

## **N. Machine 621**

Chapter: 621

But the young man was disappointed. He actually wanted to fight this similarly-aged warrior who seemed to be a good match, but he was concerned about the two others who he couldn't sense. One of them even recognized the Dual Martial Swords. He shouted at Bakgi.

"Hey, Kicker."

"What did you call me?!"

Chapter: 622

If he was related to Blue Sky Brotherhood or the Forces of Evil, there was no need to keep him alive. Especially when he saw Feng Muwar and Gam Miyan's bodies. Yeowun placed a blood point seal on him.

"I'll question him this time, My Lord."

Yeowun was threatening whenever he questioned people, so Yang Danwa decided to do it this time around. Soon, the young man woke up.

Chapter: 623

'Is he an apprentice?'

That was another possibility. But if he only spoke his name, it was certain that he wanted to hide his background at least. Yang Danwa continued, "Why did you attack us?"

Yang Danwa knew that Bunwang attacked them after looking at Gam Miyan's dead body. Bunwang then glanced at the dead Gam Miyan again and spoke grimly.

Chapter: 624

Bunwang hesitated for second and briefly explained his reasons.

"Sister?"

“Yes. My sister has a disease that no other doctors can mend, but the medicine made by that woman worked quite well.”

Chapter: 625

[That’s interesting.]

[I have never heard of the disease existing in real life until today.]

Yang Danwa heard this was a legend, but if the granddaughter of the Godly Doctor identified it as such, then it wasn’t to be ignored. Bunwang became grim after explaining his sister’s state.

Chapter: 626

Bunwang couldn’t correct Yang Danwa, the danger wasn’t only directly from his sister in this case. He couldn’t even imagine what his sister would do if she went full berserk. That’s when Yeowun unsealed Bunwang. Bunwang’s internal energy began to circulate and revolve around and Bunwang, ripping the rope that tied him apart. Yeowun ordered, “Take the lead.”

“Okay.”

Bunwang nodded and charged out toward the direction, while Yeowun and Bakgi followed. Yeowun ordered Yang Danwa and Hu Bong to stay behind with the baby. After moving through the mountain for about three miles, they soon arrived at the place.

Chapter: 627

Bunwang figured he might freeze to death, so sent internal energy into his foot to kick her away. He still couldn’t use his greatsword against his sister. But his choice was wrong. His kick did not reach Yogun as a barrier formed with ice stopped his kick.

“W-what?!”

Yogun reached out toward Bunwang and held his other shoulder. Cold energy seeped into his shoulder and Bunwang became terrified.

Chapter: 628

“I didn’t think it would be this bad.”

This amount of energy was beyond what Bunwang could ever be prepared for, and required his father to solve it. But that's when he saw something amazing.

"W-what?"

Chapter: 629

"I-I can't believe it!"

Yogun's powers that she used while her silver hair fluttered was astonishing. It looked like she was an ice witch. But this skill actually worked against her. Her sight was blocked and all ice particles that went after Yeowun stopped it.

'This is the chance.'

Chapter: 630

"There's no time to be shocked. Let's go."

Bakgi spoke and ran and Bunwang followed them. He had to save his sister first.

As soon as Yeowun got back to the others at the mountain, they went down to the docks. They just needed to cross the Yellow River and go south toward the Demonic Cult's outpost at the northern end of the Honam Region. The Godly Doctor Gam Rosu, Mun Ku, and Hou Sangwha must have been waiting there. It was a dark night they probably couldn't get a boat, but luckily they were able to find a boat that went across the river.
