Chapter 151 - Attack the Ice and Snow City again!

While taking Loring Muyuan to find someone, Lin Tianhao asked, "Who is responsible for this counterattack on Blackwind City? Loring Muye?"

"That's right, it's him."

Lin Tianhao nodded and immediately sent a message to Monkey.

"Monkey, you and Fatty go find Loring Muye. He's going to counterattack Blackwind City, and you should be able to get the counterattack Blackwind City task from him. Remember, don't accept the city-breaking task, only accept the killing task."

"Okay, Brother Hao."

Lin Tianhao sent the message and led Loring Muyuan all the way to a spirit talisman shop.

At this time, there was a person standing inside the shop.

A person who looked exactly like Lin Tianhao.

"This is... ..."

Loring Muyuan was a little surprised, obviously because this person had hidden his nickname.

Lin Tianhao looked around and, seeing that there was no one around, he let his clone reveal his nickname: Snow Emperor!

"Snow... ... Snow Emperor!"

"The same appearance, the same nickname, this is... .. your clone."

Lin Tianhao nodded, "Yes, you just guard him, so you can give King Abra a satisfactory explanation."

"Okay."

After dealing with Loring Muyuan's matter, Lin Tianhao left Sky Star City directly.

Having taken Blackwind City, the Black Robe Leader was obviously very happy. Seeing Lin Tianhao, his face was filled with a smile.

"Snow Emperor, you've come."

Lin Tianhao sat aside and said, "King Abra has arranged for Loring Muye to lead an army to counterattack Blackwind City."

The Black Robe Leader frowned, "Is there such a thing?"

After saying this, the Black Robe Leader continued, "However, Loring Muye should have guessed your identity during the last attack on Blackwind City, and he will definitely take corresponding measures against you this time."

Lin Tianhao nodded, "That's right, King Abra sent Loring Muyuan to keep an eye on me."

Hearing this.

The Black Robe Leader's expression changed slightly, "If that's the case, then it's troublesome."

Lin Tianhao waved his hand nonchalantly, "You don't need to worry about this. I've already taken care of Loring Muyuan."

The Black Robe Leader was a little surprised, "Taken care of? Is Loring Muyuan willing to help you? That shouldn't be the case, if he doesn't keep an eye on you, he won't be able to explain it to King Abra."

Lin Tianhao smiled mysteriously, "Don't worry, since I said it's taken care of, then you don't need to worry."

"To establish a regime, you need at least three cities and one capital."

Hearing this.

The Black Robe Leader's eyes lit up and he asked, "Are you planning to continue expanding?"

"Of course."

Lin Tianhao said with a smile on his face, "You and I will go to attack the two cities surrounding Blackwind City, and then use Blackwind City as the capital, then you can establish a regime."

The Black Robe Leader narrowed his eyes, thinking, "If that's the case, Blackwind City may not be able to hold on."

Lin Tianhao's lips curled up and he chuckled, "What we're doing is called 'Relieving Wei to Rescue Zhao'. If another city is under siege, will Loring Muye still be in the mood to attack Blackwind City?"

"To take a step back, even if he really takes Blackwind City, so what? After we take the two cities surrounding Blackwind City, it won't be too late to encircle and annihilate Loring Muye's army."

The Black Robe Leader narrowed his eyes, obviously thinking about the feasibility of what Lin Tianhao had just said.

After a brief thought, the Black Robe Leader nodded.

"Okay, then let's do as you say."

"Now that time is tight, let's not waste any time. Let's break Icewind City first, and then break Crimson Peak City!"

Lin Tianhao's lips curled up, and he set off with the Black Robe Leader to attack Icewind City.

After arriving at Icewind City, Lin Tianhao did not hesitate and directly attacked.

Feather arrows cut through the sky, and the two city guards at the city gate fell to the ground in response.

"Enemy attack, enemy attack!!"

"Quick, close the city gate!!"

The alarm sounded over Icewind City, and everyone entered a state of combat readiness.

Lin Tianhao was not flustered at all. His feather arrows kept tearing through the air, and the city guards in the direction of the city gate were quickly harvested by Lin Tianhao.

The Black Robe Leader saw Lin Tianhao's combat power and grinned. He also rushed up.

As one of the three leaders of the Demon Cave, his strength was not weaker than Loring Muye's at all. As soon as he made a move, it was like a wolf entering a flock of sheep, killing the city guards and causing them to retreat steadily.

Icewind City Lord, Bing Fulisi, had an extremely gloomy expression, "These Demon Cave trash dared to set their sights on our Icewind City so quickly. Quickly send a message to General Muye!"

At this time, Loring Muye had already led his army to Blackwind City, and he was preparing to order an attack on Blackwind City.

"General, the Icewind City Lord has sent a message, saying that they were attacked by the Demon Cave and are requesting support."

Loring Muye's expression changed, "The Demon Cave has only occupied Blackwind City and their foundation is unstable, yet they dare to attack Icewind City at this time!"

"Tell Bing Fulisi to hold on. I will take Blackwind City and immediately rush to her aid."

... ..

Icewind City!

Lin Tianhao was like a god of slaughter descending, killing in all directions.

Wherever his feather arrows passed, city guards would fall.

Although the city guards began to fight back on the city wall, feather arrows poured down on Lin Tianhao.

Thousands of feather arrows, mixed with the skills of mages, flew over.

Lin Tianhao's movement speed was amazing. Although he couldn't completely avoid them, he could still avoid these attacks to the greatest extent.

Being hit by a dozen feather arrows was just a splash of water damage for Lin Tianhao, and he could absorb it all in less than a second.

The Black Robe Leader rushed to the front, directly disrupting Icewind City's formation.

"Activate the city protection array!"

Bing Fulisi roared, waving the staff in her hand, and a formation appeared above Lin Tianhao's head, with countless ice cones falling.

"Immune."

"Immune!"

... ..

Bing Fulisi saw the 'Immune' popping up above Lin Tianhao's head, and a look of disbelief appeared on her face.

"How, how did he do it!"

Bing Fulisi simply couldn't believe her eyes.

"Skill... or Ice and Snow attack immunity!"

If it was a skill, Bing Fulisi could barely accept it.

If it was Ice and Snow attack immunity, then she would be powerless.

"Ice Vortex!"

Bing Fulisi waved her staff again and launched an attack on Lin Tianhao.

It's just a pity, she was destined to be disappointed.

"Immune!"

"Immune!"

... ..

What popped up above Lin Tianhao's head was still 'Immune'.

"How is this possible?!"

A look of disbelief appeared on Bing Fulisi's face.

She continued to attack.

But the result was still without suspense.

Immune, still immune!

"How could this be? How could he be immune to Ice and Snow attacks? That is the ultimate blessing of the Ice and Snow Goddess."

"Ice and Snow Goddess, how could she give her ultimate blessing to a Nightwalker!"

While Bing Fulisi was thinking, Lin Tianhao's feather arrows had already poured down on her.

"City Lord, be careful!"

A shield warrior rushed over, his shield blocking Lin Tianhao's feather arrows.

"Bang bang bang..."

"Boom!"

In just a dozen feather arrows, the bronze shield in the shield warrior's hand exploded.

"Swish swish swish!"

The feather arrows fell, and the bronze warrior fell in the blink of an eye.

Chapter 152 - Goodbye, Village Chief Wang!

Bing Fliss immediately retreated upon seeing this.

"Why, why is this happening? Why would the Ice Goddess bestow her ultimate blessing upon this Nightwalker!"

Bing Fliss was a devout follower of the Ice Goddess.

But now, her faith was wavering because of Lin Tianhao.

Lin Tianhao didn't care about any of that; in his eyes, the city defense array of Icewind City was just so-so.

Especially after experiencing the national war in his previous life, he knew the weaknesses of Icewind City's defense array.

Therefore, he began to frantically attack the weak points of Icewind City's defense array.

"Retreat, preserve as much of our forces as possible, and await General Muye's support."

Bing Fliss glanced deeply at Lin Tianhao, who was like a god of war, her eyes flashing with killing intent.

"Why... is my faith truly wrong?!"

Bing Fliss's expression was somewhat deranged, and a faint trace of dark energy flashed in her eyes.

If a High Priest of Light were here, they would surely be able to see that Bing Fliss... was beginning to be corrupted by demonic energy!

