

O game 471

Chapter 471 - Kill Olufollan!

"Stop!"

Olufulande knew that he had no chance to escape, and all he could do now was negotiate.

"Snow Emperor, killing me will not benefit you, but will only offend our Cthulhu gods."

"But if you are willing to let me go, I can give you unexpected benefits."

Hearing this.

Lin Tianhao shook his head and said seriously: "For me, killing you is the only way to maximize the benefits."

While speaking.

The Seven Treasures Exquisite Pagoda had already enveloped Olufulande.

Next is the same package as dealing with the Dark Night Spirit God Moirae.

The Book of Life and Death locks the head, and the punishment of heaven locks the head.

With the two major methods locking the head at the same time, coupled with the simultaneous suppression of the four gods.

Olufulande only had the part of being passively beaten.

Really not giving a single chance.

"Snow Emperor, you lunatic, you can't afford the price of killing a god."

Olufulande was furious, but Lin Tianhao remained unmoved, and the feather arrows kept shooting, locking Olufulande's head.

If there were ordinary people here, he might be able to play some tricks by guiding consciousness and thoughts.

But unfortunately, besides Lin Tianhao, everyone else here is a god.

Especially.

In the state of darkness.

Lin Tianhao's attributes doubled, and the damage value was terrifying.

Olufulande's health dropped at a speed visible to the naked eye, and finally it was the same old story.

Lin Tianhao used the punishment of heaven to lock the head to finish.

"Ding, congratulations, you have successfully killed Olufulande, a server-wide announcement is about to be made, do you want to hide your name?"

"No."

at the same time.

Lin Tianhao also wanted to see what rewards he got from the Godslayer imprint after killing Olufulande.

Olufulande: You can influence the consciousness of people whose mental strength is not as good as yours, allowing them to see, hear, and smell everything you want them to perceive.

Note: The greater the difference in mental strength, the greater the probability of success and the greater the impact on consciousness.

Lin Tianhao was stunned for a moment, he naturally knew this method.

After all, he had been affected by Olufulande's method before.

merely.

The basis of this method is mental strength, and Lin Tianhao's mental strength is still unknown.

However, based on Lin Tianhao's own feeling, he has not even given birth to spiritual consciousness, so his mental strength is naturally not very high.

If the mental strength is not high, this ability is a bit ordinary in Lin Tianhao's hands.

But not necessarily.

Lin Tianhao had previously obtained a seventh-grade soul jade, which could greatly improve soul power.

If someone can refine it into a seventh-grade soul jade pill, the effect will be multiplied.

There are alchemists above the seventh rank in the vast continent, and the number is relatively small, but relative to the vast population of the vast continent.

This number is not too small.

But Fandian doesn't have it.

As for the reason, it is because the previous Palace Master of Fandian was too tough in doing things.

Otherwise, he wouldn't have done the feat of killing a god.

Be aware.

Lin Tianhao's god-killing relies more on external forces, relying on the help of other gods to bully those extremely weak gods.

But the previous Palace Master of Fandian was head-on with the Ice and Snow Goddess in full condition, and the two are not the same.

But it doesn't matter.

The fact that Fandian does not have alchemists above the seventh rank is already a foregone conclusion.

On the vast continent, the force with the most alchemists should be the Vast Boundless Palace.

It's just that with Lin Tianhao's current relationship with the Vast Boundless Palace, it is estimated that it is unlikely to ask the people from the Vast Boundless Palace to refine the seventh-grade soul jade pill.

Lin Tianhao didn't want to agree to some bad requests from the Vast Boundless Palace just because he asked an alchemist.

Therefore.

This seventh-grade soul jade can only be kept in hand first.

Lin Tianhao raised his hand and summoned Olufulande.

Olufulande, who was just summoned, was just like the other gods who were included in the Conferred God List by Lin Tianhao, shocked and unbelievable.

merely.

After the shock.

Olufulande had to accept this fact.

Looking at Lin Tianhao now, Olufulande was a little depressed, even a little desperate.

"Let's go, take me to see your masterpiece."

Although Olufulande has been subdued, Lin Tianhao did not show him any good looks.

The Book of Life and Death is still locking Olufulande's head, mainly because what he did was too heinous.

Olufulande knew what Lin Tianhao meant, "My lord, the great world is coming, and I also want to take a step further in this great world."

Lin Tianhao sneered, "That's not the point, the point is that you don't take people seriously at all. In the eyes of your high-ranking god, humans are just livestock, even worse than livestock."

Olufulande was silent.

Because what Lin Tianhao said was correct, at his level, humans were really like livestock in his eyes.

Using some livestock to make himself stronger is no different from a farmer raising cattle and sheep to make himself rich.

Under the leadership of Olufulande.

Lin Tianhao once again saw this place full of nutrient cabins.

"Release them all." Lin Tianhao said indifferently.

"Yes."

Olufulande did not dare to disobey Lin Tianhao's order and released everyone.

Lin Tianhao walked away, because he didn't know how to face these women.

Especially.

He is still Olufulande's master now, which makes him even more ashamed to face them.

After letting go of all the women, Olufulande said:

"My lord, what about this Fulande city?"

"Those lizardmen are all my subordinates, as long as I speak, they will all listen to my arrangements."

"No need."

Lin Tianhao's expression was indifferent, suddenly, he asked again: "Does your Fulande city have alchemists?"

"No."

"Then this place has nothing to do with you."

"I have already issued a mission, how many lizardmen can survive is not something I can control."

Lin Tianhao didn't have any good feelings for Olufulande. If it wasn't for the fact that he was a god and still had some use, Lin Tianhao would have even wanted to tear him apart directly.

After pondering for a while.

Lin Tianhao rewrote the name of the Book of Life and Death to Lunar Crest.

As he said, he is going to launch an attack on the Lunar Empire.

Returning to Fandian again.

Ouyang Wenlong and Shangguan Hongxun were waiting for Lin Tianhao in the hall.

Seeing Lin Tianhao return, Ouyang Wenlong immediately said:

"Palace Master, Lunar Crest sent a letter of surrender, willing to give up one-third of the Lunar Empire's territory, just asking us not to attack them."

Lin Tianhao was stunned for a moment.

"This is a bit unlike their usual style."

Originally, Lin Tianhao thought there would be a hard battle waiting for him.

That's why he wanted to take down Olufulande and the Dark Night Spirit God Moirae first.

But is this the result?

He hasn't even exerted his strength yet and the other party has surrendered?

Chapter 472 - The peaches are ripe!

"Lord Hall Master, according to the information we have, the Moon Wheel Magic Palace has been isolated. The Xitu Holy Land, the Boundless Limitless Palace, and several other Holy Lands are unwilling to help," Ouyang Wenlong said.

Lin Tianhao frowned slightly, "Rather than saying they are isolating the Moon Wheel Magic Palace, it's more like they want a major force to stand up and fight our Mountain Sea Empire."

Each family has its own thoughts. As far as Lin Tianhao knows, among the Holy Lands on the Boundless Continent, the Moon Wheel Magic Palace is at the bottom.

Letting the Moon Wheel Magic Palace consume the Mountain Sea Empire's foundation, the idea is fine, but Yue Lunkecu is not a fool either.

This also explains why Yue Lunkecu would choose to make peace.

"I will personally go to the Moon Wheel Magic Palace. Also, find a way to recruit seventh-grade or higher auxiliary profession masters."

The foundation of the Ordinary Hall is there, but its heritage is insufficient.

The high-level combat power is average, the various auxiliary professionals are average, and the various resources are also average.

It takes a process to develop quickly.

"Yes, Lord Hall Master."

Ouyang Wenlong agreed and then respectfully took his leave.

After seeing Ouyang Wenlong off, Lin Tianhao prepared to go to the Moon Wheel Magic Palace himself.

Since the other Holy Lands want to push the Moon Wheel Magic Palace out to consume him, then he has more room to maneuver.

Lin Tianhao also knew something about the Moon Wheel Magic Palace in his previous life.

There are at least two gods sitting behind it, and it also possesses some means to fight against gods.

But that's all.

If he were to directly defeat the Moon Wheel Magic Palace, it would be entirely possible, but he would inevitably pay a considerable price.

Just then.

Crazy Blade sent a message to Lin Tianhao.

"Snow Emperor, the crystal cores you wanted have been collected by our people to fifty billion, and the remaining fifty billion will be given to you as soon as possible."

