Chapter 301: Xue Li I s Caring Little Cotton-padded jacket (2)

After the unicorn said that, its hind hooves dug into the ground. The colorful sparrow spread its wings, the gray crocodile raised its tail, and the giant ape, who had returned with a dusty face after being kicked, also pounded its chest with both hands.

All of Xue Li's demonic subordinates had a strong desire to fight, as if they were determined to follow Xue Li and fight the humans.

Although they knew that humans were very strong, and under normal circumstances, the more powerful the monsters were, the more they would avoid humans. They were afraid of being hunted down, let alone fighting for territory with humans. However, with Cher here, the power that this woman possessed gave them incomparable confidence, and they threw their fear of humans to the back of their minds.

However, at this moment of high morale, no one expected that the leader of the demons, Cher, would shake her head under their fervent gazes.

No, it seems like you've misunderstood, I never said that we're moving, and I never said that it's our new territory. The reason why I asked you to do so much is to save them a lot of trouble when these humans arrive, so that they can settle down quickly.

Wha... What?

The four monsters were all stunned by Cher's words. They looked at each other.

What did the boss mean?

Could it be...To use such a method to show goodwill to the humans?

The demons immediately thought of this possibility. Although they did not say it on the surface, their eyes actually revealed some negative emotions. There was dissatisfaction, disappointment, and discomfort...

Humph.

Xue Li's cold snort on the stone platform woke the demons up.

"I'm not asking you to do this for the sake of mankind."

"Then sister Xue Li, you just said..." White-horned couldn't help but speak first.

"It's for my master."

Xue Li interrupted White Horn's words. Her words were clear without any hesitation, as if she didn't care if her words would affect her image in her subordinate's heart.

As expected.

The expressions of the four demonic beasts under the stone platform were even more shocking than when they heard that Xue Li was going to give her territory to humans.

"Master... Master?"

"Sister Xue Li's...Master?" White Horn repeated in disbelief.

However, what he got was a nod from Cher. Then, as if being reminded by White Horn, Cher added to her subordinates seriously,

“Yes, but my master doesn’t seem to like me calling him that, so you guys can do the same as me and call him ‘Lord Black’.”

Black... Lord Hei?

This was the first time that the subordinates had seen their boss reveal such a proud expression when he said those words to Shirley.

It was as if it was a great honor to have a master like “Dark Lord”.

After a series of blows.

The only thing that could make the four demons feel a little gratified was...

“I know what you’re worried about.”

“But don’t worry, Lord Black is just like us, a demon, but his bloodline and

power are far from what we can compare to.”

“The large group of humans that Cai Que has detected is the work of Lord

Black. You can understand that they are all Lord Black’s subordinates.”

The moment Xue Li explained, the four monsters were shocked again. They really couldn’t be blamed. The amount of information that Xue Li had given them today was simply too much.

Demons, take...Taking in humans as subordinates?

What kind of concept was this?

It was simply unprecedented! It was beyond imagination.

In an instant, with just a few words from Xue Li, they hadn't even seen Liao Zixuan's face, but in the hearts of the four simple-minded monsters, they already had an unimaginable respect and admiration for this "Lord Black".

This time, all of a sudden, from the distance, a bird flew, landed next to the colorful sparrow, a twittering sound seemed to be reporting something.

Cai Que nodded and quickly reported to Xue Li.

[Boss, something has happened. A large number of wild monsters are rapidly approaching the human migration team. According to the description of the spawns I left behind, they also have the desire to get close because of the extremely tempting aura emitted from the human team!

What was going on?

The remaining three demons looked at each other after Cai Que spoke.

Although they were not weak and had intelligence, this was the result of the

Heart of God's stimulation. In reality, they still had very little knowledge.

However, Xue Li was different.

After all, he had a good master.

Although she didn't know what the reason was, or what the smell that attracted the monsters was, Shirley could infer the reason from the results.

For a human team, it was definitely not a good thing to be targeted by a large number of monsters in the wild. On the contrary, it was a disaster.

Hence, the conclusion was obvious.

Someone is causing trouble for Lord Hei!

Moreover...

Or do you want to borrow their hands?

Xue Li's eyes narrowed, her gaze cold like a sharp blade.

Shua!

The surrounding temperature seemed to drop by several degrees. The four demonic creatures below the stone platform trembled even more violently because the woman on the stone platform was emitting the same terrifying fluctuations as when they had just encountered each other.

Let's put it this way.

Originally, the Starfire Forest God Splitting Lake was rich in God's Heart energy, and the number of high-level demons that could be produced was far more than just four..

Chapter 302: Xue Li 's Caring Little Cotton-padded jacket (3)

But why were there only four of them left on such a vast land that contained incomparably precious resources?

The answer was simple.

Those who were disobedient and dared to resist had already been turned into bones and rotten meat by this woman on the stone platform.

“Where’s Lord Black? Do you have any plans for this?” Xue Li stood up from her stone chair. She didn’t act immediately but asked Cai Que.

Logically speaking, this little trick should not have been able to fool Lord Black. Lord Black should have discovered it long ago.

However, Cai Que shook her head.

Although it didn’t know what Lord Black looked like, it didn’t see any powerful monsters from the report of the little bird.

Is that so...

Xue Li pondered for a moment, but soon, her eyes lit up and a faint smile appeared on her face.

Because she felt that she understood what Lord Black meant!

The reason why Lord Black didn’t make a move was definitely on purpose. Under this premise, Xue Li naturally thought that Lord Black wanted to use this opportunity to catch a bigger fish and find the mastermind behind the scenes.

The reason why Lord Black was so confident in “fishing” was definitely because Lord Black knew and believed that he had already ruled all the monsters in the vicinity, so he was not afraid that his human team would be surrounded by the monsters.

