

## Online game 241

Chapter 241 - Do Tai Chi? Then have fun!

"Ding, you have obtained the skill book 'Sea Devouring Spring Return'."

"Ding, you have obtained the equipment 'Double-Headed Crocodile Necklace'."

"Ding, you have obtained free attribute points +100."

"Ding, you have obtained gold coins +20000."

"Ding, you have obtained Silver-Eyed Octopus Tentacle Fragment +1."

"Ding, you have obtained..."

.....

Another good harvest.

Moreover, because Lin Tianhao killed the Double-Headed Blood纹 Crocodile, he also completed Ze Lianbao's mission and can get another equipment evolution scroll.

In a short period of time.

Five tentacle fragments, Lin Tianhao has already obtained three, this speed is really fast enough.

At this rate, he might be able to collect them all today.

"Young Master Xue, should I have this crocodile roasted?"

Lin Tianhao waved his hand, "After all, it is the guardian beast of your Horne family, so let's forget about it."

"That's right, hahaha, then shall I prepare other wine and drinks?"

Lin Tianhao knew what Horne Guoling meant, he hadn't paid yet.

Horne Guoling waved his hand to collect the gold coins, "I still trust Young Master Xue's reputation."

"If that's the case, then I'll take my leave first, and come to your Horne family as a guest when I have time."

Lin Tianhao took out the Kunlun Mirror and disappeared.

Seeing this scene.

Horne Guoling was shocked again.

"Space teleportation equipment, and it's not a one-time use?"

He also has space teleportation items, but they are only one-time props.

With his eyesight, he can still see that the Kunlun Mirror in Lin Tianhao's hand is very extraordinary.

But he couldn't quite say how extraordinary it was.

Ze Lian City.

Lin Tianhao strode into Ze Lian City.

Before reaching Ze Lian City Castle, Lin Tianhao saw an acquaintance.

Ze Lian Dongling!!

The adopted son of the island owner of Ze Lian Island.

When Ze Lian Dongling saw Lin Tianhao, his body couldn't help but tremble.

Last time, Ze Lianbao took Lin Tianhao and others to hunt the Double-Headed Blood纹 Crocodile, and after returning, he scolded him and explicitly forbade him from being disrespectful to Lin Tianhao again, otherwise he would be expelled from the family!

Seeing Lin Tianhao again at this time, he immediately squeezed out an unnatural smile.

"Xue... Young Master Xue, I'm really sorry about what happened last time. If you have any instructions, feel free to say so."

Lin Tianhao raised his hand and patted Ze Lian Dongling on the shoulder.

"Actually, I still prefer your previous arrogant and unruly posture."

Ze Lian Dongling shook his head repeatedly, "I wouldn't dare, I wouldn't dare."

Seeing Ze Lian Dongling so frightened, Lin Tianhao didn't want to waste time and asked straight to the point:

"Where is Ze Lianbao?"

"You're looking for my third uncle? I'll go and inform him."

Ze Lian Dongling hurried back to the fortress.

Not long after, he came out with Ze Lianbao.

"Young Master Xue, you're looking for me?"

Lin Tianhao threw out a piece of crocodile skin, "The Double-Headed Blood纹 Crocodile has been killed by me, I'm here to redeem the reward."

Ze Lianbao frowned slightly, "Young Master Xue, the previous mission required it to be completed within three days, this..."

Obviously.

Ze Lianbao wanted to say that the time had already exceeded.

"Ze Lianbao, I also know the essential purpose of you wanting to kill the Double-Headed Blood纹 Crocodile, you can handle this reward as you see fit."

"Of course, if you really don't want to give the reward, then forget it, after all, it is indeed overtime."

Hearing this.

Ze Lianbao's palm tightened, he originally wanted to save some rewards, but Lin Tianhao had already said this.

If he made things difficult for the sake of an equipment evolution scroll, it would be more harmful than beneficial to him.

If Lin Tianhao held onto that tentacle and didn't take it out, it would have a big impact on their plan.

"Hahaha."

"Young Master Xue is joking, overtime is just a small problem, this is your mission reward."

Ze Lianbao handed an equipment evolution scroll to Lin Tianhao.

"Thanks."

Lin Tianhao took the equipment evolution scroll and used it without hesitation.

"Ding, you have used the equipment evolution scroll, your Purification Jade Pendant is evolving..."

"Ding, I'm sorry, your Purification Jade Pendant failed to evolve."

Lin Tianhao supported his forehead, although he had guessed it, he still felt a little heartache.

"Young Master Xue, did you get the things from the Double-Headed Blood纹 Crocodile?"

"Got it."

Lin Tianhao knew what Ze Lianbao was talking about.

"Then I wonder if Young Master Xue can trade it to me, the price is negotiable."

Lin Tianhao shook his head and took out the Scroll of Divine Blessing pre-quest given by Zhu Meng Yanxue.

"I accepted this task, if I guess correctly, this scroll should be your island owner's, right?"

Ze Lianbao was a little surprised, "Yanxue actually gave this kind of thing to Young Master Xue, it seems that your relationship is really extraordinary."

Lin Tianhao smiled noncommittally and said, "Let's do this for now, I still have something to do, so I'll leave first."

Taking out the Kunlun Mirror, Lin Tianhao teleported away directly.

Blood Crow Ancient City!

Lin Tianhao returned here again.

Now the key to breaking the situation is here.

Abelü may be the actual controller of the Blood Crow Tower, and the fourth tentacle fragment is also in the Blood Crow Tower.

In addition to the pre-quest scroll for the Divine Blessing of the Blood Crow Tower, Lin Tianhao must deal with the Blood Crow Tower this time.

Arriving at the Blood Crow Tower.

Lin Tianhao received the same result as before.

Seclusion!

No visitors!

They were still being polite, but they just wouldn't see him, not even giving Lin Tianhao a chance to negotiate.

"You want to play this game with me, huh? Then I'll see how long you can play."

A hint of戏谑 flashed in Lin Tianhao's eyes.

The Star Kingdom was destroyed.

If Abelü wants to restore the country, in addition to the necessary high-end power, the army is also necessary.

Since an army is needed, a huge amount of gold coins is needed.

If that's the case.

Does that mean they need to find ways to obtain gold coins and war preparation resources.

Lin Tianhao observed the Blood Crow Ancient City for a circle and found that the situation was similar to what he thought.

The entertainment industry in the Blood Crow Ancient City is very developed, especially the Yihong Courtyard, Zuixian Tower and other places, which have exceeded one hundred.

A city.

With so many brothels, what the Blood Crow Tower wants is self-evident.

Sucking gold!

But after sucking gold, what do they really need?

Equipment, and the raw materials for forging equipment.

Thinking like this.

Lin Tianhao unfolded the map of the Land of Chaos. The map marked the distribution of various ores in the Land of Chaos and the families responsible for mining.

As the saying goes, people don't get rich without windfalls!!

Since the Blood Crow Tower won't see him, then he will take all the iron ore and copper ore needed for forging equipment to see how the Blood Crow Tower will react.

Sieging cities and seizing resources is a kind of gameplay in the game.

About this.

Lin Tianhao won't have the slightest psychological burden.

"The first stop is you, Cape Iron Mine!"

A smile appeared on Lin Tianhao's face, he rode on the Flame Fire Chicken King and headed towards the Cape Iron Mine.

Chapter 242 - First meeting with Abel!

Cape Iron Mine!

This is one of the three major iron mines in the Land of Chaos, accounting for more than twenty-five percent of the iron ore share in the Land of Chaos.

It is now controlled by the Blood Raven Tower.

Since being controlled by the Blood Raven Tower, this Cape Iron Mine has not been sold to the outside world.

This has angered many chambers of commerce and blacksmith shops.

Unfortunately, facing the Blood Raven Tower, they can only dare to be angry but not dare to speak.

The sun sets in the west.

Lin Tianhao arrived outside the Cape Mine.

Undead creatures appeared one after another, including Leona and Onendo, two fourth-rank platinum experts.

"Go, take this mine."

With Lin Tianhao's order, the undead army led by Leona and Onendo began to attack the Cape Mine.

The Cape Mine also has experts stationed there, but unfortunately, they are only two third-rank gold warriors, and the gap is too big compared to the fourth-rank platinum Leona and Onendo.

In less than half an hour.

The battle ended, and the Cape Mine was occupied by Lin Tianhao's undead army.

