Chapter 121 - Break through Black Wind City!

“What conditions?”

Lin Tianhao subconsciously asked, not expecting King Abera to agree so readily.

If he did, he would suspect something was wrong.

“First, you cannot touch the Lord's Heart of Blackwind City.”

“Second, there must be no burning, killing, or looting after the city is taken.”

Lin Tianhao raised his eyebrows, these two conditions didn't seem impossible to agree to.

Although he needed the Lord's Heart, the Lord's Heart of Blackwind City belonged to a main city.

If he took it, King Abera might personally come after him to fight to the death.

He wasn't strong enough yet, and breaking ties with King Abera would be too risky.

Lin Tianhao's lips curled up, a faint smile appearing on his face.

“If I take nothing after conquering Blackwind City, wouldn't that be too fake?”

Even though Lin Tianhao was ready to agree, sometimes, a little negotiation could bring benefits.

“Snow Emperor, you are truly greedy, no wonder the princesses cannot fully trust you.”

Lin Tianhao spread his hands and said, "Those who know me know that I am very honest. If the princesses think I'm dishonest, it only means they don't understand me enough."

Luo Lin Muye scoffed, "I have investigated all the things you've done."

"Also, Village Chief Wang has come to the Starry Kingdom. We know what you did in the Beginner Village."

Lin Tianhao wasn't surprised. Village Chief Wang was already a wild monster, and would respawn after being killed.

And because Village Chief Wang was once the village chief of the Beginner Village, it was not surprising that he could leave the Beginner Village.

"From what you're saying, Village Chief Wang is different now?" Lin Tianhao asked.

Luo Lin Muye smiled, "When you see Village Chief Wang next time, you will naturally know."

"Still keeping me in suspense."

Lin Tianhao was a little bored, "Let's not change the subject. I'm not asking for anything excessive. I want an Equipment Evolution Scroll."

In fact, Lin Tianhao had considered wanting a life-steal equipment, preferably a percentage life-steal equipment similar to the Bloodlust Necklace.

But in the end, he abandoned this idea.

Because in Lin Tianhao's opinion, the Purification Jade Pendant had the highest priority.

"That's not possible."

Luo Lin Muye shook his head, "A Gold-grade equipment."

"Am I lacking that?"

Lin Tianhao retorted, "If I go to great lengths to conquer Blackwind City, and only get a Gold-grade equipment, wouldn't that be embarrassing?"

"This is the biggest concession I can make. If you still don't agree, then I'll have to spar with you."

Lin Tianhao raised his eyelids, a hint of playfulness in his eyes, "Sure, but I was thinking, if I kill you, the Starry Kingdom will be very lively."

"Kill me? Do you think you have the ability?" Luo Lin Muye sneered.

Lin Tianhao's lips curled up, a faint smile appearing on his face, "Want to try?"

Luo Lin Muye's eyes narrowed. He didn't know where Lin Tianhao got his confidence.

But thinking about how Lin Tianhao was able to kill the Son of the Demon King, Grellorin, and continuously reduce the health of Di Xuejian and King Abera, he was still hesitant.

Not only that.

Snow Emperor was also someone who had received the blessing of the Ice and Snow Goddess. If he fought with Snow Emperor, no matter the result, the Ice and Snow Goddess would inevitably cause him trouble after she descended.

"Alright, an Equipment Evolution Scroll it is."

“Happy cooperation.” Lin Tianhao smiled.

Luo Lin Muye stared at Lin Tianhao, “Snow Emperor, I hope you don't play any tricks.”

Lin Tianhao waved his hand, “I said before, I am an honest person, I won't do those things.”

Hearing this.

Luo Lin Muye snorted softly, obviously not believing what Lin Tianhao said.

After seeing Luo Lin Muye off, a smile finally appeared on Lin Tianhao's face.

Because the rewards he would receive next would be quite a lot.

First of all, there was Di Xuejian's Gods' Blessing pre-quest scroll, which, as it stood, was completely fine.

Second, there was the negotiation with Luo Lin Muye just now, which also had a Gods' Blessing, and an Equipment Evolution Scroll.

Third, there was the Black-robed Leader's quest, conquering Blackwind City.

The reward also included an Equipment Evolution Scroll and a Gods' Blessing.

As long as he completed these three quests, he would get three Gods' Blessings.

As for what to do next, first, he would naturally conquer Blackwind City and get the simplest reward.

Blackwind City!

City Lord Butte Yasi saw Lin Tianhao attacking Ice and Snow City.

The hanging heart was finally put down.

“It seems this trick is still very useful. Although we paid a lot, we saved the city and gave those people above a headache.”

The old man behind him smiled, “City Lord is wise.”

Just as he finished speaking, someone rushed in from outside in a hurry.

“It's bad, something bad has happened.”

Butte Yasi snorted, “Why are you panicking? What's so bad? Aren't I doing well right now?”

“City Lord, Snow Emperor is here, Snow Emperor is attacking the city again.”

Butte Yasi jumped up with a whoosh.

“What did you say? Snow Emperor is here again? I have no grievances with Snow Emperor. Why is Snow Emperor attacking my Blackwind City instead of fleecing other main cities?”

Butte Yasi felt bitter, but he couldn't do anything about it.

“Activate the city protection formation.”

Based on previous experience, Lin Tianhao couldn't do anything about their city protection formation.

Before, Snow Emperor stopped when Blackwind City activated the city protection formation, and the same was true for Ice and Snow City.

Therefore.

Butte Yasi firmly believed that as long as he activated the city protection formation, he would definitely make Snow Emperor helpless.

Not only did Butte Yasi think so, but many people thought so too.

At this stage.

Even with Lin Tianhao's output ability, it would take a lot of time to break through the main city's city protection formation by brute force.

However.

All formations have a formation eye.

As long as the formation eye is found and destroyed, the formation will naturally be destroyed.

And Lin Tianhao happened to know the location of the formation eye of Blackwind City's city protection formation.

So...

Less than a minute!

Another person rushed into the City Lord's Mansion in a hurry.

Butte Yasi glanced at him and said, "How is it? Did Snow Emperor leave?"

The person knelt down with a thud and said in a trembling voice, "City Lord, the city protection formation has been destroyed by Snow Emperor. He is now killing towards the City Lord's Mansion with irresistible force."

"And for some reason, most of the city guards in the city are gone, and the generals are collectively missing."

"What? ! !"

Butte Yasi exclaimed, "The generals are collectively missing? What do they want to do? Are they rebelling? !"

Chapter 122 - God-given equipment: List of Gods!

Buteya Ersi walked out of the City Lord's Mansion and saw Xue Di coming with a longbow in hand. Anyone who came out to stop him would be mercilessly killed by him.

Not only that.

The city guards and generals in Blackwind City seemed to have disappeared out of thin air; not a single one could be seen.

"Damn it, are you trying to kill me?!"

Buteya Ersi cursed and turned to run.

As the City Lord of the main city, he had some strength.

However, he didn't want to fight Lin Tianhao. After all, the fact that Lin Tianhao had killed the nine Silver Generals of the Wo family with his own strength was still there.

If he capsized in a gutter, he would have no place to cry.

Furthermore.

The sudden disappearance of the city guards and military generals meant that he didn't need to take the blame alone. When the time came, he could directly pass the problem to the Grand Marshal.

Therefore, he only needed to survive.

Seeing the fleeing Buteya Ersi, Lin Tianhao did not pursue him. All he had to do was to break through Blackwind City.

Outside Blackwind City.

Many players witnessed Lin Tianhao attacking Blackwind City with their own eyes, and their faces showed disbelief.

"Blackwind City has been captured by Xue Di!!"

"How did he do it? This is a main city!"

"I wonder if there will be stronger forces from the City Lord's Mansion of Blackwind City to fight against Xue Di. Most likely there will be. It can't be that Xue Di really occupies Blackwind City."

.....

The players outside were constantly discussing, but most people didn't think that Lin Tianhao could really take Blackwind City.

A main city, and one backed by the Starry Kingdom, was not so easy to take down.

"Global announcement, congratulations to player Xue Di for capturing Blackwind City. He is the first player in the entire server to capture a main city. He is specially rewarded with 1000 free attribute points and a divinely bestowed equipment + 1."

