

## O game 1151

Chapter 1151 - Aolong Village: East Village!

In just over ten seconds, the corpses on the ground had completely disintegrated.

Beneath the dissolving corpses was a section of blood-red bone.

Daoist Yexin stared at the bone for a moment, then frowned and said:

“Take a picture and send it back to see if anyone recognizes this bone. Also, relay what happened here.”

When Lin Tianhao saw the blood-red bone, he was completely stunned.

This thing...

Why did it look so... familiar?

It seemed to be... an item from Gods' Twilight!!

“This is... this is an item from Gods' Twilight!!” Lin Tianhao said.

Upon hearing this.

Everyone's gaze converged on Lin Tianhao.

“This is one that has already been used. A normal, unused one is black. This thing is called a Soul Avatar Bone, also known as a Resurrection Bone.”

“Generally, when a strong person falls, you can place this Soul Avatar Bone on their forehead to temporarily create a person who is almost identical to the strong person.”

“The person created in this way can continue to fight, lasting for twenty-four hours, after which they will disappear.”

“At the same time, using the Soul Avatar Bone will extend the resurrection cycle by twenty-four hours.”

Normally, after a professional is killed, there is a golden period for resurrection.

This... is the truly powerful aspect of this item.

“The use is wrong. He is still alive, and no one has used this Soul Avatar Bone on him, so why would it be here?”

Lin Tianhao shook his head, “I’m not too sure about this.”

“It may be due to the difference between game items and real-world game items.”

At this point.

Lin Tianhao paused slightly, “Combining what you said before, that there are new virtual game pods here, I have reason to suspect that this is a product left over from the Third Era of God Creation, or even the Second Era of God Creation, after the fusion of the game and reality.”

After hearing these words from Lin Tianhao.

The burly middle-aged man breathed a slight sigh of relief.

After all, according to Lin Tianhao's statement, he had no problem.

“Then the dragon breeders discovered the special nature of this place and occupied it, right?” Fist Emperor speculated.

Lin Tianhao nodded and said:

“That’s very likely.”

At this point.

Lin Tianhao changed the subject and continued:

“However, the products left over from the past Eras of God Creation are also very difficult to figure out.”

“It’s like the level 50 dungeon and the level 5000 dungeon in the current Gods' Twilight. Without going inside, it’s hard to say exactly what’s inside.”

Daoist Yexin looked around, “Then let’s take a walk around the village first. If there are no other discoveries, then we’ll go back to the camp.”

“There are game helmets in the camp. Xue Di, you can’t slow down your pace in Gods' Twilight. If there’s nothing major, go back to the camp.”

Lin Tianhao nodded and walked around the village with the others.

The situation in this village was about the same as Lin Tianhao expected. In some rooms, more or less some game items were found.

There were red and blue potion bottles, as well as gold coins and silver coins, and some small items that could slightly increase one's attributes.

As for equipment.

So far, nothing has been found.

“Haven’t you explored this village before?” Fist Emperor asked with some surprise.

After all, anyone who has played Gods' Twilight for a few days should know about these gold coins, silver coins, and red and blue potion bottles.

“It was Old Director’s intention. He said that the feng shui of this village is extremely bad, so he had us draw a map of the village and then didn’t let us enter the village.”

“Before, when we went to the underground river, we bypassed the village.”

As soon as the burly middle-aged man finished speaking.

The Blind Swordsman sighed helplessly.

“Old Director is right, the situation here is more complicated than we imagined, we... seem to be trapped.”

Lin Tianhao immediately looked around. At this moment, the sky above Crouching Dragon Village was shrouded in mist.

Not only the sky, but also the surroundings of Crouching Dragon Village were shrouded in mist, making it impossible to see the surrounding situation clearly.

“It seems that I have been cultivating in the mountains for too short a time, and I have experienced too few things. I didn’t expect to be tricked so easily.”

“Where is he?”

The Blind Swordsman's expression changed.

As soon as he finished speaking, Lin Tianhao also noticed.

The burly middle-aged man was gone!!

He was just here, how could he disappear without a trace?

The fog became thicker and thicker, and even inside the village, their visibility was less than five meters.

Daoist Yexin came to Lin Tianhao's side almost instantly.

Fist Emperor, the Blind Swordsman, and Monk Wine-Meat also instantly protected Lin Tianhao in the middle.

Mole Man even stuck close to the ground, obviously ready to take Lin Tianhao away and run away as soon as something went wrong.

They all knew.

Lin Tianhao was the hope of Dragon Country's future and must not be allowed to have an accident.

Especially.

The burly middle-aged man disappeared from under their noses, which was too strange.

"I said that guy must have a problem. He is at least a Grandmaster-level expert, so even if he encounters danger, he can't disappear from under our noses."

“Unless, this guy left here without us noticing.”

Lin Tianhao's expression was a little solemn, this situation came too suddenly.

“With Xue Di as the center, we will head out of Crouching Dragon Village.”

Daoist Yexin immediately issued an order.

In the current situation, they must find a way to leave as soon as possible.

However.

When the group followed the longitudinal road of Crouching Dragon Village all the way to the end, the expected village entrance did not appear in front of them.

In front of them, there was a stone tablet.

Engraved on this stone tablet were three traditional Chinese characters: Crouching Dragon Village!

In the lower right corner of the stone tablet, two small characters could also be seen: East Village.

Seeing this scene.

Everyone present changed their expressions.

Crouching Dragon Village had changed, or rather, the Crouching Dragon Village they had entered at the beginning had not changed, but the periphery of the original Crouching Dragon Village had changed.

The periphery of the original Crouching Dragon Village should have been mountains, but now, they had all turned into villages.

In front.

Pavilions and towers were built against the mountains, looking grand and atmospheric, completely unlike a village.

Daoist Yexin formed a hand seal, "May the azure sky open my eyes, may the profound earth brighten my heart, may the three lamps of life and soul exist, may the spiritual platform and heavenly eyes open!"

As Daoist Yexin's voice fell, a dazzling white light appeared on his forehead.

Chapter 1152 - Xiaoduo appears!

A blinding white light slowly opened.

It was an eye, a cyan-gray eye.

Moreover.

This eye was different from a human eye, it was... a vertical pupil!!

After the third eye between Taoist Wild Ambition's eyebrows opened, he raised his eyes and looked towards Aolong Village in front of him.

"How is it?"

Monk Meat and Wine asked softly.

Taoist Wild Ambition shook his head and said:

"It's not an illusion."

“Otherwise, it’s an illusion that surpasses my Celestial Eye.”

Speaking of this.

Taoist Wild Ambition’s expression suddenly became extremely solemn.

“No matter which situation it is, it’s a big trouble for us.”

At the same time.

Outside.

The team responsible for guarding outside Aolong Village quickly discovered the problem.

The old director of Bureau 749 had already lost contact. Now, the second batch of people had only entered Aolong Village not long ago, and were now out of contact again.

Zhou Yuangen.

The deputy captain of this logistics team.

Now that the captain and Taoist Wild Ambition were all missing, he was forced to take over the logistics team.

