

O game 481

Chapter 481 - The Holy Land Prodigy Rookie Competition begins!

Shudeli Haohong lightly nodded and walked to Lin Tianhao's side.

Seeing Lin Tianhao.

Shudeli Haohong smiled and said, "Hall Master Fan, my second brother has caused you trouble."

"Here, I apologize to you on his behalf."

Shudeli Haohong spoke with gentleness and refinement, making it difficult to associate him with the Grand Palace Master of the Boundless Infinite Palace.

"Apologies are unnecessary, just casually send some blessings from the gods as compensation."

Lin Tianhao's voice was not loud, but upon hearing his words, the air seemed to freeze for a moment.

The gazes of the masters of the major holy lands all fell upon Lin Tianhao.

In the previous incident, Lin Tianhao had killed Shudeli Haotu.

If it weren't for Shudeli Moli and the Scarlet Flower Demigod, Shudeli Haotu would have already died.

A normal person should have been able to hear that Shudeli Haohong was trying to remind Lin Tianhao.

But Lin Tianhao's response seemed as if he hadn't understood the meaning behind Shudeli Haohong's words at all.

Shudeli Haohong still maintained his gentle and refined demeanor.

"That's easy to say, how about we add some extra prizes to this competition?"

"Oh?"

Lin Tianhao looked at Shudeli Haohong with interest, "Judging by your appearance, you seem to be very confident in yourself."

Shudeli Haohong calmly said, "A small gamble is a pleasure, if I lose, my Boundless Empire will cede ten cities to you."

"But if you lose, you will cede five cities to us."

Lin Tianhao narrowed his eyes, looking at Shudeli Haohong, "Is this what you call a small gamble is a pleasure?"

Lin Tianhao spoke casually, "If you lose, then give me a divine artifact, and likewise, if I lose, I'll also give you a divine artifact."

Shudeli Haohong finally showed some emotion.

"It seems your confidence is even greater than mine."

"If I don't have faith in my own people, then who will?" Lin Tianhao retorted.

"Alright, I accept this bet!"

Lin Tianhao took out the Divine Travel Mirror, "Since that's the case, let's sign a contract."

Shudeli Haohong only hesitated slightly before taking out a key.

This key was actually a divine artifact.

Generally speaking.

Keys are used to open certain special places, and their ranks vary.

But this was the first time Lin Tianhao had seen a key that was itself a divine artifact.

The two concluded a contract, the content of which was very simple, that was which team would win the Holy Land Genius Rookie Competition.

Today was the first day, starting with the draw.

The draw was divided into morning and afternoon sessions, with two teams competing each day, and the top four would be determined in two days.

Then, in one more day, the top two would be determined, and finally, there would be the championship and runner-up competition.

A total of four days, the time was not too long.

For the first round of the first day, a draw was needed.

Above the arena.

Shudeli Haotu walked onto the stage, he said loudly:

"Hello everyone, I am the Second Palace Master of the Boundless Infinite Palace, Shudeli Haotu, I am the chief host of this Holy Land Genius Rookie Competition, and the judges will be the eight Holy Masters of the eight Holy Lands."

"Here, I solemnly announce that this Holy Land Genius Rookie Competition officially begins!!!"

Thunderous applause rang out throughout the venue, many people were very excited, and many people were also broadcasting live.

"This competition should be the pinnacle showdown between adventurers, I guess those invincible high-level players will come out."

"It is said that the minimum standard for joining the Holy Land is Sacred-level talent, and those who can participate in this competition are probably all God-level talent holders."

"Not really? Eight people in a team, eight teams, wouldn't that be sixty-four God-level talent holders?"

"Is sixty-four a lot? There are over ten billion players in Twilight of the Gods, although God-level talent is rare, there should be one in every million, so there should be thousands of God-level talent holders."

.....

Many people were discussing, they were all very excited.

Most people usually don't have the chance to see high-level players take action.

But this time it was different.

This competition almost gathered the top players from various countries.

"Next, please the captains of the four teams of Xitu Holy Land, Fan Hall, Boundless Infinite Palace, and Moon Wheel Demon Palace to come to the stage to draw lots."

Shudeli Haotu said loudly.

The four teams he mentioned were the teams of the native Holy Lands of the Boundless Continent, while the other four belonged to the periphery of the Boundless Continent.

Lin Tianhao was actually wondering who his team would draw.

Moreover.

Lin Tianhao didn't know who was in the other teams yet.

Although he had paid attention to the Holy Land Genius Rookie Competition in his previous life, after all, because of his existence, so many changes had occurred in Twilight of the Gods.

Lin Tianhao really couldn't say for sure what the specific situation was this time.

Especially.

The major Holy Lands must have given the contestants some special treatment.

Soon.

The four captains completed the draw, and Fatty immediately told Lin Tianhao the results.

"Brother Hao, we drew Icefire Los Island."

The corner of Lin Tianhao's mouth rose, this Icefire Los Island was very annoying, it wouldn't be bad to clear Icefire Los Island out of the game first.

After the draw was completed, the order of appearance was drawn next.

Fatty actually drew the first match this time, which was not a good thing.

Going up in the first match, it was easy to be defeated one by one.

"Let me talk about the rules of the competition, each round of the competition is a best of five."

"Two individual matches, two doubles matches, and the last team match."

"Next, please the contestants from Fan Hall and Icefire Los Island in the first round to come on stage."

Under the spotlight.

Fatty stepped onto the arena.

He had to get off to a good start in the first game, so he personally went on stage.

Jinghong Mengshuang was also very strong, but compared to Fatty, she was still a bit lacking.

Icefire Los Island also sent out a warrior in the first round.

Lin Tianhao looked over, and her information appeared in front of Lin Tianhao.

Xiao Ke Kulan: Level 100.

Health: 3.71 million / 3.71 million.

Attack: 890,000.

Skills: ???

Generally, if players deliberately hide their skills, they cannot be observed.

Otherwise, once a player's skills are directly observed, it is easy to be targeted in battle.

The Fiery Eyes more often used to see names.

After seeing Xiao Ke Kulan's attributes, Lin Tianhao couldn't help but feel that he was too cautious.

At this stage, several contestants who had taken the Pan Peach and increased their health by tens of millions were far ahead of other contestants in terms of health alone.

Xiao Ke Kulan's three million plus health was already very, very awesome at level 100.

But compared to Fatty, a pervert with over 100 million health, the difference was not small.

Fatty didn't have Fiery Eyes, so he couldn't see Xiao Ke Kulan's health.

That was fine too, at least he wouldn't underestimate the enemy.

"Little Fatty, are you ready to welcome my abuse?" Xiao Ke Kulan sneered.

Chapter 482 - Fatty: An old man teasing a naughty boy!

The fatty didn't speak, but glanced at Xiudeli Hotu.

Xiudeli Hotu understood and immediately announced: "Fandian versus Binghuo Los Island, first match, begin now!"

As Xiudeli Hotu's voice fell, Xiao Ke Kulan summoned dual blades, his body transforming into a streak of light, arriving before the fatty in the blink of an eye.

The fatty didn't panic, his shield sweeping out, colliding with Xiao Ke Kulan's dual blades.

"Clang--"

The sound of metal clashing rang out, Xiao Ke Kulan's body splitting into two, attacking the fatty from two different directions.

The fatty's shield sank, three golden shields appearing around him, blocking all of Xiao Ke Kulan's attacks.

"Shadow Hunt: Eight-Stage Slash!"

Xiao Ke Kulan's body split into four, turning into afterimages, slashing at the fatty from four different directions.

-97.

-96.

Critical hit!!

-192!

.....

Eight damage numbers appeared in succession, knocking off more than nine hundred of the fatty's health!

Then...

In less than a second, the fatty's health was restored to full by his passive health regeneration.

"Is this what a pro player is like? Doesn't seem like much?"

"An Eight-Stage Slash skill deals less than a thousand damage, I could do that."

"I thought it would be a battle of champions, but it turns out to be a fight between chickens."

.....

Seeing the damage dealt by Xiao Ke Kulan, many people present were disappointed.

Such a flashy skill only caused less than a thousand damage.

It looked rather pathetic.