.....

When the global announcement sounded, all players, including Lin Tianhao, were shocked.

The players were shocked because most of them didn't expect that Lin Tianhao could really capture Blackwind City.

"Congratulations? I didn't hear wrong, did I? Xue Di has captured a main city. Shouldn't they send an army of 100,000 to encircle and suppress him? And give rewards?"

"I seem to have discovered a different way to play this game. Does this mean that if we attack the main city, we can also get rewards."

"I'm numb. Am I really playing the same game as Xue Di?"

.....

Lin Tianhao was also shocked because no player had ever captured a main city in his previous life.

Even if there were times when national wars broke out, they were basically collisions between autonomous forces within Twilight of the Gods.

For example, the national war of the Starry Kingdom in his previous life broke out with the Demon Cave. Although ordinary players also played a pivotal role in the national war.

But after all, they were not the main force, so they basically played support in siege warfare. There had never been a situation where someone swept a main city single-handedly.

But now, he also knew for the first time that after occupying a main city, there could be such huge rewards.

A thousand free attribute points was an astronomical figure.

Of course, if that was all, Lin Tianhao wouldn't care too much.

What really concerned him was the divinely bestowed equipment.

He had obtained a lot of good things so far, but he only had one divinely bestowed equipment, which was the Book of Life and Death.

This time, he could obtain the second divinely bestowed equipment!

Lin Tianhao immediately checked this divinely bestowed equipment.

Investiture of the Gods: Divinely bestowed equipment.

Just seeing the name, Lin Tianhao gasped.

This is...

He was about to take off on the spot.

Investiture of the Gods: Divinely bestowed equipment.

Requirements for wearing: Limited to Xue Di, cannot be dropped, cannot be stolen, given, transferred, or traded.

Effect: You can collect the souls of non-player units you kill into the Investiture of the Gods. After collection, the souls will restore to their full state and be absolutely loyal to you. (Up to 365 can be collected, and cannot be changed after collection. If the collected unit dies completely, the number of collected units will not increase.)

Wear resistance: Indestructible.

If he had obtained this Investiture of the Gods before killing the Ice Goddess, wouldn't that mean he could now have a god as a thug?

The Ice Goddess was not a god of incense, but a god who attained enlightenment, and her strength was stronger than that of a god of incense.

However, it was useless to think so much now.

Even if he didn't collect the soul of the Ice Goddess, it was not a problem for Lin Tianhao.

Because Lin Tianhao was confident that he could collect other gods in the future.

However, at this stage, he didn't seem to have anyone to collect.

Even Abraham, the king of the Starry Kingdom, was not qualified to enter the Investiture of the Gods in Lin Tianhao's opinion.

After putting away the Investiture of the Gods, Lorraine Muye appeared beside him.

"This is the equipment evolution scroll you want. Next, the king will lift the ban, and you can leave now."

"Just walk out like this?" Lin Tianhao asked.

"This is a teleportation talisman that can send you out of Blackwind City."

Lin Tianhao took the teleportation talisman, "To be honest, I don't trust you very much."

At this point.

Lin Tianhao smiled, "As long as the king's ban is lifted, I will leave immediately."

"Xue Di, the king also wants face."

Lorraine Muye's tone became heavier, "Don't be unreasonable, the teleportation talisman is the best choice."

Lin Tianhao raised his eyebrows. He thought of the rebel army in the Blackwind Mountains and grinned:

"How about this, give me another Lord's Heart, and I'll leave now."

Lorraine Muye was covered in black lines, "You are the greediest person I have ever met."

"It's not that I'm greedy, it's that you've met too few people."

Lin Tianhao didn't think he should be greedy. Shouldn't he ask for benefits? Obviously not.

"Here's the Lord's Heart, can you leave now?"

Lorraine Muye gave Lin Tianhao an ordinary Lord's Heart.

This was the worst Lord's Heart, but the rebel army in the Blackwind Mountains didn't specifically ask for the grade of the Lord's Heart at that time.

"Alright."

Lin Tianhao took the Lord's Heart and turned to leave.

Outside Blackwind City, many people were eager to try, obviously knowing that Blackwind City had been captured and they could enter the city to plunder.

But in the end, no one dared to act. The capture of Blackwind City did not mean that the Starry Kingdom had been captured.

If the Starry Kingdom settled accounts later, they couldn't bear it.

But just because the players didn't dare, didn't mean that others didn't dare.

The night walkers who had been lurking in Blackwind City took action directly after Lin Tianhao left Blackwind City.

In Blackwind City, a real war broke out.

The reason why Lin Tianhao had been unimpeded all the way was naturally with the approval of King Abraham.

But now that the night walkers had taken action, the situation was different.

Lin Tianhao didn't care about the battle in Blackwind City. All he cared about was the reward he should get.

He sped all the way.

Lin Tianhao headed towards the Blackwind Mountains.

Chapter 123 - If you are not kind, don't blame me for killing you!

Blackwind Mountains.

The place where the rebels are located.

Lin Tianhao descended here again, still in the beast-skin general attire from last time.

"I've brought what you wanted."

Lin Tianhao handed a Lord's Heart to the beast-skin strongman.

The beast-skin strongman's eyes lit up, because without a Lord's Heart, he could only hide in the Blackwind Mountains.

"Thank you, with the Lord's Heart, we can enter the Land of Chaos and establish our own territory."

Lin Tianhao raised his eyebrows, he naturally knew about the Land of Chaos.

That was a lawless, unclaimed land.

However, as the Land of Chaos, the danger factor there was not low, it was extremely chaotic, and filled with killing and violence every day.

The beast-skin strongman took out a badge from his bosom.

"Now that we are leaving the Star Kingdom, this badge is useless to us."

Lin Tianhao frowned, a regional badge?

If that was the case, he would be disappointed.

After all, the Star Kingdom was just a transitional place, and he would go to more vast places in the future.

The setting of Twilight of the Gods was Nine Revolutions, and in the Star Kingdom, you could only reach the Second Revolution Profession, which shows how weak the Star Kingdom is.

This place can only be used as a place for initial accumulation.

Adventurers' Guild President: Special.

Wearing requirements: None.

Effect: After wearing, you are the president of the Adventurers' Guild of the Star Kingdom. There are Adventurers' Guilds in the Star Kingdom, and you can operate it yourself after opening it.

Durability: 100.

Lin Tianhao was a little stunned, it was indeed a bit weak.

However... just for a moment.

Lin Tianhao thought of something interesting.

"This is a cornucopia!"

Why?

The Adventurers' Guild is a guild with extremely high credibility, and this credibility is not only limited to players, but also includes NPCs.

So...

He can completely transform the Adventurers' Guild into a bank!

The daily interest rate to the public can also be given at one-thousandth, using the special skill of high interest, he can quickly obtain gold coins.

Before this.

Lin Tianhao still needs to see the Black Robe Leader, he has completed the Black Robe Leader's task, so he naturally needs to ask for a reward.

Demon Cave.

The Black Robe Leader showed a faint smile on his face when he saw Lin Tianhao's arrival.

"I thought you would come back sooner or later, but I didn't expect you to come so quickly."

As he spoke, he handed a mission scroll and an equipment evolution scroll to Lin Tianhao.

Lin Tianhao took the things, but frowned.

Because this God-given blessing pre-task scroll actually had mission requirements.

"Nightwalkers should not live in the dark, the Black Robe Leader hopes that the Star Kingdom will have two regimes."

"Mission requirements: Help the Nightwalkers establish a regime in the Star Kingdom."

"Mission penalty: Unknown."

"Mission reward: Free attribute points + 100, God's blessing + 1."

Lin Tianhao's eyes narrowed, "You said before that breaking through Blackwind City was enough, this pre-task of yours is unreasonable!"

The Black Robe Leader spread his hands, "I don't think there's anything unreasonable, if you think it's unreasonable, you can return the mission scroll to me."

Lin Tianhao sneered, "Fortunately, you said to help the Nightwalkers establish a regime, otherwise I would have a headache."

"Oh? Why?" The Black Robe Leader asked with interest.

A cold light flashed in Lin Tianhao's eyes, "Helping the Nightwalkers is not helping you, so, your death will not affect me completing the mission!"

