

Online game 301

Chapter 301 - Space affinity!

Lin Tianhao's eyes lit up.

This skill seemed to be the one that Er'neng used when running away before.

The consumption of this skill is really high, requiring 100,000 maximum health points even at one star.

However.

This skill is very perverted for Lin Tianhao.

He is currently low level and doesn't have any strong control methods. When facing beings that are much higher level than him, it is difficult for his feather arrows to break through defenses and attack opponents.

But with this skill, his strong control ability will be greatly improved.

The only drawback is the consumption of maximum health points, which is somewhat painful.

However, for Lin Tianhao, who can infinitely stack health points, it is not unacceptable.

"I want this skill too."

Silver Eye Black Hole: 1 Star.

Learning Requirement: None.

Effect: Releases a silver eye black hole that can devour the opponent's attacks, with a maximum damage value of one million that can be devoured.

Consumption: 1000MP.

Cooldown: 1 hour.

Proficiency: 0 / 100.

This skill is also extremely satisfying, instantly making up for Lin Tianhao's lack of defense.

One star is one million, what about ten stars?

Moreover, intuition tells Lin Tianhao that each time he raises a star, the absorbable damage might not increase by one million, but directly double.

That is, two million for two stars, four million for three stars, eight million for four stars, and so on.

Because Zelensulu Yun also used this black hole method before.

At that time, the output Lin Tianhao dealt was more than ten million!

If Lin Tianhao's idea is correct, then reaching ten stars... can absorb more than 510 million damage, which is an extremely strong defense method below the gods.

"I want this skill too."

Lin Tianhao obtained three skills from the Silver Eye Octopus.

"Master, for the final Silver Eye Domain, I personally suggest not letting me give it to you directly, because what I give you, although powerful in the short term, will have very poor growth potential for the domain."

Lin Tianhao understood what the Silver Eye Octopus meant.

However, he suddenly thought of something interesting.

The Jade Plate of Creation can absorb the power of Dao. As long as he withstands the attack of Dao, the Jade Plate of Creation can absorb it.

Lin Tianhao had thought about getting some skills from the Sea God Poseidon before.

But in the end, it didn't materialize.

This time, it can be implemented.

"Master, forget about the domain. I have selected two skills for you that should be very useful to you."

The voice of the Sea God Poseidon came, followed by the skill panels appearing in front of Lin Tianhao.

Azure Sea Tide: 1 Star.

Learning Requirement: None.

Effect: After release, restores 100,000 + 2% of your maximum health to yourself and all members of your team.

Consumption: 1000MP.

Cooldown: 1 hour.

Proficiency: 0 / 100.

Lin Tianhao's eyes lit up.

This skill is a bit interesting.

100,000 + 2% of his maximum health points, this doesn't help him much, but what if he teams up with others?

This 2% has the potential to completely restore the health bar of his teammates.

More importantly.

This is still a one-star state. If it continues to upgrade, the power of this skill will be unimaginable.

"The second skill is also very useful to you, Master."

Turtle Breathing Azure: 1 Star.

Learning Requirement: None.

Effect: Each of your normal attacks (requires dealing damage to a living being) restores 1% of your maximum mana.

Consumption: None.

Cooldown: None.

Proficiency: 0 / 10000.

Lin Tianhao narrowed his eyes slightly, this is a bit interesting.

Because this is a passive mana absorption skill. As long as his normal attacks can hit people, theoretically his mana is endless.

"Why didn't you take out such good skills earlier?"

Lin Tianhao complained. With his attack speed, he can fully restore his mana in one second.

If it is a five-arrow volley, doesn't that mean that he can fully restore a mana bar in 0.2 seconds.

Of course.

This is just a theoretical state.

His normal attacks are easily blocked, especially by those above the fifth rank, blocking his feather arrows is as simple as eating and drinking.

"Master, you didn't ask before, did you?"

Lin Tianhao rolled his eyes. He himself doesn't have much need for skills.

If it weren't for the fact that this time he fought against these strong people and Lin Tianhao found that it was difficult to win with just normal attacks, he wouldn't have thought of using skills.

After learning these skills, Lin Tianhao began to explore the Godslayer Mark.

See what abilities he gained this time by killing the Silver Eye Octopus.

Godslayer Mark: God-level.

Effect 1: You will not be affected by divine power.

Effect 2: Each time you kill a god, you can strip away one of their powers.

[Currently Killed Gods:

First: Ice and Snow Goddess (You are immune to ice and snow damage and negative effects).

Second: God of the Undead (You can enslave the souls of all beings killed by you, maintaining them for thirty days, with a maximum number of one million)

Third: Sea God (When in the ocean, as long as you are not instantly killed, your health will be restored to full within one second)

Fourth: Silver Eye · Nicholas (Your affinity for space is increased by a thousand times, which will help you comprehend the Dao and skills of space.))

Lin Tianhao's eyes lit up. In fact, he felt that the Jade Plate of Creation's hundred-fold comprehension bonus was a bit slow.

Now that he has this thousand-fold bonus.

Doesn't that mean that if he comprehends the Dao of Space, he has a speed bonus of one thousand one hundred times.

Comprehending for one day is equivalent to an ordinary person comprehending for one thousand one hundred days!

Just thinking about it makes Lin Tianhao a little excited!

"Tentacle monster, use the power of your Dao of Space to attack me."

Lin Tianhao said excitedly.

Silver Eye Octopus: ? ? ?

"Master, are you okay?"

"That's right, go to the sea."

Lin Tianhao took a step and came to the beach of the Land of Chaos.

"Come, come, right here, use your Dao to attack me, you can use the True Meaning level first."

The Silver Eye Octopus was a little dazed. He didn't know what Lin Tianhao wanted to do, but this, it seems, is a bit... masochistic, right?

But he still didn't violate Lin Tianhao's order, raised his hand and pointed.

Lin Tianhao only felt a slight ripple in the space, followed by a powerful force bombarding him.

- 1093W!

A terrifying damage number popped out from the top of Lin Tianhao's head, and Lin Tianhao's health plummeted by a quarter!

Then...

+ 1093W!

Lin Tianhao's health was instantly restored to full.

Seeing this scene.

The Silver Eye Octopus was shocked, "Instant full health, and this attack of mine is close to 11 million damage, and you only lost so little health, Master?"

Chapter 302 - Examine your conscience in three realms, slay the dragon and behead it!

Lin Tianhao raised an eyebrow, "Try the power of space at the Asking Heart realm."

The True Meaning realm was no longer enough for Lin Tianhao.

-4511W!!

Lin Tianhao's health points were instantly cleared!!

A peak state god is truly terrifying!

A casual attack could take him away.

Lin Tianhao chose to revive on the spot.

After Lin Tianhao revived, he checked the Creation Jade Disc.

The Creation Jade Disc recorded all the True Meaning of Space.

However, the Space Dao of the Asking Heart realm only recorded up to the Advanced Selflessness stage.

Like the True Meaning realm, the Asking Heart realm is also divided into three minor realms.

They are: Absence of Object, Absence of Self, and Absence of Dust.

Absence of Object: The mind is without distractions, and the Dao meaning is natural.

Absence of Self: The heart is without self, and the Dao originates from the heart.

Absence of Dust: The heart is without worldly ties, and the Dao is born from the heavens.

These three Absences of the Asking Heart realm are essentially a deep-level application of the True Meaning power. The first comprehension is the most difficult, but once comprehended, it's one path to all paths.

Absence of Object allows for the natural and smooth release of True Meaning because True Meaning is comprehended by the heart. During battle, the mind will fluctuate, naturally causing deviations in the application of True Meaning.

Absence of Self takes it a step further. Intent moves with the heart, and where the heart goes, so goes the intent!

Absence of Dust is even more powerful than intent moving with the heart. Heaven and earth have a Dao, and action can draw upon the power of heaven and earth, adding True Meaning to oneself.

In other words,

the True Meaning between heaven and earth can be freely mobilized, and the attack form of True Meaning will break through the situation of originating from oneself.

As long as there is True Meaning near the enemy, the True Meaning attack will appear from anywhere around the enemy, without the limitations of oneself!

"Did you just use the power of Selflessness?" Lin Tianhao asked.

The Silver-Eyed Octopus shook its head, "No, it was Advanced Dustlessness."

Lin Tianhao frowned. The Silver-Eyed Octopus couldn't be lying to him.