"Mine."

The method of enslaving the undead obtained after killing the God of the Undead is too perverted.

The key is.

It can enslave a million-strong army at most, although it can only last for a month, but is this a problem?

It is not!

Because before these armies disappear, he can continue to hunt others, so as to continuously enrich the undead army.

Blood Raven Tower.

The Blood Raven Tower Master is leisurely tasting tea.

Suddenly.

A person rushed in in a hurry. After arriving at the door, the person knelt down and said urgently:

"Tower Master, it's urgent, the Cape Mine has fallen."

"Pa ta!"

The Blood Raven Tower Master's teacup fell to the ground and shattered all over the place.

"Who did it?"

"The Horn Family? Or the比特 Family? Or... the Sea God Temple?"

The subordinate shook his head, "Tower Master, it's none of them. Only two words came back in the message."

"What?" asked the Blood Raven Tower Master.

"Undead, Lone Sword!"

"Undead?"

The Blood Raven Tower Master's face sank slightly, "It seems that there are no undead creatures in our Land of Chaos. There are some in the Netherworld. Could it be..."

The Blood Raven Tower Master had a bad feeling in his heart.

The Netherworld and the Land of Chaos have been at peace for these years.

If the Netherworld wants to come to the Land of Chaos to stir up trouble, then there is a high probability that it will disrupt his plan.

"Lone Sword... Onendo Lone Sword only came back not long ago. Could it be that he colluded with the people from the Netherworld?"

The Blood Raven Tower Master thought a lot at this time.

"You go down first. I know about the Cape Mine."

After the subordinate left, a black shadow appeared from behind the Blood Raven Tower Master.

"Master."

The Blood Raven Tower Master respectfully saluted.

The person waved his hand, "Don't worry for now, it's not too late to find out who did it first."

"According to the information I have learned, when the Snow Emperor destroyed the Anna Family before, many undead also appeared."

Hearing this.

The Blood Raven Tower Master was shocked, "Master, do you mean that the person who attacked the Cape Mine is the Snow Emperor?"

"It's possible. Hasn't he already come to you twice? Do you think you can persuade him to retreat by playing Tai Chi and closing the door?"

"If he were so easy to deal with, how could the Star Kingdom have perished?"

The Blood Raven Tower Master's expression became serious, "Then what should we do?"

The black shadow pondered for a while, and then said: "Meet?"

"I would like you to meet him, compromise slightly, and when he goes to the Vast Continent one day, all the troubles will naturally be solved."

The Blood Raven Tower Master was a little surprised, "Master, the Snow Emperor destroyed the Star Kingdom, are you just going to let him go so easily?"

The black shadow sneered, "The Star Kingdom will be destroyed, it can only be said that Leona and my eldest brother are too stupid, they have to disagree with the Snow Emperor."

"Let's not talk about whether the Snow Emperor can beat them, even if they can beat them, so what? Is it useful to kill him once?"

"Even if you kill him ten times, a hundred times, it's useless."

"The only way to treat people like the Snow Emperor is not to offend him, and send him away."

The Blood Raven Tower Master nodded, "Then we..."

"Meet, go to meet him now, no, I will go to meet him in person, or I won't let you go, otherwise you will offend the Snow Emperor, and I really won't be able to find a place to reason."

Hearing this.

The Blood Raven Tower Master couldn't help but laugh.

Was he being despised?

Cape Mine.

Lin Tianhao was checking the skills.

Before, an interesting skill exploded from the two-headed blood-striped crocodile: Sea Devouring Spring Return.

At first, Lin Tianhao thought this was just an ordinary skill, but when he saw the introduction of this skill, he realized the extraordinaryness of this skill.

Sea Devouring Spring Return: 1 star.

Learning requirements: Warrior, sea beast pet, sea beast mount.

Effect: Devour a mouthful of seawater to restore 10% of its own health.

Consumption: 500MP.

Cooldown: 12 hours.

Proficiency: 0/100.

This skill is the same as the Dead Wood Spring, both of which restore a percentage of health.

It's just that the Dead Wood Spring is a passive skill, and this is an active skill.

In terms of skill strength, this Sea Devouring Spring Return is not as good as the Dead Wood Spring.

After all, there is a limit to devouring seawater, and it also needs to consume blue energy.

"Learn."

Although it is not as good as the Dead Wood Spring, it is still a very good skill for Lin Tianhao.

There are too few skills that restore this percentage. Lin Tianhao has already played a lot of skill books along the way.

But this is the second time I have encountered this percentage of blood recovery skills.

Take back your thoughts.

Lin Tianhao returned to the Blood Raven Ancient City and walked into the previous inn.

Not long after returning, the voice of the waiter came from outside.

"Young master, there is a guest outside who wants to see you."

Lin Tianhao opened his eyes. It seems that the people of the Blood Raven Tower are not stupid. They came to him so quickly.

"Let him in."

The door opened.

A middle-aged man who looked a bit similar to Abel Lu walked in.

"Abel Lu?"

Lin Tianhao was a little surprised.

He thought that the Blood Raven Tower Master would come to see him, but he didn't expect that it would be Abel Lu who came.

"It's me."

Abel Lu shook his head with a wry smile, "I heard you are looking for me, but is there anything wrong?"

"I destroyed the Star Kingdom, don't you hate me?" Lin Tianhao asked.

"Hate? No, the rules of this world are like this, survival of the fittest, the Star Kingdom was destroyed by you, it's because the Star Kingdom is too weak."

Lin Tianhao shook his head, "Why does what you said sound a bit insincere?"

"It doesn't matter, what matters is that I really didn't think about being your enemy."

Abel Lu said very sincerely, "Snow Emperor, just tell me what's the matter."

"Two things, first, I know that your Blood Raven Tower has a tentacle fragment of the Silver-Eyed Octopus, can you give it to me?"

"Second, I want the Gods Blessing pre-task scroll, we can discuss the task."

Chapter 243 - !

Abelulu frowned slightly, his expression a bit solemn.

"We Blood Raven Tower do indeed have a fragment of the Silver-Eyed Octopus's tentacle. If you want it, you can have it."

"It's just that I don't currently have any tasks that require Snow Emperor's help with this Gods' Blessing prerequisite quest scroll."

With that, Abelulu bowed respectfully, "I only ask Snow Emperor to be merciful. I am willing to give Snow Emperor a very useful piece of information."

"What information? You can tell me."

"Vampire Marquis Mindekaito has come to the Land of Chaos, and he has absorbed a drop of divine blood."

“Oh?”

Lin Tianhao was somewhat surprised, “Can his body withstand divine blood?”

“I don't know, but the message I received is like this. He has a close relationship with Leona, and he came this time to kill you.”

“We have a feud, shouldn't you help him deal with me?” Lin Tianhao retorted.

Abelulu shook his head, “No, I think his idea of attacking you is foolish, maybe his brain is damaged from sleeping for too long.”

“Actually, I knew he was coming to deal with me, this news is not important to me.”

“How about this, if you meet someone, I will withdraw the undead from Cape Mine.”

“No problem, when do we meet?”

“I'll notify her, and I'll notify you when she arrives at Blood Raven Ancient City.”

“Okay.”

Lin Tianhao could use the Kunlun Mirror to take Abelulu to see Zh Meng Yanxue, but he didn't want to do that.

Perhaps it was because Zh Meng Yanxue was not likable.

Of course.

There is also a more important reason.

Before Zh Meng Yanxue and Abelulu meet, Lin Tianhao can frantically mine iron ore.

Although it doesn't help Lin Tianhao much, even a mosquito leg is still meat. The accumulation of wealth cannot be achieved overnight.

He experienced the Great Cataclysm and is very clear about the importance of these resource-based wealth.

After talking with Abelulu, Abelulu prepared to say goodbye and leave.

Lin Tianhao suddenly stopped him.

“Is your faith different from Abelala's?”

Abelulu paused and looked at Lin Tianhao with some surprise.

“It's normal for people to have different beliefs, isn't it?”

Sure enough!!

The teleportation flag that Leona took out before was from the Sea God lineage, and she herself should not have come to the Land of Chaos.

So that teleportation flag was given to her by someone from the Sea God lineage.

Who is it?

There is still one tentacle fragment, Lin Tianhao still doesn't know where it is.

Hearing Lin Tianhao's words, Abelulu pondered for a while, "It should be in the Sea God Temple and the Horn family, as for how many fragments they have, I don't know."

