

O game 441

Chapter 441 - The first attack in the state of divine punishment!

The one who attacked was none other than the older sister of Shu Nan Peng Yu Yan.

The short-skirted loli's figure blurred, disappearing from the spot.

When she reappeared, she was already in the opposite corner of the classroom.

But as soon as she appeared, a bolt of lightning struck above her head.

“Boom—”

-19850!

This damage number was a bit low.

At least, it seemed a bit low to Lin Tianhao.

The short-skirted loli was stunned for a moment, "I thought you were an expert, but I didn't expect such little damage."

She had been too cautious just now, never imagining that the two people in front of her were just newbies.

“Low basic stats don't mean I'm a newbie.”

Shu Nan Peng Yu Yan fired another feathered arrow, but it was easily dodged by the short-skirted loli.

“Qinglan, don't waste time, or others will think that any Tom, Dick, or Harry can come here and make trouble.”

“Got it.”

Shangguan Qinglan smiled playfully, took a step forward, and her body turned into green smoke and disappeared.

When she reappeared, she had already arrived beside Shu Nan Peng Yu Yan.

“Bang—”

Shu Nan Peng Yu Yan was struck by a palm, and a huge damage number appeared above his head.

-890,000!!

It wasn't that Shangguan Qinglan's damage was 890,000, but that Shu Nan Peng Yu Yan only had 890,000 health points.

One-hit kill!

It was about what Lin Tianhao had guessed; anyone who could come to the second grade had been tempered in Wen Suyao's world of faith.

Those who could be tempered in the world of faith and complete their advancement, these people in the second grade were by no means kind.

Shu Nan Peng Yu Yan's older sister didn't give up attacking just because Shu Nan Peng Yu Yan was instantly killed.

She threw out three flying knives, and the three flying knives turned into six, six into eighteen, eighteen into fifty-four...

In just a few breaths, a large number of flying knives enveloped Shangguan Qinglan.

Shangguan Qinglan clenched her fists, and a layer of illusory light blue armor appeared around her.

“Qingfeng Fist!”

She threw a punch, and all the flying knives that came flying were destroyed under this punch.

“Whoosh—”

Shangguan Qinglan's body turned into an afterimage, and her speed was so fast that it was unbelievable.

According to Lin Tianhao's visual estimation, her movement speed was around seventy-five.

It was faster than his movement speed before killing the Blackheart Dragon, but compared to his current speed, it was still a bit lacking.

Shu Nan Peng Yu Yan's older sister didn't seem to expect that the other party's movement speed would be so fast.

Before she could react, Shangguan Qinglan slapped the back of Shu Nan Peng Yu Yan's older sister's head.

Critical hit!!

-690,000!!

It was still a one-hit kill, without any suspense.

After killing Shu Nan Peng Yu Yan and his older sister, Shangguan Qinglan turned her gaze to Lin Tianhao.

“What about you?”

Before Lin Tianhao could speak, the woman who had spoken earlier opened her mouth again.

“One more newbie, one less newbie, it's all the same, let's just take care of them together.”

Hearing this.

Shangguan Qinglan grinned, “Then I'm sorry, who told you to like joining in on the fun?”

Lin Tianhao originally wanted to follow along and see the rules of the Godslayer Academy.

But he never imagined that they would be so warlike and set their sights on him.

“Whoosh—”

Shangguan Qinglan's body turned into an afterimage and rushed towards Lin Tianhao.

As before, she slapped towards the back of Lin Tianhao's neck.

Lin Tianhao moved his body to the side, easily avoiding Shangguan Qinglan's attack.

A look of surprise appeared on Shangguan Qinglan's face, “Predicting my attack?”

Obviously.

She hadn't considered that the movement speed of this "newbie" Lin Tianhao could be above hers.

But when she kicked again with a sweeping army, Lin Tianhao avoided it again by a hair's breadth, which made her realize the problem.

The person in front of her was more powerful than she thought.

"Focusing on movement speed?"

Shangguan Qinglan didn't care too much, after all, she herself was a martial artist who focused on movement speed.

Some professionals, in order to pursue the ultimate, will choose to mainly add one attribute.

Normally speaking, the most useful attribute to mainly add is movement speed.

Because even if other attributes are improved, there will be more obvious defects.

For example, mainly adding health points, without double resistance, that is a mobile blood bank.

It is still a blood bank with very slow movement speed.

If you mainly add armor or magic resistance, the defects are also very obvious, that is, you can only resist physical damage or magic damage, and the health points will not be too high.

Attack speed, blue amount, double penetration, etc., the most useful thing to look at is attack speed, but only attack speed requires extremely powerful front-row support.

Otherwise, it is very likely that you will be killed by assassins or high-burst warriors.

Only movement speed is the best, you can kite if you can beat it, and you can run away if you can't beat it.

It's really that all martial arts in the world can only be broken by speed!

Next.

Shangguan Qinglan was still attacking Lin Tianhao frantically, but every time she was always a little short.

Lin Tianhao's movement speed was not a little bit faster than her, but about fifteen points!!

In addition, Lin Tianhao's fiery eyes can observe Shangguan Qinglan's movements in detail, so as to predict her moves.

Prediction + movement speed suppression!

There is now this scene where Lin Tianhao can avoid Shangguan Qinglan's attack every time.

“Is it a bit too much for high-grade students to come here to abuse newbies!”

It was still the woman who instigated Shangguan Qinglan to take action earlier.

Lin Tianhao frowned slightly, “I didn't like you from the beginning.”

As soon as the voice fell.

Lin Tianhao directly activated the Heavenly Punishment state.

“咻咻” Two arrows shot out.

The feathered arrows cut through the sky and arrived in front of the woman in the blink of an eye.

In the Heavenly Punishment state, the arrow speed of the feathered arrows did not get a very obvious improvement.

Lin Tianhao also wanted to see how his attack in the Heavenly Punishment state was bound to hit.

When the feathered arrow reached the woman, three overlapping golden shields appeared in front of the woman.

However.

The feathered arrow did not collide with the golden shield, but penetrated the golden shield.

The woman was slightly surprised, seemingly not expecting that Lin Tianhao's attack would ignore her shield.

Her figure blurred and disappeared.

But along with her disappearance were Lin Tianhao's feathered arrows.

When she appeared in the other corner of the classroom, the feathered arrows still appeared in front of her.

Critical hit!!

-8.99 million!!

-798!

The second damage number was not full damage.

This woman had already hung up.

“I thought you were so powerful, but it turns out you're just so-so.”

Lin Tianhao said contemptuously, this woman talked too much, which made him unhappy.

If this kind of person doesn't die, who will?

A look of astonishment appeared on Shangguan Qinglan's face.

“How could you be so strong?!”

Lin Tianhao didn't explain, he was just here to join in the fun, since the other party had attacked him, then he didn't need to be soft-hearted.

“Brother, please spare me, I was instigated, and I have absolutely no intention of offending you, big shot.”

Shangguan Qinglan knelt down to Lin Tianhao with a plop.

Her somewhat infantile loli face was full of grievances.

Chapter 442 - Eight-lin spider spirit!

“If begging for mercy worked, what would be the point of force?”

Lin Tianhao drew his bow and aimed at Shangguan Qinglan.

“A little puppy from the first grade, running wild in our second grade's territory, are you looking down on us teachers?”

Hearing this.

Shangguan Qinglan's face lit up with joy, “Teacher Ji, you've finally arrived! Sister Tongtong has already been killed by him. If you hadn't come, I would have been unable to escape death.”

“Teacher Ji, you must uphold justice for us!”

A faint smile appeared on Lin Tianhao's face, his gaze falling on this Teacher Ji.

This Teacher Ji had a very good appearance, especially her figure, a typical anime figure.

Yes.

Bright and dazzling, too attractive.

“She only said that I attacked, but didn't say that she killed two of our first grade class six students first, nor did she say that she attacked me first.”

Ji Hongyan's gaze fell on Shangguan Qinglan.

Shangguan Qinglan immediately explained: “Teacher Ji, they came to our class to cause trouble. The two who died were the ones who attacked me first.”

Ji Hongyan's gaze fell on Lin Tianhao, obviously wanting to know the reason.

Lin Tianhao spread his hands, "She tricked a freshman from our first grade class six, making him age a lot."

"Isn't it reasonable for two freshmen to come and cause trouble?" Lin Tianhao asked.

"Then isn't it also reasonable for them to be killed if they weren't skilled enough?" Ji Hongyan retorted.

Lin Tianhao spread his hands, "But I'm just a bystander, they shouldn't have attacked me."

Hearing Lin Tianhao's words, Ji Hongyan smiled and said: "Don't you know that it's easy to get hit when watching a show?"