After all, Xue Li’s monsters were Lord Black’s monsters, so they were all his own.

What kind of trust was this!

Xue Li smiled.

Even though this was a different species, the gray crocodile and the unicorn were stunned by this scene. They wished they could imprint it in their minds.

But it came and went quickly.

Business was more important.

She couldn't betray Lord Hei's trust. She had to cooperate quickly!

As for how to cooperate...

A certain wolf cub lying comfortably in Alina's fragrant arms suddenly sneezed.

The wolf cub rubbed its nose with its paws in a very human-like manner.

What is a sneeze? Mm... Which sister misses me again? It can't be Liz, right?

Just as the wolf pup was thinking about this happily in its heart.

In vain.

As if it had just sensed something, the little wolf cub suddenly stood up from Elena's arms and jumped to the ground.

Wait, something was wrong.

After sniffing the air a few times with his nose.

The wolf cub finally understood why it sneezed.

It seemed that no one was missing him.

Instead, there seemed to be a faint aura in the air...A faint stench!

However, the smell was too faint. If it had not been fermented for a while, the wolf cubs would not have noticed it. Liao Zixuan hurriedly checked his status bar.

There was nothing.

Then, he flipped through the historical records.

Only then did he find the source.

[Your summoned beast, Little Black, has been attracted by the “Fragrance of Devil’s Saliva (Intermediate)”. After authentication, it is exempted from this attraction state.]

What made the wolf cubs curse in their hearts was not that someone had actually used the fragrance of demon saliva in the team.

It was just that he could use it, but he had to use such a low-level inferior product. In the end, it was still attractive to a taboo demon like him. If it wasn’t for the stench, he probably wouldn’t have noticed it.

Scolding in the street is the same as cursing in the street

The little wolf cub became a little more serious. The "serious" here referred to jumping down from the little maid's arms. The reason was that there were four of them that were relatively strong, at least... Hmm, the monster's aura that was probably around level 30 was rapidly approaching the team.

The wolf cub's judgment was correct.

In just a few minutes, there was a commotion among the refugees, and the crowd began to cry out in fear.

There was no other reason.

A sparrow, an ape, a horse, and a crocodile.

Four monsters that could be described as "giant beasts".

From the north, south, east, west, and north directions, it was just right to trap the refugees inside and surround them!

Chapter 303: It's Just Master's Mission

"Du...Is the medicine that Master Du Lin gave us so...so powerful?"

A few young men who were disguised as refugees were among the rioting group. Like the other refugees around them, they stared at the four giant beasts that surrounded them with their mouths agape.

It wasn't that there was nothing else besides these four, but that the other demons were not worth mentioning compared to these four.

"Don't, don't panic. As long as we follow that little girl closely, we'll definitely be fine."

“Alright, alright...Alright..’

Even the mastermind behind the scenes was frightened by the demons, let alone the remaining ordinary refugees.

Fortunately, the demons had surrounded the entire long line of refugees, leaving them with nowhere to run. Otherwise, this scare alone would have scattered the tens of thousands of people.

Weng!

An invisible halo was activated from the center of the group. Wherever the halo spread, the panicked refugees gradually calmed down.

The Aura of Concentration was Vivian’s move.

Stabilizing the team was only the first step. The little girl looked at the four giant beasts with a serious gaze, then whispered to the wolf cubs beside her, “Xiao Hei, are you confident?”

“I’ll take care of the four big ones. I’ll leave the rest to you. “Liao Zixuan quickly replied.

The wolf cub twisted its neck and stretched its limbs. Its eyes were eager to try.

It had been a long time since it had used its true body to move around. Liao Zixuan used to love watching movies about giant beasts, especially the fighting between giant beasts.

Now, since there was such a good opportunity that came knocking on his door.

The wolf cub’s body began to expand rapidly. Even as a growing Dark Flame

Wolf, its maximum size was already comparable to the Bone Dragon that had transformed into the Fallen Abyss. That was a huge black wolf that was several stories tall when it was on all fours.

But of course, this was meaningless.

Therefore, as his flesh and blood expanded, his bones expanded, and the huge heat generated in his body evaporated the moisture in the surrounding air into white fog. After the fog passed, Liao Zixuan used the gorilla that was almost as tall as a building as a model to control his body size to be about the same level as the other party.

Come on!

It was a physical battle between demons!

The black wolf leaped into the air and charged at the gorilla first. As for the gorilla, it seemed to have been stimulated by Liao Zixuan's battle intent. It pounded its chest with both hands and charged forward fearlessly.

The running of the two giant beasts caused the ground to tremble. Many smaller demons and refugees could not even stand steadily.

Very soon, the two sides came into contact with each other.

The black wolf was obviously faster and attacked first.

Liao Zixuan pounced on the gorilla with the sharp claws of his forelimbs, but the gorilla's response was actually very smart. It knew that it had lost the advantage of first move, so it immediately turned to defense and stopped charging.

It stood on the spot, its feet on the ground, and used its hands to meet the black wolf's claws.

ohhh!!!

Only the players were still in the mood to cheer. When they were surrounded by the monsters, they were quite excited and rubbed their fists. However, after waiting for a long time, the small monsters did not rush over.

It was obviously very unusual, but the players instantly understood it. They took it for granted and treated it as a cinematic of the plot. As everyone knew, the boss fought, and the younger brother stopped. Therefore, one by one, they opened the recording function in the game.

Such an exciting scene of a giant beast was no less than a small movie.

Unfortunately...

Originally, the players had expected Vivian's black wolf to wrestle with the giant ape. Their muscles were bloodshot, and their claws met the giant ape's hands to see who could push the other down. In the end.

