

Myth Beyond 541

Chapter 541 Sudden Situation

"Heavenly Cloud Mountain? Are you sure?" Du Huanfeng frowned upon hearing Yiyi's report.

Yiyi lowered her head slightly as she replied. "Yes, Young Master Du. It came from his mouth. He also said there was a secret path to enter the mountain. However, Island Master Zhou and Leader Lei came before I could finish him."

Du Huanfeng stared at Yiyi for a long time, causing the latter's heart to pound nervously. He nodded his head slowly and waved his hand. Du San immediately stepped forward and handed a storage ring to Yiyi.

Yiyi looked at the storage ring in her hand and then heard Du Huanfeng say. "This is your reward. You should keep low-profile for a while."

Yiyi hurriedly bowed her head. "Thank you, Young Master Du."

Du Huanfeng waved his hand dismissively. "Go."

Yiyi held the storage ring tightly and quickly left the room under Du Huanfeng's doubtful gaze.

"What do you think?" Du Huanfeng asked after seeing Yiyi leaving.

Du San stroked his beard with a thoughtful expression. "Heavenly Cloud Mountain is located on the west side, and this place is full of mysteries. For thousands of years, no one had ever successfully entered the mountain before. To say that Mu Qixue has gone to this place and even entered is a bit absurd."

"However, theoretically wise, it is possible for her to go there. After all, she's a heaven-chosen genius. Her journey is always filled with good fortunes. Perhaps she had indeed fortuitously found a way to enter the mountain. It's difficult to confirm or deny this. Unless..."

"Unless we personally control Mu Chen." Du Huanfeng added before Du San could complete his sentence. "We had already missed a good chance. Lei Feifei is probably trying to guard him now since she had just lost two of her people."

Du San nodded his head gently, agreeing with Du Huanfeng's statement.

Du Huanfeng tapped his finger on the table, pondering for a while before saying. "Never mind. We will have a chance later."

Rumble—

As Du Huanfeng's voice fell, a massive explosion suddenly rang out from a certain distance, making him startle for a second.

Du San quickly spread his Spiritual Sense out and discovered countless profound beasts madly attacking the island's port.

"Beast tide?" Du Huanfeng was puzzled as he also saw this scene. Why were these profound beasts so daring?

In the private room, Yun Lintian listened to Lei Feifei's story and couldn't help wondering what kind of bloody plot he had encountered. A commoner background mother was secretly killed in a power struggle, allowing her daughter to embark on the path of revenge?

"Listening to you, Lei Jun should be arranged as the next palace master. His position is so stable. Why did this Third Master or whatever try to get rid of you?" Yun Lintian asked in confusion.

Lei Jun was a son of Lei Zhenxiang's elder sister, who passed away for a long time, and he had already been treated as the next palace master. There shouldn't be anything to do with Lei Feifei, yet this Third Master tried his best to get rid of her. There must be something beyond this.

It was Zhou Qingyu who answered this. "The situation in the Divine Thunder Palace is more complicated than you think. It's true that Feifei's existence cannot threaten Lei Jun's position, but it's not entirely impossible because of her brother, Palace Master Lei."

She glanced at Lei Feifei and continued. "Although he's an incompetent brother, he's truly caring about her. Because of this point, Lei Baiyu is afraid that Palace Master Lei might give Feifei a high status later."

"It's not only that." Lei Feifei added. "Lei Zhenxiang has a lovesick problem. Everyone in the Central Continent knows that he's obsessed with the Frozen Moon Palace Master, Han Bingling. That's why he doesn't have a wife until now."

Yun Lintian had a weird expression. Is this guy Han Bingling's pursuer? I wonder what kind of reaction he would have if he knew I had touched her already?

He put this thought aside and asked. "So, it means he doesn't have a descendant? And if something happened to him, your existence will become a threat for Lei Jun directly."

"Yes. With Lei Baiyu's personality, he doesn't allow a tiny possibility to exist." Lei Feifei replied.

Yun Lintian touched his chin and thought for a moment before asking. "You said that Lei Baiyu is likely to have something with the Endless Sea Lord? Could it be the reason he keeps supporting Lei Jun is to control the Divine Thunder Palace through him?"

At first, he didn't understand why Lei Baiyu was standing on Lei Jun's side, but he immediately understood everything when he thought about the traitors among Lei Feifei's group. This Lei Baiyu was definitely trying to make Lei Jun his puppet to control the Divine Thunder Palace.

Zhou Qingyu and Lei Feifei glanced at each other before nodding their heads. They also had this conclusion.

Yun Lintian suddenly smiled. "If that's the case, the one in danger should be Palace Master Lei, not Sister Lei. In my opinion, you have to give him this information even though you don't want to talk to him."

Once Lei Baiyu controlled the Divine Thunder Palace, it wasn't about you, me, or Senior Zhou anymore. It will implicate the whole world."

Lei Feifei leaned backward and closed her eyes gently. She was naturally aware of this point, but the hatred in her heart had prevented her from contacting Lei Zhenxiang. Perhaps she really needed to put the enmity down for once.

Rumble—

All of a sudden, an explosive rumble rang out from a distance, causing everyone in the room to stand up.

Zhou Qingyu and Lei Feifei swiftly spread her Spiritual Sense out and saw several profound beasts crazily attacking the port.

"This..." Lei Feifei frowned in puzzlement. She couldn't believe her eyes. These profound beasts actually dared to attack the Black Jade Island.

Zhou Qingyu took the transmission jade out and said. "Activate the outer formation and tell Captain An to control the port. I'll be there soon."

Chapter 542 Strange Discovery

"Do you need my help?" Lei Feifei asked.

Zhou Qingyu shook her head. "I got this."

"Alright." Lei Feifei didn't insist further and sat back down on her seat.

Meanwhile, Yun Lintian looked at several strange sea creatures attacking the port with a thoughtful expression. Judging from their aura, they were the peak of the Ruler Profound Beast at best. Moreover,

they didn't have any Abyssal Energy in their bodies. Why would they attack this island for no reason? Had they gone insane?

Yun Lintian refused to believe the profound beasts that possessed intelligence would choose to attack the Black Jade Island. Although the time he was on this island was short, Yun Lintian could see how powerful this place was. To be able to guard the Black Jade mine that both humans and profound beasts coveted for a long time, Zhou Qingyu was surely not an ordinary monarch.

As Zhou Qingyu was about to leave, Yun Lintian suddenly stood up and said. "Can I go with you to take a look, Senior Zhou?"

Zhou Qingyu glanced at Yun Lintian and then at Linlin before nodding. "Come."

