Chapter 131: The Might of the Halo (Part 2)

[Vivian, it's time to rest!!]

"It's okay. The other me, I... I'll finish practicing this last one!"

[Humph! I really don't know why you're practicing this. Isn't it enough for you to have Little Black? Alright, even if that little cub is unreliable...]

[You...] Don't you still have me? Humph!]

The second personality's angry voice sounded.

The second personality had been unhappy ever since Vivian came looking for Damir. Firstly, she did not want any men to get close to Vivian. Secondly, she felt that Vivian's learning of magic was unnecessary.

Just as she said.

Was it not enough to have him?

In response, the little girl snickered and couldn't hide her tired voice.

"Alright, alright, I know. All of you are very powerful! As long as you are here, no one can hurt me.

"However..."

"It's also because of you guys that I feel that I have to work harder.

“Because I don’t want to see a day when you need me, but 1...1 can’t do anything!”

[Sigh, I really can’t do anything to you, you little fool! Turn the halo you just released into this, then do this again, and finally...]

“Wow! The other me, the other me, the other me! You’re awesome! I was just trying out this special attribute. I didn’t expect it to really succeed!

[Humph...]

“What should I use to activate this halo...’

Other than the elemental spells of the nine god systems, the activation incantations of the other special spells, especially those that were extended and created, were all decided by the spellcaster himself.

Vivian opened the window and looked out at Red Flame Town, which was still preparing for war even though it was late at night. She also looked at her wolf cub, who was playing with strangers in Red Flame Town. Finally, under the candlelight, a faint shadow accompanied her behind her all the time.

“Let’s call it, May the world be beautiful... Meeting you in a circle!

The spell that Vivian had said to her was now being recited by the little girl again, echoing in the second personality’s ears.

The second personality was feeling extremely complicated.

There was happiness, pride, and also a kind of empty loneliness, and also... There was a faint sadness.

Every time Vivian chanted a halo spell, the same thing happened again, and the waves of the refugees and soldiers under the city were amplified.

“What happened?”

“What...what just happened?”

“Why do I suddenly feel as if my entire body is filled with strength?”

“Me too!”

“It must be the Lord Mage! It’s the spell of our Fire God Cult’s great mage, the one in the sky!”

The first to react to Vivian’s halo was the city guards.

As warriors, they could clearly sense the changes in their bodies.

In the eyes of the soldiers, the ferocious movements and attacks of the festered creatures seemed to have slowed down.

They could clearly see every attack and bite of the monster, and their bodies were as agile as bandits.

This was only the beginning.

Then, one halo after another was stacked.

Puchi puchi puchi!

The captain of the city guards who had saved Seven was an elite warrior with great strength. At this moment, he was like a god of war. He threw his spear with all his might and pierced through four to five Fallen Abyss monsters before stopping.

When Little Seven saw this scene, she was excited as if she wanted to join the battle. Her fear of the festered monsters seemed to have completely disappeared.

The last group of city guards who had fled to the end of the line actually mustered up their courage. They were no longer dominated by the fear of the monsters. With their minds stabilized, they once again entered the battlefield.

“This...

On the other side of the portal, Xue Li’s face was filled with disbelief and incomprehension.

She was the one who could feel the change in the battle situation after Vivian released the halo.

Fallen Abyss monsters had no consciousness.

Or rather, their consciousness was connected to the Fallen Abyss Network and Xue Li.

Therefore, even though she was not on the battlefield, she could still clearly sense the emotions of the Fallen Abyss creatures outside the Fire Code City.

They were anxious because they realized that their attacks could not hit the humans.

They were puzzled because they realized that even though they bit and pounced on the human, the clothes on the human, even if it was just a thin shirt, were like tough armor.

They were angry because the most infuriating thing was that they would always be interrupted for some reason. For example, sometimes, when they finally grabbed an opportunity to bite their opponent to death, there would be a pit on the ground when they were charging, or the enemy’s reinforcements would always arrive at the right time. It was as if luck was against them.

“I’m sorry, Lord Hei...”

“I, I apologize again for what I said to Lady Vivian before. “Cher lowered her head towards the little girl in the sky in the magic projection.

She pursed her lips tightly and gritted her teeth.

Cher’s previous respect for Vivian was only due to the influence of Liao Zixuan.

But at this moment.

When Vivian was willing to stand up and fight against the Fallen Abyss monster tide on her own, Shirley had already agreed with Vivian’s title.

When Vivian turned the situation around with a path that even she did not have and had never imagined, Shirley completely understood Liao Zixuan’s words in her heart.

You underestimate Vivian.

Immediately after, a strong sense of danger rose in Xue Li’s heart.

She had always thought that she was the most helpful and useful person by the wolf cubs ‘side, but now, after seeing Vivian’s growth speed, Shirley was afraid.

She had only joined in the middle, and she couldn’t compare to him in terms of feelings. Now, if she couldn’t even compare to him in terms of effectiveness, then what was she going to use to compete with others?

“Lord Hei, I feel that it is...It’s time for me to go on stage.” Under Vivian’s provocation, Shirley was eager to prove herself.

The wolf cubs did not stop him.

Because, indeed.

Previously, the Fallen Abyss monsters had been in a one-sided situation. Now, with the blessing of Vivian's halo, it was not a one-sided situation, but at least it was a fifty-fifty chance.

However, Liao Zixuan felt that this was not enough.

Vivian could leave a deeper impression in the entire Fire Law City. After all, the other Vivian in Vivian's body had not even taken action yet. Moreover, the upgrade gift that the wolf cubs prepared for the girl had not been used yet.

And all of this clearly required a...

A stronger enemy.

"Go, Shirley.."

Chapter 132: The Descent of the Oracle, Xue Li 's Arrival! 1

What should he do?

Bishop Greco looked at the image in the magic projection with a pale face. His confidence in the previous plan had been shattered by Vivian.

At this time, his trusted aide ran in from outside the meeting hall, and the new news that came anxiously made Greco even more restless.

"Lord Bishop, this is the third time the city guards have asked for our help. If we don't respond soon, I'm worried... He was worried that those people would rush in."

“There’s still your...” The attitude of the nobles also changed. They changed their tone and started to pressure us, asking us to immediately send reinforcements out of the city.

Bastard!

A bunch of vermin who only know how to act according to the wind!

On the surface, Fire Law City had three major forces: the Fire God Cult, the nobles, and the City Guard Knights. Originally, the nobles were not willing to divide their forces within the city and interfere with the matters outside the city. However, public opinion and the people’s hearts were currently fermenting. Even the nobles had to pretend to express their stance. The other two forces were already on opposing sides, so Greco had no choice but to compromise.

However, compromise was compromise, but they still had to do some small tricks in private. Otherwise, even if their Fire God Cult went out of the city to provide reinforcements this time, they would not have much reputation. “JoJosep!” Greco coldly called over a deacon who was sitting below. He was holding a walking stick and had a cast on his lower body.

“You told me before that you know the Spell Caster in the sky outside the city?”

“Yes! Yes, I... I’ll never forget her face in my life! “Joseph stared at the little girl’s face in the projection. He gritted his teeth and trembled in fear.

“She... Her name was Vivian, and she came from a small village near the Northern Forest. She was the one who had brought the Fire God Token of Lady Eugenia to Fire Code City for help.

