

## Online game 161

Chapter 161 - Princess Leona takes the throne!

Most weapons have durability, and durability is generally consumed through dimensional reduction attacks, which relatively quickly wear it down.

For example, using a level 10 equipment to attack a level 1 equipment, or a gold-grade equipment to attack a bronze-grade equipment, will quickly shatter the equipment.

And the Armor Break percentage of this God Striking Whip is used to shatter equipment.

With 100% Armor Break, Lin Tianhao estimates that even gold equipment can be shattered with just one strike of the God Striking Whip!

What a concept.

Suppose Lin Tianhao engages in close combat with Lorraine Mu Ye; Lorraine Mu Ye's weapon would be shattered upon colliding with Lin Tianhao's God Striking Whip.

In that case, even if Lorraine Mu Ye is powerful, without a weapon, he is somewhat insignificant in front of Lin Tianhao.

This is the terrifying aspect of 100% Armor Break.

With this God Striking Whip in hand, it's not an exaggeration for Lin Tianhao to say he's invincible in close combat.

After all, as long as there's a head-on confrontation, the God Striking Whip can directly destroy the opponent's equipment. Without equipment, especially without a main weapon, they're just trash.

As for ranged attacks.

To put it nicely.

With Lin Tianhao's archery skills and current attributes, unless a ranged unit uses dimensional reduction against him, who can defeat him?

This time, in addition to the Blessing of the Gods, Queen Fio Dingyu's mission also rewarded a thousand free attribute points and a Nether Longbow.

Adding the mission reward from Princess Leona, Lin Tianhao now has a total of one thousand six hundred free attribute points.

Nether Longbow: Special.

Equip Requirement: Archer.

Effect 1: After you kill an enemy with the Nether Longbow, the Nether Longbow can absorb the soul power of the slain to enhance its attributes.

Effect 2: Lifesteal + 0.1%.

Effect 3: Attack Speed + 0.1.

Effect 4: Movement Speed + 0.1.

Effect 5: Health + 10.

Effect 6: Mana + 10.

Durability: 100.

Lin Tianhao took a deep breath. What kind of equipment is this? This is simply a divine artifact!!

The last five effects seem trash, but with the first attribute, it's destined that the Nether Longbow can't be trash.

It's just... this equipment actually has durability, which is a bit of a headache.

Now Lin Tianhao just wants to immediately find an Eternal Scroll to upgrade the Nether Longbow into an indestructible form.

If the Nether Longbow is destroyed, Lin Tianhao would be furious.

"The Starry Kingdom must still have Eternal Scrolls. It seems that becoming the King of the Starry Kingdom must be put on the agenda."

The Nether Longbow is simply too compatible with Lin Tianhao.

Attack speed, movement speed, lifesteal, mana, the four attributes that Lin Tianhao needs most, the Nether Longbow adds them all.

Although Lin Tianhao isn't very lacking in health, having it is definitely better than not having it.

This time, killing King Abra, Lin Tianhao can be said to have taken off directly.

He has the Nether Longbow for ranged attacks and the God Striking Whip for close combat. He wants to ask, who else is there!!

Because the prerequisite missions for the Blessing of the Gods from Prime Minister Kersenluo and Grand Marshal Lorraine Muyuan are to become the King of the Starry Kingdom.

Removing the disguised black robe, Lin Tianhao brazenly walked into Starfall City.

Starfall City.

Now Starfall City is in a state of panic. With the death of King Abra, someone must inherit the throne.

Royal Palace, Great Hall.

Lorraine Mu Ye's expression was extremely gloomy. "Returning in defeat this time, and the King even died at the hands of the Snow Emperor because of it, this is truly unbearable!"

Grand Marshal Lorraine Muyuan sneered, "Lorraine Mu Ye, don't be too confident in your words. What evidence do you have to prove that the Black Robe Archer is the Snow Emperor!"

Lorraine Muyuan is very clear that if the Snow Emperor is to become the King of the Starry Kingdom, the first thing to do is to clear the Snow Emperor of any connection to the Black Robe Archer.

Otherwise, how could the Snow Emperor, an adventurer and the true culprit who killed King Abra, possibly become the King of the Starry Kingdom?

"Hmph, besides the Snow Emperor, who else has such strength?"

Lorraine Mu Ye snorted coldly. He is very confident in his judgment.

Prime Minister Kersenluo waved his hand, "Lorraine Mu Ye, I think it's best not to say things rashly if you're not sure."

At this point.

Prime Minister Kersenluo changed the subject and continued, "A nation cannot be without a ruler for a day. The most urgent task now is to select a new monarch for us. That is the right way."

As soon as Kersenluo's words fell, a clear and cold voice sounded.

"Tisi Jian is dead, and Qing Fuyun has committed insubordination by attacking the King. Neither of them is qualified to inherit the throne. In that case, I will inherit the throne."

Princess Leona walked in, followed by Village Chief Wang.

Lorraine Mu Ye's eyes narrowed, his gaze falling on Village Chief Wang, "You are Princess Leona's person?"

Village Chief Wang smiled noncommittally, "I am the King's person. With the King's fall, Princess Leona is the new King, and I will naturally support her."

Lorraine Mu Ye frowned. Although he didn't really want to support Leona, who else in the Starry Kingdom's royal family is qualified to inherit the throne now?

No one else.

Only Princess Leona.

Princess Leona walked to the throne, looked around, and asked coldly:

"I, Leona, will be the King. Who among you objects? Who agrees?"

Prime Minister Kersenluo respectfully bowed, "Princess Leona is the only bloodline of the royal family, and it is rightful for her to inherit the throne of the Starry Kingdom."

Lorraine Muyuan couldn't help but frown upon hearing this, because their original plan was for the Snow Emperor to become the King of the Starry Kingdom.

If Princess Leona inherits the throne now, wouldn't everything be in vain?

"However..."

Just as Lorraine Muyuan was about to speak, Kersenluo changed the subject.

"However what?"

Leona's expression was indifferent, and she couldn't tell if she was happy or sad.

"However, Your Highness, the Nightwalkers of the Demon Cave are now establishing a regime in our Starry Kingdom, and the King died to attack the Nightwalkers of the Demon Cave."

"Now that the King's bones are not yet cold, I believe that we should first take back the three cities and drive away the Nightwalkers of the Demon Cave. This is the most important thing."

The indifference in Princess Leona's eyes turned into killing intent, but she quickly restrained it.

"What the Prime Minister said is not without reason. In that case, I will temporarily take the King's position and inherit the throne after driving away the Nightwalkers of the Demon Cave, how about that?"

Kersenluo frowned. He had originally planned to give Princess Leona some command authority.

But he never expected that Princess Leona would immediately ask to temporarily take the throne, obviously preparing to consolidate her power in advance.

However, after only a slight thought, Kersenluo already understood.

If he could kill King Abra once, he could kill Leona again.

If Leona hides and doesn't personally lead the expedition, then relying on Lorraine Mu Ye and Village Chief Wang, it would be almost impossible to retake the three cities!

Chapter 162 - Fourth job: Leona!

If Princess Leona dared to personally lead the army, she might end up like King Abraham, dying at the hands of the Snow Emperor.

"Then I wish Princess Leona a swift recapture of the three cities and a revitalization of the Starfall Kingdom."

"Alright."

Princess Leona nodded, "You may leave. However, Village Chief Wang, the Prime Minister, and the Grand Marshal will stay behind."

Prime Minister Kerson and Grand Marshal Lorraine Muyuan frowned. Everyone else retreated, leaving only Village Chief Wang and the three of them.

"Your Highness, what are your orders?" Lorraine Muyuan asked, "If it's about attacking Blackwind City, I am willing to contribute my meager strength."

Princess Leona smiled noncommittally and said, "Lorraine Muyuan, Kerson, where are your Divine Blessing Pre-Quest Scrolls?"

Kerson's heart tightened, but he didn't show any sign of it. He said with a smile,

"Your Highness, shouldn't that be considered a private matter?"

Princess Leona smiled. "This is not a private matter. I saw everything when Father personally led the army."

"And then?"

"You were enabling the Snow Emperor to kill my father!"

Princess Leona's words were shocking. Lorraine Muyuan immediately retorted:

"Your Highness, I have been doing my best, all for the sake of the Starfall Kingdom. I would never dare to have any disloyal intentions."

