, Yu Xiaoya appeared in the room and said.

Yu Lang frowned slightly and said to his daughters. "I must tell your grandfather about this. You two come with me after the meal."

On the side, Yun Lintian touched his chin and pondered... What does it mean by that question? Was this Rain Woman losing her memory or something?

Chapter 496 - Princess Act

The meal went by quickly, and Yun Lintian accepted Yu Lang's kindness to stay here tonight. Anyway, he wanted to find a place to consolidate his newly gained power, and this Rain Village was a good choice. The position of this place was relatively remote, but it was also rich with profound energy. There was nothing for him to worry about it.

After arranging a room for Yun Lintian, Yu Lang brought his daughters away to his father's residence, situated diagonally to this house. Yun Lintian had nothing to do and sat by the window, looking at the downpour and lost in his thought.

Since he left the Frozen Moon Mythical Realm, he was constantly moving. He had no time to think about the experience he went through. Now he thought about it. He wasn't sure whether Xia Yao appeared after his death was real. Have Lynn and Yang Ningchang truly died?

Yun Lintian rubbed his forehead as he started to have a headache. True or false, it was better to ask Hongyue directly. Thinking of this, Yun Lintian carefully arranged an isolation formation and concealment formation before entering the Land of Beyond Heaven.

The moment he appeared in the Land of Beyond Heaven, Yun Lintian was stunned as he found it was nighttime. In the sky, there was a moon shining brightly, illuminating the place with its beautiful moonlight... What was going on here? One had to know there was no nighttime before in the Land of Beyond Heaven. Was it because of The Moon?

He remembered the last time he absorbed The Thunder, the Land of Beyond Heaven had also gone under a massive transformation. This should be the result of The Moon.

"You finally come back." Yun Ruanyu suddenly appeared before Yun Lintian. There was a trace of urgency on her face as she spoke.

Yun Lintian put his curiosity aside and asked. "What happened?" In fact, he could roughly guess about Yun Ruanyu's worry already. It must be something related to Hongyue.

Yun Ruanyu's expression turned serious as she said. "There is a someone claim to be a princess of the moon appears here. Did you let her in?"

Yun Lintian nodded and said. "That's right. Let's call everyone here. I will explain everything together."

The tension in Yun Ruanyu's heart reduced a bit upon hearing this. Yun Lintian had no idea what she was facing during his absence. This Princess Hongyue appeared out of nowhere and commanded everyone, treating herself as an actual princess.

Yun Lintian and Yun Ruanyu arrived in the villa and saw Yun Meilan, Yun Huanxin, Yun Lingwei, Yun Qingrou, and Linlin sitting on the sofa with Hongyue in the middle. Their expressions were stiff, and their eyes were fixated on Hongyue, filling with unwillingness and anger.

At this moment, Hongyue turned around to look at Yun Lintian with a smirk and said. "These little girls are not bad. They are barely qualified to be your servants."

Yun Lintian frowned. "What are you doing to them?"

Hongyue chuckled and said. "Don't you see I am trying to train them into a qualified servant? Don't thank me later."

Yun Lintian's face darkened. He stared at Hongyue coldly. "I didn't save you for this. Release them."

Hongyue pursed her lips and retracted her power. "It's not like I ask you to help me."

Yun Meilan and others were relieved and quickly retreated to Yun Lintian's side.

"Who is she?" Yun Huanxin asked angrily. She was happily watching a movie earlier, and this Hongyue appeared out of nowhere destroyed everything. She didn't understand why Yun Lintian let such a person in.

"Me? Didn't I tell you before? I am Princess Hongyue." Hongyue curled her lips playfully.

"That's enough." Yun Lintian responded coldly. "Since you've read my memory, you should understand how important they are to me. I won't allow you to treat them in this way... I don't mind sending you away if you continue to do this."

Hongyue stared at Yun Lintian for a moment and let out a chuckle. "It's because I've seen your memory that I have to do this. Remember what I told you before? You have to be ready to lose them at any time. Having a deep attachment won't bring you any good... Didn't you already experience it once?"