“Immediately send a message to Dragon Capital, connect to the Supreme Command Center, I want to personally report the situation here.”

“Yes, Deputy Team Leader Zhou.”

The communicator immediately called the Supreme Command Center of Dragon Country.

“Hello, this is the 511th Logistics Unit, we are carrying out the logistics support mission for the code-named [Jiaolong] mission, and now we have the latest situation to report.”

Hearing that it was someone from the 511th Logistics Unit, Old Yan from the Supreme Command Center immediately stood up.

After all, Xue Di and Taoist Wild Ambition went to the Qinling Mountains together, and Chief Shou had specifically instructed them to pay close attention to the situation there.

“I am Old Yan, what do you have to report to me?”

Old Yan’s slightly deep voice sounded.

Hearing that it was Old Yan on the other end of the phone, Zhou Yuangen immediately stood up, took the communicator, and said very seriously:

“Old Yan, I am the deputy captain of this logistics support team. Our captain, Li Zhenlong, is now out of contact. I am temporarily in control of the logistics team.”

“Our captain led Taoist Wild Ambition, Xue Di, Monk Meat and Wine, Boxing Emperor, Mole, Blind Swordsman, and Director Zuo to the underground river.”

“Two dragon roars came from the underground river one after another. Xiao Duo was hit. Her body was unharmed, but she lost consciousness and could not be awakened.”

“Director Zuo entered the underground river alone, while the captain led Taoist Wild Ambition and the others into Aolong Village.”

“Less than half an hour after they entered the village, the signal was completely cut off. We dispatched a search team to fight, but found no clues. They seemed to have disappeared out of thin air.”

Zhou Yuangen told Old Yan everything that had happened here in detail.

After listening to Zhou Yuangen's report, Old Yan's face became very ugly.

"You stay put and don't rashly enter Aolong Village again. Abide by the instructions left by the old director before and wait."

Zhou Yuangen hesitated, but finally said respectfully:

"Understood."

Hanging up the phone.

Zhou Yuangen looked towards Aolong Village in the mountain col.

This Aolong Village was not big, with only two roads, one horizontal and one vertical.

With his eyesight, he could see the situation in Aolong Village from this mountain.

But after their captain and Taoist Wild Ambition, Xue Di, and others entered Aolong Village, they disappeared not long after.

Zhou Yuangen had tried various methods to try to find Taoist Wild Ambition and Xue Di and others.

But the results were all to no avail.

"Captain, I think there is only one possibility."

“Taoist Wild Ambition and the others should have gone down to the underground river through the ancient well in the ancestral hall.”

Hearing this.

Zhou Yuangen glared at the speaker.

“Are you stupid?”

“Even if the captain and the others wanted to go down the ancient well, wouldn’t they notify us in advance?”

“Moreover.”

“The captain is from the logistics unit, how could he go down to the ancient well with them?”

... ..

At this time.

Inside Aolong Village.

Taoist Wild Ambition did not rashly lead everyone into the so-called “East Village”.

He turned around without hesitation, “The other side.”

The result was actually not suspenseful.

The other side.

It was still pavilions and towers, built against the mountain.

Here.

There was also a stone tablet, with Aolong Village written on it.

In the corner of the stone tablet, there were also two small characters: [West Village].

In fact, there was no need to go to the other two sides. With a little thought, one could guess that the remaining ones were South Village and North Village respectively.

The original small Aolong Village was now enlarged more than ten times. This was really too strange.

Lin Tianhao had thought about various possibilities, but did not expect such a thing to happen.

Especially.

That burly middle-aged man disappeared as soon as he said he would, without a trace.

“What do we do now? Do you want me to try drilling into the ground?” Mole said.

Taoist Wild Ambition shook his head and said seriously:

“It’s best not to. The situation here is unclear now. Leaving rashly is not rational.”

Boxing Emperor suddenly thought of something and said with a smile:

“Hehe, I have signal flares ready, let’s fire two to try.”

“If we encounter an illusion, seeing the signal flares we launch will definitely attract the logistics unit stationed outside to come over.”

“Yes.”

Taoist Wild Ambition nodded. He had also tried his own methods.

But he couldn't see what was wrong here.

In this case, all methods can be tried.

As long as their people are safe, the rest will be easy to say.

Boxing Emperor took out the signal flare and fired one into the sky.

The crimson signal flare quickly rose into the sky and finally exploded in the sky like a brilliant firework.

However.

The fog above Aolong Village was really too thick.

The light of this signal flare was still blocked a lot.

After firing the first signal flare, Boxing Emperor fired the second signal flare in succession.

“It's useless.”

At this moment.

A crisp voice came suddenly.

This voice came too suddenly, and instantly attracted everyone's attention.

"Xiao Duo?!"

When everyone looked over, their faces showed astonishment.

Because Xiao Duo seemed to have been hit by a body-fixing technique after hearing the dragon's roar, and she didn't move.

"Looking at your reaction, you should have seen me before. I don't know if you saw my corpse, or if I calculated you."

Xiao Duo's words were a bit strange.

But combined with the corpse of the middle-aged man before, it was not difficult to understand the meaning of Xiao Duo's words.

"Do you mean that there are people around here who look exactly like you?" Blind Swordsman asked.

Xiao Duo nodded, "It used to be just us, but now, it includes you."

"These guys have the same appearance as us, the same demeanor, and even many details are the same."

"But there is one thing that is different, and that is memory."

Lin Tianhao frowned slightly. If even the memories were copied, it would not be a clone, but a real person.

“What about Old Director?” Taoist Wild Ambition asked.

Chapter 1153 - Clone: Xiaoduo!

Xiao Duo frowned slightly and said:

“Director Lao entered the underground river and is not here.”

“I couldn’t contact Director Lao, so I thought about exploring the village, but I got trapped here.”

“It’s not just me, but some people from the logistics department are also trapped here.”

“What about your logistics department’s captain?” Wine-Meat Monk asked.

Hearing this.

Xiao Duo looked a little dejected.

“He’s also trapped here, but... he’s dead!!”

“Dead?”

Hearing this.

Everyone frowned slightly. If the burly middle-aged man was already dead, then who was it that took them to the underground river before?

“What? Did you encounter the living Captain Li?”

Mole nodded, "To be precise, we encountered both the living and the dead Captain Li."

Hearing this.

Xiao Duo said seriously:

“Captain Li is already dead. The living one is fake. You must not believe his words.”

Wine-Meat Monk spread his hands, "We only found out now, but it's a bit late. We're also trapped here."

“Also, how did that Captain Li die?”

Xiao Duo said very seriously:

“We couldn't contact Director Lao, so we entered Ao Long Village to explore, trying to find clues about the underground river.”

“As a result, we got trapped here after entering. According to my speculation, this may be the legendary parallel world.”

“Parallel world?” Lin Tianhao couldn't help but be stunned.

He had lived two lives and fought for many years.

The so-called parallel world exists and does not exist.

Because this so-called parallel world is actually the past or the future.