Princess Leona sneered, "Of course, you are doing your best for the Starfall Kingdom because you believe that my father has no heir, and a woman is not worthy to be the King of the Starfall Kingdom."

"Therefore, you want to support the Snow Emperor to become the King of the Starfall Kingdom, is that not so?"

Princess Leona's words made Kerson and Lorraine Muyuan somewhat unable to hold back.

"Princess Leona, I am, after all, the current Prime Minister. It's best to say less of this kind of baseless speculation."

Princess Leona smiled noncommittally and said, "I indeed have no evidence. However, one thing I can be sure of is that you did not do your best to fight against the Snow Emperor. My father's personal campaign was also what you hoped to see."

"Combining these things, it is not difficult to guess that you wanted my father to die!"

Lorraine Muyuan's face darkened. "Princess Leona, your words are excessive."

"No need to interrupt me so anxiously. Since I dare to say this, I must have obtained a lot of information."

"After the Snow Emperor's first attack on Blackwind City, he was able to easily break through the city. You two can be said to have made great contributions, right!"

Kerson gritted his teeth. "Princess Leona, if you continue to make such slanderous accusations, don't blame us for being impolite."

"Impolite? Kerson, how are you planning to be impolite?"

At this moment, Lorraine Muyuan's voice came from outside the door, and then Lorraine Muyuan was seen leading a large army to arrive.

"Princess Leona, what do you mean by this?!"

Princess Leona sneered, "Isn't it obvious enough? I want to kill you, so your Divine Blessing Pre-Quest Scrolls for the Snow Emperor will automatically become invalid."

Lorraine Muyuan's face darkened. "Do you think you can keep us here with this? If I break out of here and gather a large army to rebel, the Starfall Kingdom will be destroyed in your hands."

Princess Leona smiled faintly, "Since I dare to show my true colors, it means I never intended to let you leave the palace alive."

Lorraine Muyuan frowned. "With just you, you can't keep me here."

"What if you add me?"

Qing Fuyun stepped out, holding a staff in her hand, her face stern.

"Hmph, what's the fear of adding one more of you!"

"And me."

Another voice sounded, and a black-robed figure stepped out. After she appeared in the palace, she lifted her black robe, revealing her true face.

"It's you!!"

"How is it possible?!"

"Aren't you dead?"

Di Xuejian walked over with a smile, her face still wearing a faint smile.

"Of course, I have to die. Once I die, Qing Fuyun is also the daughter of the deposed queen and cannot inherit the throne, then only Leona remains."

"That way, you will unscrupulously implement the plan to kill our father."

Prime Minister Kerson staggered back, his face full of disbelief.

"You are using our hands to kill the king? He is your father. How can you be so cruel?"

At this point.

Kerson looked at Di Xuejian again, "Eldest Princess, according to your plan, in the end, only Leona can become the king. Are you willing?"

Di Xuejian smiled, "Kerson, you don't need to sow discord. This plan can be implemented naturally because we have a backbone."

"Leona?"

Kerson frowned and looked at Princess Leona.

"Forgive my poor eyesight. I really didn't see what ability Princess Leona has that can make the Eldest Princess bow down."

Princess Leona stepped forward, "Since you want to know, then I will let you die knowing."

As soon as the words fell.

Under the unbelievable expressions of Kerson and Lorraine Muyuan, Princess Leona's aura began to rise continuously.

"Third Rank..."

"Third Rank Limit..."

"Fourth Rank!!!!"

When Princess Leona's aura reached the Fourth Rank, Kerson and Lorraine Muyuan staggered back in horror.

"How... how is it possible?"

"The limit of the Starfall Kingdom is the Second Rank. Even relying on the royal secret method, it can only reach the Third Rank, and the conditions are harsh. There are not many people in the entire Starfall Kingdom who have done it."

"You... how could you be the Fourth Rank!!!"

Princess Leona smiled and said, "What do you think I was doing in the novice village for so many years? Just hiding to avoid the throne struggle?"

These words fell.

Two phantoms suddenly appeared behind Princess Leona, one was an ice-blue phantom, and the other was a scarlet phantom.

These two condensed phantoms exuded a powerful aura.

"In the novice village, there was an ancient Drought Demon that was sealed. I went to the novice village these years to try my best to obtain the power of the Fire Source from that ancient Drought Demon, plus the power of my own Ice Source, that's why I am now the Fourth Rank."

Kerson sighed, "Alas, Princess Leona, if you had shown your strength today earlier, how could we have placed our bet on the Snow Emperor."

"Of course, it's necessary."

Princess Leona said meaningfully, "If Father doesn't abdicate, even if I am powerful, if I commit patricide and ascend the throne, my name won't be justified. Therefore, this act of patricide can only be done by others."

Chapter 163 - Two important ministers fell!

"The original plan was for Queen Fiodina to kill the father king, but she failed, so naturally, we can only use you."

Kessenro and Lorraine Muyuan smiled wryly, "Grand Marshal, we've schemed for so long, only to become pawns of Her Royal Highness the Princess."

"No, it's the King!"

Lorraine Muyuan knelt and kowtowed respectfully.

“Your sinful subject, Lorraine Muyuan, greets the King, may the King have ten thousand blessings, may the King have eternal peace!”

Kessenro also adjusted his robe and knelt respectfully, kowtowing.

“Your sinful subject, Kessenro, greets the King, may the King have ten thousand blessings, may the King have eternal peace!”

Lorraine Muyuan and Kessenro raised their heads at the same time, "For the King's grand plan, your sinful subjects are willing to be ministers. Your sinful subjects will commit suicide before the throne today, wishing for the Star Kingdom to complete its ascension in the King's hands."

The words fell.

Lorraine Muyuan directly committed suicide before the throne.

Kessenro also said respectfully: "Wishing for the Star Kingdom to ascend in the King's hands!"

Kessenro also committed suicide before the throne.

They knew they had to die!

Even if they didn't help, the Snow Emperor would find ways to become the King of the Star Kingdom with the two pre-quest scrolls of the Gods' Blessing.

Only if they died.

With the two pre-quest scrolls of the Gods' Blessing invalidated, the Snow Emperor might give up the quest.

“A grand burial!”

Princess Leona, no, it should be King Leona, gave an order, and they immediately went to carry out the task.

At this moment.

Lin Tianhao, who had only entered Tianxing City not long ago, changed his expression, because he had discovered a very terrifying thing.

That is...

The two pre-quest scrolls of the Gods' Blessing on him were invalidated.

There was only one possibility, and that was that the people who gave him the pre-quest scrolls of the Gods' Blessing were dead!

“Kessenro and Lorraine Muyuan are dead, and they died together!!”

Lin Tianhao gasped, this was not a good thing.

Without hesitation, Lin Tianhao left Tianxing City directly.

Something terrible must have happened in the Star Kingdom, which led to the simultaneous death of Prime Minister Kessenro and Grand Marshal Lorraine Muyuan.

Who!

Could have such strength to kill these two highest officials of the Star Kingdom together.

The greatest probability was that they committed suicide!

If it was a battle, they wouldn't have died together.

After all, Lorraine Muyuan's strength was there, and he wouldn't die in a short time if a battle broke out.

Although Kessenro and Lorraine Muyuan had joined forces to kill King Abraham, they did it for the good of the Star Kingdom.

Now that they had committed suicide at the same time, it meant that someone had persuaded them, making them feel that that person was more suitable to become the King of the Star Kingdom than themselves!

Who could this person be?

Village Chief Wang?

Village Chief Wang's potential for growth might indeed have moved Kessenro and Lorraine Muyuan.

But to say that they committed suicide because of Village Chief Wang was not a good thing.

Moreover.

With the invalidation of these two pre-quest scrolls of the Gods' Blessing, Lin Tianhao's quest to obtain the blessings of ten Eastern Gods would be postponed.

"It seems that I have to re-plan a bit. There must be something in this Star Kingdom that I haven't calculated."

Village Chief Wang.....

But besides him, who else could move Kessenro and Lorraine Muyuan, even to the point of committing suicide for it?

Ice and Snow Goddess.....

Lin Tianhao once again denied this idea. The Ice and Snow Goddess's situation made it impossible for her to revive at this stage.

Princess Leona.....

Also not possible.