It was a bit underwhelming that the Eight-Stage Slash only dealt this much damage.

"Got you."

The fatty immediately released Taunt. Xiao Ke Kulan instantly used Cleanse to remove the control effect, but as long as the skill effect was triggered, the fatty could refresh his shield.

Seeing the shield refreshed on the fatty's body, Xiao Ke Kulan felt as if struck by lightning.

Because the fatty's shield was as high as one-eighth of his health.

With his damage, even if the fatty didn't fight back, it would be difficult to break through the shield.

But the fatty wasn't a target.

Although Xiao Ke Kulan instantly removed the taunt, the fatty had already used Savage Charge.

Seeing this, Xiao Ke Kulan leaped up, actually jumping over the fatty's head, avoiding the fatty's Savage Charge while slashing down with his dual blades in a cross.

Seeing this scene.

Losu Ikuko frowned, "That idiot."

Because she could see that Xiao Ke Kulan had fallen into a trap.

As her voice fell.

Xiao Ke Kulan's blades passed through [Fatty]'s body, without causing any substantial impact to [Fatty].

"Invincible Etherealization?"

Xiao Ke Kulan was shocked.

However.

His guess was wrong.

The fatty used Mirage Flower in the Mirror.

Just as Xiao Ke Kulan's attack missed.

The fatty's true body had already used Savage Charge to collide with Xiao Ke Kulan.

-185920!

Xiao Ke Kulan couldn't even scratch the fatty, but the fatty hitting him was a different story.

Although the fatty didn't focus on attack power, the rank of his equipment was not low. His attack power wasn't high, but it was still higher than many warriors.

"Bang!"

The fatty's shield slammed into the ground, the huge recoil force sending Xiao Ke Kulan flying into the air.

-199520!

Another huge damage number. Two consecutive attacks reduced the opponent's health by one-tenth.

But this was just the beginning.

Xiao Ke Kulan, who was knocked flying, had no power to fight back. The fatty followed up with a Triple Shield Bash.

-159821!!

-159822!!

.....

Three consecutive damage numbers appeared, Xiao Ke Kulan's health dropping again.

Before he could land.

The fatty connected with a Heavy Shield Strike, once again knocking Xiao Ke Kulan upwards.

"Unstoppable!"

Xiao Ke Kulan had no choice but to activate Unstoppable.

After Unstoppable was activated, Xiao Ke Kulan was finally able to land.

But it was useless. He had no way to deal with the fatty.

In front of the fatty, he was like a toy.

It was a complete one-sided beatdown.

Xiao Ke Kulan used all his skills, but couldn't even break the fatty's shield.

The gap between them was too great.

"This... isn't this just an old man toying with a child?"

Tutu Lu Hongqiong couldn't help but laugh, "Losu Ikuko, is this the level of your newcomers this time?"

Losu Ikuko's expression was somewhat gloomy, "Hmph, this guy's fighting style is not something ordinary people can match. It's as if your people would be a match."

Tutu Lu Hongqiong smiled slightly, "Isn't it because we haven't fought yet?"

"My people wouldn't dare say they can definitely win, but this... hahaha!"

"Alright."

Xiudeli Honghong interrupted them.

"After all, Xue Di comes from a background of adventurers, and he can be said to know the strengths of those adventurers like the back of his hand."

"What's more, Xue Di has also given them special training. Under such circumstances, we will naturally suffer some losses."

Lin Tianhao glanced at Xiudeli Honghong, "Palace Master Honghong knows this and still made a bet with me. It seems you have also given your subordinates special training."

"Tit for tat."

Below.

Xiao Ke Kulan had already been defeated.

Next was the second match.

"I'll go next."

The fatty didn't even intend to leave the stage, "I won before I even had a chance to properly show off, it was really a bit boring."

The fatty's words were indeed a bit arrogant, but others didn't dare to say anything, after all, strength was what mattered in the arena.

"Fatty, your dual resistance is very high, but do you really think we don't have anyone who can deal true damage?"

A small assassin stepped onto the stage.

Lin Tianhao glanced at him. This assassin's health was less than a million, and it was estimated that in this competition, in terms of health, he was already at the bottom.

Could this guy's true damage be very high?

This was the thought of most people present.

But Lin Tianhao didn't care.

In Twilight of the Gods, there were many people who could deal true damage.

Even some equipment or skills would come with true damage.

If you wanted to take down a tank with a little true damage, then you would be underestimating the tanks of Twilight of the Gods too much.

What's more.

This tank was the fatty, such a pervert.

"Fandian versus Binghuo Los Island, second match, begin!"

As Xiudeli Hotu announced the start of the battle, the assassin player entered stealth.

The fatty didn't care.

He didn't even move, nor did he make a defensive stance, as if he was just waiting for the opponent's attack.

The assassin player seemed to be provoked, and suddenly attacked, Backstabbing with a knife.

-8.

A damage number popped up above the fatty's head.

After the first strike, the assassin didn't stop, and landed a three-hit combo with one hand.

-8.

-8.

-8.

-16.

.....

One damage number after another appeared.

-24.

-32.

-40.

-40.

.....

Very stable damage. In one second, four forties would pop up above the fatty's head.

Causing one hundred and sixty health.

Chapter 483 - The fat man is floating: 1V2!

"Damn it, I came to see the Genius Competition, what is this? A hundred and sixty damage per second? Is this a newbie just out of the novice village?"

"Speechless, really speechless. I wanted to see a battle of geniuses, not chickens pecking at each other."

... ..

Many viewers were quite speechless. They wanted to see a battle that wasn't so painless and insignificant.

They wanted to see dazzling skills and explosive damage, but the damage numbers weren't much different from their own.

"Stackable persistent true damage?"

Lin Tianhao didn't know whether to laugh or cry. The assassin attacked Fatty four times, so it was four instances of forty health loss per second.

As long as he remained stealthed around Fatty, this health loss wouldn't disappear.

However.

As it stands, the damage numbers are really too low.

Fatty now regenerates no less than 500,000 health per second. This level of damage is useless.

"So, you're going to be a turtle now?"

Fatty didn't have fiery golden eyes; he couldn't see the stealthed assassin.

"I wonder how you'll deal with this if I equip this item?"

As he spoke.

Fatty switched to a special piece of equipment.

Then, centered on Fatty, an area of five meters in radius became scorched earth.

-7190.

-7190.

... ..

As soon as these damage numbers appeared, the assassin was dumbfounded.

Lin Tianhao knew what equipment Fatty was wearing: a special piece of equipment for the warrior class with passive burning damage.

This equipment's damage wasn't high; it was based on a percentage of health.

Fatty had such high health, and it only did a little over seven thousand damage per second, which says a lot.

But this seemingly low damage became the last straw that broke the camel's back.

This assassin player was originally planning to stack true damage.

One hundred and sixty per second for four stacks, but what about forty stacks, four hundred stacks, or even four thousand stacks?

He had a chance to grind Fatty to death.

Of course.

If he knew that Fatty regenerated over 500,000 health per second, he wouldn't be so optimistic.

It's just.

He no longer had the chance to know.

The damage from this special equipment wasn't high, but it was specifically designed to target assassins trying to cut into the back lines.

Five meters isn't far, but it isn't close either.

Fatty still used the same old trick, charging with Savage Collision.

Above the platform.

Although the battle wasn't over yet.

Los Jingkong's face was as ugly as if she had eaten shit.

Because she could already foresee the outcome.

Relying on stacking true damage to poison Fatty to death was impossible.

Next, Fatty would just chase and play around.

The ending was obvious.

Fatty won with an absolute advantage, and his health bar didn't even change.

The assassin player released a few cool skills and a divine ability at the end.

It was a last-ditch struggle.

It could only be said that those skills and divine abilities could satisfy the audience, but they were useless to Fatty.

In fact, because of this, he suffered reflected damage and sent himself away faster.

"This, this, this... what's going on? Is this shield warrior's health bar ridiculously thick?"

"More than just the health bar, haven't you noticed that this shield warrior's dual resistance is ridiculously high?"

"The assassin used some very strong skills at the end, but they didn't even break the shield on that shield warrior."

"The assassin fighting the shield warrior, I don't know what the captain of Icefire Los Island was thinking."