Perhaps not even two seconds had passed.

The giant gorilla stumbled back a few steps, then fell to the ground with a thud.

No...There was no sound.

What the hell?

The players were all dumbfounded, and a single word popped out in their minds.

Just this?

It wasn't just the players. Liao Zixuan felt the same as well.

He swore.

He really did not have any strength left. It had nothing to do with him being a

forbidden monster. It was the other party..How ridiculous!

He did not give her too much time to think.

As if the fall of the giant ape was a signal, another demonic creature with extremely beautiful colors, a colorful bird, flapped its wings and soared into the sky. It was even afraid that others would not know about it, so it deliberately let out a loud cry.

After the sparrow circled in the air once, it seemed to have finished accumulating power. It instantly retracted its wings, and then its entire body was like an arrow as it swooped down at the black wolf on the ground at high speed.

Good timing!

Liao Zixuan's interest, which had been weakened by the giant ape, was stimulated again at this moment. He was full of fighting spirit. The black wolf got into a defensive posture and stared at the other party.

The speed of the sparrow was extremely fast. In the blink of an eye, it arrived on the ground from the high altitude. With a huge diving force, it plunged headfirst into...On the ground in front of Black Wolf.

Boom!

The strong impact stirred up a large amount of dust, causing the players who were waiting to watch the cinematic to curse. They could not see anything. After the dust finally cleared, the anxious players finally saw it clearly.

The black wolf was unharmed. It even gave people the feeling that it did not move at all.

On the other hand, the bird that had been full of vigor earlier was now like a dead fish stranded on the beach. It lay on the ground not far from the black wolf and was silent..

Chapter 304: It's Just Master's Mission (2)

No...There was no sound.

What happened?

Where was the cinematic? What happened to the monster movie? You're showing us this?

The players were depressed.

Liao Zixuan was even more depressed. What did he mean? Was she playing a fake match with him? Liao Zixuan felt like he was being played, and it was still the kind of extremely clumsy acting.

As expected.

It was a classic Calabash Brothers saving their grandpa. After the sparrow " fell , it was the next dragon crocodile's turn.

It opened its jaws, and a stream of high-pressure water appeared. However, in reality, Liao Zixuan also opened his mouth symbolically and spat out an ordinary fireball to fight back. The water was countered by the reverse attribute.

The dragon crocodile waited for a long time after its first attack, but the black wolf didn't attack it again. It had no choice, so the dragon crocodile turned its limbs around and its belly faced up. It seemed to have suffered a strong backlash and was silent.

At this point, Liao Zixuan was completely sure that not only the four giant beasts, but also the other demons that had been brought here to surround the refugees, but had not attacked under the attraction of the demon saliva fragrance. There was a big problem.

Liao Zixuan had completely lost interest, but the last remaining demon, the white unicorn, was anxious.

She used her beautiful and smooth hooves to stomp on the ground a few times, but the black wolf opposite her just glared at her.

It seemed as if he was saying, "Act, continue acting. I won't even touch you this time. I'll see how you fall to the ground again."

This made the unicorns extremely anxious because they would not be able to complete Sister Shirley's mission. They had to be defeated by this black wolf.

Although she was helpless, this was not a problem for the smart her.

White Horn cast a spell. In an instant, dark clouds gathered above the unicorn. Then, a lightning bolt as thick as a bucket struck down from the dark clouds, its target...It was itself.

Pa! Pa!

After hitting itself with its own lightning magic, the unicorn let out a symbolic scream and finally fell down like its other three teammates without a sound.

Alright.

You're ruthless.

The ordinary refugees did not think too much about it. They only knew that Vivian's black wolf had protected them, or that it was one against four, breathing fire and summoning lightning, and was unharmed.

Immediately, a large number of cheers rang out from the ranks. Many refugees even knelt down. He worshiped the giant black wolf as if it was a totem protector.

This included Vivian's father, Anlu, because he felt as if every monster's eyes were floating on him, almost scaring him to death. He urgently needed a sense of security.

Chris and his gang were not as exaggerated, but they were more respectful to Vivian, the summoner of the black wolf.

Little Seven sneaked to Chris's side and patted him on the shoulder.

"Boss, why don't we...Forget it. Big Sister is too fierce. Boss, you probably won't be able to catch up to her in this lifetime. It's not shabby to eat a soft meal." "Get lost!" Chris kicked Little Seven angrily.

But in reality, he was sighing in his heart. He clenched his fists on both sides and then released them.

There were also a few other people in the team who were in a bad mood.

"This... Was it fake? Is it over just like that?" The spies that Count Du Lin had planted in the refugees were all dumbfounded.

"Too strong. I thought that little girl was powerful enough, but I didn't expect her monster to be even more powerful than her! Not only could it breathe fire, but it could also summon lightning!

"What do we do now?"

"What else can we do? Hurry up and report the news to Master Du Lin, sigh..

Just as the spies were about to take out their magic communication tokens, they did not expect...

“Sorry, but can I take a look at the things in your a young girl’s voice sounded in their ears.

The spies were shocked. When they turned around and saw that it was Vivian, their faces instantly turned pale.

At first, they wanted to argue because they knew Vivian’s character. She was hesitant and kind-hearted. They might be able to fool her.

However, after the heart-to-heart talk with Liz last night, Vivian was actually trying to change. If it was before, she might have waited for these spies to quibble, but now.

Uncle Thorin, sorry to trouble you.”

“Hmph, leave this bunch of scum to me, guards!”

Looking at the people being escorted into the prison carriage, the maid Elina could not help but ask the little girl beside her curiously.

“Vivian, you...” How did you find them?”

