

## **NPC Become 71**

### Chapter 71: The Storm of the Group of a Group (1)

The next day.

Early morning.

It had been ten hours since Fallen Abyss appeared and spread out from the depths of Dreadclaw Forest.

The sentries sent by Red Flame Town reported.

After only one night, they could already find a large number of festered creatures moving around the periphery of the forest.

Moreover, the more serious fact was that the number of these corpse-like monsters was increasing, and their range of activity was gradually expanding.

The Dreadclaw Forest could no longer satisfy them.

The next step would be the villages around the forest, and the next step would be...Red Flame Town.

Fortunately, most of the villagers had successfully taken refuge with the help of the players led by Vivian and the wolf cubs yesterday. Therefore, the remaining villages were just empty shells.

Moreover, although these festered creatures would bite anyone they saw and contaminate and assimilate all living things in their sight, they did not seem to have any consciousness. They only followed their instincts and swam around unconsciously.

Therefore, it seemed that there were still two to three days before they could threaten Red Flame Town.

After coming to this conclusion, Mayor Thorin breathed a sigh of relief. Because two to three days was enough for them to wait for reinforcements from Fire C.ndp Cit-v

At that time, once the elite mage troops arrived, they would use long-range magic to cover a large area. In Thorin's view, it would be easy to eliminate these monsters without intelligence.

Unfortunately...

The idea was beautiful, but Liao Zixuan knew that the reality was far from optimistic.

He was extremely familiar with Fallen Abyss. He knew that the monsters that were infected by the corruption did not seem to have any consciousness. They only knew how to wander out instinctively.

However, this was because the source of the Fallen Abyss, the Skeleton Dragon that had absorbed the soul of the Witch Bella, had yet to be completely digested.

Once it completed the " corruption " of Bella's soul fragment, it would completely evolve into the " Fallen Abyss Lord " and take over all the infected and corrupted Fallen Abyss creatures during this period.

Only then would the real 'Dark Wave' of the SS-level emergency mission arrive.

This was actually a classic routine of the game's Fallen Abyss for a long time to come.

First, find a powerful human or monster as a host and secretly degenerate. During this period, rely on the influence of the host to indirectly corrupt the surrounding creatures and accumulate troops.

In the end, when the host has completely fallen, it would be equivalent to picking up a leader with terrifying strength for Fallen Abyss. Then, they would launch a total attack together.

This was the current situation in the Dreadclaw Forest.

In the future, the Flame Domain would be even more like this. Moreover, it would be even more ruthless. It would directly use the Fire God as its host and all the people of the Flame Domain under the rule of the Fire God as its target of corruption.

Therefore, this was also the second reason why Liao Zixuan was not optimistic about the situation in Red Flame Town.

The Fallen Abyss had appeared for so long, but the Fire God had not shown himself.

It was obvious that the Fire God was already in a state of "corruption."

And when the ruler of the Flame Domain had a problem, could you still hope that the people below would be fine?

Liao Zixuan remembered clearly that many players had complained about how the Fire Code City was so corrupt in the early stages of the game. All kinds of dirty and filthy things had happened one after another. Many high-ranking NPCs had even done a series of brainless actions.

However, when the game's plot progressed, everyone finally understood.

In the end, it was just one word.

The roots were rotten.

Under the influence of the Fire God's "corruption", how could the others still maintain their state of mind? They were all subtly changed, becoming evil, greedy, and stupid...

It was still in the closed beta testing phase, so perhaps the internal situation of Fire Code City wasn't that bad.

However, for the sake of caution, Liao Zixuan still held a conservative attitude towards the so-called "reinforcements".

But of course.

Only he, the little wolf cub, knew the true situation. The players were still happily preparing to go out.

“We need a Priest!

“Professional experts lead the team, steadily farm experience without failure.

“Do you have a good brother to take me with you? I... My singing voice is super sweet!

“I’m a violent mage, does anyone want it?””

The sound of forming teams in the Red Flame Town Square was endless.

The little wolf cub observed him.

Among them, Warriors and Priests were the most popular, while Mages had limited mana in the early stages. They would die after casting a few skills, so they were somewhat despised by others.

As for the Summoner class that attracted the attention of many players...

They were usually the party members who shouted in the square because the most important summoning ritual of a summoner required the collection of materials to carry out.

Without their summoned beasts, their combat power was not even comparable to that of a Priest.

From this, it could be seen that only the rich could afford to play Summoner. Liao Zixuan was also clear about this, so he set the tuition fee of 5,000 experience points as a threshold.

As a result, the only ones who could become Summonmoners were basically the bosses. They naturally did not have to worry about not having someone to guide them in the early stages.

For the sake of efficiency, the road was long. After some discussion, Fallout, A Big Watermelon, and the others decided to form the largest and most luxurious team in the square, attracting many players to join.

“Wait a minute!” Before they left Red Flame Town, A Big Watermelon in a Mouth suddenly thought of something and stopped them.

“What’s wrong?”

Long Walk looked at Big Watermelon impatiently. He was very eager to go to the Forest of Dreadclaw to collect materials. This guy really wanted to get his first Summoned Beast.

However, Big Watermelon didn’t care about him. Instead, he faced the back.

They carefully selected from the square and formed a group of 30 to 40 people.

Big Watermelon’s gaze swept across the players. After getting the excellent equipment from Vivian, he asked again,”

“To be safe, I want to ask everyone. You should have seen the remarks on the equipment, right?”

Everyone nodded, their faces filled with confusion.

“Did you all spend experience points to buy Vivian’s favorability?” Big Watermelon asked seriously.

Some people nodded, while a small number shook their heads nonchalantly.

The big mutt was either a dog or the latter.

He was a very astute person. He immediately identified the wild team with the most potential and immediately used his own advantages to join.

However, what he did not expect next was...

I'm sorry, all those who didn't spend experience points to buy that bit of favorability, please go and buy it now, or else..."

"Then please go back. Our group can't accept you.

Big Watermelon said to the players who were shaking their heads without hesitation.

His voice was firm and decisive, without any room for negotiation..

Chapter 72: This Woman... Is Too Scary!\_I

Big Watermelon shook his head as he looked at the seven or eight players who were still stubborn. Even after he had persuaded them, they were still greedy for the small advantage of 500 experience points and were unwilling to buy Vivian's favorability.

After these people left the team, Man Man's heart ached as he watched the long journey. The corners of his mouth twitched.

"I say, Brother Watermelon, if they're not willing, then so be it. Why do we have to force them?"

Seeing that the team's strength had shrunk by a notch before they even set off, and that many of the people who left were Warrior professionals with strong combat strength, they were naturally not happy about the long journey.

At this moment, Luo Chen walked over from behind and patted Long Walk's shoulder.

"I feel that there's no problem with the big watermelon. It's my fault for not considering it."

"It's better to believe that there's something there and not believe that there's nothing there."

"The note on the equipment says that it requires a little favorability to use. Otherwise, something bad will happen. Who knows if this is true or not? If something really happens, won't we be implicated?"

Seeing that Luo Chen had said so, the long road could only be given up.

Big Watermelon added another sentence to Luo Chen's words.

Be more confident and remove the "what if".

Based on his understanding of Vivian, as long as you follow her rules, nothing will happen. But if you go against the will of this witch, then this "very bad thing" will definitely happen!

On the other side...

"Bah!" The big mutt who had left the party was not a dog. He spat out a mouthful of blood.

Just like what Big Watermelon had said before.

It was not that he was really short of 500 experience points, but he felt that he was being bullied. He actually chased out an elite warrior like him just for this little thing?

He really didn't believe this today!

“Dog...Brother Dog, what should we do now? “The dog himself did not spend the 500 experience points, so his followers naturally did not buy it either.

“Originally, I thought that following a group with more people would be more efficient, but forget it. Tsk, if they don’t bring us, we’ll do it ourselves!”

The big dog said disdainfully. Then, it randomly pulled a few passersby and became the leader.

“Good! We’ll listen to Brother Dog!”

Outside the Dreadclaw Forest.

Currently, the players were having a great time killing the Fallen Abyss Creatures.

Just as Mayor Thorin had said, the Fallen Abyss creatures that they feared were nothing in the eyes of the players, at least for now.

The most terrifying thing about the Fallen Abyss was that once players were attacked by it, they would be infected and assimilated by the Evil Energy. However, this didn’t apply to players.

Big Mutt Isn’t a Dog was feeling very good now.

When he pierced another festered monster, his body flashed with a golden

light. It had only been a short while, but he had leveled up.

