

O game 1121

Chapter 1121 - An unconscious state of unity between man and nature!

“Snow Emperor, don't be arrogant. We have always been here. We will forever follow you, constantly... constantly growing stronger!!”

“Until one day, we completely devour you!!”

Lin Tianhao frowned slightly. The resentment dragon in front of him began to collapse, completely dissipating into his inner world.

And his voice was still echoing in the void.

Lin Tianhao's expression was serious. He also didn't expect that this guy could come out and disappear.

Along with the dissipation of the resentment dragon, Lin Tianhao's consciousness also returned to calm.

Puppet Arrow God King and Qingya Ghost Fiend saw the magic纹 on Lin Tianhao's body collapse.

Satisfied smiles appeared on both of their faces.

Seeing this scene.

Puppet Arrow God King finally breathed a sigh of relief. He was really worried that Lin Tianhao would become demonized here.

Holding the Investiture of the Gods, it meant that Lin Tianhao was the person chosen by that great existence.

If Lin Tianhao became demonized because of his mistake, then he would truly be deserving of ten thousand deaths.

“Are you alright?”

Even though Lin Tianhao had already recovered, Puppet Arrow God King still asked with a worried tone.

Lin Tianhao raised his eyebrows and said:

“For a moment, I even thought you were doing it on purpose, wanting to lead me into demonization and be controlled by my inner demons.”

Puppet Arrow God King smiled awkwardly and explained:

“Snow Emperor, I only brought out the fear in the depths of your heart, and didn't want to lead you into demonization.”

Lin Tianhao nodded slightly, “I understand. Because of the state of unity between man and nature that you mentioned, I seem to have reached it.”

“Reached it?!”

Puppet Arrow God King was greatly surprised, because Lin Tianhao had only recovered from a state of near demonization, and he hadn't noticed anything special about Lin Tianhao.

But Lin Tianhao was now telling him that he had already entered the state of unity between man and nature.

“I don't know if it's accurate. Why don't you try it?”

The moment Lin Tianhao spoke, his body had already moved to the side.

Several bamboo leaves silently fell from Lin Tianhao's side. If Lin Tianhao hadn't just moved his body, he would have been hit by these falling bamboo leaves.

Obviously.

When Lin Tianhao said that he had reached the state of unity between man and nature, Puppet Arrow God King had already begun his test.

It's just.

The result of this test surprised Puppet Arrow God King very much.

“You didn't even say start. Are you in an unconscious state of unity between man and nature?!”

When he said these words, the shock on Puppet Arrow God King's face became even more intense.

It seemed that this unconscious state of unity between man and nature was even more powerful than the general state of unity between man and nature.

“I don't know either. Can this state of unity between man and nature be activated independently?”

“But... I don't seem to have this skill.”

Hearing this.

Puppet Arrow God King couldn't help but gasp, because he could be sure now.

Lin Tianhao had entered the unconscious state of unity between man and nature.

“Snow Emperor, this... is too sudden, right!!”

“Generally speaking, the state of unity between man and nature requires calming the mind before slowly entering that state.”

“This state is almost impossible to exist at all times.”

Speaking to this point.

Puppet Arrow God King paused slightly before continuing to say:

“However.”

“There is another situation where the state of unity between man and nature exists for a long time.”

Lin Tianhao smiled and said:

“You're talking about my current unconscious state of unity between man and nature?”

Puppet Arrow God King nodded heavily and said:

“That's right.”

“But...”

Puppet Arrow God King hesitated, but in the end, he didn't say the rest of the words.

“But what...”

Qingya Ghost Fiend took over the conversation and said:

“There are two ways to reach the state of unity between man and nature.”

“One is to calm the mind to the extreme, to feel everything between heaven and earth, and to merge with heaven and earth.”

“The second is to become demonized. When becoming demonized, the mind is emptied, and the Tao is entered through the demon, reaching the state of unity between man and nature.”

Speaking to this point.

Qingya Ghost Fiend also stopped.

Puppet Arrow God King looked at Lin Tianhao very seriously and said:

“Snow Emperor, you were just on the verge of becoming demonized. According to normal circumstances, since you have already reached the verge of becoming demonized, it is theoretically impossible to enter the state of unity between man and nature again.”

“Let alone the unconscious state of unity between man and nature.”

Lin Tianhao frowned slightly and asked:

“According to what you said, what should I be now? Demonized?”

Puppet Arrow God King nodded heavily, then shook his head seriously and said:

“To be honest, I don't know.”

“Looking at your current state, you don't seem to be demonized, but the things that happened to you are very similar to being demonized.”

“So.”

“I can't say for sure either.”

Lin Tianhao thought of the cold energy in his body.

That cold energy was very mysterious.

He was able to be pulled back from the verge of demonization, and directly achieved this unconscious state of unity between man and nature. It should all be thanks to this thing.

“Snow Emperor, if you can't figure out this situation, then you don't have to think about it.”

“You are the Lord of Heaven and Earth chosen by that great existence, which means that you are destined to be different from ordinary practitioners.”

“I don't know how you did it, but looking at your aura, you are indeed not demonized, and you have indeed entered the unconscious state of unity between man and nature.”

While Puppet Arrow God King was saying this, Lin Tianhao casually stepped aside a few steps, lightly avoiding the several bamboo leaves that Puppet Arrow God King used to test him.

“Yes.”

Lin Tianhao nodded.

After a slight hesitation, Lin Tianhao still asked.

“When I was almost demonized just now, I saw a dragon of resentment. This dragon of resentment seemed to be formed by the resentment of those guys I had killed in the past.”

“But I have Fiery Eyes of Truth. If I had resentment on my body, I should have discovered it myself.”

Puppet Arrow God King was slightly stunned before smiling and shaking his head.

“Snow Emperor, don't mention your Fiery Eyes of Truth, even if the Great Sage Equaling Heaven's true body came, it would be difficult to discover those resentments.”

“Why?”

Lin Tianhao was a little strange.

These resentments all truly existed. Logically speaking, they should have been discovered.

“How should I explain this to you? You know merit, right? Merit, luck, these things are actually ethereal things.”

“Even a God King powerhouse like me finds it difficult to discover a person's merit and luck.”

“Those above the Half-Saint realm might be able to see merit and luck, and may also be able to see the resentment on your body.”

“Those resentments are things that directly strike at the origin of this world. It's normal for ordinary people to have difficulty discovering them.”

Chapter 1122 - Non-lawful silent arrow!

Lin Tianhao could understand what the Puppet Arrow God-King was saying.

But here's the problem.

What was that chill in his body?

Was it also something from the depths of the world's origin?

Lin Tianhao wasn't sure, but based on the current situation, there was a good chance.

But the problem was.

This chill was inside his body, and not only did he not know what it was.

The most serious problem was.

He didn't even have control over this chill.

It seemed like...

When this chill wanted to come out and help him, it would show its head, but when it didn't want to come out, it wouldn't come out at all.

However.

Although this chill was unknown and completely beyond Lin Tianhao's control.

Judging from the observations over this period, this chill hadn't brought him anything bad.

Every time this chill appeared, it helped him.

Moreover.

When this chill was on him, he couldn't feel it himself, and neither could others.

Before, when this chill was on Mu Na, Lin Tianhao could feel the chill from her.

Regarding the problem of this chill.

Lin Tianhao still couldn't figure it out.

Lin Tianhao looked at the Puppet Arrow God-King with a smile and asked:

"Puppet Arrow God-King, your inheritance, it can't be just this Harmony of Man and Nature, right?"

"Be content."

The Puppet Arrow God-King couldn't help but roll his eyes, "Do you know how many people in this world want to enter the state of Harmony of Man and Nature but can't?"

Lin Tianhao spread out his hands, "Puppet Arrow God-King, how can you still have the nerve to say that? Don't you know that I almost became demonized because of you?"

Hearing this.

The Puppet Arrow God-King also smiled awkwardly and said:

"Accidents, it was all accidents, but no matter what, the result is good, you successfully entered the state of Harmony of Man and Nature."