... ..

Many people felt that it was unfulfilling.

After all, the overwhelming advantage in this battle was too great.

"Third round, 2V2, please have the captains of both teams arrange for their members to enter the arena."

Fatty glanced at Shudeli Haotu and asked, "Can I 1V2? There's really no pressure, and it's not interesting for others to watch."

"Insolent fool!"

In the Icefire Los Island's rest area, a young man was extremely angry.

He was obviously angered by Fatty's arrogant attitude.

"Aren't you very strong? I hope you can be as arrogant as you were just now."

Shudeli Haotu frowned, "If you insist, I can agree to your decision."

Seeing that Fatty wanted to fight two opponents alone, many people in the audience began to shout.

Lin Tianhao knew.

Fatty's habit of showing off had returned. He now had an idea to unbind himself from Fatty.

That would directly reduce Fatty's health by hundreds of millions.

Then, he could watch Fatty fail to show off, and feel great!

However, Lin Tianhao was just thinking about it.

It was okay to trick Fatty in private, but it was a bit meaningless to trick Fatty in this kind of formal competition.

Icefire Los Island sent up two mages.

Lin Tianhao glanced at them.

Both mages had over three million health, which could be considered very high for mages at this stage.

"Fan Palace versus Icefire Los Island, third round, begin now!"

As Shudeli announced the start of the match, the battle officially began.

The first to attack was the mage wearing an ice-blue robe.

The staff in her hand... no, it was a bone staff!

It was actually a scepter made of bone.

"My lord, that is a bone staff made from the leg bone of the Ice Snow Goddess."

The voice of the Sea God Poseidon sounded in Lin Tianhao's mind.

Upon learning this, Lin Tianhao couldn't help but be shocked.

There was probably going to be trouble.

Fatty was going to pay the price for his arrogance this time.

The bone staff waved, and Fatty's body was directly frozen.

Immediately after.

The black-robed mage pinched his fingers, and a dark vortex appeared under Fatty's feet.

-278501!!

-278501!!

... ..

Sustained high burst damage, this was because Fatty's dual resistance was high. If this damage were to hit an ordinary player.

The damage would definitely break through one million. The key was that this was sustained damage.

Fatty also realized the seriousness of the problem and immediately activated his Super Armor.

The freeze was removed, but a huge ice wall appeared in front of Fatty, blocking his path.

Super Armor could only remove crowd control, but it couldn't directly break through methods like ice walls.

Fatty grew wings on his back and immediately wanted to fly over.

But just as he took off, another huge ice wall appeared above his head, blocking his path.

Then came the left, right, and rear, completely sealing Fatty off.

Fatty had no choice but to wave his shield and slam it hard on the ice wall.

Once.

Twice.

Three times...

Fatty tried his best, but the ice wall only cracked after three consecutive strikes.

The fourth time, the ice wall shattered.

But a new ice wall had already appeared, blocking his path.

Seeing this scene.

Fatty secretly thought that things were bad, because there was a dark vortex under his feet. If his Super Armor ended, he would inevitably be frozen again in the dark vortex.

Then it would be endless damage.

Lin Tianhao, as a spectator, saw the situation very clearly.

If Fatty wanted to win, he had to kill this control-type mage instantly, otherwise, there was no chance at all!

Chapter 484 - The first battle was a victory!

That's right.

It's a one-hit kill.

Not just a kill.

Because if Fatty can't instantly kill this guy, defeat is inevitable.

However...

Lin Tianhao suddenly smiled, Fatty still has a rogue way of fighting.

That is to keep his health as high as possible.

Then wait for the opponent's mana to be completely exhausted.

In this kind of competition, potions cannot be used, otherwise the essence of the competition will change.

For two mages to release skills with such high intensity, the mana consumption is huge.

"Do you really think Fatty 笨蛋 dares to take on two without any trump cards?"

"Bang bang bang——"

Almost in an instant, Fatty punched through three ice walls in a row.

Then his figure flickered, and when he reappeared, he was already behind the ice mage.

All this happened so fast that the ice mage didn't even have time to react before Fatty punched her away.

The dark mage immediately took action to stop him, but how could Fatty give her a chance.

Three shields appeared around him, and the three shields exploded at the same time, blasting the dark mage away.

Then Fatty grabbed the ice mage and directly unleashed a series of punches.

His fighting style has deviated from the conventional shield warrior.

However, compared to a fighter, he lacks the joy of unlimited knock-ups.

"Shield Warrior Secret Technique? Burning a part of your own life force to gain a short burst of high damage."

Tu Tulu Hongqiong couldn't help but sigh when he saw Fatty's fighting style.

Lin Tianhao also knew this secret technique, but he didn't know when Fatty got it.

But for Lin Tianhao, the stronger Fatty is, the greater the help to him.

On the arena.

After Fatty's combo punches, the ice mage directly became low health.

If she hadn't used purification and displacement skills in time, she might have been instantly killed by Fatty.

The dark mage didn't dare to be careless, and a dark curse of silence fell on Fatty.

After being silenced, Fatty couldn't release skills temporarily, which could give them a chance to breathe.

But Fatty had already seen through their plan. Now that his霸体 has ended, if he can't solve the ice mage, he will fall into a passive state again.

"Purification!"

This is a skill, but it's not a skill Fatty learned, but an equipment skill.

After the purification was released, the heavy shield in Fatty's hand flew out, towards the ice mage.

The ice mage raised her hand, and three ice shields condensed in front of her.

The dark mage's right palm touched the ground, and a shadow rushed towards Fatty's shadow, starting from her palm.

Fatty jumped up, made three consecutive dashes in the air, and then the heavy shield slammed towards the ice mage.

The ice mage's expression changed slightly, and she slammed her staff into the ground, and a circle of ice shock waves swept in all directions.

Fatty came into contact with this shock wave, and his body flew out uncontrollably.

Fatty was still in mid-air.

The ice mage cast an ice spell, freezing Fatty into an ice sculpture.

"Dark Magic Ball!"

The dark mage cast a huge dark magic ball, which enveloped Fatty.

-198521!!

-198521!!

.....

The damage value of this dark magic ball is obviously not as good as the dark vortex.

But it is still a high-burst continuous damage skill.

But high burst also brings high counter-injury.

Fatty has been stacking his omnipotent counter-injury. As long as he takes damage, he can reflect the damage back.

The dark mage's health can't withstand Fatty's counter-injury at all, she can only keep applying shield skills to herself.

"Los Jingkong, it seems you have no chance."

Tu Tulu Hongqiong couldn't help laughing: "The counter-injury value of this shield warrior in Fan Dian is a bit too high."

Los Jingkong glanced at Tu Tulu Hongqiong and sneered:

"Who will win is still unknown."

As her voice fell.

The dark mage under the stage changed into a robe.

After putting on the robe, the dark mage actually gained a high amount of spell vamp.

Her spell vamp actually offset Fatty's counter-injury.

In the previous two battles, they had already seen that Fatty's counter-injury ability was not bad.

So they were prepared.

Tu Tulu Hongqiong looked at Los Jingkong in stunned silence.

"Los Jingkong, isn't this a bit unreasonable?"

"You even gave the Bloodthirsty Robe to adventurers, it seems you are really unscrupulous to win this time."

With the Bloodthirsty Robe, Fatty's counter-injury was directly offset.

This turned into Fatty passively losing health.

Relying on the Bone Staff of the Ice Goddess, the ice mage can continuously freeze Fatty.

Fatty's counter-injury is useless against the dark mage, this game seems to have suddenly fallen into danger.

But at this moment.

What everyone didn't expect was that the ice mage stopped freezing Fatty.

Freezing is a damage-type control.

The ice mage is already low health, and when she freezes Fatty, she will deal damage.

Correspondingly, she will also take damage.

The reason she stopped was because if she continued to freeze, she would be killed by Fatty's counter-injury.

"Hahaha!"

Seeing this scene, many viewers couldn't help laughing.

"It's really going to kill me, is it really just that I only need to make a slight move, and it's already the limit of this segment?"

"Fighting two against one is so difficult, I don't know how to describe it anymore."

"The idea is very good, but it's a pity that this shield warrior is a bit too strong."

