Chapter 141 - General Jin Flynn's plan!

At the imperial level, things are slightly different compared to the Star Kingdom.

Because behind an empire, there's usually a Sacred Ground overseeing things!

Sacred Grounds are powerful, mysterious entities, and the people from Sacred Grounds possess extremely terrifying strength.

And the Boundless Limitless Palace is the force behind the Boundless Empire.

Hearing Lin Tianhao actually mention the Boundless Limitless Palace, the black-robed leader was very surprised.

"Snow Emperor, you truly have great opportunities, to actually already know about the Boundless Limitless Palace."

"What is your relationship with the Boundless Limitless Palace? How were you able to obtain such a legendary item?" Lin Tianhao asked.

The black-robed leader shook his head, "There's no need for you to know that. You just need to know that this Knowledge Divine Leaf of mine is real, and that's enough."

Lin Tianhao nodded, "Alright then, since that's the case, then change the mission scroll, add the assassination of King Abraham, and also add this reward."

"No problem."

Lin Tianhao felt like he was about to get rich.

He currently has quite a few rewards waving at him, and the ultimate one is assassinating King Abraham.

As long as he completes this ultimate task, the benefits he'll receive will be immeasurable.

"This is a disguise robe, when are we going to make our move?"

"Now."

Lin Tianhao didn't want to waste any time, naturally, the faster the better.

At the same time.

Lin Tianhao sent a message to Putuo Tianlong, "Prepare yourselves, I'm going to lead people to attack Blackwind City."

"Alright."

After sending the message to Putuo Tianlong, Lin Tianhao sent a message to Zhou Xiaopang.

"You guys prepare, the Star Kingdom's war with the Demon Cave might be starting."

Lin Tianhao had previously told Zhou Xiaopang and Monkey that this national war would be a good opportunity for Monkey.

After sending the messages.

Lin Tianhao led the Demon Cave army to Blackwind City.

The Demon Cave army had been clashing with Blackwind City for some time, but they hadn't been able to conquer it.

Now that Lin Tianhao was leading the team, he directly launched an attack.

A large number of city guards poured out of Blackwind City, starting to fight with the Demon Cave army.

"Now's the time."

Lin Tianhao attacked without hesitation, firing five arrows simultaneously, a hundred arrows per second!

With Lin Tianhao's current damage, he could easily kill these city guards.

The lightning jumps that occasionally triggered were also able to electrocute many people.

Especially after triggering a Heavenly Fire Meteor once, the city guards were terrified.

"What kind of attack is this? How can it be so terrifying!"

"Who exactly is that black-robed person? Even more frightening than the Snow Emperor who attacked the city before."

"City Lord, save us, we can't fight him."

... ..

Lin Tianhao was hidden under the black robe, and no one could see his identity.

However, judging from today's attack methods and damage, Blackwind City Lord Butte Yasi had already guessed Lin Tianhao's identity.

"Damn it, the Snow Emperor is too hateful, actually helping those Demon Cave bastards to attack the city, what does he want to do? Overthrow the Star Kingdom?"

If Lin Tianhao was attacking the city before, the Star Kingdom would still have their own thoughts.

Just at this moment, a general wearing golden armor strode forward.

Seeing the person who came, Butte Yasi's eyes lit up, "It's General Jin Fulin!!"

"Our Blackwind City will rely on General Jin Fulin!"

Jin Fulin grinned and nodded, "I am a Golden General at the limit of Second Rank, it's not a problem to deal with those bastards outside."

The upper limit of the Star Kingdom is Second Rank, most NPCs are First Rank, and a small number are Second Rank.

The requirement for Second Rank is level 50, and you can continue to level up after completing the job change.

As long as you don't complete the Third Rank, you can continue to stay in the Star Kingdom.

Of course.

Certain special existences can also break this restriction, staying in the Star Kingdom with a Third Rank, or even Fourth Rank body.

This General Jin Fulin is a General at the limit of Second Rank.

The limit of Second Rank is when you have already met the conditions for Third Rank, but you haven't changed jobs yet.

Similar to Lin Tianhao's current situation, he is at the limit of First Rank.

He is already level 50 and can perform the Second Rank job change, but he has not changed jobs.

And this limit of Second Rank is level 100!!

This Jin Fulin is a General of level 100, which is why he is so confident.

"General Jin Fulin, the black-robed archer outside is powerful and should not be underestimated."

Butte Yasi reminded.

Jin Fulin sneered, waved the wooden sword in his hand, and said with a smile: "This is the novice equipment given to us by Village Chief Wang."

"Novice equipment?"

Butte Yasi was a little surprised, he didn't know why Jin Fulin would be complacent because of a novice equipment.

"Don't understand, right? Although the novice equipment adds very low attributes, it has a very important characteristic."

"Cannot be dropped?"

"Wrong, it cannot be destroyed. This is the equipment given to those adventurers as a bottom line, so that they will not have no weapons to use."

"We didn't have the qualifications to use this kind of equipment before."

Butte Yasi was not too stupid. After hearing that it could not be destroyed, he reacted immediately.

"In this way, you can use the wooden sword to infinitely knock away the black-robed archer's feather arrows without worrying about his feather arrows destroying the wooden sword."

Weapons can knock away feather arrows. Ying Sha, whom Lin Tianhao encountered at the beginning, could do it.

However, most weapons have wear resistance. Using weapons to knock away feather arrows will reduce the weapon's wear resistance.

But the novice wooden sword's indestructible characteristic can just restrain feather arrows.

It's just that the attribute bonus of novice equipment is very low, and it is often eliminated after leaving the novice village.

"In this way, this novice wooden sword is comparable to a divine weapon. In the hands of General Jin Fulin, it will surely be invincible."

General Jin Fulin laughed loudly, "Enough nonsense, let me go and meet that black-robed archer to see how much he's really worth."

At this time.

Lin Tianhao was slaughtering the city guards. These city guards couldn't get close to him at all and would be killed by him.

With his assistance.

The Demon Cave warriors quickly reached the city gate.

Just when Lin Tianhao was thinking that the national war should break out completely after Blackwind City was breached.

A general holding a novice wooden sword and wearing golden armor rushed out.

"Jin Fulin!"

Lin Tianhao didn't care too much when he saw the name of this general.

It's just that.

He has the Immaculate Eye, and his eyesight is amazing. He noticed the novice wooden sword in Jin Fulin's hand at a glance.

"Novice wooden sword?"

In just an instant.

Lin Tianhao guessed what Jin Fulin wanted to do.

Sure enough.

Jin Fulin took the lead, using the novice wooden sword to chop away Lin Tianhao's feather arrows.

"Using the indestructible characteristic of the novice wooden sword to counter my feather arrows, the idea is good. If it were an ordinary archer, there might really be no way to deal with it."

"However, the one you met today is me... ..."

Chapter 142 - Tuzeljutsu!

Lin Tianhao was very familiar with using the indestructible characteristic of the Novice Wooden Sword to fight against feather arrows, as he had encountered it in his previous life.

The Novice Wooden Sword is indeed indestructible, but the attributes it provides are very low.

Moreover, the Novice Wooden Sword is relatively short. As long as you pay attention to the landing position of the feather arrows, it is not easy to rely on the Novice Wooden Sword to block his feather arrows.

"咻咻咻!"

Lin Tianhao's feather arrows were constantly fired. Even with the Twist String Arrow Technique, he could still fire twenty arrows per second, suppressing General Jin Fulin in a matter of breaths.

As a level 100 Gold Boss, General Jin Fulin was a veteran with extremely fast reaction speed.

Even if Lin Tianhao used the Twist String Arrow Technique to attack from different angles, he could still block them.

"Attack speed is only around ten."

Lin Tianhao narrowed his eyes slightly. He had already judged General Jin Fulin's attack speed in the first round of attacks.

An attack speed of around ten was not bad for a level 100 Gold Boss.

But compared to Lin Tianhao, there was still a significant gap.

"Since that's the case, then let me show you what Acupoint Arrow is!"

A smile appeared on Lin Tianhao's face. Acupoint Arrow could be said to be the ultimate move of archery.

Especially the Twist String Arrow Technique combined with Acupoint Arrow, which was even more difficult than ascending to heaven.

Lin Tianhao had outstanding archery talent and had experienced five years of gaming, plus five years of life-and-death battles.

