Chapter 361 - The Moon Wheel Demon Palace went back on its word!

Lin Tianhao decided to proceed straight ahead according to his own needs, and at the same time asked:

"You said, are you considered to be by my side in the Fengshen Bang? In other words, am I violating the rules?"

The Sea God Poseidon was silent, and after a while, he said: "It shouldn't be. We are gods after all. It's unreasonable to include us in the rules."

"Poseidon is right."

The Silver-Eyed Octopus gave a definite answer, "The rules of the gods generally only affect beings below the gods, and have little restraint on the gods."

"Unless a god in peak condition fully operates the rules, that might have an impact on us, but that is obviously impossible."

Lin Tianhao nodded, he knew the special nature of the Cthulhu system gods.

If the existence of the Sea God Poseidon and the others prevented him from finding the exit, it would be a headache.

Lin Tianhao went all the way forward and walked for almost half an hour without any gain.

It was still a boundless dead forest.

"Since walking can't find clues, then try destruction."

Lin Tianhao sacrificed the Nether Longbow.

He maxed out his attack speed and began to attack frantically.

The arrows fell on the dead wood, and the dead wood exploded.

One, two, three...

Wherever Lin Tianhao went, the dead wood was constantly being destroyed.

However, it didn't seem to work, because the dead wood he destroyed would be repaired after a certain period of time.

Lin Tianhao's arrows flew towards the ground, but they were also useless, unable to cause any substantial damage to the ground.

"Master, your current strength is still very difficult to break the rules,"

Lin Tianhao frowned, "Since it is a rule, then there must be loopholes."

"The first rule is to let us look for the exit separately, and the design here is not like a maze."

Lin Tianhao once again activated his Fiery Eyes, but still failed to see through here.

The downsized version of the Fiery Eyes was still a bit difficult to see through the God's copy.

Just as Lin Tianhao was wondering how he should find the exit, blood words appeared on the ground:

"Is this the start of frustrated destruction?"

"Then the new clues will be postponed for two hours."

Lin Tianhao clenched his fists, this was a bit of mockery.

"Don't let me find you!"

Lin Tianhao thought secretly, mocking him would have a price.

... ..

Outside Nether Island, on a lone boat.

A man and a woman stood on the lone boat.

The man behind the woman looked sickly and extremely weak, as if he would fall down with a gust of wind.

If Lin Tianhao were present, he would definitely be able to recognize that the other party was the sickly youth who was possessed by the Dark Night Spirit God.

"My lord, they have entered the forest,"

"This time they should be quiet for a while,"

Hearing this.

The woman shook her head, "Quiet? You're thinking too much."

"Queen Fio Dingyu sent a message before, that kid cleared the Snow Corpse's Footprints, and is suspected of killing the God of the Undead."

Speaking of this.

The woman was a little helpless.

"It's a pity to leave the place I've been running for so long... ..."

The sickly youth quickly said respectfully: "My lord, don't worry, you will definitely make a comeback when you arrive at the Moon Wheel Empire."

As his voice fell.

Another lone boat sailed towards this side.

Standing on the lone boat was a mysterious person hidden in a black robe.

Seeing the visitor, the woman said: "We have completed the agreement, the Snow Emperor has entered that forest,"

A somewhat childish voice came from the black-robed mysterious man.

"The agreement was before, now the agreement is void!"

The woman's expression changed, and she scolded: "On what basis? In order to lure the Snow Emperor over, more than 200,000 of our people died."

"Hmph, you still have the nerve to say that we also lost five cities and ten towns because of this!!"

The black-robed mysterious man snorted coldly.

The woman also got some news, she gritted her teeth and said: "What does it have to do with us that you didn't use great power to defend yourselves!"

The black-robed mysterious man's mouth couldn't help twitching twice.

Defend?

Their Holy Land had a god sitting in it, and the palace had a god sitting in it, what were they going to defend against.

"Alright, I'm not here to discuss with you, just to tell you the result,"

"You represent the Holy Land, is the dignified Moon Wheel Demon Palace such a person who goes back on their word?"

"We agreed at the beginning that we would send troops to lure the Snow Emperor to Nether Island, and you would let us enter the Moon Wheel Empire. Now that more than 200,000 of our people have died, you come and say it's not okay!!"

The woman's emotions were a little agitated, the feeling of being played made her want to swallow the person in front of her alive.

The mysterious black-robed man's attitude was still indifferent: "That's all I have to say, I'm leaving!"

"Stop! !"

The woman's voice carried a chill, "Do you really think that my Nether Sea is a place where you can come and go as you please?"

As her voice fell.

The sea water in the Nether Sea rolled, and the sea waves swept up, forming a huge wave wall more than twenty meters high, blocking the black-robed mysterious man's path.

"Yadiluth, don't misunderstand yourself."

The black-robed mysterious man did not speak, but his body exuded an aura that made Yadiluth feel very dangerous.

"Staying here is also death, it's better to drag you down with me!"

Yadiluth did not give in, she had already prepared for a desperate fight.

More than 200,000 people died and they still couldn't enter the Moon Wheel Empire. If they continued to stay in the Nether Sea, when the Snow Emperor came out, they would all be dead.

"Presumptuous!"

The black mist around the black-robed mysterious man rolled, forming a circle of dark ripples that spread out.

When the wave wall came into contact with the dark ripples, it collapsed.

"This time, our Moon Wheel Empire has also suffered great losses. If we accept you, that madman, the Snow Emperor, might do something else."

"But I can give you a reminder, the Vast Continent is not a place for you to stay, other places may not be."

"Also, don't try to be an enemy of the Snow Emperor anymore."

Yadiluth gradually calmed down, she gritted her teeth and said: "Can you tell me what the Snow Emperor did? To actually make you hand over five cities and ten towns?"

The black-robed mysterious man was silent for a while, and finally shook his head.

"The matter is too important, I can't tell you."

"Is the old hall master of the Fan Hall coming back?"

As the ruler of the Nether Land, Yadiluth still knew some secrets.

The old hall master of the Fan Hall did not die, but left.

With the strength of the old hall master of the Fan Hall, if he were to return, it would be understandable for the Moon Wheel Demon Palace to compromise.

Chapter 362 - Dirty stuff!

"Stop guessing. I've said what I needed to say, and that's all."

The black-robed mysterious figure waved his hand and turned to leave.

The sickly youth looked at Yadilus and softly said, "My lord, what do we do now?"

Yadilus gazed deeply in the direction of Youming Island.

"Wait. Since the Moon Wheel Empire has played us, we only have one path to take."

"Leave the Youming Sea? Go beyond the vast continent?" the sickly youth asked.

Yadilus coldly snorted, "The vast continent doesn't even have a place for us. Do you think other places will accept us?"

"Then what do we do?"

"Call Xue Di's bluff. Prepare the pre-quest scroll for the Blessing of the Gods in your hand. Adding it to the one I have, two is greater than one. That's our only opportunity."

The sickly youth was stunned. "Compromise? Xue Di, after all, represents the East..."

"The East? The entire vast continent originally belonged to the Shanhai Empire. Moreover, the so-called East-West conflict is just something certain beings deliberately stirred up."

"From a civilization perspective, we all originated from the East. But the ancient East was too powerful, and some beings couldn't stand it, so they stirred up the so-called East-West conflict."

The sickly youth's face was filled with disbelief. "This... how is this possible?"

"I only learned about these secrets by chance. You should be smarter. How long has the West had a historical foundation? Even the ancient Greek gods are only equivalent to the Warring States period in the East."

"Originally, there was no East or West. It was just two directions under one civilization. Do we in the Youming Sea still have East and West?"

"It's certain beings who control some influential figures and stirred up this so-called East-West conflict."

The sickly youth's face was filled with disbelief. Yadilus's words completely overturned his understanding.

“Didn’t the ancient Eastern kingdom fall into slumber because of the Western gods?” the sickly youth asked.

Yadilus shook her head. “Don’t believe everything you hear. Western gods? Even if Zeus himself came, he would be rubbed on the ground by the Eastern gods. What qualifications do they have to make the ancient Eastern kingdom fall into slumber?”