“Because Xiao Hei told me that a large number of monsters would suddenly appear. Someone in our team used some kind of drug that could attract monsters, so I was thinking, if they did this, what would they do? They would definitely run to the safest place, and in the entire team, the safest place should be here, right?”

So, I used my magic power to probe the area. I happened to discover that these people had magical communication fluctuations on them. In addition, although they were dressed like the other refugees, it was easy to distinguish them if one paid a little attention. ”

Vivian carefully explained her thoughts to Elena. The little maid was still confused at first, but then her eyes became brighter and brighter.

Chapter 305: It’s Just Master’s Mission

“Wow! Vivian, you’re so smart!”

“Elena, yes, yes... There’s no possibility that you’re too stupid?”

“Ah! I was just joking! Actually, I can only think of it because someone reminded me! I definitely can’t do it alone.” Vivian hurriedly explained.

[Humph!]

A tsundere snort came from the spiritual space.

He had thought that this would be the end.

However, who would have thought that there was an even bigger follow-up waiting.

The four “fallen” monsters, after seeing that the atmosphere was about right, exchanged glances with each other and all jumped up.

This almost made the refugees who were still alive from the disaster freeze their smiles again. Fortunately, their goal this time was very clear. It was as if they had been beaten into submission, so it was very logical for them to be willing to be underlings. The four demons ran in front of the black wolf in unison, their heads facing the ground, indicating their submission. After that, she revealed the true reason why Xue Li had sent them here.

In short, it could be summarized in four words.

Transportation.

Under the command of the four Lord-tier monsters, the small monsters that had surrounded the refugees were about the size of a carriage compared to them. They were also preparing to perform the function of a carriage.

In the beginning, the refugees were all villagers and townspeople, and they were very afraid of the monsters that approached them. It was not until Vivian kept explaining using sound amplification magic, and Thorin, who was almost crazy with joy, took the lead to publicize and educate the refugees.

It took almost an hour for the refugees to truly relax. Not only did they put all the luggage that had seriously affected the speed of migration on the monsters.

The refugees dared to climb onto the backs of the monsters themselves and used them as a means of transportation. The players had played a leading role in this. When they learned that they could even climb onto the four giant monsters, they were all excited.

The most popular among them were naturally birds. Even Vivian and the wolf cubs chose to take this "flight".

Next was the gorilla. Sitting on the shoulder of the gorilla, it was like a moving hill.

By the way, only the unicorn was special. Only certain players were allowed to ride it. One of the reasons was that it had to be a female player, but it was not enough. It seemed that a certain condition had to be met before it was allowed to ride on the unicorn, which attracted a lot of complaints from the players.

In short, with the help of the army of demons, the original plan was to take more than a day to reach the ruins of Red Flame Town. However, it took less than half a day for the refugees to successfully arrive.

What was even more unbelievable was that Thorin, the former mayor, kept rubbing his eyes. He had thought that the land of Red Flame Town was almost completely destroyed, probably in a mess.

However, who would have thought that the ruins of the buildings they had imagined were gone? The rubble of the meteorites was gone. The ground of the pits was gone.

It was as if a piece of land had been cleaned up in advance. It was clean and good quality, just waiting for the “construction team” to come.

“This... What is this...

Thorin turned to Vivian, who turned to the wolf cubs. The wolf cubs...

Eh?

Where were the wolf cubs?

Could it be that she was so touched that she couldn't wait to meet a certain female wolf as soon as she landed?

Chapter 306: Boss, you understand me! 1

God Splitting Lake.

There was a corner of the vast lake that was considered a forbidden area by the creatures in the lake. Even the overlord gray crocodile did not dare to approach it at all. It was specially divided into separate territories.

To be able to receive such treatment, one did not need to ask to know who it was.

The gurgling sound of the water echoed in the quiet forbidden area by the lake. The woman in the lake, who had half her body exposed, gently used her hand to brush the sparkling surface of the lake in front of her. The ripples immediately scattered further into the lake with the woman as the center.

She scooped up some of the lake water. From the outside, it looked like a flowing, colorful, and magical lake water. After it left the surface of the lake, it seemed to have lost its color and returned to clarity.

The woman held the lake water in her palm and wiped it on her body. Her originally smooth jade-like skin looked even more fragile under the clear lake water, moist and shiny.

As the woman moved, her long, snow-white hair that hung down to the surface of the lake also moved. It was like a horsetail whisk that swept across the lake and was slowly soaked, gradually becoming wet.

The same, the undulation, the ups and downs, the arrogant curves, the lines on the lake, the looming, the two halves of the hemisphere, the even more, become an extremely attractive sight, the beautiful scenery line.

Such an elegant scene that was pleasing to the eye was ruthlessly broken by a certain black wolf that did not understand amorous feelings.

What would you do if a half-covered woman in the lake took a bath in front of you?

The wolf cub's answer was:

A fireball flew over.

Ah, it's just playing. This is how we, the Dark Flame Wolves, greet each other.

Whoosh!

A fireball the size of a washbasin tore through the air and shot toward the woman in the lake with a whistling sound.

Although it seemed to be quite loud, Liao Zixuan did it on purpose. After all, he wasn't really going to sneak an attack. It was fun, fun.

Therefore, the fireball was not very fast. With the woman's ability, she had enough time to react.

Xue Li even had the time to sigh with a helpless expression.

Sigh...

She took nearly an hour to wash up.

If it was Xue Li's usual cleaning speed, it might not even take ten minutes.

Her efforts were not effective, and Xue Li felt a little emotional.

She did not dodge the incoming fireball. Instead, she raised her arm from the lake and a black hole appeared in the void, sucking the fireball in.