"What about the Bit family? They also have fourth-tier platinum-level experts, is it possible that they have it?" Lin Tianhao asked.

Abelulu shook his head, "It's unlikely, if they had it, I should know."

Lin Tianhao's eyes narrowed slightly. Abelulu's sentence 'I should know' had some confidence in it.

It shows that he knows more about the Bit family, or that there are people from him in the Bit family.

Even.

Lin Tianhao suspected that many forces had his people in them.

The Sea God Temple Master had said before that many forces in the Land of Chaos are actually controlled by Abelulu behind the scenes.

After sending Abelulu away, Lin Tianhao sent a message to Zh Meng Yanxue, asking her to come by herself.

And Lin Tianhao is not in a hurry next, with the Book of Life and Death continuously stacking life value, he can continue to study the Sea's True Meaning Secret Book.

Enlightenment to become a god is much stronger than incense becoming a god.

Although with Lin Tianhao's current talent, taking the Sea God route is somewhat disappointing.

The starting point must be something like the God of Light, the God of Darkness, and if it's stronger, the God of Space, the God of Slaughter, the God of Asura, etc.

Further up, proving the Dao with strength, proving the Dao with time, these are even better.

But this does not prevent Lin Tianhao from comprehending other Daos.

Becoming a god with one Dao, to be honest, is average.

At least in Lin Tianhao's view, if he becomes a god with one Dao with his talent, it is indeed average.

According to the gods in Eastern mythology, many people have walked more than one Dao.

There are also many ways to become a god.

Thinking about those is too far away now. Using the limited time to strengthen oneself as much as possible is the kingly way.

As for now, Lin Tianhao wants to figure out where the last tentacle fragment is.

Lin Tianhao has already obtained the four fragments that can be found according to the clues. This fifth fragment has no clues, which is a bit troublesome.

Moreover.

Abelulu's words just now were somewhat ambiguous.

The Sea God Temple and the Horn family both have it, but I don't know how many fragments they have.

Is there a possibility that the number of people in the Sea God Temple or the Horn family is incorrect?

Someone lied to themselves.

Of course.

These are just Lin Tianhao's own guesses, he has no evidence at present.

If he wants to know these, Lin Tianhao still needs to go to Zelian City.

Others don't know where the Silver-Eyed Octopus's tentacles are, but the Silver-Eyed Octopus himself must know.

After all, it is a god, and it has a sense of its own body.

If the Silver-Eyed Octopus knows, then the Zelian Island Lord will definitely know.

Thinking like this.

Lin Tianhao opened the Kunlun Mirror, took a step, and came to Zelian City again.

When he arrived at Zelian City, he happened to see Zh Meng Yanxue's giant-winged purple bird take off.

“Young Master Xue, you really come here quite often.”

Lin Tianhao successfully met Zelian Baoku.

“Zelian Baoku, let's not beat around the bush. I have found four fragments of what you need, and there is still one missing. I think you should know where it is.”

Hearing this.

Zelian Baoku was stunned for a moment, "I don't know, but our Island Lord might know."

"Young Master Xue, please wait a moment."

Saying that.

Zelian Baoku took out a sound transmission talisman and walked away.

Before long, Zelian Baoku walked back.

He saw Lin Tianhao and shook his head helplessly.

"The Island Lord said he doesn't know."

Lin Tianhao was stunned for a moment. The Zelian Island Lord must have already come into contact with the Silver-Eyed Octopus, how could he not know.

"I know what Young Master Xue is thinking. If the Island Lord doesn't know, it means that the aura of that tentacle fragment is covered by divine power, and its location cannot be detected."

Lin Tianhao frowned.

He immediately thought of Kosmo Yuan, the Sea God Temple Master.

To say who can come into contact with the gods in this Land of Chaos, one is this Zelian Baoku, and the other should be Kosmo Yuan.

Abelulu is likely also from the Sea God lineage, but according to Lin Tianhao's judgment, he can borrow little power from the Sea God.

“Kosmo Yuan, you are really something.” A sneer appeared on Lin Tianhao's face.

“Hiding one fragment, so that I can't find it even if I search until the end of time, is that how you play? Then let's play it well!!”

Chapter 244 - Wrong guess!

Now that it had been determined that Kos Moby was hiding the last segment, Lin Tianhao would inevitably need to adopt some special measures.

Directly going to question him?

Useless!

Kos Moby would definitely deny it outright.

To obtain this last segment of tentacle fragment, one had to know why Kos Moby was hiding it.

The answer was almost self-evident.

He knew that if the tentacle fragments were collected, the extent of the Silver-Eyed Octopus's recovery would be significantly enhanced.

To some extent, it would suppress the Sea God.

As a follower of the Sea God, Kos Moby would naturally not allow this to happen, hiding a segment seemed reasonable.

The motive was sufficient.

Currently, in the Land of Chaos, he seemed to be the only one capable of doing this.

However, having experienced the Great Cataclysm era, Lin Tianhao would always hedge his bets on his own judgment.

Was it too simple for the finger to point to Kos Moby so quickly?

Or rather.

Was Kos Moby being too foolish?

Knowing that he would be suspected as soon as he asked Zelian Baoku, why would he still do it?

Either he really didn't want the Silver-Eyed Octopus to recover, or... there were other issues here.

For example.

Abel Lu's previous answer to him was somewhat ambiguous, and the first thing he thought after hearing it was that Kos Moby was lying.

And with Zelian Baoku's words, following this line of thought, it could almost be confirmed.

Kos Moby was lying!

If Kos Moby was really lying, that would be fine.

But what if he wasn't lying?

Would that mean... Abel Lu had been misleading his thoughts from an inconspicuous answer!

This was truly terrifying to contemplate.

Lin Tianhao hoped that Kos Moby was really lying, otherwise, this feeling of being manipulated was truly frightening!

“Thank you for the information, I'll take my leave.”

Lin Tianhao used the Kunlun Mirror to directly travel to Tianhai Island, to the Sea God Temple!

Kos Moby, upon learning of Lin Tianhao's arrival, also came out to meet Lin Tianhao immediately.

“Your subordinate greets the Son of the Sea.”

Lin Tianhao stared intently at Kos Moby and said:

“Moby, I want you to swear on your faith that you haven't lied to me about the Silver-Eyed Octopus tentacle fragments.”

Kos Moby was stunned, obviously not expecting Lin Tianhao to ask him to do this.

He didn't know what had happened, but he was upright and honest, so naturally he wasn't afraid to swear.

“I, Kos Moby, the 殿主 of the Sea God Temple in the Land of Chaos, swear on my faith that I have not deceived the Son of the Sea regarding the Silver-Eyed Octopus tentacle fragments. If I violate this oath, may my faith collapse and be killed by God!”

Kos Moby spoke with a resounding voice.

Lin Tianhao, upon hearing his oath, not only wasn't happy but felt somewhat horrified.

Someone was really playing with his thoughts.

Abel Lu!

An unintentional answer made him suspicious of Kos Moby.

And the probability of Zelian Baoku's answer was also within Abel Lu's calculations.

Lin Tianhao suddenly thought of a place.

Hiding the last segment of the tentacle fragment in the Snow Corpse's Footprints, buried in the Ice Snow Goddess's coffin.

It could both obtain the cover of divine power and be safe.

However.

The premise was that Lin Tianhao didn't have the Kunlun Mirror.

With a guess in his heart.

Lin Tianhao directly traveled to the Snow Corpse's Footprints through the Kunlun Mirror.

This place was already dilapidated, devoid of vitality, and those powerful monsters of the past were no longer there.

Lin Tianhao quickly walked towards the Ice Snow Goddess's coffin.

Soon he arrived here.

Still those few crystal coffins, Lin Tianhao summoned the God of the Undead.

It was difficult for him to open these coffins himself, but it would be much easier for the God of the Undead to do it.

“Open these coffins.”

“Yes, Master.”

The God of the Undead used his divine power to open these crystal coffins.

Lin Tianhao carefully inspected them one by one, but didn't find the tentacle fragment.

Not here? Could it be in the crystal coffin outside Blackwind City?

Lin Tianhao's expression became somewhat grave because it was unlikely to be in that coffin.

But ultimately, he had to go and take a look.

Outside Blackwind City.

Perhaps due to the influence of divine power, there was no one here anymore.

