

Myth Beyond 51

Chapter 51 - Land Of Beyond Heaven (2)

Yun Huanxin frowned in confusion. She was sure there was something around here earlier, but where was it now? She concentrated on searching for a trace of abnormality, but she still couldn't find it.

At this moment, Yun Lintian had no idea that his Third Aunt was looking for him as he was busy checking around the place. Currently, he stood at the shore and had an astonished look on his face with his jaw dropped. He was stunned by the heavenly scenery in front of him.

The land before him was at least several square kilometers, full of lush greenery. The grasses on the ground were neatly trimmed, brimming with vitality, and there was a fertile piece of land at the end of his line of sight.

Yun Lintian could see a green mountain range behind the lake, along with a beautiful waterfall. A gurgling sound could be heard as three small streams were coming out from the lake. It was a beautiful sight to behold.

Hundreds of meters away, on his left side, was a forest filling with ancient trees. When Yun Lintian carefully examined them, his mind was blown away by the discovery instantly because he recognized these trees — they were the Divine rank tree, Heavenly Sandalwood!

Yun Lintian was shocked beyond belief. Profound Spirit Lake alone was already the best of the best treasure he could find in the whole world, but now there were these Heavenly Sandalwoods too! He swallowed saliva hard and moved closer to the forest.

Suddenly, his gaze unintentionally landed on a bamboo forest next to the Heavenly Sandal Wood forest, and he was petrified on the spot, utterly dumbfounded.

"S-serene Bamboo?" He uttered in disbelief as he recognized the bamboo. They were another Divine rank tree, Serene Bamboo.

The Heavenly Sandalwood had various benefits. It could be used to concoct a high-rank pill that improved the practitioner's Spiritual Sense and forged a profound artifact. If it was used to build a

building, it could help the body of the people who lived inside remained healthy and could increase their energy absorption rate.

Meanwhile, the Serene Bamboo mainly focused on calming people's minds and improving their comprehension. There was a record where people were using it to forge a profound artifact, but it was a rare occasion.

Yun Lintian was numbed beyond words at this moment. He didn't expect the cheat device he was thinking of day and night would come up with this incredible wealth. After forcing himself to calm down, Yun Lintian turned around, looking at the opposite of the forest, and he was stunned again. This time, it wasn't because he found a Divine rank tree or another Divine rank treasure, but he saw a house. More precisely, it was a three-story modern villa!

"This... My house!?" Yun Lintian uttered, with eyes almost popped out from their sockets. The white villa in front of him was clearly the house he used to live in when he was on Earth!

Yun Lintian came back to his sense. He speedily rushed toward the villa with great expectation. There was no fence or iron gate around the European-style villa that was formerly built on 2,000 square meters. Its current appearance was no different when it was on Earth except for the missing garden.

Yun Lintian stood before the front door with his heart pounding. He slid a lid of a digital door lock and entered the password. With a beep sound, the door was unlocked, and Yun Lintian quickly entered the villa. He didn't even think about why there was electricity because there was nothing for him to be shocked anymore after witnessing everything in this place.

He arrived in a familiar living room with smooth white marble floors. A high-end fabric sofa he used to lie down lazily, a 65 inches AMOLED TV and his beloved chandelier. Everything had stayed exactly the same before he left. Yun Lintian used a remote to open the TV and found it still working fine, except there was no signal.

He went to the kitchen, open a fridge, and saw several ingredients were still there without spoil, making him confused, but he didn't think about it much. Gazing to the outside from the kitchen, he could see a 50 square meters pool that he loved to swim in every day back then. Unfortunately, there was no gorgeous girl in a swimming suit for him to see.

Yun Lintian walked past the dining room with a long Thai marble table, sitting up to 20 persons, and arrived at a sculptural staircase leading to the second floor. This second floor was where his bedroom was located. He went straight into his bedroom and saw everything was still the same.

Yun Lintian arrived beside his 8 feet bed and reached out to a box under the bed, opening the box and saw four handguns were still there. He skillfully checked all of them and put them back in the box. Without a doubt, they were useless against profound practitioners.

Looking around the familiar room for a while, Yun Lintian headed toward his father's study room on the third floor. After his father passed away, Yun Lintian never revisited this study room, and now he wanted to find a clue about him since he was the one who gave him the silver necklace.

The room was spacious, with extended bookshelves on both sides. At the center, there was a mahogany table with a comfortable chair behind it. Yun Lintian looked around for a while, and his eyes finally paused on a small brown-colored book on the table. He remembered there was no such a book when he locked this room up back then.

Yun Lintian took the book and opened it. The first sentence that appeared on the first page was "I know you would read this." The corner of Yun Lintian's mouth twitched slightly when he saw this and had an urge to throw the book away.

He remembered his old man was quite mischievous as he loved cracking jokes like this. At the same time, Yun Lintian didn't know much about him. As far as he remembered, his old man was extremely mysterious. Although the relationship between Yun Lintian and him was pretty close, his old man rarely revealed anything to him.

He flipped to the second page, and there was a long paragraph written on it.

"Yo, son! When you see this book, it means you have already arrived at another world and also activated the Gate of Beyond Heaven. Confuse? You don't have to look around. The Gate of Beyond Heaven is no other than the silver necklace on your neck. To activate it, you need at least one Beyond Heaven Relic. I don't know which one did you get, but I think you can guess about it by now."

The Gate of Beyond Heaven? Beyond Heaven Relic? What an awful name is this? He said I need a Beyond Heaven Relic to activate the silver necklace... Could it be The Sun? Several questions appeared in

Yun Lintian's mind. Right now, he was exceedingly perplexed by the discovery. It turned out his old man was no ordinary person as he had suspected.

"I know you might have several questions to ask me, but sad for you, I am not here anymore. What? Do you think I am still alive, and you are the protagonist who embarks on a journey to find his father? I told you to stop reading those novels a long time ago, and you didn't believe me. Now what? Become a chuunibyou? Alas, I am disappointed in you, son."

Yun Lintian cursed silently and continued to read.

"Are you done cursing? Now listen carefully. Oh, not right. Now reading carefully. Congratulations, son, you have obtained a plot armor! This place where you stand is called 'Land of Beyond Heaven' Don't look at me. I am not the one who named it... I think you have already guessed about this place. That's right, it is the space treasure that you have seen in those novels. However, it is a thousand times better than all of them."

"You might have seen the Profound Spirit Lake, Heavenly Sandalwood forest, and Serene Bamboo forest already. All of them are just trivial things. As long as you collect every Beyond Heaven Relic, it will bring you an unimagined benefit which I don't want to give you a spoiler. Otherwise, it would be tasteless, don't you think so? Therefore, your main duty is to find them and integrate them into this place."

"As for how many Beyond Heaven Relics, you have to figure out by yourself. You can't expect me to tell you everything, right?... You don't have to be sad. Your old man is not stingy as you think. After reading this, you can try to use your energy on the bookshelf on the left side. That is the gift I left for you."

"Lastly, I am already dead for good. You don't have to spend time thinking about whether I am still alive. Just remember, when you are strong enough, you will understand everything. Good luck, Son. — Love you. Your handsome father."

Yun Lintian put the book down. He was not in a hurry to check the bookshelf out as he closed his eyes, digesting the information. He always believed his old man was no ordinary person. How could a high school's teacher possess such a high combat prowess? As for whether or not he was still alive, Yun Lintian was unsure, and he had no way to prove it, even though he had seen his body and cremated him by his own hands. If his old man was a powerful profound practitioner, faking his death was a simple job for him.

At the same time, Yun Lintian was helpless when he thought about the Beyond Heaven Relic. The information his old man gave him was too vague. He didn't even know how many of them in total and where to find them.

Everything that happened today was like a bombshell dropping on him. He was shocked beyond his words several times in a row, and his mind had grown numb, unable to think properly.

Chapter 52 - The Library

Yun Lintian put his jumbled thoughts aside and went to the extended bookshelf on the left. He examined it for a moment and found nothing out of the ordinary before he channelled his profound energy onto it. The bookshelf trembled slightly with a creaking sound and began to move sideways, revealing a hidden door behind it.

"Tsk. This old man hiding something here all this time?" Yun Lintian clicked his tongue in amusement and opened the door, walking into it.

"What the..." Yun Lintian exclaimed when he arrived in a vast room with countless towering bookshelves stand tall along with all kinds of books on them. There were at least a hundred aisles from his estimation, and each one of them was deep, around 200 meters. The floor was laid with Heavenly Sandalwood planks, emitting a soothing fragrance making ones' mind became clearer upon inhaling.

On the left side, there was a small counter and comfortable-looking chairs reserved for a librarian. Hanging on the wall was a large touchscreen monitor currently showing a sentence 'Welcome to the library' in digital text.

What surprised Yun Lintian the most was the size of the room. There was no way his villa could contain this room. Undoubtedly, this place had to be a profound artifact.

Calming himself down, Yun Lintian walked to the touchscreen monitor and touched it with his finger.

"Scanning..." Suddenly, a sweet female voice rang out from built-in speakers around the library.

"Detecting the SSS level identity."

"Identity confirm."

"Welcome Master Yun Lintian to the library."

"My name is Smart 01, the library's administrator."

"If Master has any question, please feel free to ask me."

A series of female voices resounded, causing Yun Lintian to startle for a moment. He was both surprised and overjoyed at the same time. With this A.I., he didn't have to check all the books by himself.

"Wait, How did you know my identity? My fingerprints shouldn't be the same, right?" Yun Lintian suddenly thought of this problem. Theoretically, he was transmigrated here. His body shouldn't be the same as he was on Earth. Then how did the A.I. recognize him? Unless... He was still the same person for all this time! But how!? If that was the case, it also explained why he had the necklace with him.

Yun Lintian's mind spun rapidly. Several hypotheses appeared in his mind, but he didn't know and how to prove them. He concluded that the mysterious woman who brought him to the Misty Cloud Sect should be his old man's subordinate or friend. Was his old man omnipotent to the point he could reverse death? He was sure that he was already dead for good at that time.

The more Yun Lintian thought, the more confusing he became, as he lacked evidence and information. Everything was limited to his imagination right now.

"I cannot answer you, Master." Smart01 replied plainly.

Yun Lintian was disappointed, but he didn't ask further. He changed the topic. "Can I change your name? I don't like your current name."

"You can, Master." Smart01 replied.

Yun Lintian thought for a moment and said, "I'll name you Lynn then."

"Understood. From now on my name is Lynn." Lynn responded with a hint of excitement in her voice.

Oh? Does it have emotion? Yun Lintian was surprised. "Alright, please introduce this place to me."

"This place was built three thousand years ago..." Lynn started to introduce but was interrupted by Yun Lintian.