The Black Robe Leader laughed wildly when he heard this.

"Hahaha, Snow Emperor, you are really an interesting player, do you think you can break through Blackwind City and be able to fight against me?"

"Whether you can or not, wouldn't you know if you try?"

Lin Tianhao raised his hand, and feather arrows poured out instantly.

The Black Robe Leader immediately turned into black smoke and dissipated.

However, when the Black Robe Leader landed again, Lin Tianhao's feather arrows still accurately hit him.

"How is that possible?!"

The Black Robe Leader was taken aback.

Lin Tianhao remained unmoved and continued to attack.

Because he knew the Black Robe Leader's methods, unlimited displacement.

This unlimited displacement sounds very awesome, but in reality, it is not that powerful.

Because it will limit the position of movement, if people can figure it out, then his unlimited displacement will be useless.

Instead, his position can be predicted in advance based on his unlimited displacement.

The Black Robe Leader did not believe in evil, he turned into black smoke again.

But when he appeared, Lin Tianhao's feather arrows poured down on him again.

"How did you do it?"

The Black Robe Leader's expression was a little dignified, his unlimited black smoke displacement, not to mention the Snow Emperor, even the other two leaders of the Demon Cave were not very clear about it.

Lin Tianhao didn't like to talk during battles, so naturally he couldn't respond to the Black Robe Leader.

If there must be a response, it would be the feather arrows that Lin Tianhao poured out.

- 216990.

- 216991.

... ..

One after another damage numbers appeared, making the Black Robe Leader very annoyed.

"Snow Emperor, you really think of me as a pushover!"

The Black Robe Leader roared and killed Lin Tianhao without hesitation.

As soon as the words fell, the Black Robe Leader's body turned into an afterimage and rushed towards Lin Tianhao.

Freeze!

This is the passive effect of the Eye of Ice, attacks have a chance to freeze the opponent, and the next attack can deal high damage.

"Swish swish swish!"

Lin Tianhao's feather arrows kept piercing through the air.

The Black Robe Leader's freeze was lifted, and he roared and rushed up.

His palm with black air slapped towards Lin Tianhao's chest.

Lin Tianhao blocked it with the Ninefold Longbow.

Merely.

After this black air palm hit the Ninefold Longbow, the black air actually began to frantically corrode Lin Tianhao's longbow.

Durability - 1.

Durability - 1.

... ..

Lin Tianhao's Ninefold Longbow, as a golden-level weapon, would not easily decrease in durability.

But at this moment, Lin Tianhao's Ninefold Longbow seemed unable to block it and began to decrease frantically.

In just a few breaths, the durability of the Ninefold Longbow dropped to ninety.

Lin Tianhao immediately withdrew the Ninefold Longbow and retreated rapidly.

Compared to movement speed, this Black Robe Leader was not weaker than him at all.

Lin Tianhao's expression was a little dignified, he withdrew his weapon and forcibly resisted this palm of the Black Robe Leader.

- 111125.

"Ding, you are affected by black air and begin to lose health continuously..."

- 1500.

- 1500?

... ..

A huge damage number popped out from the top of Lin Tianhao's head.

Lin Tianhao raised his eyebrows, "I thought you were so fierce, but it turns out you're just so-so, only taking away one hundred thousand health points in one hit."

The Black Robe Leader almost vomited blood when he heard Lin Tianhao's words.

Is it bad to take away hundreds of thousands of health points in one hit?

How many adventurers at this stage can withstand my hit?!

"If one hit is not enough, then let's have a few more."

Chapter 124 - One Qi becomes Three Pure Ones!

The black-robed leader's hand turned into a blur, striking over ten thousand times in an instant, reducing Lin Tianhao's health bar by nearly a million in a single second.

Lin Tianhao raised an eyebrow, "You've got something, so I'll show you some skills too."

As soon as he finished speaking, the feathered arrows in Lin Tianhao's hand poured out.

In one second, Lin Tianhao's health bar recovered over 800,000 health points, almost full!

The Bloodthirsty Necklace's one percent maximum health steal, twenty times a second, could steal over 700,000 health.

Lin Tianhao's Nine Union Longbow's five percent damage steal could steal over 100,000 health per second, which was 800,000+ health recovery, which could definitely be described as terrifying.

The black-robed leader's pupils shrank, and he was shocked by Lin Tianhao's damage and health recovery ability.

High health, high damage, and outrageous health recovery.

He didn't know what Lin Tianhao's weaknesses were now.

If there had to be a weakness, it might be his dual resistance.

However, was this a problem?

Now it seemed that it was not a problem at all.

No one could threaten Lin Tianhao's life at all.

"Snow Emperor, I was just testing your strength just now. Don't misunderstand. I will change the mission now."

"You say it's a test, and it's a test? Do you think that I, the Snow Emperor, am really that easy to talk to?"

Lin Tianhao's voice was not loud, but it carried a strong sense of oppression.

"Snow Emperor, we should be friends, shouldn't we?"

"I used to treat you as a friend, but you don't do things very fairly."

"Isn't this just a joke?" The black-robed leader obviously didn't want to fight Lin Tianhao anymore.

However, Lin Tianhao was still unmoved, "Jokes come at a price. How about this? I won't make demands. Give me the dungeon key to the Demon Cave, and I won't pursue the matter further."

Hearing this.

The black-robed leader narrowed his eyes, staring at Lin Tianhao, "Snow Emperor, I am really curious, what is your identity? You know everything about my Infinite Black Smoke Displacement, and you also know that I have the key to the Demon Cave dungeon."

"Otherwise, I can only kill you and take the dungeon key to the Demon Cave myself."

The black-robed leader clenched his fists. At this moment, he wanted to fight Lin Tianhao again.

No other reason.

He felt that the demands Lin Tianhao made were just rogue-like.

He couldn't accept any of them!!

However.

Now he had to make a choice.

Continue to fight, or compromise!

The power of the Snow Emperor, if they really fell out, not to mention him, their entire Demon Cave would not be able to bear it.

Agreeing might even allow them to befriend the Snow Emperor.

If they didn't agree, the result would be very troublesome.

Even if he killed the Snow Emperor now, it would be useless. The Snow Emperor could make a comeback.

"Okay."

"I will give you the Demon Cave dungeon key. If you help our Nightwalkers establish a regime, what benefits do you want?"

"That depends on what benefits you can afford to give."

The black-robed leader raised his head and smiled, "I thought you knew everything about me. I didn't expect there were still things you didn't know."

"Stop talking nonsense. If you can't give me what I want, then there's nothing to talk about."

The black-robed leader raised his hand, and a withered flower appeared in his hand.

"Do you recognize this thing?"

Lin Tianhao frowned. This thing seemed a little familiar.

Then, he showed an unbelievable expression.

"Talent Evolution Flower?!"

"That's interesting, Snow Emperor. I am getting more and more curious about you. What kind of person are you? You actually recognize it."

Lin Tianhao didn't explain, "If it's this thing, then the deal is no problem."

"Okay."

The Talent Evolution Flower can evolve a person's talent.

Although it is difficult to evolve a large grade at once, it is not difficult to get a certain improvement if you just want to.

For example, Zhou Xiaopang's Bond Talent, if you use the Talent Evolution Flower, it may be possible to increase from binding 10 to binding eleven.

Besides that.

There is also a possibility that the inheritable attributes can be increased from the current three (health, armor, magic resistance) to four.

The monkey is also the same. It is possible to double the free attribute points from five times to six times, or even seven times.

Regardless of which direction it is, the Talent Evolution Flower is a very outrageous thing.

"I just don't know if this Talent Evolution Flower will be useful to my Super God-level talent."

According to Lin Tianhao's understanding, the higher the talent, the worse the effect of using the Talent Evolution Flower.

The specific value, this thing was not specifically counted in the previous life, because there were only more than twenty cases of people who had used the Talent Evolution Flower that were exposed.

Except for one who evolved from Mysterious to Earth in one breath, no one else had such a cross-grade improvement.

Most of them had their talent effects improved.

One of them was used by a God-level talent awakener, and his talent effect was only slightly improved.

"Ding, the black-robed leader has issued a mission to you."

"Mission requirement: Help the Nightwalkers establish a regime in the Star Kingdom."