Seeing that Yun Lintian was leaving, Lei Feifei had also decided to follow. Anyway, she didn't have anything to do here.

When Yun Lintian's group arrived at the scene, they immediately noticed Du Huanfeng standing on a high platform, watching the battle scene calmly. It was quite surprising to see him here.

Du Huanfeng noticed the arrival of Yun Lintian's group. He smiled and greeted them. "It's been a while, Island Master Zhou." He then looked at Yun Lintian and said teasingly. "Why are you here, Brother Mu? I thought you have no strength left already."

Yun Lintian pretended to be embarrassed by scratching his nose and replied. "Please don't tease me, Brother Du."

Zhou Qingyu and Lei Feifei witnessed Yun Lintian's acting skills for the first time. They looked at him strangely as the contrast between the current Yun Lintian and the earlier calm and composed him was too great. No wonder he could deceive Du Huanfeng for all this time.

Zhou Qingyu didn't pay attention to Yun Lintian and Du Huanfeng further. She quickly moved to the front and asked a young woman in a black robe. "How is it?"

The young woman, An Hua, bowed her head and replied respectfully. "Report Island Master, everything is in control now. We are still investigating the cause of this matter."

Zhou Qingyu frowned and spread her Spiritual Sense into the sea. However, she couldn't find anything after a long time. Was this really a normal profound beast tide?

Yun Lintian took this chance to leave Du Huanfeng's line of sight and secretly opened Eyes of Heaven to scan the profound beasts. Suddenly, he discovered a strange red dot on the profound beasts' soul gate position. There was a trace of killing intent emitting from it, but it was extremely faint to the point that the monarch's powerful Spiritual Sense could not detect it.

Bang!

At this moment, the head of a lobster-like profound beast was exploded by an island guard. Yun Lintian saw the strange red dot immediately moving out of its body and vanished into the sea. Seeing it still existed after the profound beast died, Yun Lintian was even more curious, but he could not simply follow it down to the sea under Du Huanfeng's presence. He could only give up and return to Lei Feifei's side.

While he was walking back, Yun Lintian secretly communicated with Linlin. "Linlin, did you see something strange about these profound beasts?"

Linlin tilted her head cutely as she replied. "I think they are under the control of someone."

"Oh?" Yun Lintian was surprised.

Linlin shook her head. "I'm not sure, Big Brother Yun. It comes from my intuition."

Yun Lintian touched his chin and was lost in his thought. Normally, Linlin would easily detect something unusual on any profound beast with a glance. However, she actually could not see this strange red dot. What was going on here?

When Yun Lintian returned to Lei Feifei's side. He immediately asked. "Sister Lei, is there anything besides the Black Jade mine under this island?"

Lei Feifei's brows raised slightly. "There's nothing else. Why?"

Yun Lintian didn't reply to her question but asked further. "Can I go take a look after this? I want to see the mine once."

Lei Feifei was not a fool. She didn't believe Yun Lintian simply wanted to visit the mine. He must discover something.

Thinking of this, she said. "Sure. I'll let Qingyu arrange it for you."

The battle did not last long. Ten minutes later, all the profound beasts were either killed or subdued, and the port had returned to its original calm again.

At this moment, Du Huanfeng walked toward Yun Lintian and asked. "What's your next plan, Brother Mu? Do you want to go with me? I am going to visit the Mystic Pavilion soon. I heard that there's a supreme treasure at the auction today."

"Supreme treasure?" Yun Lintian asked in surprise.

Du Huanfeng nodded. "Mhm. Mystic Pavilion always adopts this mysterious theme. So, I don't know what kind of this treasure is. Aside from this, there are other treasures like Floating Metal and Golden Sand. It should be quite lively there."

Hearing the Floating Metal's name, Yun Lintian's interest was immediately piqued. Although he was sure it should be a small portion, he still wanted to get it.

Naturally, if he wanted to participate in this auction, Yun Lintian couldn't go with Du Huanfeng. Therefore, he declined politely. "Sorry, Brother Du. I'm not interested in these things. I think I'll go back to get some rest. As you know...."

Du Huanfeng laughed generously and patted Yun Lintian's shoulder while giving him a meaningful smile. "I understand. I understand. Go. Get some rest."

Yun Lintian scratched his head and lowered his head in embarrassment. "Then, I'll go back first." He walked for a few steps and then patted his forehead. "By the way, I don't seem to have a place to live yet. Can I trouble Brother Du about this?"

Du Huanfeng was taken aback and laughed. "Sure. Leave it to me."

Chapter 543 Disguise

"Your Shadow Concealment is not bad. Ordinary monarchs can't detect it for sure." In the Land of Beyond Heaven, Hongyue looked at a middle-aged man before her expressionlessly.

This middle-aged man was Yun Lintian after using Shadow Concealment to change his appearance. He was planning to participate in the upcoming auction with his disguised identity.

? The Shadow Concealment not only changed his appearance and aura but also changed his voice. This was the perfect art for the Cloud Shadow team. The only downside of this profound art was the profound energy consumption. The user had to spend more of their energy to prolong this state.

However, as someone who had Profound Vein more than ten times larger than any practitioner, Yun Lintian simply had no issue with this. He could even maintain this state for a whole week without recovering his profound energy.

"Somehow, I'm not confident in this." Yun Lintian said while checking on himself.

"You? No confidence? How rare." Hongyue sneered. "Back then, the Shadow God was the trickiest person the universe had ever seen. Countless gods hunted him down, but none of them could capture him. Do you think a mere mortal can do it?"

"You know the Shadow God? Is he still alive?" Yun Lintian asked in surprise. He thought that the Shadow God was already dead a long ago. Otherwise, how could his Shadow God Scripture appear here?

Hongyue curled her lips and said. "That's a secret."

Yun Lintian clicked his tongue in dissatisfaction and turned to Linlin. "Linlin, big brother will leave you here for the time being. Are you okay with it?"

Although Linlin wanted to go with him, she still complied with his wish in the end. "Mhm. Be careful out there, Big Brother Yun."

Yun Lintian patted her head gently and reverted to his original appearance before leaving the Land of Beyond Heaven.

He then secretly left the Jade Pavilion and found a remote place to change his appearance to the middle-aged man before heading to the Mystic Pavilion building.

The Mystic Pavilion building was located at the prime location of the island. It was built with a unique blue marble, emitting a majestic aura. There were only a few receptionists at the entrance without any guard nearby. However, no one dared to be presumptuous here, and they even showed their respect to the receptionists. It could be seen how prestigious Mystic Pavilion was.

The Mystic Pavilion always held a public auction no matter how precious the treasure was. Anyone could freely participate as long as they did not cause trouble for others participants.