“Then why did the ancient Eastern kingdom fall into slumber?”

Yadilus shook her head. “I don’t know. I’ve only learned a little bit of information. Most of this is what I’ve deduced myself.”

“Mudings, remember this. Some things you see may not be the truth. Perhaps it’s what certain beings want you to see, so you see it.”

Mudings gasped. He was one of the rulers of Youming Land, and he himself had used this method to fool the people.

But when he looked back, what difference was there between him and the people under his control under this general trend?

“I understand. But can Xue Di accept us?” Mudings asked.

In the withered forest.

Lin Tianhao sat cross-legged and began to comprehend the true meaning of space.

After he killed the silver-eyed octopus, the spatial affinity he obtained increased by a thousand times, greatly increasing his speed of enlightenment.

In two hours, Lin Tianhao’s true meaning of space had already reached the entry level.

At this time.

Bloody words appeared again in front of him.

“Night is coming, dirty things are about to appear, and the darkness in your heart will also be ignited. Please remember the first rule.”

The surroundings were darkening at a speed visible to the naked eye.

Lin Tianhao couldn't help but clench his fists. Fierceness, anger, madness, all kinds of emotions surged in Lin Tianhao's heart.

“Kill, kill, kill...”

Lin Tianhao let out a low roar. He felt enemies coming to kill him from all around.

“I was the one who hit your sister. Do you know how excited I was when I saw her lying in a pool of blood?”

A ghostly voice rang out behind Lin Tianhao.

Lin Tianhao suddenly turned around. There was a blurry figure in the darkness.

He was laughing, laughing madly.

“If no one had come, I really wanted to repeatedly run over her tender face with the wheels.”

“I specifically went to the hospital to see. Her surgery should have been successful, but I asked the doctor to deliberately make her surgery fail.”

The voice was strange, mad, and filled with extreme evil in its words.

“Are you angry?”

“It’s useless to be angry. You’ll never know who I am.”

“I will chop off your sister’s hands and feet, chop her flesh into minced meat, make barbecued pork buns, and serve them on your table, hahaha...”

“咻——”

Lin Tianhao finally couldn’t bear it anymore, and the feather arrow in his hand was released.

But when the feather arrow arrived, the person in the darkness had already disappeared.

Immediately afterwards.

He appeared from another direction.

“Are you ashamed and angry? Hahaha, but you can never kill me, because you are already... dead!!”

“Hahaha!!”

The mad laughter came from the black shadow’s mouth, making Lin Tianhao, who was already filled with fierceness, anger, bloodlust, and other emotions, even more crazy.

Bloodshot eyes penetrated his eyes, and his whole person was gradually becoming crazy.

“You’re talking nonsense!!”

The black shadow still had that playful laughter like he was mocking all living beings.

“Nonsense? How could there be Taoists in the hospital? Can you, an ordinary person, really have such a high talent? What revival of the ancient Eastern kingdom, what blessing of the gods, these are just dreams I weaved for you.”

“In fact, your sister was already dead in the hospital. You saw the doctor kill your sister and acted out of shame and anger. It’s a pity, you were too weak and had your throat cut by a scalpel.”

“I thought it was too simple for you to die like that, so I extracted and tampered with your memory?”

Every word of the black shadow seemed to be stuck in Lin Tianhao’s heart.

Pain, heart-wrenching pain!

“Your sister is dead!”

“And you are also dead!!”

“Hahaha!!”

“Shut up!!”

Lin Tianhao roared hoarsely, his emotions becoming more and more crazy, and the bloodshot in his eyes becoming more and more.

“You are the thing hidden in the darkness...”

“No, I am you, Xue Di.”

“Aren’t these what you are thinking in your heart?”

The black shadow slowly walked out, revealing a face exactly like Lin Tianhao’s.

“Your sister is really dead, it’s just that you have been unwilling to believe it, imagining some Taoist priest, some Twilight of the Gods game to deceive yourself. You are just a piece of trash at the bottom of society, trash!!”

“Take a good look for yourself, where are you?”

The black shadow pointed.

A door appeared in front, with the words [Anjiang Mental Hospital] on the door.

Lin Tianhao’s fingers trembled slightly, and his eyes closed.

“One sheep, two sheep, three sheep...”

“Xue Di, what are you doing? Open your eyes and look at me, are you still unwilling to face reality?!”

Lin Tianhao remained unmoved. He clenched his fists and continued to count silently.

“Seventy-six sheep, seventy-seven sheep...”

The fierce, angry, bloodthirsty, and mad emotions gradually subsided, and the black shadow’s voice became smaller and smaller, until it disappeared.

Lin Tianhao opened his eyes, it was not dark, he was still in the withered forest...

Chapter 363 - Olufolland!

Lin Tianhao breathed a slight sigh of relief.

The illusion just now was too terrifying.

No, it might not have been an illusion at all, but rather a [filthy thing] that the rules here derived from the information they captured.

It could influence his emotions, and then use words to make him completely lose his mind.

"Aren't you going to keep counting?"

Just when Lin Tianhao thought it was over, that teasing voice suddenly sounded.

Lin Tianhao turned his head sharply.

He saw the black shadow again, or rather, the [Snow Emperor] who looked exactly like him!

"Would you rather count sheep than believe your sister is dead?"

Lin Tianhao's fingertips trembled slightly, indicating that his heart was not at peace at this moment.

"Capturing the fragile side of my mind, and then constantly bewitching me to make me lose my mind, it's a pity, you think too simply of me."

Lin Tianhao's expression gradually stabilized, and his eyes became very calm when he looked at the [Snow Emperor] in front of him.

It seemed that no matter what the [Snow Emperor] in front of him said, he would not be affected.

"You are my inner demon, and I will not allow you to continue to exist."

The [Snow Emperor] raised the Netherworld Longbow.

"Swish!"

With an arrow, Lin Tianhao was hit.

A huge damage number popped up above his head, a damage number exceeding six million.

Lin Tianhao had previously obtained a set of platinum-grade equipment in the Ancient Dynasty Secret Realm, and he now wore everything he could.

It has a certain improvement to all attributes, which makes Lin Tianhao's current damage become extremely terrifying.

"Can it even simulate my damage?"

Lin Tianhao looked at the other party with interest.

"It seems that my guess is correct."

He used the Fiery Eyes of Truth from the beginning, but his Fiery Eyes of Truth could not see through the things here.

That shows.

This guy is a copy!

Using the darkness brought by the rules here to play tricks!

"You can use the rules of the gods to simulate me, but I think there are many things you can't simulate."

Lin Tianhao had a lot of god-given equipment on his body, even a god replica could not simulate so many things of his.

Therefore, the damage was real, but the equipment on the other party's body was definitely not real.

However, this was already irrelevant to Lin Tianhao.

"Swish, swish, swish!!"

Lin Tianhao raised his hand and poured out feathered arrows.

Simulating a [him], and then using the simulated [him] to bewitch him.

Moreover.

Lin Tianhao also discovered that this simulation seemed to be able to obtain some of his memories.

This was too terrifying!

Lin Tianhao was not sure whether the other party had obtained the memory of his rebirth.

Judging from the conversation just now, it didn't seem like it.

But that was not safe.

The safest way was to kill the god corresponding to this god replica behind him.

Lin Tianhao was also attacking frantically.

The two people's feathered arrows were colliding with each other.

"Five arrows in a row."

Lin Tianhao increased the output of his strength, and he discovered the problem.

The other party didn't even seem to have his attack speed.

It only relied on the replica to simulate the same damage.

But the [Snow Emperor] that the other party simulated only had an attack speed of about eighty.

That was a bit unworthy.

"What kind of monster are you?!"

Finally.

The [Snow Emperor] couldn't withstand Lin Tianhao's feathered arrow attacks and began to lose blood continuously.

After Lin Tianhao's feathered arrow hit the other party, it was really losing blood, and Lin Tianhao's super-god-level talent was indeed stacking health points.