Crazy Blade's efficiency is as fast as ever.

After receiving the fifty billion crystal cores sent by Crazy Blade, Lin Tianhao decided to try it out.

See how much the flat peach tree can be improved by smashing these fifty billion crystal cores into it.

Whether it can bear flat peaches as he predicted before.

When Lin Tianhao sent the fifty billion crystal cores in his hand to the flat peach tree to ripen it, the flat peach tree's proficiency began to increase at a speed visible to the naked eye.

However.

What surprised Lin Tianhao a little was that the flat peach matured when it was finally swallowed to more than 4.9 billion.

This can be said to be a pleasant surprise.

Originally, Lin Tianhao thought that 10 billion crystal cores would be needed, but he did not expect that only 5 billion crystal cores would be needed.

On the flat peach tree.

One flat peach after another was produced. The speed of fruiting was not fast, and it took about fifteen minutes for a flat peach to be produced.

Flat Peach: Special.

Usage requirements: None (Only one use per person.)

Effect: Permanently increases health by 10 million after use.

Quality: Excellent.

Finally, flat peaches were produced. Next, we need to see how many flat peaches can be produced at one time.

But this is already commendable.

Fifty billion crystal cores can be ripened once, and ten flat peaches can be produced at a time.

According to what Lin Tianhao said to Crazy Blade and the others before, three flat peaches for 10 billion crystal cores, then Lin Tianhao can make a net profit of seventeen flat peaches for every 10 billion crystal cores.

This business is wonderful!

Now that the flat peaches are in hand, the next step is the distribution problem.

First of all, it must be given to Crazy Blade first, after all, he provided the crystal cores.

As for how much to give and when to give it, Lin Tianhao still needs to consider it.

Along the way, Crazy Blade has been honest with Lin Tianhao. Basically, if Lin Tianhao has any demands, Crazy Blade directly satisfies them.

Thus.

Lin Tianhao decided to give Crazy Blade three directly, and give them now, without waiting for the subsequent 5 billion crystal cores.

He doesn't care if Crazy Blade has any bad intentions.

After all, if Crazy Blade had many bad intentions, Lin Tianhao would not have been able to cooperate with him until today.

"Blade, thanks, three flat peaches for 10 billion crystal cores, I can give them to you now."

Saying that.

Lin Tianhao directly sent the flat peaches to Crazy Blade.

Crazy Blade was excited when he saw the attributes of the flat peaches.

Permanently increasing 10 million health points, no matter who uses it, their strength will directly explode.

Just.

Crazy Blade quickly suppressed the excitement in his heart.

He knows.

This level of good stuff is no longer up to him to decide.

He contacted the people above as soon as possible. Who should use this precious thing needs to be studied by those above.

Lin Tianhao gave the flat peaches to Crazy Blade, and he doesn't care who Crazy Blade and the others give them to.

It's about how he should use the remaining seven in his hand.

Lin Tianhao must use one himself. Although he can stack health points, it is still necessary for him to increase 13 million in one breath.

That's right.

For Lin Tianhao, it is an increase of 13 million in one breath.

Because he has a 10% bonus from the Fatty Bond and a 20% bonus from the Tears of the Goddess of Life.

Thus.

Increasing 10 million health points, for Lin Tianhao, is actually increasing 13 million health points.

Monkey, Fatty, Glasses, Sister.

They all have to be considered, one for each person, and there are two left.

Lin Tianhao had previously recruited several geniuses into the Ordinary Hall. Give it to them? To deal with the upcoming Holy Land Genius Rookie Competition?

For the time being, this can only be considered. There are not many flat peaches at present, so Lin Tianhao still needs to consider this aspect.

If there are more flat peaches, then there is no need to consider it. The people around him will directly have one flat peach per person.

Lin Tianhao first gave the Fatty, Monkey, Glasses, and Sister to them, after all, these four must be given.

As for the remaining two, Lin Tianhao still needs to consider it.

"Godfather is above, please accept my child's bow."

Fatty and Monkey were excited after getting the flat peaches. After all, the flat peaches permanently increase 10 million health points, which is very helpful to them.

Especially Monkey.

His moral, intellectual, physical, and aesthetic talents make his health points higher than many ordinary players, but the gap is still huge compared to a pervert like Fatty who relies on Lin Tianhao.

Now the improvement of the flat peach can be said to make up for his last shortcoming.

"But Brother Hao, did you get any skills that can double your attributes at night?"

As the person bound to Lin Tianhao's bond, Fatty naturally discovered that Lin Tianhao's attributes doubled at night.

"Yes," Lin Tianhao said.

Fatty was very excited, "Brother Hao, no, Godfather, do you think this skill can also be given to me?"

Chapter 473 - With ten gods sitting on your back, I just want to ask you if you are afraid!

"No big deal. That was the reward for killing the Dark Night Spirit God, Moirai. As far as I know, Moirai isn't the only God of the Night. Why don't you go kill another God of the Night? Maybe you'll get an even stronger skill book."

Lin Tianhao responded calmly.

Fatty: ? ? ?

“I think I'll pass on that. God-slaying? Maybe in my dreams.”

Lin Tianhao said very seriously: “Fatty, you need to have some confidence. With your current strength, god-slaying really isn't impossible.”

“If you cooperate with Monkey, and you encounter a weak god in extremely poor condition, there's still hope of killing it.”

For a moment, Zhou Xiaopang didn't know how to respond to Lin Tianhao.

God-slaying?

This was no joke.

“Okay, Bro Hao, I'll work hard. One day, I'll slay a god too.”

... ..

After ending the conversation with Fatty and the others, Lin Tianhao went directly to the Moon Wheel Magic Palace.

Lin Tianhao had been to the Moon Wheel Empire before, but for convenience, Lin Tianhao still took the teleportation array directly to Moon Wheel City.

Then, he rode his mount to the Moon Wheel Magic Palace.

Moon Wheel Magic Palace.

Moon Wheel Keqi was a little uneasy. After all, he hadn't received a reply from the Fan Palace yet, which wasn't good news.

If the Fan Palace attacked the Moon Wheel Empire, then their Moon Wheel Magic Palace would also be doomed.

Moon Wheel Keqi was even more surprised to see that Lin Tianhao had come alone.

"Snow Emperor, please, have a seat. Try our Moon Wheel Magic Palace's Ink Fragrance Tea."

Lin Tianhao sat in the side seat and picked up the tea to take a sip.

"Moon Wheel Keqi, you know what my purpose is for coming here."

Moon Wheel Keqi nodded, "I know, I know. But Snow Emperor, I was really wronged. Last time you defeated the Second Palace Master of the Vast Expanse Limitless Palace, how could I possibly have those crooked thoughts?"

Lin Tianhao sneered, "You don't need to explain so much to me. Since you want to retreat to the sea, I have no reason not to grant your wish."

"And don't think about leaving from the Xitu Empire. I'll open a passage for you in the Underworld Sea Region. You can enter the sea from there."

Moon Wheel Keqi's expression changed drastically. He naturally understood what Lin Tianhao meant.

With just one sentence, he wanted his Moon Wheel Magic Palace to leave the Vast Expanse Continent.

All the power he had painstakingly accumulated over the years would be reduced to nothing.

He couldn't accept this.

“Snow Emperor, our Moon Wheel Empire is willing to cede one-third of its land, hoping that you can let the matter rest.”

Lin Tianhao shook his head, “Impossible, Moon Wheel Keqi, don't you understand? The Vast Expanse Limitless Palace wants to use you to deplete the military strength of our Mountain Sea Empire.”

“As long as you don't take action, the problem between us won't be resolved, because the people from the Vast Expanse Limitless Palace will definitely come out to stir up trouble.”

Moon Wheel Keqi's expression was somewhat sinister. Although he didn't want to admit it, he had to.

What Lin Tianhao said was right. The current situation on the Vast Expanse Continent was not optimistic.

“Snow Emperor, have you ever thought that this is a conspiracy, a conspiracy against both of our great empires?”

Lin Tianhao smiled, “It doesn't matter. I can accept their conspiracy.”

Moon Wheel Keqi shook his head, “Snow Emperor, you're still too young, so you can't see through the intricacies of this.”

“If we really tear off the mask and start a world-shaking war, have you thought about the consequences?”

“The result will be that we're fighting fiercely in the front, and they're stealing your home from behind.”

Moon Wheel Keqi lowered his voice a little, “Snow Emperor, you don't really think they'll obediently watch us fight, do you?”

