

## Nine Star 3801

### Chapter 3801: Seven Stars Fully Activated

BOOM!

Yet again, the two of them clashed simply with their fists. This time, their punches were even stronger than the last.

The two once more parted, and Shi Yang's aura grew to another level, as if he had endless power to draw on.

"Alioth Star!"

Long Chen stamped on the air and directly charged back at his opponent, his aura rising as well.

"Life Fate Star!"

"Enlightenment Palace Star!"

"Divine Gate Star!"

"Nethergate Star!"

With every exchange, Long Chen's aura grew wildly. At this moment, his power caused the sky to rumble and the earth to crack. When endless violet qi flowed amongst his starry sea, the world shuddered and the sun and moon lost their light.

At first, Shi Yang hadn't placed Long Chen in his eyes because as Long Chen's aura rose, so did his. However, once the Nethergate Star activated, an unstoppable force blasted him away.

"Shi Yang was forced back! Could it be that Long Chen's physical body is even stronger than an immemorial devil corpse?!" Some people amongst the devil race couldn't help crying out in disbelief.

With six punches, Long Chen activated six stars. Fortunately, he had an expert like Shi Yang helping him unleash his power, or just by relying on himself and having no target to attack, it would be difficult for him to activate them all in one go.

At this moment, both of Shi Yang's heads roared furiously, and his green fur lit up. The countless eyes within his manifestation also began to shine.

After that, blood-colored rays of light shot out of those eyes, illuminating his body. Through the layers of green fur, it was possible to see the corpse spots on his body.

Moreover, every corpse spot contained a rune that emitted terrifying auras.

"Retreat!"

A shocked cry rang out. People suddenly found that the ground beneath their feet was moving. The yellow soil was becoming black, and black mist floated out of it.

There were a lot of corpses lying on the ground after being slain by Xia Chen and Guo Ran. Amongst them were many Supreme heavenly geniuses.

When the black soil spread, those corpses instantly corroded and merged into the black soil. It was like a strange energy devoured them into the earth.

This entire world directly became a cemetery, and the aura of death and rot filled the air. It was a terrifying aura that made others flee.

Everyone retreated except for Xia Chen, Guo Ran, and Yue Xiaoqian. This aura of decay was blocked by Long Chen's astral energy, so they weren't afraid of it.

"Long Chen, is it? Good. You are a bit interesting. But do you really think you can contend with my corpse devil race with just this? You are too naive."

Shi Yang then let out a punch, and a large mass of space collapsed. As the entire world twisted, the terrifying pressure made everyone jump.

This punch actually suppressed the laws. When the corpse spot runes on Shi Yang's body began to move, violent auras with an ancient desolate flavor came from them. It was as if people could see a piece of just how terrifying this ancient corpse was back when it was alive.

"The Grand Dao has declined; the laws are incomplete. With just you alone, you think you can challenge me?! You will pay the price for your foolishness. This corpse that I obtained is that of a Yin Yang Blood Devil from the immemorial era. It was a legendary expert with the purest blood devil bloodline. Although it's been a trillion years, its core blood has yet to dry up. I grew up with it by my side, constantly nourishing it with my blood and soul until I ultimately merged with it. Now that I've reached the Immortal King realm, I can finally activate that blood. Today, I will show everyone just how terrifying the experts of the immemorial era are!" Shi Yang's two heads spoke at the same time, and all four eyes were locked onto Long Chen. The corpse qi swirled around him like wailing ghouls.

Suddenly, Shi Yang made his move. Countless corpse spots on one of his arms lit up like stars. After that, he raised his arm and unleashed a punch that tore through heaven and earth, turning the space that Long Chen was in into nothingness.

"What?!"

Everyone was stunned. This attack was sudden and terrifying, turning the space that Long Chen was in into a black vortex. It then devoured heaven and earth, and the intense rumbling shook people's ears. This was an apocalyptic power.

Seeing this scene, people felt like their souls would be sucked into that black vortex. Even Guo Ran and Xia Chen were shocked. They had not expected Shi Yang to be this powerful.

However, while this terrifying attack tore through space, it missed. Long Chen seemed to teleport, appearing to the right of the vortex.

He was only a few meters from the vortex, like just one step would draw him inside. But that vortex was like a chained dog, and no matter how it howled and raged, it could not bite Long Chen.

Countless people stared in shock at the two of them. That attack was like lightning, giving people no chance to react, but Long Chen was like a phantom. No one even saw how he had dodged.

Just one attack and one dodge displayed their shocking reaction speed. This was a fighting skill refined through countless brushes against death.

“So that’s the case. The immemorial era’s experts have primal chaos qi in their bloodline, which allows them to give birth to such rune and this kind of physical body.” Long Chen eyed the runes on Shi Yang’s body.

Those runes contained the aura of the immemorial era. Within this aura, Long Chen could also sense the aura of primal chaos.

In the immemorial era, the primal chaos qi was still abundant. Only such an environment could produce such terrifying lifeforms.

Xia Guhong had said that the current era’s lifeform could not compare to those from the archaic era, and the archaic era could not compare to the immemorial era. In the same case, the immemorial era was also a far cry from the primal chaos era.

It was because the environment of the nine heavens and ten lands had changed. By this era, primal chaos qi was not the only thing that was gone. Even the spiritual qi was no longer as dense, and the Heavenly Daos were incomplete.

Thus, Xia Guhong said that it was very difficult for the current era’s people to surpass their predecessors. It wasn’t because they had regressed, but because the world had. People could not defy the heavens.

“The immemorial era isn’t something that you can imagine. That era’s devil race was the master of this world. Although this devil corpse contains only a trace of primal chaos qi, as long as its source is not destroyed, I will absorb the flood of primal chaos qi that will come when the heavenly wall of the three thousand worlds is torn open. After that, my core will be fully activated, and no one will be a match for me. But unfortunately, you will not be able to see that because you will be dying today. This trace of primal chaos qi is enough to kill you many times over.”

Countless eyes stared at Long Chen from Shi Yang’s manifestation. This time, he was smart and used his manifestation to lock down Long Chen, not giving him a chance to dodge.

“Die!”

Shi Yang shouted and the corpse spots on his body once more lit up. Another fist then tore through heaven and earth.

“Violet Tower Star!”

The Violet Tower Star beneath Long Chen’s Dantian suddenly shook. After that, a violet sun lit up within his starry sea.

BOOM!

When the Violet Tower Star lit up, the complete Seven Star Battle Armor was activated and the violet qi within Long Chen's body ignited. The next moment, the violet qi wave erupted and struck Shi Yang. He could only let out a grunt and was blown back.

"What?!"

This time, people's eyes almost popped out of their sockets. They didn't dare to believe what they were seeing.

## **Chapter 3802: Heaven-Shaking Power**

Seven stars lit up within the starry sea behind Long Chen. After that, his seven-colored divine ring spun, and the violet qi within his starry sea ignited, unleashing violet flames that burned the sky.

The violet qi caused a pillar of violet flame to soar into the sky, casting the world in a violet hue.

Within that holy violet light, Long Chen appeared to be in a violet blood battle armor. He was an existence that stood at the peak of the world, overlooking all others.

Shi Yang was directly blown away by this aura. Xia Chen and Guo Ran were ecstatic. This was their boss. He had never disappointed them. Having become an Immortal King, Long Chen once more showed off his unmatched power, one that was above all other heavenly geniuses.

The power that Shi Yang had previously displayed had made countless people feel despair. But when Long Chen's violet qi appeared, he was like a heavenly emperor, an existence that stood above the rest of the world. He made Shi Yang appear miniscule.

"Corpse Devil Dao, ten thousand laws return to the source!"

Shi Yang roared furiously after being blown back. His manifestation was then devoured by the corpse spots on his body, and those corpse spots became like eyes, emitting strange auras.

BOOM!

Even against the full-powered Long Chen, Shi Yang showed no fear. He still charged back.

Seeing this, Long Chen spread his arms and roared. That roar was like a dragon cry, and the violet qi around his body once more intensified.

The previous aura was already shocking enough, but now his aura suddenly leaped by several times.

