

## O game 1261

Chapter 1262 - Hidden Reward: Slowness Field!

The Dragon-Tiger Venerable had just been resurrected when he flipped over and sat up, his body radiating Buddhist light.

"It's alright now, no need to be so agitated," the Wayward Daoist smiled.

Only then did the Dragon-Tiger Venerable breathe a sigh of relief, looking at the ground where his two subordinates and Ouyang Songxue were still lying.

"Your people, you take care of them yourself; our resurrection coins are limited," the Wayward Daoist said, spreading his hands.

The Dragon-Tiger Venerable nodded, but before he could resurrect his subordinates, his expression darkened.

"What's wrong? Are you out of resurrection coins?" the Wayward Daoist asked.

The Dragon-Tiger Venerable shook his head and said:

"No."

"It's that drop of black liquid inside my body; it's still there!!"

The Dragon-Tiger Venerable was incredibly depressed; he had clearly died once already, yet he could still encounter such a frustrating thing.

Judging from the current situation, the probability of him removing that drop of black liquid from his body was extremely low.

He himself was already a powerhouse in the Celestial Phenomenon Realm.

If he couldn't remove it himself, and even after dying and being resurrected, that drop of black liquid still followed him, this actually explained a lot.

The Dragon-Tiger Venerable took out resurrection coins and resurrected his two subordinates and Ouyang Songxue.

After everyone was resurrected, Lin Tianhao said:

"I want to leave; I hope you all leave as well. What are your thoughts?" Lin Tianhao said.

The Dragon-Tiger Venerable stepped forward and said, "Amitabha, I also want to leave; this Mo Yuan is really not a place to stay."

The Wayward Daoist and Zuo Tianyang exchanged glances.

"The old director has been kind to me, and I cannot leave," Zuo Tianyang said.

In his heart, he actually had thoughts of retreating.

But just as Lin Tianhao would choose to risk his life to save the Wayward Daoist and the others.

No matter how iron-blooded and ruthless a person is, it is impossible for them to have no emotions at all.

The biggest difference between humans and machines is that humans have emotions.

The Wayward Daoist hesitated, "If the Dragon-Tiger Venerable is leaving, then please, Dragon-Tiger Venerable, escort Snow Empress back to Dragon Capital; consider it a favor I, Wayward, owe you."

Hearing this, Lin Tianhao understood the Wayward Daoist's decision.

"Wayward Daoist, I'm not joking; you've already died once this time. How many lives do you think you have left to die!!"

Lin Tianhao was somewhat angry, "I said, you will die if you stay here, and perhaps the old director has already left. Can you please leave with me first? We can talk about the rest later."

The Wayward Daoist was silent; in fact, what Lin Tianhao said was not unreasonable.

The old director and the others might have already left.

Leaving now was the most correct choice.

"Alright, let's go out first; we'll talk about the other things later," the Wayward Daoist finally agreed to leave first.

They were already familiar with the route; coming down later would at least be easier.

Seeing that the Wayward Daoist agreed, Lin Tianhao went to pick up the white wings that the two-winged woman had dropped.

Indeed!

Effect 1: Flight speed +100.

Effect 2: Gives you a pair of wings to help you soar into the sky; you can fly freely.

Effect 3: These wings cannot be actively removed; once used, they will definitely drop upon death.

(Note: This item is the white wings left by the mysterious person near Experimental Subject No. 5. If you can collect three or more pieces of experimental subject equipment, you will trigger a hidden reward and a hidden quest. Current progress: 3/3.)

Durability: 100.

These wings of Experimental Subject No. 5 are a bit trash!

Perhaps the most useful thing is free flight.

Even the third effect is a negative effect; they cannot be removed, which is too inflexible.

And now,

Lin Tianhao had also collected three pieces of experimental subject equipment and could receive a hidden reward.

Lin Tianhao took out the Bronze Dagger and the Guqin and placed them together with the white wings.

"Ding, congratulations, you have successfully collected three pieces of equipment from the experimental subjects, rewarding you with Resurrection Coin +10, Random Class Skill +1."

Lin Tianhao's eyes lit up.

Because this time, the reward was a random class skill, not a skill book!

Similar to directly rewarding skills, theoretically, he could directly learn them.

Sure enough.

A skill flooded into Lin Tianhao's mind like enlightenment.

"Ding, congratulations, you have obtained the skill: Slowing Domain."

Lin Tianhao was slightly startled, a domain?!!

He originally thought that he would be able to get a decent skill this time.

But he never expected that he would actually get a domain!!

Slowing Domain (Special): Cannot be upgraded.

Learning Requirement: Limited to Lin Tianhao (Snow Empress).

Effect: You release a slowing domain centered on yourself. The size of the domain and the slowing effect are related to your own realm.

If the realm difference is large, entering the slowing domain can reduce movement speed by up to ninety percent.

Consumption: 1000 mana per second.

Cooldown: None.

Proficiency: Cannot be upgraded.

"Ding, learn?"

"Learn!"

There was nothing to say; of course, he would learn it directly.

This skill was indeed a domain, but it was not as powerful as Lin Tianhao had imagined.

The effect of this slowing domain was very dependent on his own realm.

In Gods Twilight, it was actually a relatively ordinary skill.

In Gods Twilight, most skills were similar to this.

The skill effects were closely related to one's own realm and attributes.

For example, the mage's fireball, ice cone, the warrior's continuous thrust, explosive slash, etc., all depended on their own attributes to determine their power.

Skills like Lin Tianhao's Absolute Slow were truly top-tier skills and were key to fighting beyond one's level.

Percentage skill effects mostly surpassed the skill effects of attribute bonuses.

Just at this moment,

A prompt sounded again.

"Ding, congratulations, you have triggered a double hidden quest [Collect Experimental Subject Equipment], [Kill the Mysterious Mad King]. Completing the quest will reward you handsomely. Adventurer, please continue your efforts!!"

Lin Tianhao checked the two quests.

Hidden Quest: Collect Experimental Subject Equipment.

Quest Requirement: Collect nine pieces of equipment from the experimental subjects; no time limit.

Current Progress: 3/9.

Quest Punishment: Previous quest rewards (ten resurrection coins and the Slowing Domain skill; leaving Mo Yuan before completing the quest will be considered a quest failure).

Quest Reward: Unknown.

(Note: After receiving the previous hidden reward, this quest will be automatically accepted. If it is not completed, the previous quest rewards will be taken away. Please do not give up easily.)

Lin Tianhao: ???

After seeing this quest punishment, ten thousand alpacas galloped through Lin Tianhao's heart.

Quest punishments are just decorations in most quests.

Occasionally, you encounter quests with punishments, which usually deduct some experience points. A slightly more serious one might drop three or five levels.

But this quest directly takes back all the previous rewards!

Chapter 1263 - Targeting from the Source God!

Lin Tianhao really wanted to slip away.

He couldn't stay in this place for even a moment.

Next.

Lin Tianhao checked the second hidden quest.

Hidden Quest: Kill the Mysterious Mad King.

Quest Requirements: Kill the madman who is creating experimental subjects in Mo Yuan: the Mysterious Mad King, with no time limit.

Quest Penalty: Randomly deprive you of one of your skills (if the Mysterious Person is killed by someone else or you leave Mo Yuan before completing the quest, the quest is considered a failure).

Quest Reward: Unknown.

(Note: After receiving the prerequisite hidden reward, this quest will be automatically accepted. If you do not complete it, you will be randomly deprived of a skill, so please do not give up easily.)

Lin Tianhao: ???

This time, Lin Tianhao really wanted to curse.

He felt like he was being monitored!!

That's right.

He was being monitored!!

This was aimed at him!!

In the past, Blue Star also often had this kind of stupid monitoring.

For example... ..

A certain ride-hailing app, the same pick-up point, the same drop-off point, a ride hailed with a 500 yuan phone is more than half the price of a ride hailed with a 5000 yuan phone.

