

Myth Beyond 91

Chapter 91 - Academy's Requirement

Ye Xiaolong began to explain. "To be obliged to participate in the assessment, the participant's age must be below twenty and has strength at Spirit Profound Realm at a minimum. The Sky Throne Profound Academy has always maintained absolute fairness. No matter what your background is, you are allowed to apply for the assessment if you passed the initial requirement."

"The assessment has three parts altogether. The first one is, of course, a knowledge test. From what I heard, this part is not particularly difficult. They are merely testing our fundamental knowledge related to the profound ways."

"The second part is the survival test. You will have to survive in the wilderness for a week. I'm not sure about this one, but my father once told me they allow everyone to kill each other. So if the weak participants don't want to get killed, they could choose to give up at any time."

"As for the last one, it is the test of strength. Everyone who survived until this test will have to fight each other. Only the top five hundred rankings could finally become the student."

Ye Xiaolong looked at Yun Lintian and said further, "With your current strength, you should forget about it." He then turned to Yun Qianxue with a smile, "However, if Miss is willing to work hard in these seven months, I think you will certainly reach the Spirit Profound Realm in time... How about this, why don't you travel with me? I can send you to the Profound Sky Divine City safely."

Yun Qianxue remained silent, wholly ignored Ye Xiaolong's invitation as she turned to Yun Lintian.

Yun Lintian wanted to laugh. If Ye Xiaolong knew Yun Qianxue's actual age, he wouldn't say this. He then asked, "I wonder what's the benefit of becoming the student there?"

Ye Xiaolong was dissatisfied with how Yun Qianxue seemed to care about Yun Lintian. He said, "The place where you come from must be extremely remote to the point that you don't even know about this. It's simple, your fate would change entirely if you managed to enter the academy. Even my father has to be polite in front of their student. You can imagine about it by yourself."

Yun Lintian touched his chin and pondered. He simply wanted to determine this Sky Throne Profound Academy's status in the Northern Continent. From Ye Xiaolong's words, he understood this academy might rank second under the Frozen Moon Palace.

Certainly, Yun Lintian didn't intend to participate in this assessment. With the Land of Beyond Heaven, he didn't need to enter a faction to earn resources.

Seeing Yun Lintian pretended to ponder, Ye Xiaolong smiled disdainfully... What's there to think about it? You don't even reach the Essence Profound Realm. He thought.

At this moment, various dishes had been served, and Yun Lintian immediately dug in without caring for Ye Xiaolong's contempt.

Ye Xiaolong looked at the dishes on the table and frowned. He felt these low-class meals were beneath him. He looked at Yun Qianxue and said, "Miss, why don't you come with me to the private room? I can guarantee the foods there are a hundred times better than this."

Yun Qianxue still didn't reply and continued to pick some vegetables for Yun Lintian.

Ye Xiaolong's patience reached its limit. He had tolerated Yun Qianxue many times now, and he didn't want to continue further. His face turned cold. "Miss, have you ever heard this 'to refuse a toast only to be forced to drink a forfeit?' I have given you enough face already, but you didn't appreciate it. Don't blame me then."

Following that, Ye Xiaolong waved his hand, and two strong men in the distance immediately arrived beside Yun Lintian's table. From the aura they had released, their strength should be at least the tent level of Earth Profound Realm.

Yun Lintian wanted to give Ye Xiaolong applause... What a classic! He even said that classic proverb!

"Kill him." Ye Xiaolong pointed at Yun Lintian with a cold smile. He didn't believe Yun Qianxue won't give in with Yun Lintian's life on the line.

The two bodyguards released a powerful aura, enveloping the entire restaurant, causing everyone in the dining hall to suffocate.

Yun Lintian sighed and said, "Now I understand the protagonist a bit. No matter how low-key you are, someone will eventually find you trouble... What a headache."

Ye Xiaolong frowned upon hearing this. He didn't understand what Yun Lintian said but could see Yun Lintian wasn't panicking at all. This caused him to wonder where was Yun Lintian's confidence came from.

Just as the two bodyguards were about to grab Yun Lintian, they suddenly found their arms had been severed in a flash.

"Ugh!" They were stunned for a moment before groaning in pain.

Ye Xiaolong was dumbfounded as he stared at Yun Lintian blankly. His strength had already reached the tenth level of Spirit Profound Realm, but he didn't even notice any movement from Yun Lintian at all!

"H... How?" Ye Xiaolong's expression gradually turned horror. He knew he had kicked an iron plate this time.

Yun Lintian looked at the several dishes on the table that were now stained with blood with a helpless expression. He sighed and turned to Yun Huanxin, "At least, you should protect our food."

Yun Huanxin stuck her tongue out and said, "Sorry, I forgot about it."

Only this time did Ye Xiaolong turn to look at Yun Huanxin. He had always regarded her as a little girl for all this time. Who would have thought she was an expert? What more, she was even stronger than his bodyguards!

Everyone in the dining hall was silent as they were shocked by the sudden turn of events. When they saw Ye Xiaolong approached Yun Lintian's group, they had already deemed Yun Lintian a dead man. But now, it looked like Ye Xiaolong was about to become a dead man instead.

Thinking of this, some of them who had an idea about Yun Qianxue earlier heaved a sigh of relief and felt their luck was too good. They could not imagine what their fate would be if they were to approach Yun Qianxue.

Chapter 92 - Brother Ye

"Why did you become silent, Young Master Ye?" Yun Lintian wiped some bloodstains on the table and asked Ye Xiaolong with a harmless smile.

Looking at Yun Lintian's smile, Ye Xiaolong felt a chill running down his spine. He realized this young man in front of him was not ordinary at all!

Ye Xiaolong forced a smile as he replied, "Ugh... I think we got some misunderstandings here... I just...."

"Misunderstanding?" Yun Lintian squinted his eyes. "I remembered you want to kill me earlier. You call this misunderstanding? Young Master Ye surely know how to make a joke."

Cold sweat appeared on Ye Xiaolong's forehead and did not know how to refute. His brains spun rapidly, trying to find a way out of this predicament created by himself.

Suddenly, Yun Lintian laughed and poured a new cup of water for Ye Xiaolong. "Don't be nervous, Young Master Ye. Since you've said it's a misunderstanding, then it's certainly a misunderstanding."

Ye Xiaolong involuntarily received the cup of water from Yun Lintian with his hands shaking. When he heard Yun Lintian's words, he asked uncertainly, "Really?"

Yun Lintian became displeased. "What do you mean by 'really'? Aren't you the one who said this in the first place?"

Ye Xiaolong laughed awkwardly, "Aha... haha. You're right, brother... ugh." He suddenly realized he didn't even know Yun Lintian's name until now.

"Ye Xiu, my name is Ye Xiu. See, we have the same surname here. I think we can be good brothers. What do you think?" Yun Lintian's lips curled up.

