

## O game 511

Chapter 511 - The Red Flower Demigod asks for cooperation!

"If I go up, I'm confident I can drag him down," Fatty said.

"That guy's strong control abilities are indeed a bit tricky, but my damage reflection isn't just for show either."

Lin Tianhao shook his head, "Netherworld Craftsman can also subtly weaken your soul power to enhance his own power."

"His abilities are somewhat similar to Prince Beimo. Based on my judgment, your chances of winning against Netherworld Craftsman alone aren't great."

While speaking.

Lin Tianhao looked at Monkey and Lin Qingqing.

"What about you? Monkey, Qingqing, are you confident in quickly killing Netherworld Craftsman instantly?"

Monkey and Lin Qingqing looked at each other, both with a hint of hesitation in their eyes.

"My burst damage should be enough, but if I can't connect and maximize output, it might be difficult to quickly kill Netherworld Craftsman."

Monkey is strong in versatility. In terms of single-target burst damage, Monkey isn't actually that strong.

Lin Qingqing pondered slightly before saying, "I do have single-target burst damage, but... I have a means to dispel soul control, so dealing with him should be much easier."

Lin Tianhao: ? ? ?

He was worried for nothing.

But Lin Qingqing's luck is indeed quite impressive.

Gods' Twilight has only been open for half a year, and she has already obtained a means to remove soul control.

"Use it and let me see," Lin Tianhao said.

Lin Qingqing didn't hesitate, covering herself with a layer of cyan-gray light.

"This skill, Immovable Profound Spirit, prevents the soul from taking any attacks from the soul level, including control, for a certain period after use."

A satisfied smile appeared on Lin Tianhao's face.

Because he had already copied and recorded this skill using his Origin.

To be honest.

Without using divine power, Lin Tianhao is currently unable to break free from soul-level control.

Therefore.

It's very necessary for him to copy Lin Qingqing's skill.

After recording Lin Qingqing's skill, Lin Tianhao glanced at the progress bar of the previously copied Flame Winged Dragon Summon.

Currently, this progress bar is only thirty-seven percent.

If he wants to complete the copy and give this skill to Su Li, it will still take time.

Although the Origin Copy skill is perverted, it doesn't copy in one second; copying takes time.

Otherwise, Lin Tianhao could just copy top-tier skills everywhere.

"Okay, Lin Qingqing, with your words, I can rest assured."

Just at this moment.

Someone walked in from outside.

"Speak, what do you want to see me about?" Lin Tianhao asked.

"Two things."

Prince Beimo looked at Lin Tianhao seriously, "The first thing is that Demigod Chihua sent me. She wants to cooperate with you."

Lin Tianhao chuckled: "She was targeting me everywhere before, why does she want to cooperate with me now?"

"In her words, she offended Vast Infinity Palace in this Holy Land Prodigy Newcomer Competition, and with Vast Infinity Palace's nature, they will definitely target Chihua Sand Palace next."

Lin Tianhao waved his hand. He could only say that this statement was possible, but he wouldn't just believe Demigod Chihua like that.

For a Holy Land Prodigy Newcomer Competition, Demigod Chihua would offend Vast Infinity Palace?  
That didn't seem like a worthwhile deal at all.

Therefore.

Lin Tianhao had reason to suspect that there was some conspiracy he didn't know about.

It was even possible that Demigod Chihua and Vast Infinity Palace were acting together.

The purpose was to make him cooperate with Demigod Chihua.

After all, from a common-sense perspective, although he had some foundation now.

Relying on a newly revived Mountain and Sea Empire to oppose the entire Vast Continent and some forces around the Vast Continent.

This battle line was too long and prone to problems.

Therefore.

From a normal person's perspective, he should find allies.

Because he wanted to revive the entire Mountain and Sea Empire, it meant that he was naturally opposed to the forces on the Vast Continent.

Therefore.

He should choose overseas partners.

Wasn't that convenient?

Because of a Holy Land Prodigy Newcomer Competition, Demigod Chihua offended Vast Infinity Palace, wasn't that sending a partner to his doorstep?

Of course.

These were just Lin Tianhao's guesses. Lin Tianhao didn't know if that was really the case.

"What's the second thing you wanted to say?" Lin Tianhao asked.

Prince Beimo was silent for a while, but finally spoke:

"Because of those people from the Alette Star System, more and more people know the secret of Gods' Twilight."

"Of course, many people are still just guessing, but this has already caused people to stir up hype and question our officials about some things about Gods' Twilight."

Lin Tianhao took a deep breath.

He knew.

Because of the commotion he created in the Ancient Dynasty Secret Realm, the people from the Alette Star System were exposed in advance.

The NPCs of Gods' Twilight might abide by the rules and not reveal the secrets of Gods' Twilight.

But those guys from the Alette Star System weren't necessarily going to do that.

Especially that little showoff who slandered him on the Gods' Twilight forum before, and the Music God Society behind him, must also know some secrets about Gods' Twilight.

This kind of secret leak is likely to affect the government's control.

Especially.

When they all feel that Blue Star will be destroyed by the Alette Star System, that kind of panic will be extremely terrifying.

After all, in some novels on Blue Star, alien civilizations are extremely powerful and can easily destroy Blue Star.

Most ordinary people will definitely see a surge in crime rates if they think the world is about to end.

"So, what do you want me to do?" Lin Tianhao asked.

Actually, from his point of view, the government should actively announce the secrets of Gods' Twilight, so that it might be possible to change the fate of those people.

At least, if the government had announced the secrets of Gods' Twilight in advance in his previous life, he would never have stayed in the Chasing Dreams Club as a wage slave gold farmer.

"I wonder, Mr. Xue Di, how much do you know about Gods' Twilight?"

Prince Beimo didn't answer Lin Tianhao's question, but asked Lin Tianhao another question.

"I know that Gods' Twilight is not a simple game."

Prince Beimo opened his mouth, but finally said:

"Gods' Twilight is not as simple as it seems on the surface. The origin of this game is very mysterious. My authority is limited. The information I got is that Gods' Twilight is for creating gods."

"Real gods, do you know what that means?"

Speaking of this.

Prince Beimo was a little excited. People of this era have an extraordinary obsession with cultivating immortality and becoming gods.

Now that they have heard the opportunity to become gods, how can they not be excited?

"If the news that Gods' Twilight can make people become gods spreads out, it will definitely drive countless people crazy."

Chapter 512 - Prince Beimo's lies!

Lin Tianhao was silent. He looked at Prince Bei Mo, and after a while, Lin Tianhao spoke, saying:

"Why tell them they can become gods?"

Prince Bei Mo's words made Lin Tianhao suspect his identity.

Because if it were the government, they wouldn't use such a clumsy reason to inform people about the Twilight of the Gods.

The simplest and most direct approach would be to directly tell the public that extraterrestrial beings were coming, and that the power gained in the Twilight of the Gods could be manifested in the future.

The government would lead the people to resist extraterrestrial beings, and then add some deployments from the military.

To let the people see a united front.

At the same time.

Launch several peak players, create hero images, and let the people see hope.

These are just some of the things Lin Tianhao could think of. If it were those people in the government, their considerations should be more comprehensive.

But what Prince Bei Mo is saying now is simply like a pile of shit.

Telling others that this is creating gods?

Then wouldn't the people frantically抢夺 resources?

At that time, the ecosystem of the Twilight of the Gods might directly collapse.

Prince Bei Mo didn't seem to have considered this issue at all. He looked at Lin Tianhao and said.

"If we are going to announce it, we must tell the truth. If we don't tell the truth and are pointed out by people from other forces, our Dragon Kingdom government will be caught in a media storm."

"It may even lead to unrest among the people."

Lin Tianhao smiled slightly, "The Twilight of the Gods is not entirely born for the purpose of creating gods. Also, I really want to know, who exactly are you working for?"

Hearing Lin Tianhao's words, Prince Bei Mo was stunned for a moment. He subconsciously said:

"The Dragon Kingdom government, of course."

Lin Tianhao shook his head, "I don't think so. You seem more like someone from the Joy God Society. I felt something was strange when you were fighting before. Now I understand. You did it on purpose. In the last game, the Scarlet Flower Sand Palace should have won, but it lost."

"You were that actor."

Prince Bei Mo's expression changed slightly, and he said angrily: "Snow Emperor, you can't make baseless accusations."

Lin Tianhao smiled and said: "I'm not making baseless accusations."

"On the arena, there were many ways for you to get injured, so as to obtain attribute enhancements."