As for some online comments saying that there is also a you in the parallel world, living a different life, maybe the you in the parallel world has become the master of the world.

But sorry.

That's not you.

The life trajectories are different, and the memories are different. At most, the appearances are similar, but everything else is different.

Is this the you of the parallel world?

No.

This is just another person in another world who looks like you.

The true meaning of a parallel world is the dimension of time.

For example...

Lin Tianhao came to the outside of Ao Long Village. Now he has chosen to enter Ao Long Village and is trapped here.

At another point in time, he did not choose to enter Ao Long Village, and now he may be in the game pod in the camp, fighting in Twilight of the Gods.

But although this statement has always existed, no one can prove whether this statement is correct.

However.

In fact, from Lin Tianhao's current perspective, this interpretation of parallel worlds is also incorrect.

Because one person's choice will lead to the birth of a parallel world, then with so many people in the world, will each person's thought lead to the birth of a parallel world?

How many parallel worlds would be born?

At least.

Judging from Lin Tianhao's current achievements, even the Source God of Dao does not have the power to carry so many parallel worlds.

Of course.

Lin Tianhao cannot currently prove whether this statement is correct.

In Lin Tianhao's mind, parallel worlds should be the past or the future, the true meaning of the past and the future.

Just like his rebirth.

He can now be considered to be in a parallel world that is exactly the same as his previous life.

The him of the previous life should be dead. At this time, the Blue Star in the world of the previous life is probably already fragmented by the brilliant Alete star system.

This is a little more reasonable.

After all, not everyone can encounter rebirth.

Lin Tianhao had initially thought that his rebirth was related to the Source God of Dao, but after contacting the Source God of Dao, he discovered that the Source God of Dao did not seem to know about his rebirth.

So.

When Xiao Duo said that this was a parallel world, Lin Tianhao felt that it was a bit absurd.

“Yes, a parallel world.”

Xiao Duo nodded seriously, "Everything here, except for the outside of the village, the houses on both sides of the original horizontal and vertical roads in Ao Long Village, are in their original appearance."

“Everything is exactly the same. I tried to destroy this place violently, but after twenty-four hours, everything destroyed here will be restored.”

“To be precise, it’s twenty-three hours, fifty-three minutes, and forty-five seconds.”

Wine-Meat Monk said from the side:

“You haven’t said how Captain Li died yet.”

Xiao Duo nodded and continued:

“Ancestral Hall, Ancient Well!!”

“Captain Li and we thought of many ways, but we couldn’t get out.”

“In the end, Captain Li focused his attention on the ancient well. He wanted to try to enter the underground river through the ancient well to see if he could leave here.”

“As a result... Captain Li died!!”

“His body floated up not long after he went down.”

“Several of Captain Li’s team members wanted to go down and retrieve Captain Li’s body, but none of them came back up after going down.”

After listening to Xiao Duo’s words, Lin Tianhao said bluntly:

“What you said is clear and there is no problem.”

“But I’m very curious, how are you so sure that we are not copied people?”

“Also, you didn’t show any surprise at all when you saw the corpse puppet, as if... you have been observing us for a long time, and only came out now.”

Hearing this.

Taoist Ambition and Wine-Meat Monk both looked gloomy.

In fact, they both thought of the first point that Lin Tianhao questioned.

Why is Xiao Duo able to determine their identities? Doesn’t she suspect that they are clones?

However.

This point can actually be explained.

But.

Xiao Duo's reaction of not being surprised at all when she saw Black Demon was indeed very strange.

After all, Black Demon has no head and is missing an arm. Normal people will definitely be surprised when they first notice Black Demon.

Especially.

Xiao Duo is from Bureau 749 and should know what Black Demon looks like.

Although Black Demon doesn't have a head at this time, his body, which has been modified by nuclear radiation, is still very different from a normal person.

"Because clones rarely appear in groups, especially your formation just now, which clearly protected Xue Di in the middle."

"Clones would not protect a person like this."

At this point.

Xiao Duo changed the subject and continued:

"Moreover."

"Corpse puppets are not rare things. Among those who went to the underground river with Director Lao this time, there were people who could control corpse puppets."

Hearing this.

Wine-Meat Monk and Blind Sword Elder almost instantly took action, cutting off Xiao Duo's retreat.

"You are not Xiao Duo, who are you?!"

Lin Tianhao deliberately left a hand just now. When he pointed at Black Demon, he said corpse puppet.

He just wanted to see how this [Xiao Duo] would respond.

"This guy is our key focus. Even if he has no head and is missing an arm, the real Xiao Duo must recognize him."

"You actually said he is a corpse puppet, then you are definitely not the real Xiao Duo."

Chapter 1154 - Giant in the mist!

Xiao Duo frowned slightly, "You guys are thinking too much. I know he's the Black Demon, I was just going along with what the Snow Emperor said."

Taoist Yexin smiled and said:

"It seems you can hear everything we're saying around here, or should I say... you all!"

"I mentioned the Black Demon's name before, so it's not strange that you know he's called the Black Demon, but what the Snow Emperor mentioned at the beginning is the strangest thing."

"You saw the Black Demon and weren't surprised at all, you didn't react in the slightest."

Not to mention Xiao Duo.

Everyone in the 749 Bureau, including Taoist Yexin.

If they saw the Black Demon like that for the first time, they would definitely be shocked, and their attention would even be focused on the Black Demon.

After all.

Everyone in the 749 Bureau has carefully studied the Black Demon's appearance and physical characteristics.

The Black Demon is a key focus of the 749 Bureau, one of the seven super beings on the entire Blue Star with reverse nuclear binding.

Such a super strong person, fallen, head gone, arm gone, and still following Lin Tianhao.

Any member of the 749 Bureau would definitely be very surprised to see this scene for the first time.

Xiao Duo looked at the others, "It seems you're certain that I'm not Xiao Duo."

"Since that's the case."

"Then let's do it, just kill me. Anyway, I've been trapped here for so long, dying would be a relief."

"Whoosh—"

Almost the instant Xiao Duo's voice fell.

Old Man Blind Sword had already made his move.

What no one expected was.

Xiao Duo's arm was broken, but not a single drop of blood fell.

The arm that fell to the ground gradually turned into nothingness.

Seeing this scene.

Taoist Yexin's expression changed again and again.

"With my strength, I can't see through your origins at all."

Hearing this.

[Xiao Duo] looked at Taoist Yexin indifferently and said unhurriedly:

"It's only natural that you can't see through my origins."

"The reason I'm appearing here today and telling you this is entirely for his sake."

When [Xiao Duo] said this, her gaze fell on Lin Tianhao.

Lin Tianhao's expression darkened slightly, and he said:

"Have we met before?"

"You may not know me, but it's enough that I know you."

"Mystifying."

Old Man Blind Sword snorted coldly, "You are a product of the past God-Making Era, and the Snow Emperor is also here for the first time, how do you know him?"

"Who told you that he... didn't exist in the past God-Making Era?"

At this point.

[Xiao Duo]'s face revealed a strange smile, and her body slowly dissipated.