"Still an unconscious state of Harmony of Man and Nature that countless people dream of."

Lin Tianhao rolled his eyes and scolded:

"Puppet Arrow God-King, that's where you're wrong. If I can enter the unconscious state of Harmony of Man and Nature, is it thanks to you?"

The Puppet Arrow God-King was completely speechless this time.

He grinned and said:

"Alright, I can't argue with you. My puppetry is not bad, but someone like you shouldn't spend a lot of time studying puppetry."

"You are an archer, I think the Non-Law Silent Arrow that I researched should be useful to you."

"Non-Law? Silent Arrow?"

Lin Tianhao knew about the Silent Arrow, but what was this Non-Law Silent Arrow?

Seeing Lin Tianhao's confusion, the Puppet Arrow God-King smiled and explained:

"Generally speaking, the trajectory of an arrow can be predicted, whether it is parabolic shooting or the curved arrow of the string-twisting arrow technique."

"These, as long as you encounter experienced people, you will definitely find the pattern. The Non-Law Silent Arrow I researched has no law of flight to speak of."

"You can also call it the Lawless Silent Arrow."

Lin Tianhao's eyes lit up. This Non-Law Silent Arrow seemed to be an upgraded version of the string-twisting arrow technique.

"Is this a technique?" Lin Tianhao asked.

The Puppet Arrow God-King shook his head and said:

"If this was a technique, who could figure it out?"

"I thought about it at the time, if it is a technique, there must be a pattern to the launch."

"If there is a pattern to the launch, then the flight trajectory must also have a pattern, it's just that the flight pattern will be more complicated."

"This is a skill?! !"

If this Non-Law Silent Arrow was a skill, then he could learn it directly.

Just thinking about it made Lin Tianhao a little excited.

The attack speed of his Heavenly Punishment Lockhead was still somewhat different from the normal attack speed.

If he could master this Non-Law Silent Arrow, then his combat power would be significantly improved.

"Yes."

The Puppet Arrow God-King nodded lightly, "This is a brand new skill that I synthesized from nine passive skills."

"This skill cannot be drawn into a skill book, it can only be left behind in the form of inheritance."

"As the founder, I can pass this skill on to ten people, but those who subsequently obtain this skill need to raise this skill to seven stars or above before they can pass it on to another person."

Lin Tianhao nodded heavily. At this moment, Lin Tianhao thought of Origin Replication.

Could he use Origin Replication to replicate this skill and then pass it on to others?

Thinking like this.

Lin Tianhao said with a smile:

"Puppet Arrow God-King, can you demonstrate it for me?"

The Puppet Arrow God-King nodded and smiled:

"Of course."

As he spoke.

The Puppet Arrow God-King had an extra novice longbow in his hand.

"Using a novice longbow to demonstrate, are you afraid that I will see your good weapon and snatch it?"

The Puppet Arrow God-King spread out his hands and said:

"You also know that I experienced a world-shattering war back then, and the weapons in my hands were shattered long ago."

"The remaining useful things have also been searched and plundered by those blood eaters."

While speaking.

The Puppet Arrow God-King had already shot an arrow with a "whoosh" sound.

Seeing this scene.

Lin Tianhao did not hesitate to use Origin Replication.

"Ding, you have replicated the restricted skill [Non-Law Silent Arrow]. This skill cannot be presented as a skill book. After replication, only you can learn it."

Lin Tianhao was slightly startled. There was actually such a restriction. It seemed that the Puppet Arrow God-King was not lying.

This thing.

It really cannot be drawn into a skill book, it can only be obtained through inheritance.

The Puppet Arrow God-King demonstrated a few more arrows in succession. These arrows twisted and turned in the air, and finally silently hit the same pillar.

Judging from the Puppet Arrow God-King's demonstration, this skill seemed really good.

"Are these arrows tracking?"

Lin Tianhao also knew that there was a skill called Silent Tracking Arrow.

This Silent Tracking Arrow was similar to his Heavenly Punishment state.

But the difference was also obvious.

Although his Heavenly Punishment state was actively activated, the duration was unlimited.

The normal Silent Tracking Arrow not only had time restrictions, but also had restrictions on the number of arrows.

Moreover.

The Silent Tracking Arrow, as an active skill, also had a certain cooldown time. It was impossible to activate it whenever he wanted like his Heavenly Punishment state.

In addition.

There was also a very important point.

The power level of the Silent Tracking Arrow was completely incomparable to his Heavenly Punishment Arrow.

"How is it? If you want to learn, I can pass it on to you now."

Lin Tianhao shook his head. He had already replicated this [Non-Law Silent Arrow] based on Origin Replication.

It would be good to keep the Puppet Arrow God-King's inheritance qualification for others.

"No need, I just watched you cast it and already understood the mystery." Lin Tianhao said.

Chapter 1123 - Killing the Puppet Arrow God King shocked the top leaders of other countries!

The Puppet Arrow God King was stunned, and even the Qingya Ghost Fiend beside him was a little surprised.

The Puppet Arrow God King couldn't help but say:

"Snow Emperor, you're not joking, are you? Even if you know the mysteries of it, how can you learn this skill without my inheritance?"

"Unless you can synthesize this skill like me."

Lin Tianhao shook his head and said seriously:

"Puppet Arrow God King, I'm not joking. I don't need your inheritance anymore. You can keep your inheritance spot for others."

Having said that.

Lin Tianhao paused slightly before continuing:

"Besides this Non-Law Silent Arrow, what other inheritance do you have for me?"

"That's all."

The Puppet Arrow God King shook his head and said:

"A person like you shouldn't be distracted by puppetry, so I don't plan to pass on puppetry to you."

"The only things left are the Harmony of Heaven and Man and this Non-Law Silent Arrow."

Lin Tianhao nodded helplessly. A powerhouse at the God King level only had so little to offer.

To be honest, Lin Tianhao was somewhat disappointed.

"Puppet Arrow God King, now that the matter of inheritance is over, shouldn't you be on your way too?"

The Puppet Arrow God King looked at Lin Tianhao seriously and said solemnly:

"No problem."

"But."

"Snow Emperor, don't play me, okay? If I die and don't make it onto the God Conferring List, then I'll be completely gone."

Lin Tianhao nodded seriously and said:

"You can rest assured about that. You are a powerhouse at the God King level. With my current strength, it's still very difficult to kill a God King."

The Puppet Arrow God King nodded lightly. Although the God Conferring List was good, it could only send a god onto the list after killing them.

Therefore.

Under normal circumstances, if the person holding the God Conferring List is not strong, it would be difficult to kill a powerful god.

Lin Tianhao was very strong, there was no doubt about that.

But Lin Tianhao's strength was more in being strong in the mortal realm.

If he really faced a god, Lin Tianhao's strength would still be somewhat lacking.

"Come on."

The Puppet Arrow God King nodded heavily. He could only trust Lin Tianhao now; he had no other choice.

"Swish, swish, swish—"

Lin Tianhao's feather arrows flew out.

The Puppet Arrow God King gave up resisting, and being only a remnant soul, he was killed by Lin Tianhao in less than a second.

"Ding, congratulations, you have successfully killed the Puppet Arrow God King. A server-wide announcement will be made soon. Do you want to hide your name?"

"No."

"Server-wide announcement: Congratulations to player Snow Emperor for successfully killing the Puppet Arrow God King, rewarding 100,000 free attribute points, a King-grade equipment of this profession +1. Special announcement, hoping that all adventurers will continue to work hard!!"

... ..

The server-wide announcements sounded one after another.

The fall of a god, and a God King at that!!

The reason was none other than.

Lin Tianhao's killing of the God King was too inconceivable.

United States.

High-level online meeting.

The somewhat sinister face of the President of the United States was pressed against the camera, making the other high-level officials of the United States feel both ridiculous and nervous.

"You should have all heard it. Snow Emperor killed the Puppet Arrow God King. I think, rather than just a name of God King, it's likely to be a genuine God King."

Everyone was silent.

The President of the United States gritted his teeth and continued:

"Snow Emperor's growth rate is really too fast. Today he can hunt down a God King, what about in half a year? What about in a year?"