Then that means he had simplified things.

The power of the Selflessness level was already enough to instantly kill him when it descended upon him.

The Creation Jade Disc didn't sense the power of Dustlessness from him, so naturally, it didn't record it.

This was troublesome!

The power of the gods was too strong. Even when restrained, it could still deal such terrifying damage.

Gods in their peak state don't even need to open a domain. Just this casual application of the rules is so terrifying.

"Poseidon, you come too."

Although Lin Tianhao was a little depressed, he勉强勉强勉强勉强 accepted it.

The Asking Heart realm is one law to all laws. He could also look for Ouyang Wenlong later. As long as the Asking Heart realm goes up,

his True Meaning reaching the Advanced Manifestation stage would seamlessly connect to the Asking Heart realm.

The Asking Heart realm can be said to be the cornerstone of enlightenment, and True Meaning is just a very, very shallow application of the Dao.

To truly be strong, one must reach the Law realm.

Poseidon understood Lin Tianhao's meaning. He restrained his power and activated Dustlessness-level power to bombard Lin Tianhao.

-4511W!

It was still an instant kill, and it still only recorded the Selflessness level of the Asking Heart realm.

Lin Tianhao was somewhat disappointed.

He originally wanted to gain more, but he didn't expect it to be like this.

"Alright, let's leave it at that for today."

After Lin Tianhao revived, his level reached forty-eight.

He turned his gaze to the Silver-Eyed Octopus.

"Tentacle Monster, do the people of the Divine Sheep Cult all listen to your orders?"

"Yes, although they worship the Mother Goddess, I am currently the only one who has awakened on the Vast Continent and stepped out of the sealed land. They are obedient to me."

Hearing this,

a smile appeared on Lin Tianhao's face.

"Then please instruct them to enter the Moon Wheel Empire and lie dormant, waiting for an opportunity to act."

"Okay."

The Tentacle Monster guessed what Lin Tianhao wanted to do.

"In addition, your spatial power is strong enough, and you have the Silver Eyes to pry. I want you to help me monitor the high-level members of the Web, and find the Web Master!"

If that didn't work, then he would have to take measures.

Having such a powerful force in his own territory was too dangerous.

Based on the combat power of the Web assassins deployed during the last confrontation with Falling Cloud Peak and the Three Saints Association,

even with the current Mortal Palace plus the high-level powerhouses of the Mountain and Sea Empire, they couldn't stop the Web's massacre without his intervention.

This was too terrifying!!

"Understood."

The Silver-Eyed Octopus agreed readily.

After arranging these things, a smile appeared on Lin Tianhao's face. Next, he should prepare for the Holy Land Newcomer Competition in over a month.

According to Lin Tianhao's understanding,

the rewards given by the Twilight of the Gods would definitely be extraordinary, even useful to the entire Holy Land.

Besides this,

Lin Tianhao also had to ponder the matter of the Yellow Emperor Secret Realm.

No one had triggered the Yellow Emperor Secret Realm in his previous life either.

Lin Tianhao guessed that it was because the Mountain and Sea Empire hadn't awakened, which led to the Yellow Emperor Secret Realm not being triggered.

In other words,

the condition for triggering the Yellow Emperor Secret Realm should be within the Mountain and Sea Empire.

Wait!!

Lin Tianhao suddenly thought of a very useful piece of information.

That was that Fatty seemed to have said before that an ancient tomb under Glasses was related to the Yellow Emperor.

Could it be...

Lin Tianhao had a bold idea.

He opened his friend list and found that Glasses was offline, probably down in a tomb, and temporarily unable to trade.

"Glasses, contact me when you see this."

After leaving a message, Lin Tianhao returned to the Mortal Palace. There were still many things that were unclear, so Lin Tianhao decided to first focus on Asking Heart.

Asking Heart Absence of Object meant a mind without distractions!

Lin Tianhao took out the Creation Jade Disc and began to comprehend.

But at this moment,

Fatty's video call came.

Lin Tianhao frowned. Fatty rarely made video calls to him for no reason.

"Bro Hao, Monkey has been killed."

The video connected, and Fatty's voice came over.

"Not only that, but other people in our guild have also been killed. If my damage reflection wasn't high and my health bar was thick, I'm afraid I wouldn't have escaped death either."

Lin Tianhao narrowed his eyes, "What's going on?"

"It's not clear yet. The number of people who attacked wasn't large, but their strength was very strong. According to our speculation, among them are people like Goudao Wanggu and you, Bro Hao, who can infinitely stack attributes, and there's more than one, otherwise it wouldn't be so outrageous."

"God-level talent..."

Lin Tianhao muttered to himself, there was more than one person with God-level talent.

What did they want to do?

Dragon Slaying Decapitation Plan!!

This was a plan that Lin Tianhao knew about before. He guessed that it was because he had been running back and forth between the Mortal Palace and the Sea God Palace recently.

Plus the reason for the Kunlun Mirror shuttle, he hadn't encountered anyone executing the Dragon Slaying Decapitation Plan.

"Bro Hao, they've already threatened that anyone who dares to join our guild will be killed until they quit the game."

Fatty said somewhat angrily, "These guys are too arrogant, we must teach them a lesson!"

"Okay, I understand. Tell the people in the guild to be careful. I will let them know what a wrong decision it is to provoke me!!"

Lin Tianhao took out the Book of Life and Death and changed the name of the Dark Night Spirit God, Moirae, to Heavenly Ninja Blood Buddha...

Chapter 303 - Tianren Blood Buddha, bathing in spring water!

Tenin Blood Buddha, from the Sakura Country, is a powerful Tenin from the Sakura Country. He is also known to Lin Tianhao from his previous life as a key figure in the Dragon Slaying Decapitation Plan.

Now that they've targeted him, he has no reason to be polite.

The Mountains and Seas Empire.

The wilderness.

A top player from the Asura Guild was leading his team forward.

But at that moment.

A huge damage number suddenly appeared above his head.

Critical hit!

-112580!

This top player from the Asura Guild was instantly killed, without any chance to fight back.

An archer was the first to attack, sending an arrow flying towards Tenin Blood Buddha.

Tenin Blood Buddha sneered, dodging the arrow sideways, and quickly charged towards the archer.

The archer was shocked and began to kite.

Although his kiting wasn't particularly smooth, it was considered good at this stage of the game.

However, such skills were insignificant in front of Tenin Blood Buddha.

Moreover, Tenin Blood Buddha's movement speed was extremely fast, and he reached the archer in a few breaths, preparing to attack him.

"Savage Charge!"

A warrior player nearby couldn't stand idly by and charged at Tenin Blood Buddha, trying to block his attack.

However, Tenin Blood Buddha leaned his body at a forty-five-degree angle like a ghost, running past the warrior.

"Light Body Technique!"

A priest not far away released a beam of light on the archer player.

The archer player's movement speed increased, and he quickly retreated, giving up on attacking.

"Frozen Shackle!"

The mage also attacked simultaneously, sending frost towards Tenin Blood Buddha's feet.

However, Tenin Blood Buddha's movement speed was fast, and he had already predicted the mage's attack when he made his move.

However, this team was, after all, composed of top players with rich gaming experience.

The priest then attacked again.

"Weakening Light!"

A ray of light accurately landed on Tenin Blood Buddha after he dodged Frozen Shackle.

Tenin Blood Buddha frowned, took out a dagger, and threw it at the priest.

The priest was startled and waved his staff.

"Pale Shield!"

A layer of pale white shield appeared in front of the priest.

"Tzz!"

With a soft sound, the priest's Pale Shield was broken, and the dagger continued to fly towards the priest with undiminished force.

"Phantom Shield!"

A shield warrior nearby shouted and slammed his shield on the ground.

A phantom shield, almost identical to the shield in his hand, appeared in front of the priest not far from him!

"Bang!"

The phantom shield finally blocked the dagger, but it also shattered as a result.

However.

Just as they were catching their breath, Tenin Blood Buddha had already arrived next to the archer without anyone noticing, and slashed his dagger at the archer.

The archer's expression changed slightly. He could feel that the dagger was less than a centimeter away from his neck.

He could even feel the chill emanating from the dagger.

But at this moment.

A terrifying damage number suddenly appeared above Tenin Blood Buddha's head.

-365107!!

Tenin Blood Buddha, dead!!

His platinum dagger fell out.

"What... what's going on?"

The archer from the Asura Guild was still somewhat frightened.