In the next second, an identical void black hole appeared above the head of a wolf cub hiding in the forest next door. It returned the fireball that it had swallowed to its original owner.

Boom!

A rather loud explosion sounded, and the forest was in chaos. Birds and beasts fled, and gray smoke rose.

Alright, it wasn't exactly the same. Looking at the way the fireball exploded, its power had increased by at least three to four times.

Taking advantage of this opportunity, Xue Li didn't stay put.

A black mark flashed across her red eyes, which had only recently turned red after she had received the gift from the Fire God Alice. The moment the black mark appeared, an evil aura that could be considered an old friend immediately spread out as if it had been unsealed.

Xue Li's body changed, and the sound of water splashing could be heard from the lake behind her. A pair of black wings that were even more voluptuous and stronger than when the Fallen Abyss descended spread out from Xue Li's back.

Furthermore, Liao Zixuan, who had run out of the forest in a sorry state, also noticed that on the other side of Xue Li's originally empty wing, there was something new. It was a pitch-black sharp bone finger.

His body floated upwards until he reached the tip of his feet, which allowed him to step on the surface of the lake.

The black velvet ring on his ankle finally showed its effect. It immediately attracted the attention of a certain wolf cub, making it unable to look away.

The new clothes were displayed.

Next was...

He looked at the wolf cub who was eager to give it a try, and his eyes were filled with fighting spirit instead of affection. It was as if he wanted to make up for the disappointing battle earlier, or rather, he wanted to test how much her strength had improved after being refined by the Fire God.

All in all, Shirley sighed again.

If that's the case

"Lord Hei, then Xue Li will have to offend you.

After a soft apology.

The violent round began.

Shirley first... Then, how could the little wolf cub be...Still... However, Xue Li seemed to have expected this and immediately...Then...

However, the wolf cub followed suit. In the end, Xue Li was the first to fall from exhaustion, declaring the end of the battle.

Mm, applause, what an exciting battle!

He fast-forwarded to the scene where Cher fell from the sky as if she had lost all her strength. She was successfully intercepted by a certain someone in mid-air and held in his arms.

He leaned against his thick and broad chest.

Xue Li raised her head and looked at the well-defined face of the man who was protecting her in his arms.

“Lord Black, Xue Li has...Become stronger?”

“Of course!”

“I can tell that you’ve become more proficient in using the power of Fallen Abyss, and you’ve gained quite a few new skills. Most importantly, I can feel that although you still emit an evil aura when you use Fallen Abyss, the feeling you give me is different from the original you.

“How should I put it, hmm... It was as if there was only the outer shell of evil, but the true interior had been hollowed out and replaced with your own will.

Liao Zixuan spoke to the woman in his arms with confidence and gave a very serious and professional analysis...Well, he actually cheated by relying on the game interface, translating the information on it into words that Shirley could understand..

Chapter 307: Boss, you understand me! _2

After concluding, Liao Zixuan smacked his lips and sighed.

“Tsk, it seems that the God of Fire is really something. He didn’t lie to us. When there’s a chance next time, we have to think of a way to tease Alice again.”

After Liao Zixuan muttered to himself, he realized why the woman in his arms was silent.

When he looked down, Liao Zixuan’s heart skipped a beat because he realized that Xue Li was frowning at him and pouting slightly. When he looked over, he immediately looked away.

Err...

“Of course! Our Xue Li’s own hard work is also important, much more important than the gift from that old woman Fire God! “Liao Zixuan quickly said.

This was the value of two hundred romance novels, completely different from those slow-witted male leads!

As expected.

The password was correct!

rhvvo small dimples suddenly appeared on Xue Li’s cheeks. She no longer frowned and pouted. Instead, she used her small hand to draw something on Liao Zixuan’s chest.

“Lord Black, don’t always speak ill of Lord Fire God. Be careful of being punished by the heavens.”Xue Li mumbled.

“Hmph, that old woman...”

Just as Liao Zixuan was about to speak, he inadvertently glanced at the sky. He didn't know if it was a psychological effect or something else, but the originally clear sky suddenly had a few burning clouds.

How should I put it, just... It was very strange.

"Cough, indeed. Lady Alice is beautiful, kind, intellectual, and intelligent. She is the protector of all living things in our Flame Region. Such a good goddess who understands her people must be extremely broad-minded. She will definitely not be calculative with a small fry like me..."

"Lord Black is not a small figure..." Xue Li retorted softly.

After a while.

Liao Zixuan asked about the serious matter. Although he already had an answer in his heart, he still wanted to confirm it. To him, it might be just a question, but to others, it was a recognition of hard work.

"Xue Li, you were the one who sent those monsters, right? And the situation in

Red Flame Town, it was also your doing, right?"

'Yes...'

The woman in his embrace nodded lightly. Although Xue Li didn't say much, it wasn't hard to see that a sense of happiness was still radiating from her.

Most people who worked behind the scenes would more or less hope that their contributions and achievements would be discovered, especially by people they regarded as important.

Liao Zixuan had read a lot of novels. The female protagonist was diligently helping the male protagonist behind the scenes, but the male protagonist was a blockhead who could not find out no matter what. That was really worrying him to death.

I don't want to be like this!

Hiss... Wait a minute, doesn't this sound a little familiar?

Oh no, I've become the female lead?

"Cough, in any case, it's really a big help to Xue Li. I really didn't expect you to

be so capable. It's only been a few days, and you've already tamed all the monsters in God Splitting Lake and Starfire Forest."

"Where's Lord Black? Was the plan in the human Fire Code City going smoothly? Did you encounter anything in the past few days..."

Xue Li was about to say the word 'trouble'.

But suddenly.

She sniffed with her small nose.

