

## **O game 1131**

Chapter 1131 - Discuss, most people are against!

Hearing this.

The other end of the phone was silent for a while before finally saying:

"Since this is the meaning of the God of the Nation, then I will execute it unconditionally."

At this point.

The person on the other end of the phone paused again before continuing:

"Really, at any cost?"

The US President's eyes were sharp, and he said fiercely:

"At any cost, even if it exposes Scorpion Tail, it's worth it."

Hearing this.

The person on the other end of the phone fell into a long silence. After a while, he said:

"Okay, I understand."

Along with the issuance of this assassination order, the US internally, including the spies that the US planted in Dragon Country, began to act.

However.

While the US could plant spies in Dragon Country, Dragon Country also planted spies in the US.

Not long after the US President ordered the execution of the assassination mission, Dragon Country had already received the news.

Dragon Country, the Cabinet!

This is the power center of Dragon Country. Everyone who can be in the Cabinet is a high-ranking official of Dragon Country, an absolute controller of real power.

At this time.

Inside the Dragon Country Cabinet.

A piece of intelligence was transmitted.

The content of the intelligence was also very simple. The US President had ordered, at all costs, to kill Snow Emperor.

At the head of the cabinet.

The Old Leader of Dragon Country looked serious. He sat there, exuding an imposing presence, giving people a kind of invisible pressure.

"The content of the intelligence is not much, I believe you have all seen it."

After the words fell.

A middle-aged man with a square face spoke in a deep voice.

"Immediately transfer Snow Emperor, executed by our personal guard, news blockade."

Hearing this.

Another gray-haired old man frowned and said:

"Who among us dares to guarantee 100% that there are no spies in our personal guard?"

"You should all be aware of how serious the US infiltration of us has been over the years."

The Old Leader's eyes sank, and he raised his hand to interrupt them.

"I called you here today mainly to discuss one thing."

Everyone listened attentively, no one interjected.

The Old Leader then said to everyone unhurriedly:

"My idea is to nuclear bind Snow Emperor. If something happens to Snow Emperor, then we will all be destroyed together!!"

Hearing this.

Each of these high-ranking officials present widened their eyes, their faces full of disbelief.

No wonder these high-ranking officials were so excited.

Nuclear binding is a super project that concerns the survival of the country, and it is only possible to nuclear bind it.

Nuclear binding a person is even more unprecedented.

Even the previous Old Leaders have never mentioned nuclear binding.

This...

It's too outrageous!

"Snow Emperor in the future will definitely affect the national destiny of our Dragon Country, and even affect the national destiny of the entire Blue Star."

"He can't have anything happen."

All the high-ranking officials looked at each other.

They could actually understand the Old Leader's thoughts.

To put it bluntly.

According to Lin Tianhao's current growth rate, as long as he puts in a little effort in the future, it would be easy for their Dragon Country to unify Blue Star, or even conquer the universe and starry sky.

Snow Emperor is the future of Dragon Country.

At least.

The upper limit of Dragon Country is related to Snow Emperor.

These high-ranking officials all understood this principle.

Only.

Such a thing is still too shocking.

"Old Leader, this kind of thing has never happened before."

The Old Leader nodded lightly and said seriously:

"What has Dragon Country relied on to develop to this day? Isn't it constantly breaking through ourselves?"

The middle-aged man with a square face who spoke before frowned and said:

"Old Leader, you still have to consider the thoughts of ordinary people. Nuclear binding is not a trivial matter. Will doing so make ordinary people think that we are putting all our eggs on Snow Emperor's basket?"

The Old Leader pondered for a while and said:

"Some bold decisions will inevitably cause some people to question them, but I insist on my idea, you vote."

One by one, the high-ranking officials looked at me, and I looked at you.

They could all understand the Old Leader's thoughts, but they still found it difficult to accept the Old Leader's decision.

For a time.

No one voted.

No one agreed, and no one rejected.

In the end.

It was still the middle-aged man with a square face who took the lead in expressing his position.

"Although I still think this decision is a bit crazy, the importance of Snow Emperor to our Dragon Country is self-evident. I agree."

The gray-haired old man before shook his head.

"Snow Emperor's attitude towards us is friendly, but what about his loyalty to our Dragon Country? I can't judge. After all, he only joined us in his twenties, his mind is already mature, I don't understand his true thoughts, so it's difficult for me to agree to nuclear binding so rashly."

"So... I object."

Next.

People voted one after another.

"Agree."

"Oppose."

"Oppose."

... ..

Although the Old Leader has a high prestige in Dragon Country, the decision he proposed this time was still too unbelievable, so most people still couldn't accept it.

Seeing that there were more people opposing, the Old Leader was not too surprised.

After all, this was an unprecedented thing, and Snow Emperor's loyalty still made many people question it.

Under such circumstances.

It was still too difficult to pass the nuclear binding proposal.

"Okay, I understand. I have already asked Blade to awaken Snow Emperor, and then I will talk to him personally."

"Yes."

These high-ranking officials did not object.

In fact, they couldn't wait to tell Lin Tianhao as soon as possible.

Because with Lin Tianhao's temper, he would definitely attack the Western adventurers.

At that time, I don't know how many people will be slaughtered by Snow Emperor.

Although Dragon Country's slogan has always been peaceful coexistence.

But the hearts of the Dragon Country people have never lacked the heart of battle.

In fact, many of them hope to fight in the game!!

This has the least impact on ordinary people.

At this time.

Lin Tianhao, who was continuing to search for the origin of the soul, received an external device call, and he directly chose to log off.

As soon as he came offline.

Lin Tianhao saw Mad Warrior Blade.

"What's the matter?" Lin Tianhao asked.

Calling him offline through an external device meant that this matter was not simple.

"The US has issued an order, at all costs, to kill you."

Hearing this.

Lin Tianhao's eyes narrowed slightly, and a shallow smile appeared on his face.

"What did you decide?"

Mad Warrior Blade pondered for a while and said:

"Snow Emperor, I can't participate in the decision about you, but the higher-ups are now discussing the arrangements for this incident."

Lin Tianhao raised his eyebrows and asked:

"Judging from what you said, I'm not safe here now?"

Mad Warrior Blade looked serious and said:

"You may not believe it when I say it, but the extent to which our Dragon Country has been infiltrated is much more serious than it appears on the surface."

Chapter 1132 - Bronze disc!

Lin Tianhao knew in his previous life that the Dragon Kingdom was heavily infiltrated.

Especially since he remembered that several people with very high ranks were actually sleeper agents from the US.

Lin Tianhao was shocked for a long time back then.

After all, in Lin Tianhao's mind, those few people were truly living a life of luxury, holding both power and wealth.

Was there even a need for such people to be sleeper agents?

"I might know something, but I don't have any evidence," Lin Tianhao said.

Upon hearing this.

Mad War Blade widened his eyes and asked in disbelief:

“You know something? You wouldn’t happen to know... information about sleeper agents, would you?!”

Lin Tianhao was already a person who would kill anyone who stood in his way in Gods Twilight.

Could it be that he could also control lightning in real life?

If that were the case, then Lin Tianhao would be a bit too outrageous.

“Yes.”

Lin Tianhao nodded lightly, “I need to see the Chief Elder, there are some things I need to tell him.”

Mad War Blade took a deep breath. He could tell from Lin Tianhao's expression that he wasn't lying.

But the more it was like this, the more unbelievable he found it.

Snow Emperor could actually understand things in the real world, and even things that the country had been investigating for a long time without any leads.

“Alright, the Chief Elder should still be in a meeting discussing the US's assassination attempt against you. After the Chief Elder's meeting is over, I'll ask him for instructions.”

“Okay.”

Lin Tianhao nodded lightly.

He didn't make Lin Tianhao wait too long before the imposing old man appeared before Lin Tianhao.

Seeing this old man, Lin Tianhao immediately stood up.

“Chief Elder.”

The Chief Elder nodded lightly, “Blade said you have something important to tell me.”

“Yes.”

The Chief Elder led Lin Tianhao forward, arriving at an empty room.

