

O game 1031

Chapter 1031 - Now that you are here, make the most of it!

A thick killing intent flashed in Lin Tianhao's eyes, his eyes like those of a lone wolf on the prairie, staring fiercely at Gurimu Dengbu.

Especially when he thought about what the Alete star system had done in his previous life, Lin Tianhao felt that even cutting these guys into a thousand pieces would not be an exaggeration.

In the eyes of those guys from the Alete star system, treating human lives as if they were grass was an exaggeration.

When Gurimu Dengbu noticed the change in Lin Tianhao's eyes, his expression changed subtly.

He saw too much in Lin Tianhao's eyes.

"You... you are an exile?!"

"Or a space wanderer?"

"I can see that you have a grudge against our Alete star system, a deep blood feud."

Gurimu Dengbu said meaningfully:

"But the Milky Way world has always been very well protected by that one before. Our Alete star system only arrived after the Twilight of the Gods."

"We have suffered losses in our several confrontations. Logically speaking, you shouldn't have such a deep blood feud with us."

"So, you are not from the Milky Way world either. You were exiled from our Alete star system, or you are a space wanderer who has a grudge against our Alete star system."

Lin Tianhao smiled noncommittally and said:

"You think quickly, but I don't need to explain so much to you."

Gurimu Dengbu gritted his teeth and said:

"Snow Emperor, since we are not from the Milky Way world, we can cooperate."

"No matter how deep the blood feud between you and our Alete star system is, I think it can be resolved in the face of the huge cake that is the Milky Way world."

Lin Tianhao smiled playfully. Resolve the feud?

Impossible!!

"I said, I don't need to explain anything to you. On the other hand, if you don't have any useful information to provide me, I'll continue."

Gurimu Dengbu's legs involuntarily closed slightly.

There was no way around it.

Whenever he thought of Lin Tianhao's words about turning him into a woman, he couldn't help but shudder.

"I have already told you the most important information. As for the rest, you also know that we tried to attack the Sand Sea Poison Emperor in the Moke Latin Great Desert."

"Oh, and here's another very useful piece of news: we were ambushed and suffered a crushing defeat in our operation against the Sand Sea Poison Emperor."

"It was another force, a very powerful force, that forced us into a desperate situation."

Lin Tianhao's eyes narrowed slightly. This Gurimu Dengbu didn't seem to be lying.

Moreover.

Lin Tianhao had some guesses in his mind.

When he was in the Moke Latin Great Desert before, Lin Tianhao had encountered an old Taoist priest with a goatee, an Emperor Realm expert from the Central Continent.

The old Taoist priest with a goatee also told Lin Tianhao about the current situation in the Central Continent.

The situation in the Central Continent is very bad now, so it is likely that other people have escaped to the Moke Latin Great Desert.

If a force suddenly appeared in the Moke Latin Great Desert that could defeat these guys from the Alete star system, then it was likely that they came from the Central Continent.

Especially according to what the old Taoist priest with a goatee said.

Now, those who can come to the Moke Latin Great Desert from the Central Continent are likely to be at the Emperor Realm.

Lin Tianhao estimated that even if they were not at the Emperor Realm, they would have to be at the Half-Emperor Realm.

"Tell me the specifics. Tell me everything you know," Lin Tianhao said.

Gurimu Dengbu hesitated slightly, but still said:

"We initially planned to use the poison on the Sand Sea Poison Emperor to target you, but we failed. We were ambushed by a powerful force before we even reached Sand Sea Poison City."

"Several Ninth Rank Star Radiance level and one Ninth Rank Grandmaster level experts have fallen, resulting in great losses."

In fact, even if Gurimu Dengbu didn't say these things, Lin Tianhao could have guessed it.

People from the Central Continent must have come to the Moke Latin Great Desert, or even reached their Vast Continent.

But why did they go to find the Sand Sea Poison Emperor?

Could it be...

Is the Sand Sea Poison Emperor really still alive?

After all, according to the information Lin Tianhao had obtained before, there was a certain probability that the Sand Sea Poison Emperor was still alive.

Those people from the Central Continent, did they want to invite the Sand Sea Poison Emperor to come out of the mountain to solve the troubles in the Central Continent?

But the old Taoist priest with a goatee that Lin Tianhao had contacted before was also at the Great Emperor Realm.

If the Great Emperor Realm could solve the problems in the Central Continent, it would probably have been solved already.

He couldn't figure it out for the time being, so Lin Tianhao simply stopped thinking about it.

However.

If that force went to find the Sand Sea Poison Emperor to deal with the affairs of the Central Continent, then he wouldn't think there was anything wrong with it.

But if they wanted to use the Sand Sea Poison Emperor to cause trouble in the Moke Latin Great Desert or the Vast Continent, then Lin Tianhao would have to consider countermeasures.

This feeling of an impending storm made Lin Tianhao feel inexplicably excited.

Because of nothing else.

Generally, when a storm is about to come, it will be accompanied by the arrival of opportunities.

For example, this time, could this mysterious force bring him any benefits?

Withdrawing his thoughts.

Lin Tianhao's gaze fell on Gurimu Dengbu, and he said with a smile:

"You really don't know much, but I am a very trustworthy person. I said I would give you a quick death, and I will give you a quick death."

Hearing this.

Fear appeared in the eyes of both Gurimu Dengbu and Gurimu Fengsheng.

From the moment they fell into Lin Tianhao's hands, they had already anticipated that they would be doomed.

But now that they were really about to face death, they still felt terrified.

"Snow Emperor..."

Lin Tianhao's mouth curled up, and he chuckled:

"If you want to beg for mercy, then there is no need to speak."

Gurimu Dengbu gritted his teeth and said:

"I know begging for mercy is useless, but... but I really don't want to die."

"If I had known it would be like this, I shouldn't have come to the Milky Way world in the first place."

A cold light flashed in Lin Tianhao's eyes, and he said indifferently:

"Before you came, you thought that the gods of the Milky Way world were dormant. As long as you came, you could obtain a lot of resources to help you break through to the Ninth Rank and higher ranks, right?"

Gurimu Dengbu was silent. After a while, he said:

"Give me a chance. I can persuade the people of the Gurimu family to leave the Milky Way world. As long as you are here in the future, we will not set foot in the Milky Way world."

Lin Tianhao smiled playfully and said:

"Rather than letting you leave like this, I would rather use the sword in my hand to keep you all in the Milky Way world."

With that.

Lin Tianhao changed the subject, his fierce light fully revealed.

"Since you're here, then be buried here."

"We have an old saying in the Dragon Kingdom, 'Since you're here, make the best of it.'"

Chapter 1032 - One hundred percent seriously injured!

"You might not understand what this sentence means, let me explain it to you."

"The meaning of this sentence is, now that you've come here, then be buried here."

Black Heaven Asura at the side twitched his lips. Is this the meaning of 'since you are here, take things as they come'?

Gu Laimu·Dengbu tightened his fists, and gritted his teeth saying:

"Snow Emperor, do we really have to reach this point of irreconcilable hatred?"

Lin Tianhao couldn't help but laugh.

"It's not that I have to reach this point of irreconcilable hatred, it's that you, these scraps from the Arat Star System, never intended to let us live well when you came to the Milky Way World."

Gu Laimu·Dengbu was silent.

Although he didn't want to admit it, what Lin Tianhao said was actually correct.

When they came to the Milky Way World, what they wanted was not simply to invade or rule here.

But to replace!!

To replace everyone in the current Milky Way World.

As for those who were replaced, they would all be slaughtered.

A few exceptionally gifted powerhouses would be enslaved.

Their Gu Laimu family was the vanguard force that came to the Milky Way World.