"Will Snow Emperor unify the world with a single sentence after the Twilight of the Gods and reality merge?"

Hearing the last sentence of the President of the United States.

These high-level officials of the United States were all silent as cicadas in winter.

After a few seconds, a confidant of the President of the United States gritted his teeth and said:

"Sir, I think there's a high probability that Snow Emperor's killing of the Puppet Arrow God King was a lucky find."

"Isn't it not allowed for gods to appear at the moment? Snow Emperor probably used some method to find a God King who was dormant, or had already been sealed."

"His output ability, even if it's a powerhouse at the God King level, will still be killed by him if they don't resist."

Just as the words of this high-level US official fell, another high-level US official spoke solemnly:

"In fact, no matter how Snow Emperor killed the Puppet Arrow God King, one thing is certain: after Snow Emperor killed the Puppet Arrow God King, he will definitely send the Puppet Arrow God King to the God Conferring List."

"In other words, there is now a God King-level powerhouse in full condition on Snow Emperor's God Conferring List!!"

"Even if gods are not allowed to take action now, what about later? How long can this ban last?"

"According to previous analysis, such a ban will last until the Twilight of the Gods and reality merge at most."

The words of this high-level US official fell.

The online conference room was once again silent, so quiet that a pin could be heard dropping.

Although what this high-level US official said was harsh, it was undeniable that this was the truth.

Their research on Lin Tianhao, or rather, on [Snow Emperor], was already very deep.

They were very familiar with many of [Snow Emperor]'s methods.

In the end.

The President of the United States gritted his teeth and said:

"Since none of you have a solution, what do you think of the cooperation with the Alete Star System?"

Hearing this question.

The expressions of the high-level officials of the United States were somewhat solemn.

"Sir, those who are not of our race must have different hearts."

"The Dragon Kingdom has always advocated peaceful coexistence. If the Blue Star is dominated by the Dragon Kingdom, we will all have room to survive, but if it is those guys from the Alete Star System, our situation may not be better than it is now."

The high-level US official who had just spoken spoke again, his expression extremely solemn.

"We can temporarily cooperate with those guys from the Alete Star System to obtain some benefits, but we must never place all our hopes on them."

The President of the United States did not respond, but looked at the others and said:

"What about you?"

The other high-level US officials looked at each other. Finally, the confidant of the President of the United States slowly said:

"The purpose of the Alele Star System's arrival at the Twilight of the Gods is unknown, but according to the clues we have learned so far, they all point to the current Twilight of the Gods being the Fourth Era of God Creation."

"Therefore."

"The guys from the Alele Star System probably came to Blue Star to obtain resources and become gods!"

Chapter 1124 - A silent arrow with no star rating!

Having said that.

The confidant of the Lord of America paused slightly before continuing:

"Therefore, I think we can completely cooperate with those guys from the Arlett Star System. They become gods, and so do we."

"After all, this is our territory. Once we grow stronger in the future, we can just drive them out."

The others all hesitated to speak.

Naturally, many of them felt that this decision was somewhat inappropriate.

However, the Lord of America's seemingly consultative words did not intend to consult with them.

They had actually already known something about the cooperation with those guys from the Arlett Star System.

Although many of them had not yet nodded in agreement, this matter had been constantly pushed forward.

... ..

Not only on the American side.

However.

This time, Lin Tianhao's killing of the Puppet Arrow God King still greatly surprised them.

However.

Some people felt that.

Now that the gods are not allowed to take action, therefore, this Puppet Arrow God King is likely a "soft persimmon" himself, the kind that can be easily manipulated.

Of course.

Some people also think that.

Now that gods are not allowed to take action within the Twilight of the Gods, some people suspect that Lin Tianhao has already killed outside the Twilight of the Gods.

However, some people also feel that killing gods outside the Twilight of the Gods is too unbelievable, and even if a god outside the Twilight of the Gods is killed, there should not be an all-server announcement.

For a time, opinions varied.

But no matter what they thought, the final result was that Lin Tianhao's level of strength in the hearts of these national leaders rose to another level.

And at this moment.

After Lin Tianhao killed the Puppet Arrow God King, the Godslayer Mark also allowed Lin Tianhao to obtain a brand new skill from the Puppet Arrow God King.

It's just.

When he saw the name of this skill, Lin Tianhao was a little dumbfounded.

Non-Law Silent Arrow!!

This skill...

To be honest, Lin Tianhao felt that this was too wasteful.

After all, his Origin Replication had already recorded the Non-Law Silent Arrow skill. He only needed to spend some time to obtain the Non-Law Silent Arrow skill.

Non-Law Silent Arrow: You aim at a target and shoot an arrow. The arrow will enter a silent state and hit the target you are aiming at with an absolutely uncontrollable trajectory.

(Note: This skill is not a tracking skill, the final landing point is the position you are aiming at.)

Lin Tianhao raised his eyebrows slightly. This Non-Law Silent Arrow has no star rating, no cooldown time, and no consumption.

This seems to be somewhat different from the information previously revealed by the Puppet Arrow God King.

Although the Puppet Arrow God King did not explicitly introduce this Non-Law Silent Arrow before.

But there is one point that the Puppet Arrow God King definitely mentioned, and that is the star rating!!

The professional who inherits the Non-Law Silent Arrow needs to raise the Non-Law Silent Arrow to seven stars before he can continue to pass it on to others.

This shows that the star rating of the Non-Law Silent Arrow does indeed exist.

But now.

The Non-Law Silent Arrow that he obtained from the Puppet Arrow God King based on the Godslayer Mark has apparently lost the star rating thing.

It's just.

Lin Tianhao has already sent the Puppet Arrow God King to the God Conferment List at this time.

The current Puppet Arrow God King is in his peak state.

In other words.

At this time, the Puppet Arrow God King has already fallen into slumber and cannot come out.

Therefore.

Lin Tianhao's situation with the Non-Law Silent Arrow is not the same as the Puppet Arrow God King's Non-Law Silent Arrow. He also cannot ask the Puppet Arrow God King.

Withdrawing his thoughts.

Lin Tianhao looked around.

Today's harvest here at the Puppet Arrow God King's place can be considered quite rich.

I just don't know.

Whether there are any other good things in the Puppet Arrow God King's base camp here.

Thinking of this.

Lin Tianhao carefully inspected the Puppet Arrow God King's base camp. As a result, apart from discovering some puppets, there were only a large number of specially made arrows and some coatings.

These specially made arrows can have the effect of hiding themselves.

Silent and not subject to divine sense exploration.

Of course.

This is under the condition that the divine sense is not very strong. If the divine sense is strong enough, such specially made arrows will still be discovered.

Lin Tianhao naturally accepted everything and put all these things away.

Lin Tianhao couldn't use the puppets and coatings for the time being.

The specially made arrows are not bad.

If these specially made arrows are combined with the Non-Law Silent Arrow, it is indeed possible to catch people off guard and deal relatively high damage.

Actually.

The effect should be more obvious when paired with Lin Tianhao's Heaven's Punishment Headlock.

It's just.

With this Non-Law Silent Arrow passive skill, Lin Tianhao's arrows will no longer have the "whoosh whoosh" sound in the future.

This made Lin Tianhao a little unaccustomed.

Raising his hand.

Lin Tianhao's arrow pierced through the sky without the slightest sound.

One arrow, two arrows, three arrows...

Lin Tianhao pulled his attack speed to the maximum, the target being a bamboo in front.

The arrow twisted and turned in the air, and finally hit the bamboo.

To Lin Tianhao's surprise, the arrow's twisting and turning increased the time it could fly in the air, but did not increase the flight distance!!

This shows.

During the twisting and turning process of the Non-Law Silent Arrow, the flight speed is faster than the flight speed of Lin Tianhao's original arrow.

Qingya Ghost Fiend watched from the side and couldn't help but laugh:

"Master, once the realm reaches a certain level, such flashy means are useless."

"Silent arrows and arrows that can avoid people's divine sense exploration are not rare things."