But even so, his Acupoint Arrow could only be considered a great achievement at most.

Whether it was Five Arrows Fired Simultaneously, Continuous Arrow, or Twist String Arrow Technique, these were divided into five levels by the Qi family of Tian Gong Mountain according to proficiency:

Entry, Proficiency, Great Achievement, Pinnacle, and Divine Transformation.

Lin Tianhao's Continuous Arrow was at the Divine Transformation level because it was the simplest.

And Five Arrows Fired Simultaneously was also at the Divine Transformation level. However, in high-intensity battles, Continuous Arrow and Five Arrows Fired Simultaneously were usually used in combination.

If combined, Lin Tianhao's Continuous Five Arrows Fired Simultaneously could only be considered at the Pinnacle level.

As for the Twist String Arrow Technique and Floating Arrow Technique, Lin Tianhao should be at the Pinnacle level.

Finally, Lin Tianhao's Acupoint Arrow Technique was only at the Great Achievement level.

If he used the Twist String Arrow Technique in combination with the Acupoint Arrow Technique, he could only achieve the Proficiency level.

However.

That was enough.

Acupoint Arrow Technique, as the name suggests, is to use feather arrows to strike acupoints.

The acupoints of the human body are already very small. To use feather arrows to strike acupoints in a long-range combat mode is a very difficult task.

Especially.

Using the Twist String Arrow Technique, which is an arrow technique with an arc, to strike acupoints is even more difficult to estimate.

However, Lin Tianhao could still achieve the Proficiency level with the Twist String Arrow Technique combined with the Acupoint Arrow Technique.

Proficiency, roughly speaking, is that out of ten arrows, five arrows can successfully strike acupoints, and nine out of ten arrows can hit the target.

General Jin Fulin's attack speed was ten. If Lin Tianhao attacked head-on, he could block two or three feather arrows with one sword, or even more.

Even if Lin Tianhao had an attack speed of twenty, it would be difficult to hurt him.

However, the Acupoint Arrow Technique can accurately lock onto the limbs and facial features, launching attacks from different angles all over the body, making it difficult to parry.

Sure enough.

As soon as Lin Tianhao used the Acupoint Arrow Technique, General Jin Fulin was hit by the feather arrows, making him extremely embarrassed.

-425120.

-425121.

.....

Lin Tianhao's feather arrows hit General Jin Fulin, dealing one huge damage after another.

"Damn it!!"

General Jin Fulin was a little exasperated. Lin Tianhao's feather arrows were attacking his left foot, right foot, hands, head, and abdomen.

He didn't know how Lin Tianhao was aiming, how could it be so outrageous.

Especially... Lin Tianhao's damage was so outrageous.

In the distance.

After seeing Lin Tianhao's terrifying archery skills, Shooting Through the Sky's eyes narrowed slightly.

"Acupoint Arrow Technique, or even Acupoint Arrow Technique combined with Twist String Arrow Technique, who exactly is this Snow Emperor?!!"

Judging from Lin Tianhao's previous damage value and archery skills, Shooting Through the Sky had already determined that Lin Tianhao hidden under the black robe was the Snow Emperor.

It's just.

When he saw Lin Tianhao using the Acupoint Arrow Technique, he still felt incredible.

Lin Tianhao didn't care about the others. He was still frantically outputting damage.

Since Lin Tianhao was not wearing the Lucky Bracelet, coupled with the fact that General Jin Fulin suppressed him by fifty levels.

Heavenly Fire Meteor and Reincarnation of Death were not triggered much.

Moreover.

Under the probability suppression, there was not only level, but also grade.

As a Gold-grade General Jin Fulin, he could further suppress the substantial probability of Lin Tianhao's Heavenly Fire Meteor and Reincarnation of Death.

However.

Lin Tianhao was not in a hurry.

He just wanted to stack more health points. It was not a bad thing not to trigger Heavenly Fire Meteor and Reincarnation of Death.

Not only that.

Lin Tianhao really couldn't kill too quickly.

The reason was very simple.

If he defeated Black Wind City in a crushing manner, the national war might be postponed.

He needed to give Black Wind City a crisis, but also make Black Wind City feel a little hope. In this way, it might trigger a national war.

Now Monkey's attributes were already very good. If the national war was triggered now, Monkey would definitely be able to kill in all directions and earn a lot of free attribute points.

Thinking like this.

Lin Tianhao began to constantly consume General Jin Fulin.

General Jin Fulin roared in exasperation: "Who exactly is this black-robed archer? Does he have the guts to fight me head-on!"

Lin Tianhao didn't pay so much attention to General Jin Fulin. The feather arrows were still constantly breaking through the air.

On the walls of Black Wind City.

City Lord Buteya Ersi was finally a little panicked when he saw that General Jin Fulin was actually suppressed by Lin Tianhao and was losing health quickly.

He looked in the direction of Sky Star City.

In the current situation, there was no way their Black Wind City could stop him.

"Your Majesty, what are you waiting for? Start the national war."

Buteya Ersi muttered to himself. He now only wanted King Abraham to start the national war as soon as possible.

But just at this moment.

General Jin Fulin found that the feather arrows attacking him were gone.

Looking in the direction of the black-robed archer, he saw the black-robed archer flashing through space, avoiding an attack.

In the field.

Lin Tianhao was originally constantly outputting damage to General Jin Fulin.

But suddenly he felt a crisis. This was the keen sense of smell developed in the five years of the Great Cataclysm.

Therefore.

Lin Tianhao did not hesitate to use space flash.

Sure enough, an assassin's Cloud Piercing Strike almost hit him.

At this critical moment, Lin Tianhao also saw the assassin's name,

Tuzershu (Gold): Level 100.

Health Points:???

Attack:???

Skills:???

A Gold-grade assassin!

The level is as high as 100!!

Lin Tianhao had no impression of this Tuzershu.

In his previous life, he left the Star Kingdom after his second job change at level 50. He naturally couldn't have come into contact with this kind of existence at the limit of the second job change.

Chapter 143 - Three golden bosses!

However, judging from the sense of crisis I felt just now, this assassin called Tuzier is definitely not ordinary.

Golden-level NPCs are much fiercer than ordinary golden-level monsters, this is the experience Lin Tianhao summed up in his previous life.

To be precise.

NPCs are always fiercer than monsters of the same level.

This guy is also a level 100 assassin, his burst damage is definitely outrageous.

But the strength of an assassin lies in sneak attacks. If this assassin's sneak attack fails, then the threat to Lin Tianhao will naturally be much smaller.

The night stalkers beside Lin Tianhao saw the assassin and attacked without hesitation.

But in just one exchange, the night stalker who attacked first fell to the ground.

One hit, more than 100,000+ damage, directly killed the night stalker beside Lin Tianhao.

This was not his ultimate damage, but because the night stalker only had a little over 100,000 health.

The other night stalkers were also frightened by Tuzier's methods.

There was no way around it.

Lin Tianhao narrowed his eyes slightly, not paying too much attention.

This can't confuse Lin Tianhao.

"Whoosh!"

Lin Tianhao's arrows accurately locked onto Tuzier in stealth.

Tuzier used his dagger to deflect Lin Tianhao's arrows and charged directly towards Lin Tianhao.

Lin Tianhao immediately retreated, continuing to fire arrows.

Tuzier's movement speed was very fast, especially as an assassin, he had many acceleration methods.

He directly used his dagger to deflect Lin Tianhao's arrows.

But the landing points of Lin Tianhao's arrows were much more tricky than he thought.

Tuzier was forced back by Lin Tianhao's arrows before he could run a few steps.

It was a bit too naive for an assassin to try to solo him.

Even if this assassin was a level 100 golden boss, he still couldn't do it.

"Swish, swish, swish!"

Lin Tianhao's arrows became more and more dense, suppressing the assassin in an instant.

"Earth Fissure!"

Just then, another voice rang out.

A huge crack instantly appeared beneath Lin Tianhao's feet.

"Glacial Wings!"

Lin Tianhao did not hesitate and immediately used Glacial Wings to fly up.

At the same time, he locked his eyes on the mage who attacked him.

Archmage Ebier (Golden): Level 100.

Health: ???

Attack: ???

Skills: ???

Lin Tianhao frowned slightly, another golden boss at the peak of second job advancement.

Mage, warrior, assassin, three professions at the peak of second job advancement have already arrived.