“Wait! You said she had the Vulcan Token? “Greco keenly grasped what he thought was the key point.

“Yes...”

“Haha, so you’re family! Who said that our Fire God Cult would not help? Didn’t we already send our new bishop to save the situation?”

“New... New Bishop?? Deacon Joseph was dumbfounded on the spot.

But Greco didn't have the time to care about him.

The bishop turned hostile as quickly as flipping a book. Greco laughed loudly and slapped his leg. He stood up from his chair and waved his hand to give an order.

“Everyone, follow me out of the city and help Bishop Vivian defeat the monster!

‘ No, no, no, no. Wait a minute, Lord Greco. That Vivian only had Lord Eugenia's Fire God Token. She didn't...”

Joseph, JoJosip finally reacted. He thought Greco misunderstood his words and wanted to explain himself.

But...

“I don't care if she had it before, but this girl is now the fourth bishop of our Fire God Sect.

“You... Do you understand?

Greco interrupted and coldly glanced at the little deacon whose lower body was almost crippled.

His words seemed to be directed at Joseph, but he was actually speaking to the other deacons of the Fire God Cult who were also confused.

From this, one could see the gap between Greco and the others, and why he could become a bishop.

What was originally a dead game was revived by him.

As long as he could forcefully link Vivian to the Fire God Cult, not only would he not have to worry about being accused for pretending to be dead in the beginning, but he would also be able to take Vivian's credit and turn it into the credit and reputation of the entire Fire God Cult.

The price was just another nominal bishop without any real power. Moreover, with the strength that Vivian had shown, she was more than enough to be a bishop of the Fire God Sect.

As for Vivian's disagreement and unwillingness to cooperate?

Greco did not even think about it. What a joke. A magic genius from the countryside. No matter how talented she was, she was still from the countryside. She was poor and had no status or background. Greco could not think of any reason for Vivian to refuse the title of the Fire God Cult's bishop. After all, it was something that many people dreamed of and coveted.

This was not...

"Lord Greco, you...You have no right to do this! This is against the rules! Besides, how could a country bumpkin like Vivian... How can you!"

Joseph shouted in a somewhat insane manner.

Not only was his lower body almost crippled by Vivian, he already had a grudge against the little girl. Now that he saw her rise to the top in a single step and land in the position that he had dreamed of, how could Deacon Joseph not go crazy?

Foolish people had to pay the price for their foolishness.

What answered Deacon Joseph was the flames that rose under his feet.

"Ah... Help! No, no, no. No! Aaaaaah..."

Screams sounded in the meeting hall of the Fire God Sect, and a burnt smell spread.

In just a few breaths, Joseph's body, which had turned into charcoal, fell at

Greco's feet.

"Does anyone have any objections?"

"No... No!" All the deacons below immediately responded in unison.

"Very good."

Greco nodded in satisfaction. The current situation of Archbishop Maggie was unknown, and the other two bishops were not around. He alone had the right to speak in the Fire God Church..

Chapter 133: The Descent of the Oracle, Xue Li 's Arrival! 2

"Then let's set off immediately and go out of the city to support Bishop

Vivian!"

"Yes!"

The mages of the Fire God Sect filed out of the meeting hall and began to appear outside the city through the backup Teleportation Formation. Bishop Greco was there as well.

However, when he arrived at the battlefield outside the city, the bishop immediately frowned.

He didn't know if it was his imagination, but the strange disease that could corrode magic power in his body seemed to have suddenly worsened.

What made Greco even more terrified was that he had a vague feeling that the strange disease in his body seemed to be somewhat similar to the ugly and rotten monsters in front of him.

If he allowed the strange illness to worsen, he would also become like these monsters.

No, absolutely impossible!

Greco quickly suppressed this terrifying thought in his heart. This was also the reason why he had been unwilling to help before.

Magic power was the only way to fight against this strange disease, and going out of the city to help meant that magic power would be consumed, causing the disease to worsen.

However, since the situation was dire, Bishop Greco could only endure the pain and quietly take out a bottle of potion.

This was a special suppressive medicine made from amethyst grass. Although it was extremely expensive, the key was that there was no market for it. Therefore, even a bishop like him felt a little pained, but the effect was also very obvious.

Greco only dared to go into battle himself when he felt that the disease in his body had temporarily suppressed the corrosion of his mana.

As a 3rd rank mage, he could also fly up and float directly to Vivian's side.

"Miss Vivian, on behalf of Fire Code City and the entire Fire God Cult, I offer you my sincerest respect! Thank you for helping us buy time to prepare during the crisis and saving the lives of tens of thousands of people outside the city!"

"Now, our Fire God Church has been reorganized, and almost all of us have been mobilized. I've already prepared a lounge for you in the Fire God Church.

Leave Lile resL LO 111€”.

“In addition, you’ve already done well enough. I believe that your teacher, Eugenia, who gave you the Fire God Token back then, will definitely be proud of your performance! You’ve already proven to us, to everyone, that you’re qualified to become the fourth bishop of the Fire God Cult!

Greco’s words were flawless.

First, he affirmed Vivian’s performance, then he expressed the Fire God Sect’s cooperative attitude, and finally, he cleverly brought out the words of wooing.

He was sure that Vivian would not have the energy to argue with him about his relationship with Eugenia. He could also see the fatigue on the little girl’s face. It had taken a lot of energy to maintain the halo, let alone maintain several.

“Alright... Then, after that, I’ll leave everyone outside the city to you. I, I’ll go and rest for a while...”
Vivian nodded weakly.

Greco was completely right. He had even greatly underestimated the purity of this little girl’s heart. He did not use the few sets of excuses he had prepared beforehand.

That was because the other party had never thought that their actions were to cut in line halfway and force them to share their reputation. Or rather, the other party did not care about such a huge reputation at all.

Vivian only showed a relieved expression on her face.

It was as if they were genuinely happy that the refugees under the city were completely saved.

At this moment.

On the other side.

In Count Sisre's study.

"Bastard! What a bunch of shameless bastards! "When the Earl's daughter, Miss Liz, saw this scene in the magic projection, she stomped her feet in anger.

She did not know what Bishop Grayko and Vivian were talking about.

However, seeing that the little girl was about to step down and hand over the situation that was clearly reversed by her own strength to Greco, Liz was simply going crazy with anger.

"Stupid, stupid! Is that why I hate these commoners? They're all brainless! This is clearly your credit. Why should you let those cowardly turtles come over to snatch the credit when the situation has improved?"

Liz flew into a rage.

The young lady had completely brought herself into Vivian's world. That was why she was so angry after seeing the little girl's performance and Greco's cunning.

"Father, is there no other way?? "Liz looked at Count Sisre with a pleading gaze.

However, the earl merely shook his head.

He could tell that it was because he sympathized with Vivian's experience or something else.

In short, the earl was in the same bad mood, and his expression was a little ugly. However, the earl still perked up and responded to his daughter's words.