Lin Tianhao didn't care and asked with a smile: "Tell me, if they come to steal my home, how many gods will they send over?"

"Gods?"

Moon Wheel Keqi was stunned for a moment. He subconsciously wanted to say that gods generally wouldn't take action to steal a home.

Even the Vast Expanse Limitless Palace, for the sake of stability, would at most send one god.

"What do you mean by that?" Moon Wheel Keqi asked.

Lin Tianhao spread his hands, "Isn't the meaning of my words obvious enough?"

Moon Wheel Keqi's expression was somewhat gloomy, "Snow Emperor, are you looking down on our Moon Wheel Magic Palace too much?"

"Are you saying that you don't even need to mobilize gods to take down our Moon Wheel Empire?"

Lin Tianhao shook his head, "I never underestimate my enemies. In my expectations, I'll send four gods to attack you and another six gods to guard my home."

"It's no secret that I can teleport across the entire map. If four gods can't take down your Moon Wheel Empire, then I'll invite another four over."

Lin Tianhao said calmly.

His words were half true and half false. He didn't have ten gods.

But he did have five. Four to attack and one to guard the home. That seemed like a good choice.

“Your Fan Palace has ten gods?”

“That's impossible!!”

Moon Wheel Keqi obviously didn't believe it.

“When the previous Lord of the Fan Palace was in charge, you didn't even have a single Holy Land god. Now you're saying you have ten gods. That's not very convincing.”

Lin Tianhao smiled, “On this issue, I have no need to deceive you.”

“Today I came here thinking that if we can't reach an agreement, we'll fight, so...”

At this point.

One figure after another appeared behind Lin Tianhao.

A full ten gods!

Each one exuded a powerful divine aura.

“Ten... ten gods!!”

Moon Wheel Keqi and Bu Gulin were both dumbfounded. What was going on!

He didn't want to believe that this was real, but it was happening right in front of him.

“Just who are you? How can you have ten gods following you?!”

Moon Wheel Keqi simply couldn't believe his eyes.

Lin Tianhao didn't lie to him.

He really had ten gods.

But it was this fact that made it difficult for him to accept.

Because he was very clear.

With ten gods, Lin Tianhao already had the foundation to pacify their Moon Wheel Empire.

“Moon Wheel Keqi, I know that you've been pushed out by others to be used as a pawn. There's no point in fighting me. Leaving the Vast Expanse Continent is your best choice.”

“Otherwise...”

A cold light flashed in Lin Tianhao's eyes, “You will all become undead and become my servants.”

Moon Wheel Keqi hesitated, but in the end, he didn't say what he wanted to say.

After careful consideration, Moon Wheel Keqi finally said:

“The gods I believe in are still sealed on the Vast Expanse Continent. If I leave, what will happen to them?”

“You can take me to see them. I've already arranged a place for them to go.” Lin Tianhao had a kind smile on his face.

Chapter 474 - Run the map!

Moon Wheel Keqi was staring at Lin Tianhao, he always felt that Lin Tianhao seemed to harbor ill intentions.

“Snow Emperor, you are a man who has killed a god, I dare not easily take you there.”

Moon Wheel Keqi followed his sixth sense, he felt that Lin Tianhao's move was problematic.

So.

He was not prepared to lead the way.

“It’s not important anymore.”

Lin Tianhao waved his hand, “The key is, I want to hear your decision, will you leave, or... fight!!”

Moon Wheel Keqi was silent, especially when he saw the ten gods behind Lin Tianhao, he didn't know how to respond for a moment.

But it wasn't too long before Moon Wheel Keqi's gaze became firm.

“Fight!!”

This answer.

Was somewhat beyond Lin Tianhao's expectations, he had already displayed ten gods, but Moon Wheel Keqi still chose to fight.

“I am very curious, you know that you are a tool, why do you still choose to fight?” Lin Tianhao asked.

Moon Wheel Keqi smiled and said: “The reason why we were able to蚕食 the Vast Continent, and even put the Mountain and Sea Empire to sleep, is because our beliefs are the same.”

“Overthrow the Eastern Kingdom, overthrow the Mountain and Sea Empire!”

Lin Tianhao was silent, he didn't expect that these Westerners also had such a strong national belief.

Perhaps every nation has its own beliefs, sometimes you only see the beliefs of your own nation, and it is easy to ignore the beliefs of others, the cohesion of others.

On the Alet Star System, Lin Tianhao had a deep understanding of this.

The Alet Star System is strong, but their beliefs are stronger, their cohesion is stronger, and they can do anything for a goal.

“I am a tool, even if I will definitely lose in the end, but I always believe that the final victory will belong to our Western nation.”

“Just like back then, the Mountain and Sea Empire has been suppressed for so many years, there is no reason to stand up now, and I will not allow this to happen.”

At this moment, Moon Wheel Keqi is no longer simply the Palace Master of the Moon Wheel Demon Palace, he represents the Western nation camp.

Behind him.

There may be more supporters.

Lin Tianhao stared at Moon Wheel Keqi, after a while, “Have you ever thought that, from the root, we belong to the same nation.”

“Even from a certain point of view, you should be considered a branch of our Eastern nation.”

Moon Wheel Keqi laughed, “Snow Emperor, you are not learning well at a young age, you want to use cultural heritage to brainwash me.”

Lin Tianhao shook his head noncommittally, “I am not telling you a joke.”

“But it doesn't matter anymore, if you want to fight, then fight.”

After the words fell.

Lin Tianhao stopped talking, turned and left.

Today's negotiation made Lin Tianhao very unhappy.

He asked Orlufderan to cooperate and simulate ten gods, originally wanting to scare Moon Wheel Keqi.

Moon Wheel Keqi was scared, but he did not choose to back down because of fear.

Since this is the case.

Then the battle between him and the Moon Wheel Empire is inevitable.

Returning to the Fan Hall again.

Ouyang Wenlong respectfully said: “Hall Master, how is it?”

“Fight!”

Lin Tianhao only said this one word, since Moon Wheel Keqi is unwilling to back down, then there is nothing to say.

Ouyang Wenlong was slightly startled when he heard this.

He didn't expect that the result of Lin Tianhao's negotiation would be war.

He originally thought that Lin Tianhao could ask for a few more main cities, but he didn't expect that the result would be war.

“Okay, I will now gather the army, as long as Hall Master gives the order, we will start the national war.”

Lin Tianhao shook his head and smiled: “Others want to watch the tiger fight from the mountain, but if you want to watch the show, it’s not that easy.”

If he had not obtained Orlufderan, with Lin Tianhao's Seventy-Two Transformations alone, some of his plans could not be implemented.

But with the Seventy-Two Transformations, coupled with Orlufderan's conscious influence, and Lin Tianhao's understanding of the major forces of the Vast Continent in his previous life, the space for operation is very large.

They want to watch the tiger fight from the mountain, then Lin Tianhao will drag them all into the water and see how they will play.

To achieve this, the first thing Lin Tianhao has to do is run the map.

Hito Empire, Moon Wheel Empire, and Vast Empire.

Especially the border military cities and important towns of these empires are the places that Lin Tianhao needs to run the map.

At the same time, running the maps of the three major empires will still take Lin Tianhao some time at his speed.

In order not to waste time, Lin Tianhao chose to ride in a carriage, so he could comprehend the Dao in the carriage, just as a process of comprehending the Dao to run the map.

The speed of the carriage is slower than riding a mount, and in the blink of an eye, half a month has passed.

Lin Tianhao has not yet taken action against the Moon Wheel Empire, which made some people waiting to watch the show a little restless.

Icefire Los Island.

Los Jingkong looked in the direction of the Vast Continent with a puzzled expression.

“It's been half a month, with Snow Emperor's personality, he should have taken action long ago.”

As soon as Los Jingkong finished speaking, the Red Flower Demigod shook his head.

“All the signs indicate that Snow Emperor is not a reckless person, he probably also saw that we intended to push the Moon Wheel Empire out to consume his national power.”

Los Jingkong said seriously: “But to say that he has given up, I don't believe it, he is now at the height of his power, and he has not encountered any major difficulties in the process of growing up.”

“Based on his style of doing things, he is a typical person who knows that there are tigers in the mountains, but prefers to go to the tiger mountains.”

The Red Flower Demigod pondered for a while, "It is useless for you to say more, the fact is that neither the Moon Wheel Empire nor the Mountain and Sea Empire have taken action yet."

