

## Myth Beyond 911

### Chapter 911 One Strike Break The Game

Resplendent yellow and white lights rippled through space, beaming toward Yin Bei. Both Lu Bo and Lin Canghai used their strongest attacks to ensure Yin Bei could not make a comeback.

However, before their attacks could hit the seemingly unguarded Yin Bei, all the light and color in the world abruptly vanished except for a gigantic inky black moon that was slowly descending from the sky, followed by a soul-stirring dragon's cry.

The entire space was filled with majestic pressure that threatened to break the world apart.

At this moment, a huge black figure was floating in the center of that black moon. It was a hundred meters long one-horned dragon. Its pair of dark red eyes that were full of hatred stared at everyone, causing them to shudder involuntarily.

"ALL OF YOU SHALL DIE!" Yin Bei's voice, which was filled with boundless killing intent, echoed throughout the space, followed by a terrifying power brewing above the sky.

Lu Bo's expression changed drastically. He called out and clasped his hands together. "Everyone, come to me... Seal!"

Instantly, a colossus yellow monk statue appeared around everyone, exuding a suppression aura.

The wind howled, and the sky trembled. Everyone could see the inky black moon behind Yin Bei quivered and quickly expanded out, surrounding the entire space. At this moment, they felt as though they were being stared at by a demon god—their existences were insignificant in front of it.

Rumble—

Cries of the dragon and howling wind intertwined as everything started exploding one after the other, flooding the entire space with endless darkness. Countless spatial rifts constantly appeared and disappeared all over the place.

All the buildings and mountains within the divine city instantly turned to nothingness.

The monk statue stood tall midst of the darkness, tremblingly resisting the immense explosions. Several cracks could be seen appearing everywhere on the statue. It was as though it could break at any moment.

Lu Bo was drenched in sweat as he urged his profound energy to the limit. The ultimate power of the peak of the Divine Ascending Tribulation Realm expert was not a joke. It could easily shatter the entire continent if there was no resistance.

"Cough!" Lin Canghai coughed up blood as he wanted to make a move. However, he had already spent every ounce of his strength in the previous attack.

"We cannot continue like this." Lin Canghai said while looking at Lin Taixu and the other academy elders.

Lin Taixu and the other elders immediately understood. They didn't shy away and stepped forward. "Please tell us what to do, Patriarch Lin."

"You can't!" Lu Bo suddenly bellowed. "Once you step out of my seal, you will definitely turn into pieces. This power contains the law of destruction."

Lin Taixu and the others might not understand this, but Lin Canghai understood it. His pale face turned solemn as he looked up at the explosions.

When one reached the Divine Ascending Tribulation Realm, one would see a glimpse of the laws in the universe. However, not everyone could comprehend it and take it into their own use as Yin Bei did.

"Big Brother Yun?" Qingqing looked up at Yun Lintian as if she indicated something.

Yun Lintian managed to calm his injury and looked at her. "We can try."

"Mhm!" Qingqing was happy. She had been itchy to make a move for a long time now.

Yun Lintian closed his eyes for a moment, and when he reopened them later, one of his eyes suddenly shone with deep green light, and another was purple light.

The Beyond Heaven King's Crown abruptly appeared on his head as The Storm and The Thunder symbols on his Origin Core gradually glowed.

Qingqing jumped onto Yun Lintian's shoulder, and her entire body shone brightly with a deep green light. She stretched her tiny hand out and said softly. "Come!"

All of a sudden, terrifying windstorms appeared all over the place, ramming against the seemingly endless explosions, causing the space-tearing blasts to slow down.

At the same time, world-trembling thunder roarings could be heard within the dark sky. Countless purple lightning bolts kept flashing like pythons moving around.

The purple and the deep green jewels on Yun Lintian's crown released their own brilliance that almost blinded anyone that looked at them.

"Die! Die! Die!" Yin Bei was furious to the extreme. He madly bombarded the monk statue with everything he had, further expanding the cracks in it.

"Kill!" Yun Lintian pointed his finger toward the sky, and a thick purple lightning bolt suddenly fell upon the tip of his finger before he swung his arm down.

The long purple lightning bolt turned into a majestic lightning sword, cleaving the dark world in half, and landed on Yin Bei.

BOOOOOM—

"Arghhhh!"

The miserable cry rang out in the air as Yin Bei howled in pain. Before the lightning sword hit him, he had twisted his body to avoid it, but it could not prevent him from being cut—everything from his left shoulder to his left leg was torn apart directly.

Everyone could see the huge dragon's body tossing and turning in agony. However, after recovering from the initial shock, they immediately noticed Yin Bei's vitality wasn't declined but rose instead.

"He wants to escape." Lu Bo shouted. He wanted to make a move, but he needed to maintain the seal as the explosions had yet to disappear completely.

Yun Lintian was extremely exhausted but knew he couldn't let Yin Bei escape. Otherwise, the Northern Continent would be under his threat all over again.

"Linlin!" Yun Lintian yelled and rushed out with Qingqing.

Without hesitation, Linlin jumped into the air and transformed into her true form before pulling Yun Lintian and Qingqing onto her back, rushing toward Yin Bei.

"I have underestimated you this time. Next time, I'll make sure you die a horrible death." Yin Bei coldly stared at Yun Lintian, who was rushing at him.

As his hoarse voice fell, a surge of power immediately burst out as his figure disappeared from the spot, along with the explosions.

However, with Linlin's keen perception, she could immediately locate Yin Bei's aura and rushed over with lightning speed.

On the ground, Lu Bo retracted his power and didn't hesitate to follow.

Rumble—

Suddenly, droplets of rain began to pour out of nowhere, forming torrents of downpours.

"This rain..." Lin Canghai frowned deeply. He seemed to perceive a strange aura within the rain...

Chapter 912 Chase

While Yun Lintian and Lu Bo went after Yin Bei, Tian Jiuyi stared at the scene blankly. He had never thought a mere ant like Yun Lintian could force his mighty master to flee with his life dangling on the line.

"It's time for you to pay the price." Han Bingling stared at Tian Jiuyi coldly. The scene where Tian Gouwei sacrificed his life was still vivid in her mind. If it wasn't for Tian Jiuyi's betrayal, Tian Gouwei would still be alive when Yun Lintian came.

Lin Taixu and the others didn't hesitate to lock their power on Tian Jiuyi and brought him down to the ground.

It was at this moment did Tian Jiuyi woke up from the stupor. His face turned pale as he shouted hysterically. "Let go of me! I am the descendant of Lord Sky Throne! How could puny characters like you all do this to me!?"

Tian Jiuyi had utterly lost his mind. Previously, he was still high and above, but the reality hit him hard. Was his choice wrong? Maybe. However, the victor and the loser had been decided. It was useless to regret it now.

"Abolish him and put him in a dungeon first. Wait until everything passes, and we shall execute him." Han Bingling said coldly and didn't give a second glance at Tian Jiuyi further.

Lin Taixu hesitated briefly. Although Tian Jiuyi was a traitor, Tian Zuo's bloodline still ran in his veins. He felt it inappropriate to do this.