"But you were always entangled with Gu Lou Yuanzong."

"He held me back, I couldn't get away at all," Prince Bei Mo immediately explained.

Prince Bei Mo's face was ashen, and he explained somewhat unnaturally:

"I... I didn't think that much at the time."

Lin Tianhao waved his hand, "Did you just acquire this ability? I heard it's your talent. Judging from the increase in your attributes when you lose health, this talent is at least three stars."

"Even someone like me, who is using your talent for the first time, knows this. Don't you really know how to use your talent?"

Lin Tianhao's words left Prince Bei Mo unsure of how to respond.

"It was Scarlet Flower Demigod. He was afraid of offending the Vast and Boundless Palace, so he asked me to hold back."

Lin Tianhao chuckled, "It wasn't Scarlet Flower Demigod who asked you to hold back, was it? It was someone from the Vast and Boundless Palace who asked you to hold back."

Prince Bei Mo's expression changed drastically, and he immediately said: "No, I have never met Grand Palace Master Hao Hong from beginning to end, so how could I hold back?"

"I didn't say that Grand Palace Master Hao Hong asked you to hold back. What do you mean by admitting it without being prompted?" Lin Tianhao said with a smile.

Only then did Prince Bei Mo realize that he had just misspoke.

He looked at Lin Tianhao nervously and said: "Snow Emperor, you are too smart. You are right, it was indeed someone from the Vast and Boundless Palace who asked me to hold back. Grand Palace Master Hao Hong gave me a benefit that I couldn't refuse."

A cold glint flashed in Lin Tianhao's eyes, "It was a benefit that you couldn't refuse, otherwise you wouldn't have joined the Joy God Society, would you?"

Hearing Lin Tianhao say the words 'Joy God Society', Prince Bei Mo became even more anxious. He retorted almost without thinking.

"Snow Emperor, you can't say such things casually. How could I possibly join the Joy God Society?"

"I was just talking nonsense. Why are you so nervous?"

Lin Tianhao still doesn't have enough evidence to prove that Prince Bei Mo is a member of the Joy God Society.

But based on the contact just now, Prince Bei Mo definitely has problems.

"When you held back, did the person above you know?" Lin Tianhao asked.

Prince Bei Mo hesitated for a moment, but finally shook his head.

"I don't know."

"Snow Emperor, I know that what I did was wrong, but the era of god creation is coming, and I also want to become a god, and I also want to get more resources."

Lin Tianhao stared straight at Prince Bei Mo.

"So, in order to become a god, you chose to join the Joy God Society and defect to the Alete Star System."

Prince Bei Mo's face was ashen, and he said angrily:

"Snow Emperor, if you continue to slander me like this, I will really get angry. Without evidence, how can you randomly insult someone's innocence?"

Lin Tianhao waved his hand, "It's mainly because you lied to me just now, and you also lied to your superior about holding back."

Prince Bei Mo hesitated, but finally said:

"I felt that what I did wouldn't affect the overall situation."

Lin Tianhao smiled noncommittally, "It's not important anymore. What's important is that I can no longer trust what you say."

"This conversation ends here."

Prince Bei Mo hesitated, but finally gritted his teeth and said:

"Snow Emperor, you wouldn't report me to my superiors, would you?"

"Do you think I look like the kind of person who would report to superiors?" Lin Tianhao asked rhetorically.

Prince Bei Mo breathed a sigh of relief, "Thank you, Snow Emperor. I know that no matter how much I say now, you will still doubt me."

"But I can guarantee with my life that I deeply love my country. I can not become a god, I can die, but I will never betray my motherland."

"Long Kingdom forever!!"

When Prince Bei Mo said the last four words, his eyes were very firm.

Walking to the door.

Prince Bei Mo stopped and turned to look at Lin Tianhao.

"Snow Emperor, actually I'm very similar to you, just wanting to get more benefits."

"My position will not change."

Lin Tianhao smiled.

Although Prince Bei Mo's words were very sincere, Lin Tianhao still discounted what he said.

How could Lin Tianhao completely trust someone who had deceived him?

After sending Prince Bei Mo away, Fatty and Monkey and the others walked over.

"Wasn't this guy eliminated? What is he doing here?" Fatty asked.

"He came to probe my secrets," Lin Tianhao said.

"Damn, this kid is a bit too much. They've all been eliminated, and he's still probing. Who is he probing for?"

"The Vast and Boundless Palace."

Chapter 513 - Meet Marshal Feng Chi!

"Is he from the Limitless Vast Expanse Palace?" the fatty asked, somewhat surprised.

Glasses laughed from the side and said, "I could tell. I even wondered if that guy was stupid before. Isn't losing health supposed to be easy?"

"Now it seems, he's not stupid, he was deliberately holding back."

Lin Tianhao nodded, "His name is Prince Bei Mo. Be careful when you encounter him in the future. Nine out of ten things that kid says are lies."

Having said that.

Lin Tianhao changed the subject and continued, "Never mind him. Tomorrow is the semi-final. The Limitless Vast Expanse Palace is a tough nut to crack, so we can't be careless."

"Brother Hao, don't worry. Getting three in a row won't be a problem."

The fatty was very optimistic. Their team was considered very strong.

Whether it was individual combat strength or team battle ability, they were definitely top-tier.

"Alright, I'll be watching your performance tomorrow."

After saying goodbye to them.

Lin Tianhao prepared to do some more things tonight.

The matter of the Crescent Moon Empire still needed to ferment a bit, but the progress on the Vast Expanse Empire's side should also be sped up.

He wanted to meet Grand Marshal Feng Chi of the Vast Expanse Empire.

From what Lin Tianhao had learned before, Grand Marshal Feng Chi wanted to rebel.

Combined with the information he knew from his previous life, it was almost certain.

Grand Marshal Feng Chi's desire to rebel was a certainty.

Therefore.

This confirmed information could be used to manipulate things.

Only.

The fox girl Qing Shuang Da Mu had said before that Grand Marshal Feng Chi had gone to the Hope-granting Empire. This time, his departure to the Hope-granting Empire should have been by order.

What were the people of the Limitless Vast Expanse Palace sending Grand Marshal Feng Chi to the Hope-granting Empire to do?

Lin Tianhao didn't know.

It wasn't difficult to find out.

With a single step.

Lin Tianhao returned to Grand Marshal Feng Chi's mansion.

"Lord, is there anything I can help you with?"

"What did Grand Marshal Feng Chi go to the Hope-granting Empire to do?" Lin Tianhao asked.

Qing Shuang Da Mu pondered for a moment, then shook her head and said, "I don't know. I only know that it was an order from the royal family, nominally to mediate the conflict between the Hope-granting Empire and the Crescent Moon Empire."

"But in reality, that shouldn't be the case, because there was no need for Grand Marshal Feng Chi to go to the Hope-granting Empire in person."

"Alright, then I'll leave first."

Lin Tianhao turned and left.

Grand Marshal Feng Chi had gone there under the orders of the royal family. Since he went under the guise of mediation, he was most likely at the border.

Stone Cliff City!

This was where Lin Tianhao had instigated discord in the Hope-granting Empire.

Now, the battle between Stone Cliff City and Stone Mound City had ended.

But Lin Tianhao discovered.

Around Stone Cliff City, there were still heavily armed guards.

It seemed that what Xiudeli Haohong had told him wasn't entirely correct.

His last instigation had been successful, plus he had schemed against Crescent Moon Ke Cu before.

Even with the mediation of the Limitless Vast Expanse Palace, there would inevitably be some estrangement between the Crescent Moon Empire and the Hope-granting Empire.

This could be seen from the increased troop strength at Stone Cliff City.

Lin Tianhao transformed into an ordinary commoner and entered Stone Cliff City, starting to subtly inquire about the situation.

To Lin Tianhao's relief, his guess was correct.

Grand Marshal Feng Chi was indeed in Stone Cliff City.

This further explained the problem.

Xiudeli Haohong had lied to him. The war between Stone Cliff City and Stone Mound City had not ended.

They still had their own calculations.

Stone Cliff City.

City Lord's Mansion.

Lin Tianhao directly sneaked into the City Lord's Mansion.

The Seventy-Two Transformations, coupled with Orfordland's influence on consciousness, made it easy for Lin Tianhao to enter the City Lord's Mansion.

In the City Lord's Mansion of Stone Cliff City, Lin Tianhao saw Feng Chi, the Grand Marshal, talking to Hongya Jiumu.