“There are no electronic devices here, and the soundproofing is very good. You can speak now.”

Lin Tianhao took out the note he had prepared while waiting and respectfully handed it to the Chief Elder.

The Chief Elder took the note and slowly opened it.

“Although all five of them have relatively clean backgrounds, and their fathers are also people in the court.”

“But their current height is not due to their own efforts. There is an invisible force pushing them along.”

“As for more, I believe you, Chief Elder, will be able to investigate.”

The Chief Elder stared at the note in his hand for a few seconds, then crushed the note into a ball.

“I understand.”

With that, the Chief Elder looked at Lin Tianhao meaningfully.

He didn't know why Lin Tianhao would give him such a list.

But what was certain was that Lin Tianhao wouldn't joke with him about this kind of thing.

“Blade should have already told you about your situation.”

“I will be responsible for your safety. The people responsible for your safety here, except for a few I trust very much, have all left.”

“The people who have been arranged to come over are also people I trust very much.”

Lin Tianhao nodded lightly and smiled, “You are also someone I trust very much, so I believe in your arrangements.”

“Moreover.”

“I also hope you can trust me. No matter what, my position will not change.”

“Even if someone among the people you arranged this time attacks me.”

The Chief Elder looked at Lin Tianhao meaningfully and said seriously:

“I really don't want anything to happen to you.”

“So I trust you very much.”

Lin Tianhao smiled slightly and said:

“If it were someone else in your position, after learning about Gods Twilight and knowing that there is someone like me in Gods Twilight, what would they do?”

The Chief Elder was silent.

He actually knew what Lin Tianhao meant.

Lin Tianhao’s existence, and the extent of his growth, could completely subvert the power of a country in the future.

In other words.

If Gods Twilight and reality really merged, with the strength that Lin Tianhao has shown now, he would already be able to determine the change of power.

“You are too confident. As the saying goes, you can’t be too careful when guarding against others. Aren’t you afraid that one day I will feel that you will threaten my power and attack you?”

Lin Tianhao smiled slightly and said:

“You won’t.”

Lin Tianhao smiled and said:

“What we pursue is the same, and also different.”

“We both hope that the Dragon Kingdom will rise, but I don’t like managing forces. What I pursue is power.”

The Chief Elder waved his hand and smiled, saying:

“Being able to talk about this kind of topic openly shows that you really trust me.”

Lin Tianhao pondered slightly, then asked:

“Are there any items from Gods Twilight that have appeared in the real world now?”

The Chief Elder nodded lightly, “There have always been. Even before Gods Twilight, we had been constantly discovering such attribute items.”

“I don’t know if you know about the profession of Treasure Snatchers. They have found many attribute items.”

Lin Tianhao's eyes narrowed slightly. Treasure Snatchers had always been legendary existences.

Now, listening to the Chief Elder's meaning, Treasure Snatchers not only truly exist, but have also contributed greatly to finding attribute items.

“In addition to that, there are also people from the North and South factions and the Outer Eight Gates. These people are also very good at finding attribute items.”

“It’s just that they should have secretly hidden many of the attribute items they found.”

“In addition, most people are now fighting in Gods Twilight. After all, becoming stronger in Gods Twilight is much safer than exploring for treasures.”

Lin Tianhao nodded lightly and asked:

“Are there any relatively powerful attribute items currently?”

The Chief Elder smiled mysteriously and said:

“There aren’t any particularly powerful ones. Most of them are relatively ordinary, but I do have something here that is useful to you.”

With that.

The Chief Elder took out a simple and ancient bronze disc from his chest.

“This bronze disc can automatically detect the attack you are about to endure. If the attack exceeds the limit that your body can withstand, then this bronze disc will release a protective shield to protect your safety.”

Lin Tianhao raised his eyebrows, “This is your own thing, isn’t it.”

“What do you mean my own? Just take it, you don’t need to worry about the rest.”

“In addition, I have also communicated with Taoist Ambition. He will move in and live downstairs from you.”

Lin Tianhao’s eyes lit up. Although he had materialized the skill Instant Resurrection.

Being injured in the body would still really hurt.

Therefore.

Being able to not endure damage is definitely better than enduring damage.

And Taoist Ambition kills ordinary Grandmasters as easily as slaughtering dogs. With Taoist Ambition around, he can solve many unnecessary troubles.

“Okay, Snow Emperor, just focus on becoming stronger. You can leave the rest to me.”

The Chief Elder said seriously.

Lin Tianhao nodded with a smile and said:

“I will remember everything you have done for me today.”

Chapter 1133 - Browse the forums!

Elder Shou wanted to speak but hesitated, finally saying, "There's something I feel I should tell you."

"We've found clues to a higher-level manifestation game pod deep within the Qinling Mountains and are currently sending people to search for it."

"If we can find this new manifestation game pod, it might allow Snow Emperor you to manifest two more skills."

Lin Tianhao's eyes lit up.

If he could manifest two more skills, then he could consider output-type skills.

Although the Mechanical Overlord was also powerful, it was still somewhat lacking when facing ancient martial artists.

The simplest and most brutal things Lin Tianhao could think of were Arrow Follows the Heart + Heavenly Punishment Headlock.

Neither of these skills consumed any energy.

Just Arrow Follows the Heart alone, Lin Tianhao felt, was not enough.

After all, based on the previous situation, when using the manifestation game pod to manifest skills, the skills would undergo some kind of change during the manifestation process.

According to the information Lin Tianhao had previously learned, an archer's normal attack, the energy arrow, should normally consume mana.

It was only because they were in the Fourth God-Making Era that the great existence provided them with many conveniences, allowing them to become stronger in a short period of time.

But.

If he manifested Arrow Follows the Heart, would he still release arrows without consumption?

This also included Heavenly Punishment Headlock.

After being manifested, would it still be so powerful?

You must know.

What is the Seventy-Two Transformations of the Great Sage Equaling Heaven called?

The Eighty-Nine Arcane Arts!!

This is not a simple cultivation method; look at the Great Sage Equaling Heaven, Sun Wukong, and Erlang Shen Yang Jian.

These.

All clearly show how terrifying the Eighty-Nine Arcane Arts are.

But now.

After the Seventy-Two Transformations evolved from the Eighty-Nine Arcane Arts are manifested by Lin Tianhao?

To be honest.

It can't be said to be completely useless, but it's definitely quite useless.

"Can you manifest some attributes?"

Lin Tianhao asked with a smile.

Having only skills without attributes didn't seem quite right.

After all, even if Lin Tianhao really manifested Arrow Follows the Heart and Heavenly Punishment Headlock, how much damage could his Arrow Follows the Heart deal?

Especially.

If the opponent was a Grandmaster-level, or even a Great Grandmaster-level expert?

His Arrow Follows the Heart didn't seem to be of much use.

After all.

The reason why his Arrow Follows the Heart was so powerful in the Twilight of the Gods was based on the terrifying damage attached to Lin Tianhao's arrows.

If the damage value wasn't enough, how effective could Arrow Follows the Heart be?

Pulling back his thoughts.

It hasn't even started yet, so thinking about what skills to manifest so early is a bit premature.

"How has Chen Taiyuan been recently?" Lin Tianhao asked.

Hearing this.

Since the United States has issued an assassination order against him, he needs to make some counterattacks.

He wants the high-level officials in the United States to know that Snow Emperor's trump cards are much more than they imagined.

Perhaps because of the fusion of the Twilight of the Gods and reality in his previous life, Lin Tianhao's memory wasn't bad.

At least.

He remembered the information of many major events.

Now.

He could use the information he knew from his previous life to do some things.

"Okay, I'm relieved that he hasn't caused any trouble. I'll enter the game first," Lin Tianhao said with a smile.

Elder Shou nodded lightly, not mentioning a word about Lin Tianhao's recent killings of several God-Kings and the Blood Sunflower God-Emperor.

He knew that everyone had their own secrets, and sometimes knowing too much was not a good thing.

Moreover.

Even if he knew the process of Lin Tianhao killing the God-Kings and God-Emperor, what could he do?