Before coming here, Yun Lintian had checked the general information about today's auction. There were twenty treasures, and more than half of them were either precious materials or magical plants, while the rest were artifacts and profound arts.

Yun Lintian's goal was naturally the Floating Metal. It was said there was around a hundred kilograms worth of metal for auction today. As for other treasures, it depended on the situation.

"Hello, esteemed guest. Are you coming alone?" A young female receptionist stepped forward upon seeing Yun Lintian approaching the auction hall entrance.

"Yes." Yun Lintian nodded calmly.

The receptionist gave a professional smile and asked. "Perhaps this is esteemed guest's first time for participating in the auction?" Seeing Yun Lintian nod his head, she explained further. "Our auction hall has four zones for esteemed guests to choose from. The first one is the front row closer to the stage, and the second zone is a bit further back. As for the third and fourth zone, they consist of twenty and ten private rooms respectively. Naturally, the first two zones are free for everyone. Meanwhile, if the esteemed guest prefers a private room, there's a certain amount of the room's fee. I wonder which one do you prefer?"

Yun Lintian thought for a moment and asked. "How much for the private room in the third zone?"

"That would be a hundred high-grade Profound Stones." The receptionist replied.

"What about the room in the fourth zone?" Yun Lintian asked further.

The receptionist smiled apologetically as she said. "My apologies, esteemed guest. All the rooms in the fourth zone have been taken already. However, if the esteemed guest wants to take it next time, the price would be ten thousand high-grade Profound Stones."

Yun Lintian nodded and handed a hundred high-grade Profound Stones to the receptionist. "Arrange the room for me."

The receptionist received the Profound Stones from Yun Lintian and led him into the auction hall.

Inside the hall, there was a violet flame brass lamp every ten steps. These flames will never die, and all of these bronze lamps without exception were not low-level artifacts.

Along the way, Yun Lintian scanned the crowd briefly and found most of them were at the Ruler Profound Realm. Judging by their appearances, they seemed to be travelers more than coming from prominent forces.

Yun Lintian glanced at several rooms on the top platform and saw shadowy figures behind thick glasses. Evidently, all of them had already arrived. One of them was naturally Du Huanfeng. What about others, then?

Soon, Yun Lintian arrived in front of a small room under the receptionist's guidance. "Here, this is esteemed guest's room. Feel free to contact us through the transmission stone if you have anything. I wish you a happy auction." Afterward, she turned around and walked away.

Yun Lintian looked around briefly and entered the room. This room was around fifteen square meters, enough for three or four people to settle in. There was a long comfortable sofa and a small table before it.

Yun Lintian immediately found a blue stone nearby the sofa. This must be the transmission stone the receptionist talked about.

After checking the room, he calmly sat down on the sofa and contacted Hongyue. "Can you see it?"

"Of course, I'm not blind." Hongyue voice resounded in Yun Lintian's mind. She was now sitting in the living room, watching the projection of the auction hall in front of her with Yun Ruanyu and others.

Yun Lintian was speechless.

Chapter 544 The Auction Begins

"It's quite lively, huh?" Yun Lingwei looked at the scene in relish. This was the first time she saw this level of the auction hall.

"I'm curious. What is the so-called supreme treasure they are talking about?" Yun Huanxin said curiously.

"It must be something on the divine rank." Yun Qingrou expressed her opinion.

"You all think too much. Nothing in this lower world can be called supreme treasures besides the Land of Beyond Heaven you are residing in right now." Hongyue said disdainfully.

Everyone was rendered speechless instantly. The standards between Hongyue and them were entirely different. How could they treat the divine-rank treasure as worthless garbage like her?

At this moment, the light inside the hall gradually dimmed, and everyone immediately quieted down. All of their eyes were fixated on a crystal stage at the center of the hall, waiting for the auction to start.

A beautiful figure in a blue robe slowly walked onto the stage. Her temperament was elegant and noble. Coupled with her devilish figure, all the young men were unable to shift their gazes elsewhere and continued to stare at her.

The elegant woman stood calmly at the center of the stage and briefly swept her gaze over the crowd before revealing a charming smile. "Welcome everyone to our Mystic Pavilion. My name is Wu Xue, your auctioneer today."

The crowd below immediately applauded loudly, fully expressing their enthusiasm. Obviously, they weren't excited about the auction but about the beautiful auctioneer. Even if they left this place emptied hand today, they didn't regret it.

"Before we start, I would like to explain our rules first." Wu Xue said. "Anyone who causes trouble will be expelled from this place directly and will be put on our blacklist."

"Secondly, all the auction items are meticulously identified by our experts before we take them out. Therefore, the price of these items is naturally fair. In order to let the auction proceed smoothly, we do not allow anyone to question us about the price. I hope everyone understands this."

"Lastly, the highest bidder wins. Any unreasonable interference or maliciously bid in order to make other parties lose the chance to win the item is not allowed here. What is the action that is classified as the two categories above? Only us have the right to judge."

As her voice fell, those who came here for the first time glanced at each other and nodded their heads in satisfaction. The Mystic Pavilion was indeed worthy of its reputation. These auction rules were fair and square, allowing a weak participant without any background to bid at ease.

Yun Lintian listened to this and felt it was reasonable. With these rules, there was no need to fear those people in the fourth zone. However, whether they could keep the items after leaving this place was their own problem.

Wu Xue looked at the crowd and said. "Since everyone already understands this, we shall let the auction begin."

Wu Xue clapped her hands, and two beautiful maids came on the crystal stage and put the auction items on top of the table to show the audience.

The first auction was a magical herb called Rainbow Lilly. It was a rare ingredient for a high-level pill that helped users improve their constitution.

"This is the Rainbow Lilly. For those who didn't know, among a hundred million magical lilies, there would be only one that successfully transformed into the Rainbow Lilly. I believe I don't need to explain further about how rare it is." Wu Xue explained.

"Usually, the Rainbow Lilly is used as a main ingredient for the Foundation Pill. This pill will allow practitioners to improve their foundation without any side effects. If the winner of this Rainbow Lilly wants to turn it into the Foundation Pill, we can provide a high-level alchemist for you with a friendly price."

Wu Xue smiled at the audience and said. "The starting price is ten thousand middle-grade Profound Stones. Everyone can start your bid now."

"Rainbow Lilly? Do we need this?" In the Land of Beyond Heaven, Yun Lingwei looked at the rainbow-colored flower in surprise and asked.

Yun Qingrou shook her head. "If it was before, we indeed need this. But now, we don't need to improve our foundation anymore."