What is this called? Smart monitoring, big data, knows you better than you know yourself!

These two quests are obviously monitoring him and deliberately targeting him.

In fact, after reading the first quest, Lin Tianhao's belief in leaving did not dissipate.

Isn't it just ten resurrection coins and an ordinary domain skill?

He now has three skills from the Twilight of the Gods version.

Resurrection in Place, Mechanical Overlord, Seventy-Two Transformations!!

If the quest failed and any one of these three skills were deprived, he couldn't bear it.

This was too坑!

He knew he shouldn't have taken this reward.

It was simply shameless and brazen!!

This was blatant targeting!

However... ..

After being depressed, Lin Tianhao had new ideas in his mind.

Based on his contact with the Origin God of the Dao, there was no reason to be targeted like this.

This wave... ..

Belonged to the Origin God of the Dao not wanting him to leave.

But why?

It seemed that there was only one answer.

In Mo Yuan, there was something of great use to him.

Whether it was the Investiture of the Gods, or the Book of Life and Death, or even some other skills on Lin Tianhao's body.

In fact, the Origin God of the Dao had blessed them behind the scenes.

These two hidden quests, no matter how you looked at them, wanted him to continue exploring Mo Yuan.

It could only mean one thing,

In Mo Yuan, there really was something that would greatly help him.

“Snow Emperor, what's wrong?”

Taoist Yexin noticed the change in Lin Tianhao's expression and couldn't help but ask.

Lin Tianhao hesitated, and in the end, he only sighed heavily.

“Senior Yexin, I seem to be targeted!”

Taoist Yexin's expression changed in surprise, “What's wrong?”

Lin Tianhao told Taoist Yexin and the others about the two hidden quests.

After listening to Lin Tianhao's account, everyone present had solemn expressions.

“If you leave, Snow Emperor, your losses will be very great.”

“But if you stay, the danger in this Mo Yuan should not be underestimated.”

Lin Tianhao smiled helplessly and said:

“Yes, I am being targeted. Someone doesn't want me to leave Mo Yuan.”

In fact, if it was in the Twilight of the Gods, Lin Tianhao would definitely not leave Mo Yuan.

After all, even a fool would know that there must be great opportunities in this Mo Yuan.

Not to mention other things.

But if they caught that dragon in the Black Pool and took it out, that would be amazing.

Besides that.

Resurrection coins!!

Lin Tianhao, who had experienced the Great Cataclysm, was very clear about how important resurrection coins were.

Giving resurrection coins here was really not ambiguous at all.

If they didn't count the resurrection coins they used, they could easily get dozens, or even hundreds of resurrection coins here, which was not impossible.

Just now, Lin Tianhao had taken out three more resurrection coins from the two-winged woman.

And... ..

A finger.

Like that toe, it could help with genetic transformation.

Lin Tianhao ate it without hesitation, feeling the transformation at the genetic level.

On the other side.

Inside the Twilight of the Gods!

Wang Chongfeng had already met with Kuangzhan Daofeng.

“Brother Daofeng, things are going to get serious if this continues. If I don’t materialize a one-time summoning card, I will die, tortured to death alive.”

“If I materialize it and continue to provide blood food to that black dragon, it will also be a catastrophe when that black dragon recovers.”

In order to let Wang Chongfeng continue to materialize one-time summoning cards and provide blood food for the black dragon, the big-headed boy made Wang Chongfeng enter the Twilight of the Gods again.

After coming in.

Wang Chongfeng asked Kuangzhan Daofeng for help as soon as possible.

Because he knew.

If he dragged on like this, he would die sooner or later.

After Kuangzhan Daofeng understood Wang Chongfeng's current situation, his expression also became somewhat solemn.

A black dragon that had already become enchanted, if it broke through the seal, the consequences would be unimaginable.

Especially because of the Snow Emperor, now other countries are all united against the Dragon Kingdom.

The Snow Emperor provided Kuangzhan Daofeng with a large amount of equipment, and also allowed the overall strength of the Dragon Kingdom's adventurers to be slightly improved.

And the other countries did not have such good luck.

Their top adventurers may still be able to keep up with the pace of the Dragon Kingdom's top adventurers.

But most ordinary adventurers are slightly inferior to the ordinary adventurers of the Dragon Kingdom.

Under the circumstances that many powerful countries are eyeing the Dragon Kingdom, the emergence of an enchanted black dragon would be the last straw for the Dragon Kingdom.

“I have already reported this matter, please wait a moment.”

There was no way.

This situation was really not easy to deal with.

Kuangzhan Daofeng quickly received the message, and seeing the message, Kuangzhan Daofeng could not help but narrow his eyes.

“How is it? What did the higher-ups say?” Wang Chongfeng asked eagerly.

Being ridden on the head by a big-headed boy, that feeling was too suffocating and too uncomfortable!

Kuangzhan Daofeng took a deep breath and said seriously:

“The higher-ups attach more importance to your incident than I imagined. They have already decided to request foreign aid.”

Hearing this.

Wang Chongfeng was stunned. Anyone who knew a little about the Dragon Kingdom knew that they would not request foreign aid unless it was absolutely necessary.

But now.

In order to save him, the people above were actually preparing to use foreign aid.

However.

Wang Chongfeng also knew.

This time, the higher-ups decided to use foreign aid, not purely because of him alone.

More importantly, it was the true dragon in the Black Pool.

“The higher-ups attach more importance to you than you and I thought. Stabilize them and wait for rescue.”

Wang Chongfeng nodded heavily and said:

“Don’t worry, I cherish my life more than anyone else, I will definitely live well.”

At this point.

Wang Chongfeng asked cautiously:

“Brother Daofeng, may I ask, who are the higher-ups preparing to send to save me this time?”

Chapter 1264 - Corpse Ancestor Tianyue!

Berserker Blade shook his head and said, "I don't know yet. After all, we're requesting help from non-governmental forces, so we still need to see what others think."

"But you don't need to worry. With the higher-ups speaking, there will be no shortage of people willing to come."

Hearing this.

Wang Chongfeng was still a little worried and asked softly:

"In that case, can they deal with that black dragon? I saw Senior Ambition and the others suffer losses at the hands of that black dragon."

Berserker Blade frowned and said:

"I don't know right now, but they will definitely prescribe the right medicine. Since they've decided to save you, they won't send people to their deaths."

As Berserker Blade's voice fell.

He seemed to have received some news, his pupils widened slightly, and a look of surprise appeared on his face.

"It's settled," Berserker Blade said.

Seeing this, Wang Chongfeng was overjoyed and quickly asked:

"Brother Blade, who is it?"

"An unkillable guy."

Wang Chongfeng said seriously:

"His combat power may not be much different from Daoist Ambition, but he can withstand a beating a hundred times better than Daoist Ambition."

"Even with the current power of the real world, it is impossible to kill him."

Berserker Blade himself was deeply shocked when he said these things.

"I really didn't expect that the higher-ups would ask this person to take action in order to save you."

"Who, who, who?"

"Brother Blade, who is it? At least tell me, or I won't even recognize the person who's coming to save me."

Berserker Blade nodded and said seriously:

"Corpse Ancestor, Tian Yue."

"Tian Yue?"

Berserker Blade smiled and said:

"Alright, here are ten one-time summoning cards. You must materialize them at intervals so that the black dragon doesn't eat too much."

Wang Chongfeng nodded heavily, "Brother Blade, you can rest assured about this."

... ..

Dragon Capital.

In a secret conference room.

A tall, handsome woman was sitting on a leather sofa.

If you only looked at her figure and face, she could definitely score above ninety-five points.

At this moment.

She was holding a document in her hand, which also had a photo, which was Wang Chongfeng's.

The woman only glanced at Wang Chongfeng's information before throwing it on the coffee table in front of her.