Yun Lintian's eyes flickered slightly. He stared straight into Hongyue's eyes and said firmly. "I don't need you to teach me about this... If you want to stay here further, you better change your attitude. You are not the mighty First Princess of the Divine Moon Clan anymore. Your current identity is nothing but a mere residual soul that your sister sacrificed herself to let you live further."

Hearing this, Hongyue's eyes narrowed. A dangerous aura slowly seeped out of her body, making everyone in the room vigilant. A moment later, she returned to her original calm state and laughed softly. "What a sharp tongue you have... Fine. I won't interfere with your business anymore."

"That's good. However, I can't let you live here for free. You have to help me train everyone here." Yun Lintian said calmly.

"Do you want this princess to be a nanny? Tsk. Do you know that no one has ever treated me like this before?" Hongyue clicked her tongue in dissatisfaction.

Yun Lintian chuckled and said. "It's my honor to be the first person, then."

Yun Ruanyu and others listened to Yun Lintian and Hongyue with thoughtful expressions. It seemed the relationship between them wasn't ordinary at all. They turned to look at Yun Lintian and waited for an explanation.

Yun Lintian waved his hand and said. "Let's sit down first... Don't worry. She's not your enemy. You can think of her like a stray cat I picked up."

Hongyue snorted coldly and said nothing. She was lazy to argue with this man and disappeared from the room.

"She's so hateful!" Seeing Hongyue go away, Yun Lingwei expressed her dissatisfaction.

"It's alright. With her ability, killing us is as easy as breathing. Since she didn't do anything excessive, it means she isn't a bad person by nature. No need to hold a grudge against her." Yun Qingrou comforted Yun Lingwei and pulled the latter to sit down.

After everyone sat down, Yun Lintian began to narrate everything about the Frozen Moon Mythical Realm, The Moon, and Hongyue.

Chapter 497 - The Change In The Land Of Beyond Heaven

"I didn't expect she to be such a lofty figure. Besides, her past is quite tragic." Yun Lingwei was surprised after hearing Hongyue's story. The grudge in her heart was lessened a lot.

"Hmph! She is lucky to have a good sister." Yun Huanxin snorted. Although Hongyue's past was indeed tragic, it didn't give Yun Huanxin a better impression or change her view of Hongyue.

"Would she really help us?" Yun Qingrou asked concernedly. Hongyue's identity wasn't simple at all. Forcing her to do an odd job might not be a good idea.

Yun Lintian smiled faintly while stroking Linlin's fur. "Don't worry about it. She will."

He believed that Hongyue needed him to help her deal with her enemy in the future. Helping him train everyone here was akin to helping herself. Besides, what else could she do? Staying here and doing nothing until the end of the world? It was almost impossible for her to refuse this.

"So the Divine World is real." Yun Ruanyu suddenly said. Even though she had read a lot of books related to other worlds, the doubt in her heart had never disappeared. And now, Hongyue's existence had proven this point. "The rumor that our Sect Founder went to the Divine World is likely to be true."

Yun Lintian nodded and gave no opinion on this. He didn't know much about the Misty Cloud Sect Founder. Hence, it was impossible for him to confirm this.

Yun Lintian put this matter aside and said. "Anyway, I hope everyone can live with her. She has nowhere to go." He paused for a moment and changed the topic. "By the way, is there any change here aside from the day and night cycle?"

Yun Ruanyu answered. "There's a new peak appeared, and the quality of the Misty Lake has improved at least two times better than before. There is also a high-grade Lake Jade appearing at the bottom of the lake... You might already feel it. The richness of profound energy here has increased drastically. I believe it has surpassed the Northern Continent's level now."

Yun Lintian was surprised to hear this. This meant this place had indeed become a training paradise now. He smiled satisfyingly and said. "I'll leave this matter to you. You can distribute the resources by yourself... Ah, right." He suddenly remembered something and waved his hand. Countless magical plants and ores immediately appeared on the ground afterward.

