

Myth Beyond 641

Chapter 641 Vermilion God's Spirit Song

Yun Lintian did not hurry to treat these wounded disciples but instead carefully checked the overall damage and tried to find the origin of the enemy. The wounds on these five disciples were clearly created by something extremely sharp, and under Yun Lintian's Eyes of Heaven, he discovered a trace of the wind element lingering in their bodies.

"The Great Roc Clan?" As far as Yun Lintian knew, the Great Roc Clan was the only clan proficient in the wind attribute profound art. However, the area these disciples went to was a few thousand kilometers away from their territory. Why did they come here?

Of course, Yun Lintian did not deny that it could be others. However, he didn't believe there would be a wanderer with such a high profound strength here.

Yun Lintian beckoned Yun Qingrou. "We need to expel the wind energy out of their bodies first. Let's start."

Yun Qingrou nodded and brought out five beds before putting the five disciples on them.

Yun Lintian prepared silver needles and started piercing them into the five's profound entrances. Afterward, he carefully combed the residual wind energy within their bodies through the Profound Veins until the entrances. His movement was gentle and slow for fear of further damaging the five's veins.

During the process, Yun Lintian did not forget to explain his method to other disciples that came to take a look. It had become his habit already.

An hour later, Yun Lintian and Yun Qingrou had completely expelled all the residual wind energy and started to treat the disciples' wounds. It didn't take them too long before the deep wounds recovered and completely stopped bleeding.

"Ugh..." One of the five disciples, named Yun Mengmeng, suddenly woke up and looked around vigilantly. When she saw that this place was the Land of Beyond Heaven, she heaved a sigh of relief.

"How are you?" Yun Lintian asked softly.

Yun Mengmeng was startled for a moment and tried to get up, but she was stopped by Yun Lintian. "Just lay down... Can you tell me what's going on?"

Yun Mengmeng didn't struggle further and lay on the bed obediently. Hearing the question, her face turned cold as she answered. "We have met someone from the Great Roc Clan, Headmaster. They were coveting us and wanted to bring us to serve their master as a maid. Unfortunately, we're not their opponent and could only escape... I've shamed our sect."

Yun Lintian smiled and comforted. "All of you made the right decision. Didn't I tell you before? There's nothing to be shamed about fleeing. On the contrary, this is called wise." He paused for a second and asked. "Do you know who their master is? Did they say anything about it?"

Yun Mengmeng nodded. "I heard they said something about the eldest young master. They were wandering around here to find a suitable gift for this eldest young master's wedding."

"So it's him." A cold glint flashed through Yun Lintian's eyes. Last time in the Mystic Pavilion, this Pei Xiewen tried to kill him once, and now his subordinates had also harmed his people. It seemed he had to look for an opportunity to teach this guy a lesson in the incoming days.

Yun Lintian patted Yun Mengmeng's shoulder and said. "You rest first. I will send you out when all of you have fully recovered."

"Yes, Headmaster." Yun Mengmeng responded solemnly. She secretly vowed in her heart that she would get back at those who hurt her and her sisters sooner or later.

It was at this moment did Yun Mengmeng noticed Yun Lintian's appearance. She subconsciously blurted out. "Headmaster, you....?"

It was not only her, but others had also discovered this. They looked at Yun Lintian with strange smiles as they found he was too cute. From a tall, handsome man had now become approximately one hundred and fifty centimeters short man, and there was even a tiny tail behind him. They couldn't help chuckling.

Yun Lintian glanced at them and pretended to be angry. "You have too much free time, right? Go, all of you. Run around the lake a hundred laps for me without using profound energy!"

All the disciples were taken aback and began to complain. However, Yun Lintian ignored them and walked toward the villa in a huff.

"Hehe. Headmaster is so cute." Looking at Yun Lintian's short legs swiftly moved, the disciples began to laugh.

"Yeah, this reminds me of when he was young." Another disciple said. She was already fifty years old, and she had the chance to watch Yun Lintian growing up.

"Not going yet!? Add a hundred more!" Yun Lintian's angry voice resounded, and everyone immediately shut up.

Walking into the villa with an annoying expression, Yun Lintian went straight to the living room and saw Hongyue leisurely

When Hongyue saw Yun Lintian, she looked up and down for a moment and laughed. "Not bad. I think this appearance suit you more."

Yun Lintian rolled his eyes and sat down on a sofa beside her. "Tell me, how to control the Vermilion Bird's bloodline?"

"Where is the word 'please,' kid?" Hongyue reached out her illusory hand to pat Yun Lintian's head but was slapped away by the latter.

"I'm serious. I don't have much time now." Yun Lintian said.

"Tsk. Now you're serious?" Hongyue clicked her tongue. She didn't waste time and went straight to the topic. "As I told you before, the characteristic of the Vermilion Bird's flame is mixing between the Fire and Wood elements. To fully control it, you need to master the Wood element first, which you clearly aren't right now. Hence, you have to wait until you get the Tree of Life."

Yun Lintian was a bit disappointed to hear this. He thought he could unleash the Vermilion Bird's flame in the coming days. It seemed impossible now.

"However, you can learn the core art for the time being. This art is called [Vermilion God's Spirit Song]. There's one in the Library. You can take a look at it." Hongyue said further.

"Master, I've found it." As Hongyue's voice fell, Lynn's voice suddenly resounded.

Yun Lintian responded and walked to the Library. "Thank you, Lynn. I will get it now."

Chapter 642 The Invitation From The Sky Qilin Clan

The [Vermilion God's Spirit Song] was regarded as one of the Three Great World Scorching Divine Books alongside the [Phoenix God's Burning Heaven] and the [Golden Crow God's Light The World]. Each possessed tremendous power capable of burning the world.

Among the three Divine Birds, the Vermilion Bird's personality was gentler while the Phoenix was cold. As for the Golden Crow, it was the most violent one among them. Hence, the Golden Crow was the strongest in terms of power, followed by the Phoenix and the Vermilion Bird, respectively.

The [Vermilion God's Spirit Song] consisted of six stages totally, each one of them inclining toward the defensive and supportive more than offensive. It could also increase one's medical skills.

Yun Lintian read it for a while and roughly understood the whole six stages. However, the flame would go out of control every time he tried to invoke it. Evidently, mastering the Wood element was required, as Hongyue said.

"Never mind." Yun Lintian put the book away with a sigh. He glanced at the screen and asked. "Lynn, do you have any recommendations? I urgently need a fire-based profound art."

"Please wait a moment, Master." Lynn's voice resounded, and several names gradually appeared on the screen.

"Aside from the [Imperishable Flame] that Master has already been proficient at, I would like to recommend [Memoir Of The Burning World]," Lynn said.

Yun Lintian took a glance at the [Memoir Of The Burning World] and discovered it was the Primordial rank profound art. He frowned slightly and asked. "This is too high for my current strength, isn't it?"

"It's true, as Master said, but learning the first stage is not a problem for Master. According to my analysis, it will benefit Master in the long run." Lynn replied.

Yun Lintian didn't ask further and decided to give it a try. Compared to the [Vermilion God's Spirit Song], the [Memoir Of The Burning World] was more efficient to use as an offensive move, but it was more challenging to master in a short time.