He really felt like he was going to die just now, but he didn't expect such a reversal to occur!

"That person should be the one who's been causing a stir recently, executing the Dragon Slaying Decapitation Plan."

The priest said in a deep voice, with a cold glint in his eyes.

"The guild leader is already investigating the identities of these people executing the Dragon Slaying Decapitation Plan. Treating us top players like mobs is going too far."

...

Luo Xuan City, resurrection altar.

Tenin Blood Buddha was completely dumbfounded. Just now, he was about to kill the archer from the Asura Guild.

But the result was that he suffered a strange attack and died.

"Who exactly is it?!"

Seeing his platinum dagger dropped, Tenin Blood Buddha's heart was bleeding.

For someone at his level, getting gold-grade equipment wasn't a big problem.

But getting platinum-grade equipment was still very difficult.

Especially.

A platinum-grade weapon that could also fit him would be even more difficult.

"No matter who it is, anyone who dares to scheme against me will pay the price!!"

Tenin Blood Buddha resurrected again, preparing to walk out of the resurrection altar.

But at this moment.

A terrifying damage number appeared again above his head.

-265107!!

As a platinum dagger, although it didn't primarily add health, its grade was there, providing Tenin Blood Buddha with an additional 100,000 health.

The dagger dropped.

His health was reduced by 100,000, so his health dropped to over 260,000.

Killed again!!

He didn't even have a chance to walk out of the altar.

This...

Was just the beginning.

Next was once, twice, three times...

His level dropped all the way from level 135 to level 1!!

"Who?"

"Who exactly is it?!!"

"If you have the ability, come out. What kind of hero is it to scheme against me in hiding?"

Tenin Blood Buddha was exasperated, but he could only rage in vain.

"How dare you, an assassin, say such things? How many people have you schemed against?"

A calm voice came.

Tenin Blood Buddha looked over in soul form.

"It's you, Berserker Blade!"

The person who came wasn't Lin Tianhao, but Berserker Blade.

As for why Berserker Blade was able to find Tenin Blood Buddha, it was naturally because Lin Tianhao sent a message.

In order to facilitate the execution of the Dragon Slaying Decapitation Plan, Tenin Blood Buddha set his resurrection point in the Mountains and Seas Empire.

At the resurrection altar in the Mountains and Seas Empire, someone kept dying and resurrecting, which was so eye-catching that Berserker Guild easily found him with their resources.

"You're scheming against me!!"

Tenin Blood Buddha looked at Berserker Blade with cold eyes.

Berserker Blade shook his head, "I don't have such ability."

"The one who attacked you is your primary target."

Hearing this, Tenin Blood Buddha immediately looked around.

"Snow Emperor?!!"

"Damn, if you have the ability, come out, let's face each other head-on!!"

Berserker Blade looked at Tenin Blood Buddha with an idiotic gaze and said calmly:

"Snow Emperor said he's giving you a chance, let all of you come together, find a place, and he'll go alone."

Tenin Blood Buddha narrowed his eyes, "What big words, aren't you afraid of exaggerating?"

"I don't know if you're exaggerating, I'm just helping Snow Emperor deliver a message."

Berserker Blade's tone was still calm, "What you do is your business? Snow Emperor said that if you don't listen, then don't leave the resurrection altar."

"Good!!"

Tenin Blood Buddha nodded heavily, "Snow Emperor dares to take the initiative to declare war, how can we not accept it? I'll contact the others now. If he wants to play, we'll accompany him to the end!"

Chapter 304 - Battle: Seven Days Later!

Berserker Bladesong shook his head, not saying much.

He had a lot of information about Lin Tianhao's battles, and it was because of this that he was even more able to understand Lin Tianhao's power.

"What are you shaking your head for!"

Celestial Ninja Blood Buddha said coldly.

Berserker Bladesong revealed a meaningful smile, "Once you guys have fought Xue Di, you'll know why I'm laughing."

"Contact someone and decide on the time and place. I'll come back a little later."

Celestial Ninja Blood Buddha was exasperated because he had been killed again after resurrecting, without any ability to fight back.

"Xue Di!!!"

"Today's humiliation, I, Celestial Ninja Blood Buddha, will remember it in my heart. One day, I will make you pay for your blood debt!!!"

However,

no matter how he roared, it was useless, and no one paid any attention to him anymore.

Lin Tianhao didn't go to find Celestial Ninja Blood Buddha himself because it really wasn't necessary.

With that time, he might as well continue to comprehend the Dao.

"Almost there."

Lin Tianhao calculated that Celestial Ninja Blood Buddha should have dropped to level one by now.

So he changed the name on the Book of Life and Death back to Darknight Spirit God Moilai.

Because the Book of Life and Death doesn't cause damage during the time a player is waiting to resurrect, so naturally, it can't gain health.

This was a waste for Lin Tianhao.

Therefore, Lin Tianhao calculated the time, and after approximately killing Celestial Ninja Blood Buddha down to level one, he changed the name.

After changing the name, Lin Tianhao continued to comprehend the Dao.

Three hours later.

Berserker Bladesong's message finally arrived.

"Xue Di, Celestial Ninja Blood Buddha said that everything has been arranged, seven days later, Profound Iron Canyon."

"Okay."

Lin Tianhao smiled slightly.

"Although this Celestial Ninja Blood Buddha looks reckless, he is actually not simple, otherwise he wouldn't have arranged it for seven days later."

Berserker Bladesong continued to send messages.

"Xue Di, they may also know something about you. After the incident of the leaked content of the Gods' Blessing pre-quest scroll last time, we conducted an investigation, although there is no concrete evidence to prove who leaked it yet."

"But we found that in our team, some people are secretly in contact with the US and Sakura countries, leaking some of our internal information."

Lin Tianhao wasn't surprised.

Those countries infiltrating Dragon Country wasn't something that happened in a day or two.

"I suspect that they may also have some information about you, Xue Di. This battle seven days later..."

Lin Tianhao knew what Berserker Bladesong was worried about.

Others understand him, but he doesn't understand others. It's easy to be targeted everywhere during battle.

"Don't worry, the only one who truly understands me is myself."

Lin Tianhao had never fought with all his strength in front of players.

Especially since he still had three gods in his Pantheon List.

Even if putting aside the slumbering God of the Undead, the other two gods could easily use some means that these people couldn't contend with.

Moreover,

Lin Tianhao felt that he alone could solve these people.

Just at this moment.

Glasses called for a video call.

Lin Tianhao answered, and Glasses on the other end of the video was a bit disheveled. He saw Lin Tianhao and said with a wry smile:

"Brother Hao, just came out from underground. Don't mention the Yellow Emperor's Tomb. It's all pain to talk about it. It's really too outrageous. We can't get through it at this stage. I died more than a dozen times just wandering around the outer edges of the tomb."

Lin Tianhao frowned slightly. It seemed that tomb raiding wasn't so easy this time either.

However, the more difficult this Yellow Emperor's Tomb was, the more Lin Tianhao felt that there was a problem.

Lin Tianhao's eyes narrowed slightly, "If you say that, I'm going to be unhappy."

"No, I'm not saying you have low intelligence, nor am I saying you're stupid, Brother Hao, don't misunderstand."

After saying this, Glasses suddenly felt that it seemed to be getting worse and worse, and immediately changed his words:

"Okay, Brother Hao, whenever you have time, I'll take you to the Yellow Emperor's Tomb."

"Right now then."

Lin Tianhao's execution has always been strong.

Five years.

To be precise, there are still fifty-seven months and a little more before reality merges with Ragnarok, and the Great Calamity descends.

It seems that there is still some time to spare.

But Lin Tianhao knew that time in the present feels like it's passing very slowly.

But if you look back, time passes so quickly as if it were a big dream, unknowingly passing by.

"Okay, then I'll wait for you in Nether Valley."

Glasses sent a coordinate.

Lin Tianhao used the Kunlun Mirror to directly reach the place where he had killed Queen Fio Dingyu before.

This Nether Valley.

Was a passage that the Star Kingdom used to go to the Netherworld.

It's not too far from where Lin Tianhao killed Queen Fio Dingyu.

After landing.

Lin Tianhao rode the Blazing Fire Turkey King and headed towards Nether Valley.

Before long.

Lin Tianhao arrived at Nether Valley.

"I'm here, where are you?"

Glasses: ???