In fact, in the beginning, because of the Ice Snow Goddess's corpse, many people came to try and see if they could get any benefits.

But the final result was that they couldn't even open the crystal coffin and could only return empty-handed.

Lin Tianhao descended next to the crystal coffin, and the God of the Undead helped Lin Tianhao open the crystal coffin.

Without any suspense.

Inside, besides the Ice Snow Goddess's corpse, there was nothing else.

“Could it be that my guess is wrong?”

Lin Tianhao's mood was a bit heavy.

He suspected Kos Moby, but Kos Moby swore on his faith, clearing his suspicion.

He suspected Abel Lu, but he had searched all the places where Abel Lu might have hidden the tentacle.

If that was the case, then where would this last segment of the tentacle be?

Who else could use divine power to conceal the tentacle's aura?

Vampire Marquis Mindekaituo!

He had devoured a drop of the Ice Snow Goddess's blood and must have obtained a weak divine power blessing, making it entirely possible for him to do this.

Besides.

That was Zelian Baoku and the others hiding the fifth tentacle fragment themselves, so no matter how he searched, it would be useless.

If it was on Vampire Marquis Mindekaituo, that would be easy to handle, but if it was on Zelian Baoku and the others, it would be a bit troublesome.

“The last Divine Blessing for the revival of the Ancient Eastern Kingdom is just one short, and it must not be stuck here.”

Lin Tianhao's eyes were like torches, and if it really didn't work, there was still Horne Guo Ling's mission.

Reaching level 500, even if he didn't kill the Sea God, with Lin Tianhao's ability to grind monsters, it was entirely possible to obtain it.

Besides.

There was also the Divine Blessing pre-quest scroll in Abel Lu's hands.

In an instant.

Lin Tianhao thought a lot.

In any case, Lin Tianhao would not give up searching for the fifth tentacle fragment.

Taking a step.

Lin Tianhao returned to Blood Crow Ancient City.

After waiting another half a day.

Chasing Dream Smokesnow finally arrived at Blood Crow Ancient City.

“Snow Emperor, I've arrived.”

Lin Tianhao didn't waste any words and directly took Chasing Dream Smokesnow to see Abel Lu.

Abel Lu obviously didn't know Chasing Dream Smokesnow and asked curiously: “Adventurer, is there anything you need me for?”

Chasing Dream Smokesnow glanced at Lin Tianhao and said softly:

“Lord Abel Lu, I wonder if we could speak in private.”

Abel Lu also looked at Lin Tianhao, seeking Lin Tianhao's opinion, which surprised Lin Tianhao.

Abel Lu's move was considered to have given him enough face.

“I'm not interested in her affairs, you guys can chat freely.”

Lin Tianhao directly returned to the inn, now that the situation was temporarily deadlocked, he needed to think of a way to break the deadlock.

Chapter 245 - Hunt sea beasts!

From the moment he stepped into the Land of Chaos, everything seemed smooth, yet not so smooth.

Lin Tian had already learned of six Divine Blessing pre-quest scrolls in the Land of Chaos.

Anna Gelin's, Horn Guling's, the Zeilian Island Lord's, Bit Baku's, the Sea God Temple Lord's, and Abelou's.

He had already obtained four of these six, and had also completed Anna Gelin's Divine Blessing pre-quest scroll, successfully obtaining a blessing from an Eastern god.

Of the remaining five, as long as he obtained one more, there was a high probability that he could complete ten Eastern god blessings and revive the ancient Eastern kingdom.

In addition, he could also obtain a transcendent hidden class from Shui Ruyan.

Wait!!

Lin Tian suddenly realized that he seemed to have overlooked a very important detail.

Anna Gelin!!

It was Anna Gelin!!

How could she have a Divine Blessing pre-quest scroll?!

Lin Tian had judged Anna Gelin based on the standards of the Star Kingdom when he first arrived from there.

A peak Tier 3 Gold-level undead summoner possessing a Divine Blessing pre-quest scroll seemed reasonable.

But!!

The Land of Chaos had Tier 4 Platinum-level forces!!

If Anna Gelin having a Divine Blessing pre-quest scroll was a secret, it could be explained by others not knowing.

But Keith Timu knew, and that rival family of the Anna family also knew. Wouldn't there be Tier 4 Gold-level forces targeting the Anna family?

At the very least.

Those few forces with Tier 4 Platinum-level power wouldn't sit idly by. Furthermore, what confidence did Anna Gelin have to expose the fact that she had a Divine Blessing pre-quest scroll?

Lin Tian suddenly realized that he had caught on to something, but he wasn't quite sure.

Because if it was really as he guessed, then it would be too terrifying.

The mastermind behind this was far more outrageous than he had imagined.

Although he hid his nickname.

High-level players could guess that it was him, and those top-level NPCs could also guess that it was him.

Since he had killed the God of the Undead, he would inevitably have undead-type materials on him.

Therefore.

The request Anna Gelin made was deliberately tailored to his needs.

As for the reason... to make him lower his guard against the Land of Chaos.

After all, arriving in the Land of Chaos was a great start, and normal people wouldn't think there was anything wrong with the Land of Chaos.

But Lin Tian wasn't a normal person.

He was someone who had competed for survival in the Great Cataclysm for five years. In the face of life and death, in the face of huge profits.

Many people would expose their ugly and dirty sides, and every time, it was a test of human nature.

This was also the reason why Lin Tian trusted Fatty and Monkey so much.

There were too few people who could maintain their original intentions after being tempered by the Great Cataclysm. They did it, so Lin Tian was willing to help them wholeheartedly.

Even if they sometimes guessed that he was precognitive, he didn't care.

People who could guard their original intentions in the face of life and death, let alone these small profits.

And the facts proved that this was indeed the case.

The Henry Group's bounty had been out for so long, but he was still safe and sound.

If something was going to happen, it should have happened already.

These were currently just guesses, but to know the reason, he could only investigate it himself.

First, the Keith family, and second, the family of that red-bearded old man. His power was one of the few Tier 3 Gold-level forces in the Land of Chaos, so it wouldn't be difficult to find them.

But if it was as he guessed, then finding them would be useless.

Since that was the case.

Then there was another method.

Bring Horn Guling to level 500.

Under normal circumstances, even with Lin Tian's hunting speed, it would be difficult to do this.

But don't forget.

Lin Tian could enslave the undead!

He wanted to see who was behind this scheme.

Lin Tian directly gave up letting the undead mine and began to distribute them to hunt level 100 wild monsters, so as to obtain as many free attribute points as possible.

As for himself, he entered the ocean.

He wanted to hunt level 100 sea beasts in the ocean.

Due to the restrictions of the Tier 2 area, the sea beasts were basically all within level 100.

Creatures like the Two-Headed Blood-Veined Crocodile were simply rare.

Lin Tian had the title of Child of the Sea, so he was also like a fish in water in the ocean.

With the help of the Two-Headed Blood-Veined Crocodile, Lin Tian quickly hunted a lot of sea beasts, and the sea beast army he enslaved became larger and larger.

Horn Family.

Horn Guling suddenly opened his eyes, and a look of surprise flashed in his eyes.

In less than an hour, he had already reached level 201.

Don't underestimate this rate of improvement. He could only gain experience points by killing bosses now, and because his level was much higher than the boss's, even if he killed a boss, he could only gain a small amount of experience points.

But now, he had actually leveled up in less than an hour.

Even with some experience accumulated by the Two-Headed Blood-Veined Crocodile, the Great Elder of the Sea God Temple, and Onengduo and others, this rate of improvement was too fast.

However.

His leveling up didn't stop there, and the notification sound of gaining experience points kept ringing in his ears.

Another five hours passed, and he had already reached level 205. This speed made him a little restless.

"Ancestor."

Horn Guling still came to see his ancestor.

That seemingly very young little boy didn't raise his eyes and was still engrossed in his painting.

"What's wrong?"

"I leveled up."

Horn Guling said in a deep voice.

"Isn't this something that was expected? With Xue Di's strength, it's not difficult for him to raise you a few levels."

At this point.

The little boy changed the subject and continued, "But if he wants to bring you to level 500, then that's just wishful thinking."

"In the end, he can only go to Sea God Island to seek god-slaying in order to quickly bring you to level 500."

Horn Guling gave a wry smile, "Ancestor, it's not like that. In more than five hours, I've already leveled up five times."

"What?"