.....

As soon as the freeze was lifted.

Fatty shot without hesitation.

The heavy shield in his hand slammed down, and a heavy shield appeared above the ice mage's head, smashing down on her.

The dark mage immediately released a dark shield for the ice mage, barely blocking Fatty's attack.

Maybe she can block it once, but can she block it a second time?

Fatty's body split into three, and rushed towards the ice mage at the same time.

The ice mage's expression changed slightly, and she cast an ice spell again, freezing Fatty.

This is no way, even if she freezes Fatty again, she will become zz blood because of the counter-injury.

But if she doesn't freeze Fatty, she will die without a doubt.

However.

When she cast the freeze, it had already declared her death.

Because Fatty used Mirror Flower, Water Moon, what she froze was just Fatty's clone.

And these clones will deceive her!

Sure enough.

The ice mage didn't find Fatty, was directly approached by Fatty, and then killed by a normal attack.

After the ice mage was killed, the next time was garbage time.

Although the dark mage's damage was good, she couldn't control Fatty, and could only be chased and chopped by Fatty, and was finally killed.

Chapter 485 - Start to sow discord from Shiya City!

The dark mage didn't last long and was killed on the spot by the fatty.

The dark mage's death also declared the Van Temple's first battle a victory.

Moreover, it was a crushing three-kill victory.

This battle disappointed many of the spectators present.

Because this battle was too simple.

It didn't have the intense battles they had imagined.

The battle was too simple, and the victory was too casual.

"Is it possible that the battle doesn't look simple, but that this fatty is too strong?"

"The dark mage who shot earlier was a top player from A San Guo, known as the number one mage of A San Guo. His damage has always started at one million, but it was only one or two hundred thousand against that fatty, too low."

"This fatty is really fierce, but I still think it's boring to watch. After all, watching tanks fight is not interesting at all."

... ..

It's not that losing to Van Temple is ugly, but being killed three times in a row by Van Temple is too ugly.

Especially.

He gave the ice mage and the dark mage two good things.

But they still lost.

"Hahaha, Xue Di, I really didn't see that you actually have such a fierce person under your command."

Lin Tianhao smiled awkwardly and said, "It's okay."

"This is okay? From the current point of view, he should be the most well-deserved number one meat shield in the entire Twilight of the Gods."

"The tankiness is good, but with only tankiness, you can only bully some rookies."

Xiudeli Haohong opened his mouth indifferently, "The afternoon game is your Tutulu Holy Mountain against the Western Temple. I hope you don't get killed three times in a row by the Western Temple."

Tutulu Hongqiong shook his head, "The outcome is still unknown, as for killing three in a row, that's a bit of a dream."

"A pipe dream? I don't think so."

The Western Hemisphere smiled and stood up, "Go back and take a nap. The afternoon game will definitely be more exciting than this morning's game. I'm getting sleepy watching it."

Lin Tianhao also stood up, "Since that's the case, then I'll go back too."

There are no Van Temple games in the afternoon, nor tomorrow, because the top four must be decided first.

However, according to the regulations, he still needs to participate.

The afternoon game will not start until 2:30 in the afternoon, and it's only 10:00 now.

The main reason is that the fatty finished the battle too easily, without any back-and-forth tug-of-war.

This is just right.

After all, Lin Tianhao wants to use this Holy Land Tianjiao Rookie Tournament to make trouble.

Leaving the judge's seat, Lin Tianhao used the Kunlun Mirror and disappeared.

When Lin Tianhao appeared again, he had already arrived at the border of the Xitu Empire, Shiya City.

Lin Tianhao had run errands here before.

Shiya City is a city next to the Moon Wheel Empire.

After Lin Tianhao arrived in Shiya City, his figure changed into the appearance of a dandy young master.

This dandy young master is the son of the city lord of Shitan City. Lin Tianhao specifically did this just to make trouble.

Shitan City belongs to the Moon Wheel Empire and is adjacent to Shiya City, but it belongs to different countries.

Therefore, there will inevitably be some small friction between the two cities.

After the Moon Wheel Empire took the blame last time, the relationship between the two cities became more tense.

And what Lin Tianhao is going to do now is to directly worsen the relationship between them.

Outside Shiya City.

Lin Tianhao swaggered into Shiya City.

"You are... the young city lord of Shitan City?"

Lin Tianhao was stopped at the city gate.

Lin Tianhao glanced at the guard and sneered, "My father asked me to send a letter of challenge, asking you Shiya City to disarm and surrender, otherwise you will be slaughtered through Shiya City tonight."

Hearing such arrogant words, the guard captain's face instantly darkened.

"Not long ago, your Moon Wheel Empire attacked us, and now you're playing this trick again. I think you're really tired of living."

"Pa — —"

Lin Tianhao raised his hand and slapped the other party in the face.

"I think the person who is tired of living is you!!"

The guard was slapped and became furious, roaring at Lin Tianhao:

"This is Shiya City, do you really think it's in Shitan City? Arrest him."

Saying that.

Several guards attacked Lin Tianhao.

Lin Tianhao directly tore open his throat and shouted: "I am the young city lord of Shitan City. If you dare to touch me, you want to provoke a dispute between the two countries."

If these words were said at other times.

Then there would be no big problem, and the other party might really stop.

But saying these words now is a bit inappropriate.

After all, not long ago, [Moon Wheel Ke Clan] joined forces with Fudelan City to plot against the Xitu Empire.

At this juncture, the young city lord of Shitan City said these words, isn't this just courting death?

Several guards didn't buy it at all. They attacked at the same time, directly aiming to kill Lin Tianhao.

Lin Tianhao smiled. If they didn't attack, Lin Tianhao's plan would not succeed.

"Olu Fudelan."

Lin Tianhao directly asked Olu Fudelan to change their consciousness, so that they saw that they had killed the young city lord of Shitan City.

And Lin Tianhao only needs to throw the body of the young city lord of Shitan City at the city gate, and he can get away with it.

If there is no Olu Fudelan, Lin Tianhao's doing this will inevitably be full of loopholes.

But with the existence of Olu Fudelan, he can guide these guards from the level of consciousness and thought, so that they feel that they really killed the young city lord of Shitan City.

As for the real young city lord of Shitan City.

Lin Tianhao has already let Poseidon, the sea god, kill him, and then after these guards attack, Poseidon, the sea god, can throw out the body of the young city lord of Shitan City.

Pinch the time.

Poseidon, the sea god, threw out the body of the young city lord of Shitan City.

Mission accomplished.

Lin Tianhao used the Kunlun Mirror to distance himself and watched this drama outside Shiya City.

Soon.

These guards noticed that the young city lord of Shitan City was beaten to death by them.

"Dead...dead, something happened, notify the city lord immediately."

The guard captain was shocked.

This is not a trivial matter. The young city lord of Shitan City was beaten to death here.

If you are not careful.

It may really evolve into a war between the two countries.

But this is no longer important. Lin Tianhao just gave Shitan City a reason to send troops.

As for whether Shitan City will not send troops?

Unimportant!

Because in the end, whether Shitan City sends troops or not is up to Lin Tianhao.

The matter here just happened.

Lin Tianhao immediately went to Shitan City.

City Lord's Mansion!

Relying on the seventy-two transformations and Olu Fudelan's ability, Lin Tianhao successfully came here.

Gutan Qiusi, the city lord of Shitan City, was slightly surprised to see Lin Tianhao's arrival.

"Who are you? Why are you here?"

Lin Tianhao smiled slightly, "You don't need to know."

Gutan Qiusi secretly thought something was wrong and was about to attack immediately.

However.

I don't know when, a middle-aged man appeared behind him.

I saw Poseidon, the sea god, raise his hand and press it on Gutan Qiusi's shoulder.

Gutan Qiusi only felt a surge of majestic pressure on his body, making it difficult for him to breathe.

"From now on, I am Gutan Qiusi."

Lin Tianhao directly transformed into Gutan Qiusi.....

Chapter 486 - Replace the city lord!

"What do you want to do?"

Gutansius looked at Lin Tianhao in disbelief, his face showing a look of horror.

Lin Tianhao smiled slightly, "What do I want to do? Of course, it's to avenge your son. Your son was killed by the people of Shiya City."