After [Xiao Duo]'s body disintegrated, a blood-red bone fell from where she had been.

Exactly the same as the bone that fell from the burly middle-aged man before.

Soul projection bone!

"There's one thing she said that should be right, and that's that we might all have been copied, and the copies might not be trapped."

"They might have already made contact with the people in the logistics department, and if that's the case, it would be a disaster."

The Fist Emperor said with an unusually solemn expression.

However.

Lin Tianhao shook his head and said seriously:

"I think that even if they copied us, they wouldn't dare to rashly communicate with the people in the logistics department."

"Otherwise, the copied Old Director should have already appeared."

At this point.

Lin Tianhao paused slightly before continuing:

"These clones don't have our memories. I estimate that they should be eavesdropping on our conversations to obtain useful information."

"When they have enough information, they will impersonate us."

Old Man Blind Sword seemed thoughtful and said slowly:

"Actually, we at the 749 Bureau have encountered this kind of clone situation twice before."

"Twice?"

Lin Tianhao was a little surprised.

These people from the 749 Bureau are indeed people who deal with strange events all year round, they can actually encounter this kind of thing twice.

"The first time was in Lop Nur. At that time, our Dragon Kingdom was still relatively weak, and some powerful weapons could not be researched in the mainland, and we couldn't let those foreigners discover them."

"Therefore, the location was in Lop Nur. At that time, a pioneer unit exploring the road encountered strange things in Lop Nur."

"In the end, only one person came back alive, or rather... no one came back."

"Because this person who came back was no longer the same person, but a... clone!"

Taoist Yexin nodded and said:

"There's no need to talk about these things for now."

"Since they are spying on us in the dark, trying to obtain more information from us, then we should try to talk less later."

"If it's not necessary, don't reveal information related to us."

Old Man Blind Sword nodded, and he suddenly realized something, and instantly lay down on the ground.

"Something's coming."

"And it's a big guy."

Hearing this.

The few people present almost instinctively leaned towards Lin Tianhao.

Lin Tianhao was a little helpless.

Although he had the Black Demon by his side, he had no fighting power after all. Once he encountered danger, he might not be able to react in time.

"Boom... boom..."

Not long after Old Man Blind Sword's voice fell, Lin Tianhao felt the ground tremble slightly, followed by heavy footsteps.

"Black Demon."

Lin Tianhao had the Black Demon stand in front of everyone.

If they encountered any danger, with the Black Demon's body, there was still a high probability that he could block it.

In these footsteps, Lin Tianhao finally saw a vague outline.

This outline should be six or seven meters high, and walking step by step gave people a strong sense of oppression.

"This outline..."

The Fist Emperor seemed to have thought of something, and looked at the Drunken Monk beside him and asked: "Familiar?"

The Drunken Monk nodded lightly, "If it's the same guy, it will be much easier to deal with."

Lin Tianhao really admired these guys from the 749 Bureau, they seemed to have come into contact with a little bit of everything.

If it weren't for the Twilight of the Gods, Lin Tianhao wouldn't have come into contact with these bizarre things before.

It is estimated that more of it was just some fragmentary words seen on the Internet.

But then.

Although the real 749 Bureau is also mysterious, it is not as mysterious as Lin Tianhao learned from the Internet.

Before, the Internet said that the director of the 749 Bureau was already a great power in the Tribulation Stage, and the core members of the 749 Bureau were basically Golden Core大佬.

If you really use the realm strength in the Immortal Cultivation novels to measure it, Lin Tianhao estimates that Taoist Yexin should not have the strength of the Golden Core Stage.

How are the Golden Core Stage cultivators described in the novels? They can fly with swords, control flying swords, and take people's heads from thousands of miles away.

Does Taoist Yexin have such combat power?

No.

Perhaps in some aspects, Taoist Yexin can also compare with the legendary Golden Core Stage cultivators, but the overall combat power is still not as good as Golden Core Stage cultivators.

Chapter 1155 - Girl with twin ponytails!

As the giant in the mist strode forward, a sense of invisible pressure also fell upon Lin Tianhao.

Lin Tianhao inexplicably felt a sense of pressure.

Taoist Wild Ambition formed a hand seal, and a golden light enveloped Lin Tianhao and the others.

And at this moment.

Lin Tianhao clearly saw the body of this tall figure.

It was a... gorilla covered in yellow fur!!

Its size was extremely large, and it looked at everyone present with a sense of oppression.

If this were within Gods Twilight, Lin Tianhao would think that such a scene was no big deal.

But this was not within Gods Twilight, this was the real world.

A six or seven meter tall gorilla, are you kidding me?

Clearly.

This was not the first time they had encountered such strange and bizarre creatures.

Generally speaking, such creatures possessed a certain degree of intelligence.

In fact, the intelligence of many of these creatures was not at all inferior to that of normal people.

"It can communicate, but, let me communicate with you."

As soon as the words fell.

A girl with twin ponytails suddenly appeared on the giant gorilla's shoulder.

The twin-tailed girl nimbly landed in front of everyone, she raised her hand and pierced her finger with a silver needle.

"See, if there's blood, it's not a replica."

Taoist Wild Ambition raised his eyebrows, "Have we met somewhere before?"

The twin-tailed girl nodded and said:

"Yes, you came to my grandmother's birthday."

Hearing this.

Taoist Wild Ambition nodded and said:

"I remember now, you are Granny Nether Candle's granddaughter."

The twin-tailed girl nodded and smiled:

"That's right."

"I can't say my purpose for coming here, what I'm doing, or more information about me."

"I'm here to ask you for a favor."

"What favor?" Taoist Wild Ambition asked.

Old Man Blind Sword smiled and said:

"She probably wants us to help her deal with this gorilla beside her."

"This gorilla is a replica."

Hearing this.

The giant gorilla, which had been standing still, kicked towards the twin-tailed girl.

The twin-tailed girl was agile, and avoided the giant gorilla's attack with a backflip.

Old Man Blind Sword instantly drew a long sword from behind him.

The long sword was rusty and didn't look sharp.

It only made people worry whether they would get tetanus if they were injured by this rusty sword.

Old Man Blind Sword's speed was faster than the twin-tailed girl's, and he arrived behind the giant gorilla almost instantly.

However.

Lin Tianhao didn't see Old Man Blind Sword draw his sword, he just silently put the rusty sword back.

This was somewhat beyond Lin Tianhao's expectations.

"Old Man Blind Sword's sword is indeed well-deserved, if I were to fight, it would be quite difficult."

The twin-tailed girl complimented.

Lin Tianhao was still a little surprised, after all, he hadn't been able to see Old Man Blind Sword draw his sword.

The next moment.

The giant gorilla's head instantly fell off and rolled to the ground.

This giant gorilla was the same as the previous [Little Flower].

Its body slowly disintegrated, leaving only a section of blood-red bone.

Lin Tianhao was shocked.

He clearly hadn't seen Old Man Blind Sword draw his sword just now, but Old Man Blind Sword had already chopped off the giant gorilla's head.

"This replica shouldn't be as strong as its peak state, otherwise, I should need to use three swords."