"I know about the matter. Arrange a helicopter, I'll go over now."

The woman's voice was cold and devoid of emotion.

Standing in front of the woman was a middle-aged man in a suit. The middle-aged man had a square face and was imposing without being angry.

"Tian Yue, the plan this time is a rescue. The black dragon can be given to you as agreed. If there is a chance, I hope you can protect Snow Empress."

When Corpse Ancestor Tian Yue heard the words "Snow Empress," the corners of her mouth couldn't help but rise slightly.

"Having been entrusted by others, I will be loyal to their affairs."

"The condition for saving Wang Chongfeng is the black dragon. As for Snow Empress, I will protect her even if you don't tell me."

The middle-aged man with a square face realized something and subconsciously asked:

"Has anyone else commissioned you to protect Snow Empress?"

"Other people?"

Corpse Ancestor Tian Yue shook her head, "To be precise, it's my master."

"If you didn't look for me, I would have prepared to go to Mo Yuan too."

The middle-aged man with a square face changed his expression drastically. Dragon Country has two great Corpse Ancestors, one is Tian Yue, and the other is Corpse Ancestor Zhou Buchao, who is bound by the reaction core.

"The master you speak of is Zhou..."

Corpse Ancestor Tian Yue sneered, "He is not worthy!"

"You... also don't need to know."

The middle-aged man with a square face was extremely horrified, because the information they had was that Dragon Country had two great Corpse Ancestors.

But now.

Corpse Ancestor Tian Yue actually said that she had a master!

Who would be the super strong person behind her?!

Thinking about it carefully is terrifying!!

Outside of the information they have, there is still an unknown super strong person, and also a super strong person who can order Corpse Ancestor Tian Yue to do things.

"I understand, the helicopter is ready, you can depart at any time."

"Let's go!"

... ..

Mo Yuan, Sixth Layer!

In the stone room of the winged woman.

Lin Tianhao quickly completed the genetic level of transformation.

After this transformation, Lin Tianhao's dragon scales can be triggered to cover more parts.

Moreover, some of the Dragon Clan's inherited methods, such as Dragon Flame and Water Control, are even more powerful.

The physique, and even the soul, have been improved.

After Lin Tianhao finished receiving the genes, Daoist Ambition walked over and said seriously:

"Snow Empress, I just re-logged into Twilight of the Gods and asked Old Bureau Chief Berserker Blade about their situation."

"The result is that they didn't get out."

Lin Tianhao nodded, he actually thought about entering Twilight of the Gods to contact the outside world.

But he didn't say it.

He just wanted to play under the lights, and let Daoist Ambition and the others out first before talking.

"Didn't Old Bureau Chief and the others use Twilight of the Gods to contact them?" Lin Tianhao asked.

Daoist Ambition nodded and said:

"What I want to say next is this."

"Old Bureau Chief contacted the people above and told them some news. The biggest problems are two."

"First, they encountered a mysterious person and the team was broken up. Second, the clones evolved in the middle three layers and already have blood in their bodies. Conventional testing methods can't determine their identities anymore. Old Bureau Chief speculates that the clones shouldn't be able to enter Twilight of the Gods, but he's not sure because he's already separated from the team and can't be sure."

"Third, the Six-Fingered Witch is dead. If you see the Six-Fingered Witch, please be careful."

Hearing this.

Lin Tianhao's face sank. The Six-Fingered Witch they encountered before really had a problem.

"There's some more we already know, such as people coming from the mountains, people from great sects coming in, etc."

At this point.

Daoist Ambition changed the subject and said:

"Old Bureau Chief brought bad news, I have two pieces of good news here."

"What good news?" Lin Tianhao asked.

"Wang Chongfeng is still alive. The black dragon and the big-headed boy didn't kill him, but imprisoned him, wanting to use Wang Chongfeng to summon more blood food for the black dragon."

Lin Tianhao was slightly stunned. This was indeed something he hadn't expected.

Wang Chongfeng is still alive, which is good news, but it's also bad news.

Because of this.

It means that the black dragon will definitely get more blood food.

"Then shouldn't we go save Wang Chongfeng," Lin Tianhao said.

Letting Wang Chongfeng continue to provide blood food for the black dragon in the black pool, it would be very troublesome if that black dragon broke the seal.

Daoist Ambition nodded, "We have to take action, but the higher-ups have also invited reinforcements."

Chapter 1265 - The Wind-Binding Divine Seal!

Lin Tianhao was a little surprised.

It seems that the situation in Long Country is really not very good now, and it has actually reached the point of asking for foreign aid.

"Who?" Lin Tianhao asked.

"Corpse Ancestor Tian Yue."

"That powerhouse with reverse nuclear binding?" Lin Tianhao was a little surprised.

"No."

Taoist Yexin briefly told Lin Tianhao about the situation of Corpse Ancestor Tian Yue.

After introducing Corpse Ancestor Tian Yue, Taoist Yexin hesitated before saying:

"Snow Emperor, you don't even know Corpse Ancestor Tian Yue, but the information passed down from above is that the master of Corpse Ancestor Tian Yue ordered Corpse Ancestor Tian Yue to protect you."

Lin Tianhao was stunned for a moment.

The master of Corpse Ancestor Tian Yue?

Lin Tianhao was stunned, and even Venerable Longhu, Zuo Tianyang and others were dumbfounded.

"Yexin, what are you talking about? Corpse Ancestor Tian Yue's... master?!!!"

If they really fought to the end, he would definitely lose, there is no doubt about it.

The body of a zombie is not something a normal person can compare to.

Zuo Tianyang also looked at Taoist Yexin, wanting to hear what Taoist Yexin had to say.

"Don't look at me like that, I don't know what's going on either."

"Anyway, the master of Corpse Ancestor Tian Yue is not Corpse Ancestor Zhou Buchao, as for who it is, I don't know."

Having said that.

Taoist Yexin's eyes fell on Lin Tianhao and said:

"However."

"Since the master of Corpse Ancestor Tian Yue sent Corpse Ancestor Tian Yue to protect Lin Tianhao, there must be a reason."

"Snow Emperor, did you meet the master of Corpse Ancestor Tian Yue in the Twilight of the Gods?"

Lin Tianhao spread his hands and said helplessly:

"This... I don't know either."

"I do know a very powerful zombie, Drought Demon Wuxin, who is also the Emperor's Daughter, I don't know if you've heard of her."

"However, Drought Demon Wuxin is not an adventurer, she should be considered an NPC in the Twilight of the Gods."

The reason why Lin Tianhao said this was because he still didn't quite believe it.

That the NPCs inside the Twilight of the Gods can now influence the real world.

If that's the case, then it would be too terrifying.

"Since you don't know, then wait for Corpse Ancestor Tian Yue to come over."

"The situation of this Moya has been told to Corpse Ancestor Tian Yue, with her strength, she should be able to find Wang Chongfeng tonight."

"We only need to prepare, start from below, and wait for Corpse Ancestor Tian Yue to rescue Wang Chongfeng before we take action."

Lin Tianhao hesitated, but still said:

"The situation of the replicants that Old Bureau Chief mentioned, we still need to pay attention to."

"Could it be that there are also replicants mixed in among us?"

Hearing this.

Everyone present looked at each other.

"Since that's the case."

"Then let's use Old Bureau Chief's method, everyone try it together."

"Log in to the Twilight of the Gods and send a message to Kuangzhan Daofeng. I'll go first and tell Kuangzhan Daofeng about the situation."

Taoist Yexin was the first to go online.

Following closely behind was Venerable Longhu.

The reason why it was them two was to ensure that the strongest combat power here was not a problem.

"Everyone who goes in later should ask Kuangzhan Daofeng about the order in which he talked to him, so as to avoid anyone passing themselves off as someone else."

After arranging everything.

Everyone began to log in one by one.

