

N. Machine 241

Chapter: 241

“What?!”

The blade then shattered immediately just after it was slammed with the hammer. The entire blade, not just the part where it was struck, shattered. The sword couldn't withstand the movements that Yeowun just performed.

“No ordinary sword can withstand such powerful sword movements.”

Chapter: 242

“...Oh well.”

Yeowun then threw both balls into his mouth. One was painful enough, but with two, Yeowun couldn't hide the bitterness that flashed up on his face. Yeowun then swallowed the chewed up balls. Yeowun then got up from his seat and began going through the Sword Force of the Sky Demon to breathe before he ordered, 'Nano, help me absorb the dragon ball.'

Nano's voice spread through his head.

Chapter: 243

'Sixty years worth... but how...?'

Yeowun's energy had increased by sixty years, and he couldn't believe that it really happened. This wasn't only through Nano's help. It was also partly due to the breathing skill of the Sword Force of the Sky Demon.

'Let's try to make the energy flow.'

Chapter: 244

When he was done, Yeowun couldn't pull himself up and fell with one knee on the ground. His muscles were damaged from moving through movements that were beyond the limit of his muscles. It seemed like all formations of the Sword Force of the Sky Demon required a muscle transfer from Nano.

“Ah...”

He didn't realize it at first because of the pain, but Yeowun became astounded as he glanced around. Sword markings were on the floor as if swords had stormed out from where he stood.

Chapter: 245

Yeowun thought that maybe he was just looking at the tip of the iceberg when he thought of these sword movements.

"Whew..." Yeowun sighed. After observing these sword movements, the fourth formation of either swordskill required his physical body to grow and to also increase his martial art power.

'So, I need to become stronger.'

Chapter: 246

"I have an announcement to make."

The members all became silent and focused on Yeowun.

"I am going into the closed room beginning tomorrow."

Chapter: 247

'...I had something to do.'

When she cleaned it off his face with her handkerchief, Yeowun became embarrassed and blushed. Mun Ku was amused by Yeowun's reaction that she didn't think much about the actual reason for it.

'So, he's been writing all that these days?'

Chapter: 248

Hu Bong was so touched that he shouted and got down to the ground and bowed. He didn't think Yeowun would go so far for his members. Hu Bong was from a middle-ranked clan and he never dreamed of learning master-level martial arts.

Hu Bong slammed his head on the ground and shouted, "I will serve you for my entire life for this grace! I will accomplish your order!"

The master-level martial arts books were revered by these martial artists. Other members, especially those from the weaker clans, were all teary from their emotions.

Chapter: 249

She was dumbfounded. This was beyond anyone's expectation. It was curious as to what instructors or the Chief of the Academy might think if they knew Yeowun could do this.

"M-master... d-did you memorize all these books?"

Yeowun then realized he had made a mistake after hearing Wanghur's question. He just concentrated on copying down as many as books in hopes of helping his members, but he didn't think about how impossible it was to do such thing normally.

Chapter: 250

The Six Swords then became confused. It seemed like they all received the same breathing skill. They thought they might have received different breathing skills just like how they were given different martial art skills, but they were all the same.

'I've never heard of it.'

'Force of Mixed Origin...?'