Perhaps Lin Tianhao would never have dreamed that his ice immunity would cause Bing Fliss's faith to collapse and even lead her to become corrupted by demonic energy.

Of course, Lin Tianhao didn't consider that much; after attacking Icewind City, he began to quickly clear out the remaining city guards, finally achieving the goal of occupying Icewind City.

Next was Crimson Peak City!

Under the frantic attacks of Lin Tianhao and the Black Robe Leader, Crimson Peak City was also finding it difficult to resist.

In less than half an hour, Crimson Peak City was breached.

The Three Cities and One Capital plan had been initially realized.

Most of the Nightwalkers had retreated and were gradually taking over Icewind City and Crimson Peak City.

Inside Blackwind City.

"Damn it, a bunch of good-for-nothings!"

Loring Muye angrily smashed the table in front of him to pieces.

He had originally thought that Icewind City would be able to hold out, but he didn't expect it to fall so quickly.

Even Crimson Peak City was breached along with it.

"General Muye, it's that Black Robe Archer; his attacks are too fierce."

Loring Muye's expression suddenly changed. "Loring Muyuan, my good brother, you really intend to rebel!!"

Loring Muye was absolutely certain that the Black Robe Archer was the Snow Emperor.

But now that the Black Robe Archer had reappeared, he naturally felt that Loring Muyuan had been ineffective.

"But it's also good; I was just wondering how to bring you down. This time, you let the Snow Emperor go, let's see what you have to say."

Before Loring Muye could rejoice, news came from outside.

"General Muye, that Black Robe Archer has brought people over and is attacking Blackwind City."

Loring Muye narrowed his eyes; if he were to lose Blackwind City after capturing it, he wouldn't be able to explain it when he returned.

After only a slight hesitation, he sent a message to King Abraham.

"Your Majesty, start the national war, or we won't be able to hold it."

Loring Muye transmitted his voice to King Abraham.

However.

The national war he expected did not start. "I have sent an expert over; he will help you deal with the Nightwalkers."

Loring Muye's eyes lit up; he had already guessed who King Abraham had sent.

Lin Tianhao was attacking Blackwind City, and Loring Muye showed no weakness, leading his troops to charge out.

Seeing Loring Muye's position, Lin Tianhao narrowed his eyes.

Loring Muye didn't seem to be within his attack range.

But in reality, due to the amplification of his normal attacks, he was already able to attack Loring Muye.

After only a slight hesitation.

Lin Tianhao did not choose to attack.

Because he knew very well that the amplified range of his normal attacks was a hidden move, even a trump card.

He wanted to use it at the most crucial moment, such as... when killing King Abraham.

Just as Lin Tianhao was thinking this, he narrowed his eyes, because he felt a sense of danger.

Immediately afterward.

"Ding, you have been cursed, attack speed reduced by 5%, movement speed reduced by 5%, damage reduced by 5%."

Lin Tianhao's eyes narrowed slightly; he had a purification jade pendant that would reduce negative effects by ninety percent.

In other words.

This reduction should be fifty percent!

"How is that possible!"

Lin Tianhao was very surprised; not to mention second job advancement, even third job advancement shouldn't be so outrageous.

Curse skills were rare and quite powerful, but this curse skill was ridiculously strong.

Lin Tianhao looked up; it was a player wearing a black robe.

That's right.

It was a player!!

Damn it!

If it were a third job powerhouse like Loring Muye, he would have accepted it.

A player, this was outrageous to the extreme, outrageously home.

Lin Tianhao couldn't remember such a powerhouse appearing in his previous life at this stage.

"Could it be because of me that a butterfly effect occurred? But what kind of butterfly effect could create such a powerful skill?"

A fifty percent reduction in attack speed, movement speed, and damage, was this something that should be appearing at this stage?

"Swish, swish, swish!"

Lin Tianhao raised his hand and attacked, but the player seemed to have anticipated it, and his body began to blur.

The arrows passed through his body, dealing no damage to him.

"Invincible ghosting?"

Lin Tianhao gasped.

Whether it was the curse just now or the invincible ghosting now, Lin Tianhao knew them all.

He even knew the people who possessed these skills in his previous life.

But it depended on the time.

The game had not even been running for twenty days!

Lin Tianhao was in a complicated mood; he gave up on continuing to attack this person and instead began to attack the city guards.

However.

That player had left a deep impression on Lin Tianhao; if possible, Lin Tianhao would very much like to find him.

Such a powerhouse, if he could be brought into his guild, would be quite good.

But he had hidden his nickname, and Lin Tianhao was not yet clear on his identity.

But such a powerhouse would never be an unknown figure and would definitely become famous soon.

Suddenly.

Lin Tianhao heard the sound of something cutting through the air.

Almost as a conditioned reflex, Lin Tianhao turned around and released an arrow.

"Bang!"

Lin Tianhao's arrow was split in two by a flying knife, and the flying knife flew towards Lin Tianhao's head.

Lin Tianhao did a backflip, dodging the flying knife.

But as soon as he dodged the flying knife, Lin Tianhao secretly thought it was bad and immediately fell to the side.

Because the flying knife began to fly back; if he hadn't reacted quickly enough, the back of his head would have been hit by the flying knife.

"It's you!!"

Lin Tianhao's pupils shrank; he saw the person who had just attacked him.

"Snow Emperor, I said, we will meet again, and I will definitely defeat you."

Lin Tianhao looked at his attributes.

Village Chief Wang (Platinum): ???

Health: ???

Attack: ???

Skills: ???

Village Chief Wang, Lin Tianhao had fought him in the novice village, but because Village Chief Wang had transformed into a monster, the two fought.

Although Lin Tianhao had benefited greatly, he had not been able to get rid of Village Chief Wang.

Chapter 153 - Kill Village Chief Wang!

Back when we were in the newbie village, Village Chief Wang was only a Bronze-level boss.

Now he's actually broken through to Platinum-level.

This kind of promotion speed is too terrifying.

Village Chief Wang's demonization, this kind of boss that can upgrade, is already extremely rare.

Generally speaking, only after a country completes its promotion can the monsters and NPCs of that country be promoted.

But Village Chief Wang's situation is really too special.

After pondering for a moment.

Lin Tianhao didn't hesitate and directly attacked.

Village Chief Wang came with ill intentions, so since they were going to clash, Lin Tianhao would test just how strong this Village Chief Wang really was now.

“Swish, swish, swish!”

Lin Tianhao's arrows pierced through the air, but Village Chief Wang didn't care at all. Flying knives appeared in his hands, and as they were released, they rotated around him.

It did have a bit of the...

... ..

One damage number after another appeared above Lin Tianhao's head.

Even after being reduced by the Purification Jade Pendant, the damage was still so high.

“Ding, you have been affected by a severe injury, and your life steal ability has decreased by 1%.”

The corners of Lin Tianhao's mouth rose, and a smile appeared on his face.

The Purification Jade Pendant was too abnormal.

This severe injury effect should have been ten percent, but after being reduced, only one percent of the effect acted on Lin Tianhao.

A moment later.

A smile appeared on Lin Tianhao's face, and his attack frequency became faster and faster.

Although Village Chief Wang was strong, it was still unlikely that he could kill Lin Tianhao while withstanding Lin Tianhao's arrows.

But at this moment, the player who had disappeared before reappeared, and he struck the ground with his palm.

Lin Tianhao's eyes narrowed, and he clearly felt that the space around him had become slightly distorted.

This kind of distortion was not enough to cause him damage.

But... ..

it could change the angle of his arrows.

In other words, the direction of his attacks would be changed.

This was very outrageous!

“Snow Emperor, your death is here.”

Village Chief Wang charged towards Lin Tianhao.

Lin Tianhao's arrows could not hit Village Chief Wang at all because of the spatial distortion.

This gave Village Chief Wang the possibility to kill him.

“Spatial Blink.”

Lin Tianhao immediately distanced himself, then launched an attack on that player.

Too outrageous.

Invincible Etherealization, a fifty percent reduction in the three attributes, spatial distortion, what kind of profession could have these skills?

That player once again used Invincible Etherealization, and Lin Tianhao's arrows missed.

Lin Tianhao rubbed his forehead.

Invincible Etherealization, and he would disappear, it was really a bit unbearable.

No way.

Lin Tianhao could only turn his head to attack Village Chief Wang.

“Fission: Triple Shadow Killing Slash!”

Village Chief Wang's body split into three, and in the blink of an eye, he arrived in front of Lin Tianhao.