"Of course, you should avenge your son."

Gutansius instantly understood what Lin Tianhao wanted to do, and he looked at Lin Tianhao angrily.

"You want to provoke a war between the Xitu Empire and the Moon Wheel Empire. Do you know how many people will die if you do that?"

At this point.

Gutansius seemed to have reacted, and he looked at Lin Tianhao in disbelief.

"It's you!!"

"You can transform. Before, you transformed into the appearance of our Palace Master to cooperate with the people of Fudelan City. The purpose was to frame us."

Lin Tianhao smiled and said, "You are quite smart, but that's it."

"But you don't have a chance to say these things anymore. Next, please watch my performance."

Lin Tianhao asked Poseidon to imprison Gutansius.

And next.

It was time for Lin Tianhao to show off his acting skills.

Walking out of the room.

Lin Tianhao used Orulfudelan to know the general situation in the City Lord's Mansion.

"Butler Texun, call the three generals to discuss matters!"

Butler Texun was an old man with gray hair and a hunched body.

He was very obedient to Gutansius.

After receiving Gutansius's order, he asked softly: "City Lord, is it because of the death of the Young City Lord..."

Lin Tianhao nodded, "That's right, Shiya City is too 欺人 too much. Knowing that he was my son, they dared to kill him. If we don't teach them a lesson, they will really think that our Shitan City is afraid of them."

Butler Texun hesitated, paused, and still said:

"City Lord, you have lost your son at a young age. This old servant can understand the City Lord's grief, but please don't be too grief-stricken."

"The last time the Palace Master's matter made the relationship between the Xitu Empire and our Moon Wheel Empire tense. This time may be an opportunity to win back some face for us at the negotiating table."

Lin Tianhao smiled slightly, "Don't worry, I have my own sense of proportion in this matter."

Butler Texun heard this and didn't say anything more, and went down to convey Lin Tianhao's order.

Not long after.

Council Hall.

The three generals of Shitan City have all arrived.

When they saw Lin Tianhao, they all respectfully saluted.

"Greetings, City Lord."

Lin Tianhao waved his hand, "No need to be polite. You should already know what my purpose is in looking for you this time, right?"

General Xuanfu, the leader, said in a deep voice, "City Lord, we have all heard about the matter. This matter definitely cannot be let go."

"Yes, I think this is an opportunity. We must make a big fuss about it."

General Xuanfu bowed to Lin Tianhao again and said respectfully:

"City Lord, just tell us what to do. As long as you speak, we will definitely cooperate with the City Lord."

Lin Tianhao nodded and said seriously: "This time my son died, first of all, we must make them realize the seriousness of the matter."

"Three generals, I want you to send a large army to put pressure on Shiya City, and then I will personally go to Shiya City to negotiate."

"City Lord, are you going in person?"

Hearing Lin Tianhao's words, the three generals and Butler Texun were very surprised.

"Will it be dangerous? They just killed the Young City Lord."

Lin Tianhao shook his head, "If they are not fools, they will not touch me. With your large army pressing down, and my identity there."

"The death of a Young City Lord can still be negotiated, but the death of a City Lord is completely different."

When the few people heard Lin Tianhao's words, they all felt that Lin Tianhao was right.

Before Lin Tianhao could say anything, General Xuanfu took the initiative to stand up and defend Lin Tianhao.

"Butler Texun, you are not a soldier, you don't know the cruelty of the battlefield. Since this time we want to put pressure on them, I think if we don't have your news in an hour, we will send a large army across the border to give them enough pressure."

"Good!"

"General Xuanfu has the courage. When I am not here, the army will be under your command. This time is an opportunity for our Moon Wheel Empire to turn over. We must show the momentum of our Moon Wheel Empire."

Lin Tianhao asked them to gather the army.

Because it is a border city, and there was friction with the Xitu Empire some time ago, the army is already in a state of combat readiness.

This gathering of the army only took half an hour.

Shiya City.

City Lord's Mansion.

City Lord Hongya Jiu Mou's expression was a bit gloomy. After learning that his people had killed the Young City Lord of Shitan City, he entered a state of high alert.

However.

In less than an hour, Shitan City had gathered a large army.

"Not good, we seem to have been calculated. Gutansius is really ruthless. He used his own son's life to set up an old man."

Hongya Jiu Mou reacted instantly, and he felt that he had been tricked.

Hearing this.

Shiya City General Mo Hongda's expression froze.

"City Lord, do you mean that Gutansius deliberately let his son die in our hands, so as to take the opportunity to let our Xitu Empire make concessions for their last attack?"

Hongya Jiu Mou nodded heavily, "From the current point of view, that is indeed the case. I can only say that Gutansius is ruthless enough."

He had just finished speaking.

Someone immediately came in to report.

"City Lord, Shitan City Lord Gutansius has brought his butler and said he wants to see you, City Lord."

"Coming so fast."

A cold light flashed in Hongya Jiu Mou's eyes.

"Today's game is very unfavorable to us, but we are not without a chance."

At this point.

Hongya Jiu Mou waved his hand and said: "Invite them in."

Lin Tianhao stepped in. This time he brought Butler Texun.

It was because Butler Texun was a bit indecisive and still a peace-seeker.

For these two points, it was impossible for Lin Tianhao to let Butler Texun stay in Shitan City.

In case a fight breaks out later, and Butler Texun persuades him not to fight, then his efforts will be in vain.

City Lord's Mansion, Reception Hall.

Lin Tianhao successfully saw the City Lord of Shiya City.

As the first stop for Lin Tianhao to take action, he still knew some of their information.

City Lord of Shiya City.

Hongya Jiu Mou.

A ninth-rank diamond level expert.

Normally speaking.

Except for a few main cities, the city lords of other main cities are all seventh-rank and eighth-rank.

There are very few ninth-rank ones.

But the border cities are different. Basically, they are all ninth-rank, or higher-rank eighth-rank.

But it doesn't matter anymore.

For Lin Tianhao, the eighth-rank and ninth-rank are about the same.

"Gutansius, how have you been?" Hongya Jiu Mou said with a faint smile.

Chapter 487 - If the provocation is successful, a war will begin!

Lin Tianhao entered with a dark expression. He glanced at Hongya Jiumu and said angrily:

"Hongya Jiumu, I see that you are determined to provoke a war between our two countries. You killed my son. Do you really think my Gutansius has no temper?"

Hearing Lin Tianhao's words.

Hongya Jiumu was not surprised. He had expected Gutansius to come and question him.

"We accidentally killed the person. Whether you believe it or not is up to you. As for compensation, not a single penny. If you want to fight, we'll fight to the end!"

"As for provoking a war between our two countries, I'm not afraid. It should be your Moon Wheel Empire that's afraid."

Hongya Jiumu's attitude was somewhat beyond Lin Tianhao's expectations.

Originally, he was a little worried that Hongya Jiumu would play Tai Chi with him, which would make it difficult to start a war.

But as it stands now, he had overthought things.

This Hongya Jiumu was much more arrogant than he had imagined.

"Hongya Jiumu, judging by your tone, is our Moon Wheel Empire afraid of your Xitu?"

"If that's what you think, then there's no need for us to talk. Let's just fight!"

Hongya Jiumu waved his hand and said coldly, "Then let's fight. My Shiya City has wanted to fight for a long time."

"Don't think I won't tell you, while you were gathering your army, I was also gathering my army. Do you really think of our Shiya City as a pushover?"

Lin Tianhao was getting more and more surprised. He originally thought it would be troublesome to instigate conflict.

He didn't expect this Hongya Jiumu to be such a warmonger.

But he wasn't.

He couldn't wait for them to fight.

His purpose in coming here today was to get them to fight.

"What you said is very good, and very correct, but don't you know? We also have partners overseas. We are not afraid to fight with you."

With that said.

Lin Tianhao changed the subject and said:

"Originally, I was prepared to have a good talk with you, but if you're going to say that, I really don't want to talk anymore. You think I don't dare to fight, then let's fight and see."

As soon as he finished speaking.

Lin Tianhao turned around and left.

Seeing Lin Tianhao so resolute, Hongya Jiumu was stunned. He really didn't expect the other party to be so decisive, saying they would fight and then fighting.