Her words were not unreasonable. Everyone, including the future disciples of the Misty Cloud Sect, had to start anew from the beginning in order to practice the sect's profound art. Their foundation would naturally be rock-solid. Therefore, the Foundation Pill was entirely unnecessary for them.

Yun Lintian also held the same idea. He could, of course, bid for the Rainbow Lilly, but he didn't want to expose his wealth from the start.

The audience started to raise their bid one by one until it was ended at two hundred thousand middle-grade Profound Stones. The winner was a middle-aged man with an unstable foundation. Everyone could obviously see why he urgently needed this Rainbow Lilly with a glance.

p After the winner was found, Wu Xue continued introducing the second item right away. This time, it was a high-level material for crafting an artifact.

Yun Lintian wasn't interested in this and continued to watch the scene boringly.

In a blink of an eye, nineteen items were successfully auctioned away, and Wu Xue began to introduce the twentieth item.

At this moment, two beautiful maids walked onto the stage with a chunk of grey-colored metal that seemingly floated above the maids' hands.

Yun Lintian's half-closed eyes instantly opened wide as his long-awaited item had finally appeared. This lump of metal was no other than the Floating Metal!

The two maids placed the metal on the table, but it didn't touch the table at all. Instead, the metal was floating gently, as if it was extremely light.

Wu Xue said to the audience. "Our twentieth item is one of the rarest metals in this world. The Floating Metal!... I believe everyone here is aware of a profound skyship. This Floating Metal is the most important material to create one. Of course, it could also be used to create other artifacts, such as a flying sword.

"To avoid wasting time further. The starting price is one hundred thousand high-grade Profound Stones. Everyone can start your bid now!"

Chapter 545 Bidding

As Wu Xue's voice fell, there weren't many people placing the bid. After all, it was too expensive for ordinary people, and the amount wasn't large.

Yun Lintian waited for a while and discovered there were only two people from room number three and number six on the fourth zone bidding for it.

"The esteemed guest from room number three has raised the bid to four hundred thousand." Wu Xue announced and looked at room number six, waiting for the next bid.

However, there was no further bid from room number six. Wu Xue waited for another minute and confirmed there were no other bidders. Just as she was about to announce the winner, Yun Lintian's voice rang out. "Five hundred thousand."

Wu Xue's eyes flashed with a strange light as she quickly looked toward Yun Lintian's room. A smile appeared on her face. "The esteemed guest from room number twenty has raised the bid to five hundred thousand."

Inside room number three, a handsome young man clad in white frowned slightly when he heard this. He glanced at a beautiful woman beside him and said. "Can you check that room?"

The beautiful woman did not say anything, but her Spiritual Sense silently spread out toward Yun Lintian's room. However, she soon discovered another layer of an isolation formation completely blocking her Spiritual Sense, making her unable to pry further into the room.

She retracted her Spiritual Sense and shook her head. "Can't"

A trace of surprise appeared on the young man's face. He understood the strength of the woman beside him well. Silently penetrating any monarch-level isolation formation wasn't a problem for her, yet she actually ended up failing. The person in that room seemed to have an unusual way of deploying the isolation formation.

The young man thought for a moment and decided to raise the bid. "Six hundred thousand."

Before Wu Xue could say anything, Yun Lintian immediately followed. "Seven hundred thousand."

The eyes of the young man in room number three narrowed slightly. This was the first time someone had challenged him like this. He opened his mouth. "One million."

As his voice fell, Yun Lintian's voice followed almost instantly. "Two million."

The audience in the first and second zone glanced at each other in shock. To them, one million high-grade Profound Stones was the amount that they probably could never earn in their lifetime, yet the man in room number twenty had directly added another million just like that. How rich was this person?

Inside room number one, Du Huanfeng had a hint of surprise on his face. In his eyes, one million was already the maximum price for this amount of Floating Metal. He didn't expect there would be someone willing to pay two million for it.

"Who is this person? Why did he stay in the third zone?" Du Huanfeng was puzzled. With this massive wealth, it was impossible for this person to be an unknown figure.

,m Du San suddenly said. "No matter who he is, he has now offended the young master of the Great Roc Clan. We will know his identity soon."

Du Huanfeng nodded his head and said nothing more.

The young man in room number three was Pei Xiewen, the young master of the Great Roc Clan. His clan was one of the nine pillars of the Nine Profound Beast Palace. It could be said his status was similar to Du Huanfeng.

As for the woman beside him, her name was Bi You. She came from the Heavenly Fox Clan, another pillar of the Nine Profound Beast Palace, and she was Pei Xiewen's fiancé.

The two had recently visited the Central Continent and were on their way back to the Western Continent. They decided to take a rest on this Black Jade Island before continuing their journey and coincidentally participated in this auction.

Pei Xiewen thought for a moment and said. "Forget it." He also held the same opinion as Du Huanfeng. One million was already the maximum price he could bid for it. Even though he was rich, he was unwilling to spend more than that for this tiny piece of Floating Metal.

Wu Xue obviously heard this and believed there were no other bidders. She quickly concluded. "Congratulations to the esteemed guest in room number twenty. We will deliver this Floating Metal to you in a while."

"What a prodigal," Hongyue complained. She didn't think this Floating Metal was worth that money. What could Yun Lintian do with that small piece of metal?

Yun Ruanyu and others glanced at each other in puzzlement. They also didn't think it was worth it. However, Yun Lintian had already decided it was useless for them to say anything now.

Yun Lintian was naturally aware of this, but he didn't think about it much. He bought it for study purposes, anyway. When he got his hand on the Floating Metal in the future, he could directly create a skyship without wasting his time.

Knock! Knock!

At this moment, a knocking sound rang out at the door, and Yun Lintian went to open it directly.

The young receptionist who brought him here appeared with the Floating Metal in her hand. "Dear esteemed guest, this is your item."

Yun Lintian immediately stored the Floating Metal away and asked. "Can I pay it here directly?"

The receptionist gave a professional smile as she said. "The esteemed guest can choose to settle it here or go to the back room with me."

"I'll pay it here." Yun Lintian said and handed a storage ring he had prepared earlier to her.

The receptionist checked the content inside briefly and said. "Thank you for your patronage. I wish you a happy auction. Again, if the esteemed guest has something to inquire about, you can contact us anytime."

Yun Lintian nodded and was about to close the door. All of a sudden, he perceived a faint Spiritual Sense sweeping over his body and quickly retracted in a split second. A strange light flashed across Yun Lintian's eyes as he could guess the owner of this Spiritual Sense.