Lin Tianhao immediately put away his longbow, summoned the Novice Wooden Sword, and blocked this attack.

“How is that possible!”

Village Chief Wang was shocked, because Lin Tianhao was an archer, how could he use the Novice Wooden Sword.

The Novice Wooden Sword had very low damage, but it had the characteristic of being indestructible.

Therefore, Village Chief Wang's attack was very strong, but it was still blocked by Lin Tianhao with the Novice Wooden Sword.

Only.

Lin Tianhao didn't give Village Chief Wang a chance to think. He used a Ghost Slash, then used Xuanbing Wings to fly into the sky and distance himself.

Lin Tianhao's movement speed was already very fast, and after using Xuanbing Wings, his speed was even faster.

However.

Village Chief Wang obviously wouldn't let Lin Tianhao off so easily.

“Shadow Chasing: Instant Kill!”

Village Chief Wang's figure flashed and arrived behind Lin Tianhao.

To be precise, he appeared in Lin Tianhao's shadow.

“Explosive Slash!”

At the moment Village Chief Wang appeared, Lin Tianhao's attack had already landed.

Village Chief Wang was shocked. Lin Tianhao's reaction speed and combat awareness were a bit too strong.

With such combat awareness, it was almost impossible to achieve without ten years of combat experience.

The Explosive Slash landed, and Village Chief Wang instinctively blocked.

Lin Tianhao didn't cause any damage to him. Lin Tianhao didn't care about this, because he was just using offense as defense, preparing to distance himself.

Xuanbing Wings shook, Lin Tianhao quickly distanced himself, then switched weapons, and arrows began to pour down frantically.

Village Chief Wang was in the air, and his blocking ability was a bit insufficient.

-429108!!

-429108!!

... ..

Lin Tianhao's attacks were very rapid, causing Village Chief Wang in mid-air to fall to the ground.

“Can't fly?”

The corners of Lin Tianhao's mouth rose. If Village Chief Wang couldn't fly, then the next battle would be much easier.

Only.

Before Lin Tianhao could be happy, Village Chief Wang's flying knives were constantly released, and each flying knife transformed into thousands in the air.

Lin Tianhao immediately dodged, but it was too late.

-9850.

-9866.

... ..

Each flying knife could deal nearly ten thousand damage.

Lin Tianhao could completely accept this damage.

However, he was now flying in mid-air, like a living target.

“Found you!”

A faint smile appeared on Lin Tianhao's face, because he had found the player who could use Invincible Etherealization.

Although he had hidden his nickname, his appearance was a bit different from ordinary players, so Lin Tianhao still found him.

“Swish, swish, swish!”

Lin Tianhao's arrows flew towards that player.

That player was shocked, but Invincible Etherealization was still on cooldown and could not block Lin Tianhao's attack.

-429018!!

A huge damage number appeared, but this player was not killed.

Immediately afterwards, another arrow landed, and this player's health bar was cleared.

“More than 400,000 health points, and so many powerful skills, this player is a bit interesting.”

After solving this player, Lin Tianhao distanced himself and went to attack the city guards.

No other reason.

Village Chief Wang's blocking ability was too strong, and his arrows couldn't damage Village Chief Wang at all.

“Kill him!”

Just when Lin Tianhao had turned his attack to prepare to attack the city guards, the black-robed leader appeared.

He took the initiative to hold back Village Chief Wang.

Village Chief Wang's eyes narrowed. If he was held back by the black-robed leader, he would have no way to continue blocking Lin Tianhao's attacks.

Indeed.

Lin Tianhao's arrows were like they had eyes, constantly landing on his body.

“Not good.”

Village Chief Wang's face was a bit gloomy, because Lin Tianhao's damage was really too high.

With Lin Tianhao's output ability, he would fall into Lin Tianhao's hands in at most ten seconds.

But.

Before he could make any reaction, he had already fallen.

“Ding, you have completed the first kill of Village Chief Wang. A server-wide announcement will be made soon. Do you want to hide your name?”

Chapter 154 - Kill the strong ones in a row!

“Hidden.”

“Global Announcement: Congratulations to player Hidden Nickname for achieving the first kill of Village Chief Wang. This announcement is to encourage all players to continue their efforts.”

“Global Announcement: Congratulations to player Hidden Nickname for achieving the first kill of Village Chief Wang. This announcement is to encourage all players to continue their efforts.”

... ..

Lin Tianhao had just killed Village Chief Wang when a figure rushed over to loot the corpse.

“Damn it, you dare loot the boss that I killed.”

The black-robed leader obviously knew what Lin Tianhao was thinking and killed the player who was trying to loot the corpse with a single sword strike.

Lin Tianhao landed and began to loot the corpse.

“Ding, you have obtained Skill Book +3.”

“Ding, you have obtained Equipment +2.”

“Ding, you have obtained Gold Coins +5000.”

“Ding, you have obtained Free Attribute Points +200.”

“Ding, you have obtained... ..

... ..

Lin Tianhao obtained a large number of rewards in one go.

The equipment was all level 100, so Lin Tianhao couldn't equip it, but the skill books were different.

The skills Village Chief Wang had just used, Fission: Triple Shadow Strike Slash, and Shadow Chase: Instant Slash, were all dropped. Both of these skills could be learned by warriors.

Fission: Triple Shadow Strike Slash: 1 Star.

Learning Requirement: Level 50 Warrior.

Effect: Creates three clones, teleports to the target, and launches a slash. Each clone deals 80% of your attack power as damage (maximum distance 20 meters).

Cost: 50MP.

Cooldown: 300 seconds.

Proficiency: 0/100.

Lin Tianhao: ???

The skill is good, but this attack power bonus is a bit unfriendly to him.

Cooldown: 300 seconds.

Proficiency: 0/100.

Lin Tianhao frowned, his expression not very good.

The reason was none other than his attack power being too low.

These two skills have displacement effects, and the mana consumption is not high. They are definitely very powerful skills.

In fact, Lin Tianhao was very lacking in displacement skills, but both of these displacement skills required a target unit to be released.

Lin Tianhao could still learn this Shadow Chase Instant Kill.

Because Shadow Chase Instant Kill is released on shadows, as long as there is a shadow nearby, he can teleport there.

So, this skill is not bad.

But frankly speaking, it would be a bit of a waste for Lin Tianhao to learn Fission: Triple Shadow Strike Slash.

After a slight pondering.

Lin Tianhao learned Shadow Chase Instant Kill. As for Fission: Triple Shadow Strike Slash, Lin Tianhao planned to give it to Monkey.

Such a skill would be even more powerful on Monkey.

In addition to this.

Village Chief Wang also had a third skill.

Remote Fission: 1 Star.

Learning Requirement: Level 50 All Classes.

Effect: You can fission your ranged attacks, currently up to ten times, one fission per unit (damage remains unchanged after fission).

Cost: 50MP.

Cooldown: 60 seconds.

Proficiency: 0/500.

Lin Tianhao raised his eyebrows. This skill seemed not bad for Lin Tianhao.

His arrow fissioning into ten didn't seem very strong.

But what if this skill was upgraded to ten stars? Then the number of fissions would be considerable.

Today, Village Chief Wang managed to achieve one fission into a thousand. Intuition told Lin Tianhao that Village Chief Wang should not have reached his limit yet.

Continuing to upgrade the stars should allow for even more fissions.

In the future, would it fission into ten thousand? Or even a hundred thousand?

Moreover, the range of fissionable attacks would also increase.

Thinking of this.

Lin Tianhao did not hesitate to learn this skill. The current value of this skill was not high, but it would definitely be very powerful after upgrading the stars.

Imagine, an arrow shot out, fissioning into thousands upon thousands of feathered arrows. What a scene that would be.

Moreover.

This fission does not change the nature of the attack.

That is to say.

Fissioning into ten thousand feathered arrows, the damage would be ridiculously high.

Most importantly, each feathered arrow is a normal attack, and these fissioned feathered arrows can stack health for him.

Perhaps in simple monster farming, such fission would not be very powerful.

But what if it was in a large-scale national war? The situation would be different.

If he could fission into tens of thousands of feathered arrows later on, one fission could provide Lin Tianhao with tens of thousands of health points.

You need to know.

Lin Tianhao currently gains only a thousand health points for clearing a dungeon.

A fission of tens of thousands of health points is still quite terrifying.

“Kill him!”