He also knew these things in his previous life.

Those from the Arat Star System who came to the Milky Way World were truly like demons walking out of the abyss.

Lin Tianhao could forgive anyone except Wu Xiaodao and anyone from the Arat Star System, and even become friends.

But only them, Lin Tianhao would never reconcile with them.

The pain they brought was incomparable to anyone else.

Lin Tianhao wanted them to die, to completely destroy them!!

If he didn't destroy them, Lin Tianhao's Dao heart would be unstable.

"Let's end it, if there is a next life, be careful when choosing a camp."

Lin Tianhao directly attacked, killing both Gu Laimu·Dengbu and Gu Laimu·Fengsheng.

"Ding, congratulations, you have successfully killed Gu Laimu·Dengbu, a server-wide announcement is about to be made, do you want to hide your name?"

"No."

"Server-wide announcement, congratulations to player Snow Emperor for successfully killing Gu Laimu·Dengbu, hereby announced, hoping that all adventurers will continue to work hard!!"

... ..

"Server-wide announcement, congratulations to player Snow Emperor for successfully killing Gu Laimu·Fengsheng, hereby announced, hoping that all adventurers will continue to work hard!!"

"Ding, you have obtained skill book +2."

"Ding, you have obtained free attribute points +500."

"Ding, you have obtained gold coins +300000."

"Ding, you have obtained..."

This time.

Lin Tianhao's loot from the corpses was similar to before.

Only.

From Gu Laimu·Dengbu, Lin Tianhao looted a rather special piece of equipment.

Sky-Covering Jade Token: Unknown.

Wearing Requirement: None.

Effect: After wearing it, you can shield your own heavenly secrets, even a saint-level probing power will find it difficult to discover your existence.

Durability: 100.

Lin Tianhao frowned slightly. The fact that his Eye of Insight couldn't find these guys from the Arat Star System should be largely related to this.

This Sky-Covering Jade Token has the same effect as the Heavenly Secret Umbrella Lin Tianhao obtained before. It seems that in order to cause trouble under his nose, these guys from the Arat Star System have invested heavily.

Next, Lin Tianhao felt that he should move.

If he doesn't take action, he will fall into a passive position.

It's like now, someone is poisoning the towns around the Mountain and Sea Empire, and passively defending is meaningless.

Because he doesn't know when and where these guys will poison.

The only thing he can be sure of is that their poison should be from the Sand Sea Poison City.

Because ordinary poison is difficult to cause such a wide range of damage.

Next, there are still three days before the top eight advance to the top four. Lin Tianhao plans to seize these three days to deal with the matter.

Offering the Kunlun Mirror, Lin Tianhao took a step and came to the Moke Latin Great Desert.

Previously, Old Man Bitter Wolf had already told Lin Tianhao the location of the Sand Sea Poison City and some information he knew.

Walking towards the very center of the Moke Latin Great Desert, this Sand Sea Poison City is there.

However, because there is a barrier outside the Sand Sea Poison City, even if ordinary people arrive here, they cannot pass through the barrier.

When Lin Tianhao arrived here, at a glance, all that could be seen in front were endless deserts, and a few sea buckthorns could be seen sparsely in the desert.

Such an environment is too common in the Moke Latin Great Desert.

Although the number of oases in the Moke Latin Great Desert is not small.

Compared to the entire vast Moke Latin Great Desert, that little oasis is not worth mentioning.

Lin Tianhao looked around, and after thinking about what Old Man Bitter Wolf said, he basically confirmed that he had arrived at his location.

Next.

Is to open this barrier.

“Black Heaven Asura, you come.”

Lin Tianhao said lightly, because opening this barrier requires the use of the power of Dao.

And Lin Tianhao's current most powerful Sword Dao is not particularly high in level.

Black Heaven Asura nodded lightly. His palm was facing down, and a large amount of Dao power surged from his palm towards the desert below.

As more and more Dao power impacted into the sand.

The sand centered on Black Heaven Asura began to light up with red rays of light.

These red rays of light gathered together, and it was actually a magic circle.

Dao rhymes flowed in the magic circle. In the next instant, the magic circle operated, and Lin Tianhao and Black Heaven Asura also disappeared from here.

The surrounding scenes changed rapidly. When Lin Tianhao landed again, he appeared on a Gobi beach.

The entire Gobi beach was desolate and terrifying, and no vitality could be seen.

Even the most tenacious sea buckthorn in the desert cannot be seen here.

Looking into the distance, at the edge of the desert, stood a city.

Even at such a distance, the grandeur of the city still surprised Lin Tianhao.

Lin Tianhao and Black Heaven Asura took a step, and damage immediately appeared above their heads.

“Ding, you are poisoned, your health is -19.”

“Ding, you are poisoned, your health is -19.”

... ..

Lin Tianhao's health began to decline.

It was within Lin Tianhao's expectations that he would be poisoned here.

Fortunately, his poison resistance has been stacked to 90%, and this situation is not a big problem for Lin Tianhao.

Wait... ..

Lin Tianhao discovered a very terrifying thing.

That is, the health he lost was not recovering at all.

You must know.

His health recovery is very, very high, and this little bit of health loss can be recovered instantly.

But Lin Tianhao's health, once lost, is lost, and the health bar does not recover!!

“It's 100% grievous wound.”

Black Heaven Asura's somewhat dignified voice sounded.

“My health cannot be restored either.”

Lin Tianhao couldn't help but gasp.

As long as you are willing, you can stack 50% or 60% of the grievous wound attribute.

But this thing is similar to attack speed, movement speed, and tenacity.

The further back, the more difficult it is to stack.

This 100% grievous wound is really terrifying.

Chapter 1033 - Super god-level equipment: Hongmeng Dan Ding!

Fortunately, Lin Tianhao wasn't losing much health at the moment, and the Book of Life and Death was constantly stacking life value for him.

Therefore, although Lin Tianhao's health bar wasn't at full health, his overall health was still increasing.

The five-star Heart of Heavenly Punishment could stack five points of life value for Lin Tianhao per second, plus Lin Tianhao's various buffs.

In reality, the amount of life value Lin Tianhao could gain per second had already exceeded thirty.

Currently, losing only nineteen points of life value per second was completely painless for Lin Tianhao.

However, the problem with this place was also significant.

Under the condition of a 100% severe injury, there was no way to recover health during combat.

Not only that.

Lin Tianhao had a premonition that the further he went in, the more health he would lose.

Sure enough.

Lin Tianhao hadn't walked far before the health loss increased.

"Ding, you are poisoned, health -54."

"Ding, you are poisoned, health -54."

... ..

Life value increased from the original minus nineteen to fifty-four.

Most importantly.

Lin Tianhao's health loss would increase almost every hundred meters or so.

Although the increase in health loss wasn't much each time, it couldn't withstand such a constant increase.

Most importantly, there was no way to recover health.

At this time.

Hei Tian'aozhen had already been taken into the God Conferring List by Lin Tianhao.

There was no other way.

Although Hei Tian'aozhen also had a considerable poison resistance, it was still inferior to Lin Tianhao's.

Most importantly.

Lin Tianhao had to ensure Hei Tian'aozhen's combat power as much as possible.

Gu Limumu Dengbu had said before that they were ambushed by a mysterious force when they came to Sand Sea Poison City.

He didn't know if this mysterious force was still here, but if it was, it would be a bit troublesome.

"Master, pay attention to your equipment, these poisons can also corrode equipment."

Hei Tian'aozhen's voice came.

Lin Tianhao's expression changed drastically, and he immediately checked the equipment on his body.

Most of the equipment on his body was actually in an indestructible state.

But Lin Tianhao knew that the poison here was the poison of a Great Emperor, and even indestructible equipment would still be dangerous.