He couldn't replicate Lin Tianhao's legend.

Re-entering the game.

Lin Tianhao was still the same, continuing to hunt these soul origins.

Because attacking soul origins only required mindless output, Lin Tianhao could take the time to look at the Twilight of the Gods forum.

It wouldn't be bad to understand the current situation in the Twilight of the Gods.

Just opening the Twilight of the Gods forum, Lin Tianhao saw that the most popular post was his own.

"Killing three God-Kings in a row, and then killing a God-Emperor, why is Snow Emperor so heaven-defying!!"

Lin Tianhao clicked in and glanced at it. There were many people discussing it, with various opinions, making Lin Tianhao dizzy.

However, he didn't need to look at his own information, mainly to see information he didn't know.

"Brothers, I know a place where you can increase your Dao comprehension speed tenfold. The information is sold in a package for 30 million. Interested parties DM me."

"No, where did you guys get your equipment? I'm already at Seventh Revolution, and I can't even put together a set of gold-grade equipment."

"Breaking news, the Asura Guild and the Berserker Guild are cooperating for the first time, forming a 10,000-man elite team to challenge the Fuling Super Dungeon!"

... ..

Lin Tianhao glanced at it. The Twilight of the Gods forum was as lively as it was in his previous life.

What surprised Lin Tianhao was that they were already strategizing the Fuling Dungeon.

In his previous life, the Fuling Super Dungeon seemed to have opened more than two years after the launch of the Twilight of the Gods.

Now, it's only one year and seven months, and they've already started strategizing the Fuling Dungeon.

"Selling high-grade severely injured potions, large quantities are preferred, long-term supply, the highest can produce diamond-grade severely injured potions, the severely injured effect can reach up to 80 percent."

"The first two-thousand-level Star Radiance-grade staff in the entire network has been released. It will be publicly auctioned at nine o'clock tonight and only accepts gold coin transactions."

"Dao comprehension points, Dao comprehension points, Dao comprehension points!! Important things said three times, DM for details!"

... ..

These marketing people are also a bit unscrupulous.

The first two-thousand-level Star Radiance-grade staff in the entire network?

This is indeed a rare thing.

After all, the Star Radiance grade is not so easy to reach, not to mention the two-thousand level, many Eighth Revolution, or even Ninth Revolution, may not be able to have the Star Radiance grade.

Overall, Lin Tianhao only felt that.

The progress of the Twilight of the Gods was faster than in his previous life.

Some things that appeared in his previous life only in the second year after the arrival of the Twilight of the Gods.

However.

These things have now appeared.

Not only that.

More and more people are paying attention to the Twilight of the Gods, and even some things about the Aleit star system appear on the Twilight of the Gods forum.

Not only that.

Lin Tianhao also discovered a very interesting thing.

That is, exposure events and reporting events in the real world have been posted on the Twilight of the Gods forum.

This is not a strange thing, because there were such situations in his previous life.

As for the reason.

It is because even the official authorities of various countries find it difficult to control the Twilight of the Gods forum itself.

Chapter 1134 - Conversation: Gulimosi!

“Where is justice? It's already bad enough that there's no wife in wife cake, but there's no noodles in hot and sour noodles, and there's every kind of meat in shrimp paste except shrimp. Is no one going to do anything about this?!”

“I'm reporting this with my real name. Our village chief is incredibly audacious. The national compensation is 50,000 yuan per acre, but he's only giving us 5,000 yuan per acre. Did he let dogs eat his conscience?!”

“School bullying is already terrifying enough, but so many children are still mysteriously disappearing. There are surveillance cameras everywhere these days, and you can find anything you lose, but you can't find a missing person?”

... ..

Lin Tianhao glanced over them roughly.

These posts cover increasingly sensitive topics. Under normal circumstances, this kind of information probably wouldn't be allowed on regular forums.

Regarding these issues,

Lin Tianhao merely frowned.

Some of these messages are true, and some are false, but it's hard for him to judge which is which.

After all, many foreign spies will also release similar information to stir up public sentiment.

After all, in a country with a large population, it's unrealistic to expect everything to be perfect and everyone to be satisfied.

And once someone with ulterior motives guides the situation, emotions will naturally flare up.

Lin Tianhao looked through many posts, all kinds of posts, but the information that was useful to him was negligible.

After browsing around, Lin Tianhao was somewhat disappointed.

Because after reading so many posts, he didn't find a single one that was useful to him.

These posts contained all kinds of information, but nothing that could help him.

Lin Tianhao didn't close the forum, but instead directly found someone named 【Sword Entwined, Cheap Entwined Heart】 and sent her a private message.

“I am Snow Emperor. I heard you are looking for the lower volume of the True Sea Rune Art.”

After sending the message, Lin Tianhao continued to hunt soul origins.

“Ding, congratulations, you have successfully killed the Cold Fang God, a server-wide announcement is about to be made. Do you want to hide your name?”

... ..

“Ding, congratulations, you have successfully killed the Crimson True Snow Swallow King, a server-wide announcement is about to be made. Do you want to hide your name?”

“Server-wide announcement, congratulations to player Snow Emperor for successfully killing...”

... ..

One server-wide announcement after another echoed in the skies of Twilight of the Gods.

On the other side.

Just having cleared a dungeon, Sword Entwined, Cheap Entwined Heart saw Lin Tianhao's private message, and her expression changed slightly.

“Lady Gulimoss, what's wrong?”

Next to Sword Entwined, Cheap Entwined Heart, a level 3325 female priest asked.

At this stage,

For a priest to be able to raise their level to over 3300, that is already extremely rare.

“It's nothing, just a little something. We'll do the dungeon later.”

After speaking,

Sword Entwined, Cheap Entwined Heart immediately replied to Lin Tianhao's message.

“Snow Emperor? I didn't expect you to come looking for me.”

“Gulimoss, the number one female grandmaster in the United States, I've long admired your name.”

Seeing that Sword Entwined, Cheap Entwined Heart had replied to his message, Lin Tianhao replied as well.

“I have what you want, but I need you to do three things for me.”

Gulimoss frowned slightly and directly sent a voice request to Lin Tianhao.

Lin Tianhao accepted the voice request, and Gulimoss's slightly charming voice came through.

“Snow Emperor, what do you want me to do?”

“It wouldn't be black silk... white silk... fishnets, would it!”

Lin Tianhao frowned slightly. Gulimoss's voice was slightly charming, but it wasn't the kind of charm that went to the bone.

But it was this slightly charming voice that seemed to be able to penetrate a person's soul, making people fascinated by it.

“Do you think your charm can compare to a god?” Lin Tianhao said indifferently.

Gulimoss fell silent.

Because she knew that Lin Tianhao had the God Conferral List, and there were female gods on the God Conferral List.

To be honest,

She was very confident in her charm, but as Lin Tianhao said, she was not even close to those female gods.

“Snow Emperor, I can't believe what you're saying.”

“Your achievements in Twilight of the Gods are indeed very high, but Twilight of the Gods is Twilight of the Gods, and reality is reality.”

Lin Tianhao smiled noncommittally and said:

“If you say so, then forget it.”

“But I estimate you have at most one year to live.”

Gulimoss's expression changed slightly. There were actually quite a few people who knew about her search for the lower volume of the 【True Sea Rune Art】.

Now that Lin Tianhao had joined the official Dragon Country, it was reasonable for him to know this information.

But very, very few people knew that she had less than a year to live. How could Lin Tianhao know!!

“Who exactly are you?” Gulimoss put away her charming voice.

“Before, I had Chen Taiyuan kill you, but he was clearly already by your side, but he didn't attack you.”

“I also received news that you asked the grandmaster of the Feng family to take action, and you also notified the Qi family of Tianbow Mountain in advance.”

“You are completely different from the information we saw in the data. You must also be someone from the martial arts world. Who... who are you?!”

Gulimoss was indeed very curious about Lin Tianhao's identity.

After Lin Tianhao's identity was exposed, the United States naturally conducted an in-depth investigation into Lin Tianhao.