The black-robed leader transformed into a phantom, rushing towards Archmage Abir.

Lin Tianhao smiled. He knew what the black-robed leader was thinking, which was a decapitation strike!!

He was preparing to eliminate these experts from the Starry Kingdom.

Lin Tianhao was naturally happy to see this, because his goal was to kill King Abraham, but if Archmage Abir and these people were around, King Abraham would never appear.

Under the black-robed leader's restraint, Archmage Abir couldn't withstand Lin Tianhao's attacks at all. In just a few seconds, Archmage Abir died at Lin Tianhao's hands.

“Ding, you have killed Archmage Abir. A global announcement will be made soon. Do you want to hide your name?”

“Hide!!”

“Global Announcement: Congratulations to player Hidden Nickname for killing Archmage Abir. This announcement is to encourage all players to continue their efforts!”

“Global Announcement: Congratulations to player Hidden Nickname for killing Archmage Abir. This announcement is to encourage all players to continue their efforts!”

... ..

Lin Tianhao smiled with satisfaction and immediately went over to loot the corpse.

“Ding, you have obtained Skill Book +3.”

“Ding, you have obtained Equipment +2.”

“Ding, you have obtained Gold Coins +2000.”

“Ding, you have obtained Free Attribute Points +100.”

“Ding, you have obtained... ..

... ..

Lin Tianhao smiled. After killing Archmage Abir, he once again obtained a large number of rewards.

Archmage Abir's death suddenly reduced the pressure on the Nightwalkers on the battlefield.

“Come again.”

The black-robed leader smiled and charged towards General Jinfulin.

Lin Tianhao didn't care. General Jinfulin's killing power was still very strong, but in the face of Lin Tianhao's terrifying killing power, General Jinfulin couldn't withstand Lin Tianhao's damage either.

In just a few seconds, General Jinfulin died under Lin Tianhao's feathered arrows.

“Ding, you have killed General Jinfulin. A global announcement will be made soon. Do you want to hide your name?”

“Hide!!”

“Global Announcement: Congratulations to player Hidden Nickname for killing General Jinfulin. This announcement is to encourage all players to continue their efforts!”

“Global Announcement: Congratulations to player Hidden Nickname for killing General Jinfulin. This announcement is to encourage all players to continue their efforts!”

Chapter 155 - We respectfully invite His Majesty to lead the army in person!

Luo Lin Muye's eyes were bloodshot with rage as he watched Lin Tianhao kill so many experts in such a short time.

He wished he could tear Lin Tianhao into a million pieces, but he knew that in the current situation, the tide had already turned.

"Retreat!!"

Although extremely unwilling, Luo Lin Muye still issued the order to retreat.

"Luo Lin Muyuan, you failed to keep an eye on Xue Di. This defeat is all your responsibility!"

Although defeated, Luo Lin Muye was not flustered.

In his opinion, this situation must have arisen because Luo Lin Muyuan let Lin Tianhao go.

As Luo Lin Muye and the others retreated, the Nightwalkers of the Demon Cave quickly retook Blackwind City.

With the conditions of three cities and one capital fulfilled, the black-robed leader could now establish his own regime.

"Hahaha, we are finally going to establish a regime."

The black-robed leader was very happy. After being suppressed for so many years, he had finally seen hope.

The Nightwalkers began to systematically take over Blackwind City, Icewind City, and Redpeak City.

Meanwhile, Luo Lin Muye had already returned to Sky Star City.

Sky Star City, Royal Palace Hall.

"Your Majesty, the Grand Marshal neglected his duty and did not guard Xue Di as agreed, leading to the failure of this mission."

Upon returning, Luo Lin Muye immediately impeached Luo Lin Muyuan.

"Furthermore, Archmage Abiel and General Jin Fulin both died at the hands of Xue Di."

King Abela's expression was very unpleasant upon hearing these words.

"Summon the Grand Marshal."

A moment later.

Luo Lin Muyuan strode in from outside. He saw Luo Lin Muye and asked with a smile:

"General Muye, I wonder if Blackwind City has been taken?"

Luo Lin Muyuan knew the reason in his heart, but feigned ignorance.

"General Muye, what do you mean? I strictly followed His Majesty's orders."

"Strictly followed?"

Luo Lin Muye snorted, "If you had strictly followed them, how could Xue Di have appeared in Blackwind City and even taken Icewind City and Redpeak City?"

Luo Lin Muyuan suppressed the urge to laugh and said, "General Muye, did you see Xue Di?"

"Of course."

"You really saw Xue Di?" Luo Lin Muyuan asked again.

Luo Lin Muye frowned, "No, but that black-robed archer appeared again. That ability is definitely Xue Di without a doubt."

Luo Lin Muyuan shook his head, "General Muye, don't be so sure. I've been guarding Xue Di all this time."

"How is that possible?!"

Luo Lin Muye's eyes widened, his face filled with disbelief.

"General Muye, if you don't believe me, I can show you." Luo Lin Muyuan waved his hand, "This is the mission recording. Your Majesty, General Muye, you can all take a look. I've been with Xue Di all along."

In the recording, Luo Lin Muyuan and Xue Di were drinking tea together.

General Muye's expression changed, and he staggered backward.

"How... how is this possible?!"

Luo Lin Muye's face was full of disbelief. He really didn't know why Xue Di would be with Luo Lin Muyuan.

"Could it be that the black-robed archer isn't Xue Di..."

Luo Lin Muyuan bowed to King Abela, "Your Majesty, although General Muye is my own brother, this time he not only failed to retake Blackwind City, but also lost Icewind City and Redpeak City. Such a serious crime must be severely punished!"

Hearing Luo Lin Muyuan's words, Luo Lin Muye felt as if he had fallen into an ice cave.

"Your Majesty, this failure is only because the black-robed archer in the Nightwalkers is too powerful."

"Enough."

King Abela's expression was very bad. He had originally wanted to take the opportunity to support Luo Lin Muye.

But now, even if he didn't want to punish Luo Lin Muye, it was somewhat unreasonable.

Just as King Abela didn't know what to do, Village Chief Wang walked in from outside the hall.

"Your Majesty, General Muye is not wrong. The black-robed archer is Xue Di!!"

Village Chief Wang's words were shocking, and everyone's eyes focused on Village Chief Wang.

"Village Chief Wang, what do you mean by that? I've been guarding Xue Di all along."

Village Chief Wang sneered, "You're not guarding Xue Di, but a clone of Xue Di. With Xue Di's strength, it doesn't seem like there's a problem with having a relatively powerful clone, right?"

Luo Lin Muye's eyes lit up, "Village Chief Wang is right. The black-robed archer had a server-wide announcement after killing Village Chief Wang, which means the black-robed archer is not a Nightwalker but... an adventurer!"

"At this stage, Xue Di is already abnormal enough. I don't believe there's a second archer like Xue Di among the adventurers."

Kessenro stepped forward and said respectfully, "Your Majesty, it's actually not that important to argue about the identity of the black-robed archer now."

"The Nightwalkers have occupied Blackwind City, Icewind City, and Redpeak City. They have already met the qualifications to establish a regime."

"One country, two regimes, this is absolutely not allowed to happen."

King Abela narrowed his eyes, "Then I wonder what high opinion the Prime Minister has?"

Kessenro bowed respectfully again and said, "Luo Lin Muye is not capable, so the only way now is one."

"What way?"

"A personal expedition!"

Kessenro stated his purpose.

Accurately speaking, this was also Lin Tianhao's purpose.

To kill King Abela, he must go on a personal expedition.

After all, it is basically impossible to kill King Abela within the Sky Star City Royal Palace.

"A personal expedition?"

King Abela frowned slightly, and Luo Lin Muye immediately said, "Your Majesty, you are of noble birth, how can you go on a personal expedition?"

"This general is willing to take action again, and this time I will definitely not fail my mission."

Luo Lin Muyuan sneered, "General Muye, you have already failed twice."

"This time, even Archmage Abiel and General Jin Fulin died on the battlefield. Are you going to joke with the lives of our Star Kingdom warriors?"

Luo Lin Muye wanted to refute, but he suddenly realized that he didn't know how to refute for a moment.

Because Luo Lin Muyuan was right, he hadn't thought of any good way to deal with Xue Di.

Xue Di was too strong!

"I implore Your Majesty to go on a personal expedition and retake the three cities."