"Mission penalty: Unknown."

"Mission reward: Talent Evolution Flower."

"Accept or not."

"Accept."

Lin Tianhao accepted the mission without hesitation, and then took out the mission scroll, "Shouldn't you change this for me?"

With a wave of the black-robed leader's hand, the mission on the mission scroll changed.

The original mission to help the Nightwalkers establish a regime was changed to giving the black-robed leader a copper coin.

Lin Tianhao threw a copper coin to the black-robed leader, and the mission on the Gods' Blessing pre-mission scroll was completed.

When he completed this mission, Lin Tianhao showed a smile on his face.

He finally got the blessing of the gods again.

"Use the blessing of the gods."

"Ding, you have obtained the blessing of Taishang Laojun..."

"Ding, you have obtained One Qi Transforming into Three Pure Ones..."

Lin Tianhao: ???

What kind of luck is he having?

Also, how could the blessing of the gods that a black-robed leader took out be the blessing of Taishang Laojun?

Could it be...

Thinking of the blessing of the Old Man Under the Moon he had obtained before, Lin Tianhao had a bold guess.

That is, their pre-mission scrolls for these gods' blessings were obtained from the Eastern Ancient Kingdom, so after the blessing, they are all Eastern gods.

And it has little to do with themselves.

Because in the later stages of the game, the key to the blessing of the gods is actually related to the person who takes out the mission scroll.

For example, the black-robed leader obviously has nothing to do with Taishang Laojun, so naturally he cannot get the blessing of Taishang Laojun.

Chapter 125 - Job change: Wood Archer!

However, all of that is unimportant now. Lin Tianhao immediately checked the effects of the One Qi Transformation into Three Pure Ones.

One Qi Transformation into Three Pure Ones: Cannot be upgraded.

Effect: You can conjure three clones. These three clones inherit all your attributes and characteristics, but cannot be used for combat. They can only be used for support. Taking damage or dealing damage will result in their death.

Cost: 1000 Mana.

Cooldown: One month.

Proficiency: Cannot be upgraded.

Lin Tianhao: ? ? ?

In that instant, he felt like he had been tricked.

Is that it?

One Qi Transformation into Three Pure Ones?

This can no longer be described as a downgraded version of One Qi Transformation into Three Pure Ones.

This is simply trash among trash!

When he obtained this One Qi Transformation into Three Pure Ones, Lin Tianhao had some fantasies.

But now, seeing these attributes, Lin Tianhao felt like he had been tricked.

Can this be considered One Qi Transformation into Three Pure Ones?

They can't participate in combat, and they die when they take damage. They can't even tank damage.

Then what's the use of these clones?

Lin Tianhao took a deep breath. Although he was a little angry, he had already thought of the use for these clones.

First, secondary professions.

The proficiency of secondary professions is very time-consuming, so few people are willing to waste time on secondary professions in the early stages of the game.

But in the later stages of the game, players will discover that the truly powerful weapons and equipment are never dropped by monsters, but are crafted by blacksmiths.

In addition to secondary professions, there are also various tasks that do not require combat, and they can all do them.

The clones inherit all his characteristics and attributes. In other words, the clones can trigger tasks, and he only needs to complete the combat part of the task.

However, these are not very good. The truly useful thing should be secondary professions.

With three clones, he can grind the proficiency of three different secondary professions.

Among them, the secondary professions that can most directly improve combat power are: Alchemist, Blacksmith, and Spirit Talisman Master.

"Although it's still a bit too far from the One Qi Transformation into Three Pure Ones I imagined, if I can take the lead by starting to grind proficiency in the early stages of the game, it may not be bad in the future."

Secondary professions are useless in the early stages of the game, similar to mages.

Their levels are low, the skill levels of their secondary professions are low, and the things they make are not as good as those dropped by monsters of the same stage.

But in the later stages of the game, secondary professions will be like mages, or even more popular than mages.

For now, that's all he can do.

He can't just leave the One Qi Transformation into Three Pure Ones skill vacant.

Before that, he needs to complete his first class advancement first.

Originally, he was planning to go to Blackwind City to change jobs, but King Abra issued a ban, which prevented him from entering the city.

Now that the ban has been lifted, Lin Tianhao can consider changing jobs.

The task of reviving the ancient Eastern kingdom is limited to the second class advancement. He can completely complete the first class advancement first and raise his level to 50.

Otherwise, every time he enters a high-level instance dungeon, he will be restricted and must bring someone with him.

Although, with his current fame, there are a lot of people willing to take him into the dungeon, Lin Tianhao is unwilling.

Sky Star City.

Class Advancement Hall.

It was already crowded with people.

Lin Tianhao squeezed here for several minutes before he saw the Archer's class instructor.

The Archer's class instructor, Alice Dodo, not a very pleasant name.

"Hello, Teacher Alice Dodo, I want to change classes."

Alice Dodo looked at Lin Tianhao, widened her eyes, and exclaimed: "You are Snow Emperor, do people like you also need to change classes to become ordinary professions?"

"Okay."

Lin Tianhao nodded.

"Ding, are you sure you want to change classes to become an Elemental Archer?"

"Change classes..."

"Please choose the elemental attribute you want to change to..."

Lin Tianhao did not hesitate and directly chose the Wood attribute.

The first class advancement of archers has five attribute choices: Metal, Wood, Water, Fire, and Earth.

Depending on the attribute, the professional title is different, and the professional passive effect is different.

The Metal attribute focuses on armor penetration, and attacks will be accompanied by a certain amount of penetration, which is useless to Lin Tianhao.

The Water attribute focuses on crowd control removal, and attacks can eliminate negative status effects, but at the level of the first class advancement, the negative status effects that can be eliminated are very low.

This is a bit of a chicken rib for Lin Tianhao, who has a Purification Jade Pendant.

The Earth attribute focuses on defense. The attacks of this type of archer can be converted into a weak proportion of shields to protect themselves.

The Fire attribute focuses on continuous damage, and attacks are accompanied by burning, which can cause the target unit to have a slight continuous loss of health.

The Wood attribute focuses on lifesteal, and attacks can be accompanied by a certain lifesteal effect.

The improvement of the first class advancement to players is not as great as imagined, especially for ordinary professions. There is only a slight improvement, with three more professional skills.

As for the bonus after the class advancement, it is so-so.

Among the five elements, the ones that are useful to Lin Tianhao should be Earth and Wood.

But compared to shields, Lin Tianhao still feels that lifesteal is more practical.

"Ding, congratulations, you have changed classes to become a Wood Archer. You can spend gold coins to learn skills from your instructor."

Lin Tianhao walked away without looking back. Learn skills?

Forget it!

The skills he has now, except for the beginner's Rapid Shot skill, any one of them can easily beat the best skills on Alice Dodo.

It's not that Lin Tianhao looks down on Alice Dodo, but she is really bad.

After completing the class advancement, Lin Tianhao checked the characteristics of the Wood Archer.

"All your damage-type attacks can lifesteal by one percent!"

This is interesting.

The Book of Life and Death is also considered a damage-type attack, and Lightning Leap is also considered a damage-type attack.

Before.

Whether it was the Bloodthirsty Necklace or the Ninefold Longbow's lifesteal, they did not calculate the damage of the Book of Life and Death and Lightning Leap in the lifesteal.

But this profession includes all damage-type methods, which is quite good.

As long as his Book of Life and Death keeps locking on the head, he can recover more than 400 health points per second.

Of course.

This little bit of health recovery is somewhat insignificant.

It can only be said that after changing classes to a Wood Archer, his strength has been slightly improved.

The most useful thing is that he can level up after changing classes. His level does not have to be stuck at level twenty.

After completing the class advancement, Lin Tianhao was not in a hurry to add mana with attribute points. Instead, he equipped a piece of equipment that added mana. After releasing the One Qi Transformation into Three Pure Ones skill, he changed back to his equipment.

Lin Tianhao gave them orders and let them go to change classes to secondary professions on their own.

As for the next thing, he doesn't need to worry about it. Let these three clones grind the proficiency of secondary professions themselves.

Finding an unmanned alley, Lin Tianhao took out the equipment evolution scroll.

He now has two equipment evolution scrolls.