His own eavesdropping ability was average, but Lin Tianhao had a god by his side, so he could completely hear the conversation between Feng Chi and Hongya Jiumu.

"Grand Marshal Feng Chi, with just one sentence, you turned hostility into friendship, but have you ever thought about how many people died this time?"

Grand Marshal Feng Chi looked around and said, "Hongya Jiumu, we have discussed this issue repeatedly. I won't say much, but if you fight with the Crescent Moon Empire, who will be the winner?"

"Are you trying to talk about the Mountain and Sea Empire?"

Hongya Jiumu nodded and said seriously, "You're right, the Mountain and Sea Empire is ambitious under the leadership of the Snow Emperor, but even if we fight to the death with the Crescent Moon Empire, and there is still your Vast Expanse Empire, how much of a storm can the Mountain and Sea Empire stir up?"

Grand Marshal Feng Chi pondered for a moment, then whispered, "Hongya Jiumu, you are thinking too simply. Don't you think this matter is strange?"

"There are some strange things. There are also some rumors outside, saying that the Palace Master of the Mortal Palace, the Snow Emperor, is scheming behind our backs, deliberately instigating discord."

Grand Marshal Feng Chi nodded, "Since you already know, why are you still fighting?"

"It's not that I want to fight."

Hongya Jiumu shook his head, "It's the people above who want to fight."

"The conflict between us and the Crescent Moon Empire has been going on for a long time. This is just an excuse."

Having said that.

Hongya Jiumu's expression became serious, "If the Mountain and Sea Empire hadn't revived, we would have fought with the Crescent Moon Empire long ago."

Grand Marshal Feng Chi sighed, "So, you are determined to fight?"

"Yes, we and the Crescent Moon Empire are irreconcilable."

Lin Tianhao frowned slightly. This sounded... like acting?

Could it be that they had discovered someone was eavesdropping, so they deliberately said these words?

At this moment.

The voice of Poseidon, the Sea God, came.

"Lord, there is also a god next to Grand Marshal Feng Chi. He has already discovered me."

As expected.

This was already within Lin Tianhao's expectations.

After all, Grand Marshal Feng Chi had been here for some time.

If he had anything to discuss with Hongya Jiumu, he should have already discussed it.

In addition, Hongya Jiumu said that if the Mountain and Sea Empire hadn't revived, their Hope-granting Empire and the Crescent Moon Empire would have fought long ago.

Lin Tianhao was a reborn person.

In his previous life, the Mountain and Sea Empire did not revive, but did the Hope-granting Empire and the Crescent Moon Empire fight?

They did fight, but they were just small frictions, far from being irreconcilable.

Therefore.

Hongya Jiumu was lying.

"Grand Marshal Feng Chi."

Lin Tianhao strode out. Since the other party had already discovered him, there was no need to hide anymore.

Qing Shuang Da Mu had said before that Grand Marshal Feng Chi was supported by mysterious forces.

If he could find out the identity of the god beside him, perhaps he could find out which mysterious forces were supporting him.

Grand Marshal Feng Chi narrowed his eyes and stared at Lin Tianhao, "Who are you?"

Lin Tianhao smiled and said, "Who I am is not important. What's important is that I'm at odds with the Limitless Vast Expanse Palace. We... can become friends."

Chapter 514 - The Shitu Empire really wants to fight!

"Friend?"

Grand Marshal Feng Chi shook his head and said:

"Are you misspeaking? I am the Grand Marshal of the Vast Empire. You are against the Vast Infinity Palace, so aren't you my enemy?"

Lin Tianhao looked at Grand Marshal Feng Chi with interest and said:

"Grand Marshal Feng Chi, if you say that, it's no fun. Since I'm looking for you, I naturally know what you're going to do."

Grand Marshal Feng Chi's eyes narrowed, and a murderous intent permeated out.

"Now that you know my secret, I can't let you live."

As he spoke.

Grand Marshal Feng Chi waved his hand and slashed at Lin Tianhao.

A ninth-level Star Radiance strike, its power was astonishing.

Lin Tianhao didn't care, he didn't dodge or evade, and he took the blow head-on.

- 11.05 million!!

A damage number exceeding ten million appeared. Grand Marshal Feng Chi didn't go all out, but the damage he unleashed was not to be underestimated.

"You've got something."

Seeing that Lin Tianhao lost 11.05 million health, but his total health only dropped by less than one-tenth.

This surprised Grand Marshal Feng Chi.

"Friend, even if we're going to cooperate, you should state your identity. I don't cooperate with people of unknown identity."

Lin Tianhao stared at Grand Marshal Feng Chi, he was thinking about whether to use a fake identity.

But if he used a fake identity, it would likely be exposed.

After all, Grand Marshal Feng Chi had a god backing him, so investigating some information would be easy.

However, Lin Tianhao still didn't reveal his true appearance. When doing things, it's always good to keep something hidden.

Although he was sure that Grand Marshal Feng Chi was really going to rebel.

But which faction was behind Grand Marshal Feng Chi, and did the rebellion have a deeper purpose?

Lin Tianhao didn't know any of these things.

"I am the Lord of the Mortal Palace, a person of the Snow Emperor."

Hearing this.

Hongya Jiumu and Grand Marshal Feng Chi looked at each other.

"A person of the Snow Emperor?"

"Why are you here? Could it be that the recent conflicts between Shitan City and Shiya City were all orchestrated by you behind the scenes?"

"Orchestrated?"

Lin Tianhao shook his head, "That's no longer important. I just want to talk to Grand Marshal Feng Chi about our cooperation."

"I want to become the new emperor of the Vast Empire."

Grand Marshal Feng Chi said bluntly, "However, your master wants to revive the entire Mountain and Sea Empire. Our Vast Empire is also within the block range, so we will inevitably become enemies."

Hongya Jiumu looked at Lin Tianhao and said with a smile:

"Did you hear what Grand Marshal Feng Chi said? It's not that we don't want to cooperate with you, but that we have no reason to cooperate."

Grand Marshal Feng Chi shook his head, "Then tell me, what can we cooperate on?"

"You want to overthrow the Vast Infinity Palace, and my master also wants to overthrow them."

"If we have a common goal, we have the possibility of cooperation."

Hearing Lin Tianhao's words.

Grand Marshal Feng Chi shook his head and said: "I just want to become the new emperor of the Vast Empire. When did I want to overthrow the Vast Infinity Palace?"

Lin Tianhao looked at Grand Marshal Feng Chi with a light smile and said: "Grand Marshal Feng Chi, since I've said that, it means I have my confidence."

At this point.

Lin Tianhao changed the subject and continued:

"If you think you can solve the Vast Infinity Palace, then you can try it."

Grand Marshal Feng Chi was silent. He looked at Lin Tianhao and, after thinking for a moment, he said:

"You say cooperation, what can you give me?"

Lin Tianhao knew that Grand Marshal Feng Chi was moved.

He said without hesitation:

"The Vast Infinity Palace's foundation is more terrifying than you imagine. However, I've already stated my identity, shouldn't you also openly state your identity?"

Grand Marshal Feng Chi knew that Lin Tianhao understood a lot of information, and no longer beat around the bush, saying bluntly:

"I come from the Freyr Church, a secluded holy land for many years."

Lin Tianhao's eyes narrowed slightly, "The holy land created by the War God Freyr?"

Grand Marshal Feng Chi was a little surprised, obviously not expecting Lin Tianhao to know his master.

"That's right."

Grand Marshal Feng Chi looked at Lin Tianhao and said: "Since you know the War God Freyr, you should know our strength."

"I can cooperate with you to solve the Vast Infinity Palace first, but in the end, we will still become enemies."

Lin Tianhao shook his head, "That's not necessarily true. If I guessed correctly, your goal is not the Vast Continent."

"The Freyr Church was expelled back then. This time, if you want to revive, you should want to return to your own territory."

Hearing this.

Grand Marshal Feng Chi looked at Lin Tianhao in disbelief, "Who exactly are you? How do you know these things?"

Lin Tianhao smiled slightly, "Didn't I say my identity?"

"I am the person of the Snow Emperor, the Lord of the Mortal Palace."

Grand Marshal Feng Chi shook his head, "No, you should be a person of the old Lord of the Mortal Palace!!"

Lin Tianhao didn't explain, shaking his head and said: "Is that important?"

"It's not important, just curious."

Grand Marshal Feng Chi pondered: "Since everyone has been open and honest, then I won't talk nonsense."