‘ Bishop Greco has made a good move. I guess he will definitely rope Vivian into the Fire God Cult and announce it to the public. Whether Vivian accepts it or not, the reputation and credit will definitely be recognized by everyone. ’

‘ However, think about it. This is not necessarily a bad thing for Vivian. At least she will be able to get rid of her civilian status and rely on the Fire God Church. Liz, I think this should be a win-win situation. ’

“But... But...” After hearing the count’s words, although she knew that her father was right, Liz still felt unfair and angry for Vivian..

Chapter 134: The Descent of the Oracle, Xue Li l s Arrival!—3

Because Vivian could have gotten more from it.

At this moment, the butler Robert also said to the Earl’s daughter,”

‘ Miss, you can’t get everything at once. You can’t always want everything. You have to lose something to gain something. Besides, I don’t think Miss Vivian is dissatisfied. Even if the Fire God Sect wants to share the credit, they did spend a lot to support the refugees outside the city and save their lives. I think this is what Miss Vivian wants to see.

As soon as Robert finished speaking, a burst of laughter suddenly came from the count’s mouth.

“Haha, well said, well said.

Count Sisre seemed to have suddenly swept away his previous gloominess, and his expression immediately improved. It was so good that it was a little excessive, and he began to glow.

“It was all taught by the Earl.” Butler Robert bowed slightly to the earl’s compliment.

He thought that the earl was laughing because of his analysis.

Little did he know.

Count Sisre's true gaze was fixed on the portal.

If...

If his senses were correct, and the restless fanaticism in his body was correct.

That aura...That was...Of course!

Count Sisre's breathing quickened.

Then, under his fervent gaze, although the image was blurry, it was still a breathtakingly beautiful, snow-white, bare foot. Then, a slender leg that seemed to be covered in a layer of demonic black gauze stepped out of the portal first.

That's right! That's right!

That was...

Even though only a small part of his body was exposed, Count Caesar's mouth was already dry. His entire body was filled with blood, and he wished he could kneel down at that foot.

Because...

That was...

Their oracle had personally descended!!!

After Cher walked out of the portal, she felt a chill down her spine.

For the first time, a human-shaped female figure with half a wing on her back and two huge black claws on her hands appeared before the eyes of all the people of Fire Code City.

“Hmm?” Greco, who had just finished talking to Vivian and asked the little girl to leave, naturally noticed the abnormality in the direction of the portal.

When the Fire God Cult’s bishop saw Xue Li’s figure, not only did he not frown, but his eyes were filled with excitement.

He was worried about how to compete with Vivian for fame.

After all, the little girl’s contribution was obvious to all. It was simply too great. As the dignified Fire God Cult’s bishop, he could not lose to her, right?

Then he had to do something big that would attract attention!

“Humph! It seemed that the mastermind behind this monster tide could not help but show himself!

“I want to see what kind of person he is, to have the guts to attack our Fire code City! ”

Before Vivian could even stop him, Bishop Greco rushed towards Shirley eagerly.

As long as he could single-handedly defeat the leader of the enemy’s disaster, he would surpass Vivian’s contribution and become the true hero of Fire Law City!

Countless reputation points, countless contributions.

He might even take the opportunity to take over when Archbishop Maggie was about to abdicate and become the only archbishop at the top of the Fire God Sect’s pyramid!

It was as if Greco's brain had been filled with desire the moment Shirley appeared. He didn't even realize that the strange disease that was suppressed by the Amethyst Grass potion had broken through the seal and spread to his entire body, including his brain.

How could he display his strength?

The easiest way was to defeat the person everyone thought was the strongest.

The script that Liao Zixuan designed for Vivian was like this.

As for Xue Li, even though she had just transformed, she was smart enough to learn how to imitate.

He looked at Greco, who was easily flying towards him as if he was courting death under his bewitchment.

The number of Fire God Cult's Bishops could be counted on the palm of one hand in Fire Code City. They were extremely rare Tier 3 Elemental Great Mages.

Shirley...

She used her delicate tongue to lick her rosy lips..

Chapter 135: That Monster Was Not A Monster That Humans Could Fight Against!_I

"It's her..."

"She's here, she's here.."

Amidst the crowd, a middle-aged city guard with disheveled hair and a face full of dejection and defeat looked up at Cher's figure in the sky above the teleportation gate. He seemed to have been provoked and recalled some terrifying shadow.

He fell to the ground with a thud after taking a few steps back. He covered his head with his hands and trembled.

Coincidentally, a passing thief had just arrived outside the city through a secret passage.

"What are you doing? Hurry up and stand up!" Chris saw that this person seemed to be scared out of his wits. He knew at a glance that he was a recruit. He immediately became anxious and wanted to pull him up.

Although the situation was good with the support of the Fire God Sect's mages and Vivian's halo support magic, they were still on the battlefield and could not slack off at all.

However, Chris's pull was not a big deal. Instead, it gave him a big fright.

"You..."

"You're not that person!" Chris got closer and saw the man's face clearly. He immediately shivered and almost turned around to run.

The commander of the Fire Code Knights was a legendary figure of the Flame Domain, the strongest Knight Warrior Captain, and also the person they feared the most in the city guards.

Harvey.

However, the other party's dispirited and passive appearance was not similar to the rumors at all.

"Ha... Harvey! You're Sir Harvey, right? Why don't you go to the front to command, you... What are you doing here?"

Chris sounded angry.

Because even he had mustered up the courage to do so, even though he was relying on the help of a certain young girl..

However, Chris had already overcome his fear and was ready to fight the monster to the death. He would use his own hands to save his brothers.

However, the commander who was clearly more important than me, had so many soldiers under him, and had a great influence on the battle situation, had run away and retreated from the back?

"It's useless...Everything was in vain, then... Then..."

Harvey used a bitter tone at first, but when he finished speaking, it was as if all the humiliation and unwillingness in his heart had exploded. He angrily hammered the ground with his hands.

"That kind of monster is not something that we humans can fight against!" Chris was even more confused by Harvey's furious roar.

What did he mean by that monster? Was Harvey referring to the humanoid female figure that had just come out of the portal in the sky?

Chris looked at Shirley in the distance. At this moment, Greco had also arrived in front of Shirley.

He wore a gorgeous robe, an exquisite coat of arms, and the scepter and crown that symbolized the position of bishop.

"Look!" Chris patted Harvey's shoulder excitedly.

"It's the archbishop of the Fire God Sect! That's a Tier 3 Great Mage, second only to Transcendents! We're completely saved this time!"

This was definitely something that was worth inspiring.

Many surprised voices similar to Chris 'rang out from all around. Because the Fire God Church's bishop uniform was too easy to recognize, everyone recognized Greco.

It sounded ridiculous and ironic, but that was the truth. No matter how much Vivian had done before, it was not as effective as Greco's appearance.

This was the result of accumulating prestige.

The Fire God Cult had long been deeply rooted in the hearts of the people of Fire Code City. It was the faith of the vast majority of people in Fire God. As a bishop, he was synonymous with power and perfection in the hearts of the people and even the nobles.

Greco enjoyed the cheers of the refugees and the city guards below.

It was as if all of this had given him strength and made his confidence swell even more. It was as if he was really the omnipotent Fire God's spokesperson, and any evil and demonic things were not worth mentioning in front of him. "Monster! No matter what your purpose is, but... It ends here!"

Greco even used magic to amplify his voice several times so that everyone on the battlefield could hear his righteous and dignified words.