"Just get to the point. What are these books." Yun Lintian looked at the books on the bookshelves.

"Okay, Master. Currently, there are 874,325 books in this library. They are profound arts from all over the multiverse, classifying into 7 ranks namely, Primordial rank, Supreme rank, Divine rank, Mythical rank, Heaven rank, Earth rank, and Mortal rank."

"There are totally 4 categories, Body Refinement Art, Essence Profound Art, Soul Profound Art and Knowledge category. Master can ask me for a recommendation and I will sort everything according to Master's current level."

Yun Lintian nodded his head calmly. But his mind was in a mess... How did my old man collect all of this? What is his identity exactly? He asked, "Is my father built this place? And how did he collect these books?"

"It's your father, Master. However, I cannot tell you specific information because it was deleted by him." Lynn replied.

Tsk, this smelly old man. Yun Lintian was disappointed. He put this matter aside and asked. "Can you recommend me a profound art that suitable to my current level?"

The next moment, a few names appeared on the screen, sorted by rank and category, and there were aisle numbers behind them.

Yun Lintian looked at the names and was stunned for a while because they were too few, and none were higher than the Heaven rank.

"Just this?" Yun Lintian asked.

"Yes, Master. According to your current talents, these profound arts are your limit." Lynn replied softly.

Yun Lintian was speechless and carefully looked at the profound arts on the Heaven rank. There were only four of them, and all of them were mainly focused on the fire element... Without The Sun, I probably can't even practice an Earth rank's profound art? Before then, my talent is literally the lowest of the low. He thought.

Yun Lintian sighed and asked, "How did you evaluate my talent?"

"Mainly from your Profound Vein and constitution, Master. As for other variations, such as comprehension and soul power, they cannot be measured by me. Therefore, I will always provide every book without concerning your comprehension." Lynn explained.

"So there is a chance I cannot practice it, even though it's suitable to my Profound Vein." Yun Lintian understood the point. Lynn would give him a Primordial rank's profound art if it was suitable to his Profound Vein and constitution, but it still depended on his comprehension and other variations to learn it too.

"That's right, Master." Lynn said.

Yun Lintian didn't linger on this topic further. He asked, "Can I move this library to other places?"

"You can, Master. You can inject your profound energy into this monitor and the library will reduce into a small ball of light. Master can put it to any place you want later. However, Master cannot bring the library to the outside world." Lynn explained.

Yun Lintian nodded and said, "Alright, I'll go back first. See you later, Lynn." He remembered this was not the time to stay here further, as his sect was probably under attack at this moment.

"Have a safe trip, Master." Lynn replied, and the screen returned to normal with the welcome text.

Yun Lintian walked out of the library and opened the silver gate, leaving the Land of Beyond Heaven.

"Lintian!" Upon Yun Lintian appeared in the river, Yun Huanxin's Spiritual Sense immediately captured him. She was confused why he appeared here out of nowhere, but she cared more about his safety.

"Third Aunt?" Yun Lintian was surprised to see her.

"Are you hurt?" Yun Huanxin produced an invisible hand to lift Yun Lintian out of the river and asked with concern.

Yun Lintian shook his head, "I'm fine, Third Aunt." In fact, he was certain that his bones were broken, but it seemed he was healed by the Profound Spirit Lake.

Yun Huanxin didn't ask further as she said with a severe expression, "We need to go back now. The situation over there is not optimistic." In the end, she didn't dare to tell Yun Lintian about Yun Qianxue's current condition.

Yun Lintian's expression changed and hurriedly said, "I will set the formation now. Please help me make a cave here, Third Aunt."

Yun Huanxin shot a sword light at the cliff, creating a small cave within a minute, and brought Yun Lintian into the cave. The latter quickly set up the transmission formation and concealment formation. A half an hour later, both of them vanished into the transmission formation.

In the sky above the Misty Cloud Peak, Qi Qianxing leisurely sipped a spirit tea with no hurry to attack the Misty Cloud Sect.

"Your Majesty, there's a situation at the mythical realm's entrance." Suddenly, an old man with a white beard appeared beside him with a serious expression.

Qi Qianxing's brows raised slightly. "What is it?"

The old man began to narrate the report he received from Qi Hao.

Qi Qianxing frowned and put the teacup down. "Yuanfeng failed to capture him?"

The old man bowed his head and said nothing.

Qi Qianxing pondered for a moment and waved his hand. "Never mind. We can start now."

"Understood, Your Majesty." The old man bowed his head and called ten-odd people behind him over, starting to attack the Grand Protection Formation's barrier.

Boom! Boom!

Each attack was powerful enough to create a large hole in the barrier. However, none of them could completely deal permanent damage, as the barrier recovered almost instantly.

In the main hall, Yun Ruanyu wore a severe look on her face as she gazed at the barrier worriedly.

"Sister Ruanyu, we can hold at most an hour." Yun Qingrou said after checking the remained Profound Stones.

Yun Ruanyu was silent for a while before she said, "I am going to use The Final Haze."

Yun Qingrou hurriedly said, "Don't, Sister Ruanyu. We should wait for Sister Huanxin and others first."

Yun Ruanyu turned to look at Yun Qingrou and Yun Qianxue, who was unconscious on the ice bed. She said solemnly, "I'll stall them before Sister Huanxin comes back."

Yun Qingrou said nothing to persuade Yun Ruanyu further, as she knew eventually they would have no choice but to use The Final Haze.

Yun Ruanyu took out a brand new Guqin and headed out of the hall under Yun Qingrou's sad gaze.

Woosh—

Just as Yun Ruanyu was about to fly up, she noticed a fluctuation around the transmission formation.

"Sister Ruanyu!" Yun Huanxin appeared nearby the main hall with Yun Lintian.

"You're back." Yun Ruanyu said and looked at Yun Lintian. Seeing he was safe and sound, she was relieved, but the heaviness in her heart did not dissipate away because she didn't know what would happen if Yun Lintian saw Yun Qianxue's current appearance.

"Aunt Ruanyu, where is mom?" Yun Lintian asked as he didn't see Yun Qianxue even though the sect was bombarded by the enemy at this moment.

Yun Ruanyu's hands trembled slightly, and she said, "Your mother is inside. Go and take a look."

Yun Lintian noticed Yun Ruanyu's hands, and he had a bad premonition. Without wasting time further, he rushed into the hall and saw Yun Qianxue lying on the ice bed, unconscious.

"Mom!" Yun Lintian exclaimed and arrived at her side. Currently, Yun Qianxue had already lost all of her former devilish beauty. Her hair turned white, and there were wrinkles all over her body. She appeared to be a woman in her sixties.

With a glance, Yun Lintian could see her Profound Vein's condition as well as the vitality within her body. Without a doubt, Yun Qianxue had no more than ten years left in her.

Yun Lintian's eyes turned bloodshot. His hands were clenched into fists tightly to the point that blood dripping out. A strong killing intent was enveloping his body. At this moment, he was outraged — this was the first time he was angry for real since he came to this world.

Chapter 53 - New Sect Master

Yun Lintian concentrated his energy on reconnecting Yun Qianxue's Profound Vein. However, halfway through, Yun Qianxue regained her consciousness and looked at Yun Lintian.

"Mom, don't worry. With me here, you will regain your former strength soon." Yun Lintian said with a smile. He tried to hide his anger from her.

Yun Qianxue reached out her hand to touch his face and asked with concern, "Are you hurt?"

Yun Lintian's hands trembled upon hearing this. Even at this time, she still cared for him. His heart was overwhelmed by myriad emotions as he didn't know whether he should feel warm or sad.

He produced a forced smile, holding Yun Qianxue's hand and said, "I'm fine. As I said before, no one can hurt me. See? Is your son good?"

A smile bloomed on Yun Qianxue's wrinkled face. She nodded her head in difficulty, "Of course, my son is the best."

In the distance, Yun Ruanyu, Yun Qingrou, and Yun Huanxin watched this scene and silently wiped their tears. They knew more than anyone how close the relationship between the two was. Even though it could be said Yun Qianxue was forced to accept Yun Lintian as her foster son, she never complained even once and poured all her love and affection into nurturing him.

Yun Qianxue looked at her son with love, trying to engrave his appearance into her soul, and prayed she could remember him after she was passing into the Netherworld. If there was a next life, she wanted to meet him again.

Yun Lintian looked into her eyes and immediately understood her thoughts — she was giving up. He tightened his grip and said softly, "Mom, believe in me. I have a way to save you and everyone here. Please don't give up."

Yun Qianxue saw his confidence and thought he was trying to comfort her, but she didn't show it outside. She replied, "I believe you... Can you call your Aunt Ruanyu here?"

Yun Lintian nodded his head and called Yun Ruanyu over.

Yun Qianxue turned to Yun Ruanyu and said with a severe expression, "I want to pass the sect master position to Lintian."

Everyone in the hall was shocked by her words. Except for Yun Ruanyu, she understood Yun Qianxue's intention.

"Mom, you don't have to do this! I really have a way to save everyone." Yun Lintian hurriedly interrupted.

Yun Qianxue didn't look at him but stared at Yun Ruanyu. The latter finally nodded her head and said, "I'll call everyone now."

Woosh—

At this moment, Yun Meilan and Yun Lingwei had arrived at the main hall, and they had also heard Yun Qianxue's words earlier.

Yun Ruanyu glanced at them and nodded her head before heading out to gather everyone to the main hall.

Yun Lintian was anxious and was about to tell her about the Land of Beyond Heaven but was interrupted by Yun Qianxue. "This is an order. Since you were young, mom never forced you to do anything, but this time I want you to accept it. Can you listen to my wish?"

Yun Lintian fell into silence. He took a deep breath and nodded his head without saying anything further. He decided to return the position to her later when they left this place.

A minute later, everyone arrived at the main hall with all the Four Hall Masters stood in front, followed by the Twelve Elders and nine hundred-odd disciples.

Yun Qianxue stood up from the ice bed with Yun Lintian's help and her gaze swept over everyone before she said, "I'm here to tell everyone. I am going to pass the position to Lintian. If anyone has an objection, you can tell me directly."

Even though she lost her strength, Yun Qianxue didn't lose her demeanor at all. She was still a dignified Sect Master in everyone's eyes. After a while, no one had raised any objection, Yun Qianxue proceeded to the next step, "Good. Since there is no objection, I shall pass the position to him now."

She turned to Yun Lintian and said, "Close your eyes."

Following, the droplet symbol on her forehead began to shine. In the next moment, an exquisite droplet jewel flew out of Yun Qianxue's forehead and shot into Yun Lintian's. For an instant, Yun Lintian felt a connection between him and everyone in this place. It was as if he had become their master along with information related to the Misty Cloud Profound Art and the history's records pouring into his mind.