The little boy raised his head in surprise, "In more than five hours, you've leveled up five times?"

"Yes, otherwise how would I dare to disturb you, Ancestor."

Horn Guling's face was full of sorrow, as if his leveling up was not a good thing.

"Interesting, let's observe a little longer."

"Ancestor, let's quickly think of a countermeasure. My experience point growth rate is increasing instead of decreasing. If this continues, in less than half a month, I may reach level 500."

"How is that possible?!"

The little boy said in disbelief, "The later you level up, the more difficult it becomes. How is it possible to level up faster and faster?"

"I don't know, but that's the fact."

Chapter 246 - A gathering of several bigwigs!

The little boy narrowed his eyes slightly, "Could it be the undead army? He used the undead army when he dealt with the Anna family before."

"From this, it seems he might have obtained something extraordinary from the God of the Undead."

Hoon Gwo Ling asked cautiously, "What should we do next?"

"What's there to be afraid of? Today's setup was prepared for him. You keep an eye on things. I'm going out for a bit."

"Yes, Ancestor."

... ..

The Sea.

Lin Tianhao was frantically slaughtering sea beasts in the ocean. Doing so not only allows him to stack health points, but also to continuously expand his undead army.

Letting the undead army help with the slaughter would greatly increase the efficiency.

In the blink of an eye.

Three days passed.

Lin Tianhao's current sea beast undead army has exceeded one hundred thousand!!

This number is still increasing at an extremely rapid pace.

"It's a pity that the Godslayer Mark doesn't belong to equipment or skills, otherwise this trait combined with my Super God-tier talent would be invincible."

These undead armies can't help Lin Tianhao stack health points, which is a real pity!

Otherwise, the health points that these undead armies could stack for Lin Tianhao would be an extremely terrifying number.

Of course, now is not the time to think about that.

One hundred thousand undead sea beasts are expanding outwards at an extremely terrifying speed, and the sea beasts in the sea are being killed at an extremely terrifying rate.

Moreover, sea beasts are different from land monsters. Slightly larger sea beasts are elite-level at the very least, and there are even more black iron-level and bronze-level ones.

The Hoon Family!

The atmosphere is somewhat heavy.

If Lin Tianhao were here, he would definitely be very surprised.

Because Ze Lian Baoku, Bit Baku, as well as the Hoon family's ancestor and Hoon Gwo Ling are all here.

These are all prominent figures in the Land of Chaos.

"Level 280, in just three days..."

Hoon Gwo Ling spoke in a trembling voice, his voice very heavy, obviously not expecting things to develop to this point.

"Xue Di's speed of killing sea beast bosses is too abnormal. At this rate, he really can bring me to level 500 in half a month."

Ze Lian Baoku pondered for a moment, "When the initial plan was set, it was like this, so naturally we can't let it all go to waste. Someone must go and stop Xue Di."

Bit Baku pointed at himself, "You wouldn't want me to go, would you?"

"Although a fighter has a strong advantage against an archer, I don't think Xue Di can be measured by a normal archer."

The Hoon family's ancestor waved his hand, "I haven't even opened my mouth and you're already making excuses. There are still two who haven't arrived yet, what's the rush?"

As the Hoon family's ancestor's words fell, two figures strode in.

The person on the left was Abel Lu, whom Lin Tianhao had seen before. As for the person on the right, if Lin Tianhao were present, it would definitely subvert his imagination.

Demon Cave, the leader in black robes!!

Who is now the nominal king of the Han Hai Kingdom!!

Abel Lu represents the Starry Kingdom, and the leader in black robes represents the Han Hai Kingdom. The two should be absolute enemies.

But now.

The two of them actually walked in together!!

"Xue Di's methods have always been endless. The only explanation now is that he possesses the ability to enslave souls."

The leader in black robes had a serious expression, "Based on my understanding of Xue Di, it is absolutely impossible to be his enemy. If it weren't for the fact that what he is doing is cutting off all our paths to survival, I really wouldn't be willing to be his enemy."

"Black Robe, there's no need to talk nonsense."

Abel Lu spoke coldly, "Alright, now that things have come to this, let's think about how to break the situation."

"You have the nerve to say that. If it weren't for those idiots in your Starry Kingdom, how could we have reached this point?"

The leader in black robes couldn't help but complain.

Abel Lu coldly glanced at the leader in black robes, "If they weren't foolish, could there be a Han Hai Kingdom?"

"Alright, you two, didn't we say that before resolving the big trouble of Xue Di, we wouldn't argue about these things?"

The Hoon family's ancestor said helplessly.

"It's simple. Learn from the previous actions of our Starry Kingdom's Grand Marshal and Prime Minister. Hoon Gwo Ling, commit suicide."

Abel Lu said nonchalantly, "Don't forget, this was our previous agreement. If there is a problem with the pre-quest scroll for the Blessing of the Gods that anyone sends out, then we must die rather than let Xue Di succeed."

Hearing these words.

Hoon Gwo Ling's body trembled slightly, and he looked at his family's ancestor as if for help.

However.

Before his ancestor could say anything, Ze Lian Baoku and Bit Baku spoke up.

"Seconded."

"You!!"

Hoon Gwo Ling was a little exasperated, "I'm at level 280 now. If I really fight, I'm not afraid of you."

"Alright."

The Hoon family's ancestor said with a gloomy face, "Things have come to this, saying anything else is useless."

"How about this, if Hoon Gwo Ling reaches level 490, he will commit suicide."

Abel Lu shook his head, "I think it's better to be safe, let's make it level 450."

"Agreed."

"Agreed."

The leader in black robes and Ze Lian Baoku agreed very quickly.

The Hoon family's ancestor's face was a little unsightly. Everyone knows that the higher the level, the more difficult it is to level up.

This difference of forty levels completely makes it possible for Hoon Gwo Ling to not have to die.

That way, their family would still have an extra level 400+ expert.

"Since there is already a result, then there is nothing to discuss."

Bit Baku waved his hand and immediately prepared to turn around and leave.

"Baku, don't be in such a hurry. This time, we invited you over not just for this matter, but also to discuss something more important."

The Hoon family's ancestor said in a deep voice.

Bit Baku was slightly interested, "Is there something more important than this? Then I would like to hear it."

... ..

The Sea, the seabed.

Lin Tianhao's undead sea beast army is still expanding.

These undead sea beast armies follow Lin Tianhao's orders, and they kill wherever they go, without the slightest intention of holding back.

At first, Lin Tianhao was in charge, but later on, as the number of enslaved undead sea beasts increased, he didn't even need to take action.

One hundred thousand, two hundred thousand, three hundred thousand...

The number of undead sea beasts is increasing. Even if Hoon Gwo Ling's level increases and he needs more experience points to level up, Lin Tianhao's number of sea beasts is also increasing crazily.

At least.

Before Lin Tianhao's number of sea beasts reaches its limit, Hoon Gwo Ling's leveling speed will not decrease.

In the blink of an eye, a week passed.

The Hoon Family.

Hoon Gwo Ling looked at his level of 449, his expression extremely ugly.

Not far from him was a gloomy-looking young man. When he saw Hoon Gwo Ling's level increase, two pairs of fangs appeared on both sides of his mouth, and he grinned ferociously at Hoon Gwo Ling.

"Hoon Gwo Ling, you... should die!"

Chapter 247 - Huo Enguoling died!

The speaker was none other than the Vampire Marquis Mindkado!

After the last gathering of several big shots, a decision was made.

Horn Guling must die.

But he absolutely could not commit suicide.

Otherwise, that lunatic Xue Di would definitely do things they couldn't handle.

Since they couldn't let Xue Di go crazy on them, someone had to step up and bear his wrath.

This person had to have a grudge against Xue Di, with sufficient reason and strength to act.

That being the case.

Then there was only the Vampire Marquis Mindkado!!

The Vampire Marquis Mindkado himself was strong enough, and after devouring a drop of divine blood from the Ice and Snow Goddess, his strength had advanced further.

Killing Horn Guling was a piece of cake.

Horn Guling looked at Mindkado, and he gritted his teeth, "Is there no turning back from this?"

"No, this was already agreed upon. Blame Xue Di for being too abnormal, actually being able to bring you to level 500 without going to Seagod Island."

Mindkado sneered, "So, you should accept your fate."

Horn Guling, who had been lowering his head, slowly raised it, and the somewhat timid look in his eyes became sharp.