His previous aura was like a reservoir being discharged. But now, it was like a flooding river, completely overflowing without holding anything back.

Violet ripples formed into a wall that spread, pressing against heaven and earth.

Shi Yang was directly struck by this violet wall and sent tumbling back. At the same time, the void was torn asunder, and Shi Yang left a giant ditch within a mountain range.

This time, even Guo Ran and Xia Chen jumped in shock. Although they knew that Long Chen was powerful, they had not expected him to have grown by this much. This power was practically monstrous.

Long Chen clenched his fists; violet qi rumbled around him. It was like millions of violet dragons were revolving around him. Heaven and earth rumbled, and the Grand Dao quivered. After unleashing his full power, Long Chen caused the three thousand worlds to feel fear. The Heavenly Daos even submitted.

When Long Chen activated the Seven Star Battle Armor, the violet qi within the 108,000 stars ignited. After that, the violet qi in his meridians grew even more solid, starting to compress from gaseous to liquid. It was like violet blood.

Moreover, when the violet qi became violet blood, Long Chen felt endless power erupting within him. If he didn't unleash it, he would blow up.

Thus, Long Chen roared and released this aura not in order to attack Shi Yang, but simply because he had no other choice.

When this wild power was unleashed, Long Chen felt all the turbid qi and impurities within his body be directly expelled. He felt like his body had suddenly become flawless. His violet qi grew increasingly pure.

At this moment, the violet flames around him slowly settled. His aura calmed down, and his starry sea once more began to circulate properly. However, once the Seven Star Battle Armor was condensed, the starry sea's circulation was already completely different.

Endless violet qi was born as the starry sea circulated, pouring through Long Chen's body, nourishing his flesh and blood, and providing him with unending power.

When his aura slowly settled, he felt immense power well up within him.

The power that he had just released was out of control. He had no choice but to release it. But now, all his power was under his control.

"This is the Seven Star Battle Armor's power? Even I feel afraid of its power." Long Chen looked at his own fist. Violet qi swirled around it, and the violet qi within his meridians was leaking a bit out of his skin.

This signified that the Seven Star Battle Armor's power was too great, to the point that his meridians were unable to completely seal the power of the violet qi within his body, so a portion of it leaked out. To put it frankly, the current Long Chen was leaking power.

However, even while leaking, Long Chen felt an immense reserve of energy within him. It even terrified himself.

Just then, Shi Yang came charging back with a distorted face due to his fury. Having been forced back by Long Chen's aura twice was an immense humiliation to him.

"Nine Revolution Corpse Devil Fist!"

As Shi Yang roared, the corpse spots on his fist lit up. Lines then flowed from all his corpse spots to his fist, and it blazed with divine light like a sun. From it, the aura of primal chaos erupted.

BOOM!

A heaven-shaking explosion erupted. What shocked everyone was that Shi Yang's fist directly struck Long Chen's chest, and Long Chen actually didn't block it. Yue Xiaoqian covered her mouth in horror. She didn't understand why Long Chen didn't dodge.

After being struck, Long Chen didn't budge. The clothing on his chest was blasted apart, fluttering through the air in scraps.

This was truly a world-shaking punch, but other than his clothes being damaged, Long Chen's body wasn't damaged. Seeing this scene, everyone was stunned.

Shi Yang was just as surprised as he looked at his own fist. This full-power punch of his actually hadn't injured Long Chen in the slightest. It had to be known that this attack contained his primal chaos aura.

This primal chaos aura wasn't something that he would use lightly, as it stemmed from the remnant primal chaos qi left within the corpse. When he used it, he was unrivaled. Yet, Long Chen simply allowed such an attack to strike him and came out uninjured. As a result, Shi Yang was completely dumbfounded by the strength of Long Chen's physical body.

"What immemorial devil corpse, what primal chaos qi? Trash."

Long Chen directly slapped Shi Yang's stunned face. His face deformed, and his head was no longer in the right shape. The immense power sent him tumbling back.

"Run!"

The devil experts in his way shouted in horror. This time, he wasn't flying into the distance but toward them.

BOOM!

He was too fast, and it was too late for them to dodge. Shi Yang's body then smashed through their midst, making them cry out in horror. It was unknown how many devil experts were directly killed by that one violent blow.

The thing that caused them the most despair was that the terrifying corpse poison overflowing from Shi Yang's body spread and infected countless experts. Their bodies then quickly rotted, turning into putrid corpses.

The devil experts had originally had this place surrounded. But they were now in chaos and fled in every direction, no longer bothering with keeping Yue Xiaoqian, Xia Chen, and Guo Ran locked inside.

Shi Yang roared furiously and shot out of the ground. But Long Chen already descended from the heavens and kicked him in the face. Shi Yang and Long Chen's bodies instantly smashed into the ground, their figures vanishing. After that, the earth swelled and the experts on the ground were thrown into the air.

In just a few breaths' time, the earth swelled and suddenly exploded again. Shi Yang came flying out, but his flying posture was extremely odd. The back of his head was next to his ankles like his body had been snapped in half.

"Damn, boss really is going wild!"

Guo Ran and Xia Chen were excited to see this. They were seeing their boss's unrivaled state once again!

### **Chapter 3803: Full Power Attack**

Shi Yang's body flew out, and his figure suddenly shook in the sky. The next moment, people were shocked to notice that Long Chen had somehow appeared there, waiting right above Shi Yang's body.

"What a fast movement art!"

BOOM!

Long Chen's foot stamped down on Shi Yang's stomach. He was originally so bent that the back of his head was next to his ankles. Now, his body bent the other way, and he suddenly flew back down.

A giant ripple spread from the impact, tearing through the void with an ear-piercing sound.

Shi Yang's body then smashed into the ground, causing the world to quiver. This power was truly frightening.

Everyone was dumbfounded now. The power that Shi Yang had previously displayed was absolutely terrifying. But in front of Long Chen, he became a sandbag to be beaten, unable to retaliate in the slightest.

BOOM!

The earth exploded and Shi Yang came flying out once more. Seeing this scene, people were shocked to find that even after receiving such a terrifying blow, his body wasn't damaged in the slightest.

"This immemorial devil corpse is too terrifying, isn't it? It's harder than a World Domain divine item!"

"Long Chen's power is so terrifying that an ordinary Supreme expert won't be able to receive a single attack from him. Even the wind from his fist could probably kill them."

"Too terrifying, simply too terrifying. The name of an immemorial devil corpse is not for nothing. But Long Chen's power is not inferior to it at all. Both of them are monsters!"

Just as countless people were discussing things in shock, Shi Yang stabilized himself in the sky. His four eyes glared at Long Chen darkly.

"I didn't expect you to actually have some ability. But so what? My body comes from the immemorial era, and it was nourished by primal chaos qi. This unbreakable body can't be damaged by you."

BOOM!

As a result, just as he said this, Long Chen appeared above him and punched his head. The immense power once more caused his head to deform.

However, what shocked Long Chen was that Shi Yang's body was very strange. Even disregarding its resistance to beatings, its self-recovery ability was astonishing.

"Can't be damaged? Let's see how I beat you into a meat pancake!"

Long Chen snorted and his fists began to rain down a tempest of punches on Shi Yang. The fist-images filled the sky.

Every punch from Long Chen had immense weight behind it as it smashed into Shi Yang's body. He was beaten like dough, constantly changing form.

However, Shi Yang's body would quickly recover every time. Long Chen's destructive power was unable to harm him.

"Just this little bit of power? You really are a foolish human!" Even as Shi Yang was being badly beaten, he continuously mocked Long Chen.

"Long Chen, don't fall for it! Since he can't beat you, he's using his physical body to slowly exhaust your energy!" warned Yue Xiaoqian.

This warning made countless people understand. Shi Yang was helpless to do anything to Long Chen, but he also didn't want to retreat. Thus, he relied on his unbreakable body to exhaust Long Chen's energy. Once Long Chen was exhausted, he would counterattack.

"Slut! Shut your mouth!"

Shi Yang cursed furiously, only to be punched in the face again and sent flying.

However, this time, people were shocked to find that his nose broke, and fresh blood slowly flowed out.