Seeing this scene, Han Bingling sneered. "Do you know why you lose to Peng Haoye? It's because you are indecisive and blind by your stupid righteousness. If you can't do it, just leave it to others."

Bang!

As Han Bingling's voice fell, Shen Liqiu suddenly kicked Tian Jiuyi's belly, shattering his Origin Core completely.

"Arghhh!" Tian Jiuyi screamed painfully. He could feel his strength quickly leave his body, but no matter how hard he tried to prevent it, it was useless in the end. He could only lay on the ground and wail in despair.

Everyone was stunned and looked at Shen Liqiu in a daze.

Shen Liqiu smiled brightly and said. "Hello, Seniors. My name is Shen Liqiu. Yun Lintian's number one pursuer. I hope you don't mind about this."

"You..." Lin Taixu was lost for a word.

"Lintian's number one pursuer?" Han Bingling's brows raised slightly as she looked at Shen Liqiu up and down.

Shen Liqiu didn't shy away. She posed her graceful body and said. "Although my figure is not as good as yours, my stamina is definitely greater than yours, Sister Han."

p "Sister Han?" Han Bingling was taken aback.

"Of course. I can see that Lintian likes your seductive body. We will definitely be good sisters in the future." Shen Liqiu smiled brightly, revealing her teeth.

Everyone was dumbfounded... What the heck was this?

Han Bingling let out a chuckle and said. "Wait until you can catch him first."

"It won't be long." Shen Liqiu grinned.

On the side, Lin Canghai didn't bother about these women. He sat on the ground and calmly recovered his strength. His gaze was fixated on the direction Yin Bei escaped.

Shen Liqiu seemed to notice Lin Canghai's worry. She quickly said. "No need to worry, Senior. With Uncle Lu, that Yin Bei guy has no chance to escape."

"I hope so." Lin Canghai said calmly and closed his eyes. He was trying to perceive the mysterious aura lingering in the rain.

"Who is that senior?" Han Bingling asked.

"Wait until Lintian returns, and you can ask him yourself." Shen Liqiu said with a smile and turned to look in Yun Lintian's direction.

\*\*\*

Linlin and Lu Bo transformed into a streak of light, chasing Yin Bei toward the Endless Sea. Even though Yin Bei was severely injured, his speed was astonishingly high, exceeding Lu Bo and Linlin's by miles.

"He's burning his blood essence. It won't be long before his speed declines." Lu Bo said while sending a few profound lights at Yin Bei.

"Damn it!" Yin Bei cursed while dodging Lu Bo's attacks. He quickly contacted his subordinates. "All of you, come to me now!"

Soon, Lu Bo suddenly perceived a few powerful auras coming from afar. His brows involuntarily creased together. Although these people weren't his opponent, they could undoubtedly buy time for Yin Bei. This wasn't something he wanted to see.

"Young Master Yun, how confident you are to take him down?" Lu Bo asked.

Yun Lintian frowned deeply. He had wholly exhausted his profound energy. It was indeed difficult for him to take Yin Bei down.

"I can take him down, Big Brother Yun," Linlin said.

Yun Lintian thought for a moment and replied. "Even though I couldn't kill him, restraining him should be possible."

"That's enough." Lu Bo nodded. "Few people are coming toward us. They should be Yin Bei's subordinates. I will open a path for you and go to your side in a while."

"Understood." Yun Lintian responded.

At this moment, around twenty figures rushed toward Yin Bei. Each of them had the peak of the Monarch Profound Realm's strength. Judging from their appearances, they were obviously Yin Bei's subordinates.

"Take them down!" Yin Bei sped past them and said coldly.

The twenty figures didn't hesitate in the slightest. They swiftly charged at Lu Bo and Yun Lintian while gathering their Abyssal Energy.

"Break!" Lu Bo made complicated hand seals, and a powerful yellow light beamed toward the twenty figures at lightning speed.

The twenty figures were horrified instantly. This old man was actually the Divine Ascending Tribulation Realm expert!

Without thinking further, they quickly spread out and launched their attacks at Lu Bo from a distance.

"Go!" Lu Bo said, letting Linlin rush past the twenty figures while he repelled the incoming attacks for her.

Linlin shone brightly in golden, and her speed drastically increased.

In the distance ahead, Yin Bei saw Linlin coming at an unbelievable speed. His face was gloomy beyond words.

"Hmph!" He snorted coldly and sent a deadly profound light at Linlin while continuing to flee without looking back.

Linlin swiftly dodged to the side and called a few lightning bolts to disturb Yin Bei.

Yin Bei's face was unsightly. If he wasn't injured, he would turn around and slap Linlin and Yun Lintian to dead by now.

Pitter patter—

Suddenly, a curtain of rain swiftly covered the entire area, causing Yin Bei to frown.

"Hmm?" When he glanced upward, he suddenly saw a figure holding a paper umbrella floating there...

Chapter 913 Second Encounter

The appearance of the woman with an umbrella was extremely bizarre. Yin Bei couldn't even notice her aura from the beginning to the present. In this world where the peak Divine Ascending Tribulation Realm practitioner reigned supreme, how could this person avoid his perception?

Without thinking further, Yin Bei quickly moved, trying to plunge into the Endless Sea. However, his expression changed drastically when he discovered he couldn't move an inch. It was as though his entire body was pinned down in the air.

? "This..." Yin Bei was shocked to the core and inadvertently glanced at the woman in the sky. The curtain of rain concealed parts of her body. He could only see that her robe was azure in color.

In the distance, Linlin halted her track and looked at the azure-robed woman solemnly. She recognized this person's identity right away. It was no other than Rain Woman!

Yun Lintian furrowed his brows. The last time they met, this woman had almost killed him.

"Should we run, Big Brother Yun?" Linlin asked through a sound transmission.

"Let's see first. With her strength, I don't think we can escape." Yun Lintian took a deep breath and said.

"Your Excellency, may I know who you are? And why did you restrain me? I don't think I have offended you before." Yin Bei calmed down and said politely. How could he not be polite? After all, his life and death were in the other party's hands.

Rain Woman didn't say anything. Her gaze had always been on Yun Lintian since she appeared here.

"You're him, but also not him... Who are you exactly?" Rain Woman's pleasant voice echoed in Yun Lintian's ears.

Yun Lintian could obviously perceive a trace of sorrow in her voice. From the last conversation, she seemed to call him a crown prince. Who could that be?

Yin Bei frowned deeply upon hearing this. If this woman had a relationship with Yun Lintian, he would undoubtedly die.

The scene seemed to freeze. No one talked or uttered any sound. Only a rain sound could be heard.

Swoosh!

Lu Bo arrived at the scene and looked at Yin Bei before shifting his gaze onto Rain Woman. His brows involuntarily creased together upon seeing her. Although he couldn't perceive her aura, his intuition told him he wasn't her opponent at all.

"Young Master Yun?" Lu Bo asked through a sound transmission.

"Wait first, Senior. Her strength is above all of us. Even if we want to leave, I'm afraid we cannot do it." Yun Lintian explained briefly.