After everyone tested it, everyone was fine.

Of course.

Zhang Linglong was an exception.

She didn't log in, because she herself belonged to Moye, and she might not be able to log in to the Twilight of the Gods.

Finally.

Taoist Yexin logged in again to confirm that there were no problems.

"It seems that we are lucky, everyone is fine."

"Next, we will hunt down demonized bats, and prepare to fight under the Black Pool in three hours."

Hearing this.

Lin Tianhao smiled awkwardly and said:

"Senior Yexin."

"I may have to disappoint you, most of the demonized bats here have been killed by me."

Taoist Yexin was slightly startled and asked:

"You went to kill those demonized bats before reviving us?"

"Yes."

"That two-winged woman is so strong, I definitely wanted to improve my combat power as much as possible, so that I would be more confident in rescuing you."

"It doesn't matter."

Taoist Yexin nodded, "The more powerful you are, the better it is for us."

"Since that's the case."

"Then simply clean up the remaining demonized bats, and then go to the Black Pool and wait."

"Okay."

... ..

Two hours later.

Everyone gave up.

So many of them.

In two hours, they only killed three demonized bats.

Plus, there were too many of them, and these three demonized bats couldn't increase their power much.

In the black mist, they would also be affected by the black mist, so they simply gave up.

Arriving under the Black Pool.

Taoist Yexin said:

"Snow Emperor, you can go back to the Twilight of the Gods first, you can't let your own development fall behind too much."

"After Wang Chongfeng is rescued, he will go to the Twilight of the Gods to notify Daofeng."

"Then you go offline, and we will deal with the Black Dragon together."

"Okay."

Lin Tianhao nodded, put on his game helmet, and returned to the Twilight of the Gods.

After appearing in the Twilight of the Gods, Lin Tianhao was still here in the Wind Binding Canyon.

Before killing the Wind Binding God King, Lin Tianhao hadn't had time to loot the corpse.

The first thing to do after going online was to loot the corpse.

"Ding, you have obtained Wind Binding God Seal + 1."

"Ding, you have obtained Skill Book + 3."

"Ding, you have obtained Free Attribute Points + 100000."

"Ding, you have obtained Gold Coins + 5000000."

"Ding, you have obtained ... ..."

... ..

Lin Tianhao's eyes lit up.

This Wind Binding God Seal looked like a divine artifact at first glance.

Lin Tianhao didn't hesitate to check the attributes of the Wind Binding God Seal.

Wind Binding God Seal: Fourth-grade Divine Artifact.

Wearing Requirements: Wind Element Law Great Perfection.

Effect 1: Attack Power + 99 million.

Effect 2: Armor + 12 million.

Effect 3: Magic Resistance + 10 million.

Effect 4: Tenacity + 20%.

Effect 5: Dodge + 10%.

Effect 6: Armor Penetration + 50%.

Effect 7: Attack Speed + 50.

Effect 8: Movement Speed + 150.

Effect 9: Wind Element attack methods, effect + 50%.

Effect 10: Wind Element control methods, effect + 200%.

Abrasion Resistance: Indestructible.

The attributes of a divine artifact, is that it?

To be honest.

Lin Tianhao was a little disappointed.

The attributes of a divine artifact like this are indeed a bit low.

At least.

Compared to what Lin Tianhao imagined, there was indeed a big gap.

But it was still a divine artifact, and the wearing requirements were not too high, so he could put it away first.

After Corpse Ancestor Tian Yue came back, Lin Tianhao would need to go offline.

Therefore.

In the following time.

Lin Tianhao didn't plan to do anything else.

First, take the Wind Binding God King's inheritance, and if there was still time, he would comprehend the Law of Wind.

Leaving aside everything else.

First, raise the Law of Wind to the Great Perfection level, so that he could use the Wind Binding God Seal, which could be considered a bit of help.

Chapter 1266 - You...how could you do this!

Lin Tianhao comprehended the Dao in this Wind Gorge, and it seemed that due to the special nature of this Wind Gorge, his speed of comprehending the Law of Wind became much faster.

In the blink of an eye.

Two hours passed.

Lin Tianhao's Law of Wind finally crossed the threshold, but there was still some distance from the Great Perfection of the Law of Wind.

At this moment.

Monkey sent a message to Lin Tianhao, asking him to log off because Wang Chongfeng had been rescued.

After seeing the message, Lin Tianhao logged off directly.

Seeing Lin Tianhao log off, the people who were adjusting their breathing instantly opened their eyes.

“Action.”

Lin Tianhao didn't waste any words, raised his eyes, and looked at the black pool above.

“Zuo Tianyang, you and Blind Sword are down below.”

“I and Venerable Dragon-Tiger will take the lead, and Snow Empress, you will assist from the side.”

“They should also be preparing above. We will join forces with Corpse Ancestor Tian Yue to slay the dragon!!”

Having said that.

Taoist Ambition looked at Venerable Dragon-Tiger again and asked:

“Can you still hold on?”

The drop of black liquid in Venerable Dragon-Tiger's body was a bit difficult to deal with, and Taoist Ambition was not sure whether Venerable Dragon-Tiger could still hold on.

Venerable Dragon-Tiger grinned and said:

“Small problem.”

As soon as the words fell.

Venerable Dragon-Tiger looked determined, “Slay the dragon, and once this black dragon is dealt with, the problems with my body should also be resolved.”

“Okay.”

Taoist Ambition nodded, “Kill!”

Taoist Ambition took the lead, leaped up, and rushed into the black pool.

Lin Tianhao and Venerable Dragon-Tiger followed closely behind, also rushing into the black pool.

Having crossed the black pool once already, Lin Tianhao, Venerable Dragon-Tiger, and Taoist Ambition were all familiar with the route and swam towards the direction where the black dragon was located.

“Moo—”

Before reaching the location of the black dragon, Lin Tianhao heard an angry dragon roar.

Immediately after.

The water in the black pool began to churn crazily, and vortex storms swept towards Lin Tianhao and the others.

This was not an attack specifically targeting Lin Tianhao and the others, but rather an indiscriminate attack launched by the black dragon in its rage.

Lin Tianhao controlled the water flow, breaking down these underwater vortex storms.

The three continued to swim towards the direction where the black dragon was located.

Taoist Ambition took the lead in exerting his strength. Lightning wrapped around his body, and his swimming speed suddenly increased.

On Venerable Dragon-Tiger's skin, golden tadpole-like inscriptions emerged. These golden tadpole inscriptions seemed to be living things, swimming on Venerable Dragon-Tiger's body.

His speed also increased suddenly.

As for Lin Tianhao.

Just as Lin Tianhao arrived here, he saw a tall woman flash to the top of the black dragon's head.

“Bang—”

Her slender jade leg slammed down fiercely, just like a white long whip, fiercely whipping the black dragon's forehead.

This strike, which didn't seem to have much explosive power, actually caused the black dragon's huge head to lower.

Before the black dragon's huge head could lift up.

This tall woman kicked out with her other leg.

This powerful and heavy side kick forcibly kicked the black dragon's forehead to the side.

This woman... so long... so white...

No!

It's this woman... so fierce!!

The power erupted from her slender jade legs was simply unbelievably strong.

The power of these two legs must definitely be calculated in tons.

Otherwise.

Even if the black dragon's head had no resistance, it wouldn't be able to be kicked off course with one kick.

“Moo—”

The black dragon was furious and opened its mouth to spew out a water column, rushing towards the tall woman.

The tall woman was like a water snake, bending her waist to an incredible degree, avoiding the attack of this water column.

“Don't just stand there, we can start fighting.” Taoist Ambition said.

As soon as the words fell.

Taoist Ambition took advantage of the tall woman attracting firepower in front, and leaped to the back of the black dragon.

His hands, wrapped in thunder, fell fiercely, and lightning wrapped around the black dragon's entire body.