"It's just that there is an extra twisting and turning, the effect is average. Once the domain is opened, it doesn't matter which direction the arrow flies from."

Lin Tianhao raised his eyebrows. It's not surprising that Qingya Ghost Fiend would say this.

After all, existences at the level of Qingya Ghost Fiend often return to simplicity.

Flashy means are not only useless, but may also lead to their own death.

Because in the contest between real powerhouses, every move possesses great power.

"Qingya Ghost Fiend, you are a Great Emperor powerhouse, you must think that such methods are a bit flashy."

"But what if these flashy arrows all carry the power to destroy everything?"

Qingya Ghost Fiend smiled and said:

"If that's the case, then there is no need for these flashy means."

Lin Tianhao waved his hand and didn't explain anything further.

Qingya Ghost Fiend's idea is correct, but since this Non-Law Silent Arrow can be valued so much by the Puppet Arrow God King, it naturally has its strengths.

At least.

Lin Tianhao has now discovered one point.

The flight speed of this Non-Law Silent Arrow is faster during the twisting and turning process.

"Let's go, to the next place."

Lin Tianhao didn't say anything more to Qingya Ghost Fiend. Now that there are only so few of them in the Ancient God Secret Realm, they naturally need to acquire benefits as soon as possible.

Chapter 1125 - Invisible person!

Moreover.

Lin Tianhao also wanted to find the Dean of the Baili Academy.

Now he has enough power to negotiate with the Dean of the Baili Academy, but this is the Ancient God Secret Realm.

If he can't find the Dean of the Baili Academy as soon as possible, and the Dean of the Baili Academy gains something in this Ancient God Secret Realm, it's hard to say whether he can still suppress the Dean of the Baili Academy.

Coming out of the bamboo forest.

Qingya Ghost Fiend then slowly said:

"Besides this Puppet Arrow God King, there are also some Divine Spirit inheritances nearby. With your strength, Lord, sweeping through them all is not a problem at all."

Lin Tianhao raised his eyebrows and shook his head, saying:

"This thing, it's better to be refined than numerous, above the God King."

"Next, I'll take you to the territory of the East Shuo God King. I don't know if this East Shuo God King has any inheritance."

"I only know that he killed two Blood Food Eaters in the God King realm, dragged his heavily injured body, and fought a Half-Step God Emperor Blood Food Eater to the point of darkness, and finally severely injured that Half-Step God Emperor, and he himself disappeared."

"Disappeared?"

Lin Tianhao was stunned, "After fighting like this, he could still disappear?"

Qingya Ghost Fiend nodded seriously and said:

"That's what they said, but later they couldn't find the East Shuo God King. Some people think he should already be dead."

"It's just that his blood food was taken away by other Blood Food Eaters."

Hearing this.

Lin Tianhao was relieved, it seemed that this was the only explanation.

These Blood Food Eaters are already very powerful among those of the same realm.

This East Shuo God King killed two Blood Food Eaters of the same realm in a row, and was still able to severely injure a Half-Step God Emperor realm Blood Food Eater.

This strength is already unbelievably strong.

While talking with Qingya Ghost Fiend, the two quickly arrived in front of a ruin.

Looking at this ruin, the surrounding hundred miles were all ruins.

Even though a long time had passed, various violent auras still ravaged here.

"This East Shuo God King, did he become a demon in the end?" Lin Tianhao couldn't help but be curious.

Because judging from these violent auras, it did indeed seem like they were left behind by a Demon God.

"That's not the case, it's just rumored that this East Shuo God King rose all the way after obtaining the inheritance of a Demon God among the Chaos Three Thousand Demon Gods. He was originally a Demon God inheritor."

Lin Tianhao nodded secretly.

In fact, his Undead Enslavement was very strange, according to what Qingya Ghost Fiend said.

The original gods of various attributes in the Galaxy World are likely to be the Chaos Three Thousand Demon Gods.

However.

It's not impossible to explain.

Because the Chaos Three Thousand Demon Gods have all fallen almost completely.

After the original gods fall, new original gods will be born and cultivated.

Just like... the Cold Tower Lord.

Previously, Qingya Ghost Fiend had speculated that the Cold Tower Lord's physique was likely related to the original gods.

This East Shuo God King is related to a Demon God among the Chaos Three Thousand Demon Gods. If he could obtain his inheritance, it would seem to be extremely good.

"You brought me here, do you know something?" Lin Tianhao asked.

Hearing this.

Qingya Ghost Fiend smiled awkwardly and said:

"I don't know, but this East Shuo God King once fought here, and a violent aura will spread out every hundred years."

"We have also explored it a few times, but the results were all in vain, but it stably comes out like this every hundred years, it can almost be 100% certain that there is a problem here."

Lin Tianhao raised his eyebrows and scolded:

"You still say you don't know."

Qingya Ghost Fiend smiled helplessly and said:

"It's not necessarily the East Shuo God King, after all, a stone talisman with a higher grade can also emit such a violent aura."

The two walked into the ruins while talking.

The surrounding violent and fierce aura came head-on, even Lin Tianhao's physique at this time was stung by these violent and fierce auras.

The area of this ruin is actually not very large. Lin Tianhao's Eye of Insight released and quickly enveloped the entire ruin.

Eye of Insight plus Earth Connection Heavenly Eye, plus Fiery Eyes Golden Eyes and Lin Tianhao's divine sense.

This can already be regarded as four methods of investigation together.

However.

Lin Tianhao knew.

There are many ways to avoid investigation.

Therefore.

Lin Tianhao still needs to walk around in person.

Under Lin Tianhao's fourfold investigation, it was not without gain.

Because...

He saw the sin value!!

So much sin value!!

The level of his Eye of Insight belongs to the Super God level. There are existences that can avoid his Eye of Insight's peeping, but there must not be too many.

However.

God King realm powerhouses must have ways to avoid the peeping of his Eye of Insight.

But...

Sin value!

The skill he obtained, Rewarding Good and Punishing Evil, allows Lin Tianhao to see a person's sin value.

Sin value generally only exists on living beings.

As the saying goes, debts are cleared upon death.

Although such a statement is not very appropriate in the Twilight of the Gods.

Because sin value will always accompany a person's origin. After a person dies, the sin value will follow the soul.

And after the soul is destroyed, the sin value will follow something more fundamental.

However.

Sin value will not easily disappear.

Unless...

The most fundamental thing about this person also collapses and disappears.

"Go."

Lin Tianhao quickened his pace, and the whole person turned into a stream of light, chasing after the direction he saw the sin value.

"Here."

Lin Tianhao came to a ruin. He opened the Space-Splitting Domain and used the power of the Space-Splitting Domain to rudely clear the ruins in front.

Under the ruins, there were cracks and dried blood sacrifices.

"This..."

"It seems to be the place where a God King powerhouse of our Blood Food Eaters fell." Qingya Ghost Fiend said slowly.

Lin Tianhao raised his eyebrows lightly and said unhurriedly:

"He shouldn't be completely dead."

The sin value that Lin Tianhao saw was here.

He couldn't see anything here, even his Eye of Insight couldn't see it.

But according to the location of the sin value, he could be sure that there was a certain being existing here.

It's just that either his means of hiding are very, very good, or... he has already left the state of the soul and entered a deeper state.

That is, the power of origin that is left behind after the soul is destroyed in the legend.

As for what it looks like, Lin Tianhao will know if he tries.

Thinking like this.

Lin Tianhao activated the Heavenly Punishment Lock Head, locking onto a little bit of the position below the sin value.

According to Lin Tianhao's observation of other people's sin value, if there is a certain guy here, then a little bit below the sin value is where his body is located.

The feather arrow cut through the sky. Due to the reason of the Non-Law Silent Arrow, the feather arrow did not make any sound. After seven turns and eight turns, it accurately hit the position below the sin value.

Chapter 1126 - The Green-fanged Ghost was dumbfounded!

This arrow, without the slightest surprise, missed!

However!

A smile appeared on Lin Tianhao's face.

“It seems like there's nothing here?”