Yun Qianxue's voice rang out in his mind. "This is the Misty Cloud Divine Origin. It has the ability to locate anybody who practiced the Misty Cloud Profound Art as you might have felt it by now. From now on, you are the Sect Master of the Misty Cloud Sect. I hope you will guard everyone and never abandon them."

Yun Lintian opened his eyes, and there was a droplet symbol glowing on his forehead. He responded solemnly, "I swear upon my name, I will guard everyone with all I have until the last moment of my life."

"Good." Yun Qianxue nodded and sat on the ice bed feebly. "All of you should leave now. There is no hope to go against the enemy."

Everyone looked at each other uncertainly, but none of them wanted to leave. They turned to Yun Lintian, waiting for his command.

Yun Lintian turned to everyone and said solemnly, "I have a way to send anyone who wants to leave out. If any of you decided to leave the sect, I won't blame you. After all, it's your life. You don't have to throw

your life away pointlessly." He changed his tone and continued, "However, if you left, it means you are no longer the disciple of this sect. And from now on, you will have nothing to do with the sect. Now tell me, who wants to leave?"

Yun Lintian swept his gaze on everyone attentively. He wanted to see if anyone had the slightest hesitation, as he could use this chance to see their loyalty.

"I will live and die with our sect." Suddenly, Yun Chan stepped forward and bellowed. Her expression was firm, filling with determination.

"Me too. I will live and die with our sect." Yun Li was also stepped forward.

"Me too!"

"I won't leave!"

"To live and die with our sect!" One after another came forward and vowed solemnly. In the end, they shouted in unison, expressing their determination.

Yun Lintian nodded his head with satisfaction. He said, "Good! From now on, all of you are the true disciples of the brand new Misty Cloud Sect!"

Everyone was puzzled when they heard this. What was the brand new sect?

Yun Qianxue looked at Yun Lintian in confusion. She saw him turned around and said to her with a confident smile, "Mom, I told you earlier. I have a way to save everyone."

Following this, Yun Lintian called the Gate of Beyond Heaven out in front of everyone. The silver gate stood tall with a bang, emitting an ancient aura, causing everyone in this place to freeze on the spot.

"This...?" Yun Qianxue looked at the silver gate with eyes widened open.

"You will understand soon." Yun Lintian said and helped Yun Qianxue up, stepping into the silver gate.
"Everyone, follow me."

Everyone came back to their sense and slowly followed Yun Lintian into the silver gate.

"Where is this place?" Yun Qianxue was shocked when she arrived in the Land of Beyond Heaven. Even though her Profound Vein wasn't fully recovered, she could feel abundant profound energy in this place. It was at least a hundred times richer than the Misty Cloud Peak!

One by one immediately gasped in shock when they arrived in this place. Especially Yun Qingrou, when she saw the Profound Spirit Lake, Heaven Sandalwood forest, and Serene Bamboo forest, her mind went blank instantly.

Seeing everyone were here, Yun Lintian explained, "From now on, this place will be everyone's new home. Right now, you can look around the place first and I will tell you the new rules later." He then turned to Yun Huanxin. "Third Aunt, I need you to go out with me. We will move everything to here."

Yun Huanxin snapped from a daze and nodded her head absentmindedly. Yun Lingwei raised her hand and said, "I'll go with you. With me, it's easier to remove the formations around the treasury."

"Alright." Yun Lintian approved and turned to Yun Meilan, "Aunt Meilan, please take care of her first."

Yun Meilan nodded and took Yun Qianxue from him. Following this, Yun Lintian headed out with Yun Huanxin and Yun Lingwei.

"We will go to a place first. Forth Aunt you can go to the treasury and waiting for us there." Yun Lintian remembered the Crown and told Yun Huanxin.

Yun Lingwei nodded, and her figure disappeared from the spot.

Both Yun Lintian and Yun Huanxin arrived in the hidden room underneath the throne. Yun Lintian used the power of the Misty Cloud Divine Origin to disperse the mist around the altar, and the Crown

appeared in his sight. This was the second time he saw the Crown. It was still as majestic as before. However, Yun Lintian didn't have time to appreciate it, as he simply put it into his interspatial ring.

Because it was too urgent, Yun Lintian failed to notice an abnormality on the Crown upon he touched it. It shook a little before he stored it away.

Chapter 54 - Departure

Yun Lintian and Yun Huanxin arrived at the treasury and saw Yun Lingwei had already removed all the restrictions around the place. Yun Lintian hastily put everything into his interspatial ring and made sure there was nothing left before he, along with Yun Huanxin, and Yun Lingwei, departed from this place.

"Forth Aunt, take these Profound Stones to activate the mist formation too. I want to block their eyes. And you can lower the defense a bit. Let them break the formation in the next five minutes." Yun Lintian took out several middle-grade Profound Stones and handed them to Yun Lingwei.

"Okay." Yun Lingwei was puzzled slightly. She retrieved the Profound Stones and headed to the formation's eyes.

Meanwhile, Yun Lintian and Yun Huanxin went to the healing chamber where the remains of the Misty Cloud Sect's disciples were kept.

Yun Lintian stood in front of them with a solemn expression. A flame of fury ignited within his heart. He swore to let the enemy die with the most pain possible.

"Sisters, I'm sorry. I failed to come back in time. But all of you don't have to worry. I will let the enemy pay the price sooner or later." Yun Lintian bowed ninety degrees to 176 lifeless bodies on the ice beds.

"I'll take everyone to the place. You can rest in peace there." Yun Lintian stored all of them into his interspatial ring and turned to Yun Huanxin. "Let's go. Before we leave this place, I will give them a big gift." A cold glint flashed in his eyes when he said this.

For some reason, Yun Huanxin felt a chill running down her spine at his words. She nodded slightly and brought him to Yun Lingwei.

"We didn't leave anything, right?" Yun Lintian asked.

Yun Huanxin and Yun Lingwei used their Spiritual Sense to check everything one last time and gave Yun Lintian a confirmation.

Yun Lintian sat down in the formation's eyes and adjusted something briefly.

Yun Lingwei's pupils shrank slightly when she saw this. She immediately recognized his action. "Lintian, are you...."

"Yes. I'm going to do that." Yun Lintian admitted nonchalantly. He stood up and looked at Qi Qianxing and the enemy with a murderous aura.

Yun Lingwei swallowed saliva nervously, and she looked at Yun Huanxin as if she wanted to tell her something, but she didn't in the end.

"Let's go." Yun Lintian waved his hand and headed to the transmission formation before vanishing into it with Yun Huanxin and Yun Lingwei.

At this moment, Qi Qianxing frowned upon seeing the Misty Cloud Peak was filled with white mist. He spread his Spiritual Sense out but could not penetrate the barrier.

"All of you, with me." Qi Qianxing realized there was something wrong. He floated to the front of the barrier and condensed profound energy in his right hand before he slammed at the barrier at the same time as others.

Boom!

The barrier shook, and a crack on the barrier instantly spread out like a spiderweb before it crumbled in the next moment.

"Go!" Qi Qianxing ordered, but he stood calmly in the air, did not go inside.

Qi Qianxing's several subordinates speedily went in and checked for a sign of life, but they didn't find any trace. Just as they were about to go back, several red lights shone brightly around the Misty Cloud Peak.

"Run!" One man among them shouted as he perceived a grave danger. However, before he could move, the Misty Cloud Peak immediately exploded in every direction.

Rumble—

Qi Qianxing conjured a protective barrier in front of him with a grimace expression. Now, he was certain all the Misty Cloud Sect's people had already escaped from this place... How could they use the transmission formation with such a large group? Besides, I've already laid a disruptor around here. He thought he had overestimated them already, but in truth, he still underestimated them.

"Your... Majesty." The old man with a white beard appeared among the debris and knelt in front of Qi Qianxing. Among them, only he survived as he was the only Ruler Profound Realm's practitioner.

"Take your time." Qi Qianxing didn't have much feeling seeing his subordinates died before him. The only thing he had on his mind right now was, where did Yun Qianxue and the rest go?

"Contact our people at the borders. No one allows passing." Qi Qianxing sent an order through the sound transmission jade.

"Third Aunt, we go north. I think Qi Qianxing was probably closing the borders by now. We need to hurry." Yun Lintian's group appeared in the cave nearby the river.

"North? Understood." Yun Huanxin was curious about it.

Yun Lintian called the silver gate out and said, "Fourth Aunt, you go back first and settle a place for everyone. I'll go back when we left the border."

Yun Lingwei nodded. She examined the silver gate briefly before she entered.

Following that, Yun Huanxin brought Yun Lintian toward the Heavenly Fortune Nations' Northern Border at lightning speed.

In the next thirty minutes, both of them appeared at the border and carefully observed several guards on a wall.

"Can we pass it without them knowing?" Yun Lintian asked.

Yun Huanxin checked the formation around the wall for a while before she gave him a confident nod. "I can use a long spatial leap."

"That's great. Let's go." Yun Lintian heaved a sigh of relief. Truthfully, although he didn't fear Qi Qianxing's pursuit, he still didn't want to leave a trace behind.

Yun Huanxin gathered the Space element for a while before he took Yun Lintian and disappeared from the spot. Later, they reappeared one kilometer away from the wall. No matter what, Qi Qianxing would never imagine there were only two of them leaving the Heavenly Fortune Nation instead of a large group as he expected.

"Are you alright, Third Aunt?" Yun Lintian asked concernedly as he saw Yun Huanxin panted slightly.

Yun Huanxin replied, "I can still do another five jumps. Let's do it." Without waiting for Yun Lintian to respond, she took him away directly.

After checking it was far enough from the border, Yun Lintian found a secluded place called the silver gate, going in with Yun Huanxin.

In the Land of Beyond Heaven, Yun Qianxue sat beside the Profound Spirit Lake with her legs soaking in while others were busy inspecting around.

Yun Lintian arrived beside her. "Mom, why don't you get into the lake? You will recover faster by doing that."

Yun Qianxue tilted her head to look at him with a smile and asked, "Is it done?"

Yun Lintian nodded and confessed to her honestly, "Mom, I've blown the entire Misty Cloud Peak. I hope you will forgive me." He didn't know whether Yun Qianxue would feel sad because of it.

Yun Qianxue's expression didn't change in the slightest. She replied softly, "You are the Sect Master now. You can do everything as you wish."

Yun Lintian hurriedly responded, "Mom, I will return the position to you once you've recovered."

Yun Qianxue didn't reply. She changed the topic. "Why don't you tell me, where is this place?"