But according to Lin Tianhao's real-world information, it didn't match many of the things Lin Tianhao had done at all.

Lin Tianhao chuckled and said, “You don't need to know who I am.”

“You just need to know that if you don't have the lower volume of the True Sea Rune Art, you will definitely die, so you need me to help you.”

Hearing this,

Gulimoss fell silent.

After a while, she asked in a deep voice:

“What do you want me to do?”

Lin Tianhao smiled and said:

“I want you to come to Dragon Country. Before you come to Dragon Country, I need you to kill all of your disciples.”

“You're dreaming!!”

Gulimoss replied very firmly.

“Once a teacher, always a father. My disciples are as close to me as daughters. I can't possibly bring myself to kill them.”

“You will.”

Lin Tianhao smiled playfully, “After all... weren't all of your disciples' families wiped out by you?”

“You thought that by creating various accidents and causing their families to die, no one would know that you did all this?”

“You took those people as disciples just to use them as guides for you to cultivate the True Sea Rune Art, didn't you?”

Hearing these words from Lin Tianhao, Gulimoss was shocked and horrified.

She wanted to deny Lin Tianhao's words, but she couldn't.

Because what Lin Tianhao said was completely correct.

Snow Emperor!!

Lin Tianhao!!!!

Regardless of which of these two identities, he shouldn't know what she did.

“Snow Emperor, I can't understand you more and more. I can agree to you, kill all my disciples, and come to Dragon Country.”

Chapter 1135 - Longdu: The storm is coming!

Having said that.

Guli Mosi paused slightly before continuing:

"But Snow Emperor, is what you're saying credible? How can I believe that you possess the lower volume of the True Sea Talisman Art?"

Lin Tianhao chuckled and said:

"You don't have to believe me. As for what to decide, think it through yourself. I'll be waiting for you in Dragon Country."

Having said this.

Lin Tianhao took the initiative to end the voice call with Guli Mosi.

Some things are best left unsaid.

Lin Tianhao naturally knew about this information regarding Guli Mosi from his previous life.

Unfortunately.

Guli Mosi died in her previous life because she didn't have the lower volume of the True Sea Talisman Art.

Guli Mosi was ostensibly a grandmaster-level expert, and her status in the United States was not low.

Therefore, when Guli Mosi fell, it even made the news.

However.

Lin Tianhao didn't know about this news because he saw Guli Mosi's fall.

It was because Lin Tianhao, in his previous life, after the Twilight of the Gods and reality merged, came into contact with one of Guli Mosi's disciples.

That disciple revealed some information about Guli Mosi, including the real reason for Guli Mosi's death.

At the same time, she also spoke about some things regarding the lower volume of the True Sea Talisman Art.

After all, at that time.

The Twilight of the Gods had already merged with the real world, and ancient martial artists no longer had any advantage in the face of professionals.

Rather than practicing martial arts miserably, it was easier to just grind monsters and level up.

And martial arts techniques naturally became less valuable.

Seeing Lin Tianhao end the voice call, Guli Mosi's expression turned extremely gloomy.

She was very angry in her heart.

What was Lin Tianhao just doing?

Threatening her?!!

She, the dignified number one female grandmaster of the United States, when had she ever been threatened?

Now, she needed to make a choice.

Was she going to believe Lin Tianhao, kill those disciples of hers who were acting as a primer, and then go to Dragon Country...

Or was she going to continue searching for the lower volume of the True Sea Talisman Art herself?

To be honest.

Reason told Guli Mosi that she couldn't believe Lin Tianhao's words.

If she really killed her disciples and then went to Dragon Country, then she would have no way out.

In the future.

Perhaps she would have to stand on the same boat as Dragon Country.

Most importantly.

She really couldn't be sure whether Lin Tianhao really had the lower volume of the True Sea Talisman Art in his hands.

It was unreasonable to do something so risky without certainty.

But Lin Tianhao had grasped her one weakness.

If she couldn't find the lower volume of the True Sea Talisman Art, then she really wouldn't live much longer.

She was a master of the grandmaster realm, and she didn't want to die.

Especially now that the Twilight of the Gods had descended, she already knew that the Twilight of the Gods would merge with reality in the future.

If she developed well in the Twilight of the Gods, it wasn't impossible for her to become a god in the future.

Her own talent was good, and coupled with the influence of her own grandmaster status on the real world, her development in the Twilight of the Gods was very fast.

Many people saw Lin Tianhao's brilliance, but they didn't notice that these top players of theirs were also growing very quickly.

Now she was already over level 3,000, and compared to those adventurers who were still exploring the seven revolutions of enlightenment, her level was already very high.

Apart from a few leveling lunatics, Guli Mosi's current level could indeed be considered very high.

Exiting the game.

Guli Mosi walked out of her game pod.

With blonde hair and blue eyes, and a tall figure, a pair of fair and slender jade legs particularly attracted attention.

She walked to the balcony of her room, took out a lady's cigarette, and lit it.

Taking a deep breath, she then exhaled smoke rings.

Looking at the distant sea, Guli Mosi fell into deep thought.

She herself was also looking for the lower volume of the True Sea Talisman Art, but the result was that there were no clues.

"Snow Emperor..."

"It doesn't seem bad either. After all, he is the number one person in the Twilight of the Gods. If I can stand by his side now, it doesn't seem like too much of a loss for me."

Guli Mosi thought to herself.

Although she thought so in her heart, the simplest thought in the depths of her heart was still three words: Don't want to die!!

She didn't want to die, so she had to make a decision.

Sticking the half-smoked lady's cigarette into the ashtray, Guli Mosi silently took out a short sword placed on the bedside and walked into the room next door.

Her several disciples all lived in the same villa as her, which saved her some trouble.

Especially.

Her several disciples were all in the game pods at this time, making it very easy to kill them.

One...

Two...

Three...

Four!!

Soon.

Guli Mosi solved all her disciples. After taking a few simple photos, she disposed of the bodies and left this place directly.

Within the Twilight of the Gods.

Lin Tianhao was still continuing to hunt for the origin of souls.

He could see the sin value, so he could confirm the location of the origin of souls.

But after killing along the way.

Lin Tianhao's health had indeed stacked up a lot.

But the problem was.

After killing so many origins of souls, Lin Tianhao had not yet killed the origin of soul of the Fuluo Divine Emperor.

Divine sense probed out.

Here, there were still three clusters of sin value.

Judging from the situation of these three clusters of sin value, the values were not high.

Although it was difficult to distinguish the strength of the corresponding origin of souls based on the level of sin value alone.

However, it was also possible to roughly see some information.

Thinking of this.

Lin Tianhao began to continue killing.

At the same time.

Night fell.

Due to the Twilight of the Gods, the nightlife in Dragon Capital was not as good as before.

But tonight.

Dragon Capital seemed a little lively.

Figures, like rats in the night, were converging in one direction.

On the streets.

Black Audis were driving, and black Audis could be seen in every corner.

At this time.

In a small courtyard in Dragon Capital.

An old man with gray hair at his temples came out of the nutrition pod of the Twilight of the Gods.

Outside his house, a middle-aged man stood there respectfully.

"How is it?" the old man asked softly.

The middle-aged man immediately said respectfully:

"Those guys have already started to act. The Dragon Guard, the Sky Patrol Division, and the people from the Dragon Group have all participated in the action."

"What about our people?" the old man asked.

The middle-aged man hesitated slightly before saying:

"Chief Elder's meaning is to let you go there yourself, and let the others do their duties."

"Oh?"

The old man with gray hair at his temples narrowed his eyes slightly, wondering what he was thinking.

"What about Taoist Ambition? Isn't he there?"

"Ambition has gone to Snow Emperor's side."

Hearing this.

The old man's eyes narrowed slightly, not knowing what he was thinking.

"Then I will go there myself. It's time for this old bone to move around."

"These Americans are really something, wanting to kill Snow Emperor, they even mobilized two grandmasters!"

Chapter 1136 - Gulimosi takes action!

With that said.

The gray-haired old man stood up and walked outside.

Outside Dragon City.