In other words.

The [Snow Emperor] in front of him was indeed a living being.

"Simulation? No, it's disguise, you are the god's own deity or clone of this replica, right?"

Although his Fiery Eyes of Truth was a reduced-dimensional version, there were still many things he could see through.

Since he couldn't see through the other party, it meant that the other party was a god, or at least a god's clone.

"Originally, I did want to simulate you, but you are too special, even with this clone of mine, I can only simulate some of your abilities."

"Especially many of the things on your body seem to be given by the gods, exceeding the limit I can simulate."

Lin Tianhao grinned, "I am a kind person, so the gods are willing to give me something when they meet me."

"But I don't like you."

Lin Tianhao said: "Actually, I don't like you simulating my appearance either?"

"How about this?"

The figure of the [Snow Emperor] in front of him changed, and in the blink of an eye, he changed into Lin Qingqing's appearance.

"Your sister is also very special, my clone can't completely simulate her either, to be precise, all four of you have places that my clone can't completely simulate."

"Oh?"

Lin Tianhao was a little surprised.

He could understand the monkey.

The monkey's current attack speed and movement speed are faster than some gods.

It's not that the gods don't have the ability to increase attack speed and movement speed, but it's more cost-effective to increase other abilities.

But the fatty is different.

The fatty's characteristics are high health points and double resistance, and the god's clone shouldn't be unable to simulate it.

Because this god's clone can even simulate his damage, and simple numerical simulation is not difficult for him.

"Don't you have a main body? What are you doing simulating my sister?" Lin Tianhao said.

"I want to."

The Lin Qingqing that the other party simulated had a hint of playfulness in her arrogance when she spoke, which made Lin Tianhao couldn't help but support his forehead.

"What's your name?"

"Orufderland, you can also call me the great Fderland God."

Lin Tianhao nodded, "This is the replica you left behind, you are not my opponent, can you open the exit now?"

"Yes, although you didn't kill me, I can feel that I am not your opponent, at least, within the rules, I can only simulate you, and the you that I simulate cannot defeat you."

Lin Tianhao waved his hand, "Orufderland, right, I passed the replica, shouldn't there be some rewards?"

"Rewards?"

"No, you think too much, this is not the replica you know, this is just a line of defense, a line of defense to protect Netherworld Island."

"Breaking through here, you only get the qualification to enter Netherworld Island."

Lin Tianhao frowned slightly, "I hope what you said is true, and not that you embezzled my rewards."

With that said.

Lin Tianhao's expression became serious.

"I hate people embezzling my rewards the most, not even gods!"

[Lin Qingqing] showed a row of white teeth and smiled: "I have my principles, let's go, the exit is open."

In the withered forest.

A water gate slowly unfolded.

Lin Tianhao passed through the water gate and saw the world behind the water gate.

Here, is a huge city.

Outside the city gate, he could see the name of this city.

"Fderland City!"

Lin Tianhao didn't rush into the city, but went offline to contact Fatty and Monkey.

They didn't reply to Lin Tianhao immediately.

Lin Tianhao knew.

They were probably still being influenced by that guy at this time.

Withered forest, blood words, darkness, these were all for the final bewilderment.

Even if the bewilderment failed, they could still simulate themselves.

At that time, it would be themselves fighting themselves, and it would be hard to say who would win or lose.

Chapter 364 - Strange city of Fordland!

After all, when it comes to combat experience and awareness, few can compare to gods.

Lin Tianhao entered Fordland City.

This place was different from all the cities Lin Tianhao had entered before. Here, the architecture was modern.

It had a style reminiscent of the United States in the 1970s and 80s.

It seemed somewhat out of place compared to the other buildings in Twilight of the Gods.

The people walking on the streets were also dressed in the style of that era.

For a moment, Lin Tianhao even wondered if he was being deceived again.

If he hadn't seen it with his own eyes, Lin Tianhao would have thought it was an illusion.

He could click on the detailed information to view the name and some basic background information.

This was indeed an NPC.

Fordland City.

A seemingly interesting city.

Especially with this kind of architectural style, which he had never encountered before.

In his previous life, due to the continuous health loss in the Netherworld, there were not many players who came to the Netherworld.

The health loss in the Nether Sea was even greater, so even fewer people would come.

And those who would climb Nether Island probably didn't exist at all, or maybe they did, but were killed by the Nether Arrow Tree.

Especially since the Netherworld was relatively xenophobic at the time, it was possible that no one had ever been to the Nether Sea.

No matter what.

No one had developed this place in his previous life.

A place that hasn't been developed represents the unknown, and also represents the possibility of some special rewards.

Especially since there was a god in this place.

Lin Tianhao continued forward along the street, and he saw many NPCs. He discovered a pattern.

The lower-level workers here were common NPCs, the small managers were elite-level, and the big managers or small bosses were basically Black Iron level.

As for Bronze level, or even higher existences.

Lin Tianhao hadn't seen them yet.

However, as Lin Tianhao walked around, he found that this city was unbelievably large.

Lin Tianhao found a supermarket and walked in.

"Hello, do you have a city map?"

"Yes, three silver coins."

The clerk was very polite to Lin Tianhao, showing a professional smile.

Lin Tianhao took out three silver coins and placed them on the table, casually asking: "It seems that you don't have any connection with the outside world here. Do you usually rely on self-sufficiency?"

The clerk looked at Lin Tianhao in astonishment, "Are you from outside Fordland City?"

After being stunned, the clerk took a step back in horror, pointing at Lin Tianhao and scolding: "You... you are a Bloodthirsty Demon!"

"A Bloodthirsty Demon has broken in, someone come quickly!"

The clerk screamed, immediately attracting the attention of many people.

The supermarket owner was a bald, fat old man. He pulled out a pistol from the drawer and aimed it at Lin Tianhao.

Supermarket Owner (Black Iron): Level 178.

Health Points: 1120073 / 1120073.

Attack: 1973.

Skills: Precise Shooting, Consecutive Punches.

Lin Tianhao frowned.

This supermarket owner was very weak, so weak that he found it a bit unbelievable.

The attack power and health points were far lower than a normal Black Iron level boss of this level.

It wasn't impossible to explain, because some extreme existences would also have relatively extreme attributes.

Just like glass cannon classes and tank classes, at the same level, with the same tier of talents, and the same grade and level of equipment, the health points could differ by five times, or even ten times.

But.

The supermarket owner's skills were too outrageous. He was still a level 178 Black Iron boss, but he didn't even have the signature skills of Berserk and Super Armor.

The only two skills seemed so insignificant.

Many people around looked at Lin Tianhao with fear, curiosity, but more with nervousness.

Nervousness towards this [Bloodthirsty Demon], Lin Tianhao.

Before long.

Enforcement vehicles stopped at the entrance of the supermarket, and heavily armed enforcers got out of the vehicles one by one.

Lin Tianhao looked over.

Enforcer (Elite): Level 200.

Health Points: 125100 / 125100.

Attack: 2980.

Skills: Precise Shooting, Military Boxing, Close-Range Knife Technique, Burst Sword Technique.

Lin Tianhao: ???

His first feeling was, could this be considered an elite-level NPC?

A level 200 elite-level NPC with this health point was still acceptable.

But the attack power and skills seemed a bit unconventional no matter how you looked at it.

Weak, too weak.

Why would the NPCs in a city with a god operating behind the scenes be so weak?

"Hands up, head in your hands, squat down, don't move, or I'll shoot."

The enforcer's gun was aimed at Lin Tianhao, and his whole body was trembling slightly from the tension of holding the gun.

The other enforcers were the same, hiding their bodies, only revealing half of their bodies, embodying caution to the fullest.

Lin Tianhao moved, turning into an afterimage and arriving in front of the enforcer, raising his hand and snatching the gun from his hand.

"As expected, it's a non-binding weapon."

Generally, the weapons worn by professionals have a certain binding property.

It's unrealistic to want to completely snatch the weapon from the enforcer's hand with bare hands, as in reality.

Because weapons and equipment have a certain binding property after being worn, they can only be dropped after being killed.