Weighing the pros and cons.

This time, he was at fault in the first place.

If they really fought, then he would be the only one at fault.

Especially with the current situation in the Boundless Continent being unclear, insisting on starting a war with Shitan City would definitely not be a wise move.

"Gutansius, you're ruthless enough. Your son died. How do you account for the last time your people ambushed our Xitu Empire?"

As expected.

Hongya Jiumu brought up the last incident, wanting to use it to suppress Lin Tianhao.

Lin Tianhao didn't care, and even revealed a dismissive smile on his face.

"The last incident is already in the past. This time, I'm talking about the matter of my son being killed by your people."

Hearing Lin Tianhao's rogue words, Hongya Jiumu was furious.

"Already in the past?"

"How can you have the face to say these words? You're really talking nonsense with your eyes open, not ashamed at all."

Lin Tianhao smiled and scolded, "I said, it's definitely best if we can talk, but if we can't reach an agreement, then let's fight."

"You're really a madman!!"

Hongya Jiumu couldn't help but roar angrily.

But after these words came out, he forcibly suppressed the anger in his heart.

"Speak, what do you want?"

"A life for a life. My son died, so let your son die too."

Lin Tianhao's words were calm, but they made Hongya Jiumu completely unable to bear it.

"Gutansius, you're really inhuman. Fine, since you want to fight, then I'll grant your wish."

As the lord of a city, Hongya Jiumu still had some temper, especially since he really felt that Lin Tianhao's request was too outrageous.

Let his son pay for it with his life? How was that possible?

"Men!"

Hongya Jiumu gave an order, and immediately dozens of people took action, surrounding Lin Tianhao and Butler Texun.

"Pass down the order, gather the army, fight!"

"As for these two, kill them!!"

Before, the [Moon Wheel Empire] joined forces with Fudelan City to ambush their Xitu Empire, and Hongya Jiumu was already angry in his heart.

This time, he was already swallowing his anger.

But he didn't expect the other party to be so aggressive.

Since he couldn't bear it any longer, then there was no need to bear it any longer.

On the surface, it seemed that he was at fault this time.

But in the long run, if the Moon Wheel Empire fought this battle, it would definitely push the Moon Wheel Empire into the limelight.

It might even lead to the Mountain Sea Empire sending troops against the Moon Wheel Empire, accelerating the Moon Wheel Empire's destruction.

Seeing this scene, Butler Texun quickly spoke, "Misunderstanding, it's all a misunderstanding. Everyone can discuss things, there's no need to provoke a war between our two countries because of this."

Lin Tianhao coldly glanced at Butler Texun, and Butler Texun was afraid to speak after seeing Lin Tianhao's gaze.

Seeing that Butler Texun was no longer speaking, Lin Tianhao turned his gaze to Hongya Jiumu.

"A last-ditch effort, huh? I already explained it before I came. If I don't return in an hour, my Shitan City army will press over."

"No need to wait an hour."

Hongya Jiumu waved his hand, "After I take care of you, I will lead the army and flatten your Shitan City."

Lin Tianhao glanced at Butler Texun, "Buddy, let's fight our way out together."

Butler Texun was suffering in his heart, but now there was no other way.

Things had come to this.

Only fight!

Lin Tianhao led Butler Texun to break through together.

However.

Butler Texun must die here in this battle.

And he.

Needed to break through.

A great battle was about to break out.

Lin Tianhao himself naturally didn't have the strength to contend with these seventh and eighth-stage experts.

But with Ouluo Fudelan's assistance, he only seemed to be struggling in battle.

Finally.

After Butler Texun was killed.

Lin Tianhao immediately had Ouluo Fudelan use his methods to kill his way out.

Seeing Lin Tianhao escape, Hongya Jiumu knew that there was no room for maneuver.

If he didn't take action, Lin Tianhao would also take action.

"Pass down the order, the army will set off, flatten Shitan City, I will bear all the responsibility!!"

Those who were able to guard the border were somewhat bloodthirsty.

When negotiating with each other, they might still be able to weigh the pros and cons.

But if the negotiations broke down, these city lords of the border cities would not lack the courage to fight to the death.

Border.

The junction of the two countries.

In General Xuanfu's camp, he was calculating the time, ready to have the army cross the border at any time, giving enough pressure.

But at this moment, a scout ran over in a hurry.

"General Xuanfu, something bad has happened. In the direction of Shiya City, there is a large army heading towards us."

Chapter 488 - Two skills copied!

A cold glint flashed in the eyes of General Xuanfu, "Negotiations broke down?"

"Shiya City probably had this planned all along. They've held a grudge about the previous events, and killing the young city lord was all for this setup today."

Hearing this.

The faces of the other two generals changed slightly.

"General, are you saying they deliberately killed the young city lord, intending to provoke a war between our two nations?"

General Xuanfu nodded heavily, "From the looks of it, they know our Moon Wheel Empire is facing enemies on all sides and is in a difficult situation."

"They want to start a war between our two nations at this time to take advantage of our misfortune."

General Xuanfu's analysis was highly approved by the other two generals. They exchanged glances, their eyes filled with coldness.

"Now that things have come to this, we have no choice. We must win this battle. If we lose, it will be a catastrophe for us."

"Fight, fight, fight!!"

For a time, everyone's fighting spirit soared.

"Order the army, Shiya City has betrayed its trust and killed the young city lord, and the city lord's life or death is unknown. Now that the army is attacking, all soldiers, follow me to flatten Shiya City!!"

In the distance.

Lin Tianhao watched silently. The outbreak of war between Shitan City and Shiya City meant his goal had been achieved.

"Gutanqiushi, is this show to your liking?" Lin Tianhao looked at the city lord of Shitan City beside him.

Gutanqiusi was furious, roaring at Lin Tianhao:

"You brat, you have the ambition of a wolf. One day, you will pay the price for what you've done."

Lin Tianhao glanced at Gutanqiusi and said indifferently: "Do you know who the land beneath your Moon Wheel Empire originally belonged to?"

"You're truly shameless to say such a thing."

Upon hearing this, Gutanqiusi instantly realized something.

He looked at Lin Tianhao in disbelief, horrified, "You are... you are from the Mountain Sea Empire."

"The last time and this time, you want to provoke a conflict between our two nations, so your Mountain Sea Empire can reap the benefits!!"

Lin Tianhao smiled noncommittally, "It doesn't matter anymore. You just need to know that you are going to die."

After saying this.

Lin Tianhao gave Poseidon a hand gesture.

Poseidon understood Lin Tianhao's meaning and decisively took action, obliterating Gutanqiusi.

Because Poseidon killed Gutanqiusi, there would be no server-wide announcement.

They have already started fighting.

Naturally, this matter has nothing to do with Lin Tianhao.

He returned to Vast Expanse Limitless Palace.

It was still lively here.

The battles in the morning were not very exciting, but the battles in the afternoon were still worth looking forward to.

Because they already knew that there was a star player in the Tulu Holy Mountain this afternoon.

It was a mysterious and unpredictable mage, nicknamed the 'Weird Magic King' by netizens. The various bizarre spells dazzled people, and he was highly praised by netizens.

Lin Tianhao also had Fatty and the others come to watch the battle between the Tulu Holy Mountain and the Western Extremity Divine Hall.

The war between the two countries was not a large-scale battle. To be precise, it was just a battle between two cities.

An hour or so passed.

Lin Tianhao returned to the vicinity of the battlefield again, wanting to see the direction of this battle.

What Lin Tianhao didn't expect was that this battle had not ended, and the scale of the battle had not expanded.

From the looks of it.

Shitan City was at a disadvantage.

But it seemed that because of Gutanqiusi's death, the people of Shitan City were still fighting desperately.

This time, many people would die because of Lin Tianhao's instigation, but Lin Tianhao did not feel guilty.

Those who achieve great things should not be bound by trivial matters.

What's more, whether it was the Moon Wheel Empire or the Xitu Empire, the land under their feet once belonged to the Mountain Sea Empire.

Lin Tianhao was just using his own method to revive the Mountain Sea Empire.

Although they were still fighting, the battle did not expand, which still disappointed Lin Tianhao.