"I'll leave these things to you." Yun Lintian turned to Yun Qingrou and said.

"No problem." Yun Qingrou accepted the task readily and started to check the small mountain of treasures before her.

"What's your plan?" Yun Meilan, who was silent for all this time, suddenly asked.

Yun Lintian thought for a moment and asked. "Has the new group of Cloud Shadow team ready yet?" Seeing Yun Meilan shaking her head, he continued. "Then, there's no point of staying here in the Central Continent further. If there's no mistake, I will leave here for the Western Continent."

Everyone glanced at each other without saying anything. They knew the purpose of Yun Lintian for going to the Western Continent. He wanted to find a treasure that could extend Yun Qianxue's lifespan.

"Be careful out there." Yun Ruanyu didn't persuade him to stay here as she knew it was useless.

Yun Lintian smiled warmly and said. "Thank you for your concern. Although I haven't tried yet, I believe I can survive under a Monarch's threat."

It was at this moment everyone noticed Yun Lintian's strength. The last time they met, he was only at the peak of Origin Profound Realm, and now he had become a Heaven Profound Realm practitioner. This speed was too terrifying. They were afraid no one in this world could do the same as Yun Lintian.

"Big Brother Yun, can you bring Linlin with you?" At this moment, Linlin raised her head to look at Yun Lintian. Her eyes were full of expectation as she spoke.

Yun Lintian patted her lovingly and replied. "Wait for a few days. Big brother is currently staying in someone's house. It's inconvenient to bring you out at this moment."

Linlin lowered her head in disappointment upon hearing this. She wanted to go out with Yun Lintian right now, but it seemed to be impossible. It wasn't because she didn't want to stay here, but rather, she felt insecure whenever she didn't see Yun Lintian.

Yun Lintian naturally understood this, but he had no choice. He could only comfort her and gave her a promise to bring her out in a few days.

"Are you leaving now?" Yun Qingrou asked as she saw Yun Lintian stand up.

Yun Lintian nodded and said. "I don't know if the house owner comes back yet. It's better to be cautious."

Yun Qingrou suddenly spread her palm, and a few jade bottles appeared on it. "These are the best grade Spirit Nourishing Pill and Energy Congealment Pill. Your strength has just leaped too far in a short time. These pills will help you consolidate your strength faster."

Yun Lintian's eyes lit up, and he said. "Thank you." He stored all the jade bottles and prepared to leave.

Just as he was about to summon the Gate of Beyond Heaven, Hongyue suddenly appeared in front of him and said. "The change from integrating The Moon didn't limit to this place but also on the Gate of Beyond Heaven. When you go outside, you can try to communicate with me through your consciousness."

Yun Lintian's brows raised in surprise. "It means I can communicate with anyone here from the outside."

Hongyue nodded. "That's right. Not only can you communicate with people here, but you can also show your vision to them. Of course, you can see the outside from this place too."

Everyone in the room was amazed immediately. From now on, they could see what Yun Lintian saw. It would help Yun Lintian a lot if something happened to him.

Yun Lintian couldn't wait to try out. He quickly concentrated his mind, trying to contact the Gate of Beyond Heaven in his mind. Immediately, a curtain of white light appeared before him, and the scene of the guest room that Yun Lintian lived in was displayed on it. There was no one in his room.. It seemed Yu Lang and his daughters hadn't come back yet.

Chapter 498 - Act Of Kindness

"This is so convenient. Next time, I can simply hide here and watch the outside world." Yun Lintian couldn't help become excited. With this ability, his safety would increase by leaps and bounds. When he faced an omnipotent enemy in the future, he could escape to the Land of Beyond Heaven and wait until the enemy went away.

Yun Ruanyu was amazed by this, but she soon discovered a flaw. She turned to Hongyue and asked. "Could people on the outside detect this?"

Surprisingly, Hongyue shook her head gently and replied. "No... At least no one in this world could."