"I, Greco, swear to protect the Fire Code City, swear to protect the people of the Fire Domain, swear to protect the glory of the Fire God!" Today, I will expel you, evil heretics, from Fire Law City..."

"I don't want to leave a mark!"

The lines that were filled with justice and glory made Chris, who was below, feel passionate. His entire body seemed to be boiling with blood.

Other things aside, Greco was definitely an expert in controlling people's hearts and creating his own image.

With his words, many people even temporarily ignored the fact that the Fire God Cult and Greco had only arrived after fighting for so long.

Of course, Greco didn't say so much just to show off.

To be able to become a bishop, he naturally had some ability and combat experience. He secretly played tricks, wanting to use words to attract the monster's attention while secretly releasing magic.

Mages were most afraid of being interrupted when casting.

However, once the mage finished preparing the spell..

' Great Fire God, please gather the sharpness of the world here and cast it with fire...' He chanted the incantation in his heart.

Greco's face immediately revealed a smug smile.

A spiraling flame rose from his hand and turned into a sharp outline of a few meters long at an extremely fast speed.

"Flame Code..."

"Flame Spear Technique!" Greco shouted the last spell..

Chapter 136: That Monster Was Not A Monster That Humans Could Fight Against!_2

In an instant, the Flame Spear formed by the scorching flames under his hand finally took shape. With the support of the Bishop's Scepter, its power was much stronger than the ordinary Flame Spear. The spear body expanded to a terrifying length of more than ten meters.

"Repent in the flames, monster!"

Greco pointed his scepter forward, and the tip of the Flame Spear flashed like a roaring fire dragon, smashing towards Cher.

The rolling heat wave instantly hit him.

The Flame Spear seemed to be able to pierce through the air, and in the blink of an eye, Xue Li had no chance to dodge.

Just like that...

Boom!

Chris, all the refugees outside the city, and the residents in the city who were watching the scene with magic projections.

They had been holding their breaths and were extremely nervous when Greco and Shirley were facing each other. However, when they saw the Flame Spear successfully engulf Shirley, they all heaved a sigh of relief, followed by joy.

"Look! Look!" Chris patted Harvey's shoulder excitedly.

"We succeeded! We have succeeded, we are truly worthy of being Bishop mages!"

But Harvey still didn't say anything. He just stared at Shirley, who was engulfed in flames.

Count Sisre did the same.

Soon after, Harvey revealed a soulless expression as if he had expected this, while the corners of Count Sisre's mouth could not help but curl up, and the infatuation in his eyes became even stronger.

"Showing off in front of an expert."

"In terms of using fire, you and that lord are really not just a little bit inferior. "A cold female voice filled with contempt rang out in everyone's hearts.

She had even endured the dark flames of the wolf cubs, and some of them even resided in her body. It could be said that Xue Li's resistance to these ordinary flames had reached a point where she was almost immune.

From the beginning to the end, Greco's every move was already under Shirley's control, including his secret preparation of magic.

The reason why he didn't stop them.

It was because the process of hunting could not be limited to the final kill.

There was also the struggle of the prey before its death.

Xue Li calmly walked out from the flames caused by the Flame Spear.

Her entire body was still as good as new. She did not look injured at all.

"No, no, no. Impossible! How, how could there be someone who could take a direct hit from the Flame Spear and still be unharmed?" Greco was shocked.

The instinctive fear finally woke him up from Xue Li's bewitchment.

Greco began to think about the first question that he should be thinking about.

What was the other party's strength

Was he confident that he could win and charge forward?

Something was wrong?

When did he become so reckless?

When Greco saw Shirley's mesmerizing dark green eyes, it was literally mesmerizing. With just one look, Greco felt that the rationality that he had painstakingly regained was about to collapse.

In an instant, Greco felt as if he had fallen into an ice cellar. His entire body trembled. He completely understood that the monster opposite him was controlling him. He...Everything about him had been played in the palm of the other party's hand!

What kind of terrifying ability was this?

From the very beginning, he was like a small bug that had fallen into a spider web. He was still unaware that he had followed the threads and crawled step by step to the front of the Spider Emperor.

Run...

Run!

Escaping to Fire Code City!

A monster! That was not a monster that humans could fight against!

Greco's heart was exactly the same as Harvey's. The only difference was that Harvey had the death-exemption token given by the wolf cubs, but Greco didn't.

Could a bug that was stuck to a spider web fly out?

The answer was, of course.

It was impossible.

Greco no longer cared about his image, nor did he care about the oath he had sworn to protect. He turned around and flew towards Fire Code City.

It could even be said that he was still playing tricks up until now.

Greco deliberately flew in Vivian's direction, trying to use Vivian as a shield to provide time for him to escape.

Almost...

Just a little more!

The Fire Code City was right in front of him, and the majestic Fire God Statue was right in front of him. As long as he could run back to the city and reach the Fire God Statue, no matter how terrifying the monster was, Greco didn't believe that it could break through the protection of the Fire God.

This was indeed the truth.

If Greco really ran back, Cher would be helpless against him. After all, the Fire God statue was no joke. It contained the will of the Fire God that had not been corrupted.

But...

What if? Unfortunately, there were no ifs in this world.

“Come back.” Shirley didn’t even bother to move. She just lightly ordered Greco.

Then, Greco’s body came to a sudden stop in the air. With a terrified expression on his face, he turned around stiffly like a marionette and returned to Shirley.

Greco found that he could no longer control his body.

It was as if he was just a soul imprisoned in a physical body. He could do nothing but watch as the distance between him and the monster and Cher continued to shrink.

It was... It was that strange disease!

That strange disease that was about to spread throughout the entire Flame Region was actually...It actually came from here!

Greco really understood.

He became the first person to discover this earth-shattering secret.

All the people of the Fire Field who had contracted that strange disease, which was the poison of the Abyss Fire, could be taken over by this monster at any time if it wanted to!

Puppets...

The entire Flame Domain would become their puppet!!

Greco's mouth was wide open. He tried his best to speak and tell the secret, but he could not do anything.

"Now, I'll give you a chance. If you cast the spell you cast on me just now, I can let you join the Fallen Abyss, join us, or even..."

"I'll bestow upon you greater power, the supreme power of the Fallen Abyss." Cher licked her lips and pointed.

Everyone could see that Xue Li was pointing at the countless refugees who had yet to recover from the sudden turn of events.

Just as Xue Li finished speaking, a second later...

"No, no, no. No, this isn't true!"

"H-how could he!" Chris's eyes widened, his voice trembling with a hint of betrayal.

Because Greco didn't hesitate.

The bishop of the Fire God Cult, who had been temporarily given control of his body by Cher, the person who was trusted by the people of Fire Law City, summoned a huge Flame Spear that was exactly the same as before. This time, the sharp tip of the Flame Spear was no longer pointed at Cher, but at the refugees and city guards who had cheered for him outside the city.

You don't understand.

You don't understand at all!

There's no hope for us, the Flame Domain is hopeless. It's Fire God who abandoned us, don't blame me...Don't blame me, blame the Fire God!

Greco's heart hardened. When he threw this shot and saw his Flame Spear wrapped in endless flames that were about to devour a large number of refugees, he felt a little relaxed and a little happy.