"Use the equipment evolution scroll to evolve the Purification Jade Pendant!"

"Ding, congratulations, your Purification Jade Pendant has successfully evolved!"

Chapter 126 - Money bank business!

Lin Tianhao immediately checked the attributes of the Purification Jade Pendant.

At this time, the crowd control immunity of the Purification Jade Pendant had increased from 85% to 88%.

The increase wasn't as much as last time, but this was within Lin Tianhao's expectations.

Subsequently.

Lin Tianhao used the second Equipment Evolution Scroll.

This time.

The crowd control immunity of the Purification Jade Pendant increased from 88% to 90%.

The increase declined again, but Lin Tianhao didn't care.

A 90% crowd control immunity was already extremely overpowered.

Moreover.

Lin Tianhao was confident that he could obtain more Equipment Evolution Scrolls in the future, so even if he couldn't increase the Purification Jade Pendant's crowd control immunity to 100%, at least 95% was definitely achievable.

Withdrawing his thoughts.

Lin Tianhao began to prepare his next plan.

Take control of the Adventurers Guild, then establish a bank.

Acting on his thoughts.

Lin Tianhao immediately headed to the Adventurers Guild in Sky Star City.

Adventurers Guild.

Very lively.

Many players were coming and going.

Because the Adventurers Guild had a large number of regular quests, specifically repeatable material collection quests.

To level up quickly, accepting some quests with relatively high experience rewards here was very useful.

After Lin Tianhao entered, he directly said to the staff member responsible for issuing quests: "I want to see your supervisor."

The staff member was a blonde-haired, blue-eyed girl. The girl looked at Lin Tianhao and shook her head, saying:

"Not just anyone can see our supervisor."

While saying this, she had a bit of arrogance, "Only by becoming a Seven-Star Adventurer will you be qualified to see our supervisor."

When adventurers complete guild quests, in addition to receiving experience points and some specific rewards, they can also receive some relatively special rewards.

For example...

Adventurers Guild points.

The higher the points, the higher the level in the Adventurers Guild, and they can also obtain Adventurer Badges issued by the Adventurers Guild, which can provide certain stat bonuses.

The higher the level of the Adventurer Badge, the higher the stat bonuses.

"This game has only been out for a few days, how could any player be Seven-Star already."

"This person probably wants to accept high-level quests, but judging from his appearance, he hasn't even registered as an adventurer, it's simply wishful thinking."

"Instead of wasting time watching a joke, why not grind more monsters? Is anyone teaming up to hunt level 25 Azure-Eyed Snakes?"

...

Lin Tianhao's actions attracted ridicule from many people.

But Lin Tianhao didn't care. There were always people who liked to show off their superiority in front of him. If he had to care about all of that, wouldn't he be very tired?

Lin Tianhao took out the Adventurers Guild Master Badge and asked, "Do you recognize this thing?"

Seeing the badge in this person's hand, someone next to him exclaimed excitedly: "Damn, this is a Two-Star Badge. Bro, you're already a Two-Star Adventurer."

This adventurer nodded with a bit of arrogance, "Keep a low profile, keep a low profile. With my strength, ranking up is as easy as eating and drinking."

Lin Tianhao didn't say anything more. However, when the blonde woman saw the badge in Lin Tianhao's hand, her small mouth opened slightly, and a look of disbelief appeared on her face.

After a full few seconds, she reacted.

"Please wait a moment, I will notify Lord Zama Lei immediately."

As soon as she finished speaking.

The blonde woman ran inside in a puff of smoke.

After a while, a tall woman with distinct facial features walked out.

Her gaze lingered on Lin Tianhao, then fell on the badge in Lin Tianhao's hand.

"Lord, you... you're finally back."

Zama Lei respectfully bowed ninety degrees to Lin Tianhao.

This scene caused expressions of disbelief to appear on the faces of everyone present.

"This... how is this possible? What exactly is that badge in his hand that can make the supervisor of the Adventurers Guild treat him like that?"

"Turns out the clown was us. This is a real big shot."

...

Lin Tianhao didn't care about the discussions of these people around him, but instead walked directly towards the interior of the Adventurers Guild.

Zama Lei respectfully followed behind Lin Tianhao.

"Guild Master, we've waited so long. You're finally back."

Lin Tianhao waved his hand, "What's the situation with the Adventurers Guild now?"

"It's still the same as before, earning some middleman's profit by issuing quests."

Lin Tianhao nodded. He already knew this.

Many of the quests issued by the Adventurers Guild are actually quests that already have a demand, but they are issued through the Adventurers Guild, so the Adventurers Guild earns the difference.

This is similar to an auction house. Most of the items inside are actually brought by others for auction. The auction house only makes money by charging handling fees.

Not only that.

The Adventurers Guild itself has an experience system that can give relatively generous experience rewards.

"I'm here this time because I have a way to make money," Lin Tianhao said.

Zama Lei subconsciously asked, "What way to make money?"

"It's very simple, a savings business."

"Let the adventurers deposit their coins with us, and we'll give them interest."

Zama Lei was a little surprised, "This kind of money-making model exists in the Starry Kingdom. It's not good for our Adventurers Guild to interfere."

"Besides that, our Adventurers Guild's current savings system is not mature, and we can't give generous interest rates. We simply can't attract people."

Lin Tianhao was very calm. He naturally knew that the Starry Kingdom had institutions similar to banks.

But he had the passive skill of high interest rates, and the interest rates he could give were simply incomparable to other banks.

"What is the current savings interest rate offered by those money houses?"

"Generally, it's 1% to 3% per annum, and a few can reach 5%."

Lin Tianhao nodded, and a faint smile appeared on his face.

"What if I could give an annual interest rate of 30%?"

"What?"

Zama Lei had a look of disbelief on her face. She couldn't believe her ears at all.

This was simply too incredible.

"Guild Master, doing this will cause our Adventurers Guild to lose a lot."

Lin Tianhao shook his head, "No, we won't lose."

Lin Tianhao directly displayed his passive skill of high interest rates.

"Not only will we not lose, but we can also make a lot of money."

"This..."

Zama Lei widened her eyes. She even dared not believe what her eyes saw.

This was really too incredible.

"Okay, Guild Master, I'll arrange it now. All Adventurers Guilds in the Starry Kingdom will open savings businesses."

"Yes, go and arrange it. This matter should be done as soon as possible. Don't worry about other money houses putting pressure on us. If other money houses want to cause trouble, I will handle it,"

Chapter 127 - Zhurong's blessing: meteor of fire from the sky!

Zama Lei hesitated slightly, but still said: "The money house is now mainly managed by people from the lineage of the First Princess, Tixuejian..."

Lin Tianhao waved his hand dismissively, "It's okay, if Tixuejian has a problem, then let her come find me."

Zama Lei was shocked.

It was the first time she had encountered such a tough president.

In the past, most presidents of the Adventurers' Guild would try their best to have good relations with the people of the kingdom.

But Lin Tianhao was directly confronting Princess Tixuejian as soon as he arrived, how could she not be shocked?

"Go ahead and do it."

Lin Tianhao directly revealed his nickname.

"Snow... Snow Emperor!!"

Zama Lei was shocked again, she now understood why Lin Tianhao had such confidence.

First, he killed the nine Silver Generals of the Wo family, and then he occupied Blackwind City.

This is definitely a ruthless person among ruthless people.

Now, he even made King Abra compromise and revoke the ban.

Any of these things, if released, would be quite sensational.

"Guild Leader, I will operate with all my strength, and the money house system can be completed within seven days."

"Three days."

Lin Tianhao said decisively: "Since we are going to grab business, then do it as soon as possible. Moreover, I don't need a complete money house system, I only need two businesses: depositing and withdrawing money."

"If that's the case, it can be done in one day."

"Then one day."

Lin Tianhao said, "As for other businesses, we can consider them later, you arrange it as soon as possible."

"Okay."

Zama Lei nodded respectfully.

After arranging the affairs of the money house, Lin Tianhao turned and left the Adventurers' Guild.

Next, he could wait patiently.

He only needed to wait a few days for Tixuejian's task to be completed, and King Abra's task could also be completed.

Now he is not strong enough to confront the Star辰 Kingdom, but if he is given time, he will definitely be able to do it.