Qingya Guisha took two steps forward, carefully observing the spot Lin Tianhao had just attacked.

Indeed...

There was nothing there.

Qingya Guisha hadn't known Lin Tianhao for long, but he considered himself to have some understanding of him.

He was certain.

Lin Tianhao wouldn't shoot aimlessly!

Since Lin Tianhao attacked that spot, it meant there was definitely a problem there.

“My lord, would you like me to try something?” Qingya Guisha asked.

Lin Tianhao gently shook his head and attacked again!!

One feather arrow after another sliced through the air, hitting a tiny point in the void below the sin value.

“As expected!!”

Because the Book of Life and Death had also been constantly increasing Lin Tianhao's health, and Lin Tianhao hadn't been deliberately observing when he shot the first arrow, he couldn't be certain.

After quickly shooting so many arrows, and carefully observing the increase in his health.

Lin Tianhao could be certain that his feather arrows had indeed hit an “invisible person” that both he and Qingya Guisha couldn't see.

Moreover.

This “person” was very strange, enduring his attacks without dodging or leaving.

At least.

Judging from the position where the sin value appeared, this invisible “person” had always been there, without moving an inch.

Thinking this way.

Lin Tianhao directly used Arrow-from-the-Heart and the feather arrows in his hand together.

One feather arrow after another, combined with Lin Tianhao's attack speed of two hundred and ninety-five.

Directly formed a rain of arrows.

And in this process, Lin Tianhao's health was constantly increasing.

“Eh—”

After continuously attacking for half a minute, a look of surprise appeared on Lin Tianhao's face.

His Arrow-from-the-Heart, plus the longbow in his hand, resulted in a feather arrow count as high as five hundred and ninety per second!!

In addition to his current feather arrow output ability, even if this invisible “person” was a God King in peak condition, he should have been killed by him by now.

But a full half minute had passed.

This invisible “person” was still there, unmoving.

Lin Tianhao's mouth twitched; this guy was too strange!!

Could it be...

Was this invisible “person” the power of the origin left here after the soul was destroyed?

But legends said that the origin power of living beings usually had no consciousness and would involuntarily flow into the River of Origin.

Then, they would seek an opportunity to re-condense the soul's origin and enter reincarnation.

In both his past and present lives.

This was the first time Lin Tianhao had encountered this situation.

Qingya Guisha, who was watching Lin Tianhao's frantic output from the side, also felt inexplicably horrified.

Because...

He really didn't sense the existence of anything.

But Lin Tianhao... was fighting so seriously; it didn't seem like he was just putting on an act.

For a time.

Qingya Guisha also raised his aura, knowing that a great battle could break out here at any time.

An unknown, invisible enemy was in front of him.

Lin Tianhao didn't stop and continued to attack.

He didn't know if he could kill this invisible “person”.

But one thing Lin Tianhao could be certain of was that his basic attacks were increasing his health.

To be honest.

After reaching his current level, there were very few existences that could allow him to stack health with basic attacks.

Perhaps Saints could allow him to stack well, but Saints could only withstand his damage; no Saint would stand still and let him attack.

This invisible “person” seemed to be smiling and letting him attack.

As Lin Tianhao's feather arrows continued to fly, his health was also increasing little by little.

In the blink of an eye.

Five minutes passed!!

In just five minutes, the health Lin Tianhao stacked with the Hand of Heavenly Punishment exceeded seven hundred thousand.

If you include the various health amplifications, the health Lin Tianhao increased with the Hand of Heavenly Punishment in these five minutes exceeded two million!!

Now, two million health points didn't help Lin Tianhao much, but this was just the result of Lin Tianhao's five minutes.

Judging from the results of these five minutes, Lin Tianhao's passive skills hadn't been triggered.

Including the easiest to trigger, Lightning Leap.

Heavenly Fire Meteor hadn't been triggered either.

Death Reincarnation couldn't be judged because Lin Tianhao couldn't visually observe the opponent, so he couldn't determine whether it was triggered.

But it was likely that it wasn't triggered.

The best explanation for this situation was that the level of life of this guy in front of him had reached the Saint level, or even surpassed the Saint.

Only.

Even if a genuine Saint stood in front of Lin Tianhao, could the other party withstand his almost frantic output?

Lin Tianhao wasn't sure, but it was likely that they could.

However, that was a Saint.

Could this invisible existence in front of him really be compared to a Saint?

Qingya Guisha on the side was a little numb.

Heitian Ao Zhen and Niede Lifu also noticed what Lin Tianhao was doing.

The two of them looked at each other, not knowing what to say.

“My lord, are you really not mistaken?”

Qingya Guisha frowned and spoke.

Five minutes had passed.

The great battle he had expected hadn't arrived.

Lin Tianhao had been continuously attacking the air in front of him for five minutes.

The result was...

No result!!

Perhaps because of the Non-Law Silent Arrow, the air was very quiet, as if Lin Tianhao was just a clown...

No.

It should be a man who practiced archery diligently.

However.

Lin Tianhao shook his head very firmly, and the attack continued.

Moreover.

This time, Lin Tianhao directly activated the Three Heads and Six Arms.

Although without using the Heavenly Punishment Lockhead, Lin Tianhao's Three Heads and Six Arms couldn't all hit the target directly in front.

But as long as he leaned slightly, it was more than enough for two heads and four arms to hit the position directly in front.

In addition to Arrow-from-the-Heart.

Lin Tianhao could now fire eight hundred and eighty-five arrows per second!!

While increasing the output, Lin Tianhao could also stack health faster.

Facing this invisible guy, Lin Tianhao's idea was very simple.

As long as the other party could help him stack health, he wouldn't mind spending three to five days here.

Because his basic attack was too high now, his Hand of Heavenly Punishment hadn't been upgraded for a long time.

Now, this invisible guy might be able to help him quickly increase the star level of the Hand of Heavenly Punishment.

His current health.

The damage that a four-star Hand of Heavenly Punishment and a five-star Hand of Heavenly Punishment could deal was very different!!

Seeing Lin Tianhao activate the Three Heads and Six Arms, Qingya Guisha on the side was directly dumbfounded.

Chapter 1127 - Saint? ON!

Why is this getting more serious as we fight!!

Qingya Guisha's expression had already changed from shock to strange.

If he initially thought there was a powerful enemy he couldn't detect.

Now that five minutes have passed, the stronger a person is, the more temperamental they become.

Therefore.

This made Qingya Guisha feel that Lin Tianhao... might have really misjudged.

However.

He also felt that Lin Tianhao didn't seem like the kind of person who would make groundless accusations.

Several times.

Qingya Guisha hesitated, feeling that Lin Tianhao might be neurotic, how could he be so persistent.

In the blink of an eye.

Fifteen minutes passed!!

Adding the previous five minutes, it's already been twenty minutes.

Lin Tianhao's proficiency with the Hand of Heavenly Punishment is increasing at a visible rate.

"Can't kill it?"

Lin Tianhao muttered to himself.

Twenty minutes already.

With his output ability, even if this invisible guy is powerful, Lin Tianhao should have killed him by now.

Could it really be because of a higher level of life?

Although he doesn't know the reason.

The result is not bad news for Lin Tianhao.

After all, the stacked health and proficiency are genuine.

Lin Tianhao frowned slightly and said:

"You're still next to me, if I were under a hallucination, wouldn't you have noticed?"

Hearing this.

Qingya Guisha was silent.

Although what Lin Tianhao said seemed to make sense, he still felt that something was wrong.

"My lord, I really didn't notice you being under a hallucination, but..."

Lin Tianhao smiled slightly, took Qingya Guisha's words, and continued:

"Similarly, you also can't feel what I'm attacking, it's like, from beginning to end, I've been attacking the air, right?"

Qingya Guisha nodded heavily and said seriously:

"I'm already in the Great Emperor Realm, I wouldn't dare to say I understand everything about this Ancient God Secret Realm, but at least I'm relatively familiar with the vicinity of Da Luo City."

"Being able to hide under my nose, where I can't even see it, I really can't imagine what you're attacking, my lord."