Venerable Dragon-Tiger also began to chant Buddhist scriptures.

Those golden tadpole inscriptions flew onto the black dragon's body and climbed onto the black dragon's body.

“Moo—”

The black dragon roared again, and she began to struggle frantically.

But the barbs of the iron chains were deeply locked into her bones, and her struggle would only bring her greater pain.

“How can you do this?”

At this moment.

That childish, hoarse voice suddenly sounded.

The tall woman retreated instantly, frowning and said:

“Not dead yet!!”

“How can you do this!!”

The big-headed boy's face was full of anger, and his body began to swell in the water.

As the big-headed boy's body continued to swell, from the big-headed boy's body, arms, and one tender face after another appeared.

“How can you do this?!!”

The big-headed boy's body quickly swelled to more than two meters high, and the tender faces on his body opened their mouths at the same time, their voices filled with coldness, and also with... anger.

“Sister is so good, how can you do this?!”

These voices seemed to have magic power.

When Lin Tianhao, Taoist Ambition, and Venerable Dragon-Tiger heard these childish children speak together, a look of guilt appeared in their eyes.

“Yes...”

“She is so good, how can we do this?!”

“I... I am guilty!”

“I... I deserve to die!”

“Deserve to die... I deserve to die...”

The look of guilt in the eyes of Lin Tianhao, Taoist Ambition, and Venerable Dragon-Tiger became more and more intense.

Venerable Dragon-Tiger even raised the Zen staff in his hand, and the Zen staff was aimed at his own head.

It seemed that in the next moment.

Venerable Dragon-Tiger would not hesitate to drop the Zen staff and smash a hole in his forehead.

Taoist Ambition was not doing any better.

The thunder wrapped around his palm, and he had already aimed it at his chest.

It seemed that as long as there was an order, they would not hesitate to attack themselves.

And Lin Tianhao.

Also raised the arm that turned into a dragon claw...

“Shut up!!”

A clear and cold voice sounded.

The tall woman instantly rushed in front of the big-headed boy, and a black hammer appeared in her hand.

This black hammer formed a sharp contrast with her slender and tall figure.

The black hammer slammed down fiercely, and the big-headed boy's face changed drastically. He immediately retreated, and only then did he avoid the tall woman's attack.

But even so, the faces on her body were still repeating that sentence.

“Sister is so good, how can you do this?!”

“You... you really deserve to die!!”

The tall woman's face sank, “To think that you are still masters of the Daoist and Buddhist sects, is that all you've got?!”

The tall woman's voice seemed to explode in the minds of Lin Tianhao, Taoist Ambition, and Venerable Dragon-Tiger.

The expressions of the three were slightly stunned, and their eyes also returned to clarity.

The faces of Venerable Dragon-Tiger and Taoist Ambition became extremely ugly.

One of them was a great sect expert, and the other was a strong man of the Taoist sect, and they were actually confused!

Chapter 1267 - The ring of subject No. 3!

Ambitious Daoist Priest chanted the Purifying Heart Mantra, restoring clarity to his mind.

Dragon-Tiger Venerable also formed hand seals, a golden Buddhist Dharma seal appearing on his brow, emitting a faint Buddha-light, making him appear even more divine.

“Leave the black dragon to me, you guys take care of this kid.”

The tall woman spoke indifferently, the black hammer in her hand turning and throwing towards the black dragon who was preparing to attack from behind.

“Bang—”

The black hammer smashed into the black dragon's face, causing its head to jolt upwards, and half of a dragon tooth was broken off, flying into the air.

Lin Tianhao's mouth twitched, this tall woman should be Corpse Ancestor Tian Yue.

Only.

This image is not quite what Lin Tianhao imagined Corpse Ancestor Tian Yue to be.

Wasn't it said... ..zombie?

How could she... ..be so beautiful!

Corpse Ancestor Tian Yue is indeed beautiful, more beautiful than most of the women Lin Tianhao has seen.

However, this old monster who has lived for who knows how long is probably just disguised.

Rosy skeleton, long-legged zombie!

Lin Tianhao rushed towards the big-headed boy, and with a wave of his hand, the black pool water transformed into a large hand, grabbing the big-headed boy from afar.

With two consecutive gene transformations, the power that Lin Tianhao's dragon bloodline can unleash has become even stronger.

“Amitabha!”

The moment Lin Tianhao grabbed the big-headed boy, Dragon-Tiger Venerable had already swung his zen staff down.

“Bang—”

Along with the zen staff falling, the big-headed boy's head instantly exploded.

Filthy blood splattered everywhere.

“Sinful, sinful.”

Dragon-Tiger Venerable said, retreating.

“Boom—”

However.

The big-headed boy, whose head had been smashed to pieces, actually broke free from Lin Tianhao's black water hand.

Next.

What surprised Lin Tianhao even more was.

From the severed neck of the big-headed boy, another swollen head emerged.

This was a girl's head, looking young... eerie!

Her eyes were not as dark as ink like the big-headed boy's.

Her eyes were full of bloodshot veins.

Beneath the bloodshot veins were a pair of hideous white eyes.

Just one look made people's minds uncontrollably drawn to her eyes.

Lin Tianhao guarded his mind, having learned from the previous experience, making Lin Tianhao dare not be careless in the slightest.

"I'm still a child, how can you do this... .."

"Doesn't your conscience hurt?"

"How can you be so cruel to us children... .."

"Too much nonsense!"

Between Ambitious Daoist Priest's palms, rolling thunder rushed out, arriving in front of the big-headed... girl in an instant.

From the mouths of the childish faces on the big-headed girl's body, black smoke spewed out.

This black smoke 缠绕上 Ambitious Daoist Priest's thunder, attempting to repel Ambitious Daoist Priest's thunder!!

“Fierce-Eyed Guardian!”

“Dragon Soaring Tiger Leaping!”

Dragon-Tiger Venerable's three great celestial phenomena emerged behind him.

He himself also held a zen staff, smashing down on the big-headed girl.

You grow a head, and I will smash one, let's see how many heads you have!

Lin Tianhao put his hands together.

Two illusory black water palms formed out of thin air, like swatting flies, patting towards the big-headed girl!

The big-headed girl raised her swollen arms, colliding with the black water palms that Lin Tianhao had condensed.

The black water vibrated, and before the big-headed girl could make another move, Dragon-Tiger Venerable's zen staff had already fallen.

“Amitabha, truly sinful...”

Lin Tianhao's mouth twitched, this Dragon-Tiger Venerable is a bit pretentious.

His zen staff is made of human bones, how can he be embarrassed to say the word sinful.

Same as before.

Another head emerged from the neck.

The moment this head appeared, it was smashed by the Fierce-Eyed Guardian.

Ambitious Daoist Priest and Lin Tianhao restrained the big-headed girl, and Dragon-Tiger Venerable's three great celestial phenomena and himself were responsible for attacking the big-headed girl.

This guy.

Sometimes it's a big-headed girl, sometimes it's a big-headed boy... ..

What remains the same is.

As long as a head emerges, it will be blown off by Dragon-Tiger Venerable.

After being blown off more than a dozen heads in a row by Dragon-Tiger Venerable, this guy's neck finally stopped sprouting heads.

“We are all pitiful people, killed by those people from Ao Long Village, please let us go.”

“We were just children when we died, uncles, please have mercy, okay... ..”

On the swollen body, those childish faces revealing an evil aura began to beg.

They also realized that their voices could no longer bewitch Lin Tianhao and the others.

“Amitabha.”

Dragon-Tiger Venerable said a Buddhist prayer, sighed, and said:

“All of you benefactors are pitiful people, I, Dragon-Tiger Venerable, have dedicated my life to helping the world and saving people, seeing your situation, how can I sit idly by.”

Hearing Dragon-Tiger Venerable's words.

Those faces on the swollen body showed expressions of joy.