It seems that King Abel is paying him more than ordinary attention.

"So you are King Abel's vanguard team."

Lin Tianhao muttered to himself, "To make King Abel appear, I can only kill you."

With these golden bosses at the peak of second job advancement here, King Abel is unlikely to appear.

In this situation, the assassin has high burst damage, but he is a melee fighter. Now that Lin Tianhao is in the air, he is not afraid of melee combat.

Therefore.

His arrows instantly flew towards Archmage Ebier.

Archmage Ebier waved her staff, and an earth-yellow light罩 appeared, enveloping her.

"Swish, swish, swish!"

Lin Tianhao's arrows landed on Archmage Ebier's light罩, and in less than a second, the light罩 shattered.

However.

At the instant the light罩 shattered, Archmage Ebier's new spell had already formed.

A huge array appeared above Lin Tianhao's head.

Lin Tianhao immediately wanted to escape.

However, a yellow light locked onto him, and he only felt his body stiffen. In the next instant, his skin actually began to petrify.

"Not good."

Lin Tianhao accelerated and rushed out, but countless boulders fell from the array above his head.

Lin Tianhao dodged and moved, but he couldn't completely avoid the boulders.

"Bang!"

A boulder landed on Lin Tianhao.

-58210.

Just one boulder knocked off more than 50,000 of Lin Tianhao's health.

This amount of health was insignificant to him.

Seeing that Lin Tianhao was about to rush out of the falling rock formation.

But at this moment, a figure soared into the sky and crashed towards Lin Tianhao.

Lin Tianhao's pupils shrank. The one who attacked was none other than General Jin Fulin.

He actually had flight capabilities as well.

But this was normal.

After all, he was a level 100 golden general, and he held a high position in the Starry Kingdom. It was not surprising that he had some good items.

Lin Tianhao was knocked back into the falling rock formation by General Jin Fulin and was hit by another boulder.

-58222.

Another damage number popped up above Lin Tianhao's head. He didn't lose much health, and Lin Tianhao could completely withstand it.

With the Jade Pendant of Purification, the petrification effect on his body was not obvious, but it still affected his movements to some extent.

This kind of old-fashioned mage is really outrageous.

Lin Tianhao thought to himself, directly equipping the Lucky Bracelet.

Since they want to fight, then let them have a good look at his strength.

Swish, swish, swish!

Five arrows fired simultaneously!

Three arrows to deal with the three golden bosses at the peak of second job advancement.

The other two arrows were aimed at the city guards.

His arrows needed to hit the target to leech health, but whether it was Archmage Ebier, General Jin Fulin, or the assassin Tuzier, they could all block his arrows, preventing him from leeching health.

But now that five arrows were fired simultaneously, there were two arrows that could leech health, which was naturally extraordinary.

Only in this way could he simultaneously suppress the three golden bosses.

Sure enough.

Under Lin Tianhao's high-intensity attacks, the three were suppressed by Lin Tianhao, and Lin Tianhao's arrows could still lock onto them.

"Change direction, surround him from three sides. Don't give him a chance to restrain us all at once."

Archmage Ebier immediately made a judgment.

The three attacked Lin Tianhao from three different directions. Even if Lin Tianhao's archery was superb, he couldn't hit them all simultaneously with five arrows.

"Xue Di, no matter how strong you are, you must die here today."

General Jin Fulin took the lead. He slashed out with his sword, and a huge sword aura cut through the sky, arriving in front of Lin Tianhao in the blink of an eye.

Lin Tianhao fired five arrows simultaneously, all targeting the city guards below.

Bang!

-185080!

A huge damage number appeared. This was the strength of a level 100 golden general, terrifying.

Bosses like this required at least a hundred-man team, or even a thousand-man team, to fight against in his previous life.

But now.

Lin Tianhao was fighting against three level 100 golden bosses with his own strength!

This could already be considered a legend.

The damage Lin Tianhao took was high, but his health leeching ability was equally impressive.

At this time, the power of the Bloodthirsty Necklace was revealed.

The city guards only had about 100,000 health, and Lin Tianhao's arrows could only deal about 100,000 damage.

If it was damage leeching, even with 50% damage leeching, he could only leech about 50,000 health!

Chapter 144 - Full health in one second, stunning the two golden bosses!

However, because the effect of the Bloodthirsty Necklace is to restore one percent of maximum health with each basic attack, as long as it hits the target, it doesn't matter how much damage is dealt.

Even if Lin Tianhao only deals 100 points of damage, he can forcibly restore one percent of his maximum health.

Lin Tianhao's health has now exceeded seven million, and one arrow can restore seventy thousand health.

Five arrows are three hundred and fifty thousand health.

In addition to Lin Tianhao's own life-steal ability, these five arrows fired together allow him to recover over 400,000 health.

"Interrupt him!"

Archmage Abiel also noticed Lin Tianhao's life-steal ability, and his pupils shrank involuntarily.

General Jin Fulin charged up again.

"Wolf's Howl Tremor!"

A wave of light swept toward Lin Tianhao. After being hit, Lin Tianhao only felt dizzy and stiff.

But in just 0.3 seconds, Lin Tianhao broke free from this state.

"How is that possible?!"

General Jin Fulin's pupils shrank, "How can your tenacity be so terrifying!"

Lin Tianhao's tenacity isn't terrifying; it's the effect of the Purification Jade Pendant that's terrifying.

Originally, the Purification Jade Pendant's eighty percent crowd control reduction was already very abnormal, but now Lin Tianhao has increased the Purification Jade Pendant's crowd control reduction to ninety percent.

The control effect of General Jin Fulin's attack just now lasted nearly three seconds and was an area-of-effect control, which was considered a very good method.

But he happened to encounter Lin Tianhao.

"Control connection."

Archmage Abiel waved his staff, and Lin Tianhao felt as if a mountain had been added to his body.

Not only that, but a circle of mud wrapped around his legs, briefly controlling him.

This control time lasted a full 0.6 seconds, twice as long as General Jin Fulin's Wolf's Howl Tremor.

Knock-up, followed by a cross slash to knock back, then a three-stage slash to cause stiffness.

The reason it's a three-stage slash instead of a nine-stage slash or a twelve-stage slash is that the three-stage slash doesn't have a control effect; it can only create a little stiffness by taking advantage of the floating state.

Three stages are the limit; any more, and Lin Tianhao will break free from the floating state.

After all, Lin Tianhao's crowd control reduction ability is there.

"Earth Dragon Impact!"

Just as Lin Tianhao was about to break free from the floating state, an Earth Dragon Impact was launched again, causing a floating effect and also reducing Lin Tianhao's health by more than 80,000.

General Jin Fulin sneered and used a thrust followed by a chain slash, and then combined with an Absorption Crescent Slash to knock Lin Tianhao back, extending the floating effect.

Both the thrust and the chain slash can only cause a stiffening effect. The stiffening effect is not considered a floating connection, so it cannot connect to the control.

The Crescent Slash has a knock-back effect, and with a tricky release angle, it can knock the target upwards again while knocking them back.

Since Lin Tianhao and Jin Fulin are both flying in mid-air, the players below can see this battle clearly.

General Jin Fulin's damage is extremely high. Even though Lin Tianhao has the health regeneration from Resurrection and the Bloodthirsty Dragon Armor, he still can't withstand the continuous attacks of General Jin Fulin and Archmage Abiel.

In less than ten seconds, Lin Tianhao has lost nearly a million health.

This is still because, in order to maintain the knock-up floating, Jin Fulin and Archmage Abiel haven't used any big moves.

Lin Tianhao's armor and magic resistance are too low. The damage dealt to him is almost true damage.

"Earth Pulse!"

Archmage Abiel attacked again, and an Earth Pulse connected again in the air.

Lin Tianhao was delayed, but the Blackwind City direction couldn't hold on.

Because just as General Jin Fulin and Archmage Abiel were fighting Lin Tianhao,

two second-job peak Gold Bosses emerged from the Demon Cave and, with overwhelming force, led the Nightwalker army to slaughter in all directions.

City Lord Buteya Ersi looked at the battle in the air. Ten seconds to only take down one-seventh of Lin Tianhao's health.

To kill Lin Tianhao would take seventy seconds.

But in these seventy seconds, the two level 100 Nightwalkers from the Demon Cave would kill countless city guards.

