

O game 40

Chapter 40 seamlessly connects to the decisive battle with the old village chief!

Lin Tianhao's lips twitched.

He was even wondering if he would encounter such a situation when he fought the old village chief later.

Just at this moment.

The old village chief used all his strength to throw the blacksmith Wang into the air.

Immediately following were consecutive punches.

Brawler.

This kind of fist-to-flesh fighting style was exciting to watch.

But Lin Tianhao remained unmoved, carrying out his fishing to the end.

"Overlord Body!"

Blacksmith Wang roared, activating Overlord Body, immediately removing all control effects.

In the instant of activating Overlord Body, the shield in his hand flew out.

"Spatial Barrier, Shatter!"

This shield actually forcefully tore open a gap in space.

"Snow Emperor, I've remembered you. When I encounter you next time, I will definitely become your nightmare."

"Stop him!"

Lin Tianhao's expression changed drastically!

Blacksmith Wang forcibly tore open the spatial barrier, preparing to escape.

The old village chief reacted quickly and immediately stood in front of Blacksmith Wang.

"Sacrificing equipment to break the spatial barrier, Lao Wang, you're simply crazy."

Blacksmith Wang snorted coldly, "Today, I have lost. I hope you take care of yourselves."

Lin Tianhao's face was unsightly. He still couldn't understand how Blacksmith Wang managed to open the spatial barrier.

Even if he sacrificed that set of golden-grade equipment, there was no reason he should have been able to do this.

"Stop him!"

Lin Tianhao couldn't let Blacksmith Wang leave. He attacked again. This time, five arrows were fired simultaneously!

This was the limit Lin Tianhao could achieve at this stage.

He couldn't let Blacksmith Wang leave!

But under the Overlord Body state, the old village chief couldn't stop the rampaging Blacksmith Wang, let alone Lin Tianhao.

"Destroy the terrain."

"Icefire Divine Fist!"

The old village chief slammed a punch on the ground in front of Blacksmith Wang, and a large pit was smashed into the ground.

Although Overlord Body is immune to knockback, control, slowdown, and other negative effects.

But it cannot be immune to terrain.

There is a pit in front, and even with Overlord Body activated, it is impossible to fly over the pit.

The old village chief used all his skills, just to stop Blacksmith Wang from leaving.

Blacksmith Wang originally thought that with Overlord Body activated, he would definitely be able to leave.

But the current situation made him a little panicked.

"Berserk."

"Savage Charge!"

Blacksmith Wang activated two skills at the same time, and his speed suddenly increased.

"Overlord Body, Berserk."

"Frozen Pulse Fist!"

The old village chief also activated Overlord Body and Berserk, not giving him any chance.

Lin Tianhao fired five arrows simultaneously, constantly blocking the space Blacksmith Wang could move in.

As long as Blacksmith Wang's Overlord Body ended, then he would be doomed.

Moreover.

The spatial rift was shrinking.

As long as they delayed, Blacksmith Wang would be dead.

Blacksmith Wang also knew this, and he roared angrily.

"Floating Nine-Hit Combo!"

He actually used the skill to float in the air, wanting to rush into the spatial rift.

However, how could the old village chief give him this chance?

He jumped up and collided with Blacksmith Wang.

Both of them had Overlord Body activated, and neither could knock the other back. They were in a stalemate for a few seconds before landing again.

But at this time, the spatial rift had already healed.

Lin Tianhao didn't have time to think about how Blacksmith Wang created the spatial rift.

He began to fully output damage to Blacksmith Wang. Without the golden set and losing the damage reflection, Lin Tianhao was no longer afraid.

The old village chief was the same.

In less than a minute.

Blacksmith Wang fell unwillingly.

In the instant Blacksmith Wang fell!

Lin Tianhao's arrows were released.

This time, the target was the old village chief!

The seamless attack caught the old village chief off guard.

"Snow Emperor, what are you doing?!!!"

Lin Tianhao's expression was serious, "Respectfully sending the old village chief to his death!!!"

The old village chief roared in anger, "You're courting death!"

He wanted to rush towards Lin Tianhao, but found that Lin Tianhao's movement speed was ridiculously fast.

Before, Lin Tianhao had accumulated eighty free attribute points.

At this time, he added them all to movement speed.

It was to deal with the old village chief, this Brawler.

Brawler, this kind of profession.

Has a lot of small skills, and the combos are very scary.

Among the ancient martial artists, there is a group of people who like the Brawler profession. Being approached by a Brawler is really going to take a layer of skin off you, even if you don't die.

Lin Tianhao's eighty free attribute points increased his movement speed by eight points.

In addition, the movement speed passive of the Breeze Set stacked up. The effect was terrifying when these two effects were superimposed.

Moreover.

Because the health points were stacked up.

Now Lin Tianhao's normal attack could deal more than 7,000 damage to the old village chief.

Five arrows per second, the damage that could be dealt in one second was as high as 38,000.

"Snow Emperor, if you kill me, you will be destroying the novice village."

The old village chief's expression was sinister, and he roared.

Lin Tianhao didn't respond in any way, or rather, his response was only a continuous stream of arrows.

Without the Overlord Body and Berserk skills, the old village chief was like a toy in front of Lin Tianhao.

But at this moment, the old village chief smiled coldly.

"Ninefold Shadow Step!!"

In the next instant.

The old village chief turned into a trail of afterimages and appeared in front of Lin Tianhao.

With another step, he was already behind Lin Tianhao.

Lin Tianhao had anticipated this, and as soon as the old village chief's figure appeared, his arrows were released.

But in close combat.

The old village chief dodged Lin Tianhao's arrows with a twist of his body.

At the same time.

Blue frost condensed on his palm.

"Ding, you have been affected by frost, attack speed reduced by 14%, movement speed reduced by 14%."

Lin Tianhao raised his eyebrows.

The old village chief's skill was a bit perverted.

Don't underestimate this fourteen percent.

Now Lin Tianhao was wearing a Purification Jade Pendant, which could reduce negative effects by eighty percent.

In other words.

The effect of the old village chief's skill was to reduce attack speed and movement speed by seventy percent.

This was very perverted no matter what stage it was at.

"Swish swish swish!"

Lin Tianhao fired five arrows simultaneously.

While creating distance.

The old village chief originally thought he had everything under control.

But when he saw Lin Tianhao still striding away, he was completely dumbfounded.

However, he had only used two levels of his Ninefold Shadow Step.

Without hesitation, he took a step and appeared behind Lin Tianhao again.

Although Lin Tianhao had already reacted, he swept out the longbow in his hand.

But the old village chief's combat experience was too rich. He leaned back to dodge while grabbing Lin Tianhao's arm and performing a shoulder throw.

Then, he charged up his fist and slammed it down towards Lin Tianhao's head.

Lin Tianhao rolled over to dodge. The old village chief's punch missed, and the shock on his face became even more intense.

Because the shoulder throw would come with a certain amount of dizziness, Lin Tianhao should not have recovered so quickly and dodged his attack.

"You have control reduction equipment on you?!" the old village chief asked in a deep voice.