"Then hit me, I, this junior, am asking the seniors for guidance, is there a problem?"

"No problem, of course there's no problem. Xiao Chen, since someone wants to ask us for guidance, then you should give him some pointers."

As soon as the words fell.

A little fatty stood up in the back row of class six.

"Yes, Teacher."

The little fatty showed Lin Tianhao a mischievous smile, "Junior, are you ready to be sanctioned by me?"

Lin Tianhao didn't care. Although his attack speed wasn't great under the Heavenly Punishment state, headlocking was an unsolvable problem.

At least it was unsolvable below the Saint level.

“Shoo, shoo—”

Although Lin Tianhao had enough confidence in his own strength, it didn't mean that he would underestimate the enemy.

Underestimating the enemy makes it easy to capsize in the gutter.

Lin Tianhao had seen too many cases of the weak defeating the strong in his previous life, and he had also seen many geniuses with better skills and equipment, but in the end, they fell into the hands of some seemingly mediocre people.

This little fatty looked very mediocre, so Lin Tianhao naturally wouldn't underestimate him.

The little fatty didn't try to dodge, a protective shield appeared on his body.

Critical hit!

- 4.5 million!!

- 4.5 million!!

The feather arrow hit, and two huge damage numbers appeared above his head.

“Immunity to critical hit damage?”

Lin Tianhao was a little surprised, but it was still within acceptable limits.

“How could this be?”

The little fatty was stunned!!

He looked at Lin Tianhao in disbelief, "Why didn't you lose any health?"

"Is there any damage reflection?"

Lin Tianhao then realized that he had the buff of the Brain of Heavenly Punishment, so he wouldn't be affected by damage reflection at all.

"Moreover, how could I still take such a high amount of damage."

But Lin Tianhao was too special. The Brain of Heavenly Punishment could ignore damage reflection, and Lin Tianhao's normal attack damage was true damage.

Damage reduction was powerful, but under normal circumstances, it couldn't reduce true damage.

"A normal attack with as much as 4.5 million true damage, who exactly are you?"

The little fatty looked at Lin Tianhao in disbelief.

"Senior, the battle isn't over yet."

"No, I'm not fighting anymore. Who can fight you?"

The little fatty sat back down with a thud. This wasn't an opponent that a human could fight at all.

Too damn perverted.

Ji Hongyan looked at Lin Tianhao with a smile, "Student, it seems you are really powerful. I wonder if you are interested in coming to our second grade class six."

"I'm actually looking for Teacher Wen to process my transfer certificate."

"Oh? You're looking for Wen Suyao. She's on the fourth floor. You can go directly to find her." Ji Hongyan said.

Lin Tianhao frowned slightly. He felt that Ji Hongyan's words were a bit unreliable.

Previously, he had tried to understand the situation on the fourth floor. Although he hadn't gone up there, the ominous feeling of oppression still made Lin Tianhao feel that the fourth floor should be very dangerous.

"Thank you."

Lin Tianhao turned and left.

He returned to the first floor.

He wanted to see what the consequences would be for being killed in the Godslayer Academy.

Returning to class six on the first floor, Shu Nanpeng, Yu Yan and his sister had not appeared.

Arriving at the classroom, Lin Tianhao didn't knock this time. He wanted to gamble, to gamble that his previous guess was correct.

"Creak..."

The classroom door opened, and there wasn't a single person in the classroom.

The key point was.

He didn't knock, but he didn't suffer any damage.

This showed that his previous guess was correct. Putuo Tianlong was not attacked because of knocking on the door.

He most likely triggered some other rules, leading to the attack.

“Drip...”

“Drip...”

Lin Tianhao had just entered the classroom when the sound of dripping water came from inside, and a sense of oppression surged into his heart.

“My lord, I'm afraid you've been tricked.” The voice of the Black Heart Dragon sounded in Lin Tianhao's mind.

Lin Tianhao looked up, and saw a monster with a human head and a spider body on the ceiling of the classroom.

And the sound of dripping just now was her saliva.

Eight-Forest Spider Demon: Unknown.

Health Points: Unknown.

Attack: Unknown.

Skills: Unknown.

Introduction: A juvenile Eight-Forest Spider Demon. Please note that it is extremely dangerous. If you encounter it, please stay away as soon as possible.

“This is the juvenile stage, otherwise you would have already been a pile of meat just now, my lord.” The Black Heart Dragon's voice sounded again.

As his voice fell, the juvenile Eight-Forest Spider Demon had already pounced on him.

“Shoo, shoo, shoo—”

Lin Tianhao maximized his attack speed, but to no avail, as the eight spider legs swept away all the feather arrows.

At the moment when the opponent got close, Lin Tianhao sacrificed the Asura Divine Sword!

This was a divine weapon, and he wanted to see if the Eight-Forest Spider Demon could withstand it in the face of a divine weapon.

“Slash—”

The Asura Divine Sword struck down, cutting into half of the Eight-Forest Spider Demon's leg.

As Lin Tianhao pulled out the sword, he forcibly cut off one of the Eight-Forest Spider Demon's legs.

“Non-datafied creature...”

Lin Tianhao was a little surprised. In the Twilight of the Gods, basically all creatures were datafied.

The body was a holographic virtual datafied creature. No matter what attack, theoretically, it could only deal damage, and could not really break hands and feet.

Of course.

There were also some creatures that had this ability when they were datafied, but even if they could perform the operation of breaking hands and feet, from a certain point of view, it should still show blood loss.

However, after Lin Tianhao cut off one of the Eight-Forest Spider Demon's legs, it didn't show any blood loss!!

Chapter 443 - Creatures of the starry sea!

Two possibilities.

One is that the Eight-Legged Spider Demon is an extremely rare non-datafied creature.

The other reason is that the Eight-Legged Spider Demon's broken leg simply doesn't bleed.

To know the reason, you just need to strike the Eight-Legged Spider Demon with a sword.

"Clang clang clang—"

Lin Tianhao, wielding the Shura God Sword, continuously blocked the Eight-Legged Spider Demon's attacks.

Finally.

During a break in the Eight-Legged Spider Demon's attacks, Lin Tianhao struck its forehead with his sword.

Half of the Eight-Legged Spider Demon's forehead was cleaved off by Lin Tianhao, and dark green liquid splattered everywhere.

After its forehead was cut off, the Eight-Legged Spider Demon struggled for a moment before collapsing.

From beginning to end.

No damage numbers appeared above its head.

This confirmed Lin Tianhao's guess.

This Eight-Legged Spider Demon is a non-datafied creature.

The entire Milky Way world was created by the God of Origin, so logically, any creature appearing in the Twilight of the Gods should be datafied.

Unless... this Eight-Legged Spider Demon doesn't belong to the Milky Way world.

"Blackheart Dragon, do you know what this thing is?"

After killing the Eight-Legged Spider Demon, Lin Tianhao didn't receive a system notification, which further confirmed his guess.

"The Eight-Legged Spider Demon is a Star Sea creature."

"Star Sea creature?" Lin Tianhao had never heard this term before.

"The Milky Way world where you are, Master, and the Arlette world where I am, you can think of them as main cities, while the Star Sea is the wilderness."

Lin Tianhao roughly understood what this meant, but how could a Star Sea creature appear here?

"Master, the eight legs of this juvenile Eight-Legged Spider Demon can be used to refine a demigod artifact. If it were an adult, they could be used to refine a god artifact."

Lin Tianhao was somewhat surprised. Were the spider legs of the Eight-Legged Spider Demon really that amazing?

"Don't be surprised. The Eight-Legged Spider Demon itself is a god-level creature. After we become gods, if we want to obtain better things, we often need to enter the Star Sea, so I know a thing or two about these Star Sea creatures."

Lin Tianhao was even more astonished. "A god-level creature, that's a bit too terrifying."

"Terrifying?"

Blackheart Dragon shook his head. "That's because you don't know, Master, that there are saint-level creatures in the Star Sea, and even creatures with the same realm as that one."

Lin Tianhao was indeed very surprised.

He thought that existences at the level of the God of Origin should exist, but there definitely wouldn't be too many.

But now it seemed that he was thinking too simply.

"Materials that can refine a demigod artifact are not bad either, I'll keep them for now."

Lin Tianhao stepped forward, preparing to cut off the eight spider legs.

But at this moment, a faint, almost imperceptible spider silk appeared in front of the juvenile Eight-Legged Spider Demon.

If Lin Tianhao didn't have the Fiery Eyes, he probably wouldn't have noticed it at all.

This spider silk didn't appear out of thin air; it was spat out by another spider.