Tuzel's support for the city guards was still a drop in the bucket.

The burst damage of assassins is indeed high, but when it comes to large-scale killing power, they naturally can't compare with mages and warriors.

The core issue is that assassins have too few area-of-effect killing skills.

Lin Tianhao wasn't worried at all. The combos were good, and he had Purification, but he just didn't use it; he was just playing around.

As for the reason.

He wanted to start the national war!

If he directly killed these three level 100 Gold Bosses, the national war might be delayed.

Losing a million health every ten seconds, he could wait a little longer.

One minute later!

Lin Tianhao had lost six million health. He only needed ten more seconds, and Lin Tianhao would be killed.

General Jin Fulin and Archmage Abiel both showed expressions of joy. They were both a little excited; after working so hard for so long, they were finally about to kill Lin Tianhao.

But Lin Tianhao's next move stunned them.

Purification!

Space Blink!

He fired five arrows at the city guards below, a hundred arrows in one second!

In less than a second.

Lin Tianhao's health was full.

General Jin Fulin: ???

Archmage Abiel: ???

They worked hard for a minute, and Lin Tianhao was full health?

"Too much bullying, too much bullying!!"

General Jin Fulin roared in exasperation.

He charged towards Lin Tianhao again.

Lin Tianhao kept pulling and restraining, and finally.

Under the combined siege of General Jin Fulin and Archmage Abiel, they finally controlled Lin Tianhao again with a combo.

However.

The textbook-level control connection was staged again.

If they were the same level, they wouldn't be able to continuously control Lin Tianhao.

Control duration also has level and grade suppression.

If a level 10 mage's control skill has a panel value of controlling for one second, but if this control skill is released on a level 100 Gold Boss, the control duration may only be 0.1 seconds, or even lower.

This is not the reason for tenacity, but the suppression of level and quality.

As for quality, a player who has changed jobs once can be considered to have improved by one quality.

Monsters are divided into ordinary, elite, black iron, bronze, silver, gold, and platinum levels.

Players initially come in at level 1, which is roughly equivalent to the elite level. The reason it's the elite level is that players can wear equipment.

A level 1 player, even without wearing weapons, has higher attribute values than a level 1 Red-Eyed Rabbit. If they wear equipment, their attributes can be several times higher than ordinary monsters of the same level.

This is also why in Twilight of the Gods, players can solo ordinary monsters of the same level, and even solo monsters above their level.

Initially, it's elite, talent awakening is equivalent to black iron, and a job change is equivalent to bronze, and so on.

Of course, this is just a rough quality distinction and is not entirely accurate. It is the result of analysis by experts in the previous life.

However, one thing is certain, and that is that low-level control of high-level will be weakened.

Conversely, if a level 100 controls a level 1, even if this control skill can only control for one second, when it falls on a level 1 player, the actual control effect may be three seconds, or even five seconds!

Chapter 145 - Lorraine Muye takes action!

Lin Tianhao was currently level 50, and facing a level 100 gold boss, their crowd control would have a certain amplifying effect on him.

This was why, even with Lin Tianhao's 90% crowd control reduction, he was still being continuously controlled.

But Lin Tianhao didn't care; the battle below was already becoming too much for Blackwind City to handle.

If he continued to delay, Blackwind City being breached was only a matter of time.

The national war that Lin Tianhao was anticipating still hadn't started, which could only mean that King Abella had perhaps sensed something and didn't want the national war to break out so quickly.

After all, in his previous life, after the national war broke out, Grand Mage Abiel and General Jin Fulin had never shown their faces.

Now, the national war hadn't even started, and they were already making their move.

Another sixty seconds passed.

Lin Tianhao's health dropped to one million, but this time, Lin Tianhao didn't use Star Moon Purification.

Star Moon Purification had a ten-minute cooldown, and the cooldown time hadn't arrived yet.

Besides,

relying on purification wouldn't let them despair.

The national war hadn't started, and a big reason was probably that they thought General Jin Fulin and Grand Mage Abiel could kill Lin Tianhao.

As long as Lin Tianhao died, then with two level 100 gold bosses entering the field, the situation in Blackwind City could be reversed.

Since their idea was to kill Lin Tianhao, then Lin Tianhao would use their plan against them, letting them kill him once.

Then... revive on the spot, and let them fall into complete despair.

Although Jin Fulin's various skills emerged endlessly, in these two minutes, he had still released more than a hundred skills.

As a warrior, his core attributes were dual resistance, health, and attack power; his mana value wasn't too high.

In this high-intensity game, Jin Fulin's mana was running out.

Grand Mage Abiel's mana was abundant; as a mage, mana was essential, and besides, mages had more equipment that increased mana.

Jin Fulin also noticed the problem with his mana.

“Grand Mage Abiel, I don't have much mana left; you take the main position, and I'll cooperate.”

While speaking, Jin Fulin quickly consumed a potion to restore mana.

Lin Tianhao's lips curled up, and he sneered: “Now's the time!”

Consuming a potion to restore mana was only a momentary thing.

But it was this fleeting opportunity, even less than 0.2 seconds.

Lin Tianhao had already pulled away, and at the same time, feathered arrows poured out.

“Earth Shield!”

Grand Mage Abiel waved his staff, and a huge wall of earth appeared, actually intercepting all of Lin Tianhao's attacks.

“Want to heal? Dream on!”

Lin Tianhao smiled playfully, and his body plunged downwards with all his strength.

In the sky, he was like a living target; since that was the case, then he would leave the sky and enter the chaotic battlefield.

“Where do you think you're going!”

General Jin Fulin followed closely behind, chasing after him.

Lin Tianhao equipped the Lucky Bracelet and began to output frantically.

In less than a second, Heavenly Fire Meteor triggered.

Fire meteors fell from the sky, dealing extremely terrifying damage.

Of course, it also indiscriminately killed some Nightstalkers of the Demon Cave.

The black-robed leader frowned when he saw this scene in the distance, but he didn't say a word.

Because he noticed that after Heavenly Fire Meteor triggered, Lin Tianhao's health had recovered by more than three million!

“Is this the Snow Emperor? Any means he uses can restore so much health.”

Heavenly Fire Meteor was a skill and didn't count as a normal attack; otherwise, Lin Tianhao could return to full health with just one trigger.

But this also made Grand Mage Abiel and General Jin Fulin's scalps tingle.

Lin Tianhao's methods were too terrifying.

It was even a bit unbelievable.

“Quickly connect the control, don't let him heal again.”

Grand Mage Abiel roared in exasperation.

He was also encountering such an outrageous existence as Lin Tianhao for the first time.

High health, high damage, and strong recovery ability.

Was this still a human?

Could a level 50 adventurer really be this strong?

“There's no chance, my mana can't hold on.”

General Jin Fulin originally didn't have much mana left, and he had just used two acceleration skills to chase Lin Tianhao, so his mana was even more insufficient.

“General Muye, make your move!”

Grand Mage Abiel said in a certain direction.

Hearing this, Lin Tianhao raised his eyebrows and secretly thought something was wrong.

Not only Lin Tianhao, but the black-robed leader also narrowed his eyes.

Luo Lin Muye!

Luo Lin Muyuan's younger brother, the Grand Marshal of the Starry Kingdom, whose strength was comparable to Luo Lin Muyuan.

Moreover, Luo Lin Muye was now very close to King Abella, and there were rumors that Luo Lin Muye's strength had already surpassed Luo Lin Muyuan.

But regardless of whether he had surpassed him or not, Luo Lin Muye's strength was tyrannical, which was an undeniable fact.

“Sweeping Thousands of Troops!”

Luo Lin Muye descended from the sky, and the spear in his hand struck, directly killing hundreds of Nightstalkers with one move of Sweeping Thousands of Troops, making people tremble with fear.

“Is this Luo Lin Muye?”

Lin Tianhao muttered to himself; a range skill could actually deal such terrifying damage.

This wasn't the power that a gold-level second-job change limit should have!

Unless...

This Luo Lin Muye was platinum-level!!

Lin Tianhao's gaze fell on Luo Lin Muye.

Luo Lin Muye (??): ???

Health: ???

Attack: ???

Skills: ???

He could check the grade and level of Grand Mage Abiel and the others, but he couldn't check the grade and level of Luo Lin Muye.

