

The National Goddess Reborn 188-194

Chapter 188: The Arrogant Number One Freshman (3)

“Since there are no problems...” Jin Xuan glanced at the students below the stage. “Gather at the shooting range. Let me see your true strength!”

As soon as Jin Xuan finished speaking, a group of Class A students had already run towards the shooting range.

They had only heard that the new major required all-rounded talents, but they did not expect it to include shooting!

Wang Yang and Li Yi stood up from the back and followed the group into the shooting range.

Nian Yue was replying to Wang Zhizhi with her head lowered. She still looked nonchalant.

Before Jin Xuan left, he gave her a second look.

The number one freshman was quite arrogant.

The group of people went to the shooting range. Before they got close, they heard endless gunshots.

The entire shooting range took up a few hundred acres. It was unprecedentedly magnificent from the outside.

The building was glorious in its massive arch.

A senior from the shooting club who was in her second or third year whistled when she saw a group of people entering. "There are so many juniors!"

Other than high scores for the college entrance examination, there was another tough requirement for those who could enter Class A: their physical strength had to be in tip top condition.

Therefore, most of the people who made it to the top 30 were boys.

Including Nian Yue, Class A had fewer than five girls.

"Jin Xuan, you've really brought these juniors here..." A boy walked over and hugged Jin Xuan's shoulder, looking like a good brother.

This person was from the Year Two Shooting Club and had a good relationship with Jin Xuan. His name was Qu Ran.

He was also from the Explosive Academy next door.

“Professor Si has something on, I’m taking the class for now.” Jin Xuan had one hand in his pocket, his blue eyes a little deep.

“I heard that the top scorer of the new cohort is in your class. Where is that new student?” Qu Ran looked around. He was extremely curious about the first place student and the college entrance examination champion.

“She’s not here yet.” Jin Xuan smirked. How dare she skip his class. This new student was really arrogant.

The group of freshmen had already reached the shooting range, and the group of Year Two and Year Three seniors had yet to leave.

“We need to go to class, could you please make way?” A new student walked over, wishing for them to make room.

“Give way?” The senior looked at him from head to toe. “I’m sorry, we’re not done with training...”

“But it’s our class time...”

Those who could enter Class A were all prodigies.

Therefore, as soon as they arrived at the shooting range, they started competing with the second and third-year students.

“Then I don’t care. Whoever’s here first goes first!”

The second-year senior raised his eyebrows slightly and did not have the slightest awareness of giving up his position.

“Don’t go too far!”

Seeing that the first and second-year students were about to fight, Qu Ran watched from the side. “Hey, where are the students in your class? Aren’t you going to take a look?”

“You’re too arrogant. You’ll get better after a little loss.”

Jin Xuan walked straight into the office on the second floor. “Are there any students you like this time?”

Qu Ran sat opposite him and sighed. “No, this year’s freshmen are too weak...”

It was even harder than ascending to the heavens to find someone with outstanding talent.

“So I would like to see how the top student of your class will fare...”

However, that student skipped Jin Xuan’s class on the day of their first shooting class.

...

Nian Yue had not come because Wang Zhizhi had encountered some trouble.

Wang Zhizhi was in Class B. The students in this were almost on par with those of Class A, except for their lack of physical strength. After all, they had also taken the arduous exam to get into the university.

The problem was that Wang Zhizhi was the only girl in Class B.

Their first lesson was to make an explosive bag.

Wang Zhizhi was in the field of technology. She could create electronic information, but it was difficult for her to create an explosive bag in a short period of time.

While the other students were gathering materials on the spot, Wang Zhizhi was looking at her phone, her face full of worry.

“Hey, what are you doing?”

The teacher walked over. None of the new students this time were talented. He looked down on them.

“Teacher, I don’t know how to do it.”

Wang Zhizhi scratched her head. “We haven’t even learned the basic theory yet, but we have to start working on the practicum. Isn’t that too difficult?”

Unlike Class A, Class B’s main course included targeted explosions as well as some basic lessons.

“This is only the beginning.” The teacher glanced at her. “If you can’t learn it, you can transfer to another university!”

This module was under the engineering department and rarely recruited girls.

Unexpectedly, he had recruited one this year. As expected, her thinking ability was average.