Indeed, killing monsters was the best!

Especially when he had such excellent equipment!

Now, the dog was getting more and more fond of the armor and sword that it got from Vivian.

There were many players who shared his thoughts.

Before, he might not have felt it, but after he had experienced it, it would be difficult to go back.

Otherwise...

He should not return this equipment.

This thought secretly emerged in the dog's mind.

He had secretly gone to the weapons shop in Crimson Flame Town to take a look. If he wanted to buy this outfit, he would have to use gold coins as a unit.

What kind of joke was this?

He did not even have a few silver coins.

Therefore, the purpose of some people's bottom line was to be pulled down.

Therefore, at this time, some people needed to stand up and help them re-recognize themselves.

A small black wolf appeared on the battlefield.

Many players recognized it at a glance. It was the wolf cub that Vivian had been holding in her arms.

What was it doing here?

As soon as this question arose, the answer came in the next second.

Before the players could react, black flames burst out of the wolf cub's body. In the next moment, the black flames turned into a breath and flew straight towards a certain part of the battlefield.

Boom!

A loud explosion sounded in the players' ears, and the raging black flames devoured everything in an instant.

When the players came back to their senses, they only saw a terrifying deep pit left in a certain part of the battlefield, as well as the ground that had been charred into black soil.

"This... This..."

"F \* ck, so f \* cking strong!"

"Is this the Summoner's Contracted Beast?"

Many of the players on the battlefield had their attention focused on Liao Zixuan's cool Black Flame Ray attack, and they were all shocked beyond words.

However, on the other side, someone who was more attentive saw something else.

"Brother Watermelon! Do you think we can summon such a strong baby after we gather the materials?"

Long Road was so excited that he wished he could summon it immediately. However, at this time, he realized that Luo Chen and Big Watermelon, who were beside him, sucked in a breath of cold air.

The two of them had a "thank goodness" expression on their faces.

“What’s wrong?” The long road is long, I don’t understand, I ask the first.

“Do you remember what else was there other than the Fallen Abyss creatures?” Luo Chen gulped in fear.

“Uh... Are you saying that Vivian’s summoned beast accidentally injured us players?”

After a long journey, he naturally saw that several players in that position had also evaporated into the black flames along with the Fallen Abyss Creatures.

“No, this isn’t an accidental injury. I’ve been paying attention to it since the beginning. Didn’t you notice that those players who were accidentally injured.. “The ones who were kicked out of our team previously!” Big Watermelon said earnestly.

“What? Was it really a coincidence?”

At first, many people had the same thoughts as Long Road.

The big mutt was one of them.

After he resurrected on the spot, he looked at the large amount of EXP that was deducted from his death penalty. His heart ached, but other than cursing his bad luck, there seemed to be nothing else he could do.

“Let’s go! Let’s stay away from that wolf!”

A fall into a pit, a gain in one’s wit.

The big mutt brought his little brothers and tried to hide far away from the little wolf cubs. This time, they specially found an inconspicuous corner with few Fallen Abyss creatures. They sacrificed their leveling efficiency, but the purpose was to prevent being “accidentally injured” again.

But soon...

The black flames instantly filled the dog's vision again.

A rolling heatwave came.

With such a huge difference in strength, they did not even have the qualifications to escape.

Boom!

Accompanied by the sound of flames exploding.

There were no longer any players like the big mutt. All that was left was another deep pit filled with scorched earth.

The long road is long.

If the first time was still an accident, then the second time was simply a naked showdown.

"Brother Watermelon, this...Did you expect this?"

It was a long journey. If this group of people had not left their group back then, perhaps they would have been vaporized and melted by the flames, and they would have been dragged along with them.

"Hmph, a bunch of idiots. They really think Vivian is some kind NPC!

"I've been with Vivian for the longest time, so I'm telling you, don't be fooled by her friendly appearance. In fact, if you make her unhappy, you'll die without leaving anything behind !

“This woman.....” It’s too scary!”

The big watermelon waved its hand in the air a few times and pouted its mouth, using the experience of the big dog and the others as proof.

That was really...Not even dregs were left.

At this moment...

It was a long journey, and he felt that the image of Vivian in his heart was rapidly collapsing.

Then, the image of a Holy Maiden of Light on the surface but a Queen of Darkness on the inside, a witch who could talk and laugh gently with you and turn people into ashes in the blink of an eye, began to gradually materialize in the heart of Long Road.

Then, after a long journey, he realized that Vivian seemed to be...

More fragrant?

Imagine a gentle and cute little girl holding a whip in her hand and wearing leather boots. She clearly had a weak expression on her face, but in the depths of her eyes, she looked like she was looking at trash and stepped on all the disobedient people...

This was bad.

A strange XP had been born unknowingly!

Chapter 73: Becoming a Great Summoner Must Start from the Chef

Violence might not be the best way to solve the problem.

But it was definitely the fastest method.

The players realized that as long as they continued to wear the equipment they got from Vivian without paying the little favorability points...

No matter where they hid, the girl's little black wolf, which was like a grim reaper, would always accidentally hurt them.

Furthermore, what Liao Zixuan did the most was that his "accidental injury" had a large range.

This also meant that as long as he teamed up with a target player that he had locked onto, even if they were accidentally very close, they would suffer an undeserved disaster and enjoy the treatment of being devoured by the black flames and turning into ashes.

Soon after.

The little wolf cubs didn't even need to do anything else, and the players started to boycott them.

Before, everyone was most concerned about class selection, level, and operation. But now, as long as they wanted to team up with someone, the first thing they had to do was to check their favorability with Vivian.

If you're still o...

Oh, then I'm sorry. No, no, no. It's no longer a matter of polite rejection. It's like avoiding the plague and staying far away from you. No party is willing to accept you into the party.

After this, no players dared to take advantage of him anymore.

Even if the dog was angry again, it would obediently return to the little girl in Red Flame Town to buy favorable impression points.

As for being greedy for equipment?

Hehe, he was so vengeful even though he had lost a bit of Favorability. If he dared to steal a whole set of equipment...

“Hello...’

“Hello...

“Then, then... Is there anything else?”

Vivian waved her little hand worriedly at the stranger who was standing opposite her and seemed to be staring at her.

He heard the young girl’s gentle and caring voice.

The dog looked at Vivian with a complicated expression.

Who would have thought that this NPC, who looked so harmless on the surface and was as gentle as the big sister next door, would actually let her Summoned Beast Shark him four times just now!

Four times!

He was dead, not even leaving a residue behind.

He had lost more than two levels!

With an expression that was uglier than crying, the dog opened Vivian's NPC shop while trembling.

[Ding, you have consumed 500 experience points.]

[Vivian's favorability rating +1] [Ding, you have consumed...]

[Ding...]

The big mutt was really afraid. He even bought 10 favorable impression points in one go, which was enough for him to change his class to Summoner. Only then did he feel relieved and leave shakily.

On the other side.

Vivian looked at the back of the big mutt and sighed.

Many similar things happened today.

These foreigners did not seem to be as carefree and casual as they were yesterday. On the contrary, they began to be cautious and very cautious.

There were even some foreigners who did something that Vivian did not know whether to laugh or cry. They directly knelt down to her and shouted that they were wrong, begging her to let them go.

He didn't know what exactly happened.

However, when Vivian saw that her wolf cubs had disappeared, she could guess what was going on.

Sigh...

The little girl secretly let out a long sigh.

Please don't misunderstand.

The girl did not sigh because she felt that her image among the outlanders had become strange. On the contrary, Vivian did not care much about how the outlanders thought of her.

Instead of saying that, it made her feel much more relaxed.

Yesterday, countless players thought that Vivian was so easy to get along with and did not put on airs. Therefore, they all tried their best to get close to the girl and talk nonsense, thinking that they could trigger some hidden plot or something, which gave the girl a headache.

But now, the foreigners had become more honest. They no longer had so much useless nonsense or did strange things to her. All of this was undoubtedly due to Blackie.

Vivian naturally knew.

Although the girl felt warm in her heart, after all, which girl didn't like the feeling of being protected by others in every possible way?

However, that was also the reason why he sighed earlier.

That was because...

Why did it feel like...

He was such a failure as a Summoner.

Not only did he not take good care of Little Blackie, but he was also taken care of by Little Blackie every day.

If this continued..

The roles were almost reversed. Cheng Xiaohei was her summoner, and she was Xiaohei's summoned beast.

No way, no way!