The answer was either that Luo Lin Muye was one of the few third-job change powerhouses in the Starry Kingdom, or... Luo Lin Muye was platinum-level.

Perhaps, he might have both.

But regardless of the possibility.

Luo Lin Muye was very strong and couldn't be fought head-on.

“You head-hiding, tail-showing fellow, let me end your life!”

As soon as he finished speaking, Luo Lin Muye turned into an afterimage, and the spear in his hand pierced through Lin Tianhao's body.

Critical Hit!!

-689801!!

An extremely terrifying damage number appeared.

Lin Tianhao couldn't help but gasp; this damage was too terrifying.

After Luo Lin Muye finished this attack, his second attack came down on Lin Tianhao without hesitation.

Lin Tianhao's pupils suddenly shrank, and his body immediately did a backflip, narrowly avoiding this attack.

Chapter 146 - Hunyuan Wuji Lightning Gun!

Luo Lin Muye sneered, "Good reflexes, but in the face of absolute strength, your skills are not enough."

As soon as he finished speaking.

Luo Lin Muye arrived behind Lin Tianhao and thrust his spear at the back of Lin Tianhao's head.

Weakness attack!

If this hits, then without a doubt, Lin Tianhao will lose hundreds of thousands of health points again.

Although Luo Lin Muye's speed is not much faster than Lin Tianhao's, the natural advantage of melee classes in closing in on archers is reflected at this time.

Lin Tianhao could not avoid this attack.

Twilight of the Gods emphasizes teamwork.

Priests, offensive mages, control mages, formation masters, shield warriors, berserkers, knights, summoners, burst archers, functional archers, the ten essential classes for team formation.

Among them, two priests are needed, and two shield warriors are needed. Therefore, generally speaking, teams consist of twelve people.

The maximum team size for most dungeons in Twilight of the Gods is also twelve.

As for assassins, assassins are not worthy of teaming up!

Don't think that assassins have high single-target burst damage, but when teaming up for dungeons, assassins' sustained output ability is too poor. They can't tank, their range is short, and they can easily die after a burst of damage.

Bringing an assassin is not as good as bringing another mage or priest. After all, a fully geared mage's damage is not inferior to an assassin, and they are ranged, making them less likely to be killed instantly.

Lin Tianhao is very strong.

He hasn't really teamed up with anyone along the way.

As for teaming up with someone like Floating Tower Shield Mountain, it doesn't count at all, because that was just taking Floating Tower Shield Mountain to level up.

Now, the shortcomings of Lin Tianhao's solo combat are showing.

Being approached by a powerful warrior like Luo Lin Muye makes it difficult for him to parry.

This is also why he wants to train Monkey and Fatty.

No matter how strong a person is, they may have weaknesses.

With his stats, if someone could help him contain Luo Lin Muye, he could kill Luo Lin Muye in at most a minute.

But now, there is no one to help Lin Tianhao.

Critical hit!

-319850!!

Another huge damage number appeared, and Lin Tianhao's health dropped sharply.

Lin Tianhao did not hesitate and immediately spent one hundred and eighty-five free attribute points to increase his movement speed to twenty.

After his movement speed reached twenty, Lin Tianhao's movement speed was comparable to Luo Lin Muye's.

Luo Lin Muye's expression changed, "How can he have such a fast movement speed?!"

He was a little shocked.

"Level fifty, how can he have such a fast movement speed!"

Lin Tianhao is indeed level fifty, but he has obtained several thousand free attribute points.

Moreover.

Lin Tianhao is not satisfied with a movement speed of twenty, because he found that his movement speed of twenty was actually about the same as Luo Lin Muye's, or even slightly slower.

Therefore.

He spent another four hundred free attribute points and increased his movement speed to thirty in one go!

Don't ask why.

Just say that he has a lot of free attribute points, it doesn't matter!

With this one breath, Lin Tianhao spent five hundred and eighty-five free attribute points. If he were to level up, he would have leveled up one hundred and seventeen levels.

Moreover.

Even after spending so many free attribute points, Lin Tianhao still has as many as two thousand three hundred free attribute points.

Lin Tianhao even had the idea of spending another two thousand free attribute points to increase his attack speed to thirty.

But after thinking about it, Lin Tianhao didn't do that for the time being.

An attack speed of twenty is enough for now. What he lacks now is not damage, nor is it attack speed.

Because as long as there is room for output, he can kill Luo Lin Muye within a minute, let alone anyone else.

He lacks a front-line player to help him restrict his opponents.

In this regard, Fatty is very good.

Fatty's stats are absolutely fierce as a front-line player.

Of course.

After Lin Tianhao's movement speed broke through thirty, Luo Lin Muye could no longer catch up with Lin Tianhao.

"Damn it, is this still a human?"

Luo Lin Muye took off directly on the spot, his speed suddenly increased, and he was about to catch up with Lin Tianhao.

The corners of Lin Tianhao's mouth rose. He now realized the importance of movement speed.

In his previous life, he didn't have a talent, and he couldn't focus on adding movement speed with free attribute points, so his movement speed wasn't very high.

But just now, his movement speed suddenly increased, giving Lin Tianhao a feeling that he could even dodge basic attacks with his positioning.

Especially.

He actually used movement speed to widen the distance between himself and Luo Lin Muye. This is very incredible.

"Since movement speed is so useful, then add more!"

Lin Tianhao spent another eight hundred free attribute points on movement speed, and his movement speed increased again, making the movement speed of Luo Lin Muye in flight mode only comparable to Lin Tianhao's.

"How is this possible?!"

"How can this guy's movement speed be so fast!"

Lin Tianhao glanced back at Luo Lin Muye and grinned, "You fly very fast, but my movement speed can still increase."

Lin Tianhao spent another eight hundred free attribute points to increase his movement speed to forty-five.

There are still seven hundred and eighty free attribute points left.

At this moment, even in flight mode, Luo Lin Muye's speed is not as fast as Lin Tianhao's.

"Damn it, run your grandpa."

Luo Lin Muye roared, "Profound Cloud: Heart Piercing Thrust!"

Lin Tianhao's eyes narrowed, a lock-on skill.

Luo Lin Muye turned into an afterimage and came to Lin Tianhao in the blink of an eye.

Thrust!

-358214!!

A huge and terrifying damage number appeared. Lin Tianhao's eyes narrowed, and he immediately distanced himself.

Luo Lin Muye was a little frustrated. Lin Tianhao's movement speed was too fast, and he couldn't catch up even with Gale Wings.

He just used a lock-on charge skill to catch up for a moment, but in the blink of an eye, Lin Tianhao distanced himself again.

The most important thing is.

During the running process, Lin Tianhao's feather arrows are still reaping the lives of the city guards.

"So it turns out that fast movement speed is such a pleasant thing."

Lin Tianhao felt that he was now a downgraded version of the Flash. No matter how powerful others are, what does it matter? Can they touch him?

They can't touch him!

Hahaha!

Lin Tianhao's mood suddenly became cheerful.

This kind of movement speed is awesome!

Luo Lin Muye was so angry that his face turned red. He now felt like he was a dog.

And Lin Tianhao is the one walking the dog!

No matter how fast he runs, he just can't catch up with Lin Tianhao.

"I'm so angry! If I don't kill you, it will be difficult to relieve the hatred in my heart!"

Luo Lin Muye stopped running directly. He stood in place and pointed the spear in his hand at the sky.

"Primal Chaos Limitless Lightning Spear!"

As Luo Lin Muye's voice fell, he instantly flew into the sky, and then turned into a stream of light and crashed towards Lin Tianhao.

A huge sense of crisis surged into his heart, and Lin Tianhao's eyes narrowed.

"Invincible Golden Body!"

At the critical moment, Lin Tianhao used the Invincible Golden Body.

"Die!"

Luo Lin Muye had a grim smile on his face. Under his ultimate move, he didn't believe that Lin Tianhao would not die.

-Immune!!!

Two ordinary words popped up above Lin Tianhao's head.

Chapter 147 - Lorraine Muye was so angry that his cell wall was separated!

Luo Lin Muye: ? ? ?

His ultimate skill was actually immuned! What kind of godly skill is this!

However.

Lin Tianhao didn't give him a chance to think and ran away in a puff of smoke.

His ultimate skill being immuned made Luo Lin Muye gnash his teeth in anger, but he was helpless.