"Ah?" Ye Xiaolong was startled and quickly nodded his head. "You're right, Brother Ye. I've decided it. You will be my brother from now on!"

"Good! Let's drink a cup of our sworn blood then!" Yun Lintian took out another cup and poured water, mixing it with the two bodyguards' blood on the table, then handed it to Ye Xiaolong.

Ye Xiaolong received the cup hesitantly and uttered. "You..."

"What? You don't want to drink it?" Yun Lintian's face turned cold.

"I drink!" Ye Xiaolong didn't hesitate further and drained the cup in one go.

Yun Lintian smiled with satisfaction and said, "Good brother!"

Yun Qianxue and Yun Huanxin watched the whole process with amusement. They never thought Yun Lintian could be this bad. This Ye Xiaolong was so unfortunate by messing with Yun Lintian.

Yun Lintian suddenly stood and went to the two bodyguards' side before taking out several silver needles. "Since both of you are Brother Ye's subordinates, I'll help you reconnect your arms then."

Following that, Yun Lintian skillfully reconnected the two bodyguards' arms. It took him only five minutes before he successfully reconnected their arms back to their original positions.

At this moment, Ye Xiaolong had forgotten his resentment entirely upon witnessing Yun Lintian's magical healing profound art. As a young master of the Ye clan, he naturally understood the meaning of having high attainment in healing profound art at such a young age. It was as he expected. Yun Lintian's background was no ordinary at all.

Thinking of this, Ye Xiaolong wanted to slap himself. He shouldn't have coveted Yun Qianxue in the first place, and it resulted in offending such a character in the process.

The two bodyguards moved their hands in disbelief. They felt as though their arms had never been severed before.

"What are you two blanking for? Hurry, thank Brother Ye!" Ye Xiaolong roared angrily at his bodyguards. His action made everyone in the dining hall rolled their eyes at him.

Ye Xiaolong's roar brought the two bodyguards back to their senses, and they hurriedly bowed at Yun Lintian, "Thank you, Young Master Ye!"

Yun Lintian waved his hand dismissively and returned to his seat. He looked at the food on the table and was about to call the waitress, but Ye Xiaolong had already shouted first, "Waitress, clear the table and give Brother Ye the best dish you have here!"

"Ah, having a brother is surely convenient." Yun Lintian clicked his tongue and nodded his head with satisfaction.

Yun Qianxue and Yun Huanxin rolled their eyes at him... Are you sure he is your brother and not a servant?

Ye Xiaolong heard this. He smiled brightly and patted his chest. "You can eat what you like, Brother Ye. Today's meal is on me."

Yun Lintian wasn't polite at all and ordered the most expensive dish and wine without reserve. A while later, the table was full of various delicacies, and Yun Lintian immediately dug in with joy.

Ye Xiaolong watched the three of them ate and did not know what to say. To tell the truth, he did not have any resentment toward Yun Lintian anymore. Although he was forced to drink his bodyguards' blood, he felt it was justified as he offended Yun Lintian first. This small punishment was nothing at all compared to losing his life.

"Oh, right? Brother Ye, do you know where I can find good beddings in this town?" Yun Lintian drank a mouthful of fine wine and said.

"Bedding?" Ye Xiaolong was puzzled. "Why would you want beddings?"

Looking at Yun Lintian's frowning, Ye Xiaolong realized his question was inappropriate, and he hurriedly said, "I know where to find them. Brother Ye might not know this. This town is actually famous for Snow Wind Silk. They are raising the Snow Wind Silkworm here. Most of the high-quality clothing throughout the entire Northern Continent mainly comes from this place. You can definitely find the highest quality bedding here."

"Snow Wind Silkworm?" Yun Lintian remembered Yun Qingrou once told him about this before. No wonder this town was called Snow Wind Town.

His eyes lit up, and he asked, "I wonder if Brother Ye can help me buy some beddings? Also, if it is possible, I want to buy Snow Wind Silkworm too."

Ye Xiaolong knew a chance to make amends had come. He patted his chest domineeringly, "Since Brother Ye wants it, I, Ye Xiaolong, definitely help you buy it! You can leave this matter to me."

Yun Lintian was speechless once again. This guy really loved saying in such a grandiose tone.

"How many beddings Brother Ye wants?" Ye Xiaolong asked.

Yun Lintian touched his chin, thinking briefly, and said, "I want around two thousand of them. Can you buy it?"

Ye Xiaolong was dumbfounded by the number Yun Lintian gave him... Was he going to open an inn or something?

Chapter 93 - The Useful Young Master Ye

Ye Xiaolong didn't think about it further as he understood everyone had their own secret. He accepted the task readily. "No problem. Brother Ye can leave this matter to me."

Yun Lintian nodded. "You can ask the price first and come to get money from me."

Ye Xiaolong wanted to show his sincerity, but he forgot he couldn't afford the price of Snow Wind Silk beddings. He swallowed his words back and said, "Do you have a place to stay, Brother Ye?" Seeing Yun Lintian shook his head, Ye Xiaolong said further, "Then, why don't you come to my place? I have a manor here. It's absolutely private and convenient than staying in the inn."

Yun Lintian thought for a moment and answered, "Then I'll have to trouble Brother Ye."

Ye Xiaolong was elated. Since Yun Lintian accepted his goodwills, that meant he had already forgiven him.

After all of them finished the meal, Ye Xiaolong led Yun Lintian's group to his private manor on the west side of the town. This manor was big enough to contain a hundred people with no problem.

"Brother Ye, you and sisters can rest here first. I'll send someone to ask about the bedding in a while." Ye Xiaolong said after settling Yun Lintian's group in one of the secluded courtyards.

"Thank you." Yun Lintian said and looked around the courtyard in satisfaction.

"Then I'll leave first. If you want anything, you can tell the servant directly." Ye Xiaolong said a few words and left the courtyard.

Yun Huanxin carefully checked the surrounding before she set up an isolation barrier around the courtyard.

"Why did you spare him?" Yun Qianxue sat on a chair in the middle of the room and asked.

Yun Lintian took a kettle out and started brewing tea before he answered, "He's still useful. We can observe him first."

Yun Qianxue went silent while Yun Huanxin was busy with her pastry.

In another courtyard, Ye Xiaolong sat behind a long table and kept drinking fine wine to get rid of the taste of blood in his mouth.

"Young Master, are we going to let them go like this?" One of the two bodyguards said. He felt this wasn't Ye Xiaolong's style to let this matter rest.

Ye Xiaolong glared at him and said, "Can you kill them?"

The two bodyguards glanced at each other and shook their heads. What a joke! They didn't even know their hands were severed a while ago. How could they have the ability to kill them?

Ye Xiaolong threw the wine cup at them angrily, "Then asking me this question for what!?"

The two bodyguards were embarrassed and lowered their heads, did not dare to say anything further.