If Kessenro and Lorraine Muyuan were to support Princess Leona, then it would have nothing to do with him.

This matter was becoming more and more troublesome.

Lin Tianhao couldn't think of the reason for a while and could only give up for now.

Kessenro and Lorraine Muyuan were dead, so Tianxing City was definitely not a place to stay.

If he was trapped in Tianxing City, he would really be infuriated to death.

“Wait...”

Lin Tianhao sighed.

He knew that King Abraham was dead, and it wouldn't be long before a new king would appear.

And this new king should be the person who made Kessenro and Lorraine Muyuan commit suicide.

“Blade, have your people pay attention and see who the new King of the Star Kingdom is?”

He couldn't contact them now, so he could only entrust this task to the Mad War Guild.

“Easy, no problem.”

Mad War Blade agreed immediately.

Lin Tianhao looked at his first job-changed blacksmith clone. It would be able to become a first-tier blacksmith in at most one day.

To be able to be so fast.

In addition to Lin Tianhao's gold coin support, there was also an important reason, and that was Lin Tianhao's attack speed.

Secondary jobs actually relied on attack speed as well. The faster the speed, the faster the forging efficiency.

After dealing with these things, Lin Tianhao came to Blackwater Lake again to continue farming copies to accumulate life value.

As long as he had free time, he would stack life value.

Becoming stronger as much as possible was definitely not a problem.

At the same time.

He could also improve the Netherworld Longbow by hunting Xuan Turtles.

The growth potential of the Netherworld Longbow made Lin Tianhao feel that he could use it for a lifetime.

The premise was.

Eternal Scroll.

This was something he had to get.

After continuously farming the Blackwater Lake Dragon Turtle in hell-level difficulty several times, Lin Tianhao came out of the copy and encountered a black-robed man.

"Snow Emperor."

Seeing Lin Tianhao, the black-robed man immediately spoke.

Lin Tianhao raised his eyebrows. This voice seemed a bit familiar.

"You are... Di Xuejian?!"

Di Xuejian took off his hat, revealing his true face, and smiled at Lin Tianhao: "That's right, it's me."

"I was a little regretful when I heard the news of your death before."

Lin Tianhao had already guessed that besides Qing Fuyun, this Di Xuejian should also have helped him deal with King Abraham before.

Of course.

He couldn't ask.

If he asked, wouldn't it be equivalent to admitting that he was the black-robed archer?

"I heard that your father king is dead. I wonder who the new king of the Star Kingdom is now?" Lin Tianhao asked casually.

Princess Di Xuejian did not hide it and said bluntly: "Leona."

Lin Tianhao was slightly surprised. Leona? Did she have the ability to make Kessenro and Lorraine Muyuan commit suicide?

Unlikely.

But since she was the new King of the Star Kingdom, it meant that the deaths of Kessenro and Lorraine Muyuan were inseparable from Leona.

Forcing Kessenro and Lorraine Muyuan to death, invalidating the two pre-quest scrolls of the Gods' Blessing in his hand, this Leona was really not an ordinary ruthless person.

"I wonder what Princess Di Xuejian is looking for me for this time?" Lin Tianhao asked.

Princess Di Xuejian said straight to the point: "Nightwalkers have established a regime in our Star Kingdom, and the new king hopes that you can take action to capture the city occupied by the Nightwalkers."

Lin Tianhao's eyes narrowed slightly. This time, he did not ask about the benefits, but keenly smelled a hint of conspiracy.

Leona, had no good intentions!!

Chapter 164 - Negotiation: a game between each other!

Princess Leona, no, it should be said, Queen Leona, wants to isolate herself.

At least for now.

To contend with the Starry Kingdom, she must rely on the Nightwalker army.

If she were to defeat the Nightwalker army now, she would almost certainly lose their trust.

"Hehe."

Lin Tianhao chuckled and shook his head, "I fulfilled my agreement with Princess Leona, helping her become the Queen of the Starry Kingdom. Before I even get the reward, she wants me to help with more trouble?"

Princess Tixuejian frowned, "Wasn't that agreement voided long ago?"

"Voided? No, I risked my life to help her become the Queen of the Starry Kingdom, and now she wants to go back on her word."

Princess Tixuejian frowned, "Honoring you as the God of War of the Starry Kingdom requires a reason. Wouldn't reclaiming the three cities occupied by the Nightwalkers be perfect?"

"No."

Lin Tianhao shook his head.

"The previous agreement didn't have such additional conditions."

Princess Tixuejian pondered for a moment, "It's impossible to honor you as the God of War. Tell me what else you want. You should cherish this opportunity."

"If that's how it is, with a ruler of a kingdom going back on their word so easily, I might as well help the Nightwalkers attack the Starry Kingdom to vent my anger."

Princess Tixuejian's eyes turned cold, and she gritted her teeth, "Snow Emperor, you should know that honoring you as the God of War is beyond your current capabilities. You should cherish the chance to name your own reward."

"Since we're being so frank, then just give me ten Divine Talent Awakening Stones."

"Just give you? Ten?"

Princess Tixuejian almost laughed in anger at Lin Tianhao's words.

"Not even one."

"Princess Tixuejian, did you not come here today prepared to negotiate properly?"

Lin Tianhao narrowed his eyes and took out the Ninefold Longbow.

It wasn't the Netherworld Longbow because Lin Tianhao was worried that Princess Tixuejian might have some special means, and if the Netherworld Longbow was destroyed, he would be devastated.

"If I kill you, whatever drops will be considered interest."

Princess Tixuejian narrowed her eyes because she realized that Lin Tianhao didn't seem to be joking.

“Kill me? Have you considered the consequences?”

Lin Tianhao spread his hands indifferently, “Is this the first day Princess Tixuejian has known me? Would I care about the consequences of killing a princess?”

Tixuejian's expression was extremely gloomy, "Snow Emperor, I came here today to negotiate properly."

“Negotiate properly, but you say you don’t have even one?”

“Indeed, I don’t. However, other things can be considered.”

Princess Tixuejian’s mouth twitched. She held up one finger, “One.”

“Seriously, Tixuejian, you’re being a bit of a beggar yourself. The original agreement with Princess Leona was to honor me as the God of War of the Starry Kingdom, receiving incense and worship.”

“Is one Talent Evolution Flower enough to justify that?”

Princess Tixuejian’s expression darkened. She had indeed underestimated the thickness of Lin Tianhao’s skin.

“One Divine Talent Awakening Stone, plus two Talent Evolution Flowers.”

Lin Tianhao nodded, “Alright, I’ll reluctantly accept it.”

“After you defeat the Nightwalkers, these things will be your reward.”

“Bah!!”

Lin Tianhao was truly a little angry, “I should have known that it’s impossible to negotiate with you. In that case, I’ll just help the Nightwalkers slaughter your Starry Kingdom. I believe the Nightwalkers would be very willing to give me benefits.”

“Snow Emperor!”

Princess Tixuejian shouted sternly, “Do you really think that with you, those lowly Nightwalkers can defeat us?”

“The new queen is powerful, and she is destined to lead our Starry Kingdom to a higher level. Now, the new queen is giving you an opportunity.”

“Opportunity?”

“If it’s this kind of opportunity, I don’t want it.”

As soon as he finished speaking.

Lin Tianhao raised his hand, and arrows rained down.

“Shoo, shoo, shoo!”

The arrows pierced through the air, and Princess Tixuejian immediately retreated, with ice walls constantly appearing in front of her to block Lin Tianhao’s arrows.

But it was useless. In an instant, her ice walls shattered layer by layer.

“Snow Emperor!!”

Princess Tixuejian shouted angrily, “We can discuss the benefits further.”

A barely perceptible smile appeared on the corner of Lin Tianhao's mouth.

"That's more like it. Stop testing each other. Tell me everything you can offer at once."

Princess Tixuejian took a deep breath, "One Divine Talent Awakening Stone, five Saint-level Talent Awakening Stones, three Talent Evolution Flowers, and one Eternal Scroll."

"However, the prerequisite is that you must defeat the Nightwalkers and kill at least one Nightwalker leader."

Lin Tianhao frowned slightly. He was actually tempted by these things.

The rewards he had mentioned before were just for better negotiations.

"That's not enough."

"Snow Emperor, what else do you want?!"