However, with the almost absolute control of the Fire element from the help of The Sun, Yun Lintian's comprehension of this primordial art was a hundred times faster than ordinary people. Within a day, he had already understood the principle of the first stage—Burning Earth.

"Lintian, someone is on the outside of the hut. You should leave now." Hongyue's voice suddenly resounded in Yun Lintian's mind.

Yun Lintian, who was immersed in the practice mode, woke up and frowned slightly. He summoned the Gate of Beyond Heaven and left with Linlin.

"Senior Yun. Are you there?" As he appeared in the hut, he immediately heard Huoyun Linlin shouting from the outside. He retracted the isolating formation and opened the door.

"What's the matter?" Yun Lintian asked calmly.

"I'm sorry for disturbing your rest. Grandma said she has something to discuss with Senior." Huoyun Lingling said apologetically.

"Alright, let's go." Yun Lintian didn't blame her and quickly walked toward the mountain.

Along the way, Yun Lintian discovered paddy fields appearing everywhere, and several figures were busied planting the crops. Their faces were full of happiness and hope, entirely different from the first time Yun Lintian came to this place.

Among them, he saw the Little Girl Doudou happily jumping around with her friends. Yun Lintian couldn't help smiling at this scene.

Huoyun Lingling noticed this. She said softly. "Thank you, Senior."

Yun Lintian looked at her and asked. "Thank me for what? I didn't do anything much about it. The one you should feel grateful for is Lord Vermilion Bird and the persistence all of you have."

Huoyun Lingling smiled and did not continue on this topic.

The two walked into the mountain and arrived in the hall. A few figures were already waiting for them.

Seeing Yun Lintian, Huoyun Yurou immediately said. "Since everyone is here, let's discuss this matter." She handed an exquisite letter to the short-haired old woman beside her.

The short-haired old woman was the Great Elder of the Fire Cloud Rat Clan. Her name was Huoyun Zhu. She opened the letter and explained. "This is an invitation letter from the Sky Qilin Clan. They want us to bring three juniors below the Ruler Profound Realm to participate in the Misty Forest Convention. It will be held right after the wedding ceremony."

"They are simply trying to humiliate us!" A bald old man growled. He was the Second Elder, Huoyun Rui.

The Sky Qilin Clan obviously knew the Fire Cloud Rat Clan's situation. How could they come up with the three juniors?

"Can we not go? This is no different from sending our juniors to die." The old woman with a big bun hairstyle said. She was the Third Elder, Huoyun Xiao.

Huoyun Yurou didn't express her opinion but asked Yun Lintian instead. "What do you think?"

Everyone immediately turned their head toward Yun Lintian. Right now, Yun Lintian's status among them wasn't low. It could be said he was the genuine successor of the clan because of the Vermilion Bird's bloodline.

Yun Lintian thought for a moment and asked. "I don't know which Senior is going out aside from Matriarch?"

"It's me." Huoyun Zhu said. "Although those people are strong, they would never be able to catch us if we want to run."

Yun Lintian nodded his head slightly. "Then, I alone is enough."

Frowns immediately appeared on Huoyun Zhu and the other elders' faces. Yun Lintian was carrying the Vermilion Bird's bloodline right now. They didn't even want him to step out of the Ancestral Land if possible.

Seeing their expressions, Yun Lintian smiled faintly and explained. "I know all seniors are worrying about me. How about this? I would like to invite any Senior here to spar with me. If I cannot beat any of you, I will obediently stay here."

The clan elders glanced at each other in surprise. During this one day, they learned about Yun Lintian's basic information. It was said he could easily beat the peak Monarch like Huoyun Jie. Truthfully, they didn't fully believe it.

"Let me come." The bald elder, Huoyun Rui, stepped forward. He looked at Yun Lintian and laughed slightly. "Boy, don't hold back."

"Are you sure, Senior?" Yun Lintian smiled mysteriously.

Chapter 643 Astonished Power

Huoyun Rui was a person with a bad temper. When he heard Yun Lintian's words, he snorted and said in dissatisfaction. "Boy, I know your domain is amazing, but don't be proud. The real battle is entirely different. Your domain may not be as effective as you think."

On the side, Huoyun Zhu added. "When you reach the Monarch Profound Realm and above, you will understand that using a domain is too taxing. Especially when you keep moving while maintaining it. Hence, you would rarely see those experts using it in a real battle. Unless they want to trap someone or fight in a group battle. A domain will become useful then. So, you should think carefully before activating it."

Yun Lintian nodded his head in an understanding manner. "Thank you for your guidance, Senior." After telling Linlin to stand aside first, he turned to Huoyun Rui and said. "I'm ready, Senior."

Huoyun Yurou and others quickly retreated to the side and jointly created a barrier around the two.

"Come at me." Huoyun Rui banged his chest loudly.

Yun Lintian didn't hesitate. His figure silently disappeared from the spot and reappeared beside Huoyun Rui. Deep blue light flashed, accompanied by the bone-freezing wind as he punched out at the latter's head.

A trace of surprise appeared on Huoyun Rui's face. Yun Lintian's movement technique was something he had never seen before. However, as someone at the first level of the Divine Ascending Tribulation Realm, his perception was incomparable to a monarch. Even with Yun Lintian's bizarre movement, he could still react timely.

Huoyun Rui didn't retreat but instead chose to confront head-on. The moment Yun Lintian's fist was about to reach his face, his arm clenched, and intense heat abruptly burst out, causing Yun Lintian's expression to change drastically.

Yun Lintian's eyes narrowed, and he instantly activated Shadow Step to retreat when he saw Huoyun Rui's fist become a shadow and reappear before him.

Bang!

A red beam coming out of Huoyun Rui missed the target and went straight to the barrier, causing the entire barrier to shake violently.

"This bastard didn't hold back at all." Huoyun Zhu cursed when she saw this scene. Yun Lintian would undoubtedly get a serious injury from that attack.

"Have you noticed it?" Huoyun Yurou asked calmly.

Huoyun Zhu nodded her head. "His movement technique can actually avoid our Spiritual Sense. Even the famous Netherworld Wolf Clan's Nether Step cannot achieve this... I'm really curious what kind of background he has."

Huoyun Yurou didn't say anything further and focused on Yun Lintian.

"You're quite quick, huh?" Huoyun Rui retracted his hand and turned to Yun Lintian, who reappeared a few meters away.

"Senior's reaction is the best I've ever seen. As expected, a Divine Ascending Tribulation Realm's expert is a world apart from a Monarch." Yun Lintian was surprised inwardly.

He had fought with Huoyun Jie before, and the latter's reaction was obviously far behind Huoyun Rui. The gap between the Monarch Profound Realm and the Divine Ascending Tribulation Realm wasn't something he could measure by common knowledge.

Huoyun Rui laughed slightly and said. "Come, show me what you got."

"Alright." Deep blue lights immediately lit up in Yun Lintian's eyes, and four water swords instantly appeared around him. He quickly shot forward and controlled the four swords to attack Huoyun Rui.

Huoyun Rui frowned slightly because he felt these four water swords were too simple. He didn't understand why Yun Lintian chose to practice such an ordinary art like this.