“Can I transfer to a computer science major?” Wang Zhizhi asked curiously.

The teacher sized her up. “Impossible!”

Since she had gone through a lot of trouble to pass the examination, the possibility of her transferring to a different course was almost zero. This was unless her final term results did not meet the standards,

“But I won’t...”

Chapter 189: She Blew up the Experimental Base (1)

“I’ll teach you.” Nian Yue entered from outside with one hand in her pocket.

She still looked sloppy, but her jade-like face was a little pale.

“Yue Yue...”

When Wang Zhizhi saw her coming in, she hurriedly ran over. “Why are you here?”

She had only casually complained to Nian Yue when she was chatting with her. She did not expect Nian Yue to come over.

“I’m bored. I came over to take a look.” Nian Yue’s lips twitched.

She knew how to shoot and could not be bothered with the basics.

Most importantly, Jin Xuan only said that she would have to drop out if she did not do well. He did not say that there would be punishment for missing classes.

“But you haven’t learned this before, have you?” Wang Zhizhi was a little uncertain.

There were very few universities in the country that could run an explosive course.

And the Imperial University’s explosive department was ahead of those of most universities.

Even the teachers here were all freaks.

“No.”

Nian Yue had one hand in her pocket. “Let’s go.”

It just so happened that she had not made any explosives for a period of time. When she saw that Wang Zhizhi was about to make one, her hands were still itching.

“Hey, isn’t that the top scorer for the new student cohort this year?”

Another teacher asked curiously.

This group of teachers paid special attention to outstanding and promising students.

“Yes, I heard that she’s this year’s college entrance examination champion. She missed the full marks by two points.”

“Then there is still a gap with last year’s Jin Xuan.”

These teachers discussed a lot about the second-year Jin Xuan. After all, who wouldn’t like an obedient student with perfect scores?

“But anyway, she should be taking a shooting course now. Why did she end up in the explosives module?”

“Don’t worry about it. In any case, there’s no one particularly outstanding this year.” Xu Xiu rubbed his forehead, his eyes showing some disdain.

So what if she was the first among the new students? That only meant that she was good at academics.

As for explosions, they were not something that ordinary people could do.

The reason why he called this group of freshmen over and gave them the materials was also to see how many people were interested in explosives.

How many of them could really make explosives?

When Nian Yue arrived at the materials room, she realized that the teachers at the Imperial University had given her a lot of materials.

She only needed to split the materials according to a certain ratio. It was much simpler than making explosives on the battlefield.

Some students had already prepared explosives and were experimenting with them.

In order to test the power of the explosives made by the students, there would be a specialized venue for evaluation.

An explosion came from outside. The impact was small. A teacher shook his head.

Still no.

It was like a child's play.

They had used up all the materials in the laboratory.

There was an experimental plot anyway.

Even if someone really used up all the materials, it would not impact the laboratory.

Another student tried his hand at it, and the end result was undoubtedly not good.

These teachers looked down on the group.

He knew that this group of new students did not have any talent. He should not waste time here.

"Are you done?" Nian Yue held the explosive bag and asked slowly.

The other students looked a little dispirited. They had clearly followed the instructions, but the results were always a little off.

“Here, take my seat.”

The boy at the side said, “But your explosive bag shouldn’t be too powerful. The explosive bag I made just now was several times larger than yours...”

“Not bad.” Nian Yue weighed it in her hand and said to the students who were still experimenting, “Are you done? Please make way.”

The student who was messing around saw her turn around and said, “This explosive bag of yours is probably just a child’s play. You don’t need such a big space, do you?”

“That’s right. Do you want to blow up the entire laboratory base?”

A boy teased.

They respected the number one freshman. After all, Nian Yue was the only one who could fight Fu Xiuyuan and walk off unscathed.

Besides, other than being a little arrogant sometimes, this number one freshman was pretty good at other times.

“I don’t mind doing it.”

Nian Yue nodded. She seemed to have really considered his words.

“This new student is really extraordinarily arrogant...” Xu Xiu, who was preparing to return, shook his head when he heard the conversation inside, his face full of disapproval.

“Does she think it’s as simple as an exam? Did she think she could just find a tutorial online? To think she even wants to blow up the entire laboratory base?”