Super-God-level equipment should be fine, but Lin Tianhao couldn't guarantee the condition of other equipment.

All the way forward.

By the time Lin Tianhao arrived at the entrance of Sand Sea Poison City, he was losing more than three thousand health per second from poisoning!!

"Ding, you are poisoned, health -3072."

"Ding, you are poisoned, health -3072."

... ..

Lin Tianhao could barely withstand the speed at which his life value was dropping.

After all, his current life value was still very high, so this bit of health loss wasn't a big problem.

Of course.

Staying for a long time wouldn't work either, mainly because this 100% poison resistance was too disgusting, and its impact on Lin Tianhao was still too great.

Old Man Bitter Wolf had said before that the outside of Sand Sea Poison City was just an appetizer; entering Sand Sea Poison City was when the nightmare would begin.

Just as Lin Tianhao was about to enter Sand Sea Poison City, an old voice suddenly sounded.

"Snow Emperor, why are you here instead of participating in the Holy Land Lord Competition?"

Lin Tianhao looked around because he didn't see anyone.

"On the city wall."

Hei Tian'aozhen's voice came from behind.

Lin Tianhao looked up and saw a small three-legged cauldron placed on the city wall.

This three-legged cauldron was somewhat similar in appearance to Beiteli Moxun's three-legged cauldron.

Could it be said.

Gu Limumu Dengbu lied to him, and the people here were from the Alete Star System? He deliberately said that to create a hypothetical enemy for himself to distract him.

Although this probability was very low, it wasn't impossible.

"Who are you, hiding your head and covering your face, why don't you come out?"

"Snow Emperor, you can also see that health loss here cannot be recovered. Inside this small cauldron, I won't lose health."

The old voice in the small cauldron continued to come.

"This old man is the guardian of this Sand Sea Poison City, and has been waiting for the Poison Emperor to awaken."

Lin Tianhao's eyes narrowed slightly, "You are the guardian? Someone is already using the poison of the Sand Sea Poison Emperor outside to wreak havoc on living beings, and you actually say you are the guardian."

Upon hearing this.

The person in the small cauldron was very surprised, "How could that be? I did distribute some of the Poison Emperor's venom, but that person was a Great Emperor powerhouse from the Central Continent."

"A major change occurred in the Central Continent, and he took those venoms to deal with the monsters in the Central Continent."

Lin Tianhao frowned and said in a cold voice:

"Who are you trying to fool? I also encountered a Great Emperor powerhouse from the Central Continent, and he told me that gold coins could kill those gray mist monsters."

"If that's the case, why would they come here to ask you for venom?"

The person in the small cauldron was silent. After a while, he said:

"I really don't know about this. It was a Great Emperor powerhouse who came, and he was waving the banner of saving the common people, so I couldn't refuse."

"Are you sure it was a Great Emperor powerhouse?" Lin Tianhao asked.

The person in the small cauldron answered very affirmatively.

"I'm sure. I have followed the Poison Emperor for many years, and I won't be mistaken about this."

Great Emperor... ..

To be honest.

The Alete Star System also had the possibility of sending a Great Emperor-level powerhouse over.

"I'm sorry, I can't believe what you said. If you had followed the Sand Sea Poison Emperor for many years, how could you need to hide in this three-legged cauldron?"

At this point.

Lin Tianhao paused slightly and continued to say:

"Moreover, the poison of the Sand Sea Poison Emperor can corrode weapons. If your three-legged cauldron has been standing here all along, I'm afraid it would have been corroded to the point of decay."

The person in the small cauldron immediately explained.

"Snow Emperor, this three-legged cauldron of mine is something passed down by the Poison Emperor. It's not difficult to resist the Poison Emperor's poison."

Lin Tianhao raised the Novice Longbow, with a playful smile on his face.

"Since you are unwilling to come out and meet, then let me see if your three-legged cauldron is really that invincible."

Lin Tianhao was almost certain that this guy was lying.

Unless this three-legged cauldron was Super-God-level, but obviously, that was impossible.

Moreover.

Whether this three-legged cauldron was Super-God-level or not would be known with a try.

With this in mind.

Lin Tianhao decisively released his feather arrow.

"Swoosh swoosh swoosh — —"

The feather arrow cut through the sky and landed on the three-legged cauldron.

"Snow Emperor, I really didn't lie to you. I know you possess Super-God-level power, but have you thought about it? My three-legged cauldron is also Super-God-level."

Lin Tianhao's eyes narrowed slightly, and he rebuked:

"Do you think I would believe your nonsense?"

The person in the small cauldron said helplessly:

"If you don't believe me, see for yourself. I'll reveal a little of the three-legged cauldron's attributes."

Lin Tianhao looked up and couldn't help but be slightly surprised.

Hongmeng Pill Cauldron: Super-God-level.

Equipping Requirement: Hongmeng Alchemist.

Effect 1: ? ? ?

Effect 2: ? ? ?

Effect 3: ? ? ?

... ..

This... .. this is actually a Super-God-level weapon.

Hongmeng Alchemist? ?

Lin Tianhao had never heard of this profession in his past or present life.

Chapter 1034 - It's the Lord of Luotian again!

Wait!!

Lin Tianhao suddenly realized something terrifying.

That is, if this Hongmeng Pill Cauldron is Super God-tier, doesn't that mean that this Hongmeng Alchemist is also Super God-tier! ! !

Alchemist!

Are there any Super God-tier secondary professions? ?

Lin Tianhao's mood was a bit complicated.

The information he had previously obtained was that there were Super God-tier hidden professions, but it seemed that there were only three in total.

Moreover, the three corresponded to the three major systems of Warrior, Archer, and Mage, with one Super God-tier hidden profession in each system.

But what is the situation with this Hongmeng Alchemist?

"This Hongmeng Pill Cauldron, corresponding to the profession Hongmeng Alchemist, is a Super God-tier secondary profession? ?"

Lin Tianhao himself can also take the path of a secondary profession.

Especially with the existence of One Qi Transforming into Three Pure Ones, it makes it very easy for him to refine pills and increase proficiency.

In addition, with Divine Flame Nine Refinements, Lin Tianhao's achievements in secondary professions will not be too low.

"No."

The person in the small cauldron answered very directly.

"It's not just Super God-tier professions that can possess Super God-tier equipment. Some powerful God-tier hidden professions will also have corresponding Super God-tier equipment."

"The only difference between them and Super God-tier hidden professions is that, in a set of equipment for a God-tier hidden profession, only one or two pieces are Super God-tier."

"And for Super God-tier hidden professions, the matching equipment is basically all Super God-tier."

After hearing these words.

Lin Tianhao's mood was still fiery.

Because even if this Hongmeng Alchemist is not Super God-tier, being able to possess a Super God-tier Pill Cauldron.

This shows that the rank of this Hongmeng Alchemist should still be very high.

"You possess this Hongmeng Pill Cauldron, is there a way to change jobs to become a Hongmeng Alchemist?"

The person in the small cauldron was not surprised that Lin Tianhao would have such an idea.

"You already possess a Super God-tier combat profession, what do you need the Hongmeng Alchemist for? This is a profession specifically for secondary professions."

Hearing this.

Lin Tianhao waved his hand and said:

"The matter of the Hongmeng Alchemist can be put aside for now, let's talk about the matter of those toxins."

"Just because of the toxins you took out, the number of deaths in our Mountain Sea Empire has now exceeded ten million. It's hard to say they won't continue to attack."

The person in the small cauldron was silent. After a while, he said:

"I'm sorry, I didn't expect such a result."

Lin Tianhao waved his hand and said unhurriedly:

"Who did you give the toxins to? A Great Emperor Realm expert should not be an unknown person."