It's all your fault. If it wasn't for saving you rotten people, he wouldn't have fallen to such a state. Go to hell! Go to hell!

Greco's eyes flashed with a vengeful madness.

Chris and the others, who were within the range of the Flame Lance, were filled with despair and grief. He had never expected that he would not die at the hands of the monster, but to die under the spell of his own people.

However, at this moment.

A delicate voice rang out, waking everyone up.

"You...Bastard!"

A skinny figure that had been forgotten because of Greco's appearance flashed over and stood between the refugees and the Flame Spear.

With the little girl's delicate body as the center, a huge blue cover suddenly exploded, a magic barrier.

Boom!

The Flame Lance, which was considered an extremely powerful offensive spell among Tier 2 spells, collided with the most basic defensive spell of a mage.

Chris instinctively closed his eyes.

However, he did not feel the burning sensation he had imagined.

When the escapees and the city guards looked up again, they realized that the Flame Spear from before was nowhere to be seen. What was left was still that clear blue barrier.

And...

The figure of the young girl who had saved them once again, just like in the

beginning..

Chapter 137: Every Part of My Body Belong to Lord Hei

[What are you doing! Vivian!]

[Why don't you listen to my words!]

Everyone could only see the little girl's strong and straight figure, but they could not hear the anxious voice of the other Vivian in Vivian's mind.

[Hurry! While the monster's attention was still on the Fire God Sect, retreat quickly!]

This was the first time Vivian had heard the other her voice being so flustered.

Of course, this was also the first time the little girl chose to remain silent towards her other self.

[Vivian!]

The second personality panicked.

[That monster is not something you can deal with now!]

[Didn't you see how the Fire God Cult's bishop looked like?!?]

[Escape... Let's retreat. No matter what, let's, let's return to the Fire Code City first and then think of a way, okay...]

At the end of his sentence, the second personality's initial anger turned into a pleading tone.

Meanwhile, on the other side.

The situation was the complete opposite.

"You!" Greco looked at Vivian, who had completely blocked the Flame Spear spell that he had just used with all his might. The Fire God Hierarch was both angry and afraid.

He was angry that Vivian had ruined his image in front of Shirley, a powerful mage among humans, at least in Fire Code City.

Similarly, he was afraid that the monster, Shirley, would fall for Vivian and choose to abandon him.

After all, in Greco's opinion, since Shirley was willing to let him join the force called Fallen Abyss, she would naturally extend an olive branch to Vivian.

When he thought of this, Grecko immediately erupted with an unprecedented hostility towards the little girl, even more so than before.

However, just as he was about to attack the little girl, Xue Li's voice rang out.

“It’s done.”

“Since you’ve already completed your request, then come over and accept the power bestowed upon you by the Fallen Abyss.

Greco was interrupted by a commanding voice.

Of course, Shirley would not let Greco attack Vivian at this critical moment and consume Vivian’s power. The reason was simple.

Not worthy.

At some point in time, many tall and ferocious monsters appeared behind Cher.

These were the Elite monsters that had been left behind in Red Flame Town.

They had been infected by the Elite monsters, and they were of a higher level.

The aura that they emitted, no, let alone the aura, was not on the same level as the first batch of monsters. The comparison between the two was like a wolf and a giant elephant.

Seeing this scene, everyone in Fire Code City finally understood that the monster horde that they had fought with all their might was only the vanguard of the enemy.

Greco looked at the monsters infected by the Fallen Abyss behind Shirley. Although their appearances had become ugly, their strength had increased by leaps and bounds. Compared to the original monsters in his impression, they were worlds apart.

This was...Was this the power of Fallen Abyss?

Even a monster without intelligence could become so powerful.

If he also possessed such power, wouldn't that mean... Wouldn't he be able to touch what he had always dreamed of...Tier 4 Transcendent?

"I... Thank you, sir!" Therefore, Greco was overjoyed after hearing that the other party was willing to give him the power of Fallen Abyss. He did not care about Vivian at all.

In order to make Xue Li happy, he even changed the name from the Fire God Sect.

"Fallen Abyss above, praise Fallen Abyss!"

This scene made Cher very interested. She felt that humans were really interesting. For a moment, Cher couldn't help but feel a little playful, or rather, a little mischievous.

This was Cher's original personality, but with the increase in her intelligence every time she grew up, and with the addition of Fallen Abyss, it became more and more obvious.

Therefore, before Greco died, Shirley wanted to see where his offline was.

Thus, Xue Li changed her tone.

"However, if you want to accept our power, you have to be like them.

Like them?

At first, Greco was stunned. He didn't understand what Cher meant. He thought Cher was referring to the ugly appearance under the influence of Fallen Abyss.

Regarding this, Greco gritted his teeth and could endure it. Using her appearance to exchange for power was definitely a profitable deal. Moreover, Shirley's appearance gave Greco a lot of confidence. After all, Shirley was also on the Fallen Abyss 'side. However, Greco could not see anything related to "ugliness" from her.

From this, it could be seen that as long as he reached a certain height, his appearance would definitely return.

However, Chers next action caused Greco, who was about to receive the power, to freeze.

The other party retracted his wings and descended from the sky.

Then, the elite Fallen Abyss monsters behind her immediately swarmed over. In a few breaths, they either knelt down or knelt down, using their bodies to provide seats for Xue Li.

“They walk on all fours.” Shirley’s voice was like a heavy hammer, hitting Greco’s heart.

so...

so that monster, she, she wanted me to crawl...crawl in front of her!

He wanted to crush the last bit of his face and dignity!

“No, no, no. No, don’t!” This wasn’t Greco’s voice, but Chris’s. It was also the shouts of the people of Fire Code City.

Once again, everyone experienced the evilness of that monster, Cher. If Greco really did that, he would be completely defeated, shattering the hearts of all the people of Fire Code City.

But with a thud, Chris knew that they were done for.

“Ge...Lord Greco...” Many Fire God Cult Mages who were still fighting the Fallen Abyss monsters on the battlefield had ashen faces and lost their will to fight.

This was because Greco had really given up on being a human and turned into a monster. He crawled towards Shirley, who was sitting high up in the air.

It could even be said that his speed became faster and faster, and he became more and more familiar with it. In the end, Xue Li didn't even have any requests, but he was obsessed with becoming Xue Li's stepping stone. As he got closer to Xue Li's naked feet, it was as if they were the most beautiful thing in the world, and he couldn't help but kiss and kneel down.

It was broken, completely broken.

This was the terror of Fallen Abyss.

Count Sisre was also on the verge of breaking down. In his study, he looked at the magic projection and watched as it was about to touch Shirley's skin. This was a supreme honor, and he should be the one doing it! The person under Xue Li's feet should be him!

Count Sisre's breathing became heavier. His mouth was dry, and his eyes were red. Under the immense anger and jealousy, he was about to lose his mind. He rushed to the oracle's side without caring about anything else.

Fortunately, however.

"Disgusting." A cold voice filled with extreme disgust rang in Greco's ears.

When Greco crawled over to her feet, Shirley's evil interest disappeared, replaced by a strong sense of nausea.

Hence, the Fallen Abyss energy in Greco's body was detonated by Xue Li.