Luo Lin Muyuan bowed, and Prime Minister Kessenro and Grand Marshal Luo Lin Muyuan both spoke.

The other ministers of the Star Kingdom naturally followed suit.

"I implore Your Majesty to go on a personal expedition and retake the three cities."

King Abela took a deep breath, he always felt that there was a problem.

But having a space teleportation talisman on him gave him confidence. As long as he encountered danger, he could completely use the space teleportation talisman to escape.

Moreover.

He didn't think that he wouldn't be able to defeat Xue Di with his strength.

"In that case, this king will go on a personal expedition and retake the three cities!"

Chapter 156 - Millions of troops besieged the city!

"Long live the King!"

The ministers complimented him.

Cunning smiles flickered in the eyes of Lorraine Shepherd and Kerson Luo.

Because their goal had been achieved.

Next, it would depend on whether the Snow Emperor could kill King Abra.

As long as the Snow Emperor could kill King Abra, everything would be resolved.

Just at that moment, a server-wide announcement suddenly sounded.

"Server Announcement: Congratulations to the Black Robe Leader of the Demon Cave for successfully establishing the Demon Cave regime. Players can now enter the Demon Cave Main City. This announcement is to encourage all players to enter the Demon Cave Main City and unlock new features!"

“Server Announcement: Congratulations to the Black Robe Leader of the Demon Cave for successfully establishing the Demon Cave regime. Players can now enter the Demon Cave Main City. This announcement is to encourage all players to enter the Demon Cave Main City and unlock new features!”

... ..

The server-wide announcement echoed in the sky, alarming many players.

King Abra's expression was extremely gloomy. In his own kingdom, someone else had actually established a regime.

This was simply a great humiliation!!

“Lorraine Shepherd, immediately assemble the army and set off now.”

“Yes, Your Majesty.”

... ..

The Starry Kingdom began to assemble its army in a mighty manner. When Lin Tianhao heard the server-wide announcement, he knew that the real peak national war was about to begin.

Although there had been brief national wars when defending Blackwind City before, the scale of those wars was simply not enough.

Lin Tianhao sent a message to Monkey, “Monkey, get ready, the real national war is about to begin.”

“Damn, Brother Hao, there's a national war? That's great, one national war is enough to take off.”

Lin Tianhao didn't care, but Monkey continued to send messages to Lin Tianhao.

“Brother Hao, Glasses is out. He changed his sub-class to Grave Robbing Officer, which is even more powerful than his main class.”

“He has curse skills, as well as invincibility and spatial distortion. He's super strong.”

Lin Tianhao: ? ? ?

“So that guy is Glasses.”

“What's wrong?” Monkey asked in surprise, “Did you run into Glasses?”

“I ran into him, and he even used his curse skills and spatial distortion to attack me.”

Monkey was shocked, “That happened?”

“Yeah, tell him that I am the Black Robe Archer, and he will know.”

“Ah! You are the Black Robe Archer? Glasses was just saying that you don't play fair, targeting him to kill.”

“Alright, be careful later, don't accidentally injure me.”

... ..

Lin Tianhao chatted briefly, then turned his gaze back to the Black Robe Leader in front of him.

“King Abra should have already heard the server-wide announcement of you establishing a regime. Next, he should personally lead the expedition.”

Hearing this.

The Black Robe Leader stood up abruptly, his expression somewhat solemn, "If he personally leads the expedition, it will be troublesome."

"How much do you know about King Abra?" Lin Tianhao asked.

He knew King Abra, but he had never seen King Abra take action in his previous life, so he didn't know much about King Abra's strength.

"Third-tier limit, a Platinum-level existence at level 200."

"What about his class?"

Lin Tianhao didn't know King Abra's class, let alone his skills.

"Class: Summoner."

Lin Tianhao's pupils shrank, "He's actually a Summoner."

"That's why it's so troublesome. A level 200 Platinum Summoner can easily summon ten level 200 Gold-level war beasts at once."

"It is indeed a bit troublesome."

Lin Tianhao's expression was somewhat solemn. Summoners themselves are relatively fragile, but their summoned beasts are very strong.

Especially.

Just then, a server-wide announcement sounded.

“Server Announcement: Due to the Demon Cave's large-scale invasion, the Starry Kingdom's national war has begun. Adventurers can obtain high rewards for killing Nightwalkers. This announcement is to encourage all adventurers to defend the kingdom!”

“Server Announcement: Due to the Demon Cave's large-scale invasion, the Starry Kingdom's national war has begun. Adventurers can obtain high rewards for killing Nightwalkers. This announcement is to encourage all adventurers to defend the kingdom!”

... ..

A new round of national war began, and many players were excited.

They could level up after losing levels, but free attribute points were not easy to obtain.

Killing Nightwalkers would give rewards, which was very easy.

“Third Leader, something bad is happening. King Abra of the Starry Kingdom is leading an army of millions to Blackwind City.”

Lin Tianhao glanced at the Black Robe Leader, “Do you have any quests that reward luck attributes?”

The Black Robe Leader looked at Lin Tianhao in surprise, “No? What do you want to do?”

“I want to increase my luck attribute.”

The Black Robe Leader spread his hands, “I don't have any, but... my eldest brother does.”

“Speaking of which, at this time, why haven't your eldest brother and second brother shown up?”

The Black Robe Leader smiled bitterly, "They have more important things to do."

Lin Tianhao's eyes narrowed slightly. More important things to do?

Isn't the Demon Cave establishing a regime important enough? Isn't the national war important enough? What could be more important?

"What are they doing? Do they need help?" Lin Tianhao asked.

The Black Robe Leader shook his head, "I don't know."

Lin Tianhao didn't ask any more questions. He didn't believe that the Black Robe Leader really didn't know.

Since the Black Robe Leader didn't say, it meant that he didn't want him to know.

"Let's go, the national war has begun. This battle will be difficult. I won't take action for now."

The Black Robe Leader frowned: "You won't take action?"

"Yes."

Lin Tianhao nodded, "That's right, my goal this time is to kill King Abra, so I can't be in the open."

"You're really going to kill King Abra?!"

The Black Robe Leader was incredulous. Killing King Abra was too crazy of an idea.

“I've already accepted your quest, did you think I was joking?”

... ..

Outside Blackwind City.

Millions of troops surrounded the city, and countless arrows rained down from the sky.

Lin Tianhao raised his eyebrows. He didn't show himself, but looked towards the army.

Sure enough.

With the Eye of Purity, he saw King Abra.

Beside King Abra were Kerson Luo, Lorraine Shepherd, Lorraine Shepherd, and... a little boy.

Lin Tianhao was a little surprised, because he had never seen the little boy beside King Abra, and he had no impression of him at all.

Because the distance was too far, he couldn't see the little boy's attributes.

But intuition told Lin Tianhao that this little boy should be extremely unusual.

Retracting his thoughts.

Lin Tianhao stared at King Abra.

At this distance, it would be too difficult for him to attack King Abra.

Relying on the Wings of Frozen Ice to fly over? It was equally unrealistic. With Lorraine Shepherd and the others beside King Abra, his arrows were unlikely to hit King Abra.

After a little thought, Lin Tianhao secretly left Blackwind City, he prepared to go to other directions to see if there were any opportunities.

Chapter 157 - Take action against King Abra!

Of course, he was also very clear that it would be very, very difficult for him to kill King Abra on his own.

Lin Tianhao sent messages to Monkey and Zhou Xiaopang, "Monkey, you and Fatty will help me deal with King Abra later."

"Damn, Brother Hao, is it that exciting? Is this going to be a royal assassination?"

"No problem, Fatty and I have great attributes now, so we should be able to restrain King Abra a bit."

Lin Tianhao directly sent them a voice request, "You guys listen to my command later."

Thinking like this, Lin Tianhao sent a message to Putuo Tianlong, "Putuo Tianlong, help me out."

"What?"

"Help me hold back Lorraine Mu Ye for a while."

Putuo Tianlong was a little surprised, because Lin Tianhao's idea was a bit too crazy.

Putuo Tianlong subconsciously asked: "What can I get?"

"Consider it me owing you a favor."

Putuo Tianlong hesitated, was a favor from Lin Tianhao worth him taking action?

You must know that killing Nightwalkers now can give you free attributes. If he attacks Lorraine Mu Ye, then all of that will be gone.

But after only a slight thought, Putuo Tianlong agreed, "Okay, I'll do my best."