Of course.

Thieves can also steal equipment, but they basically steal the equipment in the backpack, and it is almost impossible to steal the worn equipment.

But it's not absolute.

Some special theft skills, or even some talents that are theft-related, still have a certain probability of stealing worn equipment.

But no matter what.

In this game state, Lin Tianhao was able to snatch the opponent's pistol with his bare hands, indicating that this pistol was not a bound equipment.

It's similar to a player picking up a stone on the side of the road, which has a certain damage ability when thrown, but can be snatched with bare hands.

"How... how could it be so fast?"

This enforcer was frightened silly.

He only saw a figure flicker.

The next moment.

His pistol was snatched away.

"Stop, don't move!"

The other enforcers unhesitatingly fired at Lin Tianhao.

"Bang bang bang--"

The bullets arrived in front of Lin Tianhao in the blink of an eye.

The bullet speed was very fast, so fast that Lin Tianhao couldn't dodge.

Lin Tianhao also didn't bother to use skills to dodge, because non-binding weapons mostly only have the damage of the weapon itself, and will not have the damage of their own attribute bonus.

.....

The bullets hit Lin Tianhao's head, and damage numbers popped up one by one.

Lin Tianhao obtained that platinum-grade equipment in the Ancient Dynasty Secret Realm, and after wearing it, his armor had already broken through sixteen thousand.

This value of armor cannot be damaged by these small pistols.

"How could this be? Quickly... quickly notify the Enforcement Bureau and mobilize the Holy See's experts to come and support us."

Chapter 365 - Lizardman!

The alarm resounded throughout the city of Fodland.

Lin Tianhao was not in a hurry.

Being able to attract the attention of the higher-ups so quickly wasn't necessarily a bad thing.

Especially since he also wanted to see what was going on here, and why the NPCs here were so weak.

Soon.

More and more law enforcers appeared, surrounding Lin Tianhao from a distance, not daring to approach.

Just then.

A burly middle-aged man with a resolute face strode over.

His eye sockets were slightly sunken, his facial features were sharp, and he had dark golden curly hair, exuding an air of dominance.

Mokha, Deputy Captain (Gold): Level 500.

Health Points: ???

Attack: ???

Skills: ???

Lin Tianhao narrowed his eyes slightly.

Finally, someone a little powerful had arrived.

Everything was a question mark; he had seen such guys many times.

Even with the Fiery Eyes of Truth, he could only see the name and disguise; under the absolute suppression of level and rank, it was still difficult to see other effective attributes.

“Bloodthirsty Demon, what is your purpose in coming to Flander City?”

Lin Tianhao spread out his hands. “I’m sorry, I’m not the Bloodthirsty Demon you’re talking about.”

“I’m just an adventurer from another world.”

“Another world? Adventurer? Then you’re still saying you’re not a Bloodthirsty Demon!!”

Deputy Captain Mokha rebuked Lin Tianhao angrily.

Lin Tianhao threw the pistol he had just taken back.

“What is your basis for calling me a Bloodthirsty Demon, just because I come from another place?”

Deputy Captain Mokha said angrily: “You can understand it that way, because people from outside never take human lives seriously. In their eyes, killing us is like killing an ant.”

Lin Tianhao opened his mouth, finding himself somewhat unable to refute.

Because the truth was indeed like this.

As players, they had almost no emotional connection to monsters and NPCs. Sometimes, to obtain rewards, they would slaughter a city, or even ten cities.

Of course.

This wasn't just about Lin Tianhao; in his previous life, other players had done the same.

"But at least I haven't killed anyone yet," Lin Tianhao said.

"You should be glad you haven't killed anyone yet, otherwise you will be greeted by the siege of countless experts."

Deputy Captain Mokha's words were sharp, and there was still anger boiling in his eyes.

"Alright, I don't want to waste time talking to you. If you insist on this, then we can only clash."

Deputy Captain Mokha summoned a dark golden long saber.

"My Golden Moon hasn't tasted blood in a long time. If you make a move, only one of us will survive."

Lin Tianhao summoned the God-Slaying Whip. "Then, let's try it."

He had原地复活 (instant resurrection), who was he afraid of?

Even if a deity stood before him, he would still have the courage to draw his sword.

“Stop!”

A low shout came.

As the voice fell, a tall woman strode over.

She was wearing a tight-fitting uniform, which made her extraordinary curves look somewhat strange.

However.

She had only just appeared.

The voice of Poseidon, the God of the Sea, rang in Lin Tianhao’s mind.

“She’s not human.”

Lin Tianhao narrowed his eyes slightly, activating the Fiery Eyes of Truth.

The original uniformed woman, under Lin Tianhao’s Fiery Eyes of Truth, turned into a large, ink-black lizard.

This lizard stood upright in human form, its lizard head like a thickened washboard.

The key was that this lizard person was really wearing a uniform; it looked like a lizard wearing a uniform, strange and comical.

“Deputy Captain Mokha, if the other party hasn’t harmed anyone, we can’t generalize. Even among the Bloodthirsty Demons, I believe there are good and bad.”

The lizard person said seriously, her bloody mouth opening and closing, looking terrifying, but inexplicably funny.

After the lizard person finished speaking to Deputy Captain Mokha, she turned to Lin Tianhao and said:

“Adventurer, I wonder if you would like to have a cup of tea with us; we need to understand your basic situation.”

Lin Tianhao nodded. “There’s a coffee shop next door; let’s go there.”

This was, after all, a city belonging to a god; basic vigilance was still necessary.

Therefore, Lin Tianhao chose to pick the location himself.

“Alright.”

The lizard person didn’t refuse but signaled her subordinates to wait outside; she entered the coffee shop with Lin Tianhao alone.

Deputy Captain Mokha raised his hand, wanting to stop her. “Captain, Bloodthirsty Demons are extremely dangerous...”

“Shut up!”

The lizard person interrupted Deputy Captain Mokha’s words and said to Lin Tianhao:

“I’m sorry, the shadow that Bloodthirsty Demons have brought us is too great, so it’s like this.”

Lin Tianhao smiled and didn't mind. He entered the coffee shop with the lizard person and sat down in a private room.

"What do you want to talk about?" Lin Tianhao asked.

The lizard person tapped the table with her fingertip. "We haven't had outsiders here for a long time."

"Outsiders? Not Bloodthirsty Demons anymore?" Lin Tianhao asked.

The lizard person raised her eyes slightly. "It's not important; what's important is that I need your purpose for coming here."

"If I have to say a purpose, it's exploration, and also wanting to find someone."

"Find who?"

"The remnants of the Underworld," Lin Tianhao said straightforwardly.

The lizard person shook her head. "They are not here."

"Then where should they be?" Lin Tianhao asked.

"With the revival of the Underworld, they are scattered on the forty-eight islands of the Underworld Sea."

Lin Tianhao frowned slightly. They were too scattered; it would be troublesome for him to kill them all.

"Then do you know that your Underworld Island has been emitting Underworld Qi?" Lin Tianhao asked.

“This isn’t a good thing.”

The lizard person nodded. “Naturally, we know. Underworld Island itself is a huge sealing array, sealing a being from outer space.”

“And the Underworld Qi is what he is constantly releasing while impacting the seal.”

Lin Tianhao narrowed his eyes slightly. If he hadn’t come into contact with the god of Underworld Island, he might have really believed it.

The god of Underworld Island had nothing to do with Underworld Qi; his power system was more of a mysterious rule force.

Therefore.

The source of Underworld Qi must be something else.

According to Lin Tianhao’s understanding.

There are generally four ways Underworld Qi is produced.

The first is what the lizard person just said, that a certain power is released by the existence itself that is Underworld Qi.

The second is 道具 (items) or 装备 (equipment) filled with Underworld Qi, similar to the first, but the first is a person.

The third is that a crack appeared in the area, connecting to a place like the Underworld that is inherently filled with Underworld Qi.

The above three are the reasons why Underworld Qi appears most of the time.

As for the fourth, it's too cruel.

Infanticide!