"We have people in the Xitu Empire, such as Hongya Jiumu. What I just said to Hongya Jiumu was actually not wrong."

"The higher-ups of the Xitu Empire want to attack the Moon Wheel Empire, and the order given is really a life-and-death struggle."

Lin Tianhao was stunned for a moment, "Why? The Xitu Empire and the Moon Wheel Empire don't seem to have any deep grudges."

"I can't reach the specific reasons. But what I know is that our attack on the Moon Wheel Empire is not a dispute of grudges, but a dispute of interests."

Lin Tianhao's eyes narrowed slightly, "A dispute of interests?"

"No matter whether you win or lose in your fight with the Moon Wheel Empire, it will ultimately benefit our Mountain and Sea Empire, right?"

Hongya Jiumu spread his hands helplessly, "Who says it isn't? I can't figure it out either."

"Not to mention the Vast Empire, the Mountain and Sea Empire is eyeing us from the side. Now, our Xitu Empire shouldn't be breaking face with the Moon Wheel Empire."

"After all, the Moon Wheel Empire is a barrier blocking the Mountain and Sea Empire."

Lin Tianhao took a deep breath. Was the Xitu Empire crazy?

What interests are worth the Xitu Empire fighting to the death with the Moon Wheel Empire.

It seems that because of his revival of the Mountain and Sea Empire, the relationships between these forces on the Vast Continent have also undergone some subtle changes.

"When are you going to attack?" Lin Tianhao asked.

"When the Mountain and Sea Empire attacks, we will attack. Moreover, some of our higher-ups have already gone to your Mortal Palace, preparing to discuss cooperation and attack the Moon Wheel Empire together," Hongya Jiumu said.

Chapter 515 - The semi-finals begin!

Lin Tianhao was a little surprised, "Aren't you afraid of Haomiao Wuji Palace's military intervention by blatantly cooperating with us?"

Hongya Jiumu spread his hands, "This is the decision of the higher-ups, and I don't know what they are thinking."

"However, this decision of theirs is not a bad thing for me."

Lin Tianhao looked at Grand Marshal Feng Chi, "Because you and Grand Marshal Feng Chi have a cooperative relationship."

"When that time comes, even if Haomiao Wuji Palace takes action, it is likely that Grand Marshal Feng Chi will lead the troops over."

"Yes."

Hongya Jiumu nodded, "In this way, Grand Marshal Feng Chi and I can cooperate internally and externally. He sends disobedient troops to me to gain merit, and I give him the list of generals who are at odds with me, so he can name them."

Lin Tianhao took a deep breath, if that's the case.

While eliminating dissidents, it can also help Hongya Jiumu quickly improve his position in the Xitu Empire.

Hongya Jiumu, as the lord of a city, is also the lord of an important border city with military power.

After Grand Marshal Feng Chi eliminates dissidents, although he cannot directly improve his status, his power and control in the army will be unprecedentedly strong without disobedient troops.

If the two join forces at that time, the result will be very terrifying.

"So, what do you want our Fan Hall to do?" Lin Tianhao asked.

Hongya Jiumu said seriously:

"Find a reason to attack the Moon Wheel Empire together and admit our cooperative relationship."

Lin Tianhao pondered for a while, this doesn't seem like a losing deal.

Drag the Xitu Empire into the water, and also pull the Haomiao Wuji Palace into the game.

In this way.

The Haomiao Continent will be completely chaotic.

As the saying goes, the more chaotic, the more opportunities he has.

Don't look at the fact that he took some towns from the Moon Wheel Empire before.

But those towns are far from enough.

Moreover.

Because of the intervention of the Haomiao Wuji Palace, it is not easy for him to find an excuse to attack the Moon Wheel Empire again.

Regardless of what the Xitu Empire is planning, the goal of the Freire religion behind Grand Marshal Feng Chi is not the Haomiao Continent.

Lin Tianhao knew this in his previous life, so there is definitely no problem cooperating with the Freire religion.

"Okay, we will cooperate and attack the Moon Wheel Empire together, but how will the towns be distributed?" Lin Tianhao asked.

"Whoever takes it belongs to whoever takes it."

Hongya Jiumu said unhurriedly: "This is the meaning of the above, of course, I can't make the decision on the specifics. The elder who went to the Fan Hall to discuss this matter should have the authority."

Lin Tianhao chuckled and shook his head, "This is definitely not possible, we will suffer too much."

If he cooperates with the Xitu Empire to attack the Moon Wheel Empire together.

Where will the main force of the Moon Wheel Empire be?

Anyone can imagine that the main force of the Moon Wheel Empire will definitely be used to fight against them.

After all, the Moon Wheel Empire still regards the Haomiao Wuji Palace as its big brother.

It will feel that even if the Xitu Empire takes the territory of their Moon Wheel Empire.

As long as the Haomiao Wuji Palace, the big brother, comes forward in the end, the territory can naturally be taken back.

Hongya Jiumu and Grand Marshal Feng Chi both understood the twists and turns, and didn't say anything.

"This matter is not in a hurry, wait until after this Holy Land Tianjiao Rookie Competition, and wait until your Hall Master can discuss with our elders before making a decision," Hongya Jiumu said.

Lin Tianhao nodded.

He knew that Hongya Jiumu was right, "Okay, let's just leave it at that for today."

Lin Tianhao said goodbye and left.

He didn't completely believe what Grand Marshal Feng Chi and Hongya Jiumu said.

Especially what Grand Marshal Feng Chi said, that the mysterious force behind him is the Freire religion.

Lin Tianhao still needs to confirm this.

Because Grand Marshal Feng Chi may be deliberately telling him that his supporter behind him is the Freire religion.

The purpose is to paralyze him, so that he thinks that their ultimate goal is not the Haomiao Continent.

The goal of the Freire religion is indeed not the Haomiao Continent.

But Grand Marshal Feng Chi said that he is a member of the Freire religion, which is just a one-sided statement.

Returning to the Haomiao Wuji Palace, Lin Tianhao began to comprehend the Dao.

Nothing happened overnight.

The next morning.

The first match in the morning was between Fan Hall and Haomiao Wuji Palace.

The audience was already overcrowded.

There is no other reason.

The strength shown by the Haomiao Wuji Palace before is itself something to look forward to.

And the Fan Hall relies on the Snow Emperor. Although the previous games were boring, they also completed the feat of defeating three opponents in a row.

In the eyes of many viewers, the two strongest teams in this Holy Land Tianjiao Rookie Competition are Fan Hall and Haomiao Wuji Palace.

This game.

It is the peak duel between the two strongest teams, which is naturally highly anticipated.

"Who do you think has a better chance of winning, Fan Hall or Haomiao Wuji Palace?"

"To be honest, I am definitely optimistic about Fan Hall. The Snow Emperor's popularity is beyond doubt, right? He is already the ceiling of players. The players I know around me must also be top players."

"It's hard to say, Haomiao Wuji Palace has a deep foundation, and haven't you noticed? The names of the players who appeared in Haomiao Wuji Palace before are all biased towards the East. Are there no experts in the West?"

"Is it possible that it is because of the revival of the Shanhai Empire that Eastern players have obtained more resources, so there are more top players?"

... ..

The game hasn't started yet.

The audience was already talking at once, saying everything.

On the high platform.

The lords of the Eight Great Holy Lands also took the stage one after another.

Lin Tianhao and Xiudeli Haohong were sitting next to each other.

When he saw Lin Tianhao, he greeted him with a smile.

Lin Tianhao just responded symbolically, and neither of them spoke.

But Tutulu Hongqiong teased there:

"Xiudeli Haohong, if you lose this game, you will stop in the top four."

"The dignified Haomiao Wuji Palace, stopping in the top four, is it a bit embarrassing?"

Before Xiudeli Haohong could speak.

The Western Hemisphere God said:

"Mountain Lord Hongqiong, the fight is about to begin, who loses and who wins, won't you know if you watch?"

"Hahaha, okay, watch the game, I am also very curious, Fan Hall vs. Haomiao Wuji Palace, who can win."

Along with the sound of Tutulu Hongqiong falling.

Xiudeli Haotu has already stepped onto the ring.

He is still hosting the game today.

"It can be seen that everyone is very enthusiastic. The duel between Fan Hall and Haomiao Wuji Palace can be described as a world war. Who can win in the end depends on the performance of the players on the ring."

"I won't delay everyone's time, let's start the fight directly, please invite the Fan Hall and Haomiao Wuji Palace to send out the first players."