"What do you mean by that? People in the Divine World could do it?" Yun Lintian asked curiously.

Hongyue smiled and explained. "Of course, there would be someone who could do it. You have no idea how powerful divinities are. They could easily reduce this Azure World into nothingness with just a snap of their fingers. Detecting unusual spiritual connections is not difficult for them... You will understand when you reach that realm."

Hongyue paused for a second and changed the topic. "Let's not talk about this further. Ruanyu, right? Go gather everyone, including those pitiful children. I will give them the first lesson." She then turned to Yun Lintian and waved her hand impatiently. "As for you, just leave already."

Yun Lintian was speechless. He gave the nod to everyone and vanished into the Gate of Beyond Heaven.

Knock! Knock!

As Yun Lintian returned to the guest room, he heard a knocking sound on the door. He quickly deactivated the formation and went to open the door.

"Sorry for disturbing your rest, Brother Mu. I'm here to inform you that my grandfather wants to see you. However, it's fine if you don't want to see him." Yu Xiaoya was standing behind the door and hurriedly said.

Seeing Yun Lintian's puzzled expression, Yu Xiaoya explained further. "There's no urgent matter. Mainly, my grandfather wants to express his gratitude for saving us sisters."

"I see." Yun Lintian thought for a moment and said. "Let's see him." Since he would stay here for a few days, it would be better to get to know people.

A while later, Yun Lintian followed Yu Xiaoya to the living room and saw a white-haired old man sitting calmly on the wooden chair with Yu Lang and Yu Xiaolu on his side. Judging from his breath, his actual age should be more than a hundred years. With his strength of the Spirit Profound Realm's peak, he was definitely the strongest person in this village.

The old man slowly turned to look at Yun Lintian. An amiable smile appeared on his face as he rose to his feet. "Welcome to your Rain Village, Senior Mu. My name is Yu Teng."

Yun Lintian cupped his fists and said. "There's no need to be polite, Grandpa Yu. You are older than me. Please call me by my name directly."

The old man, Yu Teng, shook his head slightly. "I don't dare, I don't dare. In this world, we speak with strength, not by age. It would be inappropriate if I take advantage of my age to call Senior Mu's name directly."

Hearing this, Yu's sisters glanced at each other and lowered their heads in embarrassment. While their father and grandfather called Yun Lintian Senior Mu, they were actually called him Brother Mu. Wouldn't this mean they have higher seniority than their father and grandfather?

Yun Lintian sighed softly. Although he has lived in this world for several years now, he still felt uncomfortable about this kind of seniority. Being called senior by someone who could be his grandfather was too weird.

Yun Lintian smiled and said. "Then, I won't insist further."

"Please sit down, Senior." Yu Teng made an invitation gesture and sat back in his seat after Yun Lintian had sat down. He personally poured a cup of precious tea that he was unwilling to drink before for Yun Lintian and said. "I heard everything about your kind deed. We don't have anything to repay Senior. Please accept this old man's bow."

Following that, Yu Teng stood up and bowed ninety degrees to Yun Lintian.

Yun Lintian hurriedly released profound energy to help Yu Teng up and said. "As I said before, there's no need to be polite, Grandpa Yu. I didn't spend much effort to save Sister Xiaoya and Xiaolu. It's unnecessary to repay anything to me. If you continue to act like this, I'm afraid I have to leave now."

An admiration appeared in Yu Teng's cloudy eyes. He nodded his head firmly. "Understood. I won't mention this again."

Yun Lintian didn't like this kind of restraint atmosphere. He quickly changed the topic. "Grandpa Yu must be the strongest person in this place. Am I correct?"

Yu Teng sat back in his seat and replied. "Yes." He sighed softly and continued. "This old man's strength isn't worth mentioning in front of anyone."

Yu Teng had gone through up and down through hundred years of life. He naturally knew that Spirit Profound Realm practitioner was nothing but a mere ant in this world. The title of the strongest person in the village was too ridiculous.