Lin Tianhao was running too fast, he couldn't catch up at all.

With a movement speed of forty-five, Lin Tianhao felt like he was flying close to the ground.

This movement speed was even faster than his previous life's movement speed.

And his previous life's movement speed was around twenty, which was about the same as Luo Lin Muye's movement speed.

Luo Lin Muye relied on the Wings of Gale to increase his movement speed to around thirty, and then used skills to increase his movement speed again.

But he still couldn't catch up with Lin Tianhao's movement speed of forty-five.

These free attribute points were well spent!

Lin Tianhao smiled, running and attacking at the same time.

Luo Lin Muye narrowed his eyes, he could see that he couldn't catch up with Lin Tianhao at all.

Lin Tianhao could also output damage to the city guards while running, at this rate, Blackwind City would be in imminent danger.

Thinking like this.

Luo Lin Muye charged into the Nightwalker army formation, like a god of war descending, with each strike, at least one Nightwalker fell.

If it was a ranged skill, dozens or hundreds of people would die at once. The Nightwalkers fell before him like chopping vegetables.

Lin Tianhao grinned, firing five arrows at once, a hundred arrows per second.

While outputting damage, Lin Tianhao relied on his superb movement speed to start... scavenging!!

Every national war is an opportunity for ordinary players.

Because participating in the national war, every time you kill an enemy unit, you will get free attribute points.

Besides that.

There is also a very good thing, that is to pick up equipment and skill books.

The main players in the national war are rarely players, basically it is a war between NPCs, wild monsters, etc.

When NPCs and wild monsters are killed, there is a chance to drop equipment and skill books.

A national war involves hundreds of thousands of casualties, and the things that drop are immeasurable.

Lin Tianhao's movement speed was fast enough, so he started targeted scavenging.

First of all, skill books.

After all, except for a few special equipment and god-given equipment, most equipment is transitional.

But skill books are different, skills can be upgraded to stars, even if the skill is trash, Lin Tianhao can't use it, but he can give it to ordinary players in the guild.

At each stage, different people have countless needs for skills.

Compared to harvesting ability, Lin Tianhao is no worse than Luo Lin Muye.

None of these city guards can withstand Lin Tianhao's arrow.

A hundred arrows per second means that hundreds of city guards die in Lin Tianhao's hands every second.

Of course, in reality it is more than that.

Because Lin Tianhao also has the lethality of the two ranged passive skills, Lightning Leap and Heavenly Fire Meteor, which are also extremely terrifying.

Luo Lin Muye showed a look of horror on his face when he saw Lin Tianhao's terrifying harvesting ability.

But this feeling of wanting to kill Lin Tianhao but not being able to touch him made him feel extremely uncomfortable.

Just at this time.

A dagger stabbed from behind Lin Tianhao.

It was none other than Tu Zeershu who made the move.

Lin Tianhao's expression changed, and his body twisted instantly. The extremely high movement speed allowed Lin Tianhao to easily avoid Tu Zeershu's attack.

Tu Zeershu was not surprised. As Lin Tianhao moved, he threw a thumb-sized metal bead in his hand.

"Boom!"

The metal bead exploded instantly, and the huge impact carried Lin Tianhao flying.

"Now is the time."

The remote Abbey Grand Mage waved his staff.

"Earth Dragon Impact!"

"Earth Pulse!"

Two knock-up skills followed one after another.

At the same time.

General Jin Fulin turned into an afterimage and rushed up. He connected with an upward pick, three-stage slash, and cross slash, causing Lin Tianhao to be continuously knocked into the air.

"Damn it, don't let him land, hammer this son of a b\*tch to death."

Luo Lin Muye was extremely excited when he saw Lin Tianhao being knocked into the air, with a hideous smile on his face, and rushed towards Lin Tianhao.

"Poison Dragon Drill!"

"Phantom Frenzy!"

"Sweeping the Army!"

"Throat Lock Sky Strike!"

...

One after another skills with knock-up effects fell on Lin Tianhao, quickly consuming Lin Tianhao's health while continuously knocking Lin Tianhao into the air.

Three level 100 golden bosses plus Luo Lin Muye began to pour attacks on Lin Tianhao.

"Finally going to die!!"

Luo Lin Muye's excited face twisted.

Being played like a dog by Lin Tianhao before made Luo Lin Muye so angry that he almost lost his mind.

Now that he finally had a chance, he naturally wouldn't give Lin Tianhao the slightest chance, and directly wanted to kill Lin Tianhao.

Lin Tianhao was not flustered at all. He was careless just now. Because of the sudden surge in movement speed, he had a feeling that even normal attacks could be dodged, so he didn't keep moving.

As a result, he gave Tu Zeershu a chance to knock him into the air.

However.

It doesn't matter anymore, the real despair will be exposed after they kill him.

Lin Tianhao's Star Moon Purification has already cooled down at this time, but Lin Tianhao just doesn't use it.

He knows.

The national war has not yet started, because these people still think that as long as they kill him, they can reverse the situation.

Since that's the case.

Then let them kill him once, and then, let them completely despair.

"Is he finally going to be killed?"

In the distance.

Zhu Meng Yanxue frowned. Not only did she have such thoughts, but many people present had similar thoughts.

Lin Tianhao's strength has exceeded their imagination.

"The myth of invincibility will eventually be ended."

Kuang Zhan Daofeng showed a smile on his face, as if he felt that Lin Tianhao would be defeated, then it would not be enough of a myth.

"Boom!"

Luo Lin Muye completed a fatal attack on Lin Tianhao, and Lin Tianhao fell on the spot.

"Phew, I finally killed this damned guy."

Luo Lin Muye showed a smile on his face.

"Join me in counterattacking the Demon Cave, let these Nightwalkers have no return!"

Luo Lin Muye led the city guards into the Nightwalker's camp.

However...

Three seconds later, Lin Tianhao resurrected in place and started a new round of harvesting.

"General Muye, it's haunted, he appeared again."

Abbey Grand Mage looked at the resurrected Lin Tianhao in disbelief.

Lin Tianhao is now level forty-nine, proving that Lin Tianhao was indeed killed just now.

But after being killed, he should resurrect in the main city, or resurrect in the territory, and it would take time to come out again, how could he appear here so quickly.

When Luo Lin Muye saw the resurrected Lin Tianhao, he roared in anger, "I'm so angry!!"

Chapter 148 - Second main occupation: Warrior!

This time, Lin Tianhao didn't give them any chance, maintaining high-speed movement and constantly reaping the lives of these city guards.

While moving, Lin Tianhao was also constantly changing direction, making it impossible to predict which way he would move next.

Luo Lin Muye gasped, Lin Tianhao's reaping speed was truly terrifying.

"Is it impossible to stop him after all?"

Luo Lin Muye clenched his fists, Lin Tianhao's perversion repeatedly subverting his imagination.

He took out a sound transmission符.

"Your Majesty, your subordinate is incompetent, let's start the national war."

After a few seconds, a server-wide announcement rang out.

"Server-wide announcement, due to the large-scale invasion of the Demon Cave, the Star辰Kingdom's national war has begun. Adventurers who kill Nightwalkers can receive high rewards. This announcement is hereby made in the hope that all adventurers can defend the kingdom!"

.....

Star辰Kingdom National War:

Each kill of an ordinary Nightwalker grants +5 free attribute points and +20 gold coins.

Each kill of an elite Nightwalker grants +10 free attribute points and +100 gold coins.

.....

Lin Tianhao raised his eyebrows, the national war had finally begun.

"Fatty, you assist Monkey in participating in the national war," Lin Tianhao sent a message to Fatty.

"Understood."

Monkey was now extremely excited, killing an ordinary Nightwalker was equivalent to leveling up.

If it were ordinary times, he would have some difficulty, but Lin Tianhao had previously helped him obtain a large number of free attribute points, and his attributes were already quite good.

Not only that.

Zhou Xiaopang is now bound to Lin Tianhao and Monkey, and his total health is higher than Lin Tianhao's. In addition, Monkey feeds back armor and magic resistance to him.

In addition to this.

Zhou Xiaopang also obtained three dual skills at the beginning, taking his combat power to the next level.

"Kill!"

Zhou Xiaopang and Monkey charged into the Nightwalker army. With the advantage of dual shields, Zhou Xiaopang's tankiness was quite terrifying.