Chapter 546 Earth Core

"Heh, looks like you're in trouble." Hongyue curled her lips. She had also detected the trace of Spiritual Sense earlier.

Yun Lintian closed the door and activated the isolation formation before asking. "Did this person see through my disguise?"

"Unfortunately, no," Hongyue said somewhat regretfully, causing Yun Lintian's face to twitch slightly. "However, this person definitely has something special. I can't judge it from here."

"Something special?" Yun Lintian frowned slightly. Judging from how secretive this person's method was, it was understandable why Hongyue said this.

"Why don't you go over and say hello so I can see this person clearly?" Hongyue suggested.

Yun Lintian's face darkened. Who the hell would do that?

At this moment, Wu Xue announced. "All the twenty items had been passed. We will now enter the second stage of the auction. The following items will be unprecedented artifacts that we cannot identify. Please make consideration before bidding."

Wu Xue waved her hand, and the beautiful maid quickly walked onto the stage with an emerald brocade box. She carefully placed it on top of the table and opened it gently. Immediately, a palm-sized yellow crystal ball appeared before everyone's eyes. There was nothing special on this yellow crystal ball, but those with sharp Spiritual Senses could perceive a faint earth element emitting from it.

Wu Xue glanced at the audience and introduced the item. "I believe someone has already perceived it. This yellow crystal ball possesses a trace of earth element. Because of this, we have decided to name it Earth Core."

"Two years ago, our experts found this Earth Core under the ancient ruins on the Western Continent. Later, we discovered this Earth Core can continuously produce the earth element as long as you place it on the ground. We believe there are other secrets within this Earth Core, but our experts' ability is limited. We cannot figure it out and decided to put it on the auction in case someone could unravel the secret."

Listening to this point, the audience began to discuss in a low voice. This Earth Core was definitely a good item for practitioners that were proficient in the earth attribute. At the same time, it was completely useless for others. Hence, not many people were interested in this.

"You must get it at all costs!" Hongyue's voice resounded in Yun Lintian's mind after seeing the Earth Core.

Yun Lintian could feel a trace of excitement in her voice, making him confused slightly. With Hongyue's experience, how could she become excited by a mere earth element crystal ball?

"Why?" Yun Lintian asked. Not only him that was curious but also everyone in the living room.

"Wait until you get it. I can only say that you're really lucky." Hongyue decided to play a suspension tactic, arousing everyone's curiosity further.

Yun Lintian didn't ask further and waited for Wu Xue to announce the price.

Hearing people discussing, Wu Xue smiled and said. "The starting price is two hundred thousand high-grade Profound Stones. Everyone can place your bid now."

The audience in the first and second zone immediately quieted down. The price was too high for them. Thus, there was no point in continuing their talk.

"Earth Core?" Du Huanfeng stared at the Earth Core as though he wanted to see the secret within it.

Du San also checked on the Earth Core, but he didn't find anything special aside from a portion of earth elements.

"Do you want to bid for it, Young Master?" Du San asked.

Du Huanfeng thought for a moment and said. "Let's see others first. Since you and I can't see anything in it. I don't think there's anyone who can."

As soon as Wu Xue's voice fell, Pei Xiewen didn't hesitate to place his bid. "Five hundred thousand."

"One million." Yun Lintian quickly followed.

An uproar could be heard when they heard Yun Lintian's bid. They all remembered this person had just bought the Floating Metal at a high price, and now he directly raised the price to one million. Did he have a profound stone mine in his home?... Apparently, they didn't know that Yun Lintian indeed had one in his home.

"Again?" Du Huanfeng had a weird expression. His curiosity toward this person grew further.

"Do you want me to contact him later?" Du San asked.

Du Huanfeng shook his head. "Let's wait until he survived from Pei Xiewen's hand."

Du San nodded and said nothing more.

Meanwhile, Pei Xiewen's face turned cold. From Bi You's investigation earlier, the person in that room was a middle-aged man at the Earth Profound Realm. How could he dare to go against him?

"Continue?" Bi You glanced at Pei Xiewen. Her face seemed to be devoid of emotion.

Pei Xiewen didn't reply to her but shouted directly. "Two million."

Of course, Pei Xiewen's bid caused another uproar among the audience. They subconsciously looked at Yun Lintian's room, waiting to see a good show.

"Four million." Yun Lintian didn't want to waste time and directly added another two million.

"Five million." Pei Xiewen continued.

"Eight million." Yun Lintian followed.

Pei Xiewen's face turned gloomy. He took a deep breath and called. "Ten million."

"Fifteen million." Yun Lintian added instantly, without thinking.

"Hoo!" The audience took a deep breath. They didn't know how to describe their current feelings. This was like a war between billionaires, slamming money at each other's faces.

The smile on Wu Xue's face grew wider. It was completely unexpected to get this price. She looked at Pei Xiewen's room and said. "Fifteen million once."

Pei Xiewen was so furious at this moment. He felt as though he was being challenged by a mere ant, but he could not fight back. This feeling was extremely annoying.

,m Bi You still had no reaction on her face. It was as if Pei Xiewen's matter had nothing to do with her.

Wu Xue waited for a full minute and believed Pei Xiewen had no intention of bidding further. She directly announced. "Congratulations to the esteemed guest in room number twenty. We will send the Earth Core to you in a while."

Yun Lintian glanced in Pei Xiewen's direction and said to Hongyue. "I spent so much on this. You better tell me now. What's the use of this Earth Core?"

Chapter 547 Mysterious Rusted Sword

"Your dream of creating a skyship won't be a dream anymore," Hongyue said.

"What do you mean?" Yun Lintian was puzzled.

"Wait until you get out of here safely first. We can talk about it then." Hongyue pursed her lips, unwilling to reveal further information.

Yun Lintian was annoyed, but there was nothing he could do.

A while later, the same receptionist came to his room to send the Earth Core. After settling the payment, Yun Lintian fiddled with the Earth Core for a while and scanned it with Eyes of Heaven. However, he didn't find anything special in the end. This confused him further. Did Hongyue scam him?

The auction continued. In contrast to the shocking bid wars earlier, the rest of the auction items seemed ordinary in Yun Lintian's eyes. They were either some protective artifacts or weapons, which he didn't need.

After sending the last item away, Wu Xue smiled and looked at the audience. "Now, it's time for our highlighted treasure today. I believe many of you are curious about this."

Wu Xue clapped her hands, and two beautiful maids went onto the stage with a rusted bronze sword, and its scabbard was made out of wood that had decayed quite a bit. It appeared to be quite ancient.