Ye Xiaolong panted angrily for a while before he calmed down and said, "Don't you see his medical profound art earlier?"

The two bodyguards nodded. They had somewhat admired Yun Lintian and felt gratitude for helping them reconnect their hands. Otherwise, they would become a cripple for the rest of their life.

"You've lived for many years. Have you ever seen a mere seventeen-year-old boy possess such superb medical skills?" Ye Xiaolong asked.

The two bodyguards shook their heads. This was the first time they saw someone who possessed such a high-level medical skill at a young age.

"And he even has at least the Sky Profound Realm's expert with him. Do you think he's an ordinary person?" Ye Xiaolong asked again. Seeing the two bodyguards shook their heads once again, Ye Xiaolong continued, "That's right. He is not simple as he appears to be. There should be a terrifying force behind him. This time I've kicked an iron plate for real."

Recalling the moment Yun Huanxin severed his bodyguards' arms, a trace of fear appeared in Ye Xiaolong's heart again. He felt he was lucky enough to keep his life until now. How could he dare to retaliate against Yun Lintian after this?

Although Ye Xiaolong was arrogant, he still knew when to stretch and when to bend. No matter what, from now on, he won't dare to offend Yun Lintian again.

Ye Xiaolong waved his hand. "Go ask Master Kong for the bedding and Snow Wind Silkworm for me. I want to rest for a while."

The two bodyguards accepted the task and went out of the courtyard, leaving Ye Xiaolong behind alone.

Ye Xiaolong stared blankly for a moment before he took a transmission jade out, appearing hesitant. After carefully considering, he shook his head and put the transmission jade away.

Yun Lintian stayed in the Ye Xiaolong's manor for two days before the two thousand beddings, and Ten Snow Wind Silkworms had finally arrived.

He looked at the thousands of luxury beddings in front of him and nodded in satisfaction. He was satisfied with the quality of these beddings. Not only would it help relieve the user's fatigue by just lying on it, but it also had the ability to calm the user's mind. Naturally, it wasn't as effective as the Serene Bamboo or Heavenly Sandalwood, but it was considered one of the best products that people could find in the Azure World.

Yun Lintian turned to Ye Xiaolong and asked, "I wonder how did Brother Ye manage to get all of them?"

At first, Yun Lintian thought he would have to wait for at least one month before these items arrived, but Ye Xiaolong surprised him by getting all of them in two days.

Ye Xiaolong smiled proudly, "I've been in contact with Master Kong, who is the person in charge of Snow Wind Trading Firm since I was young. So asking him for this is not a big deal."

Yun Lintian nodded his head. It was as he expected — Ye Xiaolong was indeed useful. He didn't think this Master Kong would sell all of these beddings to him if it was him. Not to mention the Snow Wind Silkworm was extremely rare. Even some powerful clans could not get a hand on it, but Ye Xiaolong could get ten.

"Very well. How much?" Yun Lintian asked.

Ye Xiaolong hesitated slightly before he raised two fingers, "It's two hundred million gold coins." After finishing his sentence, Ye Xiaolong observed Yun Lintian's expression nervously for fearing Yun Lintian think he tried to scam him.

Chapter 94 - Snow Wind Silkworm

Seeing Yun Lintian was silent, Ye Xiaolong hurriedly said, "I'll ask Master Kong for more discount. Brother Ye can wait for a moment."

Yun Lintian suddenly laughed and stopped Ye Xiaolong. "No need, Brother Ye. I can afford it. I just can't believe it would be this cheap."

It wasn't Yun Lintian boasting, but he did think like this. To him, these beddings plus ten Snow Wind Silkworms should be at least one billion gold coins, and he even prepared some Middle-grade Profound Stones before this, in case his gold coins were not enough.

Yun Lintian waved his hand, and several stacks of gold notes landed on the ground, along with small piles of gold coins.

Ye Xiaolong and his two bodyguards stared at the mountain of gold notes and gold coins in front of them in shock. Even though they were the Ye clan members, they had never seen this enormous amount of wealth before.

"This..." Ye Xiaolong became stuttered. His eyes swept over Yun Lintian's hands and found nothing... Where the hell did he keep all of this money?

Yun Lintian saw through his thought and smiled faintly, offering nothing for an explanation. It was his plan, deliberate creating the mysteriousness around him. With this, Ye Xiaolong won't dare to have an ulterior motive for him again.

Ye Xiaolong came back to his sense and hurriedly told his two bodyguards and some servants on the outside to carry all of the gold notes and gold coins away.

"If Brother Ye still needs something, please don't hesitate to tell me. I'll try my best to find them for you." Ye Xiaolong put a flattering smile up.

Now, Ye Xiaolong was certain Yun Lintian was hailed from one of the top fractions in the Northern Continent. Befriending this kind of character was definitely benefited him in the future. That was why he tried to get on Yun Lintian's good side.

Yun Lintian smiled on the outside, but he was snickered inwardly because Ye Xiaolong had fallen entirely into the illusion he created as he expected.

"Alright, I'll certainly look for Brother Ye if I need anything else. You can go back first." Yun Lintian said.

Ye Xiaolong was delighted. It seemed Yun Lintian had approved the relationship with him. He said, "Then I'll go first."

Yun Lintian watched Ye Xiaolong left the courtyard and letting out a soft chuckle.

"Why don't we just kill him? You've revealed too much information to him." Yun Huanxin said while lying on one bedding comfortably.

Yun Qianxue was also thought the same. It would be best if they killed Ye Xiaolong right now.

Yun Lintian shook his head and explained his thoughts. "We don't need to kill him because in his mind right now, there is a powerful force behind us. Aside from being arrogant, he is not entirely stupid. He won't dare to bet offending us by telling others our information.

"And if we killed him, I am certain, his family would send someone after us. I know with Huanxin here, they won't be able to get us easily. However, there's nothing such as absolutely safe in this world. Both of you know that. Therefore, instead of having someone trailing us, why don't we make them fear us and stop thinking how to come after us?"

Yun Qianxue and Yun Huanxin looked at Yun Lintian with admiration. They felt Yun Lintian's meticulous thinking was no different from Yun Ruanyu or even better in reading people's minds. The more they witnessed this, the more curious they became. They honestly wanted to know what exactly his background was in his past life.

In truth, Yun Lintian was merely preventing the cliché situation in those novels from happening. He knew once he killed Ye Xiaolong, his elder would come after him for revenge. And then his uncle would come. After that, it would be his father and his grandfather until everyone in his clan come. He just didn't want to experience that situation.

Yun Lintian waved his hand and stored all the beddings in his interspatial ring. He moved to a large ice jar and saw ten palm-size white silkworms wriggling in it.

"So this is the Snow Wind Silkworm? What a cute little guy." Yun Lintian used his finger to poke the silkworm playfully, and the next moment, his finger suddenly started to freeze.

