

O game 102

Chapter 102 - Blessing from the God of Wealth!

Lin Tianhao knew the situation with Berserker Blade. The boss behind their Berserker Guild had connections with the War Department.

In his previous life, it was revealed in the mid-game that the Berserker Guild was already being operated by the government.

As for gold coins...

Great Xia had millions of soldiers who had entered the game, and that was just a conservative estimate.

Anyway, by the time the game merged with reality, more than ten million soldiers had entered the game.

And that was just the publicly announced data; the actual data might be even more terrifying.

So, don't even mention one million.

Even if Berserker Blade took out ten million gold coins, he wouldn't be too surprised.

"Global Announcement: Congratulations to player Berserker Blade for being the second to establish a guild, rewarding 100 free attribute points. This announcement is to encourage all players to continue their efforts."

"Global Announcement: Congratulations to player Berserker Blade for being the second to establish a guild, rewarding 100 free attribute points. This announcement is to encourage all players to continue their efforts."

... ..

Berserker Blade quickly established the guild.

Lin Tianhao didn't care.

He now had 1.1 million gold coins and could submit the quest scroll.

Submit quest.

“Ding, you have completed the quest, rewarding Blessing of the Gods +1, Free Attribute Points +50.”

More free attribute points as a reward. Lin Tianhao had now accumulated 1,100 free attribute points.

He was still not in a hurry to allocate them, mainly because his various attributes were sufficient for now. He would save them for critical moments in the future and then allocate them specifically.

“Ding, the God of Wealth is bestowing a blessing upon you...”

“Ding, you have received High Interest.”

High Interest (Passive): Cannot be upgraded.

Effect: The coins on your body can automatically increase by one percent every day.

Consumption: None.

Cooldown: None.

Proficiency: None.

Lin Tianhao couldn't help but be stunned after seeing this passive effect of High Interest.

It didn't seem very useful...

No, that's not right.

Damn, he was going to become the richest man!

Whether it was the early, mid, or late game, gold coins were extremely precious.

With enough gold coins, there were many things you could buy.

For example, shops in the main city, weapons in the weapon shop, and the nobility of the Star Kingdom could all be achieved with gold coins.

Twilight of the Gods was a real second world. As long as you had money, everything was easy to say.

Thinking like this.

Lin Tianhao sent a message in the group.

"If you have extra gold coins, you can deposit them with me. You can withdraw them at any time, with a daily interest rate of 0.1%."

Shura Yize: Is this considered illegal fundraising?

Jinghong Mengshuang: Xue Di, you're acting strange. It's not easy for me to save some gold coins. Your daily interest rate of 0.1% is a bit scary. From what I understand, investments with annual returns exceeding 10% are very risky.

Lin Tianhao didn't waste any words and directly posted the passive effect of High Interest.

Shura Yize: Holy crap, holy crap, holy crap, holy crap!! Xue Di, what kind of godly skill is this?

Jinghong Mengshuang: Wait, Xue Di, you're earning a bit too much. You get 1%, but you're giving us a daily interest rate of 0.1%?

Xue Di: Didn't you think it was a scam when I offered 0.1%?

Jinghong Mengshuang: No, not me, you misunderstood. I completely trust Xue Di's character.

Lin Tianhao smiled noncommittally but didn't respond.

Berserker Blade: Xue Di, 0.1% is indeed a bit low. Xue Di, how about we split the interest 50/50?

"0.1%, just 0.1%."

Although he knew that Berserker Blade was a government person, Lin Tianhao would not compromise.

He would not actively provoke government people, but that didn't mean he would blindly give profits to the government.

After all, was it easy for him to earn gold coins?

Shura Yize: 50/50 is unrealistic. Xue Di, how about 0.3%?

Lin Tianhao: I'm going to grind a dungeon. You guys consider it yourselves. Just 0.1%, flexible withdrawal, you can withdraw it anytime.

Closed the group chat.

Lin Tianhao took out the dungeon opening scroll.

At the same time, he sent a message to Zhou Xiaopang.

According to his understanding, he couldn't enter the level 50 dungeon alone now and could only find someone to team up with.

Benefiting others was definitely not as good as benefiting his own people.

After sending the message, Lin Tianhao took out the dungeon opening scroll.

“Ding, you have opened the dungeon [Mutated Magic Wolf].”

Lin Tianhao raised his eyebrows, stepped into the light gate, and at the same time, the system prompt sounded.

“Ding, you have successfully opened [Mutated Magic Wolf]. A global announcement will be made. Do you want to hide your name?”

“No.”

“Global Announcement: Congratulations to player Xue Di for successfully opening the [Mutated Magic Wolf] dungeon, rewarding 50 free attribute points and 100 gold coins. This announcement is to encourage all players to continue their efforts.”

“Global Announcement: Congratulations to player Xue Di for successfully opening the [Mutated Magic Wolf] dungeon, rewarding 50 free attribute points and 100 gold coins. This announcement is to encourage all players to continue their efforts.”

... ..

Lin Tianhao had already chosen Hell difficulty at this time.

The result was the same as last time in the Blackwater Lake dungeon. The level difference was too large, and he couldn't enter alone.

Lin Tianhao smiled helplessly and had to withdraw to wait for Zhou Xiaopang's arrival.

However, what surprised Lin Tianhao was that.

The first to arrive was not Zhou Xiaopang.

But Berserker Blade.

He saw Lin Tianhao and grinned, "Xue Di, can we talk about the interest you mentioned earlier? We can deposit tens of millions of gold coins, and you can earn a lot by then."

Lin Tianhao shook his head, "We can't talk. I'm just earning a little interest money. It's not easy for me either."

Berserker Blade almost vomited blood, but he didn't say much, "Okay, then let me think about it."

After speaking.

Berserker Blade took his team into the dungeon.

Lin Tianhao had a headache.

Berserker Blade had already awakened a hidden class, plus that unlimited Gold-grade set. If he was just clearing the normal difficulty of this dungeon, the probability was still relatively high.

After they went in, Zhou Xiaopang finally arrived late.

“Brother Hao, I was just fighting a boss, and it was at low health. It was a bit of a pity to give up.”

Lin Tianhao nodded, “Let's go, enter the dungeon.”

Teaming up with Zhou Xiaopang, Lin Tianhao directly chose Hell difficulty.

As for competing for the first clear of the dungeon.

Lin Tianhao wasn't worried at all. For him, even Hell difficulty was a complete stomp.

The worst thing in Hell difficulty was the Elite-level Two-Headed Magic Wolf with 50,000 health points.

What was the use of that?

No use at all.

It should be a one-arrow kill, and it was still a one-arrow kill.

When it came to the Black Iron-level Two-Headed Magic Wolf, as the Hell difficulty, the Black Iron-level Two-Headed Magic Wolf here had more than two million health points.

But was it useful?

It was still just a one-second kill.

If Lin Tianhao dealt a critical hit, it would be even faster.

Zhou Xiaopang followed Lin Tianhao.

He originally thought that with his current tankiness, he would definitely be able to help Lin Tianhao.

But the result was...

He didn't need to take action at all. Lin Tianhao was directly crushing all the way.

Then, to the Bronze-level Two-Headed Magic Wolf King, with more than 30 million health points, it had some presence.

But that was all!