Especially after the money house system is established, money can really make the devil push the mill.

After leaving the city.

Lin Tianhao started leveling up.

He wanted to raise his level to level fifty as soon as possible, so that he could enter dungeons within level fifty.

With Lin Tianhao's current attributes, leveling up by killing monsters is like riding a rocket.

The only thing that affects his leveling speed is the refresh speed of wild monsters.

However, even so, Lin Tianhao raised his level to level fifty in just five hours.

Open the level leaderboard.

Lin Tianhao was going to see the current leaderboard situation.

Level Leaderboard:

First: Snow Emperor, Level 50 100%.

Second: Invincible Fatty, Level 35 92%.

Third: Jian Wushuang, Level 31 11%.

Fourth: One Night One Time, Level 29 65%.

Fifth: Idol Who Loves Killing Pigs, Level 28 93%.

... ..

The level leaderboard at this time is not very tight. Apart from Lin Tianhao and Zhou Xiaopang, the highest is Jian Wushuang.

Lin Tianhao had some regrets about Jian Wushuang.

One person, one sword, guarding a city, protecting tens of millions of people!

Lin Tianhao was once a little fan of Jian Wushuang. How could people not be fascinated by the demeanor of wielding a sword and slaying gods?

What's more, behind Jian Wushuang's very masculine name is a heroic and beautiful woman.

The reason for the regret is because Jian Wushuang's ending was not good.

She guarded a city with one person and one sword. The city was not broken, but later she was stabbed in the back by her own people and fell... ..

Speaking of which, how similar are he and her, also stabbed to death by their own people.

As for the fourth and fifth, Lin Tianhao was not familiar with them. There are not a few people like Zhu Mengyanxue who temporarily took off with a little luck.

Zhu Mengyanxue relies on the Golden Scepter, which is very powerful within level 20, but now that the average level has begun to exceed level 20, her Golden Scepter is a bit insufficient.

Open the equipment leaderboard.

Lin Tianhao was going to see the current equipment situation.

First: Investiture of the Gods.

Second: Book of Life and Death.

Third: Purifying Jade Pendant.

Fourth: Hibiscus Treasure Lantern.

Fifth: Mysterious Gourd.

... ..

Lin Tianhao was a little surprised, not because four of the top five were his, but because the Mysterious Gourd was on the list.

The Mysterious Gourd seems to be somewhat useful, but at least Lin Tianhao doesn't think the Mysterious Gourd is very awesome at this stage.

As for this Hibiscus Treasure Lantern, Lin Tianhao is also not very clear.

After all, this is something on the equipment list in the early stage of the game. Whether it is really awesome or not is unknown.

At least in the later stages of the game, there is no Hibiscus Treasure Lantern on the level leaderboard.

Take back his thoughts.

Lin Tianhao came to Blackwater Lake again.

He was going to brush up on attributes through dungeons.

Level 50 is the critical point for the second turn. Lin Tianhao has not changed jobs, so he cannot continue to upgrade.

However, Lin Tianhao can still continue to stack health points.

As the damage continues to increase, the health points that Lin Tianhao can stack by clearing dungeons are getting less and less.

But there is an improvement, which is always a good thing.

A day passed in a flash.

Lin Tianhao's health increased by 1.5 million+ this day, and the total health exceeded 5 million.

This health is only higher than the wild bosses of the same level, not lower.

The second day.

Lin Tianhao still brushed health points, but because the damage increased, his health only increased by 900,000+ this second day, a sharp drop of 600,000 from the previous day.

The third day.

Lin Tianhao's health increased by 500,000, and the health stacked again decreased.

His total health has successfully broken through 6.4 million.

Now Lin Tianhao's normal attack damage has exceeded 380,000+!

More than 300,000 true damage with one normal attack.

Not to mention other players, even if Zhou Xiaopang stands over, it can be done in one second.

Three days passed.

"Ding, congratulations on completing the pre-task scroll of Princess Tixuejian."

"You have obtained free attribute points +100, Blessing of the Gods +1."

Finally.

Lin Tianhao once again obtained the Blessing of the Gods.

"Use the Blessing of the Gods."

"Ding, the Fire God Zhurong is blessing you..."

"You have obtained Heavenly Fire Meteor."

Heavenly Fire Meteor (Passive): 1 star.

Effect: Your attack has a 1% chance to trigger Heavenly Fire Meteor. A thousand Heavenly Fire Meteors fall from the sky. Within a radius of 100 meters, each Heavenly Fire Meteor is equivalent to your normal attack damage.

Consumption: None.

Cooldown: None.

Proficiency: 0 / 100 (Triggering once is one point of proficiency).

Lin Tianhao: ? ? ?

This is a bit outrageous.

One star is so outrageous, if it is triggered once, wouldn't all the wild monsters within a radius of 100 meters be cleared?

This, it doesn't seem to be a good thing.

If a bunch of wild monsters are cleared once triggered, how can he stack health points?

Chapter 128 - The two princesses have arrived!

Not only that.

Lin Tianhao's Death Reincarnation had leveled up again.

It had reached three stars.

The trigger probability of Death Reincarnation increased from one percent to one and a half percent.

Fortunately, Lin Tianhao's luck attribute was very low, making it less likely to trigger such probability-based events.

However, as the probability increased, the number of triggers would inevitably increase.

Lin Tianhao was even wondering if it was possible to obtain a special item, such as... the Book of Light and Darkness.

The Book of Light and Darkness, a special equipment that was considered quite useless.

Because its only function was to disable passive skills.

Normally speaking.

Players cannot disable passive skills themselves.

Of course, not many players would think about disabling passive skills.

Whether it was Heavenly Fire Meteor or Death Reincarnation, both were somewhat detrimental to him stacking attributes.

But passive skills, under normal circumstances, cannot be turned off voluntarily.

However, there are no absolutes. Lin Tianhao knew of a special equipment called the Book of Light and Darkness, which could voluntarily turn passive skills on and off.

This way, he could turn off passive skills when stacking health, and turn them on during actual combat.

Regaining his thoughts.

Lin Tianhao entered the dungeon again.

This time, the dungeon made Lin Tianhao feel a bit of a headache.

When he triggered Death Reincarnation, killing monsters instantly, it didn't affect his health stacking.

After all, even if he didn't trigger Death Reincarnation, he could still kill the monsters in the dungeon instantly.

But now with the Heavenly Fire Meteor passive, every time he triggered it, a bunch of monsters would be killed instantly.

Although the probability was still very low, it seriously hindered Lin Tianhao's health stacking.

Another day passed.

He only stacked 250,000 health.

Apart from the increase in damage making it easier to clear the Blackwater Lake Dragon Turtle dungeon.

There were also some problems inherent in the dungeon itself.

“It seems that the Book of Light and Darkness is an urgent matter.”

Lin Tianhao's expression became serious. Although stacking over 200,000 health a day seemed like a lot.

Lin Tianhao was not satisfied.

He wanted more.

The Book of Light and Darkness was something he had to obtain.

The person who came was none other than Leona.

Leona looked at Lin Tianhao meaningfully, "Snow Emperor, does our previous agreement still stand?"

Lin Tianhao smiled noncommittally, "Instead of asking that, you might as well just get to the point."

"My father can't hold back any longer. He's going to attack us. I may have to go back to the Beginner Village for a while."

"However, the current Beginner Village is no longer what it used to be. If I want to go back, I might still need your help."

Lin Tianhao raised his eyebrows and said, "I'm sorry, but I probably can't help you with that."

He had promised King Abelardo not to interfere in the internal affairs of the Star Kingdom for seven days.

It had only been four days, and there were still three days left.

"We can negotiate the benefits."

Leona was already very familiar with Lin Tianhao. As long as the benefits were in place, everything was negotiable.

"Let's talk in three days. I can't right now."

Hearing this.

Leona frowned. She couldn't wait that long.

"No."

Leona frowned, "Father won't give us that much time."

"But I really can't help you right now. At this time, perhaps only Queen Fiodina can help you."

"The Queen?"

Leona's expression was not good. Her mother's death was related to Queen Fiodina. If possible, she definitely didn't want to have any interaction with Queen Fiodina.