Killing newly formed infants, also known as infants about three months into pregnancy, can obtain pure Underworld Qi.

Chapter 366 - Meet Artie Ruth!

In his previous life, after the fusion of the game and reality, a lord in a small territory had done such a thing.

He frantically recruited women, with a hint of 'becoming stronger by marrying a wife'.

The more women he had around him, the faster his strength increased.

But it was only later that people found out.

He didn't become stronger by marrying a wife, but obtained a secret technique that allowed him to cultivate and become stronger using the aura of the netherworld.

Normally, places where the aura of the netherworld dissipated were too dangerous, and the aura in those places was mostly not pure enough, resulting in lower absorption efficiency.

In order to survive and slowly become stronger, that person frantically had relationships with women and made them pregnant.

Then, after the fetus was formed, he would have the women abort the children!!

Every time he became stronger, it meant that a child died before seeing the light of day.

This kind of practice.

Was too cruel and too terrifying.

Later, it was discovered and exposed, leading to a collective attack against him.

Of course.

The situation here couldn't be the fourth type, because the aura of the netherworld produced by the fourth type wasn't much.

At least compared to the massive aura of the netherworld in the Netherworld Sea, it was insignificant.

Most likely it was still the third type, a spatial rift appeared near Netherworld Island, and the other end of the spatial rift was constantly dissipating the aura of the netherworld.

"Adventurer, we don't have what you want here, leave."

The lizardman spoke again when he saw that Lin Tianhao didn't say anything.

Hearing this.

"A pre-quest scroll for the Gods' Blessing." Lin Tianhao said straightforwardly.

"We don't have it."

The lizardman replied directly, "I can give you a Flower of Talent Evolution."

“This thing should be the most important thing for you adventurers.”

Lin Tianhao pondered for a while, then nodded and said: “Okay.”

He considered it himself, this is a new map, there must be good things, but the most urgent thing is to change to a super-god level hidden class.

He has already been here, and can always use the Kunlun Mirror to come back in the future.

The lizardman was stunned for a moment, because Lin Tianhao agreed too easily.

As for Lin Tianhao bringing more people over, she didn't really believe it.

Because not everyone can pass through the withered forest outside.

“Ding, the lizardman captain has issued you a mission.”

“Mission Requirements: Leave Fortland City and do not return within a month.”

“Mission Penalty: Unknown.”

“Mission Reward: Flower of Talent Evolution.”

“Ding, do you accept?”

“Accept.”

After Lin Tianhao accepted the mission, he successfully obtained the Flower of Talent Evolution.

“I’m leaving.”

Lin Tianhao waved his hand, took a step, passed through the Kunlun Mirror, and disappeared.

The lizardman looked at the place where Lin Tianhao disappeared, somewhat dazed.

“Teleport away...”

“But it doesn’t matter, after a month, when the power of our god is resurrected even more, it won’t be so easy for you to enter again.” The lizardman murmured.

Netherworld Island.

Lin Tianhao returned to the beach where he had previously killed the Nether Arrow Tree.

There must be something wrong with Fortland City, the lizardman disguised as a human is obviously abnormal.

But for now, these are not important to Lin Tianhao.

He should first deal with the remnants of the Netherworld, and then return to the Ancient Dynasty Secret Realm to change to the super-god level hidden class.

Lin Tianhao still knows the priorities.

And given the situation here, no one should be entering Fortland City in a short time.

Even if there are, it's likely to be Lin Qingqing and the others, it doesn't matter if the benefits don't go to outsiders.

Wait until he changes to the super-god level hidden class before coming to conquer this Fortland City.

Especially the god behind it, Orufordland, Lin Tianhao is determined to kill.

Just as Lin Tianhao was preparing to clear out the remnants of the Netherworld, a lone boat sailed towards him.

Standing on the lone boat were a man and a woman.

Lin Tianhao had seen the sickly youth behind the woman, it was the person who was possessed by the Dark Night Spirit God back then.

“Snow Empress.”

The lone boat stopped on the coastline in front of Lin Tianhao.

Yadilus stepped forward, and bowed to Lin Tianhao.

“Let me introduce myself, I am the manager of the Netherworld, Yadilus.”

“You must have seen this one, he is my subordinate, Muding.”

Lin Tianhao looked at Yadilus with interest.

Light golden long hair draped over her shoulders, fair and tender skin, the temperament of a superior combined with this somewhat pure and beautiful appearance, giving the feeling of a young queen who is not stained by the world.

“You should know the purpose of my trip.” Lin Tianhao said.

Yadilus nodded, "I know, but no one wants to be destroyed, so I came, to talk to you."

"To talk for the millions of living beings who are still alive in our Netherworld."

"Oh."

Lin Tianhao was noncommittal.

"What? Do you want to dedicate yourself in order to ask me to spare the others?"

Yadilus took a step forward, her shawl slipped off, making her fair and tender skin even more eye-catching.

"If you are willing, I will not refuse."

Lin Tianhao coughed lightly, "I will refuse."

Yadilus was somewhat disappointed, yet seemed to have expected it.

"A person like you, if you were willing, naturally many women would offer themselves willingly."

"Especially since the three princesses of the Star Kingdom failed to survive."

Lin Tianhao smiled and said: "Since you know this, then why do you think you can survive in my hands?"

Yadilus sighed, "Relying on my body, naturally there is no chance to survive."

"But what if it's this?"

Yadilus took out a scroll.

Lin Tianhao recognized it at a glance, it was the pre-quest scroll for the Gods' Blessing.

"The thing is good, but you should know that if I destroy you, I will directly complete a mission."

Hearing this.

Yadilus nodded, "That's right, if you are determined to attack, we have no chance."

"Where is your Dark Night Spirit God?" Lin Tianhao asked.

Muding smiled bitterly and said: "After being struck by lightning last time, her power can no longer be separated from the place of seal."

Lin Tianhao nodded, this was also within his expectations.

"Okay."

"Let me be clear, a single pre-quest scroll for the Gods' Blessing will not make me spare you."

"After all, you mobilized an army of more than 200,000 to attack Youyan Town not long ago."

Hearing this.

Muding was a little angry.

"We were tricked by the people of the Moon Wheel Empire."

“They asked us to attack Youyan Town, and they promised us that, regardless of success or failure, they would accept our millions of people into the Moon Wheel Empire and protect us.”

“But they deceived us!!”

Chapter 367 - Three Gods System, Same Origin?

“We lost 250,000 troops, but they went back on their word and refused to accept us. We have no choice but to find another way.”

With that, Mudins also took out a Scroll of Divine Blessing Pre-Quest.

“One isn't enough, how about two?”

Lin Tianhao narrowed his eyes slightly, “The people of the Underworld are fortunate to have two leaders like you.”

Yadilus's face showed a hint of joy, “Are you agreeing to let us go?”

“No, tell me about your quests first.”

“Our quests are the same: to conquer five cities and ten towns of the Moon Wheel Empire,” Yadilus said.

Lin Tianhao nodded, “Two means ten cities and twenty towns.”

“You took five cities and ten towns in one night. Taking another ten cities and twenty towns shouldn't be difficult for you.”

“And our only request is to let us go. We are willing to live in this Underworld Sea and never set foot on land again.”

Yadilus's expression was serious. She was not alone; she had millions of people behind her.

Today, she was not acting for herself.

She was acting for the millions of people standing behind her.

“You don't need to say you'll never set foot on land again. Even if you do, it won't affect me,” Lin Tianhao said.

Yadilus was somewhat helpless, “Then what else do you want? If that's the case, all I can truly give you is myself.”

Lin Tianhao waved his hand, “You're doing this for the people behind you. I acknowledge you, but I want you to submit to our Mountain Sea Empire.”

“Besides that, tell me three important pieces of information that I don't know.”

Like the city of Fodland that Lin Tianhao found this time.

He was confident that he could get at least two Scrolls of Divine Blessing Pre-Quest.

If it weren't for this operation, he wouldn't have had such an opportunity.