"But the armies they have gathered, a major war is inevitable."

Los Jingkong seemed to have thought of something, "This delay in the outbreak of the battle, could it be... Moon Wheel Keqi has been betrayed by Snow Emperor?"

"We have been isolating Moon Wheel Keqi together, Moon Wheel Keqi must already know that he has become a pawn."

"At this time, if Snow Emperor fans the flames, Moon Wheel Keqi may really abandon his faith and compromise with Snow Emperor."

Los Jingkong's guess startled the Red Flower Demigod.

"He... shouldn't betray his faith, right?"

The Red Flower Demigod said very reluctantly.

If Moon Wheel Keqi was just himself, he might not betray his faith.

But Moon Wheel Keqi happens to have the Moon Wheel Demon Palace and the Moon Wheel Empire behind him.

If a major war breaks out with the Mountain and Sea Empire, then it may really be a river of blood and a mountain of corpses.

It is said that when a king is angry, millions of corpses will fall.

The kings here are at most the kings of kingdoms.

If a war breaks out between the rulers of the empire, then tens of millions of corpses are just a drop in the bucket.

Not only Los Jingkong and the Red Flower Demigod have such concerns.

Other forces such as the Vast Limitless Palace and the Hito Holy Land, which are closely watching the dynamics of the two countries, also have such concerns.

Especially the Hito Holy Land.

Now it is a little flustered.

Chapter 475 - Enemy from previous life: Tiankou Qianren!

After all, in the eyes of the people in the Xitu Holy Land.

If Xue Di really defected the Moon Wheel Kercu.

And both countries have assembled large armies, what is the most likely thing to do next?

Without a doubt.

Attack their Xitu Empire!

As for why not attack the Vast Empire, a big reason is that the Vast Empire has too deep a foundation. Even if the two countries join forces, it will be difficult to take down the Vast Empire, this hard bone, in a short time.

Therefore.

If the Moon Wheel Kercu is defected, the first to bear the brunt will inevitably be their Xitu Empire.

Once this idea is born, it is difficult to eliminate it from the heart.

At this time, Lin Tianhao has already completed more than half of the map running.

In the next ten days at most, Lin Tianhao will be able to complete the map running, followed by the Holy Land Tianjiao Rookie Competition.

"It seems like a good choice to do something at the Holy Land Tianjiao Rookie Competition."

A faint smile appeared on Lin Tianhao's face. When the Holy Land Tianjiao Rookie Competition comes, he will give the three empires a generous gift!!

In addition to running the map, Lin Tianhao's kendo has broken through to the first level of the Law of the Sword in the past half month.

This is also the first avenue rule that Lin Tianhao has reached the level of law so far.

Moreover, because of the kendo seed, Lin Tianhao's improvement speed is still very fast.

Not only that.

Lin Tianhao harvested another twenty flat peaches, and the Berserk Blade supplemented Lin Tianhao with the remaining five billion crystal cores.

In addition to this.

The Asura Guild, the Jinghong Guild, and several guilds jointly exchanged three flat peaches from Lin Tianhao's hands.

Not only that.

Lin Tianhao also has an additional five billion crystal cores, which can be used to ripen the flat peach tree next time.

According to this speed.

Ten per week, forty per month, because ripening and fruiting take time, so it is almost forty per month.

You can have four hundred and eighty in a year.

With the remaining four and a half years, Lin Tianhao can accumulate two thousand one hundred and sixty before the Great Cataclysm arrives.

If all of these are used, Lin Tianhao can completely form a special team.

However, these are just Lin Tianhao's ideas at the moment, maybe he will get some better things later.

Next.

Lin Tianhao spent another ten days to finally complete the map running.

When the map running ended, Lin Tianhao already had twenty-six flat peaches and ten billion crystal cores in his hand.

The speed at which Berserk Blade and the others hit the crystal cores is really fast.

The Ancient Dynasty Secret Realm is suitable for players below Rank 5 to farm monsters.

That is to say, the gold farmers under Berserk Blade's command can farm crystal cores in the Ancient Dynasty as long as their level does not exceed Rank 5.

This way, they are in a win-win situation, and no one suffers.

While leveling up, they can farm crystal cores in exchange for flat peaches. Although the flat peaches will eventually fall into the hands of the top group of people.

But those gold farmers are paid to do things, and farming crystal cores even earns them more than farming gold coins.

Map running ends!

Lin Tianhao sent messages to Fatty, Monkey, Glasses, and his sister.

According to Lin Tianhao's understanding of the rules of the Holy Land Tianjiao Rookie Competition, each Holy Land participant has at least six and at most eight people.

Six official members and two substitutes.

The rules are very common elimination tournament system.

Now there is only one day left until the Holy Land Tianjiao Rookie Competition.

Lin Tianhao had previously booked the personnel in advance.

Fatty, Monkey, Sister, Glasses.

In fact, Lin Tianhao had considered Glasses a little.

After all, he doesn't know much about Glasses' combat power, he only knows that he has some strange abilities.

Glasses is okay, Monkey, Fatty, and Sister are all warrior-type, so the first thing Lin Tianhao considered for the magic-type was Su Li.

With Lin Tianhao's care, Su Li's growth is still very huge.

As for the sixth official team member, Lin Tianhao has not yet determined.

In fact, judging from the current lineup, it is best to pair it with an archer, or a mage.

However, in Lin Tianhao's plan, Yijian Potian and Xiaoxiaojian are both substitutes.

Although both of them are good, their growth time is still somewhat different compared to Fatty and Monkey.

So.

Lin Tianhao is going to find an foreign aid for this sixth official member.

It's just that trustworthy foreign aid is really hard to find.

Just at this moment.

Lin Tianhao received a message from Potala Tianlong.

"Xue Di, the Holy Land Tianjiao Rookie Competition is about to begin. Have you selected the people from your Fan Palace?"

Potala Tianlong.

This seems like a good choice.

But last time Potala Tianlong said that the Transcendent Hidden Class Transfer Altar was not in the Ancient Dynasty, which made Lin Tianhao feel a little estranged from the Holy Land behind Potala Tianlong.

Lin Tianhao had considered asking Potala Tianlong to help, but he eventually dismissed the idea.

"What? Do you want to come?" Lin Tianhao asked.

"No."

Potala Tianlong replied in seconds, "I have a special status and it is not good to represent Fan Palace in the battle, but we, Zhenlong Ancient Temple, have someone who can go."

Lin Tianhao frowned slightly. If Potala Tianlong came in person, Lin Tianhao would consider it.

Lin Tianhao is really unwilling for other people to come.

"Who?"

Lin Tianhao asked.

"You probably don't know him. His name is Tiankou Qianren. He also has a God-level Hidden Class and is very talented."

A cold light flashed in Lin Tianhao's eyes.

Because this Tiankou Qianren is Wu Xiaodao, who killed him in his previous life.

In this life, Lin Tianhao has been focusing on developing himself and has never bothered Wu Xiaodao.

After all, at this time in his previous life, he did not know Wu Xiaodao.

"No."

Lin Tianhao refused very decisively, "Also, I will remind you that your Holy Land should not accept him, otherwise you will regret it."

To be honest.

Lin Tianhao is very upset that Wu Xiaodao joined the Holy Land.

He directly changed the name of the Book of Life and Death to Tiankou Qianren.

Although the Book of Life and Death cannot stack health points during the player's resurrection countdown.

But Lin Tianhao doesn't care, he will clear Tiankou Qianren's level to level one first.

Now.

Lin Tianhao has one more job.

That is to periodically use the Book of Life and Death to reset Tiankou Qianren's level to zero.

Soon.

Tiankou Qianren fell.

After taking the flat peach, Lin Tianhao's health value has already exceeded 90 million.

In this month, Lin Tianhao's health value has increased by tens of millions again.

Now Lin Tianhao's health value has reached a terrifying value of 105 million.

The damage of the Book of Life and Death is 1.06 million per second.

With such terrifying damage, Tiankou Qianren will never be able to withstand it even if he has a God-level Hidden Class.

Among the current players, the only one who can possibly withstand Lin Tianhao's Book of Life and Death is probably Fatty alone.

"Xue Di, do you have a grudge against Tiankou Qianren? I just mentioned him and you locked his head?"

Potala Tianlong quickly learned about Tiankou Qianren being headlocked.

It is no longer a secret that Lin Tianhao has this method, so Potala Tianlong guessed that Lin Tianhao did it in the first time.