The corners of Lin Tianhao's mouth twitched, was this Old Man Blind Sword so fond of showing off?

One sword and three swords, the difference isn't that big!

"What's going on?" Monk Wine-Meat asked.

The twin-tailed girl spread her hands and said:

"You've all seen it, the gorilla I raised was swapped out."

"I'm very familiar with the gorilla I raised, and I noticed it was swapped out immediately."

"It's just that I don't know if I can beat this replica myself, so I had to play along and act with it."

Taoist Wild Ambition nodded lightly and said:

"I won't ask you your purpose for coming here, but I want to know, since you came here, have you found any useful information?"

The twin-tailed girl pondered slightly and said:

"I did discover some problems, these replicas have no blood, no memory, but their appearance is exactly the same."

Taoist Wild Ambition smiled helplessly and said:

"We already knew this information when we first came in."

The twin-tailed girl thought for a while and said again:

"Have you guys played Gods Twilight?"

Fist Emperor's face darkened, and he couldn't help but complain:

"Who here hasn't played Gods Twilight?"

The twin-tailed girl nodded and said:

"I found that this place is a bit similar to a special dungeon in Gods Twilight."

"The replicas are just the appearance, there should be a boss guarding the level here, and his ability is replication."

"This place isn't the outside world anymore, it's more like inside a dungeon."

"These two roads, one vertical and one horizontal, in Aolong Village, look similar to the things above, but in reality, the Aolong Village we see now is a replica."

After listening to the twin-tailed girl's words, Lin Tianhao pondered for a moment and said:

"I have the same idea as you, this place is likely a product left over from the past era of god-making."

"And according to the information I know, a skill called 'Imaginary Life' should be rewarded at the end of a dungeon like this."

"Imaginary Life? What kind of skill is that."

Lin Tianhao said seriously:

"The specific effect of this skill should be similar to this Imaginary Soul Bone."

"However."

"This Imaginary Life skill should be triggered passively, without needing to be actively used."

Taoist Wild Ambition's eyes lit up.

"Doesn't that mean that if we are killed, this skill will manifest a brand new version of ourselves?"

Lin Tianhao nodded and said:

"Yes."

"But the person that is manifested will hardly reach the original's full state, and their combat power will be different."

Fist Emperor spread his hands and said:

"It doesn't seem very powerful, standing up again after death, and the combat power is not as good as when in full state."

Taoist Wild Ambition shook his head, "Monk, that's because your understanding isn't enough, the real strength of this skill is to extend the resurrection time and enhance the temporary combat group."

"It's useless in the current stage, but what about in the future?"

"One more day means one more chance to be resurrected."

Actually.

Lin Tianhao also felt that this skill was average, not as direct as a resurrection coin.

"I'm just guessing, I'm not sure if it's true."

"After all, these guys are manifested by the Soul Imaginary Bone, not a direct skill."

Taoist Wild Ambition looked at Lin Tianhao and said:

"Snow Emperor, you have the most game experience here, what do you say we should do?"

"Next, we'll listen to your orders."

"Really?" Lin Tianhao grinned.

"Then I won't be polite!!"

Chapter 1156 - Siege: Danger!

Everyone looked at Lin Tianhao, wanting to hear what he would do.

"Have you heard of the law of conservation of energy?"

"Although the previous [Little Duo] was a clone, some of the information he provided should be correct."

Taoist Wild Ambition instantly understood Lin Tianhao's meaning.

"You mean..."

"If we destroy Ao Long Village, it will be restored in twenty-four hours. Restoring Ao Long Village will definitely consume energy."

"No matter how powerful the mastermind behind this is, they won't be able to withstand such continuous consumption."

Lin Tianhao nodded, "That's right, it's easy to destroy these buildings in Ao Long Village, but repairing them will definitely consume a lot."

"Okay."

Taoist Wild Ambition nodded, immediately wanting to take action.

However, Lin Tianhao shook his head and smiled, "No need, I'll let Black Demon take action."

Taoist Wild Ambition frowned slightly, "But..."

Lin Tianhao knew what Taoist Wild Ambition was worried about, and a smile couldn't help but appear on his face.

“Don’t worry.”

“If something happens to a puppet, there’s no need to worry too much.”

In fact, Lin Tianhao's true thoughts were:

He couldn't wait for the mastermind behind the scenes to replicate Black Demon.

Because that way, he might be able to control this replicated guy.

Although the probability of this happening wasn't very high, there was still a chance.

What if he succeeded?

If he really controlled the replicated Black Demon, that would be interesting.

The twin-tailed girl was a little stunned at this moment.

She opened her mouth, wanting to say something, but in the end, she didn't say it.

She just swallowed a few mouthfuls of saliva silently.

“This destructive power is really perverted.”

King of Fighters couldn't help but complain.

He liked close combat, and this Black Demon was also close combat.

But just looking at it, King of Fighters had no desire to fight at all.

“What about outside?”

Taoist Wild Ambition looked outside Ao Long Village.

Initially, there were four villages outside Ao Long Village: east, south, west, and north.

“Since we’ve already taken action, let’s destroy everything.”

Lin Tianhao controlled Black Demon and killed his way towards the east village of Ao Long Village.

The rules remained the same, destroying everything along the way.

He was completely a humanoid destruction machine.

Lin Tianhao just watched silently, reminding the others beside him: "Protect me."

“Understood.”

Taoist Wild Ambition nodded lightly. He naturally knew that the guys lurking in the dark would definitely discover that Lin Tianhao was controlling Black Demon.

The mastermind behind the scenes would most likely try to stop Black Demon by ambushing Lin Tianhao.

That was the easiest way.

“They’re here.”

Old Man Blind Sword tilted his head, listening carefully.

“Underground,” Moleman said.

The moment his voice fell, a palm reached out from under Lin Tianhao's feet.

However,

Taoist Wild Ambition had already taken the lead, grabbing Lin Tianhao and flying him up.

“It’s my hand.”

Moleman couldn't help but shout, “He copied me.”

“咻——”

At this moment,

A sword energy flew towards Taoist Wild Ambition, who was in mid-air.

“铛——”

Before Taoist Wild Ambition could take action, Old Man Blind Sword had already blocked the sword energy.

In the direction from which the sword energy flew, a new Old Man Blind Sword appeared.

“Looks like we have to fight ourselves.”

King of Fighters rubbed his fists.

Because in front of him, a person exactly like him appeared.

“Don’t mess around, protect Snow Emperor.”

Taoist Wild Ambition said in a deep voice.

“I’m afraid you can’t protect him.”

Just then.

Another person appeared.

This person was none other than [Taoist Wild Ambition].

Taoist Wild Ambition frowned, his expression slightly solemn.

“Snow Emperor stays, the others can leave.”

A slightly old voice came.

Immediately afterward.

Even an old man with explosive muscles walked out.

If you didn't look at his face and hair, his terrifying muscles were no less than those of King of Fighters!!

“Old Director!”

Monk Wine and Meat’s expression changed. The others from Bureau 749 present all showed solemn expressions.