At the thought of this, the young girl blushed. Oh, no, her small face blushed. Vivian quickly clenched her small fists and waved them in the air to cheer herself on.

Vivian, you have to work harder and be a qualified Summoner!

As for the first step...

The little girl thought hard about what she could do for Blackie. Finally, Vivian's eyes lit up.

Then...

Let's feed Little Black until he's fat first!

Oh no!

Vivian secretly looked down at her flat chest.

Not only Little Black, but he also had to make himself "fatter"!

The young girl was still brooding over that matter in her heart. She was always thinking about it and held a grudge!

Anyway...

He did as he was told.

For the first time, Vivian took the initiative to issue the quest of "collecting meat" to the players. Then, she went to Mayor Thorin's place and borrowed a kitchen. She began to make preparations. She had to make a big pot of delicious meat soup before Blackie returned!

[Sigh...]

The other Vivian, who had not appeared for a long time and was resting her chin in boredom in the spiritual space, sighed deeply when she saw her main personality busy in the kitchen.

She sat on the noble chair and covered her face with her hands.

Is this your so-called motivation to become a great summoner?

So the result was that she became a chef?

It was hopeless, hopeless.

I... How could he be so stupid!

The second personality cursed at herself for failing to meet her expectations, but there was nothing she could do. After all, Vivian was her, and she was Vivian.

The second personality closed his eyes angrily at the thought of becoming an excellent chef in the future. Out of sight, out of mind.

Sleep, sleep.

At the same time, on the other side.

After completing the "friendly interaction" with the players, the wolf cub nodded in satisfaction and prepared to set off on his journey home. But not long after, Liao Zixuan realized that Xue Li had stopped moving.

Oh, I almost forgot to mention it.

Xue Li was the name Liao Zixuan had given to the female Silver Earth Wolf that had acted as his means of transportation...Wait, why did he specifically emphasize that it was a female?

\* Cough \*

As for why she was called Shirley...

Liao Zixuan admitted that he had a bit of bad taste in it.

But no matter what, it sounded better than "Little Black"!

This was the difference in culture.

"Xue Li, what's wrong?" At first, the little wolf cub asked lazily. The question here was not really a sound, but a unique communication method of wolves.

But soon, Liao Zixuan put away his casual attitude.

It was because Cher had conveyed to him a sense of...

It was filled with sorrow.

This immediately made the wolf cub jump down from Xue Li's body. When he saw the scene in front of him, Liao Zi Xuan also fell silent.

This place was filled with corpses of Fallen Abyss creatures that had been hunted down by players.

Following Xue Li's gaze, Liao Zixuan discovered that among the corpses of the Fallen Abyss creatures, there was a pregnant female wolf. Although the female wolf was killed, the child in its arms survived.

No, he couldn't be said to have survived.

Because the " Fallen Abyss " had turned the female wolf into a corrupted monster, the young wolf in its stomach had also been infected along with its mother.

And now, this young wolf that had turned into a Fallen Abyss creature when it was born, its entire body rotting and festering, was crazily gnawing...

Its mother's corpse..

Chapter 74: Purification of the Human

It was as if he had also sensed the aura of living things around him.

The young Rotten Wolf stopped eating. Its long rotten neck twisted stiffly, and with bloodthirsty and frenzied scarlet eyes, it looked straight at Liao Zixuan.

Then, just like all the Fallen Abyss creatures, it rushed toward the wolf cubs as if it had gone crazy, wanting to bite the flesh of the living creatures. The Silver Earth Wolf, who was beside Liao Zixuan, let out a dangerous growl.

However, just as Xue Li was about to rush forward and slap the young Rotten Wolf away, Liao Zi Xuan stopped her.

The little wolf cub stood there silently, watching the other party charge at him.

At 20 meters, the Rotten Young Wolf suddenly slowed down.

10 meters. It seemed to have sensed what it was attacking. Five meters, the Rotten Wolf Pup stopped completely.

A magical scene appeared, and the wind blew.

Perhaps it was because it had just been born, so the corruption of the Fallen Abyss was not serious, or perhaps it was because the instinct from its bloodline told it not to attack the leader of its own race.

It was only five meters away, and the Fallen Abyss could already contaminate new living things. However, this five meters was like a natural chasm for the Fallen Abyss.

Fallen Abyss' will had just made the young wolf take a step forward, but the will that was branded in the wolf bloodline made it retreat again. It must not hurt Liao Zixuan.

The Rotten Wolf Cub struggled painfully in front of Liao Zixuan.

However, the good times did not last long.

As time passed, the pollution worsened.

The remaining will of the bloodline was ultimately limited, unable to contend against the will of Fallen Abyss that was continuously produced by the energy source.

In the end, Fallen Abyss's will took the absolute lead. The control of the Rotten Wolf cub's body was completely unified. It no longer struggled, but raised its scarlet eyes again and glared fiercely at Liao Zixuan.

Or...

Had he failed?

However, it was tough.

Liao Zixuan sighed in his heart. It seemed that even if he was the top forbidden demon in the wolf bloodline, he could not make his own kind resist the Fallen Abyss.

In that case...

How about trying this?

The little wolf cub, who had always been a Dark Flame Wolf, had always been using the ability of the fire element. However, in reality, the true authority of the Dark Flame Wolf was far from being as simple as just being able to control the True Harm Black Flame.

The other thing that Liao Zixuan possessed, which could also be said to be the authority that was closely related to the wolf clan in the world of God Fall, was the soul.

Why was Liao Zixuan not afraid of the Witch Bella before?

It was because he knew that the most powerful ability of the Bella was in the soul. It borrowed the power of the wolf monster to cast soul magic. In an instant, a completely different cold aura spread out from Liao Zixuan's body.

The sound of metal clashing against metal rang out in the surroundings.

When the Rotten Wolf Cub was completely controlled by the Fallen Abyss and attacked Liao Zixuan, black chains seemed to appear from the void behind the wolf cub.

They didn't have a physical body, but they shot out and locked the young wolf.

The lock here did not refer to the physical lock in reality, but the lock on the soul.

In Liao Zixuan's vision, he could clearly see that the soul of the young wolf was suffering from two kinds of pain.

Firstly, it was the chains that he used to restrict him.

Secondly, it was the pitch-black hand that had trapped Bella in the Dreadclaw's nest. This represented the evil power of the Fallen Abyss and was currently imprisoning and enslaving the weak souls of the young wolves.

Moreover, they extended a long line, shooting towards a certain location deep within the Dreadclaw Forest, like a nerve that had branched out from the mother nest.

Don't worry, little guy.

I'll let you out now.

However...

I have to give you a bath first.

Liao Zixuan really wanted to snap his fingers, but his little claws didn't support him. In any case, the black chain suddenly lit up in flames.

The flames completely enveloped the young wolf's soul, but it did not hurt it.

On the other hand, the pitch-black hands that were like maggots that were parasitic on the young wolf's soul all squirmed crazily under the burning of the soul flame, as if they were wailing in pain. One could even hear the crackling sound after being ignited.

Suddenly, a terrifying aura came from the depths of the Dreadclaw Forest and swept toward the wolf cub.

This Fallen Abyss aura with a strong evil will seemed to be issuing an angry warning because Liao Zixuan was destroying its claws.

Xue Li, who was next to Liao Zixuan, felt the aura and her fur stood on end. Her entire body tensed up, and if one looked closely, they would see that her limbs were trembling in fear.

However, the little wolf cub did not think much of it.

He even provoked them by adding fuel to the fire, burning all of the pitch-black hands to ashes. At the same time, he also burned down the thread that connected the mother nest to the Fallen Abyss.

The moment the thread was cut off, the terrifying aura immediately disappeared because it had lost its attachment.

At the same time, the soul of the young wolf was finally freed from the Fallen Abyss.

The little wolf cub happily circled around Liao Zixuan, running around and rubbing its head against the wolf cub affectionately as if it had seen an elder in the tribe. It even treated Liao Zixuan as its father and rolled back and forth like a spoiled child. It was extremely happy that its father had driven away the enemy and saved it.

Unfortunately, Liao Zixuan couldn't touch the other party in return.

That was because the young wolf had actually died a long time ago.

Fallen Abyss had completely contaminated the body of the other party. Once the will of Fallen Abyss was lost, the body would quickly lose its vitality. Everything the young wolf did now was in the form of a soul.

Finally.

The young wolf seemed to be tired of playing.

The newborn was filled with curiosity and excitement about this world. However, it was unable to stop its tiredness, making it want to sleep.

Therefore, the young wolf followed its instinct and found its mother.