He didn't think about it further and clapped his hands together. Instantly, two fire pythons emerged beside him and opened their mouths to bite at the incoming water swords.

Puff! Puff!

Huoyun Rui's expression froze as he saw the water swords easily penetrate his fire pythons. One had to know that the energy he injected into these two pythons was not low. An ordinary Monarch might not be able to harm it. How could Yun Lintian's simple water swords do it so effortlessly?

While Huoyun Rui was distracted, Yun Lintian had already arrived two steps away from him. Crimson and deep blue lights shone brightly on both hands as he punched out.

? Roar—

Fire and water virtual dragons shot out of Yun Lintian's fists and rushed toward Huoyun Rui at lightning speed, followed by a deafening dragon's cry reverberated throughout the hall.

"This..." The onlookers had a look of shock on their faces upon seeing this. They were aware that Yun Lintian was a dual attributes practitioner, but they had never thought he could use two elements simultaneously, and these two elements were on opposite poles even... How could it be possible?

Huoyun Rui woke up by the dragon's cry, and his expression became serious. His muscles bulged up as he roared and punched out. "Hah!"

His fists were covered with an intense flame capable of melting anything. Both of his fists fiercely thrust forward at the incoming two dragons, and in a split second, he felt the power which was rushing toward him suddenly spike.

The fire and water dragons were suddenly intertwined and formed into a spiral beam, easily cleaved apart by Huoyun Rui's flame as an unbelievable tremendous force smashed into Huoyun Rui's fists.

Boom!

A piercing cry split the air as Huoyun Rui flew out and directly hit the barrier. He didn't feel any pain as he stared at Yun Lintian in shock. Although Yun Lintian's attack could not harm him much, he believed no one under the peak Monarch could resist this.

Huoyun Rui stood up from the ground and asked. "What is this move?"

Yun Lintian was disappointed to see Huoyun Rui was fine. However, this short spar allowed him to gain a basic understanding of the Divine Ascending Tribulation expert. Compared to the Monarch, their body was at least ten times stronger. He needed to exert more power if he wanted to break their defense.

Yun Lintian replied honestly. "This move is called Dragon Fist. It can apply with any element."

"Dragon Fist?" Huoyun Rui frowned slightly. "I never heard such a profound art before. Where did you learn it from?"

Chapter 644 Intense Battle

"Please forgive me, Senior. I cannot tell you about it." Yun Lintian didn't want to cover up with a false master again and chose to answer like this.

"It's okay. Everyone has a secret." Huoyun Rui nodded his head. "However, can you tell me what rank it is?"

"It's a divine rank." Yun Lintian didn't hide it.

"It turns out to be a divine rank. No wonder it can produce such a tyrannical force." Huoyun Rui had a wonderful expression.

On the side, the onlookers glanced at each other in astonishment. Everyone here understood how rare a divine rank profound art was. There was only a handful of them throughout the entire Azure World. Their Fire Cloud Art was one of them, but they didn't think it was as powerful as Yun Lintian's Dragon Fist.

Huoyun Rui patted the dust off the robe and said with a fighting spirit. "Come, let's continue."

"Alright." Yun Lintian took a deep breath, and the White Dragon Spear silently appeared in his hand.

Huoyun Rui looked at the white spear in Yun Lintian's hand with an interesting expression. With a glance, he could see it was a divine rank weapon. With the Divine rank profound art and this spear, Yun Lintian's personal wealth was almost equaled to one of the nine palaces. He couldn't help wondering where Yun Lintian got these things from.

Yun Lintian pointed the spear toward Huoyun Rui and stomped his foot on the ground before vanishing from the spot.

Huoyun Rui spread his Spiritual Sense out and discovered Yun Lintian had utterly vanished from the hall. His eyes narrowed slightly, and he quickly performed complicated hand seals. With a loud explosion, the entire space within the barrier immediately filled with a sea of fire. Not a single tile was vacant.

"Huoyun Rui! Are you trying to kill him?" Huoyun Zhu couldn't stand it anymore and prepared to stop Huoyun Rui. However, she was stopped by Huoyun Yurou first.

"Watch carefully. He is about to unleash his card." Huoyun Yurou said calmly. Earlier, she inadvertently glanced at Linlin and saw the latter was calm without any agitation. This meant Linlin didn't think Huoyun Rui's attack could harm Yun Lintian.

Huoyun Zhu wanted to say something, but she stopped in the end and returned her focus to the battle.

Huoyun Rui was standing in the sea of fire and wondered how Yun Lintian would attack him in this situation. As long as he appeared, this fire would burn him instantly. It could be said Huoyun Rui was invincible at the moment.

Crack! Crack! Crack! Crack!

As Huoyun Rui wondered, he was suddenly startled by the unbelievable scene before him. The sea of fire capable of burning any monarch was actually sealed by an ice radiance at a visible speed.

"What the...?" Huoyun Rui exclaimed and hurriedly exerted more profound energy. However, he discovered that the ice radiance didn't retreat an inch but kept pushing forward at the same speed.

Roar—

Amidst the battle between ice and fire, a water dragon suddenly emerged from below and opened its mouth wide, aiming at Huoyun Rui.

Huoyun Rui's pupils shrank and quickly activated the Fire Cloud Rat Clan's movement technique, Fire Cloud Shadow. His entire body turned into a cloud of white smoke, completely avoiding the water dragon before reappearing several meters away.

As soon as he appeared, a sense of danger emerged in his heart, causing him to execute the movement technique again.

In that instant, before Huoyun Rui could turn into white smoke, Yun Lintian's figure appeared out of thin air and pointed the White Dragon Spear at him. A crimson flame burned vigorously at the tip of the spear. The onlookers could perceive this flame was entirely different from the flame they had known.

"Five Elements Spear Art—Imperishable Flame!" Yun Lintian shouted and thrust the spear forward at breakneck speed.

The tip of the spear merely touched Huoyun Rui's shoulder before he could successfully transform into white smoke and reappear at the corner of the barrier.

"Ugh!" Huoyun Rui felt a burning pain in his shoulder, and he quickly utilized his profound energy to suppress it. However, he soon discovered that the flame didn't dissipate but became even more vigorous. His heart, which hadn't panicked for centuries, started to beat wildly.

"What kind of flame is this!?" Huoyun Rui couldn't help exclaiming aloud.

At this moment, everyone immediately understood the horror of Yun Lintian's Imperishable Flame.

Huoyun Rui took a deep breath, and small fires lit up in his eyes. Instantly, his entire body was covered with red fire, and the imperishable flame on his shoulder began to shrink.

Yun Lintian looked at the scene with shock and couldn't help lamenting inwardly. As expected. The Divine Ascending Tribulation expert indeed had a lot of means. Although he had never hoped to defeat Huoyun Rui with the Imperishable Flame, he didn't expect Huoyun Rui to find a countermeasure this fast.

Yun Lintian's mind moved, and The Thunder within his body quickly responded. In a split second, his whole body was covered with golden lightning sparks, and the lightning element instantly filled the hall.