Under the night.

The fierce cold wind blew the leaves, and in the mountains near Dragon City, two figures stood on a small hill.

"It's been almost twenty years since I came to Dragon City. I didn't expect this trip to be to kill a junior."

A short, white-haired old man said helplessly.

Beside him was a bald black strong man.

The bald black strong man looked into the distance, with a fierce look in his eyes.

"Who would have thought? The legendary fourth era of god-making would come at this time."

"In an age of great contention, there can be no peace."

As the bald black man's voice fell, the short old man frowned.

"I heard that Jin Delan is very inclined to cooperate with Emperor Xue. He should have gained a lot of benefits from Emperor Xue in the Ancient City of Heart Demon last time."

The bald black man smiled and said:

"Jin Delan has good talent and good opportunities. He has his reasons for choosing to cooperate with Emperor Xue."

"What reason can there be?"

The short old man sneered, "Isn't it just an exchange of interests? Isn't the world always like this? Whoever gives milk is the mother."

The bald black man sighed helplessly, "Now the internal situation of Twilight of the Gods is extremely unclear, especially those guys from the Arlette star system. I still think they have problems."

The short old man's expression also became serious when he heard about the Arlette star system.

"A Chinese saying is very correct, 'Those who are not of my race must have different hearts!'"

"We still need to be cautious and careful when dealing with those guys from the Arlette star system."

With that said.

The short old man looked up and smiled.

"I didn't expect you to come in person to protect Emperor Xue."

As the short old man's voice fell, the gray-haired old man walked out unhurriedly.

"The United States can send two grandmasters, and our Dragon Kingdom naturally has to arrange corresponding people to receive you, right?"

The short old man raised his eyebrows lightly and said unhurriedly:

"Should we fight? Or have tea and watch the juniors play?"

The bald black man shook his head and said:

"I definitely don't want to fight. We all know each other well. It's meaningless to fight."

When the voice fell.

The bald black man raised his hand, and tables and chairs immediately appeared on the empty space next to him.

"Play Fighting the Landlord?" The bald black man held a deck of cards in his hand.

The gray-haired old man chuckled, "Fighting the Landlord, you two won't collude, will you?"

The short old man sneered, "This little black guy loves to play more and more as he gets worse. I usually don't like to play with him because he's too bad."

The bald black man's face darkened and he said in a deep voice:

"If you say that, I'm not happy. Who are you calling bad? I don't think I'm bad."

"Look, he's bad himself but doesn't have any self-awareness. That's the most headache-inducing thing."

"Whether I'm bad or not, we'll know after playing. Let's bet spirit liquid, are you guys willing to come?"

... ..

Grandmasters are playing cards, but other people are not so harmonious.

In various parts of Dragon City, in the night, people are constantly fighting. At the very least, they are inner strength martial artists. In several places, there are even grandmaster-level powerhouses fighting.

Most Dragon Kingdom martial artists have to guard against the arrival of other people while resisting the martial artists sent by the United States.

Dragon City, Cabinet.

The chief elder sat in the cabinet. Today, the number of people in the cabinet is half less than last time.

Those who can sit here are the people the chief elder trusts the most.

On the big screen, the pictures are constantly switching, which is exactly what is happening in various parts of Dragon City.

"The United States sent so many people over this time, which is a bit unexpected." A cabinet elder said in a deep voice.

The chief elder nodded lightly. Before he could say anything, the man who was responsible for switching the monitors suddenly looked up.

"Chief Elder, latest news, the first female grandmaster of the United States, Guli Mosi, has entered the country."

Hearing this.

The chief elder frowned slightly. Their situation is not optimistic now. The good news is that many American spies arranged in the Dragon Kingdom have taken the initiative to expose themselves.

The bad news...

is that they have suffered a lot of losses now. The infighting between martial artists and the sudden stabbing of knives by teammates is too lethal.

Now another grandmaster-level expert has come to the Dragon Kingdom.

And this grandmaster-level expert has cooperated with Chen Taiyuan.

If Chen Taiyuan and Guli Mosi cooperate internally and externally at this time, the trouble will be even greater.

Chen Taiyuan is already at the peak of the grandmaster, and according to their analysis of Chen Taiyuan's combat power, Chen Taiyuan can be regarded as a leader even at the peak of the grandmaster.

If such an existence really takes action, the destructive power will be immeasurable.

"Immediately notify Emperor Xue, tell him the news, and see what response he will make."

However.

Just as the chief elder's order was issued, another message came.

"Chief Elder, Guli Mosi took the initiative to kill a group of American martial artists who subsequently entered the Dragon Kingdom, and sent us a message, saying that the first thing Emperor Xue asked her to do has been done."

When this news was delivered, the elders in the cabinet looked at each other.

"Emperor Xue? ! !"

"Emperor Xue asked Guli Mosi to come, but why would Guli Mosi cooperate with Emperor Xue."

"Immediately confirm with Emperor Xue," one of the elders said.

"We have just confirmed with Emperor Xue that the news is accurate. Guli Mosi was asked to come by him, and asked us to send a message to Guli Mosi, saying that the second thing he wants her to do is to intercept foreign martial artists entering Dragon City."

The chief elder narrowed his eyes slightly, his expression a little dignified.

"Send."

Soon.

Guli Mosi received the message.

"After sending the message, monitor Guli Mosi's movements, and her news must be reported immediately."

"In addition, Chen Taiyuan must be closely monitored. If he has any actions, we must understand them as soon as possible. It is best to prevent him from withdrawing from Twilight of the Gods."

Orders were arranged.

And next.

What Guli Mosi did made the elders in the cabinet dumbfounded.

Because Guli Mosi really intercepted foreign martial artists entering Dragon City.

More than ten inner strength martial artists have died in Guli Mosi's hands.

"Emperor Xue..."

"He... is too mysterious!"

Seeing such a result, one of the elders in the cabinet couldn't help but say.

He really never dreamed that Lin Tianhao could actually drive Guli Mosi.

The United States also received news about Guli Mosi's actions in Dragon City.

"How is it possible? ! Is Guli Mosi crazy? How could she attack her own people? !"

Chapter 1137 - Black Magic: Nuclear power!

The US President roared in anger and frustration.

The person responsible for reporting beside him said cautiously:

“Sir, is it possible that Gu Limo Si is a spy that the Dragon Kingdom arranged on our side?”

The Dragon Kingdom has also arranged many spies in the United States, and the United States has also thought of many ways to investigate the spies arranged by the Dragon Kingdom in the United States, but the result... ..

The result is similar to that of the Dragon Kingdom. Although they have also caught a few spies, most of the spies have not been caught.

“Are you kidding me? Gu Limo Si is a grandmaster expert we cultivated. How could she be a spy for the Dragon Kingdom?”

“What's more, she also has several apprentices. Isn't her relationship with her apprentices very good? Arrest all her apprentices immediately.”

Upon hearing this.

The staff member responsible for the report hesitated slightly, but still said:

“Sir, all of Gu Limo Si's apprentices are dead. The preliminary speculation is that Gu Limo Si herself killed her apprentices.”

"What?!"

The US President's eyes widened, unable to believe his ears.

Are you kidding me! !

“Immediately spread the news of Gu Limo Si's betrayal and let them all be careful of Gu Limo Si.”

“In addition, let Black Demon solve Xue Di first, and then solve Gu Limo Si, the traitor! ! ”

Upon hearing this.

The staff member in charge of the work said helplessly:

“Sir, Black Demon only listens to that person's orders. If I say this...”

The US President snorted angrily, "Then let's do this for now. I will definitely kill Gu Limo Si if I have the opportunity!"

“That's for sure.”

... ..

At this time.

In Twilight of the Gods.

Lin Tianhao solved the last soul origin, but unfortunately, it was not the Fuluo God Emperor.

“Could it be that the Fuluo God Emperor is not here? Or, does the Fuluo God Emperor have no sin value?”

Lin Tianhao felt that the Fuluo God Emperor should have fallen.

The reason why he couldn't find the Fuluo God Emperor was probably because the Fuluo God Emperor had no sin value.