“Thank you, Master, for raising your hand, we will leave now.”

Dragon-Tiger Venerable shook his head and said:

“You have misunderstood, what I mean is... ..you are so pitiful, let this humble monk save you.”

“Amitabha... ”

“Great Mighty Heavenly Dragon, Great Luo Dharma Curse... ..”

Those faces on the swollen body showed horror when they saw this scene.

A huge Buddha seal rose from behind Dragon-Tiger Venerable, striking towards this swollen body full of faces.

“Boom—”

With a loud bang.

Dragon-Tiger Venerable's Buddha seal shattered this Buddha seed's body.

“No... no... no!!”

“We finally managed to cultivate a physical body!!”

“Smelly monk, smelly monk!!”

A series of ferocious roars echoed in the ears of several people, and a ring fell out of the fragments of this swollen body.

Lin Tianhao raised his hand and took the ring into his hand.

Experiment No. 3's Ring: Special.

Wearing requirements: None.

Effect 1: Mana + 100000.

Effect 2: Soul Power + 10000.

Effect 3: Contains a storage space of one million cubic meters, which can store items.

(Note: This item is a bronze ring left by a mysterious person next to Experiment No. 3. If you can collect nine pieces of experiment equipment, a hidden reward and a hidden task will be triggered. Current progress: 4/9.)

Wear resistance: 100.

This thing is not bad.

Although the attribute values cannot be added to him for the time being, the space of one million cubic meters is already quite large.

The rest is looting the corpse.

“Ding, you have obtained Resurrection Coin +3.”

“Ding, you have obtained Gene Face Skin +1.”

Lin Tianhao looked at the gene face skin in his hand, and fell into deep silence... ..

This... ..

“Amitabha.”

Dragon-Tiger Venerable said a Buddhist prayer, “Wine and meat pass through the intestines, but Buddha remains in the heart. If you, Xue Di, are unwilling, this humble monk is willing to serve.”

Chapter 1268 - Slay the dragon and refine the dragon!

Lin Tianhao glanced at Venerable Dragon Tiger.

Venerable Dragon Tiger also contributed significantly to solving this big-headed boy this time.

In theory, this thing should indeed be divided.

"Okay."

If he kept his face, he would have to give up the resurrection coin, or else it wouldn't make sense.

"I'll give you the resurrection coin!"

Lin Tianhao gave the resurrection coin to Taoist Ambition. He now has a resurrection coin in his hand, and Taoist Ambition has also contributed, so he can't take nothing, right?

"Moo—"

Seemingly sensing that the big-headed boy had been killed, the black dragon roared angrily.

She began to struggle frantically, and the iron chains embedded in her bone marrow tore the flesh apart under her frantic struggles, and wisps of dragon blood flowed out along the wounds.

Seeing this scene.

Venerable Dragon Tiger and Taoist Ambition's eyes lit up, but before they could take any action, the dragon blood had already been gathered into a ball by Lin Tianhao and put into his storage ring.

"Don't run!!"

Corpse Ancestor Tian Yue let out a low roar, and with a flash, she stood in front of Lin Tianhao.

"Moo—"

Another dragon roar.

This dragon roar was completely different from the previous one.

It seemed that this dragon roar contained an extremely terrifying power.

Taoist Ambition and Venerable Dragon Tiger also felt the horror of this dragon roar, and they both condensed defensive shields in front of them.

Venerable Dragon Tiger even had all three of his Dharma Idols blocking in front of him.

Seeing this scene, Lin Tianhao vaguely realized something.

Immediately afterwards.

A huge shock wave swept towards Lin Tianhao and the others.

Even though Lin Tianhao was standing behind Corpse Ancestor Tian Yue, he was still suppressed by the shock wave and couldn't lift his head.

Finally.

The shock wave weakened slightly, and Lin Tianhao was able to look up.

So white!!

Lin Tianhao had just looked up when his gaze suddenly focused.

The huge shock wave just now didn't cause much damage to her body.

But...

It tore her clothes to pieces.

Fortunately, she reacted quickly enough, and she didn't know how much the kid behind her saw...

Lin Tianhao certainly wouldn't admit it.

He glanced at Venerable Dragon Tiger and Taoist Ambition.

Both of them were very embarrassed, their clothes were torn to pieces by the impact, and there were wounds on their exposed skin.

Seeing this, Lin Tianhao couldn't help but gasp.

The shock wave that the black dragon had just unleashed was indeed a bit terrifying.

"Thank you," Lin Tianhao said gratefully.

If he had faced this shock wave head-on, he would have been able to block it, but he would definitely have been very embarrassed.

"Let's solve this little female dragon first," Corpse Ancestor Tian Yue rushed up again.

Lin Tianhao couldn't help but sigh secretly.

As expected of a Corpse Ancestor, this physical strength is truly extraordinary.

Taoist Ambition and Venerable Dragon Tiger were both bruised and battered by the shock wave, but Corpse Ancestor Tian Yue was as if nothing had happened and could still engage in high-intensity combat.

Such a woman is only suitable to be a zombie.

Otherwise, if she gets married one day, who would be able to serve her well?

Withdrawing his thoughts.

Lin Tianhao also rushed over.

This black dragon seemed to have exhausted a lot of her power by unleashing this shock wave.

In addition to the violent struggle just now, the barbs on the iron chains that had pierced into her body had pierced even deeper, and had also cut out wounds.

Corpse Ancestor Tian Yue walked to the front of the black dragon and said indifferently:

"You should have died long ago. It's not easy to live to this day with a belief."

"Are you willing to enter my Corpse Dao? I'll take you to the lower three levels of the Mo Abyss to kill those you want to kill. How about it?!"

Corpse Ancestor Tian Yue's voice was like rolling thunder, exploding in the ears of Lin Tianhao and the others.

The black dragon's ink-black eyes even showed a hint of color.

"I know you hate us for killing them."

"But isn't it painful for them to live like this? They are liberated, entering the cycle of reincarnation, and the future is hope."

"Keeping them here is harming them!"

The black dragon's violent emotions began to gradually recover.

"If you are willing, I will help you enter the Corpse Dao and become a Corpse Dragon. If you can go one step further and achieve the body of a Demonic Bone Corpse Dragon, you will have hope of revenge."

Lin Tianhao's eyes narrowed slightly.

What Corpse Ancestor Tian Yue said to the black dragon obviously showed that she understood this little female dragon.

The black dragon was silent for a long time, as if she was thinking.

After a while, her voice finally sounded.

"I... am willing!"

Hearing this.

A satisfied smile appeared on Corpse Ancestor Tian Yue's face.

"Don't resist, I will use my original corpse energy to help you become a Corpse Dragon!"

"Snow Emperor, you also have dragon blood and can control water. Later, you will control the water of this black pool to refine the black dragon's bones."

"Venerable Dragon Tiger, Taoist Ambition, you two will protect us."

Lin Tianhao hesitated slightly.

This Corpse Ancestor Tian Yue is, after all, an invited reinforcement...

Taoist Ambition saw Lin Tianhao's hesitation and said:

"This is also the meaning of the superiors."

"If you want to complete the task, this step is very important."

"Okay."

Since Taoist Ambition had said so, then he had nothing to say.

Corpse Ancestor Tian Yue stepped forward to the black dragon, she raised her slender hand and placed it on the black dragon's forehead.

Streams of corpse energy surged from Corpse Ancestor Tian Yue's palm towards the black dragon's body.

"Moo—"

The black dragon let out a painful groan.

Corpse Ancestor Tian Yue's original corpse energy spread from her crown to her limbs.

Soon.

A strong death aura emanated from the black dragon's body.

"She... is dead!"

The familiar feeling of enlightenment surged.

Lin Tianhao felt that his realm had obviously improved by a notch.

The improvement when he killed the big-headed boy just now was less than one-fifth of this.

Sure enough.

