Chapter 46: People who shouldn't be under the cliff!

Guild upgrades are based on achievement points.

When achievement points are full, the guild automatically upgrades.

However,

Guild achievement points are very difficult to obtain. Only when the guild makes outstanding contributions can it gain achievement points.

For example, when guild members awaken talents or obtain hidden classes.

Or when they clear dungeons for the first time, or kill bosses for the first time, they can all gain achievement points.

Powerful guilds in the later stages can obtain many rewards.

Just at this moment.

Lin Tianhao noticed the message from Floating Slaughter Shield Mountain.

From the initial concern and worry to later asking if he needed help.

Floating Slaughter Shield Mountain died too early in his previous life, and Lin Tianhao didn't know him well enough.

However, the fact that he could still care about him even when he was continuously losing levels showed that this person valued friendship.

Suddenly.

A voice call came in.

It wasn't from Floating Slaughter Shield Mountain.

But from another of Lin Tianhao's friends.

"Snow Emperor, our captain wants to ask if you can transfer your guild. We are willing to offer 100 million."

Lin Tianhao raised his eyebrows, they were really willing to spend.

One hundred million?!

And it was Shadow Kill. If it were a normal situation, he might have agreed.

But now, he would not agree.

He wanted to take control.

It was a very crucial thing.

What if Lin Tianhao could make the guild increase damage, critical hit, experience, movement speed, attack speed, etc., all by 100%?

At that time, he didn't know how many experts would flock to him.

"Sorry, I don't plan to transfer the guild."

"The price is negotiable," Shadow Kill said quickly.

"It's not a matter of price..."

At this point, Lin Tianhao paused for a moment.

"I don't need money. If you have special equipment, I can consider it."

Shadow Kill was silent, "Wait for me, let me see."

Special equipment.

It was very important.

The Purification Jade Pendant was a special equipment.

Lin Tianhao was able to defeat Old Village Chief and the others in the novice village.

The Purification Jade Pendant contributed greatly.

"Snow Emperor, we don't have special equipment right now. Can we discuss the price further?"

"No."

Lin Tianhao refused very decisively.

The faster the guild was established, the faster it could level up.

His own level could be behind as long as his attributes were up to par.

But the guild level could not be behind, this was particularly important.

Hanging up the voice call.

Floating Slaughter Shield Mountain's voice call came in.

"Snow Emperor, are you okay?!" Floating Slaughter Shield Mountain asked with concern first.

"I'm fine, thank you for your concern," Lin Tianhao replied.

Floating Slaughter Shield Mountain hesitated, but finally said: "Snow Emperor, my father just called me. He wants to ask you, can the guild be transferred? The price is negotiable."

"No."

Lin Tianhao still refused directly.

Floating Slaughter Shield Mountain didn't say much, "Okay then."

"Snow Emperor, remember to take me with you when you come to the main city. The price is negotiable."

"Okay."

Hanging up the voice call.

Lin Tianhao began to ponder the second task.

"In ancient times, the Yellow Emperor's son became a Drought Demon after his death. He fought for the Yellow Emperor against Chi You, but was sealed by Chi You below the novice village."

"Task Requirement: Release the sealed Yellow Emperor's son."

"Task Penalty: All fire attribute attacks you receive in the future will have double the damage."

"Task Reward: Unknown."

Judging from the first task scroll.

His prediction was correct.

There would be blessings from the gods after completion.

It was just a pity.

The third task scroll he predicted, killing the Drought Demon, did not appear.

However.

This task.

It seemed that it was not difficult for him to complete it.

Because he had the Ice Flame Magic Ore in hand, he could open the seal below the cliff.

Arriving at the cliff.

Lin Tianhao had a headache.

Because he didn't know how to get down.

The players who jumped off the cliff before had all died.

Now that the novice village's resurrection altar had been destroyed, if he died, the result would be leaving the novice village and being born in the main city.

Wandering around the cliff for a while, Lin Tianhao still didn't find anything.

"An arrow that pierces the clouds brings thousands of troops to meet!"

Lin Tianhao shot a feather arrow towards the bottom of the cliff.

Result.

There was no reaction.

Then he made a Molotov cocktail and threw it down.

After the Molotov cocktail was thrown down, the fire became smaller and smaller, and finally completely disappeared.

Lin Tianhao had a headache.

At this height, if he jumped down, he probably wouldn't survive.

"There must be some hidden mechanism that I haven't discovered."

Lin Tianhao pondered for a moment and continued to wander around.

If he had known this earlier.

He should have asked the old drunkard for the method to go down.

Lin Tianhao began to try with feather arrows, there must be something he hadn't discovered.

Suddenly.

Lin Tianhao saw steel wires in the mist of the cliff!

If it weren't for the Immaculate Eye.

Lin Tianhao couldn't have seen it clearly.

"So that's how it is."

Lin Tianhao understood, jumped up, and landed on a steel wire.

Then came the second, the third...

It was only Lin Tianhao.

If it were other players, even if they came here, they probably wouldn't be able to stand firmly on the steel wires.

Half an hour later.

Lin Tianhao finally came to the bottom of the cliff.

Here, Lin Tianhao saw a huge Yin-Yang Fish Array.

Lin Tianhao came to the front of the Yin-Yang Fish Array. On top of the two black and white millstones, there were two holes.

The shape of one of them was similar to the Ice Flame Magic Ore, as for the other hole...

He also had the thing corresponding to this hole!

That was the mysterious key that exploded from the Berserk Yellow-Skinned Weasel.

At that time, Lin Tianhao was still wondering what this mysterious key was for.

"Who is it?"

Lin Tianhao had just prepared to open the seal, and his gaze instantly looked towards the end of the canyon.

At the end of the canyon, a figure walked over unhurriedly.

His steps were steady, and his figure was strong.

Because the fog under the cliff was thick, and the distance was relatively far, Lin Tianhao didn't see clearly the person walking from afar.

As the person got closer and closer, Lin Tianhao finally saw his face clearly.

It was just.

After seeing his face clearly, Lin Tianhao's face showed an unbelievable expression.

Even because of shock, his figure couldn't help but stagger back two steps.

"How is this possible?!"

"How is it you!!"

Lin Tianhao simply couldn't believe his eyes.

Once the NPCs in the novice village died, they would be completely dead, and there was no reason to be resurrected.

"You... weren't you already dead?"

The person's face showed a playful smile, and he said unhurriedly:

"Who told you I was dead? What you killed was just my younger brother. For this plan, we have been planning for so long, and we must sacrifice my younger brother to do it."

At this point, he looked at the sky with some regret, "Brother, your death is worth it. Our plan is about to succeed!!"

"Blacksmith Wang is your brother? Who exactly are you? There is no such person in the novice village!"