The person in the small cauldron hesitated for a moment, but continued to say:

"I don't know that Great Emperor. He calls himself the Lord of Luo Tian and is the son of your previous Lord of the Mortal Palace."

"After the Mortal Palace was sealed, he went to the Central Continent to protect himself. By chance, he achieved the Great Emperor Realm."

"Now that there is turmoil in the Central Continent, he came to ask for toxins, wanting to help the Central Continent escape its predicament."

Lin Tianhao's face showed a hint of surprise upon hearing this.

Lord of Luo Tian?

How could it be him! !

"However, the Lord of Luo Tian is the previous Lord of the Mortal Palace, and the Mountain Sea Empire is his base. He shouldn't attack the Mountain Sea Empire."

"In addition, he is already a Great Emperor expert. If he were to attack you, he wouldn't resort to such despicable means."

Lin Tianhao narrowed his eyes slightly.

At this point.

Lin Tianhao changed the subject and continued to say:

"No matter what, the source of this incident is here with you."

The person in the small cauldron retorted:

"My original intention was good, and I also wanted to help the Central Continent."

Lin Tianhao chuckled and said:

"Do you want to help the Central Continent, or are you afraid that the Great Emperor expert will attack and kill you?"

The person in the small cauldron pondered for a moment and said:

"In any case, this matter is due to me. What do you want to do?"

Lin Tianhao didn't really have any good ideas in his heart.

After all, the toxins had already been taken out. Looking at the situation of this person in the small cauldron, it was almost impossible to expect him to take back the toxins.

"Can you find the location of those toxins? Or, do you have any way to quickly resolve those toxins?" Lin Tianhao asked.

"No."

The person in the small cauldron's answer was another blow to Lin Tianhao.

"Then you caused the trouble, but you can't handle anything. Are the tens of millions of people in our Mountain Sea Empire going to sacrifice in vain?"

The person in the small cauldron heard this and said directly:

"Snow Emperor, I have heard something about your character. Do you want profit, or do you want to solve the problem, or do you want both?"

Lin Tianhao smiled noncommittally, "I want both, is that okay?"

The person in the small cauldron shook his head and said very surely:

"Snow Emperor, you yourself should know that this is impossible."

"You are very strong. I even suspect that if you use your full strength, you can already contend with a Great Emperor Realm expert."

Speaking of this.

The person in the small cauldron paused slightly before continuing to say:

"But are you confident in killing a Great Emperor Realm expert?"

Lin Tianhao didn't answer. To be honest, he didn't.

Seeing that Lin Tianhao didn't answer, the person in the small cauldron continued to say:

"Since you can't directly kill a Great Emperor Realm expert, then you can't have both."

"Many people in your Mountain Sea Empire have died. I can make compensation, but I think you should stop at the point with that suspected Lord of Luo Tian Great Emperor expert."

Lin Tianhao frowned, "Do you think I can't kill that Great Emperor Realm expert."

"If so, that Great Emperor Realm expert will continue to cause trouble, and more people will die, right?"

"That's right."

The person in the small cauldron answered very definitely, "If you want this Hongmeng Alchemist, I can give you the pre-quest scroll for the Hongmeng Alchemist."

"With your ability, as long as you spend some time, you will naturally be able to obtain it."

"This will be all the compensation I can make for my mistakes."

Lin Tianhao frowned slightly.

"Can this compensation be worth the lives of tens of millions of people?"

"Snow Emperor."

The voice of the person in the small cauldron was still calm.

"The best thing I can take out is this thing. I am just a guardian of the Sand Sea Poison Emperor. I really can't take out more good things."

"And."

"The one who really wants to deal with you is that Great Emperor expert who is impersonating the Lord of Luo Tian. I just meant well but made things worse."

Lin Tianhao's eyes narrowed slightly, and he slowly said:

"The matter of the Hongmeng Alchemist can be discussed later. This poisoning incident in our Mountain Sea Empire is not over."

"Do you really have no way to solve it?"

His Human Emperor title is tied to the Mountain Sea Empire.

If the Mountain Sea Empire is affected, he will also be affected.

At least.

This time, more than ten million people died, and Lin Tianhao's maximum health points directly decreased by tens of millions.

Chapter 1035 - Enter the poisonous city of sand sea!

Currently, the All-Attribute enhancement from the Human King title hasn't decreased, but what if this poisoning incident continues to escalate?

Undoubtedly.

The All-Attribute enhancement from his Human King title will decrease.

"Snow Empress, you're really making things difficult for me. That person impersonating the Lord of Radiance is a Great Emperor realm expert."

The Little Cauldron's tone was tinged with helplessness.

"Snow Empress, don't try to take advantage. I understand you, so the compensation I'm giving is a one-step solution."

Lin Tianhao frowned and said:

“Then what about this Primordial Pill Cauldron?”

Hearing this.

The Little Cauldron couldn't help but twitch its lips and said:

“Snow Empress, this is a Super God-tier equipment. You should also know the rules of the Twilight of the Gods.”

“Due to the rules of the Twilight of the Gods, I can't directly give it to you.”

“Moreover.”

“This Primordial Pill Cauldron is still useful to me. If you truly become a Primordial Alchemist in the future, we can discuss the matter of the Primordial Pill Cauldron then, how about it?”

Lin Tianhao frowned slightly. His time was limited right now, so this matter could indeed only be postponed.

“These things are easy to discuss. I'm here today because I want to meet the Sand Sea Poison Emperor.”

Lin Tianhao hadn't forgotten the task of reviving the Mokesha Kingdom. Having arrived here, he naturally needed to meet the Sand Sea Poison Emperor.

Even if the current Sand Sea Poison Emperor was just a corpse, he still needed to see him.

Most importantly.

Lin Tianhao wanted to see if the Sand Sea Poison Emperor was still alive.

The Little Cauldron pondered slightly before saying:

“No problem.”

Lin Tianhao hadn't expected the other party to agree so readily.

Just then.

A gray-skinned little person slowly floated out of the three-legged Little Cauldron.

The little person was only the size of Lin Tianhao's palm, resembling a little old man with a pair of black wings on his back.

His wings fluttered, quickly reaching the front of Lin Tianhao.

“Let's go, I'll take you to see the Poison Emperor.”

Lin Tianhao was a little surprised.

“You're not human?”

“Yes, I'm an elf. You can call me the Poison Emperor's Guardian.”

As the Poison Emperor's Guardian spoke, Lin Tianhao also noticed damage numbers appearing above his head.

-1.

-1.

.....

One damage number after another appeared, losing one point of health per second. The rate of health loss wasn't high.

However, the poison in this Sand Sea Poison City inflicts a 100% severe injury, so losing even one drop of blood is unrecoverable.

However.

Lin Tianhao felt that this place was very suitable for him to fight.

Because after his Hand of Heavenly Punishment evolved, his normal attacks could restore health.

As a Super God-tier talent, the Hand of Heavenly Punishment had a high probability of being immune to the 100% severe injury here.

“The Sand Sea Poison Emperor is already in slumber. There are some other poisonous creatures in this Sand Sea Poison City, so you still need to be careful later.”

“But with me leading the way, those poisonous creatures generally won't attack you.”

Lin Tianhao raised his eyebrows and didn't say anything.

Only.

.....

He already had 90% poison resistance. If he didn't, how much would he be losing?

Three million +!

And he couldn't recover health.

To be honest, this was a little too terrifying.

Moreover.

After entering the Sand Sea Poison City, for every hundred meters he advanced, the health loss would increase, and the rate of increase was much faster than outside the Sand Sea Poison City.

"Ding, you are poisoned, health -38365."