Yun Lintian knew she deliberately avoided the topic, but he didn't insist further. "Do you remember the silver necklace around my neck?" Seeing Yun Qianxue nodded, he continued, "I don't know what's going on, but it somehow awakened and became like this."

Yun Qianxue frowned slightly. To her knowledge, there wasn't such a profound artifact that could create a space like this. This silver necklace was something from the higher world.

Seeing she fell into her own thoughts, Yun Lintian said. "Mom, I am going to bury our sisters at the mountain over there. What do you think?"

Yun Qianxue stopped thinking and looked at the lush mountain range behind the dazzling waterfall. She replied. "That's good. Brings mom there too."

Yun Lintian immediately gathered everyone and moved to the mountain range. The mountain wasn't high; it was only around 700 meters, enough to see everything within the Land of Beyond Heaven from the top of it. The scenery around here could be described as breathtakingly beautiful. Countless maple and oak trees were mixing together, giving off a soothing vibe.

Yun Lintian chose a relatively flat land to bury 176 bodies with their name on a gravestone. The atmosphere was solemn, filling with sorrow as several people wept silently. This would be the last time they see their beloved friends and fellow sisters.

After finishing everything, Yun Lintian turned around, facing everyone, and asked, "Do you want revenge?"

Everyone looked at him, and some of them nodded their heads while crying.

"Good! We will work hard from now on, and I will give all of you a higher level profound art. At the bottom of the lake, there are countless high-grade Profound Stones. I will give them to you. All of you will have the same share no matter what level you are currently at." Yun Lintian said.

Seeing everyone silent, Yun Lintian said further, "Today we will take a rest first, and tomorrow I will tell everyone a new rule. Now you can go." He then turned to the Four Hall Masters. "Four aunts, please come with me."

Yun Lintian brought Yun Qianxue, Yun Meilan, and the Four Hall Masters to his villa. When they arrived in the living room, they were immediately attracted by strange furniture.

"Where is this place? And what is this black box?" Yun Lingwei examined the TV with interest as she found it novel.

Yun Lintian smiled and said, "This is my house."

"Your house?" Yun Ruanyu asked in confusion.

Yun Lintian nodded. "More precisely, this is my father's house."

His words instantly dumbfounded everyone.

Chapter 55 - Change Of Status

"Your father?" Yun Qianxue asked, and everyone looked at Yun Lintian for the answer.

Yun Lintian thought for a moment before he replied, "It's hard to describe in one or two sentences." He looked at them and asked, "Do you believe in reincarnation?"

Yun Ruanyu was the first who responded, "I believe everything has to go through Samsara. So I think reincarnation is also true." Check out **latest novels** on [novel/bin\(.\)com](http://novel/bin(.)com)

The others also nodded their heads in agreement.

Yun Lintian said, "Actually, the current life is my second life. I used to live in the world called Earth and died in the past. I don't know how did I reincarnate again. When I opened my eyes, I already found myself in an infant's body."

Yun Qianxue frowned and felt complicated after hearing this. She believed Yun Lintian didn't lie to her, and his maturity that mismatched with his age had proved everything.

Seeing everyone fell into deep thoughts, Yun Lintian said nothing further. Before this, he had considered for a long time whether he should tell them about this, and in the end, he concluded it would be better to tell them directly.

For everyone in this room, Yun Lintian trusted them completely and believed even if one day the whole world had betrayed him, they would be the last person to betray him. Thus, he had no worry by telling them his secret. As for whether they would change their views on him, he had mentality prepared.

Yun Qianxue's eyes became resolute as she raised her head to look at Yun Lintian. She said, "From now on, you're not my foster son anymore."

"Sister!" Yun Ruanyu and others hurriedly stopped Yun Qianxue.

However, Yun Qianxue didn't react as she continued, "And they are not your aunts anymore. Since you become the Sect Master, you should call us by our names from now on."

Yun Lintian was shocked and felt lost in his heart. However, he quickly calmed himself down, as he had already prepared for this. He looked at Yun Qianxue and said, "Do you want me to return the position to Aunt Ruanyu... Ugh. I mean, to Senior Yun Ruanyu."

Yun Qianxue shook her head. "You don't have to. You will be remained as our sect master until you die."

Yun Lintian looked at Yun Qianxue for a long time. He knew, from now on, their relationship would become complicated. Although he felt lost, it was understandable. If one day he found out someone close to him was a reincarnated person with memory intact, he would be shocked as well. He could only hope they could slowly accept him in the future.

However, what Yun Lintian didn't aware of was Yun Qianxue had deliberately used this chance to change their status. She knew herself very well that she had a feeling for him. It might look immoral and illicit as they had a mother-son relationship, but she couldn't stop her feeling.

When she knew Yun Lintian was a reincarnated person, she both felt relieved and lost at the same time — she was relieved because she could finally openly express her feelings and lost because of the sudden change in their status. Because she had little time left in her, it led her to make this seemingly impulsive decision, but she had no regret. She would use these ten years to accompany him as much as she can.

Yun Meilan knew Yun Qianxue more than anybody in this place. She had guessed everything in her heart and wanted to curse at Yun Qianxue for her shamelessness by making such a cunning move. However, when she thought of Yun Qianxue's lifespan, she didn't know how to react further. As for the change between her and Yun Lintian, she didn't think about it much. To her, it was just a trivial change — Yun Lintian would call her by name, and that was the end of it.

The same went to the Four Hall Masters. Although they certainly had a strange feeling after knowing this, they didn't think it was difficult to accept, and the only thing that changed was only the way Yun Lintian would call them. As for who he was in his previous life, they didn't care about it as they believed in their judgment after watching him for many years.

Earlier, they were anxious because they knew how deep Yun Qianxue's feeling for Yun Lintian was, and they thought it might create a small fissure between them by doing this.

Yun Lintian didn't linger further. He started to explain everything in the villa, from TV, faucet, electric stove to the fridge. And he also told them about Earth, but he refrained from telling them his past since no one asking him, and he thought he would eventually tell them one day when they were ready to listen.

Yun Qianxue and the rest quietly absorbed the information, and they found it strange because the Earth didn't have any profound practitioner, but they could build something that could replace the practitioner's ability, for example, the air conditioner could release a cold wind and the electric stove could produce heat.

An hour later, Yun Lintian finished introducing everything in the villa to everyone and led them to his father's study room.

"What I am going to show you next, I hope everyone can keep it secret." Yun Lintian turned to face everyone and said.

Yun Qianxue nodded her head, "As the Sect Master's wish."

Yun Lintian felt uncomfortable hearing Yun Qianxue called him this. He put his messy feelings aside and opened the Library's door.

"Welcome back, Master." Upon everyone stepped into the Library, Lynn's voice immediately resounded.

"Who is it?" Yun Lingwei frowned and looked around vigilantly. Her Spiritual Sense spread out, but it was instantly blocked by an invisible wall.

Yun Lintian raised his hand to stop everyone from checking and said, "It's Lynn's voice. She is an artificial intelligence being. Her existence is similar to a profound artifact's spirit."

Only then Yun Lingwei and the rest had relaxed their vigilance.

Yun Lintian explained, "This place is called The Library. As you see these books here, they are profound arts from all over the world."

"You're incorrect, Master. They are from the Multiverse, not this world." Lynn corrected his words.

Yun Lintian smiled wryly. He said that because he didn't want to cause a massive shock on everyone, but who would have thought that Lynn would correct his words on the spot.

Yun Ruanyu was startled. "Profound arts from all over the Multiverse? What is the Multiverse?"

Lynn replied, "Multiverse is a group of multiple universes. It comprises everything that exists, the entirety of space, time, matter, energy, information and physic laws...."

"Stop!" Yun Lintian hurriedly stopped Lynn. He turned to Yun Ruanyu. "Aunt... Ugh. Senior..."

"You can call me Ruanyu directly." Yun Ruanyu interrupted.

Yun Lintian could not be blamed, as he had called them like this for several years. It was too difficult for him to change it in an hour. He took a deep breath and said, "Alright, Ruanyu. To put it simply, it is a place where several worlds like Azure world gathered together. If you want to go deeper, you can find a book here later."

Yun Ruanyu nodded in an understanding manner. She vaguely understood the concept, but it was still unclear.

Yun Lintian then told Lynn to introduce the rank of profound arts to them. The more Yun Qianxue and the rest listened to, the more frightened they became. The Misty Cloud Profound Art was the highest profound art they had come into contact with, but now, there were hundreds of thousands of higher-rank profound arts appeared in front of them. How could they stay calm?

"You mean all the books here are available for us?" Yun Ruanyu asked.

Yun Lintian replied with a smile, "That's right. I'll give all of you permission to access here."

Lynn suddenly said, "Master, you can set their identity as A-level."

Yun Lintian asked, "What is the use of A-level identity?"

"A person with A level identity can access to any book in this place, but it's limited in reading only. A person cannot bring it out or spreading content in the book to a third party. Violating the rules will result in wiping all the person's related memory." Lynn explained.

Yun Lintian was dumbfounded. "You can even wipe someone's memory?"

"Yes, Master." Lynn replied in a matter-of-fact manner.

Yun Lintian was silent for a while. At the same time, the curiosity of his old man had increased further... An A.I. that can erase people's memory? What kind of existence is this?

He asked, "What about S-level identity?"

"In the addition of A-level identity, a person with S-level identity can modify, write and spread content in the book to anyone without violating the rules. He or she can also grant anyone an identity below A-level." Lynn replied.

Yun Lintian pondered for a moment and said, "Give all of them S-level identity."

Yun Qianxue and the rest immediately looked at him in astonishment. They didn't expect Yun Lintian to give them this. Although the relations between them were close, in front of the value of every book here, they could be counted as nothing.

"Lintian..." Yun Qingrou wanted to say something but was interrupted by Yun Lintian.

"You don't have to say anything, Second... Qingrou. I trust all of you." Said Yun Lintian while waving his hand dismissively.

"Master, are you sure about it?" Lynn asked.

Yun Lintian replied firmly, "Yes. Please do it."

Lynn was silent for a moment before her voice resounded, "Detecting the targets... Targets found, Yun Qianxue, female, 65 years old, damaged Pure Water Profound Vein. Yun Ruanyu, female, 67 years old, Intermediate Water Profound Vein...."

"Granting S-level identity...."

"Identity grant complete. You can check your identity by touching the monitor."

After Lynn finishing her sentence, Yun Qianxue and the rest could feel a clear connection between them and the Library. It was as if they had become a part of it.

Yun Lintian let them digested the information for a while, and during this time, he took the Crown out and asked Lynn. "Lynn, do you know what is this?"

"Master, this is one of the Beyond Heaven Relics, The Beyond Heaven King's Crown. And it is about to awaken." Lynn replied.