Huoyun Yurou and others were startled. They had just discovered Yun Lintian wasn't a dual attributes practitioner but a triple attribute one! Their minds grew numb directly. Every time they thought Yun Lintian had already revealed his trump card, he would come up with a new move to surprise them... Where was his limit?

Huoyun Rui subconsciously glanced at Yun Lintian and was taken aback by the scene. A wry smile appeared on his face... This boy sure has a lot of cards under his sleeves.

Seeing this, Huoyun Rui decided to take it seriously. He forcefully suppressed the Imperishable Flame on his shoulder and shouted loudly. "Fire Cloud Art—Cloud Extermination!"

Instantaneously, the fire around Huoyun Rui began to roll backward and transformed into a colossal fire tide, rising to the hall's ceiling. In the next moment, the fire wave fiercely rolled down upon Yun Lintian.

Yun Lintian's eyes flashed with lightning sparks. He stabbed the White Dragon Spear on the floor and pointed his finger toward the ceiling, more precisely, toward the sky.

Rumble—

Chapter 645 Convinced

The entire Ancestral Land shook violently by the thunder roaring. Everyone involuntarily raised their head to look at the sky and saw countless lightning bolts flashing like pythons swimming in the sea of clouds. Their hearts trembled as fear gradually emerged within them.

In the hall, the expressions of Huoyun Yurou and others changed drastically. The enormous amount of lightning energy that descended from the sky caused everyone to subconsciously conjure profound defenses around their body.

At this moment, Huoyun Rui's intuition screamed "danger" madly in his heart. His entire body turned stiff. He looked at Yun Lintian in horror while trying his best to create a profound shield around him.

"Descend!" Yun Lintian lowered his arm and pointed his finger at Huoyun Rui.

Zzzz... Bang!

A thick golden lightning bolt struck down on the mountain, penetrating all the way into the hall, and landed on top of Huoyun Rui.

Huoyun Rui's powerful profound defense shattered immediately upon the golden lightning bolt touched it, and the lightning bolt hit him with a bang.

"Ugh..." Huoyun Rui groaned with a hoarse voice. His eyes opened wide, and his eyeballs bulged exaggeratingly, nearly coming out of the sockets. His entire body turned charcoaled from top to toe, exuding black smoke to fill the area.

Meanwhile, Yun Lintian constantly executed Shadow Step to avoid the flame tide and reappeared not far away from Huoyun Rui without a single scratch on his body.

He looked at Huoyun Rui and asked. "Is this considered my win?"

Huoyun Rui turned his head to look at Yun Lintian bitterly. Ignoring his injury, he slowly raised his arm and gave a thumb up. "Good move. I'm afraid nobody under the peak Monarch can handle this." He paused for a moment and asked. "What is this move called? It's almost comparable to the Heaven Tribulation Lightning."

"It doesn't have a name yet." Yun Lintian shook his head. He simply used The Thunder to call the lightning strike. Where did he have a name? He changed the topic. "Senior, what is the Heaven Tribulation Lightning?"

Huoyun Rui utilized his profound energy to get rid of the burnt skins while replying. "When you reach the Divine Ascending Tribulation Realm, you need to go through the Heaven Tribulation Lightning in order to shred your mortal body. The higher level, the more powerful the Heaven Tribulation Lightning becomes."

Huoyun Rui wasn't good at explaining. He briefly told Yun Lintian without giving further information.

Yun Lintian naturally understood this "Tribulation" well. He quickly asked in his mind. "Hongyue, can The Thunder control the Heaven Tribulation Lightning?"

"Naturally," Hongyue replied lazily. "However, you need to gain more control over The Thunder than you are now."

Hearing this, Yun Lintian immediately became excited. With this cheat, he didn't have to be afraid of the tribulation, and he could even help all the Misty Cloud Sect's disciples to cross it in the future. Just thinking of a Divine Ascending Tribulation Realm's army, his blood instantly boiling in excitement. At that time, who could be his sect's opponent?

At this moment, Huoyun Yurou and others retracted the barrier and came to Yun Lintian's side.

"It's no wonder you can defeat Huoyun Jie. With your movement technique alone, I don't think any of us can catch up with you." Huoyun Zhu said admiringly. "However, do not underestimate those old fogies. They have a lot of tricks to confine your movement."

Yun Lintian nodded heavily. "Thank you for reminding me, Senior. I will run as fast as I can when I see them."

"Good." Huoyun Zhu was satisfied with his answer.

"Don't you think letting him participate in the convention is a bit overkill?" Huoyun Rui, whose injury recovered, said with a rare serious expression.

"Indeed." Huoyun Zhu nodded. "But... do we have other choices?"

Huoyun Rui opened his mouth and didn't say anything in the end. That was right. His Fire Cloud Rat Clan didn't have other talented individuals. As for Huoyun Lingling and Huoyun Yanyan? It was no different from sending them to death with their current profound strength.

After a while, he asked. "Why don't I go with you? It's been a long time since I go out." The sparring between Yun Lintian and him earlier had ignited his fighting spirit. He couldn't wait to fight with those old guys.

"You? I'm afraid you would ruin our business with your muscled head." Huoyun Zhu sneered.

"Say that again, you old woman!" Huoyun Rui roared angrily.

"Stop, you two." Huoyun Yurou said calmly. Her voice carried a majestic aura, causing Huoyun Rui and Huoyun Zhu to stop quarreling immediately.

She turned to Yun Lintian and said. "Have you made up your mind?"

Yun Lintian said with a confident smile. "Yes, Senior. Please let me go."

Huoyun Yurou nodded her head gently. "Good. We will set off in three days. Go back first."

Yun Lintian looked around and nodded slightly. "Alright. I'll leave first." Following that, he quickly walked out of the hall with Linlin in his arms.

After Yun Lintian left, the atmosphere in the hall became solemn. They knew that their matriarch had something to say next.

Huoyun Yurou glanced at everyone briefly and smiled. "Why are you so serious?"

"Matriarch, please stay here. I alone is enough." Huoyun Zhu said solemnly.

"That's right, Matriarch. You don't have to do this." Other elders added, trying to persuade Huoyun Yurou.

"Grandma..." The Huoyun sisters' eyes turned red, on the verge of crying. Yun Lintian might not know this, but they knew exceptionally well this trip could be the last time she saw her grandmother.

Huoyun Yurou smiled dotingly and patted the two's heads. "Silly girls. Grandma isn't going to die. Why are you crying?"

"Wuuu... I don't want you to go. This is clearly a trap!" Huoyun Lingling, who was usually calm, raised her voice.

"You don't believe in Grandma?" Huoyun Yurou pretended to be angry.

"I didn't mean that...." Huoyun Lingling tried to explain, but she was interrupted.

"Then what do you mean? Do you think those traps can harm me?" Huoyun Yurou said with an angry smile. "Stay here obediently and practice hard. The future of our clan is in your hands."

Huoyun Lingling and Huoyun Yanyan looked at her grandmother with tearful eyes and nodded their heads heavily.

Chapter 646 Preparation For The Worst

After comforting her granddaughters, Huoyun Yurou turned to Huoyun Rui and Huoyun Xiao. "When Little Zhu and I went away, you two need to step up and take care of everything here. They will certainly try to get into this place. Although the formation has been strengthened, we cannot underestimate them. Understand?"