"Woah, so fierce?" Yun Lintian retracted his finger, and Yun Qianxue quickly used her profound energy to prevent his finger from freezing further.

Yun Huanxin came to his side and looked at the Snow Wind Silkworm. "You shouldn't have teased them. Do you know, the fully grown-up Snow Wind Silkworm can easily freeze the Ruler Profound Realm's practitioner with no problem?"

Yun Lintian's jaw dropped in shock. He admitted he didn't know much about the Snow Wind Silkworm, but he didn't expect it to be this powerful.

"How could people raise them here?" Yun Lintian asked in puzzlement.

Yun Huanxin shook her head, "You should ask Sister Qingrou about it."

"Where to go next?" After checking Yun Lintian's finger was fine, Yun Qianxue asked.

Yun Lintian smiled and said, "We will continue to head north for the time being. I want to find a secluded place with some low-level profound beasts and concentrate on practice."

Yun Qianxue nodded, "Leaving tonight?"

Yun Lintian touched his chin. "No. We will leave in the morning."

Yun Qianxue and Yun Huanxin didn't say anything further, and the three of them went back to their own room, continue to practice.

"Hu!" Sitting on the bed, Yun Lintian let out a long breath and looked at the emptied Profound Stone in his hand.

He had been trying to break through to the Essence Profound Realm, but he discovered his Beyond Heaven Profound Vein was like a bottomless pit. He had wasted twenty High-grade Profound Stones until now, but his progress did not seem to improve at all.

Yun Lintian frowned and pondered whether he missed something. To practice the Primordial Beyond Heaven Scripture, ones needed to improve three ways — Body, Essence, and Soul altogether. However, Yun Lintian didn't think any one of them was inferior. What did he miss then?

Chapter 95 - Profound Beast Tide

The following day, Yun Lintian called Ye Xiaolong and asked him to find materials such as iron, marble, and copper. Ye Xiaolong did not let him down and prepared everything within two hours.

"Thank you, Brother Ye." Yun Lintian said politely.

Ye Xiaolong waved his hand, "It's nothing, Brother Ye." He seemed to see Yun Lintian was about to leave. He asked, "Are you leaving?"

Yun Lintian smiled. "Yes. We're leaving. When are you going to leave for the Profound Sky Divine City?"

"Brother Ye want to go too?" Ye Xiaolong thought Yun Lintian asked this because he was also headed to the Profound Sky Divine City.

Yun Lintian shook his head. "Perhaps one day, but not now."

Ye Xiaolong was disappointed slightly. He wanted to get to know Yun Lintian more, but it seemed their fate would end here. He nodded his head. "I'll leave tomorrow with my clan's juniors. They will arrive here today."

"Well, good luck on the assessment." Yun Lintian responded. He suddenly thought of something and asked. "By the way, Brother Ye. Do you know where I can find a place with a high amount of low-level profound beasts nearby here?"

Ye Xiaolong pondered for a while before he replied. "I don't know if there is such a place here in the War Song Nation. But if Brother Ye go further north and reach the Spring Wind Nation, you will find such a place almost everywhere."

"Spring Wind Nation?" Yun Lintian remembered Spring Wind Nation was connected to the Frozen Moon Palace's territory. Why did such a place have so many profound beasts?

Seeing Yun Lintian was in doubt, Ye Xiaolong said further, "Brother Ye might not know this. Recently, the Spring Wind Nation is encountering a profound beast tide. I heard my father said that it's happened at the same time as the snow poison incident in our Sky Fall Nation months ago, and the situation over there is not optimistic."

Yun Lintian's brows raised up in surprise. "I am indeed unaware of this incident. If I remember correctly, the Spring Wind Nation connects to the Frozen Moon Palace's territory. Shouldn't the Frozen Moon Palace send someone to deal with this profound beast tide? How come they let the Spring Wind Nation facing this alone?"

Naturally, Yun Lintian didn't know much about the Frozen Moon Palace's attitude, but he believed they definitely sent someone to check on the situation. After all, this incident was likely related to the Poison Valley.

Ye Xiaolong smiled wryly. "I don't know about this, Brother Ye. The Frozen Moon Palace is beyond my clan's reach. Even my father has never come into contact with them before."

At the same time, Ye Xiaolong was convinced further as he thought Yun Lintian seemed familiar with the Frozen Moon Palace, which meant he was indeed hailed from the prominent fraction.

If Yun Lintian knew this, he would laugh out loud at Ye Xiaolong's exaggerated imagination.

"Alright. Thank you, Brother Ye. We will leave now." Yun Lintian said and prepared to leave.

Ye Xiaolong said a few words before sending Yun Lintian's group out of the town.

Watching Yun Lintian's group disappeared from his line of sight, Ye Xiaolong turned to his two bodyguards and said, "Don't tell anyone about Brother Ye."

The two bodyguards nodded firmly. They understood that if someone followed Yun Lintian later, he might think Ye Xiaolong leaked his information.

The atmosphere in the Land of Beyond Heaven was lively with the addition of Cang Xiao's group. Currently, several children could be seen running around the place, while the construction of seven pagodas was online once again with the newly brought materials.

Cang Xiao was currently cooking in the cafeteria's spacious kitchen. After learning how to make food with the spirit ingredient for a week, she could now make proper spirit food and became the cafeteria's head chef.

At this moment, two little girls poked their heads out from behind the kitchen door to look at Cang Xiao. More precisely, she looked at various delicacies on the long table behind Cang Xiao.

"Looks delicious." The little girl with braid said while drooling.

"Mhm!" Another girl nodded her head in an agreed manner.

"Xian'er, Ai'er, what are you two doing here?" Suddenly, Yun Ci's voice rang out behind the two little girls, causing them to shudder.

"Mom!" The girl with the braid, Yun Xian, turned around and put on a sweet smile, looking at her mother.

"Aunt Ci!" Li Ai'er also hurriedly greeted Yun Ci.

At this moment, Cang Xiao seemed to hear her daughter's voice as she turned to look at the door and saw her daughter and Yun Xian stood there.

She shook her head helplessly and shouted, "Both of you, go to the dining area and wait for a while. The food will be ready soon."

Yun Ci looked at Cang Xiao with a smile and quickly brought Yun Xian and Li Ai'er away.

"Mom, where is Big Brother Yun? I haven't seen him for a while now." Yun Xian asked. Although Yun Lintian would come back to the Land of Beyond Heaven once in a while, she was particularly fond of him. Perhaps it was because Yun Lintian gave her an anime to watch.

Yun Ci smiled and said, "He is busy with something."

Yun Xian pouted. During these days, she was forced to practice to the point she didn't have time to watch anime. It was entirely different with Yun Lintian around; she didn't have to practice hard like this. That was why she wanted to know Yun Lintian's whereabouts.