"What do you mean by awakening..." Yun Lintian hadn't finished his sentence. Suddenly, a black and white light burst out from the Crown, immediately illuminating the Library into a black and white world.

Chapter 56 - Beyond Heaven King's Crown

Buzz—

The Beyond Heaven King's Crown trembled, constantly shining with brilliant black and white lights. The next moment, all the marquise jewels on eight tassels had also released bright multi-colored lights, Red, Blue, Yellow, Green, Dark Green, Gold, Purple, and Gray, respectively.

Yun Lintian, including everyone in this place, was startled by the sudden occurrence and had difficulty comprehending the current situation. They could only stand blankly in the black and white world.

The multi-colored lights slowly intertwined together, forming a multi-colored ring of light before it slowly descended onto Yun Lintian's head.

"Argh!" Yun Lintian immediately screamed in pain as the ring of light touched his head. He could feel an irresistible force trying to invade his body and soul.

At this moment, the Beyond Heaven King's Crown suddenly flew out of his hand, floating into the air in front of Yun Lintian, and rotated around for a while as if it observed him before shooting straight at his forehead and wholly vanished into his head afterward.

"AHH!" Yun Lintian's painful cry grew louder. A wave of pain emanated from a powerful force inside of his body. He felt like every part of his body was torn apart. His bones started to crack as well as his Profound Vein slowly ripped apart.

"Lintian!" Yun Qianxue cried out anxiously and ran to his side. However, she could not get close to him as an invisible power directly pushed her out.

Yun Ruanyu retrieved Yun Qianxue and created a protective barrier around them. She turned to the monitor and asked, "Can you tell me, what is going on?"

"The Beyond Heaven King's Crown is transforming Master's body." Lynn replied without giving any further explanation.

Yun Qingrou carefully examined Yun Lintian's body from the distance. She found his body had gone under a massive transformation. His Profound Vein was constantly ripped apart and reconnected.

"There shouldn't be a danger." Yun Qingrou said.

Yun Qianxue watched Yun Lintian gritted his teeth, letting out a muffled cry from time to time. She felt as if her heart had been shredded into pieces. It was the first time she had witnessed him suffering like this. The feeling of being powerless had constantly tortured her soul as she could only watch him with no way to help.

Yun Lintian was constantly convulsed as he fell on the floor, rolling left and right. The indescribable pain continued. It was a pain that far surpassed a human's capability to endure. No matter how strong Yun Lintian's will was, he could not resist and take it if this continued further. The multi-colored lights filled his vision. His mind became blurred, slowly losing his consciousness bit by bit, until he completely fainted shortly afterward.

The black and white lights still covered the Library, but the strong resistance around Yun Lintian had already gone.

"Please bring Master to the Profound Spirit Lake." Lynn instructed.

"Hurry!" Yun Qianxue was the first to react. She urged Yun Meilan anxiously.

Yun Meilan quickly grabbed Yun Lintian, bringing him to the outside and put him in the lake.

"How is he?" Yun Qianxue arrived at the lake and asked Yun Qingrou worriedly.

"He has lost all of his profound strength." Yun Qingrou said. "His body is still undergoing the transformation. I think he will become stronger after this, but I can't say how much it is."

Yun Qianxue didn't hesitate to jump into the lake and swam toward Yun Lintian. Yun Qingrou wanted to stop her because her body was still weak at this moment, but Yun Meilan prevented her from speaking.

"Let her." Yun Meilan said while using her Spiritual Sense to lock on Yun Qianxue. If something happened, she would rescue her immediately.

Yun Qingrou went silent and continued to focus on Yun Lintian's body.

"Reincarnation, this place and that crown." Yun Ruanyu muttered to herself while looking at Yun Lintian and fell into deep thought. She tried to figure out the mysteriousness behind him.

Meanwhile, Yun Huanxin and Yun Lingwei looked at each other silently. They didn't know what to do at this moment.

Yun Qianxue arrived beside Yun Lintian and checked his body in concern. She hated herself for being useless when something happened to Yun Lintian. Yun Qianxue pulled Yun Lintian to her arms and watched him with heartache.

At this moment, Yun Lintian found himself in a familiar dark world. It was the same as he encountered during The Sun's incident before. He looked around for a while but didn't find anything.

"I didn't feel pain anymore?" Yun Lintian muttered confusedly. The current situation was different from the time he faced The Sun.

Just as his voice dropped, he felt a piercing pain in his head as if he was stabbed by tens of thousands of blades, causing him to clutch his head, knelt on the ground, and let out a painful cry.

The pain continued for a minute before it disappeared. Yun Lintian found a bunch of new knowledge appearing in his mind.

"Beyond Heaven Profound Vein? Primordial Beyond Heaven Scripture?" Yun Lintian subconsciously uttered these strange words out while trying to comprehend all the information.

When he carefully read the Beyond Heaven Profound Vein's information, Yun Lintian's eyes widened open in shock at the discovery. The Beyond Heaven Profound Vein was a unique Profound Vein that belonged to the Beyond Heaven King. It had the ability to control every element from Fire, Water, Lightning to Space, Light, and Darkness element.

It was not rare to find a Profound Vein with a high affinity to multiple elements in one body. However, the one with the Profound Vein that contained all the compatible elements without losing balance was extremely rare.

Yun Lintian had a three elements variant Profound Vein, Wood, Water, and Fire element. Although his affinities to these elements were high, it could not avoid the fact that Water and Wood contradicted the Fire element, which greatly affected his practice speed. Even Yun Lintian chose to practice only one

element; he couldn't be compared to a pure element Profound Vein like Yun Qianxue's Pure Water Profound Vein.

Furthermore, the profound art that could combine multiple elements was extremely scarce. That's why the difference between a variant element Profound Vein and a pure element Profound Vein was massive, as the latter had an incomparably higher ceiling than the former.

In Yun Lintian's opinion, the Beyond Heaven Profound Vein was an absolute pinnacle of Profound Vein. It could achieve complete harmony between the elements. No matter what profound art Yun Lintian chose to practice, his practice speed could be the same as those who had a pure element Profound vein, and even better since he could practice in any element.

"Ha... Hahaha! Here comes another plot armor!" After understanding this, Yun Lintian suddenly burst into silly laughter. For 16 years — he had waited for this moment for 16 years, and it finally came! At this moment, he wanted to kneel and kowtowed to the God of Transmigration and his old man for leaving all of these cheats to him.

Yun Lintian laughed like a fool for a full minute before he calmed down and looked at the Primordial Beyond Heaven Scripture's information. It was a Primordial rank profound art, exclusively to the Beyond Heaven Profound Vein's owner.

The Primordial Beyond Heaven Scripture was divided into nine levels. Each level would make the practitioner's resistance to every element increased tremendously. To put it simply, if Yun Lintian had practiced until the ninth level, he would be immune to any element; his opponent could not harm him with an elemental attack.

However, the requirement was that Yun Lintian had to practice Essence, Body, and Soul altogether. He could not step further in his practice if one of them were left behind by the others by two levels.

Yun Lintian understood this point very well. He remembered most of the protagonists in many novels would always practicing Body, Essence, and Soul at the same time. Thus, he didn't surprise much about it when he saw the requirement. On the contrary, he was so excited instead. From today onward, he could become a protagonist in his own story.

Practicing the Essence was the easiest one. Yun Lintian could stay and absorb profound energy from Profound Stones. The Body Refinement needed a lot of resources like a pill and a proper environment to temper his body. The only problem was how to practice his soul? Currently, Yun Lintian had no idea about it. He could only ask Lynn later.

"Who is the previous Beyond Heaven King? That old man?" Yun Lintian put the Beyond Heaven Scripture aside and thought about the possibility of his old man being the Beyond Heaven King.

From the little evidence he had, Yun Lintian suspected that his old man was the Beyond Heaven King before, and he was likely still alive.

"Where did he go? Why did he bring me to Earth? And why did he have to go through a troublesome method by letting me die and revive later?" Yun Lintian racked his brain up as many questions were left unanswered.

"Never mind. I'll slowly think about it later. Now, how can I go out of this place?" Yun Lintian decided to stop thinking first and looked around the place, trying to find a way out by performing various actions.

Several minutes later, he gave up and sat on the ground helplessly. With nothing to do, Yun Lintian decided to try the Primordial Beyond Heaven Scripture.

Chapter 57 - Heaven-Defying Ability

While Yun Lintian was practicing, in the outside world, the mist around the Profound Spirit Lake suddenly rushed toward Yun Lintian and Yun Qianxue, forming into a gentle cyclone around them.

"What's going on?" Yun Huanxin was alarmed.

Yun Meilan's figure flashed and reappeared beside Yun Qianxue. "Come with me." She said and prepared to bring Yun Qianxue away.

However, Yun Qianxue shook her head firmly. "Leave me. I will stay with him."

Yun Meilan was silent. She looked at Yun Qianxue, who had already lost her brilliant for a while before she let out a soft sigh and back off to the shore.

"Don't worry. There is no danger. It seems Lintian's body is trying to absorb profound energy. Perhaps, Sister Qianxue could receive benefit from it too." Yun Qingrou came to Yun Meilan's side and explained.

At this moment, the mist cyclone gradually became thicker, completely engulfed both Yun Lintian and Yun Qianxue. The profound energy was madly absorbed by Yun Lintian, spreading throughout every part of his body. At the same time, Yun Qianxue could feel her damaged Profound Vein had speedily reconnected together. In a span of five minutes, her Profound Vein had recovered entirely to its original form. Moreover, she discovered all of her sixty-four Profound Entrances had been permanently opened!

"This..." Yun Qingrou suddenly noticed Yun Qianxue's condition. Her eyes widened open in disbelief as she was rendered speechless by the miraculous scene.

It was just not only Yun Qingrou, but the others were also the same. As a profound practitioner, of course, they knew what it meant to have all sixty-four Profound Entrances opened.

Besides the type of the Profound Vein, the number of Profound Entrance was another significant point to define a practitioner's talent. It was directly related to the energy absorption rate. The more opened Profound Entrances, the faster the absorption rate could become.

An ordinary person was gifted with approximately ten inborn Profound Entrances, while a person with high innate talent might be blessed with around twenty to thirty Profound Entrances. As for a person with over thirty opened Profound Entrances, it was extremely rare. At least, there was none in the Heavenly Fortune Nation.

Yun Qianxue was born with twenty-seven naturally opened Profound Entrances, and she could be regarded as the most talented person in her generation. Now, all of her sixty-four Profound Entrances had opened, Yun Qingrou and the rest could not imagine how terrifying she would become.

"That's great! With this, Sister Qianxue will have a chance to break through the Ruler Profound Realm within ten years!" Yun Lingwei was overjoyed. She had constantly been depressed and lost her appetite after knowing Yun Qianxue had ten years left in her, but now this miracle had given her a glimmer of hope again.