"Leave it to me, Matriarch." Huoyun Rui patted his chest.

Meanwhile, Huoyun Xiao thought for a moment and asked. "Matriarch, do we need to forgive Huoyun Jie? Although he's stubborn and did wrong, his loyalty is unquestionable. Plus, we need him to scout the outside situation."

Huoyun Yurou didn't answer right away. She turned to the end of the hall and said calmly. "Come here."

In front of a majestic tomb, Huoyun Jie was kneeling there with his eyes closed. His body trembled slightly when he heard Huoyun Yurou's voice. He didn't dare to neglect and hurriedly rushed to the hall.

As he arrived in the hall, he quickly knelt on one knee and said solemnly. "Matriarch!"

"Have you repented?" Huoyun Yurou placed both on the top of the cane and asked expressionlessly.

"Yes, Matriarch. This servant has been thinking about it these days and discovered I have indeed gone overboard. The young man clearly saved Little Miss's life, but I actually repaid the debt of gratitude with malice. I deserved to be punished." Huoyun Jie replied in shame.

He had discovered the change in the Ancestral Land these days, and it was obviously brought by Yun Lintian. This made him ashamed, as he was almost becoming a sinner.

"I understand how you feel about humans. However, you cannot blame Yan Qi for the Crown Prince's incident. The fault obviously lies on the Crown Prince himself." Huoyun Yurou said. "Since you've repented, I will give you a chance."

"Please give me instruction, Matriarch." Huoyun Jie hurriedly said.

Huoyun Yurou took a small jade slip out and handed it to Huoyun Jie. "Send this letter to the Deep Sea Naga Clan's Matriarch within two days. Can you do it?"

Huoyun Jie carefully received the jade slip and replied solemnly. "Please rest assured, Matriarch. This servant guarantees to complete the task within a day."

"Go ahead." Huoyun Yurou said calmly.

Huoyun Jie didn't say anything further and quickly left the hall, going straight out of the Ancestral Land.

p "Matriarch?" Huoyun Zhu was confused by Huoyun Yurou's action.

"It is too cheap to forgive him easily. Let's give him another punishment." Huoyun Yurou said expressionlessly.

However, Huoyun Zhu felt there was something more behind this. It was just that she didn't dare to ask further.

Huoyun Yurou's gaze swept over everyone, and she said with a solemn expression. "If an accident occurred, bring everyone to the Northern Continent and find a woman named Lin Zixuan. She should stay in the Sky Throne Profound Academy currently."

"We understood, Matriarch." The expression of everyone became heavy.

If Yun Lintian was here, he would be surprised to hear this. Who would have thought Huoyun Yurou actually had a relationship with Lin Zixuan?

Huoyun Yurou didn't say anything further and gazed toward the white clouds in the sky.

After leaving the hall, Yun Lintian communicated with Hongyue in his mind. "Hongyue, is there a way to let Huoyun Yurou break through within these three days?" If it was possible, he wanted to increase her strength so that the safety of everyone on this trip would increase.

"There is," Hongyue replied casually. "She has reached the limit of the sixth level for a long time. She could easily break through to the next level as long as given her enough resources."

Hongyue's answer surprised Yun Lintian greatly. He quickly asked. "What should I prepare?"

Hongyue merely waved her hand, and several precious herbs, best-grade Profound Stones, bottles of Profound Spiritual Liquid, and a bucket of Soul Liquid appeared beside her. "This should be enough."

Yun Lintian was startled for a moment and hurriedly went back to his residence before entering the Land of Beyond Heaven. He arrived in the living room and stored all the resources away.

"She has to go through the Heaven Tribulation, right? Can she pass it?" Yun Lintian asked.

"It's hard to say with her current condition. However, you can help her by taking a few rounds of thunder." Hongyue curled her lips. Her gaze filled with playfulness as though she had already seen Yun Lintian's miserable appearance.

Yun Lintian's face was cramped. He was obviously aware of Hongyue's evil thoughts. However, it seemed this was the only way if he wanted Huoyun Yurou to break through.

"I... won't die, right?" Yun Lintian said uncertainly.

"You won't," Before Yun Lintian could heave a sigh of relief, Hongyue's following sentence made his face darken. "Near death at most."

"Maybe I should stop thinking about it." Yun Lintian changed his tone.

"What? Scared?" Hongyue said with a mocking smile. "How come you become timid now?"

Yun Lintian's lips twitched, but no words came out.

"Don't listen to her, Big Brother Yun. With me here, Heaven Tribulation Lightning is nothing." Linlin put her wet paw on Yun Lintian's cheek and said confidently.

"Really?" Yun Lintian was surprised. He then touched his forehead. "How could I forget that Linlin is basically the God of Thunder?"

Hongyue rolled her eyes at Linlin and decided to stop here. This little girl seriously needed to be educated. How could she spoil her fun like this?

Yun Lintian touched his chin, thinking for a moment, and went to see Yun Qingrou at the medicine garden behind the villa.

"Lintian?" Yun Qingrou was currently instructing a few disciples to take care of the magical plants. "Are you here for the supplies? I've already prepared for you."

Yun Lintian smiled. "Thank you. However, I need to add more precious pills. There are many people between the Spirit Profound Realm and the Earth Profound Realm. I want to help them a bit. Anyway, we don't lack things like pills."

"Sure. Come with me." Yun Qingrou smiled and beckoned Yun Lintian to follow.

Along the way, Yun Lintian saw several children running happily nearby the lake. Seeing them happy like this, Yun Lintian finally put his heart at ease.

"They have come out of the shadow now. They will get even better in the future." Yun Qingrou looked at the disabled children with tenderness.

"Thank you for your hard work." Yun Lintian said sincerely. He felt that he was incompetent in this aspect. Aside from bringing them here, he didn't do anything much.

Chapter 647 Giving Treasures Away

"This is everyone's effort. It's not mine alone." Yun Qingrou looked at Yun Lintian with a gentle smile. "It's yours too. You have made a huge contribution to this. Don't belittle yourself."

A wry smile appeared on Yun Lintian's face. "I really cannot hide anything from you."

"Don't forget that I've watched you grow up." Yun Qingrou laughed slightly and led Yun Lintian into the treasury.

Upon entering the treasury, Yun Lintian was almost blinded by a dazzling array of treasures. With the nearly unlimited resources in the Land of Beyond Heaven, it was normal for the treasury to quickly fill up.

"These pills and equipment were made by our disciples. Only the best grade ones are kept here." Yun Qingrou explained and walked toward a seven-story shelf at the end of the room. She casually picked up several pill bottles and handed them to Yun Lintian. "This should be enough."

Yun Lintian stored the bottles away and looked around briefly. "They've already reached such a high level?" He was surprised because most of the treasures here were at least at Heaven rank.

Usually, it would take several tens of years for one to reach this level. This showed the disciples' progress in alchemy and forging arts was unbelievably fast.

"The environment here is suitable for learning. Also, don't forget that the profound arts they are learning are not ordinary." Yun Qingrou explained.