Chapter 476 - Choose your contestants!

"That's right."

Lin Tianhao generously admitted, "So I hope you can keep your distance from him."

It took Potala Tianlong a while to respond, "Why?"

"Because he is a villain who stabs people in the back."

Lin Tianhao's answer was very direct, leaving Tiankou Qianren no room for maneuver.

Potala Tianlong didn't ask anything, because he knew it didn't matter anymore.

He was very clear.

Lin Tianhao would not trouble someone for no reason. Since he was targeting Tiankou Qianren and said it so directly, the reason was already obvious.

"Okay, I know what to do."

Potala Tianlong decisively expelled Tiankou Qianren from the Zhenlong Ancient Temple.

Ancient Flame City, Resurrection Altar.

Tiankou Qianren looked at his level, which had already dropped to level one, his face ashen.

Before he could react, he saw a message from Potala Tianlong.

"What's going on? When did I offend a big shot like Emperor Xue!"

Tiankou Qianren felt baffled.

After being baffled, Tiankou Qianren began to think about what was going on?

He did trick a newbie in the game out of an opportunity, but that newbie was a typical workaholic in reality, who only played the game occasionally.

Now he has barely completed his second job change. There is no reason for such a person to be able to contact a big shot like Emperor Xue.

Moreover, that newbie probably doesn't know that he tricked him, so it shouldn't cause him to be targeted by Emperor Xue.

Could it be that Emperor Xue is someone I know in reality?

Then it's hard to rule that out!

Tiankou Qianren began to have a headache, because he had schemed against quite a few people in reality.

Emperor Xue might be one of them, or a relative or friend of one of them.

That shouldn't be!

Tiankou Qianren felt his scalp tingling. This was truly an unexpected disaster.

Lin Tianhao calculated the time. After Tiankou Qianren had almost dropped to level one, he re-locked on the Moon Wheel Kerchief.

People like Tiankou Qianren need to be targeted, but Lin Tianhao couldn't sacrifice his own development for this.

Lin Tianhao cannot stack health during the player resurrection countdown, which is equivalent to wasting dozens of seconds of stacking health.

Therefore.

Locking on the Moon Wheel Kerchief is the best choice.

At this time, Lin Tianhao still had to carefully consider his sixth member.

A more violent mage, this is what Lin Tianhao's team is currently lacking.

Lin Tianhao also knew a few relatively violent mages, but compared to that level one Gui Yewuqing, there was still a gap.

Thinking like this.

But if the level one Gui Yewuqing also participates in this competition, then she will know that her nickname is the same as his sister's.

In the end.

Lin Tianhao still decided not to look for this level one Gui Yewuqing.

After all, he couldn't figure out the situation with his sister, so it was necessary to hide it.

Since that's the case.

Lin Tianhao can only ask others for help with this violent mage spot.

Still that group.

Lin Tianhao directly sent a message:

"Are there any particularly powerful mages in your guild?"

Shura Yize: ???

Shura Yize: "I didn't see it wrong, did I? Boss Emperor Xue is looking for someone to team up with?"

"No, for the Holy Land Pride Newcomer Competition, our Fan Hall is still missing a strong mage."

Shura Yize: "Participate in the Holy Land competition? Our Shura Guild doesn't seem to have such a fierce person."

Mad War Blade: "Our guild does have a relatively fierce mage, but I still recommend President Jinghong Mengshuang of the Jinghong Guild."

Jinghong Mengshuang: "..."

Jinghong Mengshuang: "Boss Emperor Xue, I am indeed relatively fierce, at least among mages."

Lin Tianhao: "Meet up? Fan Hall."

Jinghong Mengshuang: "Okay."

...

After Lin Tianhao notified everyone, he waited in Fan Hall.

The first to arrive were Fatty and Monkey. Monkey asked with a smile, "Godfather, will winning first place in this Holy Land Pride Newcomer Competition reward particularly generous free attribute points?"

Lin Tianhao shook his head, "I don't know, but what is certain is that what can be rewarded is custom-made."

Speaking of this.

Lin Tianhao looked at Fatty.

"Fatty, what star is your talent now?"

"Five stars."

"How many have you bound?"

Five stars, then Fatty can bind five people.

According to what Lin Tianhao knew, Fatty has currently bound Goudao Wanggu, Monkey, and himself.

As for the reason for not choosing Goudao Wanggu for this competition, there is also a very important point.

That is, although Goudao Wanggu has high dual resistance, his other attributes are relatively weak.

As far as the current situation is concerned, there is still a relatively obvious gap between Goudao Wanggu and Fatty.

Not only that.

Goudao Wanggu and Fatty have too similar team attributes.

A team, apart from those who pursue the ultimate, rarely arranges members with such serious homogenization.

Especially a six-person team, which is not as flexible as a twelve-person team, so each member must be carefully considered.

As for Monkey and Sister.

Although both of them are warriors, Monkey is more like an agile attack-type warrior, while Sister Lin Qingqing belongs to the berserker category.

As for the fourth person, Su Li.

As a summoner, she can play some different roles in the battlefield.

Can restrain in quantity.

As for Glasses.

Lin Tianhao's positioning for him is support.

With Glasses' various methods, if he is allowed to support, the effect he can achieve will definitely be extraordinary.

Next.

It depends on this mage, Jinghong Mengshuang.

Little Sword and One Arrow Breaks the Sky were the second to arrive. They seemed to be cooperating because they were both newcomers to Fan Hall.

"Boss Emperor Xue, we finally meet again, you are so cool, you actually completed Godslaying?"

"Boss Emperor Xue, do you think I have a chance to slay a god? I have stacked so much attack power recently, and the attack distance is almost catching up with archers."

As soon as Little Sword came, she showed her talkative nature and outputted a lot to Lin Tianhao.

"How much attack power does it take to slay a god? Is one million enough? It shouldn't be, then how about ten million?"

Lin Tianhao supported his forehead, One Arrow Breaks the Sky looked calm, as if he was used to it.

Fatty and Monkey also knew Little Sword and One Arrow Breaks the Sky. After all, they were all people from Fan Hall, and there was some intersection between them.

"Little Sword, I don't know if you can slay a god, but Godfather said that I have the qualifications to slay a god, hahaha."

Little Sword pouted and couldn't help but complain: "If it weren't for Brother Monkey, Brother Gou and Boss Emperor Xue, you slay a god? I could beat you until you cry for your parents."

"Cough cough—"

Fatty coughed twice, "Sometimes friends are also their own opportunities, aren't they? Besides, this is my godfather, hahaha."

Fatty started talking to Little Sword, which relieved Lin Tianhao.

"Hello?"

Just at this moment, a clear and sweet voice came.

Chapter 477 - Jinghong Mengshuang VS Monkey!

As the voice faded.

A long-legged woman stepped towards them.

"Guild Leader Mengshuang."

Lin Tianhao smiled slightly. With his Fiery Eyes of Truth, he could naturally see Jinghong Mengshuang's nickname.

"Yes."

Jinghong Mengshuang nodded. "Snow Emperor, would you like to understand my abilities first?"

"Of course."

Lin Tianhao smiled.

Jinghong Mengshuang directly sent Lin Tianhao a screenshot of her attribute panel.

Her spell power was as high as 1.89 million, and her health had also exceeded 13 million, likely due to the blessing of Lin Tianhao's peaches.

Otherwise, she wouldn't have such high health on her own.

Besides that.

"The spell power is acceptable, but the health is average," Lin Tianhao said.

Jinghong Mengshuang couldn't help but smile wryly upon hearing this. "Snow Emperor, your requirements are really high."

With that said.

Jinghong Mengshuang continued, "I don't consume any mana when casting spells."

Lin Tianhao's eyes lit up, as this was somewhat beyond his expectations.

He knew that Jinghong Mengshuang had a talent similar to his Hand of Heavenly Punishment.

That is, for every skill that hits a life form with a level no lower than her own, she would permanently gain one point of spell power.

This talent cannot be upgraded with stars.

As for whether passive skills can trigger this effect, Lin Tianhao didn't know.

If not.

Relying solely on active skills, not to mention the skill cooldown issue, the mana cost alone would be a major drawback.

"Among these people, choose one to spar with."

No matter how impressive the attributes are, practical combat ability is still the most important thing.

Jinghong Mengshuang's gaze first fell on Arrow Pierces the Sky and Little Sword.