"Especially, I know your output ability, my lord, with your output ability, such endless output, even ten of me would probably be finished here."

Lin Tianhao slowly said, "I'm also very curious about what I'm attacking."

"I can tell you very confidently that every arrow of mine has hit its mark."

"Of course, I don't rule out that I'm indeed under a hallucination, but the probability is very, very low."

"My immunity to soul-based damage has exceeded ninety-five percent, it's not impossible to cause such a long and intense hallucinatory effect on me."

"But..."

Before Lin Tianhao could finish speaking, Qingya Guisha took over and said:

"But such a huge force to hallucinate you, my lord, I would definitely feel it by your side."

Lin Tianhao nodded and smiled:

"That's right, that's the logic, since I haven't been hallucinated, then it means that I did attack something."

Qingya Guisha's eyes narrowed slightly and said:

"Could it be that your arrows, my lord, cause some kind of change when they attack a living being?"

Because he felt that besides this reason, there didn't seem to be a better reason to explain this problem.

"Smart."

In fact, it's not uncommon for certain attributes to change when a normal attack hits a living being.

Even some relatively ordinary skills may have this effect.

For example, a normal attack stacks temporary attack speed, each normal attack stacks five percent attack speed, up to fifty percent, lasting fifteen seconds.

This is the effect of a relatively common skill for archers in the previous life.

In addition to this.

Other professions also have similar skills, the effects of these skills are similar, they all temporarily increase certain attributes through some means.

It's similar to... the Dragon Team's 'Fighting Stronger with Each Battle', it should be a similar skill inside.

However, the Dragon Team's 'Fighting Stronger with Each Battle' must either be a higher-level skill or more than one such skill.

Pulling back his thoughts.

Qingya Guisha also began to try attacking the air in front of Lin Tianhao.

But the result was nothing.

"Why don't you try using Saint-level methods?"

Lin Tianhao also wanted to see if anything would happen to this invisible guy if Qingya Guisha attacked with him.

Qingya Guisha's expression changed and he asked:

"My lord, are you sure that only Saint-level attacks can attack this invisible person?"

Lin Tianhao nodded slightly and said seriously:

"That's right, why, did you think of something?"

Qingya Guisha pondered slightly and said:

"Could this invisible guy be a true Saint Realm powerhouse!?"

"If that's the case, then everything makes sense."

"For a Saint Realm powerhouse to disguise themselves so that we can't detect them, it's definitely not a difficult thing."

"Furthermore, it's indeed difficult for your output, my lord, to affect a Saint-level powerhouse."

Lin Tianhao raised his eyebrows, he had actually considered this issue as well.

But if this invisible guy was a Saint Realm powerhouse, wouldn't that be a bit too incredible?

A Saint Realm powerhouse!!

Just thinking about it feels unbelievable.

Most importantly.

This guy has such a strong sin value, if he's a saint, he probably isn't a good person.

"Qingya Guisha, tell me, if he's a saint, shouldn't he have fought back by now, or rather, he should have fought back long ago."

Hearing this.

Qingya Guisha shook his head and said very seriously:

"That's really hard to say, you have the Investiture of the Gods, you are the co-owner of the universe recognized by that great being in your Milky Way world."

"Although saints have jumped out of the three realms and are no longer in the five elements, they still have to give face to that one."

"Therefore, even if it is really a powerhouse of the Saint Realm, they will give you some leeway."

Lin Tianhao raised his eyebrows.

What Qingya Guisha said seemed to make sense.

"Senior, are you a saint?"

Lin Tianhao asked softly.

"Senior, make a sound, if you don't speak, I'll continue attacking."

Lin Tianhao's idea was very simple, don't make a sound!!

If this guy really is a Saint Realm powerhouse, then that would be interesting.

Putting aside everything else.

Where else can you find such a good opportunity to stack health without taking damage?

Every second Lin Tianhao attacks, that's eight hundred and eighty-five arrows, and the proficiency of the Hand of Heavenly Punishment will also increase by that much.

Just as Lin Tianhao thought he could continue stacking like this, the system prompt suddenly sounded.

"Ding, congratulations on successfully killing..."

Chapter 1128 - The origin of the soul, the blood cloud swallows the snake king!

"Ding, congratulations on successfully killing the Blood Cloud Devouring Snake King. A server-wide announcement will be made soon. Do you want to hide your name?"

"No."

"Server-wide announcement: Congratulations to player Snow Emperor for successfully killing the Blood Cloud Devouring Snake King. Special announcement, hoping all players will continue to work hard!!"

... ..

Lin Tianhao was stunned.

This is... ..killed!!

Not only was Lin Tianhao stunned, but Qingya Ghost Fiend next to him was also stunned.

Heitian Ao Zhen and Nide Lifu, who were paying attention to Lin Tianhao's attack on the "air", were also stunned at this time.

“This...”

Qingya Ghost Fiend hesitated to speak, his face full of disbelief.

“That’s not right, the Blood Cloud Devouring Snake King, this is a powerhouse at the Divine King Realm who was killed by the Eastern Shining Divine King.”

“How is that possible? !!”

“Actually, according to what you said, I can be sure what this guy is.”

Qingya Ghost Fiend took a deep breath and said slowly:

“Soul origin.”

Lin Tianhao nodded, “That’s right, it’s the soul origin.”

“Other than that, I really can’t think of anything else that can withstand my output for so long.”

Qingya Ghost Fiend nodded heavily, “If that’s the case, then it can be explained.”

“The level of the soul origin is higher, and your damage may not have such a big effect, sir.”

“It’s just...”

“The soul origin should drift with the wind and enter the origin river, and then re-condense the soul. Why is he still here after so many years?”

Lin Tianhao smiled slightly and said:

“The biggest possibility is that there is something here attracting him, or something is trapping him.”

Qingya Ghost Fiend looked solemn and said seriously:

“Attracting is unlikely. I am more inclined to believe that the soul origin of the Blood Cloud Devouring Snake King is trapped here.”

“It’s just, what is here that can trap the soul origin?”

Lin Tianhao grinned and said as a matter of course:

“Is there anything else to explain? There is only one possibility... a Holy Artifact!”

The probability of a Saint is very low, so the probability is high that it is a Holy Artifact.

“If there is a Holy Artifact here, it should be something from the Eastern Shining Divine King. He was hiding his strength back then and hid himself using the Holy Artifact after being seriously injured.”

“Then the power emitted by the Holy Artifact trapped the soul origin of the Blood Cloud Devouring Snake King. In this way, everything can be explained.”

Qingya Ghost Fiend nodded in agreement. Although the Holy Artifact was shocking, it seemed that only the Holy Artifact could explain the current situation.

It just so happened that the Eastern Shining Divine King obtained the inheritance of a demon god among the three thousand Chaos Demon Gods.

Obtaining a Holy Artifact from the inheritance of this demon god seems to be a reasonable thing.

“Look for it.”

“Now that the gods cannot take action, even if the Eastern Shining Divine King is still alive, he should be in a deep sleep.”

Lin Tianhao's Eye of Insight spread out.

Qingya Ghost Fiend nodded, “The soul origin of the Blood Cloud Devouring Snake King is here, so I wonder if the soul origins of those who died in battle in this area before are all here.”

Lin Tianhao grinned, “Theoretically, they should all be here, because... I can find them.”

Lin Tianhao can't see these guys in the state of soul origin, but he can see the sin value on them clearly.

“Let's go, next one.”

Lin Tianhao felt that he had to find the Holy Artifact and stack his health points.

“Looking at the situation here, there should be many people who have died here before.” Lin Tianhao said.

Qingya Ghost Fiend smiled awkwardly, “That's natural. After the death of the Eastern Shining Divine King, there have been battles here one after another, and many people have died.”

However, among the powerhouses at the Divine King Realm, besides the two killed by the Eastern Shining Divine King, there was also a Divine Emperor!!

Hearing this.

Lin Tianhao couldn't help being shocked.

“A Divine Emperor fell here?!”

“Yes.”