Yun Lintian nodded his head in an understanding manner. He admitted that he was ignorant of this matter, as he hadn't paid much attention to everyone's progress for a long time now.

"What's your plan? Don't take a risk, alright?" Yun Qingrou asked. After seeing the injured disciples, she was quite worried about Yun Lintian's safety.

Yun Lintian's heart warmed when he saw her worried expression. He gave a reassuring smile. "Don't worry. I will be the first to run if something happens." He paused for a moment and continued. "From Huoyun Yurou's words, I need the so-called Misty Token to enter the forest. Right now, the Sky Qilin Clan is planning to hold a competition between the younger generations of each clan. Heh, it's more like they want to humiliate the Fire Cloud Rat Clan and others."

"A competition?" Yun Qingrou frowned slightly upon hearing this. "Be careful out there. There may be a conspiracy behind this."

"Mhm!" Yun Lintian responded.

After exchanging a few more words with Yun Qingrou, Yun Lintian left the Land of Beyond Heaven and returned to the hut. He quickly went out and began to give necessities, pills, and equipment to the clansmen.

All the clansmen were shocked and quickly rejected Yun Lintian's kindness, but under Yun Lintian's persuasion, they accepted everything in the end.

Shortly after Yun Lintian gave everything away, Huoyun Zhu appeared in the residential area and looked at the scene in surprise. She approached Yun Lintian and asked. "Little Friend Yun, you don't have to do this at all."

Yun Lintian looked at her and replied with a smile. "Since Matriarch decided to follow me, it's my responsibility to take care of everyone. Senior doesn't have to worry about this. These items are useless to me. It's better to use it to improve everyone's living standard. They've suffered for a long time."

Huoyun Zhu glanced at the items in those clansmen's hands with a complicated feeling. She was aware of how precious these things were. For example, the beddings were actually made of Snow Wind Silkworm's silks. If it was placed on the outside, one would need at least a hundred thousand middle-grade Profound Stone to buy it. And those pills were also not ordinary at all. However, Yun Lintian actually gave them away for free!

"Let's go, Senior. I have something to talk about with Matriarch." Yun Lintian didn't want to linger on this topic further.

"Alright. Follow me." Huoyun Zhu waved her hand and brought Yun Lintian to the hall.

At this moment, Huoyun Yurou was calmly meditating beside the altar. Her eyes slowly opened upon perceiving Yun Lintian and Huoyun Zhu's aura.

"What's the matter?" Huoyun Yurou asked softly.

Yun Lintian didn't waste his time and went straight to the topic. "Senior, I have a way to let you break through."

His words immediately startled both Huoyun Yurou and Huoyun Zhu.

"W-what did you say? You can make Matriarch break through?" Huoyun Zhu stammered in shock.

Huoyun Yurou also stared at Yun Lintian, waiting for his explanation.

Yun Lintian took out a pile of best grade Profound Stones, bottles of Profound Spiritual Liquid, and a bucket of Soul Liquid and said. "I believe this should be enough for Senior to make a breakthrough."

Huoyun Yurou and Huoyun Zhu were stunned to the point their minds went blank for a while. Although the Fire Cloud Rat Clan was prosperous in the past, they could not bring out these items casually.

"Y-you... Who on earth are you?" Huoyun Zhu couldn't help saying this.

"I'm just an ordinary human." Yun Lintian replied casually. He looked at Huoyun Yurou and asked further. "Is it enough, Senior?"

Huoyun Yurou took a deep breath and asked. "Are you sure you want to give these things to me?"

"Senior, you can think of it as an investment. The stronger you are, the higher the chance of me surviving under the enemy's siege." Yun Lintian said with a smile.

Huoyun Yurou stared at Yun Lintian for a long while and nodded. "Good." She waved her hand, and all the items flew toward her.

Yun Lintian suddenly said. "Also, Senior. Linlin and I can help you go through the Heaven Tribulation."

Huoyun Yurou's eyes flashed with splendor. She was worried about this matter in her heart. Hearing this, all the worries vanished completely. "Thank you."

Yun Lintian turned to Huoyun Zhu and took out a few items before handing them to her. "This is for you, Senior."

Huoyun Zhu was already numb to Yun Lintian's wealth. She didn't hesitate to take them and replied. "Thank you."

Yun Lintian nodded with a smile and turned to Huoyun Yurou. "Shall we start it now, Senior?"

A long-lost ambition appeared in the depth of Huoyun Yurou's eyes as she responded. "Yes."

Chapter 648 Alarmed All Sides

"What did you say? Little Friend Yun gave Matriarch all of those peerless treasures just like that?" Outside of the hall, Huoyun Rui was shocked. He looked at Yun Lintian, who was standing beside Huoyun Yurou on the top of the volcano, with an amazed expression.

The other elders were no exception. They had to admit they could never be as generous as Yun Lintian if they had such a top treasure.

Huoyun Zhu glanced at everyone and said. "Go to your position. We have to make sure Matriarch can break through safely."

"Yes." All the fifty elders quickly spread out and activated defensive formations one by one.

At this moment, Huoyun Yurou was sitting cross-legged with her eyes closed. She kept absorbing Profound Spirit Liquid and Soul Liquid nonstop.

In the distance, Yun Lintian and Linlin calmly watched Huoyun Yurou and waited for her to start a breakthrough. "Linlin, stop if it's dangerous. Understand? Big brother doesn't want you to get an injury."

"Don't worry, Big Brother Yun. I know what to do." Linlin replied with a confident smile.

Huoyun Yurou's wrinkled face was rosy as a massive energy current flushing into her body. Her aura constantly rose until one point that she felt the thin layer of barrier in her body was about to shatter.

All of a sudden, the aura present on Huoyun Yurou's body disappeared for a moment, after which it once again erupted fiercely and immediately forced Yun Lintian and the vegetation around her away.

Rumble—

The sky gradually darkened while the white mist surrounding the Ancestral Land swirled violently.

"Everyone, now!" Huoyun Zhu looked at the sky and shouted loudly.

Immediately, all the elders released their aura and injected their profound energy into the defensive formations before them. In the next moment, a red dome quickly formed and covered the entire mountain.

Above the dome, black clouds began to roil and gather. They seemed boundless and endless as they engulfed all light in the sky. As the dark clouds churned, they began to slowly press down from above as though heaven was furious.

An incomparably oppressive and stifling feeling seemed to come pressing down from the sky, getting heavier and heavier as time went by, making everyone feel like their souls were shaking uncontrollably from being suffocated.

This wasn't the first time for Huoyun Zhu and other elders to face the Heaven Tribulation, but they still couldn't get rid of the fear in their hearts.

Meanwhile, Yun Lintian and Linlin looked at the sky in amazement. This was their first time witnessing this phenomenon. It was even more exaggerated than the time Yun Lintian summoned The Thunder.

Yun Lintian didn't forget to broadcast this scene to Hongyue and others. At this moment, they had already gathered in the living room and observed the scene attentively.

"Although I wasn't there myself, I can feel the powerful oppression. I don't know if I can handle it when the time comes." Yun Lingwei, who was busied with the skyship project for all this time, said.

"This is just the beginning," Hongyue said casually. "There's an even more terrifying thing waiting for you once you successfully become a divine being."

