

# Online game: I have super god-level talent

#15 - Chapter 15 Sir, come and play with me!

Lin Tianhao had never fought this yellow-skinned monster before, but he knew something about its skills.

Needless to say about Overlord Body and Berserk, they are common skills for bosses, and almost every boss in the main city has these two skills.

Overlord Body grants immunity to all control effects, except for curse and suppression-type special skills.

Berserk sacrifices some dual resistance to greatly increase output.

Some powerful bosses can increase their output tenfold in the Berserk state.

Yellow Mountain Illusion is an illusion-type skill that is related to one's mental fortitude. Those with strong mental fortitude will be less affected by the skill.

Soul Absorption and Soul Control are the truly perverted skills of this yellow-skinned monster.

Soul Absorption can forcibly strip away a certain amount of the opponent's soul. The enemy unit whose soul is stripped will enter a weakened state and continuously lose health.

The most outrageous thing is that the continuous health loss lasts for twenty-four hours!

As long as this yellow-skinned monster is not killed, it will continuously lose health for twenty-four hours. If you want to survive, you can only stay in the resurrection altar.

Use the recovery attribute of the resurrection altar to save your life.

As for Soul Control, it is even more perverted. It has a chance to control the soul of the enemy unit, thereby manipulating its battle.

The duration of this Soul Control is also twenty-four hours.

It's ridiculously overpowered.

However, since Lin Tianhao has taken action, he is here to kill the yellow-skinned monster.

The yellow-skinned monster is in mid-air, and it is impossible for him to come down without activating Overlord Body.

Normally, bosses will release both Overlord Body and Berserk skills at the same time when their health is relatively low, and then launch a desperate counterattack.

But this yellow-skinned monster is different. It is a humanoid monster, which is usually smarter than normal wild monster bosses.

This level of intelligence is no less than that of an ordinary adult.

In the early stages of the game, players only regarded NPCs as simple intelligent programs, and they suffered a lot in this regard.

Twilight of the Gods is not just a game.

"Overlord Body!"

However, he put his hand down again.

The reason is simple: the casting distance is not enough!

Most monsters, even bosses, have a skill casting distance similar to the normal attack distance of archers.

Lin Tianhao's normal attack distance is 10% further than that of a normal archer because of the Normal Attack Amplification skill.

It is because of this distance that Lin Tianhao accurately controlled the casting distance, restricting the yellow-skinned monster's attack distance, causing him to raise his hand and put it down again.

In fact, Lin Tianhao's operation already existed in PC games. Some great players in PC games can also deal more damage by pulling and stretching the attack distance.

However, Lin Tianhao's movement speed is a shortcoming after all, and his movement speed is much different from that of the yellow-skinned monster.

Therefore, in just two seconds, the yellow-skinned monster had already approached Lin Tianhao.

Lin Tianhao's eyes narrowed slightly, because the yellow-skinned monster had already raised his hand and was about to release a skill.

In the Overlord Body state, it is impossible for Lin Tianhao to interrupt the yellow-skinned monster's casting skills.

The most important thing is that Soul Absorption is a lock-on skill, which cannot be dodged by relying on movement.

Not far away.

Shadow Kill had already revealed a smile, "Is he finally going to suffer a loss?"

But the next moment, Shadow Kill's smile froze on his face.

Because Lin Tianhao switched his main weapon in seconds, switching his main weapon to a shield, completing a whole set of Black Iron-grade Treant Set.

After changing weapons, Lin Tianhao's resistance and health have been improved.

Moreover, the set attributes attached to the Black Iron Treant Set are even more outrageous than the Elite-grade Treant Set.

It can restore 200 points of health per second. Not only that, but the reflected damage is also 20%.

In addition, there is a third set effect, which is to increase tenacity by 10%.

The yellow-skinned monster's Soul Absorption skill has a weakening effect, and stronger tenacity can reduce this weakening effect to a certain extent.

-2254!!

A bright red number appeared above Lin Tianhao's head.

-102.

-102.

.....

Then there is forced health loss.

Lin Tianhao changed his main weapon and continued to attack.

Without the main weapon of the Black Iron Set, the health recovery per second was reduced from 200 to 100.

In addition, Lin Tianhao's Recovery skill allows him to recover a total of 150 points of health per second.

In addition, the Black Iron-grade Treant Set itself has equipment attached with health recovery effect.

Therefore, the actual health recovery per second is 180 points.

Completely withstand the Soul Absorption skill.

However, the weakening effect is also outrageous.

Lin Tianhao's attack speed dropped from 3.63 to 2.41, a decrease of almost one-third.

This is still because Lin Tianhao switched weapons.

Seeing the recovery numbers popping up on Lin Tianhao's body, Shadow Kill was stunned again.

Recovering more than 100 points of health per second.

Moreover, the damage of the yellow-skinned monster's Soul Absorption just now didn't even knock out one-tenth of Lin Tianhao's health.

"I'll help you."

Shadow Kill didn't know what he was thinking, but he didn't continue to watch the show. Instead, he took the initiative to appear behind the yellow-skinned monster.

Then he kicked the yellow-skinned monster in the back, jumped up, and instantly slit his throat.

-215.

Bleeding...

-25.

-25.

.....

Shadow Kill's sudden attack surprised Lin Tianhao.

However, the yellow-skinned monster still has more than 900,000 health points. It doesn't seem like he wants to steal the boss by attacking now.

"We can talk about things later. I'll help you fight to 10% and then take the initiative to retreat. You don't have to worry about me stealing the boss."

Lin Tianhao was slightly surprised. Was this assassin player afraid of being killed by him and admitted defeat?

However, Lin Tianhao didn't think much about it. If this assassin player is willing to help him attract hatred, then it's basically stable.

The Overlord Body time is limited. Although he forgot how long the yellow-skinned monster's Overlord Body time is.

But as one of the novice village bosses, his Overlord Body shouldn't be too perverted.

After being attacked by the assassin player, the yellow-skinned monster roared angrily, turned around, and slapped him with a claw.

The assassin player seemed to have expected it. He leaned back and narrowly avoided this fierce claw.

Then he even waved his dagger and cut a knife on the yellow-skinned monster's wrist.

-121.

This time the damage was relatively low, and there was no bleeding effect.

Lin Tianhao seized this opportunity and poured out feather arrows.

Three arrows per second!

Each arrow carries a high amount of damage, because Lin Tianhao is directly attacking the weak point of the back of the head.

"Damn it!!"

The yellow-skinned monster roared, and the next moment, a faint light burst out from his body.

Then.....

The yellow-skinned monster in front of Lin Tianhao disappeared.

Replaced by a long-legged beauty in a thin gauze dress, with a curvy figure and snow-white skin.....

Between her frowns and smiles, she has a captivating charm. She beckoned to Lin Tianhao.

"My lord, come and play with me!"