"What?!"

Everyone was stunned. Previously, Long Chen had landed so many punches with no effect. Why was it that the last punch caused Shi Yang's nose to bleed?

Starry spots had now appeared on Long Chen's fist. Those stars twinkled, possessing immense astral energy that condensed on his fist.

It was Long Chen's first time drawing the power of the stars into his fist. Previously, he had only dared to draw this astral energy into the Minghong Saber. It was only now that his physical body had been greatly improved and his violet qi was abundant that he dared to test this.

This creativity stemmed from the attacks from the nine star heirs in the heavenly tribulation. They were able to activate the Seven Star Battle Armor and condense stars on their fists. Thus, Long Chen also tried it. However, he didn't dare to do it like the nine star heirs. They had directly drawn the power of the seven stars to their fists, while Long Chen was drawing astral energy into his body and then condensing it on his fists.

He had just condensed the Seven Star Battle Armor, and his body wasn't completely used to it yet. Some of his power was being dissipated naturally. This leak might make his aura appear astonishing, but it actually meant that he was unable to draw out his full potential.

However, when Long Chen started drawing astral energy into his body and into his fist, it no longer leaked. His power was fully concentrated. Thus, this simple punch actually damaged Shi Yang's unbreakable body.

"How did you...?!"

Shi Yang was shocked. A touch of fear finally appeared in his eyes. But the response was Long Chen charging back at him.

Long Chen was as quick as lightning. Even though Shi Yang did his best to dodge, Long Chen still landed a punch to his jaw, causing more blood to spray. His jaw was directly broken.

"AH!" Shi Yang's other mouth let out a miserable shriek.

Just then, stars flowed on top of Long Chen's left fist. His punch squarely landed on Shi Yang's head, blowing it apart like a hammer striking a melon.

"Is your mouth still so slutty now?"

Long Chen stamped his foot on Shi Yang's chest. The sound of bones breaking made people wince. Shi Yang's chest caved in and his back was almost pierced through. Fresh blood gushed out. After this kick, Shi Ying's aura plummeted. He was finally given a severe injury.

"Ignite all your violet qi and condense it into one attack." Suddenly, the dragon expert's voice rang out in his mind.

"Senior, I can't! It's still difficult for me to control the Seven Star Battle Armor's power. If I do that, I'll also be injured." Long Chen jumped in shock.

This dragon expert actually wanted him to erupt in one attack. It had to be known that he was still in his peak condition and had over eighty percent of his violet qi. If he were to unleash it all in one attack, he might very likely die.

"There's no time to explain. If I tell you to do something, then do it. I won't harm you," said the dragon expert.

Long Chen clenched his teeth. He could fully trust the dragon expert. Although he knew that he would definitely be injured after such an attack, he still chose to trust the dragon expert.

**BOOM!**

An explosive sound came from Long Chen's body as his violet qi erupted in a blazing fire. His entire body was burning.

At the same time, his meridians rapidly compressed. All the violet qi flowing through them was gushing out in one go. It needed to be squeezed to be forced through.

As his meridians squeezed down on his violet qi, his violet qi produced a rebound force. A sharp ache came from his meridians as a result.

During normal times, Long Chen would definitely give up on this. But the dragon expert had already told him to do so, so he clenched his teeth and continued.

At this moment, Shi Ying let out a terrified cry. He found that he was completely locked down by Long Chen's aura and couldn't move. His intuition told him that he would soon die.

"Blood Burial Rebirth, Corpse Devil Sacrifice!"

Shi Yang roared and formed hand seals. Suddenly, all the devil experts around exploded, transforming into blood mist that he absorbed. He then condensed it into a giant blood-colored shield.

He had actually sacrificed tens of millions of devil experts in one go, using their power to save his own life.

Just then, Long Chen roared. Nine hundred and ninety-nine stars lit up on his fist, and he smashed it at Shi Yang. When this fist attacked, all sound vanished. All that people could hear were their own heartbeats.

### **Chapter 3804: One Punch Annihilates Shi Yang**

"It's useless! No matter how strong you are, you can't break a barrier made out of the lives of millions of people!" roared Shi Yang furiously.

BOOM!

His response was Long Chen's starry fist. This fist was one that could destroy the heavens. It smashed into the blood-colored shield, tearing through it like paper. It had almost no effect.

After that, it didn't actually end up striking Shi Yang. Instead, the divine might of the stars directly shattered Shi Yang's body and blew him up into chunks of flesh that flew through the air.

The fist continued, striking through the void and tearing through the wall of this world. A giant black hole then appeared. Cracks appeared within this black hole.

It was as if even the spatial wall within the black hole was also broken by this fist. When those cracks appeared, the purest form of aura came from the black hole.

This aura contained a desolate flavor. It cleansed the soul and nourished the body. When this aura appeared, Long Chen felt like a dry riverbed that was finally being rained on.

It wasn't a powerful aura. It was just like the slightest breeze. But when this aura appeared, the broken laws of space instantly healed and the scars on the earth vanished.

This aura seemed to possess a supreme magical power. The scars to heaven and earth were instantly healed by it. That aura was the most ancient, primeval power of heaven and earth.

"Primal chaos qi?"

Long Chen was shocked. He hastily circulated his divine ring to absorb this aura.

Behind him, Xia Chen, Guo Ran, and Yue Xiaoqian also sensed it. Without him having to say anything, they also crazily sucked in that primal chaos qi.

In the distance, the Sacred Pill Hall, Bloodkill Hall, Nine Underworld Hall, and the other forces' experts turned red-eyed. This was primal chaos qi, something that everyone who had gone to the three thousand worlds had come for. Absorbing this primal chaos qi was a huge opportunity. It would allow them to directly condense a Heavenly Dao Crown.

Condensing a Heavenly Dao Crown was equivalent to gaining the recognition of heaven and earth or possessing an authority pass to go anywhere. As long as they unleashed the Heavenly Dao Crown, the laws of the Heavenly Daos would obey them. That was something that every Immortal King dreamed of obtaining.

Regretfully, the cracks in the black hole healed quickly, and the primal chaos qi faded with it. The black hole also healed as if nothing had happened.

"No! I just got that feeling! How can it be gone now?!" cried out Guo Ran.

Xia Chen and Yue Xiaoqian looked at him and jumped. Both of them cried out in shock. A dim halo of light had appeared behind Guo Ran's head. Although it wasn't particularly clear, it was definitely there.

"A Heavenly Dao Crown?! No way!" Xia Chen's eyes almost popped out of their sockets when he saw this halo. Wasn't this fellow too strong?

It had to be known that Guo Ran had only absorbed the tiniest bit of primal chaos qi. Xia Chen and Yue Xiaoqian had also only absorbed the tiniest bit. They felt their bodies and souls be nourished, as if a new kind of energy had appeared in their bodies.

However, other than that, they didn't feel much else. But Guo Ran had directly summoned the legendary Heavenly Dao Crown? How could this fellow be so lucky?

"Long Chen!"

Suddenly, Yue Xiaoqian cried out and rushed to Long Chen's side. He was as pale as paper. Blood was pouring out of his ears, nose, and eyes. It was a frightening sight.

Yue Xiaoqian pressed her hands on his back, about to share her energy with him.

"No need. Call over Mo Nian. We have to leave, quickly..." Long Chen was in immense pain. He even felt dizzy and did his best to remain clear-headed.

Just then, Mo Nian came flying back. His aura was a bit weaker now. Clearly, his battle with Yin Changsheng had also been very intense.

"Mo Nian, your belt..." Guo Ran's sharp eyes suddenly noticed the jade belt around Mo Nian's waist. That belt was a bit familiar.

"When Daddy Mo makes his move, how can he leave with no benefits? Let's go. There's a large group of experts coming. What the?! What happened to you?!" Mo Nian jumped in shock when he saw Long Chen, thinking that he was seriously injured.

Xia Chen then activated his formation disc, and the five of them instantly vanished.

BOOM!

A flame spear pierced through the space that they had just been in. Yin Changsheng appeared.

He was surrounded by flames, and his eyes were full of chilly killing intent. His aura had also weakened just like Mo Nian's.