"Should we also join her? Maybe our Profound Entrances can open too?" Yun Huanxin suggested, and everyone glanced at each other, obviously tempted.

Yun Qingrou shook her head. "I don't think it's a good idea. Our entrance may interrupt the process and Sister Qianxue will be in danger."

Hearing this, everyone held themselves back and agreed with Yun Qingrou. Although they were tempted, they were not a greedy person.

The transformation hadn't stopped just that. Yun Qianxue's Profound Vein began to mutate, from Pure Water Profound Vein to an unknown deep blue colored and finally stopped as indigo-colored Profound Vein. The size of her Profound Vein had also increased. It became thicker and larger at least six times than an average profound practitioner's. Following that, she could feel a strong connection between her and the surrounding elements, as if she had become one with them.

Yun Lintian was oblivious to the outside world. Currently, he could feel his body become more robust, but it was limited to physical strength only. According to the Primordial Beyond Heaven Scripture, when he achieved the first level, his physical strength would become ten times stronger than a practitioner at the same level. That said, he would possess a power similar to the tenth level of Foundation Profound Realm while he was at the first level. With this alone, Yun Lintian could already see a bright future ahead of him. Without a doubt, he would have the ability to fight across the realm.

"Hu..." Yun Lintian opened his eyes, letting out a long breath. His face flushed with excitement when he realized he could comprehend the first level of the Primordial Beyond Heaven Scripture with no problem. Although he did not fully enter the first level, he could already grasp more than eighty percent of it. All he needed was time.

Yun Lintian suppressed his excitement. Right now, his priority should be getting out of this place. "How can I get out of this place?"

He racked his brain up for a while until he thought of something. "Right, the Crown."

Yun Lintian hurriedly closed his eyes, concentrating on his mind. He immediately found the black and white crown lying on the top of the silver gate. As his mind moved, the Crown quickly reacted, shot out of his forehead, and landed softly on his head.

Buzz—

Suddenly, multi-colored lights instantly shot out from the Crown and revolved around Yun Lintian's body. A shocking piece of information appeared in his mind in the next moment, causing his eyes to open wide.

"This is too heaven defying!" Yun Lintian exclaimed in astonishment after reading the information.

The Beyond Heaven King's Crown had two heaven-defying abilities. First, it could transform the target's Profound Vein into a complete element Profound Vein similar to his Beyond Heaven Profound Vein. Additionally, all the target's Profound Entrances would open permanently as well. However, it could not be compared to Yun Lintian's Beyond Heaven Profound Vein, as it could only possess half of Beyond Heaven Profound Vein's strength.

Second, when Yun Lintian summoned the Crown out and wear it, his element control would increase tremendously. He could easily manipulate and invoke any element at will. This could become one of his trump cards in the future.

However, there was a huge requirement. According to the information, all the jewels on the Crown were represented each element — Fire, Water, Wind, Wood, Earth, Lightning, Metal, and Space element. Yun Lintian had to find the Beyond Heaven Relics that represented respective elements to completely control all of them, similar to The Sun he had acquired recently.

Currently, Yun Lintian only had The Sun, which meant the Fire element was the only element Yun Lintian could fully control at this moment. In the future, he could slowly collect other Beyond Heaven Relics and unlock the remained elements.

After understanding all of this, Yun Lintian had an urge to find all of them right away. Unfortunately, his current strength was not enough, and he had no clue about the location of these relics. He could only pray that all of them have resided within the Azure World.

Yun Lintian touched the Crown on his head with a silly smile. He had complained about not having any cheat for several years. Now they had popped up, one after another. How could he not excite? With the

ability to transform people's Profound Vein, Yun Lintian's lofty dreams of turning the Misty Cloud Sect into the number one sect in the world were not far-fetched anymore.

Yun Lintian communicated with the Crown, expressing his intention to wake up from this conscious world. In the next second, his eyes opened, and he found himself floating in the lake. He tilted his head slightly and saw Yun Qianxue tightly hugging him with her eyes closed.

"Mom." Yun Lintian blurted out habitually and realized he couldn't call her this anymore.

Yun Qianxue opened her eyes and looked at Yun Lintian. She said softly. "You're awake. Are you still hurt?"

Yun Lintian shook his head and replied, "Not anymore. On the contrary, I feel great."

Yun Lintian noticed his profound strength had already gone completely, but his physical strength had increased tremendously. Even though he didn't enter the first level of Foundation Profound Realm at present, he was confident he could effortlessly subdue any practitioner at the second level of Foundation Profound Realm.

"That's good. We should go to the shore first." Yun Qianxue heaved a sigh of relief and signaled Yun Meilan to bring them away.

Yun Meilan and Yun Huanxin arrived beside them and brought them to the shore. Yun Qingrou quickly grabbed Yun Lintian's wrist, inspecting his body.

"What kind of Profound Vein is this?" Yun Qingrou was shocked when she examined Yun Lintian's Profound Vein. She discovered not only was its size had become ten times larger than an average profound practitioner's, but it had also brimmed with a powerful elemental aura.

Yun Lintian looked at his newly transformed Profound Vein and became astonished as well. He didn't see it when he was in the consciousness world. His Profound Vein's current appearance was entirely different from before. It had a faint black golden color, looking vigorous. Furthermore, he discovered all of his sixty-four Profound Entrances had already opened. With this, even though he had to practice from the beginning again, he didn't have to worry at all.

"You too, Sister Qianxue." Yun Qingrou went to check Yun Qianxue's Profound Vein, and she was astonished once again. She discovered Yun Qianxue's Profound Vein was similar to Yun Lintian except for the different color and its size was smaller.

"With this Profound Vein, you can basically practice any profound art without problem." Yun Qingrou gave a conclusion.

Yun Qianxue was overjoyed, but she didn't show it on the outside. She looked at Yun Lintian and silently vowed in her heart. As long as she could reach the Ruler Profound Realm within these ten years, she could extend her life force further. At that time, she would have at least another hundred years to accompany him.

Yun Lintian retracted his attention from his Profound Vein and turned to everyone. "All of you, follow me to the Library. I have something to tell you." He had already made the decision to transform all of their Profound Vein.

Chapter 58 - Transformation

"Lynn, how much do you know about the Crown?" In the Library, Yun Lintian asked Lynn after changing into a dry cloth.

"I know little about it, Master. All the related information has been deleted by your father a long time ago. Except for the name and its ability, I know nothing else." Lynn replied.

Yun Lintian was disappointed. He didn't understand why would his old man has to erase the information. After all, there was no harm to know it. He pushed this matter aside and asked, "You should know about the transformation ability, right? Is there any condition that I am not aware of?"

"To transform the target's Profound Vein, Master has to spend a great deal of your mental power. With Master's current level, you can use the ability for two times per day." Lynn explained.

After understanding this, Yun Lintian turned to Yun Qianxue and the others. "What I want to tell all of you is about the Crown. Since all of you have protected it for several generations, I think you deserve to know the secret behind it."

Yun Qianxue and the rest looked at Yun Lintian with expectation. The Crown was a mysterious existence in the Misty Cloud Sect. Generation after generation, they had tried to unravel its secret, but none of them could get a result. When they saw Yun Lintian could awaken the Crown, they obviously couldn't hold their curiosity.

Buzz—

The Beyond Heaven King's Crown appeared on Yun Lintian's head as he explained, "This is the Beyond Heaven King's Crown. As far as I know, it has two abilities. The first one is I can control and manipulate any element with the help of it. Right now, I can only control the fire element." He looked at Yun Lingwei and said, "Lingwei, can you throw a fireball at me?"

Yun Lingwei hesitated for a moment because she wasn't sure if Yun Lintian could handle it. However, seeing he was brimming with confidence, a small fireball appeared on her palm, and she threw it at Yun Lintian.

When the fireball flew toward him, Yun Lintian communicated with the Crown, and the red jewel on it immediately lit up. His eyes fixated on the fireball and attempted to control it with his mental power.

In the next moment, the fireball swayed slightly before it slowed down and gently landed on Yun Lintian's palm without harming him.

When everyone saw this scene, they were utterly shocked. Normally, when practitioners face the enemy's fireball or any other pure elemental energy attacks, they either avoid it or use their power to clash it head-on. There was no way they could directly control it as Yun Lintian did.

At this moment, Yun Lintian understood his current strength definitely could not handle a stronger fireball. Just only this small one alone, he felt as he needed to go all out. In the future, he could explore and practice more.

"This is insane." Yun Ruanyu uttered in disbelief. She possessed vast knowledge and understood about this more than anybody in this place.

Generally, a practitioner would come into contact with the rules of the element when they reached the Ruler Profound Realm. It required a high comprehension and a right opportunity along with a specific resource and a proper environment such as a volcano for the Fire element and a thunder field for the Lightning element to be able to grasp a glimpse of the rules of the element.

As far as Yun Ruanyu knew, even the Misty Cloud Sect's Founder could not completely control the water element at will even though she was labeled as an unparalleled existence in the world. However, Yun Lintian could do it effortlessly! What he did earlier was akin to bypass everything and became the overlord of the elements directly, which was why Yun Ruanyu claimed this was insane.

"What do you mean by you can only control the Fire element at this moment? Does it need other requirements?" Yun Ruanyu asked.

Yun Lintian replied without hiding anything. "The requirement is that I need to collect the respective element sources first. The reason I could control the fire element because I obtained the source of the Fire element from the Blazing Sun Mythical Realm."

"You have obtained it!?" Yun Ruanyu was amazed. When Yun Li came back, she didn't mention this. Yun Ruanyu only knew that Yun Lintian had used the formation to kill the enemy and nothing else.

Yun Lintian nodded. "Yes. The source of the Fire element is called 'The Sun' and I guess the source of the Water element should be 'The Moon' but I don't know where to find it." Yun Lintian then used this chance to tell everyone about the Blazing Sun Monarch.

"So that's how it is. We never saw him back then." Yun Huanxin said. Let alone seeing the Blazing Sun Monarch, she could not even approach the sun-like object at the core area in the past.

"What kind of the existence that can make Senior Blazing Sun obediently staying in that place until he died." Yun Qingrou said curiously, with somewhat a trace of admiration. She admired Yan Qi for his preservation. If it was her, she could not stay in the place until her lifespan ran out like that.