Glasses: "I just saw your video background, you're in the city, right? It's only been ten minutes, and you're already here?"

Lin Tianhao smiled, "Yeah, hurry up."

It seems that the Yellow Emperor's Tomb is near this Nether Valley.

Glasses estimated that it would take him some time to get here from the city, but he didn't know that Lin Tianhao had a powerful tool like the Kunlun Mirror.

"Brother Hao, what's your mount? It runs so fast. Get me one sometime."

Lin Tianhao: "Kunlun Mirror."

"Kunlun Mirror? That doesn't sound like a mount."

"A treasure that can travel to places I've been to."

Glasses: ???

"Is it that powerful? How did you get it? I want one too."

Glasses was a little excited. If he also had a Kunlun Mirror, wouldn't tomb raiding be much easier?

Where would he need so much time to travel, especially since some ancient tombs have many traps, and once you pass them, you can't return to the previous tomb chamber.

Once you realize you've gone the wrong way, you have to go through a lot of hardships to get back to the previous tomb chamber.

But if you have this Kunlun Mirror, then if you go the wrong way, you can directly travel back to the previous tomb chamber.

"The Queen Mother of the West bestowed it upon me." Lin Tianhao said.

Glasses: ???

"That's tough. It was obtained from the Gods' Blessing. There's almost no chance I'll get it."

Lin Tianhao spread his hands, "Everyone has their own opportunities. You're already better than most ordinary players."

"No need to comfort me. If I can take down the Yellow Emperor's Tomb, I should be able to get a lot of rewards."

"Hurry up, I'm waiting for you."

Lin Tianhao closed the chat interface.

Opened the forum.

He hadn't browsed the forum for a while.

The forum was as lively as ever, gossip, strategy teams, and some people even set up stalls on the forum to sell things.

"Gods' Blessing pre-quest scroll, exchange for 100 million in cash, rich people come, idiots go away."

Chapter 305 - Selling the pre-quest scroll of Gods' Blessing!

Lin Tianhao had just entered when he saw a message being pushed to the top.

Scroll for the Gods' Blessing Prerequisite Quest!

One hundred million, in cash!!

Lin Tianhao couldn't say whether this deal was good or not. Frankly, from the perspective of someone who had been through it, it was a bit foolish.

Because after the Great Cataclysm, game currency would replace real-world currency, and real-world money would become worthless.

Clicking on it, Lin Tianhao saw a barrage of insults and ridicule.

"Is the poster still asleep? I suggest you sleep some more. One hundred million? How little concept of money do you have to say something like that?"

"It's just a game. A rich person might spend a few million, or even tens of millions, to play, but one hundred million, just to buy a scroll? Is that even possible?"

"The poster is probably driven crazy by poverty, otherwise they definitely wouldn't say something like that."

... ..

There were all sorts of comments.

"Friend, one hundred million is too expensive. Five million US dollars, plus a US green card. It's a steal."

At the current exchange rate, that would be thirty to forty million Dragon Country coins.

"Sorry, this scroll is only for sale to Dragon Country citizens."

The Poorest in Wanli Village refused decisively, showing no room for negotiation in their attitude.

"Friend, it's all about the money. Who gives it doesn't matter, right? Ten million US dollars. Besides me, no one else can offer such a high price."

"Get lost!!"

The Poorest in Wanli Village replied with just one word, then blacklisted the other party.

After a while.

Someone else added them as a friend.

Seeing the person who added them this time, the Poorest in Wanli Village, who was resting under a tree outside Sunset Town, revealed a profound smile.

After Berserker Blade added the Poorest in Wanli Village as a friend, he sent a message directly.

"Brother, how do we trade?"

One hundred million.

Most people would think of the Poorest in Wanli Village as an idiot.

But people like Berserker Blade, who knew some inside information, understood how significant the Gods' Blessing Prerequisite Quest Scroll was.

"Great, transfer the money to my account, and we'll trade directly."

The Poorest in Wanli Village directly created a transaction panel. As soon as the money arrived, the transaction would be completed, and the Gods' Blessing Prerequisite Quest Scroll would be in Berserker Blade's hands.

"Overseas account?!"

Berserker Blade couldn't help but frown when he saw the transfer account.

But he didn't think too much about it and transferred the money directly.

The transaction was completed quickly, and Berserker Blade obtained the Gods' Blessing Prerequisite Quest Scroll.

Under the big tree outside Sunset Town.

The Poorest in Wanli Village stretched lazily and stood up, sending a message.

"As you wished, the item has been delivered to Berserker Blade."

"Good."

The other party only replied with one word.

... ..

Nether Ghost Valley!

Glasses finally arrived, riding his Gale Wolf mount.

Dismounting from the Gale Wolf, Glasses gave Lin Tianhao a thumbs up.

"Brother Hao, let's talk as we go. I've only been active in the periphery of the Yellow Emperor's Tomb, so I don't know much about the information."

"First, there are all kinds of traps inside the Yellow Emperor's Tomb: the Eight Trigrams, Yin-Yang Ghost Arts, everything you can imagine."

"Second, the Yellow Emperor's Tomb doesn't allow anyone above the Third Revolution to enter. The maximum is a Third Revolution class. Originally, I wanted to try the Yellow Emperor's Tomb when I reached the limit of the Third Revolution."

Lin Tianhao nodded, "No problem, let's go in and take a look first."

In his previous life, Lin Tianhao had also entered some ancient tombs. Coupled with his familiarity with Twilight of the Gods and his current strength, he should gain something.

Glasses led Lin Tianhao towards the depths of Nether Ghost Valley, walking about a third of the way.

Glasses took out a grappling hook, raised his hand, and threw it out.

The grappling hook cut through the air, accurately grabbing onto the cliff wall of Nether Ghost Valley.

"Up."

Glasses moved skillfully, grabbing the rope connecting the grappling hook and climbing upwards. He was fast, and in the blink of an eye, he had already climbed up.

Only then did Lin Tianhao see a hidden cave entrance above.

This tomb raiding was not something ordinary people could do. Just finding this kind of place could make one's scalp tingle.

Lin Tianhao followed the rope and climbed to the entrance of the cave. The entrance was small, and one had to bend over to barely move forward.

After walking for more than ten meters, the cave began to widen.

"This is a very old tomb robber's tunnel. According to my calculations, it's probably hundreds or even thousands of years old."

"Judging from the technique, it's a bit like the Moving Mountain Taoist's methods."

Glasses walked in front, talking to Lin Tianhao as he went.

Lin Tianhao observed the tunnel. It was neat and smooth, and it was dug along the cracks in the rock wall, which saved a lot of time.

The tunnel led to a karst cave.

In the karst cave, stones were piled up together.

"This is for you."

Glasses took out a small notebook and handed it to Lin Tianhao.

Lin Tianhao took the notebook, looking somewhat surprised.

"Tomb Raider's Token?"

"Yeah, this thing is a bit old. I checked the information. This is an archeological certificate from Twilight of the Gods. Going to the tomb without this is tomb raiding, but going to the tomb with this is archeology."

"Is there any practical use?" Lin Tianhao asked.

"Of course. Holding a certificate to work is very important. Moreover, holding this Tomb Raider's Token will reduce the damage taken in the tomb by 20 percent."

"Brother Hao, you're lucky. I just got this second one."

Lin Tianhao nodded, "I see."

Reducing damage by 20 percent can be considered very good.

"There's a pool in front of this karst cave, and the formal entrance to the Yellow Emperor's Tomb is below the pool."

Glasses walked forward and jumped into the pool.

Lin Tianhao followed closely behind, also jumping into the pool.

Following the pool downwards, as if passing through a layer of barrier, Lin Tianhao fell down and landed in a tomb chamber.

Looking up, there was the pool above, but it was completely dry below.

It seemed somewhat similar to the barrier on Poseidon Island.

"This..."

Poseidon's voice sounded in Lin Tianhao's mind.

"What's wrong?" Lin Tianhao asked.

"Divine Sense Compression. Our Divine Sense can't be released here."

Silver-Eyed Octopus answered Lin Tianhao, "There is a formation here that targets Divine Sense, and the person who set up the formation is a Fourth-Rank Divine Formation Master."

Lin Tianhao was secretly shocked. This Yellow Emperor's Tomb was truly not simple.

"From here, there's a tomb chamber in front, and a tomb chamber behind, plus the one we're standing in, for a total of three tomb chambers."