"Who is talking about me?" Suddenly, a familiar voice resounded from the cafeteria's entrance, and Yun Lintian's figure slowly appeared.

Yun Xian and Li Ai'er's eyes lit up and quickly rushed to Yun Lintian.

"Big Brother Yun!" both little girls shouted sweetly and jumped into Yun Lintian's embrace.

"Have you practiced diligently during these days?" Yun Lintian scooped them up and asked with a gentle smile.

Both little girls nodded their heads and clenched their fists, showing their power to Yun Lintian.

"Oh? Both of you are already on the first level?" Yun Lintian was surprised by their progress. It had been only a week, and they had already stepped into the first level of Foundation Profound Realm. This speed was considered abnormally fast for an ordinary person who started from zero without any profound knowledge beforehand like them.

Chapter 96 - Eyes Of Heaven

Looking at the two little girls' smug faces, Yun Lintian chuckled and placed them on a chair nearby.

At this moment, Cang Xiao walked out of the kitchen with a cart full of delicacies. When she saw Yun Lintian, she was surprised slightly bowed her head politely at him.

Yun Lintian sniffed the aroma and said, "It seems Head Chef Cang's culinary skill has improved once again."

"You have overpraised me, Headmaster." Cang Xiao was replied modestly and placed all the dishes on the table.

Although the two little girls were greedy for food, they didn't lose the manner and looked at Yun Lintian for permission first.

"Let's eat." Yun Lintian beckoned them and used chopsticks to pick up tomato salad into his mouth.

Yun Lintian's eyes lit up after chewing a few times. "Delicious!" He didn't expect the spirit crop would be this much different from the usual crop. Now he understood why a practitioner would prefer spirit food over anything.

Cang Xiao smiled from ear to ear. She was slightly nervous as she worried the food she made might not suit Yun Lintian's taste. But now, seeing Yun Lintian's happy expression, the heavy stone on her chest was lifted.

"Come. Eat with us." Yun Lintian beckoned Cang Xiao to sit down, and the latter complied obediently.

The meal went on with no one talking as they were busy devouring the food.

Buzz—

Suddenly, Yun Lintian's body shook, and he felt he was about to make a breakthrough.

"What the..." Yun Lintian's eyes widened open in shock and hurriedly left the table, leaving Cang Xiao and others looking at him in a daze.

Yun Lintian arrived at the Profound Spirit Lake, currently known as the Misty Lake, and jumped into it without hesitation.

Yun Ruanyu, who was not far away, saw this and immediately arrived nearby Yun Lintian along.

Yun Lintian closed his eyes, letting his body float on the surface, and circulated the profound energy according to the Primordial Beyond Heaven Scripture.

Instantaneously, a powerful aura erupted from Yun Lintian's body, causing the lake's surface to ripple. The spiritual mist around the lake gradually gathered around Yun Lintian, forming into a mini cyclone a moment later.

The commotion caused everyone around the lake to look at him, and they were immediately stunned when they saw the cyclone around Yun Lintian drawing the water nearby and formed into a giant water pillar.

"What's going on?" Even the resourceful person like Yun Ruanyu was also shocked by the scene. She never heard anyone could cause this huge commotion during breaking through to the Essence Profound Realm.

Yun Qianxue, Yun Huanxin, Yun Meilan, Yun Lingwei, and Yun Qingrou arrived beside Yun Ruanyu, one by one, and stood dumbfounded there, looking at the water pillar.

"Is he okay?" Yun Qianxue turned to Yun Huanxin, as she was the most powerful person right now.

Yun Huanxin used her Spiritual Sense to check on Yun Lintian, and a frown appeared on her face. "This is not right. Why would his body constantly break and reconstructing? This is not the nature when people are breaking through to the Essence Profound Realm."

Hearing this, Yun Qianxue was anxious, but she didn't know how to help Yun Lintian. She hurriedly went back to the villa and asked Lynn about it.

"Don't worry, Miss. This is a normal occurrence. Master will be safe and sound." Lynn answered, but her answer failed to ease Yun Qianxue's restlessness.

Currently, Yun Lintian began to feel extreme pain all over his body. But it soon turned numb as his mind entered the state of emptiness.

"Nothing can escape from the Eyes of Heaven...." Suddenly, an ancient voice echoed in Yun Lintian's mind. The voice was vague and faint to the point that Yun Lintian could not hear properly. The only thing he could hear clearly was the words 'Eyes of Heaven' and nothing else.

"Eyes of Heaven? What is that?" Yun Lintian asked in his mind, but there was no answer as the ancient voice seemed to disappear completely.

Boom!

All of a sudden, a loud bang occurred in Yun Lintian's mind, and he felt as his eyes were stabbed by tens of thousands of blades before burning with scorching heat.

"Ughhhh..." A wave of pain emanated from a force devouring Yun Lintian's eyes, making him let out a painful whine. His entire body started to shake tremendously while the water pillar spun rapidly and crashed with him from time to time.

"Lintian!" Yun Qianxue was anxious when she heard his painful cry. She was about to rush at him, but Yun Huanxin held her back firmly.

"Let me go!" Yun Qianxue shouted angrily, but Yun Huanxin turned deaf as she had a clearer picture of Yun Lintian's situation than Yun Qianxue.

"We shouldn't intervene in his process. Just believe in him." Yun Ruanyu blocked Yun Qianxue and said.

Yun Qianxue took a deep breath to calm herself down and stared attentively at the water pillar. She knew this was a crucial moment for Yun Lintian, and she should not let her emotion get over her.

The surrounding profound energy flew toward Yun Lintian from all directions and was constantly absorbed by him. Every broken bone and wound within his body was gradually recovered at an abnormally high speed.

The scorching pain in Yun Lintian's eyes was still going on for several minutes before it gradually subsided, wholly disappeared.

At this moment, Yun Lintian could clearly feel he had already broken through to the first level of the Essence Profound Realm, but his current strength was even surpassed the tenth level.

While he was perceiving his new strength, the water pillar gradually dissipated along with the spiritual mist.

When Yun Qianxue and the rest saw Yun Lintian was safe and sound, they heaved a sigh of relief and began to approach him.

Just as they were about to reach Yun Lintian's side, Yun Lintian suddenly opened his eyes, and a golden light burst out from his eyes, making everyone rooted on the spot and stared at him blankly.

Yun Lintian's vision was blurry, as he could only see the golden sheen. In the next moment, he seemed to see the flow of profound energy around him. After carefully checking and confirmed he had indeed seen the energy flow, he was dumbfounded for a second before he thought of something and mumbled. "Eyes of Heaven?"

Chapter 97 - Overpowered Ability

Yun Qianxue and the rest felt as though they were naked in front of Yun Lintian's golden eyes just by a mere glance from him.

"What is that?" Yun Lingwei asked curiously.