Qingya Ghost Fiend nodded and said seriously:

“Back then, in this Ancient God Secret Realm, Fu Luo Divine Emperor of Fu Luo Mountain was chased and killed by several powerful Divine Emperor Realm blood eaters.”

“He fought and retreated, and finally fell when he was chased to this position.”

“Now I even suspect that the reason why Fu Luo Divine Emperor ran here is because he knew something.”

Lin Tianhao waved his hand and smiled:

“It’s not important anymore, it’s enough to help me stack health points.”

The only regret is.

Lin Tianhao found that by killing the soul origin, he could not enslave the soul, nor could he send it to the God Conferring List.

As for touching the corpse?

That’s even more wishful thinking.

Lin Tianhao tried to touch the corpse, but there was no reaction.

However.

Even so, Lin Tianhao was not too disappointed.

After all, this soul origin can allow Lin Tianhao to stack health points, and can also increase the proficiency of the Hand of Heavenly Punishment by the way.

Otherwise.

Judging from the situation of Lin Tianhao's Hand of Heavenly Punishment proficiency improvement before, not to mention ten stars, it would be extremely difficult for him to improve the Hand of Heavenly Punishment to five or six stars.

However.

Today, Lin Tianhao saw hope.

If all goes well, Lin Tianhao may be able to improve the Hand of Heavenly Punishment to five stars today.

Thinking like this.

Lin Tianhao came to the location of the second sin value.

It's still the same as before.

The arrow is fired from the heart, coupled with the attack of the two-headed and four-armed, directly maximizing the output.

The feather arrow pierced through the sky and hit the invisible soul origin.

It's just.

This time, the attack didn't last that long. After only five minutes, Lin Tianhao heard the system prompt.

“Ding, congratulations, you have successfully killed Boerbo Pai. A server-wide announcement will be made soon. Do you want to hide your name?”

“No.”

“Server-wide announcement: Congratulations to player Snow Emperor for successfully killing Boerbo Pai. Special announcement, hoping all players will continue to work hard!!”

... ..

Next.

Lin Tianhao started the slaughter mode.

As long as there is a sin value, Lin Tianhao will kill them all without mercy.

Server-wide announcements also sounded one after another. This has long been commonplace for those adventurers.

As long as Lin Tianhao doesn't kill any more Divine King powerhouses, they don't think it's anything.

However.

At this moment.

A soul origin that Lin Tianhao is attacking has withstood Lin Tianhao's violent output for an hour.

“This guy, could it be the soul origin of Fu Luo Divine Emperor?”

Lin Tianhao felt that the probability of the current situation was very high.

Through killing these soul origins just now, Lin Tianhao also discovered.

The more powerful the owner of these soul origins was before his death, the stronger his soul origin would be.

The Blood Cloud Devouring Snake King in the Divine King Realm before didn't withstand such a long time, which actually explained the problem.

There has never been a powerhouse in the Divine Emperor Realm who has fallen here.

Then who is much stronger than the Divine King Blood Cloud Devouring Snake King?

Chapter 1129 - Hand of Heavenly Punishment star upgrade: five stars!

The answer was already obvious: God Emperor Fu Luo!!

This was the closest Lin Tianhao had ever been to killing a God Emperor.

Even if he killed God Emperor Fu Luo, he wouldn't be able to send God Emperor Fu Luo to the God Conferring Roll, but he could use God Emperor Fu Luo to stack health points.

Time passed by slowly.

Lin Tianhao's health points were stacking up like crazy!!

To be honest.

Lin Tianhao hadn't stacked health points this happily in a long, long time.

It can only be said... Soul Origin, YYDS!!

The Soul Origin of a God Emperor is indeed terrifying!!

However.

Just when Lin Tianhao thought he could continue stacking health points, a sudden prompt tone made Lin Tianhao stunned.

"Ding, congratulations, you have successfully killed God King Dongshuo, a server-wide announcement will be made soon, do you want to hide your name?"

God King Dongshuo?

Lin Tianhao raised his eyebrows. How long did it take him to kill the Blood Cloud Devouring Serpent King before?

Less than half an hour!

And what about this God King Dongshuo?

It's already been over an hour!!

Both are powerhouses in the God King Realm, but the difference in their souls is so great.

"No."

"Server-wide announcement, congratulations to player Xue Di for successfully killing God King Dongshuo, hereby announce, hope that all adventurers will continue to work hard!!"

... ..

The sound of the server-wide announcement rang out, which made those who were surprised by Lin Tianhao's killing of Puppet Arrow God King even more surprised.

"No way, when did God Kings become so worthless? How long has it been, and Xue Di has already killed another powerhouse in the God King Realm."

"I'm still working hard on the road to Rank 7, and Xue Di has already started randomly killing God Kings? Will he be able to kill God Emperors and God Emperors in a few days!!"

"Cough cough, calm down, are we playing the same game as Xue Di? No!!"

"I never thought that I was playing the same game as Xue Di. As long as I don't compare myself to Xue Di, it's still wonderful."

... ..

Lin Tianhao's consecutive kills of two powerhouses in the God King Realm caused quite a stir.

However.

Lin Tianhao and Qing Ya Guisha were both a little surprised at this time.

The sudden disappearance at the beginning was not because God King Dongshuo had fallen, but because he used the Saint Artifact to hide.

This explanation is reasonable, but what is going on now!?

God King Dongshuo has fallen?

Does this mean that their previous speculations were all wrong.

"Could it be that what is possessed here is an unowned Saint Artifact?" Qing Ya Guisha said slowly.

It seemed that only in this way could it be explained slightly clearly.

"I don't think so."

Lin Tianhao shook his head and said:

"There may be no Saint Artifact, or perhaps there is some Saint-level treasure of heaven and earth. In this way, it seems more reasonable to explain it."

Qing Ya Guisha pondered slightly and frowned:

"If there is any treasure of heaven and earth here, with our strength, it should be easier to find."

Speaking of this.

Lin Tianhao paused slightly before continuing to say:

"You can't say that. Treasures of heaven and earth that have reached the Saint level may have already developed intelligence. It is reasonable that they are difficult to find."

"However, none of this matters anymore."

A faint smile appeared on Lin Tianhao's face.

Because he was only a little bit away from upgrading his Hand of Heavenly Punishment from four stars to five stars!!

When the Hand of Heavenly Punishment is upgraded, he will stack more health points with his normal attacks.

Not only that.

The damage he can deal can also be greatly improved.

Thinking of this.

Lin Tianhao found a new Soul Origin based on his sin value.

Then he just poured out feather arrows mindlessly.

Thirty minutes later.

Lin Tianhao finally heard that familiar voice.

"Ding, congratulations, your Hand of Heavenly Punishment has been upgraded to five stars!!"

Lin Tianhao's face showed a look of surprise. It can only be said that this trip was worth it.

After the Hand of Heavenly Punishment reaches five stars, each normal attack can provide Lin Tianhao with five points of health.

And normal attacks can cause 5% of the target's maximum health as true damage.

Not only that.

Lin Tianhao had also evolved the Hand of Heavenly Punishment before, and each normal attack could also restore 5% of Lin Tianhao's maximum health.

Moreover.

The Hand of Heavenly Punishment is upgraded at this time, and Lin Tianhao's stacking speed will be faster.

It's just that.

When he saw the proficiency required for the Hand of Heavenly Punishment to be upgraded from five stars to six stars, Lin Tianhao was a little silent again.

Because... ..

100 billion!!!!

Damn it!!

100 billion!

Lin Tianhao shuddered just looking at this proficiency.

How long will it take him to upgrade the Hand of Heavenly Punishment to six stars?

Now there are more than three years before the Twilight of the Gods and the fusion of reality.

In these three years, can Lin Tianhao upgrade the Hand of Heavenly Punishment from the fifth star to the sixth star?

It's probably very difficult!!

Even with the help of these Soul Origins to help Lin Tianhao improve the proficiency of the Hand of Heavenly Punishment, it is still very difficult.

Unless... ...

He can find the reason why these Soul Origins are gathered here and utilize them.

Then... ...