Yun Lintian could see a trace of worry in Yu Teng's eyes. He understood what the source of his worry was. He looked at Yu Xiaoya and Yu Xiaolu and said. "I planned to give Sister Xiaoya and Xiaolu a profound art earlier, but I was interrupted first. I will give it to you now."

He took out the Blue Spring Art book and placed it in front of Yu Xiaoya. Before Yu Lang and Yu Teng could say anything, Yun Lintian spoke first. "Don't refuse it. Grandpa Yu and Uncle Yu should understand well that your current strength is not enough to protect this village. This place is indeed being protected by Rain Woman currently, but what if she disappeared one day? At that time, this place would be surrounded by countless dangers... Besides, this profound art is not expensive and totally useless to me.. It is better to give to someone who needed it."

Chapter 499 - Conceptual Intent

Yu Teng, Yu Lang, and Yu's sisters were moved by Yun Lintian's words. They were indeed aware of this potential danger. They had even prepared to leave this place if Rain Woman disappeared one day.

Yu Teng took a deep breath and said tremblingly. "I thank Senior Mu. Our village would remember this kindness forever."

Yu Lang and his daughters had also expressed their gratitude one by one.

Yun Lintian waved his hand, and a few books appeared on the table. "These are top-grade Mortal Rank profound arts. You can organize everyone in the village and distribute them among yourself. I plan to stay here for a week. During this period, if you have any questions about the practice, you can come to me. I am willing to teach everyone."

Yu's family was shocked upon seeing this. They looked at various books on the table and did not know what to say. Since when did profound arts become as worthless as cabbages?

"This..." Yu Teng's lips quivered. Accepting the Blue Spring Art alone was already something he didn't dare to imagine before. And now this. He wasn't sure whether he was dreaming right now.

"This is too much, Senior Mu." Yu Lang said in difficulty.

Yun Lintian chuckled slightly. "Just take it. I have plenty of them. They are useful in your hands more than staying with me."

What he said was true. These profound arts were nothing but a bunch of useless books for him. He handed them out without fearing because he felt good about this place. It would be a pity to see this village disappear in the future.

Naturally, these profound arts could not guarantee the village's safety, but they could at least increase the surviving chance.

Yu Lang and his daughters involuntarily turned their heads to Yu Teng, leaving the decision for the latter.

Yu Teng took several deep breaths to calm himself down. He raised his head to look at Yun Lintian and said tremblingly. "Thank you."

There was no following word as Yu Teng knew it was unnecessary. He would be a hypocrite to say anything further at this point.

Yun Lintian smiled and pointed out. "This book is called Rain Heart Art. It's suitable for Grandpa Yu and Uncle Yu. If you practice it diligently, there will be no problem for both of you to make a breakthrough."

He had secretly checked on Yu Teng's and Yu Lang's Profound Veins earlier and discovered both had an intermediate-level water attribute Profound Vein. Meanwhile, Yu's sisters were possessed dual water and earth attribute Profound Veins, which were suitable to practice Blue Spring Art.

Yun Lintian believed they could easily break through to the Origin Profound Realm within half a year. After all, the profound energy here was too dense. Even without any pill and other resources, their progress would still be considered fast.

Yun Lintian began to explain the profound arts one by one until he excused himself and returned to his room.

Sitting on the bed, Yun Lintian closed his eyes and said in his mind. "Hongyue, what is the level of a person who could summon rain and let it fall down several days without stopping?"

A moment later, Hongyue's voice resounded in his mind. "Hmm? You know how to communicate through the Gate of Beyond Heaven now? That's quite quick for the first-timer... What kind of that question? Did you encounter someone?"

Yun Lintian responded impatiently. "Just answer me."

Hongyue clicked her tongue in dissatisfaction but still answered. "Is it difficult? Anyone with high proficiency in water attribute art could easily do it. As for the duration, it depends on his or her profound energy tank... but seriously, who would do such a pointless thing? Is this person a frog or something?"