Clearly.

She also knew that these two were relatively easier to deal with.

But she seemed to want to prove something, and ultimately set her sights on Monkey.

"I choose him."

Monkey was taken aback, and he grinned with ill intent.

"Girl, are you sure you want to choose me?"

Monkey's own attributes could absolutely crush Jinghong Mengshuang. Even Jinghong Mengshuang's pride and joy, her spell power, wasn't that much higher than his.

Most importantly.

Mages fear agile warrior types like him the most. As long as the movement speed is fast enough, skills simply can't lock on.

"Monkey, don't refuse. Also, be careful. Don't think you're the only one who has opportunities."

Lin Tianhao knew.

Because of the things he had done, many people had benefited to some extent.

Monkey was already considered a celebrity on the Twilight of the Gods forum, but Jinghong Mengshuang still chose him, which already said a lot.

"Don't worry, Godfather, I won't let you down."

The two of them stepped onto the arena and stood facing each other.

Lin Tianhao acted as the referee, watching their battle.

"Beautiful Mengshuang, your Monkey brother is here."

Monkey's figure turned into an afterimage, and he arrived beside Jinghong Mengshuang in the blink of an eye.

Jinghong Mengshuang seemed to have anticipated this, and a ring of fire rose around her.

This was a very common skill, Repulsion Fire Ring.

Monkey's combat experience was already quite good. As he approached Jinghong Mengshuang, he activated his super armor.

Clearly.

He wanted a quick victory.

Repulsion Fire Ring was ineffective, and Monkey directly smashed down with his totem pole.

But his totem pole passed directly through Jinghong Mengshuang's body.

Illusion!

Monkey was shocked, because he hadn't seen Jinghong Mengshuang use any illusion or substitute skills at all.

Just as he was thinking this, the space in front of him instantly tore apart.

-1.61 million!

A huge damage number appeared.

Seeing this damage, Jinghong Mengshuang was slightly surprised.

The spell power scaling on this skill was quite high, but it only dealt this much damage, which made her somewhat dissatisfied.

But Monkey was equally shocked.

Because of his high stats, his magic resistance was quite terrifying.

Yet even with such terrifying resistances, he had still lost over a million health.

"Whirlwind Slash!"

Seeing Jinghong Mengshuang appear, Monkey charged up again.

Whirlwind Slash was an attack skill with a movement component, and Monkey wanted to approach his opponent as quickly as possible.

But Monkey had only charged halfway when the space in front of him began to distort.

Originally charging towards Jinghong Mengshuang, Monkey was instead sent towards Fatty under the distortion of space.

-95982!

A relatively small damage number appeared. Fatty's health seemed to have barely changed.

After all, with hundreds of millions of health, losing less than a hundred thousand was less than one-thousandth.

Jinghong Mengshuang was surprised to see this.

"What a thick health bar."

Fatty was somewhat innocent. "Monkey, you're attacking friend and foe alike."

"It wasn't my fault."

Monkey was suffering in his heart. If he hadn't had lifesteal, he probably would have been counter-attacked by Fatty and lost health.

"Looks like I need to get serious."

Monkey's gaze became serious, and his figure turned into an afterimage as he charged up again.

With Monkey's movement speed, not just anyone could stop him.

Jinghong Mengshuang frowned, because Monkey's movement speed was too fast. It was difficult to hit him with non-lock-on skills.

She had just used an illusion to lure Monkey into a trap, and then used spatial tear to injure Monkey.

"Lock-on, huh?"

"Very well, then I'll lock on."

Seeing Monkey charging up, Jinghong Mengshuang waved her staff.

A dark curse mark appeared on Monkey's forehead.

"Fire, space, darkness..."

Lin Tianhao muttered to himself. Space and darkness could both be considered high-level attributes. A mage who possessed two high-level attributes at the same time was already very strong.

Monkey's movement speed suddenly decreased, because as the curse mark appeared, eight dark tentacles climbed onto his body, slowing his movement speed.

"Frost of Ice!"

Jinghong Mengshuang waved her staff, and frost spread out from her as the center.

Monkey, whose movement speed was already slow, now became even slower.

"Damn it, I used my super armor too early."

Monkey thought to himself in dismay. His super armor had ended just as the dark curse mark landed.

The illusion, spatial tear, and spatial distortion had worn down his super armor time.

Without super armor, and now slowed, Monkey couldn't care about anything else.

Because if he didn't respond, he would be subjected to endless attacks.

"Fire Wings!"

A pair of wings burning with flames appeared behind Monkey. Monkey wanted to soar into the sky, but the eight tentacles were tightly gripping him, forcing him to fly low and unsteadily.

Just then.

Fire rain began to fall from the sky.

Dense fire rain fell from the sky, landing on Monkey's body and causing continuous damage.

-107.

-108.

-107.

.....

However.

The damage was indeed a bit touching.

But each drop of fire rain was a separate instance of damage, and the seemingly low single-hit damage was actually quite terrifying!

Chapter 478 - Monkey lost!

As an observer, Lin Tianhao had a clear view of the battle.

He had roughly figured out the terrifying aspects of Jinghong Mengshuang.

Whether it was Frost of Ice, Rain of Fire, or Dark Curse Seal, they were similar to his Three Heads and Six Arms and Immortal Slaughtering Sword Formation.

They all belonged to skills that continuously consumed mana, and the amount of mana determined how long the skills could be maintained.

However, Jinghong Mengshuang just happened to not need mana.

Therefore, as long as no one could interrupt her, these skills of hers could exist indefinitely.

And...

She should have more than just these two area-of-effect continuous skills.

As expected.

At the same time as the Rain of Fire descended, dark swamps began to appear on the ground.

As before, they spread out from Jinghong Mengshuang as the center, quickly covering the entire arena.

"Courting death!"

The monkey, transformed into a divine ape, seemed to have gained a great boost.

Originally, his movement speed was severely impaired, but now he reached Jinghong Mengshuang in front of him in one step.

No!

It wasn't that his movement speed had become faster, but because his size had increased, the distance he covered in one step was greater.

The totem pole slammed down towards Jinghong Mengshuang with a powerful force.

Jinghong Mengshuang smiled slightly, raised her hand, and casually caught the monkey's totem pole.

Immunity!

The word 'Immunity' appeared above Jinghong Mengshuang's head, directly stunning the monkey.

His attack was actually immune.

"Bang bang bang—"

The monkey's attack speed was maxed out, and in the blink of an eye, dozens of attacks landed on Jinghong Mengshuang.

Immunity!

Immunity!

Still immunity!

"Invincible state!"

The monkey looked at Lin Tianhao with a bewildered expression. He really felt it was unbelievable.

"Using invincibility so quickly, let's see how you fight next."

Jinghong Mengshuang smiled and said, "Arena battles, from a certain point of view, I am an invincible existence."

Hearing this.

Lin Tianhao immediately understood.

Jinghong Mengshuang's invincible state was also sustainable.

As long as there was enough mana, she could maintain the invincible state continuously.

But what if it didn't require mana consumption?

Then it would be permanent invincibility!!

However.

This kind of sustainable invincible state must have some limitations.

For example... not being able to move.

Because Lin Tianhao noticed that Jinghong Mengshuang had not moved after using this invincible skill.

As long as she used an attack that changed the terrain and made her move, it might be possible to interrupt her invincible state.

However.

The monkey had not yet discovered this problem.

He was still attacking frantically, trying to deal damage to Jinghong Mengshuang.

But all failed.

"How can there be an invincible skill with such a long duration?"

Under the continuous damage of the dark corrosion and the Rain of Fire, the monkey's health was decreasing at a visible rate.

If he couldn't break Jinghong Mengshuang's invincible state, he would definitely lose.

"Great Earth Desolation Slash!"

The monkey leaped up, and the totem pole in his hand fell down with terrifying power.

This time, he didn't attack Jinghong Mengshuang, but the ground beneath Jinghong Mengshuang's feet.

Lin Tianhao knew that the monkey should have seen some clues.

It's just.

I don't know how Jinghong Mengshuang will respond.

"Spatial Shock!"

Jinghong Mengshuang waved her staff, and the space around her began to vibrate wildly, making the monkey's attack very stiff.

Finally, when the totem pole was about to smash down, six ice shields blocked the front.

"Bang bang bang—"

The ice shields were shattered one by one, and finally, on the fourth shield, the totem pole was successfully blocked.