The Sacred Pill Hall's disciples noticed that his jade belt was gone, and they instantly thought of how Mo Nian hadn't been wearing a belt before. Mo Nian had actually taken Yin Changsheng's belt.

"Bastard!"

Yin Changsheng cursed furiously, smashing his spear in the air to vent. The berserk power caused the void to shudder, but Long Chen and the others had long since vanished.

Just then, a flame qilin appeared beside him and roared.

Yin Changsheng furiously shouted, "He wasn't a match for me, or why would he run?! If we joined forces, even if we killed him, it would be an absolute humiliation!"

When he had fought Mo Nian, he had done so by himself, not summoning his flame qilin to assist him. Yin Changsheng had his own pride. After losing out because of Long Chen, he decided that he wanted to beat Long Chen on his own.

However, he hadn't expected Mo Nian to be so terrifying. Mo Nian wasn't just skilled in running away but was also extremely powerful. Hence, the two of them had fought all-out for so long without determining a victor.

But the most infuriating thing was that his World Domain divine item, the divine flame jade belt, had been taken by Mo Nian. Even disregarding the value of the belt, losing it was an indescribable humiliation.

Most hateful of all, Mo Nian's mouth was too treacherous. He had constantly talked while fighting. The two had originally been fighting evenly, but due to his rage, Yin Changsheng's aura ended up in disarray, resulting in Mo Nian suppressing him. He almost coughed up blood from rage.

After that, Mo Nian intentionally showed off his waist as they fought, showing off his spoils of battle. That infuriating appearance of his made Yin Changsheng fume.

Just then, countless experts came rushing over from all directions. They were clearly drawn over by the disturbance, but they came too late. Everything was already over.

"Long Chen, Mo Nian, I swear that I will tear you into a million pieces!" Yin Changsheng roared, his voice filled with killing intent. He had never hated two people so much in his life.

Buzz.

At this moment, the void quivered. Long Chen and the others reappeared.

"Long Chen, what happened to you?!" Yue Xiaoqian held Long Chen worriedly.

"I'm fine. I injured my own meridians with my power. Help guard me. I'll use that new primal chaos qi to heal." Long Chen smiled comfortingly and sat on the ground, forming hand seals. Primal chaos aura then circulated within his body.

## Chapter 3805: Different Path

Long Chen's meridians were riddled with tiny holes and scars. They were almost broken. The last fight had been incredibly dangerous.

It had to be known that unleashing all your power in one attack was innately a kind of taboo, as this was entirely a self-damaging fighting style. You might not even be able to hurt your opponent before killing yourself.

Furthermore, Long Chen had just condensed the Seven Star Battle Armor and was unable to fully control this new power yet. Such a full-power attack had been no different from courting death.

Long Chen normally wouldn't make such a low-level mistake. But the dragon expert had told him to do so, so he had done so. As expected, this attack almost crippled him.

However, Long Chen hadn't expected this injury to get him some primal chaos qi. He couldn't help prostrating himself in admiration toward this dragon expert.

Although his meridians were badly damaged, as long as he was given some time, it wouldn't be difficult to heal them.

After all, he had quite a bit of primal chaos qi in his body now and seemed to understand the dragon expert's intentions. He directly started circulating the primal chaos qi through his damaged meridians.

As expected, when this primal chaos qi poured through his meridians, the wounds quickly healed. Furthermore, they were now several times thicker and ten times tougher than before.

Long Chen was delighted by this. Now his violet qi would no longer leak, and he would also be able to directly summon the Seven Star Battle Armor.

The reason that he had been unable to fully control the Seven Star Battle Armor's power was because it was too powerful, to the point that his meridians couldn't endure it.

Furthermore, with his meridians pushed to their limit, they naturally ended up releasing a bit of violet qi to guarantee their proper function. As a result, much of his violet qi was wasted.

It was like someone who could only lift a hundred pounds suddenly wielding a weapon that was two hundred pounds. There was no way for them to properly use it. They would have to cut away a part of it so that they could lift it.

Once you reached the limit that you could lift, you would let your body slowly acclimate to it and slowly increase the weight again. For Long Chen, his meridians were the foundation of how much power he could use. However, even his toughened meridians from the tribulation were still unable to endure the full power of the Seven Star Battle Armor.

But now, with the nourishment of the primal chaos qi, his almost crippled meridians were rebuilt. Their width didn't change, but their strength and elasticity increased by many times. He would no longer have to worry about his qi leaking.

In other words, the current Long Chen could fully control the Seven Star Battle Armor's power. He had the urge to charge back right now and keep fighting.

However, thinking about it, he had just fought such an immense battle and used up almost all of his violet qi, so he knew he shouldn't do it. But it went without saying that his trust in the dragon expert had reached an almost naive level.

"Senior, you really are amazing. You knew that my attack would have such benefits," transmitted Long Chen.

"Based on my predictions, you should have gained more benefits. I don't mean to knock you down, but amongst nine star heirs in the same realm, you can only count as average. You wouldn't even be considered as above average," sighed the dragon expert.

"What? How can that be? Even though I am so powerful now?" asked Long Chen, dismayed.

It had to be known that the current Long Chen didn't even know just how terrifyingly powerful he was. After advancing, he was no longer the old Long Chen. He felt like he could rampage wherever he went.

However, the dragon expert's words were like a bucket of ice water dumped over his head. He was shocked and refused to believe that he was that lacking.

"You must accept this reality. I've seen many nine star heirs and their Seven Star Battle Armors. Your combat power can only be considered average amongst them. But don't look down on yourself. It isn't that you didn't work hard enough or are lacking talent. Your Nine Star Hegemon Body Art is only the base outline without the accompanying Battle Skills. After all, the Nine Star Hegemon Body Art's cultivation technique has a set of Battle Skills with it. For you to reach this level is already not bad," comforted the dragon expert.

This comfort only made Long Chen feel more disappointed. He was someone extremely confident in himself, so this evaluation made him feel hollow. It was difficult to endure.

"Senior, you must know the Nine Star Hegemon Body Art's Battle Skills, right?" probed Long Chen.

"I don't. The secret arts of the nine stars are only known by the nine star line. Outsiders cannot comprehend them. Also, the starry river line can be considered a branch of the nine star line. Although your auras might be a bit similar, in terms of true power, it is like a calm river compared to a vast sea. There is no comparison as the two are not on the same level. Even if I knew the Battle Skills of the nine star line, it would be meaningless. And even if other nine star heirs were to transmit them to you, it would mean nothing to you," said the dragon expert.

"What are you talking about?" Long Chen was startled.

"Do you not know yourself? Ever since the Five Star Battle Armor, your path changed. You forcibly changed the cultivation path of the Nine Star Hegemon Body Art, and there is no going back. Let alone me, even the creator of the Nine Star Hegemon Body Art would not be able to change it," said the dragon expert.

"Oh, that's right. I changed the orbit of the six-point star, strengthening it! In other words, the Seven Star Battle Armor is still in its original state, and due to my different cultivation path, it is weaker. If I can

change this state, based on my past experience, its power should rise to at least another level.” Thinking of that, Long Chen’s dismay was burned away by excitement.

Back when he had first changed the Nine Star Hegemon Body Art, he had a feeling that his future path would not be easy to walk. But since he had started down this path, he wouldn’t regret it.

He also believed in himself. He would have the ability to walk a different path, one that would not be any inferior to the original Nine Star Hegemon Body Art.

“Hahaha, not bad. Youngsters should have this kind of drive. They need the ambition to climb over difficulties. This is why I was willing to help you back then. That drive to never accept defeat was just like mine back in the day. Who knows whether it’s good or bad that you changed the cultivation path of the Nine Star Hegemon Body Art? Since everything is unknown, you can just press onward without regrets. However, the current you still need to accumulate more power. If you wish to change the Seven Star Battle Armor, you will need to fully master the current Seven Star Battle Armor. Your meridians went through the baptism of heavenly tribulation and you had the aid of nine star heirs. Now, you even repaired them with primal chaos qi. Your meridians are now strong enough, and you are only lacking one thing,” said the dragon expert.

