

O game 43

Chapter 43: Counterattack, kill Pharmacist Amy!

But in an instant.

He felt it was unlikely.

With Xue Di's strength.

Who could abuse his respawn point?

Even if there was someone.

Who would dare?

Whether it was the novice village or the main city, the NPCs would not allow spawn point abuse to happen.

Killing people in the novice village or main city would directly result in a red name.

To be precise.

Killing people in the wild would also result in a red name, let alone in the main city.

But with Lin Tianhao's current situation, besides being spawn point killed, he really couldn't think of a second possibility!

Thinking of this.

Floating Tu Dunshan contacted Floating Tu Shenlang immediately.

"Guild leader, do you think it's possible for players to be spawn point killed at this stage?"

Floating Tu Shenlang was stunned for a moment, "How is that possible?!"

"Even if a player's damage is enough to abuse the spawn point, it's impossible to actually do it."

Floating Tu Dunshan hesitated for a moment, "But guild leader, Xue Di has lost four levels in less than ten minutes."

"Are you kidding me?"

Floating Tu Shenlang couldn't believe his ears.

Who could lose four levels in ten minutes?

Floating Tu Shenlang pondered for a while and said, "It shouldn't be spawn point abuse."

"No one can do such a terrifying thing as spawn point abuse at this stage."

"Then what's the situation?" Floating Tu Dunshan asked.

Floating Tu Shenlang was silent for a long time before saying, "I estimate there's only one possibility."

"That's a hidden map or a special secret realm."

"In these places, it's possible that you can't revive in the main city after death, which is why Xue Di has been continuously losing levels in a short period of time."

Floating Tu Dunshan understood.

"Is there any way to help Xue Di?"

"Can't help."

Floating Tu Shenlang's answer was decisive.

"We don't even know where these special secret realms are, there's no way to help."

Floating Tu Dunshan sighed, "Alright, I'll try contacting Xue Di first."

Floating Tu Shenlang hesitated to speak.

In the end, he still said, "Young master, I don't think you need to focus on Xue Di anymore."

"He's too far behind us, and now he's continuously losing levels, the gap between him and us will only get bigger and bigger."

Floating Tu Dunshan frowned, "I understand."

Hanging up the voice call.

Floating Tu Dunshan called Lin Tianhao again.

However, it was still not connected.

Lin Tianhao was in intense combat at this time, so naturally he didn't have the mood to care about other things.

And his level was constantly decreasing under this spawn point abuse.

Level 5, level 4, level 3...

In less than fifteen minutes, Lin Tianhao dropped from level five to level one.

This was the limit, Lin Tianhao wouldn't continue to lose levels even if he was killed again.

"Xue Di, do you submit?"

The old village chief looked at Lin Tianhao with a playful expression.

He killed Lin Tianhao from level ten to level one just to tell Lin Tianhao who was in charge in this novice village.

Lin Tianhao sneered, "Submit? Submit to your grandpa!!"

As soon as he finished speaking.

Lin Tianhao's feather arrow pierced through the air.

He couldn't continue to maintain firing five arrows at once.

But even if it was just one feather arrow, he would resist.

He and the old village chief were completely at odds.

The old village chief abused the spawn point.

He used the old village chief and them to stack his health, and who would have the last laugh.

It was still unknown.

"Good, brave enough!"

Seeing that Lin Tianhao dared to resist, the old village chief grinned and fought Lin Tianhao again.

With one feather arrow, Lin Tianhao's survival time had increased from one minute and thirty seconds at the beginning to one minute and forty seconds.

Because in the previous battle, his health had increased by more than ten thousand.

The increase in health meant that the damage and health regeneration were also increasing, and the time he could withstand was also longer.

The old village chief also noticed something was wrong.

Because Lin Tianhao's damage seemed to be increasing.

Although the extent of the increase was not enough to threaten them, it was not a good sign.

In the blink of an eye.

Half an hour passed!

Lin Tianhao's health increased by another fifty thousand.

The total health had reached three hundred and twenty thousand.

With this health, a normal attack could deal 9,600 true damage, and Lin Tianhao could withstand the attacks for longer.

The old village chief was a little panicked.

Lin Tianhao was already level one, and he couldn't continue to lose levels.

But Lin Tianhao's attributes were increasing, which was a very terrifying thing.

"Xue Di, do you want to continue fighting?" the old village chief asked in a deep voice.

Lin Tianhao looked at the old village chief indifferently, "What? Are you afraid?"

The old village chief's face was very ugly, and he gritted his teeth and said, "Xue Di, you are an adventurer, there always needs to be a reason for doing things."

"What exactly do you want?"

It was impossible for Lin Tianhao to tell the old village chief his true thoughts now.

Therefore, all that responded to the old village chief was a cold feather arrow.

"You're courting death!"

The battle started again!

An hour later...

Lin Tianhao's health increased by 120,000.

The total health broke through to 440,000.

Now, his normal attack could deal more than 13,000 damage.

And he could also recover more than 4,000 health.

The old village chief was a little frightened.

Finally, Lin Tianhao was killed again.

A golden longbow fell out.

The old village chief's eyes lit up, "Hahaha, Xue Di, your proud weapon has dropped, how are you going to deal with it next?"

Lin Tianhao's expression was indifferent, and he directly took out the novice longbow this time.

The novice longbow cannot be dropped!

Although the attribute bonus was minimal, it was enough for Lin Tianhao.

His own attack speed was 3.63, without the Nine Union Longbow, his attack speed would decrease a little, and he would also lose 5% lifesteal.

It was a little uncomfortable.

But Lin Tianhao was still not flustered.

As long as his health stacked up, the victory in today's battle would ultimately be his.

"I've rested enough."

A cold light flashed in Lin Tianhao's eyes.

Five arrows at once!!

Lin Tianhao once again used his strongest means at the moment.

With five arrows fired at once, each lifesteal exceeded 20,000.

Not only that.

Five arrows fired at once could deal more than 10,000 damage to five NPCs.

With a fast enough health regeneration speed.

Lin Tianhao was somewhat in an invincible position.

After all, with 22,000 health recovered per second, plus the health regeneration of the revival altar, these NPCs could only deal about 20,000 damage to him per second.

Therefore, he would not be killed in a short time.

In less than a minute.

The five NPCs in the front could not hold on.

They retreated to regenerate health, and five new NPCs took their place.

Lin Tianhao didn't chase the five NPCs, but directly attacked the newly appeared NPCs.

Still in less than a minute, these five NPCs were crippled.

The last five NPCs came up, facing Lin Tianhao's terrifying damage, they were also helpless and difficult to resist.

The old village chief's expression was extremely gloomy.

Because Lin Tianhao was fully outputting him.

With the Purification Jade Pendant, Lin Tianhao was not afraid of him, the grappler.

In order to prevent himself from dying, the old village chief began to let other NPCs take the damage.

But those NPCs' health had not yet recovered.

Facing Lin Tianhao's crazy output, they couldn't hold on at all.

"Ding, you killed Amy the pharmacist, experience +12652."