Another teacher chimed in.

“I think she’s quite experienced...” a teacher replied, stroking his chin.

Chapter 190: She Blew up the Experimental Base (2)

He could tell at a glance whether she was a newbie or an experienced player.

“Experience does not equate to strength...”

...

Nian Yue turned a deaf ear to the teachers outside. She weighed the explosive bag in her hand and narrowed her eyes. Then, she remembered to ask the person beside her, "What will happen if the entire laboratory is blown up?"

"It should add points..."

A boy answered.

"Okay." Nian Yue's lips twitched. Seeing that the venue was empty, she slowly placed the explosive bag in.

The other students stood on their toes simultaneously, wanting to see the situation inside.

After waiting for ten seconds, there was still no explosion.

A teacher was already impatient from waiting. "Stop playing tricks. If it were to explode, it would have exploded long ago..."

"3..."

“2...”

The aloof girl curled her lips and raised her chin, revealing her exquisite jaw.

Only those eyes were as cold as ever. However, if one took a closer look, one would notice that those eyes were extremely bright.

“1...”

Boom!

The moment she finished speaking, the explosive bag exploded!

In an instant, flames surged into the sky!

Even the glass outside shattered quite a bit...

In just a few seconds, the laboratory base had been reduced to ashes!

Dust filled the air. Some students had already covered their mouths and started coughing.

But no one was prepared to leave.

No one had expected that this sloppy-looking new student would really blow up the laboratory base with the materials!

The teacher who had been clamoring to leave was shocked by her series of actions!

She had really blown up the laboratory base!

This was the experimental base that was created to be destroyed!

It was just that no student had been able to blow up the place after so many years! Now, not only had the laboratory base exploded...

It was actually blown up by a new student!

This group of teachers felt like their worldview had been refreshed once again!

A teacher reacted and ran inside. "What are you waiting for? Make the new student stay!"

With such an ability, wouldn't it be great if she stayed in the Class B?

The other teachers reacted and rushed towards the laboratory!

They were afraid that if they were a step too late, Nian Yue would have left.

"Yue Yue, you really blew up the laboratory base..." Wang Zhizhi was still a little stunned.

She thought that Nian Yue was just saying...

Unexpectedly, she really blew up the laboratory base!

"Yes." Nian Yue nodded. "Have you learned it?"

She had done all this just to tell her how the explosives were made.

"I've learned it..."

Wang Zhizhi was speechless.

“Then I’ll go back first.” Nian Yue was about to leave as if blowing up the laboratory base was a piece of cake.

“Nian Yue, don’t go yet...”

The teacher of Class B rushed over. “I think your explosive expertise is not bad. Come to our class...”

“That’s right. You’re the only freshman who blew up the laboratory base...”

Although they had lost an experimental base – their hearts ached for it – their blood boiled with excitement when they thought about how the laboratory base was destroyed by a genius student!

Such a talented student with extremely good grades would bring glory to Class B!

“Not interested.” Nian Yue waved her hand and did not look at the disappointed gazes of the teachers. She turned around and went to the shooting range next door.

Qu Ran, who was drinking tea in the office, almost jumped out of his chair when he heard the explosion!

Such power and vibration was definitely not something that an ordinary person could do!

“There’s actually such a talented student to have created this explosion?!”

If he had known that a student could blow up the laboratory base, he wouldn’t have come here to join in the fun!

“The voice came from next door.” Jin Xuan’s face was full of interest.

Initially, they thought that being the number one freshman was already monstrous enough. They did not expect to meet a student who blew up the experimental base.

Qu Ran did not care so much and rushed to the next door!

He had to keep such a talented student!

...

When Nian Yue entered the shooting range, most of the class had already passed.

The group of students from Class A were all dejected.

After one lesson, not one student managed to get rights to the shooting range from their seniors.

On the other hand, Li Yi and Wang Yang had found a sofa and were sleeping with their earphones on.

The loud explosion outside did not wake the two of them.

Nian Yue was about to walk over when she was stopped by a second-year senior

Chapter 191: She Blew up the Experimental Base (3)

“Are you the number one freshman?”

The senior sized her up and asked.

“Yes.” Nian Yue had one hand in her pocket. She still looked sloppy, and there was an unruly look on her face.