At this moment, black clouds continued to roll in, constantly thickening and forming a dense mass over the Ancestral Land, and continued to expand to several thousand meters.

This scene immediately alarmed all the spies that camped on the outside. They hurriedly reported their masters and discovered their masters had already known about it.

In an ordinary courtyard, a white-haired old man bent down to cut garlic sprouts. He had two long slender beards that looked like a dragon's beard. His entire body exuded no aura. He looked exactly like an ordinary person. However, this person's true identity could shake the whole world. He was the former patriarch of the Sky Qilin Clan, Tianqi Zongwei.

Suddenly, Tianqi Zongwei raised his head and looked in the Fire Cloud Rat Clan's direction. A surprise appeared on his face as he muttered. "Huoyun Yurou?... Interesting."

"Father!" At this moment, a middle-aged man that was eighty percent resembled Tianqi Zongwei walked into the courtyard and hurriedly bowed respectfully. He was the current patriarch of the Sky Qilin Clan, Tianqi Junlai.

"No need to do anything. She will eventually come out in a few days." Tianqi Zongwei bent down once again and continued to cut the garlic sprouts while saying. He seemed to see through his son's thoughts at once.

,m Tianqi Junlai was shocked by his father's words and calmed down the next second. He didn't expect it was actually Huoyun Yurou who was about to break through. He quickly replied. "Understood, father. This son will leave now."

Before he could leave, he suddenly heard Tianqi Zongwei's voice. "You've been in the position for several centuries, yet you are still not calm enough. You should stop scheming against others and practice more."

A cold glint flashed across Tianqi Junlai's eyes briefly before completely dissipating. He turned around and bowed his head. "This son has been taught." Following that, he quickly left the courtyard.

Tianqi Zongwei suddenly stopped his movement and glanced in the direction his son was leaving. After a while, he shook his head in disappointment and continued to cut the crops.

"It's her?" In a luxury hall, a dignified middle-aged man had a surprised expression as he glanced at the sky. "How could she do it?"

"What is it, father?" A young man, who was sitting on the side, asked curiously. He was no other than Pei Xiewen, the young master of the Great Roc Clan.

The middle-aged man, Pei Wuwen, replied with a smile. "It's nothing. That old hag is about to break through."

"Old hag?... Father means that old woman, Huoyun Yurou?" Pei Xiewen frowned slightly. "Isn't this bad for us?"

Pei Wuwen shook his head with a chuckle. "It's still unknown whether she could survive the Heaven Tribulation... Even if she did it, don't forget that there's someone that couldn't wait to tear her apart."

Pei Xiewen was enlightened. The frown between his brows disappeared entirely as he started to laugh. "I have forgotten about it."

"Let's not talk about this. How's the progress?" Pei Wuwen asked.

Pei Xiewen quickly replied. "She's more stubborn than I think. I need more time."

Pei Wuwen's eyes narrowed slightly. "If she isn't giving up, just use an extreme method."

"Understood, father." Pei Xiewen lowered his head slightly as his face turned gloomy.

Chapter 649 Horrifying Heaven Tribulation (1)

Rumble—

A beam of purple light suddenly flashed among the black clouds, followed by a bright streak of purple lightning. From one streak to three, five, one hundred, and turned into countless lightning converged together to form a humongous lightning domain with the Ancestral Land at the center.

The expressions of the clan elders were solemn. Just looked at the lightning flashing in the sky, their souls were involuntarily shaking. This Heaven Tribulation was obviously different from what they had experienced before.

Mortals cultivating to become divine beings would inevitably meet heaven's wrath. Aside from the nine palaces that possessed special inheritances passed through the generations to aid their descendants into instantaneously ascending to the heavens, be it humans, demons, beasts, or spirits, if one wished to break through to the Divine Ascending Tribulation Realm, they would need to submit to the punishments of the heavenly law. At worst, they would meet a violent end.

In the Azure World, there were small numbers of practitioners that could successfully step into the Divine Ascending Tribulation Realm throughout thousands of years of history. Most of them were either hiding somewhere or stopped meddling with worldly affairs like Tianqi Zongwei of the Sky Qilin Clan and tried to find an opportunity to ascend to the Divine World.

Huoyun Yurou was an exception. Because the Fire Cloud Rat Clan had been suppressed throughout the years, she had to take the mantle and lead her clan to survive. She simply had no time to relax and find an opportunity to make progress on the profound path.

"Purple-colored one?" Yun Lintian looked at the sky with a hint of surprise. The purple-colored lightning was the pinnacle of all lightning. It was even stronger than the golden-colored one. Yun Lintian's current strength was insufficient to summon it even with the help of the Beyond Heaven King's Crown.

On the side, Linlin's eyes flashed with splendor. Her heart was flushed with excitement every time the lightning flashed. It was as though she had returned to her home grounds.

As the black clouds started expanding lower, so too did the lightning region. And as the lightning region became lower and lower, the might of heaven grew heavier by the moment, pressing heavily on the hearts of everyone.

Rumble—

An earth-shattering crack suddenly echoed from the sky while a bolt of lightning streaked across as if it wished to split the heavens above into halves. A clear purple ray of lightning started condensing within the lightning region and began to emit horrifying sounds.

As the lightning region hung lower and lower, the light of the Heaven Tribulation Lightning that condensed in its midst also grew richer and richer. All of the brilliance and atmosphere were firmly concentrated on Huoyun Yurou's body.

Crackle! Bang!

All of a sudden, rays of lightning exploded as startling thunder roared through the sky. A streak of Heaven Tribulation Lightning ripped the black clouds apart, striking straight toward Huoyun Yurou.

Boom!

The lightning mercilessly struck down on the protective barrier, creating a visible crack in it.

Huoyun Zhu and the other elders glanced at each other with unsightly expressions. Just the first strike had already reduced the protective formation's power by half. Undoubtedly, the formation would be shattered in the next strike at this rate.

"Everyone! Pour everything we have into it. We cannot let the barrier break." Huoyun Zhu shouted. Her aura rose to the maximum, causing gravel and trees around her to shatter into pieces.

Yun Lintian frowned slightly and quickly moved around, injecting the best grade Profound Stones into the formation's eyes. In the next moment, the cracks in the barrier immediately healed, returning to their original appearance.

Huoyun Zhu looked at Yun Lintian with gratitude. Her clan was too poor right now. She could not afford to enhance the formation. Just by activating, it was already the limit.

Crackle! Bang!

Another thunderous explosion suddenly rang out across the sky as two streaks of lightning struck down Huoyun Yurou at the same time.

Boom—

This time several cracks appeared on the barrier like spider webs. Even with the help of the Profound Stones and all the elders could not resist it.

"No!" Huoyun Zhu exclaimed in horror. Her heart was hanging in her throat as she saw three thick Heaven Tribulation Lightning condensed in the sky.

Crackle!

Before anyone could react, three streaks of purple lightning descended, destroying the formation's barrier, and went straight to Huoyun Yurou.

At this moment, Huoyun Yurou's eyes snapped open. Red fire and white mist instantly appeared around her and formed a thick barrier.