"I've been studying it for a long time, but I don't know how to leave these three tomb chambers."

Glasses was a little troubled.

He walked in front, skillfully leading Lin Tianhao through the tomb door. Behind the tomb door was a room similar to the one they had just been in.

The difference was that there was a stone table in the center of this room. On the stone table was a teapot and a black chess piece.

Chapter 306 - Corpse mountain swamp, blue stone tablet!

"The tomb chamber behind us is the same as this one, except there's a white chess piece there."

Lin Tianhao raised his hand and stroked the black chess piece. He pressed it, but there was no reaction.

“Brother Hao, you really are skilled and bold. As a rule, you shouldn't mess with things in ancient tombs unless absolutely necessary, as you might trigger a mechanism at any time.”

Eyeglasses couldn't help but rub his forehead after seeing Lin Tianhao's actions.

Lin Tianhao smiled and said, “Eyeglasses, do you think it's possible that this ancient tomb can't be entered by one person alone? It might require two people to work together.”

“One person holds black, and one person holds white.”

“I don't think so.”

Eyeglasses shook his head. “I've studied it specifically, and these chess pieces can't be pressed.”

“You pressed it too, yet you still have the nerve to talk about me.”

“Hehe, I'm half an expert now, so I definitely have to act like one.” Eyeglasses grinned.

Normally, he looked gentle, quiet, and not very talkative.

But that's all an act.

In front of people he's familiar with, he's a completely different person.

“A 'brick' expert, you mean.”

Lin Tianhao grinned.

“Have you heard of yin and yang having two eyes that divide heaven and earth, where heaven and earth are united, rules are connected, and the great dao is intertwined?”

“What does that mean?” Eyeglasses looked somewhat blank.

“Aren't you a 'brick' expert? You don't even know this.”

Eyeglasses: “.....”

“Yin and yang, heaven and earth, have various connections. They can't be moved separately, so when you press one chess piece, it won't have any reaction.”

Eyeglasses' eyes lit up. “So, you need to press both the black and white pieces at the same time?”

“That's right.” Lin Tianhao smiled.

“But speaking of which, how did you die more than ten times with just this little bit of stuff?”

Eyeglasses opened his mouth. “Brother Hao, do you really think it was this simple from the beginning? Both of these tomb chambers originally had mechanisms, which I slowly broke through.”

“You tested them with your life, right?”

Eyeglasses: “.....”

“Brother Hao, it's really not my fault. The mechanisms in this Yellow Emperor's tomb are too ancient. Many of them touch upon my knowledge blind spots.”

Lin Tianhao looked around. "Based on what's here, how did you determine that this is the Yellow Emperor's tomb?"

"An NPC told me. He was the one who guided me here."

"Alright, let's get down to business. You go over there, and we'll press them together in a moment to try it out."

"Okay, there's no communication in the ancient tomb. It's 13:21 now. Let's press them together when it reaches 13:25."

Eyeglasses reminded him. After saying this, he quickly walked over.

Lin Tianhao looked at the time and pressed down when it was 13:25.

The chess piece, which had been motionless before, was easily pressed down.

"As expected."

A smile appeared on Lin Tianhao's face. He looked around, and a rumbling sound came from behind the tomb wall.

At the same time, the tomb chamber door slammed shut.

Immediately afterward, Lin Tianhao felt a slight sense of weightlessness in his body.

"This is... the feeling of riding an elevator."

Lin Tianhao narrowed his eyes. He could clearly feel that the tomb chamber he was in was constantly sinking.

This time lasted for almost a minute. With a muffled sound, the tomb chamber finally stabilized.

Lin Tianhao looked towards the front of the tomb chamber. The tomb door slowly opened.

An ancient and heavy aura rushed towards him. Lin Tianhao stepped through the tomb door.

As soon as he stepped through, Lin Tianhao saw a scene that made him dumbfounded.

Behind the tomb door was a swamp shrouded in gray mist.

Because of the gray mist, Lin Tianhao couldn't see the end of this swamp.

But...

He could clearly see that there were countless bones in this swamp.

Human, animal, and some very strange bones.

For example, the half-exposed body, like human bones, but hundreds of times larger than human bones, were giant skeletons.

For example, there was a strange skeleton with nine heads and a body like a horse.

At a glance, the bones were piled up like mountains, shocking Lin Tianhao's heart.

In front of the swamp, there was a suspended stone slab bridge. Before the stone slab bridge, there was a cyan stone tablet.

Lin Tianhao stepped forward to the stone tablet. On this stone tablet, there were complex characters.

In his previous life, Lin Tianhao had also been exposed to some ancient characters, but he had never seen this kind of writing before.

“Silver Eyes, can you release Silver Eye Peeking to take a look? What are these characters?”

Lin Tianhao knew that the Silver-Eyed Octopus and Poseidon couldn't release divine sense, so he could only let the Silver-Eyed Octopus release Silver Eye Peeking to take a look.

As for directly releasing them, Lin Tianhao gave up.

There were unknown formations here that could suppress the divine sense of gods. What if even gods could be suppressed?

He had spent a great deal of effort to obtain the Silver-Eyed Octopus and Poseidon. If there were any mishaps, he would be furious.

“It won't work.”

The Silver-Eyed Octopus' voice came.

“The suppression here is too terrifying. I feel that even if my mother god came in person, she wouldn't be able to release any means above this suppression.”

Lin Tianhao was surprised. What exactly was going on here that could suppress gods like this?

For Eyeglasses, this was an ancient tomb, but for Lin Tianhao, this was a secret realm.

Only.

What kind of secret realm could have such terrifying suppression?

Before coming in, Eyeglasses had said that this place could only accommodate those at or below Third Revolution.

At the time, Lin Tianhao didn't really care too much.

The reason was simple.

Such restrictions were likely similar to the Snow Corpse's footprints, rules set by a god, which those below the god couldn't control.

This time, he brought two gods in their prime, so he could completely avoid this situation.

But the result was a great disappointment.

The intensity of the suppression here was too terrifying.

“Could it really be the Yellow Emperor's tomb.”

Lin Tianhao frowned. Although the Yellow Emperor existed in mythology and legends as a human, Lin Tianhao knew.

The Yellow Emperor was a genuine god, and a powerful and terrifying one at that.

Heaven, earth, and man, the three realms!

There were three supreme gods.

The heavenly realm was the Jade Emperor, initially called the Great Emperor Haotian.

The Houtu Goddess transformed into reincarnation, and the lord of the underworld was born, who was later known as the Supreme Emperor of the Eastern Peak, a supreme powerhouse.

And the emperor of the human realm was none other than the Yellow Emperor!

From this, it could be seen how high the Yellow Emperor's divine position was.

Even every subsequent human emperor was equal to the Jade Emperor in status.

It was just a pity that the human race, for some reason, exhausted its luck. The sage bestowed the Investiture of the Gods and started the Investiture of the Gods War, intercepting the last trace of the human race's luck.

King Zhou was destroyed, and the human race no longer had an emperor. Rulers of all dynasties called themselves Sons of Heaven, worshiped gods, and listened to the will of the gods!

Since then, the human race has fallen into a situation of being divided by Taoism and Buddhism...

Chapter 307 - Floating slab, field of power!

During the Qin Dynasty!

The First Emperor reincarnated, intending to reverse the situation and reclaim the Human Race's fortune, but unfortunately, he ultimately failed.

However, regardless of how the Human Race declined later, the ancestor of the Human Race, the Yellow Emperor, was a supreme existence.

Lin Tianhao photographed the text on this cyan stone tablet, and can only study it after returning.

Ahead are the stone slabs suspended in mid-air.

Lin Tianhao took a step and stepped onto the first stone slab. The stone slab vibrated slightly, and the swamp under his feet seemed to boil, with bones trembling slightly.

Lin Tianhao jumped out again and arrived on the second stone slab. In the swamp below, a bone spur flew towards Lin Tianhao.

Lin Tianhao leaned back, and the God-Slaying Whip fell into his hand, smashing the bone spur away.

This time.

Lin Tianhao did not move forward again.

He took out the novice longbow and attacked the skeleton.

One arrow, two arrows, three arrows...

The skeleton remained motionless, and there was no sign of health reduction.

"Not a living being, then it's... a formation?"

Lin Tianhao frowned, gave up attacking, and continued to jump towards the third stone slab.

That's right.

Just knock them away, not shatter them.