“Do you see them?” That person pointed at the group of new students at the side.

The group of new students had defeated looks on their faces. It was obvious that they had suffered quite a blow just now.

It was common for seniors to bully new students.

Looking at the injuries on their faces, it was obvious that they had been beaten up badly.

“Yes.” Nian Yue nodded. It was obvious that she did not take his words to heart.

“If you want to take a shooting class, you will have to snatch the facility back from us if you have the ability.” The senior’s face was filled with disdain.

They heard that the top scorer this time was arrogant. They wanted to see if that could be kept up when she reached the shooting range.

“I’m not interested,” Nian Yue didn’t even look up as she said to Li Yi and Wang Yang, “Are you done sleeping? Are you leaving or not?”

Li Yi flipped over and jumped off the stage. He didn’t look like he was sleeping at all.

It was obvious that the two of them were not sleeping just now.

It was just that they looked down on the students fighting for territory.

“A Year Two senior bullying a Year One student, are you just going to watch?” a Year One student could not stand it anymore and asked angrily.

“Didn’t you guys go up against them? It’s just that you couldn’t beat them...” Li Yi shrugged indifferently.

He could not be bothered to deal with this group of brats.

It was too boring without Boss.

“Then why don’t you go?”

During the assessment, they clearly saw that this group of people were not weak. As long as they stepped in, how could those second-year seniors be so arrogant?!

“You’re the ones who got into a conflict with them. If you can’t beat them, go back and train hard...” Li Yi sneered.

This group of children could not defeat others. Instead of improving themselves, they blamed others.

“You...”

The new student was rendered speechless by him, and his face turned the color of a pig’s liver.

“I think you guys don’t dare...”

The second-year senior who asked the question laughed out loud when he heard their conversation.

“The number one freshman probably only has some ability among this group of brats. She immediately cowered when she met us!”

They had thought that the number one freshman was a monster, and they had been prepared to compete with her. Now, it seemed like she was too cowardly!

She did not even dare to make a sound when their lessons were being occupied!

Jin Xuan stood in front of the transparent glass window. He was very interested in what was happening below the stage.

“Aren’t you going to take a look at the students in your class?” Another second-year student asked.

“No need.” Jin Xuan shook her head. A dark glint slid across his eyes under his gold-rimmed glasses.
“They can fix this.”

The new student was arrogant. Since someone wanted to take things too far, he would not stop them.

“Are you done?” Nian Yue raised her eyebrows and did not take his words to heart.

The boy had thought that Nian Yue would be unwilling to be provoked like this. He did not expect her to ask him such a question.

“Move aside if you’re done talking.”

Nian Yue did not even look up. With one hand in her pocket, she was about to leave.

“Hey, why are you walking so quickly? Let’s have a match!” The person was still a little unhappy and subconsciously wanted to grab Nian Yue’s arm!

The sound of a bullet being loaded rang out!

Her actions were clean and efficient!

No one saw how the gun on the ground ended up in her hand!

However, judging from her movements just now, it was obvious that she had been shooting for a long time.

The black muzzle was already pointed at the man's forehead. "Do you want to compete?"

Her eyes were as cold as ever and her ink-black pupils were bottomless.

An aura instantly spread from her body. That person trembled and didn't dare to say anything else.

"Let's go." Nian Yue smirked. She raised her wrist slightly and turned on the machine gun in her hand.

With a bang, the nameplate of the second-year class was shot!

It fell!

She did not even look at the badge before shooting it down!

How accurate was she!

The students present were shocked by her series of actions for a long time.

Nian Yue was not concerned about the commotion she had caused in the hearts of these people. In her opinion, they were all immature brats. She could not be bothered to deal with them.

In any case, they would be crushed by her in the end.

“Boss, do you have a mission?” Li Yi asked casually as she followed behind Nian Yue.

He had thought that it would be interesting to return to school, but since Nian Yue was not around. It was not interesting at all.

“In a while.” Nian Yue rubbed her temples.

Because of such a huge incident in the recruitment assessment, Yin Han and Yang Kai were probably trying their best to catch Mo Yi. At the crucial moment, they would still have to go over.

The current peace was just the calm before the storm.