"Ding, you are poisoned, health -38365."

.....

He hadn't gone far, and Lin Tianhao was already losing nearly 40,000 health per second.

However, Lin Tianhao remained calm. His eyes were also observing the situation here in the Sand Sea Poison City.

As it currently stood.

The overall construction style of this Sand Sea Poison City was similar to the construction style of other cities in the Moke Latin Great Desert.

The only characteristic was that it was huge!!

Lin Tianhao's Eye of Insight spread out, but it seemed that due to these poisonous mists, his Eye of Insight couldn't see clearly and could only vaguely see an outline.

But even just from this outline, Lin Tianhao discovered that the Sand Sea Poison City extended at least 150 kilometers forward.

A city.

With a kilometer count exceeding 300 kilometers, a city with a central axis exceeding 300 kilometers, this should be unique in the Moke Latin Great Desert.

It could even rival some of the large cities in the Twilight of the Gods.

From this point alone, the Sand Sea Poison City must have been extremely prosperous in the past.

Suddenly.

Lin Tianhao saw a huge creature winding and coiling out from the depths of the Sand Sea Poison City.

It seemed to be a flood dragon, winding and coiling in the center of the Sand Sea Poison City.

Because of the obstruction of the Sand Sea Poison Mist, Lin Tianhao's Eye of Insight could only barely see an outline.

But just from this outline, the winding and coiling flood dragon was probably no less than ten kilometers long, a massive size.

Just seeing the outline gave people a very strong sense of oppression.

“There's a flood dragon in this Sand Sea Poison City?” Lin Tianhao asked.

The Poison Emperor's Guardian paused slightly and smiled:

“You noticed? That was the Poison Emperor's pet in the past. After so many years, it has grown to the peak of the Emperor rank.”

Lin Tianhao nodded secretly, “It's not losing health under this poisonous mist?”

“Of course it's losing health, like me, losing one point of health per second.”

“But because of its talent, its health is constantly increasing.”

“So, the one point of health it loses per second is far less than the health it gains in one second.”

“The demon race's bloodline is truly powerful.” Lin Tianhao couldn't help but sigh.

The demon race's bloodline is innate, and their bloodline can still be inherited, which is something that the human race cannot compare to.

Putting aside everything else.

If Lin Tianhao has a son in the future, not to mention a Super God-tier talent, even a God-tier talent, Lin Tianhao's son might not have it.

This kind of thing happened in his previous life.

A high-ranking Dragon Country official, a war department big shot.

He himself possessed a Saint-tier talent.

But his son only awakened a Yellow-tier talent, and was ridiculed by many as a tiger father with a dog son.

Such examples were common in his previous life.

But the demon race was different.

The demon race's next generation's bloodline might be weakened, but generally speaking, it wouldn't be weakened too much.

If we use talent levels as an example.

If the demon race's first generation has a Saint-tier talent, the second generation is likely to have a Heaven-tier talent that is infinitely close to the Saint-tier.

Moreover.

The demon race also has two very outrageous things.

One is the bloodline bottom line, and the other is reversion to ancestry.

Among the demon race, although their bloodline level will decline with the reproduction of offspring.

But it will hit a bottom line.

Just like the flood dragon race, no matter how bad the bloodline is, it is still a flood dragon.

Using talent to describe it, even if the flood dragon descendants' talent drops, they can easily get a Earth-tier or Heaven-tier talent as a base.

Chapter 1036 - Lord Poisonous Dragon!

Most demon clans are like this. Once their bloodline level drops to a certain point, it won't drop any further, and there's even a chance of reversion to ancestry.

Demon clan descendants have a certain probability of bloodline reversion, returning to their peak.

For example, if an ancestor had god-level talent, but because their descendants' bloodline is diluted, their talent drops all the way to the earth level.

But if a certain descendant's bloodline reverts, they will return to god-level talent.

Therefore,

The Poison Emperor Guardian smiled slightly and said:

"This is undeniable. The demon clan is powerful, and the rule of bloodline inheritance, which can pass on their powerful genes, is something our human race cannot compare to."

Having said that.

The Poison Emperor Guardian smiled slightly and said:

"However, although the demon clan is powerful, it is still very difficult for their descendants to be born."

"The difficulty of demon clan pregnancy is much higher than that of our human race, and one pregnancy may take decades, or even hundreds of years."

"The Poison Flood Dragon Master in our Sand Sea Poison City stayed in its mother's belly for more than three hundred years."

Lin Tianhao raised his eyebrows. This was true.

The demon clan is powerful, but the more powerful the bloodline of the demon clan, the more difficult it is to reproduce.

The group continued to move forward.

Lin Tianhao's health was dropping faster and faster.

From the initial 30,000 plus, it has risen to 100,000!!

He still hasn't been able to see the place where the Sand Sea Poison Emperor sleeps.

This place is really not for people to stay in.

"What exactly happened to the Sand Sea Poison Emperor? Why did he fall into a deep sleep?"

Although Lin Tianhao had heard a little information from Old Wolf Ku before, he didn't know if it was true or not.

"Your health bar is thicker than I imagined."

The Poison Emperor Guardian looked at Lin Tianhao with some surprise.

Because in the current situation, even if Lin Tianhao loses 100,000 health per second, that's six million per minute.

They have been walking all the way, and their health is still decreasing.

But now.

Lin Tianhao seems to have only lost a little health.

"My little bit of health is nothing compared to yours."

The Poison Emperor Guardian shook his head, "You shouldn't be able to see my specific health, right?"

"It's almost here. The back is the inner city. After passing through the inner city and entering the underground castle, you can see the Poison Emperor Master."

The Poison Emperor Guardian led the way in front, speeding up his flight a bit, and Lin Tianhao followed closely behind, neither fast nor slow.

This distance won't take them too long to rush.

But the degree of Lin Tianhao's health loss is still constantly increasing.

"Ding, you are poisoned, health -1001321."

"Ding, you are poisoned, health -1001321."

.....

Before long, Lin Tianhao's health loss had exceeded one million.

At this moment.

Lin Tianhao also realized the difficulty of restoring the Mokesha Kingdom.

His 90% poison resistance, and he still loses so much health per second here.

The difficulty of him wanting to resolve the poison here is already immeasurable.

Lin Tianhao actually has another method that might be able to resolve the poison here.

That is wood-based transfer.

However.

The limitations of wood-based transfer are also very large.

One is trees and plants, these things, there is not a single bit here.

Not to mention here, even the entire Moke Latin Desert doesn't have many trees.

Unless.....

It is to use the Mountains and Seas Scroll.

There are many plants in the Mountains and Seas Scroll.

But.

Just one Mountains and Seas Scroll, whether the plants inside are enough or not, Lin Tianhao doesn't know now.

Most importantly.

Whether wood-based transfer can cure the Sand Sea Poison Emperor's poison is still unknown.

"The Poison Emperor Master cares about the common people of the world. The original Moke Latin Desert was a desert filled with poisonous fog."

"Every grain of sand was filled with rich toxins. The Poison Emperor Master allowed people to survive in the Moke Latin Desert."

"He absorbed all the toxins here into his body."

"Although the Poison Emperor Master proved his Dao with poison, the toxins of the Moke Latin Desert are indeed terrifying."

"Especially after these toxins gathered together, a 100% serious injury appeared. The Poison Emperor Master's body was also overwhelmed and fell into a deep sleep."

Lin Tianhao frowned slightly.

What the Poison Emperor Guardian said was similar to what Old Wolf Ku and Nidelif said.

But according to what Nidelif said, the Poison Emperor Master would become more and more powerful by devouring powerful toxins, this shouldn't have happened.

However.