The corner of Yun Lintian's mouth twitched slightly. He wanted to tell her because Yan Qi was the ultimate simp, but he chose to remain silent. Although Yan Qi was too hateful by throwing him into The Sun without warning, Yun Lintian still appreciated his help during his stay over there. He didn't want to destroy Yan Qi's lofty image in Yun Qingrou's eyes. [Vissitnovelbin\(.\)com](http://Vissitnovelbin(.)com) for **new novels**

Yun Lintian didn't linger on this topic. He said, "The second ability of this crown is the ability to transform the target's Profound Vein into the complete element Profound Vein like Qianxue's and mine."

Hiss—

Yun Ruanyu and the rest gasped in cold air. They had witnessed Yun Qianxue's transformation earlier and were even tempted to join in midway. Now, Yun Lintian told them they could have this Profound Vein too. How could they not excite?

"Is there any restriction?" Yun Ruanyu asked.

Yun Lintian shook his head. "To tell you the truth, I don't know as well because I haven't tried it before. For Qianxue's incident, I don't know how it happened at all. Maybe it's because she was right beside me at that time... Alright, put it aside first. As Lynn said earlier, I can only use the ability twice per day. Who wants to try first?"

He then thought of something and said, "I forgot to tell you. After transforming, your profound strength will be erased, and you have to practice from the beginning once again. However, I think it's worth it. With this Profound Vein, I am sure, all of you can reach the Monarch Profound Realm with no problem. Not to mention we don't lack top rank profound arts here."

"You're underestimating it, Master. Reaching the Monarch Profound Realm is evident, nothing worth to mention. With the full-element Profound Vein, reaching Divinity is not a problem at all." Lynn interjected.

"What?" Lynn's words dumbfounded Yun Lintian and the rest.

"Divinity?" Yun Ruanyu asked in confusion. For Yun Lintian, Divinity was nothing new to him as he was always aware of the higher world. But for Yun Ruanyu and the others, this word had existed only in the legend.

"I recommend Miss Ruanyu to read the introduction of the universe book later." Lynn replied, and there was the name and number of the book appeared on the screen.

Yun Ruanyu nodded her head and said nothing more. As a bookworm, she was itchy to read every book in this place a long time ago, but the situation was not allowed.

"Back to the topic. Who first?" Yun Lintian brought everyone back to the topic as he was eager to try the ability.

"Let me." Yun Meilan stepped forward with no hesitation.

Yun Lintian nodded and took a wooden chair out. "Sit here."

After Yun Meilan sitting down, Yun Lintian communicated with the Crown and placed his palm above Yun Meilan's head.

Buzz—

Instantaneously, a multi-colored ring of light shot out of the Crown before descending on Yun Meilan's head, disappearing into her body shortly afterward.

At this moment, Yun Meilan could feel a powerful force invaded her entire being, transforming her Profound Vein, flesh and bones bit by bit.

"Ugh!" Yun Meilan groaned in pain as she felt as everything within her body was torn apart. All the muscles in her body kept twitching involuntarily from time to time. Unknowingly, she was already drenched in sweat.

Her Profound Vein was continuously being torn apart and reconstructed for 15 minutes before the process was complete.

Yun Lintian took a clean towel out and handed it to Yun Meilan. "It's done."

Yun Qingrou arrived at Yun Meilan's side and examined her brand new Profound Vein. "It's at least five times bigger than an average practitioner. But why is the color different from Sister Qianxue?" She was confused when she saw Yun Meilan's Profound Vein had a black color with a golden sheen similar to Yun Lintian instead of the indigo color like Yun Qianxue.

Yun Lintian was puzzled as well. He asked Lynn. "Do you know about this?"

"I'm not sure, Master. No doubt about it, Miss Qianxue's Profound Vein is a complete element Profound Vein. However, according to my inspection, her Profound Vein is at least twenty percent stronger than Miss Meilan's one." Lynn replied while showing Yun Qianxue's data on the screen.

Yun Lintian's mouth agape when he saw Yun Qianxue's data because there were the sizes of her bust, waist, and hip. Moreover, there was even the color of her specific place...

"Cough! Cough! Put it away, Lynn." Yun Lintian coughed in embarrassment and hurriedly told Lynn to put Yun Qianxue's data away.

Yun Lintian peeked at Yun Qianxue and saw there was no unpleasant expression on her face. He let out a sigh of relief as he realized Yun Qianxue and the others were probably didn't understand the meaning of these numbers. However, Yun Qianxue's following sentence made him almost fall to the ground.

"Impressive. You even know the color of that place?" Yun Qianxue looked at the screen with admiration.

Chapter 59 - Movie

Yun Lintian coughed awkwardly and tried to change the topic. "Who's next?"

Yun Ruanyu stepped forward, and Yun Lintian immediately executed the ability once again. The entire process was smooth sailing and ended within 15 minutes.

Suddenly, Yun Lintian's vision started to blur, stagnating two steps back, and he tried to hold the counter to stabilize himself.

"Lintian!" Yun Qianxue hurriedly caught Yun Lintian. She turned to the screen and asked. "What should I do?"

"Master has exhausted his mental power. He will be fine after sleeping." Lynn replied.

Yun Qianxue let out a sigh of relief. She then said to Yun Qingrou and the others, "I'll bring him to his room first."

"Wait." Yun Lintian shook his head, trying to regain the clarity. He then took all the foods out from his interspatial ring and said, "I'll have to trouble all of you to give this to our sisters first. We will discuss the sect's development later." Following that, his vision turned black and lay limp in Yun Qianxue's embrace.

"I'll take him to rest now." Yun Qianxue bid farewell to everyone and carried Yun Lintian toward his bedroom on the second floor.

Watching Yun Qianxue leave the Library, Yun Lingwei smirked, "She won't do anything to him, right?"

Yun Qingrou knocked on Yun Lingwei's head slightly, "You naughty girl."

Yun Ruanyu opened her eyes and clenched her fists, adjusting to her new power. "Not only my Profound Vein has become stronger but also my body."

"It's really a miracle." Yun Lingwei said while rubbing her head.

Yun Ruanyu turned to the screen and asked, "Lynn, can you recommend me a suitable profound art?"

"Yes." Lynn responded, and several profound art's names immediately appeared on the screen, sorting from Primordial rank to Heaven rank.

Everyone looked at the screen and was instantly dumbfounded by the long list. They lived for over sixty years, and this was the first time they saw this many Heaven-rank profound arts. Moreover, there were

even more higher-rank profound arts, and they could choose any of them freely. They did not know what to say now as they were rendered speechless by the enormous wealth in the Library.

"Hmm? There is the Misty Cloud Profound Art too? And it is a Divine rank profound art?" Yun Huanxin was surprised when she saw a familiar name on the list.

"Can you explain about this?" Yun Ruanyu asked. In the sect's record, the Misty Cloud Profound Art was a Mythical rank profound art, and there wasn't much information related to its origin.

"Sorry, Miss Ruanyu. I don't have information related to this book. I recommend you to look at the book by yourself." Lynn replied.

Yun Ruanyu looked at the book's number and went to get it while the rest continued to look at the list interestingly.

Yun Lintian opened his eyes drowsily and saw a familiar ceiling. The transforming ability consumed his mental power more than he thought. At this rate, he might have to sleep every time after he used it twice. If that were the case, he wouldn't have time to do other things anymore.

Yun Lintian rubbed his forehead tiredly and prepared to get up. Suddenly, he noticed someone was lying beside him. When he turned his head to look over, he was taken aback for a moment as he saw Yun Qianxue sleeping soundly on his side. As far as he remembered, he never saw her sleep like this before.

Looking at Yun Qianxue's wrinkles and her white hair, Yun Lintian felt uncomfortable. Even though her Profound Vein had been restored, her severe life force could not be recovered unless she breakthrough into the Ruler Profound Realm. However, Yun Lintian didn't know if she could achieve it within ten years.

I should ask Lynn later if there is any divine medicine to extend her life force. Yun Lintian thought and carefully lifted the quilt.

"You've woken up." Yun Qianxue perceived a movement and opened her eyes.

Yun Lintian smiled faintly. "Are you hungry? I'll cook something for you."

Yun Qianxue's eyes lit up, and she nodded her head with a bright smile.

The two of them headed toward the living room on the first floor. When both of them arrived, they saw Yun Huanxin and Yun Lingwei doing something with the TV as Yun Lingwei used her finger to poke it from time to time while Yun Huanxin was playing with the remote in a clueless manner.

"What are you two doing?" Yun Lintian asked with a chuckle. Their actions amused him greatly.

Yun Lingwei turned her chubby body around and said, "Oh? Wake up?... It's nothing, I just curious about this box. What is the use of it?"

Yun Lintian thought for a moment. Since there was no signal or internet here, the TV was almost useless. Suddenly he thought of something and said, "Wait a moment. I'll go get something."

Yun Qianxue, Yun Huanxin, and Yun Lingwei watched Yun Lintian left with puzzlement.

"How is it, Sister Qianxue? Is it comfortable?" Yun Lingwei used this chance to tease Yun Qianxue while Yun Huanxin was also smiling knowingly on the side.

Yun Qianxue glared at them and scolded jokingly, "Do you think I can't clean you two up, ah?"

Yun Lingwei and Yun Huanxin laughed amusingly. If it was the past, they might fear Yun Qianxue, but now their strength was higher than her. Hence, they dared to tease her openly.

"Wait until Lintian transforms your Profound Vein, I'll definitely clean both of you up at that time." Yun Qianxue threatened and sat on the sofa beside Yun Huanxin arrogantly.

Yun Lingwei and Yun Huanxin were paled in fright. They had completely forgotten about this.

"Ahem. I'm just joking, Sister Qianxue." Yun Lingwei smiled flattery and gave Yun Qianxue a massage on her legs while Yun Huanxin stood behind Yun Qianxue, massaging her shoulders like an obedient servant.

"Eh?" Yun Lintian came back with a USB drive and was taken aback by the scene.

"You are here? Hurry. Tell me about this box." Yun Lingwei hurriedly stood up and said. She didn't want to lose her face in front of Yun Lintian.

"Alright." Yun Lintian nodded. He went to the TV's side, plugged the USB drive on it, and used the remote to open a movie file.

The screen immediately displayed the intro of the Avenger movie. Yun Lintian said, "This box is called a television. It is a device to receive a visual image and a sound signal from a station and reproduce them on a screen." He thought this explanation might be difficult to understand and said further while pointing at the TV's screen, "In short, it can display something like this."

Yun Qianxue and the other two were immediately attracted by the movie on the screen and fell silent.

Seeing this, Yun Lintian scratched his head and went to the kitchen while thinking they won't addict to the movie later, right? However, he didn't know this was the beginning of a grand event of the sect in the near future.

An hour later, the dining table was full of various dishes by Yun Lintian. He went to the living room and saw the audience had increased to six people as they crowded on the sofa, watching the movie attentively.

