

O game 105

Chapter 105 - The secret order from the underworld!

Listening Rain Hall.

Queen Fio Dinyu angrily slammed her hand on the table, shattering it into pieces.

“Mother, what do we do now?”

Qing Fuyun's expression was somewhat unsightly, “This Snow Emperor is clearly retaliating.”

Queen Fio Dinyu coldly snorted, “I'm afraid it's not that simple. According to my understanding of the Snow Emperor, he is a person who doesn't get up early without profit. It's impossible for him to act for no reason. There must be a reason behind this.”

“Could it be... that little bitch Leona?”

Queen Fio Dinyu shook her head, “It shouldn't be. I think, it's Tissot!”

“So, the Snow Emperor is siding with Tissot?”

Qing Fuyun's expression was somewhat solemn, “Tissot is already at the height of her power, and now she has the Snow Emperor's help...”

Queen Fio Dinyu's eyes became even more profound.

“Snow Emperor, just a greedy fellow. As long as the benefits are in place, he will help us as well.”

“But he killed...”

Queen Fio Dinyu raised her hand to stop Qing Fuyun's words.

“Clinphis knew too many of my secrets. It's good that he's dead. But this Snow Emperor, the ruins of the Snow Corpse didn't trap him. He might become the biggest variable in this battle for the throne.”

Hearing this.

Qing Fuyun was somewhat surprised, “He's just an adventurer after all. Is he that powerful?”

“Wait and see.”

Queen Fio Dinyu sneered: “If it doesn't work, then we can only deal with Tissot.”

Not only the Queen's side, but all forces in the Star Kingdom are now discussing this matter, and many people are shaken by it.

...

Black Wind Fortress.

After Lin Tianhao killed Clinphis, he began to loot the corpse.

“Ding, you have obtained Skill Book +5.”

“Ding, you have obtained Equipment +13.”

The skills are basically large-scale mage skills. As for the thirteen pieces of equipment, there is one gold weapon and five silver weapons, as well as seven bronze weapons.

Although it is not a set, it is quite good.

It's just a pity.

The equipment requirements are all level 50, so they can't be used for the time being, and they are all for mages, which are of no use to Lin Tianhao.

Besides this.

There are free attribute points.

Lin Tianhao's free attribute points are now increasing.

He has already accumulated 1,350 free attribute points, which is not a small number.

Finally, there is the Netherworld Token.

Netherworld Token: Special.

Effect: A token of the Netherworld race. Holding this token, you can directly enter the Netherworld Royal City and not be affected by the Netherworld Qi.

Durability: 100.

The Netherworld race lives in the Dark Kingdom. The kingdom is more than ten times larger than the Star Kingdom, with countless strong people and a large number of hidden opportunities.

It's just that.

Entering the Dark Kingdom will be affected by the Netherworld Qi, causing continuous health loss, and the body will also experience negative states.

Therefore, in the early stages of the game, there are very few players who enter the Dark Kingdom.

After all, without being able to resist the Netherworld Qi, entering will cause you to die before long.

After putting away the items, the next step is to ask Tissot for the reward.

The clues to the Gods' Blessing are definitely good things for Lin Tianhao.

Hopefully, Tissot is not playing him.

The reason why Lin Tianhao said this is because clues are easily played with.

For example, the clues are given, but conventional means cannot obtain them.

Instead of Lin Tianhao going to find her, Tissot took the initiative to find Lin Tianhao.

“Snow Emperor, your speed is faster than I expected.”

Tissot looked at Lin Tianhao with great satisfaction, “This is the reward I promised you.”

After speaking, Tissot raised her hand and tapped, and Lin Tianhao immediately received the quest reward.

“Ding, you have completed Tissot's quest.”

“Ding, you have obtained seven clues to the Gods' Blessing. In the Star Kingdom, those who can give the pre-quest scroll for the Gods' Blessing are Tissot, Qing Fuyun, Leona, Queen Fio Dinyu, King Abella, Prime Minister Corsenlo, and Grand Marshal Lorraine Muyuan.”

Lin Tianhao frowned. This clue doesn't seem to be of much use.

“Princess Tissot, since you know what I want, can you give me the pre-quest scroll for the Gods' Blessing that you have?”

Tissot shook her head, “I can give it to you, but not now.”

“Oh.”

Lin Tianhao frowned. Tissot continued, “Snow Emperor, although you killed Clinphis, I think this certificate of loyalty is not enough.”

“What else do you want me to do?” Lin Tianhao asked.

Tissot pondered for a while before saying, “I haven't thought about it yet, but I know that the Queen is not as simple as she seems. You can help me keep an eye on her.”

“Okay, is this a quest or a favor?”

“A favor?”

Tissot smiled noncommittally, “Snow Emperor, you are really greedy.”

“Greedy? I am an adventurer. To us, you are just passersby.”

Tissot walked in front of Lin Tianhao, and Lin Tianhao could smell the faint fragrance on Tissot's body.

“Just passersby? I don't think so.”

“If I become king, I will definitely lead the Star Kingdom to a higher level.”

Lin Tianhao was somewhat surprised. A kingdom rising in rank is similar to a territory advancing.

It's just upgrading from the current stage to the next level.

And what is the next level of the kingdom?

Empire!!

With just one word difference, there is a world of difference in strength.

Advancing in rank is easy to say, but Lin Tianhao also knows very well that it is extremely difficult to truly achieve it.

“What? Don't believe me?”

Tissot circled around Lin Tianhao and came behind Lin Tianhao.

“My God is about to be resurrected, and with my preparations, as long as I become king, the Star Kingdom's advancement is inevitable.”

Lin Tianhao resisted the urge to laugh. After all, the remnant soul of the Ice and Snow Goddess has been shattered. Even if it relies on the godhead, it will re-condense the soul in the future, but in the sealed state, it is unknown how long it will take.

Even if the remnant soul is re-condensed, it will not be able to break the seal.

As for others going, it is equally difficult.

The difficulty of the Snow Corpse's Footprints dungeon is too high, and according to Lin Tianhao's speculation, only the Hell difficulty will come into contact with the seal.

Just like when he came into contact with the Nine-Headed Hydra Ivy in Novice Village, no one in his previous life had come into contact with it, because the Hell difficulty was too difficult for most players.

And in his previous life, there were many cases where special bosses existed in Hell difficulty dungeons.

“Princess Tissot, if you can make the Star Kingdom advance, I congratulate you. If you can't, it won't have any impact on me.”

Tissot nodded and said, “That's indeed the truth, but it will have a big impact on me.”

“Everyone else is within my calculations, but you, Snow Emperor, are not.”