Yadilus pondered for a moment and said, “First, there are others in our Underworld who possess Scrolls of Divine Blessing Pre-Quest, and it's not just one person.”

“But I don't know who they are.”

“That doesn't count. I know that even if you didn't say it. How many Scrolls of Divine Blessing Pre-Quest do the Star Kingdom and the Land of Chaos have? Is it possible that the Underworld only has two?” Lin Tianhao said.

He couldn't be fooled by such insignificant information.

"The Dark Night Spirit God said that a god is rapidly recovering on Underworld Island. The speed of recovery is extremely abnormal and may be completed ahead of schedule."

"I just came out of Underworld Island, and I already know what you're talking about," Lin Tianhao said.

Yadilus's expression was a little ugly. She had said two things, but neither was useful.

"The Vast Continent is just a corner of the Divine Continent."

"I know."

"The entire Divine Continent belongs to Eastern Civilization," Yadilus added.

"Doesn't count, I guessed it." Lin Tianhao said.

Yadilus smiled wryly, "Snow Emperor, if you're like this, I really have nothing to say."

"I believe you definitely have something," Lin Tianhao said.

Yadilus pondered for a moment. She looked at Mudins.

Mudins pointed at himself, "I can't listen either?"

Yadilus didn't answer, but Mudins had already seen the answer in her eyes.

"Understood."

Mudins walked away along the coastline, his back looking a little desolate, like an isolated child.

“Speak.”

Yadilus looked at Lin Tianhao meaningfully and said, “Eastern gods, Western gods, and the ethereal Cthulhu gods, who are defined as invaders, what do you think is the relationship between them?”

Lin Tianhao frowned. Even combined with his memories from his previous life, he couldn't give an accurate answer.

But if he combined it with reality, his judgment was:

Eastern gods and Western gods both have history as support. It can be inferred from history.

Eastern gods are more ancient. Similar to Greek mythology, which is classified in Western mythology, the historical background is the same period as the Warring States period of the Dragon Kingdom.

As for the Cthulhu gods, either they don't exist, or they are related to some beings in outer space.

After all, it is rumored that the United States is already dead in name, and they are actually controlled by alien civilizations behind the scenes.

This Cthulhu system may well have been created by alien civilizations.

It may even be the divine system of alien civilizations themselves.

Of course.

This is some inference based on reality, but it may not be applicable in Twilight of the Gods.

As for what relationship they have, Lin Tianhao didn't know. If there was a relationship, maybe they were all gods.

“Don't know.”

Hearing this.

Yadilus breathed a slight sigh of relief.

She was really worried that Lin Tianhao would know whatever she said.

“Although they belong to different systems, they all have the same source.”

“They were all created by an unknown god.”

Lin Tianhao stared at Yadilus, “Do you know what you're saying?”

Yadilus nodded, “I know. The Eastern god system, the Western god system, and the Cthulhu god system are just created by an unknown being at different stages.”

Lin Tianhao didn't question it further, but asked, “How did you know?”

“A video, seemingly left by that unknown being.”

Hearing this.

Lin Tianhao's eyes narrowed slightly. When he opened the Ancient Dynasty Secret Realm, he also saw a seemingly real and illusory video.

The video recorded an unknown being creating three thousand gods and demons.

Now, after hearing Yadilus's words, it seemed that the Western gods and the Cthulhu gods were all created by him.

It was not impossible for the unknown being to create three thousand gods and Buddhas and then create several god systems.

“Where is the entrance to the secret realm?” Lin Tianhao asked.

Yadilus shook her head, “I don't know. The entrance to the secret realm is moving and is not in a fixed location.”

Lin Tianhao was even more surprised. It was very rare for the entrance to the secret realm to move.

Generally, when this happens, it means that the secret realm is very high level.

“What else?”

Lin Tianhao didn't delve into this question, but continued to ask.

Yadilus pondered for a moment, “I think the Eastern gods, Western gods, and Cthulhu gods were originally one family. Someone should be sowing discord behind the scenes, and we shouldn't be affected by it.”

“Your awareness is very high. Actually, I would be very happy if the East and West could exchange what they have, but unfortunately, it is not realistic in the short term.”

In his previous life, although some Westerners had defected to the Alete Star System.

It was not all of them, and most of them did so under the leadership of their leaders.

In the West, there were also some commendable existences.

The premise is that they have to change a leader!

Sometimes, the words and deeds of a leader really have a very big impact!

Chapter 368 - Queen of the Ancient Dynasty: Enchanted Orb!

Yadiel Rose nodded, "It doesn't matter anymore. I'm willing to take the first step and work hard for peace between the East and the West."

Lin Tianhao weighed the two scrolls of the Gods' Blessing pre-quest in his hand and said:

"Okay, I'll take these two scrolls of the Gods' Blessing pre-quest. Oh, right, lock them."

Lin Tianhao now has the initiative, so he can naturally talk about locking the scrolls.

However.

Yadiel Rose and Mutins both looked a little ugly when they heard Lin Tianhao's words.

Because if the quest scrolls are locked, the quest scrolls will still be valid after their death.

That is to say.

After they lock it, Lin Tianhao can completely tear his face and destroy them.

In that case, it would be equivalent to three Gods' Blessing pre-quest scrolls, without wasting a single one.

"What are you looking at? Since I promised to accept you, I won't go back on my word, unless... you do something detrimental to me."

Yadiel Rose and Mutins looked at each other, and finally Yadiel Rose nodded and said:

"Okay, I believe you."

She said in a deep voice, and took the lead in locking the quest scroll for Lin Tianhao.

Mutins followed closely and also locked the quest scroll for Lin Tianhao.

After the two completed the locking of the quest scrolls.

Lin Tianhao showed them an evil smile.

"Haven't you heard of my reputation? I, as a person, have always wanted everything!"

Hearing this.

Yadiel Rose and Mutins both changed their expressions drastically, and both of them were on high alert.

"Snow Emperor, how can you go back on your word!!"

Mutins' hands were shaking slightly nervously.

"Hahaha."

Lin Tianhao laughed and said, "Are you panicking now?"

"I'm just teasing you. I said, as long as you don't play tricks on me, it's fine."

Speaking of which.

Lin Tianhao paused, his eyes suddenly becoming extremely sharp.

"But if you dare to play tricks on me, I don't mind taking everything."

Yadiel Rose and Mutins breathed a sigh of relief.

"Don't worry, Lord Snow Emperor, we will abide by the laws of the Mountain Sea Empire in the future."

Lin Tianhao waved his hand, passed through the Kunlun Mirror, and disappeared.

After Lin Tianhao left, Yadiel Rose realized that her palms were already full of sweat.

Mutins' back was already soaked with cold sweat.

"My lord, is it right or wrong for us to place our bets on Snow Emperor?"

Mutins' eyes were full of worry.

Yadiel Rose frowned slightly, "Tell the truth, and at the same time, I will also tell the Dark Night Spirit God what I know."

"What the future holds for the East and the West still depends on the attitude of these gods."

.....

Ancient Dynasty Secret Realm, Hundred Flower Brothel.

It was already late.

Going to the Ten Thousand Mountains will have to wait until tomorrow.

Under the night, listening to music in a brothel.

Lin Tianhao avoided the window seat and found a private room to sit down.

Still fine wine, delicacies, beauties, and pipa music.

It's just that this time the beauty is a little different.

"Flower Mistress, I don't seem to have ordered you." Lin Tianhao said.

Hua Baixin gave Lin Tianhao a resentful look, "Young Master Snow is really a busy person. It's only been two days since we parted, do you know how much I miss Young Master Snow?"

"Do you miss me, or do you miss the Silver Eyes?" Lin Tianhao asked.

Hearing this.

Hua Baixin, the Mistress of the Hundred Flower Brothel, couldn't help but blush on her pretty face.

"Naturally, I miss both."

Lin Tianhao waved his hand, "I heard that you've broken through the Seventh Revolution, congratulations."

"That's all thanks to Young Master Snow."

Hua Baixin said with a smile: "I came to you this time because I have a friend who also wants to meet you."