Lin Tianhao smiled and said, "I need the help of three people. You have to give each of them one thousand free attribute points. Not only that, but I also want the dungeon key for the Snow Corpse's Footprints and a Scroll for the preliminary quest for the Blessing of the Gods."

Farming the Blackwater Lake Dragon Turtle dungeon was giving Lin Tianhao less and less health, only dungeons like the Snow Corpse's Footprints could allow Lin Tianhao to stack health faster.

He had calculated it.

A node could have up to twenty-seven ice-type bosses, and he only needed to attack five each time.

After attacking these five with low health, he could switch targets and attack other bosses, and then these five with low health could quickly regenerate health using the characteristics of the Snow Corpse's Remains.

This way, he could stack more health.

As for the free attribute points, of course, it was to help Monkey, Glasses, and Fatty.

“Three thousand free attribute points are negotiable, but the dungeon key for the Snow Corpse's Footprints and the Scroll for the preliminary quest for the Blessing of the Gods are the limit. I need to report to the new queen.”

Lin Tianhao made a gesture for her to do as she pleased.

Princess Tixuejian took out a sound transmission talisman and returned to Lin Tianhao after a while.

“Three thousand free attribute points are not a problem, but the two things you mentioned later are the limit.”

“The new queen said that if you don’t agree, then forget it and let me directly activate the teleportation talisman to return.”

Lin Tianhao narrowed his eyes. Leona really liked to have him in her grasp.

“Okay, then tell your new queen that we’ll meet on the battlefield!”

Princess Tixuejian’s pupils shrank. Originally, she thought that even without the key and the Scroll for the preliminary quest for the Blessing of the Gods, Lin Tianhao would still agree.

Because this reward was already very, very generous, and she really didn’t know what reason Lin Tianhao had to refuse.

“Okay, then we’ll meet on the battlefield.”

Princess Tixuejian said coldly and turned to leave.

But after she turned around, Lin Tianhao didn’t call her back.

She finally couldn’t help but look back.

“Snow Emperor, okay, the dungeon key for the Snow Corpse's Footprints can be given to you, but the Scroll for the preliminary quest for the Blessing of the Gods is absolutely impossible. If you don’t agree, then we really can only meet on the battlefield.”

Chapter 165 - Di Xuejian’s life-saving money!

"Whoosh, whoosh, whoosh!"

Lin Tianhao didn't respond further, or rather, his response was the arrows.

"Since that's the case, then please, Princess Tixuejian, die first!"

Arrows rained down. A platinum heavy shield appeared in Tixuejian's hand. As she raised the shield, she took out a teleportation scroll with her other hand.

"Good calculation, but a mere platinum-grade heavy shield can't protect you."

The item in Princess Tixuejian's hand was not a spatial teleportation scroll, so she couldn't activate it instantly; it required about three seconds of activation time.

But three seconds was already enough.

"Instant Slash!"

Lin Tianhao transformed into a blur, arriving in front of Princess Tixuejian in the blink of an eye.

"Bang!"

The Godsmacking Whip slammed down, and faint cracks actually appeared on the platinum heavy shield.

Princess Tixuejian was shocked. This was a platinum heavy shield! Under normal attacks, even tens of thousands of hits wouldn't cause its durability to decrease even a little.

But Lin Tianhao's one attack caused cracks to appear on this platinum heavy shield.

However, she didn't have time to think, as Lin Tianhao's second strike with the Godsmacking Whip had already landed.

"Boom!!"

With a loud crash.

The platinum shield in Tixuejian's hand shattered completely, and an expression of disbelief appeared on her face.

How was this possible!

A faint smile appeared on Lin Tianhao's face. The power of the Godsmacking Whip was truly remarkable.

Shattering a platinum heavy shield in two hits. If this were ordinary platinum equipment, it might have shattered in one hit.

Heavy shields were generally stronger than other equipment of the same level, at least, they were harder to destroy.

"Bang!!"

Lin Tianhao's Godsmacking Whip followed up.

Princess Tixuejian's expression changed drastically. A pair of wings appeared behind her, and she immediately soared into the sky.

But as she soared into the sky, Lin Tianhao also soared into the sky, and the Godsmacking Whip followed, smashing down.

Critical Hit!

-860010.

A huge damage number appeared. One critical hit dealt over eight hundred thousand damage, scaring Princess Tixuejian out of her wits.

Most importantly.

She knew that Lin Tianhao had ice and snow immunity, and her attacks were ineffective against Lin Tianhao.

With a wave of her hand.

Shield after shield appeared, attempting to block Lin Tianhao's attack.

But she was destined to be disappointed.

Under the Godsmacking Whip, her shields were like paper, easily shattered.

This was Lin Tianhao's terror.

"How could you be so terrifying?!"

An unbelievable expression appeared on Princess Tixuejian's face.

Defense?

Non-existent.

Her spell resistance was useless, and the platinum shield could only block twice, but she only had one platinum shield in total.

She couldn't run, couldn't win, and even defense was useless.

"Snow Emperor, what exactly do you want!"

Tixuejian was somewhat exasperated. Lin Tianhao's power had exceeded her imagination.

"Didn't you understand me? I am just a profit-driven person. I don't care how many calculations you have, but no one can deduct my rewards!!"

"Not you, and not Leona either!!"

Princess Tixuejian gasped. Today, she finally witnessed the terror of Lin Tianhao.

With such combat power, she had no chance of winning, not even a chance to escape.

"Okay, I agree to your previous conditions."

Tixuejian knew that if she didn't agree, she would die without a doubt.

The corners of Lin Tianhao's mouth rose, and a faint smile appeared on his face.

"You said it yourself, that was before. Now, the conditions are doubled."

"Snow Emperor, I came to talk with sincerity!"

"Sincerity?"

Lin Tianhao sneered, "Tixuejian, do you believe such words?"

"Snow Emperor, don't make a mistake!"

"I should be saying that to you."

A cold light flashed in Lin Tianhao's eyes, and he transformed into a blur, killing towards Tixuejian.

"Stop!"

Tixuejian shouted angrily, "Let me go, and you can name your benefits!"

The corners of Lin Tianhao's mouth rose, outlining a faint smile.

He was waiting for Tixuejian to say these words.

What benefits could he get from killing Tixuejian? Just a first kill reward.

To be honest, Lin Tianhao didn't care.

"The Snow Corpse's Footprints dungeon key, the Eternal Scroll, the Gods' Blessing prerequisite quest scroll, and three thousand free attribute points."

"You really are asking for the moon."

Princess Tixuejian gritted her teeth, "Only the king has the Snow Corpse's Footprints dungeon key, and I have already given you the Gods' Blessing prerequisite quest scroll."

"The Eternal Scroll, plus three thousand free attribute points, is the limit of what I can give you."

Lin Tianhao frowned, and Tixuejian continued:

"You should know that I am not lying. Taking out these things is already the limit."

"Okay."

Lin Tianhao accepted.

He made this request, frankly speaking, to ask for a high price and then settle for less.

Moreover.

What he really wanted most was the Eternal Scroll and the free attribute points.

Leona had given him a copy of the Eternal Scroll before, indicating that Tixuejian might also have one.

As for the three thousand free attribute points, according to Lin Tianhao's guess, this number of free attribute points was probably all that Tixuejian could offer.

NPCs also give a lot of free attribute points as rewards for publishing tasks, but most of them are rewards of less than 10 points.

Only big figures like Tixuejian give more free attribute point rewards.

But this "more" is also limited.

After receiving the Eternal Scroll and three thousand free attribute points, a satisfied smile appeared on Lin Tianhao's face.

"Go back and tell Leona that if I don't get the reward for supporting her to become king, then I will pull her down from the throne."

Princess Tixuejian looked at Lin Tianhao meaningfully. She knew that Lin Tianhao was not joking; he really might do that.

"Okay, I will tell the new king what you said."

Tixuejian left, and Lin Tianhao unhesitatingly used the Eternal Scroll on the Underworld Longbow.

Putting the Underworld Longbow into an indestructible state.

That way.

Lin Tianhao was somewhat relieved. If the Underworld Longbow could not be destroyed, his battles would be much easier.

Returning to the Blackwater Lake Dragon Turtle, Lin Tianhao continued to farm health points.

At the same time, he improved the attributes of the Underworld Longbow.