In other words.

The soul origin of the Fuluo God Emperor should be in this area, but because he couldn't directly observe the soul origin, and the Fuluo God Emperor had no sin value, he couldn't find it.

"What's wrong? Didn't find the Fuluo God Emperor?"

Qingya Ghost Fiend came to Lin Tianhao's side.

Although Lin Tianhao didn't say anything, he deduced something from Lin Tianhao's expression.

Lin Tianhao nodded and said:

"That's right, I'm relying on sin value to find these soul origins. If these soul origins have no sin value, I won't be able to find them."

Qingya Ghost Fiend raised his eyebrows, "Then this is a bit troublesome, unless you, sir, use the carpet search method to search for the Fuluo God Emperor."

Lin Tianhao frowned and said:

"I actually still want to find something that can retain these soul origins, that's the key."

"If I can retain other people's soul origins and then enhance myself by killing soul origins, this will greatly improve my strength."

Lin Tianhao had actually considered whether doing this would be a bit cruel.

After all, if he destroys other people's soul origins, it would mean that those guys would never be able to reincarnate.

However.

For some people, letting them die forever is actually nothing wrong.

Taoist Yexin suddenly sent a message to Lin Tianhao.

“Do you want to go offline and take a look? There's a show to watch.”

Lin Tianhao was slightly stunned, and at the same time he was a little surprised.

Could it be...

Those people from the United States who came to assassinate him have really arrived at his door?

"Okay."

Lin Tianhao decisively went offline. Although Taoist Yexin was by his side, under normal circumstances, he should be safe.

However.

Having lived two lives.

Lin Tianhao knew that it was not wise to put his life in the hands of others.

He needed to go offline himself. Using the Mechanical Overlord, all electronic devices and mechanical objects within 500 meters of him, including weapons.

All can be used by him.

If it really doesn't work, Lin Tianhao still has the Seventy-Two Transformations.

If there is really danger, as long as he has a little time, he can run away, and use the Seventy-Two Transformations to turn into something inconspicuous, so that he can retreat completely.

Moreover.

Lin Tianhao had also wondered whether he could use the Seventy-Two Transformations to transform into some powerful creatures?

Lion? Tiger?

Or a chimpanzee?

In fact, after manifesting the Seventy-Two Transformations, Lin Tianhao discovered that he could only transform into things he had seen.

But in real life, among the things he has seen, what is relatively strong?

After going offline, Taoist Yexin said to Lin Tianhao with a smile:

"Latest news, Black Demon is here."

"Black Demon?"

Lin Tianhao was stunned for a moment, and some memories of his previous life slowly recovered.

"Are you talking about the mutant?"

"You know?"

Taoist Yexin looked at Lin Tianhao meaningfully and smiled:

"Sure enough, you are really different."

Lin Tianhao waved his hand and said:

"This Black Demon should be very powerful. According to the information I have learned, he is a staff member in the United States responsible for controllable nuclear fusion research. Later, there was a nuclear leak. The entire research team died, except for him... he survived."

"His body underwent unknown changes under nuclear radiation. His whole person became a controllable nuclear fusion humanoid, and all his gestures were driven by nuclear energy. His body was even improved by nuclear radiation and became exceptionally strong."

Regarding this Black Demon, Lin Tianhao does know some information, but that's about it.

The Black Demon's body is no longer a human body. Every cell in his body is filled with nuclear energy.

He... himself is a controllable nuclear weapon. One punch can produce the power equivalent to a nuclear explosion, and one leap can rush out of the atmosphere. He is a complete humanoid monster.

"Since you know Black Demon, then you should know that he doesn't need to hit you. He only needs to get close to you and then release the nuclear radiation from his body, and it will be difficult for you to survive."

Lin Tianhao frowned slightly, "That's true, but such a monster, can you let him enter Longdu?"

Upon hearing this.

Taoist Yexin smiled helplessly and said:

"This is not a matter of whether we let him or not, it is that no one can intercept him."

Lin Tianhao was a little surprised, "Is he so strong? Even you... can't stop him?"

Taoist Yexin rolled his eyes and said:

"Xue Di, Grandmaster is also a human, nuclear power, do you know what nuclear power is?"

Chapter 1138 - Seven extremely powerful men!

Lin Tianhao smiled awkwardly and said:

"Understood."

Nuclear power propelling a person, if that person's body can withstand it, can completely achieve supersonic speeds, even multiples of the speed of sound!

Such speed is indeed difficult to intercept with manpower.

"If that's the case, isn't the Black Demon a huge threat to our country?" Lin Tianhao said.

Because the Black Demon only needs to come to Dragon Capital and recklessly release the nuclear energy within his body to cause massive damage to Dragon Capital.

"Yes."

"The Black Demon can also be considered a force for equality."

Lin Tianhao was slightly stunned. This seems...

A little crazy.

Having said that.

Taoist Yexin smiled slightly and continued:

"There are two kinds of existence in the world that can affect the global situation."

"What two kinds?" Lin Tianhao asked.

"The first is nuclear binding. Some of our country's super projects will be externally nuclear-bound. If anyone attacks these super projects, the nuclear arsenal will be emptied."

The corners of Lin Tianhao's mouth twitched. This is really not ordinary danger.

"Actually, this time, Chief Elder proposed pushing you onto nuclear binding, but this proposal didn't pass."

"Because there is no precedent for nuclear binding a person."

Lin Tianhao couldn't help but feel a little moved. Chief Elder would actually propose such a proposal.

From this, it can be seen.

Chief Elder really values him very, very much.

"You just mentioned the first type, what about the second type?" Lin Tianhao asked.

"Reverse nuclear binding. For example, the nuclear bombs of various countries, no matter which country's nuclear bomb flies into our Dragon Country's territory, then all of our Dragon Country's nuclear bombs will launch a nuclear strike on the world."

The corners of Lin Tianhao's mouth twitched. This is too outrageous.

"Nuclear binding is a country's protection of itself, and reverse nuclear binding is a country's deterrence against powerful external forces," Taoist Yexin said.

Lin Tianhao nodded, "Listening to you, the Black Demon is also among those with reverse nuclear binding."

"Yes."

Taoist Yexin nodded, "There are a total of seven people in the world who are reverse nuclear-bound, and the Black Demon is one of them."

"Oh?"

"Which seven?"

There isn't even one person with nuclear binding, but there are actually seven people with reverse nuclear binding.

What does this mean?

There are seven freaks like the Black Demon?!

Lin Tianhao had heard of two monsters comparable to the Black Demon in his previous life, but seven... Lin Tianhao really couldn't imagine it.

"Besides the Black Demon, there's also me," Taoist Yexin said with a smile.

The corners of Lin Tianhao's mouth twitched. Taoist Yexin being one of them was somewhat within his expectations, but also somewhat unexpected.

"My thunder techniques are still quite strong. If I fully use my thunder techniques, the entire Dragon Capital's power system will collapse in just three seconds."

Lin Tianhao was stunned. After a while, he couldn't help but say:

"I knew it, you guys are secretly cultivating immortality behind my back, otherwise, with the Twilight of the Gods, will you all be flying with swords when disaster comes, and I'll be the only one running on foot?"

Taoist Yexin shook his head and said:

"Martial arts are martial arts, cultivating immortality is cultivating immortality, this is Taoist magic, not cultivating immortality."

Having said that.

Taoist Yexin changed the subject and continued:

"The second one is also from our Dragon Country, the previous director of the 749 Bureau. How strong is he? Let me tell you this, after the founding of the country, there was once a dragon causing trouble, and he was the one who locked it down."

Lin Tianhao rolled his eyes. This is simply nonsense!!

Too outrageous!!

This is outrageous to the extreme, outrageous to the core.

Lin Tianhao had heard of both the Locked Dragon Well and the 749 Bureau, but these two things can be linked together.

"The third one is also from our Dragon Country."

Lin Tianhao's eyes lit up, "Is our Dragon Country so fierce? Of the seven reverse nuclear-bound people, our Dragon Country accounts for half?"