Although the attack was blocked, the monkey also confirmed his guess.

"As expected, you can't move, otherwise the invincible state will be broken."

Knowing the way to break the situation, the monkey decisively used his means again to rush up.

His movement speed and attack speed destined his attack frequency to be very fast.

Jinghong Mengshuang frowned slightly, but she was not in a hurry.

The staff in her hand kept waving, ice walls, ice shields, fire shields, shields kept appearing, trying to stop the monkey from destroying the terrain.

"Law of Heaven and Earth!"

The monkey let out a low roar and released his divine power again.

His body rose again, and the totem pole also became larger with his body, carrying terrifying power between swings.

"It's over."

Jinghong Mengshuang smiled slightly and waved the staff in her hand.

"Dimensional Cut!"

Four spatial cracks appeared around the monkey, and these spatial cracks instantly tore to the front of the monkey.

The monkey's expression changed slightly, and he didn't dare to be negligent. His body blurred and disappeared.

But when he reappeared, he was still in the center of the dimensional cut.

"The dimensional cut tears the space, and ordinary displacement methods cannot be displaced from the dimensional cut."

Lin Tianhao muttered to himself, Jinghong Mengshuang blocked the monkey's retreat.

In addition, the continuous damage from various sources just now lowered the monkey's health.

And the monkey didn't cause damage to Jinghong Mengshuang, so he couldn't absorb blood.

Therefore.

His health was decreasing and could not be replenished.

-1.01 million!

-1 million!

-1.01 million!

-1 million!

...

Four consecutive high damage numbers directly cleared the monkey's health.

The monkey lost!

In the arena, as a agility-based warrior, he lost to Jinghong Mengshuang as a mage.

From a professional point of view, the monkey's profession is naturally restrained by mages, not to mention the arena battle.

But the result was that the monkey was defeated!!

"How is it?"

Jinghong Mengshuang looked at Lin Tianhao with a smile.

Lin Tianhao nodded, "You shouldn't have used your full strength, right?"

"Yes, in fact, if it wasn't to show my methods, I wouldn't even use the invincible skill," Jinghong Mengshuang said with a smile.

Lin Tianhao actually discovered that the monkey's attack was very swift, but Jinghong Mengshuang's life-saving methods were by no means so simple.

"You have played your skills that don't consume mana to the fullest."

Lin Tianhao couldn't help but sigh, "Is this the benefit of your hidden profession?"

"Yes."

Jinghong Mengshuang replied with a smile.

At this time, Su Li and her younger sister Lin Qingqing also arrived.

Except for Glasses, all the participants this time had arrived.

The younger sister's health bar was even thicker than Lin Tianhao's at this time.

Perhaps only when the dark attributes were doubled could Lin Tianhao's health be compared with his younger sister Lin Qingqing.

However, what surprised Lin Tianhao was.

His younger sister Lin Qingqing's level had actually reached a terrifying level of 500.

You must know.

At this stage, mainstream players are only at level 200-300, and high-level players are at level 300-400.

As for level 500, it is definitely a rare existence.

Besides her younger sister Lin Qingqing.

Su Li was also as high as level 500.

The two women's levels were very eye-catching.

"Are these the two golden flowers on the level list?"

Jinghong Mengshuang curiously looked at Su Li and Lin Qingqing.

"This is Jinghong Mengshuang, the president of the Jinghong Guild. Among the participants this time, you should only not know her."

Lin Tianhao introduced, "The rules for this competition have been sent to you before. Jinghong Mengshuang, I will send you a copy separately."

Chapter 479 - Fat scoundrel!

Saying that.

Lin Tianhao sent the competition rules to Jinghong Mengshuang, and at the same time created a group, pulling in the eight participants this time.

As soon as the group was created.

Monkey couldn't wait to say.

"Guild Leader Mengshuang, you are too fierce, I feel that you have only made a slight move, and it is already my limit."

Jinghong Mengshuang sent a shy emoji.

Jinghong Mengshuang: "Brother Monkey, you are already very strong, regardless of attack speed, movement speed, or burst damage, it's just that my current skill set does exceed too many players at this stage."

Godly Fatty Invincible: "Hahaha, Mengshuang, do you want us to spar and try it out, it must be very interesting."

Jinghong Mengshuang: "I also want to try."

Lin Tianhao held his forehead.

"Fatty, are you trying to help Monkey get his revenge?"

The war started as soon as the group was created.

"Hehe, Godfather, didn't you say you wanted to choose a captain? If I don't defeat Mengshuang, how can I be the captain?"

Gui Ye Wuqing: Fatty, are you ignoring my existence?

Godly Fatty Invincible: Cough cough, Qingqing, to be honest, even if you go up, you might not be Mengshuang's opponent.

Lin Tianhao watched quietly, he had no objection to them fighting.

After all, mutual sparring is the easiest way to become familiar with each other's methods.

"How about this, arena, I'll open a room and be the referee, for the next day, you guys spar with each other and get familiar with each other."

Being killed in the arena will not cause you to lose a level, and they can let go and fight.

"Okay, fighting is good, please don't show mercy, everyone, Little Sword loves to fight the most."

Lin Tianhao directly opened a room and pulled a few people in.

"For the first match, Fatty will play with Mengshuang."

"Okay."

Fatty took the lead in jumping onto the arena, he really wanted to get his revenge.

Although this battle has not yet started, Lin Tianhao has already foreseen the ending.

He has the City God Temple, so his magic resistance has been increasing, and due to the bond, Fatty's magic resistance has also been increasing.

Not only that.

There is also the guy Gou Dao Wangu who infinitely stacks double resistance, as well as the high double resistance that Monkey feeds back to Fatty.

Moreover.

Fatty also has omnipotent damage reflection, which means that no matter what kind of damage he takes, Fatty can reflect the damage back.

Under such circumstances.

It is not easy for Jinghong Mengshuang to win.

After all, Fatty may not even need to move, and the damage reflection alone is not something Jinghong Mengshuang can withstand.

Of course.

What the specific battle will be like needs to be seen before knowing.

Lin Tianhao let them fight, which can be regarded as seeing where their limits are.

As for Lin Tianhao going on stage to test himself, it would be too unbalanced.

However, Lin Tianhao also pondered, if he encountered Jinghong Mengshuang, how should he fight?

Jinghong Mengshuang's invincible skill needs to be interrupted by movement, and his String Twisting Arrow Technique has a certain knockback effect.

But ordinary attacks obviously won't work, otherwise, when Monkey's totem pole smashed down, it would definitely have a knockback effect.

But it failed to knock back Jinghong Mengshuang, indicating that in essence, it is still necessary to change the terrain to allow Jinghong Mengshuang to move her position.

The best method is Skyfire Meteor!

Or...

Lin Tianhao reminded.

"Understood."

Everyone nodded, and then Fatty's revenge battle for Monkey began.

Godly Fatty Invincible VS Jinghong Mengshuang!

In this battle, Fatty used Savage Charge right from the start.

Jinghong Mengshuang still used the previous method, releasing Frost of Ice.

Layers of frost spread out, slowing down Fatty.

Fatty's movement speed is not as good as Monkey's, and this deceleration makes the speed very slow.

But in the next moment.

Another Fatty appeared from the side, slamming the heavy shield in his hand towards the ground.

"Fatty's Mirror Flower, Water Moon play is not bad."

Lin Tianhao couldn't help but smile, he has Fiery Eyes, so he saw Fatty's trick.

Savage Charge is an illusion, this is a relatively rare skill for warriors, Mirror Flower, Water Moon.

The Fatty who rushed out was actually a copy of Mirror Flower, Water Moon.

Fatty's heavy shield smashed on the ground, and the ground instantly cracked, attacking Jinghong Mengshuang.

A pair of wings appeared behind Jinghong Mengshuang, soaring into the sky.

Then, with a wave of her hand, fire rain fell.

-37.

-38.

-37.

...

The damage of the fire rain was greatly reduced, this level of damage is very low for Fatty's threat.

More importantly, the damage reflection took effect.

-8.

-9.

-8.

...

Damage numbers appeared above Jinghong Mengshuang's head, while the fire rain caused damage to Fatty, Jinghong Mengshuang's health was also continuously decreasing.

Jinghong Mengshuang frowned slightly, she waved her hand and released a healing spell on herself.

This is just a relatively elementary healing method, with a low magic power bonus.

Fatty didn't panic at all when he saw this.

Because his passive health regeneration is quite strong.