“What is it?” asked Long Chen hastily.

“What you are missing is my dragon king essence blood.”

### **Chapter 3806: The Most Evil Race is the Human Race**

“Changing the Nine Star Hegemon Body Art can be said to be more difficult than ascending the heavens. The last two times, you were able to succeed due to a combination of smarts, power, and luck. But it will be different this time. The Seven Star Battle Armor can be considered a dividing line for the nine star heirs. Before the seven stars, all nine star heirs are around the same level. But after condensing the seventh star, a difference will be shown due to their individual talent, willpower, aptitude, perseverance, intelligence, concentration, and other factors. The difference between them widens at the seventh star. Have you not found that even though they all condensed the Seven Star Battle Armor, only one person amongst the nine star heirs was capable of tearing apart the heavenly tribulation with his bare hands? He shattered the will of the heavenly tribulation, denying the heavenly tribulation from enslaving the nine star heirs. That is the difference. The Heavenly River Blood Sea was created from one billion Beast Venerates dying alongside three thousand nine star heirs. But in truth, half of those billion Beast Venerates were killed by that person. That person also wasn’t killed by the Beast Venerates but died to a different race,” said the dragon expert.

“Whose hands did he die by?” asked Long Chen furiously. Every nine star heir was a hot-blooded man, a true warrior. He wanted to avenge them.

“The person who killed him is also dead, so it would be meaningless for you to know. That battle back then is not something that you can imagine. All you need to know is that without a corresponding power, everything else is worthless. Fame, position, dignity, pride, they mean nothing. The culture and civilization of the cultivation world? That is nonsense that your human race uses to deceive themselves and others. This world has always been a wild world of savages. It is always power that decides

everything. Your human race's most foolish point is that you wish to use your kindness to correct evil lifeforms, all without understanding that the most evil race is your human race," said the dragon expert.

Hearing that, Long Chen sank into thought. He ultimately bitterly smiled and said, "Although it hurts to hear, I have to agree with you."

"Your human race is the most contradictory race. Good and evil, light and dark, they all merge deep within your soul. That is why your human race's character changes the most. Kindness and evil are decided by just a single thought. You are a lifeform that walks between two extremes. No one in this world can understand you, not even yourselves. I once personally witnessed your human race walk to glory. I also saw you destroy your own divine altar and fall from it. Most laughable of all, even your human race doesn't know why you did so. As for myself, even as a spectator, I don't understand why such a scene would play out." The dragon expert sighed with endless memories flowing through its mind.

"Senior doesn't need to sigh. Once I create my own divine altar high above the ten thousand Daos, such a thing will never occur," said Long Chen.

"You have such assurance?" said the dragon expert curiously.

"Yes. I am absolutely assured. As long as I don't die, I will definitely reach the peak. As long as I reach the peak, this world will change because of me," said Long Chen confidently.

The dragon expert was silent for a while before saying, "Your human race isn't trustworthy. However, I am willing to trust you. Little fellow, your character is very much to my taste."

"Hehe, then trust me. That trust won't be mistaken," said Long Chen. With the support of an existence living from the primal chaos era, he felt like his future prospects were limitless. "Senior, why is it that after absorbing so much primal chaos qi, I don't feel anything, while my brother absorbed less than one percent of what I absorbed and already condensed an embryonic Heavenly Dao Crown?"

"That fellow is as weak as a chicken. He won't be able to absorb much primal chaos qi in total. However, his luck is definitely excellent though. The Heavenly Daos look after him. This is what it means for the Dao of the heavens to always be fair. Amongst experts in the same realm, he is definitely the one with the weakest aptitude. The Heavenly Daos naturally give him some compensation. Thus, he is definitely one of the fastest to condense a Heavenly Dao Crown," said the dragon expert lightly.

Long Chen didn't know whether to laugh or cry. He only glanced at Guo Ran bragging in the distance. If he were to tell him the truth, this fellow might start crying.

However, thinking about it, Guo Ran's current power was thanks to Long Chen forcibly dragging him up. But his natural talent and aptitude couldn't be changed.

Perhaps Guo Ran truly was powerful now, but in the eyes of Heavenly Daos, he was a chicken that could not be any weaker. For a weak chicken to cultivate to this point, perhaps the Heavenly Daos were moved and took pity on him, looking after him a bit more.

"Senior, when will it be time to take your dragon scale?" asked Long Chen.

“Now still isn’t the time. I am still calculating fate. When the moment comes, I will naturally tell you. Right now, you can do whatever you want to do,” said the dragon expert.

“Then can I try breaking through the void again to absorb more primal chaos qi?” asked Long Chen.

“Primal chaos qi is like a dragon vein. It is in constant motion, so you wouldn’t be able to run into it every time. Furthermore, now still isn’t time for the dragon vein to formally appear. There’s no rush to condense a Heavenly Dao Crown. You also don’t need to worry about the primal chaos qi not appearing before the three thousand worlds close. The three thousand worlds cannot close without that primal chaos qi appearing,” said the dragon expert.

Since this method wouldn’t work, Long Chen gave up on it. He then began circulating the Nine Star Hegemon Body Art to quickly restore his violet qi.

With his Starry Sea Births Violet Qi manifestation, his 108,000 stars were like wells from which his violet qi burst out. In less than half a day, his violet qi was eighty percent restored.

After that, he left his seclusion. As long as he didn’t go to fight right away, his violet qi would be fully restored in a few hours. There was no need to meticulously focus on restoring it.

By the time he had recovered to eighty percent, Mo Nian and Yue Xiaoqian had reached about the same point. As for Guo Ran and Xia Chen, they had fully recovered. Guo Ran in particular didn’t even need to focus and meditate to recover. He just needed to activate his embryonic Heavenly Dao Crown and he quickly recovered. He was fully recovered in just an hour.

The current Guo Ran was delighted and constantly studying his Heavenly Dao Crown. However, every person’s Heavenly Dao Crown was unique just like their manifestation. Each Heavenly Dao Crown possessed its own unique abilities, and each person would need to research those abilities themselves.

Long Chen felt like Guo Ran’s Heavenly Dao Crown would probably not have any special abilities. After all, those special abilities were based on a person’s talent, willpower, and hardwork. This fellow was lacking in all areas. But Long Chen didn’t want to knock him down, so he just let him study it.

However, even just this rapid recovery ability was already heaven-defying. It essentially provided him with endless energy.

Guo Ran mostly relied on his battle armor to fight, so his own personal exhaustion was low. With this Heavenly Dao Crown, his combat endurance would probably be amazing.

“Let’s go back to Silver Moon City first, and we’ll bring our brothers back to Clear Sky City. The Dragonblood Legion is going to reunite.”

After Long Chen said this, Xia Chen and Guo Ran’s blood heated up. That was especially true for Guo Ran, the general of the legion. He cried out excitedly.

## **Chapter 3807: Heavenly Tomb**

The flying boat slowly flew through the air, and only Long Chen and Yue Xiaoqian were in the rear room. Yue Xiaoqian was nestled against Long Chen’s chest with a warm smile.

Yue Xiaoqian narrated what had happened to her after ascending. She had directly landed in the original devil race's ancestral land, obtaining the original devil race's most complete inheritance.

With her divine seal, she could even suppress experts like Shi Yang. In her peak condition, someone like Shi Yang would not even be able to flee from her.

This time, it was only because she had used up a great deal of her energy on other devil experts and had been attacked by other races, resulting in her being at a disadvantage.

Even surrounded by the devil race, she hadn't been in any real danger. It was only when the people of the Nine Underworld Hall, Bloodkill Hall, and Sacred Pill Hall came that the pressure increased. Fortunately, Xia Chen and Guo Ran directly rushed over. Otherwise, she would have been in danger.

Long Chen also told her about his journey in the immortal world. As soon as he mentioned that he had seen Yu Qingxuan, Yue Xiaoqian sat up in delight.

Back in the Martial Heaven Continent's final battle, Yu Qingxuan had sacrificed herself to take the blade that would have killed Long Chen. She then died right in front of him. Yue Xiaoqian and the others were all heartbroken when they saw that.