Lin Tianhao looked in the direction of the spider silk and saw an Eight-Legged Spider Demon, noticeably larger, clinging to the wall.

Eight-Legged Spider Demon: Unknown.

Health Points: Unknown.

Attack: Unknown.

Skills: Unknown.

Introduction: An adult Eight-Legged Spider Demon is comparable to a god. If encountered, please do not run around, or you may be cut into pieces by invisible spider silk at any time.

Don't run around?

Lin Tianhao knew that feather arrows would be blocked, so he directly activated the Heavenly Punishment state.

"Swish swish—"

With his current output ability, these two arrows only managed to break the skin, which was truly disappointing.

Or rather.

This god-level Eight-Legged Spider Demon was a bit too strong.

After being attacked, the Eight-Legged Spider Demon roared at Lin Tianhao and instantly charged towards him.

Its speed was very fast, its movement speed was no less than one hundred.

In other words.

Its movement speed was faster than Lin Tianhao's.

Lin Tianhao immediately retreated, but two faint spider silks had appeared behind him at some point.

Fortunately, Lin Tianhao saw them, otherwise he would probably have suffered.

While narrowly avoiding the spider silk, Lin Tianhao spent over ninety-three thousand free attribute points in one breath, increasing his movement speed to one hundred.

After a fifty percent increase, Lin Tianhao's movement speed suddenly reached one hundred and fifty!!

The Eight-Legged Spider Demon's movement speed was very fast, but Lin Tianhao's movement speed was even faster. He was able to avoid the Eight-Legged Spider Demon's attacks every time, and used the Heavenly Punishment state's guaranteed hit characteristic to attack it.

But the classroom was too small. Before fifteen seconds of fighting had passed, the classroom was filled with spider silk.

Lin Tianhao's Shura God Sword could cut the spider silk, but it could only cut one strand at a time.

Moreover, it wasn't easy to cut; it required both cutting and pulling.

These spider silks brought Lin Tianhao huge trouble.

"Damn it, am I going to have to use the power of a god again?!"

Lin Tianhao had a headache. He tried to clash with the Eight-Legged Spider Demon.

The enormous force almost sent him flying.

"Even if you want to find a sparring partner, you shouldn't be this fierce!"

Lin Tianhao wanted to cry but had no tears.

This was a god-level creature!

"Immortal Slaughtering Sword Formation!"

Lin Tianhao used his signature move.

Four flying swords continuously besieged the Eight-Legged Spider Demon, allowing Lin Tianhao to catch his breath slightly.

It was definitely impossible in the classroom, but the classroom was surrounded by spider silk, so it probably wouldn't be easy to break out.

For a time, the battle fell into a predicament.

Lin Tianhao relied on the Immortal Slaughtering Sword Formation to once again hold off the Eight-Legged Spider Demon.

The Eight-Legged Spider Demon also seemed to know that it couldn't use the power of a god, so it had been suppressing its power to fight Lin Tianhao.

"Shhh—"

Lin Tianhao was still careless and was scratched on the arm by a spider silk.

A bloodstain instantly appeared on his arm, and then, a huge damage number popped out above Lin Tianhao's head.

-10.01 million!!

Just one instance of damage was already too much for Lin Tianhao to handle.

This guy was so perverted even while suppressing his power. If he didn't suppress it, even gods would probably have difficulty killing it.

"Instead of staying in your nest, you came here to bully my students."

An icy, bone-chilling voice came, and then Lin Tianhao saw Wen Suyao walking over in her stiletto heels.

The Eight-Legged Spider Demon roared unwillingly and then scurried away.

Wen Suyao's deterrent force was actually so great.

"Thank you, Teacher Wen, for the rescue."

Lin Tianhao was very clear that he was no match for the Eight-Legged Spider Demon. If the battle continued, he would definitely be defeated.

He might even be killed.

"Come with me, it's time to complete your enrollment procedures."

Lin Tianhao nodded and followed Wen Suyao.

"You've already left, why did you come back?" Wen Suyao asked casually.

"Of course, it's to learn god-slaying techniques."

Chapter 444 - Look down on the newcomers in the galaxy world?

Lin Tianhao didn't mention anything about the Arlett Star System.

After all, this Godslayer Academy gave Lin Tianhao an extremely oppressive feeling, as if everyone here had problems.

"Teacher Wen, someone called someone else 'teacher' before and quickly aged. Do you know what's going on?"

Lin Tianhao really wanted to know the reason.

Wen Suyao frowned. "You're talking about those two newcomers? Their mistake wasn't calling someone 'teacher'. 'Among three people walking together, there must be one who can be my teacher.' There's nothing wrong with calling someone 'teacher.'"

Hearing this.

Lin Tianhao understood somewhat.

It was another misdirection.

Just like before, when someone was misleading them that they had to knock to enter the classroom.

"How many grades are there in this Godslayer Academy?" Lin Tianhao asked.

Wen Suyao glanced in the direction of the teaching building and shook her head. "I don't know. I can only come into contact with four."

Wen Suyao's answer surprised Lin Tianhao a little, but he didn't pursue the question and changed it.

"How could Star Sea creatures appear here?"

Wen Suyao was a little surprised. "You even know about Star Sea creatures? No wonder someone analyzed you and said you know a lot about the Twilight of the Gods. Who exactly are you?"

Lin Tianhao smiled awkwardly. "Teacher Wen, you're thinking too much."

"The reason I know these things is because of the Blackheart Dragon."

The God Conferment List was something bestowed by the Source of Dao God. This secret could be kept from others, but it wasn't really necessary for Wen Suyao.

"You don't need to explain. The Godslayer Academy itself is in the Star Sea. It's normal to have Star Sea creatures."

"In the Star Sea?"

Wen Suyao said very seriously: "Therefore, in the Godslayer Academy, you might encounter any kind of existence."

"If it weren't for the adults' mercy, not wanting you to be easily crushed by the Arlett Star System, they wouldn't have made an exception to open the Godslayer Academy to you."

While talking to Wen Suyao, Lin Tianhao had already passed through the teaching building and arrived in front of a small building behind the teaching building, entirely made of stone.

"This is the teachers' office building. The Godslayer Academy has its own rules. In the adults' words, the rules of survival never exist in the form of rules and regulations."

"What it takes to survive here always depends on yourself."

"Here, there are Star Sea creatures, foreign creatures, and there may even be other creatures from the Arlett Star System lurking."

Entering the small building.

Wen Suyao's office was on the far right, corresponding to the location of Class Six on the first floor of the teaching building.

Behind Wen Suyao's desk, there was a huge skeleton.

It was a strange humanoid skeleton. The reason it was said to be strange was because the skeleton had a pair of wings on its back.

With the wings spread out, they were five or six meters long.

"This is a God-level Waterwing Birdman. It was the strongest Star Sea creature I've ever killed. It was also that time that I suffered incurable wounds."

"In order to heal the wounds on my body, I stayed at the Godslayer Academy to teach students."

Lin Tianhao nodded secretly. From the previous fear of the God-level Eight-Lin Spider Demon towards Wen Suyao, it could be seen that this Waterwing Birdman should be much more powerful than the Eight-Lin Spider Demon.

But these were not important to him. It wasn't time for him to go to the Star Sea yet.

Wen Suyao quickly prepared a transfer certificate and gave it to Lin Tianhao.

"Take this transfer certificate and go forward along the road. You will see the new teaching building."

Lin Tianhao was slightly stunned. "Not the previous teaching building?"

"You are a special excellent student. It would be a bit of a downgrade to be in an ordinary class."

Lin Tianhao didn't know whether to laugh or cry. "Is this also divided into ordinary classes and special excellent classes?"

"Yes, but I prefer to call it the Devil Class. Anyway, be careful after you go."

Lin Tianhao didn't know the reason, but he would know after he went.

Taking the transfer certificate, Lin Tianhao walked forward along the teachers' office building and soon saw a more ancient and heavy teaching building.

This teaching building stood alone there, as if it were a man-eating demon.

Arriving in front of the teaching building, a man with long hair and a somewhat unconventional dress smiled.

"The Milky Way World can actually produce a special excellent student. It's really rare."

Lin Tianhao's eyes fell on this non-mainstream man, and he asked with a smile: "What's your name?"

"Luo Bingyu, I arrived a day earlier than you. You're here, and we've gathered five people."

"Five people? Could it be that there is a quota requirement for starting a class."

Luo Bingyu nodded. "Yes, at least six people form a class, because here, what we have to learn is teamwork."

Lin Tianhao knew the importance of teamwork, but he didn't know the person in front of him. If they were to form a team, how much cooperation could they have?

