

N. Machine 71

Chapter: 71

For the first battle, the 1st and 3rd group got onto the training ground and looked at each other. Unlike the 3rd group who was tense, the 1st group seemed like they were certain of their victory.

'Chun Muyeon.'

Yeowun knew the name also. He was first in line for the throne, and he was known for being the closest heir. Without considering the fact that he was from the Wise Clan, or the most powerful clan among the six clans, he was known for his power, wisdom, and character. As both groups got ready, Hameng shouted, "The group that overpowers other wins. Begin!"

Chapter: 72

While everyone was focused on the results, Yeowun was glad that he had guessed right. The losers had to leave the training ground with grim faces and the winners shouted with joy.

Hameng shouted, "Next pair, come up!"

It was the fifth versus eighth. Yeowun looked at his anxious group members.

Chapter: 73

'Nano, activate Augmented Reality. Activate the formation tutorial.'

Yeowun then started seeing the lines and writings in his sight. He had already registered the twelve formations into Nano's program. Members of the 8th group became nervous as Yeowun did not give them any orders while the 5th group was charging straight at them.

"Not yet!" Yeowun shouted to his members. And when the 5th group reached a certain distance, Chun Wonryou shouted, "Number two!"

Chapter: 74

He was a bit weaker in internal energy, but his muscle cells were at Submeng's level, and that allowed him to hold his ground. Yeowun then took a step forward. His lack of internal energy let the attack wave pass through the shield, but he also had a way to deal with this.

[Regenerating bodily damage from hostile energy force coming through the shield.]

Nano moved quickly to heal Yeowun. Wonryou was shocked.

Chapter: 75

'W-wait...'

She then saw Yeowun grinning at her with a smirk.

"AAAAHHHHHH!"

Chapter: 76

'No. It's not Submeng.'

He would have thought it was Submeng if Yeowun was just powerful in martial arts, but he had passed the second test so easily. He overpowered Wonryou in using formation tactics, and Hameng liked how aggressive Yeowun was in dealing with his enemies.

'...Maybe I should've taken him in as my apprentice before Submeng did.'

Chapter: 77

What did that mean? Ha Ilming then flashed his sword up and shouted.

"Spear formation!"

"Spear formation!"

Chapter: 78

All students rejoiced with a shout. The past three weeks had been busy for them. These three vacation days was for the students so they could take the time to recover, but it was also for instructors who needed rest.

At the office on the first floor of the main building, there was a long meeting table with piles of documents which the instructors were shifting through. Someone came up to Lee Hameng with a pile of organized documents.

“This is the evaluation and information regarding the failed cadets through the fifth group.”

Chapter: 79

His goal was to scan as many as he could within the time limit. The library was shaped like a tower, and each higher floor had less space. There were no windows and the only entrance was from the entrance on the first floor.

‘I should give up on trying to sneak in.’

Chun Yeowun was shocked to see this. The library had one of the top security measures throughout the entire Demonic Cult castle.

Chapter: 80

“This was left by our founding father, Chun Ma.”

“Chun Ma?”

Yeowun became intrigued after knowing the secret behind this blue glowing stone. The man then got up from his seat and added, “It was created with blue pearl stone.”