As for the others, Lin Tianhao didn't contact them. He was going to prepare to take action.

"Swish swish swish!"

Lin Tianhao took action without hesitation, firing five arrows at once, one hundred and twenty-four arrows per second. With the blessing of the Lucky Bracelet, Lin Tianhao's attacks had a high critical hit rate.

Not only that, the frequency of Lightning Leap triggering was also very high. In just a few seconds, Lin Tianhao's attack instantly tore open a gap in the Star Kingdom's million-strong army.

Lorraine Mu Ye's expression changed slightly when he saw Lin Tianhao appear, "Your Majesty, it's this guy, I'll go hold him back."

Saying that, Lorraine Mu Ye rushed towards Lin Tianhao.

"You can't hold him back, you can't keep up with his movement speed."

Village Chief Wang said in a deep voice, and rushed towards Lin Tianhao.

Lin Tianhao wasn't in a hurry, he fought with Village Chief Wang, but he was consciously getting closer to King Abra.

Village Chief Wang didn't notice anything unusual, after all, he never dreamed that Lin Tianhao would want to kill King Abra.

"Now, Monkey!"

With Lin Tianhao's order, Monkey rushed up from the crowd, using Triple Slash to force Village Chief Wang back.

"Damn it!"

Village Chief Wang's expression changed. He still wanted to rush towards Lin Tianhao, but Fatty had already taken action, taunting Village Chief Wang, and together with Monkey, two against one, they held back Village Chief Wang.

Lorraine Mu Ye roared, "I'm coming!"

He rushed towards Lin Tianhao, but Lin Tianhao remained unmoved.

In the crowd, a golden light soared into the sky, knocking Lorraine Mu Ye away.

Immediately afterwards, Putuo Tianlong killed towards Lorraine Mu Ye.

Putuo Tianlong had good strength, but he definitely couldn't hold back Lorraine Mu Ye for too long, he had to fight quickly.

"Swish swish swish!"

Lin Tianhao's feather arrows flew towards King Abra, and at the same time, the Book of Life and Death also locked onto King Abra, continuously reducing Abra's health.

Lin Tianhao also used the severely injured potion obtained in the Snow Corpse's ruins without hesitation.

To kill King Abra, you must not be soft-hearted.

Seeing Lin Tianhao attacking him, King Abra's lips curled up, and a faint smile appeared on his face.

Lin Tianhao was shocked. King Abra didn't seem surprised that he would attack him.

"Snow Emperor, you killed the Ice Goddess, I know you want more, and you will definitely attack me."

King Abra already knew that he had killed the Ice Goddess, but he didn't reveal the news.

"Luring me out to personally lead the expedition, wanting to get rid of me, it's a pity, you are a little too naive."

Lin Tianhao's feather arrows didn't land on King Abra, but were blocked by an invisible wall.

"Bang!"

Lin Tianhao's body was suddenly hit by something, and he couldn't help but fly out.

-108950.

A huge damage number appeared above Lin Tianhao's head, but he wasn't discouraged.

Unleashing Xuanbing's Wings, feather arrows continued to be fired, and in the blink of an eye, the feather arrows had already surrounded King Abra.

And that transparent thing attacked Lin Tianhao again.

"Here it comes again, I see you."

Lin Tianhao directly used Space Blink to avoid the attack of this translucent monster.

Void Walk (Gold): ???

Health: ???

Attack: ???

Skills: ???

This should be King Abra's summoned beast, able to walk in the void, making it impossible to figure out its position.

But Lin Tianhao had the Immaculate Eye, so he was still able to capture the outline of Void Walk.

Of course.

Lin Tianhao didn't want to waste time with Void Walk. After closing the distance with Space Blink, he took action without hesitation, still unleashing feather arrows.

"Crack crack..."

The feather arrows tore apart the space barrier in front of King Abra.

King Abra was slightly surprised, "As expected of the Snow Emperor, truly remarkable."

A six-armed Demon Ape suddenly appeared in front of King Abra. The six-armed Demon Ape held golden weapons in all six of its arms, easily knocking Lin Tianhao's feather arrows away.

Six-Armed Demon Ape (Gold): ???

Health: ???

Attack: ???

Skills: ???

Lin Tianhao had a headache. Summoners were relatively weak in the early stages, just like mages, but if a summoner took shape, then their strength would be very strong.

But Lin Tianhao didn't give up, constantly attacking, seeking only an opportunity.

"Brother Hao, I'm coming."

The player who attacked Lin Tianhao before obviously knew Lin Tianhao's identity. He rushed out, waving the staff in his hand.

In the next instant, the six-armed Demon Ape in front of King Abra disappeared.

"What's going on?!"

King Abra's expression changed, because the sudden disappearance of the six-armed Demon Ape allowed Lin Tianhao's feather arrows to hit him.

-422980.

-422980.

.....

One after another huge damage numbers appeared above King Abra's head, making King Abra dumbfounded.

However, just as a few feather arrows landed on King Abra, King Abra shattered a talisman.

The talisman exploded, and a golden light shield rose, blocking Lin Tianhao's feather arrows.

Chapter 158 - Kill King Abra!

“Crack, crack...”

The golden light shield developed cracks, and then shattered.

King Abela frowned slightly. With a wave of his hand, a hexagonal star array appeared in front of him. The hexagonal star flashed, and a monster covered in fleshy tumors appeared in the center of the array.

Lin Tianhao's feathered arrow landed on this tumorous monster, but it didn't cause any damage.

It absorbed and devoured all of Lin Tianhao's feathered arrows, and its tumorous body continued to grow larger.

“You're eating my feathered arrows? Then I'll just stuff you to death.”

Lin Tianhao roared angrily, and feathered arrows poured out frantically.

After the tumorous monster's body expanded to a certain point, it finally couldn't bear it anymore. Its flesh was stretched taut, as if it would explode at any moment.

“Boom!”

With a loud noise, the tumorous monster exploded and died on the spot.

“Ding, you have completed the first kill of the Flesh-Wound Tumor. A server-wide announcement is about to be made. Do you want to hide your name?”

“Hide it.”

“Server-wide announcement: Congratulations to player [Hidden Name] for completing the first kill of the Flesh-Wound Tumor. This is a special announcement to encourage all players to keep up the good work.”

“Server-wide announcement: Congratulations to player [Hidden Name] for completing the first kill of the Flesh-Wound Tumor. This is a special announcement to encourage all players to keep up the good work.”

.....

Lin Tianhao didn't even have the thought of looting the corpse. He was single-mindedly focused on killing King Abela.

However...

After the Flesh-Wound Tumor exploded, King Abela disappeared.

Lin Tianhao's eyes were sharp as he looked at a cyan bird in front of him. He only felt a headache.

Because King Abela was on the back of that cyan bird.

Azure Winged Bird King (Gold): ???

Health Points: ???

Attack: ???

Skills: ???

It's all question marks again, most likely level 200.

This was a headache. His flying speed was already considered fast, but compared to a level 200 flying beast, it was still inferior.

So, an awkward situation arose: he couldn't catch up.

“Brother Hao, watch me.”

Glasses reappeared, and he cast a curse on the Azure Winged Bird King.

Without any suspense, the Azure Winged Bird King's speed suddenly dropped, and Lin Tianhao chased after it, firing feathered arrows continuously.

King Abela finally frowned. He slapped another talisman, and his body was enveloped in golden light, resisting Lin Tianhao's feathered arrows.

“I'd like to see how many talismans you have.”

Lin Tianhao wasn't flustered at all. King Abela's golden light talismans could only withstand his attacks for one second.

One second per talisman. Lin Tianhao wanted to see how long King Abela could last.

Ten talismans, twenty talismans, thirty talismans...

King Abela's golden light talismans seemed to be inexhaustible.

“Damn it, a king is a king. This wealth is extraordinary.”

The battle situation wasn't friendly, and if this continued, his plan to kill King Abela would fail.

“Ice and Snow: Eternal Frozen World!”

Just when Lin Tianhao didn't know how to break the situation, a formation appeared above King Abela's head, and King Abela was instantly frozen.

“Qing Fuyun!”

Lin Tianhao was a little surprised that Qing Fuyun would actually help him.

But in an instant, he understood.

Queen Fiodingyu had fallen because of King Abela's bounty. It seemed reasonable for her to attack King Abela.

