

Online game: I have super god-level talent

#11 - Chapter 11 Hell Difficulty: Hydra Cypress!

The skill Entangle is not a hard crowd control skill, but a targeted spell.

In other words, it can be dodged through positioning.

The main reason Lin Tianhao was attacked before was carelessness, and the other was that the three Treant Leaders simultaneously cast Thorns Entanglement, blocking his retreat.

Now that Lin Tianhao is highly focused, as long as he sees the action of raising hands for Thorns Entanglement, he will move in advance to pull away.

In addition, with the high output and lightning jump damage, the number of Twisted Treants is constantly decreasing.

As the number of Twisted Treants decreases, Lin Tianhao's monster farming becomes even more effortless.

Finally, all the Twisted Treants in this level were killed.

"Ding, you have reached level 9, free attribute points +5."

One level up per level, this leveling speed is truly terrifying.

Moreover, with the blessing of the skill Revival, Lin Tianhao's current health has been restored to full.

... ..

At this time.

The Floating Life Club!

Offline Conference Hall!

A video is being played on the big screen.

That is the video of Lin Tianhao soloing the Twisted Treant King.

A young man stood in the main seat of the conference room.

"You have all seen this video. Divine Wolf, you are also an archer, tell me your opinion."

Floating Life Divine Wolf immediately stood up, "The damage value is very high, but his technique is really terrifying."

"Even if the damage value is reduced, he can still solo this boss with his technique."

Floating Life Maniac also said from the side: "Young Master, what do you mean by showing us this video?"

"I want you to help analyze it. If I want to poach him, how much money is appropriate? I offered an annual salary of 10 million before, but he refused without hesitation."

Floating Life Divine Wolf frowned, "With such skills, he is definitely not an unknown person. He may have been earning tens of millions of annual salary, or even higher, in the PC game era."

After all, there was a legendary archer in the PC game era who earned more than 80 million annual salary.

"With the current popularity of Twilight of the Gods, with his skills and attributes, an annual salary of 100 million is not an exaggeration."

"If we also consider the overall impact on our guild and the driving ability in the early stage of the game, the annual salary can even be given between 150 million and 200 million."

Floating Life Divine Wolf spoke very pertinently.

He, the president of the Floating Life Guild, only earns more than 20 million annual salary.

After saying this, Floating Life Shield Mountain coughed, "Also, let you see my current attributes."

He proudly posted his Treant Set attributes.

Floating Life Divine Wolf was shocked after seeing the set attributes.

"The total health has increased by 5,800, the armor and magic resistance have increased so much, and the characteristics attached to this set..."

Floating Life Divine Wolf couldn't help but gasp, "Young Master, how much did this set of equipment cost you?"

"400,000, plus taking me to level 10."

"It was originally 300,000, but I added these two Black Iron grade equipment."

Floating Life Divine Wolf was dumbfounded, "So cheap?"

That's right, it's cheap.

A level 10 Elite grade equipment is worth about 20,000.

These thirteen pieces can be worth 400,000 if sold separately.

The key is that it is a set, and it also comes with taking you to level 10.

"Snow Emperor sold it to you?"

"Yes."

"It seems that he is not short of money, otherwise he could definitely sell it for a better price."

Floating Life Divine Wolf subconsciously thought that Lin Tianhao was rich and didn't care.

But how would he know that Lin Tianhao was in a hurry to use money, so he didn't bargain.

Moreover, five years later, when the Great Cataclysm begins, real currency will be worthless at all.

Twisted Jungle!

Lin Tianhao entered the third level.

Here, there are four Twisted Treant Kings.

Twisted Treant King (Black Iron Boss): Level 10.

Health: 186800.

Attack: 598.

Skills: Summon Treant, Revival, Vine Entanglement, Thorns Shield, Vine Prison.

The skills have not increased, but the attributes have increased a lot.

And the number is still four.

Looking at his current health, Lin Tianhao directly attacked.

Whoosh!

Critical Hit!

-1685.

As expected of a Black Iron boss in a Hell difficulty dungeon, the defense is very high, so that the 300 attack power increased by Lin Tianhao's Thunderclap Bow does not cause much damage even in a critical hit.

Currently, most of this damage is still brought by Lin Tianhao's Hand of Heavenly Punishment.

Moreover, it is worth mentioning that the Twisted Treant King's Vine Entanglement is different from the ordinary Treant's Entangle skill.

This is a skill that is infinitely close to hard crowd control, because the entangling vines appear directly from the player's feet, making it difficult to react.

Lin Tianhao's current attack speed can only interrupt the attacks of two Twisted Treant Kings at the same time at most.

But now he is facing four Twisted Treant Kings.

The battle is about to break out.

The four Twisted Treant Kings have a certain degree of intelligence and are surrounding Lin Tianhao.

At the same time, the skill Vine Prison has appeared.

It's just a pity that the casting of Vine Prison is the slowest and easiest to be interrupted.

Lin Tianhao easily interrupted the Twisted Treant King's skill.

However, they are four Twisted Treant Kings releasing skills at the same time, blocking Lin Tianhao's retreat.

Lin Tianhao did not retreat but advanced, which can be said to be exactly what he wanted.

-598.

-597.

-598.

... ..

Lin Tianhao went forward and entered the normal attack range of the Twisted Treant King.

The four Twisted Treant Kings simultaneously launched normal attacks, causing more than 2,000 damage to Lin Tianhao.

After the Twisted Treant King's skill effect disappeared, he retreated again, pulling away the distance.

At the same time, he began to continue walking A.

As long as he is not connected to Vine Entanglement, with Lin Tianhao's current health and the skill Revival, the probability of him being instantly killed is very small.

Walking A all the way, finally, the first Twisted Treant King fell.

The remaining battle will be much easier.

Before long, all three Twisted Treant Kings fell.

In Twilight of the Gods, the dungeon rewards are settled after clearing the dungeon. Before clearing the dungeon, killing monsters will only give experience points, not drop items.

This saves Lin Tianhao the step of touching the corpse.

Raising his leg and entering the fourth level, this is the final level of the Twisted Jungle dungeon.

As soon as he came in, Lin Tianhao saw a big tree hundreds of meters high, with countless vines swaying in the wind.

It doesn't look like a boss, it's just a big tree.

Nine-Headed Snake Vine (Bronze): Level 10.

Health: 1528000 / 1528000.

Attack: 1358.

Skills: Withered Wood Revives.

Lin Tianhao's eyes narrowed slightly, this boss only has one skill!
