

O game 101

Chapter 101 - One million gold coins in hand!

But all of that is no longer important. He is now only three hundred thousand gold coins away from his target of one million gold coins.

He just needs to get a Guild Creation Token, and he'll likely have enough.

The mechanism triggered by this two-headed demon wolf king is somewhat similar to the Blood-Eyed Dragon Turtle.

If he farms it a few more times, he should be able to get one.

Once the two-headed demon wolves respawned, Lin Tianhao attacked without hesitation.

His arrows constantly pierced the air, and the two-headed demon wolves couldn't withstand a single arrow from Lin Tianhao.

Only the Black Iron level two-headed demon wolves could withstand six arrows from Lin Tianhao.

But with Lin Tianhao's attack speed, they would all be dead in less than five seconds.

It just kept repeating like this.

After farming it five times in a row, Lin Tianhao's health didn't increase much, but he did get quite a few skill books and equipment.

Attack: 19,180.

Skills: Two-Headed Ray, Demonic Energy Barrage, Flying Shadowless Claw, Demonic Wolf Roar, Shadowed Ninefold Claw, Bloodthirsty Red Eyes, Lone Wolf Instinct, Demonic Illusion Clone, Blood Demon Curse, Body of Dominance, Berserk.

With nearly seven million health, its attributes were just so-so.

Lin Tianhao didn't care, and he raised his hand to unleash a torrent of arrows.

"Howl—"

The two-headed demon wolf king roared, it didn't understand how a human, as insignificant as an ant, dared to provoke it, a level 50 boss.

Its two heads simultaneously opened their bloody mouths, and rays of energy surged out.

"Boom!"

The rays hit Lin Tianhao.

-23985.

-23999.

Two huge damage numbers appeared on Lin Tianhao.

It actually took away nearly one and a half percent of Lin Tianhao's health, this was simply murder!

The two-headed demon wolf king in the distance was stunned by its own "high damage", so much so that it didn't react for a moment.

Lin Tianhao raised his hand.

Twelve arrows per second.

Swish swish swish...

The arrows constantly pierced the air, and in just one second, the two-headed demon wolf king lost more than two and a half million health.

"Howl—"

The two-headed demon wolf king let out a terrified howl after seeing Lin Tianhao's damage.

Its wolf tail was even clamped tightly at this moment, looking like a weak and helpless little wolf cub.

Lin Tianhao didn't stop at all and raised his hand again.

Seeing that trying to please him was useless, the two-headed demon wolf king couldn't help but roar.

Body of Dominance and Berserk were fully activated.

At the same time.

A cursed mark appeared on Lin Tianhao's head.

"Ding, you have been cursed by the two-headed demon wolf king, Attack -75, Magic Power -75, duration five minutes."

Lin Tianhao raised his eyebrows, is that all?

This curse had a negative effect, so it was reduced by eighty-five percent by the Purification Jade Pendant.

The actual effect was a simultaneous decrease of five hundred in magic power and attack.

But.

What does a decrease in attack and magic power have to do with him?

Even if his attack power was cursed to zero, the impact on him would be minimal.

"Swish swish swish..."

Two seconds later.

The two-headed demon wolf king fell.

It had already tried its best to fight Lin Tianhao, but the difference in strength was too obvious.

"Ding, you have completed the first kill of the two-headed demon wolf king, a server-wide announcement will now be made, do you want to hide your name?"

"No."

"Ding, congratulations to player Xue Di for completing the first kill of the two-headed demon wolf king, hereby announced, may all players continue to work hard."

"Ding, congratulations to player Xue Di for completing the first kill of the two-headed demon wolf king, hereby announced, may all players continue to work hard."

...

The server-wide announcement rang out, Lin Tianhao was already used to it.

After all, after ordinary players complete their first job change, server-wide announcements for boss first kills are not that rare.

This is because Lin Tianhao was basically farming high-level monsters.

Lin Tianhao had basically not touched any bosses below level forty.

Next.

Is the much-anticipated looting phase.

"Ding, you have obtained Equipment +11."

"Ding, you have obtained Skill Book +5."

"Ding, you have obtained Guild Creation Token +1."

"Ding, you have obtained Free Attribute Points +50."

"Ding, you have obtained Dungeon Opening Scroll +1."

...

A series of prompts rang out, Lin Tianhao's harvest was considerable.

The most important thing was the Guild Creation Token.

This was Lin Tianhao's main purpose for farming here.

Thinking of this.

Lin Tianhao sent the attributes of the Guild Creation Token to the group chat.

"@All Guild Creation Token, starting bid 100,000 gold coins, any bids?"

Shura Yize: Zeze, as expected of Xue Di, you got the Guild Creation Token so quickly, our Shura Guild bids 150,000.

Jinghong Mengshuang: Aiya, brothers, don't compete with your little sister, I bid 200,000 gold coins.

Crazy Blade: . . . 300,000.

Jinghong Mengshuang: . . .

Shura Yize: Blade, you, I.

Floating Wolf God: . . . Brother Yize, calm down, but Brother Blade, where did you get so many gold coins? You just spent 500,000 gold coins, and now you're taking out another 300,000?

Crazy Blade: Cough cough, many gold farmers.

Shura Yize: I don't believe that your thousands of gold farmers can farm so many gold coins, is there a good place to farm gold coins? Blade, don't be selfish, share it.

Floating Wolf God: Everyone has their own opportunities, but we, Floating Wolf, also have 300,000 gold coins, but I feel that the Guild Creation Token is not worth that much now. In another half a month, we should be able to get one ourselves.

Floating Wolf God's words were very pertinent.

Now they have already completed their first job change, and in another half a month, the elite team reaching level thirty is not a problem.

The demand for the Guild Creation Token will naturally not be so great.

The key is the price.

Three hundred thousand gold coins.

With the scarcity of gold coins in the early stages of the game, not many people can afford it.

In the end.

Crazy Blade won the Guild Creation Token with 300,000 gold coins.

With the Guild Creation Token sold, Lin Tianhao was only 100,000 gold coins away from his target of one million gold coins.

He had a little over 100,000 gold coins in his hand, 500,000 for the Heart of the Lord, and 300,000 for the Guild Creation Token, which was just over 900,000.

"Next, I'll sell some skill books, also in the form of an auction."

Lin Tianhao still had quite a few skill books that he got from farming the level 50 two-headed demon wolves.

After all, they were all first kills, so the drop rate was not bad.

"A total of fifty skill books, sold as a package for 200,000 gold coins."

Crazy Blade: Okay, Xue Di, I'll take them all.

Jinghong Mengshuang: . . .

Shura Yize: . . .

Floating Wolf God: . . .

Jinghong Mengshuang: Brother Blade, I won't say much, send me your gold farming guide.

Shura Yize: Wolf God, Mengshuang, it's time for us to unite, if we let this kid Blade continue, where will we have a way out?

Floating Wolf God: Blade, don't force us to take action, consciously send out the gold farming guide, you've already earned enough.