It was only later that they knew Yu Qingxuan had actually sacrificed so much for Long Chen. She had gone through reincarnation after reincarnation for him. Such deep feelings made them feel great admiration for her.

Thus, Yue Xiaoqian was especially delighted when she heard of Yu Qingxuan. Yue Xiaoqian immediately said, "Long Chen, this time, you have to treat big sister Qingxuan properly. Don't let her suffer any pain again."

"Don't worry. I won't." Long Chen nodded. In this lifetime, he would treat her as well as he could.

"Speaking of which, is that Bai Shishi your new lover in the immortal world?" asked Yue Xiaoqian with a smile.

Long Chen instantly blushed and nodded awkwardly. "She should count as one."

Yue Xiaoqian laughed. "Don't worry, I'm just asking a few questions. I'm not Wan-er. I won't pinch you."

Hearing this, Long Chen was further embarrassed, but there was nothing he could do. In truth, he had intentionally maintained a distance from Bai Shishi. But later, they still ended up together.

Love was truly something unrivaled. No matter how high your cultivation base or talent, there was no beating it.

"Just Bai Shishi alone?" asked Yue Xiaoqian.

"Just one, I promise!" said Long Chen solemnly.

"Hehe, what are you so nervous about? Someone like you who is wild, outstanding, and dangerous is especially attractive to women. To only gain one new lover after all this time, you must have held back as much as you could," said Yue Xiaoqian.

Long Chen bitterly smiled. "This praise makes me feel ashamed. Doesn't a real man try to be faithful to just one spouse in their life? Sometimes, I even look down on myself for falling in love with more than one person. To marry a single one of you is a fortune for multiple lifetimes. So, to love so many of you, I feel like I'm sinning. I really do feel guilty toward all of you."

"Fool, what guilt? Do you know when I fell in love with you?" asked Yue Xiaoqian softly, caressing his cheek.

"If I say that I don't, will I be beaten?" asked Long Chen awkwardly because he really didn't know.

Yue Xiaoqian glared at him. "When have I ever beaten you? Back in the Jiuli secret realm, you refused to leave despite staring death in the face, placing your body between death and me. It was then that I knew that my fate was set. You used your life to protect me. That is fatal to any woman, and there's no cure. Just how many women can resist someone mysterious, wild, domineering, and also willing to sacrifice his life to protect them? The only thing I find strange is that you only ended up with one. Based on my expectations, you should have gained just as many women as on the Martial Heaven Continent," said Yue Xiaoqian while covering a smile.

The more Long Chen heard, the guiltier he felt. He even had the urge to cry. His women truly treated him well, so well that not even ten thousand deaths would be enough to repay them.

The two of them talked a bit more before leaving the rear room and joining the others. As for Mo Nian, he was currently gesturing enthusiastically to Xia Chen and Guo Ran in another room, sketching out a diagram.

"Trust me, this is definitely some big business to gain! Furthermore, this treasure definitely has a destiny with us! Our union is so sharp that we can cut metal! We can definitely do this. If we do, we'll have a lifetime of pleasures awaiting us!"

Seeing Mo Nian solemnly acting as if he was conning them, Yue Xiaoqian couldn't help laughing. This fellow's combat power was truly terrifying. He was actually able to fight on par with the Sacred Pill Hall's heir, and yet he acted like a swindler on the streets without the slightest air of an expert.

"Let's ignore whether or not we can have a lifetime of pleasure. First, I want to know if you can teach me how to be a poser like you!" exclaimed Guo Ran. He was completely won over by how flashy Mo Nian had been this time, and he was incredibly envious. "Oh, can you come up with some lines for me too? Let alone some tomb, I'll go through mountains of blades and pools of boiling oil for you!"

"No problem! Between brothers, it's nothing!" Mo Nian patted his chest.

Only then did he take note that Long Chen and Yue Xiaoqian had arrived. Mo Nian then pointed at the diagram.

"You came at the right time. We're studying the plan. This tomb is not human-made. It's a heavenly tomb."

"What is a heavenly tomb?" asked Guo Ran.

Unexpectedly, it was Yue Xiaoqian who said, "A heavenly tomb refers to when the Heavenly Daos are unwilling to allow the corpses of peerless experts to lie in the wilderness. The earth splits open, the

heavens collapse, and a special world is formed for them to rest in. However, Heavenly tombs are very dangerous and will very likely produce evil corpses. Those so-called evil corpses are experts whose soul essence refuses to dissipate and their physical bodies refuse to die. Once they are awoken, they usually cause a calamity in the world of the living. Think this through.”

“No need to worry. I’ve checked over the heavenly tomb. It sits in the north, facing the south. Contrary to most Yin tombs, it is actually a Yang tomb and is overflowing with Yang Qi. There’s not much chance that evil corpses will appear. Furthermore, there are nine dragon veins around it, forming the nine dragon spirit containment manifestation. The Heavenly Daos wish for those lifeforms to rest in peace. We’re only plundering the wealth, not the corpses. As long as we don’t touch the bodies, everything will be safe,” said Mo Nian confidently.

Hearing that, Yue Xiaoqian nodded. It seemed that she agreed with Mo Nian’s opinion. With that, this plan was finalized.

“Stop the flying boat for an inspection!”

Just as their flying boat was about to reach Silver Moon City, giant siege crossbows appeared and pointed at Guo Ran’s flying boat.

### **Chapter 3808: Junior City Lord**

When did the exterior of Silver Moon City require an inspection to pass through? Long Chen frowned.

Eighteen giant siege crossbows were pointed at their flying boat. At the same time, countless runes on the city gates lit up. Their grand formation was activated.

“It’s the Sacred Pill Hall’s people,” said Guo Ran darkly.

“Is the Sacred Pill Hall in control of Silver Moon City? To dare to do inspections in front of Silver Moon City, I didn’t expect this,” said Mo Nian with surprise.

It had to be known that Silver Moon City was a human settlement. Although they did not forbid other races from entering, within their jurisdiction, no one dared to cause trouble, or it would be viewed as trampling over Silver Moon City’s dignity.

To set up inspections right in front of the city, that was either not placing Silver Moon City in their eyes or was done with the approval of Silver Moon City.

However, based on the fact that some of these people were wearing robes of Silver Moon City, it could be seen that it was the latter.

“Whoever is inside the flying boat, come down and submit to inspection, or bear the consequences!” shouted a Divine Venerate sternly.

“Bear the consequences? I think I’ll do that. How can I help you?” Long Chen snorted and walked out.

When Long Chen, Mo Nian, and the others came out, that Divine Venerate’s expression completely changed. He immediately gestured to lock down the formation.

"If I, Long Chen, wish to enter the city, do you think that trash like you can block me?" Long Chen looked at the group of dozens of Divine Venerates and an army of Immortal King disciples. He sneered.

"Long Chen! The Sacred Pill Hall, Bloodkill Hall, Nine Underworld Hall, and devil race all have an arrest warrant for you! Silver Moon City does not welcome you! Scram!"

Just then, a Supreme Immortal King walked out of the crowd, and the mark of Silver Moon City blazed on his chest brightly. He was handsome, but so arrogant it was like he looked down on everyone else.

"Silver Moon City is a human settlement. When did it become other people's dog? Is the Sacred Pill Hall your daddy? Why are you so obedient?" asked Long Chen disdainfully.

"How brazen! Do you know who I am?!" shouted the man with the silver moon robes.

"You can be whoever you want to be. I'm going into the city, and I don't feel like talking to you. If you don't want to die, get out of the way. I know you've alerted the others and they're coming quickly. But if you are thinking of blocking my way, first, you won't prevail, and second, you'll pay a price that will be difficult to bear," said Long Chen coldly.

With just this brief conversation, Long Chen knew that these fellows before him were in collusion with Silver Moon City to stall him outside the city. However, they did not have the power to mobilize the entire city's forces against him.

All they wanted was to stall him until the real experts came. Then they could directly kill him outside the city without affecting the dignity of Silver Moon City.

"Arrogant brat! I see that you're courting death! I am the city lord's thirteenth son! Today, if you don't kneel and kowtow, don't even think about leaving alive!" That man shouted furiously and pointed his sword at Long Chen.