The sword itself had no grade, and it seemed to be created with clumsy craftsmanship. The audience in the first and second zone could not see anything special on this sword, but Du Huanfeng, Pei Xiewen, and the rest of the fourth zone could perceive a strong killing intent coming out of it. This sword must have reaped countless lives before.

Wu Xue began to introduce the item. "From our experts' appraisal, this sword is from an ancient era, more than ten thousand years. It has lost all of its power, but a trace of conceptual intent is still there. We believe it will be useful for a sword practitioner. The starting price is one million high-grade Profound Stones. Please make your bid."

Although Yun Lintian wasn't a sword practitioner, it didn't prevent him from taking an interest in this rusted sword. He opened Eyes of Heaven and saw a bright red aura seeping out of it. At the same time, he suddenly felt as though he was being stabbed by countless blades, causing him to involuntarily retract his gaze.

"The previous owner must be a killing maniac," Hongyue said as she looked at the sword. "This level of killing intent isn't something that could produce over a few years or a mere hundred thousand lives. I believe more than ten million lives have died under this sword. Heh, I didn't expect there would be such a bloodthirsty figure in this lower world."

Everyone in the living room, including Yun Lintian, felt chills running down their spines upon hearing this. Ten million lives!? Is this person a reincarnation of a devil god?

"Afraid?" Hongyue glanced at Yun Qingrou and others. She laughed slightly and said. "Wait until all of you go to the Divine World. You will know this number is nothing at all. There are a lot of figures who have several billions of lives on their hands."

The expressions of everyone immediately turned pale. Ten million were already insane in their opinions. And now a billion? They didn't know how to describe this anymore.

"All of you better prepare yourself well from today onward. Trust me. There will be a day when you have to kill millions of lives." Hongyue said with a smile as if it was a common thing.

Yun Ruanyu and others glanced at each other and fell into silence. Before this, their greatest wish was to kill Qi Qianxing and recreate the Misty Cloud Sect. However, after staying in the Land of Beyond Heaven for a long time. With the addition of Hongyue, they could see there was something huge waiting for them in the near future. It was something that tied their fate altogether.

"Regret it?" Hongyue looked at them as if she could see through their thoughts. "I can only say that the day all of you met Yun Lintian, your fate was already inseparable from him. There is no way for all of you to avoid it. So, you better make yourself stronger."

Yun Lintian listened to this and felt immense pressure on him. He knew that there was a big plot waiting for him since the day he activated the Land of Beyond Heaven, but he didn't want to think about it too much all this time.

Now, Hongyue had brought this topic up. A sense of urgency rushed over him once again. He must gather all the Beyond Heaven Relics as soon as possible.

"Is this useful?" Yun Lintian put his thoughts aside and asked about the sword.

"No. However, the real value of this sword is in the scabbard. There's something on it. I can't figure out from here." Hongyue replied.

"Scabbard?" Yun Lintian didn't doubt Hongyue's words, but he thought it was unnecessary to bid for it. Hence, he gave up in the end.

"Two million." Pei Xiewen immediately placed his bid.

"Three million." When everyone thought Yun Lintian would follow, they suddenly heard a voice coming out of room number one. They naturally knew the identity of the person in this room. It was no other than the young master of the Myriad Pill Palace, Du Huanfeng.

Pei Xiewen's brows raised in surprise. He glanced at Du Huanfeng's room and said. "Four million."

"Five million." Du Huanfeng followed instantly. He had the feeling that the sword could help him break through to the next realm. That was why he was willing to compete with Pei Xiewen.

"Six million."

"Seven million."

"Eight million."

...

The bid continued until reaching the sky-high price of twenty million. Du Huanfeng and Pei Xiewen didn't back down in the slightest.

"Since Young Master Du wants this, I am willing to back down." In the end, Pei Xiewen finally gave up, as he felt it was unnecessary to offend Du Huanfeng. He had something waiting for him to do next.

Chapter 548 Backdoor

Inside room number one, Du Huanfeng smiled and said. "Thank you, Young Master Pei. Shall we have a drink after this?"

"I'm afraid Young Master Du has to wait for a while." Pei Xiewen replied.

Du Huanfeng naturally understood this. He laughed and said. "I'll wait for Young Master Pei, then."

Pei Xiewen didn't say anything further and turned to look at Yun Lintian's room. His eyes flashed with murderous intent as he said to a tall man standing beside him. "Take him."

"Yes." The tall man said solemnly and left the room.

A strange light flashed across Bi You's eyes as she glanced at Yun Lintian's room. For some reason, her intuition told her this person was not ordinary as he appeared to be. However, she didn't intend to tell Pei Xiewen about this.

As someone who read a ton of novels before, Yun Lintian understood this "auction house plot" well. He was bound to be hunted by those greedy bastards after leaving the Mystic Pavilion. Especially the one in room number three, as he had offended this person badly.

Yun Lintian opened the door and walked out calmly. The moment he stepped out of the room, he immediately sensed someone staring at him. When he looked over, he saw a tall man clad in a black robe locking his gaze brimming with killing intent on him. Judging from his aura, this person was at the peak of Monarch Profound Realm.

Yun Lintian laughed faintly and walked toward the tall man fearlessly. "Should I feel honored to be targeted by the peak monarch?"

The tall man released his aura, and immense pressure immediately bore down on Yun Lintian.

Yun Lintian's movement became rigid for a short period before getting rid of the pressure by simply shielding himself with profound energy.

The tall man's eyes narrowed slightly. He suddenly discovered the middle-aged man in front of him wasn't an Earth Profound practitioner but a Heaven Profound Practitioner. To be able to deceive a monarch like him, his concealment ability wasn't simple at all. He was afraid the opponent's appearance was also the result of his concealment.

"You shouldn't provoke my master." The tall man said coldly.

"Provoke your master? Are you serious?" Yun Lintian had a new understanding. So this person was someone's lackey? Looked like he had encountered another powerful figure.

Yun Lintian laughed and said further. "We all know that the highest bidder is the winner. You should tell your master to add more money instead of coming for me after losing. Do you know what people call this kind of person?... It's called a loser. Have you ever heard of it?"

The tall man trembled in a fury. How could he let anyone disrespect his master? As he was about to make a move, a female voice suddenly resounded from the end of the hallway.

"Please restrain yourself. Our Mystic Pavilion is not a place for anyone to do anything at will." Wu Xue said calmly while walking toward Yun Lintian and the tall man. Her face was calm, but her entire body was brimming with an unchallengeable aura.

Yun Lintian wasn't surprised to see Wu Xue appear here. The Mystic Pavilion was still worthy of its reputation. It would be a joke something happened in their court.