In an instant, Greco's entire body swelled up like a tumor, and then the ground shook violently. A giant Rotten Rat King the size of a small hill broke out of the ground and bit Bishop Greco, who had turned into a meatball, into two halves and swallowed them all.

Although Cher was a monster, she felt that when a monster of another race was willing to kneel and lick another monster, it was a common sign of submission.

However, for some reason, perhaps because she had transformed into a human, Xue Li still felt a strong sense of disgust. She didn't want anyone to touch her skin, even if it was just for a moment. Because every part of his body was reserved for Lord Hei.

The entire process happened in a flash.

By the time everyone reacted, there was only the sound of the Rotten Rat King chewing on its flesh.

No one would have thought that the three archbishops of the Fire God Sect would die in such a way.

"I said it before...There was no hope. That monster...Monster..."

Harvey's last bit of hope was crushed. He wanted to turn around and flee to Fire Code City.

However, Chris pulled the commander back.

His eyes were fixed on that person. Everyone else had lost their will like Harvey, but that figure was the only one who remained the same and did not turn around to escape.

"No, I can't! We still have... Also..." Chris really wanted to give Vivian the same treatment as Greco. Just revealing his identity would be enough to inspire people.

However, he was so anxious that he could not say anything for a long time.

Because Vivian was really just Vivian, a nameless mage with no reputation, no honor, and no one knew.

On the other side.

Xue Li, who had just collected her emotions, looked at the little girl floating in the air opposite her. Xue Li had mixed feelings again. Her heart was rarely seen. Other than facing Lord Black, she also began to beat nervously.

Vivian... My lord.

This person was like a huge mountain between her and Lord Black. He was her biggest and most threatening competitor.

At this moment, she could finally confront Vivian head-on for the first time.

Even if he was bound to lose this time.

In all sorts of ways.

However, Xue Li still cherished this opportunity and was extremely focused..

Chapter 138: Vivian VS Shirley

Very quickly.

“Oh?” A surprised voice sounded.

It gave off a feeling that even this monster was surprised. It had to be said that this might be Cher’s natural talent in acting.

“Human, you...”

Unfortunately, before Shirley could finish her sentence, a huge fireball that was more than ten meters tall appeared under Vivian's hand and flew straight at her.

"Haven't you learned your lesson? The fire is for me, not for me. Eh?" Shirley still wanted to do what she did to Greco, standing still and letting the fireball hit her.

Speaking of which, why was it a Tier 1 Fireball Spell and not the Tier 2 Flame Spear Spell, which was more aggressive?

As a result, Vivian's fireball landed on her body. Shirley regretted her contempt and even paused when she spoke.

At first, the flames outside the fireball could not hurt Shirley at all. But then, to Shirley's surprise, Vivian hid another kind of flame inside the fireball!

It was a black flame.

Dark Flame!

It wasn't until the dark flames burned her body, and the pain of needles swept through her body that Shirley realized that Vivian chose Fireball instead of Flame Spear because she wanted to use the model of Fireball to wrap the real killing move.

If it were not for the fact that the dark flame power that the wolf cubs had given her was still in Shirley's body, she would have been seriously injured by

Vivian.

"Heh... Hehehe..."

"Not bad, human, you are not bad. At least, you are much stronger than that trash. "Xue Li was not stingy with her praise.

Firstly, this was her job, and secondly, this was indeed the truth.

She had deliberately left the wounds that had been burned by the dark flames unhealed, leaving them for everyone to see.

As for the effect, it was obvious.

“Look! Vivian, she, she hurt the monster! “Chris excitedly patted Harvey’s shoulder.

The refugees and the city guards were the same.

” The monster is injured?!”

“She... Who is this girl?”

“Bishop Greco once said that her name is Vivian, the new bishop of our Fire God Sect! “At this moment, some Fire God Cult mages responded and immediately shouted in the crowd.

If there was one thing that Greco had done that could be considered meritorious, it would be to forcefully label Vivian as a Bishop of the Nation.

“So... So it’s the new bishop of the Fire God Sect!” The news was quickly spreading in the crowd.

“That male mage from before must have been an imposter. She is our real bishop! “In fact, the further the rumors spread, the more they began to be fabricated in the places that people hoped for.

“So that’s the case. I knew it. I knew it. Why would the Bishop of our Fire Code City side with a monster? To do something that insulted the Fire God!

‘ Bishop Vivian!’ Soon, someone started shouting because they were desperate to see a glimmer of light in the darkness.

It was as if the morale of the entire Fire Code City was going to rise again because of Vivian’s attack.

Shirley seemed to be in chatty mode again, wanting to interact with Vivian,

There was no other way.

Such an opportunity was too rare.

Shirley really wanted to talk to Vivian more. This was not considered smuggling. After all, Lord Black used to say that villains died from talking too much.

She was supposed to play the role of a defeated villain, so it was appropriate for her to say more, right?

“They seem to see you as their hope.

“But you should know how big the gap between us is.

“What do you think, Wei...Vivian?” Shirley pretended to know the girl’s name from the cheers of the crowd below and cherished the opportunity to call Vivian by her name.

Unfortunately, the little girl had no intention of talking to her.

Seeing that Vivian was about to start preparing her magic again, Shirley sighed in her heart and stopped holding back.

“Since they see you as their hope, I want to see if you can protect them. ”

“Yes.” Cher pointed her finger, and the Rotten Rat King that had devoured Bishop Greco earlier, after receiving the order, its huge figure instantly flashed.

The Tier 3 Fallen Abyss Creature that Shirley had transformed into, a terrifying monster below the Transcendent level, did not attack Vivian. Instead, it aimed at the refugees.

This forced Vivian to change her original offensive magic and instead turned to a defensive magic barrier.

“If you continue to use the flames from before to attack me, you might still have a chance of winning.

“But if you choose to do this now...”

Shirley looked down at the Rotten Rat King’s huge body, which was several floors tall, and crazily crashed into Vivian’s magic barrier again and again.

Tier 3 strength, coupled with the strengthening of the Fallen Abyss, and the fact that he had just devoured Bishop Greco, made the blue barrier tremble. Every time it was hit by the Rat King, its color dimmed a little.

Vivian herself was not even level 20. She had only relied on extreme attribute points to increase her magic attribute to close to level 30, but it was only at the level of pseudo-tier 3.

“Continue to protect this group of people who have nothing to do with you.” “You will have no chance of winning...” Shirley was interrupted again.

But this time, it was the real voice of Vivian.

“They...”

“They’re not...What unrelated people!” Vivian’s body trembled slightly in the air. It was obvious that she was overloaded.

However, the girl still shouted out desperately, as if this was very important to her.

However, Xue Li frowned.

Just when she thought Vivian would say something else, like how Greco had said before, something noble, Shirley realized that she was wrong.

“They... They are both me and Xiao Hei...”

“It’s our common... The result of hard work! As for Xiao Hei, Xiao Hei is still protecting this result for me...” Vivian looked up, her eyes filled with anger and stubbornness.

Liao Zixuan took advantage of the little girl’s kindness to become Vivian’s motivation to improve. Although he said that he wanted to raise the girl into a witch, he was actually carefully guarding Vivian’s kindness.