"Can't we leave? Why must we stop Xue Di?"

Horn Guling's eyes gradually changed. Under the Vampire Marquis Mindkado's impassioned words, he really developed the idea of sacrificing himself for national righteousness.

But looking at his level reaching 450, he couldn't help but clench his fists slightly.

At his level, he wasn't too far from the fifth transformation.

Plus his gold-grade rank, he would definitely be a pillar of strength in the Vast Ocean Continent.

If he had the opportunity to pursue higher levels in the future, that wouldn't be a problem either.

"Screw the brainwashing, I want to be myself. If you want me to die, then let's see if you have the ability."

Horn Guling roared, and a pair of ice-blue wings appeared behind him. The wings flapped, and he flew towards the sky.

But just as he flew into the air, a figure crossed the sky, grabbed Horn Guling's chest, and slammed him to the ground.

"How about it? I knew this fat kid wouldn't surrender so easily."

The one who attacked was Abelou, and his level was also revealed at this time.

Fourth Transformation Platinum Grade!

Level: 328!!

Although his level was still somewhat inferior to Horn Guling's, in the Twilight of the Gods, grade was always more important than level.

A level one god is stronger than a level ten thousand ordinary monster.

Basically, under the same circumstances, crossing one grade would result in a qualitative leap in attributes.

"Guling, you can't escape, don't embarrass our Horn family."

Ancestor Horn stepped out, and a formation appeared from under Horn Guling's feet, spreading to the surrounding area.

"Ancestor, even you..."

Ancestor Horn sighed, "Guling, I hope you understand that with the revival of the Eastern Ancient Kingdom, the Land of Chaos and the Han Sea Kingdom will no longer exist, and the conflict between the East and West will be reignited."

"If someone has to bear the burden, it can only be us."

"But I'm not willing..."

Horn Guling gritted his teeth. He was already level 450, and he was really unwilling to die like this.

"If there was a choice, we wouldn't want to provoke that monster Xue Di, but this isn't..."

"Alas!!"

Ancestor Horn had another trick up his sleeve, "Mindkado, do it."

Ancestor Horn turned his head away with a gloomy expression, he couldn't bear to look directly.

The Vampire Marquis Mindkado licked his scarlet tongue.

"Horn Guling, sacrificing yourself for world peace, we will remember you."

Mindkado bit Horn Guling's neck, and Horn Guling's health began to drop at a speed visible to the naked eye.

"Not good!!"

Sea area, seabed!

Lin Tianhao was in a team with Horn Guling.

He suddenly saw Horn Guling's health plummeting, which immediately made him realize something was wrong.

"Kunlun Mirror!!"

Lin Tianhao stepped out, passed through the Kunlun Mirror, and instantly arrived outside the Horn family.

He stepped forward to go in, but a huge formation instantly rose up, forcing him back.

"God-Slaying Whip!!"

Lin Tianhao's eyes narrowed.

Holding the God-Slaying Whip, his body turned into a phantom, and the God-Slaying Whip slammed hard on the formation.

"Bang!!"

With a loud noise, the great formation trembled, but it was not destroyed.

Lin Tianhao didn't care. The durability of this level of formation was definitely higher than that of platinum-grade weapons. It would take a few strikes for his God-Slaying Whip to break a platinum-grade weapon.

It would probably take about ten strikes, or even more, to break this great formation.

"He's here."

Inside the Horn family.

Ancestor Horn looked solemnly towards the direction of the gate.

In just an instant.

He and Abelou attacked together, making Horn Guling's health drop even faster.

"Boom!!"

After ten consecutive collisions, accompanied by a deafening bang.

The great formation of the Horn family exploded.

This time also took less than a second!!

"Quick!!"

Abelou was a little anxious.

The Vampire Marquis Mindkado's eyes flashed with ice-blue brilliance, obviously having used divine power.

With the blessing of divine power.

Horn Guling's health completely couldn't hold on, and he was sucked dry by Mindkado.

"Ding, your teammate Horn Guling is dead."

Lin Tianhao, who had just rushed into the Horn family, heard the system notification.

His palms tightened, and an unnamed anger soared to the top of his head.

Immediately afterwards.

He heard Ancestor Horn's exasperated voice.

"Mindkado, you deserve to die, leave him for me."

Lin Tianhao rushed over and saw a bloody figure flash in another direction of the Horn family.

Ancestor Horn was chasing after that bloody figure.

"Mindkado?"

Lin Tianhao's eyes narrowed slightly, his expression extremely gloomy.

That bloody figure was extremely fast, and disappeared in the blink of an eye.

Lin Tianhao came to Horn Guling's corpse.

The originally chubby Horn Guling had now been sucked dry, appearing somewhat comical and ridiculous.

However.

Lin Tianhao found not Horn Guling laughable, but himself.

At the same time.

That terrifying thought resurfaced in his mind, making him shudder.

Behind this, there really seemed to be a big hand hindering him, hindering him from obtaining ten blessings from the Eastern gods, hindering him from reviving the Eastern Ancient Kingdom.

It would be difficult for a human to plot to this extent, then... it could only be a god!!

Chapter 248 - Huo Enguoling died, so Lin Tianhao should take the blame?

Sea God Poseidon?

Or perhaps that silver-eyed octopus?

Lin Tianhao had no way of knowing.

But no matter who it was, anyone who dared to obstruct him would be killed without mercy!!

Lin Tianhao raised his hand and looted the corpse!

Well, even a mosquito's leg is meat, especially when it belongs to a level 400+ Gold Boss.

The Gods' Blessing pre-quest scroll was wasted, but Lin Tianhao still wanted to collect some interest from this guy.

"Ding, you have obtained Equipment +2."

"Ding, you have obtained Skill Book +2."

"Ding, you have obtained Free Attribute Points +100."

"Ding, you have obtained Gold Coins +20000."

"Ding, you have obtained Bu Lier Deer's Letter +1."

"Ding, you have obtained... .."

... ..

System notifications rang out endlessly, but for Lin Tianhao, this could only be considered a small gain.

Because in this wave of hunting sea beasts, Lin Tianhao had gained a full ninety-nine thousand free attribute points.

This was still because the bosses he killed were of low quality, and the free attribute points awarded were very few.

Otherwise, based on the level of rewards in the novice village, Lin Tianhao's free attribute points would have soared long ago.

Besides this.

There was another reason, and that was that the boss only gave free attribute point rewards for the first kill.

After refreshing and killing again, this reward was gone.

He also had to loot the corpse to get rewards. Lin Tianhao didn't have time to loot the corpses alone, and he lost a lot of free attribute points in the process.

But even under such circumstances, Lin Tianhao still obtained nearly one hundred thousand free attribute points.

One hundred thousand free attribute points!!

Lin Tianhao's current attack speed in the forties requires eight hundred free attribute points to add one point. To increase it to fifty, it requires more than seven thousand free attribute points.

From fifty onwards, adding one point of attack speed requires one thousand six hundred free attribute points, and adding it to sixty requires sixteen thousand free attribute points.

Going on like this, if Lin Tianhao added all of these one hundred thousand free attribute points to attack speed, his attack speed could reach a terrifying seventy or more, close to eighty.

If it were an ordinary black iron or bronze weapon, it would have been smoking long ago.

Besides this.

This time, Lin Tianhao killed a large number of sea beasts, which also accumulated millions of pieces of equipment of various qualities for Lin Tianhao.

There were also as many as 250,000 skill books, although most of them were duplicates, there were still many, enough to upgrade Dead Wood Rebirth to six stars!

And during this period, Lin Tianhao had an army of undead sea beasts fighting to farm monsters.

He himself was studying the Secret Book of the True Meaning of the Sea, and now the True Meaning of the Sea has reached the advanced level of gravity.

If it were normal times.

Lin Tianhao would definitely be very happy to have this harvest.

But now.

He couldn't be happy at all.

Losing a Gods' Blessing pre-quest scroll made him very annoyed.

After a while.

Huo En, the old ancestor, ran back panting. When he saw Lin Tianhao, he couldn't help but be stunned for a moment.

"Snow Emperor."

Lin Tianhao looked at Huo En, the old ancestor, with icy eyes, and said in a deep voice: "How did Huo En Guoling die?"

This sounded a bit redundant, but Huo En, the old ancestor, knew.

What Lin Tianhao was asking was not about Huo En Guoling being killed by the Vampire Marquis Mindekaitu.