"Snow Emperor, you're thinking too simply. In the battle for the throne, even if she is the Queen, don't even think about interfering, especially since Father doesn't want to hand over the throne at all."

"Since your father is unwilling to hand over the throne, then you can just wait. There's no need to start a war now, right?"

Leona sighed, "No, we can't wait. If we miss this opportunity, we'll have to wait another sixty years. This is the rule of our Star Kingdom."

Lin Tianhao spread his hands, "These are all your matters. What does it have to do with me?"

"Besides, if you go to the Beginner Village now, wouldn't you still have to wait sixty years?"

Leona's eyes were sharp, "No, I'm just one step away from taking it a step further, and finally defeating Father and becoming the new king."

"I want to lead the Star Kingdom to ascend. My intuition tells me that our time is running out. A great calamity is waiting for us."

Lin Tianhao raised his eyebrows. Logically speaking, a being at Princess Leona's level shouldn't know about the Great Cataclysm five years later.

Since she didn't know, what did what she was saying now mean?

Could it be that she had already foreseen the imminent revival of the Eastern Ancient Kingdom?

After all, if the Eastern Ancient Kingdom revived, the Star Kingdom would be the first to bear the brunt.

This was also why Lin Tianhao had been frantically stacking health these past few days. He needed to become as strong as possible in these few days.

"Snow Emperor, can't you really take action?" Leona asked uncertainly.

Lin Tianhao nodded and said, "I really can't take action, but I know how to break the situation."

"Oh?"

"How to break the situation?"

Lin Tianhao grinned, "Give me the pre-quest scroll for your Divine Blessing."

Hearing this.

Leona refused without even thinking, "That won't do."

"Tell me about it first."

Lin Tianhao took a step and directly entered the dungeon.

Since Leona was unwilling, he didn't need to waste time here with Princess Leona.

After a while.

Lin Tianhao came out of the dungeon.

Leona had not left. She was still waiting here.

What surprised Lin Tianhao was that Ti Xuejian had also come here.

“Two princesses of the Star Kingdom coming to find me at the same time is truly an honor.”

Lin Tianhao smiled indifferently, and then unhesitatingly entered the dungeon again.

Ti Xuejian clenched her fists, obviously displeased with Lin Tianhao's attitude.

“Snow Emperor is too dismissive of us.”

Leona sighed, “Given our current situation, he has the confidence to not take us seriously.”

After a while.

Lin Tianhao came out of the dungeon again.

Leona immediately said, “Snow Emperor, let's talk?”

“You're unwilling, so what's there to talk about?”

“Of course.”

Princess Leona nodded, "Things can be discussed, right? You don't have to take action, as long as you can give us a way to overthrow my father that we can do, I'll give you the scroll."

With that, Leona threw the pre-quest scroll for Divine Blessing to Lin Tianhao.

Lin Tianhao glanced at it. Sure enough, the quest on it was similar to what Leona had just said.

Chapter 129 - Earn 15 million with tears and blood!

Lin Tianhao grinned, "Now the Starry Kingdom is beset by internal and external troubles. King Abel is playing with fire trying to get rid of you."

"But the current situation is very unfavorable to us," Tissot said.

Lin Tianhao shook his head and smiled, "You're wrong. The current situation is very unfavorable to your father, Abel."

"Tell me more," Leona asked.

"My attacks on Blackwind City and Snowwind City didn't encounter effective defense, and I even offered high rewards. These shouldn't be your behind-the-scenes manipulations."

"The only ones capable of manipulating this are Prime Minister Kesselro and Grand Marshal Lorraine Muyuan. Of course, your father, Abel, could also do it, but it's clearly not your father, Abel."

Hearing this,

Tissot immediately reacted.

"Are you saying that Prime Minister Kesselro and Grand Marshal Lorraine Muyuan are outwardly at odds, but actually deceiving us, secretly cooperating, and plotting something?"

Lin Tianhao nodded, "That's right."

"Besides, the king wants to get rid of you three princesses. In terms of internal affairs, he's making enemies on all sides."

Tissot and Leona's eyes lit up. The kingdom was in such a dire situation.

Fighting against the three princesses might be manageable for King Abel, but if you add the kingdom's two most important ministers, it's a completely different story.

"Besides, the Demon Cave just attacked Blackwind City. If the Starry Kingdom is in turmoil, will the Demon Cave strike again?"

Hearing this,

Tissot shook her head.

"Internal strife is acceptable, but attracting foreign enemies would be inappropriate."

Lin Tianhao's lips curled up, "This is a choice you have no choice but to make. In Abel's hands, the Starry Kingdom will be defeated by the Demon Cave sooner or later. Even if the Demon Cave can't defeat it, the strong of the Nether Race are still watching covetously."

"At this time, you can use the power of the Demon Cave to fight against Abel, and when one of you ascends to the throne, you can completely wipe out the Nightwalkers of the Demon Cave."

Hearing Lin Tianhao's words, Leona and Tissot both fell into thought.

Every sentence Lin Tianhao said made sense.

King Abel has been in control of the Starry Kingdom for so many years, and it can be said that he has been mediocre.

The national strength of the Starry Kingdom has not only not improved, but has also declined.

This is a very terrible thing.

"We roughly know what to do, but even so, it's not enough to bring down our father."

Lin Tianhao grinned, "The most crucial link is Queen Fiona."

"The Queen?"

Leona's expression changed.

"She wholeheartedly wants to support Qing Fuyun to take the throne, but she also knows very well that Qing Fuyun doesn't have the strength to take the throne."

"You only need to talk to Queen Fiona properly and let her sacrifice herself to seriously injure King Abel."

"And you can promise that no matter which of you becomes the king, you can guarantee Qing Fuyun a lifetime of wealth."

Lin Tianhao's tone was calm, but it made Leona and Tissot silent.

Because they both felt that in the current situation, if they went to Queen Fiona, there was a high probability that Queen Fiona would sacrifice herself to seriously injure King Abel.

After all, King Abel now has murderous intentions towards all three princesses.

"Okay, Snow Emperor, I hope what you said can succeed," Tissot said.

Lin Tianhao spread out his hands, "That depends on how you manage the relationships in between."

Lin Tianhao took out the mission scroll. The mission on the scroll did not show completion.

As early as three days ago, the Adventurers Guild had implemented deposit and withdrawal services.

An annualized interest rate of 30%+, which is higher than those investment returns.

Such a rate of return is simply outrageous.

In addition to the credibility of the Adventurers Guild, more than one billion gold coins have been deposited in just three days.

With a 1% rate of return, Lin Tianhao can earn 16.5 million gold coins a day, and he only needs to pay out more than one million in interest.

Crying with tears, he earns 15 million gold coins a day!!

Most importantly, this is only three days.

Currently, Tissot is vying for the throne, so she naturally doesn't have the mood to manage the banking business of the Adventurers Guild.

Which is more important, making money or the throne? The answer is obvious.

If the throne is in hand, is making money still difficult?

And letting Tissot and Leona unite with the Demon Cave also has selfish motives.

After all, he accepted the Dark Leader's mission. If Tissot and Leona want to unite with the Demon Cave, the Demon Cave will inevitably profit.

In this way,

it will be easier for him to help the Nightwalkers establish a regime.

Moreover.

He must help them, otherwise if the three princesses are resolved, the situation in the Starry Kingdom will inevitably stabilize, which is not conducive to his help in establishing a regime for the Nightwalkers.

After handling the next things,

Lin Tianhao went offline at Kuangzhan Ling.

Kuangzhan Daofeng still gives him face, basically he agrees to everything Lin Tianhao says.

And he didn't mention anything about trying to win over Lin Tianhao.

After going offline, Lin Tianhao checked the nutrient solution situation of the nutritional game pod and found that it had just been replenished not long ago.

Not only that, but a new game pod has been prepared next to his nutritional game pod.

Zhou Xiaopang has gone offline and is sitting on the balcony smoking.

He saw Lin Tianhao go offline and smiled: "Brother Hao, are you offline? This is the game pod prepared for Qingqing, the same model as ours."

"Calculating the time, it's almost time. I guess you're going offline to pick up Qingqing."

Lin Tianhao walked to the balcony and patted Zhou Xiaopang's shoulder, "Fatty, it's rare for you to be so thoughtful."