Xiudeli Haotu's voice fell.

The people sent by Fan Hall and Haomiao Wuji Palace also slowly walked onto the ring.

As Lin Tianhao expected, in order to be on the safe side, the first one to come up was the Netherworld Craftsman.

The Netherworld Craftsman's Soul Suppressing Nail control has a great advantage in a one-on-one situation.

Chapter 516 - Lin Qingqing VS the Netherworld Craftsman!

Seeing Lin Qingqing walk onto the arena, Netherworld Craftsman couldn't help but laugh:

"What? You didn't let that iron-headed fool come up? Not planning on repeating a one-versus-three?"

Lin Qingqing didn't get angry at these rather teasing words, but instead said with a smile:

"Wouldn't it be more valuable to have someone else achieve a one-versus-three?"

Hearing this.

Netherworld Craftsman seemed to be provoked in some way.

He sneered:

"If you want to win three in a row, you have to see if you have the life for it."

Schudri Hautu glanced at both sides, "Please prepare, the match... officially begins!"

As Schudri Hautu's voice fell.

Netherworld Craftsman immediately rushed forward.

This time, the weapon in his hand was no longer a Soul Suppressing Nail, but a slender bone staff.

A soul-type mage?

This was many people's first thought, but Netherworld Craftsman's combat mode was close combat.

"Shadow Division!"

The moment he rushed up, his shadow split into two, creating a doppelganger as black as ink.

Then the doppelganger and his shadow split into two again, creating two more black shadow doppelgangers.

Then four, eight, sixteen...

In the blink of an eye, the arena was full of these black shadow doppelgangers.

They quickly surrounded Lin Qingqing and continued to split.

Lin Qingqing wasn't afraid at all, waving the long blade in her hand, flames of blade energy cut through the air, tearing apart several black shadow doppelgangers.

Then another icy blade energy flew out, freezing several black shadow doppelgangers, then with a bang, they exploded in place.

Above the high platform.

Lin Tianhao watched quietly.

Three Gui Ye Wu Qing.

Apart from having the same name, they are all-attribute.

Even if their respective professions are different, their origins seem to be the same.

There must be some special connection between the three of them.

In the arena.

Lin Qingqing's blade energy was invincible, and these black shadow doppelgangers had no way to deal with her.

However.

As long as you observe carefully, you will know that Netherworld Craftsman doesn't expect these black shadow doppelgangers to cause much substantial damage to Lin Qingqing.

He uses these black shadow doppelgangers to create opportunities for himself.

Creating an opportunity for the Soul Suppressing Nail to hit.

In the blink of an eye.

He actually disappeared from the arena.

Only black shadows were left on the entire arena.

It is impossible to determine Netherworld Craftsman's position.

Lin Qingqing can only be more careful.

But even so.

She still couldn't escape Netherworld Craftsman's Soul Suppressing Nail.

The moment Lin Qingqing waved her blade, three Soul Suppressing Nails nailed her shadow.

In an instant.

Lin Qingqing stood motionless in the arena.

Netherworld Craftsman revealed himself.

"Hahaha."

"You are very cautious and very strong, but compared to me, you are still a bit lacking."

Netherworld Craftsman was very proud.

In his opinion, now that he has nailed Lin Qingqing's shadow, the next thing will be much easier.

But Lin Tianhao felt something was wrong.

Lin Qingqing... seems to be fishing.

Schudri Hautu, who was next to Lin Tianhao, also noticed a hint of something was wrong.

"Snow Emperor, your player, wouldn't use a means to remove soul control, would she?"

Lin Tianhao smiled, "It's really hard to say, after all, my players all have the strength to win three in a row."

Hearing this, Schudri Hautu instantly realized.

This game is in trouble.

Because in the arena, Netherworld Craftsman's proud expression had already let Schudri Hautu know.

Netherworld Craftsman has relaxed his vigilance, as long as there is a chance, Lin Qingqing can instantly release the control, and then take away Netherworld Craftsman with a set of skills.

However.

Just when everyone thought Netherworld Craftsman would step forward to finish the kill, he deliberately got stuck in a subtle position.

This position.

Is the only position Lin Qingqing can touch.

And he didn't personally attack Lin Qingqing, and black shadow doppelgangers were still constantly splitting from his body.

These black shadow doppelgangers rushed towards Lin Qingqing one after another.

In the audience.

Many people shook their heads and sighed when they saw this scene.

"This immobilization method is too perverted. I feel that no one can compete with him in a one-on-one."

"If this is the case, wouldn't the two one-on-one games be a must-lose for the Fan Palace? The odds of winning the doubles match are not great for the Fan Palace either."

"It's a pity, I have received a lot of benefits in the Mountain and Sea Empire, and I sincerely hope that the Fan Palace can win."

...

In the arena.

Netherworld Craftsman's deliberate distance-keeping made Lin Tianhao realize that this Netherworld Craftsman is not simple.

He didn't blindly trust himself, but chose a more stable approach.

This approach may be slower to make up for the damage, but it can ultimately make up for the damage, so as not to make mistakes and be taken away by a set of skills.

Seeing Netherworld Craftsman's approach.

A satisfied smile appeared on Schudri Hautu's face.

"Snow Emperor, your player wants to sneak attack my player, now it seems that there seems to be no chance."

Lin Tianhao said indifferently: "It is naturally best to end the game in a simple way."

"If not, it doesn't matter, after all, from the beginning, your people have no chance of winning."

"Is that so?"

Schudri Hautu asked back, "Then let's wait and see."

"Sometimes confidence is a good thing, but excessive confidence is arrogance."

Lin Tianhao didn't answer, but quietly watched the arena.

When the black shadow doppelgangers rushed towards Lin Qingqing, Lin Qingqing didn't resist, nor did she use any control-releasing methods.

To be precise.

She used it.

A super armor.

And a purification-type skill.

Two skills.

Neither of them allowed her to get rid of the Soul Suppressing Nail's control.

Schudri Hautu was a little suspicious.

After all, logically speaking.

If there are soul control-releasing methods, they should be used at this time.

But Lin Tianhao knew.

Lin Qingqing hasn't given up on fishing.

The damage that can be dealt by this large number of splitting black shadow doppelgangers is definitely not high.

Otherwise, Netherworld Craftsman's skill would be too perverted.

-10539!

-10537!

...

Damage numbers popped up from Lin Qingqing's head one by one.

This also confirmed Lin Tianhao's guess, the damage is not high.

After taking the Pan Peach, Lin Qingqing's current health has exceeded 190 million.

The attacks of these black shadow doppelgangers are just tickling Lin Qingqing.

"Damn, I didn't see it wrong, this female warrior's health is so high, this is too terrifying."

Chapter 517 - Hard fight against the Flame Pterosaur!

"Are all the players from the Fan Faction blood tanks? That shield warrior who did a one-versus-three before had ridiculously high health points."

"Having high health points doesn't seem to be very useful. If you're controlled and can't move, even the thickest health bar will be whittled away bit by bit."

.....

The Netherworld Trickster couldn't help but laugh when he saw Lin Qingqing release her Overlord Body and Purify.

But when he discovered Lin Qingqing's terrifying health points, he was a little dumbfounded.

If he continued to let the Shadow Clones attack, he didn't know how long it would take to kill Lin Qingqing.

Because the higher the health points, the higher the basic health regeneration, plus some health regeneration from equipment and skills.

If the number of Shadow Clones wasn't large enough, the damage might not even be as fast as Lin Qingqing's health regeneration.

But even though Lin Qingqing was losing health, the rate of health loss was very slow.

Finally.

The Netherworld Trickster couldn't bear it anymore.

He took action himself.

Seeing this scene.

Lin Tianhao couldn't help but curl up the corners of his mouth into a smile.

Because he knew.

The fish had taken the bait.

But Lin Qingqing's temperament made Lin Tianhao feel that she was too steady.

She didn't immediately attack because of the Netherworld Trickster's approach.

Instead, she let the Netherworld Trickster attack her four times.

Not to mention the Netherworld Trickster himself, even Xiudeli Haohong, who was beside Lin Tianhao, was starting to doubt whether Lin Qingqing could break free from the control.

“Snow Emperor, this player of yours doesn't seem to be able to break free from control.”

Xiudeli Haohong's voice had just fallen.

On the arena.

Lin Qingqing instantly broke free from the control, and with a set of skills, instantly killed the Netherworld Trickster.