"Don't show that kind of look. If possible, we are the least willing to team up with people from your Milky Way World."

A woman with a high ponytail walked out of the teaching building. She looked at Lin Tianhao with a bit of contempt.

"If it were the Primordial Era, your Milky Way World might have some amazing talents, but now, the little bit you have in the Milky Way World really doesn't arouse any interest."

Lin Tianhao's eyes narrowed. "You seem to look down on me very much."

"It's not directed at you. I'm just stating the facts. What amazing talents can emerge from a civilization that has only been in the God-Making Era for five months?"

Lin Tianhao smiled noncommittally. "Whether I am an amazing talent or not is another matter. Since you need to be my teammate."

"But you still have to say these words that destroy team friendship. In our Milky Way World, this is generally called... brainless!"

Lin Tianhao's voice was not loud, but it instantly changed the high ponytail woman's face.

"You dare to scold me!"

Lin Tianhao spread his hands. "Don't misunderstand. I'm not targeting you, just targeting your chest... You're not that big either, so why are you so brainless?"

"Courting death!"

The high ponytail woman's eyes were about to spew flames. She shouted angrily and immediately attacked Lin Tianhao.

"Stop!"

A figure stood in the center of the two, and an invisible aura emanated from him, separating Lin Tianhao and the high ponytail woman.

The high ponytail woman frowned slightly and said somewhat displeased: "Brother Yuan, what do you mean? Are you helping someone from the Milky Way World to bully us?"

The man in green looked calm. He said lightly, "Gu Fu, this new student is right. If you have time, you can not team up with him. If you want to team up with him, you shouldn't have said those words just now."

"Apologize!"

"What?"

Gu Fu looked at Brother Yuan with a look of astonishment. "No, Brother Yuan, you actually want me to apologize to him? Why? A newcomer from the Milky Way World, what qualifications does he have to make me apologize to him."

A cold light flashed in Lin Tianhao's eyes. "Since you look down on our Milky Way World so much, then I, this newcomer from the Milky Way World, will ask you for advice. You shouldn't refuse, right!"

Chapter 445 - Lin Tianhao VS Gu Fu!

Hearing Lin Tianhao's words, Gu Fu did not back down.

"That's exactly what I want."

"Brother Yuan, he's asking for death, so don't blame me."

Brother Yuan glanced at Lin Tianhao meaningfully, "Friend, it's true that Gu Fu's words were inappropriate."

"But you are, after all, just a newbie, and the Galaxy World's God-Making Era has only been open for five months."

Lin Tianhao raised his hand to interrupt Brother Yuan, "If we don't settle this today, we'll always feel uneasy."

Brother Yuan hesitated.

He knew Lin Tianhao was right.

Even if he played peacemaker today, there would already be a gap between Lin Tianhao and Gu Fu.

This would be very detrimental to forming a team later on.

It would be better to let them fight it out; they are both geniuses, and letting strength speak is the most appropriate thing to do.

"Alright, since that's the case, then I'll be the judge. Neither side can use God-level items, any objections?"

Not far away, Luo Bingyu smiled and said, "Brother Yuan, you're being a bit biased. You know that newcomers in the Galaxy World can't possibly have God-level items, yet you're still making such a request."

Brother Yuan frowned slightly, "Gu Fu, if you feel it's unfair to you, you don't have to accept it."

"No, I accept."

Gu Fu revealed a smile, "If I need God-level items to deal with a newcomer from the Galaxy World, wouldn't that be too degrading for me?"

Lin Tianhao had the Artifact Shura God Sword, but he currently lacked warrior skills and hadn't changed to any powerful hidden class.

He could accept this condition.

At the same time,

Lin Tianhao also realized something terrifying.

These people probably all had God-level items.

"Come on."

Lin Tianhao summoned the Netherworld Longbow, looking at Gu Fu with a calm expression.

"An archer?"

Gu Fu was somewhat annoyed.

She knew that Lin Tianhao had some ability to come here.

It was even possible that he was one of those classes that were relatively strong in one-on-one combat.

But now it seemed that she was wrong.

Archers generally play a supporting role in the back row of a team, suppressing all directions with continuous output.

But if we're talking about one-on-one combat, the archer's disadvantages are too obvious.

Most directly,

Low dual resistance, low health, insufficient burst damage!

These are all the shortcomings of an archer.

The key is that in a battle between experts, the hit rate of arrows will be very low; they will either be dodged or knocked away.

"Three Heads, Six Arms!"

"Heavenly Punishment..."

Lin Tianhao knew that his opponent was not an ordinary person, and he couldn't underestimate her.

Moreover, he was now representing the Galaxy World in this battle, so he couldn't give the opponent any chances.

Under the Heavenly Punishment state, Lin Tianhao's attack speed was reduced to 2.23, but with Three Heads, Six Arms, Lin Tianhao could still fire six arrows per second.

As for Five Arrows Fired Simultaneously!

Lin Tianhao tried it, but couldn't do it at all under the Heavenly Punishment state.

Trying to exploit a BUG was not possible.

"Eight-Sided Dimensional Slash!"

At the same time as Lin Tianhao attacked, Gu Fu also made her move.

She unleashed a slash, and eight streams of sword energy appeared around Lin Tianhao simultaneously, enveloping him.

"Space Lock!"

Seemingly worried that Lin Tianhao would escape, she also released Space Lock.

Lin Tianhao fired six arrows per second, the arrows passing through the sword energy of the Dimensional Slash.

"Eh..."

Luo Bingyu made a soft sound, obviously noticing that Lin Tianhao's arrows clearly collided with the Dimensional Slash, but in the end, they passed through each other.

Invincible Golden Body!

Lin Tianhao was not clear about the lethality of the opponent's attack, so to be on the safe side, he chose to activate the Invincible Golden Body.

Immune!

Immune!

.....

The eight Dimensional Slashes arrived first, actually hitting Lin Tianhao first.

This made Lin Tianhao realize that even if Heavenly Punishment guaranteed a hit, it would still be affected by projectile speed.

After all, hitting after flying for two seconds was still a hit, and hitting after flying for 0.5 seconds was also a hit.

Sometimes, dealing damage first can have a huge impact on the situation.

Critical Hit!

- 6.75 million!!

- 6.75 million!!

.....

Lin Tianhao landed a critical hit, but the damage wasn't maxed out.

"Nullifies fifty percent of critical hit damage..."

Lin Tianhao frowned slightly.

His critical hit wasn't pure true damage; the Super God-level Talent True Damage was currently only three percent of maximum health.

And the effect of double true damage was to double the damage based on the basic attack damage.

Currently, that was 4.5 million!

And critical hits could also be considered true damage, but they weren't as powerful as the Super God-level Talent and double true damage.

It was a basic attack with a critical hit true damage effect; if it encountered critical hit nullification, the damage could be nullified.

However, this damage effect was already very terrifying.

Six arrows, over forty million damage!

But!

This Gu Fu also had a skill similar to the Bloodthirsty Dragon Armor; after Lin Tianhao dealt over forty million damage, she recovered twenty million health.

In reality, Gu Fu only lost twenty million health.

But even so!

Gu Fu's health bar only dropped by about one-sixth or one-seventh.

"A bit interesting."

Brother Yuan nodded lightly, "Basic attacks are guaranteed to hit, and the burst damage is high."

"I just don't know how many life-saving methods he has similar to just now, and whether it's enough to support him to defeat Gu Fu."

Gu Fu was also frightened by Lin Tianhao's damage ability.

"Hmph, you do have some ability, but I can withstand your damage, and how long can your invincible skill last?"

Gu Fu snorted coldly, and in the next instant, she appeared behind Lin Tianhao like a ghost.

Lin Tianhao still calmly nocked an arrow and drew his bow.

Arrows were fired one after another.

But Gu Fu's speed was too fast; Lin Tianhao had only fired three arrows under Three Heads, Six Arms when Gu Fu's broadsword was already upon him.

Lin Tianhao still held Space Blink and Shadow Chasing Instant Kill in his hand.

But he didn't use them; he wanted to gamble, gamble that Gu Fu's strike couldn't kill him.

However, that didn't mean he would sit still and wait for death.

He switched his weapon to the God-Slaying Whip.

"Clang—"

The God-Slaying Whip blocked Gu Fu's strike, but the enormous power from Gu Fu's strike still made Lin Tianhao stagger.

"Ninefold Falling Blade Formation!"

Gu Fu used the skill again, and a formation plate formed under Lin Tianhao's feet.

Lin Tianhao found that within the formation plate, Shadow Chasing Instant Kill and Space Blink had turned gray, indicating that within this formation plate, he would be unable to use movement skills.