It used its head to nudge the female wolf's body, but it did not get a response. However, it only thought that its mother was asleep. Even if the female wolf's body had long rotted beyond recognition, the young wolf's soul still found its mother's embrace and lay in it.

In the end, the wolf pup's weak soul power was completely exhausted. It turned into light fragments and disappeared into the mother wolf's arms.

"Xue Li, you should still remember the location of your tribe in the forest, right

"Bring me there."

The little wolf cub looked at the disappearing soul of the young wolf and transmitted his thoughts to the Silver Earth Wolf behind him.

Ever since he transmigrated, Liao Zixuan had always treated this world as a game. He treated himself, the Dark Flame Wolf, as a player with a Boss template.

But at this moment...

It was as if he had truly fused with the Dark Flame Wolf. He could feel the power that the bloodline gave him. He could also feel the responsibility that he had to bear as the heir of this bloodline..

## Chapter 75: Wolf (1)

In the forest of fear's claws.

When he returned to the forest, the surrounding scenery had changed drastically.

The green green that symbolized vitality and life disappeared.

What replaced it was a deathly gray.

Trees and vegetation were visible to the naked eye, withering and rotting, living in the forest, beasts and monsters all disappeared, leaving only a head of corrupted, unconscious wandering creatures.

This was how terrifying Fallen Abyss was.

Wherever it went, it would only bring desolation and death. It would corrupt and assimilate all living things into its claws and teeth, enslaved by the will of Fallen Abyss.

The little wolf cub could feel that as they got closer to the location of the earth silver wolf group, Xue Li's wolf body trembled more and more.

Fear, fear, and..

Hatred.

Liao Zixuan vaguely remembered the scene when he first met Xue Li.

At that time, the Fallen Abyss had just erupted from the Dreadclaw's nest and started to invade the entire forest. Xue Li had escaped from the chaotic crowd, but she was targeted by the more powerful Fallen Abyss monsters. Fortunately, she bumped into the wolf cubs at that time, which saved Xue Li. After that, she followed Liao Zixuan.

Now that the familiar scene reappeared, Shirley seemed to recall the terrifying scene from that time.

The other demons and wild beasts were attacking each other as if they had gone crazy. Shirley would never forget that even her mother...

"Alright, alright."

"It's alright."

"I'm here."

The wolf cub used its meaty claws to gently stroke Shirley's silver-white fur, helping Shirley escape from her painful memories.

Feeling Liao's touch, Xue Li's body gradually returned to normal, and her running speed increased again.

Just like that, the two wolves soon arrived at a high stone hill.

When Liao Zixuan looked down, he could see that the outline of the Earth Silver Wolf was still visible on the surface, but the snow-white fur on its body had long fallen off. The Fallen Silver Wolves, whose bodies were rotten, also sensed the arrival of the wolf cubs. They were looking up at the stone hill from below with their scarlet eyes.

Wu... Wuuuu...

Xue Li let out a sorrowful howl, trying to wake up her own kind. However, these wolves that she had spent most of her time with did not respond to her.

On the contrary, because of the living aura that Xue Li was emitting, these Fallen Silver Wolves became restless and violent.

Right at this moment...

Liao Zixuan jumped down from Xue Li's body.

The little wolf cub walked step by step towards the highest point of the hill. Every time he took a step, his body would also change and begin to expand.

When Liao Zixuan stood at the peak of the stone hill, he had transformed from a little wolf cub that had yet to retreat into a huge black wolf that was two to three meters tall.

Every time Liao Zixuan leveled up, it was equivalent to being one year older. Therefore, even though he had only been born in this world not long ago, he was already three years old.

Although the three-year-old Dark Flame Wolf was still far from fully grown, it was still tall and sturdy enough.

His fur was no longer dull, but became as deep as ink.

The lines on his body were full of beauty, but it also made people feel the powerful power contained in it at a glance. It was as if he could easily display terrifying explosive power at any moment.

As he got closer and closer to the "growth period," the shadow of the "forbidden monster" on Liao Zixuan's body began to slowly show its brilliance.

The little wolf cub was only... Oh no, it was no longer a wolf cub.

The giant black wolf merely stood in front of the Fallen Wolves, but the effect it produced was completely different from Xue Li's.

The chaotic wolf pack that was controlled by Fallen Abyss 'will gradually calmed down.

They no longer showed any signs of attacking. Instead, their bodies trembled as if they were fighting against themselves.

Their necks became lower and lower. In the end, they actually lowered their heads completely, closing their scarlet eyes that were contaminated by the Fallen Abyss tightly. Their entire bodies were facing Liao Zixuan's direction, crawling on the ground.

During this period, there were also a few young wolves that had just been born. Their bloodline and soul power were still too weak, so they could not defeat the will of Fallen Abyss. They were still baring their teeth at Liao Zixuan on the hill.

But soon, these young wolves were slapped to the ground by the adult wolves next to them. They were pressed down with their claws and were not allowed to raise their heads.

As for Cher...

The Silver Earth Wolf that was closest to Liao Zixuan had already become limp. The little female wolf did not even dare to breathe loudly. It lay on the ground as if it had collapsed.

Normally, Liao Zixuan's wolf cub form was still alright, but once he revealed his true form, the suppression and majesty that originated from his bloodline would be magnified several times.

In addition, most of the wolves were adult wolves, and their bloodline and soul were much stronger than young wolves.

Therefore, at this moment, even Fallen Abyss's will was forcefully suppressed.

This was something Liao Zixuan had never thought of.

He was sure that, at least within his knowledge, there would not be a second monster race that could do this. Even the dragons, which were regarded as the top, could not compare.

Looking at the scene in front of him, Liao Zixuan could no longer remain calm.

He could clearly sense the wolf pack below, sending him a prayer. They longed for his release as their leader, and hoped for salvation from their king.

At this moment, whether it was the instinct of the Dark Flame Wolf or Liao Zixuan's own soul, it was the power of the Dark Flame Wolf.

There were only three words in his mind now.

Answer!

This was the responsibility he should shoulder.

This was also the reason why Liao Zixuan asked Xue Li to bring him here.

He took a deep breath.

The giant black wolf howled at the sky.

The howl was not as deafening as he had imagined. Wolves never relied on their loud voices, but it reverberated for a long time and shocked the soul.

Below, the souls of Fallen Silver Wolves were pulled out of their cages by Liao Zixuan's long howl.

As expected.

The souls of these Silver earth wolves were also entangled by the pitch-black hands that represented Fallen Abyss 'will, devouring and corrupting them.

Just as Liao Zixuan was about to ignite the raging soul flames like before and burn all the pitch-black hands to help purify the souls of these Silver Wolves...

Suddenly!

It was as if he had been waiting for this moment for a long time.

Unexpectedly, before Liao Zixuan's soul flames could ignite, the black hands attached to the silver wolf's soul actually fell off on their own.

No, it wasn't falling off. Instead, they were actually rapidly approaching in one direction at the same time and began to gather together.

At the same time.

Beside Liao Zixuan, Shirley, who was originally lying on the ground, suddenly exploded. Her wolf body immediately stood up from the ground, baring her teeth and staring dangerously into the depths of the forest.

Yes, it was.

There was no mistake.

The Fallen Bone Dragon that was absorbing Bella's soul fragments in the Dreadclaw Lair was also the source of the Fallen Abyss.

When it felt Liao Zixuan's aura again, it immediately stopped absorbing Bella. It even split its energy and instantly sent its will to this area.

Under the control of its will, the black hands that had gathered quickly fused and devoured each other. They no longer scattered and gathered their power in the blink of an eye.

They had originally been countless little hands, but in the end, they only had one hand. However, whether it was in terms of size or pressure, they had expanded countless times. They were huge black hands that floated high in the air.

This was not the end. Soon after, the Fallen Bone Dragon's will controlled all the other Fallen Abyss creatures within a few miles.

The ground began to tremble.

More and more Fallen Abyss creatures were rushing toward Liao Zixuan. The commotion was so great that even the ground seemed to be unable to withstand it.

It could be seen.

Liao Zixuan had been able to purify its Fallen Abyss power, which made the Fallen Bone Dragon extremely angry.

It had already set up an ambush.

Everything that was happening now was prepared by it.

His goal was to capture Liao Zixuan's soul aura when it appeared again.

Only to see.

The giant black hand in the sky gave off a terrifying aura as it grabbed at the soul of the black wolf standing at the top of the hill, wanting to make the wolf submit to Fallen Abyss 'will.

On the other side.