These bones could actually withstand a blow from Lin Tianhao's God-Slaying Whip. Not to mention being shattered, there wasn't even a crack.

In other words.

The strength of these bone spurs has already surpassed platinum weapons.

Because under Lin Tianhao's God-Slaying Whip, even platinum equipment would show cracks.

Before Lin Tianhao could think too much, just as he landed, two skeleton soldiers holding bone spurs rushed up.

Lin Tianhao tried to check the information of these skeleton soldiers, but he couldn't see anything.

The bone spurs in their hands stabbed towards Lin Tianhao. Lin Tianhao's movement speed was extremely fast. While avoiding the bone spurs, the God-Slaying Whip almost simultaneously smashed onto the foreheads of the two skeleton soldiers, knocking them away.

Hitting the foreheads of two skeleton soldiers almost simultaneously was not because Lin Tianhao could split attacks.

It was because Lin Tianhao's attack speed was too fast. The time spent on two normal attacks was only about 0.02 seconds.

This led to the visual effect that Lin Tianhao's two normal attacks hit almost simultaneously.

"What iron heads."

Lin Tianhao was surprised because his God-Slaying Whip didn't leave any marks on their foreheads.

Fourth, fifth, sixth...

Lin Tianhao continued to move forward.

Every time he moved forward, various attacks would fly out from the boiling swamp below.

Lin Tianhao's movement speed was fast enough, and his attack speed was also fast enough.

Therefore, these attacks were not worth mentioning to Lin Tianhao, and he blocked them one by one.

The further he went, the stronger the attacks Lin Tianhao faced.

Fortunately, Lin Tianhao's reaction speed was sufficient, and he could barely cope.

Finally.

Lin Tianhao saw the other side of the swamp.

It was a huge circular stone platform, and there was a stone gate in front of the platform.

Lin Tianhao glanced at his attributes and counted the steps in front.

"There are only eleven steps left. If the speed is fast enough, I can rush directly to the other side."

Lin Tianhao's expression became serious because he had just faced the attack of a bone dragon.

If he continued to move forward, he would face more attacks.

Since that's the case.

Then he had to consider rushing over directly.

"Adamant Body!"

"Berserk!"

"Mystic Ice Wings!"

Lin Tianhao increased his speed to the extreme.

"Swoosh!!"

He leaped out in one step.

Lin Tianhao's body turned into a streak of afterimages, rushing forward.

Landing on the steps ahead, two huge bone hands slapped from both sides, trying to slap Lin Tianhao to death like swatting a fly.

How fast was Lin Tianhao's reaction speed?

He darted through the palms and reached the tenth step from the end.

"Boom!!"

With a loud noise, a giant rushed out of the swamp, blocking Lin Tianhao's path.

A bone axe in his hand slashed towards Lin Tianhao, trying to tear Lin Tianhao's body apart.

"Shadow Chasing Instant Kill!"

Lin Tianhao used displacement to directly arrive behind the bone giant.

He didn't try to attack the bone giant, and his body landed on the ninth step from the end.

A powerful pressure descended from the sky. Lin Tianhao only felt his body weighed a thousand times, as if he was carrying a mountain on his back, making it difficult for him to move.

"Gravity Domain?"

Lin Tianhao's eyes narrowed slightly because the Gravity Domain was powerful, but not particularly rare.

At least Lin Tianhao had seen several Gravity Domains in his previous life.

It's just that.

The strength of the Gravity Domain can sometimes be very different.

Some Gravity Domains are ten times the gravity, some are ten thousand times, or even one hundred thousand times, one million times the gravity. The difference between them is very obvious.

Lin Tianhao glanced at the Jade Disc of Creation, and his whole expression was slightly stagnant.

"Law of Force!!!"

That's right!

What the Jade Disc of Creation recorded was not the Law of Gravity, but... the Law of Force!!

Don't look at the Law of Gravity and the Law of Force, which are only one word different.

But Lin Tianhao was very clear that there was a world of difference between the two.

The Great Way of Force originated from the Great God Pangu!

The Great God Pangu proved the Dao with force, suppressing the three thousand gods and demons so that they could not lift their heads. How unrestrained was that?

Here, there would actually be the Great Way of Force.

This almost made Lin Tianhao sure that this ancient tomb was definitely not as simple as the Tomb of the Yellow Emperor.

Of course.

It's hard to say.

The Great Way of Force is difficult to achieve, but the difficulty of the Law of Force is not that high.

With the Yellow Emperor's level, it shouldn't be difficult to create the Law of Force.

These were just Lin Tianhao's thoughts for a moment.

When the Domain of Force pressed on Lin Tianhao's body, the bone giant once again slashed his giant axe towards Lin Tianhao.

Lin Tianhao's face sank slightly. Under the suppression of the Domain of Force, his movement speed was slow.

Wanting to rely on positioning to avoid the bone giant's attack was tantamount to wishful thinking.

Lin Tianhao held the God-Slaying Whip horizontally in front of him.

"Bang!!"

The giant axe slashed on Lin Tianhao's body, and Lin Tianhao's body sank. At the same time, a huge damage number popped out from above his head.

-592180!!

Nearly six hundred thousand damage.

This was still the case when Lin Tianhao blocked it with the God-Slaying Whip.

If it weren't for this.

The damage Lin Tianhao might have suffered would have been even higher.

The giant axe raised.

The bone giant's attack came again.

Lin Tianhao used Spatial Blink and directly arrived on the eighth stone slab from the end.

Only after arriving here.

Lin Tianhao clearly felt that the pressure he was bearing was even greater.

If he could barely move before, then now, he even had some difficulty moving.

After landing on the eighth stone slab from the end, another bone giant appeared. He held a huge bone sword in his hand and slashed towards Lin Tianhao.

Looking at the huge bone sword falling from the sky, Lin Tianhao smiled helplessly.

"Kunlun Mirror!"

Chapter 308 - The true meaning of strength is to have no ego in your heart!

Under the suppression of this Force Domain, Lin Tianhao's movements were difficult, and there was no need to continue supporting it.

In the next instant.

Lin Tianhao returned to the cyan stone tablet.

Previously, he had reached the eighth-to-last stone tablet.

Lin Tianhao had two ways to break the situation.

The first was to wait for the Space Blink to cool down, use the Kunlun Mirror to go over, then use Space Blink to reach the seventh-to-last stone slab, and then come back.

Because when he was on the eighth-to-last stone slab, the pressure from the Force Domain made it difficult for him to move.

According to Lin Tianhao's calculations, he would be unable to move at most on the fifth-to-last stone slab.

Therefore.

He needed to take the second path.

Enlightenment!!

Just now, the Creation Jade Plate had already recorded the Force Great Dao of True Meaning Great Perfection, and he could comprehend the True Meaning of Force to Great Perfection.

In this way, he could use the True Meaning of Force to alleviate the pressure brought by the Force Domain, allowing him to reach the other shore.

Thinking like this.

Lin Tianhao began to comprehend the Dao.

With the blessing of the Creation Jade Plate, Lin Tianhao's Dao comprehension speed was extremely fast.

But even so.

Lin Tianhao still spent a full three days to comprehend the True Meaning of Force to Great Perfection.

This was because the Creation Jade Plate recorded the True Meaning of Force, and there was also a hundredfold acceleration, otherwise, this time would be immeasurable.

"Let's try again."

Lin Tianhao used the Kunlun Mirror to come to the eighth-to-last stone slab.

As soon as he landed here, terrifying pressure fell, making it difficult for Lin Tianhao to move.

Lin Tianhao was not afraid at all, using his own True Meaning of Force to fight against the pressure of this Force Domain.

The weapons in the hands of the two bone giants rushed towards Lin Tianhao again.

Lin Tianhao frowned slightly, and did not immediately use Space Blink, but used Berserk and Profound Ice Wings to increase his movement speed by a notch.

At the same time.

The God-Smiting Whip blocked the giant axe, and his body withstood the giant sword.

Just once!

Lin Tianhao's health dropped by more than three million, and that was just Lin Tianhao.

If it were someone else, very few people could withstand it.

After enduring this attack, Lin Tianhao finally reached the seventh-to-last stone slab.

As Lin Tianhao expected, after reaching the seventh-to-last stone slab, the pressure he endured increased again, his body sank slightly, and he was almost crushed to the ground.

At the same time, the third bone giant appeared, attacking Lin Tianhao.