The effect of slaying a dragon is good.

If he could slay a few more dragons, then his realm would rise rapidly.

Just at this moment.

The water of the black pool actually began to be devoured by the black dragon's body.

In an instant, the black pool that had submerged everyone had dropped to the level of the black dragon's dragon body.

"Snow Emperor!"

Corpse Ancestor Tian Yue's voice came.

Lin Tianhao understood what Corpse Ancestor Tian Yue meant. Now that the black dragon's body could no longer touch the black pool, the water of the black pool below could naturally only be controlled and drawn up by him.

Lin Tianhao did not hesitate at all and immediately controlled the water of the black pool to surge towards the black dragon.

The black dragon's body was like a bottomless pit, no matter how much water from the black pool Lin Tianhao gathered, the black dragon's body accepted it all!

Corpse Ancestor Tian Yue's body erupted with corpse energy, and a large amount of corpse energy surged out.

After a while.

Not a single drop of water was left in the black pool.

All of it had been poured into the black dragon's body by Lin Tianhao.

Lin Tianhao also didn't expect.

The black dragon's body could actually hold so much black water.

Next.

Was a long wait.

Corpse Ancestor Tian Yue's body surged with corpse energy, leaving behind strange runes on the black dragon's body.

Chapter 1269 - Mountain people: Chulandu!

"Snow Empress, why don't you go down and rest for a while?"

Daoist Wild Ambition spoke faintly.

"Corpse Ancestor Tian Yue is refining a dragon, which should be the Demon Bone Corpse Dragon she just mentioned. Judging from this, it will probably take three or four days to finish."

Lin Tianhao's mouth twitched. "It takes that long?"

Daoist Wild Ambition chuckled and said:

"This is already fast. You haven't seen those evil cultivators who refine corpses. They can't refine anything worthwhile in three to five years."

Lin Tianhao smiled awkwardly.

He was indeed a little too impatient.

Refining corpses is something that can't be rushed.

Moreover, this is refining a dragon!

This is also good, he can return to Twilight of the Gods to continue comprehending the Dao.

Lin Tianhao had already obtained the Five Elements inheritance, and also obtained the Wind inheritance.

No matter what, he must first raise the Wind inheritance to the level of Great Perfection of the Law of Wind, and then improve the Law of Five Elements.

The only pity is.

Lin Tianhao had previously thought about mobilizing the water of the Black Pool to submerge other stone chambers.

As a result...

Before he could act, it was all absorbed by the Black Dragon.

But the problem is not too big.

Daoist Wild Ambition had also said before.

Corpse Ancestor Tian Yue came this time, in addition to saving Wang Chongfeng.

Her master also instructed her to protect him.

If she refines the Demon Bone Corpse Dragon, then it will be easier for him to complete the task later.

Withdrawing his thoughts.

Lin Tianhao put on his game helmet and entered Twilight of the Gods.

Still Wind Restraint Canyon.

Lin Tianhao began his journey of comprehending the Dao.

After reaching the level of Law, the speed of comprehending the Dao has obviously slowed down a bit.

However, this does not have too much impact on Lin Tianhao.

The main reason is that the Jade Butterfly of Creation has too much blessing for comprehending the Dao.

In addition to Lin Tianhao's other speed boosts for comprehending the Dao, such as the Fairy Picture, Lin Tianhao's speed of comprehending the Dao is still very fast.

In the blink of an eye.

Seven days passed.

Lin Tianhao opened his eyes, under the blessing of various factors.

Lin Tianhao's Law of Wind has finally reached Great Perfection!!

It's been seven days.

Daoist Wild Ambition and the others haven't called him yet.

This Corpse Ancestor Tian Yue's speed of refining the Demon Bone Corpse Dragon is a bit slow.

With this thought in mind.

Lin Tianhao took the initiative to withdraw from Twilight of the Gods.

After going offline.

Zuo Tianyang and the others were all adjusting their breathing and cultivating.

This is the sixth level of Mo Yuan, without Daoist Wild Ambition and Venerable Dragon Tiger leading the team, they would not dare to run around.

A little carelessness, and they will have to explain it here.

After all.

These people present.

Lin Tianhao has also died before!

"What's the situation above?" Lin Tianhao looked at the Mole Rat on the side and asked.

The Mole Rat spread out his hands and said:

"I'm not sure, but the Corpse Demon energy transmitted from above is getting stronger and stronger. It is estimated that it will not be long before the refining is completed."

Lin Tianhao nodded, he jumped up and jumped onto the rock wall of the Black Pool, and then climbed up along the rock wall.

Before reaching the place where the Black Dragon was, the overwhelming corpse energy and demonic energy scraped Lin Tianhao's face painfully.

Daoist Wild Ambition and Venerable Dragon Tiger saw Lin Tianhao climbing up from below, and couldn't help laughing:

"It seems that it has exceeded the budget. I asked before, and it is estimated that there are still about three days left."

Lin Tianhao nodded.

He looked up at the position where the Black Dragon was.

At this time, the Black Dragon's aura had undergone earth-shaking changes.

Demonic energy surrounded its body, which had already risen into mist.

Lin Tianhao had actually been thinking about a question before, that is...

Could this Black Dragon also be a test subject of the mysterious person?

If so.

What number is she?

The big-headed boy is test subject number three. If according to this speculation, then this Black Dragon is most likely test subject number two, or... test subject number one.

Looking at this, he still has to wait three more days, there is no way he can do anything about it.

Just as Lin Tianhao was about to go down, a low shout came from above the Black Pool.

"Bold evil creature, you are actually refining corpses into demons here!!"

Along with this loud shout, Lin Tianhao saw two flying swords descend from the sky and slash towards Corpse Ancestor Tian Yue.

Corpse Ancestor Tian Yue's face sank, she poured a lot of corpse energy into the Black Dragon's body, and after seven days of high-intensity dragon refining, she was already a little weak at this time.

These two flying swords were like rainbows, extremely fast, and it was already too late for her to resist.

At this critical moment.

Daoist Wild Ambition wrapped himself in thunder and instantly stood in front of Corpse Ancestor Tian Yue.

Golden light gathered into a shield to resist these two flying swords.

"Clang clang——"

Two sounds of metal clashing rang out, and Daoist Wild Ambition's golden light shield actually had tiny cracks.

"Ancient Sword Control Technique!"

Venerable Dragon Tiger's face was solemn, and he said a Buddhist prayer towards the Black Pool.

"Amitabha."

"The mountain people above should not take action, it's all a misunderstanding."

The flying sword was withdrawn.

Above the Black Pool.

That voice with a bit of anger came again.

"Hmph, how ridiculous!!"

"There are people from both Daoism and Buddhism here, and they will still condone this behavior of refining corpses into demons!!"

Daoist Wild Ambition and Venerable Dragon Tiger looked at each other, and both of them used their movement techniques to head towards the Black Pool.

Lin Tianhao followed closely behind.

He also wanted to go up and see what the situation was with these legendary mountain people.

Before, whether it was Daoist Wild Ambition or Venerable Dragon Tiger, they were extremely solemn when they knew that the mountain people were coming.

Above the Black Pool.

Lin Tianhao saw a young man in a blue robe.

However, Lin Tianhao would not really think that the other party was young.

Looking at his appearance, he is the same as Daoist Wild Ambition, skilled in preserving his youth.

After all, the two swords that this guy had unleashed before were indeed extraordinary.

"Senior, this junior is from the Daoist sect: Daoist Wild Ambition."

Venerable Dragon Tiger also cupped his hands in salute, "Amitabha, this poor monk is from the Great Sect: Venerable Dragon Tiger."

"Venerable?"

A trace of displeasure flashed in the blue-robed youth's eyes, "Not everyone is worthy of the title of Venerable."

"Senior is right." Venerable Dragon Tiger was respectful and did not dare to be negligent in the slightest.