Because the Netherworld Trickster had already attacked Lin Qingqing four times, he had completely relaxed his vigilance.

Therefore.

He didn't even use his displacement skills and was instantly killed by Lin Qingqing.

Seeing this scene.

The audience fell into a brief silence.

Immediately following.

Was a tsunami-like discussion.

“Damn, did I see that right? How did that female warrior do that? Isn't it impossible to break free from control even with Overlord Body?”

.....

On the high platform.

Xiudeli Haohong glanced at Lin Tianhao and said indifferently:

“Snow Emperor, this player of yours has a somewhat deep mind.”

Tutu Lu Hongqiong chuckled and said: “Haohong, this is called wariness, how can you say it's scheming?”

“Besides, who can compare with you when it comes to scheming?”

Xiudeli Haohong's expression sank, and he stared at Tutu Lu Hongqiong with a gloomy gaze, and said coldly:

“Hongqiong, you're jumping around a bit too much. Aren't you afraid that something will happen to your Tutu Lu after this Holy Land Prodigy Rookie Competition?”

Hearing this.

Tutu Lu Hongqiong smiled disdainfully, “What? Haohong, do you know that you can't compete with the Snow Emperor on the Boundless Continent, so you're preparing to compete with me for territory?”

Xiudeli Haohong smiled meaningfully and said:

“It's not impossible. Although your place is a bit barren, the territory is large enough. Under the leadership of our Boundless Limitless Palace, it is entirely possible to develop.”

As soon as these words fell.

The atmosphere on the high platform instantly became subtle.

A chilling aura permeated out.

It seemed that they would fight if they disagreed.

“Then I look forward to the people from your Boundless Limitless Palace coming to our Tutu Lu Holy Mountain.”

“That day will come.” Xiudeli Haohong said.

The conversation between the two top Holy Land masters was almost equivalent to declaring war.

Lin Tianhao didn't say anything. It wasn't a bad thing for him to have someone share the conflicts of the Boundless Limitless Palace.

On the arena.

The second match had already begun.

The one who came out from the Fan Faction was still Lin Qingqing.

The Boundless Limitless Palace did change people, but the people they changed didn't have any gold content at all.

The one who came on stage was Gu Lou Yuancong.

This battle had no suspense at all.

Whether it was health bar or attack rhythm, Gu Lou Yuancong had a more obvious gap compared to Lin Qingqing.

“Is there something wrong? Is the Fan Faction going to do a one-versus-three again? It shouldn't be so outrageous.”

“The Snow Emperor hasn't even taken action, and the Fan Faction is crushing the Boundless Limitless Palace with absolute advantage. Is this the gold content of the Fan Faction?”

“The number one Holy Land on the Boundless Continent shouldn't be the Boundless Limitless Palace, but the Fan Faction.”

.....

There was constant discussion in the audience.

Two matches.

Lin Qingqing won cleanly and neatly.

Moreover.

Lin Qingqing's fighting style was much more watchable than Fatty's.

Third match.

Two versus two.

Lin Tianhao also wanted to see what trump cards Xiudeli Haohong still had.

But what disappointed Lin Tianhao was that no new trump cards appeared.

Third match.

Siberian Fox teamed up with Netherworld Trickster.

While Lin Tianhao's side had Lin Qingqing and Fatty together.

Although Lin Qingqing said she would do a one-versus-three, the risk was too great.

Sometimes.

If you can win in the safest way, then use the safest way.

Fatty didn't have the means to remove soul control, but the values of health points, dual resistance, and reflection damage were there.

Even if he was nailed down, Fatty still had a certain amount of combat power relying on reflection damage.

The battle began.

Siberian Fox summoned the Flame Wyvern in the first time.

Relying on the Flame Wyvern, they began to entangle.

The Netherworld Trickster was looking for an opportunity, preparing to nail Fatty down.

As long as they controlled Fatty, they would still have a glimmer of hope.

But Fatty was like an eel, so slippery that the Netherworld Trickster found it incredible.

The reason why he found it incredible.

Was because Fatty's overall movement speed wasn't particularly fast, but it just so happened that his Soul-Suppressing Nail had nowhere to start.

On the high platform.

Lin Tianhao couldn't help but show a satisfied smile on his face when he saw Fatty's positioning and kiting ability.

He was actually a little worried that Fatty would only know how to stand still and output after obtaining powerful attributes.

But now it seemed that he had underestimated Fatty.

Fatty's awareness and ability to kite weren't bad, but the Netherworld Trickster also had his own methods.

He was still the same.

Constantly splitting out Shadow Clones.

These Shadow Clones surrounded Fatty, limiting Fatty's movement space.

Six crimson shields appeared around Fatty.

These crimson shields constantly exploded, killing a large number of Shadow Clones.

Lin Qingqing was also entangled with the Flame Wyvern at this time.

The Flame Wyvern's output ability was beyond doubt, and its health points were also quite high.

But Lin Qingqing's damage ability was no less than the Flame Wyvern's, and the key was that her health points were much higher than the Flame Wyvern's.

The people who faced the Flame Wyvern before were all kiting and fighting.

But now Lin Qingqing was directly fighting head-on, and she was also completely suppressing the Flame Wyvern.

Such watchability and impact were huge, making many people very satisfied.

When the audience watches this kind of competition, the first thing they think of is definitely watchability.

If the competition is not exciting, it is not comfortable to win money.

Chapter 518 - Yuan Xi is rising!

“Three minutes, I want all the information on this female warrior.”

“Killing Flame Wyverns with one strike each, that's what it means to be a Chosen One! What garbage are the rest of you?”

...

Lin Qingqing used to be very powerful, but she never confronted a Flame Wyvern in public before.

Most importantly,

Lin Qingqing is now suppressing the Flame Wyvern.

The Flame Wyvern's health is rapidly decreasing.

At this rate, the Flame Wyvern will be quickly dealt with.

Meanwhile,

Netherworld Artificer has found an opportunity, and the Soul-Suppressing Nail in his hand flies out.

But Fatty was prepared, using Mirror Flower, Water Moon.

Just as Fatty thought he had tricked his opponent, he discovered that what had fallen were just ordinary steel needles, not the so-called Soul-Suppressing Nail.

He's been tricked!

That was Fatty's first reaction.

He knew things were not good.

"You've been tricked."

Mirror Flower, Water Moon had just ended when Netherworld Artificer arrived next to Fatty.

Fatty's heart skipped a beat. If he were controlled, the outcome of this battle would be hard to predict.

But at this moment,

a streak of icy sword energy swept over, instantly enveloping Netherworld Artificer.

Netherworld Artificer frowned slightly, forced to abandon this excellent opportunity to attack.

Lin Qingqing's combat awareness is truly extraordinary.

In this situation, she was still able to spare attention to save Fatty.

Fatty glanced at Lin Qingqing gratefully, while becoming more focused.

He now truly found Netherworld Artificer disgusting. Clearly, he was already very strong, and his methods were quite good.

But Netherworld Artificer's abilities perfectly countered him.

In just an instant,

Fatty knew that simply dragging things out was useless.

What he needed to do was directly kill his opponent.

Thinking this,

Fatty used Savage Charge and rushed forward.

it was Netherworld Artificer's turn to stall.

But Fatty seized the opportunity and pressed his advantage.

The heavy shield in his hand slammed down, a massive shield cutting off Netherworld Artificer's retreat.

The Shield of Protection is usually used to protect teammates, but this time Fatty used it to stop Netherworld Artificer from escaping.

To create distance, Netherworld Artificer commanded his shadow clones to surround Fatty.

The opportunity that Lin Qingqing had created for Fatty to counterattack was now gone.

Above the platform,

Shudley Haohong said directly with a dark face: “No need to fight, we concede.”

Hearing this, everyone in the arena felt it was unbelievable.

The dignified Vast Expanse Palace would actually take the initiative to concede.

Lin Tianhao was also somewhat surprised, because in terms of the situation in this third match, the Vast Expanse Palace was not completely without a chance.

But it was no longer important.

The Vast Expanse Palace indeed had slim chances of winning.

With the Vast Expanse Palace conceding, the Mortal Palace smoothly entered the finals.

Next,

it would depend on who between the Western Extremity Divine Palace and the Xitu Divine Palace would advance to the finals.

However, judging from the situation of the Western Extremity Divine Palace and Xitu Divine Palace members who had taken the stage before, Lin Tianhao's team seemed to have no chance of losing the match.

At noon,

Lin Tianhao returned to the Mortal Palace.