The more powerful the monsters the Underworld Longbow kills, the more attributes it can increase.

This farming lasted a day and a night.

Lin Tianhao's health points increased by 180,000, reaching just over 7.4 million.

The damage was too high, which caused Lin Tianhao's current farming of health points to be greatly affected.

He had to get the Snow Corpse's Footprints dungeon key no matter what, because only in this way could he quickly increase his health points in a short time.

And after this day and night, Lin Tianhao's clone, who initially changed to a blacksmith, had reached the level of a first-tier blacksmith.

The Life Orb could be forged!

Lin Tianhao spent ten million gold coins to buy the materials for forging the Life Orb. Don't ask why; the answer is that he is rich and powerful.

Chapter 166 - Give away the Orb of Life!

Having just reached Tier 1, even with Lin Tianhao's attack speed boost, forging a Life Orb would still take an hour.

And there's a certain probability of failure.

But there's no other way, the time is too short, and his clone's forging level is too low.

But there's no rush, he can wait.

Lin Tianhao continued to stack health points. For the next three days, it seemed that everything had settled down, and no one appeared to disturb Lin Tianhao.

And at this time, Lin Tianhao had also increased his health points to eight million.

Just grinding dungeons was definitely not enough, so he also equipped himself with a Life Orb.

Lin Tianhao kept five for himself, leaving thirty.

"Blade."

Lin Tianhao sent a message to Berserker Blade.

"Snow Emperor, what are your orders?"

Lin Tianhao directly sent the attributes of the Life Orb over.

"Holy crap, no level restriction, doesn't take up an equipment slot, and adds 100,000 health points!!"

Berserker Blade was dumbfounded, this thing was a bit heaven-defying.

Not taking up an equipment slot meant that it could be equipped even in the late game without affecting the normally equipped gear.

"Good stuff, how many gold coins?"

Lin Tianhao directly traded thirty Life Orbs over, "You helped me before, this is to repay your favor."

"Holy crap!!!!"

Berserker Blade originally thought that Lin Tianhao only had one, but he didn't expect that Lin Tianhao would directly trade thirty over in one go.

The most important thing was... it was free!!

"Hahaha, no problem, no problem, we're friends, Snow Emperor, you're too kind."

Berserker Blade calmly accepted the things Lin Tianhao gave him.

He had actually been under some pressure these past two days because the last time he had the Berserker Guild help Lin Tianhao, it had resulted in the deaths of many elite players.

Not only that.

They had also hunted fewer Nightwalkers, and the losses inside and out were quite significant.

"Also, if you have a need, I can sell them to you in batches for 10,000 gold coins each."

The raw materials for a Life Orb cost about 200 gold coins, plus the current 50% success rate, the cost per orb is 500 gold coins.

As a friend.

Lin Tianhao selling them to Berserker Blade for 10,000 gold coins each was just earning a little hard-earned money.

Berserker Blade's eyes lit up. In his opinion, 10,000 gold coins each was not expensive at all.

"Snow Emperor, how many do you have on hand?"

"One."

"Ah!!"

Berserker Blade originally thought that Lin Tianhao had a lot, but he didn't expect that there was only one left.

"But my people can forge this thing and mass produce it."

"What!!"

Berserker Blade was shocked again, this thing could be mass-produced, that was too outrageous.

"Currently, we can forge more than a dozen Life Orbs a day."

Without even thinking, Berserker Blade said, "Snow Emperor, our Berserker Guild will take them all."

"No problem."

... ..

After ending the private chat.

Berserker Blade was extremely excited and immediately convened a high-level video conference.

After all, everyone was in the game, and holding an offline meeting would be a waste of time.

"Blade, what's the matter?"

Berserker Emperor frowned. He was the vice president of the Berserker Guild. Berserker Blade usually managed the Berserker Guild, and he rarely participated in decision-making.

But the last time Berserker Blade went to help Snow Emperor did cause their guild to lose a lot.

Especially him. With his strength, he could have gotten at least 200 free attribute points, but not only did it fall through, he was almost killed by the Starry Kingdom army.

The others were also not in a good mood. If it weren't for Berserker Blade's prestige and his contributions to establishing Berserker Territory, they probably would have lost their temper.

"Hehe, didn't I say before? Helping Snow Emperor, we won't suffer."

"What's wrong?"

Berserker Emperor's eyes lit up. He knew that Snow Emperor was not simple. If he was willing to release some good things, it would be of great help to them.

Berserker Blade sent the attributes of the Life Orb to the meeting group.

"Life Orb, doesn't take up a slot, adds 100,000 health points, not bad, this thing is mine, you guys have no objections, right?"

Berserker Emperor said without hesitation.

The others were also a little envious, but Berserker Emperor had already spoken, so they couldn't say anything else.

"No."

However, Berserker Blade shook his head.

Berserker Emperor immediately couldn't sit still, "Blade, what do you mean? You took the unlimited gold set, I didn't say anything, but this Life Orb was obtained by the brothers giving up killing Nightwalkers, and many brothers even lost levels, and you still want to take it?"

"Emperor, you misunderstood, what I mean is, each of you gets one."

"What?!!"

Berserker Emperor and the others in the video conference were all dumbfounded.

"Blade? Are you saying that you have more than one Life Orb? This is special equipment, right?"

Those in the video conference were all high-level members of the Berserker Guild, and they were very clear that special equipment basically meant uniqueness.

"To thank us, Snow Emperor gave us thirty Life Orbs for free."

"Thirty... thirty! !"

They all knew the value of the Life Orb, especially at this stage, it was a perverted piece of equipment for any class.

But Snow Emperor actually gave out thirty in one go.

"That's not enough to go around..."

Berserker Lie Ru said weakly.

Berserker Emperor couldn't help but curse, "Lie Ru, you should be content, thirty, that's thirty, Snow Emperor is already generous enough, and you're still thinking it's not enough to go around."

"It's enough."

Berserker Blade continued.

"How is thirty enough?" Berserker Lie Ru asked subconsciously.

"These thirty are free gifts. Because of my friendship with Snow Emperor, he is willing to sell me some for 10,000 gold coins each."

Berserker Emperor's expression was excited, "10,000 gold coins each?"

"This... is too cheap, President, immediately take out 10 million, no, all the gold coins in the guild, buy as much as you can."

Berserker Blade smiled bitterly, "I know, but Snow Emperor said that he can only produce a dozen or so each day. I have already said that he should prioritize selling them to us."

"A dozen or so a day is fine, this thing can still be used in the mid-to-late game."

... ..

This time, Snow Emperor's position in their hearts changed.

Likewise.

Berserker Blade's reputation in the Berserker Guild also received a considerable boost.

... ..

Lin Tianhao cleared the Blackwater Lake Dragon Turtle again, and it was already a bit boring.

The Starry Kingdom seemed to have suddenly entered a peaceful and prosperous era. Since Princess Tixuejian left, there had been no news of any major moves from the Starry Kingdom.

"What... are they brewing?"

Chapter 167 - Attack the city again: Fuling City!

Lin Tianhao sorted out his thoughts. Currently, he had received blessings from seven Eastern deities: Houtu Niangniang, the Third Prince Nezha, the Fire God Zhurong, the Jade Emperor, the Old Man Under the Moon, the God of Wealth, and Taishang Laojun.

He was still three deities short of the blessings of ten Eastern deities.

This meant he needed at least three more pre-quest scrolls for the Blessings of the Gods.

Qing Fuyun had one pre-quest scroll for the Blessings of the Gods in her possession. Lin Tianhao was unsure about others for the time being.

However,

the Great Leader and the Second Leader of the Demon Cave should also have pre-quest scrolls for the Blessings of the Gods.

Calculating this way, there were still three known pre-quest scrolls for the Blessings of the Gods.

This was what Lin Tianhao knew. There were definitely others he didn't know about.

Because according to known information from his previous life, more than twenty players in the Star-Moon Kingdom had received the Blessings of the Gods.

It was just that these people hadn't revealed their strategies for obtaining the Blessings of the Gods, which left Lin Tianhao somewhat at a loss.

He had killed Queen Fiona, so it would be somewhat difficult to obtain the pre-quest scroll for the Blessings of the Gods from Qing Fuyun.

Since that was the case,

then he had to consider starting with the Demon Cave.