Provoking a battle between two cities, his purpose was not really just to have the two cities fight each other.

The ultimate goal was definitely to hope that the battle would expand and cause the Xitu Empire and the Moon Wheel Empire to directly clash.

He returned to Vast Expanse Limitless Palace again.

At this time, they had already begun to take the stage one after another, and the stands were already overcrowded.

"I hope this afternoon's match can be more exciting. I wasted my precious monster-grinding time to come here."

"Who isn't? If it's like this morning again, I won't watch it tomorrow."

"Speaking of which, have you guys noticed that someone has opened a betting pool online? Do you want to bet a little?"

... ..

Above the high platform.

Tulu Hongqiong and the Demigod Xiji had already arrived. This afternoon, the new talents of their two holy lands would compete, which would inevitably spark some different sparks.

Lin Tianhao, on the other hand, wanted to see if he could copy some interesting skills this time.

Last time, Lin Tianhao copied a total of two skills in the Godslayer Academy.

The first one was that little fatty's.

Ultimate Immunity: 1 star.

Learning Requirements: Warrior Profession.

Effect: You will be immune to critical strike damage, and the non-true damage you take will be reduced by 10%, lasting for five seconds.

Consumption: 100 mana.

Cooldown: 15 minutes.

Proficiency: 0/100.

This skill is really powerful, directly granting immunity to critical strike damage.

One star grants 10% immunity, so if it is raised to ten stars, will it be able to completely immunize non-true damage?

If that's the case, it would be a bit too perverted.

Because in the early and mid-stages of Gods Twilight, true damage is rare and the value is not high.

Even in the later stages of the game, there are very few high-value true damage skills.

Of course.

Generally speaking.

There will not be a skill that completely immunizes damage, and it is estimated that it will not be able to be raised after reaching nine stars.

Otherwise, there will be some special conditions.

As for the second skill book generated.

Void's Return!

This skill is also very good, and the most important thing is that it is a Sky Patrolling Divine Skill.

Its power is even stronger than some divine abilities.

Void's Return: Cannot be upgraded.

Learning Requirements: None.

Effect: Within a radius of 500 meters, you can reverse the void and pull the people who left within the last five seconds back to your side.

Consumption: 100 mana per second.

Cooldown: None.

Proficiency: Cannot be upgraded.

This skill is a bit perverted.

No cooldown, and the mana consumption is not high.

As expected of a Sky Patrolling Divine Skill, it is really powerful.

This time at the Heavenly Pride Assembly, he may not encounter any players with particularly perverted attributes, but there is a high probability that he will encounter some players with awesome skills.

Never underestimate other people's opportunities. There are many hidden quests in Gods Twilight, and there are also many hidden rewards.

Maybe someone else has obtained some very perverted skill.

Chapter 489 - Gui Ye Wuqing VS Jin Delan!

Quickly.

Xiudeli Honghong and the Red Flower Demigod, Los Jingkong, and others successively took the stage.

However, Moon Wheel Kezu and the Xitu Demigod were still late to appear, possibly due to the Twin Cities War provoked by Lin Tianhao.

"Snow Emperor, have you heard?"

Xiudeli Honghong's position was next to Lin Tianhao.

He had just sat down when he asked.

Lin Tianhao frowned slightly, "Heard what?"

"The Xitu Empire and the Moon Wheel Empire are fighting again. This time, I heard that the Xitu Empire provoked it, killing the young city lord of Stone Tank City."

Lin Tianhao remained expressionless, smiling as he said, "The two countries fighting, you shouldn't be happy, should you."

"I'm not happy, but Snow Emperor, aren't you very happy?" Xiudeli Honghong asked.

Lin Tianhao opened his mouth, retorting, "Your Boundless Limitless Palace has a deep foundation. Are you going to be a peacemaker when they fight?"

Xiudeli Honghong smiled slightly, saying, "That's natural. I've negotiated with them. Let Stone Tank City and Stone Ya City fight. No matter the outcome, they can't pursue it any further."

Lin Tianhao's palms tightened. He painstakingly set up this situation, but Xiudeli Honghong's words brought him back to square one.

To be honest.

Lin Tianhao was very dissatisfied, but he couldn't show it.

If he wanted to continue sowing discord, he would need to make other arrangements.

"By the way, Snow Emperor, do you think there might be an adventurer who can transform into other people?"

Xiudeli Honghong suddenly asked, "I heard that the crystal ball recording Moon Wheel Kezu colluding with Fudelan City was sent out from your Mortal Palace."

Lin Tianhao knew that Xiudeli Honghong suspected him.

"When the fighting starts, who knows how many people will die."

Xiudeli Honghong's expression darkened slightly, but he quickly regained his composure.

"Hongqiong, you can't say that. There was no heaven and earth at the beginning. This world was created by an unknown existence."

"So, this place didn't belong to the Mountain Sea Empire from the beginning."

At this point.

Xiudeli Honghong changed the subject, asking Lin Tianhao, "Right? Snow Emperor."

Lin Tianhao smiled noncommittally, "I like what you said. Can it be understood that if that unknown existence doesn't appear, this world is unowned."

"Those who have the ability can compete for it."

Hearing these words.

A cold glint flashed in Xiudeli Honghong's eyes.

The ambition in Lin Tianhao's words was too great.

"Hongqiong, did you hear that? You're still speaking up for him. His ambition isn't just the Boundless Continent. Maybe after he takes the Boundless Continent, the next one will be your Tutu Lu."

Xiudeli Honghong immediately began to sow discord.

Lin Tianhao frowned slightly, not explaining.

Such a thing.

Would only make things worse.

Tutu Lu Hongqiong glanced at Xiudeli Honghong.

"Xiudeli Honghong, don't be so affectionate. Speaking of which, we're not that familiar."

"I originally thought your Boundless Limitless Palace was neutral. I didn't expect you to have so many thoughts."

Xiudeli Honghong spread his hands, "Can you blame me? Someone wants to destroy my country. Should I just sit idly by?"

During this conversation, it quickly reached 2:30 PM.

The afternoon's battles officially began.

Xiudeli Hongtu was still in charge of hosting.

"The Holy Land Pride Newcomer Competition, afternoon session, begins now."

Xiudeli Hongtu walked onto the arena, "This morning, the contestants from the Mortal Palace completed the feat of one-versus-three. It was quite wonderful."

Hearing these words.

The stage was filled with boos.

The reason was none other than that many people had felt like sleeping while watching the battles this morning.

Hearing these boos, Xiudeli Hongtu couldn't help but reveal a smile.

"I believe that this afternoon, the contestants from Tutu Lu Holy Mountain and the Western Extremity Holy Land will bring us different excitement."

"Next, let us invite the first contestants from Tutu Lu Holy Mountain and the Western Extremity Holy Land."

On the Tutu Lu Holy Mountain side, the person who came out surprised Lin Tianhao a bit.

It was that first-level mage wearing a bamboo hat.

Lin Tianhao had originally thought that she had joined some hidden holy land.

But he didn't expect that she had joined Tutu Lu Holy Mountain.

He just didn't know how she had contacted Tutu Lu Holy Mountain and successfully joined it.

Lin Tianhao had also seen the contestant from the Western Extremity Holy Land.

Jin Delan!

Lin Tianhao had fought with Jin Delan a long time ago.

Relying on his Myriad Swords Soaring, he was quite powerful.

If Lin Tianhao hadn't been too abnormal, he probably wouldn't have been able to suppress Jin Delan.

Just that.

Lin Tianhao had originally thought that Jin Delan had joined the Boundless Limitless Palace.

But he had joined the Western Extremity Temple.

Jin Delan was strong, but he wasn't a contestant from the Boundless Limitless Palace. How fierce were the contestants from the Boundless Limitless Palace that Xiudeli Honghong would take out a divine artifact to bet with himself?

This made Lin Tianhao feel a little worried.

After all, he had previously guessed that Jin Delan was in the Boundless Limitless Palace.

And this.

Was one of Xiudeli Honghong's trump cards.

"Jin Delan, Jin Delan, Jin Delan!!"

In the audience, many foreign viewers were chanting Jin Delan's name.

After all, Jin Delan's popularity abroad was still very high.