Boom—

The three bolts of lightning ruthlessly struck Huoyun Yurou's barrier, and all the fire and white mist dispersed immediately.

"Ugh!" Huoyun Yurou spat out a mouthful of blood, and her expression turned pale. This Heaven Tribulation Lightning was an entirely different level from the previous one. She still had another four rounds to go. How could she survive then?

"Matriarch!" Huoyun Zhu and the other elders shouted in unison. However, they knew that it was impossible for them to intervene.

Seeing this scene, Yun Lintian knew it was time for him to act. After witnessing the power of heavenly laws, Yun Lintian couldn't help shaking a little. Honestly, he wasn't confident at all.

"Leave it to me, Big Brother Yun. You need to prepare for the later rounds." Linlin suddenly jumped out of Yun Lintian's shoulder and transformed into her true form. She looked at the furious sky in excitement.

At this moment, another four Heaven Tribulation Lightning started to condense. It merely took half a breath's time before they suddenly struck down on Huoyun Yurou once again.

Huoyun Yurou looked at the incoming lightning streaks in terror. Her face was pale as a white sheet as he tried her best to conjure a new profound defense.

"Scram!" Linlin roared loudly as she jumped into the Heaven Tribulation Lightnings directly.

Yun Lintian was shocked and was about to execute Shadow Step to take her away. He was interrupted by Hongyue's voice. "She will be fine. Just wait and see."

Yun Lintian halted his movement and stared at Linlin with anxiety. He took a stance, preparing to rescue her at any moment.

Chapter 650 Horrifying Heaven Tribulation (2)

The four Heaven Tribulation Lightnings had their eyes firmly locked on Huoyun Yurou. Anything on its path would be mercilessly struck down.

Linlin appeared above Huoyun Yurou, and her body was instantly shrouded with golden lightning sparks.

Boom—

The lightning struck down heavily on Linlin, but they were surprisingly blocked by the lightning sparks around her. However, Linlin could not escape without a wound. Some parts of her gorgeous white furs were burned, and blood leaked out underneath them.

Linlin returned to the ground and glared at the sky hatefully. She didn't expect the Heaven Tribulation Lightning to be this powerful.

"Linlin!" Yun Lintian's figure appeared beside her, and his heart ached upon seeing the wounds on Linlin's body. At the same time, he asked Hongyue in his mind. "Is this fine as you said?"

Hongyue was speechless. She sighed softly and said. "You should quickly throw this overprotective thinking away as soon as possible. This will make you constantly worry about everyone and everything. It's not a good thing."

Although Hongyue understood that Yun Lintian became like this because of his past, and she didn't blame him, it was not a good idea for him and the people around him to have this trait.

Yun Lintian snorted and ignored her. Deep down inside, he knew that it was, as Hongyue said. This wasn't a good thing for him, but he couldn't stop it. After all the pains he had gone through in his past life, he didn't want to lose anyone anymore.

Linlin turned to look at Yun Lintian with a smile. "I'm fine, Big Brother Yun. I can take another round."

Yun Lintian shook his head. "No more. Leave it to me."

Linlin's heart was warmed. She knew that her Big Brother Yun was concerned about her, but she felt she could take another round. She rubbed her head gently on Yun Lintian's head and said softly. "Let's do it together."

Yun Lintian looked at her for a second and nodded. "Alright."

Huoyun Yurou looked at the two with complicated emotion. She was certainly grateful for what they did, but she also worried about them.

Before she could say anything, five Heaven Tribulation Lightnings were suddenly flashed and struck down. This time they had become fiercer as if the heavens were irritably and angrily by Linlin's intervention. There was nothing more than wishing to obliterate these people.

The expressions of everyone changed drastically. Their entire bodies froze on the spot, and they could only look at the soul-shaking lightning struck down.

Yun Lintian's pupils shone with purple light. His mind moved, contacting The Thunder and urging it to release its power. At the same time, Linlin created several layers of golden lightning barriers above her head.

Boom—

The five lightning easily penetrated Linlin's barrier and directly shattered it. Linlin's expression turned solemn, and she hurriedly jumped into the air with lightning sparks around her. She intended to make the same move again.

However, as she traveled halfway, she suddenly heard Yun Lintian shout. "Move!" Linlin abruptly spun her body and moved to the side.

At this moment, Yun Lintian's aura surged as he had never been before. He pointed his finger at the incoming five Heaven Tribulation Lightning and yelled. "Get lost!"

It was as though time had frozen. A thick golden bolt of lightning suddenly struck down from above and directly hit the Heaven Tribulation Lightning.

Rumble—

One golden bolt of lightning and five purple bolts of lightning collided with each other, producing a horrible explosion to sweep the entire Ancestral Land.

As the dust settled, everyone inadvertently glanced at the dark sky and saw the five Heaven Tribulation Lightning had disappeared entirely. They were shocked to the core and looked at Yun Lintian in disbelief.

"We did it, Big Brother Yun!" Linlin jumped to Yun Lintian's side and hugged him happily. Because her body was twice Yun Lintian's size, he was directly knocked to the ground.

"Hold on. We still have another two rounds." Huoyun Yurou's voice resounded, bringing Yun Lintian and Linlin back to reality.

Yun Lintian got up from the ground and hurriedly asked. "Senior, how many rounds left?"

"Two rounds. The number depends on the level I am stepping into." Huoyun Yurou explained briefly.

Yun Lintian immediately understood. Since Huoyun Yurou was currently at the sixth level and was breaking through to the seventh level of the Divine Ascending Tribulation Realm, it meant seven rounds in total.

Yun Lintian looked at the sky and took a deep breath. "We should be able to handle it."

Huoyun Yurou didn't say anything, but her solemn expression explained everything. She had her own pride, and she didn't want to be a burden. This time, she prepared to go all out and let heaven decide her fate.

At this moment, the dark clouds in the sky increased their movement. They had become more violent and rapidly converged. Purple light kept flashing increasingly, and everyone, including Tianqi Zongwei and other experts on the Western Continent, could obviously perceive the entirely different atmosphere from before.

"What's going on, Hongyue? Don't tell me heaven is angry because of my intervention and decides to increase the power?" Yun Lintian asked with a serious expression. As someone who had a high affinity with the lightning element, he clearly noticed the lightning energy around here abnormally increased.

"You're right. Heaven doesn't like anyone to challenge it." Hongyue replied calmly. If one looked closely, one would see a grin on the corner of her lips.

Yun Lintian's face was cramped upon hearing this. It was indeed the same as those before. He took a deep breath and prepared for the next round of thunder.

"Linlin, you go to the side first. Let big brother come alone this time." Yun Lintian made a decision.

"But..." Linlin wanted to refuse, but she quickly stopped when she saw Yun Lintian's expression. She knew it wasn't the time to be willful and obediently step aside.

"Let me come." Huoyun Yurou stepped forward. She looked at Yun Lintian and said. "You've helped me more than enough already. This is my problem, to begin with."

Yun Lintian shook his head slightly. "Let's go together, Senior."

Huoyun Yurou took a deep look at Yun Lintian and nodded slightly. "Alright." She knew it was useless to persuade him now, counting on how determined Yun Lintian was.