The Old Director’s status in their hearts was extraordinary. Now that they saw the Old Director appear here in this way, they didn’t know how to respond.

“We have no intention of opposing the Dragon Kingdom government, but Snow Emperor must stay.”

Another voice came.

Zuo Tianyang walked out slowly. After Zuo Tianyang appeared, Captain Li, who was burly and strong, also walked out.

“There’s no point in you guys confronting us head-on.”

“Whether it’s the number of people or the lineup, we are much stronger than you.”

Lin Tianhao narrowed his eyes slightly. He didn't know why these guys were targeting him.

But in this situation, he had to find a way.

“Snow Emperor, don’t think about it.”

“If we were outside, these clones would only have 60-70% of the original’s combat power at most.”

“But here, even if they don’t have 100% of the original’s combat power, they at least have 90%.”

As soon as he finished speaking.

The [Taoist Wild Ambition] on the opposite side was surrounded by golden light, and an even more powerful aura emanated from his body.

“Since that’s the case, then let’s fight!”

Lin Tianhao was never afraid of fighting, even if this was the real world, he didn't panic at all.

He raised his hand.

A silver alloy Gatling gun appeared in his hand.

Before coming out this time.

Taoist Wild Ambition gave Lin Tianhao a storage ring.

Lin Tianhao naturally made the most of it, getting a lot of technological weapons in this storage ring.

Now that they were going to fight, there was nothing to say.

All fear stems from insufficient firepower.

“Da da da——”

Lin Tianhao didn't even say another word. The Gatling gun in Lin Tianhao's hand directly spat out flames, easily covering the people in front of him.

[Taoist Wild Ambition] continued to urge the golden light, trying to block Lin Tianhao's bullets.

[Old Director] and [Zuo Tianyang] flanked from both sides.

As for the other people, they were also preoccupied.

After all, here, their clones were restraining them.

“Black Demon.”

Lin Tianhao whispered, Black Demon descended from the sky, and Lin Tianhao instantly used Seventy-Two Transformations to transform himself into a fly, flying along Black Demon's neck into Black Demon's body.

Black Demon's body.

Was indestructible.

Seeing Lin Tianhao hide inside Black Demon's body, Taoist Wild Ambition and the others breathed a sigh of relief.

They didn't need to know how Lin Tianhao did it.

They only needed to know one thing, and that was that Lin Tianhao was temporarily safe.

“Boom——”

Along with a loud noise.

Black Demon and [Old Director]'s fists collided.

[Old Director]'s body instantly flew out, and the arm that collided head-on with Black Demon was directly blown apart.

Chapter 1157 - Captain Li returned with serious injuries!

“Looks like these guys are all flash and no substance; they’re not as strong as they appear.”

Fist Emperor let out a low shout, colliding with the [Fist Emperor] in front of him.

Without any suspense, Fist Emperor was completely overwhelming the copy.

It wasn't just Fist Emperor who was like this.

The others around were also unilaterally suppressing their own copies.

Taoist Wild Ambition was even more capable, having already dealt with his copy.

Seeing this, the remaining copies turned and ran.

After all the copies had left, Taoist Wild Ambition looked into Black Demon’s body.

“Snow Emperor, are you alright?”

Lin Tianhao flew out from Black Demon’s body.

Being too weak has this disadvantage; it's too easy to be targeted.

“These copies aren't as difficult to deal with as imagined. Although they can copy our appearance, they can also use some of our methods in a similar fashion.”

“However, the power is far from ours.”

Having said that.

Taoist Wild Ambition paused slightly before continuing:

“It's as if the basic attributes of these copies are almost the same, but depending on the person they copied, some of the methods they can use are slightly different.”

Lin Tianhao understood, “If that's the case, then it's most likely as this beauty analyzed, there's a big BOSS behind the scenes.”

“These copies are most likely some kind of skill of this behind-the-scenes BOSS.”

“And this Soul Avatar Bone should be the carrier for this behind-the-scenes BOSS to release this skill.”

Old Man Blind Sword said seriously:

“Now that we've identified the enemy, what we need to do now is find this enemy and eliminate them.”

Lin Tianhao nodded. The fact that a copy of Black Demon didn't appear meant that Lin Tianhao didn't know if he could control Black Demon if he were copied.

“We saw the copied Captain Li at the bottom of the well before, but the Captain Li who brought us here ran away again.”

“If it's a skill, it shouldn't be possible to continuously copy the same person in a short period of time.”

“Otherwise, this behind-the-scenes BOSS could completely exhaust us with a war of attrition.”

Hearing this.

Taoist Wild Ambition raised his eyebrows and said:

“Snow Emperor, are you saying that the Captain Li who brought us in isn’t a copy, and that he himself has a problem?”

Lin Tianhao nodded.

“Do you remember what Captain Li told us about the situation in the village before?”

“There are four major families here: Ye, Wang, Zhou, and Li.”

“Captain Li’s surname is also Li.”

Fist Emperor was slightly stunned, “Snow Emperor, isn’t this a bit of a stretch?”

“Although Captain Li’s surname is also Li, I’ve dealt with him before, and he has nothing to do with this Angler Dragon Village.”

Taoist Wild Ambition smiled and said:

“Sometimes, the more far-fetched things are, the more likely they are to be the truth.”

Lin Tianhao continued to say:

“And then.”

“Captain Li also said that everyone else in the village was dead, and only a young man from the Ye family survived.”

“I joked at the time, wondering if the Ye family kid killed them, but now it seems like it was Captain Li who did it.”

“Several hundred people in a village, to arrange a good death for each one, especially since these are dragon raisers, you definitely can't do it without some ability.”

Lin Tianhao waved his hand, “No matter how I speculate, we can just continue doing what we were doing.”

“Anyway, everyone is fine, let's all express our opinions, and maybe we'll figure it out.”

The twin-tailed girl raised her hand like a student and said:

“I was just saying, could it be that we were all wrong from the beginning, and that this village, with its four families, should only have one dragon raiser.”

“The Flood Dragon needs to undergo tribulation to become a dragon, but with the current spiritual energy level of Blue Star, it's almost impossible to succeed through normal tribulation.”

“Unless... a blood sacrifice of living people is used to block the tribulation.”

Everyone present looked at each other.

Because there are four surnames, four ancestral halls, and four ancient wells.

Therefore.

They suspected that there were four dragon-raising families here.

But now, listening to what the twin-tailed girl said.

What she said... seems to make a lot of sense.

“As for the problem with that Captain Li you mentioned, I think he’s either the dragon raiser, or we’re thinking too much.”

Lin Tianhao nodded. In fact, he also felt that this was possible.

“Even if the guy behind the scenes can’t continuously copy us, he should still be able to copy us again after a period of time.”

“Captain Li has been here for so long, so there’s a chance he’ll be copied again.”

During the conversation.

Lin Tianhao didn’t forget to control Black Demon to continue destroying the village.

However, because Lin Tianhao’s Mechanical Overlord has a maximum control range of 500 meters in the real world, Lin Tianhao still needed to walk over to destroy other places.