Lu Bo went silent immediately. However, he secretly gathered his power in case Rain Woman attacked them.

At this moment, Rain Woman said. "I have been watching you for a while. Your talent is far weaker than him. It won't be long before you get yourself killed."

She glanced at Yin Bei and continued. "A pitiful worm like him could already give you a hard time."

Yin Bei's face turned unsightly. This was the first time someone had called him like this. However, all he could do was endure and bury his anger in his heart.

Yun Lintian frowned slightly. He admitted that he wasn't strong enough, but what could he do? It had been a year after his talent awakening. Compared to anyone in this world, his progress could only be called an absolute miracle.

Furthermore, on his journey, he had never met an opponent that far weaker than him. All of them were either standing at the top of the world or a character who lived thousands of years. No matter how heaven-defying his talent was, it was difficult for him to fight with them head-on.

Yin Bei seemed to think of something. He looked at Rain Woman and said. "It seems Your Excellency is dissatisfied with his strength. He will certainly need a good opponent for training. I can be his grinding stone for him in the future as long as you let me go."

Yun Lintian and Lu Bo glanced at Yin Bei. This guy was certainly clever enough.

"You?" Rain Woman looked at Yin Bei and went silent for a while. This gave Yin Bei a glimmer of hope. It seemed he guessed correctly.

However, her following sentence immediately sent Yin Bei's entire body turning cold.

"You're not qualified to be his opponent." Rain Woman said plainly.

Yin Bei's expression changed drastically as he felt a fatal threat coming.

Roarr—

Immediately, Yin Bei let out a deafening cry as he struggled to get rid of Rain Woman's power.

In the next moment, his body was torn into pieces and turned into nothingness, as if he hadn't existed before.

"As I said, you're nothing but a pitiful worm." Rain Woman said emotionlessly.

Lu Bo's heart tensed upon seeing this scene. He couldn't even perceive a trace of the woman's aura when she made a move. There was only an explanation—her strength was beyond the Divine Ascending Tribulation Realm!

How could it be possible?... Thought Lu Bo. Since the ancient era, the Divine Ascending Tribulation Realm was the ceiling of this world. It had been proven countless times that everyone needed to go to the Divine Realm in order to break through further...How could an existence like her remain here?

All of a sudden, Rain Woman appeared before Yun Lintian like a ghost. She lifted her paper umbrella slightly, revealing her celestial countenance. However, her eyes were still tightly shut like before.

"Roar!" The moment Rain Woman came over, Linlin instinctively let out a deafening roar and tried to bring Yun Lintian away.

Unfortunately, before she could move, her entire body was wholly restrained by Rain Woman's power. It wasn't only her but also Lu Bo.

"Relax, little girl. I won't harm him." Rain Woman patted Linlin's head gently. She "looked" at Yun Lintian and said. "I can feel my old friend's aura in you. Why don't you call her out?"

As she spoke, Lu Bo suddenly fainted on the spot and fell to the ground with a loud bang.

"Old friend?" Yun Lintian frowned slightly.

"Open the gate." Hongyue's voice suddenly resounded in Yun Lintian's mind. "Don't worry. She won't harm you. On the contrary, she is the only that wants to protect you the most."

Yun Lintian stared at Rain Woman for a while and opened the Gate of Beyond Heaven for Hongyue.

"It's been a while, Qingxuan." Hongyue's illusory figure appeared beside Yun Lintian, looking at Rain Woman with a faint smile.

Chapter 914 Next Destination

Rain Woman, Qingxuan, looked at Hongyue and said. "You're still alive."

"You remember everything?" Hongyue asked.

Qingxuan shook her head. "I can't remember what happened in the past. All I know is I came here for a reason... Why don't you tell me?"

Hongyue thought for a moment and said. "You are the one who sealed your memory. Since it is the case, it's inappropriate for me to tell you. However, I can tell you that you came here for him."

Qingxuan glanced at Yun Lintian and said. "Who is he? Why did he have his power?"

"You can treat him as his successor," Hongyue replied calmly. "You have intervened in his matter this time. I'm afraid your aura would be exposed to those bastards soon. Why don't you live in the Moon Garden for the time being?"

"Moon Garden..." A frown appeared between Qingxuan's brows as she tried to recall something.

"Let's bring her over." Hongyue turned to Yun Lintian.

From the conversation, Yun Lintian could roughly guess this Qingxuan's identity. She was obviously related to the Beyond Heaven King in some ways. However, he didn't understand why she called the Beyond Heaven King "Crown Prince" instead.

Yun Lintian thought for a moment and decided to bring Qingxuan to the Moon Garden. Of course, he didn't forget to pick the unconscious Lu Bo up.

When everyone arrived at the Moon Garden floating above the Northern Continent, the frown between Qingxuan's brows grew deeper. This place seemed highly familiar to her.

Tang Suyin saw Yun Lintian come back with the unconscious Lu Bo. She frowned slightly and asked. "What happened?"

"Everything went well. We have managed to kill the Northern Endless Sea Lord," Yun Lintian explained briefly. "There's nothing wrong with Senior Lu."

He didn't want to say that Lu Bo was put to sleep by Qingxuan.

However, Qingxuan took a look at Tang Suyin and said. "I made him sleep." She paused for a moment and continued. "Imperishable Soul? Such a rare soul actually appears in this barren world. Certainly, there's something wrong here."

Tang Suyin was slightly puzzled. When she looked at Qingxuan carefully, her expression changed drastically. "Senior, your strength..."

"I don't belong to this world," Qingxuan replied plainly. She opened her palm, and a jade slip appeared on it. "Take this. Since you have lost your profound strength. It would be better to practice this instead of your lousy technique."

Tang Suyin was taken aback. Her Tang Clan's profound technique could be considered the top of this world, yet it was called a lousy technique by this woman.

However, when she thought of Qingxuan's background, she didn't think it was wrong.

"Thank you, Senior." Tang Suyin decided to accept it.

When she glanced at the jade slip, her eyes widened in disbelief because the content inside displayed a supreme-rank profound art that only existed in the legend.

"This place is not bad. I'll stay here for a while." Qingxuan nodded in satisfaction.

"Please allow me to take you around, Senior." Tang Suyin returned to her sense and hurriedly volunteered herself in order to repay her gratitude.

"Sure," Qingxuan responded.

Yun Lintian watched the two walk away and asked in his mind. "Hongyue, who is she? And why did you say she wants to protect me?"

"I cannot tell you yet, but she's like me and others. One of the previous Beyond Heaven King's acquaintances." Hongyue replied.

Yun Lintian touched his chin, pondering for a moment, and asked. "What about the mysterious woman who created the mythical realms? It's not her, right?"

"Of course not... That one, you will meet her sooner or later." Hongyue replied calmly. "You shouldn't inquire about this. All you need to do right now is to become stronger as soon as possible. Have you seen that worm today? He's not even considered a top figure among the enemies you would face later. How are you going to fight them with your current strength?"

Hearing this, Yun Lintian wanted to complain, but he held back. Hongyue's statement was not wrong. It was just that his time was too short.