"I, a mountain person, Chu Landu."

"So it is Senior Chu, I have been rude." Daoist Wild Ambition said with a smile.

Chu Landu waved his hand and looked coldly at the bottom of the Black Pool.

"You, one Daoist and one Buddhist, the two great righteous sects are here, and you will actually tolerate this kind of thing happening!!"

Daoist Wild Ambition quickly explained:

"Senior Chu has misunderstood, refining corpses into demons is not necessarily all evil cultivators, all sects of Daoism have inheritors of ghost techniques."

"There is no good or evil in methods, the main thing is to see how they are used."

Chu Landu snorted coldly, "Sophistry!"

"If it weren't for your master having some connection with my Northern Faction Sword Mountain, I would have to teach you a good lesson today."

"Senior knows my master?" Daoist Wild Ambition asked in surprise.

"No need to call me senior, just call me senior brother."

"Yes, yes, yes, Senior Brother Chu." Daoist Wild Ambition said with a smile.

Chu Landu's expression softened slightly and said:

"In any case, this act of refining corpses into demons is against the harmony of the heavens. If it really succeeds, it may attract heavenly lightning to descend. At that time, it will not be something you can stop."

Chapter 1270 - Hei Xiaomeng: Experimental subject number two!

Daoist Yexin nodded and said, "If heavenly lightning really descends, that is the Black Dragon's own affair. Offer help if you can, but if not, so be it."

Chu Lan Du nodded and said, "Since Junior Brother is here, Senior Brother won't say anything more."

Having said that.

Chu Lan Du added, "This Ink Abyss is extremely dangerous. Junior Brother should leave as soon as possible."

Daoist Yexin looked troubled, but finally said, "Senior Brother, I have two reasons why I cannot leave."

Chu Lan Du waved his hand, "Everyone has their own destiny. Since you are unwilling to leave, then forget it."

Having said that.

Chu Lan Du then looked solemnly in the direction of Corpse Ancestor Tian Yue.

"To cultivate to this level with a corpse body is truly commendable. Farewell, take care of yourself!"

With that, Chu Lan Du leaped down and flew towards the black pool below.

Daoist Yexin still wanted to say something, but Chu Lan Du had already disappeared.

This was just a small interlude. In fact, judging from Chu Lan Du's attitude just now, if Daoist Yexin's master didn't have some connection with the Northern Sword Mountain behind him, they probably would have had a fight today.

"Are the people in these mountains so imposing?" Lin Tianhao couldn't help but ask.

Daoist Yexin nodded emphatically and said:

"That's natural."

"We call them people from the mountains, or ancient Qi refiners. Besides the fact that most of them live in the mountains, there is another meaning."

"Oh?" Lin Tianhao asked in surprise:

"What meaning?"

"A person in the mountains is an immortal!"

Lin Tianhao was stunned.

This sentence was very simple, but also very shocking.

What did Daoist Yexin mean by this?

These people from the mountains, are they immortals?!

Daoist Yexin saw Lin Tianhao's surprise and said with a smile:

"Snow Emperor, no need to be so surprised."

"For most of us, their level of power is that of immortals!!"

"Aren't Longhu Venerable and I very powerful? But our realm is just the ceiling of martial artists."

"To be precise, we haven't even reached the ceiling of martial artists yet. We still have the next realm, called Land Immortal."

"Reaching the realm of Land Immortal, you can compare with these ancient Qi refiners."

Lin Tianhao was shocked. This world had once again subverted his understanding.

To Lin Tianhao, the Celestial Phenomenon Realm was already very strong.

"What kind of realm is the Land Immortal Realm?" Lin Tianhao couldn't help but ask.

Daoist Yexin thought for a while and said:

"I don't know. Legend has it that Land Immortals can live for two thousand years and can cross the void and travel the universe."

"Holy crap!!"

Lin Tianhao really couldn't help it.

"Cross the void?"

"Travel the universe?"

To be honest.

Lin Tianhao wasn't surprised at all that a Land Immortal could fly.

But what was traveling the universe?

"Don't be too surprised. The difference in strength within the same realm is also very large."

"Just like Longhu Venerable and I, he has three Dharma Aspects, and I only have one."

"And Dharma Aspect is only the early stage of the Celestial Phenomenon Realm. Only when you cultivate to the later stage is it the real Celestial Phenomenon Realm!"

Lin Tianhao took a deep breath, calming the emotions in his heart.

"In one infusion after another, my realm is also improving, but I feel that my realm system seems to be a bit different from what you said."

Daoist Yexin nodded, "Of course it's different. Your Dragon Clan inheritance, from a certain point of view, your inheritance is even stronger than those ancient Qi refiners' inheritance."

Lin Tianhao nodded lightly, "Okay, there are still three days, then I'll go to the Twilight of the Gods to comprehend the Dao."

Sitting cross-legged, he began to comprehend the Dao!

Comprehending the Dao was boring and tested one's patience.

Fortunately, Lin Tianhao could feel his understanding of the Dao deepening every moment.

In the blink of an eye.

Three days passed.

No one called Lin Tianhao, and Lin Tianhao was not in a hurry to log off, continuing to comprehend the Dao.

Another two days.

Lin Tianhao's Fire Law had already reached the fifth level.

If he continued to comprehend like this, Lin Tianhao's Fire Law would probably reach the level of Great Perfection before long.

However.

At this time.

Someone was finally calling Lin Tianhao outside.

Logging off.

Taking off the game helmet.

The demonic energy and corpse energy had actually disappeared out of thin air.

Daoist Yexin and Longhu Venerable were both by Lin Tianhao's side.

In front.

Was Corpse Ancestor Tian Yue, who had a tall figure.

Beside Corpse Ancestor Tian Yue, there was also a girl in a black dress.

She was born cute and playful, but the expression on her face was like that of a robot, unable to see the slightest ripple.

"She... is that little female dragon?"

Hearing this.

The black-dressed girl, who had been expressionless, instantly darkened her face, and her watery eyes stared at Lin Tianhao.

"She is the Black Dragon, isn't she very cute? I call her Black Little Cute, how about it?"

"Not good," Lin Tianhao said.

This name was even worse than his.

"This is not what I thought," Lin Tianhao said.

Corpse Ancestor Tian Yue couldn't help but smile and said:

"Don't you think that Black Little Cute should be filled with corpse energy and surrounded by demonic energy?"

"These situations you mentioned are all low-level evil beings who can't control their own aura."

"Existences like us can control our own aura. On the surface, we are no different from ordinary people."

"Just like Daoist Yexin and Longhu Venerable, if they changed their attire, could you tell that they are powerful Daoist experts?"

Lin Tianhao nodded, which was true.

"Alright."

"It's been twelve days, let's hurry up."

With that, Lin Tianhao's gaze fell on Black Little Cute again.

"Are you also an experimental subject created by the mysterious person?"

Black Little Cute was a little dazed. She didn't know what an experimental subject was.

"You want to find this thing, right?"

Corpse Ancestor Tian Yue held a black nail that was more than twenty centimeters long in her hand.

"You'll know when you see it."

Lin Tianhao took the black nail.

Sure enough!

Experimental Subject No. 2's Long Nail: Special!!

This Black Little Cute was also an experimental subject of that mysterious mad king.

Moreover.

She was only Experimental Subject No. 2.

In other words.

There was an even more powerful Experimental Subject No. 1.

And... this mad king himself.

The difficulty coefficient of the two subsequent hidden missions was not low.

Lin Tianhao had already obtained five pieces of the experimental subject's equipment.

There were still four pieces left.

He just didn't know how many experimental subjects this mad king had.

If there weren't too many, it would be a bit troublesome.

After all.

There were other people below.

It would be a bit troublesome if other people got the experimental subject's equipment.

But that's okay. If others got it, he could still negotiate.

What should he do if the mad king was killed by someone else?