"You've come, Miss Wu." Yun Lintian walked past the tall man without care and greeted Wu Xue with a smile. "This gentleman's master seems to have a problem with me. He said I have provoked him. I believe Miss Wu can help me explain it to his master, right?"

Wu Xue looked at Yun Lintian with a smile while secretly complaining in her heart. This middle-aged man immediately dragged her into muddy water as soon as he opened his mouth. It was no wonder he dared to offend Pei Xiewen.

"Thank you for your patronage today, Mister...." Wu Xue said.

"My surname is Wu." Yun Lintian responded. He let out a laugh and continued. "Miss Wu, you have to help me. After all, we have the same surname. We can be considered as family."

Even someone with numerous experiences like Wu Xue had become startled for a second upon hearing Yun Lintian's shameless remark. When did she become his family?

Wu Xue covered her mouth and laughed gently. "Mister Wu is funny. We indeed have the same surname, but it doesn't mean we are family." She paused for a moment and said. "But Mister Wu doesn't have to worry about this. Our Mystic Pavilion is not allowed anyone to violate our rules during your time here."

Her words were emphasized that she could protect him, but it was only during his stay here. After he left this place, it wasn't her concern anymore.

Hearing this, the tall man's eyes flickered slightly and walked away, heading toward the building entrance. As long as Yun Lintian came out, he would make a move right away.

Yun Lintian watched the tall man leave and turned to Wu Xue. He whispered. "Miss Wu, is there a backdoor here?"

The corner of Wu Xue's mouth twitched slightly. "Of course, we have a backdoor here. However, it is reserved for our people. I'm afraid I cannot allow you to use it."

"I can only leave through the front entrance? Come on, Miss Wu. Do I look like an upright person?" Yun Lintian said with a serious expression. Seeing Wu Xue hesitantly shaking her head, he spread his arms out and said. "Right? Since I'm not an upright person, I naturally won't leave through the front door in an upright manner. You have to let me go through the backdoor. Otherwise, I would have to violate my personality. I don't think a person with principles like Miss Wu wants me to do that, right?"

Wu Xue felt dizzy upon listening to Yun Lintian's nonsense. Could this be counted as a reason? Me? Don't want to make you violate your personality? What the hell are you spouting?

? It was not only Wu Xue who was stunned by Yun Lintian's nonsense but also Hongyue and others. Especially Yun Ruanyu and Yun Qingrou, who had never accompanied Yun Lintian to the outside. This was the first time they had witnessed his nonsense mastery.

"Is he always like this?" Yun Qingrou couldn't help asking Yun Lingwei.

Yun Lingwei nodded her head while suppressing the urge to laugh.

Chapter 549 Leaving The Building

Seeing Wu Xue was stunned, Yun Lintian struck further. "Miss Wu, I have spent a lot of money here. Can't you help me a bit? I'm not asking you to protect me or something."

Wu Xue came back to her sense and smiled apologetically. "I'm sorry, Mister Wu. I cannot violate the rules. I hope you understand me."

Yun Lintian frowned in dissatisfaction. "Fine. But can you tell me who this person is? At least I have to know who I am facing, right?"

Wu Xue hesitated briefly and said. "The guest in room number three has a high status on the Western Continent. His name is Pei Xiewen, a young master of the Nine Profound Beast Palace's Great Roc Clan."

"Nine Profound Beast Palace? Great Roc Clan?" Yun Lintian seemed to remember something. Yan Qi had told him before that the Nine Profound Beast Palace was jointly founded by nine profound beast clans. Little Flame's Fire Cloud Rat Clan was one of them. He didn't expect to meet someone from the Nine Profound Beast Palace here.

Wu Xue looked at Yun Lintian strangely. This should be common knowledge, yet he seemed to know nothing.

"Why did he appear here?" Yun Lintian asked.

Wu Xue gave a professional smile as she replied. "This is out of the scope of my duty."

"Alright. Thank you, Miss Wu. I shall excuse myself first." Yun Lintian clasped his hands together and walked toward the front entrance under Wu Xue's gaze.

"Huh?" Inside room number one, Du Huanfeng found Yun Lintian walking toward the entrance fearlessly. The latter's appearance puzzled him because this middle-aged man was only at the first level of Heaven Profound Realm. How could such a person possess a huge amount of wealth?

"It should be his disguise." On the side, Du San had also watched Yun Lintian. With his terrifying perception, he could not see through Yun Lintian at all, but his rich experiences had told him this person was not ordinary at all.

"Such a high-level disguise art. Even you and I can't see through. Who is he?" The frown between Du Huanfeng's brows grew deeper. For some reason, he felt a sense of familiarity coming out of this person, but he couldn't think of anyone.

Meanwhile, Pei Xiewen and Bi You were surprised by Yun Lintian's appearance as well.

"Heh..." Pei Xiewen let out a disdainful snort. He suddenly felt it was ridiculous to get angry because of this Heaven Profound Realm's trash earlier.

A pink glow emerged in the depth of Bi You's pupils as she stared at Yun Lintian attentively. However, all she could see in his body was a bottomless abyss, causing her to involuntarily retract her gaze.

A fine bead of sweat appeared on Bi You's smooth forehead as her heart was pounding rapidly from overwhelming fear. This was the first time she had seen something terrifying like this.

"What's wrong?" Pei Xiewen noticed something and asked.

Bi You shook her head. "Nothing."

Pei Xiewen frowned, staring at Bi You for a while before shifting his gaze back to Yun Lintian.

At this moment, Yun Lintian had already arrived at the entrance. He didn't take another step further and watched the tall man glaring at him.

"Relax, brother. There's no need to be this serious, right?" Yun Lintian laughed slightly while secretly calculating the escape route.

The tall man spat coldly. "Come out and die." His aura burst out and rushed toward Yun Lintian like a tsunami.

Yun Lintian cleverly retreated into the hall and shouted. "Miss Wu! Someone is going to hit your pavilion!"

Wu Xue, who was watching the scene from a distance, patted her forehead helplessly. This bastard was shameless to the extreme. Even though she was dissatisfied and felt as though she was being used by him, she had no choice but to step forward in the end.

Wu Xue waved her hand and easily solved the tall man's terrifying aura. She looked at the tall man and said. "Please restrain your hand."

The tall man was annoyed, but he didn't dare to offend Wu Xue. He could only glare at Yun Lintian and wait for him to come out.

Yun Lintian patted his chest and said in relief. "Phew. Thank you, Miss Wu. This brother is too aggressive. Are you sure you don't want to let me leave through the backdoor?"

"Please stop doing this, Mister Wu. I am not your personal guard." Wu Xue's voice was a bit cold.