"Is that so?" Yun Lintian frowned slightly. "But this rain can scare profound beasts away. It shouldn't be normal, right?"

In the Land of Beyond Heaven, Hongyue was leaning comfortably against the sofa. When she heard this, a strange light flashed across her eyes, and a shadow of a particular figure popped up in her mind.

"Then, this person's strength must reach the pinnacle of this world already," Hongyue answered.

"Oh? Why is that? It's true that I haven't seen it myself whether this rain could scare those higher-level profound beasts away, but even so, it didn't mean she should have high strength as you said, right?" Yun Lintian was confused. Why was Hongyue so sure about it?

"She? This person is a woman?" Hongyue's face turned even weirder. "Easy. It's impossible for mere rain to scare profound beasts away. Don't you think so?"

"Are you telling me that...?" Yun Lintian seemed to have a general idea about it.

"Use your Spiritual Sense to focus on the rain. You should be able to perceive something." Hongyue said mysteriously.

Yun Lintian opened his eyes and looked at the downpour through the window. He silently spread his Spiritual Sense out and locked onto the rain.

Instantaneously, grief, sorrow, and longing feelings flushed into Yun Lintian's heart like a tsunami. He suddenly felt as though he had returned to the day when Xia Yao left the world. Tears immediately flowed out of his eyes, and his chest was entirely blocked with an overwhelming sadness.

"Wake up!" Hongyue's voice suddenly rang out in Yun Lintian's mind, causing him to jolt awake.

Yun Lintian gasped for breaths. His face was pale as a white sheet while asking. "What is that?"

"It's called a conceptual intent. You should remember that in order to break through to the Ruler Profound Realm, they need to come into contact with a simple intent, such as an explosive intent, a freezing intent, or whatever sword intent, and transform them into their own domain — becoming the ruler of the domain. That's the true meaning of the 'Ruler' word in the Ruler Profound Realm." Hongyue explained.

"As for the Saint Profound Realm and the Monarch Profound Realm, you have to comprehend these intents and transform into a conceptual intent. At this point, you won't have to summon your domain at all.. Every of your attack would automatically mix with your conceptual intent."

Chapter 500 - The Crisis Of The Village

"However, all the Saints and Monarchs you have encountered until now. None of them possess a conceptual intent." Hongyue said.

"None of them? How did they break through into their current realm, then?" Yun Lintian was a bit confused.

"What they have right now is called a pseudo-conceptual intent," Hongyue answered. "The true conceptual intent would carry the user's emotion and be able to transform it into power. For example, you can use your anger to suppress the enemy or use your sorrow to control the opponent's mind. Didn't you experience it earlier?"

Yun Lintian was enlightened. He didn't expect it would be this complicated. Conceptual intent? This was the first time he heard about it.

Thinking about the experience he went through earlier, Yun Lintian now fully understood why Hongyue was so sure this Rain Woman was standing at the pinnacle of this world.

"I'm curious. Judging from your words, this rain didn't hurt anyone aside from scaring profound beasts away? It doesn't make sense at all. Why would she do this?" Hongyue doubted.

Yun Lintian responded. "How would I know? From the villager's words, it has been like this for more than five hundred years now."

Hongyue went silent for a moment and said. "If you see this person, don't forget to call me. Perhaps there would be a surprise."

"What surprise?" Yun Lintian frowned slightly. "Can you stop your riddles?"

Hongyue laughed slightly as she replied. "I'm busy now. Go away."

Yun Lintian was speechless. He didn't insist on this topic further and looked at the rain, falling into deep thoughts.

The following day, Yun Lintian woke up and went to the backyard to take fresh air. The rain had now stopped, leaving behind an aroma of nature to linger in the air.

It wasn't Yun Lintian alone who came here. At this moment, Yu Xiaoya and Yu Xiaolu were performing a set of punches and kicks under Yu Lang's guidance. Since they got the profound arts from Yun Lintian's last night, they had studied them the entire night and couldn't wait to start training.

