

Night Stand 69

Falling in Love With A One-Night Stand

Chapter 69

Of course I won't believe you! Scott thought and stared at Wayne's back with his face full of hostility

As the CEO of the Carousel Group, you can get everything you wants. What do you have to come to such a small apartment to experience the so-called ordinary people's life? Humph!! won't believe it if you say that you didn't have other intentions.

Anna quickly finished making the bed in the room. When she came out, she prepared a new towel as well as toiletries and gave them to Wayne.

At night, Tammy and Wayne brushed their teeth in the bathroom. Tammy was standing on the small stool with bubbles in her mouth, looking extremely happy.

"What are you smiling at?" Wayne asked. After spitting out the water, Tammy crooked her finger to beckon him. Wayne knew that she had something to tell him and bent down.

Tammy patted him on the shoulder, sighed as if she was a grownup, and said, "I've told you that my mommy is very excellent. She has countless pursuers at home and abroad."

Thinking of Scott, Wayne was a little unhappy and asked, "Then what do you think I should do?"

"Work hard, Uncle Wayne. Be more passionate," Tammy straightened her back and said in high spirit. "It's not too late for you to work hard to go after my mom now. And if you are with my mom, you will have a lovely daughter like me. If you don't work hard, you will have to marry Auntie Ada in the future. You know Matthew doesn't like her. Moreover, even if you have a daughter in the future, she will not be as lovely as me."

Hearing her illogical and childish words, Wayne smiled helplessly. Then he wiped Tammy's mouth with a towel, stroked her soft hair, and said, "Okay, I see. Go to bed early."

"Uncle Wayne, remember to be more passionate. I'm with you all the way," Tammy said, kissed him on the cheek, jumped off the stool, and bounced to her bedroom.

"Why is Tammy so excited? What did she say to you just now?" Anna asked casually as she walked into the bathroom after hanging her clothes on the balcony.

Wayne looked at the two of them in the mirror.

At this moment, they were standing side by side. And his toothbrush and cup were blue while Anna's were red. And Anna asked him about Tammy naturally. All this made him feel as if they were a couple.

Anna didn't get Wayne's response so she looked at him in the mirror. When she saw that he was also looking at her, she was stunned and then said in a muffled voice while brushing her teeth, "What's wrong with you?"