What is the situation of this Poison Emperor Master? He will know when he goes to see him.

After walking for another half an hour.

Lin Tianhao finally entered the underground castle.

After entering the underground castle, Lin Tianhao's health loss increased again every second.

The health loss per second has exceeded three million!!

At this speed.

Lin Tianhao will lose more than 180 million health in one minute.

And continuing to move forward in the underground castle will increase health loss.

Calculating like this.

It is entirely possible to lose more than 200 million health in one minute!!

One hour is 120 billion.

At this speed, Lin Tianhao can still stay here for some time.

However.

This is also thanks to Lin Tianhao's high enough health and Lin Tianhao's poison resistance of up to 90%.

"We're almost there." The Poison Emperor Guardian smiled.

His health loss is still -1, which inevitably surprised Lin Tianhao a bit.

"How much is your poison resistance?"

The Poison Emperor Guardian smiled, "My poison resistance is not too high, it's just because of the things bestowed by the Poison Emperor Master, so I'm not afraid of these toxins."

"Oh?"

Lin Tianhao's eyes lit up, because it was already very, very difficult for his poison resistance to reach 90%.

According to this situation, it is still very difficult for his poison resistance to increase further.

"Do you want it?"

"How can I give it to you? If I give you all these things, I won't be able to stay in Sand Sea Poison City in the future."

Lin Tianhao raised his eyebrows slightly and said:

"Your Sand Sea Poison City should have more than just you with such props, right?"

The Poison Emperor Guardian nodded and smiled:

"Of course there's more than that, but even the Poison Emperor Master doesn't have many of these things."

Lin Tianhao still wanted to say something, a powerful pressure descended from the sky.

The Poison Emperor Guardian frowned slightly, bowed and saluted, and smiled:

"Poison Flood Dragon Master, this is Snow Emperor, a super powerhouse among adventurers, and he is now also the master of the Mortal Palace, wanting to pay respects to the Poison Emperor Master."

"Master of the Mortal Palace?"

A dull voice came from all around, and then a huge flood dragon head protruded from the front.

A pair of eyes stared at people like lanterns, which inevitably made people feel a little scared.

Lin Tianhao raised his eyebrows and said with a smile:

"Hello."

The flood dragon spat out a mouthful of turbid air and said:

"The aura on your body is a bit strange. Do you have something from the dragon clan on you?"

Chapter 1037 - Wood element transfer, dissolve the venom!

Lin Tianhao narrowed his eyes slightly. The Dragon race?

He does have a black dragon following him.

Hei Tianao is indeed a Black Dragon with an ancestry reversion, and his bloodline level is very high.

If his ancestry reversion level were a bit higher, he would be able to naturally break through to the Great Emperor realm.

"I have a follower whose true form is a black dragon."

"Oh?"

The Poisonous Serpent was a little surprised. The Dragon race is proud, and under normal circumstances, the Dragon race would not submit to the Human race.

Moreover, the Black Dragon possesses the powerful attribute of darkness, and can be considered very powerful among the Dragon race.

"What are you here to see the Poison Emperor for?"

The Poisonous Serpent's attitude clearly improved a lot.

"I received a mission to resolve the toxins within the Sand Sea Poison Emperor's body. I came here this time to see the Sand Sea Poison Emperor and see how to resolve the toxins within his body."

The Poisonous Serpent's lantern-sized eyes stared intently at Lin Tianhao, and slowly said:

"The Poison Emperor can't even resolve the poison in this Sand Sea Poison City, so you can resolve it?"

Lin Tianhao spread his hands and said:

"I'm not sure, but we always have to try, don't we?"

The Poisonous Serpent's huge dragon head retreated and disappeared into the darkness.

The Poison Emperor's guard cupped his fist at Lin Tianhao and smiled:

"The half-Emperor realm expert beside Lord Snow Emperor is the Black Dragon?"

Lin Tianhao chuckled and nodded, asking with interest:

"You seem to know a lot about me."

Hearing this.

The Poison Emperor's guard smiled awkwardly, "Some of my friends are also outside. It's too lonely guarding here, and occasionally friends come in to chat with me."

"Oh?"

Lin Tianhao raised his eyebrows slightly, "You feel lonely guarding the Sand Sea Poison City?"

"Ah..."

"Lord Snow Emperor, you're giving me a death question as soon as you open your mouth."

Lin Tianhao waved his hand and smiled:

"Just kidding, but not many people know that I have a half-Emperor realm expert by my side, it seems your friends are not simple."

The Poison Emperor's guard nodded, "Thanks to the Poison Emperor, I've met some people who are quite capable."

At this point.

The Poison Emperor's guard paused slightly, and then continued:

"But to be honest, Lord Snow Emperor, you are too famous, so you can't blame me for knowing you."

The man and the sprite chatted as they walked forward.

After walking in the underground palace for another half an hour, the Poison Emperor's guard said seriously:

"We're here."

Lin Tianhao looked in the direction of the Poison Emperor's guard's gaze. In front of him, there was a black gold iron gate.

There were grooves on the black gold iron gate, and dark red blood seemed to be flowing inside the grooves.

The Poison Emperor's guard came to the black gold iron gate. He raised his hand and placed it on the iron gate, chanting obscure incantations.

The black gold iron gate made a buzzing sound. In the next instant, the black gold iron gate slowly separated from the middle.

When the black gold iron gate opened, Lin Tianhao saw that it was all poisonous liquid inside!!

Even in this underground castle, the poisonous mist was very thick, but it still existed in the form of mist.

But behind this black gold iron gate, it was no longer mist, but liquid.

These poisonous liquids seemed to be blocked by an invisible air wall, keeping them behind the black gold iron gate.

"The Poison Emperor is inside, but I don't recommend you go in for the time being. Once you are contaminated with these poisonous liquids, it will be difficult to get rid of them."

Lin Tianhao looked solemn, and looked towards the depths of the poisonous liquid.

He saw a gray-black crystal. In that crystal, there seemed to be a person lying.

"The toxins around the Poison Emperor have condensed into crystals. I don't even dare to touch that level of poison."

Lin Tianhao took a deep breath. Since he was already here, he still wanted to try.

He raised his hand.

Lin Tianhao was about to touch the poisonous liquid.

The Poison Emperor's guard hesitated, he had already reminded Lin Tianhao just now.

But Lin Tianhao still wanted to touch the poisonous liquid, and it was no longer meaningful for him to say anything.

The moment Lin Tianhao's finger was placed on the poisonous liquid, the poisonous liquid seemed to be alive, instantly wrapping around Lin Tianhao's finger, trying to erode Lin Tianhao's whole body through Lin Tianhao's finger.

"Ding, you are poisoned, health - 100 million!!"

Lin Tianhao almost instantly retracted his hand. These poisonous liquids were too terrifying.

Even though Lin Tianhao had retracted his hand as quickly as possible, the finger that touched the poisonous liquid was completely wrapped in the poisonous liquid.

Lin Tianhao tried it, but the finger wrapped in the poisonous liquid was completely numb, unable to move, and Lin Tianhao couldn't even feel the existence of this finger.

"This poisonous liquid is really terrifying!!"

Lin Tianhao frowned slightly, "I need to go out for a while."

He wanted to try how many trees he would need to transfer with wood-type magic to bear the toxins on his finger.

The Poison Emperor's guard glanced at the poisonous liquid on Lin Tianhao's finger, slightly helpless.

"Lord Snow Emperor, you must find a way to remove these toxins as soon as possible."

"Otherwise, these toxins will take your life."

Lin Tianhao nodded solemnly.

He naturally knew this.

Although the finger had now been pulled away, the health loss had dropped from 100 million per second to 50 million.

Lin Tianhao's current health could last for a while.