Yun Ruanyu turned to Yun Huanxin and said, "How do you feel, Sister Huanxin?"

Comparing to others, Yun Huanxin was more sensitive. When Yun Lintian's gaze swept over her, she could feel a terrifying Spiritual Sense lock on her, as if everything could not be hidden from him.

Yun Huanxin replied, "This should be some kind of eyes sorcery. He clearly hasn't formed Spiritual Sense yet, but this technique allows him to have one. But I guess he could not use it often.

It was true, as Yun Huanxin said. After staring at the surrounding energy for a little while, a wave of fatigue suddenly hit Yun Lintian, making him almost faint on the spot.

"Lintian!" Yun Qianxue hurriedly arrived at his side and lifted him up.

Yun Lintian shook his head to gain some clarity and gave a reassuring smile to Yun Qianxue. "I'm fine. I have overdrawn my power."

Yun Qianxue quickly brought Yun Lintian to the villa and let him rest.

Lying on the bed, Yun Lintian's mind was occupied by the ancient voice of earlier. For some reason, he felt familiar with this voice, but he could not think who the person was. Naturally, he thought of his father, but he denied it later, as he always remembered his father's voice, and this ancient voice was entirely different.

"Eyes of Heaven... The first ability of the Primordial Beyond Heaven Scripture. It grants the user Heaven's eyes that could see through any illusion and the world's energy." Yun Lintian recited the knowledge he just obtained after the Eyes of Heaven had awakened.

The ability of the Eyes of Heaven was too overpowered, in Yun Lintian's opinion. Not only all the illusion would be useless in front of this ability, but he could also use it to detect any formation's eyes. The only flaw he could find it right now was probably his pupils would turn golden every time he used it. This would alarm an enemy during the battle.

"Maybe I can hide it later." Yun Lintian thought. He wasn't a man who loved doing something flashy, like those protagonists in the novels. If possible, he would love to have all of his abilities conceal.

However, he also understood sometimes it was almost impossible to conceal it. Taking the Dragon Fist as an example, the virtual dragon would be manifested every time he used it.

Yun Lintian pondered for a while before he fell asleep unknowingly.

The following day, Yun Lintian had a good breakfast and went to the waterfall, which was now filled with hundred odds people. During this period, he had never forgotten to transform his people's Profound Vein every day.

When he thought of this, Yun Lintian wanted to know whether his transformation ability had improved after he stepped into the Essence Profound Realm. Without further ado, he called three random girls nearby the shore and started transforming their Profound Veins.

"As expected. I can now use it three times a day with no problem." Yun Lintian wiped the sweat out of his forehead while muttering to himself. He had discovered that using the transformation ability three times did not exhaust him completely like before, and he could feel four times should not be a problem.

"Your ability has improved?" Yun Qianxue arrived by Yun Lintian's side with a cup of water.

Yun Lintian received the cup of water and replied, "Yes. With this, we can speed up the process so that everyone can start practice faster."

He said further. "I plan to go out soon. I don't think I can make progress by staying here. When I was broke through yesterday, I found out that I need plenty of nutrition to advance. With only these spirit crops might not enough for me."

Yun Qianxue agreed. "Then we will go out together."

Yun Lintian shook his head. "I'll go out alone this time. Huanxin needs to get the transformation soon. Otherwise, she would be left behind sooner or later."

Yun Qianxue frowned. "But it's too dangerous. You're only the first level of Essence Profound Realm right now. What if you encountered some Earth Profound practitioners?"

Yun Lintian smiled. "Don't worry, I will find a suitable place to stay first, and I will lay a high-level formation to cover up."

Yun Qianxue was about to refute, but Yun Lintian interrupted her. "This is a necessary risk. You also know that. If we want to advance further, taking risks is necessary. After all, the practitioner is bound to go against Heaven. We cannot simply take safety route all the time."

Yun Qianxue went silent after hearing this. She was agreed with Yun Lintian's words deep down. In the past, people regarded her as a heaven-chosen genius, but no one knew how hard she worked behind the facade of genius. There were countless moments she took the risk of losing her life to gain a small reward in return. It was because of this she could become the Snow Cloud Fairy that was known by everyone.

Yun Qianxue gave in. "Then let Huanxin send you to the place first. I'll stay here and wait for you. If it's possible, you should come back here every day."

Yun Lintian smiled. "Deal!"

Following that, Yun Lintian started practicing by jumping onto the boulder beneath the waterfall as he did before. However, this time, he could withstand longer than when he was at the Foundation Profound Realm. This made him ecstatic for a while.

"Awesome!" Yun Lintian was blasted away by the waterfall's pressure, but the smile on his face never faded away. He didn't expect the difference between the Essence Profound Realm and the Foundation Profound Realm would be this huge. It was a whole new level when he first broke through to the Essence Profound Realm back then.

Chapter 98 - Strange Black Energy

"Weird. There is no snow here?" Yun Lintian looked around in puzzlement.

He just arrived at the perimeter of the Spring Wind Nation with Yun Huanxin and found this place did not have snow at all. On the contrary, there was a gentle spring breeze from time to time.

"So it's really 'Spring Wind,' huh?" Yun Lintian didn't expect this place would be true as its name.

Yun Huanxin was wondered as well. This was the first time she came across the Spring Wind Nation. Hence, she didn't know anything about this place at all.

The place they were currently standing right now was a plain area with some ancient trees. The ground was entirely filled with rock, but it wasn't hard for a carriage to move along. Yun Lintian could hear a gurgling sound drifting along with the wind from time to time. Without a doubt, there must be a river nearby.

Roar!

Just as Yun Lintian and Yun Huanxin were about to move, suddenly, a loud roar came from afar along with a huge shadow running toward them.

"Stone Rhino? Peak Essence Profound Beast." Yun Huanxin used her Spiritual Sense to check the identity of the incoming figure.

Yun Lintian's eyes fixated on the three meters long rhino with stoned skins and said, "Leave it to me. I want to test my strength a bit."

Yun Huanxin retracted her hand that was about to take a shot at the rhino and spread her Spiritual Sense out to check the surroundings in case there were others nearby.

"Roar!" The Stone Rhino roared angrily and charged at Yun Lintian, aiming its horn at him.

Yun Lintian stomped one foot on the ground to stabilize his body firmly while gathering profound energy on his right fist.

When the Stone Rhino was about to hit him, Yun Lintian let out a battle cry and executed the Dragon Fist at the Stone Rhino's head.

Boom!

Yun Lintian's fist collided with the Stone Rhino's head and immediately sent it away several meters with a long trail of blood flowing out of its head. Meanwhile, Yun Lintian didn't even move an inch from the spot.

Yun Huanxin was surprised when she saw this. The Stone Rhino was famous for its defensive ability, but Yun Lintian only used a small portion of his strength to send it away. It was clear Yun Lintian's current strength had already reached the peak of Essence Profound Realm.