The other berserk Fallen Abyss creatures followed suit, biting at the pitch-black wave's body in an attempt to corrupt it.

However...

The Fallen Bone Dragon had miscalculated, and it could also be said that the will of Fallen Abyss had miscalculated.

Xue Li stood in front of all the Fallen Abyss creatures. This Silver Earth Wolf was guarding the entrance to the top of the stone hill where Liao Zixuan was, not letting any Fallen Abyss creatures get close. As for the giant black hand in the sky...

It stopped, it stopped.

It wasn't that Liao Zixuan had done anything, but that the silver wolf souls that the Fallen Abyss 'will had looked down on and ignored had actually pounced forward at this moment without any regard for their own safety.

Perhaps the strength of one head was relatively weak compared to the giant black hand.

But...

One, four, ten...

The Silver Wolf's souls bit down on the giant black hand, making it difficult for it to get close to Liao Zixuan.

At the same time, the black giant hand could not move and became a live target in front of Liao Zixuan.

The wolves were like hunting a fierce beast.

After restraining the prey that was several times more powerful than them, they waited for their leader to give them the final blow.

Thus, Liao Zixuan moved.

The giant black wolf began to run.

He stepped through the void and ignited the soul flames of Anyan on his body. He rushed towards the black palm formed by Fallen Abyss 'will in the sky.

Every time Liao Zixuan took a step out of the void, the Fallen Abyss creatures that were fighting with Xue Li below would burn up and be devoured by the black flames.

If the Fallen Abyss was said to be barren and withered everywhere it went.

Wherever the black wolf passed, it would turn into a sea of fire, burning all the power of the abyss.

Moreover, the black flames did not disappear after burning. Instead, they quickly returned to Liao Zixuan's body, making the soul flames burning on his body even stronger.

[Void Ignite Lvl- -Ignite all living things within a range of 10, causing continuous fire elemental damage of 5. Every time this skill is used to destroy a unit, its power will increase for a certain period of time.]

Finally.

As the flames on Liao Zixuan's body grew bigger and bigger, they even covered his original body and condensed into a huge wolf soul completely composed of flames.

Fallen Abyss 'will seemed to have an emotion called fear.

The giant black hand in the sky struggled violently. It wanted to avoid Liao Zixuan's charge because it knew that if it was hit by this attack, it would immediately dissipate.

However, how could the Silver Wolf's soul let it go at this time? The wolf pack bit the black giant hand even harder, desperately stalling the other party for their king, making it impossible for the black giant hand to dodge.

Just like that.

With the addition of Dark Flame, the Soul Flame that possessed true damage, with Liao Zixuan's wolf body as the carrier, was like a meteor in the sky. Unfortunately, it was shot from the ground, and with an aura that could tear everything apart, it collided with the huge black hand in the air.

Boom!

Following a loud sound.

The giant black hand shattered into pieces in an instant. The countless small black hands scattered in all directions, but the surroundings were filled with scorching black flames. There was no gap for them to escape.

All of them were twisted, wailing, struggling to be swallowed by the flames, disappearing into the black flames.

From the depths of the Dreadclaw Forest, a furious wave of extreme unwillingness came.

Unfortunately, when the last pitch-black hand was burned to ashes and Fallen Abyss 'will once again lost its carrier, this angry aura stopped abruptly and disappeared.

What was left.

There was only a huge black wave floating in the air.

And...

The entire Silver Wolf tribe surrounded this black wolf like stars surrounding the moon. The Silver Wolf souls were unwilling to leave..

Chapter 76: Cannon Fodder Monsters Don't Have Dreams of Being Superior

He quickly returned to the stone hill.

Liao Zixuan's expression was a little solemn.

Because Xue Li was waiting for him there.

However...

The condition of this Silver Earth Wolf was clearly not very good.

Previously, in order to help it resist the monsters that attacked crazily under the will of the Fallen Abyss, it had risked its life and fought desperately. In the end, it did not let any Fallen Abyss monsters approach the hill, but it itself was inevitably injured.

One had to know that the injuries caused by Fallen Abyss creatures were completely different from ordinary ones.

Anyone who was bitten by these monsters would be corroded by the Fallen Abyss and eventually be corrupted and assimilated into monsters like them.

This was the situation Shirley was in.

wu...

Wuuuu...

When the Silver Earth Wolf felt Liao Zixuan approaching, it lowered its mouth and whimpered weakly.

It had only been a short while, but Shirley's body was already showing signs of rotting.

Its originally snow-white fur was rapidly dimming and falling off. Its four limbs could no longer stand because the muscles in its entire body were gradually shrinking and losing vitality.

Even Xue Li's beautiful eyes, which had always been full of intelligence, had become extremely cloudy. It was obvious that she was fighting against the corruption of Fallen Abyss. Sometimes she was awake, and sometimes she was confused.

However, as time passed, the clarity in Xue Li's eyes became less and less.

Its eyes were getting closer and closer to the blood-red color that was filled with violence and madness.

The souls of the Silver Wolves that Liao Zixuan had just purified from Fallen Abyss were now surrounding Xue Li. They looked at Xue Li with sorrow. They looked at their last clansman who had failed to escape Fallen Abyss's clutches.

wuuuu...

Using her last bit of consciousness, Shirley turned to the pitch-black wolf in front of her, whose vision was already blurry, but she could still vaguely recognize it.

Just like all the Silver Wolves that had been corrupted.

But...

This time, Liao Zixuan did not respond.

He did not accept it.

Of course not.

This was because Xue Li's situation was different from other wolves that had already been corrupted. She had just been invaded by the Fallen Abyss, and the degree of corruption was still within a certain range.

Without hesitation.

Liao Zixuan decided to take a big gamble.

The black wolf jumped forward and used its strong claws to press down on Chers limbs, which were showing signs of turning into a corpse.

Then, Liao Zixuan took a deep breath and a large amount of black flames quickly condensed in his mouth, finally forming a dark flame power with terrifying power.

Then, without any hesitation.

Liao Zixuan had actually shot this dark flame ray that could melt everything directly at Xue Li, who was being held down by him.

Whoosh!

Sizzle...

The scorching Dark Flame Rays burned through Shirley's body, but it didn't melt her flesh. Instead, it was like a steam bath, forcing out some of the filth in Shirley's body.

Under Liao Zixuan's continuous breathing of dark flames, more and more black matter began to appear on Xue Li's body. If one zoomed in and looked carefully, they would discover that it was a small black hand that had yet to grow.

They couldn't withstand Xue Li's burning body and instinctively tried to escape, but just as they emerged, they were instantly annihilated by the Dark Flame Rays.

Just like that.

The whole process lasted for about 15 minutes.

Liao Zixuan was almost exhausted.

Liao Zixuan finally stopped breathing when there was no more black substance leaking out of Xue Li's body. The original evil power was completely swept away and disappeared.

With a smack.

Liao Zixuan panted as he sat on the ground.

The majestic black wolf had long disappeared. The exhausted him had returned to his familiar, cute little wolf form.

However, Liao Zixuan could not afford to rest.

He quickly stood up and walked towards Xue Li to observe the Silver Earth Wolf's condition.

Xue Li was still unconscious, but her breathing had become much more stable. Her hair was no longer falling off, and her flesh was no longer shrinking.

It could even be said that the hair and flesh that had been lost due to the corruption of the Fallen Abyss were actually filled up by Liao Zixuan's dark flame power.

The Dark Flame was like flowing lava, moving around Xue Li's body. It looked strange, but also had a different kind of beauty.

This forbidden energy that belonged to the Dark Flame Wolf seemed to be continuously fusing with Xue Li, being absorbed by her into its source.

Suddenly.

Liao Zixuan's expression changed again.

Because even though he had already reached this stage, the moment he stopped breathing, the power of the Fallen Abyss seemed to be able to appear out of thin air. It was like it was making a comeback on Xue Li's body, showing signs of appearing.

However...

After Liao Zixuan observed it carefully, he heaved a sigh of relief.

This was because when his dark flame energy was absorbed by Xue Li and fused into her body, the Fallen Abyss 'power seemed to have an equal opponent, and both sides were in a stalemate.

Normally, with the aptitude of the Silver Earth Wolf, it would be impossible for it to withstand the dark flames. Even if it managed to absorb it, it would soon be unable to withstand the pressure and might even self-immolate.

However, who would have thought that it was the power of Fallen Abyss that

had helped Xue Li hold back the dark flames. Any one of them could easily destroy Xue Li's body, but when both of them existed, they could strangely neutralize each other.