Lin Tianhao gritted his teeth, and used Space Blink.

Successfully reached the sixth-to-last stone slab, and the fourth bone giant appeared.

On the sixth stone slab, Lin Tianhao urged the True Meaning of Force to the extreme, but he was still kneeling on the stone slab under the pressure.

"Kunlun Mirror!"

Lin Tianhao ran away again, coming to the cyan stone tablet.

Drops of sweat oozed from Lin Tianhao's forehead.

The battle just now was very fast, just a matter of breathing.

But the pressure Lin Tianhao endured was extremely great.

"It seems that I need to reach the Heart Inquiry Realm..."

Lin Tianhao's expression was a little dignified, he was already like that on the sixth stone slab.

If it was on the fifth, or the fourth.

Lin Tianhao was sure that he would definitely be unable to move under the pressure, and he would not even be able to enter the Kunlun Mirror.

"It's so difficult, it seems that even if the Glasses reaches the third-rank limit, it still won't be able to pass."

Lin Tianhao thought secretly.

Of course.

Not absolutely.

Because Glasses also has an invincible ethereal ability, if his invincible ethereal ability can be immune to the suppression of the Force Domain, then there is still a chance.

Lin Tianhao stood in front of the cyan stone tablet and began to improve his state of mind.

Heart Inquiry Realm, starting from now.

Although there was a hundredfold Dao comprehension speed bonus, after reaching the Heart Inquiry Realm, Lin Tianhao's Dao comprehension speed clearly decreased.

The improvement of the state of mind was very difficult.

However.

It seemed that because Lin Tianhao had lived two lives, although the improvement of his state of mind slowed down, compared to what Lin Tianhao knew in his previous life, the difficulty of improving his state of mind, this was already very, very fast.

This time, Lin Tianhao spent four days!

Successfully raised the Heart Inquiry Realm to the advanced level of Egolessness.

At this time, his use of various True Meanings was more skilled, and he could already move his intentions with his heart, and the True Meaning could be attacked wherever his heart went.

Before, he needed precise control to release the True Meaning, not to mention the consumption of mental energy, the power of the True Meaning that could be used was not much.

These four days, Lin Tianhao has improved.

But the outside world was in an uproar.

A post titled [Snowdog Coward, Dares Not Fight] topped the international forum.

The reason was none other.

Lin Tianhao did not appear for the previous seven-day agreement.

"The Snow Emperor agreed with us to compete in the Xuan Iron Canyon after seven days, but he did not appear."

"Regardless of his strength, just his character is disgraceful. A person like him is a pile of foul-smelling dung!!"

"Orientals are indeed weak men..."

... ..

The post was very strong, from attacking the Snow Emperor to attacking the Dragon Country players, without the slightest mercy.

Below the post, many people were following up and leaving messages.

"Where is the Snow Emperor? Come out quickly. Others are already scolding you at your doorstep. Aren't you going out to have a big fight with them?"

"Is the Snow Emperor really scared? Does anyone have the Snow Emperor's friend? This post has been posted for more than an hour."

"I have always felt that the Snow Emperor is just a paper tiger, a rookie who is ahead of other players by a bit of luck. Now it seems that this is indeed the case. As soon as these foreign experts come, they immediately shrink back."

... ..

Berserk Guild.

Berserk Bladesman was a little distraught. Now the public opinion of Twilight of the Gods is very bad.

The players of their own country are urging the Snow Emperor to come out quickly, while the players of other countries are directly mocking and taunting him.

Dragon Country is a large Eastern country. With the popularity of Twilight of the Gods, this has created a very bad international impact.

"Have you contacted the Snow Emperor?"

Berserk Bladesman shook his head, "No, the status is unknown. According to speculation, he has entered some special area and cannot be contacted at all."

"Why don't I arrange for our people to go to the Xuan Iron Canyon to fight first? We can't really let them see the joke."

Berserk Bladesman hesitated, "This time it is a nine-nation alliance. Those who can be in the Xuan Iron Canyon are basically the top people in the nine countries."

"In other words, they are probably all god-level talent owners."

Hearing this.

The person next to him looked ugly. He looked at the information on the forum.

"Another post is here. They want our Dragon Country to admit that it is a cowardly country, and they will no longer pursue it!"

"Bullshit!!"

Berserk Bladesman shouted angrily.

Just then, a message came.

"I have already arranged for the people from the Special Forces to go."

Berserk Bladesman's eyes lit up. If the people from the Special Forces Regiment go, there is still some hope for this battle.

Thinking like this, Berserk Bladesman immediately posted!

"You guys are not qualified to let the Snow Emperor take action. To deal with you, others can do it!"

Chapter 309 - Double Saint-level talent: prosperous rain!

Blade of Fury, the president of the Fury Guild, posted this reply, which immediately attracted the attention of many people.

"Great, great, great, I knew that our Dragon Country would definitely have experts stand up."

"It's time to let them know the foundation of our Dragon Country."

"That's right, although it feels like they're taking the blame for Snow Emperor, it's always good to have someone stand up."

.....

Ironclad Canyon.

The focus of everyone's attention!

Originally, this battle was intentionally promoted, and now with the forum post, many people are paying attention to the battle of Ironclad Canyon.

Whether it's from Dragon Country or other countries.

There are streamers vying for filming positions, trying to become famous overnight.

Today's battle of Ironclad Canyon has surpassed 50 million viewers, and that number is still climbing.

The conflict between East and West.

Has been an open and covert struggle for many years in the real world.

This is an East-West conflict on the table, and the hype is so high, so naturally many people are paying attention.

Special Forces!

Captain Long looked serious, his eyes sweeping over his eleven team members.

"You should all know about the Ironclad Canyon situation. In this battle, we cannot retreat, and we must not lose."

"Today is a battle of East and West, but also a battle of honor. I hope you can understand."

Little Nie was eager to try, "I heard about their Dragon Slaying Plan before. Now I can face them head-on, which is exactly what I wanted."

Mr. Unsword also grinned, "Captain Long, we have a very high chance of winning this battle today. Putting aside everything else, we all have Life Pearls, and our health bars are naturally 100,000 higher than theirs."

"At this stage, an extra 100,000 health points is a very big advantage."

Captain Long glared at Mr. Unsword and scolded: "High chance of winning? Do you think you're strong just because you have some luck and come from an ancient martial arts family?"

"Our chances of winning this time are very low, probably less than 10%."

"That's not possible."

Falling Rain didn't quite believe it, "Captain Long, it's not good to boost others' morale and diminish our own before the fight even starts."

Shadow Kill looked serious, "Although I don't want to admit it, what the captain said is true. Our chances of winning are very, very low."

"These people, I guess, should all be God-level talent holders. With nine countries joining forces, it's not difficult for each country to come up with a God-level talent professional."

"Some countries may even have more than one God-level talent awakened."

Speaking of God-level talent.

Everyone present looked solemn.

Shadow Kill has God-level talent, and their Captain Long also has God-level talent.

They are very clear.

God-level talent is sure to infinitely stack attributes.

Whether it's one or more.

This is inevitable.

As long as you don't ridiculously encounter a talent that stacks mana, other God-level talents will definitely not be weak.

To be precise, even if there is a mana stacking talent, there will definitely be other blessings. After all, so far, there is no particularly weak God-level talent.

Falling Rain looked serious, "With the previous national war, the Hall of the Van's bounty, and your help, my output ability is now sufficient."

Effect 2 is that the higher the mana, the higher the health and skill cooldown reduction.

As for the effect 1 of the second Saint-level talent, when using free attribute points to increase mana, you get a hundredfold blessing.

Effect 2 is that when using free attribute points to increase spell power, you get a hundredfold blessing.

The two talents complement each other, making Falling Rain's current spell power, mana, and health very high.

At least compared to the current stage of players, her current attributes are ridiculously high.

If she had only one of these two Saint-level talents, it would actually be relatively ordinary.

But the fact that she has both of these Saint-level talents, and two Saint-level talents that can complement each other, shows how much she has grown.

She only needs to add these two attributes, and her skill cooldown reduction and health will increase.

In addition, she has been supported in a targeted manner, as well as the previous national war, the revival reward of the Mountains and Seas Empire, and Lin Tianhao's bounty mission.

These have allowed Falling Rain to improve rapidly.

Her skill cooldown reduction has now reached 30%!

This is considered very awesome at this stage.

Because cooldown reduction, like attack speed and movement speed, becomes more difficult to improve later on.