Yun Lintian did not just stand still on the place. He quickly used the Shadow Step to approach the Stone Rhino and sent another Dragon Fist on its head. This time, Yun Lintian didn't stop as one punch. He continued to hit one after another until the Stone Rhino's head was shattered into pieces, lying motionless on the ground.

Yun Lintian retracted his fist and exhaled. He looked at the Stone Rhino's remains with doubt before he said, "If I remember correctly, the Stone Rhino has a mild personality in nature. Why would it attack us as if its life is on the line?"

Typically, the profound beasts were extremely frenzied in nature. If they saw a human, they would pounce and assault that person as if they were enemies who could never co-exist under the same sky. However, there were also some profound beasts with a mild personalities, and the Stone Rhino was one of them.

"This is probably the profound beast tide that Ye Xiaolong said." Yun Huanxin arrived at his side and checked on the Stone Rhino's remains.

Yun Lintian squat down to find a clue on the Stone Rhino's remains, but he found nothing in the end. He thought for a moment and decided to try with the Eyes of Heaven.

Yun Lintian closed his eyes for a moment, and when he opened them again, his pupils had turned entirely golden. He stared at the Stone Rhino and suddenly found a small black dot within the Stone Rhino's heart.

"What is this?" Yun Lintian said after picking the Stone Rhino's heart out.

He used a silver knife in his hand to poke the small dot he saw. In the next moment, a terrifying scene occurred as the silver knife suddenly turned red before it melted, causing Yun Lintian to throw it away.

"What the hell?" Yun Lintian was shocked. One had to know the silver knife was made of essence iron, easily withstand high temperature and acid. But this small black dot managed to melt it so easily.

"What did you see?" Yun Huanxin asked as she didn't see the tiny black dot-like Yun Lintian. However, she could feel a terrifying power within the Stone Rhino's heart earlier.

Yun Lintian shook his head and said, "I don't know as well. There is a trace of unknown energy within this heart... It's too strange. While it could melt the essence iron, it didn't harm the Stone Rhino's heart at all."

Yun Huanxin frowned and used her Spiritual Sense to recheck the heart, but she could not find anything at all... What kind of energy is this? My Spiritual Sense actually could not detect it.

Yun Lintian hesitated for a moment before he stored the Stone Rhino remains away along with its heart.

"We will find out later. Let's find a secluded place first." Yun Lintian said and immediately set off in the river's direction.

Along the way, Yun Lintian and Yun Huanxin were constantly attacked by several profound beasts, but all of them were only the peak Essence Profound Beast which Yun Lintian had no problem dealing with them.

The small black energy could be seen in every single one of the profound beast, causing Yun Lintian to frown deeper. It was a pity. Back then, he didn't have the Eyes of Heaven ability. Otherwise, he would know whether there was this black energy within those wilted crops.

As they continued to move forward, the number of profound beasts were gradually increased, and not a single person could be seen around this place.

"Strange. We haven't met anyone so far. Where are they going?" Yun Lintian was confused. Although the nation's size was enormous, Yun Lintian didn't believe he won't encounter a single person around this place. Significantly, the profound beast in this place wasn't strong. It could be a paradise for some practitioners if they wanted to earn money.

Chapter 99 - Abyssal Energy

Yun Huanxin didn't detect anyone either. She said, "Maybe they're suffering from the profound beast tide somewhere. If we want to know, we need to go to the city."

Yun Lintian looked around for a moment, then shook his head. "Forget it. Our purpose here is to find profound beast's meat. But I wonder if it could be eaten."

He didn't want to take risks after discovering the strange black energy within the profound beast. It might be the same as the wilted crop that could harm people after consuming.

"We will find a secluded place first. I need to enter the Land of Beyond Heaven to check with Lynn." Yun Lintian made a decision.

Both of them traveled for hours before arriving at a three-meter-wide river with a waterfall falling from a small hill. Yun Lintian quickly decided to make this place his base as profound beasts would definitely come to drink water, and he could use this chance to kill them.

"Please help me make a cave behind the waterfall. I will lay a formation around here first." Yun Lintian told Yun Huanxin and started inscribing ancient runes on the formation stones he brought out. While Yun Huanxin used her sword to open a cave behind the waterfall's curtain.

An hour later, Yun Lintian had entirely laid a ruler-level killing formation with an alarm formation covering two hundred square meters. With this, even the Ruler Profound practitioner wouldn't be a threat to Yun Lintian.

"We will go back first. It's time to transform your Profound Vein now." Yun Lintian said and brought Yun Huanxin to the cave before he activated a high-level conceal formation and entered the Land of Beyond Heaven with her.

"Are you sure? I would take a long time to regain my power." Yun Huanxin asked worriedly. Without her power, Yun Lintian might not be able to travel or escape when facing a powerful enemy.

Yun Lintian firmly said, "I can't delay you further. When you start practicing a new profound art, your strength would be increased by leaps and bounds. At that time, even facing a saint would be no problem, and this is the right time to do it. After all, I will stay in the place for a long time until I reach the Spirit Profound Realm."

Yun Huanxin said nothing further and calmly accepted Yun Lintian's transformation power. Thirty minutes later, her Profound Vein had wholly transformed, and she immediately understood how powerful it was.

Yun Lintian took a deep breath to recover his mental strength before he said, "Go to the Library and pick the Void God Secret Art to practice. I think it is the most powerful space-related profound art."

Yun Huanxin nodded and walked toward the Library.

After sending Yun Huanxin away, Yun Lintian went to the villa's basement and skillfully laid an isolation formation before taking out the Stone Rhino's heart and placing it on a long table.

"Lynn, have you detected the black energy within this." Yun Lintian asked.

Lynn immediately replied, "Master, I cannot detect it."

Just as Yun Lintian was disappointed, Lynn said further, "But listening to Master's explanation, I found a piece of information that might be related to it. Master can take a look at this book."

Yun Lintian turned to the screen on the wall and saw the book called 'The Record of Abyssal Energy' on it.

"Abyssal Energy?" Yun Lintian was puzzled. He didn't linger further and quickly retrieved the book before returning to the basement and started reading.

Page by page, Yun Lintian skimmed through it and found interesting information. The Abyssal Energy was born from the creature called 'Abyssal Overlord' who reigned supreme in the Abyssal World. This Abyssal Energy could cause a negative impact on one's mind. It could make people or profound beasts enter the frenzy state and ultimately lost their consciousness.

Yun Lintian was stunned upon reading this because he seemed to recall something. The Blazing Sun Monarch, Yan Qi, had told him before about the incident four thousand years ago. It was said at that

time there were countless profound beasts appeared in the Azure World. Their skins were dark as ink, and they would emit a deadly poison aura. Later, these Profound Beasts had become the Poison Valley.