Wolves belonged to the canine family, and their sense of smell was recognized as the most sensitive.

"Lord Hei..." Xue Li's faint voice rang out.

"Hmm?"

“Did you hug someone else? It should be... Just last night, it was something that could make Lord Hei hug it in his arms, and this smell...This person must be an important person. So, can you let Cher meet him?”

Question: What should I do when my wife finds out that you have another woman’s perfume on you?

“Hey, Xue Li, speaking of which, what are the names of your four demonic subordinates? I see that not only are they strong, but they also seem to have high intelligence! ”

“Thanks to the power of the God’s Heart, the demons in this area have a high level of spirituality. Those four are the best of the best. Shirley isn’t like the noble girls of the human race who have good education. Shirley isn’t very cultured, so she doesn’t know how to name them.

Liao Zixuan’s mouth twitched.

If he was acting dumb, then he was acting.

And from Cher’s explanation, he found something strange.

“How can there be no culture! I just think that the name you gave me is quite nice! However, why was it that the other three were all of different colors and races, but that black gorilla? Why didn’t you call it a black gorilla?”

After Liao Zixuan’s curious question, Xue Li paused, as if she didn’t expect Liao Zixuan to notice this small detail. She pursed her lips, as if a little embarrassed, and replied in a low voice like a mosquito, “Because... Shirley doesn’t want others to use the word ‘black...”

Err...

Critical Hit!

Liao Zixuan began to regret his actions. Why did he have to be curious about that?

This was great.

This question was too difficult. Even if he had two hundred romance novels, he still didn't know how to answer it.

However, it was a good thing.

Just as the atmosphere at the scene was developing into an increasingly ambiguous situation, if this continued, it would be really difficult to explain if something did not happen between the two of them.

Ka...

It sounded like a heavy weight.

Just as Cher was preparing to strike back and take down the Fire God in one go, perhaps this was retribution for badmouthing the Fire God. No, wait, was it retribution or reinforcements?

Only to hear, Dong! Thump! Thump! Thump!

After four heavy heavy heavy heavy heavy objects landed on the ground with a loud thud.

By the lake, Xue Li and Liao Zixuan looked at each other and immediately stood up. Their senses, which had been slightly relaxed because of the atmosphere, were instantly filled.

Soon, they arrived at the scene of the commotion in a flash.

And there...

They were four peeping toms who fell from the tree like paparazzi.

“Well, it seems like your subordinate is looking for you for something. Then I, I’ll take my leave first, Shirley.”

Such a godsend opportunity.

Liao Zixuan immediately turned into a wolf cub, as if he was afraid of being eaten by Xue Li. He ran quickly and disappeared in the blink of an eye. After Liao Zixuan left, only one person and four beasts were left.

Silence.

There was a dead silence.

When she was in Liao Zixuan’s arms, the little woman’s posture had long disappeared from Xue Li’s body.

She was expressionless as she carried the four trembling demons back to the stone platform as if they were chicks.

Sitting on the chair on the stone platform, Xue Xue Li did not speak. She turned her cold gaze to the gorilla and the great ape.

When the big ape saw this, it immediately gestured.

[Boss, you, you know me! I, the Great Ape, would never do such a thing. I have a wife and children. I have long been uninterested in courtship.]

After Da Yuan finished speaking, Xue Li shifted her gaze to the next one.

[Boss, you know me! I’m still young and don’t know anything. Even if I had ten guts, I wouldn’t dare to peek at your courtship, unless... Unless someone forces me...]

Cai Que's voice became softer and softer, and then she glanced at the grey crocodile beside her. Xue Li's murderous gaze immediately followed.

[What are you doing? Cai Que, don't slander me! Boss, you know me! I, Graycroc, have always been...Err...

So how could I see Boss being intimate with another male and still want to go over and peek? Am I a pervert?)

After the grey crocodile spoke, there was only one demon left. Everyone's eyes were focused on the unicorn.

White Horn immediately became anxious.

Why are you looking at me? Sister Xue Li, you know me best! We unicorns are a race with the purest souls. We can't tolerate any sand in our eyes. I, White Horn, will never do anything like letting a married person judge whether it will succeed or not, letting an underage monster observe the forbidden fruit in advance, or wanting to see the expression of someone who has a crush on me being robbed! "

"I, I'm the most pure, Boss!"

Chapter 308: One Day, I Will Make All the Birds in the Flame Domain Look Up to Me (1)

A few days later.

In Count Dulin's study.

An angry roar sounded.

“I asked you to stop the rebuilding of Red Flame Town, and this is how you stop it? It’s only been a few days. Tell me, what are these buildings!?”

Under the earl’s reprimand, the butler’s legs were trembling, and his head was lower than an ostrich’s.

This made Du Lin even angrier.

The earl slapped a file from outside the city onto the butler.

The photos taken by the “photographic camera” were scattered from the bag onto the ground. The images were of houses that were neatly arranged on the flat and neat countryside.

Even though it was not ugly to see, the houses were still very simple. Even if it was compared to the worst outer Urban area of Fire Code City, it was still a distance away. However, compared to the refugee camps outside the city, the tents were like pigsties. It was simply like heaven and earth. There were more or less people living in the “home”.

Of course, what made Count Durin anxious, or even a little scared, was not only the size of these houses, but also the speed of their construction.

If one looked closely, they would discover that there were even stone paths on the connecting roads between the houses. This meant that the other party was more than enough to have the time to get these unimportant things!

These were only the first few photos in the information bag. The more photos he took, the more substantial the scenery became. It was no longer just a civilian house, but also other types of buildings, such as the mayor’s office, militia camp, warehouse, water reservoir, watchtower...