However, Falling Rain has high spell power, high mana, high health, and fast skill cooldown. In terms of mages, she can be considered quite perverted.

"Falling Rain, your damage is enough, and your cooldown is also very good. I will have Jin Quan protect you. You and Little Overlord will hold the field, and it's best to take one of them away first."

"As for the battle details, you can refer to our dungeon farming gameplay, but be more cautious."

.....

Captain Long explained to his team members with a serious expression.

Seeing Captain Long so serious, and Shadow Kill saying that most of them are people with God-level talents.

This put pressure on them.

"This battle is difficult, but we have encountered more difficulties in the real world over the years, haven't we survived?"

"Today is a battle of honor, and we must fight to the death no matter what."

"Captain, don't worry, I guessed this day would come when I entered the game. I had already planned to fight those Western bastards."

Captain Long raised his hand, "Okay, then let's set off for Ironclad Canyon now."

The Special Forces team of twelve, with the belief of winning glory for the country, headed towards Ironclad Canyon.

Ironclad Canyon.

Many streamers are already broadcasting live here, and the number of viewers in the live broadcast rooms with slightly better positions is no less than 100,000.

This shows how high the level of attention this battle of Ironclad Canyon is!

"Here they come, here they come."

Someone saw Captain Long and others coming from a distance, and immediately ignited the entire field.

Countless cameras converged, and the appearance of Captain Long and others appeared in major live broadcast rooms.

"Our Dragon Country experts are here."

"Dragon Country will win, Dragon Country is invincible, beat these Western barbarians into submission!!"

"I've seen that Falling Rain. Her damage is as high as if she's cheating, ridiculously high!"

.....

Falling Rain has a hundredfold blessing of spell power. Adding one hundred free attribute points increases her spell power by ten thousand.

And the free attribute points that Falling Rain has added are more than just one hundred. The free attribute points added to spell power alone have already exceeded two thousand.

Her current spell power value has exceeded 200,000!

Even if it's just a fireball with a 0.5 spell power bonus, the damage of one fireball is 100,000+.

If the skill level is higher and the spell power bonus is also higher, Falling Rain's damage can be said to be very terrifying.

"Dragon Country's little trash? Snow Dog is scared, so he pushed you rubbish out to die?"

Chapter 310 - Dragon Team VS Double Sword God!

A warrior wielding two blades stepped forward.

His eyes were full of mockery and disdain, as if he didn't take the special forces team seriously.

"Who is this guy? He's so arrogant. Does he have the right to be? I hope he doesn't get slaughtered in a moment."

"Before, the agreement was for Xue Di to fight all of us alone. Since he didn't come, then one of you can fight all of us."

As soon as these words came out,

The whole place was in an uproar.

"That's too shameless. So many people fighting one person, it's not honorable even if they win."

"Isn't this clearly bullying people?"

"It's meaningless. If we're going to fight, it must be fair. A one-on-one or a team battle, we have to choose one."

... ..

Seemingly anticipating this outcome, the Twin Blade War God raised his slender steel blade in his right hand and pointed it at Team Leader Long.

"But to deal with trash, I alone am enough. I am here, accepting the challenge from any of you."

As soon as the Twin Blade War God spoke, the Western players immediately became excited.

"That's how it should be! That's domineering enough! Let these little trash from Dragon Country see the power of our great Western powers!!"

"Hahaha, the Twin Blade War God is invincible. No one has been able to defeat the Twin Blade War God in a one-on-one duel."

"Dragon Country will ultimately be trampled under our feet."

... ..

Compared to the taunts of the Western players, the Eastern players were all full of fighting spirit.

"Go, pin this arrogant guy to the ground and grind him."

"Too arrogant, we must teach him a lesson."

... ..

Special Forces Team.

Xiao Nie was eager to try.

"Captain, let me go. This guy is too arrogant. I've seen his combat videos, and I still have a chance of winning."

Team Leader Long shook his head, "This first battle is very important. We must win."

With that,

Team Leader Long took a step forward and walked in front of the Twin Blade War God, "I'll fight you."

Team Leader Long, like Shadow Kill, also possessed a God-tier talent.

His God-tier talent was also permanently stacking attributes, stacking health and attack power.

Among God-tier talents, this could already be considered very strong.

In addition, Team Leader Long's own combat skills had reached an extremely terrifying level, so he still had some confidence in this battle.

"Just you?"

The Twin Blade War God was full of disdain, as if he didn't take Team Leader Long seriously.

"Dragon Country, Team Leader Long, please enlighten me."

"United States... As for the name, little trash is not qualified to know my name."

The Twin Blade War God smiled lightly at Team Leader Long, "Come on, my twin blades are already thirsty."

As soon as the words fell,

The Twin Blade War God took the lead.

He didn't charge, but directly released a Knock-Up skill.

The distance between him and Team Leader Long was at least ten meters, and for a normal Knock-Up to take effect, even with a spear, it needed to be within two meters.

But at this distance of ten meters, the Twin Blade War God used the Knock-Up.

Team Leader Long didn't think this Knock-Up was groundless. The spear in his hand sank, and at the same time, he moved sideways.

"Clang!"

A crisp sound, a blade aura appeared under Team Leader Long's feet. If Team Leader Long hadn't been prepared, he might have already been knocked up.

In a one-on-one fight with a warrior, once knocked up, it would be a series of skill combos.

Especially among high-level players, one knock-up could take away half a health bar, or even combo to death.

"A little reaction."

The Twin Blade War God's eyes narrowed slightly, and his body transformed into two clones, rushing towards Team Leader Long at extreme speed.

Team Leader Long pointed out with the spear in his hand, the spear leaving afterimages in the air, indiscriminately attacking the three clones.

"You've been tricked."

Behind the three clones, there was a fourth figure.

The fourth clone and the middle clone were almost overlapping, making it impossible to see the clues!

"Shadow Shift!"

The Twin Blade War God appeared behind Team Leader Long, slashing at Team Leader Long with a cross slash attack.

"Block!"

A very simple warrior skill, but Team Leader Long steadily blocked the Twin Blade War God's twin blade attack.

-10824.

-10811.

Two damage numbers appeared above Team Leader Long's head.

If the block was released accurately enough, it could greatly reduce damage.

As a result, the Twin Blade War God's damage was high, but it didn't explode.

"Sweeping Army!"

After blocking, Team Leader Long didn't use any big moves, but instead swung a Sweeping Army.

The Sweeping Army swept the Twin Blade War God back, and at the same time dealt nearly 16,000 damage.

"Soaring Dragon Pierce!"

Team Leader Long didn't stop. As the Twin Blade War God retreated, he transformed into an afterimage, with a dragon-shaped phantom aura surrounding the spear in his hand, and stabbed at the Twin Blades.

Another damage number appeared, this time taking away more than 40,000 of the Twin Blade War God's health.

The Twin Blade War God's eyes narrowed slightly, and a cold light flashed on the long blades in his hand, and his aura rose a few points.

"Blade Intent!!"

Team Leader Long's eyes narrowed slightly.

High attributes could be talent, hidden professions, or equipment.

But this true intent was different, it depended more on comprehension.

"True Intent of the Blade: Mad Blade Dance!"

The Twin Blade War God rushed forward in the blink of an eye. The spear in Team Leader Long's hand danced brilliantly, with strange movements, only the constant flashing of the spear shadow could be seen.

"Clang clang clang — —"

In the blink of an eye,

The two had already collided more than ten times, and the onlookers cheered.

"Is this the collision between experts in Twilight of the Gods? I feel like I'm not even playing the same game as them."

"This is too cool. It already feels like Simon Blow Snow fighting Ye Gucheng."

"Shouldn't it be Wu Tian fighting the Tathagata Buddha? Hahaha, this battle is a bit anxious, I just don't know who will win in the end."

... ..

Special Forces Team.

Shadow Kill tightened his grip on the dagger, "The captain did a hidden mission and got a special skill that can temporarily increase his combat power in high-intensity combat."

Xiao Nie's eyes lit up, "So we're going to win this time?"

During the battle.

It seemed that it was just as Shadow Kill had said.

Team Leader Long seemed to be getting stronger as he fought. At the beginning, the two were still evenly matched, with their health bars dropping by about 50% each.

But then Team Leader Long's attacks became more sharp, his attack speed and movement speed were faster.

The damage dealt each time was also higher.