King Abela didn't seem to expect Qing Fuyun to suddenly attack him, and he was instantly frozen, which gave Lin Tianhao an opportunity.

Lin Tianhao's feathered arrows poured out, quickly enveloping King Abela.

One damage number after another appeared above King Abela's head.

Lin Tianhao maxed out his attack speed, trying to make every arrow a critical hit, just to kill King Abela quickly.

But Qing Fuyun's freeze couldn't even last for a second. In just a breath, King Abela was about to break free from the ice.

“Mystic Ice: Six-Harmony Freeze!”

A black-robed woman appeared, waving the staff in her hand, freezing King Abela again.

Lin Tianhao raised an eyebrow. This was interesting. How many people had King Abela offended that he was being attacked again?

Lin Tianhao couldn't let go of such a good opportunity and continued to attack.

But at this moment, he heard a sound of rushing wind behind him.

“Snow Empress, stop!”

The person who came wasn't anyone else but Lorraine Mu Ye!

Lin Tianhao's eyes narrowed. Lorraine Mu Ye had killed the Potala Heavenly Dragon, which was troublesome.

“Death Reincarnation, won't it trigger yet?”

Lin Tianhao was a little anxious. If Death Reincarnation didn't trigger, even without Lorraine Mu Ye's participation, King Abela could use a space teleportation talisman to escape after breaking free.

If he missed this opportunity to kill King Abela, it would be difficult to kill King Abela later.

“Help.”

Below, Berserker Blade saw this scene in the air and immediately gave the order.

He didn't know if he was doing the right thing, but his intuition told him that helping Lin Tianhao this time would bring him many benefits in the future.

In particular, the essence of Twilight of the Gods wasn't just a simple game. Lin Tianhao's existence might change the fate of the Dragon Kingdom.

One after another, archers and mages from the Berserker Guild began to attack Lorraine Mu Ye.

Because the Berserker Guild had the government behind it, its size was absolutely immeasurable.

This action, even a powerhouse like Lorraine Mu Ye, found it a bit unbearable.

“Damn it, it's a national war now. Why aren't these players killing Night Walkers and attacking me?”

Lin Tianhao also noticed the Berserker Guild's action below.

“Berserker Blade, I owe you this favor today.”

Looking up again, Lin Tianhao's eyes were exceptionally sharp, and his feathered arrows were even more precise, almost every arrow hitting a weak point.

“Goddess Houtu, give me some strength!”

Lin Tianhao was getting anxious.

Suddenly, Lin Tianhao's eyes lit up.

Goddess Houtu didn't appear, but the Ice and Snow Goddess did. King Abela was frozen by the effect of the Eye of Ice.

"It's this arrow."

The double damage of shattering the ice, plus the double damage of a critical hit, and Lin Tianhao's double true damage.

The attack power of this arrow would be terrifying.

Lin Tianhao knew that when this kind of high burst damage appeared, there was a certain chance to trigger some low-probability effects.

For example... Death Reincarnation.

"Ding, you have killed King Abela. A server-wide announcement is about to be made. Do you want to hide your name?"

A smile appeared on Lin Tianhao's face. Damn, finally!

"Hide it!!"

"Server-wide announcement: Congratulations to player [Hidden Nickname] for successfully killing King Abela. This is a special announcement to encourage all players to keep up the good work."

"Server-wide announcement: Congratulations to player [Hidden Nickname] for successfully killing King Abela. This is a special announcement to encourage all players to keep up the good work."

Chapter 159 - God-given equipment: Summoning Book!

Below.

The army of the Star Kingdom was dumbfounded.

Lorin Muye, Village Chief Wang, and the others were equally dumbfounded.

Their king was dead!!

"The king is dead, the king is dead, run!"

King Abra was the backbone of the army, and now that King Abra had fallen, they naturally scattered and ran.

Lin Tianhao, on the other hand, looked excited and immediately went to loot the corpse.

"Ding, you have obtained a God-given Equipment +1."

"Ding, you have obtained a God-given Skill Book +1."

"Ding, you have obtained Free Attribute Points +500."

"Ding, you have obtained Gold Coins +100,000."

"Ding, you have obtained a Soul Shard of the Demon King Tu Lian."

"Ding, you have obtained... .."

Lin Tianhao took a deep breath. God-given equipment and God-given skills were already extremely heaven-defying.

As for why Lin Tianhao still wanted to hide his nickname, it was because he still wanted to become the king of the Star Kingdom. If the people of the Star Kingdom knew that he had killed King Abra, how could he become the king of the Star Kingdom?

With the death of King Abra and the retreat of the Star Kingdom army, the battle came to an end.

Lin Tianhao's harvest from this battle could be said to be exceptionally rich.

First, there was the reward for killing King Abra. In addition to that, there were also the God-given quests from Princess Leona and Queen Fiona, the reward from the Black Robe Leader, and the Talent Evolution Flower.

These things were all extremely precious.

Next, he was about to take off on the spot.

Lin Tianhao sent a message to Berserker Blades.

"Thank you, I owe you one."

Berserker Blades immediately replied: "You're welcome, you're welcome. As friends, we should help each other."

Berserker Blades' words were a bit slick, using the phrase "help each other" to put Lin Tianhao on the spot.

However, Lin Tianhao didn't care, after all, Berserker Blades had indeed helped him a lot this time.

Lin Tianhao didn't take it seriously and smiled at the Black Robe Leader: "Black Robe Leader, now, shouldn't you fulfill your promise?"

The Black Robe Leader nodded and waved his hand. The Talent Evolution Flower and the leaves of the Knowledge God Tree fell into Lin Tianhao's hands.

Talent Evolution Flower: Special.

Effect: After use, it can evolve talent and improve talent to a certain extent.

(Note: The Talent Evolution Flower is a one-time consumable item and disappears after use.)

"Use."

Lin Tianhao didn't hesitate at all and directly used the Talent Evolution Flower on himself.

"Ding, because your talent is too high, one Talent Evolution Flower cannot evolve your talent. Please collect more Talent Evolution Flowers (1/10)."

Lin Tianhao's eyes lit up. He was not surprised or dissatisfied because of the evolution failure.

If his Super God-level talent could be successfully evolved with just one Talent Evolution Flower, he would feel that there was a problem.

What he was really worried about was that the Talent Evolution Flower would not be able to evolve his talent.

But now it seemed that his Super God-level talent could also be evolved.

"Ten flowers, although a bit troublesome, is not a problem."

Lin Tianhao put away the Talent Evolution Flower and picked up the leaves of the Knowledge God Tree.

The leaves of the Knowledge God Tree generally contain special knowledge. The origin of Lin Tianhao's special equipment was actually created using the knowledge of the Knowledge God Tree.

In addition to that.

The Knowledge God Tree may also bring skills, true meaning, etc.

For example, the True Meaning of Fire can increase the fire attribute attack of players by a certain percentage.

The True Meaning is divided into ten stars. Each time a star is increased, the damage of that attribute increases by 10%. Ten stars means the damage increases by 100%.

This is not a 100% increase in the damage of a certain skill, but an attribute.

For example, Princess Leona's ice attribute, if he masters the True Meaning of Ice, all her ice attribute attack damage can be improved, which can be said to be quite good.

Knowledge God Tree Leaf: Special.

Effect: After use, you will obtain the forging method of a special equipment. (Requires a Tier 1 Forger and complete materials to forge.)

(Note: Knowledge God Tree Leaf is a one-time consumable item and disappears after use.)

A Tier 1 Forger is considered very weak among Forgers.

Tier 1, to put it bluntly, is a Forger who can forge Level 10 Elite equipment. This requirement is not high.

Lin Tianhao took a deep breath. This was incredible. It was actually the forging method of a special equipment.

After only a slight thought, he directly used it.

The three clones of his One Qi Transformation into Three Pure Ones have been constantly brushing the proficiency of sub-professions, including the profession of Forger.

Moreover, because of Lin Tianhao's financial support, the three clones have no obstacles in terms of sub-professional tools.

As long as it is something that can be bought with gold coins, it is not a problem for Lin Tianhao.

His current money house income has exceeded 50 million every day, and this value is constantly increasing.

“Use.”

“Ding, you have obtained the special equipment: Life Orb Blueprint.”

Life Orb Blueprint: Special.

Forging Requirements: Tier 1 Forger.

Material Requirements: Iron Ore \* 1, Copper Ore \* 1, Bloodstone \* 10.