Chapter 192: Class B's Here to Poach Talents (1)

The second-year senior who was with Jin Xuan looked at what was happening and gulped in disbelief.

“This new student has such strong talent...”

She had fired from behind and did not even look at the target!

It actually hit the center!

Most importantly, the shooting guns here were different from other places. They were specially developed to train new students.

Ordinary people would have to familiarize themselves with the gun after getting it. They would have to see how it felt!

She had actually shot so casually? And hit the bullseye?!

This was a slap in the face for the second-year students!

“It's not just talent...”

Jin Xuan smirked. There was also hard work involved.

Her actions did not seem like that of a newbie at all.

She looked like an athlete who had been shooting for a long time.

Especially since she had a thin layer of calluses in the area between her thumb and index finger of her right hand. The students who came with her had them too.

The higher-ups had kept Wang Yang and Li Yi's identities secret too well, so he didn't know.

But there was one thing he was certain of. They were in one group.

The tacit understanding between them was something that others could not break through.

The only ones who dared to point a gun at General Yang Kai were people from the special forces team.

...

Yin Han looked at the trajectory of the operation on the big screen and felt a headache coming on. "General, they've already sent people to capture him for three days, but they still can't find him..."

The assistant ran over, looking troubled.

"You couldn't find him?"

"Yes. The last time he appeared was near the Qu family..." The assistant held the report helplessly.

The Qu family was a wealthy family in the capital. Ordinary people would have to walk around them, so they did not dare to search for them.

"Qu family?" Yin Han's lips twitched. "Why do you care so much?"

The Qu family had always been involved in the film industry?

"I'm not sure. After all, the Qu family has a Qu Yi who has a good relationship with General Yang..."

The assistant pushed his glasses up his nose bridge. Although they were affiliated with the military, there were still a few big families in the capital that they should not offend.

Other than the Fu and Bai families, there were the Jiang and Qu families.

The Qu family was the most protective and unreasonable.

They usually did not interact with the Qu family.

“Pay more attention to the Qu family,” Yin Han said seriously.

If Mo Yi was really in the Qu family, he had to use the military’s power.

“Yes!” The assistant walked out and saw Xu Xiu enter. He greeted him, “Teacher Xu.”

Xu Xiu nodded and walked in. “General Yin, I want to talk to you about the new students...”

“Teacher Xu, do you have any special thoughts about the new students this time?” Yin Han said seriously and invited him to sit down.

“It’s about the number one freshman...”

“Oh?” Yin Han raised his eyebrows.

Could Nian Yue have gotten into a fight again?!

This was Yin Han's first thought.

After all, Nian Yue was an unruly person. She had gotten into conflict with other students and led a group of students to fight. She had done this a lot when she was in high school!

"I want to get her to Class B..." Xu Xiu said, revealing his thoughts.

"Teacher Xu..."

Yin Han knocked on the table, pride in his eyes.

Xu Xiu was a famous veteran at the Imperial University. He was strict, but his academic standards were high.

In his class, it was common for students to fail at the end of term. There would always be a group of students who wanted to transfer to another school as soon as possible.

This was the first time he had taken the initiative to ask for a student.

“I know that the number one freshman is outstanding in all aspects, so it’s normal for her to be assigned to Class A, but you should see her results in other areas. During the college entrance examination, she scored full marks for all subjects except Chinese! Her thinking ability is extremely strong, and she’s good in the science and engineering department. Let her focus on explosives in Class B, and I can guarantee that when she graduates, she’ll be the most outstanding student in the Imperial University’s explosive specialization...”

He had specially asked the teachers of Jiang City No.1 Middle School for her science test papers.

He would clap his hands in approval when he saw the solution to some of the questions!

Her logical thinking was meticulous and she hit the nail on the head!

It was a waste of talent for such a student to not study in the Science and Technology Department and learn shooting and fighting!

“Teacher Xu...”

Yin Han rubbed his temples and felt a headache.

He knew that Nian Yue was outstanding, but he did not expect her to be so outstanding that Xu Xiu had specially come to him for her.

“Nian Yue was assigned to Class A based on her comprehensive abilities. Her technical skills are not bad, but her combat experience is not bad either...”

