Jennifer looked at her spitefully. "What nonsense are you saying? In our current society, a woman has to be capable. Who knows what trouble we might encounter when we get married?"

Albert was speechless when he heard that. "You have some serious issues. It's perfectly fine for a woman to focus on her career, but it doesn't mean that other women have to take advantage of men to do so. Ms. Benett has her own career; you better not be so prejudiced toward her."

"You!" Jennifer was enraged after hearing that, but Albert had already started walking out of the room with his phone in his hand.
