

O game 48

Chapter 48 Leona's choice!

Village Chief Wang's expression changed drastically. Both he, the Nine-Headed Cobra, and the Yellow Weasel entered a state of continuous health depletion.

On the cliff, a woman in gorgeous attire stepped forward.

With each step, she seemed to tread on empty air, but as her foot landed, ice flowers bloomed beneath, steadily supporting her.

One step, two steps, three steps... each step gave birth to a flower.

Though still some distance away, Lin Tianhao had already identified her.

Princess Leona!

In the current Beginner Village, only this princess from the Starry Kingdom could accomplish such a feat.

"Esteemed Princess Leona, you've arrived?"

Village Chief Wang completely changed his previous demeanor, displaying a benevolent smile towards Princess Leona.

Princess Leona coldly glanced at Village Chief Wang, "I know very well what you intend to do."

Hearing this.

Village Chief Wang was taken aback, then smiled and said, "Princess Leona, since you know, you should also know of my admiration for you, right?"

“Why bother with such hypocrisy?” Princess Leona sneered.

“You think everything is under your control, but have you considered that I can kill you?”

Village Chief Wang's eyes narrowed, and he spread his hands, saying, "Great Princess Leona, of course you can kill me, but after killing me, have you thought about how you'll leave here?"

“Your ambition won't allow you to willingly be trapped in the Beginner Village.”

Princess Leona coldly laughed, "That's something you don't need to worry about."

“I know my own affairs best.”

As her voice fell, centered on Princess Leona, a wave of chilling aura spread out.

Village Chief Wang's expression changed drastically.

“Madness, Overlord Body, Dance of Broken Wings!”

In just an instant.

Village Chief Wang simultaneously unleashed three skills, with a pair of tattered wings appearing behind him.

Flapping his wings.

Village Chief Wang flew towards the top of the cliff.

Princess Leona raised her hand, and a massive ice array appeared above Village Chief Wang's head.

Immediately following.

Countless ice cones rained down from the ice array.

-15928.

-15929.

But the extent of her power still exceeded Lin Tianhao's imagination.

No wonder Village Chief Wang started fleeing without hesitation after realizing she was about to attack.

At this moment.

Village Chief Wang changed direction in the sky, continuing his escape.

The Nine-Headed Cobra and the Yellow Weasel attacked simultaneously, attempting to delay Princess Leona.

In just a few breaths.

These two powerful bosses were frozen solid.

Princess Leona raised her hand.

An ice shield appeared behind Village Chief Wang, forcibly pushing him down.

After breaking free from the ice shield, Village Chief Wang stopped running, simply staring coldly at Princess Leona.

“Kill me, then! If you can kill me, I'll accept it.”

Princess Leona didn't attack again, and Lin Tianhao instantly understood the issue.

Village Chief Wang was no longer an NPC; he was a wild boss.

Wild bosses had a characteristic: they would respawn after being killed, in other words, revive.

Lin Tianhao had killed both the Nine-Headed Cobra and the Yellow Weasel, yet they still appeared here.

It was revival!

“What? Not going to kill me? Since you're not going to kill me, why not listen to me?”

Village Chief Wang gradually calmed down.

“I want to marry you, to become the future king of the Starry Kingdom.”

Princess Leona's aura instantly became agitated, and the surrounding temperature dropped significantly.

“Don't be so quick to anger; we're simply engaging in mutual benefit.”

“You've been away from the Starry Kingdom for so long; if you return rashly, no one can help you.”

“But if you marry me, I can help you.”

“I'm a wild monster and an NPC. More importantly, I received a blessing from the gods, which allows me to level up and grow like an adventurer.”

Upon hearing the words 'level up and grow,' the ever-unflappable Princess Leona showed some emotion.

Whether NPC or wild monster, they were basically limited, unable to break through their current constraints and continue to grow stronger.

Lin Tianhao saw Princess Leona's change of heart and secretly thought it was bad.

If Princess Leona agreed to his request, he wouldn't be able to obtain his second blessing from the gods.

Lin Tianhao had put in so much effort precisely for the sake of the blessings from the gods.

“A helper who can grow and endlessly revive—you should know how much help that would be for you in vying for the throne in the Starry Kingdom.”

“Don't worry, we can have a fake marriage; it won't affect you. As long as, in the end, we can become the king of the Starry Kingdom, that's all that matters.”

Even Lin Tianhao had to admit.

If viewed purely from a perspective of self-interest, the conditions proposed by Village Chief Wang were very tempting.

“Alas, it seems there's no chance.”

Lin Tianhao secretly sighed.

However, Princess Leona's next words gave Lin Tianhao hope once again.

"I think I have many partners to choose from, such as, Xue Di!"

Village Chief Wang's pupils constricted, and he said in a deep voice, "He is, after all, an adventurer. It's hard to say whether he'll be of one heart and mind with you in the future."

"No."

Princess Leona shook her head, "I'm not going to marry him, but to give him a task."

"Xue Di, are you willing to support me in becoming the king of the Starry Kingdom? If you can make me the king of the Starry Kingdom, I will build three thousand ancestral halls for you, making you the War God of my Starry Kingdom!"

An unbelievable expression appeared on Lin Tianhao's face.

In the late stages of the Twilight of the Gods.

Ordinary attack power and magic power were no longer sufficient.

The top echelon of people were all pursuing godhood.

And the first step to becoming a god was to possess enough incense power, also known as followers.

The meaning of Princess Leona's words was very clear.

That was.

She wanted to build ancestral halls to enshrine Lin Tianhao, allowing Lin Tianhao to obtain the incense power of their Starry Kingdom.

“Ding, Princess Leona has issued a task to you.”

“Task Requirement: Help her become the next king of the Starry Kingdom.”

“Task Penalty: Unknown.”

“Task Reward: She will bestow upon you the title of War God and build three thousand ancestral halls of incense for you.”

“Accept!”

Lin Tianhao had no reason to refuse.

In his previous life, countless experts had followed one after another, wanting to become gods.

But in the end, they all fell due to incense power.

Obtaining incense power was too difficult.

“Princess Leona, even so, how do you plan to leave the Beginner Village?”

Hearing these words, Leona's gaze fell on the Yin-Yang Fish Array.

“It's very simple. Release the Drought Demon, and it will naturally break the spatial barrier. We can take the opportunity to follow and leave.”

Village Chief Wang roared in exasperation, “Leona, you're simply a madwoman! Do you know how much impact releasing the Drought Demon will have?”