Chapter 193: Class B's Here to Poach Talents (2)

Nian Yue was an all-rounded talent. She knew this from the moment he handed the special forces team to her.

“However, it has been a long time since the explosive specialization has received such an outstanding student. Besides, she blew up the laboratory base and has to be responsible for it...”

Xu Xiu didn't care about anything else. He wanted to get the student to their department first.

“Your laboratory base is so tightly guarded. She can't enter...” Yin Han shook his head and laughed.

“Don't doubt me. This is surveillance footage...”

Xu Xiu clearly came prepared and passed the surveillance footage to him. “With the basic material, she created such a powerful explosive bag...”

Yin Han looked at the scene on his phone screen with deep eyes.

“If such a student doesn’t come to Class B, wouldn’t it be difficult for a girl like her to learn combat?”

Yin Han was quite pleased with his student being praised like this. “Teacher Xu, I know you love talent, but it was decided by the higher-ups that she enters Class A, so I can’t interfere. If there’s really no other way, why don’t you go and talk to Nian Yue? Ask her if she’s willing to learn explosives?”

After passing the recruitment assessment this time, Yin Han realized that Nian Yue was an all-rounded talent.

She could ace any course and could choose the course she wanted to go to.

“Alright, you said it.” Xu Xiu put away his phone. “If I talk to her, don’t regret it!”

He was determined to get this student!

When the office fell silent again, Yin Han laughed helplessly.

Was she really glowing everywhere she went?

...

When Nian Yue came out of the shooting range, she received a call. It was from Manager Zhao.

“Yue Yue, are you in school? There are a few technical issues that you need to deal with remotely...”

Although the VR virtual image had been given to the military, Zhao Shan had not stopped research and development for the past half a year.

After half a year, the virtual system became more complete and had a large number of players.

But it hadn't reached its peak yet.

Nian Yue knew that the VR virtual explosion would happen sooner or later, but she needed an opportunity now.

“Okay.” Nian Yue nodded. The phone had already become a small computer in her hand.

She walked into a cafe. Nian Yue looked at the data and started operating it remotely.

After she solved the technical problem here, her phone received a location message from Lin Lang.

“The information you want about the supernatural beings is on Island H.”

Island H?

Nian Yue raised her eyebrows.

The last time, she had asked Lin Lang about Fu Xiuyuan’s condition.

“Yes, Island H is the place with the most complete information about supernatural power. Normally, the strengths that have supernatural power will have other shortcomings, just like how Fu Xiuyuan’s supernatural power will be accompanied by the restlessness of his body.”

“What about me?”

She remembered that this body was very powerful. Even the last time she absorbed the Energy Stone, her body had only been slightly abnormal.

“You will be an exception.”

Lin Lang didn’t say what the exception was.

Nian Yue kept her phone and narrowed her eyes. There were some ripples in her bottomless eyes.

...

At the entrance of the Imperial University, a woman in an exquisite outfit alighted from the car at the gate, revealing her well-maintained face.

“Madam, if you come over at this time, Miss Nian might be in class...”

The chauffeur could not help but remind her.

“I know.” Bai Lin took out the makeup mirror to ensure that her image was perfect. Then, she turned around and said to the driver, “I’m going to see my daughter-in-law. Don’t tell Xiuyuan.”

Then, before the chauffeur could nod, Bai Lin left on her high heels.

She was so excited to see her daughter-in-law soon.

The chauffeur couldn’t help but call her. “Young Master, Madam has gone to Imperial University...”

“The exact address.”

The man on the other end of the line seemed to have expected it, but he rubbed his temples with a headache.

Bai Lin walked for a long time but did not reach her destination.

She did not expect Imperial University to be so big. She had walked for half an hour but had yet to reach Nian Yue’s class.

To be precise, she did not know where Nian Yue’s class was.

All because of a spur of the moment.

“I really want to call my daughter-in-law...” Bai Lin held her phone, her face full of hesitation.

If she called her daughter-in-law, she would not be able to create a surprise.

Should she call or not?

Bai Lin pouted and walked forward with her head lowered.

She did not realize that she was getting further and further away.

It was only when she looked up and bumped into a human wall that Bai Lin suddenly looked up and saw a sloppy man. "Madam Fu, why don't you come with us?"