Just like that, Xue Li's original source, Dark Flame, Fallen Abyss.

The three forces intertwined together.

It was as if a certain balance had been achieved.

Ah, this...

The wolf cub scratched its head with its small claws.

Liao Zixuan really couldn't handle this.

He didn't care.

The most reliable was naturally the game system. In the end, when he threw a "detection" on Shirley...

[Fallen Flame Silver Wolf-Shirley] [Status: Transforming]

The wolf cub rubbed its eyes in disbelief.

Then, he looked at the words "Fallen Flame Silver Wolf" on Xue Li's interface.

This was...This was...

Mutated? Evolved?

Even their race had changed?

Liao Zixuan had never heard of a Fallen Flame Silver Wolf in Fallen God.

Let's not talk about anything else.

Just the name alone sounded awesome.

Something's wrong, Shirley!

There's something wrong with you!

You're clearly just a cannon fodder monster!

Did he take the wrong script?

Why does your plot look so familiar to me!

Wasn't this f \* cking...Was this the most classic scene in novels, the one he loved to read the most? The scene where the main character survived a disaster and had a fortuitous encounter, his potential soared, and he directly turned into a peerless genius?

It was bad, it was bad.

Could it be that I've become a supporting character?

Then, just as Liao Zixuan was cursing in his heart, Xue Li slowly regained consciousness and finally woke up from her coma.

Xue Li's appearance had changed drastically. Not only had she become much more muscular, but she had also transformed from the snowy white fur of a Silver Earth Wolf into a half-black and half-white wolf.

However, it had to be mentioned that Cher's looks did not decrease at all. Instead, she no longer looked as monotonous as before. She had a different kind of beauty. She was very beautiful, although there was still a hint of... Feeling indecent?

Soon after, Liao Zixuan's feeling was confirmed.

As Xue Li regained her consciousness, she immediately looked around, trying to find the giant black wolf. However, after looking around, she finally lowered her head and found Liao Zixuan who had transformed back into a small wolf cub...

Who would have thought?

Xue Li shook her body, she could actually freely control the size of her body, and began to shrink her body rapidly.

In the blink of an eye.

Before Liao Zixuan could react, a cute little she-wolf with black and white stripes appeared in front of him.

The two little wolves stared at each other.

They looked at each other..

Chapter 77: New Student (1)

Shirley: [j (U ÜÜÜ (j) [j

Liao Zixuan: (-0)

Xue Li tentatively took a step forward and moved closer to Liao Zixuan.

Two steps, three steps...

Seeing that the wolf cub didn't seem to reject her, Xue Li suddenly became bolder. She used her own chubby body and began to rub against Liao Zi Xuan affectionately.

Finally.

Liao Zixuan couldn't help but ask.

The little wolf cub gave him a vicious slap.

He ruthlessly kicked Xue Li away.

Immediately, Xue Li got up and revealed a pitiful expression.

It had to be said that if it was the original big wolf Cher, this might not have happened at all, but now that she had turned into a small wolf cub, the younger and cuter she was, the better the effect of acting cute and pitiful.

However...

Liao Zixuan still had his own principles!!

Although wolves could, they could not...

He reached out his little paw in exasperation and pointed at Shirley with trembling hands.

“You, you, you...!”

“What a disgrace, what a disgrace!

“Hurry up and change back! ”

Judging from the size of Xue Li that he had met at the beginning, Xue Li’s true age was definitely past the childhood stage and had entered the growth stage. She was a virgin.

If it was again, Liao Zixuan was only three years old, three years old!! Comparing it with a young wolf cub...

That was equivalent to an old auntie!

An old cow eating young grass, this wasn’t how it should be eaten!

Too much punishment!

Besides...

You’ve also become a little brat. Then who should I ride??

Liao Zixuan promised.

He definitely didn’t urge Xue Li to change back because of this last condition.

After being rejected by Liao Zixuan, Xue Li's eyes were filled with tears.

However, she was still very smart. After obtaining the evolution mutation, even her intelligence had soared by a large margin. She knew that haste could not eat hot tofu. If she wanted to successfully advance, it would not be in a short period of time.

Did she accidentally say something just now?

In short.

Xue Li obediently shook her body again and her body expanded again, returning to her original wolf form.

The wolf cub sat back on Shirley's body.

Well...

It was still considered a little good after evolving.

At the very least, this ride felt more comfortable than before! It was also much more eye-catching!

After sighing in his heart, Liao Zixuan was ready to let Xue Li take him away.

After all, it was not good to stay here for long.

Liao Zixuan could vaguely sense that in the nest deep in the Dreadclaw Forest, the source of the Fallen Abyss's descent, the bone dragon transformed from the will of the Fallen Abyss, was completely enraged by his actions.

The other party even wanted to give up on completely corrupting Bella's soul fragment in order to absorb the power in advance and then completely awaken.

In less than a day's time, this terrifying bone dragon would break out of its nest tomorrow at most.

At that time, all the infected and corrupted Fallen Abyss creatures in the forest would go from wandering unconsciously to obeying orders and launching a crazy general attack on Red Flame Town.

This was actually only a matter of time. It was just that because of his own reasons, it had been brought forward a little.

Red Flame Town would definitely not be able to hold on.

In the end, the only one who could resolve this situation was that person...Fire God.

To be more precise, it was the Fire God's clone in Fire Code City, which was Damir's teacher, the Fire God Church's archbishop, Maggie.

Sigh...

He hoped that the Fire God was more reliable. His consciousness hadn't been eroded too much by the Fallen Abyss.

Although he had the upper hand in the confrontation with Fallen Abyss's power and completely destroyed it, Liao Zixuan was not arrogant enough to say that he could really match Fallen Abyss.

Fallen Abyss was an evil force that ran through the entire game. Even Nine Gods, who had the strongest combat power on the surface, couldn't handle it. There were even a few who had failed miserably.

With his current childhood, he was far from being able to fight Fallen Abyss head-on.

Moreover...

There was no need for him to fight head-on.

As the saying goes.

He wanted to use a natural disaster to defeat a natural disaster!

In the game world, players were the number one productive force!

He had to seize the time to think of a way to increase the strength of the players. Then, before the end of the closed beta, he would harvest the experience of another wave of players and let himself leave the infancy stage and officially enter the growth stage!

The little wolf cub silently calculated in his heart.

He was currently at Level 17. He was three levels away from breaking through to Level 20, and the EXP required for these three levels was...

350W!

It was not even a small change.

It was that terrifying.

If he relied solely on himself to kill the monsters, he did not know how long it would take. It could not be helped. As a forbidden monster, if one's growth speed was extremely fast, would others still be able to play with them?

However, Liao Zixuan really didn't want others to play with him.

Currently, there were about 200 players in Red Flame Town. Liao Zixuan estimated that the number of closed beta players in the entire Fire Code City could double to about 500.

Although this number was not even close to the number of players that had gone crazy after the official launch of the server, it could not be helped. God Fallen had such a strict restriction on the number of closed beta slots.

But, um...

500 leeks should be enough.

Think about it, as long as you can get 5000 experience points from each player, that would be 2,500,000 experience points.

With a little more effort and a few more high-quality leeks, 3,500,000 experience points would not be difficult.

Therefore, the only thing Liao Zixuan needed to consider now was...

He just had to think about what else he could do to make the players willing to be squeezed dry.

He was thinking about something in his heart.

However, Cher, who had just started running, stopped again.

Just as Liao Zixuan was wondering what was going on, he realized that the Silver Wolf souls that he had previously released and purified were blocking his way.

He saw that the number of these Silver Wolf souls was much less than before.

The ones who disappeared were the young wolves and the older wolves with weaker soul power.

As for the young Silver Wolves who were in their prime and in their growth period, their soul power could support them and would not dissipate for the time being.

The souls of these adult silver wolves were all looking at Liao Zixuan on Xue Li's back with longing eyes.

It was as if he hoped Liao Zixuan could revive them like Xue Li.

Every Silver Wolf's soul transmitted a strong desire for revenge.

They weren't greedy for life, but they wanted to take revenge on Fallen Abyss, who had destroyed their race and taken their lives.

Unfortunately.

The little wolf cubs on Xue Li's back shook their heads at the unwilling Silver Wolf souls.

Resurrection...

It was indeed not something impossible.

If that little phoenix called "Xinyan", the other forbidden demonic creature that was equally famous as him in the Flame Domain, came, perhaps he could really do it.

However, Liao Zixuan was helpless at the moment.