And above his head, countless broadswords fell; if he didn't avoid them, Lin Tianhao had no doubt that these broadswords could instantly kill him.

Although this formation plate prevented the use of movement skills, it didn't mean he couldn't move.

Lin Tianhao's body turned into an afterimage and rushed out.

"Four-Sided Space Wall!"

Four spatial barriers appeared simultaneously, trying to trap Lin Tianhao.

Lin Tianhao instantly deactivated the Heavenly Punishment state, firing five arrows simultaneously; at sixty attack speed, three hundred arrows per second.

Chapter 446 - Sky-patrolling Skill: The Return to the Void!

With three heads and six arms, that's nine hundred arrows per second.

Of course.

Only two heads and four arms can simultaneously attack a space barrier in one direction, but even then, it's six hundred arrows per second.

Breaking a space barrier doesn't even take 0.1 seconds.

The instant the space barrier shattered, Lin Tianhao rushed out.

With a movement speed as high as one hundred and fifty, he only left an afterimage in the air.

"So, you only know how to run?"

Gu Fu's brow furrowed, and just as she finished speaking, she saw a large number of flaming meteors smashing down towards her from the sky.

This was precisely Lin Tianhao's passive effect, Heavenly Fire Meteor.

Just before the sword formation formed, Lin Tianhao used his Heavenly Punishment state to release three arrows.

These three arrows were guaranteed to hit, dealing damage while also triggering Heavenly Fire Meteor.

"Space Shift..."

Gu Fu directly used a shift, appearing in front of Lin Tianhao, and at the same time, she swung her greatsword down at Lin Tianhao's head.

Lin Tianhao frowned slightly, and as he released his feathered arrows, he also used the Godsmacking Whip to block.

But just as the Godsmacking Whip was raised, Gu Fu's greatsword changed its move.

Folding Swan?

Although it wasn't pure Folding Swan, there was a shadow of Folding Swan within it.

But Lin Tianhao didn't care, the Folding Swan he himself had mastered wasn't just for offense.

In defense, his Folding Swan was equally powerful.

"Clang clang clang——"

Lin Tianhao abandoned the Heavenly Punishment state at this time, and although his attack speed of sixty was still somewhat behind Gu Fu's.

Lin Tianhao was, after all, in the three heads and six arms state, and with the feathered arrows providing cover, he was able to barely cope.

At the same time.

Lin Tianhao discovered a problem.

That was, under the three heads and six arms state, he couldn't use Heavenly Punishment separately.

For example, having two heads and four arms separately activate Heavenly Punishment, while the other head and two arms don't activate Heavenly Punishment.

Wouldn't that be perfect, with both locked-head output and firepower suppression?

Of course.

For now, Lin Tianhao could only think about it.

After exchanging several moves with Gu Fu, Lin Tianhao immediately opened up the distance.

After all, with a movement speed as high as one hundred and fifty, Gu Fu couldn't possibly catch up.

After opening up the distance, Lin Tianhao once again activated Heavenly Punishment, then locked-head.

-4.5 million!!

Critical hit!!

-6.75 million!!

.....

The output was very stable, and Gu Fu gnashed her teeth in anger.

She once again used a tracking skill to rush up.

"Space Lock: Binding!"

This time, Gu Fu learned to be smart, releasing a control skill first.

"Star Moon Purification!"

Lin Tianhao released Purification, and at the same time, he put away Heavenly Punishment, maximized his attack speed, and shattered all the space chains.

Then, he once again relied on his movement speed to open up the distance and activate Heavenly Punishment to lock-head.

The summary was that when you rush up, I maximize my attack speed; when I open up the distance, I use Heavenly Punishment to lock your head.

If you have control, I have Purification and Super Armor.

"This newcomer from the Milky Way world does have some tricks up his sleeve," Luo Bingyu said.

Brother Yuan shook his head, "If it's just like this, he will still be defeated."

"Gu Fu probably didn't want to use her Domain and Sky-Patrolling Divine Skill, otherwise, it would be too much of a dimensional reduction attack," Luo Bingyu said.

Gu Fu also clearly realized this problem.

If it continued, she would definitely be defeated, there was no doubt about that.

Although it might be a bit like bullying the small with the big, she couldn't be defeated, and even more so, she couldn't be defeated by a newcomer from the Milky Way world.

"Sky-Patrolling Divine Skill: Homecoming of the Void!!"

Lin Tianhao secretly thought something was wrong, he naturally knew the power of Sky-Patrolling Divine Skills.

Therefore...

He didn't hesitate to record it.

The reason it was recording was because Lin Tianhao had previously used Origin Replication to replicate the skill of the little fatty in Ji Hongyan's class.

Currently, the progress of that skill was only three percent, and it would take at least three days to engrave it into a skill book.

This made Lin Tianhao realize that, although Origin Replication was powerful, it didn't mean he could replicate endlessly.

Because he could only record three skills, if he replicated and recorded ordinary skills, when he encountered powerful skills, it would be very difficult to replicate them again.

Especially.

Lin Tianhao deduced that the more powerful the skill, the longer it would take to replicate.

When Gu Fu activated Homecoming of the Void, a smile finally appeared on her face.

She just pointed her finger, and the space around Lin Tianhao regressed, and in the blink of an eye, he regressed to Gu Fu's side.

Gu Fu had been prepared for this.

Lin Tianhao had only just regressed back when the greatsword in her hand was already close at hand.

Lin Tianhao was shocked, and after continuously blocking several attacks, he tried to use his movement speed to open up the distance.

But something similar to what had happened just now appeared.

The space regressed, and Lin Tianhao returned to Gu Fu's side in the blink of an eye.

"Run, I'll see where you can run to today!"

Gu Fu had suffered quite a bit at Lin Tianhao's hands just now, now that she had found an opportunity, she naturally wouldn't show any mercy.

Her attack speed was higher than Lin Tianhao's, and if it weren't for the three heads and six arms, Lin Tianhao wouldn't be able to withstand it at all.

Gritting his teeth.

Lin Tianhao prepared to continue increasing his attack speed.

Spending 96,000 free attribute points, Lin Tianhao's attack speed increased from sixty to eighty.

After his attack speed rose to eighty, Lin Tianhao was finally able to suppress Gu Fu in close combat.

"An amplification method? But this amplification is a bit too strong, the attack speed has increased by about twenty all at once."

Luo Bingyu was somewhat surprised.

Brother Yuan shook his head, "It shouldn't be, he's probably using the free attribute points from Ragnarok to add points."

Hearing this.

Luo Bingyu was somewhat shocked, "His attack speed is already very fast, and he's increased it this much, then he must have spent close to twenty or thirty thousand free attribute points!"

Brother Yuan shook his head again, "No, close to one hundred thousand, or even more."

"How is that possible?!"

Luo Bingyu was incredulous, "One hundred thousand free attribute points, even if he gets the first kill of a boss every hour, it would be difficult to gather this many free attribute points."

"It's not important."

Brother Yuan didn't care too much, "His talent should be related to damage, attack speed relies on free attribute points, it would be very difficult to add it to one hundred."

In the arena.

The battle between Lin Tianhao and Gu Fu continued.

This Homecoming of the Void was a bit too perverted.

All Lin Tianhao could do was stall for time, after all, the duration of a Sky-Patrolling Divine Skill was limited.

It was unlikely that it could be maintained as long as there was energy, like a Domain.

"Clang clang clang——"

The two would collide dozens of times every second, and Gu Fu also realized that Lin Tianhao was stalling for time.

"Divine Power: Thousandfold Illusion!"

Countless illusions instantly appeared around Gu Fu's body, and these illusions surrounded Lin Tianhao, launching attacks on him from different directions.

Although Lin Tianhao had the three heads and six arms activated, he still couldn't completely dodge.

-1.95 million!!

-1.89 million!!

Critical hit!!

-3.88 million!!

.....

Damage numbers emerged from above Lin Tianhao's head one after another.

Chapter 447 - Zhu Xian Sword Formation VS Xuan Kong Wing!

Lin Tianhao was a little surprised, he originally thought Gu Fu's damage would be very high.

But that's it?

It's not that nearly two million damage is low. Looking at the entire Twilight of the Gods, apart from those with god-level talents who can stack attack power, others are probably rare.

But this is the special class of the Godslayer Academy, this level of damage is a bit low.

Moreover.

Lin Tianhao's Bloodthirsty Dragon Armor can now also recover 40% of his health, allowing Lin Tianhao to recover some of the health he lost.

"His health bar is a bit abnormal!"

Luo Bingyu looked shocked. It wasn't that nearly two million damage was low, but because Lin Tianhao's health was too high.