Could it be this is genuinely the Poison Valley's deeds? Then... Do they come from the Abyssal World? Yun Lintian thought. He suddenly felt as though he just discovered the truth behind the incident four thousand years ago. However, everything was merely his own guess for now. He did not have evidence to prove it.

Yun Lintian hurriedly flipped through the book to find the Abyssal Overlord and the Abyssal World information. Unfortunately, there was no further detail regarding the Abyssal World or the Abyssal Overlord within the book.

"Lynn, is there any book related to this Abyssal World?" Yun Lintian asked.

"This is the only book, Master." Lynn replied.

Yun Lintian frowned and was slightly agitated. He hated this feeling when he was about to figure something, but he lacked information in the end.

Since he couldn't do anything at the moment, Yun Lintian continued to read the Abyssal Energy's information.

"So that's how it is." Yun Lintian muttered to himself. He had figured out how to deal with the Abyssal Energy after reading for a full hour.

Yun Lintian couldn't help smiling because the cure of this Abyssal Energy was actually the highest-quality Profound Spirit Liquid... And he happened to have the entire lake with him!

"What a coincidence. My plot armor is too strong." Yun Lintian exclaimed delightfully. At first, he was worried whether he could eat the meat of these Profound Beasts as they were infected with Abyssal Energy. However, with the Profound Spirit Liquid, the Abyssal Energy was not a threat to him anymore.

Yun Lintian didn't wait further and quickly went to retrieve a bucket of Profound Spirit Liquid. He then cut the Stone Rhino's heart open and soaked it in the bucket while activating the Eyes of Heaven.

Chapter 100 - Unkown Woman And A Rabbit

A moment later, the Abyssal Energy that could melt the essence iron pouring out of the Stone Rhino's heart before it collided with the Profound Spirit Liquid fiercely, producing a sizzling noise. It did not take too long before the Abyssal Energy vanish entirely.

"Amazing!" Yun Lintian exclaimed and took several profound beast's remains out, cleaning them with the Profound Spirit Liquid.

"What are you doing?" While Yun Lintian was busy cleaning the meat, Yun Qianxue had arrived beside him.

Yun Lintian tilted his head slightly and explained shortly, "After I and Huanxin arriving in the Spring Wind Nation, we encountered the profound beast tide and found strange black energy within its body. Later, I understood it is Abyssal Energy. The Profound Spirit Liquid can erase them."

Yun Qianxue quickly got the point and asked, "This energy is the cause of the profound beast tide?"

Yun Lintian nodded, "Yes. However, we still didn't know where did it come from."

Yun Qianxue said nothing further and helped Yun Lintian cleaned all the Profound Beast's remains. Several minutes later, Yun Lintian went to the cafeteria with Yun Qianxue and made a simple dish.

"I'll taste it first." Yun Lintian spoke and quickly stuffed a piece of meat into his mouth. Its intense flavor immediately exploded, causing Yun Lintian to have an urge to moan in comfortable. At the same time, he could feel vigorous energy spread to every corner of his body as his Profound Vein greedily absorbed it.

Seeing this, Yun Qianxue also took a bite and was surprised by the potent energy within the meat.

"Perhaps it is because we clean them with the Profound Spirit Liquid." Yun Qianxue said after taking a mouthful of Pristine Jade Rice, a new product recently cultivated within the Land of Beyond Heaven.

Yun Lintian nodded in agreement and continued to devour everything in front of him. A while later, he leaned on the chair, rubbing his bulging stomach with a satisfied smile.

Suddenly, a powerful aura burst out from Yun Qianxue's body, and she hurriedly went straight to the Misty Lake, submerging into it and closed her eyes.

Yun Lintian followed out and saw Yun Qianxue was about to make a breakthrough. He was slightly surprised, as he didn't expect the profound beast's meat to be this effective.

Yun Lintian did not stand there further and went back to the cafeteria to meet with Cang Xiao. After instructing her to clean the profound beast's meat with the Profound Spirit Liquid before using it to make food, he immediately left the Land of Beyond Heaven and appeared in the cave.

Yun Lintian looked around for a while and continued to absorb the High-grade Profound Stones under the waterfall. He also paid attention to the alarm formation in case a profound beast was appearing nearby.

Plop!

All of a sudden, Yun Lintian heard a loud noise as though something had fallen into the river. He abruptly opened his eyes and was dumbfounded as he saw a small white rabbit swimming toward him anxiously.

"How did it appear here without triggering my alarm formation?" Yun Lintian found it strange and prepared to make a move.

However, he felt something was not right. This seemingly ordinary rabbit did not have any profound energy within it, but it could easily swim against the strong river's flow with no problem.

Yun Lintian did not relax his vigilance while jumping off to the shore and stared at the rabbit.

The rabbit saw Yun Lintian went to the shore and hurriedly swam toward him with all its might. Yun Lintian discovered its speed was terrifying that there was no way he could outrun it.

"What do you want?" He didn't know if the rabbit understands his words. He just wanted to test it out, as he believed this was not an ordinary beast.

The rabbit stopped for a moment before it rushed at Yun Lintian with even more terrifying speed. With a flash, the rabbit arrived beside Yun Lintian and took a bite at the hem of his robe with an anxious expression, as if it wanted him to go with it somewhere.

Yun Lintian did not launch an attack on the rabbit. He used this chance to examine the rabbit and found nothing out of the ordinary in its appearance. This rabbit was no different from a typical rabbit, except for its terrifying movement speed.

"You want me to go with you?" Yun Lintian asked after figuring out its intention.

The rabbit nodded its head vigorously and used its tiny paw to point in the west direction.

Yun Lintian frowned slightly, pondering for a moment before he decided to follow it. However, he would never step out of the killing formation.

"Lead the way." Yun Lintian said.

The rabbit was overjoyed and set off in the direction. Yun Lintian followed the rabbit for two hundred meters and wanted to stop because it had already reached the boundary of the killing formation.

When he was about to say something to the rabbit, his eyes caught a glimpse of a figure on the ground three meters away from him.

The rabbit went to the figure's side and turned to Yun Lintian with pleading eyes.

Yun Lintian's brows creased together while he was observing the figure carefully. This figure was a woman dressed in an exquisite purple robe with a purple veil covering her face entirely. He could not determine her strength, but she should not be weaker than him.

The rabbit saw Yun Lintian went silent. It quickly arrived before him and performed a kowtow action, making Yun Lintian startled for a moment.

"What are you doing?... You want me to help her?" Yun Lintian clearly saw the rabbit's anxiousness, but he did not intend to lend a hand until he understands the situation first.

The rabbit nodded its head vigorously and clutched its paws together as though it was begging him.

Yun Lintian's heart softened a little upon seeing this. The rabbit somehow reminded him of the cat he raised when he was on Earth. However, his rationale had won over his emotion as he asked, "Why should I help her? And how do you know I am a good person?"