"Well, I will go to the Central Continent after this." Yun Lintian thought for a moment and said. He had promised to help his senior sister Jiang Yingyue, and there was The Golden Mountain, which represented the metal element over there.

"Good," Hongyue said. "Oh, I heard there's something called Heavenly Sword Summit. You should go there."

"Don't tell me, it's one of the Beyond Heaven Relics?" Yun Lintian asked in doubt. After all, he didn't have the information about the so-called Heavenly Sword in his mind.

"It's not, but it's something you should take," Hongyue added. "It's a good weapon for you."

Yun Lintian frowned slightly. He had no clue about swordsmanship. What would he need it for? Anyway, since it was a good weapon, he didn't mind collecting it.

Yun Lintian didn't continue the conversation. He quickly headed to the divine city with Linlin and Qingqing.

"How is it?" When Yun Lintian arrived, Han Bingling hurriedly asked.

"He's dead." Yun Lintian's answer immediately made everyone relax.

"That's good." Han Bingling heaved a sigh of relief. "Where's Senior Lu?"

"He went to take care of something." Yun Lintian replied casually and turned to look at Lin Canghai, whose arm was missing.

"Senior, let me help you." Without waiting for Lin Canghai to say anything, a few thick vines quickly extended out from Yun Lintian's body and wrapped around Lin Canghai, injecting wood energy into his body.

Soon, Lin Canghai's vitality gradually improved. The wounds on his body had also recovered at a visible rate. However, his missing arm needed time to regrow again.

Naturally, Yun Lintian could give him the Fruit of Immortality, but he chose not to expose it. Han Bingling was an exception since she was almost dying.

"Senior Nangong." Yun Lintian turned to Nangong Xi and helped her recover. "By the way, where's my master?"

Lin Canghai took the initiative to reply. "She went to the Central Continent to rescue her disciple."

Yun Lintian frowned slightly. "That's not good, right? She would be in trouble once the Azure Palace knew about this."

"Parts of the turmoils here were the Wang Clan's deeds. Your master took it upon herself." Han Bingling explained.

Yun Lintian nodded slightly and said nothing more. It seemed he had to go to the Central Continent as soon as possible.

"Lintian." Suddenly, a familiar voice rang out from a distance, causing Yun Lintian to look over.

His expression froze, and he uttered tremblingly. "Mom..."

Chapter 915 Reunion And Rebuild (1)

The newcomer was no other than Yun Qianxue. Her long white hair fluttered along with a gentle breeze, revealing her peerless countenance. Her eyes were full of tenderness as she looked at Yun Lintian.

Yun Lintian stared at Yun Qianxue blankly. The image of Lin Qianxue in his "dream" perfectly overlapped with Yun Qianxue in front of him. Longing, guilt, and excitement were flushed over his heart like a tsunami, making him subconsciously call out "mom" instead of "Qianxue" as he did before.

Yun Qianxue suddenly arrived before Yun Lintian and gently pulled him into her arms. She tightly hugged him as if she was afraid he would fly away.

"You have grown up again." Yun Qianxue said softly.

Smelling a familiar scent, Yun Lintian's heart calmed down, and he gently hugged her. "You have worked hard."

Everyone in the scene looked at the two without uttering a word. Some might not know Yun Qianxue, but they could guess more or less. What attracted them the most was Yun Qianxue's detaching aura. Each of them possessed a high profound strength, but they could feel a fatal threat from her.

Especially Han Bingling. The last time they met, Yun Qianxue was nothing but a Spirit Profound Realm junior. Now, she was already at the middle level of the Saint Profound Realm. This speed was never seen before in the entire Azure World's history.

On the side, Shen Liqiu looked at Yun Qianxue with a strange expression. She remembered that this person was the former Misty Cloud Sect Master and was Yun Lintian's godmother.

However, she seemed to perceive something else between the two... Could she be another potential good sister?

Yun Lintian left Yun Qianxue's arms and looked at her beautiful face for a moment. He could feel that she had recovered a portion of her lifespan through the breakthrough, but it was still low.

At the same time, he could see her foundation was rock-solid. Even he himself could feel a threat coming from her. It seemed the "Chaos Goddess Sutra" was working well for her.

"I'll bring it to a place later. It's about time everyone finished cleaning the profound beasts." Yun Lintian said gently.

"Mhm." Yun Qianxue replied softly. When she turned to look at everyone, the tenderness in her eyes vanished entirely and was replaced with a cold and indifferent gaze.

"What are we going to do next?" Yun Lintian asked.

The Profound Sky Divine City had been reduced to a ruin, but it wasn't difficult to rebuild it. However, he didn't want to be a master of this matter. It would be better to give this task to others. He would stay on the side, providing resources only.

Han Bingling thought for a moment and said to Lin Canghai. "I will leave this place to you."

After using the "Final Haze," Han Bingling had utterly lost her profound strength. If it wasn't for the Fruit of Immortality, her Profound Vein would have been shattered by now, and no longer had a chance to enter the profound path again in her life.

All she had to do right now was practice from the beginning again, but that would take a long time. She must find someone to succeed in her position as soon as possible.

"Leave it to me." Lin Canghai said calmly. "However, we cannot manage the academy's matter. I reckon those from the main branch would send someone here soon, and it could be a threat to us."

A cold glint flashed through Yun Lintian's eyes as he heard this. According to the information he got from the Cloud Shadow Team, those in the Sky Throne Profound Academy's main branch intentionally abandoned this place with the Star Gazing Palace and the Azure Palace involved in this matter.

The purpose was obvious, they wanted to borrow the Poison Valley's hands to destroy the Frozen Moon Palace and a "legitimated descendant" like Tian Gouwei.

Now, with Han Bingling's losing her profound strength and the demise of Tian Gouwei, the Northern Continent was simply crippled in those people's eyes. Once they came over, they would take this chance to control everything.

Yun Lintian thought for a moment and said. "We can use this chance to organize everything in one go. Those who colluded with the Poison Valley should be eliminated, and those who fought to the end should be rewarded."

His eyes flashed with a brilliant light as he continued. "Didn't those bastards from the Central Continent always look down on us? I'll provide all resources to rebuild our continent. Whether it is Profound Stones or profound arts. I hope we can elevate our overall strength in the shortest time possible."

An awe expression appeared on everyone's face. Yun Lintian's words immediately ignited their hope.

However, some people were still pessimistic. For example, Lin Taixu. He frowned slightly and said. "Student Yun, do you understand what you are talking about? This is involved millions of people. Are you sure you can provide everyone with enough resources?"

Yun Lintian turned to look at Lin Taixu and threw a bunch of jade slips at him. "You can take a look."

Lin Taixu subconsciously grabbed all the jade slips and looked at the contents inside. A moment later, his eyes widened in disbelief as he stuttered. "These are... Mythical rank profound arts!"

His words immediately aroused everyone's curiosity. They quickly used their Spiritual Senses to look at the contents. Soon, similar expressions appeared on their faces. They couldn't believe what they had just seen.