But the real trouble was not the continuous health loss, but... 100% severely injured!!

In other words.

Under the suppression of this 100% severe injury, even if Lin Tianhao returned to the resurrection altar, his health would not recover.

The Poison Emperor's guard nodded, closed the black gold iron gate, and sent Lin Tianhao out of the Sand Sea Poison City.

After coming out of the Sand Sea Poison City, Lin Tianhao still lost more than 30 million health per second, and this was only from the little bit of poisonous liquid on his finger.

Lin Tianhao sacrificed the Kunlun Mirror and went directly to a place with more trees.

The Vast Continent has a superior geographical location and a good environment. Trees and vegetation can be seen everywhere.

Coming to a jungle.

This jungle was not too big, about two or three kilometers in radius.

There were still wild monsters in this jungle, but Lin Tianhao didn't care.

He directly used wood-type transfer on his finger.

When Lin Tianhao used wood-type transfer on the trees in front of him, the trees in front of him began to wither rapidly, and their vitality was severely damaged.

This jungle with a radius of two or three kilometers completely withered in just a moment.

And the poisonous liquid on Lin Tianhao's finger also faded a little.

The health loss per second on his head also dropped from more than 30 million at the beginning to more than 20 million.

"Ding, you are poisoned, health - 25.31 million!!"

"Ding, you are poisoned, health - 25.31 million!!"

... ..

Lin Tianhao frowned. This jungle reduced the health loss per second by about 10 million, which was a very good effect.

In this way.

It was not difficult for him to resolve the poisonous liquid on his finger.

But the difficulty was, how to resolve so much poisonous liquid behind the black gold iron gate?

Chapter 1039 - The promotion from eight to four begins!

For ordinary adventurers, even with this method, it wouldn't work.

Because the poison's health drain is too high.

Even a fatty wouldn't be able to withstand it without high poison resistance.

Putting aside other things.

Lin Tianhao's health was dropping by over 100 million per second before, and that was just from the venom of one finger.

Without poison resistance, the health drain would be 1 billion per second!!

And the more venom on the body, the higher the health drain would become.

The Poison Emperor Guardian led Lin Tianhao to the black gold iron gate.

Lin Tianhao raised his hand and placed it on the venom.

A large amount of venom surged towards Lin Tianhao's palm, and then his arm.

"Ding, you are poisoned, health -150 million!!"

"Ding, you are poisoned, health -1.2 billion!!"

"Ding, you are poisoned, health -5.05 billion!!"

To be precise.

Not many adventurers can even reach the black gold iron gate alive.

As for directly enduring the venom's attack like Lin Tianhao, that's even rarer.

Besides this.

Lin Tianhao dared to try this, and there was an even more important reason.

That is, he had the ability to revive on the spot.

If other adventurers die here, they need to go to the nearest resurrection point to revive, and then come back.

This round trip takes a lot of time.

More and more venom covered Lin Tianhao completely.

"Ding, you are poisoned, health -100.5 billion!!"

"Ding, you are poisoned, health -104.2 billion!!"

.....

The damage Lin Tianhao suffered every second was increasing.

Finally.

Lin Tianhao fell under this high-intensity venom.

"Ding, you have been killed, level -1."

Lin Tianhao didn't hesitate at all and chose to revive on the spot.

When Lin Tianhao revived on the spot, the venom on his body disappeared, and he returned to full health.

"It seems feasible!!"

There was a bit more excitement on Lin Tianhao's face.

Originally, he felt that completing the task of resurrecting the Mokasha Kingdom would be very, very difficult.

But now...

Isn't this something anyone can do?

Putting aside other things.

Lin Tianhao's current health is far beyond the limit that ordinary people can withstand.

Thinking of this.

Lin Tianhao put his hand on the venom again.

When the Poison Emperor Guardian saw Lin Tianhao actually revive on the spot, his eyes widened involuntarily.

Reviving on the spot saves too much time compared to reviving elsewhere.

Then.

It was just a cycle.

"Ding, you have been killed, level -1."

"Ding, you have been killed, level -1."

.....

One notification sound after another rang out.

At this time.

The huge dragon head of the Poisonous Dragon also came over.

Its eyes, which were already the size of lanterns, widened even more.

It stared at Lin Tianhao as if it had seen a ghost.

The Poison Emperor Guardian looked at Lin Tianhao, then looked at the Poisonous Dragon, and couldn't help but sigh:

"Poisonous Dragon Lord, the trouble we've been trying to solve for so long has been solved just like that."

The Poisonous Dragon was also very surprised and said:

"It's only the Snow Emperor, others shouldn't be able to replicate this behavior."

The Poison Emperor Guardian nodded heavily and said seriously:

"High health plus high poison resistance plus on-the-spot resurrection."

"These three are too rare."

"Although we all have high poison resistance and high health, we can't revive."

Lin Tianhao just kept absorbing venom crazily, then dying, then reviving, under the gaze of the Poison Emperor Guardian and the Poisonous Dragon, one spirit and one dragon.

Village Chief Wang was still outside Sand Sea Poison City at this time. He had already received Lin Tianhao's voice transmission and didn't need him for the time being.

Night fell.

Lin Tianhao's attributes doubled in the dark, and he could absorb even more venom.

At this stage.

Being able to have trillions of health, as well as ninety percent poison resistance and on-the-spot resurrection.

In the entire Twilight of the Gods, there should only be Lin Tianhao!

Putting aside other things.

Between sunset and moonrise, Lin Tianhao's level had already dropped to level five hundred.

At this rate, it will drop to level one tomorrow morning!

If it were other adventurers, even if they had high health and poison resistance like Lin Tianhao.

Just dying and resurrecting at the nearest resurrection point here, then running over, would take at least three or four hours.

Dying five hundred times would take two thousand hours.

In other words.

Lin Tianhao has already saved two thousand hours just on the time spent running the map.

However.

The amount of venom here hasn't even been consumed by one-tenth.

Therefore.

This behavior of resisting poison with the body and then consuming the poison through death can only be done by Lin Tianhao, whether it's an NPC or an adventurer. Others simply can't do it.

If all the venom here is consumed, it is estimated that the normal map running time will not be less than 30,000 hours, plus the resurrection time, even longer.

Calculating like this, it would take three or four years to consume all the poison here.

Three days passed in a flash!

After Lin Tianhao resurrected again, he didn't continue to absorb the venom.

"The Holy Land Lord Championship is about to begin, I have to go back."

"Okay."

Whether it was the Poison Emperor Guardian or the Poisonous Dragon, they were extremely respectful to Lin Tianhao at this time.

The Sand Sea Poison Emperor has been dormant for so many years, and now he is finally about to revive. All the credit for this is due to Lin Tianhao.

The Holy Land Lord Championship was held as scheduled.

The round of eight into four was unprecedentedly lively this time.

After all, the previous rounds of thirty-two into sixteen and sixteen into eight were generally not very exciting.

But this time, the round of eight into four is different.

The teams that advanced to the top eight are basically very strong.

This time, they are likely to see a showdown between the strong.

Especially.

Most adventurers hope that Lin Tianhao and the three major holy lands from outside the region will fight it out.

The previous two battles have allowed many adventurers to see the power of the three major holy lands from outside the region.

At the same time.

They also saw the power of the Snow Emperor.

A showdown between the strong will naturally be more exciting.

This time, Ouyang Wenlong was still responsible for hosting.

As usual, drawing lots.

Just that.

This time, there were very many adventurers acting outside when drawing lots.

After learning from the last loss, Lin Tianhao knew that relying on himself alone was useless.

Therefore.