If Lin Tianhao was like them, coming from other God-making eras that had developed for a longer time, they might be able to accept it.

But Lin Tianhao came from a world where the God-making era only started five months ago, this... is unbelievable.

"High health, fast attack speed, fast movement speed, high damage, dual class, and a special state that makes normal attacks always hit. This newcomer from the Galaxy World is not inferior to us."

Luo Bingyu smiled bitterly: "Brother Yuan, it's not inferior to us, compared to you, there should still be a certain gap."

Brother Yuan did not refute, but just watched quietly.

The Thousand Shadow Phantom Divine Power can constantly switch the position of the main body, and it is usually difficult to find the location of the main body.

But it is not absolute.

Fiery Golden Eyes!!

Lin Tianhao's Fiery Golden Eyes can accurately lock the location of Gu Fu's main body.

This Thousand Shadow Phantom only had a slight impact on Lin Tianhao at the beginning, but now Lin Tianhao quickly stabilized it.

“Gu Fu is only able to draw with this newcomer from the Galaxy World by relying on the Sky巡天 Divine Skill. From a certain point of view, he has already won.” Luo Bingyu said.

Brother Yuan shook his head, "No, the requirement is not to use god-level props, just not wanting to affect the balance of the battle due to excessive external force."

“Whether it's the Sky巡天 Divine Skill or the domain, those are their own abilities. After all, being able to comprehend the domain and the Sky巡天 Divine Skill at the fifth revolution is Gu Fu's talent.”

Brother Yuan's words awakened Gu Fu. She originally felt that using the Sky巡天 Divine Skill and the domain was a bit bullying.

She should be a little younger than Lin Tianhao, there is no such thing as bullying at all.

“Newcomer from the Galaxy World, your strength has been recognized by me, but... this battle is destined to belong to me.”

“Sky巡天 Divine Skill: Endless Space裂空!”

Lin Tianhao was shocked. It can be considered very awesome if a person can comprehend a Sky巡天 Divine Skill in their entire life.

He didn't expect that Gu Fu had actually comprehended two Sky巡天 Divine Skills.

While using the Origin to copy and record it, Lin Tianhao finally sacrificed the Immortal Execution Sword Formation.

After the Sky巡天 Divine Skill Endless Space裂空 was activated, the space around Lin Tianhao was constantly torn apart.

Each time the space was torn apart, it would cause more than 1.5 million damage to Lin Tianhao.

Even with the recovery of the Bloodthirsty Dragon Armor, Lin Tianhao still quickly lost tens of millions of health.

Lin Tianhao was not willing to show weakness, the Immortal Execution Sword Formation arrived in front of Gu Fu in the blink of an eye.

A huge sense of crisis surged into Gu Fu's heart.

“Profound Void Domain, open!”

Almost instantly.

Gu Fu opened her domain.

But even after unfolding the domain, Gu Fu was still shrouded in a huge sense of crisis.

Her body immediately shuttled through space and disappeared from the spot.

But how fast was the flying speed of the Immortal Execution Sword Formation? After Gu Fu came out from the other side, the Immortal Execution Sword Formation enveloped her again.

“Interesting, although it is not a god-level prop, it is enough to force Gu Fu into a desperate situation.”

Brother Yuan had a faint smile on his face, "This newcomer from the Galaxy World has given me a lot of surprises."

“Profound Void: Misplaced Space!”

Gu Fu could not sit still and wait for death, and immediately misplaced the space in front, trying to block Lin Tianhao's Immortal Execution Sword Formation.

But the power of the Immortal Execution Sword Formation was too terrifying.

Only two "kaka" sounds were heard, the space shattered, and it killed Gu Fu again.

Gu Fu secretly said that it was not good, her figure blurred, and she disappeared again.

Lin Tianhao's Immortal Execution Sword Formation in the air chased after her relentlessly. At the same time, the main body activated the Heavenly Punishment state and locked her head with arrows that were guaranteed to hit.

“This sword formation is a bit too powerful, Gu Fu is estimated to use her last trump card.” Brother Yuan said.

Gu Fu also realized the power of this Immortal Execution Sword Formation. With these things, she couldn't stop it at all.

“Profound Void Wings!”

A pair of wings landed behind her. This is not a skill, but a prop.

As for what level of prop it is, Lin Tianhao doesn't know.

When the wings appeared behind Gu Fu, Gu Fu's body instantly turned into an afterimage.

No.

It can no longer be described as an afterimage, because Lin Tianhao's Immortal Execution Sword Formation can't catch up with Gu Fu.

When Lin Tianhao first used the Immortal Execution Sword Formation, he didn't let Poseidon, the Sea God, help her restore her mana. His mana can be said to be dropping rapidly.

Moreover.

Lin Tianhao doesn't plan to use the power of the gods, that would be a violation of the rules.

“Attack speed, all converted!”

Lin Tianhao is now going to fight with his back to the water.

His attack speed in the Heavenly Punishment state may become the key to winning this battle.

If he is delayed by Gu Fu until he doesn't have enough mana, it will be as difficult as climbing to the sky if he wants to win.

This battle today.

He has no choice!!

After Lin Tianhao converted all his basic attack speed again, the attack speed in the Heavenly Punishment state increased from 2.23 to 3.11.

The total free attribute points increased is less than one!!

Attack speed conversion is related to the free attribute points consumed by the increase in basic attack speed, not simply based on the attack speed value.

3.11, under the Three Heads and Six Arms, Lin Tianhao can still achieve nine arrows per second.

No matter how fast Gu Fu is, Lin Tianhao's arrows will definitely hit her.

At most, due to the speed of the bullet, the speed of the hit will be slower.

“Although his sword formation is powerful, the mana consumption is too great. If he doesn't have new tricks, Gu Fu will win today.”

Luo Bingyu noticed that Lin Tianhao's mana was decreasing at a terrifying speed and made a prediction.

However.

Brother Yuan shook his head, "No, Gu Fu has been defeated, but it's okay, her arrogant nature always needs someone to 打击 strike her."

“And this newcomer from the Galaxy World is the most suitable candidate to 打击 strike her.”

Luo Bingyu was a little surprised, "But his mana is already low, he can't support this level of sword formation for long."

“What really defeated Gu Fu was not this sword formation...” Brother Yuan smiled.

Chapter 448 - Blue crystal stone and blue talisman!

As Yuan-ge's voice faded, Gu Fu, who had been flying at high speed, plummeted from the sky.

The powerful inertia sent her body crashing violently to the ground, then tumbling hundreds of meters before stopping.

Lin Tianhao had killed her!

"What's going on..."

Luo Bingyu's face was filled with astonishment, hardly daring to believe his eyes.

"It's this newcomer's head-locking feather arrows. With three heads and six arms, he fired nine arrows in a second, forty-five arrows in five seconds."

"Just those forty-five arrows were enough to kill Gu Fu."

As the voice subsided, Gu Fu's corpse gradually faded, eventually disappearing completely.

"She should be at the resurrection altar now. It's good for her to reflect on herself," Yuan-ge said.

With that,

he walked up to Lin Tianhao and smiled, "Hello, newcomer from the Milky Way World. Let me introduce myself, Luo Bingyu and I are both from the Ancient Law World. My name is Li Yuange."

"Snow Emperor," Lin Tianhao said.

"Emperor..."

Li Yuange frowned slightly, seemingly feeling that this word shouldn't come from the mouth of a newcomer like Lin Tianhao.

"I should be a bit older than you. If you don't mind, I'll call you Snow Brother. You can call me Yuan-ge like them."

"Whatever, but I prefer others to call me Snow Emperor."

"Alright, it's just that I usually only hear the title 'Emperor' when referring to my great-grandfather's generation."

Lin Tianhao was slightly startled. He naturally knew what the title 'Emperor' represented.

Most of them were ninth-revolution gods. If applied to a boss, it could be considered a Star Glory or even a Grandmaster level.

But the Grandmaster level wasn't the limit. Above that were the King, Emperor, and Sovereign ranks.

With each rank increase, one's strength would undergo earth-shattering changes.

Just like ten ordinary monsters wouldn't be a match for a single elite monster, even if the level and type were the same, the difference in rank would result in a massive disparity in strength.

It's just that people of that level generally didn't reveal themselves, and Lin Tianhao had only heard of them in his previous life.

As for who they were, he didn't even know their names.

After all, someone like him in his previous life wasn't qualified to come into contact with those big shots.

However,

Li Yuange actually said that his great-grandfather was an Emperor!

Even if it was a ninth-revolution Emperor-rank, they could probably suppress Grandmaster-level, no, King-level false gods.

That was the huge difference brought about by rank!

"You said earlier that there were five people, where's the other one?" Lin Tianhao asked.