Chapter 194: Class B's Here to Poach Talents (3)

Standing in front of her was a tall man who was almost 1.9 meters tall. He had a Western face with stiff features and a vicious expression.

"Who are you?"

Bai Lin's eyes were like torches as she subconsciously retreated.

However, she took a few steps back before realizing that she had been surrounded.

Unknowingly, she had already walked into a remote alley. There was no one around.

She couldn't even find a place to call for help.

“You don’t have to worry about that. All you have to know is that you have to come with us.”

Fan Mei came out from the corner. She was wearing a fiery red dress and had waves on her face. She looked indescribably charming.

“An outsider?”

Bai Lin raised her eyebrows and narrowed her eyes as she asked.

“You’re not too stupid after all.” Fan Mei sneered and snapped her fingers. She instructed the person behind her, “Cut the crap and take her away!”

They still had things to do and did not have the time to waste with her!

Bai Lin realized that something was wrong and ran!

At the same time, she took out her phone. “Fu Heng! Your wife is in trouble!”

However, before the phone could be connected, someone grabbed her hair from behind and pulled the phone out of her hand, throwing it onto the ground!

The screen was facing down!

Pada!

The screen went black!

A hint of panic flashed across Bai Lin's eyes. What a miscalculation. She should have brought her bodyguards here today!

She only hoped that Fu Heng could see her distress signal!

Bai Lin only ran a few steps before she was blocked.

Fan Mei looked charming and impatient. "Madam Fu, if you know what's good for you, come with us quickly! After all, you don't want me to use any special methods on you!"

"You have the guts to come into the country. Your boss is quite capable..." Bai Lin sneered.

"It's said that Madam Fu is Fu Heng's pampered little white flower. I don't think so." Fan Mei walked over slowly, holding an anesthetic.

“Don’t come over...”

Bai Lin subconsciously stepped back. She did know some tricks, but this group of people had clearly come prepared.

She was not their match at all.

“I’m just giving you a jab...”

Fan Mei smiled flirtatiously.

Bai Lin kept retreating until she was forced into a corner.

The silver needle glowed coldly as Bai Lin’s arm was grabbed.

“Have a good rest!”

Fan Mei sneered in disdain and stabbed her!

With a plop, her wrist was hit by a stone!

A familiar electric feeling slid across her wrist!

“You guys are quite capable to have returned to Imperial University when the nation is looking for you.”

A cold voice came from above her head. Bai Lin subconsciously looked up and saw a handsome youth leaning against the wall. She did not know how long he had been there.

“It’s you again...”

When Fan Mei saw her, her eyes were filled with hatred!

She had yet to settle the score with Nian Yue for crippling her wrist last time!

Unexpectedly, she came knocking on her door!

“Long time no see, Miss Fan Mei.”

Nian Yue slowly jumped down from the wall. With one hand in her pocket, she walked over slowly.

She still looked sloppy. "If you want to look for me, just say it. Why make things difficult for a sister?"

Shua! Shua! Shua!

The people hiding in the dark had already taken out their guns and aimed them at her!

They had personally experienced how sick this girl was!

At this moment, she could not afford to lower her guard!

"Since both of you are here, come with us!"

Fan Mei smiled charmingly.

Snapping her fingers, Nian Yue felt a pain in her arm. Before she fell unconscious, she saw the man hiding in the dark.

Those amber eyes were terrifyingly bright.

The bustling area instantly fell silent!

No one would have expected that a group of people had just appeared in this place!

...

“Young Master, Madam has disappeared...”

The chauffeur waited for a long time but did not receive any news from Bai Lin. Realizing that something was amiss, he immediately called Fu Xiuyuan.

“The exact time...” Fu Xiuyuan’s eyes narrowed and his aura instantly turned cold.

“Twenty minutes ago, she said that she wanted to look for Miss Nian...” The chauffeur explained the situation quickly.

“Alright, I understand.”

Fu Xiuyuan hung up the phone and the car had already turned around quickly. The ear-piercing sound of brakes rang out, leaving only the exhaust of the car on the ground!

“Bring out the surveillance cameras at the Imperial University within three minutes.” Fu Xiuyuan’s eyes were cold. “Investigate everyone who enters and leaves the Imperial University!”