And Monkey's movement speed, attack speed, armor, magic resistance, health, armor penetration and other attributes have been comprehensively improved.

With an attack power of more than 50,000, only two normal attacks are needed to kill an ordinary Nightwalker.

If a critical hit is triggered, it can be instantly killed.

It should be known.

Monkey's current attack speed has exceeded twenty, faster than Lin Tianhao's.

In addition, with Zhou Xiaopang around, he completely treats Zhou Xiaopang as a meat shield, flashing and moving around Zhou Xiaopang, constantly killing Nightwalkers.

"Those two are so fierce!"

Archmage Ebier smiled on his face, "With the addition of those two adventurers, our pressure can be reduced a lot."

Zhou Xiaopang relies on the reflection damage ability of the double armor, which can cause certain damage to the surrounding Nightwalkers.

Monkey only needs to make up for the damage to kill.

With Monkey's attack speed and movement speed, almost ten Nightwalkers die in his hands every second.

Although they are all ordinary Nightwalkers, this is also fifty free attribute points.

This kind of ability to obtain fifty free attribute points in one second made Monkey extremely excited.

Of course.

He won't be excited for long, because soon elite Nightwalkers will notice them and start pulling with them.

Lin Tianhao didn't think so much, he began to frantically reap the lives of the city guards.

The battle entered a white-hot stage for a time.

Lin Tianhao and Luo Lin Muze and others started a massacre together, and the result was that both the city guards and the Nightwalkers suffered heavy casualties.

However.

There are also experts on the Nightwalker side, and Lin Tianhao relies on Lightning Leap and Skyfire Meteor to kill the city guards even faster.

In the distance, Tianlong Putuo had a satisfied smile on his face.

"Benefactor Xue Di is truly a divine person, able to preside over such a great battle."

Looking at the number of people he had saved skyrocketing, Tianlong Putuo's smile became even stronger.

What Lin Tianhao is doing now has changed the trajectory of many people.

Fatty and Monkey go without saying, as well as Berserker Blade, and Floating Shield Mountain, and of course, Tianlong Putuo.

If it weren't for Lin Tianhao, it would be almost impossible for him to complete the task of saving 100,000 people in one month.

But now, with Lin Tianhao's help, it is so easy to complete the task.

As the Demon Cave experts appeared and restrained Luo Lin Muze and others, Lin Tianhao finally began to make some progress.

However, it was only slight progress.

Because a large number of players are now also joining the battle, they are helping the city guards to kill Nightwalkers.

In this way, the battle was temporarily deadlocked.

However.

This stalemate did not last long.

Most of the players are now around level 30, and there are very few people like Monkey and Zhou Xiaopang with heaven-defying attributes.

Therefore, after two charges, players began to fall in large numbers.

And Lin Tianhao, with the Nightwalkers, went forward and killed into Blackwind City.

Bute Ya'er Si showed a look of horror on his face.

"It's over, it's all over, Blackwind City, can't be defended!"

Lin Tianhao's expression was indifferent, with a faint smile on his face.

Blackwind City's decline has become a reality, and it has no power to fight back. It was easily occupied by the Nightwalkers.

After the Nightwalkers occupied Blackwind City, Lin Tianhao quietly left.

The next thing has nothing to do with him.

He found Tianlong Putuo.

"How is it? 100,000 people should be enough, right?"

"Amitabha."

Tianlong Putuo said a Buddhist chant, "Enough, thank you benefactor, this is the benefit I promised you before."

Tianlong Putuo handed a card to Lin Tianhao.

Lin Tianhao smiled on his face, he can finally have a second main profession!

Archers are still a bit weak. If it weren't for the increased movement speed, he would definitely not be able to withstand Luo Lin Muye's damage.

Now that he can choose a profession, Lin Tianhao only thought about it for a while before he had an idea.

His blue amount is a problem, so a mage is impossible.

Assassin?

Single-point burst is high, but does Lin Tianhao lack damage? Obviously, no!

In that case, he needs the warrior with the highest fault tolerance.

If he can be transferred to a swordsman, especially the kind of sword master he encountered in Sunset Town last time, that would be awesome.

A thousand or even ten thousand flying swords in the air, that would be very cool to think about.

With a sword coming, ten thousand swords fly together!

Of course.

Lin Tianhao is just thinking about it now. Warriors can be transferred to berserkers. Sword masters are also a type of berserker, that is, giving up defense and focusing on attack.

Shield warriors basically rely on shields to hit damage. The blood bar is thick, the defense is high, but the damage is estimated to be the greatest from counter-injury.

Knights, with a shield in one hand and a long sword in the other, are both offensive and defensive, and their attributes are relatively balanced, but...mounts are very important.

After all, the strength gap between riding a dragon and riding a horse is still very large.

Lin Tianhao patted the transfer card and chose the warrior profession without hesitation.

"Ding, congratulations on successfully obtaining the second main profession: Warrior."

Chapter 149 - The initial development of the devil monkey!

After completing the class change, Lin Tianhao opened his attribute panel.

Lin Tianhao now has seventeen skills. Apart from the basic novice skills, Exploding Slash and Rapid Shot, Lin Tianhao's other skills are all pretty good.

As for equipment.

The equipment Lin Tianhao is currently wearing can be said to be quite impressive.

Lin Tianhao was wondering if it was possible for him to learn the melee combat skills of this sect.

As for the archer's skills, it's no exaggeration to say that he has already reached an extreme. Perhaps there can be improvements, but not particularly big.

At least, there won't be any particularly big improvements in the short term.

And at this time.

As Blackwind City was breached, the national war entered its final stages.

Monkey excitedly sent a message to Lin Tianhao.

"Bro Hao, we're taking off! This time in the national war, I got more than 1,500 free attribute points as a reward. With the blessing of my talent, my attributes have skyrocketed!"

Lin Tianhao smiled.

Monkey's talent, as long as there are enough free attribute points, is not inferior to Divine-grade.

Of course.

The Divine-grade attributes that Lin Tianhao knew of were basically similar to his talent, which could infinitely stack attributes.

The reason why Monkey's talent is Saint-grade is because he still has to rely on free attribute points, and if he only relies on the free attribute points from leveling up, he cannot obtain much power.

"That's good. This national war was originally intended to help you guys."

Lin Tianhao expressed his thoughts, "You have to grow up as soon as possible. I'm still counting on fighting alongside you in the future."

This time, Monkey obtained more than 1,500 free attribute points, which, after being blessed by his talent, is equivalent to actually adding more than 70,000 free attribute points.

Among them, his health skyrocketed by more than 150,000, and attributes such as attack, armor, magic resistance, attack speed, and movement speed have undergone earth-shattering changes.

In particular, Monkey's movement speed and attack speed are beating Lin Tianhao.

Monkey now has more than forty attack speed and more than seventy movement speed.

Lin Tianhao's forty-five movement speed is enough to kite a powerhouse like Loring Muye like a dog.

How terrifying Monkey's seventy-plus movement speed is can be imagined.

The only things Lin Tianhao can steadily suppress Monkey in now are health and damage.

Although Monkey's attack power is also tens of thousands, and his physical penetration is not low.

But Lin Tianhao's arrow damage of more than 400,000 still makes him pale in comparison.

And Monkey's current health is more than 300,000, close to 400,000, which is less than one-tenth of Lin Tianhao's.

However.

To be fair.

With Lin Tianhao's help.

Monkey's Saint-grade talent has now displayed a level that is no weaker than a Divine-grade talent, or even stronger.

The key is that Monkey's attributes are too balanced, with no shortcomings.

"Bro Hao, will this national war continue? Next time, I will definitely be able to kill more."

Lin Tianhao smiled on his face, "That's hard to say, but there's probably one more time."

Now that Blackwind City has been occupied by the Netherworld Nightwalkers, King Abraham's pressure is definitely very high.

Celestial Star City.

Royal Palace Hall.

At this time, the atmosphere in the hall was somewhat tense.

Prime Minister Corsenro took the lead in speaking, "Your Majesty, the Netherworld Nightwalkers are audacious and have actually attacked Blackwind City. If we don't manage them, it will be a disaster for us."

King Abraham's face was gloomy. The affairs of the Star Kingdom are now making him feel increasingly out of control.

Only.

How could he not know what Corsenro was saying? This time, he sent three level 100 Gold-grade powerhouses over, and even Loring Muye went along.