More than just the three leaders of the Demon Cave should have pre-quest scrolls for the Blessings of the Gods. There was a high probability that others had them as well.

Since that was the case,

Lin Tianhao went straight to Blackwind City.

Blackwind City.

City Lord's Mansion.

Lin Tianhao arrived here wearing a disguised black robe.

The Black Robe Leader smiled when he saw Lin Tianhao's arrival.

"Snow Emperor, are you planning to change your class and leave the Star-Moon Kingdom?"

Lin Tianhao had reached level 50 some time ago. It was reasonable for him to leave after completing his second class change.

"No."

Lin Tianhao shook his head. "I want the pre-quest scroll for the Blessings of the Gods."

The Black Robe Leader was stunned. "We do have this, but we don't give it to people easily."

"So I'm here to negotiate terms," Lin Tianhao said with a smile.

Lin Tianhao smiled and continued, "Five pre-quest scrolls for the Blessings of the Gods, and I'll help you conquer the Star-Moon Kingdom, so that your Demon Cave not only has political power, but directly becomes the king of the Star-Moon Kingdom."

"Five?"

The Black Robe Leader frowned, but the benefits Lin Tianhao offered were indeed very tempting to him.

However, five pre-quest scrolls for the Blessings of the Gods was indeed a bit too much for him.

"I guess your elder brother and second brother haven't appeared all this time because they've been preparing to counterattack the Star-Moon Kingdom."

"But if I help you do it, your elder brother and second brother's preparations can be used to advance their positions."

Hearing this,

the Black Robe Leader was even more tempted, because Lin Tianhao's guess was completely correct.

His elder brother and second brother had been preparing to defeat the rule of the Star-Moon Kingdom.

"I really can't take out five pre-quest scrolls for the Blessings of the Gods right now. Two, my elder brother and second brother each have one."

Lin Tianhao frowned slightly. Two pre-quest scrolls for the Blessings of the Gods were not enough for him.

"Four, plus a Talent Evolution Flower."

The Black Robe Leader frowned and shook his head. "Snow Emperor, I'm not lying to you. This is really the limit. However... our Demon Cave has a scroll for a God-level hidden class change. Although it's not for archers, I think you can give it to your partner."

"Two pre-quest scrolls for the Blessings of the Gods and one scroll for a God-level hidden class change."

"What God-level hidden class is it?" Lin Tianhao asked.

"It's for shield warriors, called Ninefold Shield Warrior."

Lin Tianhao raised his eyebrows. This class sounded like it would be very suitable for Zhou Xiaopang, after all, Zhou Xiaopang's attributes were already very impressive.

"Okay, but I also need the help of three people. I won't ask for too much. Give them each 1,000 free attribute points."

The Black Robe Leader didn't hesitate and nodded in agreement.

"No problem."

Three thousand free attribute points were dispensable in exchange for changing a country.

"Since that's the case, then prepare your troops. After I take down the city, your troops can move in."

"No problem."

The Black Robe Leader handed two pre-quest scrolls for the Blessings of the Gods to Lin Tianhao. The mission was to conquer the Star-Moon Kingdom and hand it over to him.

"Tissian, Leona, I gave you the opportunity, but you didn't cherish it. Then I'll let you know what the consequences are for angering me."

After accepting the mission, Lin Tianhao directly contacted Fatty, Monkey, and Glasses.

"Brothers, let's do something big."

Zhou Xiaopang was very excited. "Hehe, it sounds exciting. After the national war, Fatty's broadsword has long been eager and unable to find a powerful opponent."

Lin Tianhao smiled. Fatty was somewhat exaggerating. His health points and dual resistances were indeed very high, but it was unrealistic to say that his output was outrageous.

However, Monkey and Fatty had been playing together these past two days. Putting aside everything else, Monkey's current output ability could be described as perverted.

Of course,

compared to Lin Tianhao's damage of about 500,000 per arrow, Monkey was definitely not enough.

"But Brother Hao, Glasses has lost contact again these past two days. The latest news is that he found a new ancient tomb. He'll be out of contact after entering the tomb."

"We asked him offline once, and he said it would probably take seven or eight days to come out."

Lin Tianhao didn't know much about the Grave Robber class. He had actually entered ancient tombs, but he couldn't say for sure what the situation inside was like.

However,

judging from the skills Glasses used last time, his gains in the ancient tomb should be very extraordinary.

"Alright then, just the two of you."

Lin Tianhao was somewhat helpless. Glasses' curse skills had a great suppression effect on high-level powerhouses.

It could be used in peak battles.

"I'm going to attack the main city of the Star-Moon Kingdom. You're mainly responsible for helping me with decapitation strikes, cooperating with me to contain the strong, and then I'll be responsible for killing them."

"No problem."

Zhou Xiaopang replied very readily.

"Let's start with Fuling City."

Lin Tianhao came to Fuling City. The city gate of Fuling City was open.

Looking at his free attribute points, he had accumulated 4,700 free attribute points. He could further improve his attributes.

After a little thought, he didn't do so, because he didn't need to for the time being.

His current attack speed and movement speed were quite good.

"Whoosh whoosh whoosh!!"

Lin Tianhao raised his hand and fired five arrows simultaneously. This time, Lin Tianhao didn't have the slightest bit of mercy.

Five city guards immediately fell.

Before they could react, the five city guards next to them also fell.

In less than a second,

hundreds of city guards on the city wall fell, which showed how terrifying he was.

"Enemy attack, enemy attack!!"

"Close the city gate!"

The city guards immediately closed the city gate, and a large number of city guards began to gather.

However, they were stunned as soon as they gathered on the city wall.

Because their attacks couldn't reach Lin Tianhao.

Chapter 168 - Attacked from both sides!

Basic Attack Amplification!

This was a passive skill that Lin Tianhao had been hiding.

He had kept this skill hidden to scheme against King Abra.

Now that King Abra was dead, he no longer needed to hide it.

Because next, he was going to use the fastest method to break through Fuling City.

The City Lord of Fuling City, Fu Ling Changyue, looked extremely grim after learning that someone was attacking Fuling City.

"Report immediately, activate the city's defensive formation, and minimize casualties as much as possible. Also, summon all mages to prioritize defense."

Fu Ling Changyue remained relatively calm upon learning of the attack. "Also, immediately issue a city defense mission. We don't need to kill that guy outside. Use a points system. As long as you control the guy outside, each second of control will be rewarded with an Elite-grade equipment, ten seconds with a Black Iron-grade, and a hundred seconds with a Bronze-grade equipment, and so on!"

"Global announcement: A scumbag from the Demon Cave is attacking Fuling City. A city defense mission is now open. We hope all players will actively participate."

"Global announcement: A scumbag from the Demon Cave is attacking Fuling City. A city defense mission is now open. We hope all players will actively participate."

... ..

The global announcement sounded, alarming many people.

"Holy crap, am I seeing things? This is basically giving away equipment. Controlling for one second rewards an Elite-grade equipment."

"No need to kill, just control and there's such an outrageous reward? Let's go, let's go."

"The City Lord of Fuling City is so kind. There's no need to risk your life at all. It's simply OP."

... ..

Previously, the missions were basically all about killing, which made many players feel hopeless. But now, this mission is just too good.

A large number of players rushed towards Lin Tianhao. Lin Tianhao also saw the reward mission from Fuling City.

He couldn't help but give a silent thumbs-up in his heart. This City Lord of Fuling City had a good idea. As long as he was controlled, her people would have a chance to kill him.

It's a pity.

She was going to be disappointed.

"Swish, swish, swish!"

Five arrows fired simultaneously, coupled with lightning jumps, basically resulted in large swathes of players dying.

One second!

Lin Tianhao's red name value exceeded a thousand!!

"Holy crap, holy crap, holy crap, what's up with this black-robed archer? This lethality is too perverted. He killed thousands of players in one second. There's no way to get close to him."

Inside Fuling City.

Fu Ling Changyue coldly watched Lin Tianhao killing ordinary players, her eyes slightly narrowed.

"Snow Emperor, you really are a ruthless person. We are both adventurers, yet you are so cruel when killing. In that case, I'll see how many people you can kill."

"Global announcement: Due to the large number of deaths among city defense players, a special compensation is issued. Anyone who dies in the city defense battle will receive 50 gold coins + 1 Common equipment + 1 Free Attribute Point."