Seeing this scene.

Jinghong Mengshuang knew that if she didn't use the invincible skill, it would be impossible to solve Fatty.

At least.

She would be reflected to death first.

She returned to the arena again, waving her hand, her body underwent subtle changes.

The word "immune" kept appearing above her head.

This is immunity to Fatty's attack.

Fatty was not surprised, this was already within his expectation.

He used Savage Charge again.

To be precise.

This time it was Savage Charge.

Just now it was Mirror Flower, Water Moon.

Because of the slowdown of Frost of Ice, Fatty's movement speed was not fast, but he was not in a hurry.

Jinghong Mengshuang frowned, because Fatty was too calm.

She waved the staff in her hand.

Three shields blocked Fatty's path, Fatty didn't care, and directly crashed into them.

Then...

A white shield appeared on Fatty's body, blocking the damage for Fatty.

Jinghong Mengshuang was shocked, "Your attack on my shield can also trigger your passive shield?"

Fatty grinned, smashed the three energy shields with the shield in his hand, and continued to kill Jinghong Mengshuang.

Jinghong Mengshuang waved the water staff, and an ice wall appeared in front of Fatty.

Fatty directly jumped over the ice wall with a mid-air slash.

Jinghong Mengshuang then released a Dark Seal, and eight dark tentacles dragged Fatty, reducing Fatty's movement speed again.

But Fatty was still calm.

Jinghong Mengshuang waved the staff in her hand, and three energy ice wolves appeared, rushing towards Fatty with bared fangs and claws.

Fatty didn't panic at all.

Uppercut, taunt, heavy shield sweep... one by one, small control skills were thrown out.

Then white shields were constantly stacked on Fatty's health bar.

So that Jinghong Mengshuang's attack damage could not reduce Fatty's health at all.

"Stop, I'm not fighting!"

Chapter 480 - Xiudeli Haohong!

Dreamfrost Abandoned it directly, Fatty hadn't used any flash-like skills, nor had he used domineering berserk.

She did have some skills in her hands, but they could only delay time.

Because Fatty could continuously refresh his shield, her attacks couldn't even break the shield, let alone kill Fatty.

Fatty grinned and said, "Hehe, Dreamfrost, in the arena, we're both pretty perverted."

"But compared to you, I'm even more perverted."

Dreamfrost facepalmed, how was she supposed to respond to that?

Next, Lin Tianhao had them spar with each other, to learn about each other's fighting styles.

There wasn't much time to practice together, but it didn't matter.

In the early stages of the game, attributes were more important than teamwork.

Sometimes, if your attributes are strong enough, you can overcome everything with brute force.

Only in the later stages of the game, when everyone's attributes are very high, with values easily reaching millions, tens of millions, or even hundreds of millions.

At that time, increasing individual attributes by a few hundred thousand wouldn't have much impact on the battle.

Then.

Teamwork and combat become crucial.

While Lin Tianhao had them familiarize themselves, the other Holy Lands were also preparing intensely.

In another ten hours, after midnight, Lin Tianhao would receive feedback of free attribute points again.

Moreover, the rewards for this Holy Land Pride Newcomer Competition would also be announced.

Previously, Lin Tianhao only knew that the prizes were very generous, but he didn't know exactly how generous.

Time passed by, drop by drop.

The Vast Continent and the Holy Lands around it were all preparing intensely.

Currently, there are four major Holy Lands in the Vast Continent.

They are: Mortal Palace, Vast Infinity Palace, Xitu Holy Land, and Moon Wheel Demon Palace.

Besides these.

Finally.

Midnight arrived.

Lin Tianhao didn't issue many bounty missions last month, and he didn't give out many free attribute points.

Therefore.

The feedback he received was not much either.

He received a total of more than 65,000 free attribute points, which could only be considered better than nothing.

Besides this.

The rewards for this Holy Land Pride Newcomer Competition have also been announced.

Holy Land Pride Newcomer Competition:

First place: The Holy Land receives a Divine Artifact +1, Holy Land Master Rank +1.

Participating members: Each person receives Free Attribute Points +10000, Blessing of the Gods +1.

Best member: Receives an additional Advanced Talent Evolution once.

Second place: The Holy Land receives a Pseudo-Divine Artifact +1, Holy Land Master Level +500 (can break the level cap).

Participating members: Each person receives Free Attribute Points +2000, Flower of Talent Evolution +1.

Best member: Blessing of the Gods +1.

Third place: The Holy Land receives a Semi-Divine Artifact +1.

Participating members: Free Attribute Points +1000, Equipment Evolution Scroll +1.

Best member: Flower of Talent Evolution +1.

Lin Tianhao checked the rewards.

The rewards for first place were really tempting, but he didn't know where the Rank +1 for the Holy Land Master would be reflected.

As for second and third place, they were not good enough.

There's only a one-word difference between Pseudo-Divine Artifact and Divine Artifact, but the power is worlds apart.

"Fatty, you guys have to work hard."

Lin Tianhao muttered to himself.

As the Holy Land Master, he couldn't personally participate, so he could only watch the competition.

The competition time was at nine in the morning.

Which meant there were only nine hours left.

Lin Tianhao didn't force them too much, he just showed them the rewards for the participating members of the first place.

As for what stage they could reach, it would depend on their own fortune.

"Damn, the rewards for this competition are so generous."

Monkey was extremely excited.

Ten thousand free attribute points, that was a sweet treat.

Not only that.

The Blessing of the Gods was also good.

"Is the Advanced Talent Evolution for the best member different from the evolution effect of the ordinary Flower of Talent Evolution?"

Dreamfrost saw more.

Obviously.

She wanted more.

"Yes, according to my speculation, it may allow a Saint-level talent to be upgraded to a Half-God level," Lin Tianhao said.

These words.

The most excited were undoubtedly Fatty and Monkey.

Although their talents were good, they were only Saint-level.

Both of them actually benefited from Lin Tianhao's help to have their current strength.

If Lin Tianhao's help was ignored, they would be average now.

Therefore.

The temptation of this talent being able to cross over to the Half-God level was not small for them.

"I'm going to get this best member for sure," Fatty said confidently.

He should indeed have this confidence.

After all, he had Lin Tianhao and Eternal Turtle backing him, and his health points and dual resistances were raised to the extreme.

"I'll give you another eight hours, we'll leave at eight in the morning, be prepared and get familiar with each other."

"Yes."

Everyone was very excited, mainly because the rewards this time were too generous.

The next morning.

Lin Tianhao used the Kunlun Mirror to bring everyone to the Vast Infinity Palace.

Today's Vast Infinity Palace was very lively, after all, it was a competition between the pride of the Holy Lands.

Moreover.

This competition was open to the public.

The competition venue was like the Colosseum in ancient Rome, surrounded by spectators.

Lin Tianhao roughly calculated that there were no less than eight million spectators.

Around the arena, there were eight tents, each marked with the names of the eight Holy Lands in and around the Vast Continent.

In front of the arena, there was a high platform with eight seats, which were the positions of the leaders of the eight Holy Lands.

Lin Tianhao asked Fatty to take people to the tent, while he himself walked onto the high platform.

On the high platform.

Moon Wheel Demon Palace Master Moon Wheel Kecu, Scarlet Flower Sand Palace Master Scarlet Flower Demigod.

Icefire Los Island Island Master Los Jingkong, and Tutulu Sacred Mountain Mountain Master, Tutulu Hongqiong.

These few could be considered Lin Tianhao's acquaintances, they had all had interactions with Lin Tianhao before.

Besides these, the two Holy Land Masters of the Western Extremity Shrine and Xitu Holy Land also came in person.

They were Western Extremity Demigod and Xitu Demigod respectively.

However, the Palace Master of Vast Infinity Palace had not yet shown up.

Lin Tianhao looked at his position, which was actually in the middle.

Eight positions, the middle were two positions, one was for Vast Infinity Palace, and one was for Mortal Palace.

Lin Tianhao had just sat down when he saw several people beside him turn their heads to look.

He saw a man who was eighty percent similar to Xiudeli Haotu walking over.

Xiudeli Haohong (Pseudo-God): Grandmaster.

Health Points: ???

Attack: ???

Skills: ???

Pseudo-God!!

This gold content was already very high.

"Greetings, Great Palace Master."

Xitu Demigod, Los Jingkong and others respectfully saluted.

In front of Xiudeli Haohong, they seemed to be naturally shorter.