"Boss, don't kill a chicken with a divine blade. I, Guo Ran, am willing to lower myself to deal with him." Guo Ran immediately stepped forward.

This fellow with the silver moon robes might be a Supreme heavenly genius, but his aura wasn't powerful. In fact, it was a bit flimsy. He was clearly someone who had been born with decent talent, but he never worked to excavate his full potential. Hence, he hadn't experienced many life-and-death battles. Such a figure was someone that even Guo Ran could slay with a single blow.

"Courting death!"

Seeing Long Chen ignore him and a fellow with an even weaker aura than him jump out, that man was infuriated. He thought that he was being insulted intentionally, so he directly attacked.

However, before he could even get to them, an old fellow from the Sacred Pill Hall grabbed him. That was someone who had personally witnessed Long Chen and the others fighting. He was profoundly aware that every single one of the five people before him was a peak expert.

This junior city lord was actually trying to throw himself into death's embrace. If he succeeded, no one would be able to save him.

“Are you idiots?! What are you stopping me for?! You cowards, you don’t dare to do anything yourself, so let me go! I’ll kill them all!” The junior city lord was enraged at being stopped. He thought that these people’s heads were broken.

“Everyone, this is Silver Moon City, and this is the city lord’s son. The city lord is in seclusion, so the junior city lord has the authority to refuse entry to others. Since he does not permit you inside, please leave. Otherwise, the killing formation will be activated, and not a single one of you will be able to leave,” said an elder from Silver Moon City.

Clearly, they weren’t thinking of attacking Long Chen, nor did they want to use Silver Moon City’s killing formation. All they wanted was to prevent him from entering the city.

“If you don’t want me to go in, fine. Tell my brothers inside the city to leave with the others,” said Long Chen lightly.

“You’re giving me orders? Who do you think you are?! Scram or die!” roared another elder of Silver Moon City impatiently.

As a result, an arrow pierced his head, and he just watched as it struck him. It was as if he didn’t sense the danger descending.

Shockingly, the one to attack was Guo Ran. His arrow was silent and came without any warning. That person didn’t even know who the attacker was as he died.

“We really gave you too much face. Since you want to die, there’s no need to stand on courtesy.” Long Chen snorted and gestured to attack.

As soon as he gestured, Guo Ran charged out with his Devil Dragon Battle Armor, and his saber swept through the air, enveloping over ten Divine Venerates. They were all blown back.

“You dare to attack?! Activate the grand formation and kill-!”

Pow!

That junior city lord wasn’t even done giving orders before he was slapped in the face by Long Chen. Long Chen had done his best to hold back, but he still almost killed this junior city lord with this slap.

Long Chen hadn’t expected there to be such a weak Supreme expert in this world. The latter had no speed or power. Even worse, he didn’t have any combat experience. He didn’t even summon any instinctive energy to protect himself as Long Chen’s slap struck him.

He collapsed on the ground like porcelain. Although he didn’t explode, cracks covered his body as if he was going to shatter apart at any moment.

At this moment, Xia Chen and Yue Xiaoqian also attacked. Those experts had no ability to resist. They were almost instantly wiped out. Whether it was the Sacred Pill Hall’s experts or Silver Moon City’s experts, they were wiped out of existence. As for Mo Nian, he clasped his hands behind his back. He didn’t even have a desire to fight.

Just then, all of Silver Moon City rumbled, and endless divine might caused the world to change color. Millions of runic arrows then condensed on top of the city walls, pointing at Long Chen and the others.

“Open the city gates, or your junior city lord will die without a corpse.”

In the face of this grand killing formation, Long Chen simply grabbed the junior city lord and walked to the gates.

### **Chapter 3809: Secure In One's Backing**

Long Chen grabbed the junior city lord and dragged him to the city gates. He completely ignored the formation that had condensed millions of arrows on the walls, knowing that the people within the city would not dare to attack him.

He estimated that this matter was caused by the Sacred Pill Hall using this foolish fellow. They borrowed his authority in an attempt to stop Long Chen.

It was because this junior city lord was clearly an idiot. It was easy to manipulate him.

Just as Long Chen anticipated, Silver Moon City's experts cowered behind their formation, not daring to attack. They were afraid of him using the junior city lord as a shield.

The next moment, the immense divine light on the city walls dissipated, and the closed gates were revealed. Long Chen walked in just like that, dragging the junior city lord. He held him by the neck as he walked in and was instantly surrounded by countless experts wearing Silver Moon City's robes.

“Release me now! If you dare to treat me like this, I'll make you die a miserable death!” shouted the junior city lord furiously.

Regretfully, with his neck being held, he wasn't able to get much air, so what came out was a sharp and thin voice, like a eunuch cursing in the streets. It lacked any dignity at all. It was even comical.

“Xia Chen!”

Long Chen turned the junior city lord's face to Xia Chen, and Xia Chen didn't hesitate. He directly slapped him a dozen times.

After these slaps, his wounds that had just started to recover split open again. His face swelled badly.

Long Chen had Xia Chen slap him because Xia Chen's physical strength was low. Someone else might accidentally kill him with a slap.

“Keep talking like that, and I'll keep slapping!” Xia Chen took out a handkerchief and wiped the blood off of his hands.

“If you have guts, then just try to kill me! If you kill me, don't even think about leaving this city alive!” shouted the junior city lord. He was actually quite tough, even daring to threaten them at this time.

Xia Chen once more slapped him in the face repeatedly. Even with his good temper, he was getting angry. He had the urge to kill this idiot with his slaps.

This fellow thought that his status as the junior city lord would make others not dare to touch him. He had no idea he was already in the hands of the death god.

“Release the city lord's son, or you'll die a miserable death!”

When Long Chen and the others walked in, the formation closed behind them. They were instantly trapped in a cage.

“Do you not have other phrases? I’ve gotten tired of hearing the same old thing over and over again. If I were to die, why would I care about how miserable it is? However, I guarantee that if you tried, your entire Silver Moon City would accompany me in death,” said Long Chen.

His voice spread far and wide, shaking heaven and earth. It contained his domineeringness and confidence. Even though they didn’t know Long Chen, they didn’t dare to question his words.

All the experts within Silver Moon City were startled, frightened by Long Chen’s might. They didn’t know what to do.

“Who do you think you are? In front of me, Yin Changsheng, you are nothing more than a coward who can only run.”

Just then, a shout came from inside the city. Yin Changsheng came flying out with a large group of the Sacred Pill Hall’s experts.

Yin Changsheng had clearly just received word and gone through multiple transportations to arrive here. There was still some spatial energy lingering around him. Unfortunately, he was too late. Long Chen was already in the city.

“Wow, the rich moneybags who gives away money is here? Last time, you already gave me this elegant belt. What are you going to give me this time?” Mo Nian laughed sinisterly. He eyed Yin Changsheng up and down.

Yin Changsheng was enraged when he saw Mo Nian. His belt, which was on the level of a World Domain divine item, had been taken by Mo Nian. That was a huge humiliation for him. At this moment, flames almost burst out of his eyes, and he pointed his spear right at Mo Nian, his aura growing wildly.

“Long Chen, I didn’t think that you’d be hiding here. We finally meet again. Let me see where you will run this time.”

A long-haired woman in skintight clothes and with a sword on her back descended from the sky. It was the Nine Underworld Hall’s peak expert, the Nine Underworld Luocha. She had also come.

When she appeared, a chilly killing intent instantly caused countless people to have goosebumps. Their souls also felt a sharp pain. This was the opposite of an assassin’s usual concealed aura. The Nine Underworld Luocha was like a god of slaughter, delighting in taking other people’s lives in the most violent way.

There was a large shadowy figure behind her that swayed with the wind. It was like the banner of a devil, yet also like the scythe of the death god dancing.

After advancing to the Immortal King realm, the Nine Underworld Luocha’s aura had completely changed. It was even more sinister and violent, an aura that seemed to live for slaughter.

When Long Chen saw her, his heart quivered. After passing this tribulation, the Nine Underworld Luocha had completely transformed. Her power had increased by an unknown amount.