Under such circumstances, they still failed to withstand the Nightwalkers' attack.

Loring Muye strode in from the outside.

"Your Majesty."

He had just entered when Loring Muyuan stepped forward.

"Your Majesty, although Loring Muye is my younger brother, I still have to say that he bears the greatest responsibility for the loss of Blackwind City this time!"

Loring Muye narrowed his eyes slightly, "Brother, as the Grand Marshal of the Army, you didn't go there in the first place and are now criticizing me. Is that appropriate?"

Loring Muyuan snorted coldly, "I am stationed in Celestial Star City, listening to Your Majesty's orders, how could I leave without permission?"

"Enough!"

King Abraham waved his hand and questioned, "Loring MuYe, what exactly is going on? The national war has begun, why was Blackwind City breached?!"

Loring MuYe gritted his teeth and said, "Your Majesty, the reason for this failure is largely because... there was an archer with extremely high damage among the Nightwalkers."

"He alone slaughtered tens of thousands of city guards."

"What?"

King Abraham was shocked, "There is such an expert among the Nightwalkers?"

Chapter 150 - Preparation: Counterattack on Black Wind City!

Lorraine Mu Ye nodded.

He hesitated slightly, but still said, "Your Majesty, I suspect that person is none other than the previously famous... Snow Emperor!"

"What?!"

King Abra stood up abruptly.

Snow Emperor!

He was very familiar with this name, after all, the Snow Emperor had caused quite a stir recently.

"It should be him. He was wearing a disguised black robe, and I couldn't see through his identity, but his fighting style and damage values are almost the same as the Snow Emperor's."

King Abra narrowed his eyes, "This Snow Emperor is helping the Demon Cave attack Blackwind City, which is unforgivable."

"Grand Marshal, I order you to hold off the Snow Emperor. No matter what, you must not let him participate in the next battle."

Grand Marshal Lorraine Mu Yuan raised his eyebrows. This was a bit difficult for him.

The Snow Emperor is now in the limelight. Lorraine Mu Ye had already suffered a loss at the hands of the Snow Emperor this time, and he didn't have much confidence in taking action either.

"What? Is there a problem?"

King Abra asked calmly.

Lorraine Mu Yuan shook his head, "Your Majesty's order, this humble minister will hold off the Snow Emperor even if it means sacrificing my life."

"That's good."

King Abra nodded with a smile, his eyes falling on Lorraine Mu Ye.

"Lorraine Mu Ye, you formulate a plan to counterattack Blackwind City. Do you have confidence?"

Lorraine Mu Ye nodded, "If the Snow Emperor doesn't interfere, I am confident that I can take back Blackwind City."

"Okay, then I will appoint you as the Great General of the Nation, give you an army of 100,000, and you must take down Blackwind City."

"This humble minister will definitely live up to His Majesty's expectations!"

Lorraine Mu Yuan frowned when he heard that Lorraine Mu Ye was actually appointed as the Great General of the Nation.

But he didn't speak. Instead, Prime Minister Kersen Luo stepped forward and said:

"Your Majesty, Lorraine Mu Ye has just returned from a defeat. It would be fine if he wasn't punished, but to also grant him the title of Great General of the Nation, is that appropriate?"

King Abra's eyes narrowed, "What? Is the Prime Minister questioning my decision?"

"I dare not."

Kersen Luo quickly bowed, "It's just that this humble minister feels that it would be more appropriate to bestow the title after Lorraine Mu Ye has taken back Blackwind City."

King Abra looked at Kersen Luo with a smile that was not a smile. He was eager to bestow the title on Lorraine Mu Ye because he knew that time was tight now.

Kersen Luo and Lorraine Mu Yuan were ambitious, and someone needed to replace Lorraine Mu Yuan in the army.

But replacing Lorraine Mu Yuan was not something he could do with a single sentence, but required prestige.

Lorraine Mu Ye's current prestige is not enough to replace Lorraine Mu Yuan.

Thus,

He wanted to bestow the title on Lorraine Mu Ye now, and then bestow the title again after Lorraine Mu Ye took back Blackwind City.

After that,

It would be to attack the Demon Cave and bestow the title again.

With three consecutive meritorious deeds, Lorraine Mu Ye would have a chance to replace Lorraine Mu Yuan.

After all, they were both military generals!

King Abra stared at Kersen Luo for a while, a smile appearing on his face.

"Alright, if that's the case, then we'll wait until General Mu Ye takes back Blackwind City before bestowing the title."

Although King Abra was very unhappy, Kersen Luo had already spoken and had a valid reason.

If he forcefully bestowed the title on Lorraine Mu Ye, it would be counterproductive.

.....

Lin Tianhao had now come to the Blackwater Lake Dragon Turtle again.

No other reason.

He would farm health points whenever he had time. As for other things, he couldn't rush, mainly because rushing was useless.

After clearing the Blackwater Lake Dragon Turtle more than ten times in a row, someone he didn't expect came.

Lorraine Mu Yuan!

Lin Tianhao might have mistaken him before, but now that he was level 50, he could check Lorraine Mu Yuan's name.

"Grand Marshal, what are you doing looking for a nobody like me?" Lin Tianhao asked.

Lorraine Mu Yuan shook his head with a smile, "Snow Emperor, you are not a nobody. You are stirring up trouble in our Star Kingdom."

Lin Tianhao smiled noncommittally and asked, "Blackwind City has been breached. As the Grand Marshal, you came to find me, surely not to ask me to help you attack Blackwind City."

Lorraine Mu Yuan smiled, "Alright, Snow Emperor, you know what I'm thinking."

"King Abra shouldn't personally lead the troops for just one Blackwind City, right?"

As long as King Abra didn't personally lead the troops, it would be as difficult as ascending to heaven for him to kill King Abra.

"Of course not, he guessed that you were that black-robed archer, so he came to guard you."

Lin Tianhao raised his eyebrows and said, "He didn't guess wrong. What about you? What are you going to do?"

"Guarding you, Blackwind City has already been breached, are you still going to continue rampaging?"

Lin Tianhao smiled helplessly, "Whether you can stop me or not is another matter, but let's talk about King Abra, should he be killed or not?"

"Of course he should be killed, but killing him is for the sake of the Star Kingdom, while the Nightwalkers in the Demon Cave will destroy the Star Kingdom."

Obviously.

Lorraine Mu Yuan wanted to stop Lin Tianhao.

"Grand Marshal, you are confused."

Lin Tianhao said helplessly, "If King Abra stays in Sky Star City, who can kill him?"

"Then you can't just breach Sky Star City."

Lin Tianhao smiled bitterly, "What I want is not to destroy the Star Kingdom, what I want is for King Abra to personally lead the troops and then kill him."

"Difficult, even almost impossible. He has life-saving methods. Not to mention anything else, I know that he has a space teleportation talisman inherited from the Star Kingdom."

"What?!"

Lin Tianhao twitched his lips, "What is this? How could he have a space teleportation talisman?"

Even if he was the king of the Star Kingdom, Lin Tianhao was still very surprised.

Because space teleportation talismans can only be made after the fourth turn.

It also requires a space-type profession of the fourth turn, and the spirit talisman master profession must also reach the fourth turn to do it.

Double fourth turn for both main and sub professions, and it must be a space-type profession. Even in the mid-game, this condition is very harsh.

In Twilight of the Gods, the first turn is level 10, the second turn is level 50, the third turn is level 100, and the fourth turn is level 200.

To have a spirit talisman master of at least level 200, but according to Lin Tianhao's understanding, in the Star Kingdom, the second turn limit of level 100 is already the top powerhouse.

There are only a few third-turn powerhouses who exceed level 100.

As for the fourth turn, it is unheard of. Of course, gods don't count.

"In fact, even if there is a space teleportation talisman, I still have a chance to kill King Abra."

Hearing this.

Lorraine Mu Yuan was very surprised. He didn't know where Lin Tianhao's confidence came from.

"But now the arrow is on the string, I must guard you, otherwise I won't be able to explain."

Lin Tianhao smiled mysteriously, "Just guarding me, no need to fight?"

"Just guard, mainly to prevent you from going to Blackwind City."

"Hehe, then that's easy."

Lin Tianhao grinned, "You come with me, I'll take you to see someone."

"See who?"

"You'll know when you get there."