"Meet me? Or meet the Silver Eyes?" Lin Tianhao asked.

Hua Baixin covered her mouth and chuckled, "Both, I guess."

"Then please invite your friend in."

Hua Baixin personally opened the door, and a woman wearing a hat and dressed neatly walked in.

Lin Tianhao has fiery golden eyes, so this disguise is naturally useless.

Ancient Dynasty Empress (Gold): Level 1750.

Vitality: ???

Attack: ???

Skills: ???

Lin Tianhao narrowed his eyes slightly.

Ancient Dynasty Empress Su Youfei, one of the three hunting targets that the Sixth Prince gave him.

I didn't expect her to take the initiative to meet him, which is quite rare.

"What's the matter for looking for me?"

Lin Tianhao didn't point out the other party's identity. He wanted to hear what the other party wanted from him.

"There are more and more adventurers coming to the Ancient Dynasty now. I have also heard about your deeds, Snow Emperor."

Lin Tianhao waved his hand and said, "What's the matter?"

"I heard that someone asked you to kill the current Empress, is it true or false?"

Lin Tianhao smiled, "It's true."

Su Youfei's body trembled slightly, "Snow Emperor's prestige, it's not difficult to kill an Empress, but is it possible not to kill her?"

"No, the person who offered the price gave me a reason I couldn't refuse."

The Super God-level Hidden Class Transfer Altar, which is very important to Lin Tianhao.

"What reason?"

"Super God-level Hidden Class Transfer Altar." Lin Tianhao said.

Su Youfei frowned, "That's indeed hard to refuse, but I've been in the Ancient Dynasty for many years and know a lot of things."

"But this Super God-level Hidden Class Transfer Altar, I've heard about it for the first time, Snow Emperor, you still have to be careful not to be deceived."

"You're right."

Lin Tianhao nodded, "I may just be too honest and too sincere to people. I've been cheated a lot along the way."

"Then you have to be more cautious."

Lin Tianhao smiled slightly and lowered his voice and said: "Actually, it's okay. Everyone has such times to lie and deceive people, and you can kill them after deceiving them."

Su Youfei was slightly startled. The killing was too casual.

"Empress, you came to me in person, it shouldn't be just to talk about this, right."

Lin Tianhao didn't want to waste time and directly stated Su Youfei's identity.

Su Youfei and Hua Baixin next to her were a little surprised.

"Snow Emperor is indeed extraordinary."

Su Youfei nodded with a smile, "The purpose of my trip is to ask Snow Emperor to help me find something in the Red Maple Ancient Ruins."

"What things?"

"Ding, the Ancient Dynasty Queen has issued a quest to you."

"Quest Requirements: Find three enchanted orbs within half a month."

"Quest Penalty: Unknown."

"Quest Reward: Equipment Evolution Scroll + 1, Talent Evolution Flower + 1, Free Attribute Points + 50."

"Ding, do you accept?"

Lin Tianhao was a little surprised, "There are enchanted orbs in the Red Maple Ancient Ruins?"

Enchanted Orb.

The value of this thing is above the Equipment Evolution Scroll.

It is also for equipment use.

There are many kinds of enchanted orbs, which are all used to enhance equipment.

Generally speaking.

If you want to strengthen the equipment attributes, you can use the Equipment Evolution Scroll, or find higher-level equipment.

Chapter 369 - Large yellow leather!

To increase the attributes of equipment, you need equipment of higher quality.

While it's easy to obtain high-level equipment, acquiring high-quality equipment is extremely difficult.

However, the ability of the Enchanted Orb is to enhance the quality of equipment.

It differs from equipment evolution scrolls, which improve the current attributes.

Enchanted Orbs, on the other hand, can add new attributes to equipment.

Similar to the Bloodthirst Necklace.

The Bloodthirst Necklace's one percent maximum health steal effect is incredibly powerful and difficult to replace.

However, necklaces are considered regular equipment, and a normal gold necklace can add six attributes.

The Bloodthirst Necklace only has one attribute, which seems quite lacking.

Yet, this particular attribute is irreplaceable, leading to a difficult choice. After all, necklaces are basic equipment, and you can only wear one necklace to gain its attributes.

Wearing more necklaces only has a decorative effect and doesn't grant additional attributes.

Enchanted Orbs can break this situation.

Because Enchanted Orbs allow equipment to gain new attribute bonuses.

However, Enchanted Orbs generally appear in the game later on.

In the early stages, even if players obtain Enchanted Orbs, they usually don't use them.

Mainly because most equipment has a limited lifespan.

As you level up, you'll get better equipment, and the original equipment will naturally become useless.

Enchanted Orbs are useful to Lin Tianhao as well.

For example, the Bloodthirst Necklace and the Jade Pendant of Purification are items Lin Tianhao will definitely use for a long time.

And also the Netherworld Longbow.

I wonder if enchanting the Netherworld Longbow with a new attribute will allow the effect of killing living beings to enhance the bow's attributes to cover the new enchanted attribute.

It most likely won't, but I can try it later.

"The reward for this quest isn't very appealing to me."

What attracts Lin Tianhao is the Flower of Talent Evolution.

He already has seven Flowers of Talent Evolution, just one step away from the ten needed to evolve his talent.

Su Youfei was stunned for a moment, "I don't want much, with your ability, it should be easy to obtain."

"Three Enchanted Orbs, in exchange for what you're giving, I still feel like I'm at a loss."

"Compared to those things, I'd rather kill you now," Lin Tianhao said.

"You haven't obtained the Gods' Blessing pre-quest scroll from me yet, would you be willing to kill me?"

Su Youfei seemed to have indeed learned a lot of information from other adventurers.

She clearly knew what Lin Tianhao wanted.

Including the equipment evolution scroll and the Flower of Talent Evolution, which are among the few items Lin Tianhao can still use.

"You know quite a bit, but compared to the Transcendence-grade hidden class transfer altar, a Gods' Blessing pre-quest scroll isn't enough for me to give up killing you."

Lin Tianhao had been stuck at level fifty for quite a while, and he needed to level up.

Of course.

Leveling up wasn't the main reason.

Like talents, the earlier you change class, the easier it is to accumulate advantages.

Similar to Lin Tianhao's Transcendence-grade talent, what's the point if it's awakened ten years after the Great Cataclysm?

Without accumulating advantages and using the talent to snowball, a temporary talent would have very limited improvement on overall combat power.

Therefore.

Lin Tianhao eagerly wanted to change to a Transcendence-grade hidden class.

That's why he gave up exploring Fuldran City and returned to the Ancient Dynasty Secret Realm.

Because this class change was too important to him.

"What if you find out you've been deceived after killing me?"

"I am the current Empress, I can go back and ask the Emperor for you, to see if he knows any relevant information."

Lin Tianhao pondered for a moment.

The Lord of Black Mountain hadn't been killed yet, and killing Su Youfei now wouldn't help much.

Moreover, this was a fifth-stage area, and Lin Tianhao was confident in controlling lightning here.

"Alright, I won't accept your quest."

"I'll come to the Hundred Flowers Pavilion when I have time, if there's any news, you can have Hua Baixin notify me," Lin Tianhao agreed.

Su Youfei nodded, "May I take the liberty to ask, besides asking you to kill me, did that person ask you to kill anyone else?"

"Since it's a liberty, why ask?"

"Moreover, Her Majesty the Empress is all-seeing, she must already know."

Su Youfei shook her head, "Someone didn't want to see me die, and mentioned it, as for others, I really don't know."

"But I do have some guesses."

Lin Tianhao didn't care and casually asked, "Can you tell me, which adventurer is so capable that they can contact you, the Empress of the Ancient Dynasty, at this stage?"

He wanted to know, who was so talkative.

"Snow Emperor, please don't make things difficult for me, I naturally can't say that, but that person is worlds apart from you, Snow Emperor, you most likely don't know of that person's existence."

Lin Tianhao wasn't surprised by this answer, "Hurry up, I don't want to drag this on for too long."

"Either you find the Transcendence-grade hidden class transfer altar, or... you die!!"