After all, the authority of the Dark Flame Wolf did not have the concept of "resurrection".

The reason why he was able to save Xue Li was firstly because Xue Li wasn't completely affected by the corruption of Fallen Abyss, so he was able to save her in time. Secondly, it was also because of a huge amount of luck. Such a miraculous phenomenon was very difficult to replicate.

However...

Just as the Silver Wolf souls saw Liao Zixuan shake his head, their eyes dimmed and they were about to turn around and leave...

“Wait!”

“If you... He really wanted to take revenge on Fallen Abyss.” A flash of inspiration.

Suddenly, a bold idea popped up in Liao Zixuan’s mind.

He immediately opened his mouth and called out to the Silver Wolf souls.

“If you want to continue fighting.

“In a sense, it can also be considered as giving you a new life. Moreover, you can quickly become stronger, several times stronger than before, and no longer have to fear being contaminated by the power of the Fallen Abyss.

“Even...I no longer have to fear death!”

Chapter 78:

Humph...Humph... Humph!

Vivian was humming in the kitchen. It was a song she often heard from her mother when she was young. Although she could not remember the lyrics, she still had a vague impression of the melody.

The little girl had been busy the whole morning. She had cooked pot after pot of fragrant meat soup.

Opening the lid, Vivian scooped a spoonful of soup from the bubbling soup. After blowing on it carefully, she put it into her mouth to taste it.

Yes

Immediately, a comfortable sound like that of a kitten came out from the girl's nose.

"Too... Too good to drink!"

Vivian's eyes sparkled, and she couldn't help but sigh with happiness.

For the poor village girl from before, it was not easy to eat meat, not to mention that she could add all kinds of condiments and auxiliary dishes to cook for a long time.

"I didn't expect you to be so talented in cooking, Vivian! "The little girl praised herself and waved the spoon in her hand excitedly in the air. She didn't usually have the chance to cook meat dishes.

This was the girl's first attempt.

"Good luck! Just like that, he would first conquer Little Black's stomach so that Little Black would never be able to leave him again, and then... Humph!" This was the information that the little girl had obtained from eavesdropping on the conversation of the female strangers.

Vivian was planning excitedly, her first step towards becoming a great summoner.

However, she soon became depressed again. She reached out and touched her poor body. She had already secretly eaten a big bowl of meat soup, but there was still no progress.

"Sigh..."

“When can I grow up a little...” Unknowingly, the young girl had her own troubles.

However, in the next second, this annoyance transformed into an even greater annoyance, or rather...

Shame?

“Little... Xiao Hei?”

When Vivian turned her attention away from her figure and looked up again, she was surprised to find that the window facing her in the kitchen had been opened, and a wolf cub appeared by the window.

At first, the little girl was happy that Blackie was finally back.

But then, Vivian noticed that Liao Zixuan was trying to hold back his laughter.

And...

After the look of “ I didn’t expect you to be like this, Vivian “, the girl immediately associated it with her actions just now, and her face immediately turned red to her ears.

Sigh...

The wolf cub by the window sighed deeply like an old man.

It seemed that Vivian had also reached the age where she would start to think about those things. This seemed to be something that every girl would more or less experience.

Liao Zixuan felt that it was a pity that he could not help the girl in this aspect.

Vivian could only rely on her own efforts.

The smell of the meat that had jumped into the kitchen from the window immediately aroused his appetite, and his stomach began to growl.

Liao Zixuan opened a pot with his claws, ready to taste Vivian's boasting just now and see if there was any falsehood in it.

Seeing this, Vivian immediately clenched her hands, her expression filled with nervousness and anticipation, as if she was an examinee checking her results.

At first, the little wolf cub was still testing the taste with its tongue, but soon, it turned into a big gulp and directly swallowed it into its stomach.

Although Liao Zixuan was too busy eating to talk, Vivian could tell from the little tail wagging behind the wolf cub that he was at least enjoying it.

After a while, the whole pot of meat soup was in Liao Zixuan's stomach.

However, he was clearly still not satisfied. He turned around and continued to open the second pot.

At this moment, when Vivian saw Liao Zixuan pouncing on the new pot of meat soup, the little girl subconsciously wanted to remind him of something.

However, it seemed that there was a hint of anger in it. Vivian deliberately waited for Liao Zixuan to take a big gulp before pretending to be anxious and reminding him,

"Xiao Hei, don't! That pot is..."

Before he could finish speaking, he heard a thud.

Liao Zixuan vomited all the wine he had just drunk.

Then, the wolf cub staggered a few steps. In the end, it seemed that it really could not resist. It directly fell to the ground with its four limbs facing up in a daze, as if a little Liao Zixuan's soul floated out of its mouth.

"That pot is...The other one I made..." Vivian Vivian finished her sentence in a

low voice.

Previously, the little girl felt that she couldn't always occupy the body by herself. It was also good to let the other her come out and breathe.

In the end, it was naturally a mess.

When the other personality imitated the main personality and made a pot of meat soup, the second personality immediately shut herself off and refused to come out again.

"Alright, Xiao Hei, if you're full, help me take the rest out.

Vivian had been busy for a long time, and of course, she did not only cook for Blackie.

The little girl had also done something for the outlanders and guards of Red Flame Town. Vivian might have changed a lot because of Liao Zixuan, but what had never changed was her kind and pure heart.

Well...

Alright, whether it was pure or not, it seemed to be open to discussion.

"Speaking of which, Xiao Hei, since just now, the town square outside seems to be very lively. Did something happen?"

Vivian looked out of the window curiously as she moved the pot of meat soup onto the cart.

Liao Zixuan stopped pretending to be dead.

He immediately turned over and stood up, his eyes looking like he was about to scam someone...Cough, it was the eagerness to do something big.

Why was Red Flame Town so lively?

This was because the first batch of Summoners had finally obtained enough materials for the summoning ritual in the Dreadclaw Forest. They were about to begin their first summoning in their lives.

Naturally, there were many people watching and joining in the fun.

After all, everyone was curious about the Summoner class like Vivian.

In addition, the Summoner class was different from other classes. It had a very strong sense of randomness, so naturally, the program's effect was full.

So, after a while...

Many players of other classes became players.

Why?

This has to be said that the summoner profession is a cheat, and the random nature of the summoner. In fact, you say that the summoner is not strong, strong, but the problem is that you are strong, and you have to build on the foundation of a strong summoned beast. You can also say that it is a strong foundation.

It was precisely because there were too many African chiefs that the Summoner class's reputation had deteriorated and was ranked at the bottom of the malicious rankings.

Just imagine, after you had worked hard to gather the materials for a long time, you summoned a little chick with less than 5 combat power. How would you feel?

Most of the Summoners in the Red Flame Town square felt the same way.

As for the other professional players, they were all very happy at this moment.

How could this not be lively?

After all, the joys and sorrows of humans were always different.

However...

Hehehe.

The little wolf cub believed that soon, this sorrow and joy would immediately be reversed.

That was because...

Liao Zixuan looked at the props he had prepared in his backpack.

[Silver Earth Wolf's Soul Crystal]

[Rarity: Purple]

[Description: A Silver Wolf of the Earth that thirsts for rebirth and revenge has been sealed inside, waiting for someone to awaken it.]

[Effect: Use it as a medium during the summoning ritual. There is a 100% chance of summoning a rare monster-Silver Earth Wolf]

This was the opportunity for the Summoner profession to rise.

Similarly, Liao Zixuan had promised the souls of these silver wolves a way to give them a new life!

However...

As a qualified black-hearted wolf cub, no, a responsible wolf leader, he naturally could not casually hand over these silver wolf souls.

He had to entrust it to players who were capable, responsible, persistent, and never gave up!

so...

Open the blind box!

Liao Zixuan glanced at the other 99+ Lesser Demons 'Soul Crystals in his backpack.

As the saying went,

Only the harder it was to obtain something...

Only then would he know how to cherish it!

Chapter 79: New Life (1)

One soul guides light, and the other guides darkness. Finally, light and darkness create a chaotic environment. Ritual summoning, come out, Chaos Knight! Descent! ”

Long Road chanted a complicated and mysterious incantation. In front of him was a glowing magic circle.

When the last syllable ended, Long Road pressed the ” summon ” button.

In an instant, the summoning array in front of him shone brightly.

All the other players who were watching were also shocked by the professional terms.

Everyone held their breaths and looked curiously at the summoning array.

Only his underling, who had been following him for a long time, was complaining about his boss in a low voice at such a critical moment.

“Boss, you said the lines wrong.