"Global announcement: Due to the large number of deaths among city defense players, a special compensation is issued. Anyone who dies in the city defense battle will receive 50 gold coins + 1 Common equipment + 1 Free Attribute Point."

... ..

Fu Ling Changyue issued another global announcement.

Controlling him was definitely the best, but even if they couldn't control him, it wouldn't be a big loss.

After all, there were rewards of gold coins and equipment for dying, and they could also get a free attribute point.

Such compensation was definitely not bad in the early stages of the game.

After all, dropping a level now wasn't too difficult to level up.

Because in Twilight of the Gods, dropping a level wouldn't drop free attribute points. It's just that leveling back up wouldn't reward free attribute points.

Only by breaking through your original highest level could you get free attribute points for leveling up.

In other words.

Dropping a level wouldn't drop attributes, but would instead give gold coins, equipment, and a free attribute point.

This made the players rush towards Lin Tianhao one after another.

Controlling him was a big win, and being killed wasn't a loss.

Lin Tianhao glanced in the direction of Fuling City.

"Alright, then let me see how much stuff is in your Fuling City's treasury."

Whether it was a city or a country, they all had their own treasury. Most of these city defense rewards were paid by the city itself.

Of course.

If it escalated to a national war, then the country would pay the rewards.

This was also why Lin Tianhao had previously forced King Abra to start a national war.

Because only when a national war occurred would there be a large number of free attribute point rewards.

Lin Tianhao didn't show any mercy, and the arrows continued to pour out.

One hundred and twenty-four arrows per second, plus lightning jumps and a small probability of Heavenly Fire Meteor.

Not a single player could get close to Lin Tianhao.

Not only that.

Lin Tianhao also discovered a pattern.

That was, his arrows were more likely to trigger lightning jumps and Heavenly Fire Meteor when hitting lower-level players. It was truly terrifying.

Triggering a Heavenly Fire Meteor once could kill hundreds of players.

"Damn it, what kind of pervert is this? Tens of thousands of us can't even get close. The lethality is too terrifying."

"At least a thousand players are dying under his arrows every second. There's no way to get close."

"What are you afraid of? There's compensation for dying. Charge over. His red name value is so high. Killing him might drop Platinum equipment."

... ..

One by one, the players rushed up with ferocious faces. There was no other reason. There was a guaranteed reward for being killed, so they were not afraid of being killed.

Lin Tianhao looked at his red name value, which had already exceeded ten thousand, and felt slightly helpless.

He had already anticipated that his red name value might increase crazily this time he attacked the main city.

However.

Fu Ling Changyue had miscalculated one thing.

That was, her reward wasn't very attractive to truly high-level players, which was why no players were able to charge up.

Ordinary players had no power to resist in front of Lin Tianhao.

Tens of thousands?

That wasn't enough.

If there were hundreds of thousands, there might be a chance.

Just as Lin Tianhao was thinking this, in the distance, a mighty army of players rushed over.

At a glance, it was a dark mass. At least two hundred thousand.

Not only that.

Lin Tianhao also discovered a rather unfortunate thing, which was that he was surrounded.

The dark mass of players had all rushed back from the wilderness, just in time to cut off his retreat.

Inside Fuling City.

When Fu Ling Changyue saw this scene, a sly smile appeared on her face.

"Hehe, Snow Emperor, my reward may not attract truly powerful adventurers, but attracting a large number of ordinary adventurers is not a problem at all."

Thinking of this.

Fu Ling Changyue waved her hand, "Pass down my order, archers and mages, leave the city and provide long-range support to the adventurers."

"Yes, City Lord."

This time, no one interfered, so after Fu Ling Changyue gave the order, a city guard commander immediately led archers and mages out of the city to fight.

With no less than two hundred thousand players behind him and twenty thousand city guards and tens of thousands of players in front of him, Lin Tianhao was suddenly surrounded in the center.

Chapter 169 - Raise the monkey!

"Brother Hao, do you need us to take action? There are more and more players," Zhou Xiaopang sent a voice message, clearly worried that Lin Tianhao might not be able to handle it.

"It's fine."

Lin Tianhao's response was simple. This wasn't inside the main city, and he wasn't the Snow Emperor who had just left the novice village.

Today, he wanted to see what these ordinary players could do to him!

With that thought in mind.

Icy wings appeared behind Lin Tianhao, and his figure soared into the sky.

Five arrows fired simultaneously, coupled with splitting arrows, Lin Tianhao's feathered arrows began to rain down like crazy.

At the same time.

Lin Tianhao added all his free attribute points to attack speed.

His attack speed was already at 24.9, but now with the addition of four thousand seven hundred free attribute points, Lin Tianhao's attack speed instantly soared to 39.2!!

With the surge in attack speed, Lin Tianhao's output capability suddenly became extremely terrifying.

With Five Arrows Barrage, Lin Tianhao could fire nearly two hundred feathered arrows per second.

Previously, only a thousand players died per second, but now the number of players dying per second directly exceeded two thousand.

Lin Tianhao's Icy Wings could last for five minutes, which was more than enough to clear out these players.

Moreover.

Lin Tianhao discovered that even when hunting players, his Netherworld Longbow could still be improved.

Inside Fuling City.

Fuling Changyue couldn't help but gasp when she saw Lin Tianhao's actions.

"This Snow Emperor is really too terrifying. How much longer until reinforcements arrive?"

"At the earliest, it will take another fifteen minutes."

Hearing this.

Fuling Changyue sighed, "Prepare to evacuate. Fuling City cannot be defended."

"What?!!"

The city defense general's face revealed an expression of disbelief.

"City Lord, aren't you overestimating Snow Emperor? Our city guards haven't suffered many casualties yet."

"Just watch. In five minutes, we will be unable to resist."

Fuling Changyue's eyes were deep, "Snow Emperor's strength is beyond our imagination."

"City Lord, I will go. I will definitely hold him back for five minutes."

"You?"

"It's not a matter of thinking highly, but that's just how it is."

As Fuling Changyue's voice fell, Lin Tianhao triggered two Skyfire Meteors in one second, and more than two thousand players fell again.

One minute passed in the blink of an eye.

More than one hundred and thirty thousand players fell in this one minute.

Lin Tianhao looked at this situation and didn't know what to say.

Previously, he destroyed the novice village and accumulated a million red name points.

He thought that was it.

But he didn't expect that now, in one minute, he would gain so many red name points from killing players.

"Full server announcement, Fuling City's treasury is empty. The city defense bounty task is now canceled. From now on, those who are killed or control the siege attacker will no longer receive rewards."

"Full server announcement, Fuling City's treasury is empty. The city defense bounty task is now canceled. From now on, those who are killed or control the siege attacker will no longer receive rewards."

...

This full server announcement immediately stunned many people.

"Run!!"

Without rewards, these players would naturally not continue to throw their lives away.

Lin Tianhao's lips curled up, "Fuling City's treasury, is that all you have? I thought you could hold out a little longer."

Fuling City's treasury being empty was definitely fake. A main city couldn't possibly have so little foundation.

It could only mean that.

Fuling Changyue also saw that doing so was a futile struggle. They simply couldn't stop Lin Tianhao.

After the city defense bounty task was canceled, the remaining city guards had no power to resist Lin Tianhao at all, and they collapsed in an instant.

Headed to the City Lord's Mansion.

There was no one here anymore. Fuling City, conquered!!

The black-robed leader immediately led the Demon Cave army to enter Fuling City.

"Hahaha, Snow Emperor, you are really amazing. In less than five minutes, you conquered Fuling City."

The black-robed leader was very happy, obviously not expecting Lin Tianhao to conquer a city so quickly.

Lin Tianhao's lips curled up, and a faint smile appeared on his face.

"These are all small problems, but after this time, they should be more vigilant."

The black-robed leader's eyes narrowed slightly, "What do you want?"

Clearly.

The black-robed leader already understood Lin Tianhao very well. As soon as Lin Tianhao opened his mouth, he guessed what Lin Tianhao wanted.

"Free attribute points."

"Oh?"

The black-robed leader was a little surprised because Lin Tianhao rarely asked for such things.

"At your level, free attribute points shouldn't be of much help to you, right?"