"I think this green big man is certainly a top body refinement practitioner. Look, he can simply break anything without using profound energy at all." Yun Lingwei said with a serious expression.

Yun Lintian glanced at the screen and almost couldn't hold his laughter when he saw the Hulk she was talking about.

Yun Ruanyu nodded her head. "You're correct. Not only him, this shield man with a weird attire, too. Although his strength is weaker than that green man, he is more flexible. And this shield is definitely a profound artifact. You see, it's coming back to him every time he threw it out and he didn't use profound energy as well. I wonder what rank it is."

Yun Huanxin gave her opinion. "This man with a long mantle is very good at the space manipulation. He's even better than me. I can't send people to another place like that."

Yun Lintian couldn't hold it anymore and laughed out loud. His laughter attracted everyone's attention as they looked at him with puzzlement.

Yun Lintian laughed for a while before he explained, "What all of you seeing is a movie that created by using a special effect. And all of them are not a profound practitioner at all. They are an ordinary people."

"Movie?" Yun Ruanyu was puzzled. "You mean all of this is fake?"

Yun Lintian nodded. "You can understand as that. When we've time, I will explain to you in detail. Right now, let's eat first." He then went to the dining room, with others followed behind.

During the meal, Yun Lintian told them many things about the Earth's cultures and technologies, while Yun Qianxue and the rest listened attentively. They were embarrassed when they understood what the movie was. It turned out everything was acting.

Yun Lintian put chopsticks down and said, "I've something to discuss with all of you. I plan to change everyone's Profound Vein later. What do you think?"

"You mean including everyone on the outside?" Yun Qingrou asked. Seeing Yun Lintian nodded his head, she said further, "I have no objection. I believe in their loyalty."

Yun Ruanyu was also agreed with Yun Qingrou. "I have no objection as well. However, there is a big problem we need to think about it first."

"Please do tell." Yun Lintian responded.

"We need to find a way to prevent someone from prying onto our secret through them. Yesterday, I saw a profound technique that could read the target's memory. What if our people were caught by a powerful person who can use this technique?" Yun Ruanyu explained with a serious expression.

Yun Lintian nodded his head in an agreed manner. "I'll ask Lynn later." He then looked at Yun Lingwei and Yun Qingrou. "Lingwei, I have a task for you. After this, you go to the Library and study about the Earth's infrastructure system such as the electricity and water system. I plan to build a residence for everyone. I'll tell you a design later."

"As for Qingrou, I want you to study the fertile land in this place. We will grow food and medicinal plants by ourselves later. You can also design a medicine garden by yourself. As for the seeds, I'll give them to you later."

"Understood." Yun Lingwei and Yun Qingrou accepted the tasks readily.

Chapter 60 - Chaos Goddess Sutra

"Lynn, can you design a building?" In the Library, Yun Lintian sat behind the counter with a piece of paper and pen in his hands.

"Yes, Master." Lynn responded.

Yun Lintian was delighted and immediately explained his idea. "Great! I want to build seven pagodas at the center of Profound Spirit Lake. The highest one is in the middle, surrounded by six pagodas connecting each other with bridges, six directions to the shore. Along the bridges, I want to build a small pavilion every one hundred meters. As for the pavilion's size, it should be able to support around twenty people at the same time. Also, I want to fill the gap between each bridge with a battle stage. Everyone can use them for a sparring match."

"Understood, Master. What about the size of the seven pagodas, and the material?" Lynn took a note and asked.

Yun Lintian drew a rough design on the paper while replying, "The one in the middle will have twenty-four floors while the other six pagodas will have twenty floors. The floor's size should be around one thousand and five hundred square meters. You can design the training rooms for me. I plan to make these pagodas a profound training place. As for materials, in addition to the Heavenly Sandalwood and the Serene Bamboo, we can use white marbles on the floor as for the other materials. I need your help with that. The overall design should be like this." He then showed the drawing to Lynn.

"Understood, Master. Please wait for a moment." Lynn replied and fell silent.

While waiting for Lynn, Yun Lintian wrote a residence design on another paper. He had an idea to build a residence similar to a university's dormitory where four people could live together in one unit. There were four bedrooms, two bathrooms, one kitchen, and one living room within a unit. He also applied a modern Earth's building design onto it. The primary material would be the Heavenly Sandalwood, as anyone who lives in this place would have a quality sleep every day.

"Please take a look, Master." Lynn's voice resounded along with a detailed seven pagodas' design displayed on the screen.

Yun Lintian looked at the design and saw the design had everything he needed to know in detail, whether it was the complete pipelines map or the number of required materials. He gave a satisfied smile. "Thank you, Lynn. This is perfect."

"Thank you for your compliment, Master." Lynn replied with a cheerful voice.

Yun Lintian showed the residence's design to Lynn and said, "I'll have to trouble you about this as well. Also, you can design a cafeteria and a warehouse for me. The cafeteria should have a large kitchen area, and the dining area should be able to support a thousand and five hundred people at the same time."

Yun Lintian didn't mind building it big. Anyway, there were plenty of unused lands in this place, and he had a hunch the size would increase in the future. He also considered recruiting more people when he went out later. Naturally, the criteria would be the same. He would recruit an orphan only.

"Leave it to me, Master." Lynn replied happily and started to calculate.

"Oh right, can you leave the Library? I find it troublesome if I have to come here when I want to find you." Yun Lintian asked. He thought it would be great if Lynn could appear anywhere in the villa like those smart homes' A.I.

"Yes, I can, Master. However, I need your permission." Lynn responded, and there was a hint of expectation in her voice.

"Really? Alright, I agreed. The scope should be around this villa only." Yun Lintian was elated.

"Thank you, Master." Lynn answered cheerfully.

Yun Lintian leaned on the chair comfortably, looking at Yun Lingwei, who was reading an infrastructure system-related book attentively. After this project starting, it was time for him to look into a suitable profound art for himself and everyone. He closed his eyes, waiting for Lynn to give him a design.

A moment later, Yun Lintian woke up to Lynn's voice. "Master, I've finished everything. Please take a look."

Yun Lintian turned to look at the screen and saw an exquisite residence design, along with a cafeteria design and a warehouse design. After carefully checking on them, Yun Lintian nodded with satisfaction. "You've worked hard, Lynn. Can you print them out for me?"

"It's my pleasure to serve you, Master. You can retrieve the designs from the printer over there." Lynn responded.

Yun Lintian walked to the end of the counter and took all the designs from a typical laser printer. He stored all of them in his interspatial ring and walked back to the chair.

"Can you find me a suitable profound art?" Yun Lintian asked.

"Right away, Master." Lynn replied, and a list of profound arts appeared on the screen.

Yun Lintian skimmed through the list and felt dizzy, as there were too many for him to choose. He didn't know where to start first.

At this moment, Yun Qianxue walked into the Library and arrived at Yun Lintian's side. "What are you doing?"

Yun Lintian tilted his head to look at her and said, "You're here. I'm looking for a suitable profound art for everyone. I don't think we need to practice the Misty Cloud Profound Art further. We can choose a Primordial rank profound art directly."

Although Yun Lintian understood practicing in profound ways could not be greedy, he believed it was good in the long term by choosing a Primordial rank profound art. Even though it might be difficult for everyone to comprehend it, he didn't believe they could not achieve anything with a countless amount of resources within the Land of Beyond Heaven.

"Lynn, can you recommend a suitable Primordial rank profound art for everyone? I want to use it as the main profound art." Since Yun Lintian didn't know what to choose, he decided to ask Lynn directly.

Lynn didn't reply immediately and asked the question instead. "Master, are you going to recruit a male disciple in the future?"

"No!" Yun Lintian answered right away without thinking. He would be an idiot by letting those smelly men join his sect when he could enjoy all the beauties alone. With the addition of a man, undoubtedly, the sect would fall into chaos sooner or later. More importantly, he didn't want to create a power struggle environment within the sect.

Yun Qianxue laughed slightly when she heard his answer. As his former godmother, she understood Yun Lintian's thoughts very well. Don't be fooled by his usual calmed appearance. He was actually a pervert deep down. It was just that he was too good at controlling his body and emotion.

"Then I would like to recommend the [Chaos Goddess Sutra] for Miss Qianxue and the [Goddess of The Nine Heavens Scripture] to all the sect's disciples." Lynn replied and highlighted both profound art's names on the screen.

Yun Lintian looked at the two profound arts and saw both of them were the Primordial rank profound arts, but the [Goddess of The Nine Heavens Scripture] was the sub-profound art under the [Chaos Goddess Sutra].

"What is so special about these two?" Yun Lintian asked.

Lynn explained. "The Chaos Goddess Sutra was created by the Chaos Goddess of The Nine Heavens in the primordial time. She is the most powerful existence in the universe that the Earth is currently residing. The Chaos Goddess Sutra is exclusive to a female practitioner only. Anyone who has successfully practiced this to the highest level will gain the power to dominate the universe. Aside from that, there are three notable benefits. First, it will enhance the practitioner's appearance. The practitioner would become more beautiful as the practitioner making further progress in practice."

"Second, when the practitioner reached the Spirit Profound Realm, instead of tempering the practitioner's soul, the practitioner would have nine souls at the tenth level of the Spirit Profound Realm. As long as the practitioner's soul is not destroyed completely, the practitioner will have nine chances to be revived again."

"Lastly, when the practitioner reached the Origin Profound Realm, any attempt to read the practitioner's memory will be futile. As for the Goddess of The Nine Heavens Scripture, it is the profound art that Chaos Goddess has created for her subordinates. They share the same benefits and whoever has practiced this will be controlled by the one who practiced the Chaos Goddess Sutra."

"Control? You mean slavery?" Yun Lintian frowned upon hearing this. He didn't care if it helps everyone become beautiful. He cared the most about whether it would restrict them like a slave as he hated slavery to the bones.

"You're misunderstanding, Master. It's not the slave and master kind of control, but rather a firm connection between them, similar to the Misty Cloud Divine Origin in your body, Master. Moreover, when they fight alongside, their battle prowess will increase tremendously." Lynn explained.

Yun Lintian's eyes lit up instantly. Just imagined a beautiful goddess army in his mind, Yun Lintian immediately became excited. "Good! This is it!" He made a decision right away.

Yun Qianxue rolled her eyes at him, but she was extremely shocked in her heart. Earlier, she was at a loss because she would never have a chance to practice the Misty Cloud Profound Art again. However, after listening to the Chaos Goddess Sutra's description, she knew she would be an idiot if she still chose the Misty Cloud Profound Art.

Yun Qianxue knew that Yun Lintian would undoubtedly become an influential figure in the future. If she didn't want to be left behind, she needed to become stronger. Hence, choosing the Chaos Goddess Sutra was the right decision.