After Black Demon had almost completely destroyed Angler Dragon Village and the surrounding areas, Lin Tianhao said to everyone:

“Let’s rest. Faced with this situation, we have to be more patient than the guys behind the scenes.”

Taoist Wild Ambition raised his eyebrows, a faint smile appearing on his face.

The night passed without incident.

The next morning.

A few rays of light fell through the mist above Angler Dragon Village.

The current Angler Dragon Village shows no signs of recovery.

According to what that [Little Duo] said before.

Angler Dragon Village needs to wait twenty-four hours to recover after being destroyed.

Only a dozen hours have passed now; there's still a wait.

At this moment.

Outside.

Outside Angler Dragon Village, the logistics unit.

A burly middle-aged man rushed out of Angler Dragon Village in an extremely disheveled state.

His face was haggard, his eyes were bloodshot, and he had multiple wounds on his body. He was soaking wet, as if he had just crawled out of the water.

In the logistics unit outside Angler Dragon Village, there were observers specifically responsible for monitoring Angler Dragon Village.

When they saw the burly middle-aged man, they all became excited.

“Deputy Team Zhou, it’s the captain, Captain Li is back!”

Hearing this.

Zhou Yuangeng, who was in the tent, immediately rushed out of the tent, looking in the direction of Angler Dragon Village with slight excitement.

Although his martial arts realm was not as good as Li Zhenlong's, he noticed Li Zhenlong, who was covered in injuries, from a long distance away.

Thinking of this.

Zhou Yuangeng immediately rushed towards Li Zhenlong's direction.

However.

Li Zhenlong below shook his head repeatedly in the direction of the camp, as if he didn't want Zhou Yuangeng to come over.

Zhou Yuangeng stopped, and Li Zhenlong staggered over himself.

It wasn't until he entered the camp that Zhou Yuangeng supported Li Zhenlong.

“Team Li.”

Zhou Yuangeng said urgently.

“Investigate everyone who has entered Angler Dragon Village, including members of the 749 Bureau, immediately. They may have been swapped out.”

Chapter 1158 - Multiple realm copies!

After saying this, Zhou Yuange could no longer hold on, and his body collapsed with a thud.

At this moment.

The logistics medical staff who received the news had already rushed over and immediately began to rescue Li Zhenlong.

Zhou Yuange took a deep breath, and thinking of what Li Zhenlong had just said, he immediately began to act.

At the same time.

He also reported the news of Li Zhenlong's return.

Previously, because of the old director's instructions, most of the logistics personnel had not entered Aolong Village.

However.

Later, after the old director and others lost contact, Captain Li took three people into Aolong Village.

In addition... Xiao Duo had also entered Aolong Village!

Thinking of this.

Zhou Yuange's expression changed drastically.

"Quick, immediately order the interception of Xiao Duo and the two people who took her away, they may have been replaced."

Because among the three people who entered Aolong Village with Li Zhenlong, two had already left with Xiao Duo, who seemed to be frozen in place.

Among the people who entered Aolong Village, only three had left.

If it was really as Li Zhenlong said, that the people who entered Aolong Village may have been replaced, then the departure of these three was a real problem.

"In addition, immediately call Wang San over."

Zhou Yuange's execution was still very strong.

While his subordinates went to call Ge San, he immediately reported the latest situation here.

.....

Inside Aolong Village.

Lin Tianhao and his group were gathered together, and everyone was carefully vigilant.

Lin Tianhao ate something, and coupled with a night's rest last night, allowed Lin Tianhao's mental strength, which had been consumed by using Seventy-Two Transformations, to recover.

But now he was still waiting.

Lin Tianhao had Black Demon smash out a large pit, placed a few wooden boards on the pit, and the group sat on the wooden boards.

Doing this was to prevent, just in case, someone suddenly emerged from under their feet to attack them.

"Is your big gorilla still alive?" Lin Tianhao suddenly asked.

The twin-tailed girl's gorilla was huge, and if it were here, he should have been able to find it.

"If that's the case, then I guess I know what's going on here."

Lin Tianhao looked around.

"Some dungeons, you can't just clear them by killing monsters all the way."

"Simply put, the dungeon has a hidden dungeon, which is a multiple dungeon, also called a multiple realm."

"The Aolong Village we entered at the beginning was the dungeon entrance, and the dungeon we are in now is the first realm dungeon, and inside this, there is a second realm dungeon."

At this point.

Lin Tianhao paused slightly, and continued:

"Just like the treasure she just mentioned, the space inside her treasure can actually be regarded as the second realm dungeon, of course, this is just a distance."

"A more accurate term is the second realm."

Lin Tianhao knew in his previous life that there was a guy whose city was captured, but he survived.

He used this multiple realm method.

He entered a dungeon, then opened a hidden dungeon inside the dungeon, and then used a treasure similar to his Mountains and Seas Scroll in the hidden dungeon to enter the treasure space.

And then...

It was a continuous nesting doll.

He nested it seven times in a row.

That is, within the seventh realm!

To be extremely cautious is to find a way to survive.

However.

This was also because those guys from the Arlette galaxy were not too serious in their search.

Otherwise, this approach would still be found out.

Because any space-based treasure will have its own unique fluctuations.

As long as you look carefully, you will definitely be able to find it.

"The method of entering the second realm, or even the third realm, is similar to storage rings, storage treasures, and the like."

"In other words, in this Aolong Village, there must be an entrance to the next realm."

The drunken monk subconsciously said:

"Could it be the ancient well."

Lin Tianhao frowned slightly, "It's hard to say, we have to try it to know."

"But don't worry, let's wait a few days."

"Although multiple realms are troublesome to find, they also have a fatal flaw, that is, the space carrying capacity."

"This is like building a house, the second realm space must be lighter than the first realm space."

"But."

"If we can consume the energy of the first realm space and make the first realm space lighter, then it may destroy the stability of the first realm space and the second realm space."

Twin-tailed girl: "....."

"Snow Emperor, I get a headache when I hear lectures, you this... I only understood one thing, that is, there is a space in this Aolong Village similar to my treasure."

"My big fool and the mastermind BOSS may be inside."

The drunken monk smiled and said:

"Yes, but not entirely right, maybe there is a storage ring in your treasure space, and they are all in the storage ring."

"But there is no storage ring in my treasure space," the twin-tailed girl said subconsciously.

Lin Tianhao's mouth twitched when he heard this.

This twin-tailed girl was very cute, but... this cuteness should be exchanged for intelligence.

Yes.

In fact, you can't tell when she doesn't speak.

"Okay, I just want to know, what should we do next?" the twin-tailed girl asked.

"Wait," Lin Tianhao smiled.

The twin-tailed girl rolled her eyes and said:

"Then when will this be over."

Lin Tianhao shook his head and smiled:

"I don't know."

At this point.

Lin Tianhao looked ahead and said:

"If you want to be faster, there is also a faster way."

"Isn't there an underground river below? Then let's fish."

As Lin Tianhao's voice fell.

Black Demon soared into the sky.