"I don't mind telling everyone that these are just appetizers." Yun Lintian said calmly. "As for resources, this should be enough for the time being."

As he finished his sentence, Yun Lintian waved his hand, and billions of high-grade Profound Stones immediately appeared on the ground, forming several mountains.

Everyone opened their mouth wide, looking at the mountains of Profound Stones in shock. Each of them was a top figure, but they had never come into contact with this amount of wealth in their entire life.

"There are also a lot of magical plants and medicines. I can provide them all." Yun Lintian's expression turned solemn as he continued. "However, if I found out later that anyone has ulterior motives and takes benefits to themselves. Don't blame me for being ruthless. I won't spare anyone regardless of identity."

Lin Taixu and the others felt a chill running down their spines upon hearing this...

Chapter 916 Reunion And Rebuild (2)

Woosh—

At this moment, the Heavenly Cloud Profound Skyship and the Divine Phoenix Profound Skyship emerged from the group of clouds and slowly descended. Few figures immediately floated down and landed by Yun Lintian's side.

"We have completely killed all the invading profound beasts and took over major cities back." Yun Ruanyu was the one who spoke first.

She turned to look at Yun Qianxue and stepped forward, gently hugging the latter. "Welcome back."

Yun Qianxue smiled faintly. "Thank you for taking care of him during this period."

"Welcome back, sister." Yun Qingrou and the others gathered around Yun Qianxue and expressed their smiles.

Meanwhile, Yun Lintian looked at Nantian Jiyou and said with a faint smile. "Thank you for helping us."

Nantian Jiyou shook her head gently. "We didn't help much. After all, you have taken care of the Northern Endless Sea Lord by yourself in the end."

She paused for a moment and said. "I'll stay here for the time being."

Yun Lintian immediately understood her intention. Nantian Jiyou wanted to use her Divine Phoenix Palace to protect the weakened Northern Continent during this period.

"Thank you, Elder Nantian." Han Bingling cupped her fists and said with gratitude.

Nantian Jiyou smiled. "If you want anything, feel free to contact me directly."

As she finished her sentence, Nantian Jiyou returned to her skyship and left.

"Hahaha! We got a lot of spoils, Young Lord Yun." Huoyun Rui laughed heartily as he threw a bunch of Monarch-level profound beast cores on the ground. His entire body was drenched in blood, but he looked thrilled.

It was at this moment did Lin Canghai and the others noticed Huoyun Rui, Huoyun Zhu, and Huoyun Xiao. They immediately recognized their identities right away... How did the Fire Cloud Rat Clan members appear here? Moreover, why did they call Yun Lintian "Young Lord"?

Huoyun Zhu stepped forward and said. "Report to Young Lord. We have found a lot of traitors along the way. There are a few royal clans from various nations among them. What should we do with them? Also, we have brought some people who claimed to be your friends over."

"Oh?" Yun Lintian's brows raised slightly.

"Brother Yun! It really is you! I know it. How could you die?" At this moment, Chu Hao and Chu Mi, including Qin Yiran, Qin Yuyan, Bai Yun, Bai Qingyi, Lan Shuiying, Hua Wanru, Hua Litong, Yang Mengli, Fei Mao, and Ye Xiaolong, landed on the ground with the help of Huoyun Zhu's power.

Looking at these familiar faces, Yun Lintian couldn't help smiling. "Long time no see, everyone."

"Wooo... Brother Yun! I thought you have already dead!" Fei Mao gave Yun Lintian a bear hug and cried in joy.

Yun Lintian was speechless, but he didn't avoid it. "What happened to you? Why did you lose weight?"

The current Fei Mao was no longer chubby like before. His entire body was full of muscles, exuding a heroic aura.

"Hehe. How is it? You can't call me Fatty Mao anymore." Fei Mao laughed and showed his muscles.

"Go away." Yun Lintian chuckled and gave Fei Mao a kick, sending him to the side.

Yang Mengli hesitated briefly and asked. "Brother Yun, do you know where Yang Chen is?"

Since Yang Chen left the academy, Yang Mengli had constantly been worrying about him, but she couldn't find his whereabouts.

Yun Lintian replied with a smile. "Don't worry about him. He went to the Eastern Continent. You should know his goal."

Yang Mengli and Hua Wanru were surprised and then heaved a sigh of relief. "That's good."

Yun Lintian suddenly saw Lan Shuiying's expression wasn't good. He couldn't help asking. "What's wrong?"

Lan Shuiying let out a long sigh and said. "My royal clan has perished. In fact, I should have died with them, but your people abducted me away."

The joyful atmosphere immediately turned dull. Yun Lintian went silent for a moment and said softly. "There's you left. I believe you can revive your royal clan once again."

Lan Shuiying nodded slightly, and her eyes gradually became determined. Now, she had found a goal in her life.

"I didn't expect him to be a traitor." In the distance, Bai Qingyi's face was ashen after listening to his father's narration.

He turned to Yun Lintian and asked. "Where is he now, Brother Yun? I want to kill him with my own hands."

"That's right. I thought this bastard was a good friend. Who would have thought that he was this deceitful?" Qin Yuyan said angrily.

"Don't worry. He will receive what he did later." Yun Lintian said calmly.

Everyone nodded and calmed down.

"B-Brother Yun..." Ye Xiaolong said hesitantly.

Yun Lintian looked at this former "classic young master" and asked. "What's wrong?"

Ye Xiaolong took a deep breath and said. "Can you spare my parents and my sister? They have no idea that our clan elders have colluded with the Poison Valley and the White Feather Sect." A bitter smile appeared on his face as he continued. "Besides, my father was crippled by them. He is no different from a mortal now."

Yun Lintian immediately understood. He glanced at Yun Meilan and saw the latter nod gently, indicating that what Ye Xiaolong said was true.

"Since they didn't do anything wrong, why should I kill them? You can bring them over and live in this divine city in the future. As for his injury, I don't mind treating him."

"Really!?" Ye Xiaolong was overjoyed. He bowed his head deeply. "Thank you, Brother Yun!"

Yun Lintian waved his hand and turned to Han Bingling. "Follow me to a place."

Han Bingling was puzzled slightly and followed Yun Lintian to the skyship.

After handing everything to Lin Canghai, Yun Lintian immediately returned to the Moon Garden with everyone.

Since Yun Lintian didn't intend to hide the Moon Garden in the near future, he didn't mind showing it to his friends.

"Wow, where is this place? And what kind of that city? So huge!" Fei Mao and the others looked at the paradise-like scenery in front of them in amazement.

"This place is called Moon Garden. As for that city... Well, you can call it Misty Cloud Divine City." Yun Lintian said with a smile.

Chapter 917 Frozen Moon Desire

In a spacious room, Yun Lintian sat opposite Yun Qianxue and looked at each other for a long time. They hadn't seen each other for almost a year, but it felt like ten years had passed.

Yun Lintian took the Fruit of Immortality out and handed it to her. "Take this. I will help you recover your vitality."

Yun Qianxue didn't say anything. She swallowed it in one go and closed her eyes, calmly digesting it.