But why did he die when he was about to complete Huo En Guoling's Gods' Blessing pre-quest scroll task!!

However.

Even if Huo En, the old ancestor, heard the true intention in Lin Tianhao's words, he still pretended to be stupid and said:

"It was a vampire, a Vampire Marquis, named Mindekaitu."

Lin Tianhao narrowed his eyes slightly. Huo En, the old ancestor, was deliberately pretending to be stupid with him.

"Snow Emperor, this Vampire Marquis Mindekaitu seems to have a grudge against you. I don't know where he learned that Huo En Guoling gave you the Gods' Blessing pre-quest scroll. In order not to let you have a good time, he killed Huo En Guoling."

Lin Tianhao really wanted to laugh. What he said was reasonable. If the God of the Undead hadn't told Lin Tianhao that he felt Abel's aura here, Lin Tianhao might have really believed it.

Huo En, the old ancestor, didn't care about Lin Tianhao's thoughts at all.

He changed the subject and continued: "Just now, I activated the clan protection formation. Originally, I could have kept that damn vampire, but I don't know who it was, who forcibly broke my clan protection formation and let the vampire escape."

"I think that vampire must have an accomplice with considerable strength. They have a grudge against you, Snow Emperor. You have to be careful next."

Lin Tianhao gradually cooled down. This Huo En, the old ancestor, was really capable.

He pushed the death of Huo En Guoling to him, meaning that he had offended the Vampire Marquis Mindekaitu.

Then he pushed the escape of Mindekaitu to him, saying something about an accomplice. Didn't he know who broke his clan protection formation?

"Space Blink!"

"Vast Sea Universe!"

Lin Tianhao ignored Huo En, the old ancestor, and took action one after another. In an instant, he came to a courtyard on the side.

In this courtyard.

Abel had already unfolded the teleportation scroll. He was preparing to use the teleportation scroll to leave.

After all, if he was here, it was likely to make Lin Tianhao suspicious.

"Abel, where are you planning to go?"

When Abel saw Lin Tianhao, his heart tightened. He didn't expect Lin Tianhao to have discovered him.

"Huo En Lieyan, shouldn't you give me an explanation?"

Lin Tianhao then turned his gaze to Huo En, the old ancestor.

Huo En Lieyan cursed Abel in his heart for being a fool. How could he be discovered by Lin Tianhao?

"Snow Emperor, my friendship with Abel has always been good. This time Abel came over to discuss the upcoming opening of Sea God Island with me."

Lin Tianhao smiled noncommittally, "Do you think I would believe it?"

Abel smiled bitterly: "Snow Emperor, it's really like this. Mindekaitu's attack was too sudden. He used divine power as soon as he came up. Lieyan and I were talking about things, and by the time we reacted, Huo En Guoling was already... .."

"You were talking about things, so how did you know that Mindekaitu used divine power as soon as he came up?"

Abel was stunned. He reacted very quickly and replied almost without thinking:

"We heard the sound and came over. As soon as we came in, we saw Mindekaitu hitting Huo En Guoling, using divine power."

Lin Tianhao glanced at Abel coldly, "Then why did you hide when I came over?"

"I was afraid you would ask me for the Gods' Blessing pre-quest scroll again."

Abel's thinking was indeed agile, and the answer sounded flawless.

"Snow Emperor, I know that Huo En Guoling's death makes you very sad. After all, he is a member of our Huo En family. I am equally heartbroken that he died."

Huo En Lieyan said with a sad face from the side.

Heartbroken?

Lin Tianhao didn't believe that he would really be heartbroken.

"Abel, since you've said so, then please give me your Gods' Blessing pre-quest scroll."

Chapter 249 - Just enough!

Abeloo gave a wry smile.

"Great Snow Emperor, please don't make things difficult for me. Taking out the Preliminaries to the Blessing of the Gods scroll without a suitable mission is a major taboo."

"Then please think of a mission for me," Lin Tianhao said.

Abeloo's expression turned slightly sinister.

"Snow Emperor, aren't you being a bit too overbearing?"

"I can be even more overbearing, do you want to try?"

Abeloo took a deep breath, his gaze shifting to Hornlen Rain.

Hornlen Rain quickly waved his hand, “Abeloo, don’t look at me, this is your business, you make the decision yourself.”

Abeloo pondered for a moment, lost in thought.

For a fleeting moment, he even entertained the idea of a direct confrontation with Lin Tianhao.

“I’ve got it.”

A smile returned to Abeloo’s face as he handed the Preliminaries to the Blessing of the Gods scroll to Lin Tianhao.

“The Sea God Poseidon is sealed on Seagod Island, this is a golden opportunity to obtain a divine artifact.”

“Mission Requirement: After Seagod Island opens, venture there and obtain the Sea God Poseidon’s weapon, the Sea God Trident.”

“Mission Penalty: Unknown.”

“Mission Reward: Blessing of the Gods +1.”

Lin Tianhao stared at Abeloo, “I’ll accept the mission, but you must lock it, so even if you die, this mission scroll won’t disappear.”

Abeloo’s gaze once again turned to Hornlen Rain.

"It's your thing, why do you keep looking at him?" Lin Tianhao scolded.

Abeloo gritted his teeth and nodded, "Alright, I'll lock the mission."

Only after Abeloo locked the mission did Lin Tianhao's expression soften slightly.

"Hornlen Rain, Abeloo, don't let me find out that Hornen Guoling's death had anything to do with you."

Saying this, Lin Tianhao waved the mission scroll he had already locked in his hand.

"Otherwise, I'll let you know just how severe the consequences are for toying with me!!"

Although Lin Tianhao sensed some issues, he couldn't be certain.

Furthermore, Hornlen Rain and Abeloo's answers seemed to have no problems.

At least, he hadn't found anything wrong yet.

It was just that Abeloo's presence here was too suspicious.

Abeloo and Hornlen Rain saw Lin Tianhao out of the Hornen family.

Only after Lin Tianhao had left and gone far away did Abeloo breathe a slight sigh of relief.

"This Snow Emperor is too terrifying. I could feel that if we had revealed even a hint of collusion with Mindekaito, he would have razed this place without hesitation."

Hornlen Rain took a deep breath, his expression solemn, and scolded:

“It’s also you, how did he discover you?”

Abeloo had a bitter story to tell, “I didn’t reveal any clues, I don’t know how he discovered me, it’s too strange.”

“At his level, he shouldn’t have been able to develop divine sense.”

Abeloo’s guess was correct.

Lin Tianhao indeed didn’t have divine sense.

But Lin Tianhao had the God of the Undead.

“Be careful, Snow Emperor is already suspicious this time. If he really discovers any clues, our Land of Chaos will be finished!”

.....

After Lin Tianhao left, he directly sought out the God of the Undead.

“God of the Undead, is there any way to enslave conscious souls?”

In name, he was already dead.

Last time, he used the Heart of Origin to help Lin Tianhao because he had just died, the surrounding undead divine power fluctuations were intense, so it was okay to take action and wouldn’t attract the attention of other gods.

But if he were to use undead divine power now, especially if he were to personally take action, the result would inevitably attract the attention of other gods.

A dead god might be revived in endless years, but definitely not so quickly.

Doing so would cause all the newly revived gods to enter a state of alert, and might even launch some special actions for this.

“Let’s leave it at that for now.”

Lin Tianhao wasn’t in a hurry, because this time, when he looted Hornen Guoling’s corpse, he found something unusual.

Lin Tianhao raised his hand and flipped it over, a letter appearing in Lin Tianhao’s palm.

Brier Deer’s letter!

Lin Tianhao opened the letter, it was a letter from the previous head of the Brier family, Brier Deer, to Hornen Guoling.

This Brier Deer should be Brier Yanling’s father.

When Lin Tianhao helped Brier Yanling before, the news he got was that her father was missing, which was why they were bullied by the Kifu family.

“Brother Guoling, some things cannot be stopped. I am unwilling to stop them, and want to take the family to the Land of Chaos. Is Brother Guoling willing to come along?”

Very simple content.

But what were the unstoppable things mentioned in the letter?

The first thing Lin Tianhao thought of was himself.

Intuition told him that someone, or rather, a god, was preventing him from obtaining the blessing of the tenth Eastern god.

This god...

Most likely the Sea God!