"Indeed, not much, so I'm asking for my partners. This time, they were careless in conquering Fuling City, and their defensive strength was insufficient."

"Your partners, I also want to see who can become your partner."

Lin Tianhao sent a message to Monkey and Fatty, asking them to come in.

After Fatty and Monkey came in, the black-robed leader frowned.

"These are your partners? They have killed many of our Nightwalkers before."

Lin Tianhao grinned, "That was before, wasn't it? Now I've talked to them, and they'll help you."

"How many free attribute points do you need?" the black-robed leader asked.

"Of course, the more the better."

"One thousand?" the black-robed leader tentatively asked.

"Three thousand."

Lin Tianhao pulled Monkey over, "Just give him three thousand. Until we attack Tianxing City, I won't ask you for any more rewards."

"Three thousand free attribute points..."

The black-robed leader hesitated, not knowing if Lin Tianhao was fooling him.

After all, three thousand free attribute points was not a small number.

"We have cooperated several times, and it has always been very pleasant. You should trust me," Lin Tianhao said directly, seeing the black-robed leader's hesitation.

"Moreover, I negotiated after taking Fuling City, which can be considered sincere."

"Okay."

The black-robed leader nodded and gave Monkey three thousand free attribute points in one go.

Monkey's hands trembled with excitement.

Three thousand, for him, was equivalent to an addition of one hundred and fifty thousand free attribute points.

Under the blessing of Talent Effect 1, he actually gained fifteen thousand free attribute points.

Under the blessing of Effect 2, his ten basic attributes were each blessed with fifteen thousand free attribute points.

His attack broke through eighty thousand, his health broke through six hundred thousand, and his attack speed, movement speed, armor penetration, and other attributes all reached an extremely terrifying level.

"Okay, in that case, we will take our leave. The next city, Guifeng City, be prepared."

"Then I will await good news."

After coming out of the Fuling City Lord's Mansion, Monkey jumped up excitedly.

"Brother Hao, I really love you to death. I feel like even those players with god-level talents shouldn't have higher talent bonuses than me."

"If I relied on leveling up to get these free attribute points, I wouldn't get so many even if I leveled up to level one thousand."

Chapter 170 - Guardian's Tower!

Lin Tianhao smiled and said, "Don't be too complacent. The Starry Kingdom is full of hidden talents, so be careful."

" Fatty, I didn't get you free attribute points. Do you have any thoughts? "

Zhou Xiaopang shook his head and said, "Brother Hao, what ideas can I have? I wish all the free attribute points I get from leveling up could go to Monkey."

"With his attributes added, my health and dual resistance will increase ridiculously."

Lin Tianhao showed a satisfied smile on his face, "It's good that you understand. What you lack is movement speed, damage reflection, and control skills."

"All of your free attribute points can be added to movement speed. Also, after this mission is completed, you should be able to change to a God-tier hidden class."

"What?!"

Fatty's face showed an unbelievable expression, "God... God-tier hidden class!!"

"Yes, one of the reward items from the Black Robe Leader for this mission is a Shield Warrior God-tier hidden class transfer scroll."

Fatty became excited, "Great! If I change to a God-tier hidden class, then I'll really be invincible."

Monkey didn't ask much, because he felt that getting so many free attribute points was already a huge win.

"Monkey, from what I know so far, there is only one Heaven-tier hidden class suitable for you, and it's not available yet."

"Heaven-tier?"

Monkey was somewhat unenthusiastic.

If he had just entered the game, he would have jumped up with joy upon hearing about a Heaven-tier hidden class.

But now... to be honest, it's just okay.

Lin Tianhao could naturally see Monkey's thoughts and said with a smile:

"Actually, Monkey, your biggest problem is that your spell power and magic penetration are too wasted. It's best to change to a class like a magic-martial dual cultivator."

Monkey nodded and said, "I also have this idea, magic-martial dual cultivation, just thinking about it makes me feel excited."

"Let's go, next we'll go to Lone Wind City."

"After I take down Fuling City, there should be experts blocking us in Lone Wind City, so I'll need your help later."

Fatty grinned, "No problem, whoever dares to block us, we'll kill them."

Lin Tianhao took Fatty and Monkey towards Lone Wind City, but before they had gone far, a figure blocked Lin Tianhao's path.

"Snow Emperor, did you really have to go this far?"

The speaker was none other than Di Xuejian.

"What? You didn't kill me last time, and now you dare to appear in front of me and jump around?" Lin Tianhao sneered.

As soon as he finished speaking.

Luo Lin Muye stepped out, this time holding a... beginner's wooden sword.

Qing Fuyun also stepped out.

Not only her, but also Village Chief Wang and several other gold generals above level 100.

The weapons in their hands were all beginner's equipment.

"Beginner's equipment, indestructible, a very good idea."

Lin Tianhao wasn't too surprised, because after he shattered Di Xuejian's platinum shield with two blows, it was normal for them to be wary.

"So many of you, just to kill me?" Lin Tianhao asked with interest.

"Sort of."

Di Xuejian nodded, "The King said, any lineup is not too much to deal with you."

As she finished speaking, a light blue pagoda appeared in her palm.

The moment he saw the small pagoda, Lin Tianhao's eyes narrowed slightly.

"It seems that you've really gone all out to kill me, even taking out the Guardian Tower."

The Guardian Tower is a pagoda specifically designed for powerful individuals.

It can take both enemy units and oneself into the pagoda. Inside the pagoda, there are field restrictions and space restrictions.

In addition, there is basically only one enemy unit, while the tower-defending side can have multiple people.

To leave the Guardian Tower, one must kill the tower guardian.

Because the Guardian Tower is basically in an indestructible state.

Taking a deep breath, a cold light flashed in Lin Tianhao's eyes.

He knew that he couldn't run away from this situation.

"Monkey, Fatty, I might be temporarily trapped here, but their experts will also be trapped here."

"Brother Hao, do you mean we should attack the city?"

"Yes, their experts are all here. Besides the King of the Starry Kingdom, no one should be able to stop you."

"Got it."

Lin Tianhao didn't really think they would succeed in attacking the city.

But he needed Monkey and Fatty to experience this kind of high-intensity combat in advance.

Only in this way would their combat awareness and the use of their own power be better utilized.

Later, there would be a comprehensive combat power ranking, which was based on the combat power tested according to comprehensive attributes.

In addition to numerical combat power, there was also actual combat power.

But.

According to tests, most people's actual combat power is not as good as their comprehensive combat power.

For example, a person's comprehensive combat power is one hundred, but their actual combat power is only seventy-five.

This is because they haven't maximized the use of their combat power.

Some fierce people, with a comprehensive combat power of one hundred, can unleash an actual combat power of one hundred and twenty, or even higher.

This is because they have used their own power to an extreme, and can achieve victory against stronger opponents.

Zhou Xiaopang and Monkey's current attribute panels are already very terrifying.

But they have too little high-intensity actual combat experience.

There is no shortcut to this, only experiencing high-intensity combat is the only way.

"Hehe, with just the two of them, they're not qualified enough."

Luo Lin Muye sneered.

Lin Tianhao didn't respond, but looked at Di Xuejian.

"Let's begin!"

Di Xuejian activated the Guardian Tower, and soon took Lin Tianhao, Luo Lin Muye, and Village Chief Wang into it.

After entering the Guardian Tower, it was... a thicket.

This was the power of the Guardian Tower, which could simulate various combat scenarios to target enemies.

Archers in the thicket can easily have their line of sight and attacks blocked.

Not only that.

The thicket is also easy to hide in. Lin Tianhao is in the open, while the others are in the dark, and can endlessly ambush him.

Lin Tianhao knew that today would be a bit troublesome.

But he wasn't flustered at all. Since these people wanted to play, then he would play with them.

Lin Tianhao immediately took out the Book of Life and Death and wrote Di Xuejian's name, because the Guardian Tower was activated by Di Xuejian, and was under her control.

Prioritize killing Di Xuejian. Although he couldn't directly leave the Guardian Tower, he could make the Guardian Tower lose control and reduce the possibility of being targeted.

"Boom!"

Lin Tianhao exploded from under his feet. He immediately dodged, and at the same time noticed a gold mage.

This person should be the younger brother of Archmage Ebier, named Archmage Ebide.

"Your sister died in my hands, today, you will also die in my hands."