At first, he agreed to the little girl’s plan to split up. One went to report, the other went to gather the refugees around the village, and then went to Red Flame Town to use the players to resist the Fallen Abyss. In the end, he chose to go deep into the Fallen Abyss ‘nest alone to buy time for the teleportation gate to retreat.

The delicate little girl would have noticed all this. Therefore, even Liao Zixuan had guessed the reason why Vivian had chosen to protect everyone and fight against Shirley.

What Vivian relied on was no longer just the kindness in her heart. The little girl still wanted to protect the wolf cub and her experiences, her memories, and her efforts.

“So, I, I won’t...”

“I won’t allow you.... Deny everything we’ve done!”

Chapter 139: Embrace Your Power (1)

In the mental space, the second personality looked at Vivian, who was still fighting for the beauty in her heart despite her dying self.

She was no longer angry at Vivian for not listening to her advice, angry at Vivian for being stubborn, and anxious for Vivian.

On the contrary, there was no turning back now. The second personality looked at Vivian and the other her with a somewhat infatuated expression.

It was like an elder sister looking at her younger sister. It was also like looking at her past self and her present self. She recalled everything that she had experienced with Vivian since she was born.

It seemed that the little girl had never changed.

Even when she was very young, she overheard that her father preferred sons over daughters and felt that having a girl was unnecessary. However, after her mother passed away, she still relied on her, the extra girl, to support the entire family.

Even though she knew that her father would definitely side with her younger brother and that all the family property would be given to her younger brother in the future, she still chose to take the risk and go deep into the forest when her younger brother was seriously ill to collect herbs to treat his illness. She even voluntarily agreed to sell herself into the city in exchange for a large sum of money to maintain her life in the future.

No matter when, the little girl was always using her own methods to protect everything she cherished.

[What an incurable...Idiot] the second personality muttered to himself.

Just half a minute ago, she was so anxious that she wanted to persuade Vivian to run away, but the only thing Vivian said to her still echoed in her ears.

“My other self, can I ask you for a favor?”

“If... If I really can't make it, can I ask you to help me cancel the summoning contract with Little Black?”

“And... I'm sorry.”

“I let you accompany me and be willful together...”

Thump!

The violent shaking in the mental space Dulled the second personality back to the cruel reality.

The enemy would not be as moved as she was.

On the contrary, the reason why the commotion had spread to the spiritual space was that Shirley had personally taken action after Vivian's words.

Shirley admitted that she was a little jealous now.

Jealous of this human girl.

He envied Vivian for being able to have experiences and memories with Lord Black that he did not have. He envied Vivian for having the opportunity to protect and defend everything at this moment.

Even though she was controlling herself, Cher, who had absorbed the core of the Fallen Abyss and had become extraordinary, was far from what Vivian could withstand even if she only used half of her power.

Shua!

Shirley's single wing spread out and she shot out from the ground. She floated in front of the magic barrier that Vivian had released. Then, she raised her right hand, and the black claw weapon formed by the Fallen Abyss appeared automatically. Shirley slapped the blue shield with her claw.

Dong!

The Mana Barrier, which had been able to withstand the Tier 3 Rotten Rat King's attack, began to crack under Shirley's claw.

Ka...

Kacha kacha...

Countless tiny cracks began to spread out from where Xue Li was, and they grew larger and larger.

Vivian tried her best to urge the magic power in her body to repair it, but it was still far from keeping up with the speed of Shirley's destruction.

In the end, every time she struck out, a portion of the force would be reflected on the little girl's body.

"Come back..Come back, Vivian!" Liz looked at the tottering Vivian in the projection, her voice sobbing.

"Teacher! Teacher! Why are you still not awake at this time, Fire Code City... Everyone... Vivian needs you!

You are our guardian, Teacher Maggie. Please wake up!!

Damir shouted at his teacher, who was like a marionette.

“Vivian, my friend... Friends... But, but! Aunt Alice said that I can’t, can’t...”

Little Phoenix clenched her fists tightly as she mingled with the anxious but helpless players.

She had wanted to reveal her true form several times on impulse. She looked in the direction of the Fire God Tower, which had no movement. Recalling Maggie’s exhortations to her and her sensitive identity, the little phoenix finally lowered her head, not daring to look at the girl who was about to die in the air.

It was also because of this that the confusion in Xinyan’s heart intensified. As a forbidden demon, what was the meaning of her existence?

Finally.

The last sound was like glass being smashed by a hammer.

Vivian, who had reached her limit, could not hold on any longer.

Even the little girl’s magic power that supported her floating in the air was completely drained.

Her entire body was like a small stone that had been thrown from the sky, falling rapidly.

“It’s over.”

Vivian’s body was in excruciating pain. This was the result of magic overload. She felt that she did not even have the strength to lift an arm. She let the sense of weightlessness envelop her. The whistling wind in her ears reminded her that she was getting closer and closer to the ground.

From the beginning to the end, Vivian did not let the second personality take over the body because the little girl knew that in the face of the huge difference in strength, even the other her was useless. It was better for her to bear the pain. After all, it was her own choice.

Therefore, even though she was about to be smashed into meat paste, Vivian did not regret it.

Mm...

To be honest, there was still a little bit of regret. However, it was not regret but regret.

She really wanted to...

She really wanted to hug Little Black again..

Vivian recalled her first encounter with the wolf cubs. At that time, she had foolishly thought that Blackie was a wild monster and ran away, causing Blackie to chase her far away. She recalled the first time Blackie licked her, the sticky and itchy feeling. She recalled the first time she hugged Blackie to sleep, the warm and peaceful feeling. She recalled the first time she communicated with Blackie telepathically, the surprise and joy.

The little girl really wanted to smile happily, but unfortunately, she did not even have the strength to smile. Instead, there were a few more tears at the corner of her eyes.

'Why...'

Why aren't you by my side!!

At the last moment before she fell from the sky, Vivian could no longer pretend to be herself. All the grievances, unwillingness, and pain in her heart burst out and turned into cries in her heart.

And it was at this moment.

When the second personality was about to abide by the agreement and silently cancel the summoning contract between her and the wolf cubs.

Time seemed to freeze.

“Idiot.”

“I’ve always been here. It’s just that you didn’t notice.”

Vivian, who was already in a daze, did not know if it was her illusion or some kind of last gasp, but she seemed to hear Blackie’s voice again.

” Vivian, have you thought about it? Once you accept this power, your life from now on...I can’t go back to the past.” “You really..Are you ready?”

He wasn’t ready.

But if this was the price to pay for being with Little Black, then she...

He was willing to spend his entire life preparing!

In a trance, Vivian seemed to see Little Black reaching out its claws to her.

However, when she wanted to hold the wolf cub, Vivian found that she did not have the strength at all. Every cell in her body seemed to be competing with her and stopping her.

Fortunately, Vivian was never alone.

“The other one...I...”

In an instant, a faint black girl shadow that was exactly the same as Vivian appeared behind the little girl.

She placed her hand on the back of Vivian's hand and put her fingers together. The two of them worked together and finally, the hands of the girls and the claws of the wolf cubs came into contact.

And the side corresponding to Liao Zixuan was...

After he poured in enough experience points for Vivian to reach level 30, Vivian's game panel showed countless streams of data.