Lin Tianhao issued tasks to Crazy Battle Blade and those big guilds, asking them to look for suspicious people. If they found and stopped them from poisoning, they could get high rewards.

"Next, please invite the eight holy land lords to the stage to draw lots," Ouyang Wenlong said loudly.

The eight people came to the stage one after another.

Lin Tianhao took a look after drawing it, fourth group.

He's still the finale.

Lin Tianhao looked over and found that the one who drew number four was none other than the Cold Building Lord.

Lin Tianhao versus the Cold Building Lord is what most adventurers want to see.

After all, the Cold Building Lord's infinite control is very targeted towards Lin Tianhao.

Chapter 1040 - Yin Yang He Huan Sect VS Baili Academy!

“Holy shit, it really worked! Snow Emperor versus the Cold Tower Lord, this is getting interesting.”

“Did they hear our calls? It really is the Snow Emperor versus the Cold Tower Lord.”

“Hehe, who do you think will win? From an adventurer's perspective, I definitely hope the Snow Emperor wins, but the Cold Tower Lord's infinite control is just ridiculously strong.”

.....

Third Group: One Thought Monastery VS Demon蛟 Cave.

Fourth Group: Mortal Palace VS Cold Tower.

Most adventurers were very satisfied with this draw result.

After all, when they watch the Holy Land Lord hegemony competition, they naturally want it to be as exciting as possible.

This time, these four groups basically satisfied all their fantasies for this competition.

Especially Lin Tianhao versus the Cold Tower Lord, and Hundred Li Academy versus the Yin Yang Harmony Sect, this simply hit their sweet spot.

“A royal flush right from the start, the odds have already been set, all four groups are at one to one, it seems the bookmaker also thinks this is evenly matched.”

“Hehe, should we blindly bet on the Snow Emperor? After all, the Snow Emperor has created so many miracles, I think he is completely trustworthy.”

“This is really hard to say, you have all seen the Cold Tower Lord's previous performance. I think, why not bet on One Thought Monastery?”

“Are you crazy? Dare to bet on One Thought Monastery? One Thought Monastery's opponents weren't strong before, but they barely won. I'd say, One Thought Monastery being eliminated is basically inevitable.”

.....

The draw ended, and opinions varied.

Especially since many people started discussing betting.

The heat of this competition is unprecedentedly high.

Those who could come to the scene basically came a day early to grab a spot.

“First group, Hundred Li Academy versus Yin Yang Harmony Sect, please invite the two Holy Land Lords to the stage.”

As Ouyang Wenlong's voice fell.

The Dean of Hundred Li Academy and the Sect Master of Yin Yang Harmony Sect respectively stepped onto the stage from the left and right sides of the arena.

The two looked at each other, they are both extra-territorial forces, and should know each other relatively well.

“Dean Hundred Li, please be merciful later.”

The Sect Master of Yin Yang Harmony Sect said with a light smile.

The Dean of Hundred Li Academy nodded slightly, "Everyone knows each other well, why don't you just admit defeat?"

The Sect Master of Yin Yang Harmony Sect frowned, "Admit defeat?"

“We're already in the top eight, it's not good to admit defeat now.”

After saying that.

The Sect Master of Yin Yang Harmony Sect looked at Ouyang Wenlong and smiled: "Can we start?"

Ouyang Wenlong nodded, "First group, Hundred Li Academy versus Yin Yang Harmony Sect, begin now!!"

After saying this.

Ouyang Wenlong immediately jumped off the arena.

“Boom——”

Ouyang Wenlong had just jumped off the arena when a roar came from behind him.

A spatial rift appeared in the space in front of the Dean of Hundred Li Academy.

This spatial rift spread to less than half a meter in front of the Dean of Hundred Li Academy.

The Dean of Hundred Li Academy raised the brush in his hand, and with a wave of his hand, the spatial rift was repaired.

“You're still so violent.”

The Sect Master of Yin Yang Harmony Sect did not respond, she moved, and the entire arena was filled with her phantoms.

These dense phantoms instantly rushed towards the Dean of Hundred Li Academy.

The Dean of Hundred Li Academy used the brush in his hand to draw a circle at his feet, with himself as the center.

When the phantoms of the Sect Master of Yin Yang Harmony Sect touched this circle, they all shattered.

“One Life Myriad Forms!”

After blocking this wave of attacks from the Sect Master of Yin Yang Harmony Sect, the Dean of Hundred Li Academy wrote the character “一” (one) in the air with the brush in his hand.

[One] can be considered the simplest character in Chinese, but the simpler the thing, the more difficult it is to write.

As this [one] character fell, flowers, plants, and trees appeared on the arena, full of vitality.

These flowers, plants, and trees harbored murderous intent, and were actually depriving the Sect Master of Yin Yang Harmony Sect of her health points.

The Sect Master of Yin Yang Harmony Sect snorted coldly, and a staff appeared in her hand.

As the staff waved, one pink skeleton after another crawled out from the ground.

A strange, ominous aura spread from the pink skeletons.

The Dean of Hundred Li Academy frowned slightly, and waved the brush in his hand again.

This time.

The Dean of Hundred Li Academy wrote the character “人” (person).

This is also an extremely simple character.

But such an unremarkable character seemed to carry immense power.

Wherever the [person] character passed, the space was shaking and buzzing.

The pink skeletons summoned by the Sect Master of Yin Yang Harmony Sect ignored this [person] character, and rushed directly towards the Dean of Hundred Li Academy.

The Sect Master of Yin Yang Harmony Sect waved her staff, and a dark light gathered on the staff.

This dark light was strange, and a dark light ray shot out from the staff of the Sect Master of Yin Yang Harmony Sect.

The [person] character began to fade quickly after being hit by the dark light.

At the same time.

The ominous and strange aura on the arena became even stronger.

Lin Tianhao frowned slightly, watching quietly.

Each attack of the Sect Master of Yin Yang Harmony Sect carried a strange power.

The Dean of Hundred Li Academy also frowned tightly, and the Cold Tower Lord on the high platform also had a somewhat uncertain look in his eyes.

Obviously.

The strange power attached to the attacks of the Sect Master of Yin Yang Harmony Sect was something that they, as Holy Land Lords from outside the territory, did not know.

“Heaven and Earth United, Righteous Qi!”

The Dean of Hundred Li Academy had already discovered that each attack of the Sect Master of Yin Yang Harmony Sect would increase the strange aura on the arena by a few points.

Therefore, he did not intend to hold back.

Righteous Qi gathered on the brush, and the Dean of Hundred Li Academy directly wrote the character “殺” (kill)!!

As soon as this character came out, the world changed color, and spatial rifts appeared, centered on the Sect Master of Yin Yang Harmony Sect.

These spatial rifts spread towards the Sect Master of Yin Yang Harmony Sect, trying to defeat her.

However.

The Sect Master of Yin Yang Harmony Sect sneered, she slammed her staff into the arena, and a circle of violent shock waves spread out from her as the center, blocking the spreading spatial rifts.

However.

Although the spatial rifts were blocked, the vigorous Righteous Qi fell on the Sect Master of Yin Yang Harmony Sect.

The Sect Master of Yin Yang Harmony Sect was forced to retreat again and again, but she did not stop, and between the hand seals, a gray-black curse seal floated above the head of the Dean of Hundred Li Academy.

The Dean of Hundred Li Academy's face changed slightly, and magic纹 (magic patterns) began to appear on his body.

The Dean of Hundred Li Academy, who was originally full of Righteous Qi, now had signs of turning into a demon.

“You have Righteous Qi, then today I will break your Righteous Qi.”

The Sect Master of Yin Yang Harmony Sect shouted in a low voice:

“I have three thousand inner demons, I don't know if your Righteous Qi can block them!!”