Zhou Xiaopang took a deep breath. He didn't hand Lin Tianhao a cigarette because he knew Lin Tianhao didn't smoke.

"Brother Hao, Glasses lost contact in the game. I've been going offline to look for him these past two days."

Lin Tianhao was stunned for a moment. Zhou Xiaopang had said before that Glasses had entered a special secret realm and couldn't get out.

At that time, Lin Tianhao didn't pay much attention.

"What's going on?"

"I don't know. The game shows that he's in a special state. He can't return to the city, he can't send messages to us in the game, and friends can't send messages to each other. It's too outrageous."

Lin Tianhao frowned, "Did he say how he got in?"

"He said that he met a very strange beauty. The beauty said that his bones were amazing and his wisdom was extraordinary, so she gave him a Faqiu Seal and asked him to go to Blackwind Mountain Range to find the tomb of the Yellow Emperor."

Lin Tianhao was stunned for a moment, Faqiu Seal?

The Faqiu Seal of the Faqiu Heavenly Official?!

Glasses didn't have this opportunity in his previous life. What did I trigger that allowed Glasses to accidentally obtain the Faqiu Seal?

Faqiu Heavenly Official, with no taboos!

Lin Tianhao still knew this. He didn't know about the Faqiu Heavenly Official in the previous life game, but he did know about the Hidden Vice Profession of Mojin Captain.

Chapter 130 - The former residence of Hanba!

It is said that the vice profession of Grave Robbing Captain can really rob tombs in the Twilight of the Gods.

Don't underestimate them.

In the previous life, the first artifact among the players of Twilight of the Gods was brought out from an ancient tomb by a Grave Robbing Captain.

Not only that.

Grave Robbing Captains also brought out all kinds of strange things from the ancient tombs, each of which was extremely precious.

So Lin Tianhao was a little surprised when he heard that Glasses had obtained the Treasure Hunting Seal.

After all, there is a saying among the people that if the Treasure Hunter doesn't come out, the Grave Robber is king.

From this, it can be seen that the level of the Treasure Hunting Official is still above the Grave Robbing Captain.

Bringing back his thoughts, Lin Tianhao said: "Let's pick up Qingqing first. As for Glasses' matter, I'll call him later. He probably entered an ancient tomb."

"Okay."

Lin Tianhao and Zhou Xiaopang went to the hospital together.

After completing the discharge procedures and settling the expenses, Lin Tianhao and Zhou Xiaopang took Lin Qingqing home.

After helping Lin Qingqing enter the game pod, next, it depends on Lin Qingqing's own fortune.

Standing in front of the game pod, Lin Tianhao said: "Qingqing, add me as a friend after entering the game. My game ID is Snow Emperor, remember to add a note."

Lin Tianhao didn't know if Lin Qingqing could hear him, so he could only say that.

After dealing with Lin Qingqing's affairs, Lin Tianhao took out his mobile phone and called Glasses.

After a while, Glasses answered the phone.

"Brother Hao, what's the matter?"

Lin Tianhao asked straight to the point: "Glasses, what's your situation now?"

"I seem to be trapped in an ancient tomb. There are all kinds of mechanisms inside. I'm checking the information. I found that the mechanisms in this ancient tomb are very similar to some of the mechanisms recorded in our ancient times. I should be able to get out soon."

"Okay."

Glasses hesitated for a moment before saying: "Brother Hao, I got a silver treasure chest here, but I can't open it."

Treasure chest?

Lin Tianhao was a little surprised, "It's okay, bring it out when the time comes. Only thieves can open treasure chests."

"Oh, okay, Brother Hao, you play yours, I'll check the information first, and we'll talk about it when I get out."

Hanging up the phone.

Lin Tianhao re-entered the game.

As soon as he came in.

Lin Tianhao saw the message sent by Berserker Blade.

"Snow Emperor, are you interested in doing a hidden dungeon?"

Lin Tianhao was a little surprised, "What hidden dungeon?"

"The former residence of the Drought Demon."

Lin Tianhao was stunned, the former residence of the Drought Demon?

This is actually a dungeon related to the Drought Demon, which is interesting.

"Have your people been in the dungeon?" Lin Tianhao asked.

"I've been in, but even on normal difficulty, you will continuously lose health at a rate of one hundred per second."

"And the monsters inside are also unusually fierce."

Lin Tianhao raised his eyebrows. He originally wanted to chat with the Drought Demon, but he didn't expect such a dungeon to appear.

"Someone under my command has taken on the task of clearing this dungeon, but there is currently no good way to clear it."

Lin Tianhao nodded, "You want me to take your people through."

"That's right, with you taking action, I think it's entirely possible to clear the hell difficulty."

Berserker Blade said to Lin Tianhao.

Lin Tianhao smiled noncommittally, "It's hard to say, but I can try."

"In addition, everything obtained in the dungeon belongs to me."

Berserker Blade nodded in agreement after only a slight hesitation.

Valiant Snow Fluttering's burly body walked towards Lin Tianhao.

Lin Tianhao subconsciously took a step back.

No other reason.

Valiant Snow Fluttering's figure is really a bit too burly.

The way she walks makes Lin Tianhao feel that she is plotting something wrong.

In Twilight of the Gods, the game character model is similar to reality.

In his previous life, there was a well-known player in Twilight of the Gods, called Three Hundred Jin Assassin.

Assassin, three hundred jin, thinking about it this way, is the three-dimensional sense very strong.

This Valiant Snow Fluttering's figure is obviously related to reality.

"Did you take on this task?" Lin Tianhao asked.

Valiant Snow Fluttering nodded, "That's right, I was lucky and happened to trigger this task."

"It's just that this task is too difficult. If you are not attacked, you will continue to lose health. After being attacked, you will also stack continuous health loss."

"Okay, since that's the case, then I'll accompany you to the dungeon."

"Okay."

Valiant Snow Fluttering took out a dark red stone with light blue cracks on it.

"Dungeon Teleportation Gate?"

Lin Tianhao was a little surprised. He had only heard of this thing after the second transfer in his previous life. He didn't expect someone to have it at this stage.

The dark red stone in Valiant Snow Fluttering's hand surged with a ray of light, condensing a light door in front.

Immediately afterwards, Valiant Snow Fluttering sent Lin Tianhao a team invitation.

Lin Tianhao accepted the team invitation and said: "Let's choose the hell difficulty."

The corner of Valiant Snow Fluttering's mouth twitched, hell difficulty?

This is something she didn't even dare to think about.

After all, she couldn't even pass the normal difficulty before, let alone the hell difficulty.

Berserker Blade on the side said: "You can try it. I have absolute confidence in Snow Emperor."

Valiant Snow Fluttering nodded and entered the dungeon with Lin Tianhao.

After coming in, she chose the hell difficulty according to Lin Tianhao's request.

Just after entering the dungeon, Lin Tianhao received a prompt.

"Ding, your teammate Valiant Snow Fluttering has been killed."

Lin Tianhao glanced at the top of his head. He is currently losing health at a rate of 100,000 per second.

Valiant Snow Fluttering's health is less than 100,000, so she was naturally killed instantly.

Berserker Territory.

Seeing Valiant Snow Fluttering resurrect from the territory altar, Berserker Blade was stunned for a moment, "So fast?"

"Hell difficulty, losing 100,000 health per second, I was killed instantly when I went in."

Berserker Blade took a breath of cold air, "Is it so difficult? Then Snow Emperor he..."

"I don't know, I hung up as soon as I landed, I don't know what the situation is with Snow Emperor."

"Fifteen seconds have passed, and Snow Emperor has not come out yet."

Berserker Blade was shocked again. He also noticed Lin Tianhao's state, which was still alive.

In the former residence of the Drought Demon.

After Lin Tianhao came in, he discovered the continuous health loss state.

His current six million plus health points can withstand sixty-six seconds without dying.

But that's all, that's not enough.

He needs to lifesteal.

So after coming in, he started looking for monsters.

The dungeon layout here is very similar to the Footprints of the Snow Corpse.

It's just that the Footprints of the Snow Corpse are full of ice and snow.

And here, there is scorching lava everywhere, and even lava cracks have appeared on the ground underfoot.

Lin Tianhao quickened his pace and walked forward.