Long Road’s eyebrows twitched.

“He’s a Chaos Warrior, not a Chaos Knight.”

Long Road’s eyebrows twitched.

Also, these are Yu-Gi-Oh’s lines. There are no Chaos Warriors in Fallen God... Ah! It hurts! Boss, why do you keep hitting me...”

He couldn't take it anymore. He didn't even look at what he had summoned. He turned around and gave his little brother, who was still nagging in his ear, a hard blow.

"Are you the only one who talks too much? You're the smart one!"

"Aiyo..Aiyo boss, stop hitting, ah! Stop fighting! Look at Boss! Your Summoned Beast is out!"

The lackey pointed at the summoning circle behind him with a face full of surprise.

It was as if the long road had really summoned some awesome baby.

Looking at his lackey's exaggerated expression, Long Walk felt a little misled. He immediately stopped beating people up and turned around expectantly.

And then...

Meh!

A little lamb was standing at the center of the summoning circle in a daze.

When it realized that the long road was long and its eyes met, the little lamb seemed to have finally found its kin. It immediately meowed a few times and ran happily towards the long road.

You... Don't come over!

The road was long, and at this time, he just wanted to find a hole to hide in.

The spectating players were also stunned. Many of them were holding their bellies and laughing. "'s voice sounded.

No...It was alright!

The ritual just now was ruined by his blind underling, so it failed. Yes, that must be the case!

The long road was not discouraged.

He had prepared a total of three sets of materials to summon the medium for this purpose, which meant that he had three chances. Now, he had only used it once. There were still two more chances left!

Again!

This time, he had learned his lesson. He fiercely glared at all the ignorant underlings around him and made sure that no one would disturb him again. Then, he began his second summoning.

“Your body is under my command, and my fate is attached to your sword.

Answer my call, obey this will, and answer me! The guardian of the world!”

The Long Road seems to like saying famous lines.

Because he felt that this would give him strength!

The Summoning Circle shone brightly once again, and the noisy players who had been watching the show earlier could not help but quieten down once again.

However...

After the light faded.

woof!

Woof woof!

A big yellow dog stuck its tongue out at him.

The medium of the summoning ritual was very important, but with the current level of the closed beta players, they could only make the lowest level, so the probability of a good summoning beast was very low.

After all, not everyone was called Vivian.

That was a terrifying existence who could rely on the lowest level summoning and then contract the most top-notch forbidden demon on the contract. The Lady of Fortune was so terrifying.

However, to be honest.

The probability of a long journey was indeed a little ridiculous. Although the summoning medium was very low-level, which led to a lot of random, it was not to the extent that it was an animal that was not even a monster, no, not even a beast.

Long Road was furious.

He only had one last chance left, so he did not want to do anything fancy.

“At the price of not being able to find a girlfriend for 20 years, I’ll sacrifice all my luck with women. Come out, Rare Grade Magical Beast!!

Perhaps even the heavens couldn’t stand it anymore.

Or perhaps, he was finally able to speak human language that people could understand.

The aura of a monster finally came from the summoning circle. A one-meter-tall monster ape appeared in everyone's sight.

[Forest Ape]

[Level: 5]

[Attributes: Strength 4, Agility 2, Endurance 3, Constitution 3, Elemental

Affinity...] None

[Race: Devil Ape]

[Rarity: Normal]

"Hahaha, I succeeded, I succeeded! "Long Road Man Man was overjoyed and almost cried.

He didn't even care about the extremely ordinary attributes of the demonic ape. After all, it was a competition. Compared to the previous two small animals that couldn't even fight, this demonic ape was simply too good.

However, it was still the same sentence.

He was afraid of competition in everything.

"Hehe, I spent so much experience points to learn the Summoner profession and then collected so many materials. In the end, I summoned this thing?" In the crowd, the big mutt could not help but mock.

Because of what had happened before, he did not have a good impression of the Summoner class and the Long Way to Go.

And now, seeing that the other party's efforts and returns were completely disproportionate, of course, he was secretly delighted. He even mocked him to relieve his previous anger.

"Are you f \* cking looking for trouble?" The road ahead was long, and this temper was rising..

Chapter 80: New Students (Part 2)

"Why? Isn't it the truth that I'm talking about you? I can crush a trash Summoned Beast like you with one hand!

The big mutt did not back down at all. It even hooked its finger at the devil ape beside Long Road Man provocatively.

In the end, before Long Road Man could give the order, the monster ape, out of protection of its master, roared angrily and pounced on the big mutt.

And then...

Without any suspense, he was sent flying by the big mutt's kick. In the end, he lay on the ground like mud and could not get up.

This was the reason why Summoners would be criticized in the other assembly.

Unless they had a Summoned Beast with good attributes right from the start, their growth period was slow, and their strength would not increase significantly in the early stages. They were far inferior to other classes.

"Everyone saw it. His Summoned Beast attacked me first. I didn't take the initiative to attack.

“Let’s go.”

The big mutt was also considered to have stopped while he was ahead. After venting his anger, he felt refreshed and left with his group.

Long Road Man gritted his teeth, but unexpectedly, he endured it and did not stop the big dog from leaving. He wanted to start a group fight in this PVP.

Firstly, he and his underlings had just deleted their accounts and retrained, so it was inevitable that there was a gap between their levels and the big dog and the others.

Although they had managed to catch up with Vivian’s previous missions, they also realized that their combat power was far inferior to that of the warrior class.

Once the players from both sides fought, they would definitely be the ones at a disadvantage.

The long road was not an exception.

As more and more Summoner professional players gathered media materials and summoned them, most of them were ordinary monsters. This once caused Summoner players to become the laughing stock of all other players in Red Flame Town.

It was only when one or two lucky ones managed to summon elite-grade monsters using low-level media that the reputation of Summoners improved. It also gave hope to the players who had been waiting for a long time to change their profession.

This was the strength of a Summoner.

Even if you were a weak chicken, just like the lucky player who summoned the [Lava Dragon Lizard], the other party was a female player who was just for entertainment. She had not even leveled up at all. Her main body was not even level 10 yet, and the experience points she obtained from the mission were all squandered elsewhere.

Even so, when the Lizard appeared, the Elite monster's attributes instantly blinded many players. Some Warrior players were not convinced and wanted to challenge it like the big dog, but they were instantly killed by the Lizard's fire!

Up until this point, some were jealous and some were envious. However, the majority of the players still held a pessimistic attitude towards the Summoner class. After all, compared to being a gambling dog with a high price, it was better to be down-to-earth.

This situation continued until Vivian and the wolf cubs appeared.

[Everyone, you've worked hard. Let's have a meal!] "Vivian borrowed a servant from the mayor's house to help distribute the meat soup that the little girl had made to the players.

The players then realized that Vivian had been preparing food for them.

However, after opening the lid of the pot, the fragrant smell of meat soup filled the square, immediately making many players eager to eat.

Fallen God had a high degree of immersive realism, so he could experience the delicious food in the game.

The first player who went to ask for a bowl of meat soup soon let out a surprised sound.

This was because the bowl of meat soup in front of him could be considered a

special prop. [Meat stew carefully prepared by Vivian]

[Rarity: Rare]

[Description: Vivian spent the whole morning cooking with all her heart to express her gratitude for your contributions to Red Flame Town and the surrounding villages.]

[Effect: Recovers 5% of lost HP after consumption]

(Remark 1: After being cooked by Vivian, you might be able to smell like a girl after drinking it.)

What the hell was with the scent of a young girl!

The player complained a little and drank it in one gulp. He smacked his lips in aftertaste. It was indeed very delicious.

In a good mood, he decided that now was the time.

This player was also a Summoner, but he had been hesitant because he was afraid that he would not be able to summon any powerful monsters. However, he still had to face it, so he began his first summoning.

Then...

F \* ck!

Woah! Woah!

The summoning circle glowed with a different kind of green light, which was a sign of an Elite monster.

The player was dumbfounded.

What followed was ecstasy.

He...He actually had a day where he could break away from the non-European world and enter Europe!

He changed his bloodline! He changed his bloodline! Let's see who dares to call him Fei Qiu in the future!

However, before he could celebrate his good fortune, another player next to him had the exact same thing happen to him.

Wait, what was going on?

Summoning Elite-level monsters was harder than winning the lottery. Why did Vivian summon two of them now?

No, f \* ck! The third person was also a person from the United States!

If one or two of them were an accident, then after three or four of them, the players finally realized that it was not them who changed their bloodline, but them...

It was because of Vivian!