So far, he had only seen Li Yuange, Luo Bingyu, and Gu Fu.

Including him, there were only four people.

"Me."

A faint voice came, followed by a young man in a gray-white robe walking out.

"Gu Qingtian, the Gu Fu you just defeated is my sister."

Lin Tianhao was slightly stunned and said with a smile, "Can we still form this team? There's already a rift between us from the start."

Gu Qingtian waved his hand and said with a smile, "Of course we can, and I think our team should be very strong."

"You were originally a newcomer, and logically speaking, you would be our weakness, but you happen to be very strong, especially in terms of output ability."

"Secondly, there's my sister. Our family has some background, and influenced by the idea of raising sons poorly and daughters richly, she's a bit arrogant."

"In the team, she doesn't submit to anyone except Yuan-ge, mainly because even if we defeat her, she feels it's only natural."

With that,

Gu Qingtian changed the subject and said, "But you're different. You're a newcomer from the Milky Way World who started the God-Making Era less than half a year ago."

"Being defeated by a newcomer, her arrogant nature will most likely be restrained. Next, we'll have to see about the sixth person."

Lin Tianhao nodded, "You guys are old timers with deep backgrounds. You'll have to guide me more in the future. If you have anything good, you can also consider giving it to me, strengthening me wouldn't be bad either."

"Hahaha, you kid are quite interesting, wanting to extort something from us as soon as we meet?"

Gu Qingtian couldn't help but laugh, "Your sword array was indeed powerful just now, but the consumption of mana is a bit too high."

As he spoke,

Gu Qingtian took out an irregular crystal from his bosom.

"Although this mana recovery crystal is a one-time item, it can instantly recover 500,000 mana in one second, effectively increasing the duration of your sword array."

Lin Tianhao was just saying it casually and didn't expect the other party to actually give him something.

And it was such a perverted item at that.

Instant recovery of 500,000 mana, this could play a huge role in critical battles.

"Gu Qingtian, you've set a bad precedent. Now that you've given something away, it seems unreasonable for me not to offer something."

Li Yuange smiled helplessly and also took out a light blue talisman from his bosom.

"A mana recovery talisman, not as overbearing as Gu Qingtian's mana recovery crystal, but more stable."

"After use, it recovers 50,000 mana per second, lasting for fifteen seconds."

Lin Tianhao's eyes lit up.

This was also a good thing.

With these two one-time items, his mana recovery would be much more stable.

Especially when using the Immortal Slaughtering Sword Formation, he wouldn't have to worry about suddenly running out of mana.

"Then thank you two brothers."

Lin Tianhao looked towards Luo Bingyu's direction with a smile.

When Luo Bingyu saw Lin Tianhao's gaze, he instantly understood what Lin Tianhao meant.

"No, I don't want to be your brother. From now on, you're my brother, hello Snow Brother."

Lin Tianhao: ???

So stingy?

But he couldn't say anything, after all, the two items he had just received were freebies.

Moreover, Lin Tianhao seemed to have discovered a loophole in the rules.

That was... people from other worlds could give him things for free without being restricted by the rules.

This would be absolutely impossible in Gods' Twilight.

Just like Lin Tianhao now, as the Lord of the Holy Land, he could issue many rewards, but he couldn't give them out for no reason.

Other players had to complete tasks first.

Including when he wanted to obtain the Black Mountain Seal before.

He had to do a task first, but Blackheart Dragon could directly give him the Black Mountain Seal.

This was because Blackheart Dragon didn't belong to the Milky Way World, so he wasn't restricted by the rules of the Milky Way World.

Of course.

Gods not being able to interfere was different, that was a restriction on the upper limit of power.

But thinking of the Black Mountain Seal.

Lin Tianhao couldn't help but think of the Lord of Black Mountain, Zhuge Goudan!

The Black Mountain Seal in his hand had fallen into Blackheart Dragon's hands, and he didn't know how he was doing now.

He was in a hurry to change jobs before, and he forgot to ask Blackheart Dragon why the Black Mountain Seal was in his hands, and what had happened to the Lord of Black Mountain now.

Chapter 449 - Cessing land as compensation? That's impossible!

"Speaking of which, what do we do next? Just wait here for the sixth person to arrive?" Lin Tianhao asked.

He actually had quite a few things to do, and if he could smoothly advance and learn the God-Slaying skills,

that would naturally be no problem.

But if he was just going to wait here, to be honest, he wasn't too willing.

With this time, he could go out and do something else.

“Yes, we can only wait, and we also have to pray that the sixth person who comes can form a team with us, otherwise we have to continue waiting.”

Li Yuange said, he seemed to see Lin Tianhao's thoughts and said with a smile:

“If you have something to do, we can add each other as friends. You go and do your thing, and when the sixth person arrives, I'll notify you.”

“Okay.”

Lin Tianhao also had this intention.

He added Li Yuange as a friend. Li Yuange's name, unlike the players of Twilight of the Gods, was not a fake name.

After adding each other as friends.

Lin Tianhao took a step and returned to the Hall of Mortals.

He wanted to first understand if anything special had happened in the Hall of Mortals and the Boundless Continent during his absence.

Hall of Mortals, above the main hall.

Ouyang Wenlong and Shangguan Hongxun stood below.

Both of them respectfully bowed to Lin Tianhao.

Lin Tianhao didn't care about these formalities. He spoke lightly and said:

"During my absence from the Hall of Mortals, has anything particularly special happened?" Lin Tianhao asked.

Ouyang Wenlong nodded and said: "Yes, according to the information we have obtained, the major holy lands are focusing on cultivating new talents to prepare for the upcoming Holy Land Heavenly Pride Newcomer Battle."

This was within Lin Tianhao's expectations. Winning such a competition would definitely bring generous rewards.

"Since its revival, the Shan Hai Empire has begun to develop rapidly, but in the Youming Sea area, the aura of the Netherworld is constantly pouring into the Shan Hai Empire."

"The area near the Youming Sea has become unable to develop. The revival of the Shan Hai Empire dispelled the aura of the Netherworld in the Netherworld Land."

"But at the current rate, I'm afraid it won't be long before a new Netherworld Land will be born."

Below.

Shangguan Hongxun took over the conversation and continued:

"Hall Master, you captured five cities and ten towns of the Moon Wheel Empire, which was inspiring, but now the Moon Wheel Empire is uniting with other holy lands to put pressure on us."

"They demand that we return the five cities and ten towns that we have occupied from the Moon Wheel Empire, and cede land as compensation to the Moon Wheel Empire."

"Cede land and compensate?"

Lin Tianhao's eyes narrowed slightly, and a cold light flashed from the depths of his eyes.

It seemed that these guys hadn't given up yet. They still thought they could wrestle with him.

It seemed that during his time doing missions in the ancient dynasty, those guys probably thought he was afraid and hiding.

“The five cities and ten towns that I conquered with my own ability, if they want them, they can come and take them themselves!”

“Ceding land and paying reparations? That's even more impossible!”

Lin Tianhao's attitude was firm. Originally, the entire Boundless Continent belonged to their Shan Hai Empire.

“Hall Master, this matter needs to be considered carefully, because the always neutral Boundless Wuji Palace has also publicly stated that they hope we can make concessions for the peace of the Boundless Continent.”

“Once a war breaks out, it will be a waste of manpower and resources, and the people will suffer regardless of victory or defeat!”

Lin Tianhao remained noncommittal. The Boundless Continent was directly suppressing them from the moral high ground.

“Do we need to consider the face of the Boundless Wuji Palace?” Lin Tianhao asked with a frown.

Shangguan Hongxun and Ouyang Wenlong looked at each other.

Their Hall Master was too headstrong, just like the old Hall Master.

“We naturally don't need to consider the face of the Boundless Wuji Palace, but now our Shan Hai Empire is still in the early stages of revival.”

“With your strength, Hall Master, it's not a big problem to contend with the Moon Wheel Demon Palace, Icefire Los Island, and these holy lands.”

“But the Boundless Wuji Palace is different. They have a very deep foundation, especially since this time it's not just the Boundless Wuji Palace's opinion, but several other holy lands are also putting pressure on us.”

Lin Tianhao smiled, “They don't want to open this precedent.”

Shangguan Hongxun nodded, “Yes, Lord, we all know that originally the Boundless Continent belonged to our Shan Hai Empire.”

“If this precedent is opened, they are afraid that we will really have the idea of driving them out of the Boundless Continent in the future.”

Lin Tianhao lightly tapped the armrest with his finger. Although he was strong, it would probably be inappropriate to confront many holy lands with his own strength at this stage.