Gui Ye Wuqing's popularity was relatively not that high.

As Xiudeli Hongtu announced the start of the battle.

Gui Ye Wuqing took the lead, raising her hand to create a sky full of ice cones.

"Damn, that's gorgeous. This bamboo hat girl is so showy, plus Jin Delan's Myriad Swords Soaring, why am I a little excited?"

"Finally, it's like the Holy Land Pride Newcomer Competition. What the hell was I watching this morning?"

"Hahaha, that's right."

... ..

Gui Ye Wuqing's actions made many people show excited expressions.

Especially those streamers. This morning, because the battles were too ordinary, their live broadcast popularity wasn't very good.

With Gui Ye Wuqing's operation, plus Jin Delan's name, the popularity immediately went up.

Above the arena.

Jin Delan was not willing to be outdone, raising his hand to unleash Myriad Swords Soaring.

"Boom boom boom — —"

Gorgeous magic plus domineering Myriad Swords Soaring pushed the battle to a climax from the start.

"He's gotten a lot stronger."

Lin Tianhao looked at Jin Delan, his brows furrowing slightly.

Compared to when he fought Jin Delan before, Lin Tianhao could clearly feel Jin Delan's strength increasing.

However.

This battle will no longer have any suspense.

Because... Gui Ye Wuqing is even stronger!!

Chapter 490 - The Tianren Blood Buddha takes the stage!

The three Gui Ye Wu Qing all seemed to have their own unique strengths.

My own sister's life value increased rapidly, this level one Gui Ye Wu Qing had strong skills, and the other Gui Ye Wu Qing was strong mechanically.

Moreover.

Their growth was smoother and faster than Lin Tianhao had imagined.

On the arena.

Gui Ye Wu Qing merely used a sky full of ice cones to fight Jin Delan to a standstill.

After the ice cones, Gui Ye Wu Qing used a sky full of fireballs and a sky full of wind blades.

Every skill she used was extremely flashy.

And these seemingly ordinary small skills all possessed extremely strong lethality.

Jin Delan quickly discovered this problem, and it was very difficult for his Myriad Swords to Fly to cut open a wind blade.

Often, it took thirty swords to shatter a single wind blade.

However.

Before the sky full of wind blades could be dealt with, Gui Ye Wu Qing used earth thorns all over the ground.

These earth thorns launched attacks from the ground, catching Jin Delan off guard.

"Hahaha, Western Extremity Demigod, your contestant is not very good, if she defeats three in a row, then you can't blame me."

The Western Extremity Demigod's expression was a little unsightly, after all, no one would feel good being pointed at and ridiculed like this.

Especially since.

The trump card contestant under his command was actually completely suppressed.

"Don't speak too soon, whether she can defeat three in a row is still uncertain."

"Hahaha, then we'll wait and see if our Tu Tulu Sacred Mountain's contestant can complete defeating three in a row."

Tu Tulu Hong Qiong laughed loudly, very pleased.

Xiu Deli Hao Hong looked at Lin Tianhao and asked with a smile:

"Snow Emperor, do you think this level one little mage can replicate the feat of defeating three in a row?"

Lin Tianhao smiled, "Maybe the Western Extremity Sacred Ground still has a big move? Let's wait and see after the second round."

Upon hearing this.

Tu Tulu Hong Qiong was slightly displeased, "Snow Emperor, I'm supporting you so much, it hurts my heart to hear you say that."

Lin Tianhao smiled helplessly, "I'm telling the truth, if Jin Delan is the Western Extremity Sacred Ground's biggest trump card, then your defeating three in a row should be without any suspense."

"But if he's not, the situation is different."

Tu Tulu Hong Qiong grinned, "Hahaha, it's meaningless to think so much now, since that's the case, then let's just watch the second match directly."

"Western Extremity Demigod, I really hope from the bottom of my heart that you can give me some pressure, otherwise it would be too boring."

The Western Extremity Demigod's eyes seemed to want to stab people, but in the end, she didn't say it.

Jin Delan was defeated without any suspense.

So far.

He knew, or even recognized, most of the contestants.

This was a bit boring.

He actually wanted to see some existences that he didn't know or recognize.

It wasn't just the contestants that had changed.

Lin Tianhao remembered that during the first Sacred Ground Heavenly Pride Newcomer Competition in his previous life, there were also eight teams.

However, at that time, the eighth team was not the Mortal Palace, but the Bai Locke Temple.

The Bai Locke Temple was still somewhat famous in the Vast Expanse Continent.

Lin Tianhao wasn't very clear why they didn't participate this time.

But it seemed to have a lot to do with his own Mortal Palace.

But these were no longer important, he originally wanted to take advantage of this competition to stir up chaos in the Vast Expanse Continent.

The first step seemed to be successful.

But in reality, it didn't achieve the effect Lin Tianhao wanted.

Especially since Xiu Deli Hao Hong had already begun to suspect him.

This was not good news for Lin Tianhao.

If he continued to use the same method to sow discord, it was very likely that Xiu Deli Hao Hong would confirm his own guess.

Therefore.

Lin Tianhao needed to carefully consider the next layout.

Tonight.

Did he still need to do something?

While Lin Tianhao was thinking about these things, he thought of the situation when he went to the Moon Wheel Demon Palace last time.

Since there was no way to directly provoke a new war, then he had to try to use the chess pieces he had arranged before.

While Lin Tianhao was thinking about these things, the second match had already begun.

What Lin Tianhao didn't expect was that a familiar person had also appeared in this second match.

Heavenly Ninja Blood Buddha!!

He was the first player to join the Sacred Ground.

However.....

It seemed that he had joined the Bai Locke Sacred Ground!

Could it be that the Western Extremity Divine Hall and the Bai Locke Temple had reached some kind of cooperation.

Lin Tianhao had Fiery Eyes of Truth, and could recognize that the other party was Heavenly Ninja Blood Buddha.

But others couldn't.

After all, as an assassin, Heavenly Ninja Blood Buddha had always been in a hidden nickname state.

"Assassin against mage, not a bad idea."

Tu Tulu Hong Qiong was not surprised to see Heavenly Ninja Blood Buddha, and at the same time, he was not worried.

It seemed that Gui Ye Wu Qing in the arena was not afraid of assassins.

After Xiu Deli Hao Tu announced the start, Heavenly Ninja Blood Buddha instantly entered stealth.

This belonged to a special stealth skill.

Although stealth skills could provide invisibility for a long time, there were also limitations.

A person's movement speed would decrease in stealth, and secondly, there would be a three-second pre-cast animation for stealth.

The person gradually became invisible.

This also led to the fact that assassins could ambush once, but to ambush a second time, they needed to disengage from combat.

But it wasn't absolute.

Some people possessed special stealth skills, not only could they instantly enter stealth, but also.

And in the stealth state, movement speed would not only not be affected, but might even increase.

Heavenly Ninja Blood Buddha's instant entry into stealth was enough to explain a lot of problems.

Especially since.

Heavenly Ninja Blood Buddha was a top ninja in reality, especially good at assassination.

In addition, he was the first to join the Sacred Ground in Twilight of the Gods, and his opportunities were beyond doubt.

It was really hard to say who was stronger or weaker in this battle.

On the arena.

Gui Ye Wu Qing also knew the danger of assassins getting close, she raised her hand, and countless magic shields appeared around her, protecting her in the center.

The magic shields overlapped layer upon layer, covering outwards.

Then there was a sky full of fire rain.

As long as an assassin was damaged, the stealth state would be broken.

Fire rain, a skill with a large enough coverage area, could completely force Heavenly Ninja Blood Buddha out.

It was a pity.

She failed.

Heavenly Ninja Blood Buddha didn't seem to be within the attack range of her fire rain.

However.

Lin Tianhao, who had Fiery Eyes of Truth, knew that Heavenly Ninja Blood Buddha was in the fire rain, he was deliberately deceiving Gui Ye Wu Qing.

The reason why he hadn't broken his stealth state in the fire rain.

Breaking the stealth state required taking damage, and this damage referred to losing health.

And Heavenly Ninja Blood Buddha wasn't losing health in the fire rain right now, because he had a layer of magic shield.