Mass-produce these Soul Origins to help him stack health points while also farming the proficiency of the Hand of Heavenly Punishment.

However.

Currently, he can only think about it.

It shouldn't be easy for him to find treasures of this level.

"Ding, congratulations, you have successfully killed God King Shanshi, a server-wide announcement will be made soon, do you want to hide your name?"

"No."

"Server-wide announcement, congratulations to player Xue Di for successfully killing God King Shanshi, hereby announce, hope that all adventurers will continue to work hard!!"

... ..

This announcement no longer surprised those adventurers so much.

Because... .. they were used to it!!

But the high-level officials of major countries looked very ugly at this moment.

They knew very well that Lin Tianhao had the God Conferring Roll in his hands!!!

They didn't know how Lin Tianhao had continuously killed three powerhouses in the God King Realm.

But there was one thing they could be sure of.

That is, Lin Tianhao killed three powerhouses in the God King Realm.

Then there must be three more powerhouses in the God King Realm on Lin Tianhao's God Conferring Roll.

Of course.

They probably never dreamed that.

Although Lin Tianhao killed three powerhouses in the God King Realm.

But among these three powerhouses in the God King Realm, only Puppet Arrow God King was on the God Conferring Roll.

However.

They didn't know about this.

The result is... ..

Major countries around the world have begun to show their goodwill to the Dragon Country. Even the United States has taken the initiative to make concessions on some international issues and no longer competes with the Dragon Country.

Lin Tianhao didn't know that his consecutive kills of three powerhouses in the God King Realm had already affected the international situation in the real world.

However.

At this moment.

Lin Tianhao was attacking a "big guy".

Under Lin Tianhao's violent attacks, two hours have passed, and this guy has not been killed yet.

"It seems that this should be the Soul Origin of God Emperor Fu Luo that you mentioned," Lin Tianhao said with a smile.

Chapter 1130 - Everlasting light, decapitation operation!

Lin Tianhao had high expectations for this Fuluo God Emperor.

How much could a God Emperor powerhouse help him improve?

The only pity was that after killing these soul origins, he couldn't send them to the God Conferment List.

If he could send them to the God Conferment List, that would truly be a great gain for Lin Tianhao.

But one should be content; this was already pretty good.

"This is a God Emperor realm powerhouse from our Blood Eater race."

Qingya Ghost Fiend's voice came from beside Lin Tianhao.

"It seems that you guys sacrificed quite a bit to devour the Ancient God Secret Realm."

"The Ancient God Secret Realm, after all, has so many gods. If there were no sacrifices, that wouldn't make sense."

At this point.

Qingya Ghost Fiend changed the subject and continued:

"But this is indeed a bit strange. There was no news of the Blood Sunflower God Emperor's fall back then. He seemed to have left the Ancient God Secret Realm after most of the area was occupied."

"Now it seems that the things that happened in the Ancient God Secret Realm back then were not quite the same as I thought."

Lin Tianhao waved his hand and said:

"You probably weren't involved in the attack on the Ancient God Secret Realm back then, right?"

"Of course not, I didn't have that strength yet," Qingya Ghost Fiend said with a wry smile.

Lin Tianhao smiled and said:

"That's right, many things in this world, even if you see them with your own eyes, may not be true, let alone if you only hear about them."

Qingya Ghost Fiend nodded with a wry smile, "Indeed, then it's really hard to say what the situation is here."

While Lin Tianhao and Qingya Ghost Fiend were talking, the server-wide announcement of Lin Tianhao killing the Blood Sunflower God Emperor also resounded in the sky.

"Server-wide announcement, congratulations to player Snow Emperor for successfully killing the Blood Sunflower God Emperor. This announcement is to encourage all adventurers to continue their efforts!!"

...

If Lin Tianhao's previous killing of a God King was already shocking enough.

Then Lin Tianhao's killing of the Blood Sunflower God Emperor was like a stone stirring up a thousand waves.

"Damn, damn, damn, I regret that I don't have enough education, so I just say 'damn' to deal with everything."

"Snow Emperor has killed gods before. After such a long time, killing a God King seems to be reasonable, but... what is this killing a God Emperor thing?"

"I think Snow Emperor probably picked up a bargain. Judging from the current situation, it's likely that the gods can't take action, and Snow Emperor found a group of high-level gods and started slaughtering them."

"With Snow Emperor's output ability, even God Kings, or even God Emperor powerhouses, if they only take damage and don't fight back, they will still be killed by Snow Emperor."

...

Major guilds, forums, including offline!!

There were a large number of discussion posts about Lin Tianhao's killing of a God King realm powerhouse this time.

Before Lin Tianhao killed the Blood Sunflower God Emperor, the most discussed topic on the Twilight of the Gods forum was Snow Emperor killing a God King powerhouse!

But now.

The title has become Snow Emperor killing a God Emperor powerhouse.

Major high-level players and bloggers have begun to express their opinions.

Everyone has different opinions.

But more people think that Lin Tianhao has discovered a place where some high-level gods are sleeping.

Plus, these gods can't take action now, which naturally leads to the current situation.

However.

Ordinary adventurers, and even some high-level players.

What they care about is how Lin Tianhao killed the God King powerhouse and the God Emperor powerhouse.

But those adventurers in foreign countries are different. What they care about is...

There is a God Emperor realm powerhouse on Lin Tianhao's God Conferment List.

"Axi, what is this Snow Emperor doing? And what are these high-level gods doing?"

"Is there something wrong? Why are they letting Snow Emperor slaughter them like this."

South Korea.

The South Korean president angrily smashed the cup in his hand.

Their South Korea is adjacent to Dragon Country. In front of Dragon Country, they are not worth mentioning.

But they have the support of the United States behind them, so they have always been relatively tough in their speech.

But now...

The South Korean president instantly realized the seriousness of the situation.

The existence of Snow Emperor has seriously threatened them.

United States.

The US president's expression became extremely solemn after learning that Lin Tianhao had killed the Blood Sunflower God Emperor.

He silently opened his game friend list, found the person at the top, the game ID [Light Eternal].

"Sir, Snow Emperor is becoming more and more uncontrollable. Perhaps, before the Twilight of the Gods and reality merge, it is our best opportunity."

If someone saw this message sent by the US president, they would be very surprised.

The dignified US president actually calls someone else 'Sir'.

This is too incredible.

However.

This person named [Light Eternal] replied to the US president after almost five minutes.

"Arrange a decapitation operation, even if it exposes some of our SSS-level sleeper agents in Dragon Country, we must strangle him."

The US president couldn't help but reveal a satisfied smile on his face when he saw this reply.

"Okay!"

After replying to the message, the US president's expression couldn't help but become a little excited.

"Finally, we can use those forces. Dragon Country? Powerful Eastern Dragon?"

"Hmph, you probably can't even imagine that your interior has already been corroded by me!!"

The United States and Dragon Country have been fighting openly and secretly for many years.

In these years, the United States has placed a large number of sleeper agents in Dragon Country.

And because they have extremely large financial resources behind them to support them, these sleeper agents in Dragon Country can pave the way with money, allowing them to develop in their corresponding industries.

Some of them have grown all the way to extremely important positions in Dragon Country.

They originally wanted to find an opportunity to disintegrate Dragon Country from the inside.

But Lin Tianhao's sudden appearance really made the US president unable to sit still.

Only because Lin Tianhao's strength is too strong.

If it was just like this, they would still be able to cope.

But Lin Tianhao's God Conferment List put too much pressure on them.

If they don't solve Lin Tianhao, they will never be at ease.

Thinking of this.

The US president made a phone call.

"Execute the decapitation plan, target... Snow Emperor, at all costs!!"

The person on the other end of the phone was silent for a while before slowly saying:

"Mr. President, if we do this, Dragon Country's anger..."

"Dragon Country's anger?"

The US president sneered disdainfully.

"Dead people have no value. As long as Snow Emperor is dead, no matter how angry Dragon Country is, they can't really fight us to the death."

"What's more, we are not afraid of fighting Dragon Country to the death, it's just that others will reap the benefits."