"Not really, only three out of seven."

"This third one, strictly speaking, is not a person, but a zombie, a zombie with its own consciousness and extremely powerful."

"If he recklessly spreads corpse poison, foreign zombie movies will become reality."

"Moreover."

"Those guys bitten by him are invulnerable to knives and guns, ten times harder to kill than zombies?"

Lin Tianhao raised his eyebrows. This zombie is indeed a bit tricky.

"The fourth one is the Black Demon we just talked about."

"The fifth one is similar to our Dragon Country's zombie."

"A vampire?" Lin Tianhao asked.

After all, abroad, similar to zombies, the only thing he can think of is vampires.

"Yes."

"The sixth one is an ancient Egyptian pharaoh, and now this pharaoh has joined a large black country."

"The seventh one is Eight Eyes."

"The person is as their name suggests. This guy has eight eyes, and his combat power is extremely strong. There hasn't been a specific fight, but the zombie said he can go toe-to-toe with him."

Lin Tianhao was slightly surprised, "Among these people, it seems that you are the only one who cultivated to get here."

"The others are either mutated or transformed."

"The old director of the 749 Bureau is similar to me, also relying on cultivation."

Having said that.

Taoist Yexin paused slightly before continuing:

"Our Dragon Country has a deeper historical foundation, so we are more powerful in the path of cultivation than ordinary people."

"However, don't underestimate those guys abroad. There are seven people who are reverse nuclear-bound, but there are definitely more than seven with similar strength to us."

Lin Tianhao nodded lightly. Before he could say anything, Taoist Yexin raised his eyes to look at the sky.

"Here it comes."

Lin Tianhao's expression changed slightly, and he also raised his eyes to look up.

When Lin Tianhao's eyes looked at the sky, he could vaguely see a black dot in the sky.

This black dot was like a meteorite, falling rapidly towards the direction where Lin Tianhao and Taoist Yexin were.

"Is this the Black Demon? This entrance is really extraordinary," Lin Tianhao couldn't help but smile.

Taoist Yexin glanced at Lin Tianhao and said unhurriedly:

"He's here to kill you, aren't you afraid?"

"I believe in you, and I also believe in Chief Elder."

Along with Lin Tianhao's voice falling, a low, hoarse voice sounded.

"You believe in them, then that means... you don't believe in me?!"

The Black Demon descended from the sky and landed steadily in front of Lin Tianhao.

"You don't believe... I can kill you?!"

Lin Tianhao raised his eyebrows and looked at the Black Demon meaningfully.

"Is that so?"

"So it really can."

A smile appeared on Lin Tianhao's face.

Because he discovered.

His Seventy-Two Transformations can transform into the appearance of the Black Demon.

It's just.

He's not sure if he will possess some of the Black Demon's characteristics when he transforms into the Black Demon.

Chapter 1139 - Ambitious Taoist Priest VS Black Devil!

That's uncertain...

However...

Lin Tianhao's pupils suddenly dilated, and an expression of disbelief appeared on his face.

The reason was simple.

His skill, [Mechanical Overlord], had been triggered!

This Black Demon... was a mechanical object!

Lin Tianhao couldn't help but gasp. He knew that the Black Demon was powered by nuclear energy, but he had never thought that it would actually be a mechanical object.

However,

this Black Demon had a master!

The Black Demon was its own master, possessing human consciousness and being completely self-controlled.

Moreover, the Black Demon's mental strength was stronger than his. It would be difficult for him to directly control the Black Demon using Mechanical Overlord.

But...

if he used Mechanical Overlord, it would definitely affect the Black Demon.

"Black Demon, have you forgotten your identity? Attacking here, aren't you afraid of Blue Star restarting?"

Daoist Ambition spoke indifferently, and a golden light shield enveloped him and Lin Tianhao.

The Black Demon smiled playfully and said:

"Restarting is fine. Anyway, I won't die. Maybe a global nuclear explosion will make me even stronger."

Daoist Ambition snorted coldly, "You really are a madman."

"I don't know if I'm crazy, but I only know that Xue Di must die!!"

The Black Demon's eyes turned blood red, staring fixedly at Lin Tianhao. Even within Daoist Ambition's golden light shield, Lin Tianhao's heart was uncontrollably pounding.

But having lived two lives, Lin Tianhao had seen some big scenes, so he remained calm on the surface.

"Twilight of the Gods is too special. I can allow all kinds of talents to emerge in Twilight of the Gods, but I will not allow anyone to stand out!"

"But if Xue Di is allowed to develop like this, it is hard to say whether you will still have your current position."

Daoist Ambition shook his head and said:

"Black Demon, you are a smart person, can't you see such a simple truth?"

"Xue Di is not our enemy. On the contrary, Xue Di can push us to a new height."

"To put it simply, it's good to enjoy the shade under a big tree. You are strong, and I am also strong, but do the people behind us regard us as a threat?"

The Black Demon raised his hand to interrupt Daoist Ambition and said indifferently:

"Daoist Ambition, stop trying to trap me. Do you think I don't know your little tricks?"

"I'm not here today to listen to your nonsense. Let's fight."

Hearing this,

Daoist Ambition frowned slightly, his expression a bit solemn.

He made a hand seal, and lightning gathered in his palm.

"I really don't want to fight. If we have to fight, then let's fight."

As Daoist Ambition's voice fell, the Black Demon disappeared from his original position.

When he reappeared, the Black Demon was already behind Lin Tianhao.

He threw a punch!

"Bang—"

The golden light enveloping Lin Tianhao immediately shattered.

"Bang—"

Another muffled sound, a palm wrapped in lightning blocked the Black Demon's attack.

At the same time,

the lightning palm grabbed the Black Demon's wrist, using the enormous force from the Black Demon's fist to pull the Black Demon away from Lin Tianhao.

But just as he flew past Lin Tianhao, the Black Demon's other palm instantly struck towards Lin Tianhao.

However,

before the Black Demon's fist could land, his entire body flew up.

It was naturally Daoist Ambition who had made the move.

"Black Demon, you are a bit too careless. You dare to be distracted while fighting me."

Daoist Ambition stood in front of Lin Tianhao, and a yin-yang eight trigrams pattern spread out from him in all directions.

Lin Tianhao narrowed his eyes slightly. This should be the battle between the two strongest people in the real world right now.

He wondered.

If these two fought, who would be able to escape unscathed.

"Five Elements Formless, Yin and Yang Reversed, Eight Trigrams Reversed, Heaven and Earth Inverted!"

As Daoist Ambition continued to make hand seals, he and the Black Demon actually stood upside down and flew into the air.

The Black Demon's burst speed was still very fast. Even standing upside down in the air, he only exerted a little force and rushed to Daoist Ambition.

Daoist Ambition smiled slightly, not caring at all.

He moved his body to the side, easily avoiding the Black Demon's attack.

In this reversed yin-yang eight trigrams formation, the Black Demon's every move seemed to be completely under Daoist Ambition's control.

The Black Demon's speed was fast, and his explosive power was extremely strong.

But no matter how fast he moved, he would be easily avoided by Daoist Ambition every time.

"Qimen Dunjia, seek good fortune and avoid misfortune, be in the formation, but not in the formation!!"

Lin Tianhao was slightly surprised. Having lived two lives, Daoist Ambition's methods also existed in Twilight of the Gods.

This might be the legendary origin of the Great Dao.

Lin Tianhao watched silently, the Black Demon and Daoist Ambition were fighting back and forth.

As for why the Black Demon couldn't hit Daoist Ambition, it was because Daoist Ambition seemed to be in the yin-yang eight trigrams formation.

But in fact,

Daoist Ambition was not in the yin-yang eight trigrams formation.

Qimen Dunjia, Eight Trigrams World, Yin and Yang Reversed, Five Elements Formless!

Its core was the Eight Trigrams World.

It looked like Daoist Ambition and the Black Demon were standing in the same space.

But in reality, Daoist Ambition and the Black Demon were not in the same space. The two were more like being in different parallel worlds.