Yun Lintian didn't disturb her and quietly left the room. The feeling in his heart was too complicated right now. He didn't know how to treat her at the moment.

"Lauya. Is she...?" Yun Lintian asked in his mind.

"Yes, My King. Everyone around you all related to you from the past. Everything is not a coincidence." Lauya replied calmly, confirming Yun Lintian's speculation.

Hearing this, Yun Lintian took a long breath and put the scattered thoughts aside. Time would help him figure it out.

Yun Lintian quickly walked to Han Bingling's room. When he entered, he saw Han Bingling changing her clothes, causing him to stun for a moment.

Han Bingling froze for a moment and showed a flirtatious smile while revealing a part of her snow-white shoulder. "Do you want to look at it?"

Yun Lintian subconsciously glanced at a white part and hurriedly turned his head away. "Quickly put your robe on."

"Why? The last time you weren't like this." Han Bingling slowly walked up to Yun Lintian with a slightly loose robe on her body. She leaned her face forward gently and said. "I am no different from a helpless little girl now. You really don't want to do anything to me?"

Hot air blew against Yun Lintian's face, accompanied by a unique natural fragrance from Han Bingling's body, causing his blood to boil.

Suddenly, Yun Lintian grabbed Han Bingling and pushed her against the wall. His face stuck close to her as he looked into her eyes. The fire of desire could be seen in the depths of his eyes. Obviously, he was about to lose control.

Han Bingling groaned slightly, but the flirtatious smile didn't fade away. She daringly looked straight at Yun Lintian and said seductively. "Come on, this little girl will serve you well tonight."

"Are you sure?" Yun Lintian's breath was a bit erratic. In this posture, he could clearly see a pair of beautiful mounds and their pinkish tips, making it even more difficult to control himself.

Suddenly, Han Bingling hooked Yun Lintian's neck and kissed him deeply before leaving him and said. "Is this answer enough?"

Yun Lintian subconsciously licked his lips. The sweet taste lingered; he couldn't get enough of it.

However, this kiss had also woken his mind up. The scene where Xia Yao kept telling him to open his heart flashed through his mind... Maybe he should try it?

Yun Lintian took a deep breath and said. "I have to admit that you indeed suit my taste, whether it is your temperament or appearance. However, I don't want to jump into a relationship without a feeling."

Han Bingling was surprised slightly. The corner of her lips curled up gently as she said. "Although we cannot talk about love, for the time being, I can tell you that I have a good feeling for you... Do you know since the last time you... touched me. I keep thinking about you whenever I am free from duties. Your shadow always appears in my mind. Because of this, I know that you have already entered my heart.

Han Bingling gently touched Yun Lintian's face. Her eyes were full of affection and tenderness as she said further. "When I was about to die, aside from Xinyao, I truly wished to see you again. Can you tell me what this feeling is?"

Yun Lintian's heart trembled slightly. Honestly speaking, he and Han Bingling didn't have many interactions in the past. Their relationship could be considered a benefit-sharing one.

However, listening to Han Bingling's honest confession, Yun Lintian's heart, which had been sealed for ages, finally opened. His intuition told him he would definitely regret it in the future if he let her go.

"You won't regret it in the future?" Yun Lintian asked in a deep voice.

"Will you let me down?" Han Bingling asked back.

Yun Lintian stared straight into her eyes and said firmly. "I won't."

Afterward, he lowered his head and kissed her deeply.

Han Bingling slowly closed her eyes and enjoyed the taste of love for the first time in her life.

Yun Lintian began to pry open her mouth with his tongue and slowly savored a sweet taste. His hands slowly glided along her voluptuous body and paused on her elastic buttocks before lifting her up and bringing her to the bed nearby.

Han Bingling panted heavily after leaving Yun Lintian's mouth. Her face glowed red, and her eyes dodged slightly, unwilling to look at Yun Lintian straightly.

Looking at the heavenly scenery and Han Bingling's shy appearance, the desire in Yun Lintian's heart was ignited to the fullest. He didn't think about it further and began to savor the peerless beauty before him.

Soon, the room was filled with blissful melodies orchestrated by the two.

They didn't know that two people were standing outside the room, listening to them at the moment.

"Ah, Sister Han is faster than me." Shen Liqiu sighed regretfully, but the smile on her face didn't recede in the slightest.

She looked at Yun Qianxue on the side and asked. "As his godmother, you should be proud of him, right? After all, he has successfully taken a goddess in everyone's dream."

Yun Qianxue didn't say anything. She stared at the door for a long while before turning around and returning to her room.

Shen Liqiu took a deep look at Yun Qianxue's back. Even though Yun Qianxue hid it well, Shen Liqiu could still feel a trace of jealousy and helplessness from her... It seems she genuinely has a feeling for him. Unfortunately, it's too difficult for them to overcome this.

Shen Liqiu shook her head slightly and continued to listen to the melody.

Chapter 918 Relocation

A passionate night passed quickly. Yun Lintian and Han Bingling didn't stop until morning. Because she had no profound strength at the moment, Han Bingling couldn't withstand being tossed around and fainted directly after long hours of sweet tasting.

Sitting on the bed, Yun Lintian looked at Han Bingling affectionately. In his past life, he had played with many women during his mission, but none of them could be compared to Han Bingling in terms of figure and charm.

Women in the cultivation world are different... Thought Yun Lintian.

He covered Han Bingling with the quilt and kissed her forehead gently before washing up and leaving the room.

When Yun Lintian entered Yun Qianxue's room, he saw the latter calmly sitting on the bed with ice particles dancing around her. With a glance, Yun Lintian could see her vitality had significantly recovered. She was no longer threatened by her low lifespan anymore.

A moment later, Yun Qianxue opened her eyes and smiled faintly. "Have you eaten?"

For some reason, Yun Lintian felt guilty in his heart when he faced her like this. He calmed down and replied. "Not yet. Shall we eat together?"

Yun Qianxue stood up and suddenly said. "She's not a bad woman."

Yun Lintian was stunned for a moment and smiled wryly. "You know."

"Since you have accepted her, you should treat her well." Yun Qianxue said softly. "In this world, there's no shortage of a companion, but the one that truly cherishes it is rare. I can see that she has a good feeling for you, but because of her position at that time, it is inappropriate to be with you."

"Now, you are much stronger than her at her peak. She could completely let go of herself, and no one would dare to object."

Yun Lintian went silent for a moment and said. "I understand."

Yun Qianxue took Yun Lintian's hand and said softly. "Let's go. There are a lot of things for us to take care of."

After having a sumptuous breakfast, Yun Lintian immediately set off to the Misty Cloud Peak with Yun Qianxue. According to Yun Qianxue's idea, she wanted to revive the Misty Cloud Sect's ancestral ground again.

However, Yun Lintian didn't think staying at the original location was a good idea. After all, the profound energy over there was extremely sparse compared to the Moon Garden. Hence, he decided to relocate Misty Cloud Peak to the continent's center, not far away from the newly built Profound Sky Divine City.

Looking at the devastating mountain, Yun Lintian and the others lowered their heads and prayed for those who passed in the battle with Qi Qianxing.