But in the end, as expected, Vivian successfully withstood the sudden surge in her body. It could be said that her body had undergone earth-shattering changes.

Then, the next step was...

"Go, Vivian, hug...Your power.."

Chapter 140: Embrace Your Power (Part 2)

The feeling of weightlessness from falling from a high altitude was still present.

The whistling wind did not stop.

The only difference is that it's the same.

His shriveled body seemed to welcome a heavy downpour, and his exhausted mana kept emerging all over his body like bamboo shoots after a rain. All the injuries from the previous battle disappeared like phantoms, replaced by power that could not be suppressed and wanted to surge out.

Vivian's lips began to move.

"The great Fire God is above..."

"Please allow me to temporarily borrow your authority..

"Let the flames attach themselves to me..."

It was a familiar spell.

That was the strongest skill of the Vulcan lineage in the mortal stage, which she had stolen from the other party's body when she was fighting with Bishop

Eugene and Niya.

Zi...

Buzz...

At first, it was the same as the gentle voice of the little girl in the first half. At first, a faint black flame appeared from Vivian's toes and fingertips.

Following that, the young lady's voice changed, turning into the kind of arrogant and furious voice that seemed to have endured for a long time, incomparably irritable, and wanted to trample everything.

"Prosthetic equipment!"

The moment the words " Body Equipment " came out of her mouth, the small black flames started to spread throughout the girl's body like wildfire.

Whoosh!

Wherever the black flames passed, Vivian was dyed black.

Black boots, black dress, black hair...

There was also that symbolic...

Next to the girl's hand was a huge black scythe that was several meters long, forged from flames.

No one could react to the little girl's change.

Vivian's falling body was no longer straight down, but a slight arc. In the next blink of an eye, she flipped agilely.

Stomp!

The black boots stepped on the middle of the city wall of Fire Code City, and with this leverage, not only did it slow down the falling trend and straighten her body, but Vivian also used this as a new point of strength. Her strong and slender calves suddenly exerted strength.

He only heard...

Kacha!

The part of the city wall that was stepped on by the little girl immediately cracked like a spider web. One had to know that the city wall of Fire Code City was made of one of the strongest stones in the entire Yan Region.

Under such a huge force, Vivian's body was sent flying like a cannonball.

On the other side.

Squeak squeak...

Squeak!

After Shirley broke Vivian's magic barrier and saw that the blue cover that had been preventing it from devouring the flesh of living creatures had finally disappeared, the Rotten Rat King let out a bloodthirsty and manic ear-piercing cry.

Just as it was about to use its fat and huge body to pounce on the group of terrified and panicked refugees who were as small as ants in its eyes.

The Rotten Rat King instinctively shivered.

Just as it was about to raise its head and shift its attention away from the refugees who were its food, it used its narrow eyes to look for the source of its sense of crisis.

The Rotten Rat King suddenly felt an itch on its neck.

Then, its head, which was supposed to be raised, seemed to have lost its connection. It no longer had the chance to go any higher, and its vision turned upside down.

The Rotten Rat King's head fell to the ground. The last thing it saw was the refugees looking up in shock.

It also wanted to see what had happened, but unfortunately, it did not have the chance.

However, the Fallen Abyss monsters were terrifyingly tenacious. Even so, the Rotten Rat King was still using its remaining strength to ask their queen for help and send a pleading signal to Shirley.

Indeed, as long as Xue Li wanted to, she could easily use the power of the Fallen Abyss to reattach the Rat King's head. After all, the Fallen Abyss creatures had long surpassed the scope of traditional life forms. However, Cher was not in the mood to deal with a tool mouse.

Or perhaps it was better to say.

This Rotten Rat King had already fulfilled its pitiful destiny.

Xue Li looked at the young girl who was confronting her once again.

Instant kill.

It was an instant kill without any suspense.

The entire process happened in the blink of an eye. A majestic Rotten Rat King that had been strengthened by the Fallen Abyss and was almost at the Transcendent level did not even have the ability to resist. The girl opposite her used the black sickle in her hand to separate its head from its body.

When he came back to his senses.

Only the remaining flames of the black sickle and black dress followed the path of Vivian's explosion and turned into a straight line in the air.

The Rotten Rat King's body that had turned into a lump on the ground, and the girl holding the giant scythe in the air proved that what had just happened was not an illusion.

What exactly...

How did he do it?

In Xue Li's mind, the ending that she had imagined would be when Lord Black would appear. Then, she would be able to use this opportunity to fight with Lord Black and eventually lose to him, ending this performance.

However, what Cher did not expect was that Vivian, who should have been beaten up by her, suddenly seemed to have been resurrected and her strength soared. The aura that the little girl emitted at this moment even made Cher feel the same pressure as when she faced Lord Black.

so...

This was...

Was this the real Lady Vivian?

Shirley didn't know that Liao Zixuan still felt a little sorry for Vivian. He had wanted to use the Witch's Seed that Bella had left behind when the little girl's emotions exploded. However, he found that it still didn't meet the requirements.

Therefore, Vivian was still at level 30 under the [Summoner] class. Even if she was still a normal class, she was able to display the strength of a Tier 3 when she was only a dozen levels. Now that Vivian had leaped to Tier 3 and was still adding extreme points, the power that the little girl had now...

"Next..."

"It's your turn."

The second personality, Vivian, evaporated the blood of the Rat King on the black scythe in her hand with flames. Then, she pointed the scythe at Shirley's neck.

It was a light laugh that seemed to have gotten rid of all her worries.

"Is that so?" If the previous Xue Li was just not going easy, then the current Xue Li was serious.

Her body began to heat up, and an unprecedented fighting spirit began to surge in her body.

The countless Fallen Abyss monsters on the ground roared towards the sky as if they were responding to their queen. Then, one after another, just like Greco, the Fallen Abyss power in their bodies was detonated by Shirley.

The little flesh and blood that was left turned into soup and flowed away. The remaining bones were magically pieced together by pairs of pitch-black hands and reassembled at an extremely fast speed...Bone Dragon!

Roar!

The Fallen Abyss Bone Dragon, which was previously the final BOSS, was pieced together by Shirley and roared at the sky.

He stepped on the bone dragon, and the bone wings on his back covered the sky.

Shirley stared at Vivian.

“Then...Come on.”

The refugees outside the city were dumbfounded. The residents of Fire Code City were even more dumbfounded. The players who were watching were dumbfounded. Liao Zixuan, who was on the other side of Red Flame Town’s Teleportation Gate, was even more dumbfounded.

The wolf cub looked left and right.

On one side was the girl with the black sickle, who had just leveled up with full health and was under the control of the second personality.

On one side was the Bone Dragon summoned by Fallen Abyss Queen Xue Li, who had countless Fallen Abyss monsters below the city as her claws and teeth. Moreover, judging from Xue Li's posture, she seemed to be very smelly.

The little wolf cub scratched its head with its cute paws.

Could it be that the two of them were so angry that they were really going to fight??

Hiss...

When he thought of Vivian and Shirley, who were both on fire, if the two women really fought...

The little wolf cub suddenly shivered.

I'm not a spy.

Had he gone overboard?

No way! If they really hit each other and became enemies, what would happen if they met again in the future? There was still something to say...

Where was Fire God?

Fire God, come and save me!