The Black Demon quickly realized the problem. He didn't continue to attack, but looked coldly at Daoist Ambition not far away.

"A man should fight head-on. It's not a skill to trap me like this."

Daoist Ambition narrowed his eyes, a faint smile on his face.

"Black Demon, you are a nuclear-powered combat machine. I wouldn't fight you head-on unless I was an idiot."

A cold light flashed in the Black Demon's eyes, and he looked sharply at Lin Tianhao.

"Since that's the case, then I'll kill him."

As soon as he finished speaking.

The Black Demon charged towards Lin Tianhao again.

His speed was extremely fast, but before he could reach Lin Tianhao, the position where Lin Tianhao was located changed.

"In my yin-yang eight trigrams formation, everything is under my control. You don't need to waste your energy."

Sure enough.

The Black Demon attacked Lin Tianhao several times in a row.

But the result was that before his attack could hit Lin Tianhao, Lin Tianhao had already shifted away.

"Black Demon, let's stop here."

Daoist Ambition said lightly, "If you continue like this, I will really kill you."

The Black Demon snorted coldly and said:

"Daoist Ambition, stop with the tricks. If you had the ability to kill me, I guess I would have died countless times."

Daoist Ambition shook his head and said helplessly:

"Since you won't listen to good advice, then I can only send you on your way."

As soon as the words fell.

Daoist Ambition pinched his fingers into a sword shape and pointed to the sky.

"Master, lend me your sword."

Chapter 1140 - A sword that consumes the essence!

As Taoist Yexin's words fell, thunderclouds roiled in the sky, and countless lightning bolts converged.

In an instant.

Above Dragon City, lightning flashed and thunder rumbled, creating a tremendous spectacle.

Many people in Dragon City couldn't help but look up, and seeing the rolling thunderclouds in the sky and the lightning spewing from them, their faces were filled with astonishment.

"What's happening? Why is there a sky full of lightning above our Dragon City?"

"Too terrifying, isn't it? Could it be someone is undergoing tribulation? As expected, I knew someone was secretly cultivating immortality behind my back."

"I just beat up my brother, but he stubbornly refuses to admit that he's cultivating immortality. I don't believe him. Teach me how to cultivate immortality, please! Take me with you! I don't want to ride my old bicycle alone."

... ..

The ordinary people in various parts of Dragon City were alarmed by the sky full of lightning triggered by Taoist Yexin.

Inside the Cabinet.

The Chief Elder looked towards the sky, a solemn expression on his face.

"They've engaged."

A person beside the Chief Elder hesitated to speak, but finally said:

"Should we bring Old Director back from Qinling? Yexin alone... .."

The Chief Elder frowned slightly and said:

"I already contacted him, but Old Director is out of contact."

Hearing this.

This Elder was greatly alarmed, but the Chief Elder immediately made a gesture to silence him.

"This matter must not be publicized. The current situation is already very unfavorable to us. If they know that Old Director is out of contact, I'm afraid Dragon City will be even more chaotic."

This Elder nodded heavily, "Yes, this matter must be kept secret. We can only hope that Senior Yexin can withstand Black Demon."

The Chief Elder gently closed his eyes and said:

"It's a pity that Taoist Yexin's master is no longer here. Otherwise, how could our Dragon Country be in this state?"

... ..

At this moment.

Above the sky.

A lightning bolt as thick as a bucket fell from the sky, connecting to Taoist Yexin's sword finger.

Black Demon's expression changed slightly upon seeing this.

It wasn't Taoist Yexin's summoning of lightning that made him solemn.

After all, Taoist Yexin's lightning magic was his signature move.

Anyone who knew a little about Taoist Yexin knew that his lightning magic was extremely powerful.

The most crucial thing was.

Taoist Yexin's words: Master!!!

There are many strong individuals on Blue Star, and there are as many as seven who are reversely nuclear-bound.

However.

The top powerhouses of Blue Star can't be counted on two hands, but Blue Star only has one strongest person.

That is Taoist Yexin's master!!

Taoist Yexin's master is the globally recognized number one in combat power.

Even Black Demon, who has nuclear combat power, would not dare to confront Taoist Yexin's master.

"Taoist Yexin, when did you learn to bluff?"

"I don't care about you, but if your master comes, I, Black Demon, will never mention the matter of killing Snow Emperor."

Taoist Yexin chuckled and said:

"Have you ever heard the saying that the student surpasses the master? Have you never considered that I might be even more powerful than my master?"

Taoist Yexin smiled noncommittally and said:

"Is that so?"

As Taoist Yexin's words fell, a long sword wrapped in lightning fell from the sky and instantly landed in Taoist Yexin's hand.

"Come on."

"Didn't you want a head-on collision between real men? I'll grant your wish!"

With that, Taoist Yexin actually charged forward.

Previously, Black Demon had been the one to attack, and Taoist Yexin was responsible for defending.

Now.

This was the first time Taoist Yexin had taken the initiative to attack.

Almost instantly, Taoist Yexin, holding the lightning long sword, arrived in front of Black Demon.

Seeing Taoist Yexin's methods, Lin Tianhao's mouth couldn't help but twitch.

This Taoist Yexin is really a cultivator, isn't he!!

Otherwise.

This really can't be explained.

Who can practice martial arts like this!!

If Taoist Yexin used something like Dragon Subduing Palm or Nine Yang Manual, he could still understand.

But what is this?

Summoning lightning!!

Controlling a sword!!

Are these methods that a martial artist can possess?

This is a bit outrageous.

Next.

Lin Tianhao saw an even more outrageous scene.

The previously invincible Black Demon had his arm severed by Taoist Yexin in just one exchange.

"How is this possible?!"

Black Demon's eyes widened, and the intense pain brought about by the severed arm caused his body to tremble slightly.

But even so, he didn't utter a sound.

Only.

He couldn't understand.

How did Taoist Yexin sever his arm with one sword?

To be honest.

His body would be fine even if it withstood a nuclear bomb, so why was it severed by Taoist Yexin's sword?

Taoist Yexin smiled and said:

"Didn't I already tell you? I'm better than my master."

Black Demon's expression was ugly as he stared at Lin Tianhao.

He opened his mouth, seemingly wanting to say something.

"Go, you can be considered a miracle. It would be a pity to kill you."

Black Demon stared at Taoist Yexin with a gloomy expression. After a while, he slowly said:

"Taoist Yexin, if I'm not mistaken, that sword just now must have consumed a great deal of your power."

"Even, it has consumed some of your original power!"

Hearing this.

Taoist Yexin's expression remained unchanged, and he still had a faint smile on his face.

"Since you've said so, then I'll strike again."

With that, Taoist Yexin's aura rose, and the lightning flashing on the lightning long sword in his hand became even more intense.

Seeing this, Black Demon flickered and disappeared.

After Black Demon left, the lightning around Taoist Yexin disappeared.

However.

Lin Tianhao keenly noticed that Taoist Yexin's hand holding the long sword had begun to tremble slightly.

What Black Demon said just now was right.

The sword that Taoist Yexin used to sever his arm had consumed a great deal of his power.

Lin Tianhao came to Taoist Yexin's side without making a sound. He didn't speak, but just silently looked at the distant sky.

After a few more minutes.

Taoist Yexin retreated repeatedly, leaning against the wall behind him.

Small beads of sweat appeared on his forehead, and his breathing also became a little rapid.

"Black Demon is too powerful. If we continue to drag on, I can't guarantee your safety. I can only resort to this strategy."

Lin Tianhao nodded and said:

"How long will it take for you to recover from this sword?"

"Recover?"

Taoist Yexin shook his head and said:

"My realm is completely incapable of controlling my master's True Lightning Sword. Forcibly using it will cause a very serious backlash to my body."

"Injured the origin?" Lin Tianhao frowned and asked.

If Taoist Yexin had injured his origin, then it would indeed be a bit troublesome.

"Yes."

Taoist Yexin nodded, squeezed out a smile, and said:

"Snow Emperor, there's no need for you to worry too much. When Ragnarok and reality merge, I will naturally be able to recover."