Immediately afterwards.

His body smashed into the ground like a shooting star.

"Boom——"

With a deafening noise, the ground was smashed into a huge pit.

In the huge pit, river water poured out.

This blow.

Directly smashed through the ground and reached the underground river.

"Weren't we speculating before whether this underground river might be the entrance? In this way, it's just right to see."

Seeing this scene.

The corners of everyone present couldn't help but twitch.

"Snow Emperor, are you usually so fierce when fighting dungeons?" Fist Emperor couldn't help but say.

Lin Tianhao spread his hands and smiled:

"In fact, except for a very few dungeons that may require you to use your wits, for the others, you can usually just brute force your way through."

While Lin Tianhao was speaking, the river water in the underground river was tumbling and pouring into the large pit they had just smashed out.

At this moment.

There were rustling black shadows in the underground river. These black shadows were at the bottom of the underground river, looking as if some black seaweed was being dragged past.

"It's bugs."

The Blind Swordsman did not use his eyes to look, he only relied on listening, and he had already judged the things at the bottom of the river.

Chapter 1159 - Kill monsters to level up? Equipment dropped!

The Blind Swordsman's ears were even more keen than the ambitious Daoist's eyes.

As the Blind Swordsman's voice faded, black beetles surged forward like an unfolding carpet, rapidly engulfing everyone.

"Bang, bang, bang—" One Molotov cocktail after another flew from the Fist Emperor's hands.

Having heard the Blind Swordsman say they were insects, the Fist Emperor and the others were already prepared for battle.

Against such a dense swarm of insects, Molotov cocktails were undoubtedly the most effective.

"These insects seem to be carrying something."

The twin-tailed girl looked serious; the insects still in the underground river were carrying a rectangular object on their backs.

"Coffins," the ambitious Daoist said in a deep voice, his hands forming a seal as lightning gathered in his palms.

"Palm Thunder!!" A bolt of lightning erupted from the ambitious Daoist's palm, striking the underground river.

River water conducts electricity, resulting in one black beetle after another being flipped onto its back, legs flailing.

No, these black beetles had far more than four legs.

Beneath their black carapaces was a dense ring of legs with barbs.

The flames from the Molotov cocktails were equally impressive; the fuel inside wasn't alcohol but a special material developed by the research institute.

It would ignite upon contact with air, burning for up to twelve hours.

Moreover, the flames produced could exceed six hundred degrees Celsius!!

The flames from the Molotov cocktails burned the black beetles, emitting a burnt odor.

However,

these black beetles were fearless, continuing their relentless charge.

Soon,

the area ignited by the Molotov cocktails was covered by a small mound of black beetle corpses.

Even more black beetles surged over the small mound.

Not only that,

but a large number of black beetles also emerged from other directions.

The coffin the ambitious Daoist mentioned finally surfaced.

It was a dark cyan metal coffin, resembling a bronze coffin.

However, if bronze was soaked in water for a long time, its color shouldn't be dark cyan.

However,

As if to confirm Lin Tianhao's words, the dark cyan metal coffin began to tremble slightly.

The Fist Emperor leaped up, landing on the coffin lid.

He stomped down hard, and the vibrating coffin instantly quieted.

"Molotov cocktails."

Lin Tianhao said softly, and then Black Demon soared up, prying open a gap in the coffin lid.

With Lin Tianhao's reminder, the Fist Emperor grabbed a Molotov cocktail in each hand and tossed them into the coffin.

"Aren't you guys a bit too brutal? Aren't you afraid the guy inside the coffin is alive?"

"Don't worry, it's not alive."

The Blind Swordsman said calmly.

"If it were alive, I would be able to sense it."

As the Molotov cocktails were thrown inside, a shrill, piercing roar echoed from the coffin.

The sound didn't sound human at all, more like some kind of beast, extremely grating.

"Bang, bang, bang—"

The thing inside the coffin frantically slammed against the lid, trying to escape.

However,

under Lin Tianhao's control, Black Demon leaped up, stomping hard on the coffin lid.

No matter what, the thing inside the coffin couldn't budge the lid even a fraction.

"Looks like the thing inside the coffin isn't as powerful as we thought."

The Fist Emperor smiled, raising his hand to throw two more Molotov cocktails inside.

Regardless of what the thing inside was, or how strong it was, it was best to kill it with the simplest method.

The thing inside the coffin struggled more and more violently.

Only,

in front of Black Demon, the thing's desire to break out of the coffin was nothing more than a fool's dream.

If it could still come out like this, then this would be a tough battle.

The thing inside the coffin struggled for a while, and then, perhaps killed, it stopped moving altogether.

"Steady, throw another Molotov cocktail in," Lin Tianhao said.

"Hehe, I think so too."

The Fist Emperor grinned, two more Molotov cocktails appearing in his hand, which he threw in without hesitation.

After throwing in those two Molotov cocktails, the thing inside the coffin started struggling again.

"Haha, still pretending to be dead."

The Fist Emperor laughed out loud, the frustration of being trapped here seemingly swept away.

Suddenly,

the thing inside the coffin stopped struggling again.

At the same time,

a warm current surged from Lin Tianhao's body.

"This is..."

Not only Lin Tianhao, but everyone present seemed to feel this warm current.

"I feel like my cultivation has increased a little, and even my mental strength has improved slightly."

The ambitious Daoist spoke first, a look of astonishment on his face.

"We've all improved; it's from killing the thing inside the coffin."

The Drunken Monk's gaze fell on the dark cyan metal coffin.

"No way, is this really a dungeon?" The Fist Emperor was also somewhat astonished.

He jumped down from the coffin lid.

"Open it and see what exactly is inside this coffin."

The thing inside this coffin shouldn't be strong.

It was burned to death with just a few Molotov cocktails, resolved too easily.

However,

it had genuinely improved them.

This was like...

killing monsters and leveling up!!

Lin Tianhao controlled Black Demon to push open the coffin lid.

The ambitious Daoist walked over first.

Lin Tianhao followed closely behind, and saw a charred mermaid corpse lying inside the coffin.

This mermaid was somewhat similar to the legendary mermaid, but in addition to the huge fish tail, this mermaid also had two longer thighs.

The arms numbered four, and perhaps due to being charred, the mermaid's face was abnormally hideous.

"If this is a dungeon, shouldn't it drop something after being killed?" the twin-tailed girl said curiously.

"Didn't it drop something?"

Lin Tianhao looked in the direction of the mermaid's head.

There, an orb of light was slowly rising.

"Hehe, interesting. I've been fighting monsters in Gods' Twilight for so long, and this is the first time I've fought a monster offline."

Saying that,

the Fist Emperor grabbed the orb of light.

The light dissipated, and a light blue pearl appeared in Lin Tianhao's sight.

"It's really equipment. I can see the attributes of this pearl when I hold it, it's amazing."

Lin Tianhao wasn't surprised.

After all, he had experienced the fusion of Gods' Twilight and reality in his previous life.

However,

this was the first time Lin Tianhao had encountered killing monsters and dropping equipment before the fusion.