Equipment Effect: After wearing, Health Points +100,000.

(Note: This blueprint is a forging skill blueprint. After learning, you can forge Life Orbs without restrictions.)

Lin Tianhao: ? ? ?

What is 100,000 Health Points?

Not to mention for ordinary players, even for him, it is quite good.

If it is placed in the hands of ordinary players, it is definitely a divine artifact at this stage.

Not only that, this thing can be mass-produced.

In addition to that, a forging skill can generally only be learned by one Forger, but Lin Tianhao has a clone of One Qi Transformation into Three Pure Ones.

In addition to not being able to fight, the clone has all his characteristics.

If he learns it, it is equivalent to all three clones learning it.

In just an instant, Lin Tianhao gave the order to the three clones, asking them to practice forging skills and become Tier 1 Forgers as soon as possible.

So.

You can start mass-producing Life Orbs.

Moreover, the materials required for Life Orb forging are not considered precious and can be easily obtained.

Next.

It was time to check the God-given equipment and God-given skills rewarded after killing King Abra.

Summoning Tome: God-given.

Wearing Requirements: Summoner.

Effect: You can fuse the same type of summoned beasts into higher-level summoned beasts, limited to one fusion per day.

Durability: Indestructible.

Note: Once bound, it cannot be dropped or stolen.

Lin Tianhao: ? ? ?

Summoner's God-given equipment, and... ... looking at the attributes, this equipment seems a bit heaven-defying.

Summoner...

It seems that there is no Summoner around me. Glasses is a mage. In the previous life, Glasses took the path of an array mage, not a Summoner.

And Glasses has already changed jobs to an array mage. Monkey and Fatty are not Summoners.

Speaking of... is it possible that my sister is a Summoner?

Chapter 160 - God-given skills and equipment!

Lin Tianhao had been in the game for several days, but so far, he hadn't obtained any information about Lin Qingqing.

What King Abra dropped wasn't just God-given equipment, but also a God-given skill.

Soul Bind: God-given.

Learning Requirement: Summoner.

Effect: You can bind your summoned beast and possess all its attributes. (Can only bind one summoned beast).

Consumption: None.

Cooldown: After unbinding or the bound summoned beast dies: 15 minutes.

Proficiency: Cannot be upgraded.

Lin Tianhao's eyes lit up; this skill was a bit too abnormal.

Summoners rely heavily on summoned beasts and basically have no combat skills, and their self-preservation ability is also very poor.

But if you can bind a summoned beast with high defense, wouldn't that be taking off in place?

These two skills, in the hands of a summoner, are truly extraordinarily abnormal.

Lin Tianhao can't find Lin Qingqing now, and he's not sure if Lin Qingqing is a summoner.

But based on the characteristics of the Summoning Codex, the sooner you bind, the better.

Lin Tianhao thought about it and came up with a good candidate: Su Li!

During the Great Cataclysm of the previous life, Su Li was definitely a heroine. In order to protect Blue Star, she experienced thousands of battles, large and small, and almost fell several times.

Thinking of this.

Lin Tianhao proactively added Su Li as a friend.

At this moment.

Su Li was commanding her summoned beast to hunt a level 45 Blackwater Lake Xuan Turtle.

She is not good at words, and even slightly aloof. She is very slow to warm up to people. The friends around her who she can talk to are basically people she has known for more than ten years.

She also belongs to the kind of player with heaven-defying luck, similar to Potala Heavenly Dragon. After entering the game, she triggered a hidden mission and eventually obtained a Saint-level Talent Awakening Stone.

Thus, she awakened her Saint-level talent, Beast Taming Evolution, but she is too aloof, and few people know about her awakening of the Saint-level talent.

Just after killing a Blackwater Lake Xuan Turtle, Su Li noticed that someone had added her as a friend.

She has always been aloof, and the number of her game friends is very few. Moreover, no one would add her as a friend for no reason.

But when she saw who was adding her this time, she couldn't help but be stunned.

"Snow Emperor..."

She might not know other players because of her aloofness.

But Snow Emperor... his reputation is too great, she has heard of him many times.

After hesitating slightly, she accepted Lin Tianhao's friend request.

After Lin Tianhao saw that she had accepted the friend request, he immediately sent a message.

"Are you interested in joining my guild?"

Su Li was a little dazed. She didn't know much about Lin Tianhao's guild, but she guessed Lin Tianhao's purpose in adding her.

Perhaps Lin Tianhao knew that she had awakened a Saint-level talent, which is why he had the idea of recruiting her.

"My guild has no restrictions, you don't have to worry."

Lin Tianhao also knew something about Su Li's aloof personality, so he sent another message.

"Okay."

Su Li's answer was simple. Lin Tianhao directly pulled Su Li into the guild.

Su Li was stunned after entering the guild, because the buffs of the Lone Snow Guild were a bit too much.

Lin Tianhao sent her another message: "Welcome to my guild, here are two gifts."

Lin Tianhao traded the Summoning Codex and Soul Bind over.

He knew that Su Li had a Saint-level talent, and he also knew who had the God-level talent of a summoner, but he still chose to give these two things to Su Li.

Because, character!

Su Li was a little flattered, "Isn't this too much?"

"What's wrong with the guild leader giving a newcomer a little gift?"

Su Li didn't respond and accepted the items. However, when Su Li checked the attributes, she was completely stunned.

"God-given equipment... God-given skill!"

She felt a little uneasy, because the two things Lin Tianhao gave her were too precious.

"This is too precious."

"I'm not a summoner, I can't use it, you can take it."

After a while, Su Li replied: "Thank you."

"You're welcome."

After Lin Tianhao dealt with Su Li's matter, he took out two pre-quest scrolls for the Blessings of the Gods.

These were for Leona and Queen Fiordin Rain respectively.

After killing King Abra, their missions were completed.

"Use the Blessing of the Gods."

Lin Tianhao was actually a little panicked. He was worried that if the blessing was from the Mother Earth again, it would be a bit of a headache.

"Ding, the gods are bestowing blessings upon you..."

"Ding, the Third Prince Nezha is bestowing blessings upon you..."

"Ding, you have obtained Three Heads and Six Arms."

Three Heads and Six Arms?

Lin Tianhao was stunned and immediately checked the attributes.

Three Heads and Six Arms: God-given.

Learning Requirement: Snow Emperor only.

Effect: You will transform into Three Heads and Six Arms. The six arms can equip three main weapons that match your class.

Consumption: 100 MP per second.

Cooldown: One hour.

Proficiency: Cannot be upgraded.

Seeing this attribute, Lin Tianhao's eyes lit up.

This skill is a bit awesome.

That is to say, in the Three Heads and Six Arms state, he can use three main weapons at the same time.

Just imagine, if Lin Tianhao used three longbows, releasing Five-Arrow Barrage at 360 degrees without blind spots, what would that scene be like?

Moreover.

He would not be afraid of melee combat either. He could use a longsword for melee combat while using a bow and arrow for ranged output.

This God-given skill can be said to be quite awesome for Lin Tianhao.

The only shortcoming is the consumption. One hundred blue mana to maintain for one second is a bit of a headache.

Adding free attribute points to blue mana is still a bit of a foolish thing to do, in Lin Tianhao's opinion.

He can only see if he can get any equipment that recovers or adds a lot of blue mana in the future.

Next.

Is the Blessing of the Gods rewarded by Queen Fiordin Rain's pre-quest scroll for the Blessings of the Gods.

"Use the Blessing of the Gods."

"Ding, the gods are bestowing blessings upon you..."

"Ding, the Jade Emperor is bestowing blessings upon you..."

"Ding, you have obtained the God-Slaying Whip..."

Lin Tianhao's eyes lit up. This name sounds a bit awesome. Even if it's just a downsized version of the God-Slaying Whip, it's still quite extraordinary.

God-Slaying Whip: God-given.

Equipping Requirement: Snow Emperor only.

Effect 1: Armor Penetration + 100%.

Effect 2: Armor Break + 100%.

Effect 3: After you attack a god with the God-Slaying Whip, you will gain ten times the damage bonus.

Durability: Cannot be destroyed.

(Note: Cannot be stolen, cannot be dropped, cannot be given away.)

Lin Tianhao gasped. With this equipment, he would take off in place, wouldn't he?

One hundred percent armor penetration is not very helpful to Lin Tianhao, but one hundred percent armor break is an almost heaven-defying attribute!