In fact, three or four days ago, when he had decided to let the mole use drugs to attract the demons during the migration of the refugees, Count Dulin had lost contact with the chess piece he had planted. At this time, he had a faint sense of unease in his heart.

However, when the new batch of people he sent out, who were supposed to be volunteers, came back with the news of Red Flame Town, Count Du Lin almost jumped out of his chair.

“Old... “Master, who would have thought that the little girl’s Summoned Beast could actually command the demons? Our batch of medicine did attract a large number of demons, but not only did they not attack them, they even became helpers! ”

“Bastard! The monster’s matter, even if it’s big, even if it’s big, it’s also a group of animals without intelligence, you tell me, don’t these house’s blueprint, layout, use, building, advanced materials, also all the monsters, help them, the class? You promised me that even if those refugees had money and wood, they wouldn’t know how to build a house. The core technology was all in our hands.

The count’s angry voice made the butler wipe the sweat off his forehead.

“Old, old master, those refugees indeed don’t know anything, but... However, who would have thought that the foreigners who followed Vivian seemed to know everything. The layout, design, and steps of mixing building materials were all done by them! ”

In the closed beta stage, the natives of this world had too little contact with the players. Sorin had reported to Fire Code City once before, and although it had attracted some attention, it was quickly diverted by the descent of the Fallen Abyss.

“Then you should recruit them too! Wouldn’t it be fine if he poached all those damn foreigners from that little girl’s side?”

“Old Master, I tried, but, but it was useless! They don’t even care about us.” The butler had a bitter expression.

“Ignoring us? Tell me, what can that little girl give them? Money, honor, power, and even women. What can’t we give them? Not only did we give them, but we also doubled them. Are those foreigners fools? They don’t even want the benefits that we give them for free?”

“Master, they... They really don’t want it. Do you know? I even told them that if they follow us, they don’t have to do anything. They can get money by sunbathing all day.

“In the end, Master, guess what they said?”

The housekeeper was crying as she vividly imitated the language and actions of the players at that time.

“They said, what did they say? The officials are really sinister. They even lured them into sunbathing and wasting their precious last bit of closed beta time.

“Master, I really feel that those foreigners are not normal. They don’t seem to care about the reward. They seem to... It seemed like he liked to work for others and help others! Moreover, the bigger the matter, the more tired they were, and the more excited they were!

F * ck!

Count Du Lin was so angry that he smashed the teacup on the table.

How could there be such a person in this world? It was fine if there were, but they were not on their side.

“Get lost! Think of another way!”

After sending the butler away, Count Du Lin was ready to go out.

The current situation was not too optimistic.

But fortunately, he still had a trump card, a killer move, just in case!

Now, Du Lin was going to tell Black Tiger that he had to send someone to the Noble Academy immediately.

Why there?

This plan had been planned since the night Vivian first moved into Fire Code City. If not for the nobles secretly adding fuel to the fire, Vivian would not have been able to receive the invitation letter from the academy so smoothly. She could even use the back door to send her brother to the academy as a transfer student..

Chapter 309: One Day, I Will Make All the Birds in the Flame Domain Look Up to Me (1)

This was actually all part of the nobles 'plan. Their goal was to...Leave the hostage!

The nobles were the best at making a move on their loved ones and threatening them.

After that, as expected, Vivian only took her father with her when she left the city, but her brother Andy remained in the academy in the city.

Count Doolin thought that it was not necessary to use this trick so soon. After all, if he really came to this step, it would be equivalent to completely falling out with Vivian.

However, they had no choice but to do this. Otherwise, if they signed that kind of gambling agreement and lost the bet, the consequences would definitely hurt their aristocrats.

He put on his windbreaker and pressed his hat down.

Count Dulin led to a dark alley from the back door of the mansion.

On the way, he suddenly remembered something.

Speaking of which...

Did Vivian send a little girl along with his brother to the academy?

What was the relationship between the little girl and Vivian?

Forget it.

Tie them up together.

Previously, Du Lin had admitted that kidnapping the daughter of an Earl was a problem, but this time, it was kidnapping two little kids. He couldn't possibly let something happen again, right?

Count Du Lin quickened his pace.

Fire Code City, Noble Law School.

Snore...

Hulu...

The sound of a sleeping nasal voice came from the last row of the advanced students' classroom.

The camera zoomed in, and there was a person wearing a fiery red dress. Her flaxen hair was combed into two cute braids that hung down to the sides of her head. However, because she did not look like she was sleeping, it was messy and drooping on the desk.

Question. This little loli was sleeping in broad daylight in class. The saliva at the corner of her mouth was dripping onto the table. Her two short legs were even sitting on the chair, but they could not reach the ground. Oh, look, there was actually a backpack strap on her shoulder. So she was the little loli who had been sleeping since she entered the classroom and was too lazy to even put down her backpack. Who was she?

That's right, it's me, the Fire Apostle, the bird chosen by God, the Conqueror of Fallen Abyss, the Nine Heavens Divine Phoenix, the super invincible cute, beautiful, intelligent, and wise little loli, Xin Yanda!

"Sparrows...Don't..."

"Feng... I want...When... Phoenix..."

"Hey, hehe...Delicious... Sister Vivian... Soup... It's delicious..."

"Phew... Hu hu..."

As she mumbled incoherently in her sleep, her mouth also cooperated with the smacking. This caused the little loli's crystal clear saliva to flow out uncontrollably.

"Xinyan..."

"Xinyan..."

In her dream, she seemed to hear someone calling her name. However, Xinyan was unwilling to wake up. The little loli turned around and turned her head away from the voice.

He continued to talk in his sleep.

"Wei Wei...Sis... Again... A bowl of... "No, no, no. Billion...A hundred million bowls..."