Because Lin Tianhao thought of the three Preliminaries to the Blessing of the Gods mission scrolls he had obtained from the black-robed leader.

The first one had no problems, Lin Tianhao obtained Taishang Laojun's One Qi Transforms into Three Purities.

But the second and third ones were all blessings from the Sea God Poseidon.

At the time, Lin Tianhao didn't think it was strange.

But after he came to the Land of Chaos, he realized that someone had already been deliberately setting up a scheme against him from that time on.

Or rather.

It was before that that a god had discovered his intention to collect the blessings of the ten Eastern gods and revive the ancient Eastern kingdom.

Thus, they began to set up a scheme, layer upon layer of calculations, wanting to prevent him from obtaining the Preliminaries to the Blessing of the Gods mission scroll.

But they couldn't make it too obvious, and still needed to gradually lead him into the trap they had woven.

Since it was a scheme, there must be miscalculations.

For example, the fact that he could enslave an army of a million undead, this point would be 100% miscalculated.

Because this ability came from the Godslayer Mark, and even the gods couldn't spy on it.

Following their plan and deducing it, one could roughly know what he would need to do if he wanted to bring Hornen Guoling to level 500.

If he didn't have the ability to enslave the undead, what would he need to do?

At first, Lin Tianhao thought of destroying the Land of Chaos, but now it seemed that he was wrong.

The god behind the scheme knew that he had killed the God of the Undead, and the direction they guided him in was naturally to make him have the idea of godslaying.

And before that, he had just received news of the Sea God in Zelian City, and had also just obtained the Sea God Key.

Then he accepted this mission to bring Hornen Guoling to level 500.

Everything was just right!

It was as if everything had been calculated.

According to this train of thought, let's review the scene when he first arrived at the Land of Chaos.

He just happened to meet Anna Ziling, and Anna Ziling just happened to be a big mouth, blurting out that her grandfather had the Preliminaries to the Blessing of the Gods mission scroll.

And Anna Jue Lin just happened to need a fourth class advancement, and what was even more coincidental was that the materials she needed for her fourth class advancement were related to the God of the Undead that he had just killed not long ago.

When too many coincidences come together, there must be a problem in it!

Chapter 250 - Give you a chance to reorganize your language!

Adding to that, Horn Guoling died just as Lin Tianhao was about to get him to level 500.

Is this really a coincidence? Is it really just the revenge of the Vampire Marquis Mindekadu?

Mindekadu hasn't been in the Land of Chaos for just a day or two, why did he choose this moment to strike?

Furthermore.

Horn Guoling was at least level 450, even if he really couldn't beat Mindekadu, who had devoured divine blood, shouldn't he have been able to hold on with his Overlord Body?

Were Abelru and Horn Lie Ran too late to rescue him?

There are really too many suspicious points.

Therefore.

Lin Tianhao was almost certain in his heart that someone was orchestrating all of this, with the goal of preventing him from obtaining the tenth Eastern God's blessing.

As for just killing his way through, that's not realistic.

These kinds of God's Blessing pre-quest scrolls are only dropped when someone like Village Chief Wang sets up a task and designates a drop.

Otherwise, it's almost impossible to obtain them by killing others.

Since he can't get them by killing, Lin Tianhao can only think of other ways.

He took a step and arrived at the Buli family.

The Buli family had climbed up to a mysterious big shot, and with the addition of the blue crystal mine, the Buli family's development can be described as thriving.

"I want to see Buli Yanling."

Lin Tianhao directly knocked on the door of the Buli family.

Buli Yanling had already instructed that anyone who saw a young man in a black robe must be treated with extra respect.

"Senior, please wait in the living room for a moment, I will go and invite the head of the family."

Buli family, living room.

Someone politely brought Lin Tianhao tea and snacks.

Before long.

Buli Yanling appeared.

When she saw Lin Tianhao, she excitedly stepped forward and bowed down on her knees.

"Thank you, Senior, for saving our Buli family from danger."

Lin Tianhao waved his hand, "What's going on with your father's disappearance?"

Hearing this.

Buli Yanling's expression was a little ugly, she gritted her teeth and said: "I don't know, I only know that before my father disappeared, people from Zelian Island came to him, and he disappeared not long after."

"Then do you know why Anna Jueling has a God's Blessing pre-quest scroll in her hand?" Lin Tianhao asked again.

His own speculation was correct.

From the moment he came to the Land of Chaos, when he first encountered Anna Ziling, he was already in the game.

To be precise, it should be earlier.

That was when he got the two directional Sea God's God's Blessing pre-quest scrolls from the black-robed leader, he was already in the game.

It's just that he didn't think of it himself at the time.

Yes!

Other people may not know how to revive the ancient Eastern country, but there must be some gods who know.

His behavior of wanting to obtain God's Blessings in the Star Kingdom was too obvious, when the quantity reached a certain level, it would inevitably attract the attention of the Western gods.

For example... the Sea God.

It's just that Lin Tianhao still doesn't know what the two blessings the Sea God gave him are for.

If he is the mastermind behind the scenes, there seems to be no need to give him the blessings.

After all, even a law god like the Sea God, it is unlikely that he will give too many God's Blessings at this stage.

Especially to the same person.

"Did your father say anything to you before he disappeared?" Lin Tianhao asked.

Buli Yanling thought for a while, and seemed to have thought of something.

"My father said that some gods want to interfere with the adventurers' quests at this stage, this is a taboo, and he doesn't want to participate."

Buli Yanling's expression also became serious, "I suspect that my father's disappearance should be related to this matter."

Lin Tianhao understood.

What task is worth the gods' intervention?

The answer is already obvious.

"I know."

Lin Tianhao's eyes gradually turned cold, "Give your clansmen an order, don't leave Buli Territory for the next period of time."

"What's wrong?" Buli Yanling asked subconsciously.

Buli Territory was once a territory guarded by a third-tier gold-level expert, so it's not a big problem to be self-sufficient.

"It's nothing, it's just that there may be an undead army starting to massacre the Land of Chaos next."

Lin Tianhao said.

"What?!"

Buli Yanling was shocked, "Are those bastards from the Underworld going to make a comeback again?"

Lin Tianhao glanced at Buli Yanling, "Be careful with your words."

Buli Yanling seemed to have thought of something, and immediately knelt down.

"I'm sorry, I have a big mouth."

Then she slapped herself hard in the face.

"You can be considered a smart person, when this matter is over, you can take your clansmen to the Vast Continent."

Buli Yanling gasped, she didn't ask any more questions this time, because she had vaguely realized something.

"Alright, that's all I have to say, I'm leaving."

Lin Tianhao waved his hand and turned to leave!

Watching Lin Tianhao leave, Buli Yanling immediately gave an order.

"Immediately recall all the clansmen who are outside, if they are in other cities, try to purchase living supplies and come back in the shortest possible time."

"All clansmen, absolutely must not leave Buli Territory without my order, those who leave without authorization will be expelled from Buli Territory!"

... ..

Bitt family!

After Lin Tianhao left the Buli family, he came directly here.

After a trip to the Buli family, Lin Tianhao was already able to confirm his guess.

Since that's the case.

Then he must take some extraordinary measures.

Treating him like a monkey?

Sorry!

He, Lin Tianhao, is not a monkey, but... a demon king.

"Snow Emperor, is there anything you need from me?"

Bitt Baku showed an unnatural smile.

He already knew what had happened to the Horn family.

Lin Tianhao directly took out the God's Blessing pre-quest scroll that Bitt Baku had given him.

"Horn Guoling is dead, I don't want such an accident to happen again, so, I want you to lock this quest, and, for the next period of time, you have to stay by my side."

Bitt Baku's pupils shrank, "It doesn't matter whether it's locked or not, after all, the quest requires me to support you in establishing a regime."

"There's no point in saying so much, I'll just ask one question, are you willing to stay by my side?"

Bitt Baku sighed, "Snow Emperor, it seems you really guessed it."

"What?"

Lin Tianhao smiled playfully, "Not acting anymore? Ready to show your cards?"

"Giving you the God's Blessing pre-quest scroll was just to stabilize you, you can't complete the task above." Bitt Baku said seriously.

"This is the Bitt family, you're talking to me like this here, aren't you afraid that none of your Bitt family will survive?"

Lin Tianhao raised his hand, and a large number of undead troops appeared, surrounding the Bitt family.

"Bitt Baku, I'll give you a chance to reorganize your words!"