Lin Tianhao's attitude was very decisive.

He didn't care whether Su Youfei was innocent or not, nor did he care what the consequences would be.

He only knew one thing, he had to do this.

If he softened today and prolonged the time of his class change, causing his strength to improve slowly.

In the future, perhaps more people would die because of him.

Su Youfei was a little displeased when she heard Lin Tianhao's words.

This was a blatant threat, she was still the current Empress, such a threat was too disrespectful to her.

But she was only briefly displeased, and then smiled and said, "Don't worry, I'll reply as soon as possible."

Lin Tianhao waved his hand, "That's it then."

Su Youfei and Hua Baixin left the room together.

Two minutes later, the beauty playing the pipa stepped in.

Nothing happened overnight.

The next morning.

Lin Tianhao set off just as dawn was breaking.

This time was also when most players left the city.

Lin Tianhao took a step, and in the next moment, he had already appeared in the Ten Thousand Mountains.

This was where Lin Tianhao had killed the yellow weasel before.

But just as he landed, an old voice rang out.

"Your scent suddenly disappeared from here, I suspected you would definitely come back, I didn't expect I would really wait for you."

Lin Tianhao frowned.

He turned around and saw a hunched old woman with a blood-colored cane walking towards him.

Under Lin Tianhao's Fiery Eyes, this wasn't an old woman at all, but a large yellow weasel wearing clothes.

"Was the yellow rat I killed before your grandson or great-grandson?"

Chapter 370 - The terrified yellow-skinned man!

"Dead people don't need to know so much."

This large yellow weasel had no intention of explaining to Lin Tianhao.

Its vertical pupils stared at Lin Tianhao.

In an instant, the world spun, and the surrounding scenery quietly changed.

"Hypnotic illusion?"

This could be considered the signature move of the yellow weasel.

It's just that...

This large yellow weasel was not a god, and its little tricks were not worth mentioning in front of Lin Tianhao's Fiery Eyes.

But this large yellow weasel was completely unaware.

It transformed into the appearance of a beautiful woman, posing seductively in front of Lin Tianhao.

But in Lin Tianhao's vision, it was just a large yellow weasel twisting and turning, like dancing a Northeast Yangko dance.

If you added some festive music, it would be just right.

Seeing that Lin Tianhao was unmoved, this large yellow weasel transformed into a sacred and solemn god.

“Young man, I am the Yellow Heaven Supreme Divine Lord. I see that your bones are extraordinary and your talent is exceptional. Would you be willing to join my sect?”

Although it was trying its best to pretend to be sacred and solemn,

as a yellow weasel, there was still some sinister wickedness at the corners of its mouth.

Lin Tianhao activated his Fiery Eyes, and the scene he saw was even more ridiculous.

“Impersonating a god, have you ever thought about the consequences?” Lin Tianhao asked indifferently.

“You are not affected by my hypnotic illusion?”

The large yellow weasel was very surprised.

Its hypnotic illusion was not a simple eye trick; it was an olfactory illusion.

It started with brainwashing, so theoretically, it should not be so easy to break its hypnotic illusion.

But Lin Tianhao also wanted to know, if he smelled the scent and his brain was confused, would the Fiery Eyes still be useful?

After all, the Fiery Eyes saw through illusions, while brain confusion involved neurons, bypassing the eyes.

Lin Tianhao originally wanted to try it out.

But the smell of this large yellow weasel was too pungent, so Lin Tianhao gave up the idea of trying.

“Human, since I can't confuse you, then let me use absolute strength to defeat you head-on.”

As soon as the words fell,

a staff appeared in the large yellow weasel's hand, and it waved the staff, preparing to release a skill.

“Whoosh, whoosh, whoosh!!”

Lin Tianhao would not watch a mage release a skill.

“Bang...”

The first arrow landed and was blocked by a dark light on the large yellow weasel's body.

The second arrow and the third arrow were still blocked by the dark light.

Lin Tianhao's expression sank, and the large yellow weasel had already released its magic.

Vines full of thorns quickly flew towards Lin Tianhao.

Lin Tianhao still maintained his full attack speed, and feather arrows poured out.

And this time, it really made Lin Tianhao a little dumbfounded.

Because his feather arrows could not break through the large yellow weasel's dark light.

“Don't waste your time. You can't break through my defense.”

The large yellow weasel was very proud.

But it didn't have time to be proud for long, as a sound came from the dark light on its body.

“Crack, crack...”

Immediately afterwards,

cracks began to appear in the dark light, and then it exploded with a bang.

“How... how is this possible?!”

The large yellow weasel was unbelievable, but Lin Tianhao had no intention of explaining.

Feather arrows submerged the large yellow weasel.

Critical hit!

-830W.

Critical hit!

-830W.

-415W.

.....

Lin Tianhao's attack speed was very fast, so it wasn't until three consecutive arrows landed that the large yellow weasel reacted.

It tapped the ground with the staff in its hand, and its body disappeared in place.

Immediately afterwards, it reappeared, but this time it appeared behind a tree.

After landing, it turned around and ran, trying to use the big tree as cover to escape.

“Big rat, now you're thinking about running away. Isn't it a little too late?”

Lin Tianhao immediately chased after it. This big rat was as high as level 1,000 and belonged to the limit of the fifth rank.

Its movement speed was not slow, but relative to Lin Tianhao, its movement speed was still a bit insignificant.

It transformed into its true form, running on all four legs, and its movement speed was finally a little faster than Lin Tianhao's.

“Force Suppression!”

Lin Tianhao smiled slightly. The application of Intent was very broad.

Especially after Lin Tianhao reached the state of Immaculate Heart.

His application of Intent had reached a superb level.

The large yellow weasel only felt as if a mountain was pressing down on its body, and its movements instantly slowed down.

“Lethargy!”

The large yellow weasel released a skill at Lin Tianhao in return.

Lin Tianhao's speed decreased imperceptibly by a tiny bit.

“Damn it, where did this second-generation rich kid come from? This old lady's Lethargy is as useless as if it didn't exist.”

The large yellow weasel immediately knew that Lin Tianhao must have some equipment with very high crowd control reduction or tenacity stats.

Otherwise, there was no reason for him to be so perverted.

After all, her level suppressed Lin Tianhao, and it was still so outrageous, which could only mean that the other party's props were very awesome.

“Whoosh, whoosh, whoosh!!”

It's just that.

Lin Tianhao didn't give it a chance to think more. Feather arrows attached with the Intent of Arrows had already arrived in front of the large yellow weasel.

“Pfft—”

The large yellow weasel farted, and yellow smoke sprayed out.

Its body disappeared from the yellow smoke.

That pungent smell swept over again, Lin Tianhao frowned, and the scenery around him changed again.

But it was quickly broken, because Lin Tianhao immediately mobilized the Space Intent to shield it.

“Another Intent? How old are you? How did you master so many Intents? Are you a prince of the ancient dynasty?”

It seemed that only those princes who were born with golden spoons and had a lot of resources to cultivate them could master several Intents at this stage.

Lin Tianhao did not answer, but unfolded his Xuanbing Wings and sped up to chase after him.

“Damn it, so perverted!”

The large yellow weasel couldn't help but curse angrily. Its fur emitted a faint red light, which was a sign that Berserk was activated.

Using Berserk to increase movement speed was useful, but not very useful.

Because Lin Tianhao also had Berserk!

“Are you still human? How did an archer learn Berserk?”

Except for a few specific archer classes that could learn it, most other archers could not learn the Berserk skill.

“Why don't you just stop running? It's not a waste for you to die in my hands.”

Lin Tianhao chased after him again, and feather arrows were released.

The large yellow weasel spat out a mouthful of blood essence, and the blood essence turned into a blood-colored shield in the air, trying to block Lin Tianhao's attack.

“Whoosh, whoosh!”

“Bang—”

Two arrows, the blood-colored shield shattered!

Immediately afterwards, more feather arrows fell, and the yellow weasel was submerged by Lin Tianhao's feather arrows in horror.

“No—”