Yun Lintian shrugged. "It's not me who started this, right? You should tell this to that brother over there, or you can go directly to his master."

Wu Xue gave a fierce glare at Yun Lintian and said. "Please leave as soon as possible. Our Mystic Pavilion is closing now."

"Tsk. This is how the Mystic Pavilion works? Chasing your customer away as soon as you get the money. It seems your reputation is too exaggerated." Yun Lintian clicked his tongue in dissatisfaction.

"It doesn't matter. Mister Wu can think as you like. Please leave now." Wu Xue's face turned cold.

"What is he trying to do?" Du Huanfeng was puzzled by Yun Lintian's action. Was offending Pei Xiewen not enough? Why would he want to offend Mystic Pavilion too?

"Sure." Yun Lintian let out a chuckle and moved his feet toward the entrance. As he walked past Wu Xue, he whispered. "We'll meet again."

Wu Xue's brows involuntarily creased together upon hearing this. What did he mean?

Yun Lintian arrived before the entrance once again and looked at the tall man playfully. "I'm going out now. Are you ready?"

The tall man stared at Yun Lintian with a gloomy face. Several threads of profound energy were madly revolving around his body, ready to take action at any time.

Yun Lintian smiled faintly and released his profound energy. All of a sudden, his entire body was shrouded with crimson flame, turning him into a human torch.

In that instant, his figure started to blur and disappeared from the spot before reappearing in front of the tall man.

Boom!

Chapter 550 Flaw?

BOOM!!

The entire street exploded, and dust filled the air. A thick, dense crimson radiance shot out in all directions, causing onlookers to scatter away in panic.

Yun Lintian's unreasonably powerful strike caught the tall man completely off guard. An unbearable heat was shrouding the tall man's entire body, making him feel as though he had been thrown into a scorching lava pit.

He did not dare to be careless and raised his profound defense to the limit. At the same time, his Spiritual Sense spread out like a spider web, trying to find Yun Lintian's position.

In that instant, his expression abruptly changed, as he could not find a single trace of Yun Lintian. It was as if he had disappeared into thin air.

The tall man's aura burst out, sending all the crimson flames around him away, and he fantastically searched the entire center area with his Spiritual Sense.

In the Mystic Pavilion building, Wu Xue had an astonished expression on her face. Her mouth agape opened as she stared at Yun Lintian's disappearing position in disbelief... What was going on? How did he disappear like that?

Du Huanfeng and Du San glanced at each other in shock. Earlier, their Spiritual Senses had been locked on Yun Lintian from beginning to finish. The way Yun Lintian disappeared wasn't something they could explain. It was neither an escape talisman nor a movement technique. It was like he had turned into nothingness, vanishing without a single trace left behind.

Du Huanfeng recovered from his shock and said. "No wonder he dared to offend Pei Xiewen. I'm afraid even if Pei Xiewen personally takes action, he won't be able to capture this person."

Meanwhile, Pei Xiewen's face became gloomy. He would certainly become a laughingstock if he let that Heaven Profound Realm trash slip away.

"Find him." Pei Xiewen said coldly, and two men in black behind him immediately disappeared from the room.

He turned to Bi You and asked. "Did you see anything?"

Bi You shook her head expressionlessly. "No."

Pei Xiewen stared at her beautiful face for a long time and said. "You better be honest with me. Don't forget that your sister's life is in my hand."

Bi You's eyelashes trembled slightly, but she remained silent until the end.

Pei Xiewen didn't pay attention to her further and stood up, preparing to leave.

While others were confused, Yun Lintian had already appeared in a hidden place not too far away from the Jade Pavilion. Earlier, he took the chance when everyone was dazed by the explosion to constantly execute Shadow Step all the way until he reached here. It could be said his timing was perfect, as he left no trace behind.

Yun Lintian glanced around briefly and quickly reverted to his original appearance before walking out of the alley, quietly blending into the crowd.

He walked along the street for a while and found a noodle stall to settle in. As soon as he sat down, a powerful Spiritual Sense was swept over the entire street, causing people to glance around in confusion. Even though they were dissatisfied with being rudely scanned like this, they didn't dare to utter a word as they were fully aware of the strength of this Spiritual Sense's owner.

Yun Lintian pretended to put a frown on his face and glanced around for a while before shaking his head, appearing as if he didn't care about it anymore.

"Here. Your noodle, little brother." An uncle stall owner placed a big bowl of soup noodles on a table before Yun Lintian and said with a frown. "This person dared to do this. He must have a powerful background. He didn't give Island Master Zhou's face at all."

Yun Lintian nodded his head in agreement. "I'm curious. What is he looking for?"

The uncle said jokingly. "Looking for dead, I guess?"

Yun Lintian was amused and picked up chopsticks, started eating.

While Yun Lintian was enjoying the noodle, Du Huanfeng had already left the Mystic Pavilion and headed back to the Jade Pavilion. As soon as he returned, he got a report that Yun Lintian had left the pavilion hours ago. This made him feel strange in his heart.

"You said he left a long time ago?" Du Huanfeng asked a young woman before him.

The young woman hurriedly replied. "Yes, Young Master. He left after a short rest. He also didn't bring his companion beast with him."

Du Huanfeng's eyes flashed with a strange light. He waved his hand, and Du San immediately sent a handful of middle-grade Profound Stones to the young woman before sending her away.

Du Huanfeng tapped his finger on the table, thinking about this matter. His intuition told him there was a connection between Yun Lintian and the middle-aged man surnamed Wu, but his logical side said otherwise.

No matter how powerful Yun Lintian was, it was impossible for him to deceive every high-level monarch's perception. Not to mention his "na?ve" personality. It was even more impossible for him to do this.

"Send someone to check his whereabouts... Also, go check his room. See if his tiger is there." Du Huanfeng felt it was necessary to check on Yun Lintian.

Du San glanced at two men behind him, and they quickly left the room. A few minutes later, they came back with a report.

"He's eating noodles not far away from here?" Du Huanfeng was a bit surprised to hear this. There were a lot of delicacies here. Why would Yun Lintian go out to eat?

The man reported. "Report, Young Master. His companion beast is not in the room."

"Oh?" Du Huanfeng's brows raised up. "Have you searched every corner of this place?"

The man bowed his head as he responded. "Yes, Young Master."

"Interesting..." Du Huanfeng curled his lips. If the middle-aged man surnamed Wu was Yun Lintian, this was undoubtedly a huge flaw. At the same time, he was curious. Where did that snow tiger go?

"Stare at him. Do not miss any of his movements and wait for my order." Du Huanfeng said calmly, and the man before him quickly went out.