Because he already knew that the Xitu Empire's higher-ups had gone to the Mortal Palace to find him.

Besides this,

Lin Tianhao also wanted to use crystal cores to ripen the Peach Tree of Immortality.

Mortal Palace.

Lin Tianhao had just returned.

Ouyang Wenlong found him.

"Palace Master, Great Elder Yuan Xifuyao of the Xitu Divine Palace wants to see you. She has been staying in our Mortal Palace for several days now."

Lin Tianhao was not surprised, but still waved his hand, "No rush, I have something else to do. Let her wait for me in the reception hall, I will go over in a while."

"Yes."

Ouyang Wenlong respectfully bowed and turned to leave.

Lin Tianhao first ripened the peaches.

Then he went to the reception hall.

In the reception hall,

Lin Tianhao saw a woman with a graceful figure.

She had a typical anime figure, thin where she should be thin, and fleshy where she should be fleshy.

Just looking at her would make a man's blood boil with desire.

It seemed that as long as she was a normal man, they would want to do something to her.

Lin Tianhao narrowed his eyes slightly. He had Fiery Eyes and Golden Gaze, and could see more things.

This woman cultivated charm techniques, so her attraction to men would be particularly great.

"This little girl Yuan Xifuyao, greets Young Master."

Yuan Xifuyao saw Lin Tianhao, immediately stood up, and respectfully bowed.

"Greeted? Where have we met? Was it in the Yihong House or the Chunhua House?"

Hearing Lin Tianhao's words,

Yuan Xifuyao covered her mouth and chuckled, "Wherever Young Master says, that's where it was."

Lin Tianhao waved his hand and said, "You are the dignified Great Elder of the Xitu Divine Palace, what are you doing coming to our small Mortal Palace?"

"Young Master is joking, your Mortal Palace can be said to be in its prime. Our Xitu Divine Palace is weak and naturally wants to obtain the protection of the Mortal Palace."

Yuan Xifuyao put her attitude very low.

Accurately speaking,

she lowered the attitude of the entire Xitu Divine Palace very low.

"Protection? No problem, as long as you join our Mortal Palace, I can accept you."

Lin Tianhao said very casually.

Yuan Xifuyao shook her head, "But Young Master, we still have the Moon Wheel Empire in between. Even if we join you, it won't be easy for you to protect us."

"Alright."

Lin Tianhao said somewhat impatiently:

"I still have to participate in the Holy Land Prodigy Rookie Competition later. If you're just going to say these nonsense words, then I'll leave first."

"Young Master, please stay."

Yuan Xifuyao immediately spoke, "I think we can completely cooperate."

“You want to attack the Moon Wheel Empire, and we also want to attack the Moon Wheel Empire. Why don't our two countries work together to quickly flatten the Moon Wheel Empire?”

“As for the cities of the Moon Wheel Empire, whoever takes them gets them?”

Lin Tianhao stared at Yuan Xifuyao and chuckled: “Yuan Xifuyao, right? There's absolutely no problem with your conditions.”

“But I have a request.”

“What request?”

Yuan Xifuyao asked subconsciously.

“Your Xitu Empire will send troops first, and our Mountain and Sea Empire will send troops three days later.”

Hearing this,

Yuan Xifuyao was stunned for a moment, and then immediately understood the reason behind it.

If they sent troops first for three days, the Moon Wheel Empire would first send troops to resist them.

They might even mobilize a large force to attack them.

That way they would face the main force of the Moon Wheel Empire, and by the time the Mountain and Sea Empire attacked, the main force would already be engaged with them.

Her face darkened slightly, and she said: “This won't work. Since we're going to send troops, let's send troops together.”

"Do you think that's possible?" Lin Tianhao looked at Yuan Xifuyao.

Yuan Xifuyao opened her mouth, and coquettishly said: "Young Master, you also know that our Xitu Empire's military strength is not good. If we take the lead, we might even be pushed back by the Moon Wheel Empire."

Lin Tianhao smiled noncommittally, "Our Mountain and Sea Empire has only just recovered, and its military strength is even worse than your Xitu Empire's. We shouldn't be going up against the main force of the Moon Wheel Empire."

Chapter 519 - The identity of a little guy with a pigtail!

Lin Tianhao was well aware of Yuan Xifu Yao's little schemes.

To want them to be cannon fodder was truly treating him like a fool.

"Young Master, let's send troops together, so everyone is fair. Besides, our Xitu Temple can throw the finals."

"Allowing your Fan Temple to easily win first place in this Holy Land Prodigy Rookie Competition."

Lin Tianhao narrowed his eyes and smiled, "According to you, if you don't throw the match, my team won't get first place?"

Hearing this.

Yuan Xifu Yao nodded slightly, "Although it sounds a bit arrogant to say that, judging from the strength your team has shown so far, it's really hard to say who is stronger or weaker in the finals."

Lin Tianhao pretended to be surprised, "It seems you are very confident. How about we wait until after the finals to talk about it?"

"No problem."

Yuan Xifu Yao stood up and cupped his hands, "I hope Young Master will seriously consider what I said today."

"I know Young Master will guess that we have some ulterior motives, but isn't it a good thing that Young Master can fulfill his wish to destroy the Moon Wheel Empire?"

"I will consider it."

Lin Tianhao waved his hand.

The Xitu Empire was ambitious. What exactly did they want to do?

Looking back at his memories from his previous life, the three empires of the vast continent had always been led by the Vast Empire, with the Xitu Empire and the Moon Wheel Empire being somewhat sycophantic.

In the surrounding sea area of the vast continent, the Tutulu Empire was the leader.

The Tutulu Empire and the Vast Empire had always been in a situation of mutual restraint.

It was just that the Tutulu Empire was outside the vast continent, and its resources and foundation were slightly inferior to the Vast Boundless Palace.

But Lin Tianhao really didn't know what was special about the Xitu Empire.

Especially.

They even wanted to unite with him to annex the Moon Wheel Empire.

This kind of ambition was somewhat beyond Lin Tianhao's expectations.

Third, he started and studied at the Godslayer Academy, which can also be regarded as the opening of the Ancient Dynasty Secret Realm, triggering a series of subsequent events.

Which of these three things induced the Xitu Empire to make this change?

Obviously.

It was the revival of the Shan Hai Empire.

Moreover, Lin Tianhao wanted to further revive the Shan Hai Empire, which posed a threat to other forces on the vast continent.

This threat.

Was not limited to the three empires on the surface, but also included some ancient families and holy lands in seclusion.

Because on the vast continent, there were many ancient families and holy lands that were hidden from the world.

These ancient families and holy lands had profound foundations. Compared with the three empires, it might just be that they did not have large-scale armies.

The reason for saying that they did not have large-scale armies was because most of them had their own guard armies, with a minimum of five thousand people.

Some even had tens of thousands.

After sending Yuan Xifu Yao away, Lin Tianhao also took the time to harvest the peaches.

Now there were ten more peaches.

Just at this time.

Berserker Blade suddenly made a video call to Lin Tianhao.

Lin Tianhao was a little surprised, but he still answered the video call.

"Snow Emperor, Boss."

Berserker Blade's expression was very serious, as if something extremely bad had happened.

"What's wrong?"

"There's news about the previously investigated Xiaoyang Wabai. He is one of our internal people, and he is also the one who led us to sever ties with you this time."

Lin Tianhao narrowed his eyes, "Didn't you say that Xiaoyang Wabai was a member of the Joyful God Society?"

"That's speculation. Currently, we have very little information about the Joyful God Society, and there is no direct evidence to prove that he is a member of the Joyful God Society."

Lin Tianhao pondered for a while, "Then what? This matter doesn't seem to be a bad thing for me, right?"

Berserker Blade took a deep breath and said seriously, "The most crucial thing is that because of the birth of the Joyful God Society, they began to guide public opinion, proclaiming that the Twilight of the Gods is not a game, but a place to become a god."

“The secret about the Twilight of the Gods may not be able to be kept hidden anymore.”

Lin Tianhao was not surprised. He also paid attention to the situation on the forum.

Indeed, some voices were saying some secrets about the Twilight of the Gods.

Obviously, someone wanted to break through this layer of window paper.

“What are you thinking?” Lin Tianhao asked.

Berserker Blade sighed, "The Joyful God Society has infiltrated all walks of life. We have currently defined the Joyful God Society as a cult and have begun to vigorously crack down on it."