"Although all the buildings have been destroyed, the mountain structure is pretty much the same. We only need to rebuild them again." Yun Qingrou said softly.

"Leave it to me." Yun Lingwei said and began to design a layout.

Yun Lintian looked around for a while and asked. "Do we have a way to increase the profound energy level on this continent?"

"There is. But before that, do you know why the profound energy on the Central Continent is much richer than here?" Hongyue asked. Without waiting for Yun Lintian to reply, she said further. "It's because the core of this world is located there."

Yun Lintian furrowed his brows. "But we can't move it."

"Indeed. However, you can change its energy flow." Hongyue responded. "If I guess correctly, there must be someone secretly controlling it over there... You know what to do."

"I see." Yun Lintian touched his chin and pondered. He believed the controller couldn't be anyone except the Azure Palace. After all, their location was the best in the world.

At this moment, a group of people leading by Yang Gouming appeared in the scene.

"It's been a while, Young Master Yun and Misty Cloud fairies. Please forgive me for coming uninvited." Yang Gouming cupped his fists and greeted everyone.

"Please, Senior." Yun Lintian smiled. He took a set of tables and chairs out and invited everyone to sit down.

"I heard from Mengli that you are going to relocate soon. Is it true?" Yang Gouming asked directly.

"Indeed. We have the idea." Yun Lintian nodded. "There will be a huge reshuffle soon. This time, there would be around four nations left. Senior can change this Heavenly Fortune Nation by yourself. I can vouch for you."

Yang Gouming and the other clan heads glanced at each other for a moment before Yang Gouming said. "We came here for this matter."

He organized words for a while and said. "We would like to form a huge city instead of a nation. This city will be jointly governed by us. However, our strength is not enough. I'm afraid we can't attract talents in the near future... We would like to ask Young Master Yun for advice."

On the side, Yun Ruanyu took the initiative to reply. "It's a good idea. A nation is heavily focused on a royal clan. A lot of talents would be buried and suppressed, unable to shine, and they would choose to move elsewhere. This would weaken the nation itself."

She paused for a moment and continued. "As for your concern. It's simple. First, you must establish an academy that advocates fairness in competition and start recruiting students within the range of the former Heavenly Fortune Nation. The qualification must be appropriate and reasonable. Including the fee and scholarships for the poor."

"Secondly, we will help you establish a connection with the Profound Sky Academy that will be built later. Once qualified students appear in your academy, you can send them to the said academy for their further progress. This will make them grateful for your city and also increase healthy competitiveness among them."

"Lastly, the current Northern Continent urgently needs resources everywhere. You can take this chance to establish a trading firm that belongs solely to your city, not an individual, and start exchanging resources with other cities as soon as possible."

"When the connection has been established, you don't need to worry about going bankrupt anymore."

Listening to Yun Ruanyu's suggestions, the eyes of Yang Gouming and the others were brightened. She was indeed worthy of being the brain of the Misty Cloud Sect.

#### Chapter 919 Secret Sharing

From the discussion with Lin Canghai, Yun Lintian decided to set up a brand new academy that genuinely belonged to the Northern Continent. Of course, he would rehire those who wanted to leave the Sky Throne Profound Academy and honor Tian Gouwei properly.

The reason he made this decision was that he didn't want the main branch of the Sky Throne Profound Academy to extend its hand to the Northern Continent again. Since they chose to ignore us, why would we give them faces?

Yun Lintian added. "Senior can send someone to Profound Sky Divine City to discuss this matter. It would be better if we could establish academy branches all over the continent in one go."

He took out a storage ring and handed it to Yang Gouming. "There are some resources in there. Senior can use them freely."

"This..." Yang Gouming was shocked when he looked at the contents inside. Even though he was the clan head, managing several businesses, he had never seen such a massive amount of wealth before.

Before Yang Gouming could say anything, Yun Lintian quickly said. "I was raised in this place. I naturally want to see my hometown prosperous. Please accept it at ease."

"Thank you. We won't let you down." Yang Gouming said gratefully. "Then we shall take our leave first."

Yang Gouming couldn't wait to start the project right away. He quickly excused himself and left with the other clan heads.

Watching them leave, Yun Lintian began to move Misty Cloud Peak with the help of the Gate of Beyond Heaven, leaving a huge crater behind. In the future, this place could form a spiritual lake and become a training ground for everyone in the newly built city.

After returning to the Moon Garden, Yun Lintian went to see Han Bingling and saw the latter already wake up.

"You're back." Han Bingling said softly. Her face was full of tenderness as if a virtuous wife waiting for her husband to return from work.

Yun Lintian smiled and hugged her gently. "You should take more rest."

Han Bingling suddenly laughed and said. "Why are you treating me like a young girl?"

"Are you not?" Yun Lintian chuckled. "I forgot that I have already turned you into a real woman now."

As he spoke, he didn't forget to squeeze her rounded, elastic buttocks, causing Han Bingling's face to turn ruddy.

Han Bingling pinched Yun Lintian's waist slightly and said. "You only know how to bully me."

Thinking of last night's experience and those various postures, she couldn't help feeling ashamed inwardly.

"Sit down first. I have something to give you." Yun Lintian brought Han Bingling to the bed and said.

"What is it?" Han Bingling asked curiously while sitting down.

Yun Lintian didn't answer. He asked. "Have you noticed my sect's disciples?"

Han Bingling thought for a moment and said. "I can see that all of them are very talented. Each of them is even stronger than a true disciple of my palace... Honestly, if I have such a group of talents, we wouldn't need to be afraid of those palaces at all."

She blinked her eyes and asked. "Why? Don't tell me you have a way to turn them into this?"

Yun Lintian pinched Han Bingling's cheek gently and praised. "As expected from my woman, you're smart."

Han Bingling slapped Yun Lintian's hand jokingly and said. "Anyone with brains could figure out."

Yun Lintian chuckled. "Since your profound strength is gone and needs to rebuild. I will give you a new set of a profound vein. I believe you can be better than them."

"New profound vein?" Han Bingling was stunned.

"Let me show you." As Yun Lintian said, the Beyond Heaven King's Crown appeared on his head, exuding a majestic aura that made Han Bingling want to kneel down.

Han Bingling saw it once in the previous battle. Although she didn't know the origin of this crown, she could see it was a higher rank than any divine rank artifact.

"It will hurt a little. Bear with it." Yun Lintian said with a smile.

"Come on. It won't be more painful than the last night." Han Bingling curled her lips and winked flirtatiously.

Yun Lintian had the urge to push this seductive woman down again, but he needed to take care of the business first. He didn't hesitate to use the crown's power to transform Han Bingling's Profound Vein.

Soon, Han Bingling opened her eyes in shock. She was initially a highly talented individual, but it couldn't be compared to the newly gained profound vein. With this multi-attributed Profound Vein, breaking through the Divine Ascending Tribulation Realm wouldn't be a problem at all.

Han Bingling subconsciously glanced at the crown and asked. "What kind of power is this?"