"Xinyan! Wake up, don't sleep!"

After Andy called out twice, the little boy, who had an anxious expression on his face, was forced to poke the little loli's head with his hand.

What?" Xinyan, who was immersed in his sweet dream, finally opened his eyes.

The sleepy little loli looked at the table. After waking up her little boy, Xinyan finally sobered up a little.

After rubbing her eyes with her small hands, her first reaction was to ask,

"Brother Andy...Is class over? Has the canteen started eating?"

"No, but Yan Xin, we have to hurry up and ask for leave from our teacher and apply to leave the academy."

As soon as Andy said this, the little loli on the desk, who was still in a daze, suddenly lit up when she heard the words "leave" and "go out".

"Really?"

"Brother Andy, you're finally enlightened! I've told you long ago that you should balance work and rest, and you can't always stay in the classroom. So what should we do now? Did you apply for sick leave to skip class? Do you need me to pretend to be sick to cooperate with you?"

After Xin Yan had finished speaking, before Andy could even speak, the little loli immediately revealed a sickly expression like a wilted eggplant.

It could even be said that...

Andy's mouth twitched.

This was because he could feel a magical aura emanating from the little loli. Soon, Xin Yan's face turned red and his forehead began to heat up.

To be honest, this was the first time Andy had seen someone use fire magic to heat up their body. The purpose was to...He pretended to be sick.

Moreover, looking at his practiced movements, Andy would not believe that he had not done this seven or eight times before.

so...

What kind of person did his sister entrust him with?

Sigh.

The little boy exuded a sense of maturity that did not match his age. He sighed like a little adult.

Andy quickly explained to Xinyan,

“It’s Sister. Sister sent me a letter saying that they are going to rebuild their home, but they don’t have enough manpower, so they want us to help.”

“Ah? Sister Vivian!” When Xin Yan heard the name of the last stage, his expression turned serious, but there was still a hidden excitement in his eyes. “Then... What about our unfinished school? “The little loli asked tentatively. “I guess Sister wants us to drop out of school.”

“Is that so? That’s really a pity. I actually quite like this place, boohoo...” The only thing missing from Xinyan’s face was the word ‘yay!’

Chapter 310: One Day, I Will Make All the Birds in the Flame Domain Look Up to Me (1)

“Let’s go and explain to the teacher.”

'Yes!'

The small bag was swaying behind him, fully reflecting its owner's excitement.

Xin Yan followed Andy to the teacher's office.

He briefly explained the situation to the form teacher and showed the letter that his sister had just sent to the teacher.

"Yes, I roughly understand the situation. I've also heard about your sister's matter. The refugees outside the city have indeed left today."

The homeroom teacher's words dispelled Andy's last bit of concern. The little boy took a few steps back and bowed deeply to the teacher.

"Teacher Yuge, although the time is very short, I am still very grateful for your guidance and teachings. I will definitely work hard and not let you down." "You child..." Yuge shook his head.

In fact, when Yuge heard that a transfer student was coming, he rejected it because in his impression, transfer students were nothing more than rich and powerful people who came to be gilded. There were not many who could really learn magic.

But for the two transfer students this time, the little girl aside, the boy named Andy not only showed great magic talent, but also worked so hard that Yuge admired him.

He was the only one who insisted on taking notes in every class. When everyone else was resting and having fun after class, he was the only one who would run around and ask all kinds of teachers questions. There was even one time when Yuge woke up late at night and went back to the classroom to get something. He found a little boy inside, diligently practicing the new magic he taught in class today.

It was not an exaggeration to say that Yuge felt that the little boy would surpass him in less than three years and advance to become a Tier 2 Elementalist. The last child who had accomplished such a feat in the academy was also Yuge's handiwork. His name was...

nnnair

“Andy, this is a notebook that the teacher casually wrote on a daily basis. It records some of the teacher’s insights and understanding of magic. If you don’t mind, you can take it with you.”

“This... Teacher, I, I can’t accept such an expensive thing...” Although Yuge said it lightly, Andy knew the weight of this letter and shook his head repeatedly.

“Alright, then I’ll go to the junk collector and ask how many copper coins these lousy books of mine can sell for.”

“Teacher...

In the end, Andy still took Yuge’s magic notebook and left the Noble Academy with the little loli behind him.

Before the little loli left, she waved her little hand reluctantly.

Her big tearful eyes seemed to be saying,

Farewell, desk, farewell, homework, farewell, teacher, farewell, prison...

Yuge and another teacher who had also taught Andy watched the two children get on a carriage that seemed to have been parked long ago to pick them up.

The teacher sighed and said,

” I keep feeling like I see the shadows of Liz and Damir from back then in them. It’s just that this little girl is a little lacking. If she could have even half of Liz’s hard work back then...’

“Indeed.” Yuge nodded.

However, he quickly shook his head.

“But you’re wrong about one thing. They do look like Liz and Damir, but the men look like Liz, and the girls... It’s just like Damir’s,”

“What?” The other teacher revealed a puzzled expression.

To him and many other teachers, the impression that the little loli had was that she was ignorant and incompetent. She slept all day long, no different from many rich sons of nobles. It was a role abandoned by the teachers.

How could he be compared to Damir, the genius who had appeared out of nowhere and shocked the entire campus? Other than always sleeping in class and not paying attention, there didn’t seem to be any other similarities between the two of them, right?

Yuge didn’t explain to his colleague, nor did he know how to explain.

He shook his head, got up, and walked back.

Didn’t he say that it would take less than three years for the Andy to surpass him?

But facing the little girl beside Andy...

Yuge felt that he was afraid that he would never...He couldn’t even reach the level of that little girl right now, right?