“But because of the special nature of the Twilight of the Gods, we can't control their behavior in the Twilight of the Gods, especially... behind the Joyful God Society, there really is a god presiding over it.”

“You want me to help?” Lin Tianhao asked.

Berserker Blade nodded, "We want to destroy the Joyful God Society, but there are players and NPCs in the Joyful God Society. According to some clues we have found, the Vast Boundless Palace is supporting it behind the scenes."

Lin Tianhao understood.

Although Berserker Blade and the others were strong, let alone fighting against gods, just fighting against a Vast Boundless Palace was enough to give them a headache.

“Okay, you provide me with clues, and I will handle the rest. If it's a player, I will find a way to trap them and hand them over to you.”

“Okay.”

Berserker Blade looked at Lin Tianhao gratefully, "Snow Emperor, Boss, if we can solve the Joyful God Society, the higher-ups will not only stop suspecting you, but also increase your authority."

Lin Tianhao didn't care much. It wasn't enough yet.

Even if there were no members of the Joyful God Society interfering, it would be difficult for his identity to be promoted to the absolute core level by the officials.

“The Joyful God Society has a gathering at the Vast Boundless Palace tonight. The purpose of their gathering seems to be to discuss releasing a god. I don't know more information.”

Lin Tianhao understood in his heart, "Okay, I will go to the Vast Boundless Palace tonight."

The Vast Boundless Palace has a foundation and is also cooperating with the Joyful God Society.

Lin Tianhao also wanted to know what benefits the Joyful God Society could give the Vast Boundless Palace that would allow them to reach a cooperation.

The foundation of the Vast Boundless Palace was there, and they didn't seem to have the need to cooperate with the Joyful God Society.

Afternoon.

The second half of the semi-finals.

Xitu Temple vs. West Pole Temple.

The strength of the two forces seemed to be comparable, but judging from Yuan Xifu Yao's attitude before.

Xitu Temple seemed to have a very strong trump card, and it depended on whether Xitu Temple would reveal some trump cards in this game.

Under the auspices of Xiudeli · Haotu, the second half of the semi-finals officially began.

The people who played on behalf of Xitu Temple were still the same people who had played before. In the first three games, it was estimated that it would be difficult to see newcomers appear.

Chapter 520 - The purpose of Xitu Demigod!

But the next three matches surprised Lin Tianhao greatly.

Because in three consecutive matches, the Xitu Temple side won with an overwhelming advantage.

Moreover, they only used two people to win this time, exactly the same two people they used during the top four promotion match.

After Xitu Demigod achieved a crushing victory, her gaze fell on Lin Tianhao.

Obviously.

She already knew the outcome of the negotiation.

Lin Tianhao returned a smile, but didn't care too much.

The rewards for the Holy Land's New Talent Competition were very generous.

In addition, with his bet with Xiudeli Haohong, if he got first place, he would gain a lot of benefits.

But.

If he needed the other side to throw the match to achieve victory, then he didn't want that victory.

What's more.

The Vast Expanse Palace had already been defeated, so even if he didn't get the championship in the end, he wouldn't lose this bet.

Therefore.

Even if he really lost to Xitu Temple, Lin Tianhao could accept it.

Thinking like this.

Lin Tianhao sent a message to Kuangzhan Daofeng.

"Do you know if the Xitu Empire has had any recent actions? Especially if they've had any dealings with other Holy Lands."

These dealings between the Holy Lands were unlikely to be known even by Kuangzhan Daofeng.

It could only be said that he was trying anything, just in case Kuangzhan Daofeng knew something.

"Snow Emperor, it's really too difficult for someone at our level to come into contact with the Holy Lands."

"But you mentioned the Xitu Empire, I really do know some news about the Xitu Temple."

"Oh?"

Lin Tianhao's eyes lit up, the Xitu Temple was making quite a move, actually letting others know the news.

"What news?"

"The Xitu Temple is looking for the corpses of experts. Our people have previously received tasks from them to find the corpses of three Rank 9 experts."

Hearing this, Lin Tianhao was a little surprised.

What did the Xitu Temple want to do? They actually wanted to find the corpses of experts.

Could it be...

Did they have some method to revive the corpses of these experts?

Or perhaps.

Use some kind of evil technique to control the corpses of these experts.

However, with just this bit of information, it was impossible to determine the Xitu Empire's purpose in attacking the Moon Wheel Empire.

Was there something in the Moon Wheel Empire attracting the Xitu Empire?

Or were there other Holy Lands trying to revive by stepping on the Moon Wheel Empire?

After all, Putuo Tianlong had also looked for him before, wanting to work with Lin Tianhao to destroy the Moon Wheel Empire, so that the Holy Land behind him could revive.

Since Putuo Tianlong could have such thoughts, would other Holy Lands also have such thoughts?

In his previous life, the Shanhai Empire did not revive.

The Vast Expanse Continent was in a three-legged balance, and even if some Holy Land wanted to revive, it would be difficult to destroy a country to revive their own Holy Land.

But the revival of the Shanhai Empire broke the balance of the Vast Expanse Continent.

"It seems that after this Holy Land New Talent Competition, I need to go to the Corpse Mountain Blood Sea."

The information Lin Tianhao had learned before was that a powerful god was sealed in the Corpse Mountain Blood Sea of the Moon Wheel Empire.

If he could take him under his command, then he would have one more trump card.

Although it was now easier for him to find gods than before.

But there were very few gods who could be sent to the God Sealing List.

"Okay, I understand."

After replying to Kuangzhan Daofeng's message.

Xitu Demigod walked up to Lin Tianhao.

"Snow Emperor, if you don't mind, can we talk?"

Xiudeli Haohong was still here, and Xitu Demigod taking the initiative to talk to Lin Tianhao alone made Xiudeli Haohong a little unhappy.

Xiji Demigod chuckled, "Xitu Demigod, is there anything that we can't hear?"

"Could it be that you want Snow Emperor to secretly plot how to deal with us?"

Lin Tianhao's gaze swept over Xiji Demigod, and he said coldly: "Dealing with you doesn't require secret plotting."

"You—"

Xiji Demigod was a little exasperated, she stared at Lin Tianhao angrily, wishing she could swallow Lin Tianhao alive.

"Let's go, Xitu Demigod."

Lin Tianhao got up and left under the watchful eyes of everyone.

Xitu Demigod came to an empty lounge with Lin Tianhao.

"Speak, Xitu Demigod, what do you want from me?"

"Our Grand Elder has already talked to you, our request is still to attack together, but we can give you some other compensation, you can propose this compensation."

Lin Tianhao chuckled: "Then tell me first, why do you want to attack the Moon Wheel Empire."

"Looking at the current situation in the Vast Expanse Continent, it seems that everyone should be targeting our Shanhai Empire."

Xitu Demigod shook her head, "Is it useful to target you? You, the Lord of the Mortal Palace, are an adventurer, and I have already received news that you have entered the Godslayer Academy."

"Under such circumstances, we dare not touch you, so we can only take action against the Moon Wheel Empire."

Having said that.

Xitu Demigod changed the subject and continued to say:

"As for the purpose, you might not believe it if I tell you, our Xitu Temple wants to help another Holy Land revive."

Lin Tianhao frowned slightly, he had also guessed this.

But his intuition told Lin Tianhao that things were not that simple.

Xitu Demigod saw that Lin Tianhao didn't speak, she hesitated for a moment before continuing to say:

"There's nothing that can't be said, the Moon Wheel Demon Palace is not a righteous force after all, and the things they have done before have disappointed us to the extreme."

"Therefore, we need to find someone to replace them."

Lin Tianhao was slightly surprised, "Then you are really ruthless."

"This is not a question of ruthlessness, at our level, we certainly consider things more."

Xitu Demigod said meaningfully:

"If possible, I hope we can cooperate."

"Cooperate with you, and then revive a Holy Land to continue to oppose us?" Lin Tianhao asked.

Xitu Demigod smiled helplessly, "If you want to say that, I can't help it."

"But you should know that even if we don't cooperate, you will still attack the Moon Wheel Empire."

"When you attack the Moon Wheel Empire next time, we will send troops, the result is the same."

Lin Tianhao was silent, because Xitu Demigod was right.

He would eventually attack the Moon Wheel Empire.

Once he attacked, the Xitu Empire could steal his home from behind, thereby achieving their purpose.

"That's right, you can completely wait until I attack the Moon Wheel Empire next time before taking action, and even I don't need to know about this matter at all."

"You will take the initiative to seek cooperation, I think, you have other purposes."