"Well, it's a long story... I'll bring you to a place, and we will talk along the way." Since Han Bingling had become his woman, Yun Lintian didn't mind sharing his secret with her. Of course, he also made a precaution in case something happened in the future.

He first brought her into the Land of Beyond Heaven and introduced her to Hongyue and the rest before telling her about the Beyond Heaven King.

Han Bingling was amazed by the fairyland-like scenery and everything in the Land of Beyond Heaven. She now understood why Yun Lintian and the Misty Cloud Sect were rich.

"So, you're the Beyond Heaven King's successor? And you have a mission to gather the Beyond Heaven Relics?" Han Bingling slowly digested the information. She couldn't help asking. "Since you succeed his mantle, this means the enemy you would face in the future must be beyond the Divine Realm's scope. After all, the Beyond Heaven King was powerful but still fell in the end."

? "You're a smart woman," Hongyue said. She glanced at Yun Lintian. "Although her talent is okay, she can give you good advice. You're lucky."

Yun Lintian's face twitched slightly.

Han Bingling smiled and said. "It's nothing, Senior. I just have more experience than him. It should be me instead who is lucky."

Hongyue curled her lips and said nothing more. It was said when a woman fell in love, her IQ would plummet. She didn't bother to correct Han Bingling further.

Han Bingling turned to Yun Lintian and said. "Let's go back to the Frozen Moon Palace first. I think my ancestor should have something to talk about with you."

After learning about the Misty Cloud Palace, she believed her ancestor should be aware of this from the beginning.

"Sure." Yun Lintian nodded.

Chapter 920 The True Calamity

"From today onward, we will start recruiting new disciples. We will use the same requirement." Standing on Misty Cloud Peak that had just relocated, Yun Lintian said to everyone.

Countless people lost their parents and families during the previous incident. Yun Lintian wanted to use this chance to recruit new disciples into the sect.

He also established a cloud village beneath Misty Cloud Peak in order to protect relatives of the newly recruited disciples as well as those helpless ordinary people.

As a hand-off shopkeeper, Yun Lintian naturally gave these tasks to Yun Ruanyu and the others.

"Senior, I will have to trouble you to take care of this place for the time being." Yun Lintian looked at Lu Bo.

Lu Bo smiled kindly. "What trouble? Young Master Yun can rest assured. I will protect this place well." He paused for a moment and said. "Besides, there's Senior here. This place should be the safest place in the world."

On the side, Tang Suyin said. "If you don't mind, I can teach the new disciples."

Yun Lintian's eyes lit up. "Thank you, Senior."

With the legendary Holy Maiden Tang in charge of teaching, he believed his sect would reach another level soon.

After settling everything that needed to be done, Yun Lintian left with Yun Qianxue, Han Bingling, Qingqing, and Linlin for the Eternal Frozen Cave.

The Moon Garden would station above Misty Cloud Peak, and he would travel by the skyship mainly from now on.

Soon, the group arrived at the Eternal Frozen Cave. Upon they landed on the ground, the First Generation Frozen Moon Palace Master's voice immediately resounded. "I know you would return."

"The calamity has passed, but it is only a small part. The real one had yet to come." She said further.

Yun Lintian frowned slightly. "What do you mean, Senior? Can you elaborate more?"

The First Generation Frozen Moon Palace Master responded. "My name is Han Xue. According to the old regulation, I should serve you as a protector. There's no need to call me with senior."

She continued. "The real calamity isn't about the Poison Valley but the world's boundary... You might have learned about the incident in the past where the world's boundary was broken and the tunnel leading to the Abyssal World appeared."

"This time, it would be different. Once the world's boundary broke, countless figures from the Divine Realm would pour into this world, and we would be enslaved by them."

The expression of everyone changed drastically upon hearing this.

Yun Lintian quickly asked in his mind. "Is it true, Hongyue?"

Hongyue went silent for a long while and replied. "Yes... You have around ten years at most."

Yun Lintian was shocked. He hurriedly asked further. "Is it related to the Beyond Heaven King's inheritance?"

"Yes," Hongyue replied calmly. "Back then, someone had meticulously sealed this world, preventing those greedy bastards from coming here. Unfortunately, the seal is wearing out for some reason. Once it disappears completely, this Azure World would appear in front of the Divine Realm again."

Yun Lintian immediately went silent. No matter how heaven-defying his strength was, he couldn't withstand those from the Divine Realm. At the same time, if his inheritance was revealed, everyone around him would be implicated... What to do now?

Hongyue sighed softly. "I don't want to tell you too soon because of this. You had lived in a secluded world like Earth for thirty or so years. Your heart and mind have blended with the peaceful atmosphere there for too long. Even though you have experienced many ups and downs, it cannot be compared to what you will face next."

The First Generation Frozen Moon Palace Master, Han Xue, said further. "You don't have to be disheartened. You still have time to change the fate of this world."

Yun Lintian took a deep breath and asked. "Can Senior tell me where I should start first?"

"The Poison Valley and the Azure Palace." Han Xue replied almost immediately. "Both of them might stand opposite, but they are doing the same thing. That is weakening the world's boundary."

"The Poison Valley is trying to open the tunnel once again. Meanwhile, the Azure Palace wants to open the boundary in order to let their ancestors come back and rule this world."

Han Xue paused for a moment and continued in a deep voice. "As long as you wipe them out from the surface of this world, you can slowly strengthen the world's boundary and give time for everyone."

"But that doesn't solve the root of the problem." Yun Lintian frowned deeply.

"Since they have their ancestors, do you think we don't have one?" Han Xue said calmly. "The Misty Cloud Palace's founder, Yun Wushuang, would certainly return."

At this moment, Yun Qianxue thought of the Second Generation Misty Cloud Sect Master's words, and a trace of worry appeared on her face.

"Senior, I have seen the Second Generation Sect Master not long ago. She said that her situation in the Divine Realm is not good." Yun Qianxue said solemnly.

Han Xue went silent for a long while and let out a sigh. "Then, we would have a huge problem."

The atmosphere turned heavy. No one uttered a sound.

"My King." Lauya's voice suddenly resounded in Yun Lintian's mind. "The previous Beyond Heaven King had swept the enemy in all directions by himself. I believe you can do as well."

"She's right. Instead of being depressed, why don't you deal with the problem in front of you first?" Hongyue gave a rare encouragement.

Yun Lintian took a deep breath, and his heart gradually calmed down. What Lauya and Hongyue said was true. He shouldn't focus on the future problem too much. What he needed to do right now was increase his strength as much as possible and deal with the Poison Valley and the Azure Palace.

He raised his head slightly and said firmly. "Thank you for informing me of this, Senior... I will deal with whatever comes next with my own hands."

"You have me." Yun Qianxue grabbed Yun Lintian's hand and said calmly.

"And me." Han Bingling smiled charmingly. "We will face the problem together."

"And us." Qingqing and Linlin said in unison.

At this moment, the cave suddenly opened, revealing a tall figure with long white hair. This woman looked like she was in her twenties. She was no other than Han Xue.

"It's good that you have a strong heart." Han Xue said calmly. "You can leave this place to me and do what you need to do... Go."
