

## No Chance 198

### Chapter 198 Distance

As they talked about it, they became more excited. Elisa curved her lips slightly into a smile and asked, "Does Elisa think that she's invincible just because she's an elite lawyer? I suddenly understand why you did that, Dad. If you don't let her return to the Benett Corporation, she might work with our opponents, and once she finds some loopholes in the contracts, she will help them in taking legal action. We would lose a huge sum of money because of that, so it's better to keep her close so we can keep an eye on her."

Norman looked at his daughter with great satisfaction. "Sweetie, your intelligence is superb! I would be relieved to hand over the company to you in the future."

Rose also nodded along, feeling impressed by her. "Precisely. Our daughter is so smart that we won't have any worries about handing over the business to her."

Linda smiled back at them. "Let's work together as a family and kick Elisa out of the picture completely, making her unable to return for good."

Rose let out a cold snort. "If Elisa brings up the topic of taking over Benett Corporation again, let's give her a few difficult challenges so that she'll end up being hated by all the stakeholders who won't allow her to return. When that time comes, she will be a complete failure."

...

At the same time, Elisa felt a strong sense of melancholy as soon as she stepped into her late father's old room. Looking at the room that still looked the same, tears began to fill her eyes unknowingly.