“The five cities and ten towns will not be returned. Tell the other holy lands that the conflict between the Shan Hai Empire and the Moon Wheel Empire, we don't want them to interfere, otherwise, if we really tear our faces, everyone will be unable to clean up the mess!”

As soon as he heard these words.

Ouyang Wenlong realized what the problem was, and he asked softly: “Hall Master, do you still have the idea of continuing to attack the Moon Wheel Empire?”

Taking the five cities and ten towns was justified at the beginning.

But now, under the pressure of many parties, he still has the idea of continuing to attack the Moon Wheel Empire.

“That's right.”

Lin Tianhao knew that they were absolutely loyal, so he didn't hide anything.

His task was to completely revive the Shan Hai Empire.

At the same time, even without this task, Lin Tianhao would do the same.

If he could rule the Boundless Continent, it would undoubtedly be a trump card when the Great Cataclysm arrives.

Not to mention anything else.

Just the resources alone are a huge number.

War is not a one-on-one fight.

In addition to looking at the combat power of both sides, the resources behind them are also very important.

For example, the two disposable items related to mana regeneration that Lin Tianhao obtained this time.

Maybe there aren't many such items on the Boundless Continent, but there will be many more ordinary recovery items.

Now is still the early stage of the game, so many players don't pay much attention to recovery items and potions.

Because for them, spending gold coins to buy these disposable items is not as good as saving more to buy better weapons and equipment.

In addition to this.

Repairing weapons and equipment is also a bottomless pit.

Most of Lin Tianhao's equipment is in an indestructible state, but most ordinary players are different.

Most of their equipment has durability, and repairing equipment requires gold coins, and severely damaged equipment may even require precious materials, which is even more of a bottomless pit.

Therefore, most players are unwilling to buy disposable consumable items and potions.

But when the Great Cataclysm comes, and Twilight of the Gods merges with reality, it will be completely different.

The resurrection mechanism is eliminated, and even the success rate of the priest's resurrection spell will drop extremely severely.

At that time, if you are not careful, you will really die!

Chapter 450 - The powerful ones from the holy lands are here!

Although the main cities still have resurrection altars, they no longer have the ability to resurrect, only to restore health and mana.

If you encounter danger in the wild, you will need to consume a lot of recovery items.

This is just under normal circumstances. If it is in a state of war, the consumption of resources will be terrifying.

A sufficiently strong resource backing is very necessary.

And the Misty Continent is obviously a good resource backing.

However, now is not the time to attack the Moon Wheel Empire. After all, it is necessary to improve one's own foundation.

It is best to see if you can get some stronger rewards after the Holy Land's New Talent Battle.

Or learn some more interesting skills from the Godslayer Academy.

And... continue to change jobs.

He is currently only a first-turn Sky Punisher Archer, and the only ability he has obtained is Sky Punishment.

Although it is undeniable that Sky Punishment is very strong, this is only the initial state of the Sky Punisher Archer.

Moreover...

According to the information Lin Tianhao learned, there should be equipment exclusive to the Sky Punisher Archer.

This equipment can directly increase the attack speed in the Sky Punishment state.

If the attack speed in the Sky Punishment state can be improved, it will be a huge boost to Lin Tianhao's overall strength.

Not only that.

The Youming Island is still emitting Youming Qi, which is already affecting the coastal areas of the Mountain and Sea Empire, and this matter also needs to be dealt with.

At the same time.

His sister and Fatty also gave Lin Tianhao feedback.

After they entered Fodland City, they were quickly discovered and expelled.

They don't have Lin Tianhao's strength, and they were sent away before they even got any benefits.

This further confirmed Lin Tianhao's guess that Fodland City hides a big secret.

The continuous emission of Youming Qi from Youming Island must be related to Fodland City.

In addition to this.

Lin Tianhao also needs to ripen the flat peach tree and make it bear fruit as soon as possible, which requires a huge number of crystal cores.

Originally, Lin Tianhao was planning to go to the Ancient Dynasty Secret Realm to hunt monsters and obtain them himself, and he could also stack his health points.

But as it stands now, he has a lot of things to do.

Therefore.

The matter of the crystal cores must be handed over to others.

For example... Berserker Blade and several other large guilds!!

Lin Tianhao directly sent a message in the group he created.

"I need crystal cores, the more the better. If you have any, you can support me first, and I can compensate you with equipment, skill books, or life orbs later."

Shura Yize: "Ahhh, Emperor Xue, I want life orbs, the more the better."

Jinghong Mengshuang: "Our guild can still gather a few million crystal cores."

Berserker Blade: "Emperor Xue, we have some crystal core reserves, about 20 million. I have already traded them to you. If the demand is large, I can have people focus on collecting them."

.....

Sure enough.

It was right to find these big guilds. Lin Tianhao only sent a message and successfully collected 40 million crystal cores.

Lin Tianhao didn't keep a single one of these crystal cores, and used them all to ripen the flat peach tree, just hoping that the flat peach tree could bear fruit as soon as possible.

But with these 40 million crystal cores, the progress of the flat peach tree reached 2.09%.

Lin Tianhao didn't know what to say for a moment.

If that's the case.

Then it may really be a bottomless pit.

Thinking of this.

Lin Tianhao sent another message in the group.

"I may need tens of billions, or even hundreds of billions of crystal cores."

Shura Yize: ???

Jinghong Mengshuang: ???

Berserker Blade: Emperor Xue, I can have people specifically obtain crystal cores, but it will take time.

Lin Tianhao pondered for a moment and sent a message in the group:

"One hundred billion crystal cores, three fruits that permanently increase 10 million health points, note that the effects of the fruits are not stackable."

Lin Tianhao knew that time was running out. If you want the horse to run, but don't feed the horse, it will definitely not work.

Shura Yize: "Damn, permanently increase 10 million health points? I didn't hear wrong!!! I have already given orders to my gold farming team, all gold farming teams are investing in farming crystal cores."

Jinghong Mengshuang: "It is necessary to let the elite team take action as well."

Berserker Blade: "One week, give me one week, 100 billion crystal cores, will definitely be delivered."

.....

Each one of them was like they were injected with chicken blood. Crystal cores can be obtained by doing quests in the Ancient Dynasty Secret Realm, and they can also be obtained by killing monsters. There are many ways to obtain them.

As long as you are willing to invest manpower, you can quickly obtain a large number of crystal cores.

Putting aside other things, it is definitely not a problem for a gold farmer to farm hundreds of crystal cores a day, and it is not difficult for the more powerful ones to farm thousands or even thousands.

The reason why they don't have many crystal cores in their hands is because the Ancient Dynasty is always a secret realm.

The main force of these big guilds' gold farmers are not in the secret realm. Generally, elite team members go to the secret realm to explore for good things.

But Lin Tianhao's promise directly made them like they were injected with chicken blood.

Shura Yize: "Brother Daofeng, give me some soup to drink, you are too fierce."

Jinghong Mengshuang: "Yize, it seems we need to join forces, otherwise all the good things will go to the Kuangzhan Guild."

Berserker Blade: "Don't, it costs a lot to raise so many gold farmers."

.....

Lin Tianhao was relieved to see them like this.

I just don't know how many crystal cores the flat peach tree needs to bear fruit, and I don't know if 10 billion is enough.

The key is how many flat peaches can be produced at once!

If the number is too small, then he will suffer a blood loss.

After explaining the matter of the crystal cores, Lin Tianhao decided that he would go to Fodland City again.

No matter what the reason, he must investigate the matter of Youming Island continuously emitting Youming Qi.

At the same time.

Lin Tianhao also had to think about how to issue a national bounty mission to distribute his indicators as the Lord of the Holy Land.

After all, the more rewards he issues, the more rewards he will receive himself.

But as it stands now, Lin Tianhao doesn't have any good ideas.

Just at this moment.

A voice came from outside the door.

"Hall Master, the Second Palace Master of the Misty Boundless Palace and people from the Moon Wheel Demon Palace and Ice Fire Los Island have arrived."

Lin Tianhao's eyes narrowed slightly. Is this a coincidence?

They just got the news and rushed over as soon as he returned to the Mortal Hall.

"Let them in."

Lin Tianhao said lightly. As the saying goes, no one goes to the Three Treasures Hall without a reason. They are probably here with ill intentions today.

The key is.

The Misty Boundless Palace actually came as well.

A group of several people entered the main hall. The leader was wearing luxurious clothes and carried the pressure of a superior.

Lin Tianhao turned on his Fiery Eyes and looked over.

Xiudeli Haotu (Grandmaster): Demigod.

Health Points: ???

Attack: ???

Skills: ???

A Grandmaster-level demigod is about what Lin Tianhao expected.