Yu Lang saw Yun Lintian coming. He nodded his head with a smile and said. "Good morning, Senior Mu."

Yu Xiaoya and Yu Xiaolu abruptly stopped their actions and turned to greet Yun Lintian.

"How come all of you are up this early?" Yun Lintian said with a smile.

Yu Xiaolu had a relatively cheerful personality. She laughed and said. "It couldn't be helped, Brother Mu. We couldn't wait to start right away."

"It's good, but practice takes time. No need to push yourself too much." Yun Lintian said. He picked a long twig on the ground up and motioned with his chin. "Go on. I'll help you correct it."

Yu Xiaoya and Yu Xiaolu were overjoyed. They hurriedly performed according to the Blue Spring Art.

"You did it wrong here. You need to restrain your shoulder when punching out." Yun Lintian used the twig to tap on Yu Xiaoya's right shoulder, correcting her punching posture.

"I understand now." Yu Xiaoya's eyes lit up when she punched out after the correction. She could feel her movement had become smooth and stronger.

Yun Lintian turned to Yu Xiaolu and helped her adjust her posture.

On the side, Yu Lang looked at the scene gratefully. Although the time he came into contact with Yun Lintian was short, he could see the latter was genuine and did not despise the weak like other practitioners. It was unbelievable that he could meet such a person.

Time passed by quickly. Two hours later, Yu Xiaoya and Yu Xiaolu had made progress and successfully broke through to the tenth level of Foundation Profound Realm from the ninth level. They were so excited and kept bowing to Yun Lintian. At this rate, reaching the Essence Profound Realm wouldn't be a problem at all.

"That's it for today. You have to make sure that your foundation is solid before aiming for the next breakthrough. Otherwise, your power ceiling would be limited. At that time, if you want to go further, it would be extremely difficult. Unless you practice everything all over again from the beginning." Yun Lintian threw the twig away and gave them a warning.

Yu Xiaoya and Yu Xiaolu immediately calmed down from the ecstasy state and nodded their heads solemnly. "Understood."

Suddenly, a young man in his twenties ran to the backyard and hurriedly looked for Yu Lang. "Village Head Yu, several carriages are coming in our village's direction. They should be those people back then."

The expressions of Yu Lang and his two daughters changed slightly upon hearing this.

"Father..." Yu Xiaoya looked at her father worriedly.

Yu Lang waved his hand and said. "You two stay here. Do not come out no matter what happens, understand?"

Yu Xiaoya and Yu Xiaolu reluctantly nodded their heads. "Understood. Be careful, Father."

Yun Lintian listened to their conversation and couldn't help asking out of curiosity. "What happened?"

Yu Lang went silent for a moment and said. "I'm afraid something bad is going to happen to our village soon... Senior Mu, if something really happened, can you please take my daughters away from this place?"

Yun Lintian frowned in confusion. He didn't say anything and spread his Spiritual Sense out. Instantly, he saw seven luxury carriages entering the village. Their postures were extremely arrogant as they galloped into the village at full speed, causing several houses along the path to blow away.

Yu Lang's face became unsightly when he heard breaking and wailing sounds reverberating. Without thinking further, he quickly rushed out of the courtyard and shouted at the group of carriages. "Stop!"

The leading carriage immediately stopped right before Yu Lang's courtyard. A coachman glanced down at Yu Lang and asked coldly. "Long time no see, Village Head Yu."

Yu Lang didn't say anything. He looked over the carriage and saw several villagers knelt on the ground tremblingly. Their faces were full of horror, and they did not dare to look at the group of carriages.

Yu Lang clenched his fists tightly. His eyes turned bloodshot as he stared at the coachman. "Why are you doing this?"

A weird expression appeared on the coachman's face as he said. "Why? Do I need a reason to trample an ant?" He let out a chuckle and continued. "Last time, we didn't do anything to all of you here because someone stopped us. However, this time is different.. You better tell us honestly about Rain Woman."