Fortunately, Long Chen had the dragon expert's assistance in his tribulation. Otherwise, his power would have been thrown behind hers by a great deal.

The Nine Underworld Hall's disciples all gathered behind her when she arrived.

"What are you talking about? Is your memory so bad? Do you not remember how I beat you until you knelt and begged for mercy in the Darklight Heaven?" sneered Long Chen.

Although the Nine underworld Luocha was terrifying, the current Long Chen had fully activated all seven stars, and his meridians had made huge improvements. He was no longer the old Long Chen. He was unafraid of anyone.

"Damn bastard, that was just my carelessness! A minor victory lets you be so pleased? Are you going to brag about it for the rest of your life? If you're a man, come out of the city with me, and we'll decide who is stronger right now!" The Nine Underworld Luocha's gaze instantly grew icy and dark. She hated Long Chen to the point of not wanting to wait another second.

"Decide who's stronger? Sorry, this chance can't be given to you. Otherwise, your fool master will once more start bragging."

Suddenly, a soft voice rang out and the black-robed Ji Wuming appeared. Countless people cried out in shock. Even within this crowd of powerful experts, not one person noticed where he had come from.

"Long Chen, not bad! I feel like I have quite a few great enemies, but your enemies are all so powerful!" Mo Nian chortled as he eyed the Nine Underworld Luocha and Ji Wuming. After that, his own battle intent ignited. This fellow was also a war-like man.

"This is nothing. You're only seeing the tip of the iceberg," said Long Chen, also growing excited as he saw his enemies appearing one by one.

"Release me, or you'll regret coming to this world!" Suddenly, the junior city lord in Long Chen's hand woke up. He had been knocked unconscious by Xia Chen's slaps and now began to roar again.

Xia Chen looked at him. This idiot was truly a pain in the neck. Xia Chen then raised his hand to slap him again when Long Chen suddenly released him. But then, the Minghong Saber appeared in his hand.

BOOM!

All of Silver Moon City quivered. His saber slashed down, knocking back a figure.

This figure was a middle-aged man looking to be in his forties. As soon as he appeared, the junior city lord cried out excitedly.

"Now you're definitely dead! Dad, quickly kill them!"

### **Chapter 3810: Have Another**

Countless people kowtowed toward this middle-aged man when he appeared.

"City lord!"

This middle-aged man looked at Long Chen frostily. There was the slightest hint of trepidation in his eyes. Just now, he had attacked silently without any warning, so he hadn't expected this black-robed man to be able to block him.

As the lord of Silver Moon City, his power naturally had to be high enough to intimidate other experts who might come. Otherwise, there was no way for him to occupy any territory within the three thousand worlds.

The city lord's aura was hidden, and people couldn't even sense his existence. However, when he appeared, everyone's heart shook. This person seemed to have reached the point of merging into heaven and earth. He represented this city and this world. It was like he was the master of everyone's life here.

This was an absolutely terrifying existence, an almighty expert that people couldn't fathom. It was like a thought from him could wipe all of them out, and they wouldn't even be able to resist.

"Father, kill them!" shouted the junior city lord impatiently when he saw his father just sizing up Long Chen and the others.

Long Chen raised his hand, once more sending the junior city lord's face to Xia Chen. Xia Chen then slapped him sixteen times, causing the latter's face to bleed again.

Everyone was shocked. To slap the city lord's son right in front of him, that was no different than slapping his face.

As expected, the city lord's expression sank and fury rose out of him. "Are you going to force this lord to kill you?"

"I don't believe you dare to fight here unless you no longer care about this city. Furthermore, even if you did, even if I couldn't beat you, I can easily retreat. If I want to leave, no one here can stop me. However, after the battle, there would no longer be a Silver Moon City, and as the city lord, you would become a laughingstock. Of course, you can treat this as me just trying to scare you. You can entirely try to test me and see if I'm just saying big words," said Long Chen lightly.

Long Chen was fully confident now. His seven stars were activated, and his meridians had been rebuilt. As a result, his former cautiousness was thrown away. His mind felt clearer, and his confidence was steadier than ever. He was even more domineering than before.

This was confidence in one's own power. It could be said that the dragon expert's arrangements had benefited him immensely.

Thus, even in front of a terrifying existence that he had never encountered before, Long Chen was still full of confidence, as if everything was under his control.

The city lord suddenly smiled. "Not bad. Youngsters should have this courage and vision. This matter is nothing more than a misunderstanding. My son was foolish and he was used by others. I hope you can give me face and let him off. I can let bygones be bygones."

These words shocked everyone here. Was he looking for peace? When did he become so soft?

However, some people were sneering sinisterly inside. This was clearly a lie. If Long Chen handed over the junior city lord, the city lord would no longer have any misgivings. He wouldn't instantly kill them.

The city lord was treating them too lightly. This could only trick someone with small guts, so Ji Wuming smiled mockingly. As expected, a foolish son was raised by a foolish father.

Have Long Chen hand over his hostage? That was a huge joke. It seemed that his wisdom had not grown even after all his years of life.

"Unacceptable!"

Even before Long Chen responded, the junior city lord started roaring again.

"I want to kill them! They hit me! I'll kill their whole family, their entire bloodline!"

This roar caused countless people to shake their heads. This fellow's foolishness was unparalleled. Even at this time, he was still trying to threaten others. Claiming that he would kill their entire family and bloodline? Was that no different than courting death?

"Shut up!"

The city lord's expression sank, and he shouted at his foolish son furiously.

There was no way for him to transmit messages to his son spiritually. His son's soul was entirely under Long Chen's purview. Also, the city lord had already given him a meaningful glance, but this idiot hadn't understood.

"No, I want them dead-!"

Long Chen then slapped him. Even though Long Chen wasn't using any power, his face still caved in. He instantly fainted.

"So loud."

Long Chen frowned. After this slap, things quietened down. But the city lord's expression had become even uglier.

"What do you want?" asked the city lord darkly.

"I, Long Chen, never threaten others." Long Chen raised the unconscious man in his hand. His body quivered and he instantly woke up.

"What does that mean?" The city lord's expression suddenly changed.

"AH!"

The junior city lord screamed like a pig being slaughtered. It seemed he was suffering unbearable pain.

"You don't understand? Your son wants to kill me. He wants to kill my whole family and my whole bloodline. Do you think I can let him live?" asked Long Chen coldly.

"You dare?!"

"Take advantage of your youth to have another kid!"

BOOM!

The next moment, Long Chen's hand quivered and the junior city lord exploded, his soul extinguished. He was killed by Long Chen just like that.

"DIE!"

The city lord's palm crashed down on Long Chen. At the same time, countless runes lit up on the ground. The entire world was covered by some mysterious energy.

"Split the Heavens 1!"

When Long Chen slashed the Minghong Saber, violet qi swirled and his saber cry shook the heavens. The violet qi in his meridians was crazily compressed, causing explosive power to gush out.

BOOM!

All of Silver Moon City shook. Some buildings became covered in fine cracks from the intense shaking.

After their collision, Long Chen was forced back a few steps, while the city lord was also knocked back. They were evenly matched. However, their terrifying power shook countless people.

Within the crowd, Ji Wuming narrowed his eyes. "Master really was right. This Long Chen is definitely a terrifying existence. I cannot be the slightest bit careless."

Those as powerful as Ji Wuming, the Nine Underworld Luocho, Yin Changsheng, and Mo Nian could instantly see that this was not a full-power attack. It was but a quick attack.

The city lord had given no chance for Long Chen to accumulate power. Hence, he had used his full speed to attack and kill Long Chen before he could summon his power.

For an ordinary expert, such an attack would definitely lead to death. The city lord was relying entirely on his realm advantage to crush Long Chen.

However, what he didn't know was that Long Chen's meridians had been strengthened many times over. He was able to fully unleash his power in one go.

For most people, unleashing their power was like boiling cold water. They needed a warm-up before they reached their full power. However, Long Chen was able to boil the water in an instant. That kind of explosive might shocked everyone.

Long Chen rested the Minghong Saber on his shoulder. Appearing incredibly domineering, he coldly said, "Do you want my life or do you want your city?"
